Those students who did not take PSAE prior to this school year and who are eligible to receive a regular high school diploma either immediately or through the end of the 2014-2015 school year AND who are not enrolled in a course teaching the standards of Algebra II, Math III or ELA III prior to their date of graduation, may be considered to receive a regular high school diploma at the discretion of the district.

To assist with making this possible, ISBE has removed the grade 11 programming in SIS (the Student Information System) to allow students who have not previously taken the PSAE to be eligible as grade 12. Rulemaking on the diploma requirement and State assessments is forthcoming.

COLLEGE ADMISSION REQUIREMENTS

Criteria for college admission vary greatly. The admission committees consider, to varying degrees, the following:

- Type of high school courses actually taken when compared to the courses available in the high school.
- Quality of the student's academic record.
- Performance on college admission tests – ACT & SAT.
- Development and maturity of the individual in areas outside the academic classroom

Courses	Highly Selective Colleges	Public University Colleges	Private 4-Year Colleges	Community and Public Colleges
English	4 years	4 years	4 years	Varies greatly from an open door admission policy to selective course requirements specifically required by the different departments.
Mathematics	4 years	4 years	4 years	
Science	4 years (lab)	3 years	3 years	
Social Studies	3-4 years	3 years	3 years	
Academic Electives	2 years	2 years	2 years	
World Languages*	4 years (one)	*	2-4 years	

Course requirements for entrance into four different types of colleges are listed above. The academic prerequisites typical of colleges in each of the categories listed may change from year to year and therefore, should be used only as general **minimum guidelines**. Specific information may be obtained from high school counselors, college profiles, websites and catalogs, computerized college software programs and college representatives who visit Hinsdale Central High School. Students should be aware of a definite return by colleges to their preference of a **traditional and classical college preparatory curriculum**. Narrowly defined, college preparatory courses are found in the following departments:

Art: *AP Art History, AP Studio Art	Science: Lab courses	Academic Electives: Business, Family & Consumer Sciences, Music, Technology Education, Technology Center of DuPage (TCD)
English: Literature and composition courses	Social Studies	
Mathematics: Computer Science is not generally accepted as a math credit.	World Languages	

**AP Art History and AP Studio Art are generally treated as acceptable college preparatory academic electives by most colleges.*

ADDITIONAL ACADEMIC OPPORTUNITIES

STATE OF ILLINOIS CONSUMER EDUCATION REQUIREMENT

Credit: 0.5

Students have the following options to satisfy the mandated graduation requirement:

1. **Consumer Economics**, course #6301, one semester, Business Department course, see [page 34](#).
2. **Economics**, course #2331, one semester, Social Studies Department course, see [page 88](#).
3. **AP Macro Economics**, course #2441, one semester, Social Studies Department course, see [page 89](#).
4. **AP Micro Economics**, course #2341, one semester, Social Studies Department course, see [page 89](#).
5. **Introduction to Family & Consumer Sciences**, course #6400, full year, Family & Consumer Science Department Course, see [page 49](#).
6. **Introduction to Business**, course #6100, full year, Business Department course, see [page 32](#).
7. **Special Education Related Instruction**: enrollment is determined by IEP recommendation.
8. **Consumer Education Online**, course #9101, one semester. Students who enroll in this online course will be supervised by a certified District 86 teacher. This course has the same objectives as the traditional semester-long Consumer Economics course #6301; the content is very similar. Communication between student and teacher will be primarily through the website and by email. Students who enroll in the online version will be required to attend an orientation session, to meet progress markers along the way, and to complete the course during the semester in which they are enrolled.

ACADEMIC LOAD

Students must be enrolled in a minimum of six (6) courses per semester.

REGISTRATION REQUIREMENTS

Hinsdale Central course recommendations are based upon evidence of normal progress and achievement in the student's previous school. Incoming freshmen are required to submit evidence of satisfactory completion of the 8th grade. Transcripts of credits earned and grade placement are required from the previous school for all students transferring from other secondary schools. Additionally, all students transferring from an Illinois public high school must obtain the ISBE student in good standing form from the previous school in order to register. Parents of transfer students must present a birth certificate for the student at the time of registration.

A student's grade-point average previously earned at a high school other than a high school in District 86 will be recalculated based on the grade-point average processes currently used in District 86. Transfer courses, grades earned and grade-point average will appear on the District 86 high school transcript exactly as they are titled on the sending school's transcript and will be indicated as transfer coursework. If the previous school assigned numerical grades, we will use their key to assign letter grades on the District 86 transcript. If no key is available, these courses will be recorded as "Pass" or "Fail". Transfer courses from schools outside of the United States may receive credit, but grades will be reflected as "Pass" or "Fail". A record of a health examination and immunizations at the 9th grade level is required by law. Students will not be allowed to attend school if this state requirement is not met. Incoming freshmen must have a physical performed prior to the purchase of books during the month of August, but *the preferred date of completion for the freshman physical is July 1*. In addition, all students participating in athletics must have a physical examination for each year in which they participate.

Additionally, transfer students and currently enrolled students requesting to transfer credit for a class from an accredited institution outside of HCHS, may be required to take a placement exam to ensure appropriate level of placement for a higher-level class. The Department Chair for the subject area will set a mastery level for the exam. If mastery is not obtained, then a student may need to repeat that course and credit will not be issued.

RESIDENCY

Pursuant to Hinsdale Township High School District 86 Board of Education Policy 7:50 and 7:60, every family must provide acceptable evidence of residency. One of the following documents is required for registration: a current real estate tax bill, mortgage papers, agreement of sale, or a signed lease agreement with student(s) listed as occupants. Two additional documents reflecting the current in-district address must also be presented to verify residency. Contact the registrar for more information on adequate proof of residency.

ADDITIONAL ACADEMIC OPPORTUNITIES

EARNING COURSE CREDITS

Credit in full year as well as semester courses is earned by semester. That is, students earn 1/2 unit of credit or 0.5 credit for successful completion of each semester. Credit is earned by successfully completing all course requirements as established by the teacher. Excessive absences may result in removal from a course and/or loss of credit.

ADDING A COURSE

Students may add a class to increase the number of attempted credits, provided that space is available and that there is minimal disruption to the student's schedule. This addition must be made by the end of the eighth school day. In order to add a course, a student must obtain signatures on an Add/Drop form from the parent/guardian, the department chair if required, and the student's counselor.

DROPPING A COURSE

Students may request to drop a course for a study hall only if they are enrolled in the maximum number of courses (seven) per semester and only after they have attended and participated in the course for three class periods. Students wishing to drop a course must first discuss it with their parents, teacher and counselor. After a parent/guardian signs the request to drop a course, the counselor and department chair will sign the request as well. A grade of "F" will be reflected on the transcript of a student who chooses to drop a course after the fourth week of a semester. Students enrolled in year-long courses will not be allowed to drop at the end of first semester unless it is recommended by the department.

LEVEL CHANGES

It is important that students choose their course loads very carefully, as the Master Schedule for the building is based off of these selections. Typically a student is required to stay in a course for an entire quarter before the school will honor a request to change the level of coursework. If a request to move course levels is granted, the grade as of the day of the course change will follow the student to the next class.

Students wishing to initiate a level change within the same department must complete the add/drop form and obtain all required signatures (parent/guardian, teacher, department chair, counselor).

COURSE REQUESTS

Each spring Hinsdale Central works to create a schedule of classes for the following academic year that best meets the needs of our students, while still staying within the parameters of staffing requirements (i.e. number of teachers, class size, teaching schedules, state and federal mandates). We work very hard to accommodate student requests; however, due to the complexity of the scheduling process, sometimes student schedules may need to be adjusted. Please keep in mind that changes in course requests or class assignments will not be accepted for any of the following reasons:

- to accommodate a job schedule
- to change teachers
- to change lunches or classes to be with friends
- to have first or last period free
- to accommodate a change of mind

Acceptable reasons for schedule changes may include:

- computer input error
- scheduling conflicts
- failure or near failure in a second semester or year course
- failure to meet a pre-requisite for a course
- department chair or counseling director recommendation
- successful completion of a summer school class

Once a school year begins, schedule changes are permitted only if they meet one of the following conditions.

ADDITIONAL ACADEMIC OPPORTUNITIES

REPEATING COURSES

A course may be repeated for credit only when a student has previously received a “D” or an “F.” Both the grade received and the credit earned for repeating the course, as well as the original grade and credit received in the course, will be used in computing the student’s grade point average. The student’s transcript will indicate the first grade and credit earned, as well as the second grade and credit earned. However, the credit received for repeating the course will not count toward satisfying graduation requirements unless the student failed the course.

HONOR ROLL AND WEIGHTED GRADES

Grades earned in all courses, exclusive of Physical Education, Driver Education, and Student Aide will be used to calculate a student’s grade point average (GPA) according to the following grade point system.

Grade	Honors	Regular
A	6	5
B	5	4
C	4	3
D	2	2
F	1	1
WF	1	1

Dean’s List and Honor Roll designation will be determined by the following criteria:

Honor Roll

- 4.0 grade point average
- No grade in any course below a “D”

Dean’s List

- 4.5 grade point average
- No grade in any course below a “C”

Dean’s List and Honor roll are based on quarter grades, not semester grades. Thus there are four Honor Rolls and Deans’ Lists per year; one each quarter. Incomplete grades are not accepted, and a minimum of four (4) credit-earning courses are needed to qualify for either list.

JUNIOR HIGH/MIDDLE SCHOOL STUDENTS

Junior high schools that feed into District 86 unable to offer advanced coursework for their students may send their students to District 86 for those courses. In these cases, all courses, grades and credit earned will appear on the transcript but will not be calculated into the grade point average earned in subsequent years at a high school in District 86. If the course is taken at Hinsdale South High School and the student attends Hinsdale Central High School, the course, grades, and credit earned will appear as transfer credit. If the course is taken at the District 86 school the student attends, the course, grades, and credit earned will appear as regular credit.

AUDITING COURSES

Only under unusual circumstances will a request to audit a course be considered:

1. When a student has previous credit in a subject they may request to audit the course.
2. When a student wishes to audit a course they have not previously taken, they may request to audit the course. In this case, they may not take the course for credit at a later time.

In both circumstances, requests to audit will be considered only if space is available in the course. Students assume all responsibility of a regular class member, but receive no grade or credit. All requests to audit a course must have administrative approval prior to the first day of class at the latest, but preferably at the time of February registration. Students interested in auditing a course must complete the form, Request to Audit a Class, which may be obtained from the student’s counselor and approved by the Director of Counseling.

ADDITIONAL ACADEMIC OPPORTUNITIES

INDEPENDENT STUDY

Independent Study options may be provided for motivated and mature students who have exhausted the course options of a particular course or field of study. Independent Study courses are initiated on a case-by-case basis through any faculty member and are subject to the approval of the relevant department chairperson, the student's counselor, and the Assistant Principal for Curriculum & Instruction. Upon the approval of all of the aforementioned, final approval is contingent upon the workload of the teacher involved.

INCOMPLETE GRADES

An Incomplete represents work not completed by the end of the quarter. Incompletes are given only in extraordinary circumstances. This work must be made up within the first two weeks of the following quarter and the Incomplete changed to a grade or a failure. If the work is not made up by the end of the 2-week period, the grade will be changed to an "F." An Incomplete will prevent eligibility for Honor Roll.

REGISTRATION PROCEDURES

Students should review the four-year planning guide on [page 116](#) and choose courses that will fulfill graduation requirements and build on the student's strengths, interests and abilities. Students will discuss course recommendations with each of their current teachers and, if there is a need for departmental approval, they should obtain the signature of the Department Chair for that course. Following the recommendation discussions with teachers, students will have an individual appointment with their counselor to review and approve their course selections. Students and parents will be able to view their course requests in Home Access Center throughout the month of February. Courses are scheduled on the basis of your requests. Questions concerning registration procedures and course selections should be directed to your counselor. *Course Request Forms are available through the Counseling Department.*

ATTENDANCE POLICY

The attendance policy at Hinsdale Central requires that parents call the attendance office **ON THE DAY OF THE ABSENCE** to report their student absent from school on any given day at **(630) 570-8090**. Prearranged absences may be called in prior to the day of the absence and a green prearranged absence form must be completed. Students are expected to attend class on a daily basis and should be aware that attendance is part of his/her evaluation in each class. Students are responsible for all work missed due to an absence. Excessive absences will be handled by the administration and guidance staff and require a parent conference.

MINIMUM ATTENDANCE REQUIREMENT

School Code of Illinois, Section 18-8, requires that all students must be in attendance, exclusive of lunch and passing time, for a minimum of 300 minutes. This necessitates all students attending school for at least six (6) periods a day.

STUDENT SCHEDULES

Full year courses are usually designated by 4-digit course codes ending in "0" or "5." Semester courses are primarily designated by numbers ending in "1" (first semester) or "2" (second semester) and may be scheduled either first or second semester. Student schedules are generated by computer and do not allow the student to select a course by semester. Requests are entered but not guaranteed.

R-RATED FILMS OR CLIPS

If R-rated movies or clips from R-rated movies will be used in instruction in any course, a list of those movies will be made available at the time of registration through each department and online. Written permission must be obtained by a parent at the beginning of any course showing R-rated movies or clips from R-rated movies to allow students to view in whole or in part the R-rated movies associated with the class.

ADDITIONAL ACADEMIC OPPORTUNITIES

WORLD LANGUAGE PROFICIENCY CREDIT

Per policy 6:320, a student is eligible to receive one year of foreign language credit if the student has graduated from an accredited elementary school and can demonstrate proficiency, according to this District's academic criteria, in a language other than English. A student who demonstrates proficiency in American Sign Language is deemed proficient in a foreign language and will receive one year of foreign language credit. A student who studied a foreign language in an approved ethnic school program is eligible to receive appropriate credit according to the level of proficiency reached; the student may be required to take a proficiency examination.

PHYSICAL EDUCATION EXEMPTIONS

Per policy 6:310, a student in grades 9-12, unless otherwise stated, may submit a written request to the Building Principal to be excused from physical education courses for the reasons stated below. The Superintendent or designee shall maintain records showing that the criteria set forth in this policy were applied to the student's individual circumstances.

1. For students in grades 11-12, ongoing participation in an interscholastic athletic program as recognized by IHSA.
2. For students in grades 11-12, to enroll in academic classes which are required for graduation from high school, provided that failure to take such classes will result in the pupil being unable to graduate.
3. For ongoing participation in a Marching Band program for credit.

Exemption from Physical Education for interscholastic athletes or Marching Band members (Items 1 and 3 above) is for the participation season only. A request for enrollment in specific courses (Item 2 above) is for the length of the approved course(s). The decision to exempt a student from Physical Education for any of the above stated reasons shall not be automatic and shall be made on an individual basis. All requests must be in writing signed by the student and the student's parent or guardian. All requests will be verified by the Building Principal or designated administrator.

Students in grades 11-12 who desire an exemption from Physical Education in order to enroll in an academic class or classes required for admission to the college(s) or university(ies) of their choice, may submit an application for Physical Education exemption to their counselor (for purposes of advice, but not consent) with a form of parental consent for students under eighteen years of age, and documented substantiation of the prerequisite secondary courses required for admittance to the post-secondary institution to which said student intends to apply. The application form should detail the course(s) that will be substituted for Physical Education, as well as a rationale why that course cannot be taken unless the Physical Education exemption is granted. Within one week of submission to said counselor, the building principal will approve or disapprove the request and notify the student immediately in writing. Building principals shall allow exemption requests unless the requester's rationale clearly fails statutory or District-policy requirements. Any rejection by the building principal shall be supported by written rationale and notice that an appeal may be filed with the office of the Superintendent.

A student requiring adapted physical education must receive that service in accordance with the student's Individualized Educational Program/Plan (IEP).

A student who is eligible for special education may be excused from physical education courses when:

1. He or she is in grades 9-12, and his or her IEP requires that special education support and services be provided during physical education time, and the student's parent/guardian agrees or the IEP team makes the determination;
2. He or she has an IEP and is participating in an adaptive athletic program outside of the school setting, and the parent/guardian documents the student's participation as required by the Superintendent or designee.

ADDITIONAL ACADEMIC OPPORTUNITIES

SPECIAL EDUCATION PROGRAM OVERVIEW

The Special Education Department provides a full continuum of services and supports designed to meet the Individual Education Program (IEP) needs of students. Students in need of special education services can receive instruction and programming through one or more of the following approaches:

- academic accommodations within the regular education classrooms,
- structured assistance within the regular education classrooms through co-taught supports,
- structured assistance outside the regular class through consultation services,
- related services, and
- direct instruction in specialized course offerings

All of the courses below meet the HCHS graduation requirements:

Course Title	Course #	Credit	Grade Offered	Page Number
English 1	1810	1.0	9	<u>38</u>
English 2	1820	1.0	10	<u>38</u>
English 3	1830	1.0	11	<u>38</u>

** May be taken more than once for credit (maximum 4.0 credits)				

ADDITIONAL ACADEMIC OPPORTUNITIES

<p>ACADEMIC CENTER RESOURCE <i>Course # 9920, 9924</i> Full year Credit: NC</p>	<p>Academic Center Resource is for students who are self-motivated, well organized, and can demonstrate excellent self-advocacy skills. Students are self-directed learners who can identify strengths/challenges and have developed the necessary compensatory skills to allow them to be successful in the academic school setting. The Academic Center provides students with opportunities for support across curriculum subjects in a structured setting. Students may also seek out departmental support/resources, schedule guidance appointments, and make up any tests/quizzes during this period.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>STUDY SKILLS FOUNDATIONS <i>Course # 2080</i> Full year Credit: 1.0</p>	<p>Students will explore essential aspects of academic, organizational and social skills that can be generalized in various facets of daily life. Emphasis will be placed on decision-making and behavior expectations, time management, use of classroom and school resources, and self-advocacy. Community outings are also a component of this class.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>STUDY SKILLS 1 <i>Course # 1951, 1952</i> Full year Credit: 0.5</p>	<p>Study Skills 1 is a freshman-level class. Students enroll in study skills based upon a teacher's recommendation. Study Skills 1 targets the skills required for a successful transition into the high school experience. These include organization, time management, long term planning, listening skills, memory skills, and test preparation skills. Study skills 1 also serves as a period where students may complete assessments and/or consult with other school staff to meet their individual needs.</p> <p>Prerequisite: Department Chair approval. Open to grade 9.</p>
<p>STUDY SKILLS 2 <i>Course # 1956, 1957</i> Full year Credit: 0.5</p>	<p>Study Skills 2 is a sophomore-level class. The course addresses the maintenance of study skills such as effective note-taking and test preparation skills. It also begins to look into research skills that students will need to investigate post-secondary employment or academic/ vocational programs. In addition, Study Skills 2 serves as a period in which students may complete assessments or consult with other school staff to meet their individual needs.</p> <p>Prerequisite: Department Chair approval. Open to grade 10.</p>
<p>LEARNING STRATEGIES 1 <i>Course # 1958, 1959</i> Full year Credit: 0.5</p>	<p>Learning Strategies 1 is a junior-level class. Students are enrolled in this class based upon a teacher's recommendation. This class supports students with their study strategies and executive functioning skills. The course also prepares students for any upcoming assessments through academic content review and effective test taking strategies. Additionally, students may use their learning strategies class time to complete classroom assessments and to seek out support from other academic departments. A final component to Learning Strategies is to continue the process of post-secondary planning.</p> <p>Prerequisite: Department Chair approval. Open to grade 11.</p>
<p>LEARNING STRATEGIES 2 <i>Course # 1961, 1962</i> Full year Credit: 0.5</p>	<p>Learning Strategies 2 is a senior-level class. Students are enrolled in this class based upon a teacher's recommendation. This class supports students with their study strategies and executive functioning skills. This course also prepares students for any upcoming assessments through academic content review and effective test taking strategies. Additionally, students may use their learning strategies class time to complete classroom assessments and to seek out support from other academic departments. A final component to Learning Strategies is to continue the process of post-secondary planning.</p> <p>Prerequisite: Department Chair approval. Open to grade 12.</p>

ADDITIONAL ACADEMIC OPPORTUNITIES

<p>PROGRAM SUCCESS Course # 1956A, 1957A Full year Credit: 0.5</p>	<p>Program Success provides students time in their day to get additional support with their academic course work and provides students an opportunity to process interactions that have occurred which are having an impact on the student. In addition, arrangements can be made to provide students with academic instruction in a small setting. This instructional arrangement may be necessary for a short duration while new interventions are planned. Program Success also serves as a time when students can communicate with staff, or complete assessments.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>HAVEN Course # 9701/9702 Credit: No Credit</p> <p><i>This is a District 86 program housed at Hinsdale South High School</i></p>	<p>The District 86 therapeutic program, HAVEN, is for students whose behavioral and emotional needs impede and/or significantly disrupts the learning environment for other students despite learning environment supports attempted. The goal is to provide students with developmentally appropriate Pro-Social Independence. The program is designed to assess the level of pro-social independence of each student and to devise strategies, interventions and experiences that help the student build their capacity to become increasingly independent and successful in a school setting. Students will engage in academic course work in order to meet District 86 requirements toward graduation. These supports are provided to students a small class setting in order to ensure that their academic and social goals are being met. <i>HAVEN is an acronym for Hinsdale Area's Vision of Emotional Needs.</i></p> <p>Prerequisite: IEP Team recommendation and Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>PRE-VOC FOUNDATIONS Course # 2100 Full year Credit: 1.0</p>	<p>This course explores essential skills related to employment. Emphasis will be placed on hands on in school job training, entry level workplace skill development which may include: following a schedule, time management, efficiency, responsibility, work etiquette, following directions and communicating with co-workers and supervisors.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>ELECTIVE FOUNDATIONS Course # 2060 Full year Credit: 1.0</p>	<p>Through cooperative games and leisure activities, students will explore essential components of self-awareness & self-management, social-awareness, interpersonal skills, and decision-making.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>COOPERATIVE WORK TRAINING Course # 1931, 1932 Full year Credit: 0.5/semester</p>	<p>This course explores obtaining and maintaining a part time paid position in the community. Students enrolled in this class are actively looking or are currently working at a part time job. This class meets once a week during a study hall period to address job application completion and job retention. Seminars are offered throughout the course to address employment topics such as career exploration, understanding your paycheck, conflict resolution, resume and cover letter development, interviewing skill development.</p> <p>Prerequisite: Department Chair approval. Open to grades 10, 11, and 12.</p>
<p>PRE-VOCATIONAL SUPERVISED JOB TRAINING Course # 1941, 1942 Full year Credit: 0.5/semester</p>	<p>This course explores more in-depth application and practice in both in-school and community based job training, as identified based on individual goals. This class emphasizes career exploration & planning, job application, job search, interviewing, resume development, cover letters, and continued development on communication skills.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>

ADDITIONAL ACADEMIC OPPORTUNITIES

<p>ADULT OPPORTUNITIES Course # 2930 Credit: No credit</p> <p><i>This is a District 86 program offered at the Transition Center.</i></p>	<p>Adult Opportunities is a Community-Based Program for students ages 18-21. The purpose of the program is to implement an innovative, adult-centered community program through a collaborative approach that prepares students for adulthood success while promoting opportunities for independence in the areas of: employment, post-secondary education and training, independent living skills, and community.</p> <p>The goals of the Adult Opportunities program are to: increase independence in adult living situations; improve self-determination skills; improve social and communication skills; increase leisure, recreation, and life skills; experience work-based learning and volunteer work; and prepare for community living and participation.</p> <p>Prerequisite: Teacher recommendation and Department Chair approval. Open to post 12th grade, ages 18-21.</p>
--	---

SEAL OF BILITERACY

Students who demonstrate proficiency in both English and another language may qualify to earn a Seal of Biliteracy on their transcripts. Students should ask their counselor for more information regarding how to earn this distinction.

ARTICULATED CREDIT AND DUAL CREDIT AT THE COLLEGE OF DUPAGE

The College of DuPage awards articulated or dual credit when learning experiences at the secondary level of instruction duplicate those at the post-secondary level. These programs enable students to save time and avoid duplication of material already learned in high school. Articulated credits are only applicable to the College of DuPage while dual credits can be accepted at any college or university that accepts transfer credits. Students may request a transcript from C.O.D. with these courses listed after the end of the semester.

College of DuPage	Hinsdale Central	C.O.D. Credits
Photography	Basic and Digital Color Photography	5
Accounting	Accounting and Accounting Honors	3
Earth Science	Earth Science Honors	3

ADVANCED PLACEMENT PROGRAM

The Advanced Placement (AP) Program provides students with the opportunity to pursue college-level studies while still in high school and to receive advanced placement and/or credit when entering college. Qualified, academically-oriented students in the 10th, 11th and 12th grades are eligible to participate in the Advanced Placement Program at Hinsdale Central High School.

The Advanced Placement Program at Hinsdale Central High School consists of the following courses:

AP Art History	AP Calculus AB	AP Physics 1
AP Studio Art	AP Calculus BC	AP Physics 2
AP Language & Composition	AP Computer Science Principles	AP Physics C
AP Literature & Composition	AP Computer Science A	AP Seminar: Science
AP French Language	AP Statistics	AP European History
AP German Language*	AP Music Theory	AP Microeconomics
AP Latin Vergil	AP Biology	AP Macroeconomics
AP Spanish Language	AP Chemistry	AP Psychology
AP Spanish Literature	AP Environmental Science	AP U.S. Government & Politics
		AP U.S. History

* Upon completion of German 4H, students may take the AP German language exam.

* Upon completion of World History Honors, students may take the World History AP exam

ADDITIONAL ACADEMIC OPPORTUNITIES

DEPARTMENTS

Advanced Placement courses are offered by seven departments: Art, English, Mathematics, Music, Science, Social Studies, and World Languages. These courses adhere to College Board approved course descriptions and serve as the primary vehicle to prepare students for the voluntary AP examinations in May. In addition to preparing students for the AP exams, AP courses allow students to experience the pace and intensity of college-level courses while still in high school. Some AP courses may explore opportunities for students to work in teams on interdisciplinary themes or projects. Such activities would be designed to provide students the opportunity to solve real-world problems across AP subject areas. The AP courses are challenging and stimulating, require more work and more time than other high school courses.

EXAMINATIONS

The Advanced Placement examinations are administered each year during the second and third weeks of May and can be described as “tough, but fair.” Usually three hours in length, each exam consists of a multiple choice section and free-response section that requires essay writing or problem solving. Every examination receives an overall grade from a team of carefully selected college professors and high school AP teachers on a five-point scale: 5 (extremely well qualified), 4 (well qualified), 3 (qualified), 2 (possibly qualified), and 1 (no recommendation). An AP Grade Report is obtainable online in July to each student, the high school, and if the student requests it, to the college. Unless recommended by the teacher not to do so, all enrolled AP students are expected to take their course ending examinations. For practice tests – check out apstudent.collegeboard.com.

CREDIT

Although each college determines what AP examination grades it will accept for credit and/or advanced placement, the great majority of colleges accept grades of 3 or better and award the student with credit in the subject matter tested. In some cases, no credit is given, but the student may begin the program of study at an advanced level. Students wanting to know what AP grades are considered acceptable by the colleges in which they are interested should write the Director of Admissions of the college or consult with the Director of Counseling at Hinsdale Central. For more information, check out apstudent.collegeboard.com.

FEES

Last year’s fee for each AP exam as established by the College Board was \$92 with an additional \$45 per exam late-testing fee. For schools participating in AP Capstone in 2016-17, there will be an additional fee for the class.

HONORS PROGRAM

In the Art, Business, English, Mathematics, Music, Science, Social Studies, and World Languages departments, particular courses are designated as honors courses. Honors courses are designed to challenge students of superior ability by enriching and/or accelerating the course content and have standards of high achievement distinctly above those of regular courses. Instruction in honors courses occurs at a faster pace, covers the subject matter in more depth and emphasizes higher level thinking skills.

Honors Option courses are offered by Art, Business, Family and Consumer Sciences, and Technology Education. The courses allow students to experience a more intense curriculum, higher expectations and greater responsibilities. These courses are challenging and will require more work and time than other high school courses. Admission to the Honors Option courses is based upon a student’s application and departmental approval.

SERVICE CREDITS

Credit: 0.25

Students may elect to serve as a Student Aide during the school year for the following areas: Art, Athletics, Audio Visual, Family & Consumer Sciences, ELL, Counseling, Library, Nurse, Dean’s Office, Publications, Science, Technology Education or Student Activities. The credits earned as an Aide count as service credit. Students may elect to serve as an Aide for one or both semesters. They may, however, hold only one Aide position per semester. A 0.25 credit will be granted for each semester. This can be counted toward graduation as a service credit and will be graded on a pass-fail basis.

ALTERNATIVE COURSES

E-learning, correspondence, or college courses may be counted toward graduation if they meet certain requirements. Prior written approval from the Director of Counseling is required. Such courses must be from an accredited institution and include at least 60 seat hours. The student assumes responsibility for all fees. After completing an alternative course, proof of mastery of material may be required before enrolling in an advanced course. Only one online class per semester and two online classes during the summer are approved. Courses will appear on a student’s transcript as transfer credit and will be calculated into their GPA.

HONORS/AP SEQUENCING

Admission to the honors program is based upon several established selection criteria:

- Teacher recommendation
- Results of the 8th grade placement test
- Past academic performance
- Departmental approval

Students with superior ability, a commitment to the subject matter and motivation to learn are encouraged to apply for admission to the honors program.

EXCEL STUDY HALLS

Course # 1020, 1024, 1027, 1028 Credit: 0.50

Excel is designed as an academic support program. Students assigned to the Excel Study Hall will attend every day during their scheduled period and will continue to receive these services until all grades earned are at a C level or above for two consecutive quarters at which point they can transfer into a regular study hall. Excel Study Hall is an academic program where students meet in a supportive environment to receive assistance. The Excel Study Hall staff members consult with classroom teachers and parents to help improve each student’s achievement in courses. A 0.5 credit is earned per semester for successful participation in this program. Student support in the areas of organizational skills, study skills, and homework completion will be available and structured with each program. Prerequisite: None. Open to grades 9, 10, 11, and 12. May be repeated.

ART DEPARTMENT

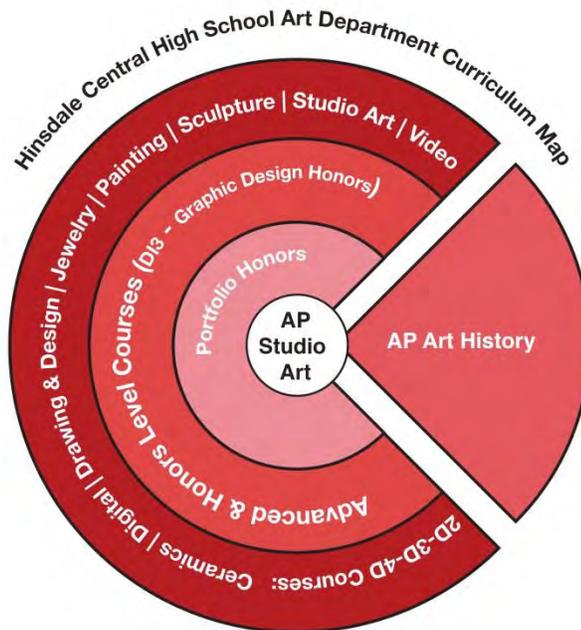

ART

High School District 86 requires the successful completion of two Elective Arts credits. Two fine arts credits fulfill the Illinois state public university entrance requirement in Art, Music or vocation education. Within the Hinsdale Central art department, students use media, tools, and technologies to make personal work. As a result, students become problem-solvers and creative thinkers. Student work is displayed throughout the school and community on a continuing basis. Supply fees are required for participation in studio courses.

MISSION STATEMENT

The artistic, intellectual, and personal development of young people, through the visual arts, is the goal of the Hinsdale Central Art Department. We, the art faculty, as mentors, coaches, jurors, and artists, are committed to creating a challenging, authentic, and caring creative environment. We will actively involve students with the visual arts through theory and practice. We will challenge students to develop awareness of excellence and the role of art in human life and culture.

ART DEPARTMENT

<p>STUDIO ART <i>Course # 5101, 5102</i> 1st or 2nd semester Credit: 0.5</p>	<p>Studio Art is the only course at Central in which introductory students can experiment in a variety of materials. You will explore fundamental aspects of design, drawing, painting, jewelry, mixed media, and sculpture. Emphasis will be placed on creativity, craftsmanship, and problem solving.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12. Supply Fee: \$20.00.</p>
<p>STUDIO ART HONORS <i>Course # 5101A, 5102A</i> 1st or 2nd semester Credit: 0.5</p>	<p>Studio Art Honors is an opportunity for students who are highly motivated and serious about their study of art at Central. Studio Art is the only departmental course that explores a variety of materials. You will explore fundamental aspects of design, drawing, painting, jewelry, mixed media, and sculpture. Emphasis will be placed on creativity, craftsmanship, and problem solving. Honors students are required to keep a journal, visit museums and galleries and enter competitions outside of class to improve and expand their artwork.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester; for more information: http://central.hinsdale86.org/departments/art/Pages/default.aspx Open to grades 9, 10, 11, and 12. Supply Fee: \$20.00.</p>
<p>DRAWING & DESIGN <i>Course # 5211, 5212</i> 1st or 2nd semester Credit: 0.5</p>	<p>Drawing & Design is a beginning through intermediate level drawing course. You'll learn basic drawing skills and work with pastel, charcoal, pencil, and pen. Projects will challenge your creativity whether you are a novice or experienced artist.</p> <p>Prerequisite: Studio Art is highly recommended. Open to grades 9, 10, 11, and 12. Supply Fee \$20.00.</p>
<p>ADVANCED DRAWING & DESIGN <i>Course # 5221, 5222</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Drawing & Design continues to develop skills learned in Drawing class. Further exploration of drawing mediums and creative themes will be stressed. The course is geared towards the drawing student.</p> <p>Prerequisite: Drawing & Design (5211). Open to grades 9, 10, 11, and 12. Supply Fee: \$17.00.</p>
<p>ADVANCED DRAWING & DESIGN HONORS <i>Course # 5223, 5224</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Drawing & Design Honors is geared towards the serious, more experienced and highly motivated drawing student. Students are required to keep a journal, visit museums and galleries and enter competitions outside of class.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester; for more information: http://central.hinsdale86.org/departments/art/Pages/default.aspx Open to grades 9, 10, 11, and 12. Supply Fee: \$17.00.</p>
<p>PAINTING <i>Course # 5311, 5312</i> 1st or 2nd semester Credit: 0.5</p>	<p>Painting is a class about thinking like a painter. Work in acrylics, watercolor, and oil paint; the course will expose you to many types of painting. Although it is challenging, the course is really fun.</p> <p>Prerequisite: Studio Art is highly recommended. Open to grades 9, 10, 11, and 12. Supply Fee: \$20.00.</p>
<p>ADVANCED PAINTING <i>Course # 5321, 5322</i> 1st or 2nd semester Credit: 0.5</p>	<p>In this class, you create a series of paintings based on your own theme. Advanced painters also do a few exercises that allow you to try a new strategy or skill. This course gives students more freedom to determine a personal style and make design choices.</p> <p>Prerequisite: Painting (5311). Open to grades 9, 10, 11, and 12. Supply Fee: \$20.00.</p>
<p>ADVANCED PAINTING HONORS <i>Course # 5323, 5324</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Painting Honors is geared towards the serious, more experienced and highly motivated painting student. Students are required to keep a journal, visit museums and galleries and enter competitions outside of class.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester; for more information: http://central.hinsdale86.org/departments/art/Pages/default.aspx Open to grades 9, 10, 11, and 12. Supply Fee: \$20.00.</p>

ART DEPARTMENT

<p>JEWELRY / METAL SMITHING <i>Course # 5351, 5352</i> 1st or 2nd semester Credit: 0.5</p>	<p>Jewelry/Metal smithing is a fun and challenging course. You will create small and wearable sculptures from a variety of metals. Glass is also explored through enameling, glass fusing, and glass bead-making. Develop your creative thinking and your fine motor skills (calling all future surgeons and dentists).</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12. Supply Fee: \$21.00.</p>
<p>ADVANCED JEWELRY / METAL SMITHING <i>Course # 5361, 5362</i> 1st or 2nd semester Credit: 0.5</p>	<p>This concentration enables students to explore the potential of jewelry as a communication tool. You will explore a variety of materials and methods with a focus on body adornment and development of themes. Advanced Jewelry and Metal smithing will focus on the development of independent thinking and personal expression. Creative exploration is the key.</p> <p>Prerequisite: Jewelry/Metal Smithing (5351). Open to grades 9, 10, 11, and 12. Supply Fee: \$21.00.</p>
<p>ADVANCED JEWELRY / METAL SMITHING HONORS <i>Course # 5363, 5364</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Jewelry and Metal smithing Honors is geared towards the serious, more experienced and highly motivated jewelry student. Students are required to keep a journal, visit museums and galleries and enter competitions outside of class.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester; for more information: http://central.hinsdale86.org/departments/art/Pages/default.aspx. Open to grades 9, 10, 11, and 12. Supply Fee: \$21.00.</p>
<p>CERAMICS / CLAY SCULPTURE <i>Course # 5421, 5422</i> 1st or 2nd semester Credit: 0.5</p>	<p>Ceramics is an introduction to the basic techniques including hand building, wheel throwing, and glazing. Students will produce both functional and sculptural projects with an emphasis on creativity.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12. Supply Fee: \$17.00.</p>
<p>ADVANCED CERAMICS <i>Course # 5431, 5432</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced hand building and glazing techniques will also be covered. Emphasis is placed on individual exploration of the potter's wheel and larger hand-built forms. Personal awareness of form, content, and design will be explored. Improve upon and expand what you can do with clay in this class.</p> <p>Prerequisite: 5421. Open to grades 9, 10, 11, and 12. Supply Fee: \$17.00.</p>
<p>ADVANCED CERAMICS HONORS <i>Course # 5433, 5434</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Ceramics/Clay Sculpture Honors is geared towards the serious, more experienced and highly motivated ceramics student. Students are required to keep a journal, visit museums and galleries and enter competitions outside of class.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester; for more information: http://central.hinsdale86.org/departments/art/Pages/default.aspx. Open to grades 9, 10, 11, and 12. Supply Fee \$17.00.</p>
<p>SCULPTURE <i>Course # 5441, 5442</i> 1st or 2nd semester Credit: 0.5</p>	<p>In this studio course, students will explore and develop three dimensional designs. Glass, clay, fiber, metals and found objects are some of the materials that will be used. Weld, build, and create in 3-D.</p> <p>Prerequisite: One semester of Art. Open to grades 9, 10, 11, and 12. Supply Fee \$17.00.</p>

ART DEPARTMENT

<p>DIGITAL IMAGING 1 <i>Course # 5121, 5122</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed for students who want to create art on the computer. Artistic and creative problem solving strategies are developed which can help students in all areas of learning. Students take their own digital photographs. Each student will use these images to create original works of art using the software Adobe Photoshop CS5. Students will create a cartoon in Adobe Illustrator CS5 and a digital portfolio is created on a web interface. Software is MAC OS 10.5 or higher. Digital Imaging 1 introduces students to many different tools in Adobe Photoshop and Illustrator while working on your own digital images. Use your imagination to take and manipulate digital photographs. If you want to pursue a career in graphics, illustration, or another design field, this course is perfect.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12. Supply Fee \$17.00</p>
<p>DIGITAL IMAGING 2 <i>Course # 5131, 5132</i> 2nd semester Credit: 0.5</p>	<p>Further explore and develop your skills in Adobe Photoshop and Illustrator. While enhancing your skills, you will work independently on your chosen theme. Major projects are self-directed and flow from your imagination and motivation.</p> <p>Prerequisite: Digital Imaging 1 (5121). Open to grades 9, 10, 11, and 12. Supply Fee: \$17.00</p>
<p>GRAPHIC DESIGN <i>Course # 5331, 5332</i> 1st or 2nd semester Credit: 0.5</p>	<p>Dreaming of a career as a Graphic Designer, Art Director, Animator, or other design field? Using Photoshop, InDesign and Illustrator, you will solve design projects for real-client directed design challenges in addition to class design challenges. Working knowledge of Adobe Photoshop CS3, Adobe Illustrator CS3, and Adobe InDesign will be needed. Software is MAC OS 10.5 or higher.</p> <p>Prerequisite: Digital Imaging 1 (5121). Open to grades 9, 10, 11, and 12. Supply Fee: \$17.00</p>
<p>GRAPHIC DESIGN HONORS <i>Course # 5335, 5336</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is recommended for students who are interested in working as a design-creative or art director. Using Photoshop, InDesign and Illustrator, you will solve real-client directed design challenges, in addition to, class design challenges. Honors students are expected to keep a formal journal, attend a workshop outside of class, in addition to class projects.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester; for more information: http://central.hinsdale86.org/departments/art/Pages/default.aspx. Open to grades 9, 10, 11, and 12. Supply Fee: \$17.00.</p>
<p>DIGITAL VIDEO ART <i>Course # 5475, 5476</i> 1st or 2nd semester Credit: 0.5</p>	<p>Digital Video Art introduces you to the 4th dimension, TIME. Be creative using digital video techniques or combine moving images with still images. Visual experimentation is encouraged through directing, producing, editing, sound design, screenwriting and videography. Students will work independently and collaboratively to develop their short films. Final Cut Pro and After Effects software will be used for post-production. Students will be encouraged to enter video competitions.</p> <p>Prerequisite: None, but Digital Imaging is recommended. Open to grades 9, 10, 11, and 12. Supply Fee: \$17.00.</p>
<p>HONORS PORTFOLIO <i>Course # 5473, 5474</i> 1st or 2nd semester Credit: 0.5 (may be repeated twice)</p>	<p>Students will create a body of artwork based on a personal exploration of a central theme or idea. This body of work represents the results of rigorous research, planning and problem-solving. Each student is required to create a reference manual that combines multiple explorations of a variety of media. The work produced in this course may be used as part of the Advanced Placement Art Portfolio. Honors students are expected to keep a formal journal, attend a workshop outside of class, in addition to class projects. The work produced in this course may be used as part of the Advanced Placement Art Portfolio.</p> <p>Prerequisite: Advanced level course. Portfolio review with Department Chair approval. Open to grades 11 and 12. Supply Fee: \$20.00.</p>

ART DEPARTMENT

<p>ADVANCED PLACEMENT ART HISTORY <i>Course # 5440</i> Full Year Credit: 1.0</p>	<p>This course provides a survey of the history of art. It is designed to prepare students to take the Advanced Placement examination. Methods of analyzing and evaluating works of art will be introduced. Students enrolling in this course are expected to have well developed writing skills and an interest in art and culture. By viewing art from different periods and cultures, you will have a better understanding of world history. You'll be able to travel and wonder through museums with an understanding of what you are seeing. Memorization of facts, understanding of larger concepts, and a love of writing will help you. We also go out to view art, occasionally work with art materials, and develop more creative responses to the art and architecture we study. As a result of this class, you will enjoy and view the world differently.</p> <p>Prerequisite: Department Chair approval. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>
<p>ADVANCED PLACEMENT STUDIO ART <i>Course # 5450</i> Full year Credit: 1.0</p>	<p>This course provides accelerated students with a challenging program of college-level studio work. Prior to the end of the academic year, a portfolio of approximately 44-46 pieces will be submitted to the College Board for evaluation and possible college credit. The AP Program offers three portfolios: Drawing (painting, printmaking, drawing), 2-D Design (photography, graphic design, product design), and 3-D Design (jewelry, ceramics, sculpture). AP Studio is work-intensive, serious, and thought-provoking class. Anyone who ranks art among their primary interests should consider taking this course. This is a fulfilling challenge.</p> <p><u>Students interested in this course need to submit a portfolio of eight pieces to the Art office before first semester final exams.</u></p> <p>Prerequisite: Portfolio review and Department Chair approval. Open to grades 11 and 12. Supply Fee: \$40.00 (excludes series materials).</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>

BUSINESS DEPARTMENT

BUSINESS DEPARTMENT

<h1>BUSINESS</h1>		
Accounting Accounting Honors Business Law 1 Business Law 1 Honors Business Law 2 Business Law 2 Honors Consumer Economics Digital Communications Tools 1 Digital Communications Tools 2	Digital Tools & Applications Entrepreneurial Studies Internship Internship Honors Introduction to Business Investment Planning Marketing Sports Marketing	

Business courses can fulfill 1 credit for the District 86 graduation requirement in the Elective Arts. Business courses can also be taken for general/elective credit. The 0.5 consumer education graduation requirement may be met by successful completion of the department's Consumer Economics course or Introduction to Business.

Business Department courses are electives; however, with the increase in reliance on technology in our society, the department strongly recommends that all students include computer courses in their high school studies (i.e. Digital Communication Tools 1 & 2, Digital Tools and Applications, Advanced Computer Applications).

Students who are contemplating a Business major in college should select one or more Business electives. Because of the difficulty of college-level Accounting, students are urged to take an Accounting course at Hinsdale Central.

	Full-year Courses	Semester Courses
Grade 9	Introduction to Business Digital Tools & Applications	Digital Communication Tools 1 Digital Communication Tools 2

BUSINESS DEPARTMENT

COMPUTER COURSES	
<p>DIGITAL COMMUNICATION TOOLS 1 <i>Course # 6121, 6122</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course enables students to acquire and refine vital and emerging computer skills in this digital age. Students will develop keyboarding skills using the touch method, and be introduced to some of the latest input technologies, including speech recognition software and using tablet PC's. Constructing, formatting and editing documents using Microsoft Word, Excel, and PowerPoint will be the focus of production work in this course. Internet applications and email will also be taught and utilized during class projects. (Credit is NOT given for both Digital Communications Tools 1 and Digital Tools and Applications.)</p> <p>Prerequisite: None. Next course in sequence: Digital Communication Tools 2. Open to grades 9, 10, 11, and 12</p>
<p>DIGITAL TOOLS & APPLICATIONS <i>Course # 6130</i> Full year Credit: 1.0</p>	<p>This course enables students to acquire and refine vital and emerging computer skills in this digital age. Students will develop keyboarding skills using the touch method, and be introduced to some of the latest input technologies, including speech recognition software and using tablet PC's. Constructing, formatting and editing of documents using basic and more advanced features of Microsoft Word, Excel, and PowerPoint will be the focus of production work in this course. Desktop Publishing, database, and web page development will also be introduced. Internet applications and email will also be taught and utilized during class projects. This year long course will take your computer skills to new heights, enabling you to integrate technology in a variety of ways in projects for other classes. [Credit is NOT given for both Digital Communication Tools 1 and 2 and Digital Tools and Applications.]</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>DIGITAL COMMUNICATION TOOLS 2 <i>Course # 6331, 6332</i> 1st or 2nd semester Credit: 0.5</p>	<p>Continue to develop computer skills in this course as more advanced features are taught in word processing, spreadsheets and charts, and digital presentations. Desktop publishing, database and web page development will also be introduced. Constructing, formatting and editing of documents using Microsoft Word, Excel, Power Point, Publisher, and Access will continue to be the focus of production work in this course along with creating a web page. Internet Applications and Web 2.0 tools will also be utilized during class projects, and students will continue to work with some of the latest input technologies such as speech recognition software.</p> <p>Prerequisite: None, however, Digital Communication Tools 1 is recommended. Proper keyboarding technique and speed, along with document development, formatting, and proofreading skills are expected. Open to grades 9, 10, 11, and 12.</p>
BUSINESS COURSES	
<p>INTRODUCTION TO BUSINESS <i>Course # 6100</i> Full year Credit: 1.0</p> <p>(0.5 Elective Arts/0.5 Consumer Ed. - Must complete the entire year to receive Consumer Ed. credit)</p>	<p>This course gives students a background in the basic operations of business and develops an understanding of the economic role of business in our society. Major areas of study include banking, credit, insurance, budgeting, consumer protection, government, entrepreneurship and taxes. Skill is developed through a wide variety of activities including computer research, projects, and classroom activities.</p> <p>Successful completion of this course fulfills the District's Consumer Education requirement for graduation.</p> <p>Prerequisite: None. Open to grades 9 and 10.</p>
<p>INVESTMENT PLANNING <i>Course # 6111, 6112</i> 1st or 2nd semester Credit: 0.5</p>	<p>In this course students will study basic investment principles involving stocks, commodities, bonds and mutual funds. Students will also learn about tax information, effects of the economy on the market, government regulations of securities and on-line investing. Current issues as they relate to investing will be discussed. Teams will be formed to participate in the Stock Market Game by trading on-line.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>

BUSINESS DEPARTMENT

<p>ACCOUNTING <i>Course # 6170</i> Full year Credit: 1.0</p>	<p>This course develops a basic understanding of double-entry accounting. The accounting cycle, accounting theory, financial reports and financial analysis are included. Accounting simulation sets, Excel spreadsheets and automated accounting software are used to apply all accounting concepts. This course is recommended for college-bound students planning a career in accounting, finance, management or marketing.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>ACCOUNTING HONORS <i>Course # 6180</i> Full year Credit: 1.0</p>	<p>Accounting Honors will prepare students for the rigor of college accounting. Students will develop an understanding of double-entry accounting. Topics covered include the following: accounting cycle, accounting systems, internal controls, journals, receivables and payables, accruals and deferrals, inventory, fixed assets and depreciation, financial statement preparation and analysis, and taxes. A computerized accounting program will also be utilized, as well as the Excel spreadsheet program. The core material for this course is similar to Accounting 6170; however, more topics are covered, the pace is accelerated and expectations are higher. This course is highly recommended for motivated students planning to enter a college business program.</p> <p>Prerequisite: Department Chair approval. Open to grades 11 and 12.</p>
<p>MARKETING <i>Course # 6181, 6182</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course focuses on the activities necessary to market products, services, and ideas to consumers. Major topics include market segmentation, consumer behavior, marketing research, product planning, and advertising. Students will apply marketing concepts learned in class by researching, creating and advertising new products.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>SPORTS MARKETING <i>Course # 6183, 6184</i> 1st or 2nd semester Credit: 0.5</p>	<p>This intermediate marketing course will introduce students to the exciting field of sports marketing and its role in society. Students will develop a thorough understanding of the marketing concepts and theories that apply to sports and sporting events. The areas this course will cover include sponsorships, endorsements, licensing, event marketing and sports marketing plans. Students will plan, create, and assess sports marketing communication programs that include advertising, marketing, public relations and news media. Emerging issues in sports marketing will also be discussed.</p> <p>Prerequisite: Marketing. Open to grades 10, 11, and 12.</p>
<p>BUSINESS LAW 1 <i>Course # 6231, 6233</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces students to the legal system and the law as it applies to personal and business situations which may occur in their daily lives. It also examines the court system, torts, crimes, technology and the law, contracts, family law, wills and estates. Key elements of this course are case studies, mock trials and a field trip to the courts and jails.</p> <p>Prerequisite: None. Next course in sequence: Business Law 2. Open to grades 11 and 12</p>
<p>BUSINESS LAW 1 HONORS <i>Course # 6234, 6235</i> 1st or 2nd semester Credit: 0.5</p>	<p>The core material for this course is similar to Business Law 1 course #6231; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college business program.</p> <p>Prerequisite: Department Chair approval. Next course in sequence: Business Law 2. Open to grades 11 and 12.</p>
<p>BUSINESS LAW 2 <i>Course # 6232</i> 2nd semester only Credit: 0.5</p>	<p>This course examines the criminal justice system, the Supreme Court, bailments and real estate transactions, ethics and employment policies and contracts. Group discussions, case studies, guest speakers and a field trip will be utilized to present and examine these concepts. To develop a better understanding of the legal system, students will participate in a mock trial tournament throughout the semester.</p> <p>Prerequisite: Business Law 1 or Business Law 1 Honors. Open to grades 11 and 12.</p>

BUSINESS DEPARTMENT

<p>BUSINESS LAW 2 HONORS Course # 6236 2nd semester only Credit: 0.5</p>	<p>The core material for this course is similar to Business Law 2 course #6232; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college business program.</p> <p>Prerequisite: Business Law 1 or Business Law 1 Honors and Department Chair approval. Open to grades 11 and 12.</p>
<p>ENTREPRENEURIAL STUDIES (Formerly Entrepreneurship) Course # 6241, 6242 1st or 2nd semester Credit: 0.5</p>	<p>Do you have an interest in owning or running a business some day? This course will help you develop that entrepreneurial spirit and the skills necessary to be successful in your new business. Topics of study include the entrepreneurial personality and skills; marketing, financing and managing a business; legal requirements of a business; and career opportunities in entrepreneurship. Students will develop an idea and create a business plan.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>CONSUMER ECONOMICS Course # 6301, 6302 1st or 2nd semester Credit: 0.5</p>	<p>This course helps students to understand the consumer's role in a mixed economy. Students will learn about various topics that they will use their entire life. Topics of study include: money management, consumer rights and responsibilities, credit, purchasing of goods and services, making sound investment plans and preparing individual tax returns.</p> <p>Successful completion of this course fulfills the District's Consumer Education requirement for graduation. (An on-line version of this course is available. See page 10 for details.)</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>INTERNSHIP Course # 8401, 8402 1st or 2nd semester Credit: 0.5 General credit only Not Elective Arts credit</p>	<p>This program is designed to provide students with an opportunity for career exploration in a field of their choice. Students will work with a mentor outside of the school day for 50-75 hours in their career field. Due to time constraints, it is suggested that students have their own placements, however, if assistance is needed finding a placement, students should contact an internship coordinator. Students will be expected to keep a detailed journal, write a reflection paper and discuss their experiences with a related class.</p> <p>Students will receive a Pass or Fail grade only for this course.</p> <p>Prerequisite: None. Open to grades 11 and 12 upon acceptance after interview.</p>
<p>INTERNSHIP HONORS Course # 8403, 8404 1st or 2nd semester Credit: 0.5 General credit only Not Elective Arts credit</p>	<p>The core material for this course is similar to Internship course #8401/8402; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time. This course is highly recommended for motivated students giving serious consideration to a specific career.</p> <p>Students will receive a weighted grade for this course.</p> <p>Prerequisite: Department Chair approval. Open to grades 11 and 12 upon acceptance after interview.</p>

ENGLISH DEPARTMENT

ENGLISH

High School District 86 requires the successful completion of a minimum of four English credits for graduation. In addition, all students who are enrolled in school must be enrolled in an English course **each semester**. The four credits in English must be taken and passed sequentially and include full year courses freshman and sophomore years and full or half-year courses junior and senior years. Junior and senior students must take core English courses in the following areas: semester courses in writing, literature and communication, or full year courses in literature/writing. Only one communication course taken junior or senior year will count toward the core requirement. There are enrichment courses open to all grade levels.

VISION STATEMENT

The skills and knowledge of English/language arts are essential for student success in virtually all areas of the curriculum and society. To meet the challenges of the 21st Century and beyond, students need to be clear and effective writers and speakers, critical and insightful readers, skilled information processors, and life-long independent and collaborative learners. With the guidance of parents, community, and a dedicated English faculty, our students will graduate from Hinsdale Central as valuable contributors to the world in which we live.

MISSION STATEMENT

The mission of the English Department is to develop in each of our students the following academic attributes: an understanding and appreciation of literature; a proficiency and confidence in writing; the ability to understand communication clearly through active listening, critical observation, and analysis; creativity and imagination in the areas of reading, writing, and speaking; and an appreciation of various cultural and human perspectives through the study and discussion of literature.

ENGLISH DEPARTMENT

<p>ENGLISH 1 <i>Course # 1110</i> Full year Credit: 1.0</p>	<p>English 1 incorporates instruction in many areas, including literature, writing, speaking, research, vocabulary, grammar, nonfiction, short story, drama, poetry, and novels. Writing instruction includes summary, paraphrase, argument, analysis, and synthesis. Research skills, source identification, development of search strategies, and attribution are all taught in conjunction with the library staff. Regular active class participation is essential. The goal of the course is to develop competent learners, thoughtful readers, enthusiastic writers, and effective oral communicators.</p> <p>This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: Incoming freshman eligibility is based on multiple sources of information, including EXPLORE scores and recommendation of 8th grade instructor. Open to grade 9.</p>
<p>ENGLISH 1 HONORS <i>Course # 1120</i> Full year Credit: 1.0</p>	<p>English 1 Honors is a course for the student who reads avidly and who shows strong motivation and high academic achievement. Students read a variety of literature, including fiction, nonfiction, classical and contemporary drama, and short stories. Discussion, in-depth analysis, and written assignments accompany these readings. Research skills, source identification, development of search strategies, and attribution are all taught in conjunction with the library staff. In addition, the expository and narrative writing processes, along with grammar usage are emphasized. Speeches and group performances are required. Consistent, thoughtful class participation is expected of all students.</p> <p>This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: Incoming freshman eligibility is based on multiple sources of information, including EXPLORE scores and recommendation of 8th grade instructor. Open to grade 9.</p>
<p>ENGLISH 2 <i>Course # 1210</i> Full year Credit: 1.0</p>	<p>English 2 covers the areas of literature, writing, vocabulary, grammar, and speech. Through literature, selected plays, poetry, and novels, students will learn to analyze and appreciate literature. In the area of writing, an emphasis is placed on multi-paragraph essays. Research fundamentals—topic generation, source evaluation and attribution—are taught in conjunction with the library staff. Grammar and vocabulary will be covered throughout the year in conjunction with writing and literature. Public speaking will be practiced. Consistent class participation is imperative.</p> <p>This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: English 1. Open to grade 10.</p>
<p>ENGLISH 2 HONORS <i>Course # 1220</i> Full year Credit: 1.0</p>	<p>Challenging reading and writing assignments form the foundation of the English 2 Honors curriculum. Geared towards students who show strong motivation and high academic achievement, the class helps students develop critical thinking skills and effective oral and written communication skills. Students are expected to work on long-range assignments and to be consistently active in class discussions. Research fundamentals—topic generation, source evaluation and attribution—are taught in conjunction with the library staff. Active class participation, in the form of peer editing, small group work and partner projects as well as class discussion, is expected of all students.</p> <p>This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: English 1 or English 1 Honors and Department Chair approval. Open to grade 10.</p>

ENGLISH DEPARTMENT

ENGLISH FOUNDATIONS <i>Course # 2000</i> Full year Credit: 1.0	This is for students who are reading and writing two or more years below grade level. The course explores fundamental elements of reading, writing, and listening and speaking that can be generalized in various facets of daily life. Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.
ENGLISH <i>Course # 1810, 1820, 1830, and 1840</i> Full year Credit: 1.0	This course is for students who are reading and writing below grade level. Curriculum in this course is a modification of the grade level standards but is in alignment with the New Illinois Learning Standards. This course provides a differentiated approach to teaching vocabulary development, literature, and the writing process. Assessments are completed to monitor progress in the areas of reading and writing. Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.
CORE WRITING COURSES	
EXPOSITORY WRITING <i>Course # 1321, 1322</i> 1 st or 2 nd semester Credit: 0.5	By studying classic and contemporary essays, students learn to implement a variety of writing techniques to craft original essays that are related to the students' own interests and life experiences. Students are challenged to expand their conception of essay form and development. Written works include argument, analysis, synthesis essays, the research paper, and the college essay. This is an accelerated course with an emphasis on close reading and analytic, purposeful writing; students completing this course will have the option, with teacher recommendation, of taking AP Literature or AP Language during their senior years. Students must write a research paper in order to earn credit for the course. Prerequisite: English 2. Open to grades 11 and 12.
SENIOR COMPOSITION <i>Course # 1313, 1314</i> 1 st or 2 nd semester Credit: 0.5	This course is designed for students who wish to improve writing skills for the demands of college coursework. This course includes a review of the multi-paragraph essay and instruction in developing and elaborating on ideas in writing. Students will learn to build arguments in response to texts they read in class. Students will also review punctuation, sentence structure, mechanics, and other grammar topics as needed. Prerequisite: U.S. Literature and Composition or Department Chair approval. Open to Grade 12.
RHETORIC <i>Course # 1351, 1352</i> 1 st or 2 nd semester Credit: 0.5	In today's complex world, clear communication is essential. This course draws on the traditional study of rhetoric—including the persuasive appeals, purpose, and audience—to lay the groundwork for purposeful and effective written communication. The class helps students think critically and write confidently in various situations for various purposes. Rhetoric also focuses on building research skills to ensure that students are well-versed in finding, evaluating, and synthesizing multiple sources of information. Students will hone their writing skills in order to discover, explain, question, and justify stances on contemporary issues. Students must write a research paper in order to earn credit for the course. Prerequisite: Expository Writing or English 3. Open to grade 12.
HONORS SEMINAR IN WRITING <i>Course # 1355</i> Full year Credit: 1.0	Honors Seminar in Writing is a class for the intellectually curious who value the power of the written word and are eager to become more sophisticated writers. This year-long course is especially designed for those who have enjoyed the rhetorical nature of AP Language and Composition and are interested in analyzing stylistic elements in professional and personal writing. Students will read texts that are challenging and nuanced and will, in their writing, explore real-world complexities through primary and secondary research. The members of this course are committed to crafting and revising their own nonfiction essays, with the intention of publication. Prerequisite: Department Chair approval. There is an application process involved. Open to grade 12.

ENGLISH DEPARTMENT

CORE LITERATURE COURSES	
<p>AMERICAN LITERATURE <i>Course # 1561, 1562</i> 1st or 2nd semester Credit: 0.5</p>	<p>“I hear America singing, the varied carols I hear...” So wrote Walt Whitman in his famous poem, “I Hear America Singing.” Over the course of the semester, students will study the “varied carols” in American Literature in order to learn about our country and, ultimately, themselves. Students will read and analyze works from diverse authors and genres. They explore how literature from the Colonial Era to the present is a reflection of a changing American society. This is an accelerated course with numerous challenging fiction and nonfiction texts and an emphasis on close reading and analytic, purposeful writing; students completing this course will have the option, with teacher recommendation, of taking AP Literature or AP Language during their senior year.</p> <p>Prerequisite: English 2. Open to grade 11.</p>
<p>SENIOR LITERATURE <i>Course # 1491, 1492</i> 1st or 2nd semester Credit: 0.5</p>	<p>Powerful stories affect us in profound ways, inspiring us, challenging us, deepening our human experience. The fundamental approach to Senior Literature is to foster a love of reading by encouraging strong emotional connections with powerful stories while emphasizing reading skills and literary analysis. Students in this course study the ways storytellers use their art to make us feel and think more deeply. This is a course designed for the senior student who has taken U.S. Literature and Composition as a junior. Students will read many types of texts, including both traditional forms of fiction and drama, as well as graphic novels, films, and nonfiction texts. Group discussion is emphasized, but students also write essays, take tests, and give oral presentations about these texts.</p> <p>Prerequisite: U.S Literature and Composition or Department Chair approval. Open to grade 12.</p>
<p>WORLD LITERATURE <i>Course # 1541, 1542</i> 1st or 2nd semester Credit: 0.5</p>	<p>This college preparatory course for the average and above average reader will afford students the opportunity to gain a better understanding of and appreciation for various cultures from around the world. Through an array of compelling—and mostly contemporary—works, students will be challenged to grapple with universal problems and themes. Common assessments include essays and other writing assignments, discussion, quizzes/tests, oral presentations, and projects.</p> <p>Prerequisite: None. Open to grade 12.</p>
<p>BRITISH LITERATURE 1 <i>Course # 1581, 1582</i> 1st or 2nd semester Credit: 0.5</p>	<p>Human tragedy, genuine emotion, realistic, flawed characters, and outrageous jokes—all reasons that we still read the works of Shakespeare. British Literature 1 offers students the opportunity to discover the genius of Shakespeare’s plays. This course explores the comedies, tragedies, and histories of the most famous playwright of the English language. Emphasis is placed on the memorable characters, riveting plots, and universal themes present in some of Shakespeare’s most popular plays. Evaluation is based on discussion, quizzes, essays, tests, and, of course, performance.</p> <p>Prerequisite: None. Open to grade 12.</p>
<p>BRITISH LITERATURE 2 <i>Course # 1591, 1592</i> 1st or 2nd semester Credit: 0.5</p>	<p>This college preparatory course focuses on the role of literature in Ireland’s rich, violent, and tumultuous past. Students will read and discuss contemporary and historical issues in Ireland through books, plays, short stories, newspaper articles, and films. The issues of oppression, resistance, and Irish identity will be at the heart of this course. Evaluation is based on discussions of the readings, written activities, presentations, and tests/quizzes. Students will be asked to write creatively in the style of many of the major texts.</p> <p>Prerequisite: None. Open to grade 12.</p>

ENGLISH DEPARTMENT

CORE LITERATURE/WRITING COURSES	
<p>ENGLISH 3 <i>Course # 1320</i> Full year Credit: 1.0</p>	<p>English 3 builds on the skills acquired in English 1 and English 2. The course focuses on American Literature and emphasizes outstanding American authors from the Colonial Period to the modern era in the genres of fiction, nonfiction, drama, and poetry. Written works include argument, analysis, synthesis essays, the research paper, and the college essay. This is an accelerated course with numerous challenging fiction and nonfiction texts and an emphasis on close reading and analytic, purposeful writing. Students completing this course will have the option, with teacher recommendation, of taking AP Literature or AP Language during their senior year. Students must write a research paper in order to earn credit for the course.</p> <p>Prerequisite: English 2. Open to grade 11.</p>
<p>U.S. LITERATURE AND COMPOSITION <i>Course # 1300</i> Full year Credit: 1.0</p>	<p>This course is designed for the student who may need more support in writing and reading. This college-prep course focuses on developing reading skills for understanding fiction, nonfiction, and poetry. Students are required to be productive and engaged participants in daily class activities, such as the practice of specific reading strategies, discussion, and written responses. For writing instruction, emphasis is placed on core writing topics such as thesis statements, organizational patterns, paragraph development, and sentence correctness. Homework reading and writing are required. Students must write a research paper in order to earn credit for the course.</p> <p>Prerequisite: English 2. Open to grade 11.</p>
<p>ADVANCED PLACEMENT LANGUAGE AND COMPOSITION <i>Course # 1730</i> Full year Credit: 1.0</p>	<p>In this college-level writing course, students develop the ability to analyze the rhetorical features of texts, speeches, and visuals and produce their own writing—both analytical and argumentative—on a variety of subjects. In addition to multiple in-class and out-of-class writing assignments, students will also learn how to access, evaluate and cite primary and secondary sources so that they can both refine their research skills and develop writings of extended length. This course assumes that students understand and capably use standard English grammar and prepares students for the Advanced Placement Exam in Language and Composition.</p> <p>Prerequisite: English 2 Honors or Department Chair approval. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>
<p>ADVANCED PLACEMENT LITERATURE AND COMPOSITION <i>Course # 1731</i> Full year Credit: 1.0</p>	<p>This Advanced Placement Literature and Composition course is designed as an intensive study of literature drawn from multiple genres, time periods, and cultures, including such authors as Shakespeare, Camus, Atwood, Fitzgerald, and Conrad. Students will read poetry, drama, novels, and short fiction deliberately and thoroughly, participating in close textual analysis. Independent, outside reading will be expected. Assignments include in-class essays, research projects, memorizations, oral presentations, and analytical writings. Students are responsible for participating actively and taking the lead in class discussions of the literature they read. This course prepares students for the Advanced Placement Exam in Literature and Composition.</p> <p>Prerequisite: AP Language and Composition or Department Chair approval. Open to grade 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>

ENGLISH DEPARTMENT

CORE COMMUNICATION COURSES	
<p>SPEECH / COMMUNICATION Course # 1411, 1412 1st or 2nd semester Credit: 0.5</p>	<p>Thoughtful, eloquent, and effective communication is key to success. This course helps students become more confident and organized speakers, writers, and presenters. The course teaches listening skills, the ability to give and receive tactful and constructive feedback, and includes instruction in research and presentation. Students speak and write daily, with an emphasis on impromptu (no-preparation) speaking. This will serve students on interviews, in college coursework, and in the workplace. At the completion of this course, each student will feel confident in choosing an appropriate topic, conducting critical research, writing with style and purpose, managing the editing process, and delivering a 5-8 minute memorized speech with a logical introduction, body, and conclusion.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>DEBATE AND WRITING Course # 1441, 1442 1st or 2nd semester Credit: 0.5</p>	<p>Analysis, argument, questioning, and cooperation—these are the lifelong skills fostered in Debate and Writing. Focusing especially on current events related to timeless issues, students will speak, read, and write daily, and participate in both formal and informal debates, learning how to present perspectives other than their own. Students leave this course with the confidence and resourcefulness needed to enter those conversations especially encountered in college and the professional workplace that require a sense of perspective in sorting out complex issues.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>SOCIAL COMMUNICATION Course # 2005 Full year Credit: 1.0</p>	<p>This class is for students with struggle with social pragmatic language Topics covered in the class include thinking in a group, thinking about others, thinking about others thinking about me, and thinking to create relationships. The goal is for students to increase their ability to take another’s perspective, increase problem solving capabilities, and develop and understand how our body is connected to communication and personal relationships with others. This course is a pass/fail course.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
ENRICHMENT COURSES	
<p>ACADEMIC READING 1 Course # 1100 Full year Credit: 1.0</p>	<p>Academic Reading is designed for ninth grade students whose test scores and past classroom performance demonstrate that they would benefit from direct instruction in reading and vocabulary strategies. Students will be assessed in several skill areas throughout the year to track their growth. The curriculum is comprised of units that address skills that “good readers” internalize including determining main and supporting ideas, developing a variety of vocabulary strategies, and building fluency. To build reading skills, core textbook material will be supplemented with texts from students’ social studies and science classes. Finally, students will engage in daily sustained silent reading of self-selected material. Academic Reading students are simultaneously enrolled in this course and English 1.</p> <p>Prerequisite: Department Chair approval. Open to grade 9.</p>
<p>ACADEMIC READING 2 Course # 1102 Full year Credit: 1.0</p>	<p>Academic Reading 2 is designed for tenth grade students who were identified during their freshman year as likely to benefit from direct reading and writing instruction and supplemental in-school language arts instruction and support. Guided by multiple diagnostic assessments and a review of student data, teachers will target specific student needs while utilizing engaging, purposeful, research-based practices. Student progress is monitored regularly to ensure that students are receiving the best instruction for their specific needs. Academic Reading 2 students are simultaneously enrolled in this course and English 2.</p> <p>Prerequisite: Department Chair approval. Open to grade 10.</p>

ENGLISH DEPARTMENT

<p>READING Course # 1890 Full year Credit: 1.0</p>	<p>Reading is a course designed for students in 9th through 12th grade who demonstrate a need for direct instruction in reading strategies because they are reading two or more years below grade level. Students will complete diagnostic tests at the start of the year, in the middle of the year, and at the end of the year. These tests will be used to track growth and also to provide necessary information so that instruction can be individualized to a student's needs. Instruction in oral fluency, silent reading comprehension, oral reading comprehension, listening comprehension, vocabulary, grammar, and phonics will be provided individually and in a whole class setting. The curriculum is comprised of lessons from the Jamestown Timed Reading series, current events articles, Six Minute Solution passages, the Language! Reading series, Aimsweb fluency and comprehension passages, and Averil Coxhead's High-Incidence Academic Word List. Course fee \$20.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>SELECTED THEMES IN LITERATURE: Dystopian Literature: Stories Of "What If?" Course # 1521, 1522 1st or 2nd semester Credit: 0.5</p>	<p>Were you psyched to discover District 13 survived? Have you ever wondered what it would be like to take Soma? Would you be willing to set yourself on fire to save books? If you've loved books about the not-so-bright future, this is the class for you. This course will cover dystopian literature and film, emphasizing themes dealing with the imagination of better worlds and worse worlds. Because utopian/dystopian literature expresses what an author sees as possible, hopes is possible, and fears is possible, readers must engage in social and political critiques. We will explore four central dystopian types as presented in literature and film: the political, the philosophical/religious, the environmental, and the corporate.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>SELECTED THEMES IN LITERATURE: African American Literature Course # 1523, 1524 1st or 2nd Semester Credit: 0.5</p>	<p>This course explores the African-American experience as reflected in the literature and oral tradition of the community, from the earliest days of our nation to current writers and thinkers. The course will explore not only traditional literary genres such as fiction, poetry, drama, and essays, but also consider areas of film, music, and art as well. Students will study the wide span of the African-American experience from slave narratives to current rap music.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>FILM STUDIES Course # 1641, 1642 1st or 2nd semester Credit: 0.5</p>	<p>Film Studies presents an opportunity for students to discover, critique, and appreciate movies. This is an exciting course where students learn to see movies like a film critic, create highly interactive, media/technology based projects to express their ideas about cinema, and even try their hand at becoming a movie mogul, investing millions into blockbusters and independent films. Students are encouraged to pursue their own movie interests as they are exposed to significant cultural and ideological movements in film history. Significant emphasis will be placed on learning the technical components of movies (editing, shot types, angles, etc.), as understanding this film grammar is the foundation of film analysis. Students will not only be asked to think about <i>how</i> a movie was made, but also <i>why</i> a movie was made. Written expression and graded discussion are the primary ways students will demonstrate their understanding of the technical, aesthetic, and rhetorical components that make movies effective. Some outside of class viewing is required.</p> <p>Although not all movies are shown in their entirety, written permission must be obtained by a parent at the beginning of this course to allow for students to view the R-rated movies associated with this class. At the time of registration, if R-rated movies are to be utilized in whole or in part, a list of these movies will be available through the English department and online.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>

ENGLISH DEPARTMENT

<p>JOURNALISM 1 Course # 1651, 1652 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces students to the fundamentals of journalism. Emphasis is placed on interviewing, writing, editing, assessing the audience, and meeting deadlines. Units of study include responsibilities and ethics, Associated Press style, interviewing, news writing, feature writing, and page design. All final story assignments must be typed, and the culminating activity is a feature story spread. This course is intended as a practical application of newspaper/newsmagazine news gathering and writing techniques, not as an analysis of the media. While this course is open to all interested students, those students interested in becoming editors of <i>Devils' Advocate</i> or <i>El Diablo</i> are strongly encouraged to take Journalism 1 sophomore year.</p> <p>Prerequisite: No course prerequisite required. Open to grades 10 and 11.</p>
<p>JOURNALISM 2: NEWSMAGAZINE HONORS Course # 1660 Full year Credit: 1.0</p>	<p>Students in this class are editors and will be responsible for publishing <i>Devils' Advocate</i> according to established deadlines. Students will assume editorial leadership and participate as a staff member in all activities required to create a quality publication using a desktop publishing system. Students will be expected to develop story ideas, research stories, write and edit copy, design pages, and handle advertising accounts. The grade is determined by job performance. Students should be prepared to spend out-of-class time working on the publication. Journalism 2 may be repeated for credit with consent of the instructor and Department Chair.</p> <p>Prerequisite: No course prerequisite required. However, there is an application and interview process required. Open to grades 11 and 12.</p>
<p>JOURNALISM 2: ONLINE NEWSMAGAZINE HONORS Course # 1665 Full year Credit: 1.0</p>	<p>Students in this class are online content contributors and editors and will be responsible for all content on www.hcdevilsadvocate.com, <i>Devils' Advocate</i> online newsmagazine. Students will assume editorial leadership and participate as a member of the staff in all activities required to create a quality online site using a WordPress template. Students will be expected to develop story ideas, research stories, write and copy edit. The grade is determined by job performance. Students should be prepared to spend out-of-class time working on the site as interviews, writing, photography and videography often take place outside the class period. Journalism 2 may be repeated for credit with consent of the instructor and Department Chair.</p> <p>Prerequisite: No course prerequisite required. However, there is an application and interview process required. Open to grades 11 and 12.</p>
<p>JOURNALISM 2: YEARBOOK HONORS Course # 1670 Full year Credit: 1.0</p>	<p>Students in this class are editors and will be responsible for producing <i>El Diablo</i>. This course will cover skills and responsibilities of a journalist involved in publishing a yearbook. Students will assume editorial leadership and participate in all activities required to create a quality publication using a desktop publishing system. Students will be expected to develop story ideas, research stories, write and edit copy, take photos, design pages, and meet deadlines established by the adviser/instructor in accordance with the publication company's requirements. Students should be prepared to spend out-of-class time working on the publication in order to receive credit.</p> <p>Prerequisite: No course prerequisite required. However, there is an application and interview process required. Open to grades 11 and 12.</p>
<p>CREATIVE WRITING Course # 1341, 1342 1st or 2nd semester Credit: 0.5</p>	<p>"I write, therefore I am a writer."</p> <p>Creative Writing is a course where students explore poetry, spoken word, flash/short fiction, and creative nonfiction. Students will write every day, discuss themes related to writing and creating art, begin to build a portfolio of work to submit for publication, as well as work independently on a longer project (chapbook, short fiction, screenplay). Classroom experiences are dedicated to writers and thinkers; if you love to write and wish you had more time to improve your craft in a supportive environment, this is the class for you.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>

ENGLISH DEPARTMENT

<p>ACTING 1 Course # 1681, 1682 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces actors to basic acting techniques of the theatre. Activities include improvisation, concentration exercises, ensemble-building, character analysis and development, monologue preparation, and scene preparation.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>ACTING 2 Course # 1683, 1684 1st or 2nd semester Credit: 0.5</p>	<p>This course allows students to expand on their acting skills and expertise while focusing mainly on the <i>physical</i> aspects of performance. Activities include monologues, scene work, improvisation, impersonation, and the creation of original characters. Students should be prepared to explore the many ways in which action, movement or specific physical choices influence character development.</p> <p>Prerequisite: Acting 1. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED ACTING Course # 1685, 1686 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Acting is a performance-oriented course that gives the advanced acting student concentrated training in various acting styles and performance techniques. Students will tackle complex scene study, improvisation, college audition monologue preparation, physical training for the actor and the examination of various theatrical career options. This course will culminate in a workshop production.</p> <p>Prerequisite: Acting 2 or Department Chair approval. Open to grades 10, 11, and 12.</p>

ENGLISH LANGUAGE LEARNER PROGRAM

Lee-Cheng Wang, Design

MISSION STATEMENT

The mission of the English Language Learner Program (ELL) is to assist international students who are learning English as a Second Language. The ELL program provides academic and social support to help students adjust to the American culture and, in particular, to Hinsdale Central High School. The ELL program will assist them in making a successful transition into the mainstream school community.

In order to fulfill the mission, the ELL program offers *academic* classes in English as a Second Language (ESL 1, 2 and 3) for credit and ELL resource classes that may receive credit. ELL also addresses individual student needs, including language issues, academic programs, and cultural, social adjustments. English as-a-Second Language classes are taught in conjunction with the English Department in order to transition students into the mainstream English classes. As students adjust academically and socially, they *transition with support* into the full general education curriculum and the school community.

ENGLISH DEPARTMENT

<p>ESL 1 Course # 1050 Full year Credit: 2.0 (1 English credit + 1 general graduation credit)</p>	<p>This course is designed for the English Language Learner who is new to the United States and whose English Proficiency is emerging and developing. The course focuses on teaching basic communication and study skills in order for the ELL student to be successful at Hinsdale Central High School. Listening, speaking, reading and writing skills will be taught in order to help the ELL student in mainstream classes succeed academically and complement the ESL 2 curriculum. In addition, the course will provide activities to include students in the American Culture.</p> <p>Prerequisite: ELL Director approval. Open to grades 9, 10, 11, and 12.</p>
<p>ESL 2 Course # 1030 Full year Credit: 1.0</p>	<p>This course continues the work started in ESL 1 by developing emerging and beginner listening, speaking, reading and writing skills in standard American English. This course will parallel the goals and skills of English 1. In addition, the course will continue to build student communication skills and self-advocacy skills in standard American English to aid in mainstream academic success.</p> <p>Prerequisite: ELL Director approval. Open to grades 9, 10, 11, and 12.</p>
<p>ESL 3 Course # 1040 Full year Credit: 1.0</p>	<p>The goal of ESL 3 is to prepare the intermediate level English Language Learner to transition successfully into the mainstream English class. The course will continue to develop skills and strategies in listening, speaking, reading and writing of standard American English while focusing on how the strategies can be used in mainstream academic success. Course materials will parallel the goals and skills of the English Program. Lastly, this course reinforces self-advocacy skills to promote academic mainstream success for the transitioning English Language Learner.</p> <p>Prerequisite: ELL Director approval. Open to grades 9, 10, 11, and 12.</p>
<p>ELL RESOURCE Course # 1003, 1004 1st or 2nd semester Credit: 0.25 Or non-credit</p>	<p>This tutorial resource is designed to: 1) help students maintain satisfactory achievement levels in their regular classes; 2) encourage conversational English; 3) accelerate the development of vocabulary understanding, reading comprehension and writing skills in the English language; and 4) facilitate cultural adjustment.</p> <p>Prerequisite: ELL Director approval. Open to grades 9, 10, 11 & 12 international students who have limited English language proficiency. This program may be scheduled in place of a regularly scheduled study hall. This course must be taken for credit if the student is enrolled in ESL 1 or ESL 2. It may be taken for credit or non-credit with ELL director recommendation.</p>
<p>ELL TUTOR Course # 1013, 1014 1st or 2nd semester Credit: 0.25</p>	<p>ELL tutors assist other individual ELL students with academic and English language needs.</p> <p>Prerequisite: Recommendation of ELL Director. Open to grades 11 and 12.</p>

FAMILY & CONSUMER SCIENCES DEPARTMENT

The Family and Consumer Sciences Department strives to improve the lives of families, individuals and communities through advanced level learning opportunities for all students while fostering academic achievement, career exploration, creativity, and problem-solving skills.

FAMILY & CONSUMER SCIENCES DEPARTMENT

<p>INTRODUCTION TO FAMILY & CONSUMER SCIENCES Course # 6400 Full year Credit: 1.0 (0.5 consumer education, 0.5 elective arts)</p> <p>Must complete the entire year to receive consumer education credit.</p>	<p>This course introduces the student to the following areas of Family & Consumer Science: consumer education, child care, interior design, foods and sewing. The consumer education unit focuses on basic economic concepts such as career opportunities, budgeting, banking, credit, transportation, insurance, and housing. Additional class activities include a computer-aided design interior design project, basic food preparation, nutritious meal planning, sewing projects and exposure to child development. This course will prepare students for future semester courses in Family & Consumer Sciences including Interior Design & Housing, Child Care & Development, Creative Cooking 1, Creative Sewing and Nutrition Wellness & Cooking.</p> <p>Successful completion of this course fulfills the ISBE's Consumer Education requirement for graduation. Supply fee \$25.00.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
CULINARY	
<p>CREATIVE COOKING 1 Course # 6411, 6413 1st or 2nd semester Credit: 0.5</p>	<p>Creative Cooking 1 is designed to teach basic food preparation skills utilizing various types of culinary equipment and a range of preparation and cooking techniques. The following areas of study are covered in this course: measuring, knife skills, cooking methods, nutrition, fruits, vegetables, breads, pastas, vegetarian dishes, desserts, and microwave cooking. The course culminates in a student driven practical final meal applying the knowledge they have learned over the semester. While this course provides personal enrichment, it may also serve as a foundation for further training in culinary arts.</p> <p>Suggested follow-up courses: Creative Cooking 2, Nutrition, Wellness & Cooking, and/or Chef & Restaurant. Supply fee \$25.00.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>CREATIVE COOKING 2 Course # 6412, 6414 1st or 2nd semester Credit: 0.5</p>	<p>This course, a continuation of Creative Cooking 1, provides training in the following advanced techniques of food preparation: choux pastry (cream puffs & eclairs), international foods, cakes and cake decorating, homemade pasta, sweet and savory yeast breads, pies, meats and garnishing. Students prepare a variety of recipes, while enriching their personal culinary skills. This course also serves as a foundation for further training in the culinary arts.</p> <p>Suggested follow-up: Chef & Restaurant, Nutrition, Wellness & Cooking and/or Baking & Pastry Arts. Supply fee \$25.00.</p> <p>Prerequisite: Creative Cooking 1 (6411/6413). Open to grades 9, 10, 11, and 12.</p>
<p>BAKING & PASTRY ARTS Course # 6415, 6417 1st or 2nd Semester Credit: 0.5</p>	<p>This course provides focused training in the culinary field of European baking techniques. Focus will be on ingredients, preparation methods and finishing techniques. Units will include sanitation, metric measuring, breads, pastries (including cakes) cookies and display techniques. This course is designed for personal skill development as well as a base for further culinary training.</p> <p>Suggested follow-up courses: Nutrition, Wellness, & Cooking; Chef & Restaurant. Supply Fee \$25.00.</p> <p>Prerequisite: Grade of C or better in Creative Cooking 2 (6412, 6414). Open to grades 10, 11, and 12.</p>

FAMILY & CONSUMER SCIENCES DEPARTMENT

<p>NUTRITION, WELLNESS & COOKING <i>Course # 6431, 6432</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed to teach students how to build a lifetime of good nutrition and wellness practices while utilizing the food preparation and cooking skills from prerequisite courses. Students are given the essential tools to understand why and how people need to make more practical and healthy choices in their diet and daily routines. They will work cooperatively in lab groups applying what they have learned in each focused topic. While this course provides personal enrichment, it may also serve as a foundation for further training in health and culinary related fields. Suggested follow-up courses include Baking & Pastry Arts, Chef & Restaurant, Creative Cooking 1 and Creative Cooking 2.</p> <p>Prerequisite: Grade of C or better in Introduction to Family & Consumer Sciences or Creative Cooking 1. Supply fee \$25.00. Open to grades 10, 11, and 12.</p>
<p>CHEF & RESTAURANT <i>Course # 6421, 6422</i> 1st or 2nd semester Credit: 0.5</p> <p>*Due to classroom space limitations, students who have previously completed Creative Cooking 1 or IFACS will be given preference.</p>	<p>Chef & Restaurant is an introductory course to professional culinary arts operations. Previous cooking experience is extremely beneficial. The emphasis is placed on developing and managing food service businesses, including preplanned and student generated menus and themes, as well as customized menu creation to serve the needs of clients. Several weeks will be spent on back of the house management including product costing, requiring math computation skills. This course serves as a foundation for students interested in entering culinary arts, hospitality management or event planning program of study, event planners.</p> <p>Suggested Follow-up: Baking and Pastry, Nutrition, Wellness & Cooking. Supply fee \$25.00. Open to grades 11 and 12.</p>
<p>FAMILY LIVING</p>	
<p>SINGLE SURVIVAL <i>Course # 6441, 6442</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed to provide skills to live independently after high school, whether away at college or living on their own. The course covers personal assets, career development, including resume writing, money management, credit, identity theft, nutrition and basic meal prep, insurance, transportation, taxes, getting an apartment, basic tool use and reflection on current topics in society.</p> <p>Suggested follow-up course: Personal Perspectives (6591). Supply fee \$5.00.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>PERSONAL PERSPECTIVES <i>Course # 6591, 6592</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course, designed to help the student understand the challenges of our society, develops the student's ability to cope with problems and make adult decisions. The course focuses on the application of sociology and psychology concepts to the students' personal life. Areas of study include: theories of personality development, family relationships, crisis in the family (substance abuse, child abuse, divorce, and death,) communication skills, dating, marriage and parenting.</p> <p>Suggested follow-up course: Single Survival (6441).</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>

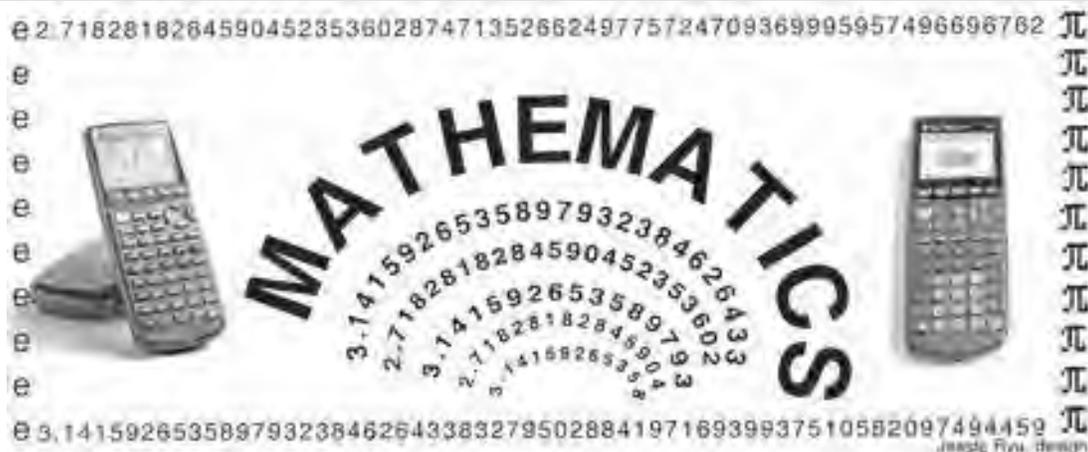

FAMILY & CONSUMER SCIENCES DEPARTMENT

FASHION	
<p>CREATIVE SEWING <i>Course # 6551, 6552</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is for students interested in sewing for practical purposes, personal enjoyment and/or to develop skills to be used in careers related to clothing construction, fashion merchandising, design and retail. Students will complete three or more individual projects in Creative Sewing. Garment construction projects will increase in difficulty as students attain skills. Technical abilities will be enhanced through the use of sewing and embroidery machines, sergers and other technologies. Sequencing of the course includes basic sewing machine techniques, fabric and pattern selection, interpreting pattern instructions, construction techniques (darts, zippers, hems, buttons, applying interfacing, etc.) and embroidery.</p> <p>Suggested follow-up courses: Creative Sewing Independent Study (6561) or Fashion Merchandising & Design (6571). Supply fee \$10.00.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>CREATIVE SEWING INDEPENDENT STUDY <i>Course # 6561, 6562</i> 1st or 2nd semester Credit: 0.5</p> <p>*Course may be repeated up to three times.</p>	<p>This course focuses on advanced construction techniques on individually selected projects approved by the instructor. Students master the use of a computerized embroidery machine and serger. Areas of study may include textile arts, formalwear, pattern redesigning, fashion design, or other related areas of student interest.</p> <p>This course may be repeated with subsequent projects that continually incorporate new design techniques and sewing construction skills.</p> <p>Suggested follow-up courses: Fashion Merchandising & Design (6571) or second enrollment in Creative Sewing Independent Study (6561). Supply fee \$10.00.</p> <p>Prerequisite: Creative Sewing. Open to grades 9, 10, 11, and 12.</p>
<p>FASHION MERCHANDISING & DESIGN <i>Course # 6571, 6572</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed to allow students to explore and understand the various facets of the fashion industry. Areas of study include the evolution of fashion, fashion design, merchandising, advertising, and retailing functions. Projects include designer and retailer research, logo and line illustrations, visual window displays, and fashion show planning. This course serves as a foundation for further training in fashion related occupations, as well as provides an opportunity for personal enrichment.</p> <p>Suggested follow-up course: Creative Sewing (6551). Supply fee \$25.00.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
INTERIOR DESIGN	
<p>INTERIOR DESIGN & HOUSING <i>Course # 6451, 6452</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is meant to introduce students into the area of residential designs, space planning and home decor. Students will learn how to identify housing styles and their details throughout American history, including the local influence of Frank Lloyd Wright and his Home and Studio in Oak Park. A hands on creative approach will take place when the course content focuses on the elements and principles of design, allowing students to showcase their artistic and original decorative ideas on visual design boards. Students will spend a large portion of the class utilizing technology in the interior design fields by using computer aided drafting for projects and a cumulative student designed and decorated home. It is recommended that students have strong computer technology skills when enrolling in this course.</p> <p>Prerequisite: None. Supply fee \$25.00. Open to grades 10, 11, and 12.</p>

FAMILY & CONSUMER SCIENCES DEPARTMENT

<p>INTERIOR DESIGN & HOUSING HONORS Course # 6453, 6454 1st or 2nd semester Credit: 0.5</p>	<p>The core material for this course is similar to Interior Design and Housing #6451/#6452; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are college level and will require additional reading and research outside of class. This course is recommended for highly motivated students interested in interior design or related fields.</p> <p>Prerequisite: Department Approval. Supply fee \$25.00. Open to grades 10, 11, and 12.</p>
TEACHING	
<p>CHILD CARE & DEVELOPMENT Course # 6582 2nd semester only Credit: 0.5</p> <p>* Suggested first part of teaching sequence to be taken Sophomore or Junior year.</p>	<p>This course prepares students for parenting in the future, as well as careers in the field of teaching and other child-related occupations. Areas of study include family planning, pregnancy and childbirth, child development from infancy through school age, and planning learning activities for a 16 session preschool practicum. Students will teach and observe children in our Discovery Corner Preschool as an integral part of the program.</p> <p>Suggested follow-up: Invitation to Teaching (6481 or 6482). Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>INVITATION TO TEACHING Course # 6481, 6482 1st or 2nd semester Credit 1.0 (one semester - two class periods)</p> <p>*Students who have previously completed Child Care & Development will be given preference.</p> <p>*Course may be repeated both semesters.</p>	<p>This course offers a teaching internship, enabling students to work under the supervision of certified preschool, elementary and middle school staff. Once placed, the students will spend four days each week at their assigned schools to assist, observe and teach young children. Teaching responsibilities include journaling, observing, creating a visual display, facilitating a guest speaker, creating and teaching lessons, and shadowing a teacher for a day. Classroom study is focused on related issues in education including meeting the needs of a diverse student population and classroom management technology within the classroom and current topics in education. Excellent course for anyone pursuing a career working with children.</p> <p>Suggested Prerequisite: Child Care & Development (6581). Supply fee \$10.00. Open to grade 12 only.</p> <p>*Acceptance into the program is based on application, staff feedback, academic standing, attendance and demonstration of character.</p> <p><i>Application may be picked up in the Counseling Office in January.</i></p>
<p>INVITATION TO TEACHING HONORS Course # 6483, 6484 1st or 2nd semester Credit 1.0 (one semester- two class periods)</p> <p>*Students who have previously completed Child Care & Development will be given preference.</p> <p>*Course may be repeated both semesters.</p>	<p>The core materials for this course are similar to Invitation to Teach Course 6481/6482; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are college level and will require additional time outside of class. This course is recommended for highly motivated students interested in education or related fields.</p> <p>Suggested Prerequisite: Child Care & Development (6581). Supply fee \$10.00. Open to grade 12 only.</p> <p>*Acceptance into the program is based on application, staff feedback, academic standing, attendance and demonstration of character.</p> <p><i>Application may be picked up in the Counseling Office in January.</i></p>

MATHEMATICS DEPARTMENT

Mission Statement

The mission of the Mathematics Department is to develop in our students the mathematical skills and habits of mind they will need to be prepared for college, to become productive citizens, and to pursue their career interests. We are committed to meeting each student's social, emotional, and learning needs by providing a rigorous curriculum and quality instruction that will actively engage students in constructing and applying mathematical concepts to solve problems. We will employ current technology to enhance students' mathematical knowledge and number sense. We strive to develop students who can express the mathematical connections in the world around them with algebraic, geometric, or numeric representations.

Three credits in mathematics are required for graduation. Credit must be earned in both semesters of a full year course before advancing to the next course in the sequence.

Any student who earns a D in a mathematics course is strongly recommended to retake one or both semesters in summer school before attempting the next course in the sequence. The deficiencies indicated by the D grade will make success in the next course in the sequence very difficult. Successful completion of Algebra and Geometry in any sequence and enrollment in Algebra 2 Trigonometry (3300G, 3310, or 3320) during or before junior year is ideal preparation for college standardized testing.

Typical Sequences (shown below)

Freshman	Sophomore	Junior	Senior
Algebra 2/Trig H	Pre-Calculus Honors <i>and/or</i> AP Stats	AP Calculus BC <i>and/or</i> AP Statistics	Math Topics <i>and/or</i> AP Statistics
Integrated Algebra and Geo. Honors	Algebra 2/Trig H	Pre-Calculus Honors <i>and/or</i> AP Statistics	AP Calculus BC <i>and/or</i> AP Statistics
Geometry Honors	Algebra 2/Trig H	Pre-Calculus Honors <i>and/or</i> AP Statistics	AP Calculus BC <i>and/or</i> AP Statistics
Geometry	Algebra 2 Trig	Pre-Calculus <i>and/or</i> AP Statistics	AP Calculus AB <i>or</i> Intro to Statistics <i>and/or</i> Math Analysis <i>and/or</i> AP Statistics
Algebra 1	Geometry	Algebra 2 Trig	Pre-Calculus <i>or</i> Intro to Stats <i>and/or</i> Math Analysis <i>and/or</i> AP Statistics
Foundations of Algebra and Geometry	Algebra 1 (3141G) <i>and</i> Geometry (3232G)	Algebra 2 Trig (3300G)	Intro to Statistics I <i>and</i> Math Analysis
Foundations of Algebra and Geometry	Algebra 1 (3100G)	Geometry (3200G)	Algebra 2 Trigonometry (3300G)

*AP Computer Science Principles and AP Computer Science A are available for students having completed Algebra 2

MATHEMATICS DEPARTMENT

<p>MATH FOUNDATIONS <i>Course # 2030</i> Full year Credit: 1.0</p>	<p>This course explores fundamental math concepts that can be generalized in various facets of daily life. Curriculum includes problem solving and computation, money and number sense, and basic estimation and measurement. Basic analytical methods, geometry, and data analysis are also emphasized. This course is designed for students who are performing significantly below grade level in math.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>FOUNDATIONS OF ALGEBRA & GEOMETRY <i>Course # 1871</i> Full year Credit: 1.0</p>	<p>This course is designed for students who are performing below grade level in math. Curriculum in this course is a modification of the grade level standards but is in alignment with the New Illinois Learning Standards. This course provides a differentiated approach to introduce important topics in Algebra and Geometry. Algebra topics include expressions, equations, inequalities, and linear functions. Geometry topics include lines, segments, angles, triangles, perimeter, area, and volume. A graphing calculator is required.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content.</p> <p>Prerequisite: Department Chair approval. Open to grades 9 and 10.</p>
<p>FOUNDATIONS OF ALGEBRA & GEOMETRY <i>Course # 3090</i> Full year Credit: 1.0</p>	<p>This course introduces important topics in Algebra and Geometry. Algebra topics include expressions, equations, inequalities and linear functions. Geometry topics include lines, segments, angles, triangles, perimeter, area and volume. This course is appropriate for students with reasonable facility with arithmetic operations and average grades in mathematics. A graphing calculator is required.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content.</p> <p>Prerequisite: Recommendation of previous teacher and departmental approval. Next course in sequence: Algebra 1 (3100G). Open to grades 9, 10, 11, and 12.</p>
<p>ALGEBRA 1 <i>Course # 3100G</i> Full year Credit: 1.0</p>	<p>This course continues the important topics in Algebra. Topics include exponents, systems of equations, inequalities, linear and quadratic functions, polynomial expressions, probability, and statistics. A graphing calculator is required.</p> <p>This course fulfills the ISBE graduation requirement for Algebra 1.</p> <p>Prerequisite: Foundations of Algebra and Geometry and department approval. Next course in sequence: Geometry (3200G). Open to grades 10, 11, and 12.</p>
<p>ALGEBRA 1 BLOCK SEMESTER 1 <i>Course # 3141G</i> 1st semester Credit: 1.0</p>	<p>This course has the same core curriculum as #3100G, but is taught in a single semester, two periods daily.</p> <p>Prerequisite: Foundations of Algebra and Geometry and teacher recommendation. Open to grades 10 and 11.</p>
<p>ALGEBRA 1 <i>Course # 3110</i> Full year Credit: 1.0</p>	<p>This course focuses on fundamental properties of the real numbers. Linear and quadratic equations are emphasized. Rational expressions and equations are introduced. Real world applications are explored. Algebra 1 is recommended for freshmen students who have achieved a strong facility with arithmetic operations and above average grades in mathematics or for those students whose Algebra skills need strengthening. A graphing calculator with matrix capabilities is required in this course.</p> <p>This course fulfills the ISBE graduation requirement for Algebra 1.</p> <p>Prerequisite: 8th grade teacher recommendation or Departmental approval. Next course in sequence: Geometry. Open to grades 9, 10, 11, and 12.</p>

MATHEMATICS DEPARTMENT

<p>GEOMETRY <i>Course # 3200G</i> Full year Credit: 1.0</p>	<p>This course uses an intuitive approach to study the fundamental concepts in Geometry. Although deductive reasoning is practiced, much less emphasis is placed on writing formal proofs. Students experience geometric concepts through frequent constructions and hands on activities. Some students from #3110 Algebra 1 may be advised to take this course. A graphing calculator is required in this course.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content.</p> <p>Prerequisite: Algebra 1 (3100G or 3110) and Departmental approval. Next course in sequence: Algebra 2 Trigonometry (3300G) based upon teacher recommendation. Open to grades 10, 11, and 12.</p>
<p>GEOMETRY BLOCK SEMESTER 2 <i>Course # 3232G</i> 2nd semester Credit: 1.0</p>	<p>This course has the same core curriculum as #3200G, but is taught in a single semester, two periods daily.</p> <p>Prerequisite: Algebra 1 (3100G) and teacher recommendation. Open to grades 10 and 11.</p>
<p>GEOMETRY <i>Course # 3210</i> Full year Credit: 1.0</p>	<p>Geometry focuses on proof and fundamental concepts of plane geometry with some informal three-dimensional considerations. Properties of lines, angles, triangles, quadrilaterals and circles are studied. Special attention is given to concepts of congruence, perpendicularity, parallelism, area, similarity, coordinate geometry, logic and deductive reasoning. A graphing calculator is required in this course.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Algebra 1, 8th grade teacher recommendation, and Departmental approval. Next course in sequence: Algebra 2 Trigonometry. Open to grades 9, 10, 11, and 12.</p>
<p>GEOMETRY HONORS <i>Course # 3220</i> Full year Credit: 1.0</p>	<p>This honors course provides an in-depth study of all the topics of plane Euclidean geometry including three-dimensional geometry. Particular attention will be given to the nature of a mathematical system, logic and proof. Students are expected to exercise their creative capacities, and apply their knowledge to different situations. Recommended for students who have a high interest in mathematics and have achieved, without undue stress, an A average in Algebra. A graphing calculator is required in this course.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content.</p> <p>Prerequisite: Algebra 1, 8th grade teacher recommendation, and Departmental approval. Next course in sequence: Algebra 2 Trigonometry Honors or Algebra 2 Trigonometry, based on teacher recommendation. Open to grades 9, 10, 11, and 12.</p>
<p>INTEGRATED ALGEBRA & GEOMETRY HONORS <i>Course # 3280</i> Full year Credit: 1.0</p>	<p>This honors course reviews important concepts in Algebra 1 and Geometry. Topics will be explored in greater depth than the introductory courses, and selected Algebra 2 Trigonometry topics will be introduced. Students who are successful in this course should be well prepared for a sequence of Algebra 2 Trigonometry Honors, Pre-Calculus Honors, and an AP course on Calculus and/or Statistics.</p> <p>Prerequisite: Algebra 1, Geometry, and 8th grade teacher recommendation. Next course in sequence: Algebra 2 Trigonometry or Algebra 2 Trigonometry Honors. Open to grade 9.</p>
<p>ALGEBRA 2 TRIGONOMETRY <i>Course # 3300G</i> Full year Credit: 1.0</p>	<p>The basic material for this course, described under #3310 Algebra 2 Trigonometry, is recommended for students from Geometry #3200G. Some students from #3210 Geometry may be advised to take this course. A graphing calculator is required in this course.</p> <p>Prerequisite: Geometry (3200G or 3200) and Departmental approval. Open to grades 11 and 12.</p>

MATHEMATICS DEPARTMENT

<p>ALGEBRA 2 TRIGONOMETRY <i>Course # 3310</i> Full year Credit: 1.0</p>	<p>Algebra 2 Trigonometry expands the material studied in Algebra and Geometry, emphasizing real world applications and associated graphical analysis. The complex number system is studied. Linear, quadratic, exponential, logarithmic, polynomial, rational and trigonometric functions are explored. Transformations and inverses of functions are introduced. This course is recommended for students with a grade average of C or better in Algebra and Geometry who desire a third year of college preparatory mathematics. A graphing calculator is required in this course.</p> <p>Prerequisite: Geometry. Next course in sequence: Pre-Calculus or Math Analysis or Introduction to Statistics or AP Statistics, based on teacher recommendation. Open to grades 10, 11, and 12.</p>
<p>ALGEBRA 2 TRIGONOMETRY HONORS <i>Course # 3320</i> Full year Credit: 1.0</p>	<p>This honors course provides a more in-depth study of the topics described above in Algebra 2 Trigonometry, as well as circular functions, conics, and probability. Students are expected to be capable of creative problem solving and individual study. This course is recommended for students who have a high interest in mathematics, with no less than a B+ average in previous mathematics courses. A graphing calculator is required in this course.</p> <p>Prerequisite: Geometry Honors and departmental approval. Next course in sequence: Pre-Calculus Honors or Pre-Calculus or AP Statistics, based on teacher recommendation. Open to grades 9, 10, 11, and 12.</p>
<p>INTRODUCTION TO WEB PROGRAMMING <i>Course # 3351, 3352</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course focuses on the creation of World Wide Web documents using the HTML and JavaScript languages. Students are expected to spend laboratory time outside of class working on their projects. Introductory programming concepts will be presented using JavaScript in order to create more dynamic, self-modifying web pages. Internet access at home is recommended.</p> <p>Prerequisite: Algebra 1 and Departmental approval. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED WEB PROGRAMMING <i>Course # 3372</i> 2nd semester Credit: 0.5</p>	<p>This course is a continuation of Introduction to Web Programming. Advanced programming concepts will be presented using HTML and JavaScript. Evaluation is based on projects, assignments, and tests.</p> <p>Prerequisite: Introduction to Web Programming and Departmental approval. Open to grades 9, 10, 11, and 12.</p>
<p>MATH ANALYSIS <i>Course # 3403</i> 2nd semester Credit: 0.5</p>	<p>This course focuses on important topics in mathematical modeling. Topics include algorithms, matrices, graphs, and counting, with applications such as elections, fair division, population growth, scheduling, conflict resolution, routing, and game theory. A graphing calculator with matrix capabilities is required.</p> <p>Prerequisite: Algebra 2 Trigonometry (3300G or 3310) and Department approval. Open to grades 11 and 12.</p>
<p>INTRODUCTION TO STATISTICS <i>Course # 3431, 3432</i> 1st semester/Full year Credit: 0.5/1.0</p>	<p>This course focuses on the major topics in introductory statistics. Topics covered in the first semester include graphical displays of data, numerical summaries of data, the normal distribution, line and curve fitting, and probability. The second semester covers the additional topics of data collection through sampling and experiments, sampling distributions, and inference for means, proportions, and counts. A graphing calculator with advanced statistics capabilities is required.</p> <p>Prerequisite for #3431: Algebra 2 Trigonometry (3300G or 3310) and department approval. Prerequisite for #3432: Successful completion of #3431. Next course in sequence: AP Statistics or Math Analysis upon teacher recommendation. Open to grades 11 and 12.</p>

MATHEMATICS DEPARTMENT

<p>ADVANCED PLACEMENT STATISTICS <i>Course # 3500</i> Full year Credit: 1.0</p>	<p>Advanced Placement Statistics will introduce students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. It will emphasize sound statistical thinking rather than routine procedures. This course is intended to be equivalent to an introductory non-calculus based college course in statistics. Students will do a significant amount of reading and independent investigation. A graphing calculator with advanced statistics capabilities is required in this course.</p> <p>Prerequisite: Algebra 2 Trig. Honors, Algebra 2 Trig., Pre-Calculus, or Pre-Calculus Honors and Departmental approval. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>
<p>PRE-CALCULUS <i>Course # 3410</i> Full year Credit: 1.0</p>	<p>This course expands on the material studied in Algebra 2 Trigonometry. These areas of study include: real and complex numbers and functions (polynomial, exponential, logarithmic and trigonometric). Additional areas of study are conics, notions of limits, continuity, circular functions, mathematics of finance, parametric equations, and polar coordinates. It is recommended for students who are preparing to enter a technical or semi-technical profession, or planning to study Calculus. A graphing calculator is required in this course.</p> <p>Prerequisite: Algebra 2 Trigonometry or Algebra 2 Trigonometry Honors and Departmental approval. Next course in sequence: AP Calculus AB or AP Statistics. Open to grades 10, 11, and 12.</p>
<p>PRE-CALCULUS HONORS <i>Course # 3420</i> Full year Credit: 1.0</p>	<p>This honors course provides a more in-depth study of the topics covered in Pre-Calculus with greater emphasis of both theory and applications. Additional topics include curve fitting and physics applications. A graphing calculator is required in this course.</p> <p>Prerequisite: Algebra 2 Trigonometry Honors and Departmental approval. Next course in sequence: Upon satisfactory completion of Pre-Calculus Honors, students are prepared for AP Calculus and AP Statistics. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED PLACEMENT COMPUTER SCIENCE A <i>Course # 3480</i> Full year Credit: 1.0</p>	<p>The Computer Science A AP College Board curriculum guidelines are followed in this course. The emphasis of this course is to prepare students for the AP Exam and future programming courses. Programming concepts including variables, constants, expressions, conditionals, arrays, ArrayLists, iteration, functions, and object-oriented programming using classes are covered. An emphasis is placed on problem solving. Additionally, programming methodology and design, pre-defined and abstract data types, sorting, data structures, and algorithms, related to data structures are discussed. Applications of computing a working knowledge of hardware and software systems and the ethical and social implications of computing are examined. The programming language is JAVA.</p> <p>Prerequisite: Algebra 2 Trigonometry and Departmental approval. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>

MATHEMATICS DEPARTMENT

<p>ADVANCED PLACEMENT COMPUTER SCIENCE PRINCIPLES <i>Course #3495</i> Full year Credit: 1.0</p>	<p>The Computer Science Principles AP College Board curriculum guidelines are followed in this course. The emphasis of this course is to prepare students for the AP Exam and future computer science courses by presenting concepts and computational thinking practices that are central to the computer science discipline. The focus of this course is more on using technology in creative, meaningful ways and less on specific programming languages. Topics covered in the course include data management and analysis, development of algorithms, characteristics of the Internet, and the global impact of computing and programming.</p> <p>Prerequisite: Algebra 2 Trigonometry and Departmental approval. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>
<p>ADVANCED PLACEMENT CALCULUS AB <i>Course # 3510</i> Full year Credit: 1.0</p>	<p>Advanced Placement Calculus (AB) emphasizes conceptual understandings through manual and technological applications of the derivatives and integrals of algebraic, trigonometric, exponential and logarithmic functions, and relations. This course prepares the student for the AB level Advanced Placement Examination. Satisfactory performance on this examination gives the student an opportunity to qualify for college credit in calculus. A graphing calculator meeting the College Board’s optimal technology expectation for the AP Calculus exam is required in this course.</p> <p>Prerequisite: Pre-Calculus or Pre-Calculus Honors and Departmental approval. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>
<p>ADVANCED PLACEMENT CALCULUS BC <i>Course # 3520</i> Full year Credit: 1.0</p>	<p>Advanced Placement Calculus BC provides an in-depth study of the topics described in Calculus AB, as well as calculus of two dimensional vectors, polar functions, parametric curves, and infinite series. This course prepares the student for the BC level Advanced Placement examination. Satisfactory performance on this examination gives the student an opportunity to qualify for college credit in calculus. A graphing calculator meeting the College Board’s optimal technology expectation for the AP Calculus Exam is required.</p> <p>Prerequisite: Pre-Calculus Honors and Departmental Approval. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>
<p>COMPUTER SCIENCE TOPICS 1 HONORS <i>Course # 3611</i> 1st semester Credit: 0.5</p>	<p>Computer Science Topics 1 reviews and builds upon the concepts taught in the AP Computer Science A course. The primary emphasis of the course is on data structures algorithms using the JAVA programming language. Stacks, queues, linked lists, trees, heaps, hash tables, sets, maps, and graphs are covered in great detail. Following the data structures unit, students learn a second programming language. GUI’s, advanced sorting algorithms, and cell phone applications are explored. Students have the opportunity to complete an independent study project at the conclusion of the course.</p> <p>Prerequisite: AP Computer Science A and Department approval. Open to grades 11 and 12.</p>

MATHEMATICS DEPARTMENT

COMPUTER SCIENCE TOPICS 2 HONORS <i>Course # 3622</i> 2 nd semester Credit: 0.5	This course is a continuation of the Computer Science Topics 1 course described above. Prerequisite: AP Computer Science A and Department approval. Open to grades 11 and 12.
MATH TOPICS 1 HONORS <i>Course # 3641</i> 1 st semester Credit: 0.5	Math Topics 1 provides students advanced study in mathematics. Topics include infinite series, geometry of space, vector functions, and partial derivatives. Prerequisite: Departmental Approval. Open to grade 12.
MATH TOPICS 2 HONORS <i>Course # 3652</i> 2 nd semester Credit: 0.5	Math Topics 2 provides students with advanced study in mathematics. Topics include multiple integrals, vector calculus, and an introduction to Differential Equations. Prerequisite: Departmental Approval. Open to grade 12.
ENRICHMENT COURSES	
MATH EXCEL ALGEBRA 1 <i>Course # 3030, 3035</i> 1 st and 2 nd semester Credit 0.5 each semester	Math Excel Algebra is designed to support students enrolled in Algebra 1 by providing them additional instruction, individualized practice, and support during the school day. In this small guided study hall led by an Excel teacher and a math teacher, students will have time and support to complete their mathematics homework in addition to other coursework. Math Excel Algebra is a semester course and students will earn credit towards graduation for each semester they are enrolled on a pass/fail basis. Students are encouraged to enroll in both semesters. Grading will be on a Pass or Fail basis for this course. Open to students in grade 9 with a recommendation from their 8th Grade Teacher.
MATH EXCEL GEOMETRY <i>Course # 3020, 3025</i> 1 ^s and 2 nd semester Credit 0.5 each semester	Math Excel Geometry is designed to support sophomore students enrolled in Geometry in the same format as Math Excel Algebra. Grading will be on a Pass or Fail basis for this course. Open to students in grade 10 with teacher recommendation and Department approval.

MUSIC DEPARTMENT

All courses in the Music Department fulfill the Elective Arts graduation requirement. Two fine arts credits fulfill the Illinois state public university entrance requirements in Art, Music or Foreign Language. Music performance courses are designed to not only improve the level of performance skill of the student, but also to develop a deeper understanding of culture and aesthetics.

All music performance courses include performances outside the school day as a significant part of student expectations. Lists of performances and any outside rehearsals will be provided at the beginning of the school year. Auditing of music courses (participation for no credit) is not permitted.

MUSIC DEPARTMENT

HONORS STUDY IN MUSIC	<p>All students in music courses will have the option for earning honors credit:</p> <p>Information and requirements for honors credit in music courses can be found at www.hcmusic.org. Please click on the tab labeled Honors. If you have questions regarding the information please contact the Music Department Chair, Jeffrey Wirtz, at jwirtz@hinsdale86.org or 630-570-8450.</p> <p>String Players may, through auditions in September, be selected for the Honors Chamber Orchestra. This is a select ensemble of advanced string players who rehearse every other morning as an Early Bird class. Concurrent registration in Concert Orchestra or Symphony Orchestra is required.</p> <p>Wind and Percussion Players may, through placement audition, be selected for Honors Orchestra Winds and Percussion. This is a select ensemble of advanced wind and percussion players who will rehearse every other day as an Early Bird class. These players make up the Symphony Orchestra Wind and Percussion sections. Concurrent registration in a band class is required.</p>
ORCHESTRA	
CONCERT ORCHESTRA <i>Course # 5680</i> Full year Credit: 1.0	<p>This class will develop the basic techniques involved in playing a stringed instrument and perform concerts with students in band classes. Music from the standard repertoire of orchestral music will be studied.</p> <p>Prerequisite: Director Approval. Open to grade 9. This course may be repeated for credit. Open to grade 9.</p>
SYMPHONY ORCHESTRA <i>Course # 5690</i> Full year Credit: 1.0	<p>A class for higher level development of string instrument techniques and the study of appropriate music. This class combines with the Honors Orchestra Winds and Percussion to perform Music from the standard repertoire of orchestral music. An audition is required.</p> <p>Prerequisite: Audition & Director Approval. Open to grades 10, 11 and 12. This course may be repeated for credit. Open to grades 10, 11, and 12.</p>
CHOIR	
TREBLE CHOIR <i>Course # 5800</i> Full year Credit: 1.0	<p>Teaches and examines basic vocal techniques, practice and performance of choral music, sight singing and theory. A variety of choral music will be practiced and performed. Honors credit is available for this course.</p> <p>Prerequisite: None. Open to all 9th grade females and to all other grade levels who have not participated in vocal music at school before. Open to grades 9, 10, 11, and 12.</p>
MEN'S CHOIR <i>Course # 5801</i> Full year Credit: 1.0	<p>Teaches and examines basic vocal techniques, practice and performance of choral music, sight singing and theory. A variety of choral music will be practiced and performed. Honors credit is available for this course.</p> <p>Prerequisite: None. Open to all 9th grade males and to all other grade levels who have not participated in vocal music at school before. Open to grades 9, 10, 11, and 12.</p>
WOMEN'S CHORALE <i>Course # 5810</i> Full year Credit: 1.0	<p>Level two of vocal techniques focused on the female voice. A variety of women's choral literature is practiced and performed. Advanced study of sight singing and theory. Honors credit is available for this course. An audition is required.</p> <p>Prerequisite: Director Approval. Open to grades 10, 11, and 12 females. This course may be repeated for credit. Open to grades 10, 11, and 12.</p>

MUSIC DEPARTMENT

HINSDALE CENTRAL SINGERS <i>Course # 5840</i> Full year Credit: 1.0	An advanced level of vocal technique, sight singing and theory. This advanced choral group practices and performs a variety of music. Extra performances or rehearsals may be scheduled. Honors credit is available for this course. An audition is required. Prerequisite: Director Approval. Open to grades 10, 11, and 12. This course may be repeated for credit.
CHAMBER CHOIR <i>Course # 5850</i> Full year Credit: 1.0	An advanced group with a high level of musicianship, vocal technique, sight singing and theory skills. A large variety of musical styles will be practiced and performed. This ensemble performs frequently outside of the school day for community events. Honors credit is available for this course. An audition is required. Prerequisite: Audition and director approval. Open to grades 10, 11, and 12. This course may be repeated for credit.

BAND

INFORMATION FOR ALL BAND CLASSES

Students enrolled in the Hinsdale Central High School Bands perform at home games, local parades, pep rallies, formal concerts, and other community events. Band classes improve musicianship, develop technique, and provide performance opportunities featuring a variety of musical styles and ensemble settings. Every band course is an academic class that meets during a class period and also requires occasional rehearsals and performances outside the school day; however, students are encouraged to participate in other academic classes, athletics, and activities. Opportunities for student leadership, overnight travel, and extracurricular performing are available. All band classes can be repeated each year for credit and are open to students in every grade. Every band student performs as part of the Pep Band and the Red Devil Marching Band, which allows sophomores, juniors, and seniors to exempt out of Physical Education for the entire school year.

- a. Band students in grades 9 through 12 may be exempted from Physical Education classes on an Athletic Waiver during both semesters for ongoing participation in the marching band and pep band provided their Physical Education class is scheduled during the regular seven period school day (see b, for exceptions to this rule). These students will be placed into a study hall during their Physical Education class. The band classes that require such participation are Concert Band, Concert Percussion Ensemble, Symphonic Band, Symphonic Percussion Ensemble, and Wind Symphony. Withdrawal from a band class results in an immediate return to Physical Education.
- b. Band students also enrolled in an early bird band class, in addition to one of the band classes listed in a, may exempt out of early bird Physical Education in order to enroll in those early bird band classes only. Early bird band classes are Jazz Lab, Jazz Band, Jazz Ensemble, and Orchestra Winds and Percussion. Withdrawal from an early bird music class results in an immediate return to early bird physical education.

Students must be enrolled in one of the five band classes to participate in jazz classes, orchestra wind and percussion sections, and other extracurricular band activities. The band page of the Music Department website, www.hcmusic.org, has the most current information about the band program, auditions, and honors credit requirements. Questions may be emailed to the band directors: Mr. Matt Kurinsky, at mkurinsk@hinsdale86.org or Mr. Matt Goeke at mgoeke@hinsdale86.org.

MUSIC DEPARTMENT

<p>CONCERT BAND <i>Course # 5640</i> Full year Credit: 1.0 NO PERCUSSIONISTS</p>	<p>The Concert Band is open to all flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, baritone, and tuba players without an audition and is open to beginners in addition to experienced performers. Students will study the fundamentals of wind instrument performance, music reading, and music theory. See the Information for All Band Classes above for more details.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>SYMPHONIC BAND <i>Course # 5641</i> Full year Credit: 1.0</p>	<p>The Symphonic Band is an auditioned concert band made up of flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, baritone, and tuba players. This class develops a more advanced level of wind instrument performance and requires students to have a good understanding of music reading and music theory. See the Information for All Band Classes above for more details.</p> <p>Prerequisite: Audition Required. Open to grades 9, 10, 11, and 12.</p>
<p>WIND SYMPHONY HONORS <i>Course # 5643</i> Full year Credit: 1.0</p>	<p>The Wind Symphony is an auditioned concert band made up of a limited number of flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, baritone, tuba, and percussion players. Enrolled students must be proficient at reading and performing music and must meet honors credit requirements. Students will frequently perform advanced standards and the latest compositions of contemporary wind band literature. See the Information for All Band Classes for more details.</p> <p>Prerequisite: audition required.</p>
<p>CONCERT PERCUSSION ENSEMBLE <i>Course # 5710</i> Full year Credit: 1.0</p>	<p>The Concert Percussion Ensemble is an entry level class for students interested in performing band music on percussion instruments and drum set. In addition to performing as a percussion ensemble, students will also prepare standard band literature to perform with the wind players in other band classes. Enrolled students will learn the basics of music reading and percussion technique. See the Information for All Band Classes for more details.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>SYMPHONIC PERCUSSION ENSEMBLE <i>Course # 5711</i> Full year Credit: 1.0</p>	<p>The Symphonic Percussion Ensemble is an auditioned class only for percussion and drum set players. In addition to performing as a percussion ensemble, students will also prepare standard band literature to perform with the wind players in other band classes. Enrolled students must be able to read music and have a good understanding of percussion technique. See the Information for All Band Classes for more details.</p> <p>Prerequisite: Audition Required. Open to grades 9, 10, 11, and 12.</p>
<p>JAZZ ENSEMBLE <i>Course # 5670</i> Full year Credit: 1.0</p>	<p>The Jazz Ensemble is the top auditioned traditional big band made up of saxophone, trombone, trumpet, piano, bass, guitar, and drum set players. Students enrolled in this class study jazz performance in a variety of styles and frequently perform. Enrolled students should have a good understanding of scale and chord theory and must be comfortable practicing improvisation. This class meets every other day during the “Early Bird” Period 0. Students may also enroll in Honors Orchestra Winds and Percussion. See the Information for All Band Classes for more details.</p> <p>Prerequisites: audition required and concurrent registration in a band class (exceptions made for non-band instruments). Open to grades 9, 10, 11, and 12.</p>

MUSIC DEPARTMENT

<p>JAZZ BAND Course # 5676 Full year Credit: 1.0</p>	<p>The Jazz Band is an auditioned traditional big band made up of saxophone, trombone, trumpet, piano, bass, guitar, and drum set players. Students enrolled in this class study jazz performance in a variety of styles. The class develops an understanding of scale and chord theory and encourages improvisation. This class meets every other day during the “Early Bird” Period 0. See the Information for All Band Classes for more details.</p> <p>Prerequisites: Audition Required and concurrent registration in a band class. (Exceptions made for non-band instruments). Open to grades 9, 10, 11, and 12.</p>
<p>JAZZ LAB Course # 5677 Full year Credit: 1.0</p>	<p>The Jazz Lab is an entry level class for instrumental and vocal music students interested in performing contemporary music in a variety of styles while developing improvisation skills. Students may be grouped into ensembles according to ability and instrumentation. See the Information for All Band Classes for more details.</p> <p>Prerequisite: Concurrent registration in a performance music class. Open to grades 9, 10, 11, and 12.</p>
<p>MUSIC THEORY</p>	
<p>ADVANCED PLACEMENT MUSIC THEORY Course # 5900 Full year Credit: 1.0</p>	<p>AP Music Theory prepares music students for the Music Theory Advanced Placement Examination through the study of musical elements and techniques including notation, scales and modes, intervals, chords, non-harmonic tones, cadences, ear training, sight singing, melody, form, and composition. Success on the AP Exam can result in college credit. All prospective students must be recommended to Mr. Kurinsky by their music director or private lesson instructor.</p> <p>Prerequisite: Director Approval. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>

PHYSICAL, DRIVER, AND HEALTH EDUCATION

KATY HEALY, DESIGN

Physical education is the science of human movement and the courses are designed to provide instruction and insight into healthy physical activities. All Physical Education offerings are designed to promote good health, safety, fitness, awareness of the value of recreation, and an appreciation of all forms of physical expression.

Freshmen, Juniors and Seniors must register for Physical Education EACH semester

PE, DRIVER & HEALTH EDUCATION DEPARTMENT

ADAPTIVE PHYSICAL EDUCATION Course # 7080 Full year Credit: 1.0	Adaptive PE offers an alternative PE option for students who are unable to participate in a regular physical education course. Adaptive PE is designed to meet the needs of students with a variety of physical, cognitive, or social needs. This course is intended to give the learner the skills necessary for a lifetime of rich leisure, recreation, and sport experience to enhance physical fitness and wellness. In addition, this course offers a smaller class size to make individualized instruction more appropriate. Our program also utilizes a peer mentor program. We have 1:1 peer helpers who serve as teachers/aides/friends to the students in the class. The peer mentors help in the gym hallways, and serve as role models for our students. Prerequisite: Departmental Approval. Open to grades 9, 10, 11, and 12.
ADAPTIVE PE AIDE Course # 7084, 7085 Credit: 0.5	The Adaptive Physical Education Aide class is offered to juniors and seniors who are interested in working with students with a variety of physical, cognitive, and social needs. As a “peer buddy” students are encouraged to serve as role models in the class (wear PE attire and participate daily, model appropriate behavior, etc.). This class will swim during both semesters. Daily attendance is required. Prerequisite: Application from PE office and Departmental Approval. Priority will be given to those students interested in a career in education. This course may NOT be repeated. Open to grades 11 and 12.

PHYSICAL, DRIVER, AND HEALTH EDUCATION

AEROBICS <i>Course # 7307, 7322</i> Credit: 0.5	This class introduces students to components of cardiovascular activity through aerobic movements. Students will also address the principles of muscular strength and endurance through the use of free weights and toning exercises. Core workouts, yoga, pilates, and fitness dance are introduced as part of this class as methods for students to increase flexibility, strength and balance (May be repeated). Prerequisite: None. Open to grades 10, 11, and 12.
AQUATICS <i>Course # 7305, 7320</i> Credit: 0.5	Includes sports and activities designed for the aquatic environment. Included are the development of skills in springboard diving, analysis of the four competitive swimming strokes, as well as starts and turns. Water safety habits, basic lifeguarding skills, water aerobics, dry land exercises, and weight training specific to aquatic activity will also be introduced. Recommended for prospective triathletes and swimmers (May be repeated). Prerequisite: None. Open to grades 10, 11, and 12.
PHYSICAL CONDITIONING <i>Course # 7306, 7321</i> Credit: 0.5	A strong emphasis on core training, general strength, stability and explosive power. Recommended for any person wishing to improve overall competitive effectiveness. Prerequisite: None. Open to grades 10, 11, and 12.
COMPREHENSIVE WEIGHT TRAINING (Bouchard Center) <i>Course # 7309, 7324</i> Credit: 0.5	Gain knowledge and understanding of weight training theory, advanced weight training practices, sport specific weight training techniques and proper nutritional practices. Initiate and develop weight training programs. Improve muscular strength and endurance (May be repeated). Prerequisite: None. Open to grades 10, 11, and 12.
EARLY BIRD P.E. <i>Course # 7373, 7374</i> Credit: 0.5	This physical education class is open to all sophomores, juniors, and seniors who wish to add an extra period to their day, giving them greater flexibility to select other specialized courses. The course runs from 7:00 a.m. to 7:50 a.m. daily. Students must provide their own transportation. Prerequisite: None. Open to grades 10, 11, and 12.

FITNESS INTEGRATED THROUGH SPORTS (F.I.T.S) - SEMESTER 1			
Includes sports and activities for lifelong participation. Instruction provided in basic skill, rules, strategies, and social behavior necessary to achieve competent level of participation, practice, game situations and tournament play. In addition, students will be introduced to fitness components such as cardiovascular endurance, muscular strength, muscular endurance and flexibility. Select one of the following options listed below.			
Lifetime Activities <i>Course #7311</i> 1 st Semester Credit: 0.5	Softball Basketball Volleyball Aquatics	Tennis Archery Fitness Testing Football	Badminton Frisbee Golf Soccer
Competitive Team Sports <i>Course #7312</i> 1 st Semester Credit: 0.5	Volleyball Ultimate Frisbee Aquatic Games	Football/Navy Outdoor Hockey Soccer	Team Handball Flicker Ball Fitness Testing

PHYSICAL, DRIVER, AND HEALTH EDUCATION

FITNESS INTEGRATED THROUGH SPORTS (F.I.T.S) - SEMESTER 2				
<p>Includes sports and activities for lifelong participation. Instruction provided in basic skill, rules, strategies, and social behavior necessary to achieve competent level of participation, practice, game situations and tournament play. In addition, students will be introduced to fitness components such as cardio-vascular endurance, muscular strength, muscular endurance and flexibility. Select one of the following options. Select one of the following options listed below.</p>				
Lifetime Activities <i>Course #7326</i> 2 nd Semester Credit: 0.5	Bowling* Pickleball Volleyball	Ping Pong Aquatics Basketball	Golf Group Exercise Softball	Outdoor Education Fitness Testing
Competitive Team Sports <i>Course #7327</i> 2 nd Semester Credit: 0.5	Volleyball Basketball	Team Games Softball	Outdoor Hockey	Aquatic Games

**Supply fee of \$30.00 is required for this off-campus activity. Fee is collected at time of participation*

FRESHMAN PHYSICAL EDUCATION <i>Course # 7113, 7114</i>	Basketball, track and field, softball, soccer, square dance, volleyball, badminton, fitness concepts, team building, football, tennis, gymnastics, swimming, group exercise, wrestling and modern dance. Prerequisite: None. Open to grade 9.
LIFEGUARDING/CPR/FIRSTAID <i>Course # 7310, 7325</i> Credit: 0.5	Meets American Red Cross Lifesaving Certification, Cardiopulmonary Resuscitation Certification and Standard First Aid Certification. Students must be able to swim 500 yds. non-stop to enroll. No student may use a P.E. exemption in this class and receive Red Cross certification or recertification. Prerequisite: None. Open to grades 10, 11, and 12.
PERSONAL FITNESS (Fitness Center) <i>Course # 7308, 7323</i> Credit: 0.5	Variable course content. Teacher directed workouts and individualized conditioning programs designed to address fitness goals are incorporated. Principles and skills relating to cardiovascular endurance, muscular strength, muscular endurance, and flexibility are incorporated. Equipment orientation includes cardiovascular machines, proper weight training techniques and circuit training. At the completion of course, students will be able to design and implement their own fitness program. Prerequisite: None. May be repeated. Open to grades 10, 11, and 12.

PHYSICAL, DRIVER, AND HEALTH EDUCATION

MEDICAL STUDY HALLS

Physical Education Medical Study Halls are given to those students with an authorized physician's medical note that states the student cannot participate in ANY physical activity for three or more weeks. Before students receive a Physical Education Medical Study Hall Change of Schedule, an **Activity Modification form** must be filled out by the physician and on file with the Health Services office. This form can be obtained on the website under the Health Services tab.

PHYSICAL EDUCATION EXEMPTION

Students interested in exempting out of PE during their 2015– 2016 athletic or marching band season in order to take a Physical Education Resource need to be aware of the following:

PHYSICAL EDUCATION EXEMPTIONS FOR IN-SCHOOL STUDENT-ATHLETES

EXPLANATION

Varsity/Junior Varsity student-athletes who are juniors or seniors may be exempted from Physical Education their junior and senior years. There are no exemptions allowed for freshmen or sophomore student-athletes per Illinois Sate Code 105 ILCS 5/27-6.

CRITERIA TO BE ELIGIBLE FOR AN EXEMPTION

1. The sport is an IHSA sanctioned sport and runs through the Hinsdale Central Athletic Department.
2. The sport requires an athletic permit to participate.
3. The sport involves a schedule of interscholastic competition.
4. The student-athlete must attend practices and games consistently throughout the season.
5. The student-athlete must be on the roster to actually compete in interscholastic competition.
6. Student-athletes cannot exempt from Early Bird PE unless it is approved by the Assistant Principal.
7. Student-athletes must have a current grade of a C or better in his/her current Physical Education course.

AHLETES RESPONSIBILITIES – APPLICATION PROCESS

(Student-athletes should inform their Physical Education teacher that they are trying out for an athletic team.)

1. You must attend Physical Education class orientation and complete all requirements prior to being released for participation on an athletic team.
2. You must sign the release form at the time of release from your Physical Education teacher.
3. You are required to return to your Physical Education class to attend all wellness-related events during the time you are exempt. A calendar of events will be provided on orientation day.
4. You are required to return to your Physical Education class on the official season ending date provided by the Physical Education Department and Athletic Department or the SCHOOL DAY after you are no longer a member of the team.
5. You are responsible for acquiring the Physical Education Exemption forms from the Athletic Office and return the completed form to the Physical Education Department Chair by the Friday after the official start of the IHSA season or at the end of the first week of the start of school.
6. **Failure to return to your Physical Education class on the designated date will jeopardize future Physical Education exemptions. You will be required to make up all missed Physical Education classes and you are subject to all normal disciplinary consequences for non-attendance of a class.**

PHYSICAL, DRIVER, AND HEALTH EDUCATION

PHYSICAL EDUCATION EXEMPTIONS FOR OUT-OF-SCHOOL STUDENT-ATHLETES

Physical Education exemptions are considered for a few unique student-athletes who participate in a sport outside of school that **requires a significantly shortened academic day in order to fully participate.**

CRITERIA FOR APPLY FOR EXEMPTION APPLICATION

Student-athletes must meet the criteria explained above before applying for a Physical Education exemption:

1. Student-athlete must have a significantly shortened academic schedule to accommodate the outside athletic participation. A significantly shortened day is one in which the student will only be available for 6 or fewer classes including their Physical Education class. The process of approving a shortened schedule is overseen by a panel that includes but is not limited to the Assistant Principal of Instruction, Athletic Director, Physical Education Department Chair, and the athletic coaches at Hinsdale Central and requires documentation of significant and required school-time commitments to fully participate in the activity.
2. Student-athlete must be competing at the equivalent level of a national or junior national competition for their exemption period.
3. Student-athletes are required to maintain alternative Physical Education course work throughout the duration of their exemption (examples may include but are not limited to activity logs, summative papers, or health literacy assessments). Any student-athlete that is non-compliant will jeopardize their current Physical Education exemption.

APPLICATION PROCESS

1. Submit three letters:
 - a. Letter from parents/guardian describing the nature and time commitment of the activity.
 - b. Letter from the student describing in detail the activity, his/her time commitment and the goals they have set for themselves in this activity.
 - c. Letter from the coach confirming practice and competition times, location and the national level of competition.
2. Submit three schedules:
 - a. Class Schedule
 - b. Competition Schedule
 - c. Practice Schedule
3. If the panel approves a shortened schedule, the Physical Education Exemption Committee will convene to review the application and determine final approval for exempting Physical Education from the student-athlete's shortened schedule.

APPROVED EXEMPTION PROCEDURES

1. Student-athletes will receive a letter from the Physical Education Department Chair notifying them of the Exemption Committee's decision.
2. Student-athletes must attend all wellness related events on campus scheduled during their exemption period (a calendar will be provided by their Physical Education teacher.)
3. At the end of each quarter, student-athletes must submit a self-reflection paper to the PE department chair describing how they have met Physical Education state and national standards along with their daily practice competition log signed by their coach. Guidelines for student-athlete work will be sent with the letter of approval.
4. Student-athletes who do not submit the quarterly self-reflection and practice log will fail the Physical Education semester. Juniors who fail will not be considered for this exemption privilege senior year. Seniors who fail must meet with the Physical Education department chair regarding remedial plans.
5. Student-athletes may NOT exempt from Health Education class.
6. Student-athletes cannot exempt from Early Bird PE unless it is approved by the Assistant Principal.
8. PE Exemptions are available for **Junior** and **Senior** athletes and **Freshman, Sophomore, Junior, and Senior** Marching Band members.
 - a. You must be enrolled as a full-time student with a full academic load.
9. In order to be eligible for PE Exemption, you must fill out both sides of the request form with all required signatures and turn it in to your counselor at your individualized registration appointment in January or February.
10. Individual students who are no longer on the roster will return to the PE course in which they were originally enrolled immediately following the conclusion of the competition season for their respective sports(s).

PHYSICAL, DRIVER, AND HEALTH EDUCATION

These course codes will be used for PE Exemptions that fall within the following seasons:

Code	Fall Season	Winter Season	Spring Season	Girls' Sports	Boys' Sports	Activity
7218	Exempt			Golf Tennis Volleyball Cross Country Swimming FB Cheerleading FB Poms	Golf Football Soccer Cross Country	
7219/7220	Exempt	Exempt	Exempt			Marching Band
7218/7221*+		Exempt		Bowling Basketball Gymnastics BB Cheerleading BB Poms	Bowling Wrestling Basketball Swimming	
7221*			Exempt	Outdoor Track Badminton Water Polo Soccer Softball Lacrosse	Outdoor Track Gymnastics Tennis Water Polo Baseball Volleyball Lacrosse	
7218/7221***		Exempt	Exempt	Indoor/Outdoor Track	Indoor/Outdoor Track	

*These Exemption students must still register for a PE class during the semester of their exemption as they will return to class at the conclusion of their individual roster competition. They are not guaranteed the class of their choice, due to space limitations caused by exempted students flowing in and out of PE classes throughout the year.

**These PE exemption students will need to select a PE class for 1st and 2nd quarter, as their season overlaps both.

*** These PE Exemption students will not register for a PE class for 2nd Semester. They need to select a PE option for 1st Semester only.

+ Students re-entering PE once their season is over may be put into Personal Fitness if space is not open in the class they vacated.

PHYSICAL, DRIVER, AND HEALTH EDUCATION

DRIVER EDUCATION

Course # 7461 / 7462

Credit: 0.25

\$350.00 Course fee

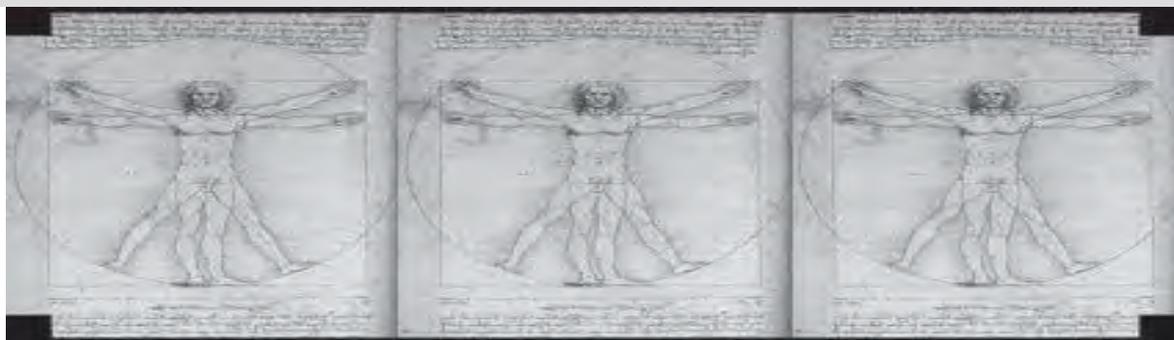

\$20.00 Permit fee required by State

Driver Education, though an elective course, is required in order to obtain a state driver's license prior to the age of 18. Driver Education will follow state mandates on the number of classroom instruction and in car training. Student schedules must allow for one period per day during one semester in order to complete course requirements. Student's class time will be divided between behind the wheel instruction with a certified instructor for 24 class periods. 30 hours of classroom instruction. When students are not in classroom or behind the wheel they will be placed in a study hall as part of the Driver's Education program.

Any incoming freshman can enroll in Driver Education as long as he/she turns 15 years of age prior to the start of the semester.

If you turn 15 years of age prior to the start of the semester, you are eligible to enroll in Driver Education. Students enrolled in Driver Education will receive two grades at the end of the semester: one for the classroom phase, and one for the behind-the-wheel phase. Upon successful completion of the Driver Education Cooperative Testing program, students will be eligible for their license without need for further examination by the Illinois Secretary of State Office. As a prerequisite, students enrolling in Driver Education must be passing eight semester classes within the two most recent semesters of attendance. Only classes used to determine a student's GPA will be allowed to meet this requirement.

PHYSICAL, DRIVER, AND HEALTH EDUCATION

***Sophomores have the option of taking Health Education for one semester and Physical Education for the other semester ***

COURSE TITLE	Course # (First/Second Semester)	Prerequisite	Credit	Grade Offered
Health Education	7501/7502	No	0.5	10
Introduction to Sports Medicine	7521/7522	Yes	0.5	10-12
Health Foundations	2002	Yes	0.5	9-12
Health	2780A/2780B	Yes	0.5	9-12
HEALTH EDUCATION Course # 7501, 7502 Credit: 0.5 (Included in student's G.P.A.)	The goal of this course is to promote and develop positive attitudes and behaviors related to the overall wellness of Hinsdale Central students. Students are taught how to access valid health information and health-promoting products and services. The students will also learn how to analyze the influence of culture, media, technology and other factors on health. Topics of study within the Health Education program include: Introduction to Wellness, Alcohol, Tobacco and other Drugs, Nutrition and Fitness, Communicable and Non-communicable Diseases, and Human Reproduction. The curriculum is aligned with District 86 program goals, Illinois and National Health Education Standards, and Illinois State Standards for Social/Emotional Learning. REQUIRED FOR GRADUATION. This course should be taken in tandem with Physical Education during the sophomore year. Open to grade 10.			
INTRODUCTION TO SPORTS MEDICINE Course # 7521, 7522 Credit: 0.5 (General credit only; not for elective arts. Included in student's G.P.A.)	The goal of this course is to help students become more knowledgeable and proficient in the following areas: principles and practices of athletic training; anatomy, physiology, injury recognition, treatment and rehabilitation as they relate to sports and leisure activities. This course also provides valuable hands-on experience and is highly recommended for those students who are interested in careers in nursing, medicine, athletic training, physical therapy, or coaching. Prerequisite: Successful completion of Health Education or approval of Department Chair. Open to grades 10, 11, and 12.			

PHYSICAL, DRIVER, AND HEALTH EDUCATION

<p>HEALTH FOUNDATIONS Course # 2002 2nd Semester Credit 0.5</p>	<p>This course is for students who are reading at least three years below grade level. The goal of this course is to promote and develop positive attitudes and behaviors related to the overall wellness of Hinsdale Central students. Students are taught how to access valid health information and health-promotion products and services. The students will also learn how to analyze the influence of culture, media, technology and other factors on health. Topics of study within the Health Education program include: Introduction to Wellness, Alcohol, Tobacco and other Drugs, Nutrition and Fitness, Communicable and Non-communicable Diseases, and Human Reproduction. The curriculum is a modification of grade level standards, but is aligned with District 86 program goals, Illinois and National Health Education Standards. Students enrolled in this course must also be enrolled in Adaptive PE.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>

The curriculum is aligned with District 86 program goals, Illinois and National Health Education Standards, and Illinois State Standards for Social/Emotional Learning.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>

SCIENCE DEPARTMENT

Adam Code, design
Jeff Hotaling, design

Two credits in science are required for graduation. Each credit must be earned by completing both semesters of a given course (one credit can be earned through the semester course offerings).

All students should have experience in both the biological and physical/earth sciences. Two years of the same type of science, if this excludes other areas of science, is not recommended.

1. Courses in science are designed to develop an understanding of the natural and physical world, to stress the importance of major scientific principles, to develop reasonable competence in the use of the methods of science and to help recognize and prepare for the role science plays in our evolving technological world. The many course offerings and sequences in science have been carefully planned to meet the needs of each student, whether he/she considers science as a future career, as an interesting avocation or as a necessity for all citizens in our technological society.
2. Courses are taught in classroom-laboratory situations which provide opportunities for individual and group instruction, investigation and experimentation. All science classes require a teacher recommendation.
3. The following are possible four-year course sequences:

Seq.	Grade 9	Grade 10	Grade 11	Grade 12
1.	Earth Science <i>or</i> Biology	Biology Earth Science	Chemistry/Physics	Chemistry Themed <i>or</i> Traditional <i>or</i> Physics Themed <i>or</i> Traditional
2.	Biology	Chemistry Themed <i>or</i> Chemistry Traditional	Physics Themed <i>or</i> Physics Traditional	Earth Science semester courses <i>or</i> Earth Science Honors <i>or</i> <u>select</u> Advanced Placement courses
3.	Biology	Chemistry Themed <i>or</i> Chemistry Traditional	Earth Science semester courses*	Physics Themed Physics Traditional
4.	Biology <i>or</i> Biology H <i>or</i> Earth Science <i>or</i> Earth Science-H	Earth Science <i>or</i> Earth Science-H <i>or</i> Biology <i>or</i> Biology-H	Traditional/Themed <i>or</i> Chemistry - H	A.P. Physics 1, Advanced Placement courses <i>or</i> A.P. Seminar: Science
5.	Biology Honors	Chemistry Honors (concurrent enrollment in A.P. Seminar: Science)	A.P. Physics 1 (concurrent enrollment in A.P. Seminar: Science)	Advanced Placement courses
6.	Chemistry H (if you are registered for Algebra 2 Trig or higher)	A.P. Physics 1	A.P. Biology <i>or</i> A.P. Environmental Science	Advanced Placement course A.P. Seminar: Science**

The aforementioned sequences by no means represent all sequences available to students. The possibilities are numerous. A more useful way to view science courses is by the year offered. The following table serves that purpose.

*Students who have taken Earth Science 3740G or Earth Science 3750 are not eligible to enroll in Earth Science semester courses. **A.P. Seminar: Science is open to 10, 11 and 12th grade students. Please see description for more details.

SCIENCE DEPARTMENT

<p>SCIENCE FOUNDATIONS <i>Course # 2050</i> Full year Credit: 1.0</p> <p>Science Foundations will NOT be offered for the 2016-2017 school year</p>	<p>Students will investigate key elements of physical and social wellness that can be generalized in various facets of daily life, including proper nutrition, sleep, self-care, and exercise. They will explore the benefits of leisure activities and socialization. Students will also explore fundamental concepts, principles and interconnections of the life, physical and earth sciences. This course is intended for students who are reading two or more years below grade level.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>BIOLOGY <i>Course # 3700G</i> Full year Credit: 1.0</p>	<p>This course is designed to acquaint students with properties of living organisms. The content includes such topics as the relationship between structure and function in living organisms as it relates to the human body, evolution, genetics, and many aspects of ecology. The approach of this course provides an introduction to major biological concepts while emphasizing literacy and executive functioning skills. This course is designed to assist students with reading comprehension as it relates to science literacy. Biology is a laboratory course.</p> <p>Prerequisite: Incoming freshmen eligibility is based upon Math department placement, Explore scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11, and 12.</p>
<p>BIOLOGY <i>Course # 3710</i> Full year Credit: 1.0</p>	<p>This course is designed to acquaint students with properties of living organisms. This course's content includes such topics as the relationship between the structure and function in living organisms as it relates to the human body, evolution, genetics, and varied ecological principles. The impact that humans have on the global environment is studied during the end of this course. Methods of scientific inquiry are employed in classroom instruction. Good ability in reading comprehension is ESSENTIAL for success in this course. Biology - R is a laboratory course.</p> <p>Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11, and 12.</p>
<p>BIOLOGY HONORS <i>Course # 3720</i> Full year Credit: 1.0</p>	<p>This course follows a molecular approach in the following content areas: cellular biology, evolution, genetics and its applications, and aspects of human biology. Compared to Biology 3710, the content areas are covered in greater depth and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. This course utilizes an inquiry approach in which students incorporate factual information into a framework of reflection and analysis. Biology - H is a laboratory course. Students earning a C in this course will not be eligible for a level change.</p> <p>Prerequisite: High ability in science, mathematics and reading. Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED PLACEMENT BIOLOGY <i>Course # 3730</i> Full year Credit: 1.0</p>	<p>This course follows the College Board's Advanced Placement curriculum and as such is rigorous and fast paced. This course is comparable to an introductory college level course. College level materials are used. Advanced Placement Biology is a laboratory course.</p> <p>Prerequisite: Three years of science, including a year of Biology and a year of Chemistry and departmental recommendation. Concurrent enrollment in third year of science and AP Biology is permitted. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>

SCIENCE DEPARTMENT

<p>ADVANCED PLACEMENT ENVIRONMENTAL SCIENCE <i>Course # 3770</i> Full year Credit: 1.0</p>	<p>This course follows the College Board's Advanced Placement curriculum and as such is rigorous and fast paced. This course will provide students with the scientific principles, concepts and methods required to understand the interrelationships of the natural world, to identify and analyze environmental problems, and to examine alternative solutions for resolving and/or preventing them. Field trips are an integral part of this course and are therefore mandatory. This course is comparable to a one-semester introductory college-level course; college-level materials are used. Advanced Placement Environmental Science is a laboratory course.</p> <p>Prerequisite: Three years of science and departmental recommendation. Concurrent enrollment in a third year of science and AP Environmental Science is permitted. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>
<p>EARTH SCIENCE <i>Course # 3740G</i> Full year Credit: 1.0</p>	<p>The core material for this course is similar to that of 3750 Earth Science. The approach of this course provides an introduction to major earth science concepts while emphasizing literacy and executive functioning skills. This course is designed to assist students with reading comprehension as it relates to science literacy. Earth Science is a laboratory course.</p> <p>Prerequisite: Incoming freshman eligibility is based upon Math department placement, Explore scores and recommendation of 8th grade instructor. Open to grades 9 and 10.</p>
<p>EARTH SCIENCE <i>Course # 3750</i> Full year Credit: 1.0</p>	<p>This course utilizes an inquiry approach in which students take factual information and use it for analysis. The main units of study are: geology, oceanography, meteorology and astronomy. Good ability in reading comprehension and average ability in math are ESSENTIAL for success in this program. Earth Science is a laboratory course.</p> <p>Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9 and 10.</p>
<p>EARTH SCIENCE HONORS <i>Course # 3760</i> Full year Credit: 1.0</p>	<p>This course uses a college-level textbook and covers major topics in meteorology, astronomy, and geology. Compared to Earth Science 3750, the pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. The approach of the course involves traditional learning, labs, and tests paired with cooperative group work, presentations, and written projects. Earth Science - H is a laboratory course.</p> <p>Students earning a C in this course will not be eligible for a level change.</p> <p>Students enrolled in this course will be eligible to earn one semester of dual credit through College of DuPage.</p> <p>Prerequisite: High ability in science, mathematics and reading. Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11, and 12.</p>
<p>METEOROLOGY & ASTRONOMY <i>Course # 3771</i> 1st semester only Credit: 0.5</p>	<p>Meteorology is the study of the mechanics of the atmosphere, weather and climatic patterns. Astronomy is concerned with the celestial bodies that comprise the known physical universe. The astronomy portion of this course DOES NOT emphasize astrophysics. This course includes teamwork to help develop problem solving skills. Good reading skills and comprehension are required. Meteorology and Astronomy is a laboratory course.</p> <p>Prerequisite: At least one year of high school science, and departmental recommendation. This course is NOT open to anyone who has already taken Earth Science. Open to grades 11 and 12.</p>

SCIENCE DEPARTMENT

<p>GEOLOGY & OCEANOGRAPHY Course # 3782 2nd semester only Credit: 0.5</p>	<p>This course examines the physical processes that shape and change the earth's crust. The physical, chemical, geological and biological aspects of the ocean are explored with equal time devoted to each aspect. This course includes teamwork to help develop problem solving skills. Good reading skills and comprehension are required. Geology and Oceanography is a laboratory course.</p> <p>Prerequisite: At least one year of high school science, and departmental recommendation. This course is NOT open to anyone who has already taken Earth Science. Open to grades 11 and 12.</p>
<p>CHEMISTRY/ PHYSICS 1 Course # 3800 Full year Credit: 1.0</p>	<p>This course is designed for those students needing additional chemistry and physics background before enrollment in a full-year course. Approximately one semester each will be devoted to topics in chemistry, such as atomic structure and gases, and topics in physics, such as motion and waves. This lab oriented course is taught at a pace that allows students to focus on chemistry and physics content development as well as study skills that could prepare students for a full-year chemistry or physics course. This is a laboratory course.</p> <p>Prerequisite: Successful completion of Algebra and departmental recommendation.</p> <p>This course is not open to students who have taken Chemistry or Physics. Open to grades 11 and 12.</p>
<p>CHEMISTRY THEMED Course # 3810 Full year Credit: 1.0 Supply fee: \$10.00</p>	<p>(Both Chemistry-Themed and Chemistry-Traditional are REGULAR level courses.) This is an environmentally themed chemistry course which teaches traditional chemistry concepts such as stoichiometry, acids and bases, and behavior of gases. Themed units include water, natural resources, petroleum, air and nuclear chemistry. This method of teaching chemistry is endorsed by the American Chemical Society. The course incorporates teamwork to develop problem solving skills and an understanding of the relevance and concepts of chemistry in everyday living. This course has a field-based lab requirement. This is a laboratory course and it does not meet the prerequisite for A.P. Chemistry.</p> <p>Prerequisite: Successful completion of Algebra 1, concurrent enrollment in Geometry or higher and departmental recommendation. Open to grades 10, 11, and 12.</p>
<p>CHEMISTRY TRADITIONAL Course # 3820 Full year Credit: 1.0 Supply fee: \$10.00</p>	<p>(Both Chemistry-Themed and Chemistry-Traditional are REGULAR level chemistry courses.) Traditional chemistry concepts such as stoichiometry, acids and bases, behavior of gases and molecular shapes are taught as students independently develop understanding through participation in classroom discussion, assignments, activities and labs. This is a laboratory course and it meets the prerequisite for A.P. Chemistry.</p> <p>Prerequisite: Successful completion of Algebra 1, concurrent enrollment in Geometry or higher and departmental recommendation. Open to grades 10, 11, and 12.</p>
<p>CHEMISTRY HONORS Course # 3830 Full year Credit: 1.0 Supply fee: \$10.00</p>	<p>The core material for this course is similar to that of Chemistry-Traditional and follows a similar sequence. The pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. Chemistry - Honors is a laboratory course. This course meets the pre-requisite for A.P. Chemistry.</p> <p>Students earning a C in this course will not be eligible for a level change.</p> <p>Prerequisite: Successful completion of Algebra I and departmental recommendation which will be based on a high level of ability in science, mathematics, and reading. Open to grades 10, 11, 12 and 9th graders enrolled in Algebra 2 Trig or higher.</p>

SCIENCE DEPARTMENT

<p>ADVANCED PLACEMENT CHEMISTRY <i>Course # 3840</i> Full year Credit: 1.0 Supply fee: \$10.00</p>	<p>This course follows the College Board's Advanced Placement curriculum and as such is extremely rigorous and fast paced. This course is comparable to an introductory college level chemistry course. College level materials are used. Advanced Placement Chemistry is a laboratory course.</p> <p>Prerequisite: Three years of science, including a year of Chemistry (Traditional or Honors) and a year of Physics (Traditional or Honors) and departmental recommendation. Concurrent enrollment in a third year of science and AP Chemistry is permitted. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>
<p>PHYSICS THEMED <i>Course # 3900</i> Full year Credit: 1.0</p>	<p>(Both Physics-Themed and Physics-Traditional are REGULAR level physics courses.) This is a theme-directed laboratory course. Quarterly themes are: Physics of the Arts, electrical physics, sports physics and rollercoaster physics. Topics including motion, forces, energy, waves, sound, optics, electricity and magnetism are taught in a directed approach with frequent assessment through participation in classroom lecture, assignments, activities, projects and labs. This course uses an electronic textbook and an electronic homework program which require internet access. This course is appropriate for students with average math ability. This is a laboratory course and it does not meet the prerequisite for A.P. Physics courses.</p> <p>Prerequisite: successful completion of Algebra 1, concurrent enrollment in Algebra II/Trig and departmental recommendation. Open to grades 10, 11, and 12.</p>
<p>PHYSICS TRADITIONAL <i>Course # 3920</i> Full year Credit: 1.0</p>	<p>(Both Physics-Themed and Physics -Traditional are REGULAR level physics courses.) This is a traditional high school physics laboratory course. Topics such as motion, forces, momentum, energy, waves, sound, light, optics, electricity and magnetism are taught as students independently develop understanding with less frequent assessment through participation in classroom lecture, assignments, activities, projects and labs. This course is appropriate for students with average math ability. This is a laboratory course and meets the prerequisite for A.P. Physics courses.</p> <p>Prerequisites: Successful completion of Algebra I, concurrent enrollment in Algebra II/Trig, and departmental recommendation. Open to grades 10, 11, and 12.</p>
<p>ADVANCED PLACEMENT PHYSICS 1 <i>Course # 3930</i> Full year Credit: 1.0</p>	<p>This is an algebra-based 1st year physics course following the College Board's Advanced Placement curriculum and as such is designed to prepare students for the AP Physics 1 exam. Topics such as motion, forces, momentum, energy, rotational dynamics, waves, sound, light, optics, electricity and magnetism are taught as students independently develop understanding with less frequent assessment through participation in classroom lecture, assignments, activities, projects and labs. Compared to Physics-Traditional, the pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. AP Physics 1 is extremely math intensive with an emphasis on symbolic manipulation of variables. This course meets the prerequisite for AP Physics C. AP Physics 1 is a laboratory course. Students earning a C in this course will not be eligible for a level change.</p> <p>Prerequisites: Successful completion of Algebra 2 Trigonometry and departmental recommendation that will be based upon high level ability in science, mathematics and reading. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>

SCIENCE DEPARTMENT

<p>ADVANCED PLACEMENT PHYSICS 2 Course # 3950 Full year Credit: 1.0</p>	<p>A.P. Physics 2 is a 2nd year physics course for regular-level students. It follows the College Board’s Advanced Placement curriculum and as such is designed to prepare students for the AP Physics 2 exam. The course is moderate paced and covers topics in mechanics, fluids, thermal physics, waves and optics, electrostatics, electricity and magnetism, and nuclear and atomic physics. Internet access is required to utilize an online homework service. This is a laboratory course and requires a lab composition book. Students are required to purchase an on-line homework program.</p> <p>Prerequisite: Department recommendation, and three years of science including chemistry and either A.P. Physics 1 or traditional physics. Concurrent enrollment in a third year of science is permitted. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>
<p>ADVANCED PLACEMENT PHYSICS C Course # 3960 Full year Credit: 1.0</p>	<p>This is a calculus-based 2nd year physics course following the Collage Board’s Advanced Placement curriculum and as such is designed to prepare students for the AP Physics C exam. Approximately half of the year is devoted to mechanics and the other to classical electricity and magnetism. Calculus is used in problem solving and derivations with usage increasing as the course progresses. This course, which uses college level materials, is comparable to an introductory college physics course for pre-med or engineering majors. Advanced Placement Physics is a laboratory course.</p> <p>Prerequisite: Departmental recommendation and three years of science, including years of Chemistry and Physics (AP Physics 1), as well as completion of Calculus AB or BC, or concurrent enrollment. Concurrent enrollment in a third year of science and AP Physics is permitted. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>
<p>ADVANCED PLACEMENT SEMINAR: SCIENCE Course # 3981 Full year Honors Credit Credit: 1.0</p>	<p>AP Seminar: <i>Science</i> has a disciplinary focus which engages students in cross-curricular conversations that explore the complexities of academic and real-world topics and issues by analyzing divergent perspectives. Throughout the course, students will collaborate on group scientific research assignments, complete individual science research and present and defend their conclusions. The course aims to equip students with the power to analyze and evaluate information with accuracy and precision in order to craft and communicate evidence-based arguments. <u>This is an elective science course and does not count towards your science graduation requirement nor does it serve as a prerequisite for Advanced Placement science courses. Earned credit will be applied to the student’s overall graduation credit total.</u></p> <p>Prerequisite: Successful completion of an honors level science course or successful completion of a regular level science course and teacher recommendation. During the school year, 2 years of science or concurrent enrollment in a second year of science. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) written and oral examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p> <p><i>This course is a prerequisite course for AP Research. Students who successfully complete both AP Seminar and AP Research will receive either an AP Certificate or AP Diploma depending on the number of AP courses they have completed.</i></p>

SCIENCE DEPARTMENT

**STUDENT INQUIRY
AND RESEARCH (SIR)
II HONORS**

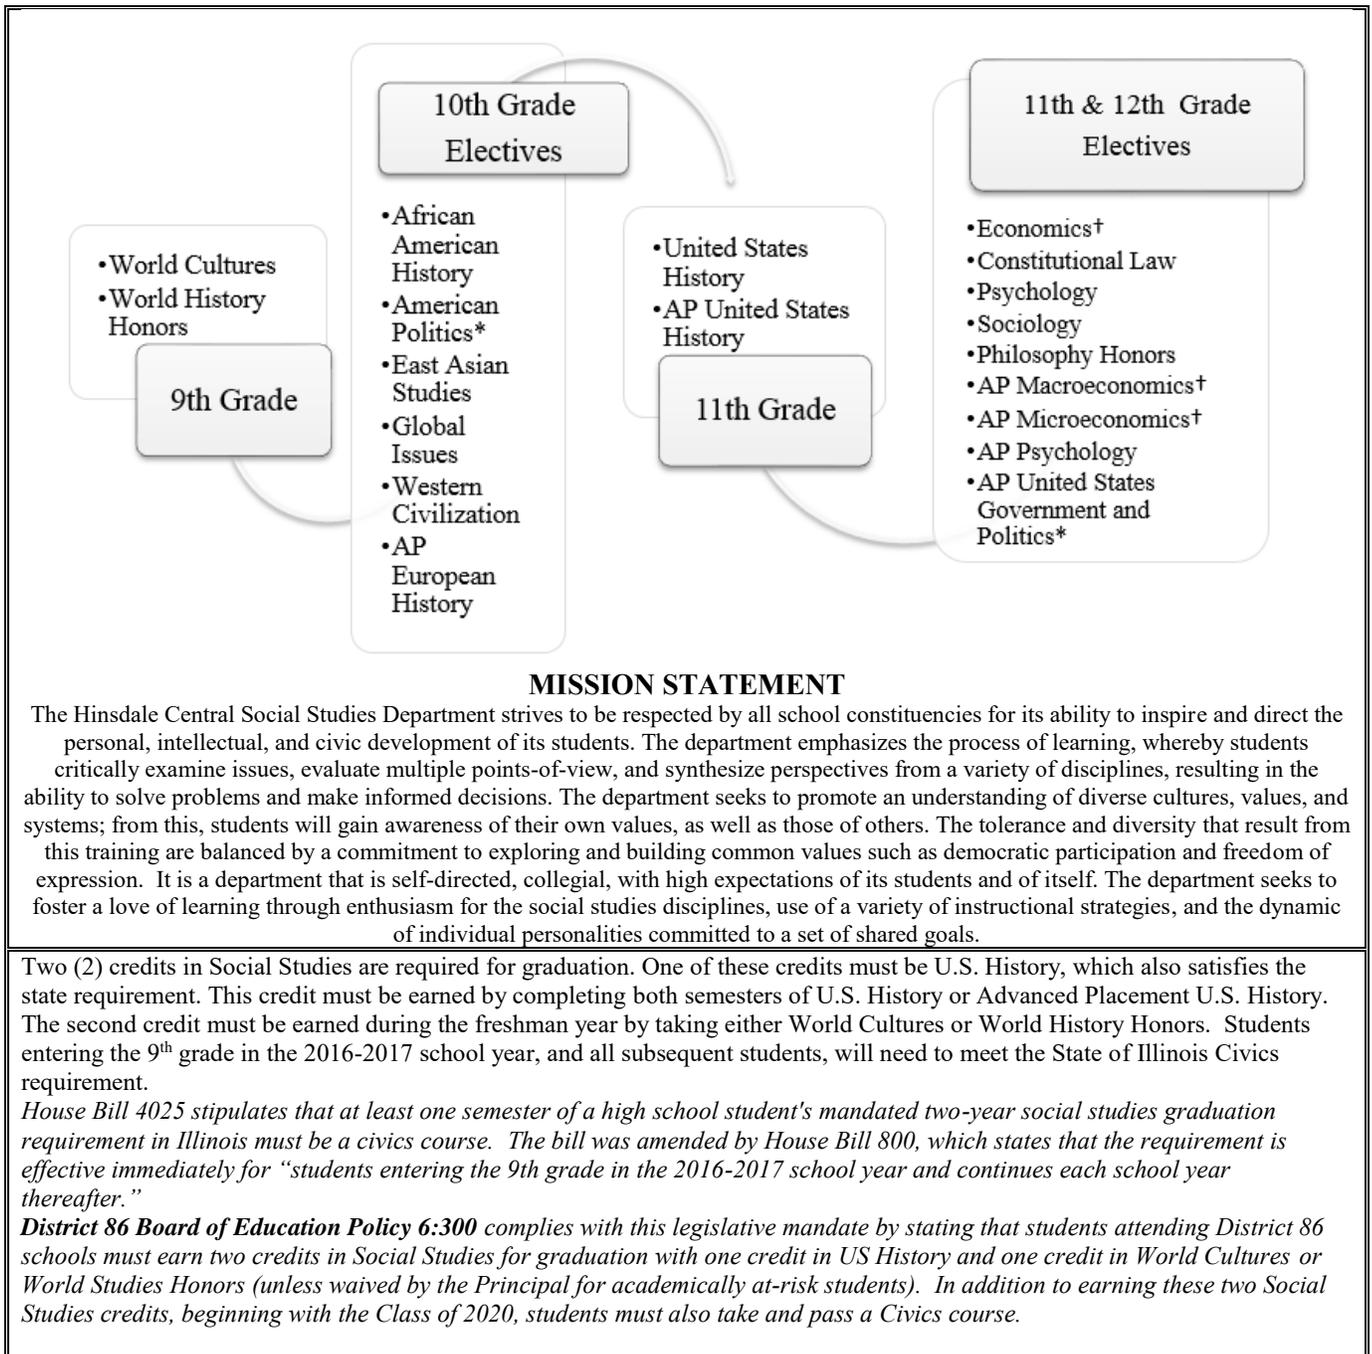

Course # 3980

Full year Honors Credit
Credit 1.0

This is an honors science course designed to further the student's research experience by working on a research investigation with a research mentor. The mentor is a professional who is currently working at a laboratory, educational institution, museum, field site, corporation, or other facility, and who is qualified to provide expert guidance. The student will be responsible for completing 150 hours of research outside of the school at the mentor's research facility and communicate their findings through a research paper and poster as well as communicate their findings orally at a public symposium at the end of the course. Students registering for eSIR II must make an appointment with the Science Department Chair.

Prerequisites: Successful completion of Science Inquiry & Research I AND a signed/approved mentor agreement.

SOCIAL STUDIES DEPARTMENT

MISSION STATEMENT

The Hinsdale Central Social Studies Department strives to be respected by all school constituencies for its ability to inspire and direct the personal, intellectual, and civic development of its students. The department emphasizes the process of learning, whereby students critically examine issues, evaluate multiple points-of-view, and synthesize perspectives from a variety of disciplines, resulting in the ability to solve problems and make informed decisions. The department seeks to promote an understanding of diverse cultures, values, and systems; from this, students will gain awareness of their own values, as well as those of others. The tolerance and diversity that result from this training are balanced by a commitment to exploring and building common values such as democratic participation and freedom of expression. It is a department that is self-directed, collegial, with high expectations of its students and of itself. The department seeks to foster a love of learning through enthusiasm for the social studies disciplines, use of a variety of instructional strategies, and the dynamic of individual personalities committed to a set of shared goals.

Two (2) credits in Social Studies are required for graduation. One of these credits must be U.S. History, which also satisfies the state requirement. This credit must be earned by completing both semesters of U.S. History or Advanced Placement U.S. History. The second credit must be earned during the freshman year by taking either World Cultures or World History Honors. Students entering the 9th grade in the 2016-2017 school year, and all subsequent students, will need to meet the State of Illinois Civics requirement.

House Bill 4025 stipulates that at least one semester of a high school student's mandated two-year social studies graduation requirement in Illinois must be a civics course. The bill was amended by House Bill 800, which states that the requirement is effective immediately for "students entering the 9th grade in the 2016-2017 school year and continues each school year thereafter."

District 86 Board of Education Policy 6:300 complies with this legislative mandate by stating that students attending District 86 schools must earn two credits in Social Studies for graduation with one credit in US History and one credit in World Cultures or World Studies Honors (unless waived by the Principal for academically at-risk students). In addition to earning these two Social Studies credits, beginning with the Class of 2020, students must also take and pass a Civics course.

SOCIAL STUDIES DEPARTMENT

<p>SOCIAL STUDIES FOUNDATIONS <i>Course # 2081</i> Full year Credit: 1.0</p>	<p>The goal of this course is to develop in students an understanding of citizenship that can be generalized in various facets of daily life. Students will sharpen their basic understanding of history, government, and social systems through the exploration of current and historical events. This course is for students who are reading two or more years below grade level.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>WORLD CULTURES <i>Course # 1850</i> Full year Credit: 1.0</p>	<p>This course is for students who are reading and writing below grade level. Curriculum in this course is a modification of the grade level standards but still explores the economic, historic, cultural and current issues pertaining to the world's major civilizations. A variety of activities and assessments will be used to foster the acquisition of content knowledge. Differentiated instruction in reading and writing is a component of the course.</p> <p>Prerequisite: Department Chair approval. Open to grade 9.</p>
<p>WORLD CULTURES <i>Course # 2140</i> Full year Credit: 1.0</p>	<p>World Cultures explores the geographic, economic, historic, cultural and current issues pertaining to the world's major civilizations. A variety of activities and assessments will be used to foster the acquisition of not only content knowledge, but also skills appropriate to the social studies.</p> <p>Prerequisite: None. Open to grade 9.</p> <p>Note: Students may not enroll in both World Cultures and World History Honors.</p>
<p>WORLD HISTORY HONORS <i>Course # 2220</i> Full year Credit: 1.0</p>	<p>This course surveys broadly, chronologically and topically, the chief features of various civilizations, culture, nations and major concepts from ancient to modern times. The historical development of Eastern and Western civilizations are explored. Core material is organized around a textbook; however, extensive supplemental reading is required. Students will be challenged with a variety of assessments including tests, papers, speeches, debates, presentations and cooperative learning activities.</p> <p>Prerequisite: Departmental approval. Open to grade 9.</p> <p>Note: Students may not enroll in both World History Honors and World Cultures.</p>
<p>AFRICAN AMERICAN HISTORY <i>Course # 2239, 2240</i> 1st or 2nd semester Credit: 0.5</p>	<p>African American History focuses on the unique contributions that slaves from Africa, and their descendants, have made towards the cultural and historical legacy of our nation. Topics of study will include the changing legal and social definitions of race in America, the efforts of African Americans to resist servitude, emancipation and its aftermath, the Harlem Renaissance, the Civil Rights movements, and contemporary issues facing African Americans. Students will examine historical sources, with special focus on the art and music created by African Americans. Assessments will include an oral history project, debates, creative projects, essays and exams.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>EAST ASIAN STUDIES <i>Course # 2241, 2242</i> 1st or 2nd semester Credit: 0.5</p>	<p>Asian Studies will examine the history and culture of China, Japan and Korea. Possible topics of study include the Samurai and code of Bushido, the emergence of Japan as a colonial power, the Rape of Nanking, the Korean War, the development of nuclear weapons by North Korea, and the emergence of China as a 21st century global superpower. The course is project, writing, and discussion oriented complimented with a field trip and experiential learning. Students will be challenged to avoid ethnocentrism and to understand these civilizations from the perspective of the people who came from them.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>

SOCIAL STUDIES DEPARTMENT

<p>GLOBAL ISSUES Course # 2231, 2232 1st or 2nd semester Credit: 0.5</p>	<p>Global Issues examines several major contemporary political, social, and diplomatic dilemmas of the 21st century. After tracing the historical roots of contemporary issues, students will analyze and evaluate each issue from a variety of perspectives. Possible topics include the proliferation of nuclear weapons, human rights and genocide, democracy and dissent, the future of the Middle East, the “war on terror,” U.S. foreign policy since Vietnam, and major domestic challenges. Active student participation on a daily basis and developing written and oral arguments are major components of a student’s grade.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>AMERICAN POLITICS Course # 2351, 2352 1st or 2nd Semester Credit: 0.5</p>	<p>A hands-on analysis of government and politics in the United States. Students learn general concepts used to interpret American politics. Analysis of specific case studies through simulation and community activity familiarizes students with the groups, organizations, issues and ideas that make up the American political system. Students will explore the causes of different political beliefs and behaviors and the role of interest groups and political parties.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12. Fulfills State of Illinois Civics requirement.</p>
<p>WESTERN CIVILIZATION Course # 2261, 2262 1st or 2nd semester Credit: 0.5</p>	<p>Western Civilization is a survey of the history of Western Civilization beginning with the influences of Greece and Rome and ending in the early Twentieth Century. Students will explore the historical trends, events, and ideas that have come to shape society today.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p> <p>Note: Students may not enroll in both Western Civilization and Advanced Placement European History.</p>
<p>ADVANCED PLACEMENT EUROPEAN HISTORY Course # 2440 Full year Credit: 1.0</p>	<p>Advanced Placement European History traces the political, social, economic, intellectual, and cultural development of European Civilization from the Renaissance to the present. A wide variety of teaching methods are used including discussion, debate, role-play, simulations and trials. Students will learn to use and evaluate primary sources, write critical essays, and analyze historical interpretations. This course prepares the student for the Advanced Placement European History examination.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11, and 12.</p> <p>Note: Students may not enroll in both Advanced Placement European History and Western Civilization.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>
<p>U.S. HISTORY Course # 1860 Full year Credit: 1.0</p>	<p>This course is for students who are reading and writing below grade level. Curriculum in this course is a modification of the grade level standards but provides a survey of Native American cultures through European colonization, founding of the new Republic and Constitution, includes the Civil War, and concludes with modern times. Units survey chronologically and topically the major events, personalities and issues which have played a part in the evolution of the American democratic republic. Differentiated instruction in reading and writing is a component of the course.</p> <p>Prerequisite: Department Chair approval. Open to grade 11.</p>

SOCIAL STUDIES DEPARTMENT

<p>U.S. HISTORY Course # 2310 Full year Credit: 1.0</p>	<p>U.S. History is a survey which covers Native American cultures through European colonization, founding of the new Republic and Constitution, includes the Civil War, and concludes with modern times. Units survey chronologically and topically the major events, personalities and issues which have played a part in the evolution of the American democratic republic.</p> <p>Prerequisite: None. Credit in this course fulfills U.S. History requirement. Open to grade 11.</p> <p>Note: Students may not enroll in both U.S. History and Advanced Placement U.S. History.</p>
<p>ADVANCED PLACEMENT U.S. HISTORY Course # 2320 Full year Credit: 1.0</p>	<p>Advanced Placement United States History is a survey course that is meant to replicate the academic rigor of a two semester college experience in a year. This class requires students to engage in extensive reading of primary sources and historical essays. Focus will be placed on the development of college level reading and writing skills. Key events and major themes such as American diversity, economic transformations and politics and citizenship will be examined in studying the nation's past. This course prepares the student for the Advanced Placement United States History examination.</p> <p>Prerequisite: Departmental approval. Credit in this course fulfills the U.S. History requirement. Open to grade 11.</p> <p>Note: Students may not enroll in both Advanced Placement U.S. History and U.S. History.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>
<p>CONSTITUTIONAL LAW Course # 2381, 2382 1st or 2nd semester Credit: 0.5</p>	<p>Constitutional Law is an introductory legal course which investigates many topics, including criminal law, trial rules, court systems, juvenile law, discrimination, and search and seizure law. In addition to using contemporary legal cases, a wide variety of teaching methods are used, including mock trial hearings, mock jury simulations, and videos. The primary learning tool in Constitutional Law is class discussion. Additionally, an alternative final exam is available for those students who would prefer a project.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>ECONOMICS Course # 2331, 2332 1st or 2nd semester Credit: 0.5</p>	<p>Economics investigates the principles that drive decision-makers, both consumers and producers, in our global marketplace. Students specifically examine the major components of the U.S. economic system; such as, opportunity costs, trade-offs, production and consumption practices, money and banking, savings and investment, business management and labor, business cycles, and economic relationships between nations. The study of Economics helps prepare students to make rational economic choices both in their own lives and in their participation in policy decisions as citizens of a city, state, nation, and the world. Learning is enhanced through current events, economic simulations and class activities.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p> <p>Note: Students may not take Economics, Advanced Placement Microeconomics or Advanced Placement Macroeconomics concurrently. Fulfills the Consumer Education requirement.</p>

SOCIAL STUDIES DEPARTMENT

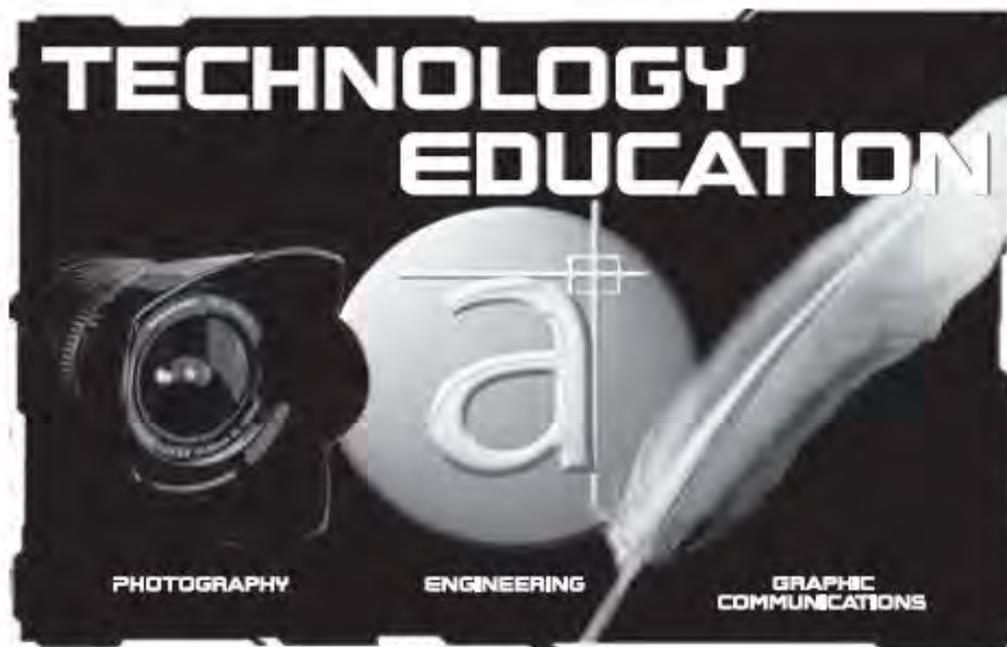

<p>ADVANCED PLACEMENT MACROECONOMICS <i>Course # 2441, 2442</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Placement Macroeconomics is the study of the United States' economy. Students examine economic topics such as unemployment, inflation, GDP, international trade, interest rates, monetary policy, fiscal policy, and the national debt and deficit. Students will come to understand the causes for problems in the economy and be able to prescribe economic policies for both healthy and unhealthy economies. Macroeconomics is an interdisciplinary course combining the social sciences with mathematical analysis and graphing. The course prepares students for the Advanced Placement exam in May.</p> <p>Prerequisite: Departmental approval. Credit in this course fulfills the Consumer Education requirement. Open to grades 11 and 12.</p> <p>Note: Students may not take Advanced Placement Macroeconomics, Advanced Placement Microeconomics or Economics concurrently.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>
<p>ADVANCED PLACEMENT MICROECONOMICS <i>Course # 2341, 2342</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Placement Microeconomics provides students with a thorough understanding of the decision making process for individuals and firms in the marketplace. It places primary emphasis on the operations of the product and factor markets along with the government's role in promoting efficiency and equity in various market structures. The course is conducted in a lecture/seminar manner supported by daily readings, practice problems, and student activities. The course prepares the student for the Advanced Placement exam in Microeconomics exam administered in May.</p> <p>Prerequisite: Departmental approval. Credit in this course fulfills the Consumer Education requirement. Open to grades 11 and 12.</p> <p>Note: Students may not take Advanced Placement Macroeconomics, Advanced Placement Microeconomics or Economics concurrently.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>
<p>PHILOSOPHY HONORS <i>Course # 2393, 2394</i> 1st or 2nd semester Credit: 0.5</p>	<p>Philosophy Honors will offer interested and intellectually curious students the opportunity to reflect on fundamental questions related to the human condition, such as the basis of knowledge, ethical theories and issues, artificial intelligence, free will versus determinism, rational proofs for the existence of God, and the meaning of evil and suffering. The goal of the course will not be so much to cover a particular body of philosophers, but to raise important issues that will spur students to further inquiry, study, and application in their own lives. Much of the class will involve reading, discussion, and writing. Students will be expected to read carefully, write critically, and participate in class discussions. Philosophy and Ethics is an honors level course.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>PSYCHOLOGY <i>Course # 2431, 2432</i> 1st or 2nd semester Credit: 0.5</p>	<p>Psychology focuses on the study of human behavior from many perspectives. Audiovisual materials, experiments, projects and case studies are used to understand the human experience. This class is heavily discussion based. In addition, much independent coursework is used to investigate topics such as development, the brain, altered states of consciousness, learning, personality and abnormal behavior.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p> <p>Note: Students may not take Psychology and Advanced Placement Psychology</p>

SOCIAL STUDIES DEPARTMENT

<p>ADVANCED PLACEMENT PSYCHOLOGY <i>Course # 2430</i> Full year Credit: 1.0</p>	<p>AP Psychology explores why human beings are the way that they are. This course traces the emergence of scientific psychology in the nineteenth century from its roots in philosophy and physiology to present day practices. The development of the major “schools” of psychology and showing how they differed in subject matter and the methods of study are covered. This historical introduction helps students gain an understanding of the principal twentieth century approaches to psychology: behavioral, biological, cognitive, humanistic and psychodynamic. This class prepares students for the Advanced Placement Psychology examination.</p> <p>Prerequisite: Departmental approval. Concurrent enrollment in U.S. History or previous completion of U.S. History during the regular school year. Open to grades 11 and 12.</p> <p>Note: Students may not enroll in both AP Psychology and Psychology concurrently.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>
<p>SOCIOLOGY <i>Course # 2371, 2372</i> 1st or 2nd semester Credit: 0.5</p>	<p>Sociology is the study of man’s social behavior. The course increases the student’s awareness of social pressures that affect one’s own behavior and the behavior of others. Typical activities such as discussions, experiments, student planned projects and a wide variety of films and videotapes enable the student to apply knowledge gained in the course to his or her own life.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT UNITED STATES GOVERNMENT & POLITICS <i>Course # 2361, 2362</i> 1st or 2nd semester Credit: 0.5</p>	<p>AP United States Government and Politics is an advanced placement course designed to give students both theoretical and realistic perspectives on politics and government in the United States. Its focus is on the interconnectedness between the various institutions, opinions and policies that make up the national public system. Student political involvement is emphasized. This class prepares students for the Advanced Placement United States Government and Politics examination.</p> <p>Prerequisite: Departmental approval. Concurrent enrollment in U.S. History or previous completion of U.S. History during the regular school year. Open to grades 11 and 12. This course fulfills the State of Illinois Civics requirement.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>

TECHNOLOGY EDUCATION DEPARTMENT

Technology Education

The Technology Education Department offers an elective course of study to all students at Hinsdale Central High School. Department courses help students meet the elective arts requirement of District 86. The primary instructional mode in the classroom is lab-orientated student projects, using a wide range of instructional techniques and a variety of state-of-the-art technologies. The department offers a diverse range of technology-related courses that allows for educational and career exploration. Program area of study include: Engineering and Design, Architecture, Graphic Communications, Photography and Digital Video Production.

TECHNOLOGY EDUCATION DEPARTMENT

TECHNOLOGY EDUCATION DEPARTMENT

COURSE TITLE	Course #	Prerequisite	Credit	Grade Offered
Pre-Engineering 1	6601/6602	No	0.5	9-12
Pre-Engineering 2	6611/6612	Yes	0.5	9-12
Pre-Engineering 2 Honors	6611A/6612A	Yes	0.5	9-12
Engineering & Design	6620	Yes	1.0	10-12
Engineering & Design Honors	6625	Yes*	1.0	10-12
Architecture & Design	6630	Yes	1.0	11-12
Architecture & Design Honors	6635	Yes*	1.0	11-12
Advanced Engineering and Architectural Modeling	6640	Yes	1.0	12
Advanced Engineering and Architectural Modeling Honors	6645	Yes*	1.0	12
Graphic Communications-Fundamentals	6661/6663	No	0.5	9-12
Graphic Communications-Desktop Publishing	6650/6651	Yes	0.5	9-12
Graphic Communications-Desktop Publishing Honors	6652/6653	Yes*	0.5	9-12
Graphic Communications-Web Design	6662/6664	Yes	0.5	9-12
Graphic Communications-Web Design Honors Option	6667/6668	Yes*	0.5	9-12
Graphic Communications- Game Design	6681	Yes	1.0	10-12
Graphic Communications-Advanced Graphics	6660/6665	Yes	0.5	10-12
Graphic Communications-Advanced Graphics Honors	6666/6669	Yes*	0.5	10-12
Graphic Communications-Independent Study	6905/6906	Yes	0.5	11-12
Basic Photography - Traditional & Digital Black & White	6691/6692	No	0.5	9-12
Digital Color Photography	6701/6702	Yes	0.5	9-12
Digital Color Photography Honors	6703/6704	Yes*	0.5	9-12
Advanced Photography	6812	Yes	0.5	10-12
Advanced Photography Honors	6814	Yes*	0.5	10-12
Independent Study – Photography	6907/6908	Yes	0.5	10-12
Digital Video Production	9201/9202	No	0.5	9-12

*Requires prerequisite courses and departmental approval.

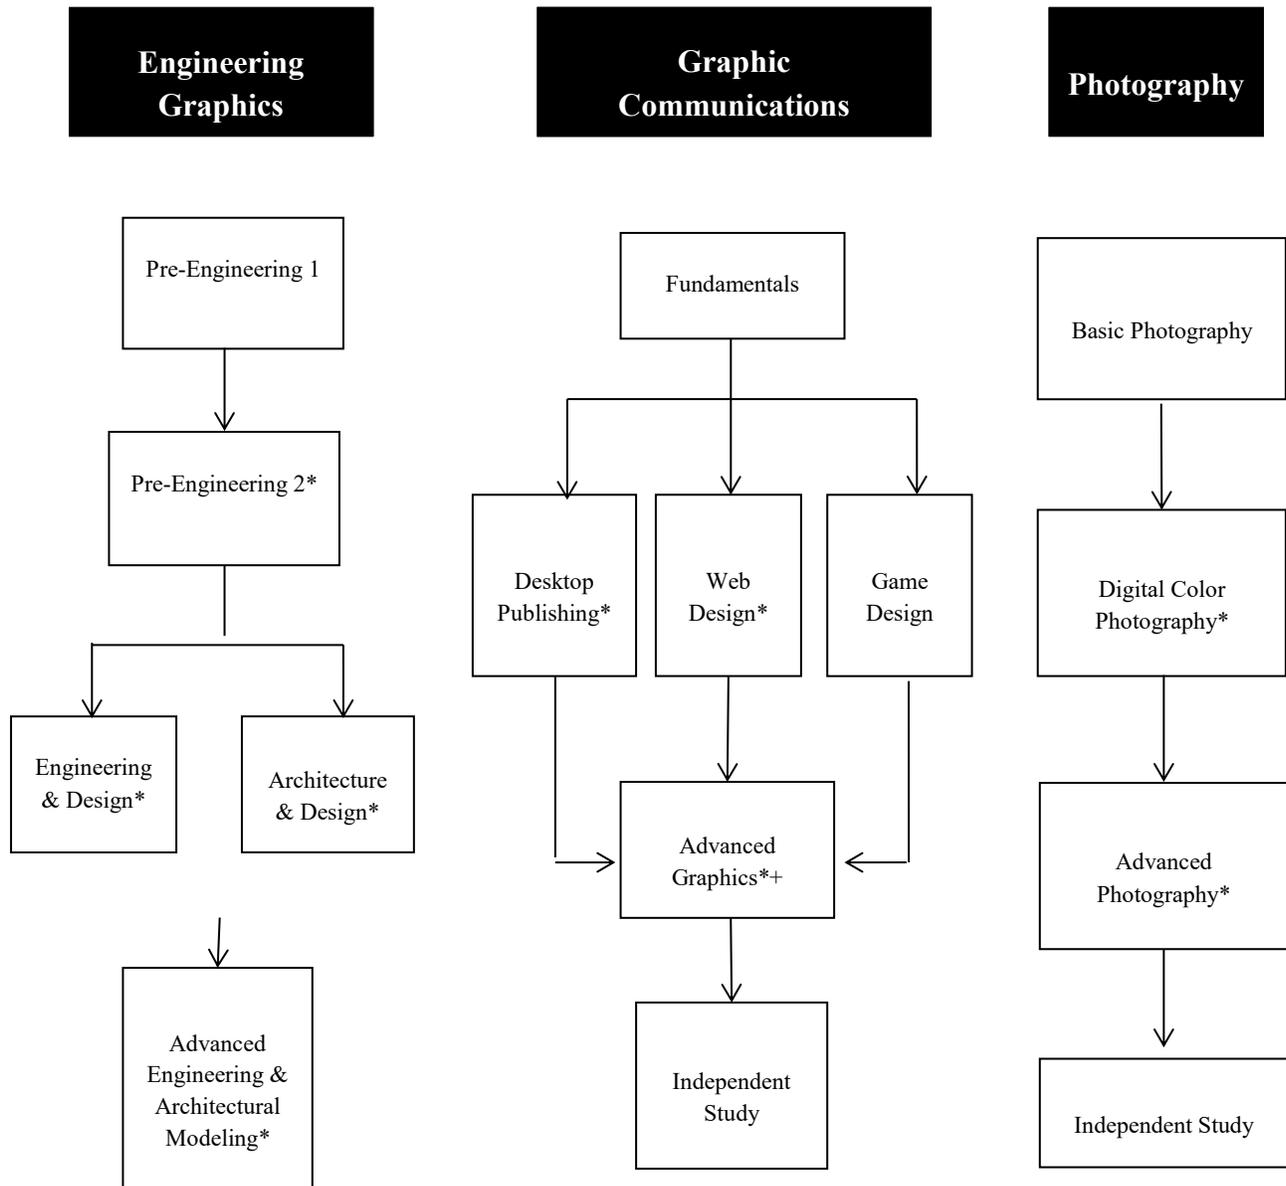

Shown below are possible course selection sequences in the Engineering & Design and Architecture programs as students enter each grade. If students enter the program in 9th grade, they can complete the program by the time they graduate.

	9 th Grade	10 th Grade	11 th Grade	12 th Grade
1st Year	Pre-Engineering 1	Pre-Engineering 1	Pre-Engineering 1	Pre-Engineering 1
	Pre-Engineering 2**	Pre-Engineering 2**	Pre-Engineering 2**	Pre-Engineering 2**
2nd Year	Engineering & Design**	Engineering & Design** and/or Architecture & Design**	Engineering & Design** and/or Architecture & Design**	
3rd Year	Architecture & Design**	Architecture & Design** and/or Advanced Engineering & Architectural Modeling**		
4th Year	Advanced Engineering and Architectural Modeling**			

**Honors Option offered in these courses

TECHNOLOGY EDUCATION DEPARTMENT

Shown below are course sequences for the Technology Education Programs. Students are encouraged to take entry level courses as early as possible to allow for further courses as need or interest develops.

*Honors course option available

**Can enroll directly into Desktop Publishing if taking Journalism with department approval.

+ Advanced Graphics may be repeated with department approval.

TECHNOLOGY EDUCATION DEPARTMENT

ENGINEERING & DESIGN PROGRAM

NOTE: Software titles currently used in our Engineering & Design and Architecture courses include up-to-date versions of AutoCAD, Inventor Professional, Revit Architecture, and 3D Studio Max.

<p>PRE-ENGINEERING 1 Course # 6601, 6602 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces the student to the fundamentals of mechanical drafting while using current AutoCAD software in our CAD Lab. The course is also devoted to Science, Technology, Engineering and Mathematics (S.T.E.M.)-related content, particularly engineering/technological design problem solving. The student will be taught many AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. Mechanical drawing problems will range from 2D drawings, orthographic projection, sectional view, and pictorial views (isometric and oblique). Freehand sketching on graph paper is also integrated into each assignment. Students will also be introduced to 3D modeling and 3D printing (rapid prototyping). During the semester, each student will create a portfolio of work which will include an individually created 3-D model.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12. Supply fee: \$10.00.</p>
<p>PRE-ENGINEERING 2 Course # 6611, 6612 1st or 2nd semester Credit: 0.5</p>	<p>This course will continue to introduce the student to the fundamentals of mechanical drafting while using current AutoCAD software in our CAD Lab. The course will further explore Science, Technology, Engineering and Mathematics (S.T.E.M.)-related content and provide the student with a strong background in STEM principles. The student will be taught additional AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. Mechanical drawing problems will range from auxiliary views, rotations, developments and intersections, and dimensioning techniques of orthographic projection problems. Freehand sketching on graph paper is also integrated into each assignment. During the semester, each student will create an individual portfolio of work.</p> <p>Prerequisites: #6601. Open to grades 9, 10, 11, and 12. Supply Fee: \$10.00.</p>
<p>PRE-ENGINEERING 2 HONORS Course #6611A, 6612A 1st or 2nd semester Credit: 0.5</p>	<p>The core material for this course is similar to Pre-Engineering 2 course 6611 & 6612; however projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivate students planning to enter a college engineering program.</p> <p>Prerequisites: #6601 and department approval. Open to grades 9, 10, 11, and 12. Supply Fee: \$10.00</p>
<p>ENGINEERING & DESIGN Course # 6620 Full year Credit: 1.0</p>	<p>The goal of the Engineering & Design course is to expand the student's knowledge in the following areas: computer software usage, manufacturing processes, engineering and design, application of acquired knowledge in making production drawings, and career opportunities in a variety of engineering fields. This course continues exploration of Science, Technology, Engineering and Mathematics (S.T.E.M.)-related content. Engineering design projects will enable students to make the necessary connections between the STEM disciplines and the world around them. Students in this class will be expected to work at an accelerated pace on individual projects and some small group work. The computer is the primary means of graphic problem solving using AutoCAD software. Students will be instructed on proper techniques using Autodesk Inventor to create 3D models. Using Inventor, students will create a model race car that demonstrates the power of this software package. A series of problems which require model construction is also part of the curriculum, including the use of 3D printing technology (rapid prototyping). In addition, students will use 3D digitizer technology for reverse engineering applications, 4 axis CNC mill for production, injection molding and vacuum forming. Robotics topics will also be covered in this course. During the semester, each student will create an individual portfolio of work.</p> <p>Prerequisites: #6601 and #6611. Open to grades 10, 11 and 12. Supply Fee: \$18.00.</p>

TECHNOLOGY EDUCATION DEPARTMENT

<p>ENGINEERING & DESIGN HONORS Course # 6625 Full year Credit: 1.0</p>	<p>The core material for this course is similar to Engineering & Design course #6620; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program.</p> <p>Prerequisites: #6601 and #6611 and department approval. Open to grades 10, 11, and 12. Supply Fee: \$18.00</p>
<p>ARCHITECTURE & DESIGN Course # 6630 Full year Credit: 1.0</p>	<p>In the course Architecture & Design, the student will learn how to design and draw a complete set of architectural drawings necessary to construct a residential home. The student will apply Science, Technology, Engineering and Mathematics (S.T.E.M.) concepts to design and print a professional set of blueprints. Room planning, flow patterns, design concepts, floor plans, construction details, elevations and presentation drawings will be completed during the first semester using a computer and AutoCAD software. During the second semester, students will construct a scaled (3/4"=1') model of the home they designed the first semester. In addition, non-traditional building methods will be explored: Super Insulated housing, Earth Sheltered housing, Wind Energy, Solar Energy, Energy Efficiency and Green Building. Information related to home construction, home building, building cost, permits and home buying will be explored and discussed.</p> <p>Prerequisite: #6611 or Department Approval. Open to grades 11 and 12. Supply Fee: \$18.00.</p>
<p>ARCHITECTURE & DESIGN HONORS Course # 6635 Full year Credit: 1.0</p>	<p>The core material for this course is similar to Architecture & Design course #6630; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program or architecture program.</p> <p>Prerequisite: #6601 and #6611 and Department Approval. Open to grades 11 and 12. Supply Fee: \$18.00.</p>
<p>ADVANCED ENGINEERING & ARCHITECTURAL MODELING Course # 6640 Full year Credit: 1.0</p>	<p>This is the culminating course in the Engineering & Architecture program that will help prepare provide students for college. Students will have additional challenges as they are introduced to several 3D modeling software programs. Students will be required to use the skills learned in both their engineering and architectural graphics courses as they make the transition from 2D drawings to 3D. Science, Technology, Engineering and Mathematics (S.T.E.M.) concepts will be integrated through the use of various project-based activities. Students will explore software programs such as Inventor, Revit and 3D Studio Max, while developing 3D models and animating them. Students will use 3D digitizer technology for reverse engineering applications to accurately reproduce parts. They will also use 3D print technology (rapid prototyping) to generate models for visual inspection and functional testing. A CNC mill, vacuum form machine, injection molding and foundry will also be applied throughout this course. More in depth robotic principles will be applied to solve problems with a programmable robot. An electronic portfolio will record all work completed during the school year. Students will leave the class with various 3D models and projects they produced.</p> <p>Prerequisite: Engineering & Design & Architecture & Design and/or Department Approval. Open to grade 12. Supply Fee: \$18.00.</p>
<p>ADVANCED ENGINEERING & ARCHITECTURAL MODELING HONORS Course # 6645 Full year Credit: 1.0</p>	<p>The core material for this course is similar to course #6640, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program.</p> <p>Prerequisite: Engineering & Design, Architecture & Design or Engineering & Design Honors, Architecture & Design Honors and Department Approval. Open to grade 12. Supply Fee: \$18.00.</p>

TECHNOLOGY EDUCATION DEPARTMENT

GRAPHIC COMMUNICATION PROGRAM

<p>GRAPHIC COMMUNICATIONS - FUNDAMENTALS (GCF) <i>Course # 6661, 6663</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course provides students with a foundation of essential skills needed for creating print and web documents. Special emphasis is placed on furnishing students with a survey of realistic experiences using Adobe Illustrator and PhotoShop. Areas of study include technical illustration, typography, color models, photo retouching and image manipulation. This course focuses on development of sound fundamental skills used in later Graphic Communications courses.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12. Supply Fee: \$10.00</p>
<p>GRAPHIC COMMUNICATIONS - DESKTOP PUBLISHING (GCDP) <i>Course # 6650, 6651</i> 1st or 2nd semester Credit: 0.5</p>	<p>Learn to design, layout and prepare documents for print. Topics include typography and typographic controls, image preparation, creation of master pages, paragraph and character styles, and document pre-flight and fundamental design and layout principles. Development of fluency with Adobe InDesign is emphasized. This course covers essential skills used in producing the Devil's Advocate (newspaper) and El Diablo (yearbook) and is especially recommended for students who are interested in editorial positions.</p> <p>Prerequisite: GCF or Journalism 1 (J1 taken concurrently with Department Approval) Supply Fee: \$10.00. Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS - DESKTOP PUBLISHING HONORS (GCDP) <i>Course # 6652, 6653</i> 1st or 2nd semester Credit: 0.5</p>	<p>The core material for this course is similar to Desktop Publishing #6640, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF) or Journalism 1 (J1 taken concurrently with Department Approval). Supply Fee: \$10.00. Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS - WEB DESIGN (GCW) <i>Course # 6662, 6664</i> 1st or 2nd semester Credit: 0.5</p>	<p>Create professional looking websites! Web Design provides students with an overview of essential disciplines found in web development and the skills necessary to visually create websites using Adobe Dreamweaver. Although this is not a programming course, basic coding principles will be covered. Areas of study include Internet history, information architecture, site mapping and wireframe development, user experience (UX), search engine optimization (SEO), and development of fluency with Dreamweaver.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF). Supply Fee: \$10.00. Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS - WEB DESIGN HONORS (GCW) <i>Course # 6667, 6668</i> 1st or 2nd semester Credit: 0.5</p>	<p>The core curriculum for this course is similar to Web Design #6662, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF). Supply Fee: \$10.00. Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS - GAME DESIGN (GGD) <i>Course # 6681</i> Full year Credit: 1.0</p>	<p>Create interactive 2D games and game graphics! Learn about game and level design, sprite creation, background tile design, character design, gameplay and story development. Create classic arcade, maze, and simple platform games as you learn. The class culminates with students creating their own original games.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF). Supply Fee: \$10.00. Open to grades 10, 11, and 12.</p>

TECHNOLOGY EDUCATION DEPARTMENT

<p>GRAPHIC COMMUNICATIONS - ADVANCED GRAPHICS (GCA) <i>Course # 6660, 6665</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed for those students who wish to apply the skills learned in their study of Graphic Communications more deeply to real world projects. Students will focus on several areas of interest and develop real world products in a client-project manager arrangement. The outcome of this course is a comprehensive electronic portfolio for use in many college and university admission processes.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF) and one of the following: GCW, GCM, GCDP. Supply Fee: \$10.00. Open to grades 10, 11, and 12. This course may be repeated with Department Chair approval. Students who elect to repeat the course will work with the instructor to create an individualized curriculum.</p>
<p>GRAPHIC COMMUNICATIONS – ADVANCED GRAPHICS HONORS (GCA) <i>Course # 6666, 6669</i> 1st or 2nd semester Credit: 0.5</p>	<p>The core material for this course is an extension of Advanced Graphics #6660/6665; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class and significantly more portfolio requirements. This course is highly recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF) and one of the following: GCW, GCG, GCDP, and Department Approval. Supply Fee: \$10.00. Open to grades 10, 11, and 12. This course may be repeated with Department Chair approval. Students who elect to repeat the course will work with the instructor to create an individualized curriculum.</p>
<p>GRAPHIC COMMUNICATIONS -INDEPENDENT STUDY (GCIS) <i>Course # 6905, 6906</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is intended for students who have exhausted other course offerings and wish to further skills learned in the Graphic Communications program in an independent atmosphere.</p> <p>Prerequisite: Departmental Approval. Supply Fee: \$10.00. Open to grades 11 and 12.</p>
<p>PHOTOGRAPHY PROGRAM</p>	
<p>BASIC PHOTOGRAPHY TRADITIONAL and DIGITAL BLACK & WHITE <i>Course # 6691, 6692</i> 1st or 2nd semester Credit: 0.5</p>	<p>Basic photography is for students interested in learning the techniques necessary to produce technically correct and aesthetically pleasing photographs. Digital and film capture of images will be explored. Areas of study will include, but are not limited to, the composition of a good photograph; the processing of black and white photographic materials; and proper application of photographic equipment and supplies. Photographic equipment and supplies will be provided along with cameras for students who do not have access to a Single Lens Reflex (SLR) camera.</p> <p>Prerequisites: None. Supply Fee: \$35.00. Open to grades 9, 10, 11, and 12.</p>
<p>DIGITAL COLOR PHOTOGRAPHY <i>Course # 6701, 6702</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is for students interested in the modern methods of Digital Color Photography. The student will use a digital camera to capture images. After capture, photographs will be produced in the digital darkroom using a computer and Photoshop software. Areas of study include, but are not limited to, the principles of color and light; elements of a good photograph; capturing images with a digital camera; editing a photograph for presentation with Photoshop; printing a digital file in color; and preparing a photograph for display. The studio will be used to further the use of shade and shadow, light ratios, and photographic composition techniques. Still life and portrait techniques will be explored. Equipment and supplies will be furnished. Cameras are available for students who do not own or have access to a digital camera. Basic Photography and Digital Color Photography together have articulated credit with the College of DuPage.</p> <p>Prerequisite: Basic Photography. Supply Fee: \$35.00. Open to grades 9, 10, 11, and 12.</p>

TECHNOLOGY EDUCATION DEPARTMENT

<p>DIGITAL COLOR PHOTOGRAPHY HONORS <i>Course # 6703, 6704</i> 1st or 2nd semester Credit: 0.5</p>	<p>Beyond the regular advanced photography content, additional projects and assignments will require the selection of a concentration and/or theme by the student. The selected theme will necessitate greater depth, complexity, and rigor to produce higher-level photographs. Expectations for this class will require extra lab work outside of class. This class is recommended for highly motivated photography students looking to add meaningful pictures to their portfolio.</p> <p>Prerequisite: Basic Photography. Supply Fee: \$35.00. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED PHOTOGRAPHY <i>Course # 6812</i> 2nd semester Credit: 0.5</p>	<p>In this advanced level course, students will be expected to improve upon their current level of photographic ability. Students will have the opportunity to explore digital and film capture of images. In terms of technique, students will be introduced to different camera formats and the zone system (a procedure which will allow students to make more carefully controlled photographic prints.) Additionally, some non-traditional films, papers, and emulsions will be introduced. In terms of content, through class assignments and independent work, students will further their use of photographic medium to more effectively articulate ideas. Students will have the opportunity to work with black and white film, color film, infrared film, and digital cameras to capture images. Students will be expected to properly display and critique their photographic work.</p> <p>Prerequisites: Basic Photography and Digital Color Photography with instructor approval. Supply fee: \$40.00. Open to grades 10, 11, and 12.</p>
<p>ADVANCED PHOTOGRAPHY HONORS <i>Course # 6814</i> 2nd semester Credit: 0.5</p>	<p>Beyond the regular advanced photography content additional projects and assignments will require the selection of a concentration and or theme by the student. The selected theme will necessitate the demonstration of greater photographic complexity, and an advanced understanding of light to produce higher-level photographs. Expectations for this class will require extra lab work outside of class. This class is recommended for highly motivated photography students looking to add meaningful well-composed pictures to their portfolio.</p> <p>Prerequisites: Basic Photography and Color Photography with instructor approval. Supply fee: \$40.00. Open to grades 10, 11, and 12.</p>
<p>INDEPENDENT STUDY - PHOTOGRAPHY <i>Course # 6907, 6908</i> Credit: 0.5</p>	<p>This course is designed for students who have completed course sequence in photography program and desire further independent course work.</p> <p>Prerequisite: Departmental Approval. Supply Fee: \$40.00. Open to grades 11 and 12.</p>

TECHNOLOGY EDUCATION DEPARTMENT

DIGITAL VIDEO PRODUCTION

DIGITAL VIDEO PRODUCTION

Course # 9201, 9202

1st or 2nd semester

Credit: 0.5

This course is designed to provide students with the skills needed for a career in the technical and artistic aspects of media production. Instruction will include the study and analysis of media and television and their effects on society. Instruction will include camera operations, basic audio and video editing, sound and lighting techniques and audio mixing. Students will learn to operate video and DVD recording equipment, video/digital cameras, microphones, lighting/grip equipment and other production equipment used in the video and audio production of media.

Students will work in a **team-based** environment to create a variety of video and audio productions. Instruction will include single and multi-camera operation, advanced video editing, pre-production, production, and post production Within each of these projects a student will be learning different techniques of the camera, software and sound engineering. As you move along then your skills and knowledge will increase with each project:

1. Silent Movie
2. Public Service Announcement
3. Movie Trailer
4. Interview/Documentary
5. Commercial/Infomercial
6. Music Video
7. Live Event Coverage
8. Comedy/Drama Screenplay interpretation
9. Narrative Format of Storytelling

Prerequisite: None. Open to all students grades 9, 10, 11, and 12. Course may be repeated with permission of Department Chair. Students who elect to repeat the class will be designated as “Advanced Students” and will follow a different class map. With this designation, the student and instructor will work together to create an individualized curriculum that concentrates on the student’s area of interest (editing, documentary, reporting, screenplay writing, short films, etc.) This will give the student the opportunity to advance his/her skills and create an on-going portfolio of his/her work. (This course does not satisfy the elective arts requirement.)

TECHNOLOGY CENTER OF DUPAGE

TCD PROGRAM

TECHNOLOGY CENTER OF DUPAGE (TCD)

Technology Center of DuPage (TCD) prepares juniors and seniors for college and a career through 20 advanced career and technical education electives. It is operated by joint agreement among 14 member high school districts, including District #86. TCD is fully accredited by the North Central Association Commission on Accreditation and School Improvement (NA-CASI, a division of AdvancED).

Students spend part of each school at the TCD campus, located at 301 S. Swift Road between North Avenue and Army Trail Road in Addison. Transportation to and from TCD is provided by District #86.

Opportunities through TCD include:

Dual credit (both high school and free, transferable college credit at the same time)

Available industry certifications or licenses

Career exploration and development before making important college decisions.

The only cost to the student is a flat participation fee of \$100 (exception: Cosmetology – see the TCD website for information). Check with your counselor for any fees added by Hinsdale Central High School.

For further information, students should contact their counselor, take the TCD field trip in the fall, read the TCD program guide, or visit the TCD website (www.tcdupage.org) for complete information about the following electives:

TECHNOLOGY CENTER OF DUPAGE

TECHNOLOGY CENTER OF DUPAGE (TCD) 2016 - 2017

TECHNOLOGY CENTER OF DUPAGE PROGRAMS <i>Course # 9009(AM),9010(PM)</i> Credit: 3.0	The requirements and objectives associated with the specific Technology Center of DuPage (TCD) programs listed above vary greatly. Students who wish to obtain further information about a particular program and/or wish to register for a TCD program must see their counselor. All students must fill out a separate TCD form with parent signature and return to their counselor. Prerequisite: None. Open to grades 11 and 12.
---	---

TCD Enrollment Information

TCD offers advanced career and technical education electives for the District #86 students serious about pursuing one of the available career pathways. The focus is on college and career readiness through applied academics, workplace skill development, and work-based learning experiences, as well as identifying and preparing for the postsecondary education critical for success and advancement in the chosen career pathway. See the TCD website for program information, recommendations, college credit opportunities, available industry certifications, and course syllabi: www.tcdupage.org

Enrollment at TCD is available junior year, senior year, or both. Programs may be taken one or two years, unless otherwise noted. Please talk to your counselor regarding enrollment criteria, including possible course prerequisites, established by District #86.

Listed below are programs offered at TCD as well as District #86 pre-requisites for enrolling in the program. All TCD courses will satisfy the District #86 graduation requirement in Applied Arts. Check with your counselor for any academic credit that specific TCD programs can also fulfill. A maximum of 3.0 units of credit can be earned yearly through TCD course work. See www.tcdupage.org for information about each program's college credit opportunities.

Pathway to Engineering (curriculum developed by Project Lead the Way – PLTW.org) Each course is one semester unless noted otherwise –choose two courses per year	
Introduction to Engineering Design (IED)*	Algebra 1 and Geometry recommended
Principles of Engineering (POE)*	Algebra 1 and Geometry recommended
Civil Engineering & Architecture (CEA)*	IED and POE and concurrent enrollment in Advanced Algebra and/or Physics recommended
Digital Electronics (DE) *	IED and POE and concurrent enrollment in Advanced Algebra and/or Physics recommended
Engineering Design & Development (EDD)* This is a one-year capstone course which may be taken concurrently with CEA and DE.	IED/POE, and CEA or DE; concurrent enrollment in Advanced Algebra and Physics recommended
TRANSPORTATION AND LOGISTICS	
Auto Body Repair and Refinishing	
Automotive Technology	

*These are courses offered in the Pathway to Engineering program. Introduction to Engineering Design and Principles of Engineering are foundation courses offered for the first year. Second year students take one specialized course and the capstone course (EDD). Please see the TCD website, www.tcdupage.org.for further information.

WORLD LANGUAGES DEPARTMENT

Maggie Ahern, Design

World Languages

Artwork by Maggie Ahern

Mission Statement

Our mission as a department is to enable students to acquire, develop, expand, and apply their knowledge of a new language. We do this by working collaboratively within our learning community to:

- Maximize student potential for learning and language acquisition
- Guide student learning by modeling good study habits and effective learning skills.

We do this so that students can integrate and transfer knowledge of a new language throughout their lives, and gain a broader perspective and understanding of world cultures within a respectful community of learners.

Two years of the same language will fulfill the entrance requirement of the state public universities in Illinois. Most other universities require world language study for admission and may require it for graduation from specific degree programs. ***High school students preparing for college should include one or more world languages in their preparation.***

Students entering ninth grade with previous world language experience can complete the equivalent of five or six years of high school work, which may include Advanced Placement work. In accordance with board policy 6:320, students who enter high school in Level 2 of any language course can opt-in to receive 1.0 proficiency credit upon earning a C or higher in the Level 2 language course. Students who complete the upper levels of a language often test out of the world language requirements, receive college credit, and/or are placed in advanced language courses in college. A sequence of honors level courses is available in all languages offered by the Department.

Two or more world languages may be taken simultaneously. The latest research indicates that studying two languages at the same time is beneficial and that world language study has positive effects on a student's English language skills. Completing the third and fourth year in a sequence significantly improves achievement and fluency. Etymology, a semester course, is highly recommended to all students who wish to increase their knowledge and understanding of vocabulary.

The first semester of a language must be passed before a student may take the second semester of the same language. Credit must be earned in both semesters of one level of a language before advancing to the next level.

WORLD LANGUAGES DEPARTMENT

ETYMOLOGY	
<p>ETYMOLOGY <i>Course # 4371, 4372</i> 1st or 2nd Semester Credit: 0.5</p>	<p>Etymology is designed to increase one's knowledge and understanding of English vocabulary through the study of the most important Greek and Latin roots. Students learn to discover meanings of words through recognition and interpretation of their elements. The skills learned in Etymology equip students to decode vocabulary words encountered elsewhere (transfer of knowledge). The ability to memorize is a necessary fundamental skill. Recommended for all qualifying students who would like to develop their vocabulary before taking standardized tests</p> <p>Prerequisite: A grade of C or better in the world language most recently studied, or (if no world language) consent of the department chair. Open to grades 9, 10, 11, and 12, and especially recommended to sophomores.</p>
FRENCH	
<p>FRENCH 1 <i>Course # 4110</i> Full year Credit: 1.0</p>	<p>French 1 offers a basic introduction to the vocabulary and grammar of the language. The pace of the course begins moderately and increases as students have more experience with the language. Students will be taught basic reading and writing strategies using textbook examples. Reading, writing, speaking and listening skills are practiced and assessed regularly. Readings and projects center on cultural information. Although grammar concepts may be taught in English, students are always expected to use French in class to the extent possible. This course is conducted mostly in French.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>FRENCH 1 HONORS <i>Course # 4115</i> Prerequisite: Yes Credit: 1.0 Grade Offered: 9-12</p>	<p>The sequential core material for this course is the same as French 4110. The pace is accelerated to incorporate the reading and discussion of some short stories and short books, as well as other activities to allow for more investigation of the language and culture. This course is conducted in French to a greater extent than is French 4110.</p> <p>Prerequisite: This class is for students who have not previously studied French. Departmental Approval or recommendation of the junior high school teacher. Students who have taken French in middle school may not register for this course. Open to grades 9, 10, 11, and 12.</p>
<p>FRENCH 2 <i>Course # 4120</i> Full year Credit: 1.0</p>	<p>This course is an articulated continuation of the French 1 program and continues building the same skills. Students are expected to participate actively in class activities and function in French to a great extent, and all four skills are evaluated.</p> <p>Prerequisite: A grade of C or better in French 1, or recommendation of the junior high school teacher. Open to grades 9, 10, 11, and 12.</p>
<p>FRENCH 2 HONORS <i>Course # 4125</i> Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as French 4120. The pace is accelerated to incorporate the reading and discussion of some short stories and short books, as well as other activities to allow for more investigation of the language and culture. This course is conducted in French to a greater extent than is French 4120.</p> <p>Prerequisite: Departmental Approval or recommendation of the junior high school teacher. Open to grades 9, 10, 11, and 12.</p>

WORLD LANGUAGES DEPARTMENT

<p>FRENCH 3 Course # 4130 Full year Credit: 1.0</p>	<p>This course is the continued study of French grammar and culture of the French-speaking world. Class activities include daily practice of reading, writing, listening and speaking skills. Readings include articles, short stories and <i>Le Petit Prince</i> during second semester. In addition, students do oral presentations and write short compositions. The course is conducted extensively in French.</p> <p>Prerequisite: A grade of C or better in French 2. Open to grades 9, 10, 11, and 12.</p>
<p>FRENCH 3 HONORS Course # 4135 Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as French 4130. The pace is accelerated; the breadth and scope of the coverage is expanded, and some material is added in order to allow for more investigation of the language and culture. The course is conducted extensively in French.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11, and 12.</p>
<p>FRENCH 4 Course # 4140 Full year Credit: 1.0</p>	<p>French 4 is the study of the history, and art of France throughout the centuries (pre-history to present times). Class activities include discussions of prepared reading selections, oral presentations, and the intensive study of one film. The course of study also emphasizes systematic grammar review and limited composition practice.</p> <p>Prerequisite: A grade of C or better in French 3. Open to grades 10, 11, and 12.</p>
<p>FRENCH 4 HONORS Course # 4145 Full year Credit: 1.0</p>	<p>French 4 Honors is the study of the history, and art of France throughout the centuries (pre-history to present times). Class activities include discussions of prepared reading selections, oral presentations, and the intensive study of one film. The course of study covers systematic grammar review and more extensive composition practice than French 4. Inasmuch as this course leads sequentially to the Advanced Placement French Language & Culture course, the course content is supplemented with more challenging reading materials and special emphasis is put on oral proficiency.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>
<p>FRENCH 5 HONORS Course # 4150 Full year Credit: 1.0</p>	<p>French 5 Honors is a course that integrates the study of literature, advanced grammar, advanced oral proficiency, and current events in France. The readings consist of short stories, and a novel from the 20th century organized around the themes of human relationships, moral dilemmas and existentialism. Class activities include discussions of texts, authentic newspaper and magazine articles in French, oral presentations, the study of one film per semester, and improving grammar and writing proficiency. The course is conducted exclusively in French.</p> <p>Prerequisite: A grade of C or better in French 4 or 4 Honors. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT FRENCH LANGUAGE & CULTURE Course # 4155 Full year Credit: 1.0</p>	<p>Advanced Placement French Language & Culture is conducted exclusively in French utilizing authentic materials from the French-speaking world. Students are expected to be conversant with the instructor and with each other in French. Students have regular and ample opportunities to improve all four language skills with a special emphasis on idiomatic usage and to prepare students for the AP Language and Culture Exam. Course content comes from authentic sources produced by native speakers intended for a native speaker audience. This advanced placement course provides intensive and extensive reading, discussion, and analysis in French of diverse sources from various regions of the French-speaking world. The analysis of these sources will specifically target the following AP themes: Personal and Public Identities, Family and Community, Contemporary Life, Global Challenges, Science and Technology, and Beauty and Aesthetics. Students regularly write in-class compositions in French on non-literary topics and study current events with excerpts from French language television and documentaries. Advanced grammar study is continued and integrated into every aspect of the student's work. Language skills are not taught in isolation, but rather integrated to communicate about a wide range of topics and media. The class prepares students to take the Advanced Placement Exam in French Language & Culture.</p> <p>Prerequisite: Departmental approval. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>

WORLD LANGUAGES DEPARTMENT

GERMAN	
<p>GERMAN 1 Course # 4210 Full year Credit: 1.0</p>	<p>German 1 introduces students to the German language and German-speaking cultures. Through consistent daily use of German in the classroom and language lab, students actively engage in a variety of structured activities, interactive conversations, games, and short presentations that develop their basic language skills of listening, speaking, reading, and writing. Cultural topics focus on food and beverages, school, leisure activities, geography, and internationally renowned German-speaking personalities. Students further increase their language proficiency and cultural awareness by viewing a DVD series, by reading a novella in German, and by viewing German language films. Though this is a beginning level course, students are expected to use German to the extent possible.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>GERMAN 1 HONORS Course # 4215 Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as German 4210. The pace is accelerated; the breadth and scope of the coverage is expanded and material is added in order to allow for more investigation of the language and culture. This course is conducted in German to a greater extent than is German 4210. Furthermore, 4215 level students are expected to speak as much German as possible in class.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11, and 12.</p>
<p>GERMAN 2 Course # 4220 Full year Credit: 1.0</p>	<p>This course provides continued development and practice in listening, speaking, reading, and writing. Language structures and vocabulary learned in the first year are reviewed, expanded, and refined. New communicative and grammar topics are introduced to students. Listening comprehension and speaking are enhanced through consistent daily use of German in the classroom. Cultural topics focus on cuisine, holidays, major German-speaking regions, current events, and daily life in Germany. Students increase their language proficiency and cultural awareness by reading textbook selections and specifically developed supplements, and by viewing a DVD series, video and film clips. Classroom instruction and interactions are mostly in German.</p> <p>Prerequisite: A grade of C or better in German 1. Open to grades 10, 11, and 12.</p>
<p>GERMAN 2 HONORS Course # 4225 Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as German 4220. The pace is accelerated; the breadth and scope of the coverage is expanded and material is added in order to allow for more investigation of the language and culture. Classroom instruction and interactions are mostly in German.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>
<p>GERMAN 3 Course # 4260 Full year Credit: 1.0</p>	<p>This course provides more extensive development and practice in listening, speaking, reading, and writing as well as increased awareness of German-speaking cultures. New thematic topics and grammar concepts are introduced to students. Cultural topics focus on traditions, customs, music, art, media, technology, and major cities of Austria and Switzerland. Students increase their language proficiency and cultural awareness by viewing and studying a variety of video and film clips, listening to audio clips, and by reading and discussing stories, poems, lyrics, articles, and a novel in German. Classroom instruction and interactions are extensively in German.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11, and 12.</p>
<p>GERMAN 3 HONORS Course # 4265 Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as German 3. The pace is accelerated; the breadth and scope of the coverage is expanded. Some material is added in order to allow more investigation of the language and culture. The course is conducted entirely in German.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11, and 12.</p>

WORLD LANGUAGES DEPARTMENT

<p>GERMAN 4 <i>Course # 4270</i> Full year Credit: 1.0</p>	<p>This course provides deeper development, refinement, and understanding of the German language and German-speaking cultures. New thematic topics are introduced, along with a few final grammar concepts. Cultural topics focus on major German cities, the fall of the Berlin Wall and reunification, the Third Reich, careers and the global economy, and the Brothers Grimm and fairy tales. Students increase their language proficiency and cultural awareness by viewing and discussing daily news and video clips, and by extensively studying and analyzing short as well as feature length films. Readings include a variety of authentic texts, short stories, poems, essays, and a play. Classroom instruction and interactions are entirely in German.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11, and 12.</p>
<p>GERMAN 4 HONORS <i>Course # 4275</i> Full year Credit: 1.0</p>	<p>The sequential core material is the same as German 4. The pace is accelerated; the breadth and scope of coverage is expanded and material is added in order to allow for more investigation of the language and culture. Classroom instruction and interactions are entirely in German. While simultaneously completing German 4 Honors, students may elect to conduct their own independent study and preparation for the AP Examination.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11, and 12.</p>
<p>LATIN</p>	
<p>LATIN 1 <i>Course # 4310</i> Full year Credit: 1.0</p>	<p>Latin 1 is primarily designed to develop a student's ability to read and comprehend the Latin language. Students begin by learning the peculiar demands of an inflected language and are then introduced to Latin morphology, the declensions of its nouns and the conjugation of its verbs. Gradually, elements of syntax and grammar introduce the students to the fundamental requirements needed to read. Concurrent with these pursuits will be an ongoing discovery of the structure of the English language and its many borrowings from the Latin structure. Students' grasp of English grammar will grow substantially. An ever-evolving Latin vocabulary helps students understand essential concepts in etymology, derivatives, and building a stronger and more precise vocabulary in English. Roman and Greek mythology and Roman daily life comprise the cultural component of the course.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>LATIN 1 HONORS <i>Course # 4315</i> Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as Latin 4310. The pace is accelerated; the breadth and scope of the course are expanded and material is added to explore the language more deeply.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11, and 12.</p>
<p>LATIN 2 <i>Course # 4320</i> Full year Credit: 1.0</p>	<p>This course builds on the grammatical and structural foundations established in Latin I. An emphasis is placed on reading and comprehending Latin. Students will learn advanced grammar and move on to their first experience with unadulterated Latin. The cultural focus of the course will be the formation and development of the Roman Republic.</p> <p>Prerequisite: A grade of C or better in Latin 1. Open to grades 10, 11, and 12.</p>
<p>LATIN 2 HONORS <i>Course # 4325</i> Full year Credit: 1.0</p>	<p>This course builds on the grammatical and structural foundations established in Latin I. An emphasis is placed on reading and comprehending Latin. Students will learn all of the advanced grammar of the language and move on to their first experiences with unadulterated Latin from a variety of authors. The cultural focus will be on the evolution of the Roman state from monarchy to Republic and Republic to Empire.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11, and 12.</p>

WORLD LANGUAGES DEPARTMENT

<p>LATIN 3-4 LATIN LITERATURE <i>Course # 4340</i> Full year Credit: 1.0</p> <p>Offered 2016-2017</p>	<p>This course is a survey of Latin literature sampling several genres including letters, oratory, epigram, history, narrative, philosophy, lyric and elegiac poetry. The survey is designed to further develop students' translation abilities as they review essential grammar and vocabulary. The work will explore the boundaries of each genre and its specific application. Attention will also be paid to the larger historical context of the authors and their works to provide students with an upper level understanding of Roman thought and custom.</p> <p>Prerequisite: Latin 2 and departmental approval. Latin 4340 and 4360 are offered in alternate years only. In 2017-2018 Latin 3-4 Caesar/Vergil (4360) will be offered. In 2016-2017 Latin 3-4 Latin Literature will be offered. Open to grades 11 and 12.</p>
<p>LATIN 3-4 CAESAR/VERGIL <i>Course # 4360</i> Full year Credit: 1.0</p> <p>Offered 2017-2018</p>	<p>This course will provide a broad exposure to Vergil's <u>Aeneid</u> and Caesar's <u>Commentarii de Bello Gallico</u>. The course works to establish the larger political, historical, and literary contexts through which these literary works can best be understood. Special attention will be paid to the authors' use of rhetorical and poetic figures of speech, diction, imagery, manipulations of the Latin language, as well as the larger themes of both works.</p> <p>Prerequisite: Latin 2 and departmental approval. Latin 4340 and 4360 are offered in alternate years only. In 2017-2018, Latin 3-4 Caesar/Vergil (4360) will be offered. In 2016-2017 Latin 3-4 Latin Literature will be offered. Open to grades 11 and 12.</p>
<p>LATIN LITERATURE HONORS <i>Course # 4355</i> Full year Credit: 1.0</p> <p>Offered 2016-2017</p>	<p>The sequential core material of this course is the same as Latin 4340. The pace is accelerated; the breadth and scope of the course are expanded, and some material is added to explore the language more deeply.</p> <p>Prerequisite: Latin 2 and departmental approval. Latin Literature Honors 4355 and AP Latin Caesar/Vergil 4365 are offered in alternate years only. In 2017-2018 AP Latin Caesar/Vergil (4365) will be offered. In 2016-2017 Latin Literature Honors will be offered. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT LATIN CAESAR/VERGIL <i>Course # 4365</i> Full year Credit: 1.0</p> <p>Offered 2017-2018</p>	<p>Preparatory to the Advanced Placement Exam, the Caesar/Vergil course provides a broad exposure to the primary works of both authors: Vergil's <u>Aeneid</u> and Caesar's <u>Commentarii de Bello Gallico</u>. The course endeavors to establish the larger political, historical, and literary contexts through which these literary works can best be understood. The course will necessarily focus on the stylistic qualities of poetry and prose, Vergil and Caesar, and their effectiveness at conveying an intended message. Attention will also center on how the two authors approach the issues of Roman imperialism, the consequences of war, the portrayal of non-Romans, the nature of leadership, and the role of a state-driven propaganda among others. Essay writing will be developed in line with the close literary analysis required by The College Board.</p> <p>Prerequisite: Latin 2 and departmental approval. Latin Literature Honors 4355 and AP Latin 4365 are offered in alternate years only. In 2017-2018 AP Latin Caesar/Vergil (4365) will be offered. In 2016-2017 Latin Literature Honors will be offered. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>

WORLD LANGUAGES DEPARTMENT

SPANISH	
<p>INTRODUCTION TO SPANISH <i>Course # 4505</i> Full year Credit: 1.0</p>	<p>Introduction to Spanish 1 is a first year Spanish course designed to emphasize Spanish 1 vocabulary, grammatical concepts, and foreign language study skills in order to provide necessary and additional support to new language learners. The course is designed to provide students with vocabulary and grammar acquisition skills that are crucial to the student's success in future second language study. The course will also focus on developing student responsibility for his or her own learning. Students will learn organization and study skills that will support successful study of a language. Students who successfully complete this course will be able to continue and complete their study of Spanish 1 the following year. The textbook for this course is <u>Realidades Level 1</u>.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12. This course is not open to students who have previously taken Spanish courses. This course is not recommended for native Spanish speakers.</p>
<p>SPANISH 1 <i>Course # 4510</i> Full year Credit: 1.0</p>	<p>Spanish I is an introductory course which develops communication skills with an emphasis on listening and speaking. The student is taught to use the language actively through extensive oral work in daily dialogue, grammar patterns, and idioms. Reading and writing exercises use materials previously practiced orally. Evaluation measures listening, speaking, reading, and writing. The course is conducted extensively in Spanish. This course is for students who have never taken Spanish, not taken a full year of Spanish before or have taken Spanish at the junior high level but received a grade of B- or lower.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>SPANISH 2 <i>Course # 4520</i> Full year Credit: 1.0</p>	<p>This course is a continuation of the first level course, developing more complex oral, reading and writing skills. Students are expected to participate actively in class activities and to function in Spanish to a greater extent, and all four skills are evaluated. Supplementary reading of simple selections and books will be used to improve students' ability in reading, speaking, and writing. Cultural topics will be explored throughout the year. This course is conducted extensively in Spanish.</p> <p>Prerequisite: A grade of C or above in Spanish 1 or recommendation of the junior high teacher. Open to grades 9, 10, 11, and 12.</p>
<p>SPANISH 2 HONORS <i>Course # 4525</i> Full year Credit: 1.0</p>	<p>Although the core material for this course is the same as Spanish 4520, this course is accelerated and allows for more investigation of the language and culture. Students are taught specific strategies for reading, writing, listening and speaking in Spanish. Additionally, the course is accelerated to allow for the reading and discussion of authentic literary selections and all modes of communication are practiced and assessed regularly. This course is designed for students who have had success in Spanish 4510 (or Jr. High equivalent) and who demonstrate the characteristics of a self-directed, mature student. This course is conducted in Spanish to a greater extent than is Spanish 4520.</p> <p>Prerequisite: Departmental approval. Recommendation of the junior high teacher for freshmen. Open to grades 9, 10, 11 and 12.</p>
<p>SPANISH 3 <i>Course # 4530</i> Full year Credit: 1.0</p>	<p>Spanish 3 is structured to maintain and improve the listening and speaking skills already developed in the first and second years, and to give increased emphasis to the development of reading and writing, while honing grammar skills. The basic text materials include short reading selections, as well as speaking activities and grammar explanations. The reading selections and course topics will introduce students to the cultural traditions and history of Spain and Latin America. The classes are conducted extensively in Spanish, making use of structured drills and conversation stimuli to accompany the increased reading and writing exercises.</p> <p>Prerequisite: A grade of C or better in Spanish 2. Open to grades 9, 10, 11, and 12.</p>

WORLD LANGUAGES DEPARTMENT

<p>SPANISH 3 HONORS <i>Course # 4535</i> Full year Credit: 1.0</p>	<p>The sequential core material for this course is similar to Spanish 4530. The pace is accelerated; the breadth and scope of the coverage is expanded. Instructional strategies challenge students' capabilities within the core skills of second language learning. Additionally, students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. The class is conducted extensively in Spanish.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11, and 12.</p>
<p>SPANISH 4 <i>Course # 4540</i> Full year Credit: 1.0</p>	<p>Spanish 4 is a hybrid course developing conversational skills as well as increasing knowledge of Spanish speaking cultures. This course includes the traditional study of grammar, as well as augmenting the students' vocabulary with an emphasis on oral communication skills. Students read, write, and present throughout the year. This course is conducted entirely in Spanish. Upon completion of this course, students earning an A or a B will be eligible to take Advanced Placement Spanish Language & Culture.</p> <p>Prerequisite: A grade of C or better in Spanish 3. Open to grades 10, 11 and 12.</p>
<p>SPANISH 5 HONORS: SPANISH STUDIES <i>Course # 4545</i> Full year Credit: 1.0</p>	<p>This course surveys the literature, history, culture, and thought of Spain. Grammar review and listening, reading, writing, and speaking activities further develop the four language skills. The class is conducted entirely in Spanish, and students are expected to communicate in the target language. This course is designed for students who have had success in Spanish 4535, 4540, 4550, or 4555.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>
<p>SPANISH 5 HONORS: LATIN AMERICAN STUDIES <i>Course # 4550</i> Full year Credit: 1.0</p>	<p>This course offers the opportunity to learn about Latin American cultures through historical readings, authentic literature, and films. The focus of this course is to increase students' understanding of the history and culture of Latin America while also improving fluency in oral and written communication skills through formal and informal speaking and writing activities. The class is conducted entirely in Spanish, and students are expected to communicate in the target language. This course is designed for students who have had success in Spanish 4535, 4540, 4545, or 4555.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT SPANISH LANGUAGE & CULTURE <i>Course # 4555</i> Full year Credit: 1.0</p>	<p>The AP Spanish Language and Culture course is the equivalent of a third year college course in advanced Spanish writing and conversation. Class is conducted exclusively in Spanish utilizing authentic materials from the Spanish-speaking world. Students are expected to be conversant with the instructor and with each other in Spanish. Students have regular and ample opportunities to improve all four language skills with a special emphasis on idiomatic usage and to prepare students for the AP Language and Culture Exam. Course content comes from authentic sources produced by native speakers intended for a native speaker audience. This advanced placement course provides intensive and extensive reading, discussion, and analysis in Spanish of diverse sources from various regions of the Spanish-speaking world. The analysis of these sources will specifically target the following AP themes: Personal and Public Identities, Family and Community, Contemporary Life, Global Challenges, Science and Technology, and Beauty and Aesthetics. Students regularly write in-class compositions in Spanish on non-literary topics and study current events with excerpts from Spanish language television and documentaries. Advanced grammar study is continued and integrated into every aspect of the student's work. Language skills are not taught in isolation, but rather integrated to communicate about a wide range of topics and media. The class prepares students to take the Advanced Placement Exam in Spanish Language & Culture.</p> <p>Prerequisite: Departmental approval. A grade of an A or a B in Spanish 4535, 4540, 4545, 4550 or 4565. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>

WORLD LANGUAGES DEPARTMENT

<p>ADVANCED PLACEMENT SPANISH LITERATURE & CULTURE Course # 4565 Full year Credit: 1.0</p>	<p>The AP Spanish Literature course is based on those representative works required by the AP board for the AP Spanish Literature and Culture Exam. This course surveys the history and literature of Spain and Hispanic America in a chronological fashion relating each work to the 6 course themes and the historical context. All genres are represented and media sources are used regularly to assist in comprehension and analysis. Students are required to read and write outside of class, take part in classroom discussions and listening practices present reports and compose essays in order to prepare for the Advanced Placement exam in Spanish Literature and Culture.</p> <p>Prerequisite: Departmental approval. A grade of an A or a B in Spanish 4545, 4550, or 4555. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2016-2017 AP exam fee is \$92 per exam. See page 19 for more details.</p>
<p>SIGN LANGUAGE</p>	
<p>AMERICAN SIGN LANGUAGE I Course # 8070 Credit: 1.0</p>	<p>This course is designed to develop the student's expressive and receptive signing skills and understanding of basic grammatical structures of American Sign Language. Topics related to deafness and deaf culture will also be explored. This is a class for students who are interested in learning the language of signs.</p> <p>This course is taught at Hinsdale South, only, and Central students would need to provide their own transportation to and from South. Also, Central students can enroll, but would need to take a study hall adjacent to the course to allow for travel.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>AMERICAN SIGN LANGUAGE II Course # 8080 Credit: 1.0</p>	<p>In American Sign Language II, students will continue to develop receptive and expressive signing skill, study grammatical structures of ASL, and learn more about the history and culture of deaf people. There will be increased opportunities for interaction with deaf students.</p> <p>This course is taught at Hinsdale South, only, and Central students would need to provide their own transportation to and from South. Also, Central students can enroll, but would need to take a study hall adjacent to the course to allow for travel.</p> <p>Prerequisite: "C" or better in American Sign Language I. Open to grades 9, 10, 11, and 12.</p>

REGISTRATION INFORMATION

2016 – 2017 ACADEMIC CALENDAR

<i>December</i>	Program of Studies Handbook Copies of Hinsdale Central’s inclusive curriculum book will be posted online. This information should stimulate initial conversations between parents and students regarding appropriate courses for next year.
<i>Mid-November- first week in January 2016</i>	Curriculum Discussions Individual teacher/student informal advising discussions are held.
<i>January 2016</i>	Dissemination of information in English classes Registration information will be emailed to students and parents. Parents, please review this information with you their son/daughter.
<i>January 13, 2016</i>	Eighth Grade Student and Parent Night, HC Gymnasium An informational program will be held for all parents and students to explain the curriculum and the course selection process. An electives fair will be hosted by departments and students to share specific details about elective courses. 6:00 - 7:00 PM Last names A-L 7:00 - 8:00 PM Last names M-Z
<i>January 11-14, 2016</i>	Class of 2018 Counselor Conferences for Current Sophomores Class of 2018 will meet individually with their counselors at an assigned time to finalize their course selections. Registration appointments begin on January 11, 2016 and the process will finish by 3:00 p.m. on February 1, 2016. Each student will be assigned an individual appointment with his/her counselor.
<i>January 19-26, 2016</i>	Class of 2017 Counselor Conferences for Current Juniors Class of 2017 will meet individually with their counselors at an assigned time to finalize their course selections. Individual appointments will be announced in English classes.
<i>January 27- February 1, 2016</i>	Class of 2019 Counselor Conferences for Current Freshman Class of 2019 will meet individually with their counselors at an assigned time to finalize their course selections.
<i>January 14, 19, 21, 25, 27- February 1, 2016</i>	Eighth Grade Individual Registration Conferences Incoming Freshman, Class of 2020, conferences will take place in late January and early February at Hinsdale Central High School in the Library. These conferences will include student, parents and their high school counselor for 15 minute appointments. (Please allow for at least an hour to take care of all required paperwork).
<i>Late April 2016</i>	Course verification can be viewed online. Students and parents will have the opportunity to view course selections online prior to registration appointments. Students should consult with their counselor regarding any concerns about a course change. (Additionally, Department Chair approval to enroll in a class will be required for any classes needing a prerequisite or an honors level course.) Requests for changes may be accommodated dependent upon class size and availability. All schedules will be finalized in late June. No schedule changes will be permitted without Administrative approval. Please Note: Student schedules ARE NOT finalized until the summer registration process.

Dear Students and Parents:

The 2017-18 edition of the Hinsdale Central High School Program of Studies book is an important resource for students and parents which I hope will assist you in making course choices. Consider choosing courses that interest you where you may explore your college and career aspirations. Take time to reflect on the course selection process, consider a sense of balance in your life related to your social emotional health and academic goals.

As you page through the Program of Studies, you will find that the book is divided into three distinct sections. The first contains general information about such topics as graduation requirements, dropping and adding courses, schedule changes, and college admission requirements. The second section provides descriptions of all course options available to students. The last section provides students and parents with registration information for next year, worksheets for course selection, the four-year plan, and the graduation credit checklist.

The Program of Studies is designed to prepare you for a registration appointment with your counselor. The registration appointments will be scheduled in January or early February. As you prepare, carefully review the general information section, analyze the course descriptions, speak with your teachers about opportunities and “pencil in” your choices on the worksheets at the back of this handbook. I suggest that you view the registration process in the broad scope of a four-year plan, reflecting on your personal strengths, interests, social emotional health, and future plans. Parents, teachers, and your counselor will guide you through this process. I encourage you to make the best use of the academic opportunities available to you at Hinsdale Central.

Hinsdale Central High School is a wonderful place to be a student where your academic course work prepares you to reach your future goals. Registering for next year’s courses is a part of that experience. It is important to know that the courses you select during this process are intended to be your final selections for the 2017-18 school year. We develop our master schedule of classes, hire and re-employ staff based on the enrollment decisions you make. Hopefully you will find our registration process to be one that works well for you. If you have questions about the registration process or the information provided in the Program of Studies, please contact our Counseling Department at (630) 570-8251.

Sincerely,

William C. Walsh
Principal

VISION STATEMENT

Adopted Fall 2003

The expectation of excellence is rooted in the traditions of Hinsdale Central. In an environment that fosters a desire to learn, all members of the organization are committed to educating each student. In order for us to succeed, we must clearly identify standards we will work to achieve and maintain. These Standards are identified in several areas and will be the benchmarks by which we will measure our success.

I. Students

The degree to which we measure our success in attaining this vision is by each student's progress. We will provide opportunities that facilitate this growth. In school we:

- a. Work to meet students' needs.
- b. Encourage students to reach their potential in all they do, and to become self-directed learners.
- c. Teach students to accept responsibility for their actions.
- d. Encourage students to get involved in their school and in their community.
- e. Let students know we believe in them and will find ways for them to succeed based on their ability and interests.

II. Staff

Attracting and retaining outstanding people is a must if we are to move toward our vision. In our school we:

- a. Demonstrate our support for a shared vision and a common sense of purpose.
- b. Encourage all members of the organization to be leaders and experts in their fields.
- c. Promote collaboration and collegial decision making on matters relating to students, curriculum, instruction and school.
- d. Facilitate the growth of our students.

III. Curriculum and Instruction

What we decide to teach and how we do so will impact the results we achieve. In our school we:

- a. Recognize our primary focus is to provide a solid base for the post-secondary education of our students, while respecting the needs of students who make alternative choices.
- b. Seek to learn effective practices and adapt them for our learning environment.
- c. Believe teachers should collaboratively determine curriculum and assessment standards.
- d. Work to assure the limited time we have to education our students is used to the greatest benefit for all our school community.

VISION STATEMENT

IV. Climate

All members of our community are responsible for providing a climate that contributes to our success and a high school experience that builds a sense of pride we all share. In our school we:

- a. Provide a safe and secure environment that is conducive to learning.
- b. Recognize that all relationships are based on respect for others and an understanding of each person's responsibility for his/her behavior.
- c. Understand school rules and policies exist to support our organization and are consistently applied by all staff.
- d. Recognize the achievements of all members.
- e. Encourage and model behaviors appropriate to the development of character.

V. Community

The educational community recognizes the importance of maintaining a partnership between the school and community at large. In our school we:

- a. Seek ways to improve the quality of communication between the home and school.
- b. Always provide a clear rationale for policies and practices.
- c. Share information that is important in a timely manner.
- d. Recognize that the more our community is involved and informed, the more successful we will be.

GENERAL INFORMATION

GRADUATION REQUIREMENTS

Each student must successfully complete the following course requirements in order to graduate from Hinsdale Central High School. To graduate, a student must earn a **minimum of 24.0 credits** and successfully meet the listed requirements. In order to earn a diploma, students must comply with all state mandated requirements for standardized testing. In addition, no student shall receive a diploma without passing a satisfactory examination on the federal and Illinois constitutions. Students must take and pass the U.S Constitution Test in U.S History or AP U.S. History. No student shall receive a certificate of graduation without passing a satisfactory examination on patriotism and principles of representative government, proper use of the flag, methods of voting and the Pledge of Allegiance.

Graduation Requirements	Credit
<p>English <i>A given course cannot be used to satisfy a requirement in more than one area, with the exception of the “intensive writing” requirement. State law mandates all students to earn two credits in courses designated as “intensive writing” courses. English I and English II fulfill this requirement as do Applied English and Foundations English.</i></p>	4.0
<p>Mathematics <i>One of the three years of Mathematics must be an Algebra course (Algebra I, Part 1 AND Algebra I, Part 2, Algebra 1 Block, Algebra 1, Applied Math, or Foundations Math) and one course must include Geometry content (Geometric Analysis, Geometry, Applied Math or Foundations Math). Credits must be earned over three school years.</i></p>	3.0
<p>Science</p>	2.0
<p>Social Studies <i>World Cultures or World History Honors (1.0)</i> <i>Students in the Class of 2019 and all prior students, must take and pass the U.S Constitution Test in U.S History (1.0) or AP U.S. History (1.0).</i> <i>Students in the Class of 2020, and all subsequent students, will need to pass either American Politics (0.5) or AP U.S. Government and Politics (0.5) to meet the State of Illinois Civics requirement.</i></p>	2.0
<p>Elective Arts <i>A student can select from one of seven Elective Arts areas, including all courses in: Art, Business, Family & Consumer Sciences, World Languages, Music, Technology Education (except for Digital Video Production) or TCD. A student may only declare one (1) credit per department/discipline to count towards this specific graduation requirement.</i></p>	2.0
<p>Consumer Education* <i>AP Economics: Micro</i> <i>AP Economics: Macro</i> <i>Economics</i> <i>Introduction to Family and Consumer Sciences</i> <i>Foundations Consumer Education</i> <i>Introduction to Business</i> <i>Pre-Vocational Studies</i></p>	0.5
<p>Physical Education/Health <i>Health is a required course taken during sophomore year typically in tandem with one semester of Physical Education. Students have the option of enrolling in an additional semester of Physical Education during their sophomore year for an additional 0.5 credits. All students must complete state-mandated CPR and AED training through their physical education class.</i></p>	4.0

*The same course may not be used to satisfy requirements for Elective Arts and Consumer Education

State-mandated requirements for standardized testing: SAT

Beginning with the Class of 2018, all 11th grade students are required to take the SAT. In order to be classified as an 11th grader, students must earn a minimum of 11.75 credits prior to the beginning of entering their third year in high school. Students who begin their third year in high school with fewer than 11.75 credits will be classified as 10th graders solely for the purpose of SAT testing.

GENERAL INFORMATION

STATE TESTING REQUIREMENT

All 11th grade students are required to take the SAT. In order to be classified as an 11th grader, students must earn a minimum of 11.75 credits prior to the beginning of entering their third year in high school. Students who begin their third year in high school with fewer than 11.75 credits will be classified as 10th graders solely for the purpose of SAT testing.

COLLEGE ADMISSION REQUIREMENTS

Criteria for college admission vary greatly. The admission committees consider, to varying degrees, the following:

- Type of high school courses actually taken when compared to the courses available in the high school.
- Quality of the student's academic record.
- Performance on college admission tests – ACT & SAT.
- Development and maturity of the individual in areas outside the academic classroom

Courses	Highly Selective Colleges	Public University Colleges	Private 4-Year Colleges	Community and Public Colleges
English	4 years	4 years	4 years	Varies greatly from an open door admission policy to selective course requirements specifically required by the different departments.
Mathematics	4 years	4 years	4 years	
Science	4 years (lab)	3 years	3 years	
Social Studies	3-4 years	3 years	3 years	
Academic Electives	2 years	2 years	2 years	
World Languages*	4 years (one)	*	2-4 years	

Course requirements for entrance into four different types of colleges are listed above. The academic prerequisites typical of colleges in each of the categories listed may change from year to year and therefore, should be used only as general **minimum guidelines**. Specific information may be obtained from high school counselors, college profiles, websites and catalogs, computerized college software programs and college representatives who visit Hinsdale Central High School. Students should be aware of a definite return by colleges to their preference of a **traditional and classical college preparatory curriculum**. Narrowly defined, college preparatory courses are found in the following departments:

Art: *AP Art History, AP Studio Art	Science: Lab courses	Academic Electives: Business, Family & Consumer Sciences, Music, Technology Education, Technology Center of DuPage (TCD)
English: Literature and composition courses	Social Studies	
Mathematics: Computer Science is not generally accepted as a math credit.	World Languages	

**AP Art History and AP Studio Art are generally treated as acceptable college preparatory academic electives by most colleges.*

STATE OF ILLINOIS CONSUMER EDUCATION REQUIREMENT

Credit: 0.5

Students have the following options to satisfy the mandated graduation requirement:

1. **Consumer Economics**, course #6301, one semester, Business Department course, see page 39.
2. **Economics**, course #2331, one semester, Social Studies Department course, see page 91.
3. **AP Macro Economics**, course #2441, one semester, Social Studies Department course, see page 91.
4. **AP Micro Economics**, course #2341, one semester, Social Studies Department course, see page 92.
5. **Introduction to Family & Consumer Sciences**, course #6400, full year, Family & Consumer Science Department Course, see page 54.
6. **Introduction to Business**, course #6100, full year, Business Department course, see page 37.
7. **Special Education Related Instruction:** enrollment is determined by IEP recommendation.
8. **Consumer Education Online**, course #9101, one semester. Students who enroll in this online course will be supervised by a certified District 86 teacher. This course has the same objectives as the traditional semester-long Consumer Economics course #6301; the content is very similar. Communication between student and teacher will be primarily through the website and by email. Students who enroll in the online version will be required to attend an orientation session, to meet progress markers along the way, and to complete the course during the semester in which they are enrolled.

GENERAL INFORMATION

ACADEMIC LOAD

Students must be enrolled in a minimum of six (6) courses per semester to be considered full-time.

REGISTRATION REQUIREMENTS

Hinsdale Central course recommendations are based upon evidence of normal progress and achievement in the student's previous school. Incoming freshmen are required to submit evidence of satisfactory completion of the 8th grade. Transcripts of credits earned and grade placement are required from the previous school for all students transferring from other secondary schools. Additionally, all students transferring from an Illinois public high school must obtain the ISBE student in good standing form from the previous school in order to register. Parents of transfer students must present a birth certificate for the student at the time of registration.

A student's grade-point average previously earned at a high school other than a high school in District 86 will be re-calculated based on the grade-point average processes currently used in District 86. Transfer courses, grades earned and grade-point average will appear on the District 86 high school transcript exactly as they are titled on the sending school's transcript and will be indicated as transfer coursework. If the previous school assigned numerical grades, we will use their key to assign letter grades on the District 86 transcript. If no key is available, these courses will be recorded as "Pass" or "Fail". Transfer courses from schools outside of the United States may receive credit, but grades will be reflected as "Pass" or "Fail". A record of a health examination and immunizations at the 9th grade level is required by law. Students will not be allowed to attend school if this state requirement is not met. Incoming freshmen must have a physical performed prior to the purchase of books during the month of August, but *the preferred date of completion for the freshman physical is July 1*. In addition, all students participating in athletics must have a physical examination for each year in which they participate.

Additionally, transfer students and currently enrolled students requesting to transfer credit for a class from an accredited institution outside of HCHS, may be required to take a placement exam to ensure appropriate level of placement for a higher-level class. The Department Chair for the subject area will set a mastery level for the exam. If mastery is not obtained, then a student may need to repeat that course and credit will not be issued.

RESIDENCY

Pursuant to Hinsdale Township High School District 86 Board of Education Policy 7:50 and 7:60, every family must provide acceptable evidence of residency. One of the following documents is required for registration: a current real estate tax bill, mortgage papers, agreement of sale, or a signed lease agreement with student(s) listed as occupants. Two additional documents reflecting the current in-district address must also be presented to verify residency. Contact the registrar for more information on adequate proof of residency.

EARNING COURSE CREDITS

Credit in full year as well as semester courses is earned by semester. That is, students earn 1/2 unit of credit or 0.5 credit for successful completion of each semester. Credit is earned by successfully completing all course requirements as established by the teacher. Excessive absences may result in removal from a course and/or loss of credit.

ADDING A COURSE

Students may add a class to increase the number of attempted credits, provided that space is available and that there is minimal disruption to the student's schedule. This addition must be made by the end of the eighth school day. In order to add a course, a student must obtain signatures on an Add/Drop form from the parent/guardian, the department chair if required, and the student's counselor.

GENERAL INFORMATION

DROPPING A COURSE

Students may request to drop a course for a study hall only if they are enrolled in the maximum number of courses (seven) per semester and only after they have attended and participated in the course for three class periods. Students wishing to drop a course must first discuss it with their parents, teacher and counselor. After a parent/guardian signs the request to drop a course, the counselor and department chair will sign the request as well. A grade of “WF” will be reflected on the transcript of a student who chooses to drop a course after the fourth week of a semester and will be calculated in the grade point average. Students enrolled in year-long courses will not be allowed to drop at the end of first semester unless it is recommended by the department.

LEVEL CHANGES

It is important that students choose their course loads very carefully, as the Master Schedule for the building is based off of these selections. Typically a student is required to stay in a course for an entire quarter before the school will honor a request to change the level of coursework. If a request to move course levels is granted, the grade as of the day of the course change will follow the student to the next class.

Students wishing to initiate a level change within the same department must complete the add/drop form and obtain all required signatures (parent/guardian, teacher, department chair, counselor).

COURSE REQUESTS

Each spring Hinsdale Central works to create a schedule of classes for the following academic year that best meets the needs of our students, while still staying within the parameters of staffing requirements (i.e. number of teachers, class size, teaching schedules, state and federal mandates). We work very hard to accommodate student requests; however, due to the complexity of the scheduling process, sometimes student schedules may need to be adjusted. Please keep in mind that changes in course requests or class assignments will not be accepted for any of the following reasons:

- to accommodate a job schedule
- to change teachers
- to change lunches or classes to be with friends
- to have first or last period free
- to accommodate a change of mind

Acceptable reasons for schedule changes may include:

- computer input error
- scheduling conflicts
- failure or near failure in a second semester or year course
- failure to meet a pre-requisite for a course
- department chair or counseling director recommendation
- successful completion of a summer school class

Once a school year begins, schedule changes are permitted only if they meet one of the following conditions.

REPEATING COURSES

A course may be repeated for credit only when a student has previously received a “D” or an “F.” Both the grade received and the credit earned for repeating the course, as well as the original grade and credit received in the course, will be used in computing the student’s grade point average. The student’s transcript will indicate the first grade and credit earned, as well as the second grade and credit earned. However, the credit received for repeating the course will not count toward satisfying graduation requirements unless the student failed the course.

GENERAL INFORMATION

HONOR ROLL AND WEIGHTED GRADES

Grades earned in all courses, exclusive of Physical Education, Driver Education, and Student Aide will be used to calculate a student's grade point average (GPA) according to the following grade point system.

Grade	Honors	Regular
A	6	5
B	5	4
C	4	3
D	2	2
F	1	1
WF	1	1

Dean's List and Honor Roll designation will be determined by the following criteria:

Honor Roll

- 4.0 grade point average
- No grade in any course below a "D"

Dean's List

- 4.5 grade point average
- No grade in any course below a "C"

Dean's List and Honor roll are based on quarter grades, not semester grades. Thus there are four Honor Rolls and Deans' Lists per year; one each quarter. Incomplete grades are not accepted, and a minimum of four (4) credit-earning courses are needed to qualify for either list.

JUNIOR HIGH/MIDDLE SCHOOL STUDENTS

Junior high schools that feed into District 86 unable to offer advanced coursework for their students may send their students to Hinsdale South for those courses. In these cases, all courses, grades and credit earned will appear on the transcript and will be calculated into the grade point average earned in subsequent years at a high school in District 86.

AUDITING COURSES

Only under unusual circumstances will a request to audit a course be considered:

1. When a student has previous credit in a subject they may request to audit the course.
2. When a student wishes to audit a course they have not previously taken, they may request to audit the course. In this case, they may not take the course for credit at a later time.

In both circumstances, requests to audit will be considered only if space is available in the course. Students assume all responsibility of a regular class member. Audited courses will appear on the transcript with a letter grade of AU, but will not receive credit. All requests to audit a course must have administrative approval prior to the first day of class at the latest, but preferably at the time of February registration. Students interested in auditing a course must complete the 'Request to Audit a Class Form,' which may be obtained from the student's counselor and approved by the Director of Counseling.

INDEPENDENT STUDY

Independent Study options may be provided for motivated and mature students who have exhausted the course options of a particular course or field of study. Independent Study courses are initiated on a case-by-case basis through any faculty member and are subject to the approval of the relevant department chairperson, the student's counselor, and the Assistant Principal for Curriculum & Instruction. Upon the approval of all of the aforementioned, final approval is contingent upon the workload of the teacher involved.

GENERAL INFORMATION

INCOMPLETE GRADES

An Incomplete represents work not completed by the end of the quarter. Incompletes are given only in extraordinary circumstances. This work must be made up within the first two weeks of the following quarter and the Incomplete changed to a grade or a failure. If the work is not made up by the end of the 2-week period, the grade will be changed to an “F.” An Incomplete will prevent eligibility for Honor Roll.

REGISTRATION PROCEDURES

Students should review the four-year planning guide on [page 116](#) and choose courses that will fulfill graduation requirements and build on the student’s strengths, interests and abilities. Students will discuss course recommendations with each of their current teachers and, if there is a need for departmental approval, they should obtain the signature of the Department Chair for that course. Following the recommendation discussions with teachers, students will have an individual appointment with their counselor to review and approve their course selections. Students and parents will be able to view their course requests in Home Access Center throughout the month of February. Courses are scheduled on the basis of your requests. Questions concerning registration procedures and course selections should be directed to your counselor. *Course Request Forms are available through the Counseling Department.*

ATTENDANCE POLICY

The attendance policy at Hinsdale Central requires that parents call the attendance office **ON THE DAY OF THE ABSENCE** to report their student absent from school on any given day at **(630) 570-8090**. Prearranged absences may be called in prior to the day of the absence and a green prearranged absence form must be completed. Students are expected to attend class on a daily basis and should be aware that attendance is part of his/her evaluation in each class. Students are responsible for all work missed due to an absence. Excessive absences will be handled by the administration and guidance staff and require a parent conference.

MINIMUM ATTENDANCE REQUIREMENT

School Code of Illinois, Section 18-8, requires that all students must be in attendance, exclusive of lunch and passing time, for a minimum of 300 minutes. This necessitates all students attending school for at least six (6) periods a day.

STUDENT SCHEDULES

Full year courses are usually designated by 4-digit course codes ending in “0” or “5.” Semester courses are primarily designated by numbers ending in “1” (first semester) or “2” (second semester) and may be scheduled either first or second semester. Student schedules are generated by computer and do not allow the student to select a course by semester. Requests are entered but not guaranteed.

R-RATED FILMS OR CLIPS

If R-rated movies or clips from R-rated movies will be used in instruction in any course, a list of those movies will be made available at the time of registration through each department and online. Written permission must be obtained by a parent at the beginning of any course showing R-rated movies or clips from R-rated movies to allow students to view in whole or in part the R-rated movies associated with the class.

MEDICAL STUDY HALLS

Physical Education Medical Study Halls are given to those students with an authorized physician’s medical note that states the student cannot participate in ANY physical activity for three or more weeks. Before students receive a Physical Education Medical Study Hall Change of Schedule, an **Activity Modification form** must be filled out by the physician and on file with the Health Services office. This form can be obtained on the website under the Health Services tab.

GENERAL INFORMATION

PHYSICAL EDUCATION EXEMPTIONS

Per policy 6:310, a student in grades 9-12, unless otherwise stated, may submit a written request to the Building Principal to be excused from physical education courses for the reasons stated below. The Superintendent or designee shall maintain records showing that the criteria set forth in this policy were applied to the student's individual circumstances.

1. For students in grades 11-12, ongoing participation in an interscholastic athletic program as recognized by IHSA.
2. For students in grades 11-12, to enroll in academic classes which are required for graduation from high school, provided that failure to take such classes will result in the pupil being unable to graduate.
3. For ongoing participation in a Marching Band program for credit.

In addition, students in grades 11-12 may also qualify for a Physical Education exemption in order to enroll in an academic class or classes required for admission to the college(s) or university(ies) which said student intends to apply as long as documented substantiation of the prerequisite secondary courses required for admittance to the postsecondary institution is provided. Policy 6:310 also contains provisions for students with IEPs to qualify for PE exemptions based on an IEP team decision or participation in adaptive athletic programs outside the school setting.

PHYSICAL EDUCATION EXEMPTIONS FOR SPECIAL EDUCATION STUDENTS

A student requiring adapted physical education must receive that service in accordance with the student's Individualized Educational Program/Plan (IEP).

A student who is eligible for special education may be excused from physical education courses when:

1. He or she is in grades 9-12, and his or her IEP requires that special education support and services be provided during physical education time, and the student's parent/guardian agrees or the IEP team makes the determination;
2. He or she has an IEP and is participating in an adaptive athletic program outside of the school setting, and the parent/guardian documents the student's participation as required by the Superintendent or designee.

PHYSICAL EDUCATION EXEMPTIONS FOR MARCHING BAND STUDENTS

Students enrolled in the Hinsdale Central High School Bands perform at home games, local parades, pep rallies, formal concerts, and other community events. Band classes improve musicianship, develop technique, and provide performance opportunities featuring a variety of musical styles and ensemble settings. Every band course is an academic class that meets during a class period and requires occasional rehearsals and performances outside the school day; however, students are encouraged to participate in other academic classes, athletics, and activities. Opportunities for student leadership, overnight travel, and extracurricular performing are available. All band classes can be repeated each year for credit and are open to students in every grade. Every band student performs as part of the Marching Band, which allows band students in Grades 9 - 12 to exempt out of Physical Education for the entire school year.

Marching Band students interested in exempting out of PE need to be aware of the following:

Marching Band PE Exemption Procedures: Band students in grades 9 through 12 may be exempted from Physical Education classes during both semesters. In order for music students to obtain a PE Exemption, they MUST be enrolled in a class that is part of the Hinsdale Central Marching Band, and continuous enrollment in that class is required to maintain the exemption. "Band" students are defined as students enrolled in one the following courses: Concert Band, Symphonic Band, Wind Symphony Honors, Wind Ensemble Honors, Concert Percussion Ensemble, and Symphonic Percussion Ensemble.

Students who obtain this exemption must enroll in a minimum of 6 courses in addition to the PE Band Exemption. If a student drops below six courses, the exemption is invalidated and the student will be required to attend Early Bird PE, or enroll in PE during the school day. If students drop their qualified band course, they will be automatically enrolled in a PE class. In all cases the exemption is listed on student schedules as course #07219 & #07220 (semester 1 & 2 respectively) PE Band Exemption and the student will receive a 1.0 PE Credit.

GENERAL INFORMATION

PHYSICAL EDUCATION EXEMPTIONS FOR IN-SCHOOL STUDENT-ATHLETES

EXPLANATION

Varsity/Junior Varsity student-athletes who are juniors or seniors may be exempted from Physical Education their junior and senior years. There are no exemptions allowed for freshmen or sophomore student-athletes per Illinois State Code 105 ILCS 5/27-6.

CRITERIA TO BE ELIGIBLE FOR AN EXEMPTION

1. The sport is an IHSA sanctioned sport and runs through the Hinsdale Central Athletic Department.
2. The sport requires an athletic permit to participate.
3. The sport involves a schedule of interscholastic competition.
4. The student-athlete must attend practices and games consistently throughout the season.
5. The student-athlete must be on the roster to actually compete in interscholastic competition.
6. Student-athletes must have a current grade of a C or better in his/her current Physical Education course.
7. The student-athlete must complete all state mandated fitness assessments, regardless of exemption.

Athletes seeking an exemption need to obtain a Physical Education Exemption form in the Athletic Office and follow the procedures outlined on the form.

PHYSICAL EDUCATION EXEMPTIONS FOR OUT-OF-SCHOOL STUDENT-ATHLETES

Physical Education exemptions are considered for a few unique student-athletes who participate in a sport outside of school that **requires a significantly shortened academic day in order to fully participate and who are actively participating at a highly ranked national level.**

CRITERIA TO APPLY FOR EXEMPTION APPLICATION

Student-athletes must meet the criteria explained above before applying for a Physical Education exemption:

1. Student-athlete must have a significantly shortened academic schedule to accommodate the outside athletic participation. A significantly shortened day is one in which the student will only be available for 6 or fewer classes including their Physical Education class. The process of approving a shortened schedule is overseen by a panel that includes but is not limited to the Assistant Principal of Instruction, Athletic Director, Physical Education Department Chair, and the athletic coaches at Hinsdale Central and requires documentation of significant and required school-time commitments to fully participate in the activity.
2. Student-athlete must be competing at national level or junior national competition for their exemption period.
3. Student-athletes are required to maintain alternative Physical Education course work throughout the duration of their exemption (examples may include but are not limited to activity logs, summative papers, or health literacy assessments). Any student-athlete that is non-compliant will jeopardize their current Physical Education exemption.

Athletes seeking this exemption need to speak with the PE Department Chair to begin this process.

ADDITIONAL ACADEMIC OPPORTUNITIES

SEAL OF BILITERACY

Students who demonstrate proficiency in both English and another language may qualify to earn a Seal of Biliteracy on their transcripts. Families wishing to learn more about this program can contact either their child's counselor or District 86 ELL Coordinator, Ms. Kelly Owens, at (630) 570-8591 or at kowens@hinsdale86.org.

ARTICULATED CREDIT AND DUAL CREDIT AT THE COLLEGE OF DUPAGE

The College of DuPage awards articulated or dual credit when learning experiences at the secondary level of instruction duplicate those at the post-secondary level. These programs enable students to save time and avoid duplication of material already learned in high school. Articulated credits are only applicable to the College of DuPage while dual credits can be accepted at any college or university that accepts transfer credits. Students may request a transcript from C.O.D. with these courses listed after the end of the semester.

College of DuPage	Hinsdale Central	C.O.D. Credits
Accounting	Accounting and Accounting Honors	3
Earth Science	Earth Science Honors	3

SERVICE CREDITS

Credit: 0.25

Students may elect to serve as a Student Aide during the school year for the following areas: Art, Athletics, Audio Visual, Family & Consumer Sciences, ELL, Counseling, Library, Nurse, Dean's Office, Publications, Science, Technology Education or Student Activities. The credits earned as an Aide count as service credit. Students may elect to serve as an Aide for one or both semesters. They may, however, hold only one Aide position per semester. A 0.25 credit will be granted for each semester. This can be counted toward graduation as a service credit and will be graded on a pass-fail basis.

ALTERNATIVE COURSES

Credits from non-traditional courses and programs including, but not limited to e-learning, correspondence, or college courses may be counted toward graduation if they meet certain requirements. Such courses must be from an accredited institution and include at least 60 seat hours. The student assumes responsibility for all fees. Coursework taken by current District 86 students via alternative paths (American School, Illinois Virtual School, etc.) will not appear on the District 86 transcript unless there has been prior written approval by the Director of Counseling. Such approved credit will appear on the high school transcript as transfer credit indicating course name, grade and credit earned. The grade will be calculated into the grade-point average of the District 86 school. Additionally, transfer students and currently enrolled students requesting to transfer credit for a class from an accredited institution outside of HCHS, may be required to take a placement exam to ensure appropriate level of placement for a higher-level class. The Department Chair for the subject area will set a mastery level for the exam. If mastery is not obtained, then a student may need to repeat that course and credit will not be issued. Only one online class per semester and two online classes during the summer are approved.

SPECIAL EDUCATION PROGRAM OVERVIEW

The Special Education Department provides a full continuum of services and supports designed to meet the Individual Education Program (IEP) needs of students. Students in need of special education services can receive instruction and programing through one or more of the following approaches:

- academic accommodations within the regular education classrooms,
- structured assistance within the regular education classrooms through co-taught supports,
- structured assistance outside the regular class through consultation services,
- related services, and
- direct instruction in specialized course offerings

All of the courses below meet the HCHS graduation requirements:

ADDITIONAL ACADEMIC OPPORTUNITIES

<p>ACADEMIC CENTER RESOURCE <i>Course # 9920, 9924</i> Full year Credit: NC</p>	<p>Academic Center Resource is for students who are self-motivated, well organized, and can demonstrate excellent self-advocacy skills. Students are self-directed learners who can identify strengths/challenges and have developed the necessary compensatory skills to allow them to be successful in the academic school setting. The Academic Center provides students with opportunities for support across curriculum subjects in a structured setting. Students may also seek out departmental support/resources, schedule guidance appointments, and make up any tests/quizzes during this period.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>STUDY SKILLS FOUNDATIONS <i>Course # 2080</i> Full year Credit: 1.0</p>	<p>Students will explore essential aspects of academic, organizational and social skills that can be generalized in various facets of daily life. Emphasis will be placed on decision-making and behavior expectations, time management, use of classroom and school resources, and self-advocacy. Community outings are also a component of this class.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>STUDY SKILLS 1 <i>Course # 1951, 1952</i> Full year Credit: 0.5</p>	<p>Study Skills 1 is a freshman-level class. Students enroll in study skills based upon a teacher's recommendation. Study Skills 1 targets the skills required for a successful transition into the high school experience. These include organization, time management, long term planning, listening skills, memory skills, and test preparation skills. Study skills 1 also serves as a period where students may complete assessments and/or consult with other school staff to meet their individual needs.</p> <p>Prerequisite: Department Chair approval. Open to grade 9.</p>
<p>STUDY SKILLS 2 <i>Course # 1956, 1957</i> Full year Credit: 0.5</p>	<p>Study Skills 2 is a sophomore-level class. The course addresses the maintenance of study skills such as effective note-taking and test preparation skills. It also begins to look into research skills that students will need to investigate post-secondary employment or academic/ vocational programs. In addition, Study Skills 2 serves as a period in which students may complete assessments or consult with other school staff to meet their individual needs.</p> <p>Prerequisite: Department Chair approval. Open to grade 10.</p>
<p>LEARNING STRATEGIES 1 <i>Course # 1958, 1959</i> Full year Credit: 0.5</p>	<p>Learning Strategies 1 is a junior-level class. Students are enrolled in this class based upon a teacher's recommendation. This class supports students with their study strategies and executive functioning skills. The course also prepares students for any upcoming assessments through academic content review and effective test taking strategies. Additionally, students may use their learning strategies class time to complete classroom assessments and to seek out support from other academic departments. A final component to Learning Strategies is to continue the process of post-secondary planning.</p> <p>Prerequisite: Department Chair approval. Open to grade 11.</p>
<p>LEARNING STRATEGIES 2 <i>Course # 1961, 1962</i> Full year Credit: 0.5</p>	<p>Learning Strategies 2 is a senior-level class. Students are enrolled in this class based upon a teacher's recommendation. This class supports students with their study strategies and executive functioning skills. This course also prepares students for any upcoming assessments through academic content review and effective test taking strategies. Additionally, students may use their learning strategies class time to complete classroom assessments and to seek out support from other academic departments. A final component to Learning Strategies is to continue the process of post-secondary planning.</p> <p>Prerequisite: Department Chair approval. Open to grade 12.</p>
<p>PROGRAM SUCCESS <i>Course # 1956A, 1957A</i> Full year Credit: 0.5</p>	<p>Program Success provides students time in their day to get additional support with their academic course work and provides students an opportunity to process interactions that have occurred which are having an impact on the student. In addition, arrangements can be made to provide students with academic instruction in a small setting. This instructional arrangement may be necessary for a short duration while new interventions are planned. Program Success also serves as a time when students can communicate with staff, or complete assessments.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>

ADDITIONAL ACADEMIC OPPORTUNITIES

<p>HAVEN Course # 9701/9702 Credit: No Credit</p> <p><i>This is a District 86 program housed at Hinsdale South High School</i></p>	<p>The District 86 therapeutic program, HAVEN, is for students whose behavioral and emotional needs impede and/or significantly disrupts the learning environment for other students despite learning environment supports attempted. The goal is to provide students with developmentally appropriate Pro-Social Independence. The program is designed to assess the level of pro-social independence of each student and to devise strategies, interventions and experiences that help the student build their capacity to become increasingly independent and successful in a school setting. Students will engage in academic course work in order to meet District 86 requirements toward graduation. These supports are provided to students a small class setting in order to ensure that their academic and social goals are being met. <i>HAVEN is an acronym for Hinsdale Area's Vision of Emotional Needs.</i></p> <p>Prerequisite: IEP Team recommendation and Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>PRE-VOC FOUNDATIONS Course # 2100 Full year Credit: 1.0</p>	<p>This course explores essential skills related to employment. Emphasis will be placed on hands on in school job training, entry level workplace skill development which may include: following a schedule, time management, efficiency, responsibility, work etiquette, following directions and communicating with co-workers and supervisors. This class meets the Consumer Education requirement.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>ELECTIVE FOUNDATIONS Course # 2060 Full year Credit: 1.0</p>	<p>Through cooperative games and leisure activities, students will explore essential components of self-awareness & self-management, social-awareness, interpersonal skills, and decision-making.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>COOPERATIVE WORK TRAINING Course # 1931, 1932 Full year Credit: 0.5/semester</p>	<p>This course explores obtaining and maintaining a part time paid position in the community. Students enrolled in this class are actively looking or are currently working at a part time job. This class meets once a week during a study hall period to address job application completion and job retention. Seminars are offered throughout the course to address employment topics such as career exploration, understanding your paycheck, conflict resolution, resume and cover letter development, interviewing skill development.</p> <p>Prerequisite: Department Chair approval. Open to grades 10, 11, and 12.</p>
<p>PRE-VOCATIONAL SUPERVISED JOB TRAINING Course # 1941, 1942 Full year Credit: 0.5/semester</p>	<p>This course explores more in-depth application and practice in both in-school and community based job training, as identified based on individual goals. This class emphasizes career exploration & planning, job application, job search, interviewing, resume development, cover letters, and continued development on communication skills.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>ADULT OPPORTUNITIES Course # 2930 Credit: No credit</p> <p><i>This is a District 86 program offered at the Transition Center.</i></p>	<p>Adult Opportunities is a Community-Based Program for students ages 18-21. The purpose of the program is to implement an innovative, adult-centered community program through a collaborative approach that prepares students for adulthood success while promoting opportunities for independence in the areas of: employment, post-secondary education and training, independent living skills, and community.</p> <p>The goals of the Adult Opportunities program are to: increase independence in adult living situations; improve self-determination skills; improve social and communication skills; increase leisure, recreation, and life skills; experience work-based learning and volunteer work; and prepare for community living and participation.</p> <p>Prerequisite: Teacher recommendation and Department Chair approval. Open to post 12th grade, ages 18-21.</p>

ADDITIONAL ACADEMIC OPPORTUNITIES

ADVANCED PLACEMENT PROGRAM

The Advanced Placement (AP) Program provides students with the opportunity to pursue college-level studies while still in high school and to receive advanced placement and/or credit when entering college. Qualified, academically-oriented students in the 10th, 11th and 12th grades are eligible to participate in the Advanced Placement Program at Hinsdale Central High School.

The Advanced Placement Program at Hinsdale Central High School consists of the following courses:

AP Art History	AP Calculus AB	AP Physics 1
AP Studio Art	AP Calculus BC	AP Physics 2
AP Language & Composition	AP Computer Science Principles	AP Physics C
AP Literature & Composition	AP Computer Science A	AP Seminar: Science
AP French Language and Culture	AP Statistics	AP European History
AP Latin Vergil	AP Music Theory	AP Microeconomics
AP Spanish Language and Culture	AP Biology	AP Macroeconomics
AP Spanish Literature and Culture	AP Chemistry	AP Psychology
	AP Environmental Science	AP U.S. Government & Politics
	AP Research: Science	AP U.S. History

* Upon completion of World History Honors, students may take the World History AP exam

DEPARTMENTS

Advanced Placement courses are offered by seven departments: Art, English, Mathematics, Music, Science, Social Studies, and World Languages. These courses adhere to College Board approved course descriptions and serve as the primary vehicle to prepare students for the voluntary AP examinations in May. In addition to preparing students for the AP exams, AP courses allow students to experience the pace and intensity of college-level courses while still in high school. Some AP courses may explore opportunities for students to work in teams on interdisciplinary themes or projects. Such activities would be designed to provide students the opportunity to solve real-world problems across AP subject areas. The AP courses are challenging and stimulating, require more work and more time than other high school courses.

EXAMINATIONS

The Advanced Placement examinations are administered each year during the second and third weeks of May and can be described as “tough, but fair.” Usually three hours in length, each exam consists of a multiple choice section and free-response section that requires essay writing or problem solving. Every examination receives an overall grade from a team of carefully selected college professors and high school AP teachers on a five-point scale: 5 (extremely well qualified), 4 (well qualified), 3 (qualified), 2 (possibly qualified), and 1 (no recommendation). An AP Grade Report is obtainable online in July to each student, the high school, and if the student requests it, to the college. Unless recommended by the teacher not to do so, all enrolled AP students are expected to take their course ending examinations. For practice tests – check out apstudent.collegeboard.com.

CREDIT

Although each college determines what AP examination grades it will accept for credit and/or advanced placement, the great majority of colleges accept grades of 3 or better and award the student with credit in the subject matter tested. In some cases, no credit is given, but the student may begin the program of study at an advanced level. Students wanting to know what AP grades are considered acceptable by the colleges in which they are interested should write the Director of Admissions of the college or consult with the Director of Counseling at Hinsdale Central. For more information, check out apstudent.collegeboard.com.

FEES

Last year’s fee for each AP exam as established by the College Board was \$93 with an additional \$45 per exam late-testing fee. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. For schools participating in AP Capstone in 2017-18, there will be an additional fee for the class.

ADDITIONAL ACADEMIC OPPORTUNITIES

HONORS PROGRAM

In the Art, Business, English, Mathematics, Music, Science, Social Studies, and World Languages departments, particular courses are designated as honors courses. Honors courses are designed to challenge students of superior ability by enriching and/or accelerating the course content and have standards of high achievement distinctly above those of regular courses. Instruction in honors courses occurs at a faster pace, covers the subject matter in more depth and emphasizes higher level thinking skills.

Honors Option courses are offered by Art, Business, Family and Consumer Sciences, and Technology Education. The courses allow students to experience a more intense curriculum, higher expectations and greater responsibilities. These courses are challenging and will require more work and time than other high school courses. Admission to the Honors Option courses is based upon a student's application and departmental approval.

HONORS COURSES:

Honors Portfolio H	H/Seminar in Writing	Latin 2 H	Physics H

EXCEL STUDY HALLS

Course # 1020, 1024, 1027, 1028 Credit: 0.50

Excel is designed as an academic support program. Students assigned to the Excel Study Hall will attend every day during their scheduled period and will continue to receive these services until all grades earned are at a C level or above for two consecutive quarters at which point they can transfer into a regular study hall. Excel Study Hall is an academic program where students meet in a supportive environment to receive assistance. The Excel Study Hall staff members consult with classroom teachers and parents to help improve each student's achievement in courses. A 0.5 credit is earned per semester for successful participation in this program. Student support in the areas of organizational skills, study skills, and homework completion will be available and structured with each program. Prerequisite: None. Open to grades 9, 10, 11, and 12. May be repeated.

ADDITIONAL ACADEMIC OPPORTUNITIES

HONORS/AP SEQUENCING

Admission to the honors program is based upon several established selection criteria:

- Teacher recommendation
- Results of the 8th grade placement test
- Past academic performance
- Departmental approval

Students with superior ability, a commitment to the subject matter and motivation to learn are encouraged to apply for admission to the honors program.

ADDITIONAL ACADEMIC OPPORTUNITIES

AP CAPSTONE

What is AP Capstone?

AP Capstone™ is a College Board program that equips students with the independent research, collaborative teamwork, and communication skills that are increasingly valued by colleges. It cultivates curious, independent, and collaborative scholars and prepares them to make logical, evidence-based decisions.

AP Capstone is comprised of two AP courses — **AP Seminar** and **AP Research** — and is designed to complement and enhance the discipline-specific study in other AP courses.

Benefits of AP Capstone

- Fosters the **research**, argumentation, and communication skills that are at the core of college readiness and essential for lifelong learning
- Provides a setting to build on the knowledge and rigorous course work of AP in an **interdisciplinary** format
- Offers students a unique opportunity to **distinguish** themselves to colleges and universities

Combining Scholarly Practice with Academic Intensity

AP Capstone was developed in response to feedback from higher education. The two AP Capstone courses, with their associated performance tasks, assessments, and application of research methodology, require students to:

- Analyze topics through multiple lenses to construct meaning or gain understanding.
- Plan and conduct a study or investigation.
- Propose solutions to real-world problems.
- Plan and produce communication in various forms.
- Collaborate to solve a problem.
- Integrate, synthesize, and make cross-curricular connections.

See page 89 for course descriptions and prerequisites

ART DEPARTMENT

ART

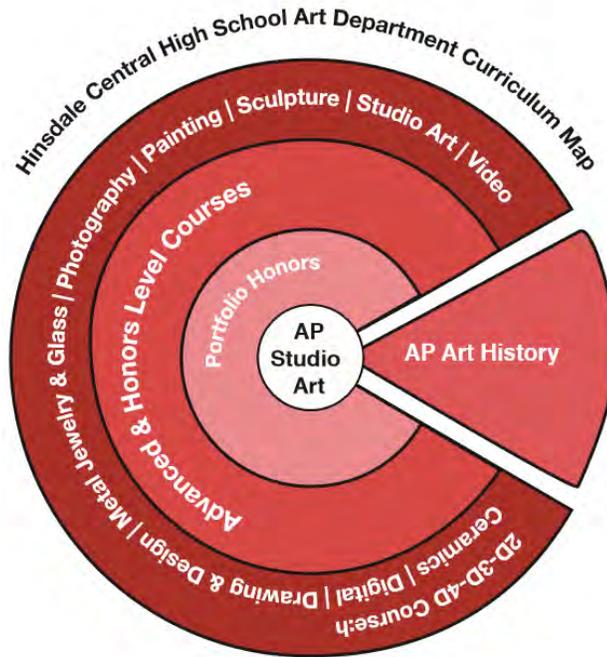

High School District 86 requires the successful completion of two Elective Arts credits. Two fine arts credits fulfill the Illinois state public university entrance requirement in Art, Music or vocation education. Within the Hinsdale Central art department, students use media, tools, and technologies to make personal work. As a result, students become problem-solvers and creative thinkers. Student work is displayed throughout the school and community on a continuing basis. Supply fees are required for participation in studio courses.

Articulated credits at College of DuPage are available to Hinsdale Central students who complete certain courses at Hinsdale Central with at least a grade of B and who, upon graduation, attend C.O.D. Articulated credit at College of DuPage is available with the completion of the sequence of Basic Photography and Digital Color Photography.

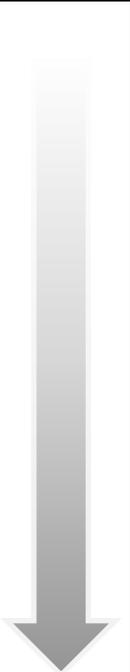

MISSION STATEMENT

The artistic, intellectual, and personal development of young people, through the visual arts, is the goal of the Hinsdale Central Art Department. We, the art faculty, as mentors, coaches, and artists, are committed to creating a challenging, authentic, and caring creative environment. We challenge students to develop excellence and creativity through art work and to appreciate the importance of art in daily life and culture.

ART DEPARTMENT

Studio Art or Studio Art Honors*

ART DEPARTMENT

<p>STUDIO ART <i>Course #5101, 5102</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$20.00</p>	<p>Studio Art is the only course at Central in which introductory students can experiment in a variety of materials. You will explore fundamental aspects of design, drawing, painting, jewelry, mixed media, and sculpture. Emphasis will be placed on creativity, craftsmanship, and problem solving.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>STUDIO ART HONORS <i>Course #5101A, 5102A</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$20.00</p>	<p>Studio Art Honors is an opportunity for students who are highly motivated and serious about their study of art at Central. Studio Art is the only departmental course that explores a variety of materials. You will explore fundamental aspects of design, drawing, painting, jewelry, mixed media, and sculpture. Emphasis will be placed on creativity, craftsmanship, and problem solving. Honors students are required to keep a journal, visit museums and galleries and enter competitions outside of class to improve and expand their artwork.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester. Open to grades 9, 10, 11, and 12.</p>
<p>DRAWING & DESIGN <i>Course #5211, 5212</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee \$20.00</p>	<p>Drawing & Design is a beginning through intermediate level drawing course. You'll learn basic drawing skills and work with pastel, charcoal, pencil, and pen. Projects will challenge your creativity whether you are a novice or experienced artist.</p> <p>Prerequisite: Studio Art is highly recommended. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED DRAWING & DESIGN <i>Course #5221, 5222</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$17.00</p>	<p>Advanced Drawing & Design continues to develop skills learned in Drawing class. Further exploration of drawing mediums and creative themes will be stressed. The course is geared towards the drawing student.</p> <p>Prerequisite: Drawing & Design. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED DRAWING & DESIGN HONORS <i>Course #5223, 5224</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$17.00</p>	<p>Advanced Drawing & Design Honors is geared towards the serious, more experienced and highly motivated drawing student. Students are required to keep a journal, visit museums and galleries and enter competitions outside of class.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester. Open to grades 9, 10, 11, and 12.</p>
<p>PAINTING <i>Course #5311, 5312</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$20.00</p>	<p>Painting is a class about thinking like a painter. Work in acrylics, watercolor, and oil paint; the course will expose you to many types of painting. Although it is challenging, the course is really fun.</p> <p>Prerequisite: Studio Art is highly recommended. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED PAINTING <i>Course #5321, 5322</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$20.00</p>	<p>In this class, you create a series of paintings based on your own theme. Advanced painters also do a few exercises that allow you to try a new strategy or skill. This course gives students more freedom to determine a personal style and make design choices.</p> <p>Prerequisite: Painting. Open to grades 9, 10, 11, and 12</p>
<p>ADVANCED PAINTING HONORS <i>Course #5323, 5324</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$20.00</p>	<p>Advanced Painting Honors is geared towards the serious, more experienced and highly motivated painting student. Students are required to keep a journal, visit museums and galleries and enter competitions outside of class.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester. Open to grades 9, 10, 11, and 12.</p>

ART DEPARTMENT

<p>JEWELRY, METAL, AND GLASS <i>Course #5351, 5352</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$21.00</p>	<p>Jewelry, Metal, and Glass is a fun and challenging course. You will create small and wearable sculptures from a variety of metals. Glass is also explored through enameling, glass fusing, and glass bead-making. Develop your creative thinking and your fine motor skills (calling all future surgeons and dentists).</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED JEWELRY, METAL, AND GLASS <i>Course #5361, 5362</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$21.00</p>	<p>This concentration enables students to explore the potential of jewelry as a communication tool. You will explore a variety of materials and methods with a focus on body adornment and development of themes. Advanced Jewelry, Metal, and Glass will focus on the development of independent thinking and personal expression. Creative exploration is the key.</p> <p>Prerequisite: Jewelry, Metal, and Glass. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED JEWELRY, METAL, AND GLASS HONORS <i>Course #5363, 5364</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$21.00</p>	<p>Advanced Jewelry, Metal, and Glass Honors is geared towards the serious, more experienced and highly motivated jewelry student. Students are required to keep a journal, visit museums and galleries and enter competitions outside of class.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester Open to grades 9, 10, 11, and 12.</p>
<p>CERAMICS / CLAY SCULPTURE <i>Course #5421, 5422</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$17.00</p>	<p>Ceramics is an introduction to the basic techniques including hand building, wheel throwing, and glazing. Students will produce both functional and sculptural projects with an emphasis on creativity.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED CERAMICS <i>Course #5431, 5432</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$17.00</p>	<p>Advanced hand building and glazing techniques will also be covered. Emphasis is placed on individual exploration of the potter's wheel and larger hand-built forms. Personal awareness of form, content, and design will be explored. Improve upon and expand what you can do with clay in this class.</p> <p>Prerequisite: Ceramics/Clay Sculpture. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED CERAMICS HONORS <i>Course #5433, 5434</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee \$17.00</p>	<p>Advanced Ceramics/Clay Sculpture Honors is geared towards the serious, more experienced and highly motivated ceramics student. Students are required to keep a journal, visit museums and galleries and enter competitions outside of class.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester. Open to grades 9, 10, 11, and 12.</p>
<p>SCULPTURE <i>Course #5441, 5442</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee \$17.00</p>	<p>In this studio course, students will explore and develop three dimensional designs. Glass, clay, fiber, metals and found objects are some of the materials that will be used. Weld, build, and create in three dimensions.</p> <p>Prerequisite: One semester of Art. Open to grades 9, 10, 11, and 12.</p>
<p>BASIC PHOTOGRAPHY TRADITIONAL and DIGITAL BLACK & WHITE <i>Course #6691, 6692</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$35.00</p>	<p>Basic photography is for students interested in learning the techniques necessary to produce technically correct and aesthetically pleasing photographs. Digital and film capture of images will be explored. Areas of study will include, but are not limited to, the composition of a good photograph; the processing of black and white photographic materials; and proper application of photographic equipment and supplies. Photographic equipment and supplies will be provided along with cameras for students who do not have access to a Single Lens Reflex (SLR) camera.</p> <p>Prerequisites: None. Open to grades 9, 10, 11, and 12.</p>

ART DEPARTMENT

<p>DIGITAL COLOR PHOTOGRAPHY <i>Course #6701, 6702</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$35.00</p>	<p>This course is for students interested in the modern methods of Digital Color Photography. The student will use a digital camera to capture images. After capture, photographs will be produced in the digital darkroom using a computer and Photoshop software. Areas of study include, but are not limited to, the principles of color and light; elements of a good photograph; capturing images with a digital camera; editing a photograph for presentation with Photoshop; printing a digital file in color; and preparing a photograph for display. The studio will be used to further the use of shade and shadow, light ratios, and photographic composition techniques. Still life and portrait techniques will be explored. Equipment and supplies will be furnished. Cameras are available for students who do not own or have access to a digital camera. Basic Photography and Digital Color Photography together have articulated credit with the College of DuPage.</p> <p>Prerequisite: Basic Photography. Open to grades 9, 10, 11, and 12.</p>
<p>DIGITAL COLOR PHOTOGRAPHY HONORS <i>Course #6703, 6704</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$35.00</p>	<p>Beyond the regular advanced photography content, additional projects and assignments will require the selection of a concentration and/or theme by the student. The selected theme will necessitate greater depth, complexity, and rigor to produce higher-level photographs. Expectations for this class will require extra lab work outside of class. This class is recommended for highly motivated photography students looking to add meaningful pictures to their portfolio.</p> <p>Prerequisite: Basic Photography. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED PHOTOGRAPHY <i>Course #6812</i> 2nd semester Credit: 0.5</p> <p>Supply fee: \$40.00</p>	<p>In this advanced level course, students will be expected to improve upon their current level of photographic ability. Students will have the opportunity to explore digital and film capture of images. In terms of technique, students will be introduced to different camera formats and the zone system (a procedure which will allow students to make more carefully controlled photographic prints.) Additionally, some non-traditional films, papers, and emulsions will be introduced. In terms of content, through class assignments and independent work, students will further their use of photographic medium to more effectively articulate ideas. Students will have the opportunity to work with black and white film, color film, infrared film, and digital cameras to capture images. Students will be expected to properly display and critique their photographic work.</p> <p>Prerequisites: Basic Photography and Digital Color Photography with instructor approval. Open to grades 10, 11, and 12.</p>
<p>ADVANCED PHOTOGRAPHY HONORS <i>Course #6814</i> 2nd semester Credit: 0.5</p> <p>Supply fee: \$40.00</p>	<p>Beyond the regular advanced photography content additional projects and assignments will require the selection of a concentration and or theme by the student. The selected theme will necessitate the demonstration of greater photographic complexity, and an advanced understanding of light to produce higher-level photographs. Expectations for this class will require extra lab work outside of class. This class is recommended for highly motivated photography students looking to add meaningful well-composed pictures to their portfolio.</p> <p>Prerequisites: Basic Photography and Color Photography with instructor approval. Open to grades 10, 11, and 12.</p>
<p>DIGITAL IMAGING 1 <i>Course #5121, 5122</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee \$17.00</p>	<p>This course is designed for students who want to create art on the computer. Artistic and creative problem solving strategies are developed which can help students in all areas of learning. Students take their own digital photographs. Each student will use these images to create original works of art using the software Adobe Photoshop CS5. Students will create a cartoon in Adobe Illustrator CS5 and a digital portfolio is created on a web interface. Software is MAC OS 10.5 or higher. Digital Imaging 1 introduces students to many different tools in Adobe Photoshop and Illustrator while working on your own digital images. Use your imagination to take and manipulate digital photographs. If you want to pursue a career in graphics, illustration, or another design field, this course is perfect.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>

ART DEPARTMENT

<p>DIGITAL IMAGING 2 <i>Course #5131, 5132</i> 2nd semester Credit: 0.5</p> <p>Supply Fee: \$17.00</p>	<p>Further explore and develop your skills in Adobe Photoshop and Illustrator. While enhancing your skills, you will work independently on your chosen theme. Major projects are self-directed and flow from your imagination and motivation.</p> <p>Prerequisite: Digital Imaging 1. Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC DESIGN <i>Course #5331, 5332</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$17.00</p>	<p>Dreaming of a career as a Graphic Designer, Art Director, Animator, or other design field? Using Photoshop, InDesign and Illustrator, you will solve design projects for real-client directed design challenges in addition to class design challenges. Working knowledge of Adobe Photoshop CS3, Adobe Illustrator CS3, and Adobe InDesign will be needed. Software is MAC OS 10.5 or higher.</p> <p>Prerequisite: Digital Imaging 1. Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC DESIGN HONORS <i>Course # 5335, 5336</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$17.00</p>	<p>This course is recommended for students who are interested in working as a design-creative or art director. Using Photoshop, InDesign and Illustrator, you will solve real-client directed design challenges, in addition to, class design challenges. Honors students are expected to keep a formal journal, attend a workshop outside of class, in addition to class projects.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester. Open to grades 9, 10, 11, and 12.</p>
<p>DIGITAL VIDEO ART <i>Course #5475, 5476</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$17.00</p>	<p>Digital Video Art introduces you to the 4th dimension, TIME. Be creative using digital video techniques or combine moving images with still images. Visual experimentation is encouraged through directing, producing, editing, sound design, screenwriting and videography. Students will work independently and collaboratively to develop their short films. Final Cut Pro and After Effects software will be used for post-production. Students will be encouraged to enter video competitions.</p> <p>Prerequisite: None, but Digital Imaging is recommended. Open to grades 9, 10, 11, and 12.</p>
<p>HONORS PORTFOLIO <i>Course #5473, 5474</i> 1st or 2nd semester Credit: 0.5 (may be repeated twice)</p> <p>Supply Fee: \$20.00</p>	<p>Students will create a body of artwork based on a personal exploration of a central theme or idea. This body of work represents the results of rigorous research, planning and problem-solving. Each student is required to create a reference manual that combines multiple explorations of a variety of media. The work produced in this course may be used as part of the Advanced Placement Art Portfolio. Honors students are expected to keep a formal journal, attend a workshop outside of class, in addition to class projects. The work produced in this course may be used as part of the Advanced Placement Art Portfolio.</p> <p>Prerequisite: Advanced level course. Portfolio review with Department Chair approval. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT ART HISTORY <i>Course #5440</i> Full Year Credit: 1.0</p>	<p>This course provides a survey of the history of art. It is designed to prepare students to take the Advanced Placement examination.. Students enrolling in this course are expected to have well developed writing skills and an interest in art and culture. By viewing art from different periods and cultures, you will have a better understanding of world history. You'll be able to travel and wonder through museums with an understanding of what you are seeing. Memorization of facts, understanding of larger concepts, and a love of writing will help you. We also go out to view art, occasionally work with art materials, and develop more creative responses to the art and architecture we study. As a result of this class, you will enjoy and view the world differently.</p> <p>Prerequisite: Department Chair approval. Open to grades 10, 11, and 12. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>

ART DEPARTMENT

**ADVANCED
PLACEMENT STUDIO
ART**

Course #5450

Full year

Credit: 1.0

Supply Fee: \$40.00
(excludes series materials)

This course provides accelerated students with a challenging program of college-level studio work. Prior to the end of the academic year, a portfolio of approximately 44-46 pieces will be submitted to the College Board for evaluation and possible college credit. The AP Program offers three portfolios: Drawing (painting, printmaking, drawing), 2-D Design (photography, graphic design, product design, fashion design), and 3-D Design (jewelry, ceramics, sculpture). AP Studio is work-intensive, serious, and thought-provoking class. Anyone who ranks art among their primary interests should consider taking this course. This is a fulfilling challenge.

Students interested in this course need to sign up for a brief interview at the Art office before first semester final exams.

Prerequisite: Portfolio review and Department Chair approval. Open to grades 11 and 12. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.

--	--

Business courses can fulfill 1 credit for the District 86 graduation requirement in the Elective Arts. Business courses can also be taken for general/elective credit. The 0.5 consumer education graduation requirement may be met by successful completion of the department's Consumer Economics course or Introduction to Business.

Business Department courses are electives; however, with the increase in reliance on technology in our society, the department strongly recommends that all students include computer courses in their high school studies (i.e. Digital Communication Tools 1 & 2, Digital Tools and Applications, Advanced Computer Applications).

Students who are contemplating a Business major in college should select one or more Business electives. Because of the difficulty of college-level Accounting, students are urged to take an Accounting course at Hinsdale Central.

Consumer Economics can be taken any time between sophomore and senior year to meet State of Illinois Consumer Education Requirement.

Internship or **Internship Honors** can be taken Junior or Senior year and is completed outside of the regular school day according to student availability (course can be repeated).

Digital Tools 1 or 2 can be taken any year, however, taking it early will enhance technology skills for use in later school years.

BUSINESS DEPARTMENT

COMPUTER COURSES	
<p>DIGITAL COMMUNICATION TOOLS 1 <i>Course #6121, 6122</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course enables students to acquire and refine vital and emerging computer skills in this digital age. Students will develop keyboarding skills using the touch method, and be introduced to some of the latest input technologies, including speech recognition software and using tablet PC's. Constructing, formatting and editing documents using Microsoft Word, Excel, and PowerPoint will be the focus of production work in this course. Internet applications and email will also be taught and utilized during class projects. (Credit is NOT given for both Digital Communications Tools 1 and Digital Tools and Applications.)</p> <p>Prerequisite: None. Next course in sequence: Digital Communication Tools 2. Open to grades 9, 10, 11, and 12</p>
<p>DIGITAL TOOLS & APPLICATIONS <i>Course #6130</i> Full year Credit: 1.0</p>	<p>This course enables students to acquire and refine vital and emerging computer skills in this digital age. Students will develop keyboarding skills using the touch method, and be introduced to some of the latest input technologies, including speech recognition software and using tablet PC's. Constructing, formatting and editing of documents using basic and more advanced features of Microsoft Word, Excel, and PowerPoint will be the focus of production work in this course. Desktop Publishing, database, and web page development will also be introduced. Internet applications and email will also be taught and utilized during class projects. This year long course will take your computer skills to new heights, enabling you to integrate technology in a variety of ways in projects for other classes. [Credit is NOT given for both Digital Communication Tools 1 and 2 and Digital Tools and Applications.]</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>DIGITAL COMMUNICATION TOOLS 2 <i>Course #6331, 6332</i> 1st or 2nd semester Credit: 0.5</p>	<p>Continue to develop computer skills in this course as more advanced features are taught in word processing, spreadsheets and charts, and digital presentations. Desktop publishing, database and web page development will also be introduced. Constructing, formatting and editing of documents using Microsoft Word, Excel, Power Point, Publisher, and Access will continue to be the focus of production work in this course along with creating a web page. Internet Applications and Web 2.0 tools will also be utilized during class projects, and students will continue to work with some of the latest input technologies such as speech recognition software.</p> <p>Prerequisite: None, however, Digital Communication Tools 1 is recommended. Proper keyboarding technique and speed, along with document development, formatting, and proofreading skills are expected. Open to grades 9, 10, 11, and 12.</p>
BUSINESS COURSES	
<p>INTRODUCTION TO BUSINESS <i>Course #6100</i> Full year Credit: 1.0</p> <p>(0.5 Elective Arts/0.5 Consumer Ed. - Must complete the entire year to receive Consumer Ed. credit)</p>	<p>This course gives students a background in the basic operations of business and develops an understanding of the economic role of business in our society. Major areas of study include economics, banking, credit, insurance, budgeting, consumer protection, government, entrepreneurship and taxes. Skill is developed through a wide variety of activities including computer research, projects, and classroom activities.</p> <p>Successful completion of this course fulfills the District's Consumer Education requirement for graduation. Prerequisite: None. Open to grades 9 and 10.</p>
<p>INVESTMENT PLANNING <i>Course #6111, 6112</i> 1st or 2nd semester Credit: 0.5</p>	<p>In this course students will study basic investment principles involving stocks, commodities, bonds and mutual funds. Students will also learn about tax information, effects of the economy on the market, government regulations of securities and on-line investing. Current issues as they relate to investing will be discussed. Teams will be formed to participate in the Stock Market Game by trading on-line.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>

BUSINESS DEPARTMENT

<p>ACCOUNTING <i>Course #6170</i> Full year Credit: 1.0</p>	<p>This course develops a basic understanding of double-entry accounting. The accounting cycle, accounting theory, financial reports and financial analysis are included. Online accounting work papers, spreadsheets and accounting software are used to apply all accounting concepts. This course is recommended for college-bound students planning a career in accounting, finance, management or marketing.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>ACCOUNTING HONORS <i>Course #6180</i> Full year Credit: 1.0</p>	<p>Accounting Honors will prepare students for the rigor of college accounting. Students will develop an understanding of double-entry accounting. Topics covered include the following: accounting cycle, accounting systems, internal controls, journals, receivables and payables, accruals and deferrals, inventory, fixed assets and depreciation, financial statement preparation and analysis, and taxes. A computerized accounting program will also be utilized, as well as the Excel spreadsheet program. The core material for this course is similar to Accounting 6170; however, more topics are covered, the pace is accelerated and expectations are higher. This course is highly recommended for motivated students planning to enter a college business program.</p> <p>Prerequisite: Department Chair approval. Open to grades 11 and 12.</p>
<p>MARKETING <i>Course #6181, 6182</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course focuses on the activities necessary to market products, services, and ideas to consumers. Major topics include market segmentation, consumer behavior, marketing research, product planning, and advertising. Students will apply marketing concepts learned in class by researching, creating and advertising new products.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>SPORTS MARKETING <i>Course #6183, 6184</i> 1st or 2nd semester Credit: 0.5</p>	<p>This intermediate marketing course will introduce students to the exciting field of sports marketing and its role in society. Students will develop a thorough understanding of the marketing concepts and theories that apply to sports and sporting events. The areas this course will cover include sponsorships, endorsements, licensing, event marketing and sports marketing plans. Students will plan, create, and assess sports marketing communication programs that include advertising, marketing, public relations and news media. Emerging issues in sports marketing will also be discussed.</p> <p>Prerequisite: Marketing. Open to grades 10, 11, and 12.</p>
<p>BUSINESS LAW 1 <i>Course #6231, 6233</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces students to the legal system and the law as it applies to personal and business situations which may occur in their daily lives. It also examines the court system, torts, crimes, technology and the law, contracts, family law, wills and estates. Key elements of this course are case studies, mock trials and a field trip to the courts and jails.</p> <p>Prerequisite: None. Next course in sequence: Business Law 2. Open to grades 11 and 12</p>
<p>BUSINESS LAW 1 HONORS <i>Course #6234, 6235</i> 1st or 2nd semester Credit: 0.5</p>	<p>The core material for this course is similar to Business Law 1 course #6231; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college business program.</p> <p>Prerequisite: Department Chair approval. Next course in sequence: Business Law 2. Open to grades 11 and 12.</p>
<p>BUSINESS LAW 2 <i>Course #6232</i> 2nd semester only Credit: 0.5</p>	<p>This course examines the criminal justice system, the Supreme Court, bailments and real estate transactions, ethics and employment policies and contracts. Group discussions, case studies, guest speakers and a field trip will be utilized to present and examine these concepts. To develop a better understanding of the legal system, students will participate in a mock trial tournament throughout the semester.</p> <p>Prerequisite: Business Law 1 or Business Law 1 Honors. Open to grades 11 and 12.</p>

BUSINESS DEPARTMENT

<p>BUSINESS LAW 2 HONORS Course #6236 2nd semester only Credit: 0.5</p>	<p>The core material for this course is similar to Business Law 2 course #6232; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college business program.</p> <p>Prerequisite: Business Law 1 or Business Law 1 Honors and Department Chair approval. Open to grades 11 and 12.</p>
<p>ENTREPRENEURIAL STUDIES Course #6241, 6242 1st or 2nd semester Credit: 0.5</p>	<p>Do you have an interest in owning or running a business some day? This course will help you develop that entrepreneurial spirit and the skills necessary to be successful in your new business. Topics of study include the entrepreneurial personality and skills; marketing, financing and managing a business; legal requirements of a business; and career opportunities in entrepreneurship. Students will develop an idea and create a business plan.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>CONSUMER ECONOMICS Course #6301, 6302 1st or 2nd semester Credit: 0.5</p>	<p>This course helps students to understand the consumer's role in a mixed economy. Students will learn about various topics that they will use their entire life. Topics of study include: money management, consumer rights and responsibilities, credit, purchasing of goods and services, making sound investment plans and preparing individual tax returns.</p> <p>Successful completion of this course fulfills the District's Consumer Education requirement for graduation. (An online version of this course is available. See page 10 for details.)</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>INTERNSHIP Course #8401, 8402 1st or 2nd semester Credit: 0.5 General credit only Not Elective Arts credit</p>	<p>This program is designed to provide students with an opportunity for career exploration in a field of their choice. Students will work with a mentor outside of the school day for 50-75 hours in their career field. Due to time constraints, it is suggested that students have their own placements, however, if assistance is needed finding a placement, students should contact an internship coordinator. Students will be expected to keep a detailed journal, write a reflection paper and discuss their experiences with a related class.</p> <p>Students will receive a Pass or Fail grade only for this course.</p> <p>Prerequisite: None. Open to grades 11 and 12 upon acceptance after interview.</p>
<p>INTERNSHIP HONORS Course #8403, 8404 1st or 2nd semester Credit: 0.5 General credit only Not Elective Arts credit</p>	<p>The core material for this course is similar to Internship course #8401/8402; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time. This course is highly recommended for motivated students giving serious consideration to a specific career.</p> <p>Students will receive a weighted grade for this course.</p> <p>Prerequisite: Department Chair approval. Open to grades 11 and 12 upon acceptance after interview.</p>

BUSINESS DEPARTMENT

TECH SUPPORT INTERNSHIP (TSI)

Course#8405

Credit: 1.0

The Technology Support Internship (TSI) course is a hands-on study of technology integration in an educational context. Students will be trained to oversee daily technology issues in order to assess which problems surface throughout the school day. Students will define the best approach to addressing or solving the problems for students and teachers.

Students will troubleshoot hardware, software, and network problems, as well as process service tickets and inventory stock. Students will be required to complete and maintain several running projects that address problems or solutions in educational tech integration. They will also be expected to provide training sessions on Chromebook use and digital citizenship to incoming freshmen and transfer students. The course also provides students with the opportunity to pursue an independent learning pathway and potential professional certifications in one of four areas: Application, Innovation, Design, and Entrepreneurship.

**Prerequisite: Department Chair approval/application. Open to grades 10-12
This course can be repeated as an Honors Option available after completion of the first year.**

ENGLISH DEPARTMENT

ENGLISH

High School District 86 requires the successful completion of a minimum of four English credits for graduation. In addition, all students who are enrolled in school must be enrolled in an English course **each semester**. The four credits in English must be taken and passed sequentially and include full year courses freshman and sophomore years and full or half-year courses junior and senior years. Junior and senior students must take core English courses in the following areas: semester courses in writing, literature and communication, or full year courses in literature/writing. Only one communication course taken junior or senior year will count toward the core requirement. There are enrichment courses open to all grade levels.

VISION STATEMENT

The skills and knowledge of English/language arts are essential for student success in virtually all areas of the curriculum and society. To meet the challenges of the 21st Century and beyond, students need to be clear and effective writers and speakers, critical and insightful readers, skilled information processors, and life-long independent and collaborative learners. With the guidance of parents, community, and a dedicated English faculty, our students will graduate from Hinsdale Central as valuable contributors to the world in which we live.

MISSION STATEMENT

The mission of the English Department is to develop in each of our students the following academic attributes: an understanding and appreciation of literature; a proficiency and confidence in writing; the ability to understand communication clearly through active listening, critical observation, and analysis; creativity and imagination in the areas of reading, writing, and speaking; and an appreciation of various cultural and human perspectives through the study and discussion of literature.

*This course satisfies the ISBE graduation requirement for “intensive writing”				

ENGLISH DEPARTMENT

<p>ENGLISH 1 <i>Course #1110</i> Full year Credit: 1.0</p>	<p>English 1 incorporates instruction in many areas, including literature, writing, speaking, research, vocabulary, grammar, nonfiction, short story, drama, poetry, and novels. Writing instruction includes summary, paraphrase, argument, analysis, and synthesis. Research skills, source identification, development of search strategies, and attribution are all taught in conjunction with the library staff. Regular active class participation is essential. The goal of the course is to develop competent learners, thoughtful readers, enthusiastic writers, and effective oral communicators.</p> <p>This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: Incoming freshman eligibility is based on multiple sources of information, including EXPLORE scores and recommendation of 8th grade instructor. Open to grade 9.</p>
<p>ENGLISH 1 HONORS <i>Course #1120</i> Full year Credit: 1.0</p>	<p>English 1 Honors is a course for the student who reads avidly and who shows strong motivation and high academic achievement. Students read a variety of literature, including fiction, nonfiction, classical and contemporary drama, and short stories. Discussion, in-depth analysis, and written assignments accompany these readings. Research skills, source identification, development of search strategies, and attribution are all taught in conjunction with the library staff. In addition, the expository and narrative writing processes, along with grammar usage are emphasized. Speeches and group performances are required. Consistent, thoughtful class participation is expected of all students.</p> <p>This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: Incoming freshman eligibility is based on multiple sources of information, including EXPLORE scores and recommendation of 8th grade instructor. Open to grade 9.</p>
<p>ENGLISH 2 <i>Course #1210</i> Full year Credit: 1.0</p>	<p>English 2 covers the areas of literature, writing, vocabulary, grammar, and speech. Through literature, selected plays, poetry, and novels, students will learn to analyze and appreciate literature. In the area of writing, an emphasis is placed on multi-paragraph essays. Research fundamentals—topic generation, source evaluation and attribution—are taught in conjunction with the library staff. Grammar and vocabulary will be covered throughout the year in conjunction with writing and literature. Public speaking will be practiced. Consistent class participation is imperative.</p> <p>This course satisfies the ISBE graduation requirement for “intensive writing.” Prerequisite: English 1. Open to grade 10.</p>
<p>ENGLISH 2 HONORS <i>Course #1220</i> Full year Credit: 1.0</p>	<p>Challenging reading and writing assignments form the foundation of the English 2 Honors curriculum. Geared towards students who show strong motivation and high academic achievement, the class helps students develop critical thinking skills and effective oral and written communication skills. Students are expected to work on long-range assignments and to be consistently active in class discussions. Research fundamentals—topic generation, source evaluation and attribution—are taught in conjunction with the library staff. Active class participation, in the form of peer editing, small group work and partner projects as well as class discussion, is expected of all students.</p> <p>This course satisfies the ISBE graduation requirement for “intensive writing.” Prerequisite: English 1 or English 1 Honors and Department Chair approval. Open to grade 10.</p>
<p>ENGLISH FOUNDATIONS <i>Course #2000</i> Full year Credit: 1.0</p>	<p>This is for students who are reading and writing two or more years below grade level. The course explores fundamental elements of reading, writing, and listening and speaking that can be generalized in various facets of daily life.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>

ENGLISH DEPARTMENT

<p>ENGLISH <i>Course #1810, 1820, 1830, and 1840</i> Full year Credit: 1.0</p>	<p>This course is for students who are reading and writing below grade level. Curriculum in this course is a modification of the grade level standards but is in alignment with the New Illinois Learning Standards. This course provides a differentiated approach to teaching vocabulary development, literature, and the writing process. Assessments are completed to monitor progress in the areas of reading and writing.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>CORE WRITING COURSES</p>	
<p>SENIOR COMPOSITION <i>Course #1313, 1314</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed for students who wish to improve writing skills for the demands of college coursework. This course includes a review of the multi-paragraph essay and instruction in developing and elaborating on ideas in writing. Students will learn to build arguments in response to texts they read in class. Students will also review punctuation, sentence structure, mechanics, and other grammar topics as needed.</p> <p>Prerequisite: U.S. Literature and Composition or Department Chair approval. Open to Grade 12.</p>
<p>RHETORIC <i>Course #1351, 1352</i> 1st or 2nd semester Credit: 0.5</p>	<p>In today's complex world, clear communication is essential. This course draws on the traditional study of rhetoric—including the persuasive appeals, purpose, and audience—to lay the groundwork for purposeful and effective written communication. The class helps students think critically and write confidently in various situations for various purposes. Rhetoric also focuses on building research skills to ensure that students are well-versed in finding, evaluating, and synthesizing multiple sources of information. Students will hone their writing skills in order to discover, explain, question, and justify stances on contemporary issues. Students must write a research paper in order to earn credit for the course.</p> <p>Prerequisite: English 3. Open to grade 12.</p>
<p>HONORS SEMINAR IN WRITING <i>Course #1355</i> Full year Credit: 1.0</p>	<p>Honors Seminar in Writing is a class for the intellectually curious who value the power of the written word and are eager to become more sophisticated writers. This year-long course is especially designed for those who have enjoyed the rhetorical nature of AP Language and Composition and are interested in analyzing stylistic elements in professional and personal writing. Students will read texts that are challenging and nuanced and will, in their writing, explore real-world complexities through primary and secondary research. The members of this course are committed to crafting and revising their own nonfiction essays, with the intention of publication.</p> <p>Prerequisite: Department Chair approval. There is an application process involved. Open to grade 12.</p>
<p>CORE LITERATURE COURSES</p>	
<p>SENIOR LITERATURE <i>Course #1491, 1492</i> 1st or 2nd semester Credit: 0.5</p>	<p>Powerful stories affect us in profound ways, inspiring us, challenging us, deepening our human experience. The fundamental approach to Senior Literature is to foster a love of reading by encouraging strong emotional connections with powerful stories while emphasizing reading skills and literary analysis. Students in this course study the ways storytellers use their art to make us feel and think more deeply. This is a course designed for the senior student who has taken U.S. Literature and Composition as a junior. Students will read many types of texts, including both traditional forms of fiction and drama, as well as graphic novels, films, and nonfiction texts. Group discussion is emphasized, but students also write essays, take tests, and give oral presentations about these texts.</p> <p>Prerequisite: U.S Literature and Composition or Department Chair approval. Open to grade 12.</p>

ENGLISH DEPARTMENT

<p>WORLD LITERATURE Course #1541, 1542 1st or 2nd semester Credit: 0.5</p>	<p>This college preparatory course for the average and above average reader will afford students the opportunity to gain a better understanding of and appreciation for various cultures from around the world. Through an array of compelling—and mostly contemporary—works, students will be challenged to grapple with universal problems and themes. Common assessments include essays and other writing assignments, discussion, quizzes/tests, oral presentations, and projects.</p> <p>Prerequisite: None. Open to grade 12.</p>
<p>BRITISH LITERATURE 1 Course #1581, 1582 1st or 2nd semester Credit: 0.5</p>	<p>Human tragedy, genuine emotion, realistic, flawed characters, and outrageous jokes—all reasons that we still read the works of Shakespeare. British Literature 1 offers students the opportunity to discover the genius of Shakespeare’s plays. This course explores the comedies, tragedies, and histories of the most famous playwright of the English language. Emphasis is placed on the memorable characters, riveting plots, and universal themes present in some of Shakespeare’s most popular plays. Evaluation is based on discussion, quizzes, essays, tests, and, of course, performance.</p> <p>Prerequisite: None. Open to grade 12.</p>
<p>BRITISH LITERATURE 2 Course #1591, 1592 1st or 2nd semester Credit: 0.5</p>	<p>This college preparatory course focuses on the role of literature in Ireland’s rich, violent, and tumultuous past. Students will read and discuss contemporary and historical issues in Ireland through books, plays, short stories, newspaper articles, and films. The issues of oppression, resistance, and Irish identity will be at the heart of this course. Evaluation is based on discussions of the readings, written activities, presentations, and tests/quizzes. Students will be asked to write creativity in the style of many of the major texts.</p> <p>Prerequisite: None. Open to grade 12.</p>
<p>CORE LITERATURE/WRITING COURSES</p>	
<p>ENGLISH 3 Course #1320 Full year Credit: 1.0</p>	<p>English 3 builds on the skills acquired in English 1 and English 2. The course focuses on American Literature and emphasizes outstanding American authors from the Colonial Period to the modern era in the genres of fiction, nonfiction, drama, and poetry. Written works include argument, analysis, synthesis essays, the research paper, and the college essay. This is an accelerated course with numerous challenging fiction and nonfiction texts and an emphasis on close reading and analytic, purposeful writing. Students completing this course will have the option, with teacher recommendation, of taking AP Literature or AP Language during their senior year. Students must write a research paper in order to earn credit for the course.</p> <p>Prerequisite: English 2. Open to grade 11.</p>
<p>U.S. LITERATURE AND COMPOSITION Course #1300 Full year Credit: 1.0</p>	<p>This course is designed for the student who may need more support in writing and reading. This college-prep course focuses on developing reading skills for understanding fiction, nonfiction, and poetry. Students are required to be productive and engaged participants in daily class activities, such as the practice of specific reading strategies, discussion, and written responses. For writing instruction, emphasis is placed on core writing topics such as thesis statements, organizational patterns, paragraph development, and sentence correctness. Homework reading and writing are required. Students must write a research paper in order to earn credit for the course.</p> <p>Prerequisite: English 2. Open to grade 11.</p>

ENGLISH DEPARTMENT

<p>ADVANCED PLACEMENT LANGUAGE AND COMPOSITION <i>Course #1730</i> Full year Credit: 1.0</p>	<p>In this college-level writing course, students develop the ability to analyze the rhetorical features of texts, speeches, and visuals and produce their own writing—both analytical and argumentative—on a variety of subjects. In addition to multiple in-class and out-of-class writing assignments, students will also learn how to access, evaluate and cite primary and secondary sources so that they can both refine their research skills and develop writings of extended length. This course assumes that students understand and capably use standard English grammar and prepares students for the Advanced Placement Exam in Language and Composition.</p> <p>Prerequisite: English 2 Honors or Department Chair approval. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>
<p>ADVANCED PLACEMENT LITERATURE AND COMPOSITION <i>Course #1731</i> Full year Credit: 1.0</p>	<p>This Advanced Placement Literature and Composition course is designed as an intensive study of literature drawn from multiple genres, time periods, and cultures, including such authors as Shakespeare, Camus, Atwood, Fitzgerald, and Conrad. Students will read poetry, drama, novels, and short fiction deliberately and thoroughly, participating in close textual analysis. Independent, outside reading will be expected. Assignments include in-class essays, research projects, memorizations, oral presentations, and analytical writings. Students are responsible for participating actively and taking the lead in class discussions of the literature they read. This course prepares students for the Advanced Placement Exam in Literature and Composition.</p> <p>Prerequisite: AP Language and Composition or Department Chair approval. Open to grade 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. See page 22 for more details.</p>
<p>CORE COMMUNICATION COURSES</p>	
<p>SPEECH / COMMUNICATION <i>Course #1411, 1412</i> 1st or 2nd semester Credit: 0.5</p>	<p>Thoughtful, eloquent, and effective communication is key to success. This course helps students become more confident and organized speakers, writers, and presenters. The course teaches listening skills, the ability to give and receive tactful and constructive feedback, and includes instruction in research and presentation. Students speak and write daily, with an emphasis on impromptu (no-preparation) speaking. This will serve students on interviews, in college coursework, and in the workplace. At the completion of this course, each student will feel confident in choosing an appropriate topic, conducting critical research, writing with style and purpose, managing the editing process, and delivering a 5-8 minute memorized speech with a logical introduction, body, and conclusion.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>DEBATE AND WRITING <i>Course #1441, 1442</i> 1st or 2nd semester Credit: 0.5</p>	<p>Analysis, argument, questioning, and cooperation—these are the lifelong skills fostered in Debate and Writing. Focusing especially on current events related to timeless issues, students will speak, read, and write daily, and participate in both formal and informal debates, learning how to present perspectives other than their own. Students leave this course with the confidence and resourcefulness needed to enter those conversations especially encountered in college and the professional workplace that require a sense of perspective in sorting out complex issues.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>

ENGLISH DEPARTMENT

<p>SOCIAL COMMUNICATION <i>Course #2005</i> Full year Credit: 1.0</p>	<p>This class is for students with struggle with social pragmatic language Topics covered in the class include thinking in a group, thinking about others, thinking about others thinking about me, and thinking to create relationships. The goal is for students to increase their ability to take another’s perspective, increase problem solving capabilities, and develop and understand how our body is connected to communication and personal relationships with others. This course is a pass/fail course.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>ENRICHMENT COURSES</p>	
<p>ACADEMIC READING 1 <i>Course #1100</i> Full year Credit: 1.0</p>	<p>Academic Reading is designed for ninth grade students whose test scores and past classroom performance demonstrate that they would benefit from direct instruction in reading and vocabulary strategies. Students will be assessed in several skill areas throughout the year to track their growth. The curriculum is comprised of units that address skills that “good readers” internalize including determining main and supporting ideas, developing a variety of vocabulary strategies, and building fluency. To build reading skills, core textbook material will be supplemented with texts from students’ social studies and science classes. Finally, students will engage in daily sustained silent reading of self-selected material. Academic Reading students are simultaneously enrolled in this course and English 1.</p> <p>Prerequisite: Department Chair approval. Open to grade 9.</p>
<p>ACADEMIC READING 2 <i>Course #1102</i> Full year Credit: 1.0</p>	<p>Academic Reading 2 is designed for tenth grade students who were identified during their freshman year as likely to benefit from direct reading and writing instruction and supplemental in-school language arts instruction and support. Guided by multiple diagnostic assessments and a review of student data, teachers will target specific student needs while utilizing engaging, purposeful, research-based practices. Student progress is monitored regularly to ensure that students are receiving the best instruction for their specific needs. Academic Reading 2 students are simultaneously enrolled in this course and English 2.</p> <p>Prerequisite: Department Chair approval. Open to grade 10.</p>
<p>READING <i>Course #1890</i> Full year Credit: 1.0</p>	<p>Reading is a course designed for students in 9th through 12th grade who demonstrate a need for direct instruction in reading strategies because they are reading two or more years below grade level. Students will complete diagnostic tests at the start of the year, in the middle of the year, and at the end of the year. These tests will be used to track growth and also to provide necessary information so that instruction can be individualized to a student’s needs. Instruction in oral fluency, silent reading comprehension, oral reading comprehension, listening comprehension, vocabulary, grammar, and phonics will be provided individually and in a whole class setting. The curriculum is comprised of lessons from the Jamestown Timed Reading series, current events articles, Six Minute Solution passages, the Language! Reading series, Aimsweb fluency and comprehension passages, and Averil Coxhead’s High-Incidence Academic Word List. Course fee \$20.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>SELECTED THEMES IN LITERATURE: Dystopian Literature: Stories Of “What If?” <i>Course #1521, 1522</i> 1st or 2nd semester Credit: 0.5</p>	<p>Were you psyched to discover District 13 survived? Have you ever wondered what it would be like to take Soma? Would you be willing to set yourself on fire to save books? If you’ve loved books about the not-so-bright future, this is the class for you. This course will cover dystopian literature and film, emphasizing themes dealing with the imagination of better worlds and worse worlds. Because utopian/dystopian literature expresses what an author sees as possible, hopes is possible, and fears is possible, readers must engage in social and political critiques. We will explore four central dystopian types as presented in literature and film: the political, the philosophical/religious, the environmental, and the corporate.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>

ENGLISH DEPARTMENT

<p>SELECTED THEMES IN LITERATURE: African American Literature <i>Course #1523, 1524</i> 1st or 2nd Semester Credit: 0.5</p>	<p>This course explores the African-American experience as reflected in the literature and oral tradition of the community, from the earliest days of our nation to current writers and thinkers. The course will explore not only traditional literary genres such as fiction, poetry, drama, and essays, but also consider areas of film, music, and art as well. Students will study the wide span of the African-American experience from slave narratives to current rap music.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>FILM STUDIES <i>Course #1641, 1642</i> 1st or 2nd semester Credit: 0.5</p>	<p>Film Studies presents an opportunity for students to discover, critique, and appreciate movies. This is an exciting course where students learn to see movies like a film critic, create highly interactive, media/technology based projects to express their ideas about cinema, and even try their hand at becoming a movie mogul, investing millions into blockbusters and independent films. Students are encouraged to pursue their own movie interests as they are exposed to significant cultural and ideological movements in film history. Significant emphasis will be placed on learning the technical components of movies (editing, shot types, angles, etc.), as understanding this film grammar is the foundation of film analysis. Students will not only be asked to think about <i>how</i> a movie was made, but also <i>why</i> a movie was made. Written expression and graded discussion are the primary ways students will demonstrate their understanding of the technical, aesthetic, and rhetorical components that make movies effective. Some outside of class viewing is required.</p> <p>Although not all movies are shown in their entirety, written permission must be obtained by a parent at the beginning of this course to allow for students to view the R-rated movies associated with this class. At the time of registration, if R-rated movies are to be utilized in whole or in part, a list of these movies will be available through the English department and online.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>JOURNALISM 1 <i>Course #1651, 1652</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces students to the fundamentals of journalism. Emphasis is placed on interviewing, writing, editing, assessing the audience, and meeting deadlines. Units of study include responsibilities and ethics, Associated Press style, interviewing, news writing, feature writing, and page design. All final story assignments must be typed, and the culminating activity is a feature story spread. This course is intended as a practical application of newspaper/newsmagazine news gathering and writing techniques, not as an analysis of the media. While this course is open to all interested students, those students interested in becoming editors of <i>Devils' Advocate</i> or <i>El Diablo</i> are strongly encouraged to take Journalism 1 sophomore year.</p> <p>Prerequisite: No course prerequisite required. Open to grades 10 and 11.</p>
<p>JOURNALISM 2: NEWSMAGAZINE HONORS <i>Course #1660</i> Full year Credit: 1.0</p>	<p>Students in this class are editors and will be responsible for publishing <i>Devils' Advocate</i> according to established deadlines. Students will assume editorial leadership and participate as a staff member in all activities required to create a quality publication using a desktop publishing system. Students will be expected to develop story ideas, research stories, write and edit copy, design pages, and handle advertising accounts. The grade is determined by job performance. Students should be prepared to spend out-of-class time working on the publication. Journalism 2 may be repeated for credit with consent of the instructor and Department Chair.</p> <p>Prerequisite: No course prerequisite required. However, there is an application and interview process required. Open to grades 11 and 12.</p>

ENGLISH DEPARTMENT

<p>JOURNALISM 2: ONLINE NEWSMAGAZINE HONORS <i>Course #1665</i> Full year Credit: 1.0</p>	<p>Students in this class are online content contributors and editors and will be responsible for all content on www.hcdevilsadvocate.com, <i>Devils' Advocate</i> online newsmagazine. Students will assume editorial leadership and participate as a member of the staff in all activities required to create a quality online site using a WordPress template. Students will be expected to develop story ideas, research stories, write and copy edit. The grade is determined by job performance. Students should be prepared to spend out-of-class time working on the site as interviews, writing, photography and videography often take place outside the class period. Journalism 2 may be repeated for credit with consent of the instructor and Department Chair.</p> <p>Prerequisite: No course prerequisite required. However, there is an application and interview process required. Open to grades 11 and 12.</p>
<p>JOURNALISM 2: YEARBOOK HONORS <i>Course #1670</i> Full year Credit: 1.0</p>	<p>Students in this class are editors and will be responsible for producing <i>El Diablo</i>. This course will cover skills and responsibilities of a journalist involved in publishing a yearbook. Students will assume editorial leadership and participate in all activities required to create a quality publication using a desktop publishing system. Students will be expected to develop story ideas, research stories, write and edit copy, take photos, design pages, and meet deadlines established by the adviser/instructor in accordance with the publication company's requirements. Students should be prepared to spend out-of-class time working on the publication in order to receive credit.</p> <p>Prerequisite: No course prerequisite required. However, there is an application and interview process required. Open to grades 11 and 12.</p>
<p>CREATIVE WRITING <i>Course #1341, 1342</i> 1st or 2nd semester Credit: 0.5</p>	<p>"I write, therefore I am a writer."</p> <p>Creative Writing is a course where students explore poetry, spoken word, flash/short fiction, and creative nonfiction. Students will write every day, discuss themes related to writing and creating art, begin to build a portfolio of work to submit for publication, as well as work independently on a longer project (chapbook, short fiction, and screenplay). Classroom experiences are dedicated to writers and thinkers; if you love to write and wish you had more time to improve your craft in a supportive environment, this is the class for you.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>ACTING 1 <i>Course #1681, 1682</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces actors to basic acting techniques of the theatre. Activities include improvisation, concentration exercises, ensemble-building, character analysis and development, monologue preparation, and scene preparation.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>ACTING 2 <i>Course #1683, 1684</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course allows students to expand on their acting skills and expertise while focusing mainly on the <i>physical</i> aspects of performance. Activities include monologues, scene work, improvisation, impersonation, and the creation of original characters. Students should be prepared to explore the many ways in which action, movement or specific physical choices influence character development.</p> <p>Prerequisite: Acting 1. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED ACTING <i>Course #1685, 1686</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Acting is a performance-oriented course that gives the advanced acting student concentrated training in various acting styles and performance techniques. Students will tackle complex scene study, improvisation, college audition monologue preparation, physical training for the actor and the examination of various theatrical career options. This course will culminate in a workshop production.</p> <p>Prerequisite: Acting 2 or Department Chair approval. Open to grades 10, 11, and 12.</p>

ENGLISH DEPARTMENT

E. L. L.

ENGLISH LANGUAGE LEARNER PROGRAM

Lee-Cheng Wang, Design

MISSION STATEMENT

The mission of the English Language Learner Program (ELL) is to assist international students who are learning English as a Second Language. The ELL program provides academic and social support to help students adjust to the American culture and, in particular, to Hinsdale Central High School. The ELL program will assist them in making a successful transition into the mainstream school community.

In order to fulfill the mission, the ELL program offers *academic* classes in English as a Second Language (ESL 1, 2 and 3) for credit and ELL resource classes that may receive credit. ELL also addresses individual student needs, including language issues, academic programs, and cultural, social adjustments. English as-a-Second Language classes are taught in conjunction with the English Department in order to transition students into the mainstream English classes. As students adjust academically and socially, they *transition with support* into the full general education curriculum and the school community.

ENGLISH DEPARTMENT

<p>ESL 1 Course # 1050 Full year Credit: 2.0 (1 English credit + 1 general graduation credit)</p>	<p>This course is designed for the English Language Learner who is new to the United States and whose English Proficiency is emerging and developing. The course focuses on teaching basic communication and study skills in order for the ELL student to be successful at Hinsdale Central High School. Listening, speaking, reading and writing skills will be taught in order to help the ELL student in mainstream classes succeed academically and complement the ESL 2 curriculum. In addition, the course will provide activities to include students in the American Culture.</p> <p>Prerequisite: ELL Director approval. Open to grades 9, 10, 11, and 12.</p>
<p>ESL 2 Course # 1030 Full year Credit: 1.0</p>	<p>This course continues the work started in ESL 1 by developing emerging and beginner listening, speaking, reading and writing skills in standard American English. This course will parallel the goals and skills of English 1. In addition, the course will continue to build student communication skills and self-advocacy skills in standard American English to aid in mainstream academic success.</p> <p>Prerequisite: ELL Director approval. Open to grades 9, 10, 11, and 12.</p>
<p>ESL 3 Course # 1040 Full year Credit: 1.0</p>	<p>The goal of ESL 3 is to prepare the intermediate level English Language Learner to transition successfully into the mainstream English class. The course will continue to develop skills and strategies in listening, speaking, reading and writing of standard American English while focusing on how the strategies can be used in mainstream academic success. Course materials will parallel the goals and skills of the English Program. Lastly, this course reinforces self-advocacy skills to promote academic mainstream success for the transitioning English Language Learner.</p> <p>Prerequisite: ELL Director approval. Open to grades 9, 10, 11, and 12.</p>
<p>ELL RESOURCE Course # 1003, 1004 1st or 2nd semester Credit: 0.25 Or non-credit</p>	<p>This tutorial resource is designed to: 1) help students maintain satisfactory achievement levels in their regular classes; 2) encourage conversational English; 3) accelerate the development of vocabulary understanding, reading comprehension and writing skills in the English language; and 4) facilitate cultural adjustment.</p> <p>Prerequisite: ELL Director approval. Open to grades 9, 10, 11 & 12 international students who have limited English language proficiency. This program may be scheduled in place of a regularly scheduled study hall. This course must be taken for credit if the student is enrolled in ESL 1 or ESL 2. It may be taken for credit or non-credit with ELL director recommendation.</p>
<p>ELL TUTOR Course # 1013, 1014 1st or 2nd semester Credit: 0.25</p>	<p>ELL tutors assist other individual ELL students with academic and English language needs.</p> <p>Prerequisite: Recommendation of ELL Director. Open to grades 11 and 12.</p>

FAMILY & CONSUMER SCIENCES DEPARTMENT

FAMILY & CONSUMER SCIENCES DEPARTMENT

The Family and Consumer Sciences Department strives to improve the lives of families, individuals and communities through advanced level learning opportunities for all students while fostering academic achievement, career exploration, creativity, and problem-solving skills.

SUGGESTED SEQUENCING FOR FAMILY & CONSUMER SCIENCES CAREER AREAS

Areas of Interest	Year-long Course	Semester Courses
Culinary	Introduction to FACS 9 weeks	<ul style="list-style-type: none"> • Foundations of Cooking • Cooking 1 • Cooking 2* • Nutrition, Wellness and Cooking* • Chef and Restaurant • Baking and Pastry Arts*
Interior Design	Introduction to FACS 6 weeks	<ul style="list-style-type: none"> • Interior Design and Housing • Interior Design and Housing Honors
Fashion	Introduction to FACS 9 weeks	<ul style="list-style-type: none"> • Fashion Merchandising • Creative Sewing • Advanced Sewing* • Advanced Sewing Independent Study*
Teaching	Introduction to FACS 3 weeks	<ul style="list-style-type: none"> • Child Care and Development • Invitation to Teaching • Invitation to Teaching Honors • Foundations of Cooking Aide
Family Living		<ul style="list-style-type: none"> • Personal Perspectives • Single Survival
Consumer Economics	Introduction to FACS 9 weeks	<i>Meets ISBE state graduation requirement</i>
<p>*indicates course requires a prerequisite Refer to the Program of Studies for complete course descriptions and enrollment criteria</p>

* Meets Consumer Education graduation requirement (0.5 consumer education, 0.5 elective arts) ** General credit only-not elective arts; Child Care & Development suggested as a prerequisite. *** Department Approval				

FAMILY & CONSUMER SCIENCES DEPARTMENT

<p>INTRODUCTION TO FAMILY & CONSUMER SCIENCES Course #6400 Full year Credit: 1.0 <i>(0.5 Consumer Education, 0.5 Elective Arts)</i></p> <p>Supply fee \$25.00</p>	<p>This course introduces the student to the following areas of Family & Consumer Science: consumer education, child care, interior design, foods and sewing. The consumer education unit focuses on basic economic concepts such as career opportunities, budgeting, banking, credit, transportation, insurance, and housing. Additional class activities include a computer-aided design interior design project, basic food preparation, nutritious meal planning, sewing projects and exposure to child development. This course will prepare students for future semester courses in Family & Consumer Sciences including Interior Design & Housing, Child Care & Development, Creative Cooking 1, Creative Sewing and Nutrition Wellness & Cooking.</p> <p>Successful completion of this course fulfills the ISBE's Consumer Education requirement for graduation. Must complete the entire year to receive consumer education credit. Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>CULINARY</p>	
<p>FOUNDATIONS OF COOKING Course #1976A, 1976B 1st or 2nd semester Credit: 0.5</p>	<p>This course explores foundational cooking skills and concepts that can be applied in daily life. An emphasis will be placed on safety, sanitation, reading a recipe, proper selection and use of culinary equipment, independent meal preparation and nutritionally sound food choices. Foundations of Cooking is designed to meet the needs of students with a variety of physical, cognitive, or social needs. Lab work will focus on organization and teamwork. In addition, the course offers a smaller class size to make appropriate individualized instruction.</p> <p>This course may be repeated as necessary. Prerequisite: Departmental Approval. Suggested follow-up courses when skills deemed appropriate: Introduction to Family and Consumer Sciences and Creative Cooking 1. Open to grades 9, 10, 11, and 12.</p>
<p>CREATIVE COOKING 1 Course #6411, 6413 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$25.00</p>	<p>Creative Cooking 1 is designed to teach basic food preparation skills utilizing various types of culinary equipment and a range of preparation and cooking techniques. The following areas of study are covered in this course: measuring, knife skills, cooking methods, nutrition, fruits, vegetables, breads, pastas, vegetarian dishes, desserts, and microwave cooking. The course culminates in a student driven practical final meal applying the knowledge they have learned over the semester. While this course provides personal enrichment, it may also serve as a foundation for further training in culinary arts.</p> <p>Prerequisite: None. Suggested follow-up courses: Creative Cooking 2, Nutrition, Wellness & Cooking, and/or Chef & Restaurant. Open to grades 9, 10, 11, and 12.</p>
<p>CREATIVE COOKING 2 Course #6412, 6414 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$25.00</p>	<p>This course, a continuation of Creative Cooking 1, provides training in the following advanced techniques of food preparation: choux pastry (cream puffs & eclairs), international foods, cakes and cake decorating, homemade pasta, sweet and savory yeast breads, pies, meats and garnishing. Students prepare a variety of recipes, while enriching their personal culinary skills. This course also serves as a foundation for further training in the culinary arts.</p> <p>Prerequisite: Creative Cooking 1. Suggested follow-up: Chef & Restaurant, Nutrition, Wellness & Cooking and/or Baking & Pastry Arts. Open to grades 9, 10, 11, and 12.</p>
<p>BAKING & PASTRY ARTS Course #6415, 6417 1st or 2nd Semester Credit: 0.5</p> <p>Supply Fee \$25.00</p>	<p>This course provides focused training in the culinary field of European baking techniques. Focus will be on ingredients, preparation methods and finishing techniques. Units will include sanitation, metric measuring, breads, pastries (including cakes) cookies and display techniques. This course is designed for personal skill development as well as a base for further culinary training.</p> <p>Prerequisite: Grade of C of better in Creative Cooking 2. Suggested follow-up courses: Nutrition, Wellness, & Cooking; Chef & Restaurant. Open to grades 10, 11, and 12.</p>

FAMILY & CONSUMER SCIENCES DEPARTMENT

<p>NUTRITION, WELLNESS & COOKING <i>Course #6431, 6432</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$25.00</p>	<p>This course is designed to teach students how to build a lifetime of good nutrition and wellness practices while utilizing the food preparation and cooking skills from prerequisite courses. Students are given the essential tools to understand why and how people need to make more practical and healthy choices in their diet and daily routines. They will work cooperatively in lab groups applying what they have learned in each focused topic. While this course provides personal enrichment, it may also serve as a foundation for further training in health and culinary related fields. Suggested follow-up courses include Baking & Pastry Arts, Chef & Restaurant, Creative Cooking 1 and Creative Cooking 2.</p> <p>Prerequisite: Grade of C or better in Introduction to Family & Consumer Sciences or Creative Cooking 1. Suggested follow-up courses include Baking & Pastry Arts, Chef & Restaurant, Creative Cooking 1 and Creative Cooking 2. Open to grades 10, 11, and 12.</p>
<p>CHEF & RESTAURANT <i>Course #6421, 6422</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$25.00</p>	<p>Chef & Restaurant is an introductory course to professional culinary arts operations. Previous cooking experience is extremely beneficial. The emphasis is placed on developing and managing food service businesses, including preplanned and student generated menus and themes, as well as customized menu creation to serve the needs of clients. Several weeks will be spent on back of the house management including product costing, requiring math computation skills. This course serves as a foundation for students interested in entering culinary arts, hospitality management or event planning program of study, event planners.</p> <p>Due to classroom space limitations, students who have previously completed Creative Cooking 1 or iFACS will be given preference. Suggested Follow-up: Baking and Pastry, Nutrition, Wellness & Cooking. Open to grades 11 and 12.</p>
FAMILY LIVING	
<p>SINGLE SURVIVAL <i>Course #6441, 6442</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$5.00</p>	<p>This course is designed to provide skills to live independently after high school, whether away at college or living on their own. The course covers personal assets, career development, including resume writing, money management, credit, identity theft, nutrition and basic meal prep, insurance, transportation, taxes, getting an apartment, basic tool use and reflection on current topics in society.</p> <p>Prerequisite: None. Open to grades 11 and 12. Suggested follow-up course: Personal Perspectives.</p>
<p>PERSONAL PERSPECTIVES <i>Course #6591, 6592</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course, designed to help the student understand the challenges of our society, develops the student's ability to cope with problems and make adult decisions. The course focuses on the application of sociology and psychology concepts to the students' personal life. Areas of study include: theories of personality development, family relationships, crisis in the family (substance abuse, child abuse, divorce, and death,) communication skills, dating, marriage and parenting.</p> <p>Prerequisite: None. Open to grades 11 and 12. Suggested follow-up course: Single Survival.</p>
FASHION	
<p>CREATIVE SEWING <i>Course #6551, 6552</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$10.00</p>	<p>This course is for students interested in sewing for practical purposes, personal enjoyment and/or to develop skills to be used in careers related to clothing construction, fashion merchandising, design and retail. Students will complete three or more individual projects in Creative Sewing. Garment construction projects will increase in difficulty as students attain skills. Technical abilities will be enhanced through the use of sewing and embroidery machines, sergers and other technologies. Sequencing of the course includes basic sewing machine techniques, fabric and pattern selection, interpreting pattern instructions, construction techniques (darts, zippers, hems, buttons, applying interfacing, etc.) and embroidery.</p> <p>Prerequisite: None. Suggested follow-up courses: Advanced Sewing or Fashion Merchandising & Design. Open to grades 9, 10, 11, and 12</p>

FAMILY & CONSUMER SCIENCES DEPARTMENT

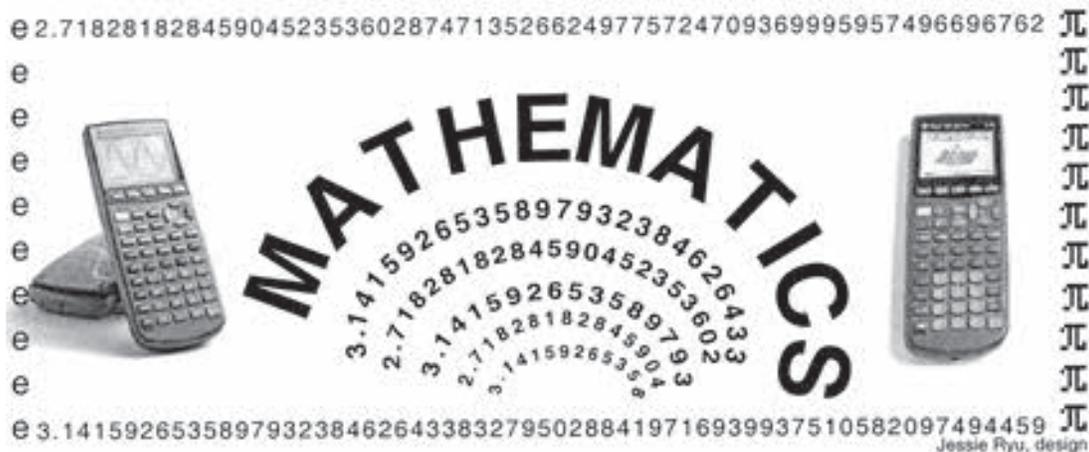

<p>ADVANCED SEWING <i>Course #6561, 6562</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$10.00</p>	<p>Students in this course will learn quilting and applique through designing and sewing a tote bag or backpack (student's choice) including a personalized embroidered logo. Three additional projects will be selected on an individual basis and approved by the instructor. Projects will focus on advance construction techniques including garment fitting, pattern redesign and researching and sewing with a challenging fabric.</p> <p>Prerequisite: Creative Sewing. Suggested follow-up courses: Fashion Merchandising & Design or Advanced Sewing Independent Study. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED SEWING INDEPENDENT STUDY <i>Course #6410A, 6410B</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$10.00</p>	<p>This course is a continuation of Advanced Sewing and focuses on advanced construction techniques through individually selected projects approved by the instructor. Students will be guided through various areas of study that may include repurposing a ready-to-wear garment, formal wear, original embroidery design, fully lined jacket or coat, and fashion design through draping on a dress form. Seniors who enroll in this course may choose to create a senior quilt for one of their projects. While this course provides personal enrichment, it may also serve as a foundation for further training in a fashion related field.</p> <p>This course may be repeated with subsequent projects that continually incorporate new design techniques and sewing construction skills.</p> <p>Course may be repeated up to three times. Prerequisite: Advanced Sewing. Suggested follow-up courses: Fashion Merchandising & Design or second enrollment in Advanced Sewing Independent Study. Open to grades 10, 11, and 12.</p>
<p>CREATIVE SEWING INDEPENDENT STUDY <i>Course #6561, 6562</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$10.00</p>	<p>This course focuses on advanced construction techniques on individually selected projects approved by the instructor. Students master the use of a computerized embroidery machine and serger. Areas of study may include textile arts, formalwear, pattern redesigning, fashion design, or other related areas of student interest.</p> <p>This course may be repeated with subsequent projects that continually incorporate new design techniques and sewing construction skills.</p> <p>Course may be repeated up to three times. Prerequisite: Creative Sewing. Suggested follow-up courses: Fashion Merchandising & Design or second enrollment in Creative Sewing Independent Study. Open to grades 9, 10, 11, and 12.</p>
<p>FASHION MERCHANDISING & DESIGN <i>Course #6571, 6572</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$25.00</p>	<p>This course is designed to allow students to explore and understand the various facets of the fashion industry. Areas of study include the evolution of fashion, fashion design, merchandising, advertising, and retailing functions. Projects include designer and retailer research, logo and line illustrations, visual window displays, and fashion show planning. This course serves as a foundation for further training in fashion related occupations, as well as provides an opportunity for personal enrichment.</p> <p>Prerequisite: None. Suggested follow-up course: Creative Sewing. Open to grades 10, 11, and 12.</p>
INTERIOR DESIGN	
<p>INTERIOR DESIGN & HOUSING <i>Course #6451, 6452</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$25.00</p>	<p>This course is meant to introduce students into the area of residential designs, space planning and home decor. Students will learn how to identify housing styles and their details throughout American history, including the local influence of Frank Lloyd Wright and his Home and Studio in Oak Park. A hands on creative approach will take place when the course content focuses on the elements and principles of design, allowing students to showcase their artistic and original decorative ideas on visual design boards. Students will spend a large portion of the class utilizing technology in the interior design fields by using computer aided drafting for projects and a cumulative student designed and decorated home. It is recommended that students have strong computer technology skills when enrolling in this course.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>

FAMILY & CONSUMER SCIENCES DEPARTMENT

<p>INTERIOR DESIGN & HOUSING HONORS <i>Course #6453, 6454</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$25.00</p>	<p>The core material for this course is similar to Interior Design and Housing #6451/#6452; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are college level and will require additional reading and research outside of class. This course is recommended for highly motivated students interested in interior design or related fields.</p> <p>Prerequisite: Department Approval. Open to grades 10, 11, and 12.</p>
TEACHING	
<p>CHILD CARE & DEVELOPMENT <i>Course #6582</i> 2nd semester only Credit: 0.5</p>	<p>This course prepares students for parenting in the future, as well as careers in the field of teaching and other child-related occupations. Areas of study include family planning, pregnancy and childbirth, child development from infancy through school age, and planning learning activities for a 16 session preschool practicum. Students will teach and observe children in our Discovery Corner Preschool as an integral part of the program.</p> <p>Prerequisite: None. Suggested follow-up: Invitation to Teaching. Suggested first part of teaching sequence to be taken Sophomore or Junior year. Open to grades 10, 11, and 12.</p>
<p>INVITATION TO TEACHING <i>Course #6481, 6482</i> 1st or 2nd semester Credit 1.0 (one semester -two class periods)</p> <p>Supply fee \$10.00</p>	<p>This course offers a teaching internship, enabling students to work under the supervision of certified preschool, elementary and middle school staff. Once placed, the students will spend four days each week at their assigned schools to assist, observe and teach young children. Teaching responsibilities include journaling, observing, creating a visual display, facilitating a guest speaker, creating and teaching lessons, and shadowing a teacher for a day. Classroom study is focused on related issues in education including meeting the needs of a diverse student population and classroom management technology within the classroom and current topics in education. Excellent course for anyone pursuing a career working with children.</p> <p>Acceptance into the program is based on application, staff feedback, academic standing, attendance and demonstration of character. Students who have previously completed Child Care & Development will be given preference. Application may be picked up in the Counseling Office in January. Course may be repeated both semesters. Prerequisite: Child Care & Development. Suggested Open to grade 12 only.</p>
<p>INVITATION TO TEACHING HONORS <i>Course #6483, 6484</i> 1st or 2nd semester Credit 1.0 (one semester- two class periods)</p> <p>Supply fee \$10.00</p>	<p>The core materials for this course are similar to Invitation to Teach Course 6481/6482; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are college level and will require additional time outside of class. This course is recommended for highly motivated students interested in education or related fields.</p> <p>Students who have previously completed Child Care & Development will be given preference. Course may be repeated both semesters. Application may be picked up in the Counseling Office in January. Acceptance into the program is based on application, staff feedback, academic standing, attendance and demonstration of character. Suggested Prerequisite: Child Care & Development. Open to grade 12 only.</p>
<p>FOUNDATIONS OF COOKING AIDE <i>Course #2002A/2002B</i> 1st or 2nd Semester Credit 0.5</p>	<p>The Foundations of Cooking Aide position is offered to sophomores, juniors, and seniors who are interested in working with students with a variety of physical, cognitive, and social needs. As an aide the students serve as role models in social norms and appropriate lab behavior.</p> <p>Acceptance into the program is based on application, academic standing, attendance and demonstration of character. Application may be picked up in the Family and Consumer Sciences Office in January. Prerequisite: Creative Cooking 1, application, and department chair approval. Priority will be given to those students interested in a career in education.</p>

MATHEMATICS DEPARTMENT

MATHEMATICS DEPARTMENT

Mission Statement

The mission of the Mathematics Department is to develop in our students the mathematical skills and habits of mind they will need to be prepared for college, to become productive citizens, and to pursue their career interests. We are committed to meeting each student's social, emotional, and learning needs by providing a rigorous curriculum and quality instruction that will actively engage students in constructing and applying mathematical concepts to solve problems. We will employ current technology to enhance students' mathematical knowledge and number sense. We strive to develop students who can express the mathematical connections in the world around them with algebraic, geometric, or numeric representations.

Three credits in mathematics are required for graduation. Credit must be earned in both semesters of a full year course before advancing to the next course in the sequence. Any student who earns a D in a mathematics course is strongly recommended to retake one or both semesters in summer school before attempting the next course in the sequence. The deficiencies indicated by the D grade will make success in the next course in the sequence very difficult. Successful completion of Algebra and Geometry in any sequence and enrollment in Algebra 2 Trigonometry (3300G, 3310, or 3320) during or before junior year is ideal preparation for college standardized testing.

Typical Sequences (shown below)

Freshman	Sophomore	Junior	Senior
Algebra 2/Trig H	Pre-Calculus Honors <i>and/or</i> AP Stats	AP Calculus BC <i>and/or</i> AP Statistics	Math Topics <i>and/or</i> AP Statistics
Integrated Algebra and Geo. Honors	Algebra 2/Trig H	Pre-Calculus Honors <i>and/or</i> AP Statistics	AP Calculus BC <i>and/or</i> AP Statistics
Geometry Honors	Algebra 2/Trig H	Pre-Calculus Honors <i>and/or</i> AP Statistics	AP Calculus BC <i>and/or</i> AP Statistics
Geometry	Algebra 2 Trig	Pre-Calculus <i>and/or</i> AP Statistics	AP Calculus AB <i>or</i> Intro to Statistics <i>and/or</i> College Preparatory Mathematics <i>and/or</i> AP Statistics
Algebra 1	Geometry (3261) <i>and</i> Algebra 2 Trig (3362)	Pre-Calculus	AP Calculus AB <i>or</i> Intro to Statistics <i>and/or</i> College Preparatory Mathematics <i>and/or</i> AP Statistics
Foundations of Algebra and Geometry	Algebra 1 (3141G) <i>and</i> Geometry (3232G)	Algebra 2 Trig (3300G)	Intro to Statistics I <i>and</i> College Preparatory Mathematics
Foundations of Algebra and Geometry	Algebra 1 (3100G)	Geometry (3200G)	Algebra 2 Trigonometry (3300G)

*AP Computer Science Principles is available for students who have completed Algebra 1 and AP Computer Science A is available for students having completed Algebra 2

*It is not typically recommended that students complete summer coursework for the purpose of advancing in their math sequence, due to the abbreviated nature of summer curricula. Any student wishing to do so must receive a recommendation and/or approval from the Math Department prior to enrolling in a summer course.

MATHEMATICS DEPARTMENT

<p>MATH FOUNDATIONS <i>Course#2030</i> Full year Credit: 1.0</p>	<p>This course explores fundamental math concepts that can be generalized in various facets of daily life. Curriculum includes problem solving and computation, money and number sense, and basic estimation and measurement. Basic analytical methods, geometry, and data analysis are also emphasized. This course is designed for students who are performing significantly below grade level in math.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>MATHEMATICAL CONCEPTS OF ALGEBRA & GEOMETRY <i>Course#1871</i> Full year Credit: 1.0</p>	<p>This course is designed for students who are performing below grade level in math. Curriculum in this course is a modification of the grade level standards but is in alignment with the New Illinois Learning Standards. This course provides a foundational approach of introducing important topics in Algebra and Geometry. Algebra topics include expressions, equations, and inequalities. Geometry topics include lines, segments, angles, triangles, perimeter, area, and volume. A graphing calculator is required.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>FOUNDATIONS OF ALGEBRA & GEOMETRY <i>Course#3090</i> Full year Credit: 1.0</p>	<p>This course introduces important topics in Algebra and Geometry. Algebra topics include expressions, equations, inequalities and linear functions. Geometry topics include lines, segments, angles, triangles, perimeter, area and volume. This course is appropriate for students with reasonable facility with arithmetic operations and average grades in mathematics. A graphing calculator is required.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Recommendation of previous teacher and departmental approval. Next course in sequence: Algebra 1 (3100G). Open to grades 9, 10, 11, and 12.</p>
<p>MATHEMATICAL CONCEPTS OF ALGEBRA & TRIGONOMETRY <i>Course#1872</i> Full year Credit: 1.0</p>	<p>This course is designed for students who are performing below grade level in math. Curriculum in this course is a modification of the grade level standards but is in alignment with the New Illinois Learning Standards. This course expands the material studied in Mathematical Concepts of Algebra and Geometry, emphasizing real world applications and associated graphical analysis. Linear, quadratic, and polynomial functions are explored. Exponential, trigonometric, and logarithmic functions are introduced. This course is for students who desire additional college preparatory mathematics. A graphing calculator is required for this course.</p> <p>Prerequisite: Department Chair approval. Open to grades 11 and 12.</p>
<p>ALGEBRA 1 <i>Course#3100G</i> Full year Credit: 1.0</p>	<p>This course continues the important topics in Algebra. Topics include exponents, systems of equations, inequalities, linear and quadratic functions, polynomial expressions, probability, and statistics. A graphing calculator is required.</p> <p>This course fulfills the ISBE graduation requirement for Algebra 1. Prerequisite: Foundations of Algebra and Geometry and department approval. Next course in sequence: Geometry (3200G). Open to grades 10, 11, and 12.</p>
<p>ALGEBRA 1 BLOCK SEMESTER 1 <i>Course#3141G</i> 1st semester Credit: 1.0</p>	<p>This course has the same core curriculum as #3100G, but is taught in a single semester, two periods daily.</p> <p>Prerequisite: Foundations of Algebra and Geometry and teacher recommendation. Open to grades 10 and 11.</p>

MATHEMATICS DEPARTMENT

<p>ALGEBRA 1 <i>Course #3110</i> Full year Credit: 1.0</p>	<p>This course focuses on fundamental properties of the real numbers. Linear and quadratic equations are emphasized. Rational expressions and equations are introduced. Real world applications are explored. Algebra 1 is recommended for freshmen students who have achieved a strong facility with arithmetic operations and above average grades in mathematics or for those students whose Algebra skills need strengthening. A graphing calculator with matrix capabilities is required in this course.</p> <p>This course fulfills the ISBE graduation requirement for Algebra 1. Prerequisite: 8th grade teacher recommendation or Departmental approval. Next course in sequence: Geometry. Open to grades 9, 10, 11, and 12.</p>
<p>GEOMETRY <i>Course #3200G</i> Full year Credit: 1.0</p>	<p>This course uses an intuitive approach to study the fundamental concepts in Geometry. Although deductive reasoning is practiced, much less emphasis is placed on writing formal proofs. Students experience geometric concepts through frequent constructions and hands on activities. Some students from #3110 Algebra 1 may be advised to take this course. A graphing calculator is required in this course.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Algebra 1 (3100G or 3110) and Departmental approval. Next course in sequence: Algebra 2 Trigonometry (3300G) based upon teacher recommendation. Open to grades 10, 11, and 12.</p>
<p>GEOMETRY BLOCK SEMESTER 2 <i>Course #3232G</i> 2nd semester Credit: 1.0</p>	<p>This course has the same core curriculum as #3200G, but is taught in a single semester, two periods daily.</p> <p>Prerequisite: Algebra 1 (3100G) and teacher recommendation. Open to grades 10 and 11.</p>
<p>GEOMETRY <i>Course #3210</i> Full year Credit: 1.0</p>	<p>Geometry focuses on proof and fundamental concepts of plane geometry with some informal three-dimensional considerations. Properties of lines, angles, triangles, quadrilaterals and circles are studied. Special attention is given to concepts of congruence, perpendicularity, parallelism, area, similarity, coordinate geometry, logic and deductive reasoning. A graphing calculator is required in this course.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Algebra 1, 8th grade teacher recommendation, and Departmental approval. Next course in sequence: Algebra 2 Trigonometry. Open to grades 9, 10, 11, and 12.</p>
<p>GEOMETRY HONORS <i>Course #3220</i> Full year Credit: 1.0</p>	<p>This honors course provides an in-depth study of all the topics of plane Euclidean geometry including three-dimensional geometry. Particular attention will be given to the nature of a mathematical system, logic and proof. Students are expected to exercise their creative capacities, and apply their knowledge to different situations. Recommended for students who have a high interest in mathematics and have achieved, without undue stress, an A average in Algebra. A graphing calculator is required in this course.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Algebra 1, 8th grade teacher recommendation, and Departmental approval. Next course in sequence: Algebra 2 Trigonometry Honors or Algebra 2 Trigonometry, based on teacher recommendation. Open to grades 9, 10, 11, and 12.</p>
<p>GEOMETRY BLOCK SEMESTER 1 <i>Course #3261</i> 1st semester Credit: 1.0</p>	<p>This course has the same curriculum as #3210, but is taught in a single semester, two periods daily.</p> <p>Prerequisite: Algebra 1 (3110), teacher recommendation, and Departmental approval. Open to grade 10.</p>

MATHEMATICS DEPARTMENT

<p>INTEGRATED ALGEBRA & GEOMETRY HONORS <i>Course #3280</i> Full year Credit: 1.0</p>	<p>This honors course reviews important concepts in Algebra 1 and Geometry. Topics will be explored in greater depth than the introductory courses, and selected Algebra 2 Trigonometry topics will be introduced. Students who are successful in this course should be well prepared for a sequence of Algebra 2 Trigonometry Honors, Pre-Calculus Honors, and an AP course in Calculus and/or Statistics.</p> <p>Prerequisite: Algebra 1, Geometry, and 8th grade teacher recommendation. Next course in sequence: Algebra 2 Trigonometry or Algebra 2 Trigonometry Honors. Open to grade 9.</p>
<p>ALGEBRA 2 TRIGONOMETRY <i>Course #3300G</i> Full year Credit: 1.0</p>	<p>The basic material for this course, described under #3310 Algebra 2 Trigonometry, is recommended for students from Geometry #3200G. Some students from #3210 Geometry may be advised to take this course. A graphing calculator is required in this course.</p> <p>Prerequisite: Geometry (3200G or 3200) and Departmental approval. Open to grades 11 and 12.</p>
<p>ALGEBRA 2 TRIGONOMETRY <i>Course #3310</i> Full year Credit: 1.0</p>	<p>Algebra 2 Trigonometry expands the material studied in Algebra and Geometry, emphasizing real world applications and associated graphical analysis. The complex number system is studied. Linear, quadratic, exponential, logarithmic, polynomial, rational and trigonometric functions are explored. Transformations and inverses of functions are introduced. This course is recommended for students with a grade average of C or better in Algebra and Geometry who desire a third year of college preparatory mathematics. A graphing calculator is required in this course.</p> <p>Prerequisite: Geometry. Next course in sequence: Pre-Calculus or College Preparatory Mathematics or Introduction to Statistics or AP Statistics, based on teacher recommendation. Open to grades 10, 11, and 12.</p>
<p>ALGEBRA 2 TRIGONOMETRY HONORS <i>Course #3320</i> Full year Credit: 1.0</p>	<p>This honors course provides a more in-depth study of the topics described above in Algebra 2 Trigonometry, as well as circular functions, conics, and probability. Students are expected to be capable of creative problem solving and individual study. This course is recommended for students who have a high interest in mathematics, with no less than a B+ average in previous mathematics courses. A graphing calculator is required in this course.</p> <p>Prerequisite: Geometry Honors and departmental approval. Next course in sequence: Pre-Calculus Honors or Pre-Calculus or AP Statistics, based on teacher recommendation. Open to grades 9, 10, 11, and 12.</p>
<p>ALGEBRA 2 TRIGONOMETRY BLOCK SEMESTER 2 <i>Course #3362</i> 2nd semester Credit: 1.0</p>	<p>This course has the same curriculum as #3310, but is taught in a single semester, two periods daily.</p> <p>Prerequisite: Algebra 1 (3110), teacher recommendation, and Departmental approval. Open to grade 10.</p>
<p>COLLEGE PREPARATORY MATHEMATICS <i>Course #3403</i> 2nd semester Credit: 0.5</p>	<p>This course focuses on important topics in mathematical modeling. Topics include algorithms, matrices, graphs, and counting, with applications such as elections, fair division, population growth, scheduling, conflict resolution, routing, and game theory. A graphing calculator with matrix capabilities is required.</p> <p>Prerequisite: Algebra 2 Trigonometry (3300G or 3310) and Department approval. Open to grades 11 and 12.</p>

MATHEMATICS DEPARTMENT

<p>INTRODUCTION TO STATISTICS Course #3431, 3432 1st semester/Full year Credit: 0.5/1.0</p>	<p>This course focuses on the major topics in introductory statistics. Topics covered in the first semester include graphical displays of data, numerical summaries of data, the normal distribution, line and curve fitting, and probability. The second semester covers the additional topics of data collection through sampling and experiments, sampling distributions, and inference for means, proportions, and counts. A graphing calculator with advanced statistics capabilities is required.</p> <p>Prerequisite for #3431: Algebra 2 Trigonometry (3300G or 3310) and department approval. Prerequisite for #3432: Successful completion of #3431. Next course in sequence: AP Statistics or College Preparatory Mathematics upon teacher recommendation. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT STATISTICS Course #3500 Full year Credit: 1.0</p>	<p>Advanced Placement Statistics will introduce students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. It will emphasize sound statistical thinking rather than routine procedures. This course is intended to be equivalent to an introductory non-calculus based college course in statistics. Students will do a significant amount of reading and independent investigation. A graphing calculator with advanced statistics capabilities is required in this course.</p> <p>Prerequisite: Algebra 2 Trig. Honors, Algebra 2 Trig., Pre-Calculus, or Pre-Calculus Honors and Departmental approval. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>
<p>PRE-CALCULUS Course #3410 Full year Credit: 1.0</p>	<p>This course expands on the material studied in Algebra 2 Trigonometry. These areas of study include: real and complex numbers and functions (polynomial, exponential, logarithmic and trigonometric). Additional areas of study are conics, notions of limits, continuity, circular functions, mathematics of finance, parametric equations, and polar coordinates. It is recommended for students who are preparing to enter a technical or semi-technical profession, or planning to study Calculus. A graphing calculator is required in this course.</p> <p>Prerequisite: Algebra 2 Trigonometry or Algebra 2 Trigonometry Honors and Departmental approval. Next course in sequence: AP Calculus AB or AP Statistics. Open to grades 10, 11, and 12.</p>
<p>PRE-CALCULUS HONORS Course #3420 Full year Credit: 1.0</p>	<p>This honors course provides a more in-depth study of the topics covered in Pre-Calculus with greater emphasis of both theory and applications. Additional topics include curve fitting and physics applications. A graphing calculator is required in this course.</p> <p>Prerequisite: Algebra 2 Trigonometry Honors and Departmental approval. Next course in sequence: Upon satisfactory completion of Pre-Calculus Honors, students are prepared for AP Calculus and AP Statistics. Open to grades 9, 10, 11, and 12.</p>

MATHEMATICS DEPARTMENT

<p>ADVANCED PLACEMENT COMPUTER SCIENCE A <i>Course #3480</i> Full year Credit: 1.0</p>	<p>The Computer Science A AP College Board curriculum guidelines are followed in this course. The emphasis of this course is to prepare students for the AP Exam and future programming courses. Programming concepts including variables, constants, expressions, conditionals, arrays, ArrayLists, iteration, functions, and object-oriented programming using classes are covered. An emphasis is placed on problem solving. Additionally, programming methodology and design, pre-defined and abstract data types, sorting, data structures, and algorithms, related to data structures are discussed. Applications of computing a working knowledge of hardware and software systems and the ethical and social implications of computing are examined. The programming language is JAVA.</p> <p>Prerequisite: Algebra 2 Trigonometry and Departmental approval. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>
<p>ADVANCED PLACEMENT COMPUTER SCIENCE PRINCIPLES <i>Course #3495</i> Full year Credit: 1.0</p>	<p>The Computer Science Principles AP College Board curriculum guidelines are followed in this course. The emphasis of this course is to prepare students for the AP Exam and future computer science courses by presenting concepts and computational thinking practices that are central to the computer science discipline. The focus of this course is more on using technology in creative, meaningful ways and less on specific programming languages. Topics covered in the course include data management and analysis, development of algorithms, characteristics of the Internet, and the global impact of computing and programming.</p> <p>Prerequisite: Algebra 1 and Departmental approval. Open to grades 9, 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>
<p>ADVANCED PLACEMENT CALCULUS AB <i>Course #3510</i> Full year Credit: 1.0</p>	<p>Advanced Placement Calculus (AB) emphasizes conceptual understandings through manual and technological applications of the derivatives and integrals of algebraic, trigonometric, exponential and logarithmic functions, and relations. This course prepares the student for the AB level Advanced Placement Examination. Satisfactory performance on this examination gives the student an opportunity to qualify for college credit in calculus. A graphing calculator meeting the College Board's optimal technology expectation for the AP Calculus exam is required in this course.</p> <p>Prerequisite: Pre-Calculus or Pre-Calculus Honors and Departmental approval. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>

MATHEMATICS DEPARTMENT

<p>ADVANCED PLACEMENT CALCULUS BC <i>Course #3520</i> Full year Credit: 1.0</p>	<p>Advanced Placement Calculus BC provides an in-depth study of the topics described in Calculus AB, as well as calculus of two dimensional vectors, polar functions, parametric curves, and infinite series. This course prepares the student for the BC level Advanced Placement examination. Satisfactory performance on this examination gives the student an opportunity to qualify for college credit in calculus. A graphing calculator meeting the College Board's optimal technology expectation for the AP Calculus Exam is required.</p> <p>Prerequisite: Pre-Calculus Honors and Departmental Approval. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>
<p>ADVANCED PLACEMENT CALCULUS BC <i>Course #3520</i> Full year Credit: 1.0</p>	<p>Advanced Placement Calculus BC provides an in-depth study of the topics described in Calculus AB, as well as calculus of two dimensional vectors, polar functions, parametric curves, and infinite series. This course prepares the student for the BC level Advanced Placement examination. Satisfactory performance on this examination gives the student an opportunity to qualify for college credit in calculus. A graphing calculator meeting the College Board's optimal technology expectation for the AP Calculus Exam is required.</p> <p>Prerequisite: Pre-Calculus Honors and Departmental Approval. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>
<p>COMPUTER SCIENCE TOPICS 1 HONORS <i>Course #3611</i> 1st semester Credit: 0.5</p>	<p>Computer Science Topics 1 reviews and builds upon the concepts taught in the AP Computer Science A course. The primary emphasis of the course is on data structures algorithms using the JAVA programming language. Stacks, queues, linked lists, trees, heaps, hash tables, sets, maps, and graphs are covered in great detail. Following the data structures unit, students learn a second programming language. GUI's, advanced sorting algorithms, and cell phone applications are explored. Students have the opportunity to complete an independent study project at the conclusion of the course.</p> <p>Prerequisite: AP Computer Science A and Department approval. Open to grades 11 and 12.</p>
<p>COMPUTER SCIENCE TOPICS 2 HONORS <i>Course #3622</i> 2nd semester Credit: 0.5</p>	<p>This course is a continuation of the Computer Science Topics 1 course described above.</p> <p>Prerequisite: AP Computer Science A and Department approval. Open to grades 11 and 12.</p>
<p>MATH TOPICS 1 HONORS <i>Course #3641</i> 1st semester Credit: 0.5</p>	<p>Math Topics 1 provides students advanced study in mathematics. Topics include infinite series, geometry of space, vector functions, and partial derivatives.</p> <p>Prerequisite: Departmental Approval. Open to grade 11 and 12.</p>
<p>MATH TOPICS 2 HONORS <i>Course #3652</i> 2nd semester Credit: 0.5</p>	<p>Math Topics 2 provides students with advanced study in mathematics. Topics include multiple integrals, vector calculus, and an introduction to Differential Equations.</p> <p>Prerequisite: Departmental Approval. Open to grade 11 and 12.</p>

MATHEMATICS DEPARTMENT

ENRICHMENT COURSES

<p>MATH EXCEL ALGEBRA 1 <i>Course #3030, 3035</i> 1st and 2nd semester Credit 0.5 each semester</p>	<p>Math Excel Algebra is designed to support students enrolled in Algebra 1 by providing them additional instruction, individualized practice, and support during the school day. In this small guided study hall led by an Excel teacher and a math teacher, students will have time and support to complete their mathematics homework in addition to other coursework. Math Excel Algebra is a semester course and students will earn credit towards graduation for each semester they are enrolled on a pass/fail basis. Students are encouraged to enroll in both semesters. Grading will be on a Pass or Fail basis for this course.</p> <p>Open to students in grade 9 with a recommendation from their 8th Grade Teacher.</p>
<p>MATH EXCEL GEOMETRY <i>Course #3020, 3025</i> 1^s and 2nd semester Credit 0.5 each semester</p>	<p>Math Excel Geometry is designed to support sophomore students enrolled in Geometry in the same format as Math Excel Algebra. Grading will be on a Pass or Fail basis for this course.</p> <p>Open to students in grade 10 with teacher recommendation and Department approval.</p>

MUSIC DEPARTMENT

MUSIC

All courses in the Music Department fulfill the Elective Arts graduation requirement. Two fine arts credits fulfill the Illinois state public university entrance requirements in Art, Music or Foreign Language. Music performance courses are designed to not only improve the level of performance skill of the student, but also to develop a deeper understanding of culture and aesthetics.

All performance music ensembles include events outside the school day that are a significant part of course expectations. A calendar of rehearsals and performances is available on the music department website, www.hcmusic.org. Auditing of music courses (participation for no credit) is not permitted.

Students may earn honors credit in any performance music class by enrolling in the honors section and completing additional requirements throughout the school year. More information about the music honors program of study can be found on the honors tab of the music department website, www.hcmusic.org.

****Information subject to change. Please refer to the program of studies online for final honors credit options.**

*Music courses without a corresponding general or honors section

**Students using an early bird music course as an honors option receive no credit for the early bird course. Students enrolled in an every other day early bird music course will receive a quarter credit per semester for each course. See Honors Study in Music for more information.

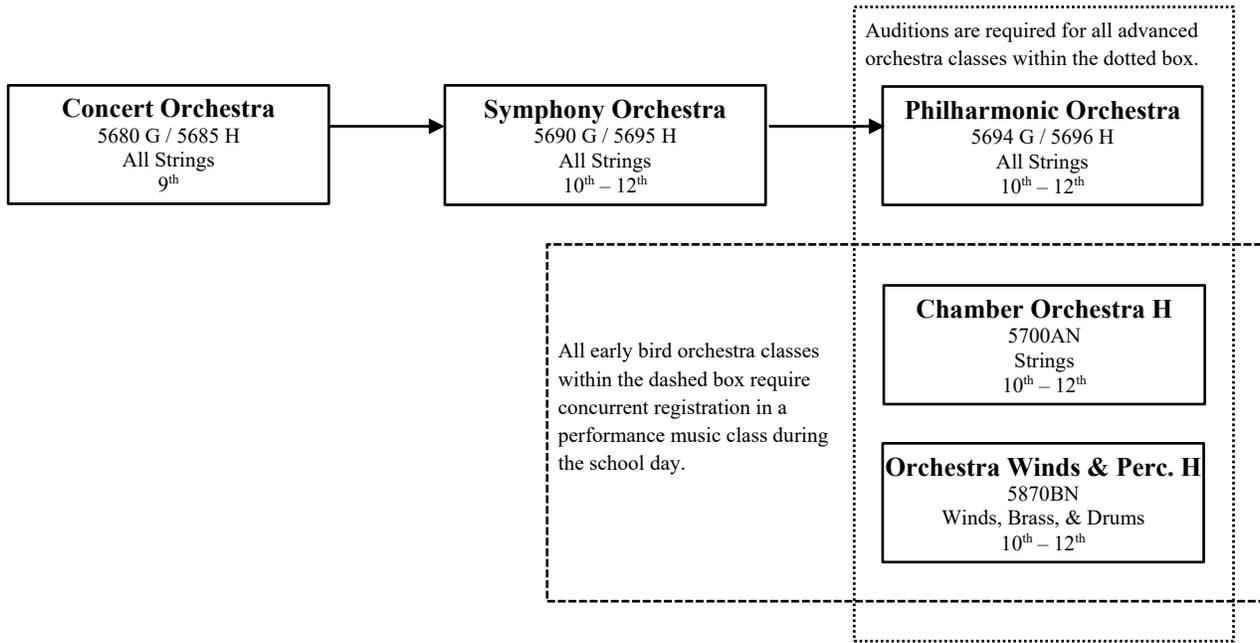

All students in courses with the "E" suffix combine to perform as part of the Red Devil Marching Band and Pep Band and are eligible for an Athletic Waiver from the Physical Education requirement. See Information for All Band Classes for details.

Course numbers with the "AN" or "BN" suffix are early bird music courses that meet every other day before school during period zero. These courses are extensions of the curriculum and students must also be enrolled in a class during the school day to participate, with the exception of bass, guitar, piano students. Students can register for one "AN" class, one "BN" class, or one of each.

Courses with no prerequisites are the entry point for freshmen who do not audition and students new to performance music.

MUSIC DEPARTMENT

ORCHESTRA COURSE SEQUENCE

ORCHESTRA COURSE DESCRIPTIONS

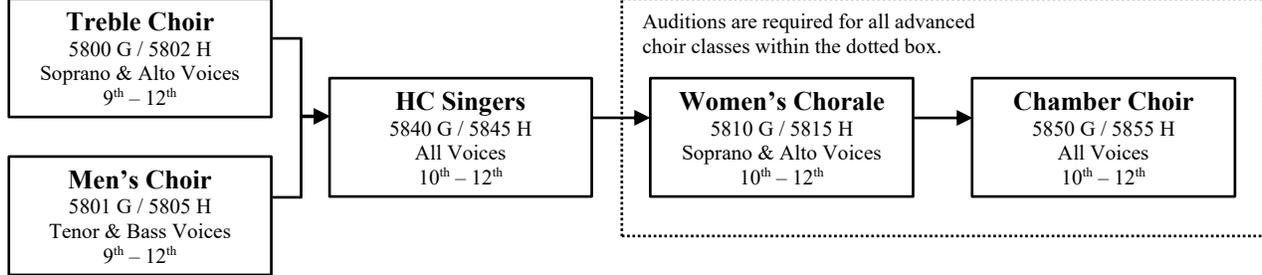

<p>CONCERT ORCHESTRA <i>General Course #5680</i> <i>Honors Course #5685</i> Full year Credit: 1.0</p>	<p>Concert Orchestra is a class designed for all incoming freshmen string players. The class is centered on refining fundamental string techniques, introducing basic music theory, reinforcing effective rehearsal and practice habits, and performing level-appropriate string literature. Concert orchestra performs a variety of concerts throughout the year as well as participates in Hinsdale Solo and Ensemble Festival. This class offers honors credit that involves additional requirements.</p> <p>Prerequisite: none. Open to grade 9. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>SYMPHONY ORCHESTRA <i>General Course #5690</i> <i>Honors Course #5695</i> Full year Credit: 1.0</p> <p>Concert Attire Fee: Up to \$105</p>	<p>Symphony Orchestra is a class designed for sophomore, junior, and senior string players seeking to further improve their performance and understanding of orchestral repertoire. The class is centered on introducing advanced level string techniques, intermediate level music theory, and performing level-appropriate string and full orchestra repertoire. The string section of Symphony Orchestra combines with Orchestra Winds & Percussion players to create a full orchestra experience. Symphony Orchestra members perform in a variety of concerts throughout the year as well as at the Hinsdale Solo and Ensemble Festival. This class offers honors credit that involves additional requirements.</p> <p>Prerequisite: director approval. Open to grades 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>

MUSIC DEPARTMENT

<p>PHILHARMONIC ORCHESTRA <i>General Course #5694</i> <i>Honors Course #5696</i> Full year Credit: 1.0</p> <p>Concert Attire Fee: Up to \$105</p>	<p>Philharmonic Orchestra is a class designed for advanced sophomore, junior, and senior players seeking to perform advanced orchestral literature. The class is centered around developing a deeper understanding of orchestral playing and covers advanced topics such as orchestral bowing, becoming a section leader, effective leading and following, and many others. It is assumed that students in this class already have achieved a high level of string technique through private instruction and chamber playing. The string section of Philharmonic Orchestra combines with Wind Ensemble members to perform high level full orchestra repertoire. Philharmonic Orchestra members perform in a variety of concerts throughout the year as well as at the Hinsdale Solo and Ensemble Festival. This class offers honors credit that involves additional requirements. This is an auditioned class.</p> <p>Prerequisite: director approval & audition. Open to grades 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>CHAMBER ORCHESTRA H <i>Honors Course# 5700AN</i> Full year Credit: 1.0**</p>	<p>Chamber Orchestra is an early bird class designed for advanced freshman, sophomore, junior, and senior string players interested in performing advanced chamber string repertoire. The class focuses on developing chamber playing skills as students will perform in large chamber groups, quartets, trios, and duets. The class meets every other day on a rotating AB weekly schedule. This class offers honors credit that involves additional requirements. This is an auditioned class and concurrent registration in an orchestra class is also required.</p> <p>Prerequisite: director approval & audition. Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>ORCHESTRA WINDS & PERCUSSION H <i>Honors Course # 5870BN</i> Full year Credit 1.0**</p>	<p>Woodwind, brass, and percussion players may, through placement audition, be selected for Orchestra Winds & Percussion Honors. This is a select ensemble of advanced wind and percussion players who will rehearse every other day as an Early Bird class. These players make up the Symphony Orchestra Wind and Percussion sections. Concurrent registration in a band class is required.</p> <p>Prerequisite: director approval & audition. Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>

MUSIC DEPARTMENT

CHOIR COURSE SEQUENCE

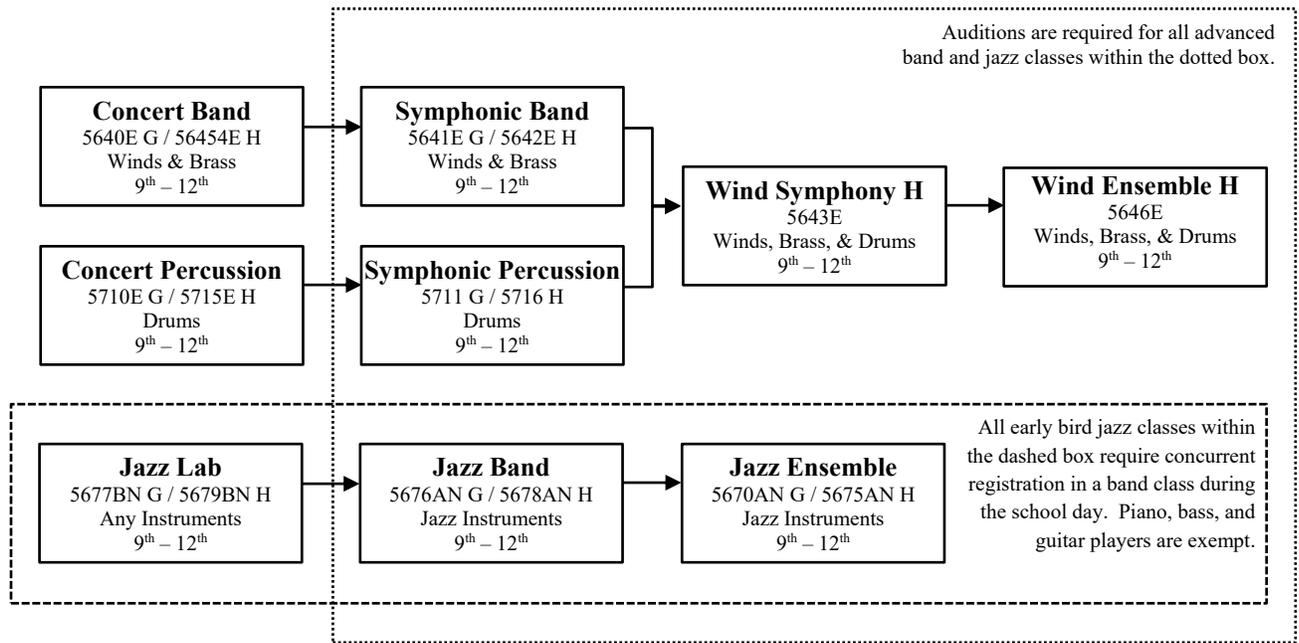

CHOIR COURSE DESCRIPTIONS

<p>TREBLE CHOIR <i>General Course # 5800</i> <i>Honors Course # 5802</i> Full year Credit: 1.0 Shirt Fee: Up to \$10</p>	<p>Teaches and examines basic vocal techniques, practice and performance of choral music, sight singing and theory. A variety of choral music will be practiced and performed. Honors credit is available for this course.</p> <p>Prerequisite: none. Intended for all 9th grade females & first-year singers. Open to grades 9, 10, 11, and 12.</p>
<p>MEN'S CHOIR <i>General Course # 5801</i> <i>Honors Course # 5805</i> Full year Credit: 1.0 Shirt Fee: Up to \$10</p>	<p>Teaches and examines basic vocal techniques, practice and performance of choral music, sight singing and theory. A variety of choral music will be practiced and performed. Honors credit is available for this course.</p> <p>Prerequisite: none. Intended for 9th grade males & first-year singers. Open to grades 9, 10, 11, and 12.</p>
<p>HINSDALE CENTRAL SINGERS <i>General Course # 5840</i> <i>Honors Course # 5845</i> Full year Credit: 1.0 Shirt Fee: Up to \$10</p>	<p>Level two of vocal techniques for male and female voices. A variety of mixed choir choral literature is practiced and performed. Continued study of sight singing and theory. Honors credit is available for this course.</p> <p>Prerequisite: director approval. Open to grades 10, 11, and 12. May be repeated for credit.</p>
<p>WOMEN'S CHORALE <i>General Course # 5810</i> <i>Honors Course # 5815</i> Full year Credit: 1.0 Concert Attire Fee: Up to \$105 Shirt Fee: Up to \$10</p>	<p>An advanced level of vocal technique for female voices, sight singing and theory. This advanced choral group practices and performs a variety of music. Extra performances or rehearsals may be scheduled. Honors credit is available for this course. An audition is required.</p> <p>Prerequisite: director approval & audition. Open to grades 10, 11, and 12. May be repeated for credit.</p>
<p>CHAMBER CHOIR <i>General Course # 5850</i> <i>Honors Course # 5855</i> Full year Credit: 1.0 Concert Attire Fee: Up to \$105 Shirt Fee: Up to \$10</p>	<p>An advanced group with a high level of musicianship, vocal technique, sight singing and theory skills. A large variety of musical styles will be practiced and performed. This ensemble performs frequently outside of the school day for community events. Honors credit is available for this course. An audition is required.</p> <p>Prerequisite: director approval & audition. Open to grades 10, 11, and 12. May be repeated for credit.</p>

MUSIC DEPARTMENT

BAND COURSE SEQUENCE

INFORMATION FOR ALL BAND CLASSES

Students enrolled in the Hinsdale Central High School Bands perform at home games, local parades, pep rallies, formal concerts, and other community events. Band classes improve musicianship, develop technique, and provide performance opportunities featuring a variety of musical styles and ensemble settings. Every band course is an academic class that meets during a class period and also requires occasional rehearsals and performances outside the school day; however, students are encouraged to participate in other advanced academic classes, athletics, and activities. Opportunities for student leadership, overnight travel, and extracurricular performing are available. All band classes can be repeated each year for credit and are open to students in every grade.

Students must be enrolled in one of the six band classes to participate in jazz classes, orchestra wind and percussion sections, and other extracurricular band activities. The band page of the Music Department website, www.hcmusic.org, has the most current information about the band program, auditions, and honors credit requirements. Questions may be emailed to the band directors: Mr. Matt Kurinsky, at mkurinsk@hinsdale86.org or Mr. Matt Goeke at mgoeke@hinsdale86.org.

MUSIC DEPARTMENT

BAND COURSE DESCRIPTIONS	
<p>CONCERT BAND <i>General Course #5640E</i> <i>Honors Course #5645E</i> Full year Credit: 1.0 <i>NO PERCUSSIONISTS</i></p> <p>Shirt Fee: Up to \$10 Marching Band Equipment Fee: Up to \$20</p>	<p>The Concert Band is open to all flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, baritone, and tuba players without an audition and is open to beginners in addition to experienced performers. Students will study the fundamentals of wind instrument performance, music reading, and music theory. See the Information for All Band Classes above for more details.</p> <p>Prerequisite: none. Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>SYMPHONIC BAND <i>General Course #5641E</i> <i>Honors Course #5642E</i> Full year Credit: 1.0</p> <p>Shirt Fee: Up to \$10 Marching Band Equipment Fee: Up to \$20</p>	<p>The Symphonic Band is an auditioned concert band made up of flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, baritone, and tuba players. This class develops a more advanced level of wind instrument performance and requires students to have a good understanding of music reading and music theory. See the Information for All Band Classes above for more details.</p> <p>Prerequisite: director approval & audition. Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>WIND SYMPHONY H <i>Honors Course #5643E</i> Full year Credit: 1.0 Concert Attire Fee: Up to \$105 Shirt Fee: Up to \$10 Marching Band Equipment Fee: Up to \$20</p>	<p>The Wind Symphony is an auditioned concert band made up of a limited number of flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, baritone, tuba, and percussion players. Enrolled students must be proficient at reading and performing music and must meet honors credit requirements. Students will frequently perform advanced standards and the latest compositions of contemporary wind band literature. See the Information for All Band Classes for more details.</p> <p>Prerequisite: director approval & audition. Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>WIND ENSEMBLE H <i>Honors Course #5646E</i> Full year Credit: 1.0 Concert Attire Fee: Up to \$105 Shirt Fee: Up to \$10 Marching Band Equipment Fee: Up to \$20</p>	<p>The Wind Ensemble is an auditioned, highly selective, concert band made up of a limited number of flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, baritone, tuba, and percussion players. Enrolled students must be proficient at reading and performing music and must meet honors credit requirements. Students will frequently perform the most advanced standards and the latest compositions of contemporary wind band literature. See the Information for All Band Classes for more details.</p> <p>Prerequisite: director approval & audition. Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>

MUSIC DEPARTMENT

<p>CONCERT PERCUSSION ENSEMBLE <i>General Course #5710E</i> <i>Honors Course #5715E</i> Full year Credit: 1.0</p> <p>Shirt Fee: Up to \$10 Marching Band Equipment Fee: Up to \$20</p>	<p>The Concert Percussion Ensemble is an entry level class for students interested in performing band music on percussion instruments and drum set. In addition to performing as a percussion ensemble, students will also prepare standard band literature to perform with the wind players in other band classes. Enrolled students will learn the basics of music reading and percussion technique. See the Information for All Band Classes for more details.</p> <p>Prerequisite: none. Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>SYMPHONIC PERCUSSION ENSEMBLE <i>General Course #5711E</i> <i>Honors Course # 5716E</i> Full year Credit: 1.0</p> <p>Shirt Fee: Up to \$10 Marching Band Equipment Fee: Up to \$20</p>	<p>The Symphonic Percussion Ensemble is an auditioned class only for percussion and drum set players. In addition to performing as a percussion ensemble, students will also prepare standard band literature to perform with the wind players in other band classes. Enrolled students must be able to read music and have a good understanding of percussion technique. See the Information for All Band Classes for more details.</p> <p>Prerequisite: director approval & audition. Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>JAZZ LAB <i>General Course#5677BN</i> <i>Honors Course#5679BN</i> Full year Credit: 1.0**</p>	<p>The Jazz Lab is an entry level class for instrumental and vocal music students interested in performing contemporary music in a variety of styles while developing improvisation skills. Students may be grouped into ensembles according to ability and instrumentation. See the Information for All Band Classes for more details.</p> <p>Prerequisite: concurrent enrollment in a band class (except piano, bass, & guitar). Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>JAZZ BAND <i>General Course#5676AN</i> <i>Honors Course#5678AN</i> Full year Credit: 1.0**</p>	<p>The Jazz Band is an auditioned traditional big band made up of saxophone, trombone, trumpet, piano, bass, guitar, and drum set players. Students enrolled in this class study jazz performance in a variety of styles. The class develops an understanding of scale and chord theory and encourages improvisation. This class meets every other day during the “Early Bird” Period 0. See the Information for All Band Classes for more details.</p> <p>Prerequisite: director approval, audition, and concurrent enrollment in a band class (except piano, bass, & guitar). Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>JAZZ ENSEMBLE <i>General Course#5670AN</i> <i>Honors Course#5675AN</i> Full year Credit: 1.0**</p>	<p>The Jazz Ensemble is the top auditioned traditional big band made up of saxophone, trombone, trumpet, piano, bass, guitar, and drum set players. Students enrolled in this class study jazz performance in a variety of styles and frequently perform. Enrolled students should have a good understanding of scale and chord theory and must be comfortable practicing improvisation. This class meets every other day during the “Early Bird” Period 0. Students may also enroll in Honors Orchestra Winds and Percussion. See the Information for All Band Classes for more details.</p> <p>Prerequisite: director approval, audition, and concurrent enrollment in a band class (except piano, bass, & guitar). Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>

MUSIC DEPARTMENT

ADDITIONAL MUSIC ELECTIVES

<p>BEGINNING PIANO & COMPOSITION <i>Course #5920</i> Full Year Credit: 1.0</p>	<p>Beginning Piano is an entry-level performance music course. Students will learn the basics of reading music notation in order to play the piano, alone and with other students, and will use a variety of resources to learn music theory, practice technique, create compositions, and perform. Projects will include creating original compositions and learning to play your favorite song.</p> <p>Prerequisite: none. Open to grades 9, 10, 11, and 12. May be repeated for credit.</p>
<p>ADVANCED PLACEMENT MUSIC THEORY <i>Course #5900</i> Full year Credit: 1.0</p>	<p>AP Music Theory prepares music students for the Music Theory Advanced Placement Examination through the study of musical elements and techniques including notation, scales and modes, intervals, chords, non-harmonic tones, cadences, ear training, sight singing, melody, form, and composition. Success on the AP Exam can result in college credit. All prospective students must be recommended to Mr. Kurinsky by their music director or private lesson instructor.</p> <p>Prerequisite: teacher approval. Open to grades 10, 11, and 12. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>

PHYSICAL, DRIVER, AND HEALTH EDUCATION

PHYSICAL EDUCATION DEPARTMENT

KATY HEALY, DESIGN

Physical education is the science of human movement and the courses are designed to provide instruction and insight into healthy physical activities. All Physical Education offerings are designed to promote good health, safety, fitness, awareness of the value of recreation, and an appreciation of all forms of physical expression. Per the mandate House Bill 5397 all students in grades 3-12 will complete fitness testing and data will be reported to the Illinois State Board of Education.

Freshmen, juniors and seniors must register for Physical Education EACH semester

COURSE TITLE	Course # (First/Second Semester)	Prerequisite	Credit	Grade Offered
Adaptive Physical Education	7080	Yes	1.0	9-12
Adaptive PE Aide	7084/7085	Yes	0.5	11-12
Group Exercise	7307/7322	No	0.5	10-12
Aquatics	7305/7320	No	0.5	10-12

F.I.T.S 1 – Lifetime Activities	7311/7326	No	0.5	10-12
F.I.T.S 2 – Competitive Team Sports	7312/7327	No	0.5	10-12

PHYSICAL, DRIVER, AND HEALTH EDUCATION

<p>ADAPTIVE PHYSICAL EDUCATION <i>Course #7080</i> Full year Credit: 1.0</p>	<p>Adaptive PE offers an alternative PE option for students who are unable to participate in a regular physical education course. Adaptive PE is designed to meet the needs of students with a variety of physical, cognitive, or social needs. This course is intended to give the learner the skills necessary for a lifetime of rich leisure, recreation, and sport experience to enhance physical fitness and wellness. In addition, this course offers a smaller class size to make individualized instruction more appropriate. Our program also utilizes a peer mentor program. We have 1:1 peer helpers who serve as teachers/aides/friends to the students in the class. The peer mentors help in the gym hallways, and serve as role models for our students.</p> <p>Prerequisite: Departmental Approval. Open to grades 9, 10, 11, and 12.</p>
<p>ADAPTIVE PE AIDE <i>Course #7084, 7085</i> Credit: 0.5</p>	<p>The Adaptive Physical Education Aide class is offered to juniors and seniors who are interested in working with students with a variety of physical, cognitive, and social needs. As a “peer buddy” students are encouraged to serve as role models in the class (wear PE attire and participate daily, model appropriate behavior, etc.). This class will swim during both semesters. Daily attendance is required.</p> <p>Prerequisite: Application from PE office and Departmental Approval. Priority will be given to those students interested in a career in education. This course may NOT be repeated. Open to grades 11 and 12.</p>
<p>GROUP FITNESS/EXERCISE <i>Course #7307, 7322</i> Credit: 0.5</p>	<p>This class introduces students to components of cardiovascular activity through aerobic movements. Students will also address the principles of muscular strength and endurance through the use of free weights and toning exercises. Core workouts, yoga, Pilates, and fitness dance are introduced as part of this class as methods for students to increase flexibility, strength and balance (May be repeated).</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>AQUATICS <i>Course #7305, 7320</i> Credit: 0.5</p>	<p>Includes sports and activities designed for the aquatic environment. Included are the development of skills in springboard diving, analysis of the four competitive swimming strokes, as well as starts and turns. Water safety habits, basic lifeguarding skills, water aerobics, dry land exercises, and weight training specific to aquatic activity will also be introduced. Recommended for prospective triathletes and swimmers (May be repeated).</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>PHYSICAL CONDITIONING <i>Course #7306, 7321</i> Credit: 0.5</p>	<p>A strong emphasis on core training, general strength, stability and explosive power. Recommended for any person wishing to improve overall competitive effectiveness.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>COMPREHENSIVE WEIGHT TRAINING (Bouchard Center) <i>Course #7309, 7324</i> Credit: 0.5</p>	<p>Gain knowledge and understanding of weight training theory, advanced weight training practices, sport specific weight training techniques and proper nutritional practices. Initiate and develop weight training programs. Improve muscular strength and endurance (May be repeated).</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>EARLY BIRD P.E. <i>Course #7373, 7374</i> Credit: 0.5</p>	<p>This physical education class is open to all sophomores, juniors, and seniors who wish to add an extra period to their day, giving them greater flexibility to select other specialized courses. The course runs from 7:00 a.m. to 7:50 a.m. daily. Students must provide their own transportation.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>

PHYSICAL, DRIVER, AND HEALTH EDUCATION

FRESHMAN PHYSICAL EDUCATION <i>Course #7113, 7114</i>	Basketball, track and field, softball, soccer, square dance, volleyball, badminton, fitness concepts, team building, football, tennis, gymnastics, swimming, group exercise, wrestling and modern dance. Prerequisite: None. Open to grade 9.
LIFEGUARDING/ CPR/ FIRSTAID <i>Course #7310, 7325</i> Credit: 0.5	Meets American Red Cross Lifesaving Certification, Cardiopulmonary Resuscitation Certification and Standard First Aid Certification. Students must be able to swim 500 yds. non-stop to enroll. No student may use a P.E. exemption in this class and receive Red Cross certification or recertification. Prerequisite: None. Open to grades 10, 11, and 12.
PERSONAL FITNESS (Fitness Center) <i>Course #7308, 7323</i> Credit: 0.5	Variable course content. Teacher directed workouts and individualized conditioning programs designed to address fitness goals are incorporated. Principles and skills relating to cardiovascular endurance, muscular strength, muscular endurance, and flexibility are incorporated. Equipment orientation includes cardiovascular machines, proper weight training techniques and circuit training. At the completion of course, students will be able to design and implement their own fitness program. Prerequisite: None. May be repeated. Open to grades 10, 11, and 12.

FITNESS INTEGRATED THROUGH SPORTS (F.I.T.S) - SEMESTER 1

Includes sports and activities for lifelong participation. Instruction provided in basic skill, rules, strategies, and social behavior necessary to achieve competent level of participation, practice, game situations and tournament play. In addition, students will be introduced to fitness components such as cardiovascular endurance, muscular strength, muscular endurance and flexibility. Select one of the following options listed below.

Lifetime Activities <i>Course #7311</i> 1 st Semester Credit: 0.5	Softball Basketball Volleyball Aquatics	Tennis Archery Fitness Testing Football	Badminton Frisbee Golf Soccer	Lifetime Activities <i>Course #7311</i> 1 st Semester Credit: 0.5
Competitive Team Sports <i>Course #7312</i> 1 st Semester Credit: 0.5	Volleyball Ultimate Frisbee Aquatic Games	Football/Navy Outdoor Hockey Soccer	Team Handball Flicker Ball Fitness Testing	Competitive Team Sports <i>Course #7312</i> 1 st Semester Credit: 0.5

FITNESS INTEGRATED THROUGH SPORTS (F.I.T.S) - SEMESTER 2

Includes sports and activities for lifelong participation. Instruction provided in basic skill, rules, strategies, and social behavior necessary to achieve competent level of participation, practice, game situations and tournament play. In addition, students will be introduced to fitness components such as cardio-vascular endurance, muscular strength, muscular endurance and flexibility. Select one of the following options. Select one of the following options listed below.

Lifetime Activities <i>Course #7326</i> 2 nd Semester Credit: 0.5	Pickleball Volleyball	Ping Pong Aquatics Basketball	Golf Group Exercise Softball	Outdoor Education Fitness Testing
Competitive Team Sports <i>Course #7327</i> 2 nd Semester Credit: 0.5	Volleyball Basketball	Team Games Softball	Outdoor Hockey	Aquatic Games

DRIVER EDUCATION

Course #7461/7462

Credit: 0.25

\$350.00 Course fee

\$20.00 Permit fee required by State

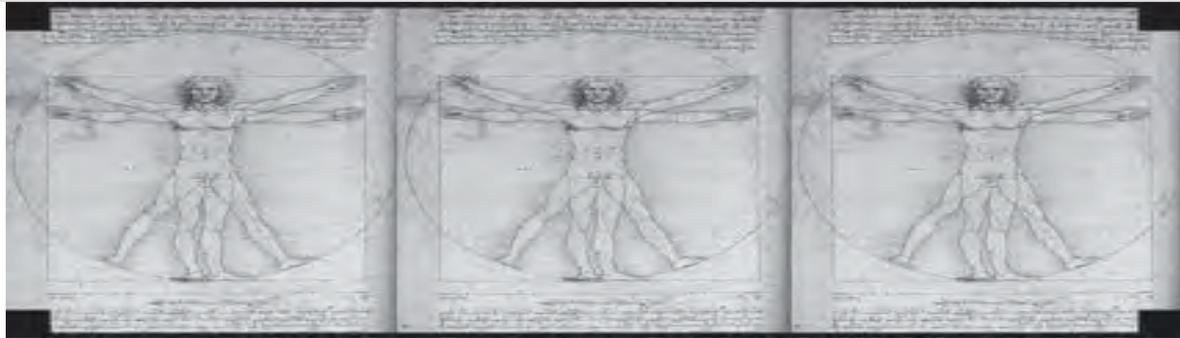

Driver Education, though an elective course, is required in order to obtain a state driver's license prior to the age of 18. Driver Education will follow state mandates on the number of classroom instruction and in car training. Student schedules must allow for one period per day during one semester in order to complete course requirements. Student's class time will be divided between behind the wheel instruction with a certified instructor for 24 class periods. 30 hours of classroom instruction. When students are not in classroom or behind the wheel they will be placed in a study hall as part of the Driver's Education program.

Any incoming freshman can enroll in Driver Education as long as he/she turns 15 years of age prior to the start of the semester.

If you turn 15 years of age prior to the start of the semester, you are eligible to enroll in Driver Education. Students enrolled in Driver Education will receive two grades at the end of the semester: one for the classroom phase, and one for the behind-the-wheel phase. Upon successful completion of the Driver Education Cooperative Testing program, students will be eligible for their license without need for further examination by the Illinois Secretary of State Office.

As a prerequisite, students enrolling in Driver Education must be passing eight semester classes within the two most recent semesters of attendance. Only classes used to determine a student's GPA will be allowed to meet this requirement.

PHYSICAL, DRIVER, AND HEALTH EDUCATION

HEALTH EDUCATION

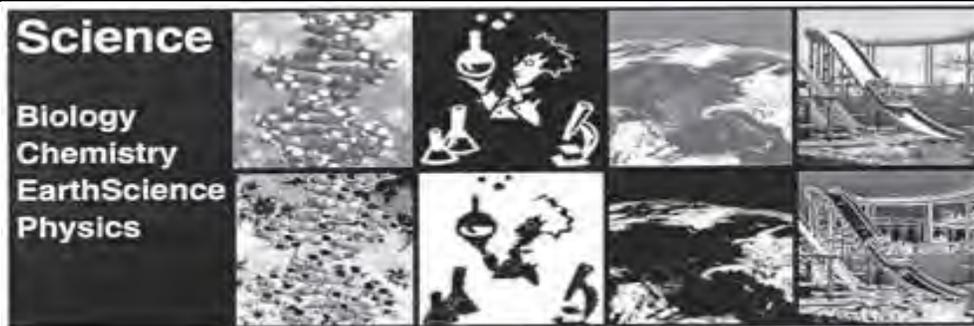

Sophomores have the option of taking Health Education for one semester and Physical Education for the other semester. Students electing to enroll in summer school Health Education will be placed in Physical Education for both semesters in order to be compliant with the mandated daily physical education requirement.

COURSE TITLE	Course # (First/Second Semester)	Prerequisite	Credit	Grade Offered
Health Education	7501/7502	No	0.5	10
Introduction to Sports Medicine	7521/7522	Yes	0.5	10-12
Health Foundations	2002	Yes	0.5	9-12
Health	2780A/2780B	Yes	0.5	9-12
HEALTH EDUCATION <i>Course #7501, 7502</i> Credit: 0.5 (Included in student's G.P.A.)	The goal of this course is to promote and develop positive attitudes and behaviors related to the overall wellness of Hinsdale Central students. Students are taught how to access valid health information and health-promoting products and services. The students will also learn how to analyze the influence of culture, media, technology and other factors on health. Topics of study within the Health Education program include: Introduction to Wellness, Alcohol, Tobacco and other Drugs, Nutrition and Fitness, Communicable and Non-communicable Diseases, and Human Reproduction. The curriculum is aligned with District 86 program goals, Illinois and National Health Education Standards, and Illinois State Standards for Social/Emotional Learning.			
	REQUIRED FOR GRADUATION. This course should be taken in tandem with Physical Education during the sophomore year. Open to grade 10.			
INTRODUCTION TO SPORTS MEDICINE <i>Course #7521, 7522</i> Credit: 0.5 (General credit only; not for elective arts. Included in student's G.P.A.)	The goal of this course is to help students become more knowledgeable and proficient in the following areas: principles and practices of athletic training; anatomy, physiology, injury recognition, treatment and rehabilitation as they relate to sports and leisure activities. This course also provides valuable hands-on experience and is highly recommended for those students who are interested in careers in nursing, medicine, athletic training, physical therapy, or coaching.			
	Prerequisite: Successful completion of Health Education or approval of Department Chair. Open to grades 10, 11, and 12.			

PHYSICAL, DRIVER, AND HEALTH EDUCATION

<p>HEALTH FOUNDATIONS <i>Course #2002</i> 2nd Semester Credit 0.5</p>	<p>This course is for students who are reading at least three years below grade level. The goal of this course is to promote and develop positive attitudes and behaviors related to the overall wellness of Hinsdale Central students. Students are taught how to access valid health information and health-promotion products and services. The students will also learn how to analyze the influence of culture, media, technology and other factors on health. Topics of study within the Health Education program include: Introduction to Wellness, Alcohol, Tobacco and other Drugs, Nutrition and Fitness, Communicable and Non-communicable Diseases, and Human Reproduction. The curriculum is a modification of grade level standards, but is aligned with District 86 program goals, Illinois and National Health Education Standards. Students enrolled in this course must also be enrolled in Adaptive PE.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>HEALTH <i>Course #2780A/2780B</i> Credit: 0.5 (included in student's G.P.A)</p>	<p>This course is for students who are reading at least two years below grade level. Open to grades 9, 10, 11, and 12.</p>

SCIENCE DEPARTMENT

Adam Code, design
Jeff Hotaling, design

SCIENCE DEPARTMENT

Two credits in science are required for graduation. Each credit must be earned by completing both semesters of a given course (one credit can be earned through the semester course offerings).

All students should have experience in both the biological and physical/earth sciences. Two years of the same type of science, if this excludes other areas of science, is not recommended.

1. Courses in science are designed to develop an understanding of the natural and physical world, to stress the importance of major scientific principles, to develop reasonable competence in the use of the methods of science and to help recognize and prepare for the role science plays in our evolving technological world. The many course offerings and sequences in science have been carefully planned to meet the needs of each student, whether he/she considers science as a future career, as an interesting avocation or as a necessity for all citizens in our technological society.
2. Courses are taught in classroom-laboratory situations which provide opportunities for individual and group instruction, investigation and experimentation. All science classes require a teacher recommendation.
3. The following are possible four-year course sequences:

Seq.	Grade 9	Grade 10	Grade 11	Grade 12
1.	Earth Science <i>or</i> Biology	Biology Earth Science	Chemistry/Physics	Chemistry Themed <i>or</i> Traditional <i>or</i> Physics Themed <i>or</i> Traditional
2.	Biology	Chemistry Themed <i>or</i> Chemistry Traditional	Physics Themed <i>or</i> Physics Traditional	Earth Science semester courses <i>or</i> Earth Science Honors <i>or</i> <u>select</u> Advanced Placement courses
3.	Biology	Chemistry Themed <i>or</i> Chemistry Traditional	Earth Science semester courses*	Physics Themed Physics Traditional
4.	Biology <i>or</i> Biology H <i>or</i> Earth Science <i>or</i> Earth Science-H	Earth Science <i>or</i> Earth Science-H <i>or</i> Biology <i>or</i> Biology-H	Traditional/Themed <i>or</i> Chemistry - H	AP Physics 1, Advanced Placement courses <i>or</i> AP Seminar: Science AP Seminar: Research
5.	Biology Honors	Chemistry Honors (concurrent enrollment in AP Seminar: Science)	AP Physics 1 (concurrent enrollment in AP Seminar: Science)	Advanced Placement courses
6.	Chemistry H (if you are registered for Algebra 2 Trig or higher)	A.P. Physics 1	AP Biology <i>or</i> AP Environmental Science	Advanced Placement course AP Seminar: Science AP Seminar: Research

The aforementioned sequences by no means represent all sequences available to students. The possibilities are numerous. A more useful way to view science courses is by the year offered. The following table serves that purpose.

***Students who have taken Earth Science 3740G or Earth Science 3750 are not eligible to enroll in Earth Science semester courses.**

SCIENCE DEPARTMENT

COURSE TITLE	Course #	Prerequisite	Credit	Grade Offered
Science Foundations	2050	Yes	1.0	9-12
Biology	3700G	Yes	1.0	9-12
Biology	3710	Yes	1.0	9-12
Biology Honors	3720	Yes	1.0	9-12
Anatomy and Physiology (Hinsdale South)	3725	Yes	1.0	11-12
Advanced Placement Biology	3730	Yes	1.0	11-12
Advanced Placement Environmental Science	3770	Yes	1.0	11-12
Earth Science	3740G	Yes	1.0	9-10
Earth Science	3750	Yes	1.0	9-10
Earth Science Honors	3760	Yes	1.0	9-12
Meteorology/Astronomy	3771	Yes	0.5	11-12
Geology/Oceanography	3782	Yes	0.5	11-12
Chemistry/Physics 1	3800	Yes	1.0	11-12
Chemistry Themed	3810	Yes	1.0	10-12

Advanced Placement Physics 2	3950	Yes	1.0	11-12
Advanced Placement Physics C	3960	Yes	1.0	11-12
Advanced Placement Seminar: Science	3981	Yes	1.0	10-12
Advanced Placement Research: Science	3982	Yes	1.0	11-12

SCIENCE DEPARTMENT

<p>SCIENCE FOUNDATIONS <i>Course#2050</i> Full year Credit: 1.0</p>	<p>Students will investigate key elements of physical and social wellness that can be generalized in various facets of daily life, including proper nutrition, sleep, self-care, and exercise. They will explore the benefits of leisure activities and socialization. Students will also explore fundamental concepts, principles and interconnections of the life, physical and earth sciences. This course is intended for students who are reading two or more years below grade level.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>BIOLOGY <i>Course#3700G</i> Full year Credit: 1.0</p>	<p>This course is designed to acquaint students with properties of living organisms. The content includes such topics as the relationship between structure and function in living organisms as it relates to the human body, evolution, genetics, and many aspects of ecology. The approach of this course provides an introduction to major biological concepts while emphasizing literacy and executive functioning skills. This course is designed to assist students with reading comprehension as it relates to science literacy. Biology is a laboratory course.</p> <p>Prerequisite: Incoming freshmen eligibility is based upon Math department placement, Explore scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11, and 12.</p>
<p>BIOLOGY <i>Course#3710</i> Full year Credit: 1.0</p>	<p>This course is designed to acquaint students with properties of living organisms. This course's content includes such topics as the relationship between the structure and function in living organisms as it relates to the human body, evolution, genetics, and varied ecological principles. The impact that humans have on the global environment is studied during the end of this course. Methods of scientific inquiry are employed in classroom instruction. Good ability in reading comprehension is ESSENTIAL for success in this course. Biology - R is a laboratory course.</p> <p>Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11, and 12.</p>
<p>BIOLOGY HONORS <i>Course#3720</i> Full year Credit: 1.0</p>	<p>This course follows a molecular approach in the following content areas: cellular biology, evolution, genetics and its applications, and aspects of human biology. Compared to Biology 3710, the content areas are covered in greater depth and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. This course utilizes an inquiry approach in which students incorporate factual information into a framework of reflection and analysis. Biology - H is a laboratory course. Students earning a C in this course will not be eligible for a level change.</p> <p>Prerequisite: High ability in science, mathematics and reading. Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11, and 12.</p>
<p>ANATOMY AND PHYSIOLOGY <i>Course#3725</i> Full year Credit: 1.0</p>	<p>This course develops students' understanding of the workings of the human body. Dissections, including various cow organs and joints and a mink, play an important role in the learning process of this course. Careers in health-related fields are emphasized through in-class activities and field trips.</p> <p>Prerequisite: Successful completion of Biology and Chemistry (may be concurrent with Biology); Teacher recommendation. Open to grades 11 and 12. This course is ONLY offered at the HINSDALE SOUTH CAMPUS. This course is taught at Hinsdale South, only, and Central students would need to provide their own transportation to and from South. Also, Central students can enroll, but would need to take a study hall adjacent to the course to allow for travel.</p>

SCIENCE DEPARTMENT

<p>ADVANCED PLACEMENT BIOLOGY <i>Course#3730</i> Full year Credit: 1.0</p>	<p>This course follows the College Board’s Advanced Placement curriculum and as such is rigorous and fast paced. This course is comparable to an introductory college level course. College level materials are used. Advanced Placement Biology is a laboratory course.</p> <p>Prerequisite: Three years of science, including a year of Biology and a year of Chemistry and departmental recommendation. Concurrent enrollment in third year of science and AP Biology is permitted. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>
<p>ADVANCED PLACEMENT ENVIRONMENTAL SCIENCE <i>Course#3770</i> Full year Credit: 1.0</p>	<p>This course follows the College Board’s Advanced Placement curriculum and as such is rigorous and fast paced. This course will provide students with the scientific principles, concepts and methods required to understand the interrelationships of the natural world, to identify and analyze environmental problems, and to examine alternative solutions for resolving and/or preventing them. Field trips are an integral part of this course and are therefore mandatory. This course is comparable to a one-semester introductory college-level course; college-level materials are used. Advanced Placement Environmental Science is a laboratory course.</p> <p>Prerequisite: Three years of science and departmental recommendation. Concurrent enrollment in a third year of science and AP Environmental Science is permitted. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>
<p>EARTH SCIENCE <i>Course#3740G</i> Full year Credit: 1.0</p>	<p>The core material for this course is similar to that of 3750 Earth Science. The approach of this course provides an introduction to major earth science concepts while emphasizing literacy and executive functioning skills. This course is designed to assist students with reading comprehension as it relates to science literacy. Earth Science is a laboratory course.</p> <p>Prerequisite: Incoming freshman eligibility is based upon Math department placement, Explore scores and recommendation of 8th grade instructor. Open to grades 9 and 10.</p>
<p>EARTH SCIENCE <i>Course#3750</i> Full year Credit: 1.0</p>	<p>This course utilizes an inquiry approach in which students take factual information and use it for analysis. The main units of study are: geology, oceanography, meteorology and astronomy. Good ability in reading comprehension and average ability in math are ESSENTIAL for success in this program. Earth Science is a laboratory course.</p> <p>Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9 and 10.</p>
<p>EARTH SCIENCE HONORS <i>Course#3760</i> Full year Credit: 1.0</p>	<p>This course uses a college-level textbook and covers major topics in meteorology, astronomy, and geology. Compared to Earth Science 3750, the pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. The approach of the course involves traditional learning, labs, and tests paired with cooperative group work, presentations, and written projects. Earth Science - H is a laboratory course.</p> <p>Students earning a C in this course will not be eligible for a level change.</p> <p>Students enrolled in this course will be eligible to earn one semester of dual credit through College of DuPage.</p> <p>Prerequisite: High ability in science, mathematics and reading. Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11, and 12.</p>

SCIENCE DEPARTMENT

<p>METEOROLOGY & ASTRONOMY <i>Course#3771</i> 1st semester only Credit: 0.5</p>	<p>Meteorology is the study of the mechanics of the atmosphere, weather and climatic patterns. Astronomy is concerned with the celestial bodies that comprise the known physical universe. The astronomy portion of this course DOES NOT emphasize astrophysics. This course includes teamwork to help develop problem solving skills. Good reading skills and comprehension are required. Meteorology and Astronomy is a laboratory course.</p> <p>Prerequisite: At least one year of high school science, and departmental recommendation. This course is NOT open to anyone who has already taken Earth Science. Open to grades 11 and 12.</p>
<p>GEOLOGY & OCEANOGRAPHY <i>Course#3782</i> 2nd semester only Credit: 0.5</p>	<p>This course examines the physical processes that shape and change the earth's crust. The physical, chemical, geological and biological aspects of the ocean are explored with equal time devoted to each aspect. This course includes teamwork to help develop problem solving skills. Good reading skills and comprehension are required. Geology and Oceanography is a laboratory course.</p> <p>Prerequisite: At least one year of high school science, and departmental recommendation. This course is NOT open to anyone who has already taken Earth Science. Open to grades 11 and 12.</p>
<p>CHEMISTRY/ PHYSICS 1 <i>Course#3800</i> Full year Credit: 1.0</p>	<p>This course is designed for those students needing additional chemistry and physics background before enrollment in a full-year course. Approximately one semester each will be devoted to topics in chemistry, such as atomic structure and gases, and topics in physics, such as motion and waves. This lab oriented course is taught at a pace that allows students to focus on chemistry and physics content development as well as study skills that could prepare students for a full-year chemistry or physics course. This is a laboratory course.</p> <p>Prerequisite: Successful completion of Algebra and departmental recommendation.</p> <p>This course is not open to students who have taken Chemistry or Physics. Open to grades 11 and 12.</p>
<p>CHEMISTRY THEMED <i>Course#3810</i> Full year Credit: 1.0</p> <p>Supply fee: \$10.00</p>	<p>(Both Chemistry-Themed and Chemistry-Traditional are REGULAR level courses.) This is an environmentally themed chemistry course which teaches traditional chemistry concepts such as stoichiometry, acids and bases, and behavior of gases. Themed units include water, natural resources, petroleum, air and nuclear chemistry. This method of teaching chemistry is endorsed by the American Chemical Society. The course incorporates teamwork to develop problem solving skills and an understanding of the relevance and concepts of chemistry in everyday living. This course has a field-based lab requirement. This is a laboratory course and it does not meet the prerequisite for A.P. Chemistry.</p> <p>Prerequisite: Successful completion of Algebra 1, concurrent enrollment in Geometry or higher and departmental recommendation. Open to grades 10, 11, and 12.</p>
<p>CHEMISTRY TRADITIONAL <i>Course#3820</i> Full year Credit: 1.0</p> <p>Supply fee: \$10.00</p>	<p>(Both Chemistry-Themed and Chemistry-Traditional are REGULAR level chemistry courses.) Traditional chemistry concepts such as stoichiometry, acids and bases, behavior of gases and molecular shapes are taught as students independently develop understanding through participation in classroom discussion, assignments, activities and labs. This is a laboratory course and it meets the prerequisite for A.P. Chemistry.</p> <p>Prerequisite: Successful completion of Algebra 1, concurrent enrollment in Geometry or higher and departmental recommendation. Open to grades 10, 11, and 12.</p>

SCIENCE DEPARTMENT

<p>CHEMISTRY HONORS <i>Course#3830</i> Full year Credit: 1.0</p> <p>Supply fee: \$10.00</p>	<p>The core material for this course is similar to that of Chemistry-Traditional and follows a similar sequence. The pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. Chemistry - Honors is a laboratory course. This course meets the pre-requisite for A.P. Chemistry.</p> <p>Students earning a C in this course will not be eligible for a level change.</p> <p>Prerequisite: Successful completion of Algebra I and departmental recommendation which will be based on a high level of ability in science, mathematics, and reading. Open to grades 10, 11, 12 and 9th graders enrolled in Algebra 2 Trig or higher.</p>
<p>ADVANCED PLACEMENT CHEMISTRY <i>Course#3840</i> Full year Credit: 1.0</p> <p>Supply fee: \$10.00</p>	<p>This course follows the College Board's Advanced Placement curriculum and as such is extremely rigorous and fast paced. This course is comparable to an introductory college level chemistry course. College level materials are used. Advanced Placement Chemistry is a laboratory course.</p> <p>Prerequisite: Three years of science, including a year of Chemistry (Traditional or Honors) and a year of Physics (Traditional or Honors) and departmental recommendation.</p> <p>Concurrent enrollment in a third year of science and AP Chemistry is permitted. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>
<p>PHYSICS THEMED <i>Course#3900</i> Full year Credit: 1.0</p>	<p>(Both Physics-Themed and Physics-Traditional are REGULAR level physics courses.) This is a theme-directed laboratory course. Quarterly themes are: Physics of the Arts, electrical physics, sports physics and rollercoaster physics. Topics including motion, forces, energy, waves, sound, optics, electricity and magnetism are taught in a directed approach with frequent assessment through participation in classroom lecture, assignments, activities, projects and labs. This course uses an electronic textbook and an electronic homework program which require internet access. This course is appropriate for students with average math ability. This is a laboratory course and it does not meet the prerequisite for A.P. Physics courses.</p> <p>Prerequisite: successful completion of Algebra 1, concurrent enrollment in Algebra II/Trig and departmental recommendation. Open to grades 10, 11, and 12.</p>
<p>PHYSICS TRADITIONAL <i>Course#3920</i> Full year Credit: 1.0</p>	<p>(Both Physics-Themed and Physics -Traditional are REGULAR level physics courses.) This is a traditional high school physics laboratory course. Topics such as motion, forces, momentum, energy, waves, sound, light, optics, electricity and magnetism are taught as students independently develop understanding with less frequent assessment through participation in classroom lecture, assignments, activities, projects and labs. This course is appropriate for students with average math ability. This is a laboratory course and meets the prerequisite for A.P. Physics courses.</p> <p>Prerequisites: Successful completion of Algebra I, concurrent enrollment in Algebra II/Trig, and departmental recommendation. Open to grades 10, 11, and 12.</p>

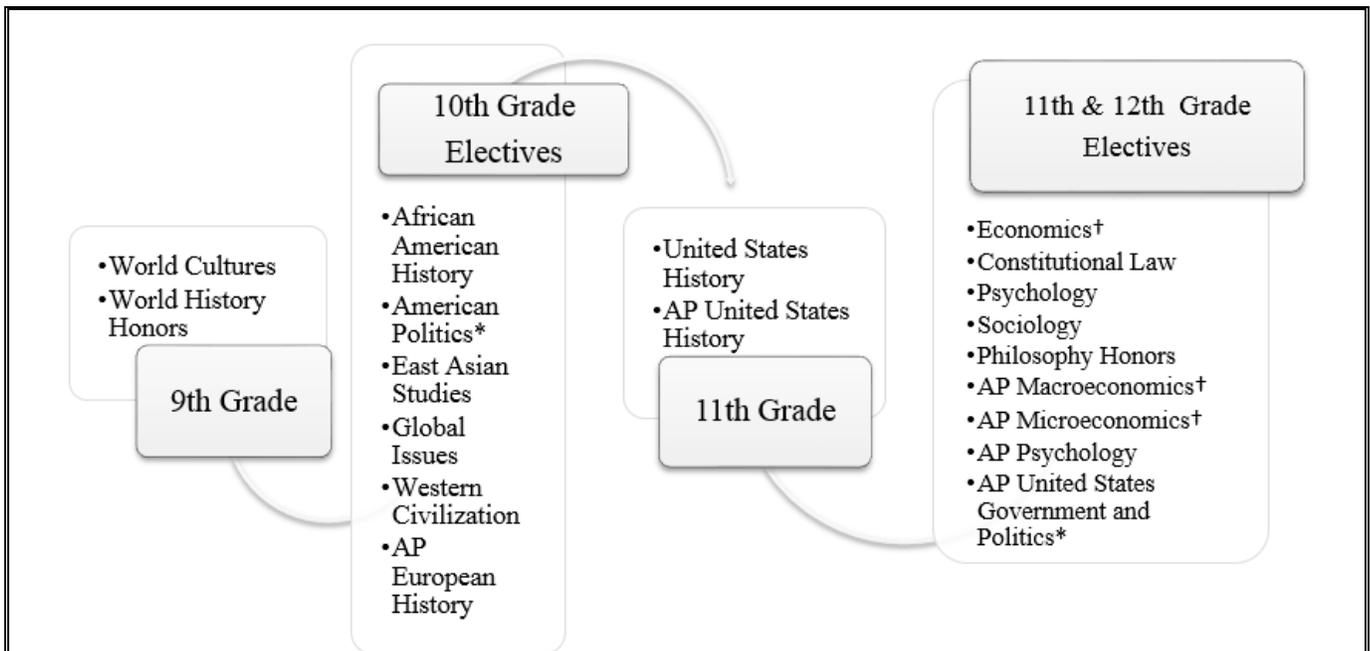

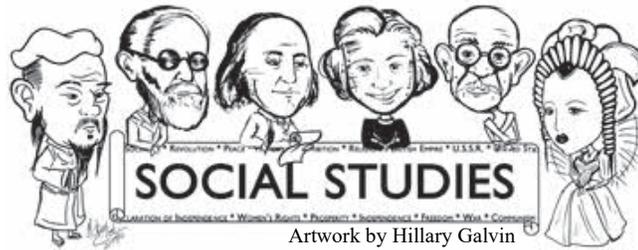

SCIENCE DEPARTMENT

<p>ADVANCED PLACEMENT PHYSICS 1 <i>Course#3930</i> Full year Credit: 1.0</p>	<p>This is an algebra-based 1st year physics course following the College Board’s Advanced Placement curriculum and as such is designed to prepare students for the AP Physics 1 exam. Topics such as motion, forces, momentum, energy, rotational dynamics, waves, sound, light, optics, electricity and magnetism are taught as students independently develop understanding with less frequent assessment through participation in classroom lecture, assignments, activities, projects and labs. Compared to Physics-Traditional, the pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. AP Physics 1 is extremely math intensive with an emphasis on symbolic manipulation of variables. This course meets the prerequisite for AP Physics C. AP Physics 1 is a laboratory course. Students earning a C in this course will not be eligible for a level change.</p> <p>Prerequisites: Successful completion of Algebra 2 Trigonometry and departmental recommendation that will be based upon high level ability in science, mathematics and reading. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>
<p>ADVANCED PLACEMENT PHYSICS 2 <i>Course#3950</i> Full year Credit: 1.0</p>	<p>A.P. Physics 2 is a 2nd year physics course for regular-level students. It follows the College Board’s Advanced Placement curriculum and as such is designed to prepare students for the AP Physics 2 exam. The course is moderate paced and covers topics in mechanics, fluids, thermal physics, waves and optics, electrostatics, electricity and magnetism, and nuclear and atomic physics. Internet access is required to utilize an online homework service. This is a laboratory course and requires a lab composition book. Students are required to purchase an on-line homework program.</p> <p>Prerequisite: Department recommendation, and three years of science including chemistry and either A.P. Physics 1 or traditional physics. Concurrent enrollment in a third year of science is permitted. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>
<p>ADVANCED PLACEMENT PHYSICS C <i>Course#3960</i> Full year Credit: 1.0</p>	<p>This is a calculus-based 2nd year physics course following the Collage Board’s Advanced Placement curriculum and as such is designed to prepare students for the AP Physics C exam. Approximately half of the year is devoted to mechanics and the other to classical electricity and magnetism. Calculus is used in problem solving and derivations with usage increasing as the course progresses. This course, which uses college level materials, is comparable to an introductory college physics course for pre-med or engineering majors. Advanced Placement Physics is a laboratory course.</p> <p>Prerequisite: Departmental recommendation and three years of science, including years of Chemistry and Physics (AP Physics 1), as well as completion of Calculus AB or BC, or concurrent enrollment. Concurrent enrollment in a third year of science and AP Physics is permitted. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>

SCIENCE DEPARTMENT

AP CAPSTONE PROGRAM	<p>ADVANCED PLACEMENT SEMINAR: SCIENCE Course#3981 Full year Honors Credit Credit: 1.0</p> <p>Supply fee: \$10.00</p>	<p>AP Seminar: <i>Science</i> has a disciplinary focus which engages students in cross-curricular conversations that explore the complexities of academic and real-world topics and issues by analyzing divergent perspectives. Throughout the course, students will collaborate on group scientific research assignments, complete individual science research and present and defend their conclusions. The course aims to equip students with the power to analyze and evaluate information with accuracy and precision in order to craft and communicate evidence-based arguments. <u>This is an elective science course and does not count towards your science graduation requirement nor does it serve as a prerequisite for Advanced Placement science courses. Earned credit will be applied to the student’s overall graduation credit total.</u></p> <p>Prerequisite: Successful completion of an honors level science course or successful completion of a regular level science course and teacher recommendation. During the school year, 2 years of science or concurrent enrollment in a second year of science. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p> <p><i>This course is a prerequisite course for AP Research. Students who successfully complete both AP Seminar and AP Research will receive either an AP Certificate or AP Diploma depending on the number of AP courses they have completed.</i></p>
	<p>ADVANCED PLACEMENT RESEARCH: SCIENCE Course#3982 Full year Honors Credit Credit: 1.0</p> <p>Supply fee: \$10.00</p>	<p>AP Research: <i>Science</i> engages students to explore an academic topic, problem, or issue that interests them and with the assistance of a research advisor/mentor, design, plan, and conduct a year-long research-based investigation to address it. Students further their skills acquired in the AP Seminar course by understanding research methodology; employing ethical research practices; and accessing, analyzing, and synthesizing information as they address a research question.</p> <p>Upon successful completion of this course, students are assessed on the academic paper and presentation and oral defense of research which is submitted to College Board for evaluation and scoring to determine the AP grade.</p> <p>Prerequisite: Successful completion of AP Seminar: <i>Science</i></p>

SOCIAL STUDIES DEPARTMENT

MISSION STATEMENT

The Hinsdale Central Social Studies Department strives to be respected by all school constituencies for its ability to inspire and direct the personal, intellectual, and civic development of its students. The department emphasizes the process of learning, whereby students critically examine issues, evaluate multiple points-of-view, and synthesize perspectives from a variety of disciplines, resulting in the ability to solve problems and make informed decisions. The department seeks to promote an understanding of diverse cultures, values, and systems; from this, students will gain awareness of their own values, as well as those of others. The tolerance and diversity that result from this training are balanced by a commitment to exploring and building common values such as democratic participation and freedom of expression. It is a department that is self-directed, collegial, with high expectations of its students and of itself. The department seeks to foster a love of learning through enthusiasm for the social studies disciplines, use of a variety of instructional strategies, and the dynamic of individual personalities committed to a set of shared goals.

Two (2) credits in Social Studies are required for graduation. One of these credits must be U.S. History, which also satisfies the state requirement. This credit must be earned by completing both semesters of U.S. History or Advanced Placement U.S. History. The second credit must be earned during the freshman year by taking either World Cultures or World History Honors. Students entering the 9th grade in the 2016-2017 school year, and all subsequent students, will need to meet the State of Illinois Civics requirement.

House Bill 4025 stipulates that at least one semester of a high school student's mandated two-year social studies graduation requirement in Illinois must be a civics course. The bill was amended by House Bill 800, which states that the requirement is effective immediately for "students entering the 9th grade in the 2016-2017 school year and continues each school year thereafter."

District 86 Board of Education Policy 6:300 complies with this legislative mandate by stating that students attending District 86 schools must earn two credits in Social Studies for graduation with one credit in US History and one credit in World Cultures or World Studies Honors (unless waived by the Principal for academically at-risk students). In addition to earning these two Social Studies credits, beginning with the Class of 2020, students must also take and pass a Civics course.

SOCIAL STUDIES DEPARTMENT

<p>SOCIAL STUDIES FOUNDATIONS <i>Course #2081</i> Full year Credit: 1.0</p>	<p>The goal of this course is to develop in students an understanding of citizenship that can be generalized in various facets of daily life. Students will sharpen their basic understanding of history, government, and social systems through the exploration of current and historical events. This course is for students who are reading two or more years below grade level.</p> <p><i>Social Studies Foundations will NOT be offered for the 2017-18 school year.</i></p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>WORLD CULTURES <i>Course #1850</i> Full year Credit: 1.0</p>	<p>This course is for students who are reading and writing below grade level. Curriculum in this course is a modification of the grade level standards but still explores the economic, historic, cultural and current issues pertaining to the world's major civilizations. A variety of activities and assessments will be used to foster the acquisition of content knowledge. Differentiated instruction in reading and writing is a component of the course.</p> <p>Prerequisite: Department Chair approval. Open to grade 9.</p>
<p>WORLD CULTURES <i>Course #2140</i> Full year Credit: 1.0</p>	<p>World Cultures explores the geographic, economic, historic, cultural and current issues pertaining to the world's major civilizations. A variety of activities and assessments will be used to foster the acquisition of not only content knowledge, but also skills appropriate to the social studies.</p> <p>Prerequisite: None. Open to grade 9. Note: Students may not enroll in both World Cultures and World History Honors.</p>
<p>WORLD HISTORY HONORS <i>Course #2220</i> Full year Credit: 1.0</p>	<p>This course surveys broadly, chronologically and topically, the chief features of various civilizations, culture, nations and major concepts from ancient to modern times. The historical development of Eastern and Western civilizations are explored. Core material is organized around a textbook; however, extensive supplemental reading is required. Students will be challenged with a variety of assessments including tests, papers, speeches, debates, presentations and cooperative learning activities.</p> <p>Prerequisite: Departmental approval. Open to grade 9. Note: Students may not enroll in both World History Honors and World Cultures.</p>
<p>AFRICAN AMERICAN HISTORY <i>Course #2239, 2240</i> 1st or 2nd semester Credit: 0.5</p>	<p>African American History focuses on the unique contributions that slaves from Africa, and their descendants, have made towards the cultural and historical legacy of our nation. Topics of study will include the changing legal and social definitions of race in America, the efforts of African Americans to resist servitude, emancipation and its aftermath, the Harlem Renaissance, the Civil Rights movements, and contemporary issues facing African Americans. Students will examine historical sources, with special focus on the art and music created by African Americans. Assessments will include an oral history project, debates, creative projects, essays and exams.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>EAST ASIAN STUDIES <i>Course #2241, 2242</i> 1st or 2nd semester Credit: 0.5</p>	<p>Asian Studies will examine the history and culture of China, Japan and Korea. Possible topics of study include the Samurai and code of Bushido, the emergence of Japan as a colonial power, the Rape of Nanking, the Korean War, the development of nuclear weapons by North Korea, and the emergence of China as a 21st century global superpower. The course is project, writing, and discussion oriented complimented with a field trip and experiential learning. Students will be challenged to avoid ethnocentrism and to understand these civilizations from the perspective of the people who came from them.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>

SOCIAL STUDIES DEPARTMENT

<p>GLOBAL ISSUES <i>Course #2231, 2232</i> 1st or 2nd semester Credit: 0.5</p>	<p>Global Issues examines several major contemporary political, social, and diplomatic dilemmas of the 21st century. After tracing the historical roots of contemporary issues, students will analyze and evaluate each issue from a variety of perspectives. Possible topics include the proliferation of nuclear weapons, human rights and genocide, democracy and dissent, the future of the Middle East, the “war on terror,” U.S. foreign policy since Vietnam, and major domestic challenges. Active student participation on a daily basis and developing written and oral arguments are major components of a student’s grade.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>AMERICAN POLITICS <i>Course #1870, 1875</i> 1st or 2nd Semester Credit: 0.5</p>	<p>This course is for students who are reading and writing below grade level. Curriculum in this course is a modification of the grade level standards but is still a hands-on analysis of government and politics in the United States. Students learn general concepts used to interpret American politics. Analysis of specific case studies through simulation and community activity familiarizes students with the groups, organizations issues and ideas that make up the American political system. Students will explore the causes of different political beliefs and behaviors and the role of interest groups and political parties.</p> <p>Prerequisite: Department Chair approval. Open to grades 10, 11, and 12. Fulfills State of Illinois Civics requirement.</p>
<p>AMERICAN POLITICS <i>Course #2351, 2352</i> 1st or 2nd Semester Credit: 0.5</p>	<p>A hands-on analysis of government and politics in the United States. Students learn general concepts used to interpret American politics. Analysis of specific case studies through simulation and community activity familiarizes students with the groups, organizations, issues and ideas that make up the American political system. Students will explore the causes of different political beliefs and behaviors and the role of interest groups and political parties.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12. Fulfills State of Illinois Civics requirement.</p>
<p>WESTERN CIVILIZATION <i>Course #2261, 2262</i> 1st or 2nd semester Credit: 0.5</p>	<p>Western Civilization is a survey of the history of Western Civilization beginning with the influences of Greece and Rome and ending in the early Twentieth Century. Students will explore the historical trends, events, and ideas that have come to shape society today.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12. Note: Students may not enroll in both Western Civilization and Advanced Placement European History.</p>
<p>ADVANCED PLACEMENT EUROPEAN HISTORY <i>Course #2440</i> Full year Credit: 1.0</p>	<p>Advanced Placement European History traces the political, social, economic, intellectual, and cultural development of European Civilization from the Renaissance to the present. A wide variety of teaching methods are used including discussion, debate, role-play, simulations and trials. Students will learn to use and evaluate primary sources, write critical essays, and analyze historical interpretations. This course prepares the student for the Advanced Placement European History examination.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11, and 12. Note: Students may not enroll in both Advanced Placement European History and Western Civilization. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>
<p>U.S. HISTORY <i>Course #1860</i> Full year Credit: 1.0</p>	<p>This course is for students who are reading and writing below grade level. Curriculum in this course is a modification of the grade level standards but provides a survey of Native American cultures through European colonization, founding of the new Republic and Constitution, includes the Civil War, and concludes with modern times. Units survey chronologically and topically the major events, personalities and issues which have played a part in the evolution of the American democratic republic. Differentiated instruction in reading and writing is a component of the course.</p> <p>Prerequisite: Department Chair approval. Open to grade 11.</p>

SOCIAL STUDIES DEPARTMENT

<p>U.S. HISTORY <i>Course #2310</i> Full year Credit: 1.0</p>	<p>U.S. History is a survey which covers Native American cultures through European colonization, founding of the new Republic and Constitution, includes the Civil War, and concludes with modern times. Units survey chronologically and topically the major events, personalities and issues which have played a part in the evolution of the American democratic republic.</p> <p>Prerequisite: None. Credit in this course fulfills U.S. History requirement. Open to grade 11. Note: Students may not enroll in both U.S. History and Advanced Placement U.S. History.</p>
<p>U.S. HISTORY <i>Course #2310</i> Full year Credit: 1.0</p>	<p>U.S. History is a survey which covers Native American cultures through European colonization, founding of the new Republic and Constitution, includes the Civil War, and concludes with modern times. Units survey chronologically and topically the major events, personalities and issues which have played a part in the evolution of the American democratic republic.</p> <p>Prerequisite: None. Credit in this course fulfills U.S. History requirement. Open to grade 11. Note: Students may not enroll in both U.S. History and Advanced Placement U.S. History.</p>
<p>ADVANCED PLACEMENT U.S. HISTORY <i>Course #2320</i> Full year Credit: 1.0</p>	<p>Advanced Placement United States History is a survey course that is meant to replicate the academic rigor of a two semester college experience in a year. This class requires students to engage in extensive reading of primary sources and historical essays. Focus will be placed on the development of college level reading and writing skills. Key events and major themes such as American diversity, economic transformations and politics and citizenship will be examined in studying the nation’s past. This course prepares the student for the Advanced Placement United States History examination.</p> <p>Prerequisite: Departmental approval. Credit in this course fulfills the U.S. History requirement. Open to grade 11. Note: Students may not enroll in both Advanced Placement U.S. History and U.S. History. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>
<p>CONSTITUTIONAL LAW <i>Course #2381, 2382</i> 1st or 2nd semester Credit: 0.5</p>	<p>Constitutional Law is an introductory legal course which investigates many topics, including criminal law, trial rules, court systems, juvenile law, discrimination, and search and seizure law. In addition to using contemporary legal cases, a wide variety of teaching methods are used, including mock trial hearings, mock jury simulations, and videos. The primary learning tool in Constitutional Law is class discussion. Additionally, an alternative final exam is available for those students who would prefer a project.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>ECONOMICS <i>Course #2331, 2332</i> 1st or 2nd semester Credit: 0.5</p>	<p>Economics investigates the principles that drive decision-makers, both consumers and producers, in our global marketplace. Students specifically examine the major components of the U.S. economic system; such as, opportunity costs, trade-offs, production and consumption practices, money and banking, savings and investment, business management and labor, business cycles, and economic relationships between nations. The study of Economics helps prepare students to make rational economic choices both in their own lives and in their participation in policy decisions as citizens of a city, state, nation, and the world. Learning is enhanced through current events, economic simulations and class activities.</p> <p>Prerequisite: None. Open to grades 11 and 12. Note: Students may not take Economics, Advanced Placement Microeconomics or Advanced Placement Macroeconomics concurrently. Fulfills the Consumer Education requirement.</p>

SOCIAL STUDIES DEPARTMENT

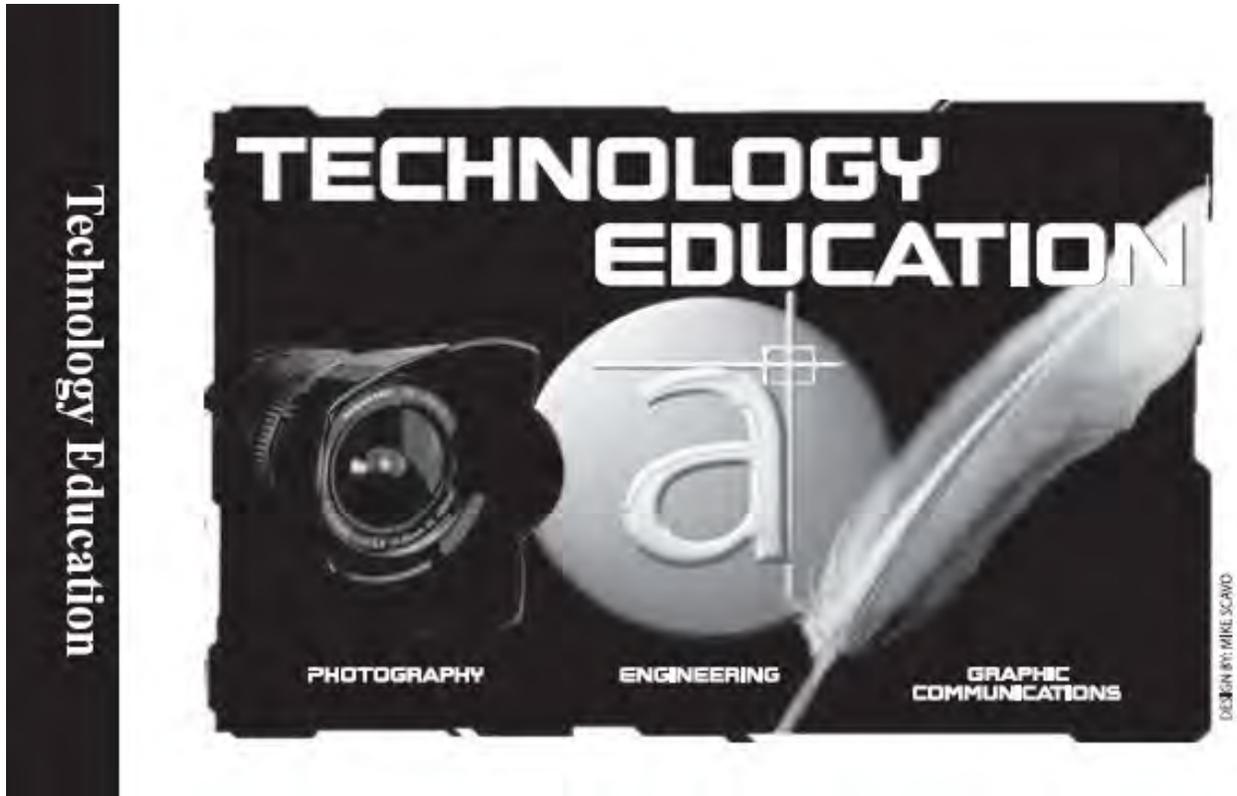

<p>ADVANCED PLACEMENT MACROECONOMICS <i>Course #2441, 2442</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Placement Macroeconomics is the study of the United States' economy. Students examine economic topics such as unemployment, inflation, GDP, international trade, interest rates, monetary policy, fiscal policy, and the national debt and deficit. Students will come to understand the causes for problems in the economy and be able to prescribe economic policies for both healthy and unhealthy economies. Macroeconomics is an interdisciplinary course combining the social sciences with mathematical analysis and graphing. The course prepares students for the Advanced Placement exam in May.</p> <p>Prerequisite: Departmental approval. Credit in this course fulfills the Consumer Education requirement. Open to grades 11 and 12.</p> <p>Note: Students may not take Advanced Placement Macroeconomics, Advanced Placement Microeconomics or Economics concurrently. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>
<p>ADVANCED PLACEMENT MICROECONOMICS <i>Course #2341, 2342</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Placement Microeconomics provides students with a thorough understanding of the decision making process for individuals and firms in the marketplace. It places primary emphasis on the operations of the product and factor markets along with the government's role in promoting efficiency and equity in various market structures. The course is conducted in a lecture/seminar manner supported by daily readings, practice problems, and student activities. The course prepares the student for the Advanced Placement exam in Microeconomics exam administered in May.</p> <p>Prerequisite: Departmental approval. Credit in this course fulfills the Consumer Education requirement. Open to grades 11 and 12.</p> <p>Note: Students may not take Advanced Placement Macroeconomics, Advanced Placement Microeconomics or Economics concurrently. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>
<p>PHILOSOPHY HONORS <i>Course #2393, 2394</i> 1st or 2nd semester Credit: 0.5</p>	<p>Philosophy Honors will offer interested and intellectually curious students the opportunity to reflect on fundamental questions related to the human condition, such as the basis of knowledge, ethical theories and issues, artificial intelligence, free will versus determinism, rational proofs for the existence of God, and the meaning of evil and suffering. The goal of the course will not be so much to cover a particular body of philosophers, but to raise important issues that will spur students to further inquiry, study, and application in their own lives. Much of the class will involve reading, discussion, and writing. Students will be expected to read carefully, write critically, and participate in class discussions. Philosophy and Ethics is an honors level course.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>PSYCHOLOGY <i>Course #2431, 2432</i> 1st or 2nd semester Credit: 0.5</p>	<p>Psychology focuses on the study of human behavior from many perspectives. Audiovisual materials, experiments, projects and case studies are used to understand the human experience. This class is heavily discussion based. In addition, much independent coursework is used to investigate topics such as development, the brain, altered states of consciousness, learning, personality and abnormal behavior.</p> <p>Prerequisite: None. Open to grades 11 and 12. Note: Students may not take Psychology and Advanced Placement Psychology</p>

SOCIAL STUDIES DEPARTMENT

<p>ADVANCED PLACEMENT PSYCHOLOGY <i>Course #2430</i> Full year Credit: 1.0</p>	<p>AP Psychology explores why human beings are the way that they are. This course traces the emergence of scientific psychology in the nineteenth century from its roots in philosophy and physiology to present day practices. The development of the major “schools” of psychology and showing how they differed in subject matter and the methods of study are covered. This historical introduction helps students gain an understanding of the principal twentieth century approaches to psychology: behavioral, biological, cognitive, humanistic and psychodynamic. This class prepares students for the Advanced Placement Psychology examination.</p> <p>Prerequisite: Departmental approval. Concurrent enrollment in U.S. History or previous completion of U.S. History during the regular school year. Open to grades 11 and 12.</p> <p>Note: Students may not enroll in both AP Psychology and Psychology concurrently. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>
<p>SOCIOLOGY <i>Course #2371, 2372</i> 1st or 2nd semester Credit: 0.5</p>	<p>Sociology is the study of man’s social behavior. The course increases the student’s awareness of social pressures that affect one’s own behavior and the behavior of others. Typical activities such as discussions, experiments, student planned projects and a wide variety of films and videotapes enable the student to apply knowledge gained in the course to his or her own life.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT UNITED STATES GOVERNMENT & POLITICS <i>Course #2361, 2362</i> 1st or 2nd semester Credit: 0.5</p>	<p>AP United States Government and Politics is an advanced placement course designed to give students both theoretical and realistic perspectives on politics and government in the United States. Its focus is on the interconnectedness between the various institutions, opinions and policies that make up the national public system. Student political involvement is emphasized. This class prepares students for the Advanced Placement United States Government and Politics examination.</p> <p>Prerequisite: Departmental approval. Concurrent enrollment in U.S. History or previous completion of U.S. History during the regular school year. Open to grades 11 and 12. This course fulfills the State of Illinois Civics requirement.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>

TECHNOLOGY EDUCATION DEPARTMENT

TECHNOLOGY EDUCATION DEPARTMENT

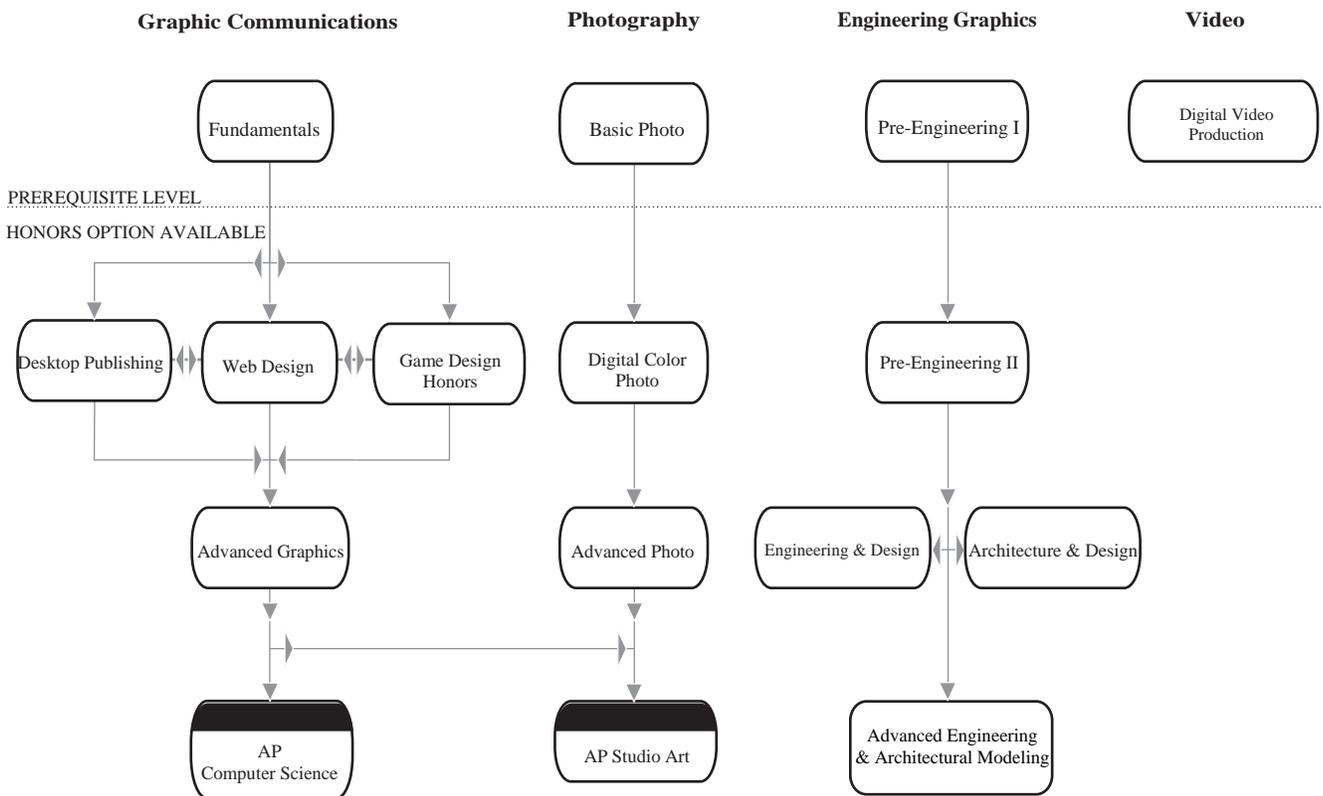

The Technology Education Department offers an elective course of study to all students at Hinsdale Central High School. Department courses help students meet the elective arts requirement of District 86. The primary instructional mode in the classroom is lab-orientated student projects, using a wide range of instructional techniques and a variety of state-of-the-art technologies. The department offers a diverse range of technology-related courses that allows for educational and career exploration. Program area of study include: Engineering and Design, Architecture, Graphic Communications, Photography and Digital Video Production.

TECHNOLOGY EDUCATION DEPARTMENT

ENGINEERING & DESIGN PROGRAM

NOTE: Software titles currently used in our Engineering & Design and Architecture courses include up-to-date versions of AutoCAD, Inventor Professional, Revit Architecture, and 3D Studio Max.

PRE-ENGINEERING 1

Course #6601, 6602

1st or 2nd semester

Credit: 0.5

Supply fee: \$10.00

This course introduces the student to the fundamentals of mechanical drafting while using current AutoCAD software in our CAD Lab. The course is also devoted to Science, Technology, Engineering and Mathematics (S.T.E.M.)-related content, particularly engineering/technological design problem solving. The student will be taught many AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. Mechanical drawing problems will range from 2D drawings, orthographic projection, sectional view, and pictorial views (isometric and oblique). Freehand sketching on graph paper is also integrated into each assignment. Students will also be introduced to 3D modeling and 3D printing (rapid prototyping). During the semester, each student will create a portfolio of work which will include an individually created 3-D model.

Prerequisite: None. Open to grades 9, 10, 11, and 12.

PRE-ENGINEERING 2

Course #6611, 6612

1st or 2nd semester

Credit: 0.5

Supply Fee: \$10.00

This course will continue to introduce the student to the fundamentals of mechanical drafting while using current AutoCAD software in our CAD Lab. The course will further explore Science, Technology, Engineering and Mathematics (S.T.E.M.)-related content and provide the student with a strong background in STEM principles. The student will be taught additional AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. Mechanical drawing problems will range from auxiliary views, rotations, developments and intersections, and dimensioning techniques of orthographic projection problems. Freehand sketching on graph paper is also integrated into each assignment. During the semester, each student will create an individual portfolio of work.

Prerequisites: Pre-Engineering I. Open to grades 9, 10, 11, and 12.

TECHNOLOGY EDUCATION DEPARTMENT

<p>PRE-ENGINEERING 2 HONORS <i>Course #6611A, 6612A</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>The core material for this course is similar to Pre-Engineering 2 course 6611 & 6612; however projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivate students planning to enter a college engineering program.</p> <p>Prerequisites: Pre-Engineering I and department approval. Open to grades 9, 10, 11, and 12.</p>
<p>ENGINEERING & DESIGN <i>Course #6620</i> Full year Credit: 1.0</p> <p>Supply Fee: \$18.00</p>	<p>The goal of the Engineering & Design course is to expand the student’s knowledge in the following areas: computer software usage, manufacturing processes, engineering and design, application of acquired knowledge in making production drawings, and career opportunities in a variety of engineering fields. This course continues exploration of Science, Technology, Engineering and Mathematics (S.T.E.M.)-related content. Engineering design projects will enable students to make the necessary connections between the STEM disciplines and the world around them. Students in this class will be expected to work at an accelerated pace on individual projects and some small group work. The computer is the primary means of graphic problem solving using AutoCAD software. Students will be instructed on proper techniques using Autodesk Inventor to create 3D models. Using Inventor, students will create a model race car that demonstrates the power of this software package. A series of problems which require model construction is also part of the curriculum, including the use of 3D printing technology (rapid prototyping). In addition, students will use 3D digitizer technology for reverse engineering applications, 4 axis CNC mill for production, injection molding and vacuum forming. Robotics topics will also be covered in this course. During the semester, each student will create an individual portfolio of work.</p> <p>Prerequisites: Pre-Engineering I and Pre-Engineering II. Open to grades 10, 11 and 12.</p>
<p>ENGINEERING & DESIGN HONORS <i>Course #6625</i> Full year Credit: 1.0</p> <p>Supply Fee: \$18.00</p>	<p>The core material for this course is similar to Engineering & Design course #6620; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program.</p> <p>Prerequisites: Pre-Engineering I and Pre-Engineering II and department approval. Open to grades 10, 11, and 12.</p>
<p>ARCHITECTURE & DESIGN <i>Course #6630</i> Full year Credit: 1.0</p> <p>Supply Fee: \$18.00</p>	<p>In the course Architecture & Design, the student will learn how to design and draw a complete set of architectural drawings necessary to construct a residential home. The student will apply Science, Technology, Engineering and Mathematics (S.T.E.M.) concepts to design and print a professional set of blueprints. Room planning, flow patterns, design concepts, floor plans, construction details, elevations and presentation drawings will be completed during the first semester using a computer and AutoCAD software. During the second semester, students will construct a scaled (3/4”=1’) model of the home they designed the first semester. In addition, non-traditional building methods will be explored: Super Insulated housing, Earth Sheltered housing, Wind Energy, Solar Energy, Energy Efficiency and Green Building. Information related to home construction, home building, building cost, permits and home buying will be explored and discussed.</p> <p>Prerequisite: Pre-Engineering II or Department Approval. Open to grades 11 and 12.</p>
<p>ARCHITECTURE & DESIGN HONORS <i>Course #6635</i> Full year Credit: 1.0</p> <p>Supply Fee: \$18.00</p>	<p>The core material for this course is similar to Architecture & Design course #6630; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program or architecture program.</p> <p>Prerequisite: Pre-Engineering I and Pre-Engineering II and Department Approval. Open to grades 11 and 12.</p>

TECHNOLOGY EDUCATION DEPARTMENT

<p>ADVANCED ENGINEERING & ARCHITECTURAL MODELING <i>Course #6640</i> Full year Credit: 1.0</p> <p>Supply Fee: \$18.00</p>	<p>This is the culminating course in the Engineering & Architecture program that will help prepare provide students for college. Students will have additional challenges as they are introduced to several 3D modeling software programs. Students will be required to use the skills learned in both their engineering and architectural graphics courses as they make the transition from 2D drawings to 3D. Science, Technology, Engineering and Mathematics (S.T.E.M.) concepts will be integrated through the use of various project-based activities. Students will explore software programs such as Inventor, Revit and 3D Studio Max, while developing 3D models and animating them. Students will use 3D digitizer technology for reverse engineering applications to accurately reproduce parts. They will also use 3D print technology (rapid prototyping) to generate models for visual inspection and functional testing. A CNC mill, vacuum form machine, injection molding and foundry will also be applied throughout this course. More in depth robotic principles will be applied to solve problems with a programmable robot. An electronic portfolio will record all work completed during the school year. Students will leave the class with various 3D models and projects they produced.</p> <p>Prerequisite: Engineering & Design & Architecture & Design and/or Department Approval. Open to grade 12.</p>
<p>ADVANCED ENGINEERING & ARCHITECTURAL MODELING HONORS <i>Course #6645</i> Full year Credit: 1.0</p> <p>Supply Fee: \$18.00</p>	<p>The core material for this course is similar to course #6640, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program.</p> <p>Prerequisite: Engineering & Design, Architecture & Design or Engineering & Design Honors, Architecture & Design Honors and Department Approval. Open to grade 12.</p>
<p>GRAPHIC COMMUNICATION PROGRAM</p>	
<p>GRAPHIC COMMUNICATIONS - FUNDAMENTALS (GCF) <i>Course #6661, 6663</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>This course provides students with a foundation of essential skills needed for creating print and web documents. Special emphasis is placed on furnishing students with a survey of realistic experiences using Adobe Illustrator and PhotoShop. Areas of study include technical illustration, typography, color models, photo retouching and image manipulation. This course focuses on development of sound fundamental skills used in later Graphic Communications courses.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS - DESKTOP PUBLISHING (GCDP) <i>Course #6650, 6651</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>Learn to design, layout and prepare documents for print. Topics include typography and typographic controls, image preparation, creation of master pages, paragraph and character styles, and document pre-flight and fundamental design and layout principles. Development of fluency with Adobe InDesign is emphasized. This course covers essential skills used in producing the Devil's Advocate (newspaper) and El Diablo (yearbook) and is especially recommended for students who are interested in editorial positions.</p> <p>Prerequisite: GCF or Journalism 1 (J1 taken concurrently with Department Approval) Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS - DESKTOP PUBLISHING HONORS (GCDP) <i>Course #6652, 6653</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>The core material for this course is similar to Desktop Publishing #6640, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF) or Journalism 1 (J1 taken concurrently with Department Approval). Open to grades 9, 10, 11, and 12.</p>

TECHNOLOGY EDUCATION DEPARTMENT

<p>GRAPHIC COMMUNICATIONS – WEB DESIGN (GCW) <i>Course #6662, 6664</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>Create professional looking websites! Web Design provides students with an overview of essential disciplines found in web development and the skills necessary to visually create websites using Adobe Dreamweaver. Although this is not a programming course, basic coding principles will be covered. Areas of study include Internet history, information architecture, site mapping and wireframe development, user experience (UX), search engine optimization (SEO), and development of fluency with Dreamweaver.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF). Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS – WEB DESIGN HONORS (GCW) <i>Course #6667, 6668</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>The core curriculum for this course is similar to Web Design #6662, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF). Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS – GAME DESIGN (GGD) <i>Course #6681</i> Full year Credit: 1.0</p> <p>Supply Fee: \$10.00</p>	<p>Create interactive 2D games and game graphics! Learn about game and level design, sprite creation, background tile design, character design, gameplay and story development. Create classic arcade, maze, and simple platform games as you learn. The class culminates with students creating their own original games.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF). Open to grades 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS - ADVANCED GRAPHICS (GCA) <i>Course #6660, 6665</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>This course is designed for those students who wish to apply the skills learned in their study of Graphic Communications more deeply to real world projects. Students will focus on several areas of interest and develop real world products in a client-project manager arrangement. The outcome of this course is a comprehensive electronic portfolio for use in many college and university admission processes.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF) and one of the following: GCW, GCM, GCDP. This course may be repeated with Department Chair approval. Students who elect to repeat the course will work with the instructor to create an individualized curriculum. Open to grades 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS – ADVANCED GRAPHICS HONORS (GCA) <i>Course #6666, 6669</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>The core material for this course is an extension of Advanced Graphics #6660/6665; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class and significantly more portfolio requirements. This course is highly recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF) and one of the following: GCW, GCG, GCDP, and Department Approval. This course may be repeated with Department Chair approval. Students who elect to repeat the course will work with the instructor to create an individualized curriculum. Open to grades 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS -INDEPENDENT STUDY (GCIS) <i>Course #6905, 6906</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>This course is intended for students who have exhausted other course offerings and wish to further skills learned in the Graphic Communications program in an independent atmosphere.</p> <p>Prerequisite: Departmental Approval. Open to grades 11 and 12.</p>

TECHNOLOGY EDUCATION DEPARTMENT

PHOTOGRAPHY PROGRAM

<p>BASIC PHOTOGRAPHY TRADITIONAL and DIGITAL BLACK & WHITE <i>Course #6691, 6692</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$35.00</p>	<p>Basic photography is for students interested in learning the techniques necessary to produce technically correct and aesthetically pleasing photographs. Digital and film capture of images will be explored. Areas of study will include, but are not limited to, the composition of a good photograph; the processing of black and white photographic materials; and proper application of photographic equipment and supplies. Photographic equipment and supplies will be provided along with cameras for students who do not have access to a Single Lens Reflex (SLR) camera.</p> <p>Prerequisites: None. Open to grades 9, 10, 11, and 12.</p>
<p>DIGITAL COLOR PHOTOGRAPHY <i>Course #6701, 6702</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$35.00</p>	<p>This course is for students interested in the modern methods of Digital Color Photography. The student will use a digital camera to capture images. After capture, photographs will be produced in the digital darkroom using a computer and Photoshop software. Areas of study include, but are not limited to, the principles of color and light; elements of a good photograph; capturing images with a digital camera; editing a photograph for presentation with Photoshop; printing a digital file in color; and preparing a photograph for display. The studio will be used to further the use of shade and shadow, light ratios, and photographic composition techniques. Still life and portrait techniques will be explored. Equipment and supplies will be furnished. Cameras are available for students who do not own or have access to a digital camera. Basic Photography and Digital Color Photography together have articulated credit with the College of DuPage.</p> <p>Prerequisite: Basic Photography. Open to grades 9, 10, 11, and 12.</p>
<p>DIGITAL COLOR PHOTOGRAPHY HONORS <i>Course #6703, 6704</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$35.00</p>	<p>Beyond the regular advanced photography content, additional projects and assignments will require the selection of a concentration and/or theme by the student. The selected theme will necessitate greater depth, complexity, and rigor to produce higher-level photographs. Expectations for this class will require extra lab work outside of class. This class is recommended for highly motivated photography students looking to add meaningful pictures to their portfolio.</p> <p>Prerequisite: Basic Photography. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED PHOTOGRAPHY <i>Course #6812</i> 2nd semester Credit: 0.5</p> <p>Supply fee: \$40.00</p>	<p>In this advanced level course, students will be expected to improve upon their current level of photographic ability. Students will have the opportunity to explore digital and film capture of images. In terms of technique, students will be introduced to different camera formats and the zone system (a procedure which will allow students to make more carefully controlled photographic prints.) Additionally, some non-traditional films, papers, and emulsions will be introduced. In terms of content, through class assignments and independent work, students will further their use of photographic medium to more effectively articulate ideas. Students will have the opportunity to work with black and white film, color film, infrared film, and digital cameras to capture images. Students will be expected to properly display and critique their photographic work.</p> <p>Prerequisites: Basic Photography and Digital Color Photography with instructor approval. Open to grades 10, 11, and 12.</p>
<p>ADVANCED PHOTOGRAPHY HONORS <i>Course #6814</i> 2nd semester Credit: 0.5</p> <p>Supply fee: \$40.00</p>	<p>Beyond the regular advanced photography content additional projects and assignments will require the selection of a concentration and or theme by the student. The selected theme will necessitate the demonstration of greater photographic complexity, and an advanced understanding of light to produce higher-level photographs. Expectations for this class will require extra lab work outside of class. This class is recommended for highly motivated photography students looking to add meaningful well-composed pictures to their portfolio.</p> <p>Prerequisites: Basic Photography and Color Photography with instructor approval. Open to grades 10, 11, and 12.</p>

TECHNOLOGY EDUCATION DEPARTMENT

<p>INDEPENDENT STUDY - PHOTOGRAPHY <i>Course #6907, 6908</i> Credit: 0.5</p> <p>Supply Fee: \$40.00</p>	<p>This course is designed for students who have completed course sequence in photography program and desire further independent course work.</p> <p>Prerequisite: Departmental Approval. Open to grades 11 and 12.</p>
<p>DIGITAL VIDEO PRODUCTION</p>	
<p>DIGITAL VIDEO PRODUCTION <i>Course# 9201, 9202</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed to provide students with the skills needed for a career in the technical and artistic aspects of media production. Instruction will include the study and analysis of media and television and their effects on society. Instruction will include camera operations, basic audio and video editing, sound and lighting techniques and audio mixing. Students will learn to operate video and DVD recording equipment, video/digital cameras, microphones, lighting/grip equipment and other production equipment used in the video and audio production of media.</p> <p>Students will work in a team-based environment to create a variety of video and audio productions. Instruction will include single and multi-camera operation, advanced video editing, pre-production, production, and post production <u>Within each of these projects a student will be learning different techniques of the camera, software and sound engineering. As you move along then your skills and knowledge will increase with each project:</u></p> <ol style="list-style-type: none"> 1. Silent Movie 2. Public Service Announcement 3. Movie Trailer 4. Interview/Documentary 5. Commercial/Infomercial 6. Music Video 7. Live Event Coverage 8. Comedy/Drama Screenplay interpretation 9. Narrative Format of Storytelling <p>Prerequisite: None. Open to all students grades 9, 10, 11, and 12. Course may be repeated with permission of Department Chair. Students who elect to repeat the class will be designated as “Advanced Students” and will follow a different class map. With this designation, the student and instructor will work together to create an individualized curriculum that concentrates on the student’s area of interest (editing, documentary, reporting, screenplay writing, short films, etc.) This will give the student the opportunity to advance his/her skills and create an on-going portfolio of his/her work. (This course does not satisfy the elective arts requirement.)</p>

TECHNOLOGY EDUCATION DEPARTMENT

WOODS	
<p>WOODS I Course#6771 Credit: 0.5</p> <p><i>Supply Fee: \$47</i></p>	<p>This introductory course to modern woodworking will allow students to help plan, design, and create at least three assigned wood projects using various types of wood. In addition students will develop and practice safety in a wood shop laboratory.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12. This course is taught at Hinsdale South, only, and Central students would need to provide their own transportation to and from South. Also, Central students can enroll, but would need to take a study hall adjacent to the course to allow for travel.</p>
<p>WOODS II Course#6780 Credit: 1.0</p> <p><i>Supply Fee: \$137</i></p>	<p>This follow-up course to Woods I will allow students to further their knowledge of woodworking by planning and building more advanced projects. In addition, students will use more technical set-ups to build four projects: three assigned and one student choice.</p> <p>Prerequisite: Woods I and Department Chair approval. Open to grades 10, 11, and 12. This course is taught at Hinsdale South, only, and Central students would need to provide their own transportation to and from South. Also, Central students can enroll, but would need to take a study hall adjacent to the course to allow for travel.</p>
<p>WOODS III Course#6790 Credit: 1.0</p>	<p>This is an advanced woodworking course utilizing all of the information from Woods I and II. Students will design, plan and build a project of their own, consistent with their abilities, interest, and time. In addition, students will have the opportunity to design and build projects for Hinsdale South High School. A fee will be applied as needed depending on projects built.</p> <p>Prerequisite: Woods II and Department Chair approval. Open to grades 11 and 12. This course is taught at Hinsdale South, only, and Central students would need to provide their own transportation to and from South. Also, Central students can enroll, but would need to take a study hall adjacent to the course to allow for travel.</p>

TECHNOLOGY CENTER OF DUPAGE

TECHNOLOGY CENTER OF DUPAGE (TCD)

Technology Center of DuPage (TCD) prepares juniors and seniors for college and a career through 19 advanced career and technical education electives. It is operated by joint agreement among 14 member high school districts, including District #86.

Students spend part of each school at the TCD campus, located at 301 S. Swift Road between North Avenue and Army Trail Road in Addison. Transportation to and from TCD is provided by District #86.

Opportunities through TCD include:

Dual credit (both high school and free, transferable college credit at the same time)
Available industry certifications or licenses
Career exploration and development before making important college decisions.

The only cost to the student is a flat participation fee of \$100 (exception: Cosmetology – see the TCD website for information). Check with your counselor for any fees added by Hinsdale Central High School.

For further information, students should contact their counselor, take the TCD field trip in the fall, read the TCD program guide, or visit the TCD website (www.tcdupage.org) for complete information about the following electives:

TCD PROGRAMS

COMMUNICATION

Computer Information Systems & Game Design
Multimedia & Television Production

HUMAN SERVICES

Cosmetology

Criminal Justice
Early Childhood Education & Care
Fire Science / Emergency Medical Technician
Healthcare Foundations
Medical Terminology & Healthcare Careers
Nursing Assistant Training Program
Professional Cooking, Baking & Service

MANUFACTURING/INDUSTRIAL

Construction Trades
Heating, Ventilation, Air Conditioning & Refrigeration (HVACR)
Precision Engineering & Design Technology (NEW)
Residential Wiring
Welding Technology

STEM (Science, Technology, Engineering, Math)

Electronics Technology
PLTW Pathway to Engineering courses:

- Introduction to Engineering Design (IED)
- Principles of Engineering (POE)
- Civil Engineering & Architecture (CEA)
- Computer Science Principles (CSP)
- Digital Electronics (DE)
- Engineering Design & Development (EDD)

TRANSPORTATION

TECHNOLOGY CENTER OF DUPAGE

TECHNOLOGY CENTER OF DUPAGE (TCD) 2017 - 2018

TECHNOLOGY CENTER OF DUPAGE PROGRAMS <i>Course # 9009(AM),9010(PM)</i> Credit: 3.0	The requirements and objectives associated with the specific Technology Center of DuPage (TCD) programs listed above vary greatly. Students who wish to obtain further information about a particular program and/or wish to register for a TCD program must see their counselor. All students must fill out a separate TCD form with parent signature and return to their counselor. Prerequisite: None. Open to grades 11 and 12.
---	---

TCD Enrollment Information

TCD offers advanced career and technical education electives for the District #86 students serious about pursuing one of the available career pathways. The focus is on college and career readiness through applied academics, workplace skill development, and work-based learning experiences, as well as identifying and preparing for the postsecondary education critical for success and advancement in the chosen career pathway. See the TCD website for program information, recommendations, college credit opportunities, available industry certifications, and course syllabi: www.tcdupage.org

Enrollment at TCD is available junior year, senior year, or both. Programs may be taken one or two years, unless otherwise noted. Please talk to your counselor regarding enrollment criteria, including possible course prerequisites, established by District #86.

Listed below are programs offered at TCD as well as District #86 pre-requisites for enrolling in the program. All TCD courses will satisfy the District #86 graduation requirement in Applied Arts. Check with your counselor for any academic credit that specific TCD programs can also fulfill. A maximum of 3.0 units of credit can be earned yearly through TCD course work. See www.tcdupage.org for information about each program's college credit opportunities.

TECHNOLOGY CENTER OF DUPAGE

CAREER CLUSTER TCD Program(s)	RECOMMENDATIONS AND/OR PRE-REQUISITES
COMMUNICATION	
Computer Information Systems & Game Design	
Multimedia & Television Production	
HUMAN SERVICES	
Cosmetology (1 or 2 years; 2 years recommended)	
Criminal Justice (1 or 2 years)	
Early Childhood Education & Care (1 or 2 years)	
Fire Science / Emergency Medical Technician (1 or 2 years) – EMT available for seniors only	
Healthcare Foundations (1 year)	
Medical Terminology & Healthcare Careers (1 year)	
Nursing Assistant Training Program (1 year)	
Professional Cooking, Baking & Service (1 or 2 years)	
MANUFACTURING / INDUSTRIAL	
Construction Trades (1 or 2 years)	
HVAC & Refrigeration (1 or 2 years)	
Precision Engineering & Design Technology (1 or 2 yrs)	
Residential Wiring (1 or 2 years)	
Welding Technology (1 or 2 years)	
STEM (Science, Technology, Engineering, Math)	
Electronics Technology (1 or 2 yr)	Non-PLTW
Pathway to Engineering (curriculum developed by Project Lead the Way – PLTW.org) Each course is one semester unless noted otherwise –choose two courses per year	
Introduction to Engineering Design (IED)*	Algebra 1 and Geometry recommended
Principles of Engineering (POE)*	Algebra 1 and Geometry recommended
Civil Engineering & Architecture (CEA)*	IED and POE and concurrent enrollment in Advanced Algebra and/or Physics recommended
Computer Science Principles (CSP)	Algebra 1 and Geometry recommended
Digital Electronics (DE) *	IED and POE and concurrent enrollment in Advanced Algebra and/or Physics recommended
Engineering Design & Development (EDD)* This is a one-year capstone course which may be taken concurrently with CEA and DE.	IED/POE, and CEA or DE; concurrent enrollment in Advanced Algebra and Physics recommended
TRANSPORTATION AND LOGISTICS	
Auto Body Repair and Refinishing	
Automotive Technology	

*These are courses offered in the Pathway to Engineering program. Introduction to Engineering Design and Principles of Engineering are foundation courses offered for the first year. Second year students take one specialized course and the capstone course (EDD). Please see the TCD website, www.tcdupage.org for further information.

Maggie Ahern, Design

World Languages

Mission Statement

Our mission as a department is to enable students to acquire, develop, expand, and apply their knowledge of a new language. We do this by working collaboratively within our learning community to:

- Maximize student potential for learning and language acquisition
- Guide student learning by modeling good study habits and effective learning skills.

We do this so that students can integrate and transfer knowledge of a new language throughout their lives, and gain a broader perspective and understanding of world cultures within a respectful community of learners.

Two years of the same language will fulfill the entrance requirement of the state public universities in Illinois. Most other universities require world language study for admission and may require it for graduation from specific degree programs. ***High school students preparing for college should include one or more world languages in their preparation.***

Students entering ninth grade with previous world language experience can complete the equivalent of five or six years of high school work, which may include Advanced Placement work. Students who complete the upper levels of a language often test out of the world language requirements, receive college credit, and/or are placed in advanced language courses in college. A sequence of honors level courses is available in all languages offered by the Department.

Two or more world languages may be taken simultaneously. The latest research indicates that studying two languages at the same time is beneficial and that world language study has positive effects on a student's English language skills. Completing the third and fourth year in a sequence significantly improves achievement and fluency. Etymology, a semester course, is highly recommended to all students who wish to increase their knowledge and understanding of vocabulary.

The first semester of a language must be passed before a student may take the second semester of the same language. Credit must be earned in both semesters of one level of a language before advancing to the next level.

WORLD LANGUAGES DEPARTMENT

ETYMOLOGY	
<p>ETYMOLOGY Course #4371, 4372 1st or 2nd Semester Credit: 0.5</p>	<p>Etymology is designed to increase one’s knowledge and understanding of English vocabulary through the study of the most important Greek and Latin roots. Students learn to discover meanings of words through recognition and interpretation of their elements. The skills learned in Etymology equip students to decode vocabulary words encountered elsewhere (transfer of knowledge). The ability to memorize is a necessary fundamental skill. Recommended for all qualifying students who would like to develop their vocabulary before taking standardized tests</p> <p>Prerequisite: A grade of C or better in the world language most recently studied, or (if no world language) consent of the department chair. Open to grades 9, 10, 11, and 12, and especially recommended to sophomores.</p>
FRENCH	
<p>FRENCH 1 Course #4110 Full year Credit: 1.0</p>	<p>French 1 offers a basic introduction to the vocabulary and grammar of the language. The pace of the course begins moderately and increases as students have more experience with the language. Students will be taught basic reading and writing strategies using textbook examples. Reading, writing, speaking and listening skills are practiced and assessed regularly. Readings and projects center on cultural information. Although grammar concepts may be taught in English, students are always expected to use French in class to the extent possible. This course is conducted mostly in French.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>FRENCH 1 HONORS Course #4115 Prerequisite: Yes Credit: 1.0 Grade Offered: 9-12</p>	<p>The sequential core material for this course is the same as French 4110. The pace is accelerated to incorporate the reading and discussion of some short stories and short books, as well as other activities to allow for more investigation of the language and culture. This course is conducted in French to a greater extent than is French 4110.</p> <p>Prerequisite: This class is for students who have not previously studied French. Departmental Approval or recommendation of the junior high school teacher. Students who have taken French in middle school may not register for this course. Open to grades 9, 10, 11, and 12.</p>
<p>FRENCH 2 Course #4120 Full year Credit: 1.0</p>	<p>This performance-based course is an articulated continuation of the French 1 program and focuses on developing and assessing the interpretive, interpersonal, and presentational modes of communication. Authentic resources are used to improve communication in real-world situations.</p> <p>Prerequisite: A grade of C or better in French 1, or recommendation of the junior high school teacher. Open to grades 9, 10, 11, and 12.</p>
<p>FRENCH 2 HONORS Course #4125 Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as French 4120. The pace is accelerated to incorporate the reading and discussion of some short stories and short books, as well as other activities to allow for more investigation of the language and culture. This course is conducted in French to a greater extent than is French 4120.</p> <p>Prerequisite: Departmental Approval or recommendation of the junior high school teacher. Open to grades 9, 10, 11, and 12.</p>
<p>FRENCH 3 Course #4130 Full year Credit: 1.0</p>	<p>This course is the continued study of French grammar and culture of the French-speaking world. Class activities include daily practice of reading, writing, listening and speaking skills. Readings include articles, short stories and Le Petit Prince during second semester. In addition, students do oral presentations and write short compositions. The course is conducted extensively in French.</p> <p>Prerequisite: A grade of C or better in French 2. Open to grades 9, 10, 11, and 12.</p>
<p>FRENCH 3 HONORS Course #4135 Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as French 4130. The pace is accelerated; the breadth and scope of the coverage is expanded, and some material is added in order to allow for more investigation of the language and culture. The course is conducted extensively in French.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11, and 12.</p>

WORLD LANGUAGES DEPARTMENT

<p>FRENCH 4 <i>Course #4140</i> Full year Credit: 1.0</p>	<p>French 4 is the study of the history, and art of France throughout the centuries (pre-history to present times). Class activities include discussions of prepared reading selections, oral presentations, and the intensive study of one film. The course of study also emphasizes systematic grammar review and limited composition practice.</p> <p>Prerequisite: A grade of C or better in French 3. Open to grades 10, 11, and 12.</p>
<p>FRENCH 4 HONORS <i>Course #4145</i> Full year Credit: 1.0</p>	<p>French 4 Honors is the study of the history, and art of France throughout the centuries (pre-history to present times). Class activities include discussions of prepared reading selections, oral presentations, and the intensive study of one film. The course of study covers systematic grammar review and more extensive composition practice than French 4. Inasmuch as this course leads sequentially to the Advanced Placement French Language & Culture course, the course content is supplemented with more challenging reading materials and special emphasis is put on oral proficiency.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>
<p>FRENCH 5 HONORS <i>Course #4150</i> Full year Credit: 1.0</p>	<p>French 5 Honors is a course that integrates the study of literature, advanced grammar, advanced oral proficiency, and current events in France. The readings consist of short stories, and a novel from the 20th century organized around the themes of human relationships, moral dilemmas and existentialism. Class activities include discussions of texts, authentic newspaper and magazine articles in French, oral presentations, the study of one film per semester, and improving grammar and writing proficiency. The course is conducted exclusively in French.</p> <p>Prerequisite: A grade of C or better in French 4 or 4 Honors. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT FRENCH LANGUAGE & CULTURE <i>Course #4155</i> Full year Credit: 1.0</p>	<p>Advanced Placement French Language & Culture is conducted exclusively in French utilizing authentic materials from the French-speaking world. Students are expected to be conversant with the instructor and with each other in French. Students have regular and ample opportunities to improve all four language skills and to prepare students for the AP Language and Culture Exam. Course content comes from authentic sources produced by native speakers intended for a native speaker audience. This advanced placement course provides intensive and extensive reading, discussion, and analysis in French of diverse sources from various regions of the French-speaking world. The analysis of these sources will specifically target the following AP themes: Personal and Public Identities, Family and Community, Contemporary Life, Global Challenges, Science and Technology, and Beauty and Aesthetics. Students regularly write in French on non-literary topics and study current events with excerpts from French language television and documentaries. Language skills are not taught in isolation, but rather integrated to communicate about a wide range of topics and media. The class prepares students to take the Advanced Placement Exam in French Language & Culture.</p> <p>Prerequisite: Departmental approval. Open to grades 11 and 12. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>
GERMAN	
<p>GERMAN 1 <i>Course #4210</i> Full year Credit: 1.0</p>	<p>German 1 introduces students to the German language and German-speaking cultures. Through consistent daily use of German in the classroom and language lab, students actively engage in a variety of structured activities, interactive conversations, games, and short presentations that develop their basic language skills of listening, speaking, reading, and writing. Cultural topics focus on food and beverages, school, leisure activities, geography, and internationally renowned German-speaking personalities. Students further increase their language proficiency and cultural awareness by viewing a DVD series, by reading a novella in German, and by viewing German language films. Though this is a beginning level course, students are expected to use German to the extent possible.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>

WORLD LANGUAGES DEPARTMENT

<p>GERMAN 1 HONORS <i>Course #4215</i> Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as German 4210. The pace is accelerated; the breadth and scope of the coverage is expanded and material is added in order to allow for more investigation of the language and culture. This course is conducted in German to a greater extent than is German 4210. Furthermore, 4215 level students are expected to speak as much German as possible in class.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11, and 12.</p>
<p>GERMAN 2 <i>Course #4220</i> Full year Credit: 1.0</p>	<p>This course provides continued development and practice in listening, speaking, reading, and writing. Language structures and vocabulary learned in the first year are reviewed, expanded, and refined. New communicative and grammar topics are introduced to students. Listening comprehension and speaking are enhanced through consistent daily use of German in the classroom. Cultural topics focus on cuisine, holidays, major German-speaking regions, current events, and daily life in Germany. Students increase their language proficiency and cultural awareness by reading textbook selections and specifically developed supplements, and by viewing a DVD series, video and film clips. Classroom instruction and interactions are mostly in German.</p> <p>Prerequisite: A grade of C or better in German 1. Open to grades 10, 11, and 12.</p>
<p>GERMAN 2 HONORS <i>Course #4225</i> Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as German 4220. The pace is accelerated; the breadth and scope of the coverage is expanded and material is added in order to allow for more investigation of the language and culture. Classroom instruction and interactions are mostly in German.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>
<p>GERMAN 3 <i>Course #4260</i> Full year Credit: 1.0</p>	<p>This course provides more extensive development and practice in listening, speaking, reading, and writing as well as increased awareness of German-speaking cultures. New thematic topics and grammar concepts are introduced to students. Cultural topics focus on traditions, customs, music, art, media, technology, and major cities of Austria and Switzerland. Students increase their language proficiency and cultural awareness by viewing and studying a variety of video and film clips, listening to audio clips, and by reading and discussing stories, poems, lyrics, articles, and a novel in German. Classroom instruction and interactions are extensively in German.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11, and 12.</p>
<p>GERMAN 3 HONORS <i>Course #4265</i> Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as German 3. The pace is accelerated; the breadth and scope of the coverage is expanded. Some material is added in order to allow more investigation of the language and culture. The course is conducted entirely in German.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11, and 12.</p>
<p>GERMAN 4 <i>Course #4270</i> Full year Credit: 1.0</p>	<p>This course provides deeper development, refinement, and understanding of the German language and German-speaking cultures. New thematic topics are introduced, along with a few final grammar concepts. Cultural topics focus on major German cities, the fall of the Berlin Wall and reunification, the Third Reich, careers and the global economy, and the Brothers Grimm and fairy tales. Students increase their language proficiency and cultural awareness by viewing and discussing daily news and video clips, and by extensively studying and analyzing short as well as feature length films. Readings include a variety of authentic texts, short stories, poems, essays, and a play. Classroom instruction and interactions are entirely in German.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11, and 12.</p>

WORLD LANGUAGES DEPARTMENT

<p>ADVANCED PLACEMENT GERMAN LANGUAGE & CULTURE <i>Course #4275</i> Full year Credit: 1.0</p>	<p>Advanced Placement German Language & Culture is conducted exclusively in German utilizing authentic materials from the German-speaking cultures. Students are expected to be conversant with the instructor and with each other in German. Students have regular and ample opportunities to improve all four language skills and to prepare for the AP Language and Culture Exam. Course content comes from authentic sources produced by native speakers intended for a native speaker audience. This advanced placement course provides intensive and extensive reading, discussion, and analysis in German of diverse sources. The analysis of these sources will specifically target the following AP themes: Personal and Public Identities, Family and Community, Contemporary Life, Global Challenges, Science and Technology, and Beauty and Aesthetics. Students regularly write in German on non-literary topics and study current events with excerpts from German language television and documentaries. Language skills are not taught in isolation, but rather integrated to communicate about a wide range of topics and media. The class prepares students to take the Advanced Placement Exam in German Language & Culture.</p> <p>Prerequisite: Departmental approval. Open to grades 11 and 12. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>
LATIN	
<p>LATIN 1 <i>Course #4310</i> Full year Credit: 1.0</p>	<p>Latin 1 is primarily designed to develop a student’s ability to read and comprehend the Latin language. Students begin by learning the peculiar demands of an inflected language and are then introduced to Latin morphology, the declensions of its nouns and the conjugation of its verbs. Gradually, elements of syntax and grammar introduce the students to the fundamental requirements needed to read. Concurrent with these pursuits will be an ongoing discovery of the structure of the English language and its many borrowings from the Latin structure. Students’ grasp of English grammar will grow substantially. An ever-evolving Latin vocabulary helps students understand essential concepts in etymology, derivatives, and building a stronger and more precise vocabulary in English. Roman and Greek mythology and Roman daily life comprise the cultural component of the course.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>

WORLD LANGUAGES DEPARTMENT

<p>LATIN 1 HONORS <i>Course #4315</i> Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as Latin 4310. The pace is accelerated; the breadth and scope of the course are expanded and material is added to explore the language more deeply.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11, and 12.</p>
<p>LATIN 1 HONORS <i>Course #4315</i> Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as Latin 4310. The pace is accelerated; the breadth and scope of the course are expanded and material is added to explore the language more deeply.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11, and 12.</p>
<p>LATIN 2 <i>Course #4320</i> Full year Credit: 1.0</p>	<p>This course builds on the grammatical and structural foundations established in Latin I. An emphasis is placed on reading and comprehending Latin. Students will learn advanced grammar and move on to their first experience with unadulterated Latin. The cultural focus of the course will be the formation and development of the Roman Republic.</p> <p>Prerequisite: A grade of C or better in Latin 1. Open to grades 10, 11, and 12.</p>
<p>LATIN 2 HONORS <i>Course #4325</i> Full year Credit: 1.0</p>	<p>This course builds on the grammatical and structural foundations established in Latin 1. An emphasis is placed on reading and comprehending Latin. Students will learn all of the advanced grammar of the language and move on to their first experiences with unadulterated Latin from a variety of authors. The cultural focus will be on the evolution of the Roman state from monarchy to Republic and Republic to Empire.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11, and 12.</p>
<p>LATIN 3-4 LATIN LITERATURE <i>Course #4340</i> Full year Credit: 1.0</p> <p>Offered 2018-2019</p>	<p>This course is a survey of Latin literature sampling several genres including letters, oratory, epigram, history, narrative, philosophy, lyric and elegiac poetry. The survey is designed to further develop students' translation abilities as they review essential grammar and vocabulary. The work will explore the boundaries of each genre and its specific application. Attention will also be paid to the larger historical context of the authors and their works to provide students with an upper level understanding of Roman thought and custom.</p> <p>Prerequisite: Latin 2 and departmental approval. Latin 4340 and 4360 are offered in alternate years only. In 2017-2018 Latin 3-4 Caesar/Vergil (4360) will be offered. In 2018-2019 Latin 3-4 Latin Literature will be offered. Open to grades 11 and 12.</p>
<p>LATIN 3-4 CAESAR/VERGIL <i>Course #4360</i> Full year Credit: 1.0</p> <p>Offered 2017-2018</p>	<p>This course will provide a broad exposure to Vergil's <u>Aeneid</u> and Caesar's <u>Commentarii de Bello Gallico</u>. The course works to establish the larger political, historical, and literary contexts through which these literary works can best be understood. Special attention will be paid to the authors' use of rhetorical and poetic figures of speech, diction, imagery, manipulations of the Latin language, as well as the larger themes of both works.</p> <p>Prerequisite: Latin 2 and departmental approval. Latin 4340 and 4360 are offered in alternate years only. In 2017-2018, Latin 3-4 Caesar/Vergil (4360) will be offered. In 2018-2019 Latin 3-4 Latin Literature will be offered. Open to grades 11 and 12.</p>
<p>LATIN LITERATURE HONORS <i>Course #4355</i> Full year Credit: 1.0</p> <p>Offered 2018-2019</p>	<p>The sequential core material of this course is the same as Latin 4340. The pace is accelerated; the breadth and scope of the course are expanded, and some material is added to explore the language more deeply.</p> <p>Prerequisite: Latin 2 and departmental approval. Latin Literature Honors 4355 and AP Latin Caesar/Vergil 4365 are offered in alternate years only. In 2017-2018 AP Latin Caesar/Vergil (4365) will be offered. In 2018-2019 Latin Literature Honors will be offered. Open to grades 11 and 12.</p>

WORLD LANGUAGES DEPARTMENT

<p>ADVANCED PLACEMENT LATIN CAESAR/VERGIL <i>Course #4365</i> Full year Credit: 1.0</p> <p>Offered 2017-2018</p>	<p>Preparatory to the Advanced Placement Exam, the Caesar/Vergil course provides a broad exposure to the primary works of both authors: Vergil's <u>Aeneid</u> and Caesar's <u>Commentarii de Bello Gallico</u>. The course endeavors to establish the larger political, historical, and literary contexts through which these literary works can best be understood. The course will necessarily focus on the stylistic qualities of poetry and prose, Vergil and Caesar, and their effectiveness at conveying an intended message. Attention will also center on how the two authors approach the issues of Roman imperialism, the consequences of war, the portrayal of non-Romans, the nature of leadership, and the role of a state-driven propaganda among others. Essay writing will be developed in line with the close literary analysis required by The College Board.</p> <p>Prerequisite: Latin 2 and departmental approval. Latin Literature Honors 4355 and AP Latin 4365 are offered in alternate years only. In 2017-2018 AP Latin Caesar/Vergil (4365) will be offered. In 2018-2019 Latin Literature Honors will be offered. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>
SPANISH	
<p>INTRODUCTION TO SPANISH <i>Course #4505</i> Full year Credit: 1.0</p>	<p>Introduction to Spanish 1 is a first year Spanish course designed to emphasize Spanish 1 vocabulary, grammatical concepts, and foreign language study skills in order to provide necessary and additional support to new language learners. The course is designed to provide students with vocabulary and grammar acquisition skills that are crucial to the student's success in future second language study. The course will also focus on developing student responsibility for his or her own learning. Students will learn organization and study skills that will support successful study of a language. Students who successfully complete this course will be able to continue and complete their study of Spanish 1 the following year. The textbook for this course is <u>Realidades Level 1</u>.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12. This course is not open to students who have previously taken Spanish courses. This course is not recommended for native Spanish speakers.</p>
<p>SPANISH 1 <i>Course #4510</i> Full year Credit: 1.0</p>	<p>Spanish I is an introductory course which develops communication skills with an emphasis on listening and speaking. The student is taught to use the language actively through extensive oral work in daily dialogue, grammar patterns, and idioms. Reading and writing exercises use materials previously practiced orally. Evaluation measures listening, speaking, reading, and writing. The course is conducted extensively in Spanish. This course is for students who have never taken Spanish, not taken a full year of Spanish before or have taken Spanish at the junior high level but received a grade of B- or lower.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>SPANISH 2 <i>Course #4520</i> Full year Credit: 1.0</p>	<p>This course is a continuation of the first level course, developing more complex oral, reading and writing skills. Students are expected to participate actively in class activities and to function in Spanish to a greater extent, and all four skills are evaluated. Supplementary reading of simple selections and books will be used to improve students' ability in reading, speaking, and writing. Cultural topics will be explored throughout the year. This course is conducted extensively in Spanish.</p> <p>Prerequisite: A grade of C or above in Spanish 1 or recommendation of the junior high teacher. Open to grades 9, 10, 11, and 12.</p>

WORLD LANGUAGES DEPARTMENT

<p>SPANISH 2 HONORS <i>Course #4525</i> Full year Credit: 1.0</p>	<p>Although the core material for this course is the same as Spanish 4520, this course is accelerated and allows for more investigation of the language and culture. Students are taught specific strategies for reading, writing, listening and speaking in Spanish. Additionally, the course is accelerated to allow for the reading and discussion of authentic literary selections and all modes of communication are practiced and assessed regularly. This course is designed for students who have had success in Spanish 4510 (or Jr. High equivalent) and who demonstrate the characteristics of a self-directed, mature student. This course is conducted in Spanish to a greater extent than is Spanish 4520.</p> <p>Prerequisite: Departmental approval. Recommendation of the junior high teacher for freshmen. Open to grades 9, 10, 11 and 12.</p>
<p>SPANISH 3 <i>Course #4530</i> Full year Credit: 1.0</p>	<p>Spanish 3 is structured to maintain and improve the listening and speaking skills already developed in the first and second years, and to give increased emphasis to the development of reading and writing, while honing grammar skills. The basic text materials include short reading selections, as well as speaking activities and grammar explanations. The reading selections and course topics will introduce students to the cultural traditions and history of Spain and Latin America. The classes are conducted extensively in Spanish, making use of structured drills and conversation stimuli to accompany the increased reading and writing exercises.</p> <p>Prerequisite: A grade of C or better in Spanish 2. Open to grades 9, 10, 11, and 12.</p>
<p>SPANISH 3 HONORS <i>Course #4535</i> Full year Credit: 1.0</p>	<p>The sequential core material for this course is similar to Spanish 4530. The pace is accelerated; the breadth and scope of the coverage is expanded. Instructional strategies challenge students' capabilities within the core skills of second language learning. Additionally, students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. The class is conducted extensively in Spanish.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11, and 12.</p>
<p>SPANISH 4 <i>Course #4540</i> Full year Credit: 1.0</p>	<p>Spanish 4 is a hybrid course developing conversational skills as well as increasing knowledge of Spanish speaking cultures. This course includes the traditional study of grammar, as well as augmenting the students' vocabulary with an emphasis on oral communication skills. Students read, write, and present throughout the year. This course is conducted entirely in Spanish. Upon completion of this course, students earning an A or a B will be eligible to take Advanced Placement Spanish Language & Culture.</p> <p>Prerequisite: A grade of C or better in Spanish 3. Open to grades 10, 11 and 12.</p>
<p>SPANISH 5 HONORS: SPANISH STUDIES <i>Course #4545</i> Full year Credit: 1.0</p>	<p>This course surveys the literature, history, culture, and thought of Spain. Through a variety of readings, class discussions, and communicative activities this course also facilitates students' language skills in the three modes of communication (presentational, interpersonal, and interpretive). In addition, grammar review throughout the year facilitates accuracy in student communication. The class is conducted entirely in Spanish, and students are expected to communicate in the target language. This course is designed for students who have had success in Spanish 4535, 4540, 4550, or 4555.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>
<p>SPANISH 5 HONORS: LATIN AMERICAN STUDIES <i>Course #4550</i> Full year Credit: 1.0</p>	<p>This course offers the opportunity to learn about Latin American cultures through historical readings, authentic literature, and films. The focus of this course is to increase students' understanding of the history and culture of Latin America while also improving fluency in oral and written communication skills through formal and informal speaking and writing activities. The class is conducted entirely in Spanish, and students are expected to communicate in the target language. This course is designed for students who have had success in Spanish 4535, 4540, 4545, or 4555.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>

WORLD LANGUAGES DEPARTMENT

<p>ADVANCED PLACEMENT SPANISH LANGUAGE & CULTURE <i>Course #4555</i> Full year Credit: 1.0</p>	<p>The AP Spanish Language and Culture course is the equivalent of a third year college course in advanced Spanish writing and conversation. Class is conducted exclusively in Spanish utilizing authentic materials from the Spanish-speaking world. Students are expected to be conversant with the instructor and with each other in Spanish. Students have regular and ample opportunities to improve all four language skills with a special emphasis on idiomatic usage and to prepare students for the AP Language and Culture Exam. Course content comes from authentic sources produced by native speakers intended for a native speaker audience. This advanced placement course provides intensive and extensive reading, discussion, and analysis in Spanish of diverse sources from various regions of the Spanish-speaking world. The analysis of these sources will specifically target the following AP themes: Personal and Public Identities, Family and Community, Contemporary Life, Global Challenges, Science and Technology, and Beauty and Aesthetics. Students regularly write in-class compositions in Spanish on non-literary topics and study current events with excerpts from Spanish language television and documentaries. Advanced grammar study is continued and integrated into every aspect of the student's work. Language skills are not taught in isolation, but rather integrated to communicate about a wide range of topics and media. The class prepares students to take the Advanced Placement Exam in Spanish Language & Culture.</p> <p>Prerequisite: Departmental approval. A grade of an A or a B in Spanish 4535, 4540, 4545, 4550 or 4565. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>
<p>ADVANCED PLACEMENT SPANISH LITERATURE & CULTURE <i>Course #4565</i> Full year Credit: 1.0</p>	<p>The AP Spanish Literature course is based on those representative works required by the AP board for the AP Spanish Literature and Culture Exam. This course surveys the history and literature of Spain and Hispanic America in a chronological fashion relating each work to the 6 course themes and the historical context. All genres are represented and media sources are used regularly to assist in comprehension and analysis. Students are required to read and write outside of class, take part in classroom discussions and listening practices present reports and compose essays in order to prepare for the Advanced Placement exam in Spanish Literature and Culture.</p> <p>Prerequisite: Departmental approval. A grade of an A or a B in Spanish 4545, 4550, or 4555. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2017-2018 AP exam fee is \$93 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 22 for more details.</p>
<p>SIGN LANGUAGE</p>	
<p>AMERICAN SIGN LANGUAGE I <i>Course #8070</i> CREDIT: 1.0</p>	<p>This course is designed to develop the student's expressive and receptive signing skills and understanding of basic grammatical structures of American Sign Language. Topics related to deafness and deaf culture will also be explored. This is a class for students who are interested in learning the language of signs.</p> <p>This course is taught at Hinsdale South, only, and Central students would need to provide their own transportation to and from South. Also, Central students can enroll, but would need to take a study hall adjacent to the course to allow for travel.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>

WORLD LANGUAGES DEPARTMENT

**AMERICAN SIGN
LANGUAGE II**
COURSE #8080
CREDIT: 1.0

In American Sign Language II, students will continue to develop receptive and expressive signing skill, study grammatical structures of ASL, and learn more about the history and culture of deaf people. There will be increased opportunities for interaction with deaf students.

This course is taught at Hinsdale South, only, and Central students would need to provide their own transportation to and from South. Also, Central students can enroll, but would need to take a study hall adjacent to the course to allow for travel.

Prerequisite: "C" or better in American Sign Language I. Open to grades 9, 10, 11, and 12.

REGISTRATION INFORMATION

2017 – 2018 ACADEMIC CALENDAR

<i>December</i>	Program of Studies Handbook Copies of Hinsdale Central’s inclusive curriculum book will be posted online. This information should stimulate initial conversations between parents and students regarding appropriate courses for next year. Registration information will be emailed to students and parents. Parents, please review this information with you their son/daughter.
<i>Mid-November- first week in January 2018</i>	Curriculum Discussions Individual teacher/student informal advising discussions are held.
<i>January 11, 2018</i>	Eighth Grade Student and Parent Night, HC Gymnasium An informational program will be held for all parents and students to explain the curriculum and the course selection process. An electives fair will be hosted by departments and students to share specific details about elective courses. 6:00 - 7:00 PM Last names A-L 7:00 - 8:00 PM Last names M-Z
<i>January 17-20, 2018</i>	Class of 2019 Counselor Conferences for Current Sophomores Class of 2019 will meet individually with their counselors at an assigned time to finalize their course selections.
<i>January 23-27, 2018</i>	Class of 2018 Counselor Conferences for Current Juniors Class of 2018 will meet individually with their counselors at an assigned time to finalize their course selections. Individual appointments will be announced in English classes.
<i>January 30- February 2, 2018</i>	Class of 2020 Counselor Conferences for Current Freshman Class of 2020 will meet individually with their counselors at an assigned time to finalize their course selections.
<i>January 12, 17, 25, 31- February 6, 2018</i>	Eighth Grade Individual Registration Conferences Incoming Freshman, Class of 2021, conferences will take place in late January and early February at Hinsdale Central High School in the Library. These conferences will include student, parents and their high school counselor for 15 minute appointments. 15 minute phone conferences will also be available on January 13, 24, February 3, 6, 2017 for those that aren’t able to meet in person.
<i>Late April 2018</i>	Course verification can be viewed online. Students and parents will have the opportunity to view course selections online prior to registration appointments. Students should consult with their counselor regarding any concerns about a course change. (Additionally, Department Chair approval to enroll in a class will be required for any classes needing a prerequisite or an honors level course.) Requests for changes may be accommodated dependent upon class size and availability. All schedules will be finalized in late June. No schedule changes will be permitted without Administrative approval. Please Note: Student schedules ARE NOT finalized until the summer registration process.

Dear Students and Parents:

The Hinsdale Central High School Program of Studies book is an important resource for students and parents which I hope will assist you in making course choices. Consider choosing courses that interest you where you may explore your college and career aspirations. Take time to reflect on the course selection process, consider a sense of balance in your life related to your social emotional health and academic goals.

As you page through the Program of Studies, you will find that the book is divided into three distinct sections. The first contains general information about such topics as graduation requirements, dropping and adding courses, schedule changes, and college admission requirements. The second section provides descriptions of all course options available to students. The last section provides students and parents with registration information for next year, worksheets for course selection, the four-year plan, and the graduation credit checklist.

The Program of Studies is designed to prepare you for a registration appointment with your counselor. The registration appointments will be scheduled in January or early February. As you prepare, carefully review the general information section, analyze the course descriptions, speak with your teachers about opportunities and “pencil in” your choices on the worksheets at the back of this handbook. I suggest that you view the registration process in the broad scope of a four-year plan, reflecting on your personal strengths, interests, social emotional health, and future plans. Parents, teachers, and your counselor will guide you through this process. I encourage you to make the best use of the academic opportunities available to you at Hinsdale Central.

Hinsdale Central High School is an educational institution where a student’s academic course work opens opportunities for exploration and challenges their intellectual curiosity. It is important to know that the courses you select during this process are intended to be your final selections for the 2018-19 school year. We develop our master schedule of classes, hire and re-employ staff based on the enrollment decisions you make. Hopefully you will find our registration process to be one that works well for you. If you have questions about the registration process or the information provided in the Program of Studies, please contact our Counseling Department at (630) 570-8251.

Sincerely,

William C. Walsh
Principal

VISION STATEMENT

Adopted Fall 2003

The expectation of excellence is rooted in the traditions of Hinsdale Central. In an environment that fosters a desire to learn, all members of the organization are committed to educating each student. In order for us to succeed, we must clearly identify standards we will work to achieve and maintain. These standards are identified in several areas and will be the benchmarks by which we will measure our success.

I. Students

The degree to which we measure our success in attaining this vision is by each student's progress. We will provide opportunities that facilitate this growth. In school we:

- a. Work to meet student's needs.
- b. Encourage students to reach their potential in all they do, and to become self-directed learners.
- c. Teach students to accept responsibility for their actions.
- d. Encourage students to get involved in their school and in their community.
- e. Let students know we believe in them and will find ways for them to succeed based on their ability and interests.

II. Staff

Attracting and retaining outstanding people is a must if we are to move toward our vision. In our school we:

- a. Demonstrate our support for a shared vision and a common sense of purpose.
- b. Encourage all members of the organization to be leaders and experts in their fields.
- c. Promote collaboration and collegial decision making on matters relating to students, curriculum, instruction and school.
- d. Facilitate the growth of our students.

III. Curriculum and Instruction

What we decide to teach and how we do so will impact the results we achieve. In our school we:

- a. Recognize our primary focus to provide a solid base for the post-secondary education of our students, while respecting the needs of students who make alternative choices.
- b. Seek to learn effective practices and adapt them for our learning environment.
- c. Believe teachers should collaboratively determine curriculum and assessment standards.
- d. Work to assure the limited time we have to educate our students is used to the greatest benefit for all our school community.

VISION STATEMENT

IV. Climate

All members of our community are responsible for providing a climate that contributes to our success and a high school experience that builds a sense of pride we all share. In our school we:

- a. Provide a safe and secure environment that is conducive to learning.
- b. Recognize that all relationships are based on respect for others and an understanding of each person's responsibility for his/her behavior.
- c. Understand school rules and policies exist to support our organization and are consistently applied by all staff.
- d. Recognize the achievements of all members.
- e. Encourage and model behaviors appropriate to the development of character.

V. Community

The educational community recognizes the importance of maintaining a partnership between the school and community at large. In our school we:

- a. Seek ways to improve the quality of communication between the home and school.
- b. Always provide a clear rationale for policies and practices.
- c. Share information that is important in a timely manner.
- d. Recognize that the more our community is involved and informed, the more successful we will be.

GENERAL INFORMATION

GRADUATION REQUIREMENTS

Each student must successfully complete the following course requirements in order to graduate from Hinsdale Central High School. To graduate, a student must earn a **minimum of 24.0 credits** and successfully meet the listed requirements. In order to earn a diploma, students must comply with all state mandated requirements for standardized testing. In addition, no student shall receive a diploma without passing a satisfactory examination on the federal and Illinois constitutions. Students must take and pass the U.S Constitution Test in U.S History or AP U.S. History. No student shall receive a certificate of graduation without passing a satisfactory examination on patriotism and principles of representative government, proper use of the flag, methods of voting and the Pledge of Allegiance.

Graduation Requirements	Credit
<p>English <i>A given course cannot be used to satisfy a requirement in more than one area, with the exception of the “intensive writing” requirement. State law mandates all students to earn two credits in courses designated as “intensive writing” courses. English I and English II fulfill this requirement as do Applied English and Foundations English.</i></p>	4.0
<p>Mathematics <i>One of the three years of Mathematics must be an Algebra course (Algebra I, Part 1 AND Algebra I, Part 2, Algebra I Block, Algebra 1, Applied Math, or Foundations Math) and one course must include Geometry content (Geometric Analysis, Geometry, Applied Math or Foundations Math. Credits must be earned over three school years.</i></p>	3.0
<p>Science</p>	2.0
<p>Social Studies <i>World Cultures or World History Honors (1.0) Students in the Class of 2019 and all prior students, must take and pass the U.S Constitution Test in U.S History (1.0) or AP U.S. History (1.0). Students in the Class of 2020, and all subsequent students, will need to pass either American Politics (0.5) or AP U.S. Government and Politics (0.5) to meet the State of Illinois Civics requirement.</i></p>	2.0
<p>Elective Arts <i>A student can select from one of seven Elective Arts areas, including all courses in: Art, Business, Family & Consumer Sciences, World Languages, Music, Technology Education (except for Digital Video Production) or TCD. A student may only declare one (1) credit per department/discipline to count towards this specific graduation requirement.</i></p>	2.0
<p>Consumer Education* <i>AP Economics: Micro AP Economics: Macro Economics Introduction to Family and Consumer Sciences Foundations Consumer Education Introduction to Business Pre-Vocational Studies</i></p>	0.5
<p>Physical Education/Health <i>Health is a required course taken during sophomore year typically in tandem with one semester of Physical Education. Students have the option of enrolling in an additional semester of Physical Education during their sophomore year for an additional 0.5 credits. All students must complete state-mandated CPR and AED training through their physical education class.</i></p>	4.0

*The same course may not be used to satisfy requirements for Elective Arts and Consumer Education

State-mandated requirements for standardized testing: SAT

Beginning with the Class of 2018, all 11th grade students are required to take the SAT. In order to be classified as an 11th grade student, students must earn a minimum of 11.75 credits prior to the beginning of entering their third year in high school. Students who begin their third year in high school with fewer than 11.75 credits will be classified as 10th grade student solely for the purpose of SAT testing.

GENERAL INFORMATION

STATE TESTING REQUIREMENT

All 11th grade students are required to take the SAT. In order to be classified as an 11th grade student, students must earn a minimum of 11.75 credits prior to the beginning of entering their third year in high school. Students who begin their third year in high school with fewer than 11.75 credits will be classified as 10th grade student solely for the purpose of SAT testing.

COLLEGE ADMISSION REQUIREMENTS

Criteria for college admission vary greatly. The admission committees consider, to varying degrees, the following:

- Type of high school courses actually taken when compared to the courses available in the high school
- Quality of the student's academic record
- Performance on college admission tests – ACT & SAT
- Development and maturity of the individual in areas outside the academic classroom

Courses	Highly Selective Colleges	Public University Colleges	Private 4-Year Colleges	Community and Public Colleges
English	4 years	4 years	4 years	Varies greatly from an open door admission policy to selective course requirements specifically required by the different departments.
Mathematics	4 years	4 years	4 years	
Science	4 years (lab)	3 years	3 years	
Social Studies	3-4 years	3 years	3 years	
Academic Electives	2 years	2 years	2 years	
World Languages*	4 years (one)	*	2-4 years	

Course requirements for entrance into four different types of colleges are listed above. The academic prerequisites typical of colleges in each of the categories listed may change from year to year and therefore, should be used only as general **minimum guidelines**. Specific information may be obtained from high school counselors, college profiles, websites and catalogs, computerized college software programs and college representatives who visit Hinsdale Central High School. Students should be aware of a definite return by colleges to their preference of a **traditional and classical college preparatory curriculum**. Narrowly defined, college preparatory courses are found in the following departments:

Art: *AP Art History, AP Studio Art	Science: Lab courses	Academic Electives: Business, Family & Consumer Sciences, Music, Technology Education, Technology Center of DuPage (TCD)
English: Literature and composition courses	Social Studies	
Mathematics: Computer Science is not generally accepted as a math credit.	World Languages	

**AP Art History and AP Studio Art are generally treated as acceptable college preparatory academic electives by most colleges.*

STATE OF ILLINOIS CONSUMER EDUCATION REQUIREMENT

Credit: 0.5

Students have the following options to satisfy the mandated graduation requirement:

1. **Consumer Economics**, course #6301, one semester, Business Department course, see page 38.
2. **Economics**, course #2331, one semester, Social Studies Department course, see page 94.
3. **AP Macro Economics**, course #2441, one semester, Social Studies Department course, see page 95.
4. **AP Micro Economics**, course #2341, one semester, Social Studies Department course, see page 95.
5. **Introduction to Family & Consumer Sciences**, course #6400, full year, Family & Consumer Science Department Course, see page 53.
6. **Introduction to Business**, course #6100, full year, Business Department course, see page 36.
7. **Special Education Related Instruction:** enrollment is determined by IEP recommendation.
8. **Consumer Education Online**, course #9101, one semester. Students who enroll in this online course will be supervised by a certified District 86 teacher. This course has the same objectives as the traditional semester-long Consumer Economics course #6301; the content is very similar. Communication between student and teacher will be primarily through the website and by email. Students who enroll in the online version will be required to attend an orientation session, to meet progress markers along the way, and to complete the course during the semester in which they are enrolled.

GENERAL INFORMATION

STATE OF ILLINOIS CIVICS REQUIREMENTS

Credit: 0.5

Students have the following options to satisfy the mandated graduation requirement:

1. **American Politics**, #2351, one semester, Social Studies Department Course, see page 93.
2. **AP United States Government and Politics**, #2361, one semester, Social Studies Department Course, see page 96.
3. **Special Education Related Instruction**: Enrollment is determined by IEP recommendation.
4. **English Language Related Instruction**: Enrollment is determined by EL recommendation.

REGISTRATION REQUIREMENTS

Hinsdale Central course recommendations are based upon evidence of normal progress and achievement in the student's previous school. Incoming freshmen are required to submit evidence of satisfactory completion of the 8th grade. Transcripts of credits earned and grade placement are required from the previous school for all students transferring from other secondary schools. Additionally, all students transferring from an Illinois public high school must obtain the ISBE student in good standing form from the previous school in order to register. Parents of transfer students must present a birth certificate for the student at the time of registration.

A student's grade-point average previously earned at a high school other than a high school in District 86 will be re-calculated based on the grade-point average processes currently used in District 86. Transfer courses, grades earned and grade-point average will appear on the District 86 high school transcript exactly as they are titled on the sending school's transcript and will be indicated as transfer coursework. If the previous school assigned numerical grades, we will use their key to assign letter grades on the District 86 transcript. If no key is available, these courses will be recorded as "Pass" or "Fail." Transfer courses from schools outside of the United States may receive credit, but grades will be reflected as "Pass" or "Fail." A record of a health examination and immunizations at the 9th grade level is required by law. Students will not be allowed to attend school if this state requirement is not met. Incoming freshmen must have a physical performed prior to the purchase of books during the month of August, but *the preferred date of completion for the freshman physical is July 1*. In addition, all students participating in athletics must have a physical examination for each year in which they participate.

Additionally, transfer students and currently enrolled students requesting to transfer credit for a class from an accredited institution outside of HCHS, may be required to take a placement exam to ensure appropriate level of placement for a higher-level class. The Department Chair for the subject area will set a mastery level for the exam. If mastery is not obtained, then a student may need to repeat that course and credit will not be issued.

RESIDENCY

Pursuant to Hinsdale Township High School District 86 Board of Education Policy 7:50 and 7:60, every family must provide acceptable evidence of residency. One of the following documents is required for registration: a current real estate tax bill, mortgage papers, agreement of sale, or a signed lease agreement with student(s) listed as occupants. Two additional documents reflecting the current in-district address must also be presented to verify residency. Contact the registrar for more information on adequate proof of residency.

EARNING COURSE CREDITS

Credit in full year as well as semester courses is earned by semester. That is, students earn 1/2 unit of credit or 0.5 credit for successful completion of each semester. Credit is earned by successfully completing all course requirements as established by the teacher. Excessive absences may result in removal from a course and/or loss of credit.

ADDING A COURSE

Students may add a class to increase the number of attempted credits, provided that space is available and that there is minimal disruption to the student's schedule. This addition must be made by the end of the eighth school day. In order to add a course, a student must obtain signatures on an Add/Drop form from the parent/guardian, the department chair if required, and the student's counselor.

GENERAL INFORMATION

DROPPING A COURSE

Students may request to drop a course for a study hall only if they are enrolled in the maximum number of courses (seven) per semester and only after they have attended and participated in the course for three class periods. Students wishing to drop a course must first discuss it with their parents, teacher and counselor. After a parent/guardian signs the request to drop a course, the counselor and department chair will sign the request as well. A grade of “WF” will be reflected on the transcript of a student who chooses to drop a course after the fourth week of a semester and will be calculated in the grade point average. Students enrolled in year-long courses will not be allowed to drop at the end of the first semester unless it is recommended by the department.

LEVEL CHANGES

It is important that students choose their course loads very carefully, as the master schedule for the building is based off of these selections. Typically a student is required to stay in a course for an entire quarter before the school will honor a request to change the level of coursework. If a request to move course levels is granted, the grade as of the day of the course change will follow the student to the next class.

Students wishing to initiate a level change within the same department must complete the add/drop form and obtain all required signatures (parent/guardian, teacher, department chair, counselor).

COURSE REQUESTS

Each spring Hinsdale Central works to create a schedule of classes for the following academic year that best meets the needs of our students, while still staying within the parameters of staffing requirements (i.e. number of teachers, class size, teaching schedules, state and federal mandates). We work very hard to accommodate student requests; however, due to the complexity of the scheduling process, sometimes student schedules may need to be adjusted. Please keep in mind that changes in course requests or class assignments will not be accepted for any of the following reasons:

- to accommodate a job schedule
- to change teachers
- to change lunches or classes to be with friends
- to have first or last period free
- to accommodate a change of mind

Acceptable reasons for schedule changes may include:

- computer input error
- scheduling conflicts
- failure or near failure in a second semester or year course
- failure to meet a pre-requisite for a course
- department chair or counseling director recommendation
- successful completion of a summer school class

Once a school year begins, schedule changes are permitted only if they meet one of the following conditions.

REPEATING COURSES

A course may be repeated for credit only when a student has previously received a “D” or an “F.” Both the grade received and the credit earned for repeating the course, as well as the original grade and credit received in the course, will be used in computing the student’s grade point average. The student’s transcript will indicate the first grade and credit earned, as well as the second grade and credit earned. However, the credit received for repeating the course will not count toward satisfying graduation requirements unless the student failed the course.

GENERAL INFORMATION

HONOR ROLL AND WEIGHTED GRADES

Grades earned in all courses, exclusive of Physical Education, Driver Education, and Student Aide will be used to calculate a student's grade point average (GPA) according to the following grade point system.

Grade	Honors	Regular
A	6	5
B	5	4
C	4	3
D	2	2
F	1	1
WF	1	1

Dean's List and Honor Roll designation will be determined by the following criteria:

Honor Roll

- 4.0 grade point average
- No grade in any course below a "D"

Dean's List

- 4.5 grade point average
- No grade in any course below a "C"

Dean's List and Honor Roll are based on quarter grades, not semester grades. Thus there are four Honor Rolls and Deans' Lists per year; one each quarter. Incomplete grades are not accepted, and a minimum of four (4) credit-earning courses are needed to qualify for either list.

JUNIOR HIGH/MIDDLE SCHOOL STUDENTS

Junior high schools that feed into District 86 unable to offer advanced coursework for their students may send their students to Hinsdale South for those courses. In these cases, all courses, grades and credit earned will appear on the transcript and will be calculated into the grade point average earned in subsequent years at a high school in District 86.

AUDITING COURSES

Only under unusual circumstances will a request to audit a course be considered:

1. When a student has previous credit in a subject they may request to audit the course.
2. When a student wishes to audit a course they have not previously taken, they may request to audit the course. In this case, they may not take the course for credit at a later time.

In both circumstances, requests to audit will be considered only if space is available in the course. Students assume all responsibility of a regular class member. Audited courses will appear on the transcript with a letter grade of AU, but will not receive credit. All requests to audit a course must have administrative approval prior to the first day of class at the latest, but preferably at the time of February registration. Students interested in auditing a course must complete the 'Request to Audit a Course Form,' which may be obtained from the student's counselor and approved by the Director of Counseling.

INDEPENDENT STUDY

Independent Study options may be provided for motivated and mature students who have exhausted the course options of a particular course or field of study. Independent Study courses are initiated on a case-by-case basis through any faculty member and are subject to the approval of the relevant department chairperson, the student's counselor, and the Assistant Principal for Curriculum & Instruction. Upon the approval of all of the aforementioned, final approval is contingent upon the workload of the teacher involved.

GENERAL INFORMATION

INCOMPLETE GRADES

An Incomplete represents work not completed by the end of the quarter. Incompletes are given only in extraordinary circumstances. If the work is made up within the first two weeks of the following quarter, the Incomplete will be changed to a grade or a failure. If the work is not made up by the end of the 2-week period, the grade will be changed to an “F.” An Incomplete will prevent eligibility for Honor Roll.

REGISTRATION PROCEDURES

Students should review the four-year planning guide on page 120 and choose courses that will fulfill graduation requirements and build on the student’s strengths, interests and abilities. Students will discuss course recommendations with each of their current teachers and, if there is a need for departmental approval, they should obtain the signature of the Department Chair for that course. Following the recommendation discussions with teachers, students will have an individual appointment with their counselor to review and approve their course selections. Students and parents will be able to view their course requests in Home Access Center throughout the month of February. Courses are scheduled on the basis of your requests. Questions concerning registration procedures and course selections should be directed to your counselor. *Course Request Forms are available through the Counseling Department.*

ATTENDANCE POLICY

The attendance policy at Hinsdale Central requires that parents call the attendance office **ON THE DAY OF THE ABSENCE** to report their student absent from school on any given day at **(630) 570-8090**. Prearranged absences may be called in prior to the day of the absence and a green prearranged absence form must be completed. Students are expected to attend class on a daily basis and should be aware that attendance is part of his/her evaluation in each class. Students are responsible for all work missed due to an absence. Excessive absences will be handled by the administration and guidance staff and require a parent conference.

MINIMUM ATTENDANCE REQUIREMENT

School Code of Illinois, Section 18-8, requires that all students must be in attendance, exclusive of lunch and passing time, for a minimum of 300 minutes. This necessitates all students attending school for at least six (6) periods a day.

STUDENT SCHEDULES

Full year courses are usually designated by 4-digit course codes ending in “0” or “5.” Semester courses are primarily designated by numbers ending in “1” (first semester) or “2” (second semester) and may be scheduled either first or second semester. Student schedules are generated by computer and do not allow the student to select a course by semester. Requests are entered but not guaranteed.

R-RATED FILMS OR CLIPS

If R-rated movies or clips from R-rated movies will be used in instruction in any course, a list of those movies will be made available at the time of registration through each department and online. Written permission must be obtained by a parent at the beginning of any course showing R-rated movies or clips from R-rated movies to allow students to view in whole or in part the R-rated movies associated with the class.

MEDICAL STUDY HALLS

Physical Education Medical Study Halls are given to those students with an authorized physician’s medical note that states the student cannot participate in ANY physical activity for three or more weeks. Before students receive a Physical Education Medical Study Hall Change of Schedule, an **Activity Modification form** must be filled out by the physician and on file with the Health Services office. This form can be obtained on the website under the Health Services tab.

GENERAL INFORMATION

PHYSICAL EDUCATION EXEMPTIONS

Per policy 6:310, a student in grades 9-12, unless otherwise stated, may submit a written request to the building principal to be excused from physical education courses for the reasons stated below. The Superintendent or designee shall maintain records showing that the criteria set forth in this policy were applied to the student's individual circumstances.

1. For students in grades 11-12, ongoing participation in an interscholastic athletic program as recognized by IHSA.
2. For students in grades 11-12, to enroll in academic classes which are required for graduation from high school, provided that failure to take such classes will result in the pupil being unable to graduate.
3. For ongoing participation in a Marching Band program for credit.

In addition, students in grades 11-12 may also qualify for a Physical Education exemption in order to enroll in an academic class or classes required for admission to the college(s) or university(ies) which said student intends to apply as long as documented substantiation of the prerequisite secondary courses required for admittance to the postsecondary institution is provided. Policy 6:310 also contains provisions for students with IEPs to qualify for PE exemptions based on an IEP team decision or participation in adaptive athletic programs outside the school setting.

PHYSICAL EDUCATION EXEMPTIONS FOR SPECIAL EDUCATION STUDENTS

A student requiring adapted physical education must receive that service in accordance with the student's Individualized Educational Program/Plan (IEP).

A student who is eligible for special education may be excused from physical education courses when:

1. He or she is in grades 9-12, and his or her IEP requires that special education support and services be provided during physical education time, and the student's parent/guardian agrees or the IEP team makes the determination;
2. He or she has an IEP and is participating in an adaptive athletic program outside of the school setting, and the parent/guardian documents the student's participation as required by the Superintendent or designee.

PHYSICAL EDUCATION EXEMPTIONS FOR MARCHING BAND STUDENTS

Students enrolled in the Hinsdale Central High School Bands perform at home games, local parades, pep rallies, formal concerts, and other community events. Band classes improve musicianship, develop technique, and provide performance opportunities featuring a variety of musical styles and ensemble settings. Every band course is an academic class that meets during a class period and requires occasional rehearsals and performances outside the school day; however, students are encouraged to participate in other academic classes, athletics, and activities. Opportunities for student leadership, overnight travel, and extracurricular performing are available. All band classes can be repeated each year for credit and are open to students in every grade. Every band student performs as part of the Marching Band, which allows band students in Grades 9 - 12 to exempt out of Physical Education for the entire school year.

Marching Band students interested in exempting out of PE need to be aware of the following:

Marching Band PE Exemption Procedures: Band students in grades 9 through 12 may be exempted from Physical Education classes during both semesters. In order for music students to obtain a PE Exemption, they MUST be enrolled in a class that is part of the Hinsdale Central Marching Band, and continuous enrollment in that class is required to maintain the exemption. "Band" students are defined as students enrolled in one the following courses: Concert Band, Symphonic Band, Wind Symphony Honors, Wind Ensemble Honors, Concert Percussion Ensemble, and Symphonic Percussion Ensemble.

Students who obtain this exemption must enroll in a minimum of 6 courses in addition to the PE Band Exemption. If a student drops below six courses, the exemption is invalidated and the student will be required to attend Early Bird PE, or enroll in PE during the school day. If students drop their qualified band course, they will be automatically enrolled in a PE class. In all cases the exemption is listed on student schedules as course #07219 & #07220 (semester 1 & 2 respectively) PE Band Exemption and the student will receive a 1.0 PE Credit.

GENERAL INFORMATION

PHYSICAL EDUCATION EXEMPTIONS FOR IN-SCHOOL STUDENT-ATHLETES

EXPLANATION

Varsity/Junior Varsity student-athletes who are juniors or seniors may be exempted from Physical Education their junior and senior years. There are no exemptions allowed for freshmen or sophomore student-athletes per Illinois State Code 105 ILCS 5/27-6.

CRITERIA TO BE ELIGIBLE FOR AN EXEMPTION

1. The sport is an IHSA sanctioned sport and runs through the Hinsdale Central Athletic Department.
2. The sport requires an athletic permit to participate.
3. The sport involves a schedule of interscholastic competition.
4. The student-athlete must attend practices and games consistently throughout the season.
5. The student-athlete must be on the roster to actually compete in interscholastic competition.
6. Student-athletes must have a current grade of a C or better in his/her current Physical Education course.
7. The student-athlete must complete all state mandated fitness assessments, regardless of exemption.
8. Student-athletes must be in attendance for 300 minutes in a day to perform after school.

Athletes seeking an exemption need to obtain a Physical Education Exemption form in the Athletic Office and follow the procedures outlined on the form.

PHYSICAL EDUCATION EXEMPTIONS FOR OUT-OF-SCHOOL STUDENT-ATHLETES

Physical Education exemptions are considered for a few unique student-athletes who participate in a sport outside of school that **requires a significantly shortened academic day in order to fully participate and who are actively participating at a highly ranked national level.**

CRITERIA TO APPLY FOR EXEMPTION APPLICATION

Student-athletes must meet the criteria explained above before applying for a Physical Education exemption:

1. Student-athlete must have a significantly shortened academic schedule to accommodate the outside athletic participation. A significantly shortened day is one in which the student will only be available for 6 or fewer classes including their Physical Education class. School Code of Illinois, Section 18-8 requires that all students must be in attendance, exclusive of lunch and passing time, for a minimum of 300 minutes (at least 6 periods a day) Students who fall below this will not be considered to be working towards a Hinsdale Central diploma. The process of approving a shortened schedule is overseen by a panel that includes but is not limited to the Assistant Principal of Instruction, Athletic Director, Physical Education Department Chair, and the athletic coaches at Hinsdale Central and requires documentation of significant and required school-time commitments to fully participate in the activity.
2. Student-athlete must be competing at national level or junior national competition for their exemption period.
3. Student-athletes are required to maintain alternative Physical Education course work throughout the duration of their exemption (examples may include but are not limited to activity logs, summative papers, or health literacy assessments). Any student-athlete that is non-compliant will jeopardize their current Physical Education exemption.

Athletes seeking this exemption need to speak with the PE Department Chair to begin this process.

ADDITIONAL ACADEMIC OPPORTUNITIES

SEAL OF BILITERACY

Students who demonstrate proficiency in both English and another language may qualify to earn a Seal of Biliteracy on their transcripts. Students must earn the Seal of Biliteracy through approved testing administered and recorded by District 86. No outside testing or administration of a specific language-based test or portfolio will be accepted for the Hinsdale District 86 Seal of Biliteracy program. Families wishing to learn more about this program can contact either their child's counselor or District 86 ELL Coordinator, Ms. Kelly Owens, at (630) 570-8591 or at kowens@hinsdale86.org.

ARTICULATED CREDIT AND DUAL CREDIT AT THE COLLEGE OF DUPAGE

The College of DuPage awards articulated or dual credit when learning experiences at the secondary level of instruction duplicate those at the post-secondary level. These programs enable students to save time and avoid duplication of material already learned in high school. Articulated credits are only applicable to the College of DuPage while dual credits can be accepted at any college or university that accepts transfer credits. Students may request a transcript from C.O.D. with these courses listed after the end of the semester.

College of DuPage	Hinsdale Central	C.O.D. Credits
Accounting	Accounting and Accounting Honors	3
Earth Science	Earth Science Honors	3

SERVICE CREDITS

Credit: 0.25

Students may elect to serve as a Student Aide during the school year for the following areas: Art, Athletics, Audio Visual, Family & Consumer Sciences, ELL, Counseling, Library, Nurse, Dean's Office, Publications, Science, Technology Education or Student Activities. The credits earned as an Aide count as service credit. Students may elect to serve as an Aide for one or both semesters. They may, however, hold only one Aide position per semester. A 0.25 credit will be granted for each semester. This can be counted toward graduation as a service credit and will be graded on a pass-fail basis.

ALTERNATIVE COURSES

Credits from non-traditional courses and programs including, but not limited to e-learning, correspondence, or college courses may be counted toward graduation if they meet certain requirements. Such courses must be from an accredited institution and include at least 60 seat hours. The student assumes responsibility for all fees. Coursework taken by current District 86 students via alternative paths (American School, Illinois Virtual School, etc.) will not appear on the District 86 transcript *unless there has been prior written approval by the Director of Counseling*. Such approved credit will appear on the high school transcript as transfer credit indicating course name, grade and credit earned. The grade will be calculated into the grade-point average of the District 86 school. Additionally, transfer students and currently enrolled students requesting to transfer credit for a class from an accredited institution outside of HCHS, may be required to take a placement exam to ensure appropriate level of placement for a higher-level class. The Department Chair for the subject area will set a mastery level for the exam. If mastery is not obtained, then a student may need to repeat that course and credit will not be issued. Only one online class per semester and two online classes during the summer are approved.

ADDITIONAL ACADEMIC OPPORTUNITIES

SPECIAL EDUCATION PROGRAM OVERVIEW

The Special Education Department provides a full continuum of services and supports designed to meet the Individual Education Program (IEP) needs of students. Students in need of special education services can receive instruction and programming through one or more of the following approaches:

- academic accommodations within the regular education classrooms,
- structured assistance within the regular education classrooms through co-taught supports,
- structured assistance outside the regular class through consultation services,
- related services, and
- direct instruction in specialized course offerings

All of the courses below meet the HCHS graduation requirements:

Course Title	Course #	Credit	Grade Offered	Page Number
English 1	1810	1.0	9	42
English 2	1820	1.0	10	42
English 3	1830	1.0	11	44
English 4	1840	1.0	12	44
World Cultures	1850	1.0	9	92
American Politics	1870/1875	0.5	10-12	93
United States History	1860	1.0	11	93

* May be taken more than once for credit (maximum 2.0 credits)				
** May be taken more than once for credit (maximum 4.0 credits)				

ADDITIONAL ACADEMIC OPPORTUNITIES

<p>ACADEMIC CENTER RESOURCE <i>Course # 9920, 9924</i> Full year Credit: NC</p>	<p>Academic Center Resource is for students who are self-motivated, well organized, and can demonstrate excellent self-advocacy skills. Students are self-directed learners who can identify strengths/challenges and have developed the necessary compensatory skills to allow them to be successful in the academic school setting. The Academic Center provides students with opportunities for support across curriculum subjects in a structured setting. Students may also seek out departmental support/resources, schedule guidance appointments, and make up any tests/quizzes during this period.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>STUDY SKILLS FOUNDATIONS <i>Course # 2080</i> Full year Credit: 1.0</p>	<p>Students will explore essential aspects of academic, organizational and Social Skills that can be generalized in various facets of daily life. Emphasis will be placed on decision-making and behavior expectations, time management, use of classroom and school resources, and self-advocacy. Community outings are also a component of this class.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>STUDY SKILLS 1 <i>Course # 1951, 1952</i> Full year Credit: 0.5</p>	<p>Study Skills 1 is a freshman-level class. Students enroll in Study Skills based upon a teacher’s recommendation. Study Skills 1 targets the skills required for a successful transition into the high school experience. These include organization, time management, long term planning, listening skills, memory skills, and test preparation skills. Study Skills 1 also serves as a period where students may complete assessments and/or consult with other school staff to meet their individual needs.</p> <p>Prerequisite: Department Chair approval. Open to grade 9.</p>
<p>STUDY SKILLS 2 <i>Course # 1956, 1957</i> Full year Credit: 0.5</p>	<p>Study Skills 2 is a sophomore-level class. The course addresses the maintenance of Study Skills such as effective note-taking and test preparation skills. It also begins to look into research skills that students will need to investigate post-secondary employment or academic vocational programs. In addition, Study Skills 2 serves as a period in which students may complete assessments or consult with other school staff to meet their individual needs.</p> <p>Prerequisite: Department Chair approval. Open to grade 10.</p>
<p>LEARNING STRATEGIES 1 <i>Course # 1958, 1959</i> Full year Credit: 0.5</p>	<p>Learning Strategies 1 is a junior-level class. Students are enrolled in this class based upon a teacher’s recommendation. This class supports students with their study strategies and executive functioning skills. The course also prepares students for any upcoming assessments through academic content review and effective test taking strategies. Additionally, students may use their learning strategies class time to complete classroom assessments and to seek out support from other academic departments. A final component to Learning Strategies is to continue the process of post-secondary planning.</p> <p>Prerequisite: Department Chair approval. Open to grade 11.</p>
<p>LEARNING STRATEGIES 2 <i>Course # 1961, 1962</i> Full year Credit: 0.5</p>	<p>Learning Strategies 2 is a senior-level class. Students are enrolled in this class based upon a teacher’s recommendation. This class supports students with their study strategies and executive functioning skills. This course also prepares students for any upcoming assessments through academic content review and effective test taking strategies. Additionally, students may use their learning strategies class time to complete classroom assessments and to seek out support from other academic departments. A final component to Learning Strategies is to continue the process of post-secondary planning.</p> <p>Prerequisite: Department Chair approval. Open to grade 12.</p>
<p>PROGRAM SUCCESS <i>Course # 1956A, 1957A</i> Full year Credit: 0.5</p>	<p>Program Success provides students time in their day to get additional support with their academic course work and provides students an opportunity to process interactions that have occurred which are having an impact on the student. In addition, arrangements can be made to provide students with academic instruction in a small setting. This instructional arrangement may be necessary for a short duration while new interventions are planned. Program Success also serves as a time when students can communicate with staff, or complete assessments.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>

ADDITIONAL ACADEMIC OPPORTUNITIES

<p>HAVEN Course # 9701/9702 Credit: No Credit</p> <p><i>This is a District 86 program housed at Hinsdale South High School</i></p>	<p>The District 86 therapeutic program, HAVEN, is for students whose behavioral and emotional needs impede and/or significantly disrupts the learning environment for other students despite learning environment supports attempted. The goal is to provide students with developmentally appropriate Pro-Social Independence. The program is designed to assess the level of pro-social independence of each student and to devise strategies, interventions and experiences that help the student build their capacity to become increasingly independent and successful in a school setting. Students will engage in academic course work in order to meet District 86 requirements toward graduation. These supports are provided to students in a small class setting in order to ensure that their academic and social goals are being met. <i>HAVEN is an acronym for Hinsdale Area's Vision of Emotional Needs.</i></p> <p>Prerequisite: IEP Team recommendation and Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>PRE-VOC FOUNDATIONS Course # 2100 Full year Credit: 1.0</p>	<p>This course explores essential skills related to employment. Emphasis will be placed on hands-on in school job training, entry level workplace skill development which may include: following a schedule, time management, efficiency, responsibility, work etiquette, following directions and communicating with co-workers and supervisors. This class meets the Consumer Education requirement.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>ELECTIVE FOUNDATIONS Course # 2060 Full year Credit: 1.0</p>	<p>Through cooperative games and leisure activities, students will explore essential components of self-awareness & self-management, social-awareness, interpersonal skills, and decision-making.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>COOPERATIVE WORK TRAINING Course # 1931, 1932 Full year Credit: 0.5/semester</p>	<p>This course explores obtaining and maintaining a part time paid position in the community. Students enrolled in this class are actively looking or are currently working at a part time job. This class meets once a week during a study hall period to address job application completion and job retention. Seminars are offered throughout the course to address employment topics such as career exploration, understanding your paychecks, conflict resolution, resume and cover letter development, and interviewing skills.</p> <p>Prerequisite: Department Chair approval. Open to grades 10, 11, and 12.</p>
<p>PRE-VOCATIONAL SUPERVISED JOB TRAINING Course # 1941, 1942 Full year Credit: 0.5/semester</p>	<p>This course explores more in-depth application and practice in both school and community based job training, as identified based on individual goals. This class emphasizes career exploration & planning, job application, job search, interviewing, resume development, cover letters, and continued development on communication skills.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>ADULT OPPORTUNITIES Course # 2930 Credit: No credit</p> <p><i>This is a District 86 program offered at the Transition Center.</i></p>	<p>Adult Opportunities is a Community-Based Program for students ages 18-21. The purpose of the program is to implement an innovative, adult-centered community program through a collaborative approach that prepares students for adulthood success while promoting opportunities for independence in the areas of: employment, post-secondary education and training, independent living skills, and community.</p> <p>The goals of the Adult Opportunities program are to: increase independence in adult living situations; improve self-determination skills; improve social and communication skills; increase leisure, recreation, and life skills; experience work-based learning and volunteer work; and prepare for community living and participation.</p> <p>Prerequisite: Teacher recommendation and Department Chair approval. Open to post 12th grade, ages 18-21.</p>

ADDITIONAL ACADEMIC OPPORTUNITIES

ADVANCED PLACEMENT PROGRAM

The Advanced Placement (AP) Program provides students with the opportunity to pursue college-level studies while still in high school and to receive advanced placement and/or credit when entering college. Qualified, academically-oriented students in the 10th, 11th and 12th grades are eligible to participate in the Advanced Placement Program at Hinsdale Central High School.

The Advanced Placement Program at Hinsdale Central High School consists of the following courses:

AP Art History	AP Calculus AB	AP Physics 1
AP Studio Art	AP Calculus BC	AP Physics 2
AP Language & Composition	AP Computer Science Principles	AP Physics C
AP Literature & Composition	AP Computer Science A	AP Seminar: Science
AP French Language and Culture	AP Statistics	AP European History
AP Latin Vergil	AP Music Theory	AP Microeconomics
AP Spanish Language and Culture	AP Biology	AP Macroeconomics
AP Spanish Literature and Culture	AP Chemistry	AP Psychology
	AP Environmental Science	AP U.S. Government & Politics
	AP Research: Science	AP U.S. History

* Upon completion of World History Honors, students may take the World History AP exam

DEPARTMENTS

Advanced Placement courses are offered by seven departments: Art, English, Mathematics, Music, Science, Social Studies, and World Languages. These courses adhere to College Board approved course descriptions and serve as the primary vehicle to prepare students for the voluntary AP examinations in May. In addition to preparing students for the AP exams, AP courses allow students to experience the pace and intensity of college-level courses while still in high school. Some AP courses may explore opportunities for students to work in teams on interdisciplinary themes or projects. Such activities would be designed to provide students the opportunity to solve real-world problems across AP subject areas. The AP courses are challenging and stimulating, require more work and more time than other high school courses.

EXAMINATIONS

The Advanced Placement examinations are administered each year during the second and third weeks of May and can be described as “tough, but fair.” Usually three hours in length, each exam consists of a multiple choice section and free-response section that requires essay writing or problem solving. Every examination receives an overall grade from a team of carefully selected college professors and high school AP teachers on a five-point scale: 5 (extremely well qualified), 4 (well qualified), 3 (qualified), 2 (possibly qualified), and 1 (no recommendation). An AP Grade Report is obtainable online in July to each student, the high school, and if the student requests it, to the college. Unless recommended by the teacher not to do so, all enrolled AP students are expected to take their course ending examinations. For practice tests – check out apstudent.collegeboard.com.

CREDIT

Although each college determines what AP examination grades it will accept for credit and/or advanced placement, the great majority of colleges accept grades of 3 or better and award the student with credit in the subject matter tested. In some cases, no credit is given, but the student may begin the program of study at an advanced level. Students wanting to know what AP grades are considered acceptable by the colleges in which they are interested should write the Director of Admissions of the college or consult with the Director of Counseling at Hinsdale Central. For more information, check out apstudent.collegeboard.com.

FEES

Last year’s fee for each AP exam as established by the College Board was \$94 with an additional \$45 per exam late-testing fee. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. For schools participating in AP Capstone in 2018-19, there will be an additional fee for the class.

ADDITIONAL ACADEMIC OPPORTUNITIES

HONORS PROGRAM

In the Art, Business, English, Mathematics, Music, Science, Social Studies, and World Languages departments, particular courses are designated as honors courses. Honors courses are designed to challenge students of superior ability by enriching and/or accelerating the course content and have standards of high achievement distinctly above those of regular courses. Instruction in honors courses occurs at a faster pace, covers the subject matter in more depth and emphasizes higher level thinking skills.

Honors courses are offered by Art, Business, Family and Consumer Sciences, and Technology Education. The courses allow students to experience a more intense curriculum, higher expectations and greater responsibilities. These courses are challenging and will require more work and time than other high school courses. Admission to the Honors Option courses is based upon a student's application and departmental approval.

EXCEL STUDY HALLS

Course # 1020, 1024, 1027, 1028 Credit: 0.50

Excel is designed as an academic support program. Students assigned to the Excel Study Hall will attend every day during their scheduled period and will continue to receive these services until all grades earned are at a C level or above for two consecutive quarters at which point they can transfer into a regular study hall. Excel Study Hall is an academic program where students meet in a supportive environment to receive assistance. The Excel Study Hall staff members consult with classroom teachers and parents to help improve each student's achievement in courses. A 0.5 credit is earned per semester for successful participation in this program. Student support in the areas of organizational skills, study skills, and homework completion will be available and structured with each program. Prerequisite: None. Open to grades 9, 10, 11, and 12. May be repeated.

ADDITIONAL ACADEMIC OPPORTUNITIES

HONORS/AP SEQUENCING

Admission to the honors program is based upon several established selection criteria:

- Teacher recommendation
- Results of the 8th grade placement test
- Past academic performance
- Departmental approval

Students with superior ability, a commitment to the subject matter and motivation to learn are encouraged to apply for admission to the honors program.

ADDITIONAL ACADEMIC OPPORTUNITIES

AP CAPSTONE

What is AP Capstone?

AP Capstone™ is a College Board program that equips students with the independent research, collaborative teamwork, and communication skills that are increasingly valued by colleges. It cultivates curious, independent, and collaborative scholars and prepares them to make logical, evidence-based decisions.

AP Capstone is comprised of two AP courses — **AP Seminar** and **AP Research** — and is designed to complement and enhance the discipline-specific study in other AP courses.

Benefits of AP Capstone

- Fosters the **research**, argumentation, and communication skills that are at the core of college readiness and essential for lifelong learning.
- Provides a setting to build on the knowledge and rigorous course work of AP in an **interdisciplinary** format.
- Offers students a unique opportunity to **distinguish** themselves to colleges and universities.

Combining Scholarly Practice with Academic Intensity

AP Capstone was developed in response to feedback from higher education. The two AP Capstone courses, with their associated performance tasks, assessments, and application of research methodology, require students to:

- Analyze topics through multiple lenses to construct meaning or gain understanding.
- Plan and conduct a study or investigation.
- Propose solutions to real-world problems.
- Plan and produce communication in various forms.
- Collaborate to solve a problem.
- Integrate, synthesize, and make cross-curricular connections.

See page 89 for course descriptions and prerequisites

ART DEPARTMENT

ART

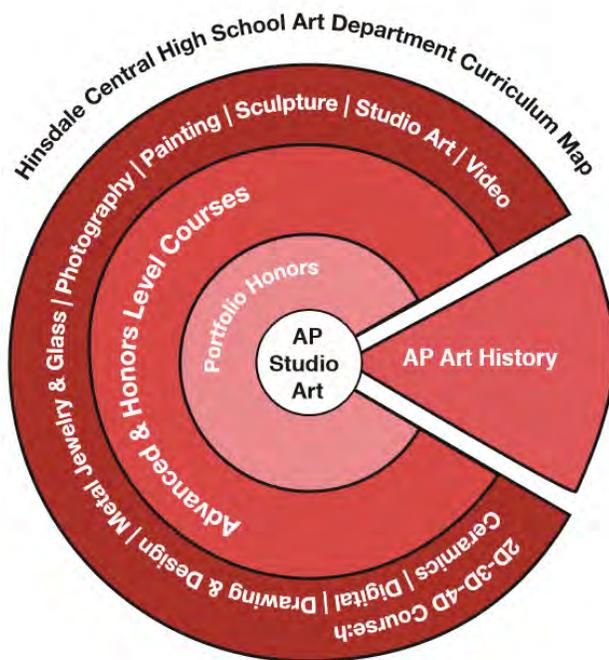

District 86 requires the successful completion of two Elective Arts Credits. Two fine arts credits fulfill the Illinois state public university entrance requirement in Art, Music or Vocation education. Within the Hinsdale Central Art Department, students use media, tools, and technologies to make personal work. As a result, students become problem-solvers and creative thinkers. Student work is displayed throughout the school and community on a continuing basis. Supply fees are required for participation in studio courses.

Articulated credits at College of DuPage are available to Hinsdale Central students who complete certain courses at Hinsdale Central with at least a grade of B and who, upon graduation, attend C.O.D. Articulated credit at College of DuPage is available with the completion of the sequence of Basic Photography and Digital Color Photography.

MISSION STATEMENT

The artistic, intellectual, and personal development of young people, through the visual arts, is the goal of the Hinsdale Central Art Department. We, the art faculty, as mentors, coaches, and artists, are committed to creating a challenging, authentic, and caring creative environment. We challenge students to develop excellence and creativity through art work and to appreciate the importance of art in daily life and culture.

ART DEPARTMENT

Studio Art or Studio Art Honors*							
<i>Studio Art is the only survey course in the Art Department– it is recommended, but not required (9-12)</i>							
Drawing and Design (9-12)	Painting (9-12)	Metal, Jewelry, and Glass (9-12)	Ceramics (9-12)	Sculpture (9-12)	Photography (9-12)	Digital Imaging I (9-12)	Digital Video Art (9-12)
Advanced Drawing and Design* (9-12)	Advanced Painting* (9-12)	Advanced Metal, Jewelry, and Glass* (9-12)	Advanced Ceramics* (9-12)		Digital Color Photography* (9-12) Adv. Photography* (10,11,12)	Digital Imaging II* Or Graphic Design (9-12)	
<i>* Advanced level courses may be taken for Honors credit</i>							
Honors Portfolio (11, 12)**						AP Art History** (10-12)	
AP Studio Art (11,12)** Includes: Drawing/Painting Portfolio, Photography Portfolio, 2-D Design Portfolio, and 3-D Portfolio							
<i>** Honors credit courses</i>

ART DEPARTMENT

<p>STUDIO ART <i>Course #5101, 5102</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$22.00</p>	<p>Studio Art is the only course at Central in which introductory students can experiment in a variety of materials. Students will explore fundamental aspects of design, drawing, painting, jewelry, mixed media, and sculpture. Emphasis will be placed on creativity, craftsmanship, and problem solving.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>STUDIO ART HONORS <i>Course #5101A, 5102A</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$22.00</p>	<p>Studio Art Honors is an opportunity for students who are highly motivated and serious about their study of art at Central. Studio Art is the only departmental course that explores a variety of materials. You will explore fundamental aspects of design, drawing, painting, jewelry, mixed media, and sculpture. Emphasis will be placed on creativity, craftsmanship, and problem solving. Honors students are required to keep a journal, visit museums and galleries and enter competitions outside of class to improve and expand their artwork.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester. Open to grades 9, 10, 11, and 12.</p>
<p>DRAWING & DESIGN <i>Course #5211, 5212</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee \$18.00</p>	<p>Drawing & Design is a beginning through intermediate level drawing course. You'll learn basic drawing skills and work with pastel, charcoal, pencil, and pen. Projects will challenge your creativity whether you are a novice or experienced artist.</p> <p>Prerequisite: Studio Art is highly recommended. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED DRAWING & DESIGN <i>Course #5221, 5222</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$18.00</p>	<p>Advanced Drawing & Design continues to develop skills learned in Drawing class. Further exploration of drawing mediums and creative themes will be stressed. The course is geared towards the drawing student.</p> <p>Prerequisite: Drawing & Design. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED DRAWING & DESIGN HONORS <i>Course #5223, 5224</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$18.00</p>	<p>Advanced Drawing & Design Honors is geared towards the serious, more experienced and highly motivated drawing student. Students are required to keep a journal, visit museums and galleries and enter competitions outside of class.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester. Open to grades 9, 10, 11, and 12.</p>
<p>PAINTING <i>Course #5311, 5312</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$22.00</p>	<p>Painting is a class about thinking like a painter. Work in acrylics, watercolor, and oil paint; the course will expose you to many types of painting. Although it is challenging, the course is really fun.</p> <p>Prerequisite: Studio Art is highly recommended. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED PAINTING <i>Course #5321, 5322</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$22.00</p>	<p>In this class, you create a series of paintings based on your own theme. Advanced painters also do a few exercises that allows students to try a new strategy or skill. This course gives students more freedom to determine a personal style and make design choices.</p> <p>Prerequisite: Painting. Open to grades 9, 10, 11, and 12</p>
<p>ADVANCED PAINTING HONORS <i>Course #5323, 5324</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$22.00</p>	<p>Advanced Painting Honors is geared towards the serious, more experienced and highly motivated painting student. Students are required to keep a journal, visit museums and galleries and enter competitions outside of class.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester. Open to grades 9, 10, 11, and 12.</p>

ART DEPARTMENT

<p>JEWELRY, METAL, AND GLASS <i>Course #5351, 5352</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$22.00</p>	<p>Jewelry, Metal, and Glass is a fun and challenging course. You will create small and wearable sculptures from a variety of metals. Glass is also explored through enameling, glass fusing, and glass bead-making. Develop your creative thinking and your fine motor skills (calling all future surgeons and dentists).</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED JEWELRY, METAL, AND GLASS <i>Course #5361, 5362</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$22.00</p>	<p>This concentration enables students to explore the potential of jewelry as a communication tool. You will explore a variety of materials and methods with a focus on body adornment and development of themes. Advanced Jewelry, Metal, and Glass will focus on the development of independent thinking and personal expression. Creative exploration is the key.</p> <p>Prerequisite: Jewelry, Metal, and Glass. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED JEWELRY, METAL, AND GLASS HONORS <i>Course #5363, 5364</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$22.00</p>	<p>Advanced Jewelry, Metal, and Glass Honors is geared towards the serious, more experienced and highly motivated jewelry student. Students are required to keep a journal, visit museums and galleries and enter competitions outside of class.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester. Open to grades 9, 10, 11, and 12.</p>
<p>CERAMICS / CLAY SCULPTURE <i>Course #5421, 5422</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$20.00</p>	<p>Ceramics is an introduction to the basic techniques including hand building, wheel throwing, and glazing. Students will produce both functional and sculptural projects with an emphasis on creativity.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED CERAMICS <i>Course #5431, 5432</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$20.00</p>	<p>Advanced hand building and glazing techniques will also be covered. Emphasis is placed on individual exploration of the potter's wheel and larger hand-built forms. Personal awareness of form, content, and design will be explored. Improve upon and expand what you can do with clay in this class.</p> <p>Prerequisite: Ceramics/Clay Sculpture. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED CERAMICS HONORS <i>Course #5433, 5434</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee \$20.00</p>	<p>Advanced Ceramics/Clay Sculpture Honors is geared towards the serious, more experienced and highly motivated ceramics student. Students are required to keep a journal, visit museums and galleries and enter competitions outside of class.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester. Open to grades 9, 10, 11, and 12.</p>
<p>SCULPTURE <i>Course #5441, 5442</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee \$17.00</p>	<p>In this studio course, students will explore and develop three dimensional designs. Glass, clay, fiber, metals and found objects are some of the materials that will be used. Weld, build, and create in three dimensions.</p> <p>Prerequisite: One semester of Art. Open to grades 9, 10, 11, and 12.</p>
<p>BASIC PHOTOGRAPHY TRADITIONAL and DIGITAL BLACK & WHITE <i>Course #6691, 6692</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$35.00</p>	<p>Basic photography is for students interested in learning the techniques necessary to produce technically correct and aesthetically pleasing photographs. Digital and film capture of images will be explored. Areas of study will include, but are not limited to, the composition of a good photograph; the processing of black and white photographic materials; and proper application of photographic equipment and supplies. Photographic equipment and supplies will be provided along with cameras for students who do not have access to a Single Lens Reflex (SLR) camera.</p> <p>Prerequisites: None. Open to grades 9, 10, 11, and 12.</p>

ART DEPARTMENT

<p>DIGITAL COLOR PHOTOGRAPHY <i>Course #6701, 6702</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$35.00</p>	<p>This course is for students interested in the modern methods of Digital Color Photography. The student will use a digital camera to capture images. After capture, photographs will be produced in the digital darkroom using a computer and Photoshop software. Areas of study include, but are not limited to, the principles of color and light; elements of a good photograph; capturing images with a digital camera; editing a photograph for presentation with Photoshop; printing a digital file in color; and preparing a photograph for display. The studio will be used to further the use of shade and shadow, light ratios, and photographic composition techniques. Still life and portrait techniques will be explored. Equipment and supplies will be furnished. Cameras are available for students who do not own or have access to a digital camera. Basic Photography and Digital Color Photography together have articulated credit with the College of DuPage.</p> <p>Prerequisite: Basic Photography. Open to grades 9, 10, 11, and 12.</p>
<p>DIGITAL COLOR PHOTOGRAPHY HONORS <i>Course #6703, 6704</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$35.00</p>	<p>Beyond the regular advanced photography content, additional projects and assignments will require the selection of a concentration and/or theme by the student. The selected theme will necessitate greater depth, complexity, and rigor to produce higher-level photographs. Expectations for this class will require extra lab work outside of class. This class is recommended for highly motivated photography students looking to add meaningful pictures to their portfolio.</p> <p>Prerequisite: Basic Photography. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED PHOTOGRAPHY <i>Course #6812</i> 2nd semester Credit: 0.5</p> <p>Supply fee: \$40.00</p>	<p>In this advanced level course, students will be expected to improve upon their current level of photographic ability. Students will have the opportunity to explore digital and film capture of images. In terms of technique, students will be introduced to different camera formats and the zone system (a procedure which will allow students to make more carefully controlled photographic prints.) Additionally, some non-traditional films, papers, and emulsions will be introduced. In terms of content, through class assignments and independent work, students will further their use of the photographic medium to more effectively articulate ideas. Students will have the opportunity to work with black and white film, color film, infrared film, and digital cameras to capture images. Students will be expected to properly display and critique their photographic work.</p> <p>Prerequisites: Basic Photography and Digital Color Photography with instructor approval. Open to grades 10, 11, and 12.</p>
<p>ADVANCED PHOTOGRAPHY HONORS <i>Course #6814</i> 2nd semester Credit: 0.5</p> <p>Supply fee: \$40.00</p>	<p>Beyond the regular advanced photography content additional projects and assignments will require the selection of a concentration and or theme by the student. The selected theme will necessitate the demonstration of greater photographic complexity, and an advanced understanding of light to produce higher-level photographs. Expectations for this class will require extra lab work outside of class. This class is recommended for highly motivated photography students looking to add meaningful well-composed pictures to their portfolio.</p> <p>Prerequisites: Basic Photography and Color Photography with instructor approval. Open to grades 10, 11, and 12.</p>
<p>DIGITAL IMAGING 1 <i>Course #5121, 5122</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee \$17.00</p>	<p>This course is designed for students who want to create art on the computer. Artistic and creative problem solving strategies are developed which can help students in all areas of learning. Students take their own digital photographs. Each student will use these images to create original works of art using the software Adobe Photoshop CS5. Students will create a cartoon in Adobe Illustrator CS5 and a digital portfolio is created on a web interface. Software is MAC OS 10.5 or higher. Digital Imaging 1 introduces students to many different tools in Adobe Photoshop and Illustrator while working on their own digital images. Students use their imagination to take and manipulate digital photographs. If students want to pursue a career in graphics, illustration, or another design field, this course is perfect.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>

ART DEPARTMENT

<p>DIGITAL IMAGING 2 <i>Course #5131, 5132</i> 2nd semester Credit: 0.5</p> <p>Supply Fee: \$17.00</p>	<p>Further explore and develop your skills in Adobe Photoshop and Illustrator. While enhancing student's skills, they will work independently on your chosen theme. Major projects are self-directed and flow from your imagination and motivation.</p> <p>Prerequisite: Digital Imaging 1. Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC DESIGN <i>Course #5331, 5332</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$17.00</p>	<p>Dreaming of a career as a Graphic Designer, Art Director, Animator, or other design field? Using Photoshop, InDesign and Illustrator, students will solve design projects for real-client directed design challenges in addition to class design challenges. Working knowledge of Adobe Photoshop CS3, Adobe Illustrator CS3, and Adobe InDesign are needed. Software is MAC OS 10.5 or higher.</p> <p>Prerequisite: Digital Imaging 1. Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC DESIGN HONORS <i>Course # 5335, 5336</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$17.00</p>	<p>This course is recommended for students who are interested in working as a design-creative or art director. Using Photoshop, InDesign and Illustrator, you will solve real-client directed design challenges, in addition to, class design challenges. Honors students are expected to keep a formal journal, attend a workshop outside of class, in addition to class projects.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester. Open to grades 9, 10, 11, and 12.</p>
<p>DIGITAL VIDEO ART <i>Course #5475, 5476</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$17.00</p>	<p>Digital Video Art introduces you to the 4th dimension, TIME. Be creative using digital video techniques or combine moving images with still images. Visual experimentation is encouraged through directing, producing, editing, sound design, screenwriting and videography. Students will work independently and collaboratively to develop their short films. Final Cut Pro and After Effects software will be used for post-production. Students will be encouraged to enter video competitions.</p> <p>Prerequisite: None, but Digital Imaging is recommended. Open to grades 9, 10, 11, and 12.</p>
<p>HONORS PORTFOLIO <i>Course #5473, 5474</i> 1st or 2nd semester Credit: 0.5 (may be repeated twice)</p> <p>Supply Fee: \$22.00</p>	<p>Students will create a body of artwork based on a personal exploration of a central theme or idea. This body of work represents the results of rigorous research, planning and problem-solving. Each student is required to create a reference manual that combines multiple explorations of a variety of media. The work produced in this course may be used as part of the Advanced Placement Art Portfolio. Honors students are expected to keep a formal journal, attend a workshop outside of class, in addition to class projects. The work produced in this course may be used as part of the Advanced Placement Art Portfolio.</p> <p>Prerequisite: Advanced level course. Portfolio review with Department Chair approval. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT ART HISTORY <i>Course #5440</i> Full Year Credit: 1.0</p>	<p>This course provides a survey of the history of art. It is designed to prepare students to take the Advanced Placement examination. Students enrolling in this course are expected to have well developed writing skills and an interest in art and culture. By viewing art from different periods and cultures, they will have a better understanding of world history. Students will be able to travel and wander through museums with an understanding of what they are seeing. Memorization of facts, understanding of larger concepts, and a love of writing will help you. We also go out to view art, occasionally work with art materials, and develop more creative responses to the art and architecture we study.</p> <p>Prerequisite: Department Chair approval. Open to grades 10, 11, and 12. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>

ART DEPARTMENT

**ADVANCED
PLACEMENT STUDIO
ART**

Course #5450

Full year

Credit: 1.0

This course provides accelerated students with a challenging program of college-level studio work. Prior to the end of the academic year, a portfolio of approximately 44-46 pieces will be submitted to the College Board for evaluation and possible college credit. The AP Program offers three portfolios: Drawing (painting, printmaking, drawing), 2-D Design (photography, graphic design, product design, fashion design), and 3-D Design (jewelry, ceramics, sculpture). AP Studio is a work-intensive, serious, and thought-provoking class. Anyone who ranks art among their primary interests should consider taking this course. This is a fulfilling challenge.

Students interested in this course need to sign up for a brief interview at the Art office before first semester final exams.

Prerequisite: Portfolio review and Department Chair approval. Open to grades 11 and 12. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.

**Supply Fee: \$40.00
(excludes series materials)**

- Digital Literacy Tool 2

- Digital Literacy & Applications
- Entrepreneurial Studies
- Internship
- Internship Honors
- Introduction to Business
- Investment Planning
- Marketing
- Sports Marketing
- Tech Support Internship

Business courses can fulfill 1 credit for the District 86 graduation requirement in the Elective Arts. Business courses can also be taken for general/elective credit. The 0.5 consumer education graduation requirement may be met by successful completion of the department's Consumer Economics course or Introduction to Business.

Business Department courses are electives; however, with the increase in reliance on technology in our society, the department strongly recommends that all students include computer courses in their high school studies (i.e. Digital Literacy 1 & 2 and Essential Technology).

Students who are contemplating a Business major in college should select one or more Business electives because of the difficulty of college-level Accounting, students are urged to take an Accounting course at Hinsdale Central.

Consumer Economics can be taken any time between sophomore and senior year to meet State of Illinois Consumer Education Requirement.

Internship or **Internship Honors** can be taken Junior or Senior year and is completed outside of the regular school day according to student availability (course can be repeated).

Digital Literacy 1 or 2 can be taken any year, however, taking it early will enhance technology skills for use in later school years.

BUSINESS DEPARTMENT

COMPUTER COURSES	
<p>DIGITAL LITERACY 1 Course #6121, 6122 1st or 2nd semester Credit: 0.5</p>	<p>In this one-semester course, students will expand their knowledge of digital technology and its application in academics and the real world. Students will master the basics of Google Docs, Sheets, Slides, Drawings, and Forms. Students will examine their digital literacy as well as their own digital footprint. Through integrated and collaborative projects, students will apply 21st Century Skills. This course will help students improve their typing skills and technique. Students will also be introduced to a variety of design tools and basic website development.</p> <p>Prerequisite: None. Next course in sequence: Digital Literacy 2. Open to grades 9, 10, 11, and 12</p>
<p>DIGITAL LITERACY 2 Course #6331, 6332 1st or 2nd semester Credit: 0.5</p>	<p>In this one-semester project-based course, students will continue to expand their knowledge of digital technology. Students will master the advanced features of Google Docs, Sheets, Drawings, and Forms by designing promotional materials and professional documents. Using curriculum from Computer Science Discoveries, an introductory computer science course, students will create authentic artifacts and learn the basics of programming and coding. Students will also explore how technology supports business in the fields of Sports and Entertainment Marketing, Hospitality Management, Accounting and Finance. Students will become well versed in Excel. Students will design a website, record a podcast, create a blog, and develop videos on a topic of their choice.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12. Completion of Digital Literacy 1 is recommended.</p>
<p>ESSENTIAL TECHNOLOGY Course #6130 Full year Credit: 1.0</p>	<p>This full-year introductory course allows students to acquire and refine basic computer skills in the digital age. As a result of this course, students will increase their typing speed and accuracy. Students are taught word processing/keyboarding skills, spreadsheets, charts, and digital presentations. The evolving curriculum in this course matches the changes of technology in the world of work. Upon completion of this course, students will be able to understand why technology and their personal digital footprint are important forces in our society. Web-based applications and tools will also be utilized during class projects. This course is similar in content to a combined Digital Literacy 1 & 2, but curriculum will be individualized and paced appropriately to meet each student's needs.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, 12</p>
BUSINESS COURSES	
<p>INTRODUCTION TO BUSINESS Course #6100 Full year Credit: 1.0</p> <p>(0.5 Elective Arts/0.5 Consumer Ed. - Must complete the entire year to receive Consumer Ed. credit)</p>	<p>This course gives students a background in the basic operations of business and develops an understanding of the economic role of business in our society. Major areas of study include economics, banking, credit, insurance, budgeting, consumer protection, government, entrepreneurship and taxes. Skill is developed through a wide variety of activities including computer research, projects, and classroom activities.</p> <p>Successful completion of this course fulfills the District's Consumer Education requirement for graduation. Prerequisite: None. Open to grades 9 and 10.</p>
<p>INVESTMENT PLANNING Course #6111, 6112 1st or 2nd semester Credit: 0.5</p>	<p>In this course students will study basic investment principles involving stocks, commodities, bonds and mutual funds. Students will also learn about tax information, effects of the economy on the market, government regulations of securities and on-line investing. Current issues as they relate to investing will be discussed. Teams will be formed to participate in the Stock Market Game by trading on-line.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>

BUSINESS DEPARTMENT

<p>ACCOUNTING <i>Course #6170</i> Full year Credit: 1.0</p>	<p>This course develops a basic understanding of double-entry accounting. The accounting cycle, accounting theory, financial reports and financial analysis are included. Online accounting work papers, spreadsheets and accounting software are used to apply all accounting concepts. This course is recommended for college-bound students planning a career in accounting, finance, management or marketing.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>ACCOUNTING HONORS <i>Course #6180</i> Full year Credit: 1.0</p>	<p>Accounting Honors will prepare students for the rigor of college accounting. Students will develop an understanding of double-entry accounting. Topics covered include the following: accounting cycle, accounting systems, internal controls, journals, receivables and payables, accruals and deferrals, inventory, fixed assets and depreciation, financial statement preparation and analysis, and taxes. A computerized accounting program will be utilized, as well as the Excel spreadsheet program. The core material for this course is similar to Accounting 6170; however, more topics are covered, the pace is accelerated and expectations are higher. This course is highly recommended for motivated students planning to enter a college business program.</p> <p>Prerequisite: Department Chair approval. Open to grades 11 and 12.</p>
<p>MARKETING <i>Course #6181, 6182</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course focuses on the activities necessary to market products, services, and ideas to consumers. Major topics include market segmentation, consumer behavior, marketing research, product planning, and advertising. Students will apply marketing concepts learned in class by researching, creating and advertising new products.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>SPORTS MARKETING <i>Course #6183, 6184</i> 1st or 2nd semester Credit: 0.5</p>	<p>This intermediate marketing course will introduce students to the exciting field of sports marketing and its role in society. Students will develop a thorough understanding of the marketing concepts and theories that apply to sports and sporting events. Course topics will include sponsorships, endorsements, licensing, event marketing and sports marketing plans. Students will plan, create, and assess sports marketing communication programs that include advertising, marketing, public relations and news media. Emerging issues in sports marketing will also be discussed.</p> <p>Prerequisite: Marketing. Open to grades 10, 11, and 12.</p>
<p>BUSINESS LAW 1 <i>Course #6231, 6233</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces students to the legal system and the law as it applies to personal and business situations which may occur in their daily lives. It also examines the court system, torts, crimes, technology and the law, contracts, family law, wills and estates. Key elements of this course are case studies, mock trials and a field trip to the courts and jails. NCAA approved course.</p> <p>Prerequisite: None. Next course in sequence: Business Law 2. Open to grades 11 and 12</p>
<p>BUSINESS LAW 1 HONORS <i>Course #6234, 6235</i> 1st or 2nd semester Credit: 0.5</p>	<p>The core material for this course is similar to Business Law 1 course #6231; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college business program. NCAA approved course.</p> <p>Prerequisite: Department Chair approval. Next course in sequence: Business Law 2. Open to grades 11 and 12.</p>
<p>BUSINESS LAW 2 <i>Course #6232</i> 2nd semester only Credit: 0.5</p>	<p>This course examines the criminal justice system, the Supreme Court, bailments and real estate transactions, ethics and employment policies and contracts. Group discussions, case studies, guest speakers and a field trip will be utilized to present and examine these concepts. To develop a better understanding of the legal system, students will participate in a mock trial tournament throughout the semester. NCAA approved course.</p> <p>Prerequisite: Business Law 1 or Business Law 1 Honors. Open to grades 11 and 12.</p>

BUSINESS DEPARTMENT

<p>BUSINESS LAW 2 HONORS Course #6236 2nd semester only Credit: 0.5</p>	<p>The core material for this course is similar to Business Law 2 course #6232; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college business program. NCAA approved course.</p> <p>Prerequisite: Business Law 1 or Business Law 1 Honors and Department Chair approval. Open to grades 11 and 12.</p>
<p>ENTREPRENEURIAL STUDIES Course #6241, 6242 1st or 2nd semester Credit: 0.5</p>	<p>Do you have an interest in owning or running a business some day? This course will help you develop that entrepreneurial spirit and the skills necessary to be successful in your new business. Topics of study include the entrepreneurial personality and skills; marketing, financing and managing a business; legal requirements of a business; and career opportunities in entrepreneurship. Students will develop an idea and create a business plan.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>CONSUMER ECONOMICS Course #6301, 6302 1st or 2nd semester Credit: 0.5</p>	<p>This course helps students to understand the consumer's role in a mixed economy. Students will learn about various topics that they will use their entire life. Topics of study include: money management, consumer rights and responsibilities, credit, purchasing of goods and services, making sound investment plans and preparing individual tax returns.</p> <p>Successful completion of this course fulfills the District's Consumer Education requirement for graduation. (An online version of this course is available. See page 10 for details.)</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>INTERNSHIP Course #8401, 8402 1st or 2nd semester Credit: 0.5 General credit only Not Elective Arts credit</p>	<p>This program is designed to provide students with an opportunity for career exploration in a field of their choice. Students will work with a mentor outside of the school day for 50-75 hours in their career field. Due to time constraints, it is suggested that students have their own placements, however, if assistance is needed finding a placement, students should contact an internship coordinator. Students will be expected to keep a detailed journal, write a reflection paper and discuss their experiences with a related class.</p> <p><i>Students will receive a pass or fail grade only for this course.</i></p> <p>Prerequisite: None. Open to grades 11 and 12 upon acceptance after interview.</p>
<p>INTERNSHIP HONORS Course #8403, 8404 1st or 2nd semester Credit: 0.5 General credit only Not Elective Arts credit</p>	<p>The core material for this course is similar to Internship course #8401/8402; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time. This course is highly recommended for motivated students giving serious consideration to a specific career.</p> <p><i>Students will receive a weighted grade for this course.</i></p> <p>Prerequisite: Department Chair approval. Open to grades 11 and 12 upon acceptance after interview.</p>

BUSINESS DEPARTMENT

**TECH SUPPORT
INTERNSHIP
(TSI)**
Course #8405
Credit: 1.0

The Technology Support Internship (TSI) course is a hands-on study of technology integration in an educational context. Students will be trained to oversee daily technology issues in order to assess which problems surface throughout the school day. Students will define the best approach to addressing or solving the problems for students and teachers.

Students will troubleshoot hardware, software, and network problems, as well as process service tickets and inventory stock. Students will be required to complete and maintain several running projects that address problems or solutions in educational tech integration. They will also be expected to provide training sessions on Chromebook use and digital citizenship to incoming freshmen and transfer students. The course also provides students with the opportunity to pursue an independent learning pathway and potential professional certifications in one of four areas: Application, Innovation, Design, and Entrepreneurship.

Prerequisite: Department Chair approval/application. Open to grades 10-12
This course can be repeated as an Honors Option available after completion of the first year.

VISION STATEMENT

ENGLISH

High School District 86 requires the successful completion of a minimum of four English credits for graduation. In addition, all students who are enrolled in school must be enrolled in an English course **each semester**. The four credits in English must be taken and passed sequentially and include full year courses freshman and sophomore years and full or half-year courses junior and senior years. Junior and senior students must take core English courses in the following areas: semester courses in writing, literature and communication, or full year courses in literature/writing. Only one communication course taken junior or senior year will count toward the core requirement. There are enrichment courses open to all grade levels.

VISION STATEMENT

The skills and knowledge of English/language arts are essential for student success in virtually all areas of the curriculum and society. To meet the challenges of the 21st Century, students need to be clear and effective writers and speakers, critical and insightful readers, and life-long independent and collaborative learners. With the guidance of parents, community, and a dedicated English faculty, our students will graduate from Hinsdale Central as valuable contributors to the world in which we live.

MISSION STATEMENT

The mission of the English Department is to develop in each of our students the following academic attributes: an understanding and appreciation of literature; a proficiency and confidence in writing; the ability to understand communication clearly through active listening, critical observation, and analysis; creativity and imagination in the areas of reading, writing, and speaking; and an appreciation of various cultural and human perspectives through the study and discussion of literature.

ENGLISH

<p>ENGLISH 1 <i>Course #1110</i> Full year Credit: 1.0</p> <p>Supply fee: \$12.00 <i>For No Red Ink Subscription</i></p>	<p>English 1 will introduce students to the rigor and expectations of high school writing, literature, research, vocabulary, grammar, and speech. Writing instruction focuses on clear expression and understanding the essential aspects of academic writing. Reading instruction focuses on building academic literacy skills and an appreciation of literary texts. Research skills, source identification, development of search strategies, and attribution are all taught in conjunction with the library staff. Regular active class participation is essential. The goal of the course is to develop competent learners, thoughtful readers, enthusiastic writers, and effective oral communicators. NCAA approved course.</p> <p>This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: Incoming freshman eligibility is based on multiple sources of information, including MAP scores and recommendation of 8th grade instructor. Open to grade 9.</p>
<p>ENGLISH 1 HONORS <i>Course #1120</i> Full year Credit: 1.0</p> <p>Supply fee: \$18.00 <i>For No Red Ink Subscription and online novel</i></p>	<p>English 1 Honors is a course for the student who reads avidly and who shows strong motivation and high academic achievement. Students read a variety of literature, including fiction, nonfiction, drama, and short stories. Discussion, in-depth analysis, and written assignments accompany these readings. Research skills, source identification, development of search strategies, and attribution are all taught in conjunction with the library staff. Grammar usage is emphasized. Consistent, thoughtful class participation is expected of all students. NCAA approved course.</p> <p>This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: Incoming freshman eligibility is based on multiple sources of information, including MAP scores and recommendation of 8th grade instructor. Open to grade 9.</p>
<p>ENGLISH 2 <i>Course #1210</i> Full year Credit: 1.0</p>	<p>English 2 covers the areas of literature, writing, vocabulary, grammar, and speech. Through literature, selected plays, poetry, and novels, students will learn to analyze and appreciate literature. In the area of writing, an emphasis is placed on multi-paragraph essays. Research fundamentals—topic generation, source evaluation and attribution—are taught in conjunction with the library staff. Grammar and vocabulary will be covered throughout the year in conjunction with writing and literature. Speeches and group performances are required. Consistent class participation is imperative. NCAA approved course.</p> <p>This course satisfies the ISBE graduation requirement for “intensive writing.” Prerequisite: English 1. Open to grade 10.</p>
<p>ENGLISH 2 HONORS <i>Course #1220</i> Full year Credit: 1.0</p>	<p>Geared towards students who show strong motivation and high academic achievement, English 2 Honors helps students develop critical thinking skills and effective oral and written communication skills. Students are expected to work on long-range assignments and to be consistently active in class discussions. Research fundamentals—topic generation, source evaluation and attribution—are taught in conjunction with the library staff. Active class participation, in the form of peer editing, small group work, and partner projects as well as class discussion, is expected of all students. NCAA approved course.</p> <p>This course satisfies the ISBE graduation requirement for “intensive writing.” Prerequisite: English 1 or English 1 Honors and Department Chair approval. Open to grade 10.</p>
<p>ENGLISH FOUNDATIONS <i>Course #2000</i> Full year Credit: 1.0</p>	<p>This is for students who are reading and writing two or more years below grade level. The course explores fundamental elements of reading, writing, and listening and speaking that can be generalized in various facets of daily life.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>

ENGLISH

<p>ENGLISH <i>Course #1810, 1820, 1830, and 1840</i> Full year Credit: 1.0</p>	<p>This course is for students who are reading and writing below grade level. Curriculum in this course is a modification of the grade level standards but is in alignment with the Illinois Learning Standards. This course provides a differentiated approach to teaching vocabulary development, literature, and the writing process. Assessments are completed to monitor progress in the areas of reading and writing.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>CORE WRITING COURSES</p>	
<p>SENIOR COMPOSITION <i>Course #1313, 1314</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed for students who wish to improve writing skills for the demands of college coursework. This course includes a review of the multi-paragraph essay and instruction in developing and elaborating on ideas in writing. Students will learn to build arguments in response to texts they read in class. Students will also review punctuation, sentence structure, mechanics, and other grammar topics. NCAA approved course.</p> <p>Prerequisite: U.S. Literature and Composition or Department Chair approval. Open to Grade 12.</p>
<p>RHETORIC <i>Course #1351, 1352</i> 1st or 2nd semester Credit: 0.5</p>	<p>In today's complex world, clear communication is essential. This course draws on the traditional study of rhetoric—including the persuasive appeals, purpose, and audience—to lay the groundwork for purposeful and effective written communication. The class helps students think critically and write confidently in various situations for various purposes. Rhetoric also focuses on building research skills to ensure that students are well-versed in finding, evaluating, and synthesizing multiple sources of information. Students will hone their writing skills in order to discover, explain, question, and justify stances on contemporary issues. Students must write a research paper in order to earn credit for the course. NCAA approved course.</p> <p>Prerequisite: English 3. Open to grade 12.</p>
<p>HONORS SEMINAR IN WRITING <i>Course #1355</i> Full year Credit: 1.0</p>	<p>Honors Seminar in Writing is a process-oriented workshop class in which students learn to select writing topics, draft, edit, give and receive response, revise, and refine their writing with the guidance of their peers and their teacher. This year-long course is especially designed for those who enjoyed the rhetorical nature of AP Language and Composition and are interested in analyzing the choices writers make involving idea development, arrangement, syntax, and diction. Students will read a variety of memoirs, cultural criticisms, and personal essays as they explore in their own writing real-world complexities. Join this small community of students who appreciate the art of writing. NCAA approved course.</p> <p>Prerequisite: Department Chair approval. There is an application process involved. Open to grade 12.</p>
<p>CORE LITERATURE COURSES</p>	
<p>SENIOR LITERATURE <i>Course #1491, 1492</i> 1st or 2nd semester Credit: 0.5</p>	<p>Powerful stories affect us in profound ways, inspiring us, challenging us, deepening our human experience. The fundamental approach to Senior Literature is to foster a love of reading by encouraging strong emotional connections with powerful stories while emphasizing reading skills and literary analysis. This course is designed for students who wish to improve reading skills for the demands of college coursework. Students will read many types of texts, including both traditional forms of fiction and drama, as well as graphic novels, films, and nonfiction texts. Group discussion is emphasized, but students also write essays, take tests, and give oral presentations about these texts. NCAA approved course.</p> <p>Prerequisite: U.S Literature and Composition or Department Chair approval. Open to grade 12.</p>

ENGLISH

<p>WORLD LITERATURE Course #1541, 1542 1st or 2nd semester Credit: 0.5</p>	<p>This college preparatory course for the average and above average reader will afford students the opportunity to gain a better understanding of, and appreciation for, various cultures from around the world. Through an array of compelling—and mostly contemporary—works, students will be challenged to grapple with universal problems and themes. Common assessments include essays and other writing assignments, discussion, quizzes/tests, oral presentations, and projects. NCAA approved course.</p> <p>Prerequisite: None. Open to grade 12.</p>
<p>BRITISH LITERATURE 1 Course #1581, 1582 1st or 2nd semester Credit: 0.5</p>	<p>Human tragedy, genuine emotion, realistic characters, and outrageous jokes—all reasons that we still read the works of Shakespeare. British Literature 1 offers students the opportunity to discover the genius of Shakespeare’s plays. This course explores the comedies and tragedies of the most famous playwright of the English language. Emphasis is placed on analyzing Shakespeare’s language to find the clues he left his actors and audience to understand the true meaning of his works. Evaluation is based on discussion, quizzes, essays, performance, and tests. NCAA approved course.</p> <p>Prerequisite: None. Open to grade 12.</p>
<p>BRITISH LITERATURE 2 Course #1591, 1592 1st or 2nd semester Credit: 0.5</p>	<p>This college preparatory course focuses on the role of literature in Ireland’s rich, violent, and tumultuous past. Students will read and discuss contemporary and historical issues in Ireland through books, plays, short stories, newspaper articles, and films. The issues of oppression, resistance, and Irish identity will be at the heart of this course. Evaluation is based on discussions of the readings, written activities, presentations, and tests/quizzes. Students will be asked to write creativity in the style of many of the major texts. NCAA approved course.</p> <p>Prerequisite: None. Open to grade 12.</p>
<p>SELECTED THEMES IN LITERATURE: African American Literature Course #1523, 1524 1st or 2nd Semester Credit: 0.5</p>	<p>This course explores the African-American experience as reflected in the literature and oral tradition of the community, from the earliest days of our nation to current writers and thinkers. The course will explore not only traditional literary genres such as fiction, poetry, drama, and essays, but also consider areas of film, music, and art as well. Students will study the wide span of the African-American experience from slave narratives to current rap music. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>CORE LITERATURE/WRITING COURSES</p>	
<p>ENGLISH 3 Course #1320 Full year Credit: 1.0</p>	<p>English 3 builds on the skills acquired in English 1 and English 2. The course focuses on American Literature and emphasizes outstanding American authors from the Colonial Period to the modern era in the genres of fiction, nonfiction, drama, and poetry. Written works include argument, analysis, synthesis, the research paper, and the college essay. This is an accelerated course with numerous challenging fiction and nonfiction texts and an emphasis on close reading and analytic, purposeful writing. Students must write a research paper in order to earn credit for the course. NCAA approved course.</p> <p>Prerequisite: English 2. Open to grade 11.</p>
<p>U.S. LITERATURE AND COMPOSITION Course #1300 Full year Credit: 1.0</p>	<p>This course is designed for the student who may need more support in writing and reading. This college-prep course focuses on developing reading skills for understanding fiction, nonfiction, and poetry. Students are required to be productive and engaged participants in daily class activities, such as the practice of specific reading strategies, discussion, and written responses. For writing instruction, emphasis is placed on core writing topics such as thesis statements, organizational patterns, paragraph development, and sentence correctness. Homework reading and writing are required. Students must write a research paper in order to earn credit for the course. NCAA approved course.</p> <p>Prerequisite: English 2. Open to grade 11.</p>

ENGLISH

<p>ADVANCED PLACEMENT LANGUAGE AND COMPOSITION <i>Course #1730</i> Full year Credit: 1.0</p>	<p>In this college-level writing course, students develop the ability to analyze the rhetorical features of texts, speeches, and visuals and produce their own writing—both analytical and argumentative—on a variety of subjects. In addition to multiple in-class and out-of-class writing assignments, students will also learn how to access, evaluate and cite primary and secondary sources so that they can both refine their research skills and develop writings of extended length. This course prepares students for the Advanced Placement Exam in Language and Composition. NCAA approved course.</p> <p>Prerequisite: English 2 Honors or Department Chair approval. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>
<p>ADVANCED PLACEMENT LITERATURE AND COMPOSITION <i>Course #1731</i> Full year Credit: 1.0</p>	<p>This Advanced Placement Literature and Composition course is designed as an intensive study of literature drawn from multiple genres, time periods, and cultures, including such authors as Shakespeare, Camus, Atwood, Fitzgerald, and Conrad. Students will read poetry, drama, novels, and short fiction deliberately and thoroughly, participating in close textual analysis. Independent, outside reading will be expected. Assignments may include in-class essays, research projects, memorizations, oral presentations, and analytical writings. Students are responsible for participating actively and taking the lead in class discussions of the literature they read. This course prepares students for the Advanced Placement Exam in Literature and Composition. NCAA approved course.</p> <p>Prerequisite: AP Language and Composition or Department Chair approval. Open to grade 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. See page 21 for more details.</p>
<p>CORE COMMUNICATION COURSES</p>	
<p>SPEECH / COMMUNICATION <i>Course #1411, 1412</i> 1st or 2nd semester Credit: 0.5</p>	<p>Thoughtful, eloquent, and effective communication is key to success. This course helps students become more confident and organized speakers, writers, and presenters. The course teaches listening skills, the ability to give and receive tactful and constructive feedback, and includes instruction in research and presentation. Students speak and write daily, with an emphasis on impromptu (no-preparation) speaking. This will serve students on interviews, in college coursework, and in the workplace. At the completion of this course, each student will feel confident in choosing an appropriate topic, conducting research, writing with style and purpose, managing the editing process, and delivering a 5-8 minute memorized speech with a logical introduction, body, and conclusion. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>DEBATE AND WRITING <i>Course #1441, 1442</i> 1st or 2nd semester Credit: 0.5</p>	<p>Analysis, argument, questioning, and cooperation—these are the lifelong skills fostered in Debate and Writing. Focusing especially on current events related to timeless issues, students will speak, read, and write daily, and participate in both formal and informal debates, learning how to present perspectives other than their own. Students leave this course with the confidence and resourcefulness needed to enter those conversations especially encountered in college and the professional workplace that require a sense of perspective in sorting out complex issues. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>SOCIAL COMMUNICATION <i>Course #2005</i> Full year Credit: 1.0</p>	<p>This class is for students who struggle with social pragmatic language. Topics covered in the class include thinking in a group, thinking about others, thinking about others thinking about me, and thinking to create relationships. The goal is for students to increase their ability to take another’s perspective, increase problem solving capabilities, and develop and understand how our body is connected to communication and personal relationships with others. This course is a pass/fail course.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>

ENGLISH

ENRICHMENT COURSES	
<p>ACADEMIC READING 1 <i>Course #1100</i> Full year Credit: 1.0</p>	<p>Academic Reading is designed for ninth grade students whose test scores and past classroom performance demonstrate that they would benefit from direct instruction in reading, writing and vocabulary. Students will be assessed in several skill areas throughout the year to track their growth. The curriculum is comprised of units that address skills of expert readers, including determining main and supporting ideas, developing a variety of vocabulary strategies, and building fluency. Along with the study of nonfiction texts, students will engage in daily sustained silent reading of self-selected material. Academic Reading students are simultaneously enrolled in this course and English 1. Students who demonstrate adequate growth can exit the course at the semester with Department Chair approval.</p> <p>Prerequisite: Department Chair approval. Open to grade 9.</p>
<p>ACADEMIC READING 2 <i>Course #1102</i> Full year Credit: 1.0</p>	<p>Academic Reading 2 is designed for tenth grade students who were identified during their freshman year as likely to benefit from direct reading and writing instruction and supplemental in-school language arts instruction and support. Guided by multiple diagnostic assessments and a review of student data, teachers target specific student needs while utilizing engaging, purposeful, research-based practices. Student progress is monitored regularly to ensure that students are receiving the best instruction for their specific needs. Academic Reading 2 students are simultaneously enrolled in this course and English 2.</p> <p>Prerequisite: Department Chair approval. Open to grade 10.</p>
<p>READING <i>Course #1890</i> Full year Credit: 1.0</p>	<p>Reading is a course designed for students in 9th through 12th grade who demonstrate a need for direct instruction in reading strategies because they are reading two or more years below grade level. Students will complete diagnostic tests at the start of the year, in the middle of the year, and at the end of the year. These tests will be used to track growth and also to provide necessary information so that instruction can be individualized to a student's needs. Instruction in oral fluency, silent reading comprehension, oral reading comprehension, listening comprehension, vocabulary, grammar, and phonics will be provided individually and in a whole class setting. The curriculum is comprised of lessons from the Jamestown Timed Reading series, current events articles, Six Minute Solution passages, the Language! Reading series, Aimsweb fluency and comprehension passages, and Averil Coxhead's High-Incidence Academic Word List.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>Course fee: \$20</p>	
<p>SELECTED THEMES IN LITERATURE: Dystopian Literature: Stories Of "What If?" <i>Course #1521, 1522</i> 1st or 2nd semester Credit: 0.5</p>	<p>Were you psyched to discover District 13 survived? Have you ever wondered what it would be like to take Soma? Would you be willing to set yourself on fire to save books? If you've loved books about the not-so-bright future, this is the class for you. This course will cover dystopian literature and film, emphasizing themes dealing with the imagination of better worlds and worse worlds. Because utopian/dystopian literature expresses what an author sees as possible, hopes is possible, and fears is possible, readers must engage in social and political critiques. We will explore four central dystopian types as presented in literature and film: the political, the philosophical/religious, the environmental, and the corporate. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>

ENGLISH

<p>FILM STUDIES Course #1641, 1642 1st or 2nd semester Credit: 0.5</p>	<p>Film Studies presents an opportunity for students to discover, critique, and appreciate movies. This is an exciting course where students learn to see movies like a film critic, create highly interactive, media/technology based projects to express their ideas about cinema, and even try their hand at becoming a movie mogul, investing millions into blockbusters and independent films. Students are encouraged to pursue their own movie interests as they are exposed to significant cultural and ideological movements in film history. Significant emphasis will be placed on learning the technical components of movies (editing, shot types, angles, etc.) as understanding this film grammar is the foundation of film analysis. Students will not only be asked to think about <i>how</i> a movie was made, but also <i>why</i> a movie was made. Written expression and graded discussion are the primary ways students will demonstrate their understanding of the technical, aesthetic, and rhetorical components that make movies effective. Some outside of class viewing is required.</p> <p>Although not all movies are shown in their entirety, written permission must be obtained by a parent at the beginning of this course to allow for students to view the R-rated movies associated with this class. At the time of registration, if R-rated movies are to be utilized in whole or in part, a list of these movies will be available through the English Department and online.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>JOURNALISM 1 Course #1651, 1652 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces students to the fundamentals of journalism. Emphasis is placed on interviewing, writing, editing, assessing the audience, and meeting deadlines. Units of study include responsibilities and ethics, Associated Press style, interviewing, news writing, feature writing, and page design. The culminating activity is a magazine prospectus, which will include a feature story spread. This course is intended as a practical application of newspaper/newsmagazine news gathering and writing techniques, not as an analysis of the media. While this course is open to all interested students, those students interested in becoming editors of <i>Devils' Advocate</i> or <i>El Diablo</i> are strongly encouraged to take Journalism 1 sophomore year. NCAA approved course.</p> <p>Prerequisite: No course prerequisite required. Open to grades 10 and 11.</p>
<p>JOURNALISM 2: NEWSMAGAZINE HONORS Course #1660 Full year Credit: 1.0</p>	<p>Students in this class are editors and will be responsible for publishing <i>Devils' Advocate</i> according to established deadlines. Students will assume editorial leadership and participate as a staff member in all activities required to create a quality publication using a desktop publishing system. Students will be expected to develop story ideas, research stories, write and edit copy, design pages, and handle advertising accounts. The grade is determined by job performance. Students should be prepared to spend out-of-class time working on the publication as interviews, writing and photography will often take place outside the class period. Journalism 2 may be repeated for credit with consent of the instructor and Department Chair.</p> <p>Prerequisite: No course prerequisite required. However, there is an application and interview process required. Open to grades 11 and 12.</p>

ENGLISH

<p>JOURNALISM 2: ONLINE NEWSMAGAZINE HONORS <i>Course #1665</i> Full year Credit: 1.0</p>	<p>Students in this class are online content contributors and editors and will be responsible for all content on www.hcdevilsadvocate.com, the <i>Devils' Advocate</i> online newsmagazine. Students will assume editorial leadership and participate as a member of the staff in all activities required to create a quality online site using a WordPress template. Students will be expected to develop story ideas, research stories, write and copy-edit. The grade is determined by job performance. Students should be prepared to spend out-of-class time working on the site as interviews, writing, photography and videography often take place outside the class period. Journalism 2 may be repeated for credit with the consent of the instructor and Department Chair.</p> <p>Prerequisite: No course prerequisite required. However, there is an application and interview process required. Open to grades 11 and 12.</p>
<p>JOURNALISM 2: YEARBOOK HONORS <i>Course #1670</i> Full year Credit: 1.0</p>	<p>Students in this class are editors and will be responsible for producing <i>El Diablo</i>. This course will cover skills and responsibilities of a journalist involved in publishing a yearbook. Students will assume editorial leadership and participate in all activities required to create a quality publication using a desktop publishing system. Students will be expected to develop story ideas, research stories, write and edit copy, take photos, design pages, and meet deadlines established by the adviser/instructor in accordance with the publication company's requirements. Students should be prepared to spend out-of-class time working on the publication in order to receive credit as conducting interviews, taking photos, and designing spreads will often occur outside of class.</p> <p>Prerequisite: No course prerequisite required. However, there is an application and interview process required. Open to grades 11 and 12.</p>
<p>CREATIVE WRITING <i>Course #1341, 1342</i> 1st or 2nd semester Credit: 0.5</p>	<p>"I write, therefore I am a writer."</p> <p>Creative Writing is a course where students explore poetry, spoken word, flash/short fiction, and creative nonfiction. Students will write every day, discuss themes related to writing and creating art, begin to build a portfolio of work to submit for publication, as well as work independently on a longer project (chapbook, short fiction, and screenplay). Classroom experiences are dedicated to writers and thinkers; if you love to write and wish you had more time to improve your craft in a supportive environment, this is the class for you. This course may be repeated for credit with consent of the instructor and department chair. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>ACTING 1 <i>Course #1681, 1682</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces students to basic acting techniques of the theatre. Activities include improvisation, concentration exercises, ensemble-building, character analysis and development, play-reading, monologue preparation, and scene preparation.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>ACTING 2 <i>Course #1683, 1684</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course allows students to expand on their acting skills and expertise while focusing mainly on the <i>physical</i> aspects of performance. Activities include monologues, scene work, improvisation, impersonation, and the creation of original characters. Students should be prepared to explore the many ways in which action, movement, or specific physical choices influence character development.</p> <p>Prerequisite: Acting 1. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED ACTING <i>Course #1685, 1686</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Acting is a performance-oriented course that gives the advanced acting student concentrated training in various acting styles and performance techniques. Students will tackle complex scene study, improvisation, college audition monologue preparation, physical training for the actor and the examination of various theatrical career options. This course will culminate in a workshop production. This course may be repeated for credit with consent of the instructor and department chair.</p> <p>Prerequisite: Acting 2 or Department Chair approval. Open to grades 10, 11, and 12.</p>

ENGLISH LANGUAGE LEARNERS

ENGLISH LANGUAGE LEARNER PROGRAM

Lee-Cheng Wang, Design

MISSION STATEMENT

The mission of the English Language Learner Program (ELL) is to assist international students who are learning English as a Second Language. The ELL program provides academic and social support to help students adjust to the American culture and, in particular, to Hinsdale Central High School. The ELL program will assist them in making a successful transition into the mainstream school community.

In order to fulfill the mission, the ELL program offers *academic* classes in English as a Second Language (ESL 1, 2 and 3) for credit and ELL resource classes that may receive credit. ELL also addresses individual student needs, including language issues, academic programs, and cultural, social adjustments. English as-a-Second Language classes are taught in conjunction with the English Department in order to transition students into the mainstream English classes. As students adjust academically and socially, they *transition with support* into the full general education curriculum and the school community.

ENGLISH LANGUAGE LEARNERS

<p>ESL 1 Course # 1050 Full year Credit: 2.0 (1 English credit + 1 general graduation credit)</p>	<p>This course is designed for the English Language Learner who is new to the United States and whose English proficiency is emerging and developing. The course focuses on teaching basic communication and study skills in order for the ELL student to be successful at Hinsdale Central High School. Listening, speaking, reading and writing skills will be taught in order to help the ELL student in mainstream classes succeed academically and complement the ESL 2 curriculum. In addition, the course will provide activities to include students in the American culture.</p> <p>Prerequisite: ELL Director approval. Open to grades 9, 10, 11, and 12.</p>
<p>ESL 2 Course # 1030 Full year Credit: 1.0</p>	<p>This course continues the work started in ESL 1 by developing emerging and beginner listening, speaking, reading and writing skills in standard American English. This course will parallel the goals and skills of English 1. In addition, the course will continue to build student communication skills and self-advocacy skills in standard American English to aid in mainstream academic success.</p> <p>Prerequisite: ELL Director approval. Open to grades 9, 10, 11, and 12.</p>
<p>ESL 3 Course # 1040 Full year Credit: 1.0</p>	<p>The goal of ESL 3 is to prepare the intermediate level English Language Learner to transition successfully into the mainstream English class. The course will continue to develop skills and strategies in listening, speaking, reading and writing of standard American English while focusing on how the strategies can be used in mainstream academic success. Course materials will parallel the goals and skills of the English Program. Lastly, this course reinforces self-advocacy skills to promote academic mainstream success for the transitioning English Language Learner.</p> <p>Prerequisite: ELL Director approval. Open to grades 9, 10, 11, and 12.</p>
<p>ELL RESOURCE Course # 1003, 1004 1st or 2nd semester Credit: 0.25 Or non-credit</p>	<p>This tutorial resource is designed to: 1) help students maintain satisfactory achievement levels in their regular classes; 2) encourage conversational English; 3) accelerate the development of vocabulary understanding, reading comprehension and writing skills in the English language; and 4) facilitate cultural adjustment.</p> <p>Prerequisite: ELL Director approval. Open to grades 9, 10, 11 & 12 international students who have limited English language proficiency. This program may be scheduled in place of a regularly scheduled study hall. This course must be taken for credit if the student is enrolled in ESL 1 or ESL 2. It may be taken for credit or non-credit with ELL director recommendation.</p>
<p>ELL TUTOR Course # 1013, 1014 1st or 2nd semester Credit: 0.25</p>	<p>ELL tutors assist other individual ELL students with academic and English language needs.</p> <p>Prerequisite: Recommendation of ELL Director. Open to grades 11 and 12.</p>

FAMILY & CONSUMER SCIENCES DEPARTMENT

FAMILY & CONSUMER SCIENCES DEPARTMENT

The Family and Consumer Sciences Department strives to improve the lives of families, individuals and communities through advanced level learning opportunities for all students while fostering academic achievement, career exploration, creativity, and problem-solving skills.

FAMILY & CONSUMER SCIENCES DEPARTMENT

<p>INTRODUCTION TO FAMILY & CONSUMER SCIENCES Course #6400 Full year Credit: 1.0 <i>(0.5 Consumer Education, 0.5 Elective Arts)</i></p> <p>Supply fee \$25.00</p>	<p>This course introduces the student to the following areas of Family & Consumer Science: consumer education, child care, interior design, culinary and sewing. The consumer education unit focuses on basic economic concepts such as career opportunities, budgeting, banking, credit, transportation, insurance, and housing. Additional class activities include a computer-aided design, interior design project, nutritious meal planning, basic food preparation, sewing projects and exposure to child development. This course will prepare students for future semester courses in Family & Consumer Sciences including Interior Design & Housing, Child Care & Development, Creative Cooking 1, Creative Sewing and Nutrition Wellness & Cooking.</p> <p>Successful completion of this course fulfills the ISBE's Consumer Education requirement for graduation. Must complete the entire year to receive consumer education credit. Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
CULINARY	
<p>FOUNDATIONS OF COOKING Course #1976A, 1976B 1st or 2nd semester Credit: 0.5</p>	<p>This course explores foundational cooking skills and concepts that can be applied in daily life. An emphasis will be placed on safety, sanitation, reading a recipe, proper selection and use of culinary equipment, independent meal preparation and nutritionally sound food choices. Foundations of Cooking is designed to meet the needs of students with a variety of physical, cognitive, or social needs. Lab work will focus on organization and teamwork. In addition, the course offers a smaller class size to make appropriate individualized instruction.</p> <p>This course may be repeated as necessary. Prerequisite: Departmental Approval. Suggested follow-up courses when skills deemed appropriate: Introduction to Family and Consumer Sciences and Creative Cooking 1. Open to grades 9, 10, 11, and 12.</p>
<p>CREATIVE COOKING 1 Course #6411, 6413 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$25.00</p>	<p>Creative Cooking 1 is designed to teach basic food preparation skills utilizing various types of culinary equipment and a range of preparation and cooking techniques. The following areas of study are covered in this course: measuring, knife skills, cooking methods, nutrition, fruits, food presentations, vegetables, breads, pastas, vegetarian dishes, desserts, and microwave cooking. The course culminates in a student driven practical 4 course meal applying the knowledge they have learned over the semester. While this course provides personal enrichment, it may also serve as a foundation for further training in culinary arts.</p> <p>Prerequisite: None. Suggested follow-up courses: Creative Cooking 2, Nutrition, Wellness & Cooking, and/or Chef & Restaurant. Open to grades 9, 10, 11, and 12.</p>
<p>CREATIVE COOKING 2 Course #6412, 6414 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$25.00</p>	<p>This course, a continuation of Creative Cooking 1, provides training in the following advanced techniques of food preparation: choux pastry (cream puffs & eclairs), international foods, cakes and cake decorating, homemade pasta, sweet and savory yeast breads, pies, meats, meringues, mother sauces and garnishing. Students prepare a variety of recipes, while enriching their personal culinary skills. This course also serves as a foundation for further training in the culinary arts.</p> <p>Prerequisite: Creative Cooking 1. Suggested follow-up: Chef & Restaurant, Nutrition, Wellness & Cooking and/or Baking & Pastry Arts. Open to grades 9, 10, 11, and 12.</p>
<p>BAKING & PASTRY ARTS Course #6415, 6417 1st or 2nd Semester Credit: 0.5</p> <p>Supply Fee \$25.00</p>	<p>This course provides focused training in the culinary field of European baking techniques. Focus will be on ingredients, preparation methods and finishing techniques. Units will include sanitation, metric measuring, breads, pastries (including cakes) cookies and display techniques. This course is designed for personal skill development as well as a base for further culinary training.</p> <p>Prerequisite: Grade of C of better in Creative Cooking 2. Suggested follow-up courses: Nutrition, Wellness, & Cooking; Chef & Restaurant. Open to grades 10, 11, and 12.</p>

FAMILY & CONSUMER SCIENCES DEPARTMENT

<p>NUTRITION, WELLNESS & COOKING <i>Course #6431, 6432</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$25.00</p>	<p>This course is designed to teach students how to build a lifetime of good nutrition and wellness practices while utilizing the food preparation and cooking skills from prerequisite courses. Students are given the essential tools to understand why and how people need to make more practical and healthy choices in their diet and daily routines. They will work cooperatively in lab groups applying what they have learned in each focused topic. While this course provides personal enrichment, it may also serve as a foundation for further training in health and culinary related fields. Suggested follow-up courses include Baking & Pastry Arts, Chef & Restaurant, Creative Cooking 1 and Creative Cooking 2.</p> <p>Prerequisite: Grade of C or better in Introduction to Family & Consumer Sciences or Creative Cooking 1. Suggested follow-up courses include Baking & Pastry Arts, Chef & Restaurant, Creative Cooking 1 and Creative Cooking 2. Open to grades 10, 11, and 12.</p>
<p>CHEF & RESTAURANT <i>Course #6421, 6422</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$25.00</p>	<p>This course is designed for students curious about hospitality related careers (event planning, hotel and restaurant management, etc.) or careers in the culinary industry. Students will operate mini-restaurants and catering jobs rotating through various aspects of food service including front of the house and back of the house job tasks. They will apply culinary knowledge such as knife skills, cooking methods, and baking and pastry skills as they prepare, plate and serve gourmet meals in this fast paced, real world work environment. Activities include menu selection, recipe testing, cost analysis, table settings, meal preparation, meal service and commercial safety and sanitation techniques.</p> <p>Due to classroom space limitations, students who have previously completed Creative Cooking 1 or IFACS will be given preference. Suggested Follow-up: Baking and Pastry, Nutrition, Wellness & Cooking. Open to grades 11 and 12.</p>
FAMILY LIVING	
<p>SINGLE SURVIVAL <i>Course #6441, 6442</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$5.00</p>	<p>Will you need to know how to find an apartment, evaluate job offers, balance a budget, and provide for your own needs to be successful after you graduate? Whether you are heading away to college or into the workforce today's young adults need these skills more than ever! Brush up on your career development, money management, personal safety and security, nutrition, home improvement skills and more! Each unit covered addresses the needs of young adults to research and evaluate the choices they will be making beginning in the next year as they leave high school.</p> <p>Prerequisite: None. Open to grades 11 and 12. Suggested follow-up course: Personal Perspectives.</p>
<p>PERSONAL PERSPECTIVES <i>Course #6591, 6592</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed to help the student understand the challenges of our society, develops the student's ability to cope with problems and make mature decisions. The course focuses on the application of sociology and psychology concepts to the students' personal life. Areas of study include: theories of personality development, family relationships, crisis in the family (substance abuse, child abuse, divorce, and death) communication skills, dating, marriage and parenting.</p> <p>Prerequisite: None. Open to grades 11 and 12. Suggested follow-up course: Single Survival.</p>
FASHION	
<p>CREATIVE SEWING <i>Course #6551, 6552</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$10.00</p>	<p>This course is for students interested in sewing for practical purposes, personal enjoyment and/or to develop skills to be used in careers related to clothing construction, fashion merchandising, design and retail. Students will complete three or more individual projects in Creative Sewing. Garment construction projects will increase in difficulty as students attain skills. Technical abilities will be enhanced through the use of sewing and embroidery machines, sergers and other technologies. Sequencing of the course includes basic sewing machine techniques, fabric and pattern selection, interpreting pattern instructions, construction techniques (darts, zippers, hems, buttons, applying interfacing, etc.) and embroidery.</p> <p>Prerequisite: None. Suggested follow-up courses: Advanced Sewing or Fashion Merchandising & Design. Open to grades 9, 10, 11, and 12</p>

FAMILY & CONSUMER SCIENCES DEPARTMENT

<p>ADVANCED SEWING <i>Course #6561, 6562</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$10.00</p>	<p>Students in this course will learn quilting and applique through designing and sewing a tote bag or backpack (student’s choice) including a personalized embroidered logo. Three additional projects will be selected on an individual basis and approved by the instructor. Projects will focus on advance construction techniques including garment fitting, pattern design and researching, and sewing with a challenging fabric.</p> <p>Prerequisite: Creative Sewing. Suggested follow-up courses: Fashion Merchandising & Design or Advanced Sewing Independent Study. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED SEWING INDEPENDENT STUDY <i>Course #6410A, 6410B</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$10.00</p>	<p>This course is a continuation of Advanced Sewing and focuses on advanced construction techniques through individually selected projects approved by the instructor. Students will be guided through various areas of study that may include repurposing a ready-to-wear garment, formal wear, original embroidery design, fully lined jacket or coat, and fashion design through draping on a dress form. Seniors who enroll in this course may choose to create a senior quilt for one of their projects. While this course provides personal enrichment, it may also serve as a foundation for further training in a fashion related field.</p> <p>This course may be repeated with subsequent projects that continually incorporate new design techniques and sewing construction skills.</p> <p>Course may be repeated up to three times. Prerequisite: Advanced Sewing. Suggested follow-up courses: Fashion Merchandising & Design or second enrollment in Advanced Sewing Independent Study. Open to grades 10, 11, and 12.</p>
<p>FASHION MERCHANDISING & DESIGN <i>Course #6571, 6572</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$25.00</p>	<p>This course is designed to allow students to explore and understand the various aspects of the fashion industry. Areas of study include the evolution of fashion, fashion trends and design, advertising, merchandising, and retail functions. Creative projects include logo and fashion line illustrations, visual window displays, fashion show planning, and in-depth looks at designers and retailers. This course serves as a foundation for further training in fashion related occupations, as well as provides opportunities for personal enrichment.</p> <p>Prerequisite: None. Suggested follow-up course: Creative Sewing. Open to grades 10, 11, and 12.</p>
INTERIOR DESIGN	
<p>INTERIOR DESIGN & HOUSING <i>Course #6451, 6452</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$25.00</p>	<p>This course is meant to introduce students to the area of residential designs, space planning and home decor. Students will learn how to identify housing styles and their details throughout American history, including the local influence of Frank Lloyd Wright and his Home and Studio in Oak Park. A hands on creative approach will take place when the course content focuses on the elements and principles of design, allowing students to showcase their artistic and original decorative ideas on visual design boards. Students will spend a large portion of the class utilizing technology in the interior design fields by using computer aided drafting for projects and a cumulative student designed and decorated home. It is recommended that students have strong computer technology skills when enrolling in this course.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>INTERIOR DESIGN & HOUSING HONORS <i>Course #6453, 6454</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$25.00</p>	<p>The core material for this course is similar to Interior Design and Housing #6451/#6452; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are college level and will require additional reading and research outside of class. This course is recommended for highly motivated students interested in interior design or related fields.</p> <p>Prerequisite: Department Approval. Open to grades 10, 11, and 12.</p>

FAMILY & CONSUMER SCIENCES DEPARTMENT

TEACHING	
<p>CHILD CARE & DEVELOPMENT <i>Course #6582</i> 2nd semester only Credit: 0.5</p>	<p>This course is designed for students who enjoy working with, or plan to work with, children. Areas of study include family planning, pregnancy and childbirth, child development from newborn through school-age, and preparing learning activities for our preschool practicum. Students will teach and observe children in our Discovery Corner Preschool as an integral part of the program. This course helps prepare students for careers in child-related fields, including teaching.</p> <p>Prerequisite: None. Suggested follow-up: Invitation to Teaching. Suggested first part of teaching sequence to be taken Sophomore or Junior year. Open to grades 10, 11, and 12.</p>
<p>INVITATION TO TEACHING <i>Course #6481, 6482</i> 1st or 2nd semester Credit 1.0 (one semester -two class periods)</p> <p>Supply fee \$10.00</p>	<p>This course offers a teaching internship, enabling students to work under the supervision of certified preschool, elementary and middle school staff. Once placed, the students will spend four days each week at their assigned schools to assist, observe and teach young children. Teaching responsibilities include journaling, observing, creating a visual display, facilitating a guest speaker, creating and teaching lessons, and shadowing a teacher for a day. Classroom study is focused on related issues in education including meeting the needs of a diverse student population and classroom management technology within the classroom and current topics in education. Highly recommended for anyone pursuing a career working with children in any capacity.</p> <p>Acceptance into the program is based on application, staff feedback, academic standing, attendance and demonstration of character. Students who have previously completed Child Care & Development will be given preference. Application may be picked up in the Counseling Office in January. Course may be repeated both semesters.</p> <p>Suggested Prerequisite: Child Care & Development. Open to grade 12 only.</p>
<p>INVITATION TO TEACHING HONORS <i>Course #6483, 6484</i> 1st or 2nd semester Credit 1.0 (one semester- two class periods)</p> <p>Supply fee \$10.00</p>	<p>The core curriculum for this course are similar to Invitation to Teach Course 6481/6482; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are college level and will require additional time outside of class. This course is recommended for highly motivated students interested in education or related fields.</p> <p>Students who have previously completed Child Care & Development will be given preference. Course may be repeated both semesters. Application may be picked up in the Counseling Office in January. Acceptance into the program is based on application, staff feedback, academic standing, attendance and demonstration of character.</p> <p>Suggested Prerequisite: Child Care & Development. Open to grade 12 only.</p>
<p>FOUNDATIONS OF COOKING AIDE <i>Course #2002A/2002B</i> 1st or 2nd Semester Credit 0.5</p>	<p>The Foundations of Cooking Aide position is offered to sophomores, juniors, and seniors who are interested in working with students with a variety of physical, cognitive, and social needs. As an aide the students serve as role models in social norms and appropriate lab behavior.</p> <p>Acceptance into the program is based on application, academic standing, attendance and demonstration of character. Application may be picked up in the Family and Consumer Sciences Office in January. Prerequisite: Creative Cooking 1, application, and department chair approval. Priority will be given to those students interested in a career in education.</p>

MATHEMATICS DEPARTMENT

Mission Statement

The mission of the Mathematics Department is to develop in our students the mathematical skills and habits of mind they will need to be prepared for college, to become productive citizens, and to pursue their career interests. We are committed to meeting each student's social, emotional, and learning needs by providing a rigorous curriculum and quality instruction that will actively engage students in constructing and applying mathematical concepts to solve problems. We will employ current technology to enhance students' mathematical knowledge and number sense. We strive to develop students who can express the mathematical connections in the world around them with algebraic, geometric, or numeric representations.

Three credits in Mathematics are required for graduation. Credit must be earned in both semesters of a full year course before advancing to the next course in the sequence. Any student who earns a D in a mathematics course is strongly recommended to retake one or both semesters in summer school before attempting the next course in the sequence. The deficiencies indicated by the D grade will make success in the next course in the sequence very difficult. Successful completion of Algebra and Geometry in any sequence and enrollment in Algebra 2 Trigonometry (3300G, 3310, or 3320) during or before junior year is ideal preparation for college standardized testing.

Typical Sequences (shown below)

Freshman	Sophomore	Junior	Senior
Algebra 2/Trig H	Pre-Calculus Honors <i>and/or</i> AP Stats	AP Calculus BC <i>and/or</i> AP Statistics	Math Topics <i>and/or</i> AP Statistics
Integrated Algebra and Geo. Honors	Algebra 2/Trig H	Pre-Calculus Honors <i>and/or</i> AP Statistics	AP Calculus BC <i>and/or</i> AP Statistics
Geometry Honors	Algebra 2/Trig H	Pre-Calculus Honors <i>and/or</i> AP Statistics	AP Calculus BC <i>and/or</i> AP Statistics
Geometry	Algebra 2 Trig	Pre-Calculus <i>and/or</i> AP Statistics	AP Calculus AB <i>or</i> Intro to Statistics <i>and/or</i> College Preparatory Mathematics <i>and/or</i> AP Statistics
Algebra 1	Geometry (3261) <i>and</i> Algebra 2 Trig (3362)	Pre-Calculus	AP Calculus AB <i>or</i> Intro to Statistics <i>and/or</i> College Preparatory Mathematics <i>and/or</i> AP Statistics
Algebra 1	Geometry	Algebra 2 Trig	Pre-Calculus <i>or</i> Intro to Statistics <i>and/or</i> College Preparatory Mathematics
Algebra 1 Part 1	Algebra 1 (3141G) <i>and</i> Geometry (3232G)	Algebra 2 Trig (3300G)	Intro to Statistics 1 <i>and</i> College Preparatory Mathematics
Algebra 1 Part 1	Algebra 1 Part 2 (3100G)	Geometry (3200G)	Algebra 2 Trigonometry (3300G)

*AP Computer Science Principles is available for students who have completed Algebra 1 and AP Computer Science A is available for students having completed Algebra 2

*It is not typically recommended that students complete summer coursework for the purpose of advancing in their math sequence, due to the abbreviated nature of summer curricula. Any student wishing to do so must receive a recommendation and/or approval from the Math Department prior to enrolling in a summer course.

MATHEMATICS DEPARTMENT

<p>MATH FOUNDATIONS <i>Course#2030</i> Full year Credit: 1.0</p>	<p>This course explores fundamental math concepts that can be generalized in various facets of daily life. Curriculum includes problem solving and computation, money and number sense, and basic estimation and measurement. Basic analytical methods, geometry, and data analysis are also emphasized. This course is designed for students who are performing significantly below grade level in math.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>MATHEMATICAL CONCEPTS OF ALGEBRA & GEOMETRY <i>Course#1871</i> Full year Credit: 1.0</p>	<p>This course is designed for students who are performing below grade level in math. Curriculum in this course is a modification of the grade level standards but is in alignment with the New Illinois Learning Standards. This course provides a foundational approach of introducing important topics in Algebra and Geometry. Algebra topics include expressions, equations, and inequalities. Geometry topics include lines, segments, angles, triangles, perimeter, area, and volume. A graphing calculator is required.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>ALGEBRA 1 PART 1 <i>Course#3090</i> Full year Credit: 1.0</p>	<p>This course introduces important topics in Algebra. Algebra topics include expressions, equations, inequalities and linear functions. This course is appropriate for students with reasonable facility with arithmetic operations and average grades in mathematics. A graphing calculator is required. NCAA approved course.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Recommendation of previous teacher and departmental approval. Next course in sequence: Algebra 1 Part 2 (3100G). Open to grades 9, 10, 11, and 12.</p>
<p>MATHEMATICAL CONCEPTS OF ALGEBRA & TRIGONOMETRY <i>Course#1872</i> Full year Credit: 1.0</p>	<p>This course is designed for students who are performing below grade level in math. Curriculum in this course is a modification of the grade level standards but is in alignment with the New Illinois Learning Standards. This course expands the material studied in Mathematical Concepts of Algebra and Geometry, emphasizing real world applications and associated graphical analysis. Linear, quadratic, and polynomial functions are explored. Exponential, trigonometric, and logarithmic functions are introduced. This course is for students who desire additional college preparatory mathematics. A graphing calculator is required for this course.</p> <p>Prerequisite: Department Chair approval. Open to grades 11 and 12.</p>
<p>ALGEBRA 1 PART 2 <i>Course#3100G</i> Full year Credit: 1.0</p>	<p>This course continues the important topics in Algebra. Topics include exponents, systems of equations, inequalities, linear and quadratic functions, polynomial expressions, probability, and statistics. A graphing calculator is required. NCAA approved course.</p> <p>This course fulfills the ISBE graduation requirement for Algebra 1. Prerequisite: Algebra 1 Part 1 and department approval. Next course in sequence: Geometry (3200G). Open to grades 10, 11, and 12.</p>
<p>ALGEBRA 1 BLOCK SEMESTER 1 <i>Course#3141G</i> 1st semester Credit: 1.0</p>	<p>This course has the same core curriculum as #3100G, but is taught in a single semester, two periods daily. NCAA approved course.</p> <p>Prerequisite: Algebra 1 Part 1 and teacher recommendation. Open to grades 10 and 11.</p>

MATHEMATICS DEPARTMENT

<p>ALGEBRA 1 Course #3110 Full year Credit: 1.0</p>	<p>This course focuses on fundamental properties of the real numbers. Linear and quadratic equations are emphasized. Rational expressions and equations are introduced. Real world applications are explored. Algebra 1 is recommended for freshmen students who have achieved a strong facility with arithmetic operations and above average grades in mathematics or for those students whose Algebra skills need strengthening. A graphing calculator with matrix capabilities is required in this course. NCAA approved course.</p> <p>This course fulfills the ISBE graduation requirement for Algebra 1. Prerequisite: 8th grade teacher recommendation or Departmental approval. Next course in sequence: Geometry. Open to grades 9, 10, 11, and 12.</p>
<p>GEOMETRY Course #3200G Full year Credit: 1.0</p>	<p>This course uses an intuitive approach to study the fundamental concepts in Geometry. Although deductive reasoning is practiced, much less emphasis is placed on writing formal proofs. Students experience geometric concepts through frequent constructions and hands on activities. Some students from #3110 Algebra 1 may be advised to take this course. A graphing calculator is required in this course. NCAA approved course.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Algebra 1 (3100G or 3110) and Departmental approval. Next course in sequence: Algebra 2 Trigonometry (3300G) based upon teacher recommendation. Open to grades 10, 11, and 12.</p>
<p>GEOMETRY BLOCK SEMESTER 2 Course #3232G 2nd semester Credit: 1.0</p>	<p>This course has the same core curriculum as #3200G, but is taught in a single semester, two periods daily. NCAA approved course.</p> <p>Prerequisite: Algebra 1 Part 2 (3100G or 3141G) and teacher recommendation. Open to grades 10 and 11.</p>
<p>GEOMETRY Course #3210 Full year Credit: 1.0</p>	<p>Geometry focuses on proof and fundamental concepts of plane geometry with some informal three-dimensional considerations. Properties of lines, angles, triangles, quadrilaterals and circles are studied. Special attention is given to concepts of congruence, perpendicularity, parallelism, area, similarity, coordinate geometry, logic and deductive reasoning. A graphing calculator is required in this course. NCAA approved course.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Algebra 1, 8th grade teacher recommendation, and Departmental approval. Next course in sequence: Algebra 2 Trigonometry. Open to grades 9, 10, 11, and 12.</p>
<p>GEOMETRY HONORS Course #3220 Full year Credit: 1.0</p>	<p>This honors course provides an in-depth study of all the topics of plane Euclidean geometry including three-dimensional geometry. Particular attention will be given to the nature of a mathematical system, logic and proof. Students are expected to exercise their creative capacities, and apply their knowledge to different situations. Recommended for students who have a high interest in mathematics and have consistently achieved excellent grades in Algebra. A graphing calculator is required in this course. NCAA approved course.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Algebra 1, 8th grade teacher recommendation, and Departmental approval. Next course in sequence: Algebra 2 Trigonometry Honors or Algebra 2 Trigonometry, based on teacher recommendation. Open to grades 9, 10, 11, and 12.</p>
<p>GEOMETRY BLOCK SEMESTER 1 Course #3261 1st semester Credit: 1.0</p>	<p>This course has the same curriculum as #3210, but is taught in a single semester, two periods daily. NCAA approved course.</p> <p>Prerequisite: Algebra 1 (3110), teacher recommendation, and Departmental approval. Open to grade 10.</p>

MATHEMATICS DEPARTMENT

<p>INTEGRATED ALGEBRA & GEOMETRY HONORS <i>Course #3280</i> Full year Credit: 1.0</p>	<p>This honors course reviews important concepts in Algebra 1 and Geometry. Topics will be explored in greater depth than the introductory courses, and selected Algebra 2 Trigonometry topics will be introduced. Students who are successful in this course should be well prepared for a sequence of Algebra 2 Trigonometry Honors, Pre-Calculus Honors, and an AP course in Calculus and/or Statistics. NCAA approved course.</p> <p>Prerequisite: Algebra 1, Geometry, and 8th grade teacher recommendation. Next course in sequence: Algebra 2 Trigonometry or Algebra 2 Trigonometry Honors. Open to grade 9.</p>
<p>ALGEBRA 2 TRIGONOMETRY <i>Course #3300G</i> Full year Credit: 1.0</p>	<p>The basic material for this course described under #3310 Algebra 2 Trigonometry is recommended for students from Geometry #3200G. Some students from #3210 Geometry may be advised to take this course. A graphing calculator is required in this course. NCAA approved course.</p> <p>Prerequisite: Geometry (3200G or 3200) and Departmental approval. Open to grades 11 and 12.</p>
<p>ALGEBRA 2 TRIGONOMETRY <i>Course #3310</i> Full year Credit: 1.0</p>	<p>Algebra 2 Trigonometry expands the material studied in Algebra and Geometry, emphasizing real world applications and associated graphical analysis. The complex number system is studied. Linear, quadratic, exponential, logarithmic, polynomial, rational and trigonometric functions are explored. Transformations and inverses of functions are introduced. This course is recommended for students with a grade average of C or better in Algebra and Geometry who desire a third year of college preparatory mathematics. A graphing calculator is required in this course. NCAA approved course.</p> <p>Prerequisite: Geometry. Next course in sequence: Pre-Calculus or College Preparatory Mathematics or Introduction to Statistics or AP Statistics, based on teacher recommendation. Open to grades 10, 11, and 12.</p>
<p>ALGEBRA 2 TRIGONOMETRY HONORS <i>Course #3320</i> Full year Credit: 1.0</p>	<p>This honors course provides a more in-depth study of the topics described above in Algebra 2 Trigonometry, as well as circular functions, conics, and probability. Students are expected to be capable of creative problem solving and individual study. This course is recommended for students who have a high interest in mathematics, with no less than a B+ average in previous mathematics courses. A graphing calculator is required in this course. NCAA approved course.</p> <p>Prerequisite: Geometry Honors and departmental approval. Next course in sequence: Pre-Calculus Honors or Pre-Calculus or AP Statistics, based on teacher recommendation. Open to grades 9, 10, 11, and 12.</p>
<p>ALGEBRA 2 TRIGONOMETRY BLOCK SEMESTER 2 <i>Course #3362</i> 2nd semester Credit: 1.0</p>	<p>This course has the same curriculum as #3310, but is taught in a single semester, two periods daily. NCAA approved course.</p> <p>Prerequisite: Algebra 1 (3110), Geometry (3210 or 3261), teacher recommendation, and Departmental approval. Open to grade 10.</p>
<p>COLLEGE PREPARATORY MATHEMATICS <i>Course #3403</i> 2nd semester Credit: 0.5</p>	<p>This course focuses on important topics in mathematical modeling. Topics include algorithms, matrices, graphs, and counting, with applications such as elections, fair division, population growth, scheduling, conflict resolution, routing, and game theory. A graphing calculator with matrix capabilities is required. NCAA approved course.</p> <p>Prerequisite: Algebra 2 Trigonometry (3300G or 3310) and Department approval. Open to grades 11 and 12.</p>

MATHEMATICS DEPARTMENT

<p>INTRODUCTION TO STATISTICS <i>Course #3431, 3432</i> 1st semester/Full year Credit: 0.5/1.0</p>	<p>This course focuses on the major topics in introductory statistics. Topics covered in the first semester include graphical displays of data, numerical summaries of data, the normal distribution, line and curve fitting, and probability. The second semester covers the additional topics of data collection through sampling and experiments, sampling distributions, and inference for means, proportions, and counts. A graphing calculator with advanced statistics capabilities is required. NCAA approved course.</p> <p>Prerequisite for #3431: Algebra 2 Trigonometry (3300G or 3310) and department approval. Prerequisite for #3432: Successful completion of #3431. Next course in sequence: AP Statistics or College Preparatory Mathematics upon teacher recommendation. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT STATISTICS <i>Course #3500</i> Full year Credit: 1.0</p>	<p>Advanced Placement Statistics will introduce students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. It will emphasize sound statistical thinking rather than routine procedures. This course is intended to be equivalent to an introductory non-calculus based college course in statistics. Students will do a significant amount of reading and independent investigation. A graphing calculator with advanced statistics capabilities is required in this course. NCAA approved course.</p> <p>Prerequisite: Algebra 2 Trig. Honors, Algebra 2 Trig., Pre-Calculus, or Pre-Calculus Honors and Departmental approval. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>
<p>PRE-CALCULUS <i>Course #3410</i> Full year Credit: 1.0</p>	<p>This course expands on the material studied in Algebra 2 Trigonometry. These areas of study include: real and complex numbers and functions (polynomial, exponential, logarithmic and trigonometric). Additional areas of study are conics, notions of limits, continuity, circular functions, mathematics of finance, parametric equations, and polar coordinates. It is recommended for students who are preparing to enter a technical or semi-technical profession, or planning to study Calculus. A graphing calculator is required in this course. NCAA approved course.</p> <p>Prerequisite: Algebra 2 Trigonometry or Algebra 2 Trigonometry Honors and Departmental approval. Next course in sequence: AP Calculus AB or AP Statistics. Open to grades 10, 11, and 12.</p>
<p>PRE-CALCULUS HONORS <i>Course #3420</i> Full year Credit: 1.0</p>	<p>This honors course provides a more in-depth study of the topics covered in Pre-Calculus with greater emphasis of both theory and applications. Additional topics include curve fitting and physics applications. A graphing calculator is required in this course. NCAA approved course.</p> <p>Prerequisite: Algebra 2 Trigonometry Honors and Departmental approval. Next course in sequence: Upon satisfactory completion of Pre-Calculus Honors, students are prepared for AP Calculus and AP Statistics. Open to grades 9, 10, 11, and 12.</p>

MATHEMATICS DEPARTMENT

<p>ADVANCED PLACEMENT COMPUTER SCIENCE A <i>Course #3480</i> Full year Credit: 1.0</p>	<p>The Computer Science A AP College Board curriculum guidelines are followed in this course. The emphasis of this course is to prepare students for the AP Exam and future programming courses. Programming concepts including variables, constants, expressions, conditionals, arrays, ArrayLists, iteration, functions, and object-oriented programming using classes are covered. An emphasis is placed on problem solving. Additionally, programming methodology and design, pre-defined and abstract data types, sorting, data structures, and algorithms, related to data structures are discussed. Applications of computing a working knowledge of hardware and software systems and the ethical and social implications of computing are examined. The programming language is JAVA. NCAA approved course.</p> <p>Prerequisite: Algebra 2 Trigonometry and Departmental approval. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>
<p>ADVANCED PLACEMENT COMPUTER SCIENCE PRINCIPLES <i>Course #3495</i> Full year Credit: 1.0</p>	<p>The Computer Science Principles AP College Board curriculum guidelines are followed in this course. The emphasis of this course is to prepare students for the AP Exam and future computer science courses by presenting concepts and computational thinking practices that are central to the computer science discipline. The focus of this course is more on using technology in creative, meaningful ways and less on specific programming languages. Topics covered in the course include data management and analysis, development of algorithms, characteristics of the Internet, and the global impact of computing and programming. NCAA approved course.</p> <p>Prerequisite: Algebra 1 and Departmental approval. Open to grades 9, 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>
<p>ADVANCED PLACEMENT CALCULUS AB <i>Course #3510</i> Full year Credit: 1.0</p>	<p>Advanced Placement Calculus (AB) emphasizes conceptual understandings through manual and technological applications of the derivatives and integrals of algebraic, trigonometric, exponential and logarithmic functions, and relations. This course prepares the student for the AB level Advanced Placement Examination. Satisfactory performance on this examination gives the student an opportunity to qualify for college credit in calculus. A graphing calculator meeting the College Board's optimal technology expectation for the AP Calculus exam is required in this course. NCAA approved course.</p> <p>Prerequisite: Pre-Calculus or Pre-Calculus Honors and Departmental approval. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>

MATHEMATICS DEPARTMENT

<p>ADVANCED PLACEMENT CALCULUS BC <i>Course #3520</i> Full year Credit: 1.0</p>	<p>Advanced Placement Calculus BC provides an in-depth study of the topics described in Calculus AB, as well as calculus of two dimensional vectors, polar functions, parametric curves, and infinite series. This course prepares the student for the BC level Advanced Placement examination. Satisfactory performance on this examination gives the student an opportunity to qualify for college credit in calculus. A graphing calculator meeting the College Board's optimal technology expectation for the AP Calculus Exam is required. NCAA approved course.</p> <p>Prerequisite: Pre-Calculus Honors and Departmental Approval. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>
<p>COMPUTER SCIENCE TOPICS 1 HONORS <i>Course #3611</i> 1st semester Credit: 0.5</p>	<p>Computer Science Topics 1 reviews and builds upon the concepts taught in the AP Computer Science A course. The primary emphasis of the course is on data structures algorithms using the JAVA programming language. Stacks, queues, linked lists, trees, heaps, hash tables, sets, maps, and graphs are covered in great detail. Following the data structures unit, students learn a second programming language. GUI's, advanced sorting algorithms, and cell phone applications are explored. Students have the opportunity to complete an independent study project at the conclusion of the course.</p> <p>Prerequisite: AP Computer Science A and Department approval. Open to grades 11 and 12.</p>
<p>COMPUTER SCIENCE TOPICS 2 HONORS <i>Course #3622</i> 2nd semester Credit: 0.5</p>	<p>This course is a continuation of the Computer Science Topics 1 course described above.</p> <p>Prerequisite: AP Computer Science A and Department approval. Open to grades 11 and 12.</p>
<p>MULTIVARIABLE CALCULUS 1 HONORS <i>Course #3641</i> 1st semester Credit: 0.5</p>	<p>Multivariable Calculus 1 provides students advanced study in mathematics. Topics include Fourier series, geometry of space, vector functions, and partial derivatives. NCAA approved course.</p> <p>Prerequisite: AP Calculus BC and Departmental Approval. Open to grades 10, 11, and 12.</p>
<p>MULTIVARIABLE CALCULUS 2 HONORS <i>Course #3652</i> 2nd semester Credit: 0.5</p>	<p>Multivariable Calculus 2 provides students with advanced study in mathematics. Topics include vector calculus and multiple integrals, including cylindrical and spherical coordinates. Line and surface integrals are covered in detail, as are the Fundamental Theorem of Calculus for line integrals, Green's Theorem, Divergence Theorem, and Stokes' Theorem. NCAA approved course.</p> <p>Prerequisite: AP Calculus BC and Departmental Approval. Open to grades 10, 11, and 12.</p>

MATHEMATICS DEPARTMENT

ENRICHMENT COURSES	
<p>MATH EXCEL ALGEBRA 1 <i>Course #3030, 3035</i> 1st and 2nd semester Credit 0.5 each semester</p>	<p>Math Excel Algebra is designed to support students enrolled in Algebra 1 by providing them additional instruction, individualized practice, and support during the school day. In this small guided study hall led by an Excel teacher and a math teacher, students will have time and support to complete their mathematics homework in addition to other coursework. Math Excel Algebra is a semester course and students will earn credit towards graduation for each semester they are enrolled on a pass/fail basis. Students are encouraged to enroll in both semesters. Grading will be on a Pass or Fail basis for this course.</p> <p>Open to students in grade 9 with a recommendation from their 8th Grade Teacher.</p>
<p>MATH EXCEL GEOMETRY <i>Course #3020, 3025</i> 1st and 2nd semester Credit 0.5 each semester</p>	<p>Math Excel Geometry is designed to support sophomore students enrolled in Geometry in the same format as Math Excel Algebra. Grading will be on a Pass or Fail basis for this course.</p> <p>Open to students in grade 10 with teacher recommendation and Department approval.</p>

MUSIC DEPARTMENT

MUSIC

All courses in the Music Department fulfill the Elective Arts graduation requirement. Two fine arts credits fulfill the Illinois state public university entrance requirements in Art, Music or Foreign Language. Music performance courses are designed to not only improve the level of performance skill of the student, but also to develop a deeper understanding of culture and aesthetics.

All performance music ensembles include events outside the school day that are a significant part of course expectations. A calendar of rehearsals and performances is available on the music department website, www.hcmusic.org. Auditing of music courses (participation for no credit) is not permitted.

Students may earn honors credit in any performance music class by enrolling in the honors section and completing additional requirements throughout the school year. More information about the music honors program of study can be found on the honors tab of the music department website.

**Information subject to change. Please refer to the program of studies online for final honors credit options.

*Music courses without a corresponding general or honors section

**Students using an early bird music course as an honors option receive no credit for the early bird course. Students enrolled in an every other day early bird music course will receive a quarter credit per semester for each course. See Honors Study in Music for more information.

All students in courses with the "E" suffix combine to perform as part of the Red Devil Marching Band and Pep Band and are eligible for an Athletic Waiver from the Physical Education requirement. See Information for All Band Classes for details.

Course numbers with the "AN" or "BN" suffix are early bird music courses that meet every other day before school during period zero. These courses are extensions of the curriculum and students must also be enrolled in a class during the school day to participate, with the exception of bass, guitar, piano students. Students can register for one "AN" class, one "BN" class, or one of each.

Courses with no prerequisites are the entry point for freshmen who do not audition and students new to performance music.

MUSIC DEPARTMENT

Hinsdale Township High School District 86 Music Honors

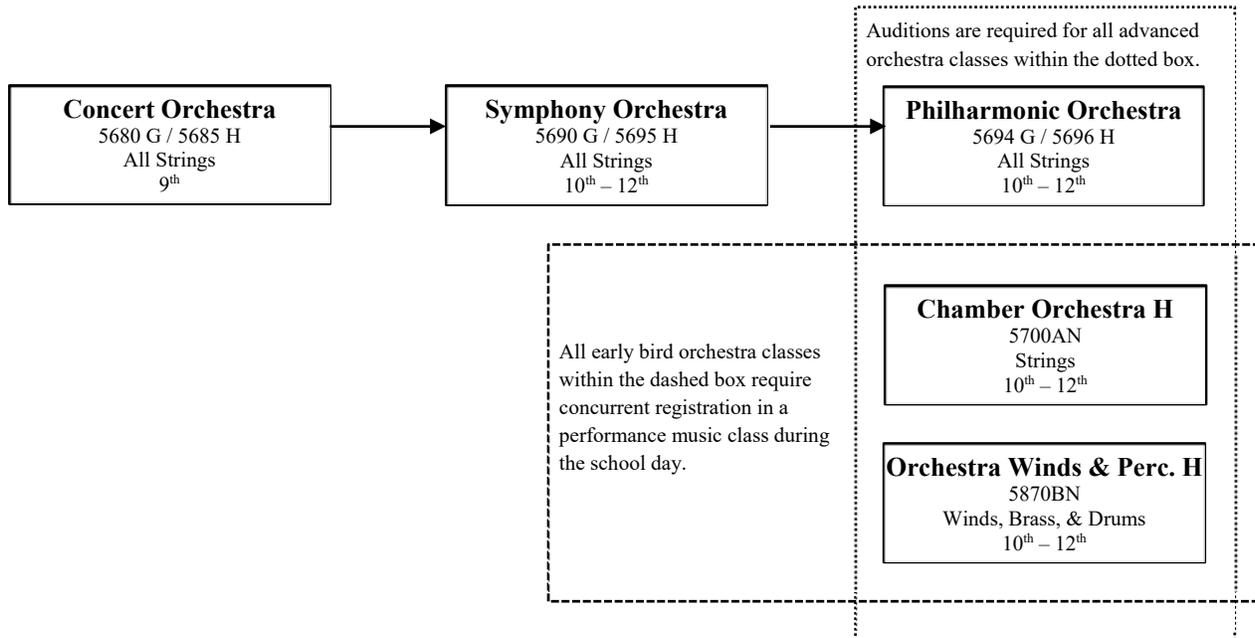

Honors level study is available to students enrolled in any music department course.

- To enroll in the Honors section of your performance music class you must sign up by mid-September and complete the requirements below.
- Students who do not register by the deadline will be placed in the regular section of their performance music class.
- All private lesson, performance, and leadership verification will be submitted online through the music department website.
- All activities used to earn Honors Credit must occur between the published first and last days of the school year.
- Any alterations to the Honors Credit plan will be considered on an individual basis and must be approved by your director in advance.

I. Individual Instruction	II. Solo Performance	III. Ensemble Participation	IV. Music Service	V. Written Projects
REQUIRED:	CHOOSE 1:	CHOOSE 2 :	CHOOSE 1:	CHOOSE 1:
(a) Receive regular, weekly private instruction with a professional musician, or at least 210 minutes each quarter, throughout the entire school year. This requirement is waived for students taking a second music class for honors.	(a) Perform an appropriate solo at the Solo & Ensemble Festival. (b) Perform a solo in a performance setting like a private lesson studio recital or church service. (c) Enroll in a non-credit bearing supplemental music experience course.	(a) Participate in the ILMEA District 1 auditions process. (b) Perform in an extracurricular ensemble. (c) Perform at five home game performances. (d) Perform in an ensemble outside of school like a community orchestra or church choir.	(a) Be a Section Leader or a member of the Student Staff. (b) Complete a music department project, like sorting music, organizing uniforms, or cleaning up after a performance. (c) Serve in a leadership role in another school or community organization. A signed verification form is required. (d) Perform an additional solo at an Honors Recital.	(a) Write a research paper on a director-approved musical topic. (b) Compose or arrange a written piece of music. This project requires pre-approval from your director.

MUSIC DEPARTMENT

ORCHESTRA COURSE SEQUENCE

ORCHESTRA COURSE DESCRIPTIONS

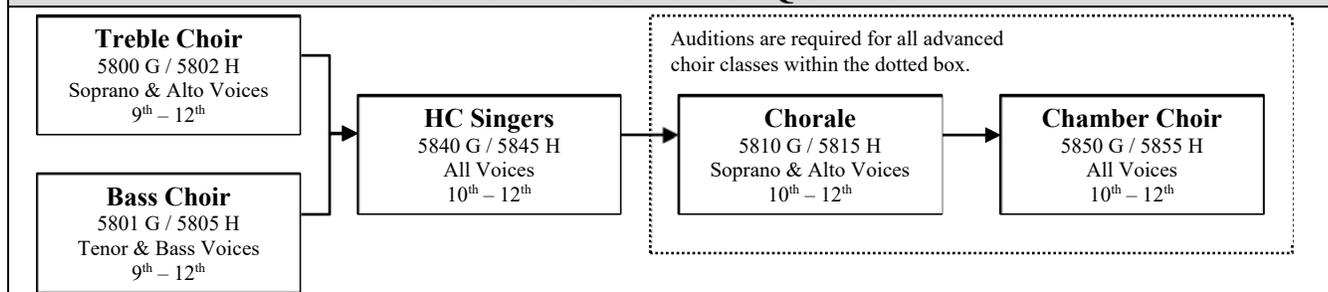

<p>CONCERT ORCHESTRA <i>General Course #5680</i> <i>Honors Course #5685</i> Full year Credit: 1.0</p> <p>CSO Field Trip: \$14 Orchestra Clinic or Exchange: \$14</p>	<p>Concert Orchestra is a class designed for all incoming freshmen string players. The class is centered on refining fundamental string techniques, introducing basic music theory, reinforcing effective rehearsal and practice habits, and performing level-appropriate string literature. Concert orchestra performs a variety of concerts throughout the year as well as participates in Hinsdale Solo and Ensemble Festival. This class offers honors credit that involves additional requirements.</p> <p>Prerequisite: none. Open to grade 9. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>SYMPHONY ORCHESTRA <i>General Course #5690</i> <i>Honors Course #5695</i> Full year Credit: 1.0</p> <p>Concert Attire Fee: \$110 CSO Field Trip: \$14 Orchestra Clinic or Exchange: \$14</p>	<p>Symphony Orchestra is a class designed for sophomore, junior, and senior string players seeking to further improve their performance and understanding of orchestral repertoire. The class is centered on introducing advanced level string techniques, intermediate level music theory, and performing level-appropriate string and full orchestra repertoire. The string section of Symphony Orchestra combines with Orchestra Winds & Percussion players to create a full orchestra experience. Symphony Orchestra members perform in a variety of concerts throughout the year as well as at the Hinsdale Solo and Ensemble Festival. This class offers honors credit that involves additional requirements.</p> <p>Prerequisite: director approval. Open to grades 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>

MUSIC DEPARTMENT

<p>PHILHARMONIC ORCHESTRA <i>General Course #5694</i> <i>Honors Course #5696</i> Full year Credit: 1.0</p> <p>Concert Attire Fee: Up To \$110 CSO Field Trip: \$14 Orchestra Clinic or Exchange: \$14</p>	<p>Philharmonic Orchestra is a class designed for advanced sophomore, junior, and senior players seeking to perform advanced orchestral literature. The class is centered around developing a deeper understanding of orchestral playing and covers advanced topics such as orchestral bowing, becoming a section leader, effective leading and following, and many others. It is assumed that students in this class already have achieved a high level of string technique through private instruction and chamber playing. The string section of Philharmonic Orchestra combines with Wind Ensemble members to perform high level full orchestra repertoire. Philharmonic Orchestra members perform in a variety of concerts throughout the year as well as at the Hinsdale Solo and Ensemble Festival. This class offers honors credit that involves additional requirements. This is an auditioned class.</p> <p>Prerequisite: director approval & audition. Open to grades 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>CHAMBER ORCHESTRA H <i>Honors Course# 5700AN</i> Full year Credit: 1.0**</p> <p>CSO Field Trip: \$14 Orchestra Clinic or Exchange: \$14</p>	<p>Chamber Orchestra is an early bird class designed for advanced freshman, sophomore, junior, and senior string players interested in performing advanced chamber string repertoire. The class focuses on developing chamber playing skills as students will perform in large chamber groups, quartets, trios, and duets. The class meets every other day on a rotating AB weekly schedule. This class offers honors credit that involves additional requirements. This is an auditioned class and concurrent registration in an orchestra class is also required.</p> <p>Prerequisite: director approval & audition. Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>ORCHESTRA WINDS & PERCUSSION H <i>Honors Course # 5870BN</i> Full year Credit 1.0**</p> <p>CSO Field Trip: \$14 Orchestra Clinic or Exchange: \$14</p>	<p>Woodwind, brass, and percussion players may, through placement audition, be selected for Orchestra Winds & Percussion Honors. This is a select ensemble of advanced wind and percussion players who will rehearse every other day as an Early Bird class. These players make up the Symphony Orchestra Wind and Percussion sections. Concurrent registration in a band class is required.</p> <p>Prerequisite: director approval & audition. Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>

Students earning honor credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>

MUSIC DEPARTMENT

INFORMATION FOR ALL BAND CLASSES

Students enrolled in the Hinsdale Central High School Bands perform at home games, local parades, pep rallies, formal concerts, and other community events. Band classes improve musicianship, develop technique, and provide performance opportunities featuring a variety of musical styles and ensemble settings. Every band course is an academic class that meets during a class period and also requires occasional rehearsals and performances outside the school day; however, students are encouraged to participate in other advanced academic classes, athletics, and activities. Opportunities for student leadership, overnight travel, and extracurricular performing are available. All band classes can be repeated each year for credit and are open to students in every grade.

Students must be enrolled in one of the six band classes to participate in jazz classes, orchestra wind and percussion sections, and other extracurricular band activities. The band page of the Music Department website, www.hcmusic.org, has the most current information about the band program, auditions, and honors credit requirements. Questions may be emailed to the band directors: Mr. Matt Kurinsky, at mkurinsk@hinsdale86.org or Mr. Matt Goeke at mgoeke@hinsdale86.org.

MUSIC DEPARTMENT

ADDITIONAL MUSIC ELECTIVES	
GUITAR 1 <i>Course #5941,5942</i> 1 st or 2 nd semester Credit: 0.5	This guitar class is designed for high school students who want to learn to play the guitar and have the opportunity to participate in music performance. This class is for students with no previous guitar experience. Besides learning to note read and develop the necessary technical skills needed to play the guitar, students will learn the essentials of music theory, improvisation and composition. The students will also learn to play solos and in ensembles in a variety of styles including folk, pop, blues, and rock. Prerequisite: None. Open to grades 9, 10, 11, 12. May be repeated for credit.
GUITAR 2 <i>Course #5951, 5952</i> 1 st or 2 nd semester Credit: 0.5	This guitar class is a continuation of Guitar I and is designed to expand the student's musical and technical skills in guitar performance. This course will emphasize the intermediate level of music theory, composition and improvisation, and practice techniques. This class will also continue its study of various music styles and have opportunities to perform solos and in ensembles. More advanced guitar technique such as lead and rhythm playing, using effects, and others will be introduced in this course. Prerequisite: None. Open to grades 9, 10, 11, 12. May be repeated for credit
BACH TO ROCK <i>Course #5631, 5632</i> 1 st or 2 nd semester Credit: 0.5	This course will explore music's origins, historical, and social influences, from Gregorian chant to Rock and the present day. Recordings of these examples will be used extensively so students are introduced to musical periods, musical form, styles, and genres of classical, rock, and popular music. This course will focus on musicians and musical groups that have shaped yesterday's, today's, and the future musical world. YouTube recordings will be used during the semester so students can listen to the music studied. Prerequisite: None. Open to grades 9, 10, 11, 12.
BEGINNING PIANO & COMPOSITION <i>Course #5920</i> Full Year Credit: 1.0	Beginning Piano is an entry-level performance music course. Students will learn the basics of reading music notation in order to play the piano, alone and with other students, and will use a variety of resources to learn music theory, practice technique, create compositions, and perform. Projects will include creating original compositions and learning to play your favorite song. Prerequisite: none. Open to grades 9, 10, 11, and 12. May be repeated for credit.
ADVANCED PIANO COMPOSITION / THEORY <i>Course #5921</i> Full year Credit: 1.0	This course is designed for the serious piano student who wants to learn how to improve piano performance, compose, and perform original compositions. Students learn to use music writing programs like Sibelius, Finale, Band in a Box, and Cakewalk, using Yamaha Synthesizer workstations. Theory will be taught throughout the year as well as composition technique. Students may enter competitions with songs they create and additional performance opportunities may be available. Upon the conclusion of this course, students are expected to take the AP exam. Prerequisite: teacher approval. Open to grades 9, 10, 11, and 12.
AP MUSIC THEORY <i>Course #5900</i> Full year Credit: 1.0	Advanced Placement Music Theory prepares music students for the Music Theory Advanced Placement Examination through the study of musical elements and techniques including notation, scales and modes, intervals, chords, non-harmonic tones, cadences, ear training, sight singing, melody, form, and composition. Success on the AP Exam can result in college credit. All prospective students must be recommended to Mr. Kurinsky by their music director or private lesson instructor. Prerequisite: teacher approval. Open to grades 10, 11, and 12. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.

PHYSICAL, DRIVER, AND HEALTH EDUCATION

PHYSICAL EDUCATION DEPARTMENT

Physical education is the science of human movement and the courses are designed to provide instruction and insight into healthy physical activities. All Physical Education offerings are designed to promote good health, safety, fitness, awareness of the value of recreation, and an appreciation of all forms of physical expression. Per the mandate House Bill 5397 all students in grades 3-12 will complete fitness testing and data will be reported to the Illinois State Board of Education.

Freshmen, juniors and seniors must register for Physical Education EACH semester

COURSE TITLE	Course # (First/Second Semester)	Prerequisite	Credit	Grade Offered

PHYSICAL, DRIVER, AND HEALTH EDUCATION

<p>ADAPTIVE PHYSICAL EDUCATION <i>Course #7080</i> Full year Credit: 1.0</p>	<p>Adaptive PE offers an alternative PE option for students who are unable to participate in a regular physical education course. Adaptive PE is designed to meet the needs of students with a variety of physical, cognitive, or social needs. This course is intended to give the learner the skills necessary for a lifetime of rich leisure, recreation, and sport experience to enhance physical fitness and wellness. In addition, this course offers a smaller class size to make individualized instruction more appropriate. Our program also utilizes a peer mentor program. We have 1:1 peer helpers who serve as teachers/aides/friends to the students in the class. The peer mentors help in the gym hallways, and serve as role models for our students.</p> <p>Prerequisite: Departmental Approval. Open to grades 9, 10, 11, and 12.</p>
<p>ADAPTIVE PE AIDE <i>Course #7084, 7085</i> Credit: 0.5</p>	<p>The Adaptive Physical Education Aide class is offered to juniors and seniors who are interested in working with students with a variety of physical, cognitive, and social needs. As a “peer buddy” students are encouraged to serve as role models in the class (wear PE attire and participate daily, model appropriate behavior, etc.). This class will swim during both semesters. Daily attendance is required.</p> <p>Prerequisite: Application from PE office and Departmental Approval. Priority will be given to those students interested in a career in education. This course may NOT be repeated. Open to grades 11 and 12.</p>
<p>GROUP EXERCISE <i>Course #7307, 7322</i> Credit: 0.5</p>	<p>This class introduces students to components of cardiovascular activity through aerobic movements. Students will also address the principles of muscular strength and endurance through the use of free weights and toning exercises. Core workouts, yoga, Pilates, and fitness dance are introduced as part of this class as methods for students to increase flexibility, strength and balance. Students will be introduced to the R.A.D Self-Defense System which will provide students with an experience in basic self-defense skills. (May be repeated).</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>AQUATICS <i>Course #7305, 7320</i> Credit: 0.5</p>	<p>This course provides students the opportunity to engage in sports and activities designed for the aquatic environment. The Learning Target for the course includes swim stroke development, aerobic fitness, and biomechanic analysis of the four competitive swimming strokes, as well as starts and turns. Water safety habits, basic lifeguarding skills, water aerobics, dry land exercises, and weight training specific to aquatic activity will also be introduced. Recommended for prospective triathletes and swimmers (May be repeated).</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>PHYSICAL CONDITIONING <i>Course #7306, 7321</i> Credit: 0.5</p>	<p>This course provides students the opportunity to experience the development of strength and performance training. Fundamental and advanced techniques will be applied to resistance training and functional fitness concepts in order to enhance students’ strength, power, and agility. Additional concepts such as nutrition and stress management will be cover throughout the semester. Recommended for any person wishing to improve overall competitive effectiveness.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>COMPREHENSIVE WEIGHT TRAINING (Bouchard Center) <i>Course #7309, 7324</i> Credit: 0.5</p>	<p>Gain knowledge and understanding of weight training theory, advanced weight training practices, sport specific weight training techniques and proper nutritional practices. Initiate and develop weight training programs. Improve muscular strength and endurance (May be repeated).</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>EARLY BIRD P.E. <i>Course #7373, 7374</i> Credit: 0.5</p>	<p>This physical education course runs from 7AM to 7:50AM except on Late Start Days, which will run from 8AM to 8:40AM. This course is designed to meet the needs of each student’s individual health and fitness goals. Students will learn how to properly design a Personal Fitness Plan that will address proper biomechanics of strength training and effective training methods to improve aerobic fitness.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>

PHYSICAL, DRIVER, AND HEALTH EDUCATION

FRESHMAN PHYSICAL EDUCATION <i>Course #7113, 7114</i>	Students' entry level experiences in the program consist of participation in a full-year core of activities that focus on the physical development and improvement of the fitness of the student. Students will participate in a variety of team and individual sports and activities to meet the learning outcome of the course. Activities included basketball, tchoukball, soccer, square dance, volleyball, badminton, fitness concepts, introduction to strength and functional training, football, tennis, gymnastics, swimming, group exercise, wrestling and dance. Students will also engage in the Yale University RULER curriculum which focuses on Social Emotional Learning targets. Along with this curriculum students will have to opportunity to collaborate with the school's Peer Leadership program to acclimate students to the high school experience. Prerequisite: None. Open to grade 9.			
LIFEGUARDING/ CPR/ FIRSTAID <i>Course #7310, 7325</i> Credit: 0.5	Meets American Red Cross Lifesaving Certification, Cardiopulmonary Resuscitation Certification and Standard First Aid Certification. Students must be able to swim 500 yards non-stop to enroll. No student may use a P.E. exemption in this class and receive Red Cross certification or recertification. Prerequisite: None. Open to grades 10, 11, and 12.			
PERSONAL FITNESS (Fitness Center) <i>Course #7308, 7323</i> Credit: 0.5	Variable course content. Teacher directed workouts and individualized conditioning programs designed to address fitness goals are incorporated. Principles and skills relating to cardiovascular endurance, muscular strength, muscular endurance, and flexibility are incorporated. Equipment orientation includes cardiovascular machines, proper weight training techniques and circuit training. At the completion of course, students will be able to design and implement their own fitness program. Prerequisite: None. May be repeated. Open to grades 10, 11, and 12.			
FITNESS INTEGRATED THROUGH SPORTS (F.I.T.S) - SEMESTER 1 Includes sports and activities for lifelong participation. Instruction provided in basic skill, rules, strategies, and social behavior necessary to achieve competent level of participation, practice, game situations and tournament play. In addition, students will be introduced to fitness components such as cardiovascular endurance, muscular strength, muscular endurance and flexibility. Select one of the following options listed below.				
Lifetime Activities <i>Course #7311</i> 1 st Semester Credit: 0.5	Softball Basketball Volleyball Aquatics	Tennis Archery Fitness Testing Football	Badminton Frisbee Golf Soccer Tchoukball	Lifetime Activities <i>Course #7311</i> 1 st Semester Credit: 0.5
Competitive Team Sports <i>Course #7312</i> 1 st Semester Credit: 0.5	Volleyball Ultimate Frisbee Aquatic Games	Football/Navy Outdoor Hockey Soccer	Team Handball Flicker Ball Fitness Testing	Competitive Team Sports <i>Course #7312</i> 1 st Semester Credit: 0.5
FITNESS INTEGRATED THROUGH SPORTS (F.I.T.S) - SEMESTER 2 Includes sports and activities for lifelong participation. Instruction provided in basic skill, rules, strategies, and social behavior necessary to achieve competent level of participation, practice, game situations and tournament play. In addition, students will be introduced to fitness components such as cardio-vascular endurance, muscular strength, muscular endurance and flexibility. Select one of the following options. Select one of the following options listed below.				
Lifetime Activities <i>Course #7326</i> 2 nd Semester Credit: 0.5	Pickleball Volleyball	Ping Pong Aquatics Basketball	Golf Group Exercise Softball Tchoukball	Outdoor Education Fitness Testing
Competitive Team Sports <i>Course #7327</i> 2 nd Semester Credit: 0.5	Volleyball Basketball	Team Games Softball	Outdoor Hockey	Aquatic Games

PHYSICAL, DRIVER, AND HEALTH EDUCATION

DRIVER EDUCATION

Course #7461/7462

Credit: 0.25

\$350.00 Course fee

\$20.00 Permit fee required by State

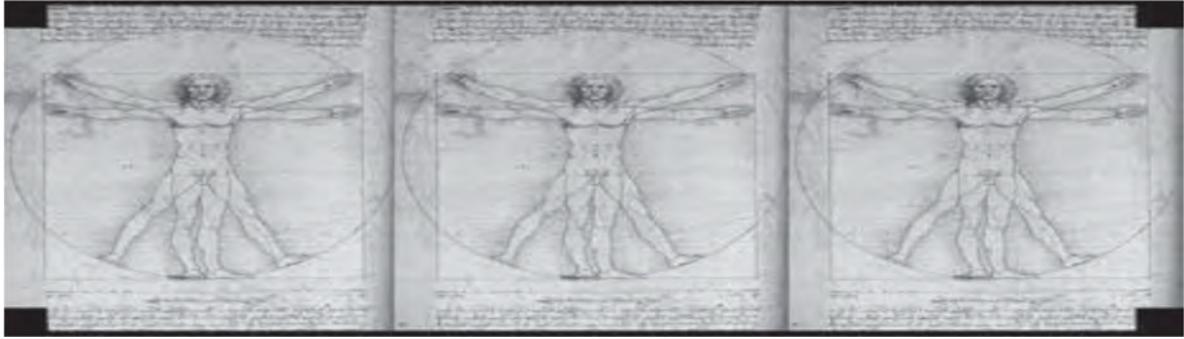

Driver Education, though an elective course, is required in order to obtain a state driver's license prior to the age of 18. Driver Education will follow state mandates on the number of classroom instruction and in car training. Student schedules must allow for one period per day during one semester in order to complete course requirements. Student's class time will be divided between behind the wheel instruction with a certified instructor for 24 class periods. 30 hours of classroom instruction. When students are not in classroom or behind the wheel they will be placed in a study hall as part of the Driver's Education program.

Any incoming freshman can enroll in Driver Education as long as he/she turns 15 years of age prior to the start of the semester.

If you turn 15 years of age prior to the start of the semester, you are eligible to enroll in Driver Education. Students enrolled in Driver Education will receive two grades at the end of the semester: one for the classroom phase, and one for the behind-the-wheel phase. Upon successful completion of the Driver Education Cooperative Testing program, students will be eligible for their license without need for further examination by the Illinois Secretary of State Office.

As a prerequisite, students enrolling in Driver Education must be passing eight semester classes within the two most recent semesters of attendance. Only classes used to determine a student's GPA will be allowed to meet this requirement.

PHYSICAL, DRIVER, AND HEALTH EDUCATION

HEALTH EDUCATION

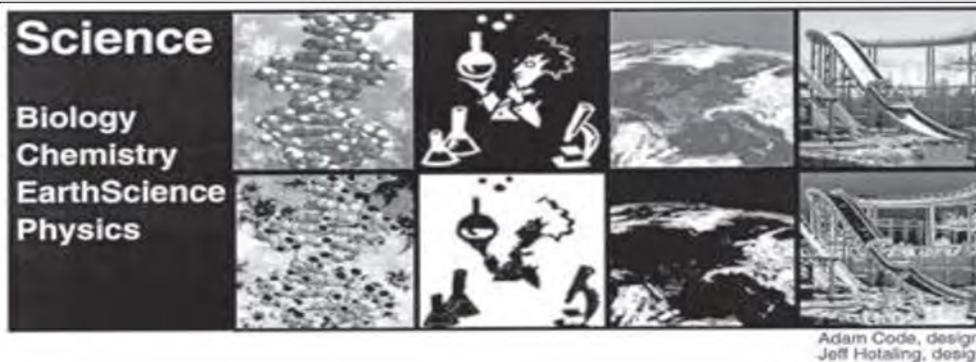

Sophomores have the option of taking Health Education for one semester and Physical Education for the other semester. Students electing to enroll in summer school Health Education will be placed in Physical Education for both semesters in order to be compliant with the mandated daily physical education requirement.

COURSE TITLE	Course # (First/Second Semester)	Prerequisite	Credit	Grade Offered
Health Education	7501/7502	No	0.5	10
Introduction to Sports Medicine	7521/7522	Yes	0.5	10-12
Health Foundations	2002	Yes	0.5	9-12
Health	2780A/2780B	Yes	0.5	9-12
HEALTH EDUCATION <i>Course #7501, 7502</i> Credit: 0.5 (Included in student's G.P.A.)	The goal of this course is to promote and develop positive attitudes and behaviors related to the overall wellness of Hinsdale Central students. Students are taught how to access valid health information and health-promoting products and services. The students will also learn how to analyze the influence of culture, media, technology and other factors on health. Topics of study within the Health Education program include: Introduction to Wellness, Alcohol, Tobacco and other Drugs, Nutrition and Fitness, Communicable and Non-communicable Diseases, and Human Reproduction. The curriculum is aligned with District 86 program goals, Illinois and National Health Education Standards, and Illinois State Standards for Social/Emotional Learning.			
	REQUIRED FOR GRADUATION. This course should be taken in tandem with Physical Education during the sophomore year. Open to grade 10.			
INTRODUCTION TO SPORTS MEDICINE <i>Course #7521, 7522</i> Credit: 0.5 (General credit only; not for elective arts. Included in student's G.P.A.)	The goal of this course is to help students become more knowledgeable and proficient in the following areas: principles and practices of athletic training; anatomy, physiology, injury recognition, treatment and rehabilitation as they relate to sports and leisure activities. This course also provides valuable hands-on experience and is highly recommended for those students who are interested in careers in nursing, medicine, athletic training, physical therapy, or coaching.			
	Prerequisite: Successful completion of Health Education or approval of Department Chair. Open to grades 10, 11, and 12.			

PHYSICAL, DRIVER, AND HEALTH EDUCATION

<p>HEALTH FOUNDATIONS Course #2002 2nd Semester Credit 0.5</p>	<p>This course is for students who are reading at least three years below grade level. The goal of this course is to promote and develop positive attitudes and behaviors related to the overall wellness of Hinsdale Central students. Students are taught how to access valid health information and health-promotion products and services. The students will also learn how to analyze the influence of culture, media, technology and other factors on health. Topics of study within the Health Education program include: Introduction to Wellness, Alcohol, Tobacco and other Drugs, Nutrition and Fitness, Communicable and Non-communicable Diseases, and Human Reproduction. The curriculum is a modification of grade level standards, but is aligned with District 86 program goals, Illinois and National Health Education Standards. Students enrolled in this course must also be enrolled in Adaptive PE.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>HEALTH Course #2780A/2780B Credit: 0.5 (included in student's G.P.A)</p>	<p>This course is for students who are reading at least two years below grade level. Open to grades 10, 11, and 12.</p>

SCIENCE DEPARTMENT

SCIENCE DEPARTMENT

Two credits in science are required for graduation. Each credit must be earned by completing both semesters of a given course (one credit can be earned through the semester course offerings).

All students should have experience in both the biological and physical/earth sciences. Two years of the same type of science, if this excludes other areas of science, is not recommended.

1. Courses in science are designed to develop an understanding of the natural and physical world, to stress the importance of major scientific principles, to develop reasonable competence in the use of the methods of science and to help recognize and prepare for the role science plays in our evolving technological world. The many course offerings and sequences in science have been carefully planned to meet the needs of each student, whether he/she considers science as a future career, as an interesting avocation or as a necessity for all citizens in our technological society.
2. Courses are taught in classroom-laboratory situations which provide opportunities for individual and group instruction, investigation and experimentation. All science classes require a teacher recommendation.
3. The following are possible four-year course sequences:

Seq.	Grade 9	Grade 10	Grade 11	Grade 12
1.	Earth Science <i>or</i> Biology	Biology Earth Science	Chemistry/Physics	Chemistry Themed <i>or</i> Traditional <i>or</i> Physics Themed <i>or</i> Traditional
2.	Biology	Chemistry Themed <i>or</i> Chemistry Traditional	Physics Themed <i>or</i> Physics Traditional	Earth Science semester courses <i>or</i> Earth Science Honors <i>or</i> <u>select</u> Advanced Placement courses
3.	Biology	Chemistry Themed <i>or</i> Chemistry Traditional	Earth Science semester courses*	Physics Themed Physics Traditional
4.	Biology <i>or</i> Biology H <i>or</i> Earth Science <i>or</i> Earth Science-H	Earth Science <i>or</i> Earth Science-H <i>or</i> Biology <i>or</i> Biology-H	Chemistry Traditional/Themed <i>or</i> Chemistry - H	AP Physics 1, Advanced Placement courses <i>or</i> AP Seminar: Science AP Seminar: Research
5.	Biology Honors	Chemistry Honors (concurrent enrollment in AP Seminar: Science)	AP Physics 1 (concurrent enrollment in AP Seminar: Science)	Advanced Placement courses
6.	Chemistry H (if you are registered for Algebra 2 Trig or higher)	A.P. Physics 1	AP Biology <i>or</i> AP Environmental Science	Advanced Placement course AP Seminar: Science AP Seminar: Research

The aforementioned sequences by no means represent all sequences available to students. The possibilities are numerous. A more useful way to view science courses is by the year offered. The following table serves that purpose.

*Students who have taken Earth Science 3740G or Earth Science 3750 are not eligible to enroll in Earth Science semester courses.

**A.P. Seminar: Science is open to 10, 11 and 12th grade students. Please see description for more details.

SCIENCE DEPARTMENT

SCIENCE DEPARTMENT

<p>SCIENCE FOUNDATIONS <i>Course#2050</i> Full year Credit: 1.0</p>	<p>Students will investigate key elements of physical and social wellness that can be generalized in various facets of daily life, including proper nutrition, sleep, self-care, and exercise. They will explore the benefits of leisure activities and socialization. Students will also explore fundamental concepts, principles and interconnections of the life, physical and earth sciences. This course is intended for students who are reading two or more years below grade level.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>FUNDAMENTALS OF BIOLOGICAL SCIENCE <i>Course#3690</i> Full year Credit: 1.0</p>	<p>This course is for students who are reading and writing significantly below grade level. Curriculum in this course is a modification of the grade level standards, but is designed to acquaint students with properties of living organisms. The content includes a basic introduction to topics as the relationship between structure and function in living organisms as it relates to the human body, evolution, genetics, and some aspects of ecology. The systematic approach of this course provides an introduction to major biological concepts while emphasizing literacy and executive functioning skills. This course is designed to assist students with reading comprehension as it relates to science literacy. Class activities include laboratory investigations and class discussions.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11 and 12.</p>
<p>BIOLOGY <i>Course#3700G</i> Full year Credit: 1.0</p>	<p>This course is designed to acquaint students with properties of living organisms. The content includes such topics as the relationship between structure and function in living organisms as it relates to the human body, evolution, genetics, and many aspects of ecology. The approach of this course provides an introduction to major biological concepts while emphasizing literacy and executive functioning skills. This course is designed to assist students with reading comprehension as it relates to science literacy. Biology is a laboratory course.</p> <p>Prerequisite: Incoming freshmen eligibility is based upon Math department placement, Explore scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11, and 12.</p>
<p>BIOLOGY <i>Course#3710</i> Full year Credit: 1.0</p>	<p>This course is designed to acquaint students with properties of living organisms. This course's content includes such topics as the relationship between the structure and function in living organisms as it relates to the human body, evolution, genetics, and varied ecological principles. The impact that humans have on the global environment is studied during the end of this course. Methods of scientific inquiry are employed in classroom instruction. Good ability in reading comprehension is ESSENTIAL for success in this course. Biology is a laboratory course. NCAA approved course.</p> <p>Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11, and 12.</p>
<p>BIOLOGY HONORS <i>Course#3720</i> Full year Credit: 1.0</p>	<p>This course follows a molecular approach in the following content areas: cellular biology, evolution, genetics and its applications, and aspects of human biology. Compared to Biology 3710, the content areas are covered in greater depth and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. This course utilizes an inquiry approach in which students incorporate factual information into a framework of reflection and analysis. Biology - H is a laboratory course. Students earning a C in this course will not be eligible for a level change. NCAA approved course.</p> <p>Prerequisite: High ability in science, mathematics and reading. Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11, and 12.</p>
<p>ANATOMY AND PHYSIOLOGY <i>Course#3725</i> Full year Credit: 1.0</p>	<p>This course develops students' understanding of the workings of the human body. Dissections, including various cow organs and joints and a mink, play an important role in the learning process of this course. Careers in health-related fields are emphasized through in-class activities and field trips. NCAA approved course.</p> <p>Prerequisite: Successful completion of Biology and Chemistry and teacher recommendation. Open to grades 11 and 12. This course is ONLY offered at the HINSDALE SOUTH CAMPUS. This course is taught at Hinsdale South, only, and Central students would need to provide their own transportation to and from South. Also, Central students can enroll, but would need to take a study hall adjacent to the course to allow for travel.</p>

SCIENCE DEPARTMENT

<p>ADVANCED PLACEMENT BIOLOGY <i>Course#3730</i> Full year Credit: 1.0</p> <p>Supply fee: \$10.00</p>	<p>This course follows the College Board’s Advanced Placement curriculum and as such is rigorous and fast paced. This course is comparable to an introductory college level course. College level materials are used. Advanced Placement Biology is a laboratory course. NCAA approved course.</p> <p>Prerequisite: Three years of science, including a year of Biology and a year of Chemistry and departmental recommendation. Concurrent enrollment in third year of science and AP Biology is permitted. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>
<p>ADVANCED PLACEMENT ENVIRONMENTAL SCIENCE <i>Course#3770</i> Full year Credit: 1.0</p>	<p>This course follows the College Board’s Advanced Placement curriculum and as such is rigorous and fast paced. This course will provide students with the scientific principles, concepts and methods required to understand the interrelationships of the natural world, to identify and analyze environmental problems, and to examine alternative solutions for resolving and/or preventing them. Field trips are an integral part of this course and are therefore mandatory. This course is comparable to a one-semester introductory college-level course; college-level materials are used. Advanced Placement Environmental Science is a laboratory course. NCAA approved course.</p> <p>Prerequisite: Three years of science and departmental recommendation. Concurrent enrollment in a third year of science and AP Environmental Science is permitted. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>
<p>EARTH SCIENCE <i>Course#3740G</i> Full year Credit: 1.0</p>	<p>The core material for this course is similar to that of 3750 Earth Science. The approach of this course provides an introduction to major earth science concepts while emphasizing literacy and executive functioning skills. This course is designed to assist students with reading comprehension as it relates to science literacy. Earth Science is a laboratory course.</p> <p>Prerequisite: Incoming freshman eligibility is based upon Math department placement, Explore scores and recommendation of 8th grade instructor. Open to grades 9-12</p>
<p>EARTH SCIENCE <i>Course#3750</i> Full year Credit: 1.0</p>	<p>This course utilizes an inquiry approach in which students take factual information and use it for analysis. The main units of study are: geology, oceanography, meteorology and astronomy. Good ability in reading comprehension and average ability in math are ESSENTIAL for success in this program. Earth Science is a laboratory course. NCAA approved course.</p> <p>Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9 and 10.</p>
<p>EARTH SCIENCE HONORS <i>Course#3760</i> Full year Credit: 1.0</p>	<p>This course uses a college-level textbook and covers major topics in meteorology, astronomy, and geology. Compared to Earth Science 3750, the pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. The approach of the course involves traditional learning, labs, and tests paired with cooperative group work, presentations, and written projects. Earth Science - H is a laboratory course. NCAA approved course.</p> <p>Students earning a C in this course will not be eligible for a level change.</p> <p>Students enrolled in this course will be eligible to earn one semester of dual credit through College of DuPage.</p> <p>Prerequisite: High ability in science, mathematics and reading. Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11, and 12.</p>

SCIENCE DEPARTMENT

<p>METEOROLOGY & ASTRONOMY <i>Course#3771</i> 1st semester only Credit: 0.5</p>	<p>Meteorology is the study of the mechanics of the atmosphere, weather and climatic patterns. Astronomy is concerned with the celestial bodies that comprise the known physical universe. The astronomy portion of this course DOES NOT emphasize astrophysics. This course includes teamwork to help develop problem solving skills. Good reading skills and comprehension are required. Meteorology and Astronomy is a laboratory course. NCAA approved course.</p> <p>Prerequisite: At least one year of high school science, and departmental recommendation. This course is NOT open to anyone who has already taken Earth Science. Open to grades 11 and 12.</p>
<p>GEOLOGY & OCEANOGRAPHY <i>Course#3782</i> 2nd semester only Credit: 0.5</p>	<p>This course examines the physical processes that shape and change the earth's crust. The physical, chemical, geological and biological aspects of the ocean are explored with equal time devoted to each aspect. This course includes teamwork to help develop problem solving skills. Good reading skills and comprehension are required. Geology and Oceanography is a laboratory course. NCAA approved course.</p> <p>Prerequisite: At least one year of high school science, and departmental recommendation. This course is NOT open to anyone who has already taken Earth Science. Open to grades 11 and 12.</p>
<p>CHEMISTRY/ PHYSICS 1 <i>Course#3800</i> Full year Credit: 1.0</p>	<p>This course is designed for those students needing additional chemistry and physics background before enrolling in a full-year course. Approximately one semester each will be devoted to topics in chemistry, such as atomic structure and gases, and topics in physics, such as motion and waves. This lab-oriented course is taught at a pace that allows students to focus on chemistry and physics content development as well as study skills that could prepare students for a full-year chemistry or physics course. This is a laboratory course. NCAA approved course.</p> <p>Prerequisite: Successful completion of Algebra and departmental recommendation. This course is not open to students who have taken Chemistry or Physics. Open to grades 11 and 12.</p>
<p>CHEMISTRY THEMED <i>Course#3810</i> Full year Credit: 1.0</p> <p>Supply fee: \$10.00</p>	<p>(Both Chemistry-Themed and Chemistry-Traditional are REGULAR level courses.) This is an environmentally themed chemistry course which teaches traditional chemistry concepts such as stoichiometry, acids and bases, and behavior of gases. Themed units include water, natural resources, petroleum, air and nuclear chemistry. This method of teaching chemistry is endorsed by the American Chemical Society. The course incorporates teamwork to develop problem solving skills and an understanding of the relevance and concepts of chemistry in everyday living. This course has a field-based lab requirement. This is a laboratory course and it does not meet the prerequisite for A.P. Chemistry. NCAA approved course.</p> <p>Prerequisite: Successful completion of Algebra 1, concurrent enrollment in Geometry or higher and departmental recommendation. Open to grades 10, 11, and 12.</p>
<p>CHEMISTRY TRADITIONAL <i>Course#3820</i> Full year Credit: 1.0</p> <p>Supply fee: \$10.00</p>	<p>(Both Chemistry-Themed and Chemistry-Traditional are REGULAR level chemistry courses.) Traditional chemistry concepts such as stoichiometry, acids and bases, behavior of gases and molecular shapes are taught as students independently develop understanding through participation in classroom discussion, assignments, activities and labs. This is a laboratory course and it meets the prerequisite for A.P. Chemistry. NCAA approved course.</p> <p>Prerequisite: Successful completion of Algebra 1, concurrent enrollment in Geometry or higher and departmental recommendation. Open to grades 10, 11, and 12.</p>

SCIENCE DEPARTMENT

<p>CHEMISTRY HONORS <i>Course#3830</i> Full year Credit: 1.0</p> <p>Supply fee: \$10.00</p>	<p>The core material for this course is similar to that of Chemistry-Traditional and follows a similar sequence. The pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. Chemistry - Honors is a laboratory course. This course meets the pre-requisite for A.P. Chemistry. NCAA approved course.</p> <p>Students earning a C in this course will not be eligible for a level change.</p> <p>Prerequisite: Successful completion of Algebra I and departmental recommendation which will be based on a high level of ability in science, mathematics, and reading. Open to grades 10, 11, 12 and 9th graders enrolled in Algebra 2 Trig or higher.</p>
<p>ADVANCED PLACEMENT CHEMISTRY <i>Course#3840</i> Full year Credit: 1.0</p> <p>Supply fee: \$10.00</p>	<p>This course follows the College Board's Advanced Placement curriculum and as such is extremely rigorous and fast paced. This course is comparable to an introductory college level chemistry course. College level materials are used. Advanced Placement Chemistry is a laboratory course. NCAA approved course.</p> <p>Prerequisite: Three years of science, including a year of Chemistry (Traditional or Honors) and a year of Physics (Traditional or Honors) and departmental recommendation. Concurrent enrollment in a third year of science and AP Chemistry is permitted. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>
<p>PHYSICS THEMED <i>Course#3900</i> Full year Credit: 1.0</p>	<p>(Both Physics-Themed and Physics-Traditional are REGULAR level physics courses.) This is a theme-directed laboratory course. Quarterly themes are: Physics of the Arts, electrical physics, sports physics and rollercoaster physics. Topics including motion, forces, energy, waves, sound, optics, electricity and magnetism are taught in a directed approach with frequent assessment through participation in classroom lecture, assignments, activities, projects and labs. This course is appropriate for students with average math ability. This is a laboratory course and it does not meet the prerequisite for A.P. Physics courses. NCAA approved course.</p> <p>Prerequisite: successful completion of Algebra 1, concurrent enrollment in Algebra II/Trig and departmental recommendation. Open to grades 10, 11, and 12.</p>
<p>PHYSICS TRADITIONAL <i>Course#3920</i> Full year Credit: 1.0</p>	<p>(Both Physics-Themed and Physics -Traditional are REGULAR level physics courses.) This is a traditional high school physics laboratory course. Topics such as motion, forces, momentum, energy, waves, sound, light, optics, electricity and magnetism are taught as students independently develop understanding with less frequent assessment through participation in classroom lecture, assignments, activities, projects and labs. This course is appropriate for students with average math ability. This is a laboratory course and meets the prerequisite for A.P. Physics courses. NCAA approved course.</p> <p>Prerequisites: Successful completion of Algebra I, concurrent enrollment in Algebra II/Trig, and departmental recommendation. Open to grades 10, 11, and 12.</p>

SCIENCE DEPARTMENT

<p>ADVANCED PLACEMENT PHYSICS 1 <i>Course#3930</i> Full year Credit: 1.0</p>	<p>This is an algebra-based 1st year physics course following the College Board's Advanced Placement curriculum and as such is designed to prepare students for the AP Physics 1 exam. Topics such as motion, forces, momentum, energy, rotational dynamics, waves, sound, light, optics, electricity and magnetism are taught as students independently develop understanding with less frequent assessment through participation in classroom lecture, assignments, activities, projects and labs. Compared to Physics-Traditional, the pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. AP Physics 1 is math intensive with an emphasis on symbolic manipulation of variables. This course meets the prerequisite for AP Physics C. AP Physics 1 is a laboratory course. Students earning a C in this course will not be eligible for a level change. NCAA approved course.</p> <p>Prerequisites: Successful completion of Algebra 2 Trigonometry and departmental recommendation that will be based upon high level ability in science, mathematics and reading. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>
<p>ADVANCED PLACEMENT PHYSICS 2 <i>Course#3950</i> Full year Credit: 1.0</p>	<p>A.P. Physics 2 is a 2nd year physics course for regular-level students. It follows the College Board's Advanced Placement curriculum and as such is designed to prepare students for the AP Physics 2 exam. The course is moderate paced and covers topics in mechanics, fluids, thermal physics, waves and optics, electrostatics, electricity and magnetism, and nuclear and atomic physics. Internet access is required to utilize an online homework service. This is a laboratory course and requires a lab composition book. Students are required to purchase an on-line homework program. NCAA approved course.</p> <p>Prerequisite: Department recommendation, and three years of science including chemistry and either A.P. Physics 1 or traditional physics. Concurrent enrollment in a third year of science is permitted. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>
<p>ADVANCED PLACEMENT PHYSICS C <i>Course#3960</i> Full year Credit: 1.0</p>	<p>This is a calculus-based 2nd year physics course following the College Board's Advanced Placement curriculum and as such is designed to prepare students for the AP Physics C exam. Approximately half of the year is devoted to mechanics and the other to classical electricity and magnetism. Calculus is used in problem solving and derivations with usage increasing as the course progresses. This course, which uses college level materials, is comparable to an introductory college physics course for pre-med or engineering majors. Advanced Placement Physics is a laboratory course. NCAA approved course.</p> <p>Prerequisite: Departmental recommendation and three years of science, including years of Chemistry and Physics (AP Physics 1), as well as completion of Calculus AB or BC, or concurrent enrollment. Concurrent enrollment in a third year of science and AP Physics is permitted. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. Upon completion of this course, students are eligible to sit for two different AP Physics exams- AP Physics C: Mechanics and AP Physics C: Electricity & Magnetism. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>

SCIENCE DEPARTMENT

AP CAPSTONE PROGRAM

ADVANCED PLACEMENT SEMINAR: SCIENCE
Course#3981
 Full year Honors Credit
 Credit: 1.0

AP Seminar: *Science* has a disciplinary focus which engages students in cross-curricular conversations that explore the complexities of academic and real-world topics and issues by analyzing divergent perspectives. Throughout the course, students will collaborate on group scientific research assignments, complete individual science research and present and defend their conclusions. The course aims to equip students with the power to analyze and evaluate information with accuracy and precision in order to craft and communicate evidence-based arguments. This is an elective science course and does not count towards your science graduation requirement nor does it serve as a prerequisite for Advanced Placement science courses. Earned credit will be applied to the student’s overall graduation credit total. NCAA approved course.

Prerequisite: Successful completion of an honors level science course or successful completion of a regular level science course and teacher recommendation. During the school year, 2 years of science or concurrent enrollment in a second year of science. Open to grades 10, 11, and 12.

Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$142 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.

This course is a prerequisite course for AP Research. Students who successfully complete both AP Seminar and AP Research will receive either an AP Certificate or AP Diploma depending on the number of AP courses they have completed.

Supply fee: \$10.00

ADVANCED PLACEMENT RESEARCH: SCIENCE
Course#3982
 Full year Honors Credit
 Credit: 1.0

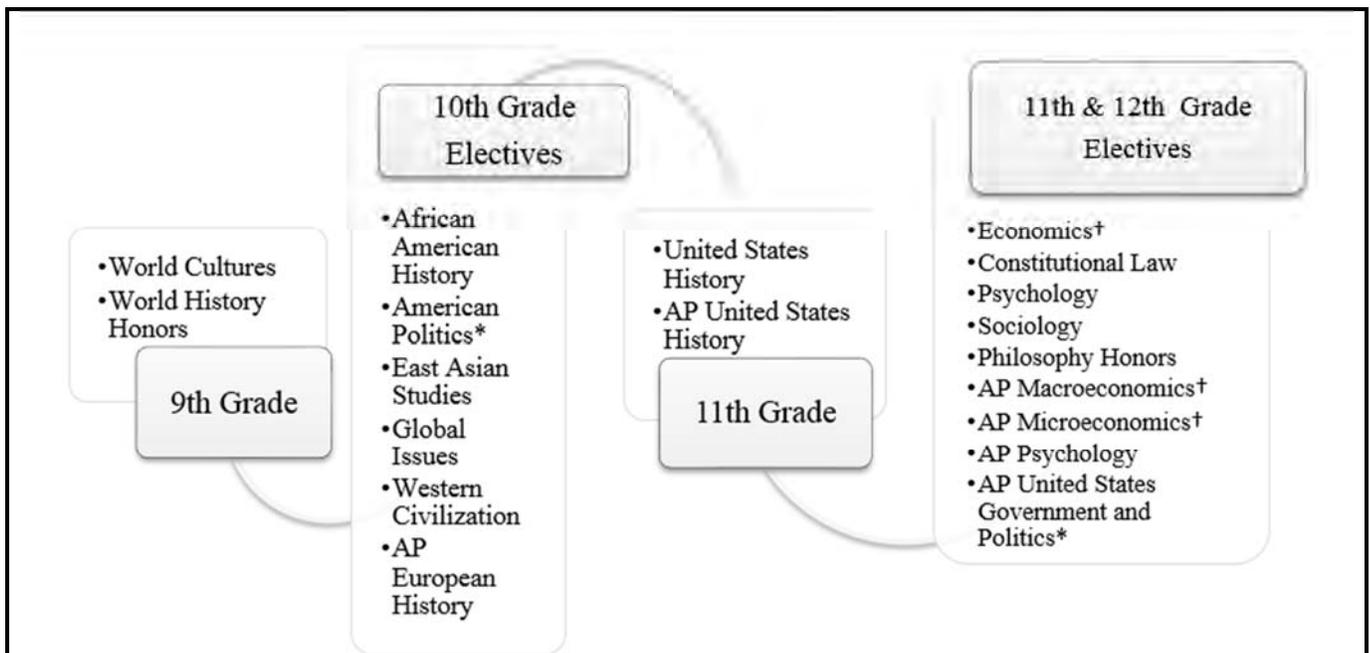

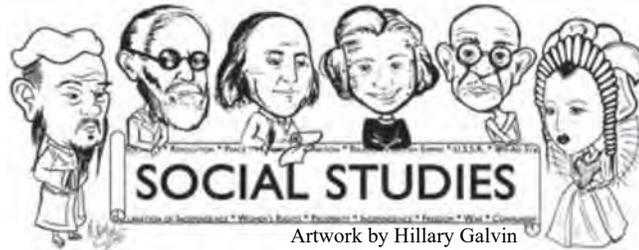

AP Research: *Science* engages students to explore an academic topic, problem, or issue that interests them and with the assistance of a research advisor/mentor, design, plan, and conduct a year-long research-based investigation to address it. Students further their skills acquired in the AP Seminar course by understanding research methodology; employing ethical research practices; and accessing, analyzing, and synthesizing information as they address a research question. NCAA approved course.

Upon successful completion of this course, students are assessed on the academic paper and presentation and oral defense of research which is submitted to College Board for evaluation and scoring to determine the AP grade. The AP fee for evaluation and scoring is \$142. See page 21 for more details.

Supply fee: \$10.00

Prerequisite: Successful completion of AP Seminar: *Science*

SOCIAL STUDIES DEPARTMENT

MISSION STATEMENT

The Hinsdale Central Social Studies Department strives to be respected by all school constituencies for its ability to inspire and direct the personal, intellectual, and civic development of its students. The department emphasizes the process of learning, whereby students critically examine issues, evaluate multiple points-of-view, and synthesize perspectives from a variety of disciplines, resulting in the ability to solve problems and make informed decisions. The department seeks to promote an understanding of diverse cultures, values, and systems; from this, students will gain awareness of their own values, as well as those of others. The tolerance and diversity that result from this training are balanced by a commitment to exploring and building common values such as democratic participation and freedom of expression. It is a department that collegial, with high expectations of its students and of itself. The department seeks to foster a love of learning through enthusiasm for the social studies disciplines, use of a variety of instructional strategies, and the dynamic of individual personalities committed to a set of shared goals.

Two (2) credits in Social Studies are required for graduation. One of these credits must be U.S. History, which also satisfies the state requirement. This credit must be earned by completing both semesters of U.S. History or Advanced Placement U.S. History. The second credit must be earned during the freshman year by taking either World Cultures or World History Honors. Students entering the 9th grade in the 2018-2019 school year, and all subsequent students, will need to meet the State of Illinois Civics requirement.

House Bill 4025 stipulates that at least one semester of a high school student's mandated two-year social studies graduation requirement in Illinois must be a civics course. The bill was amended by House Bill 800, which states that the requirement is effective immediately for "students entering the 9th grade in the 2016-2017 school year and continues each school year thereafter."

District 86 Board of Education Policy 6:300 complies with this legislative mandate by stating that students attending District 86 schools must earn two credits in Social Studies for graduation with one credit in US History and one credit in World Cultures or World Studies Honors (unless waived by the Principal for academically at-risk students). In addition to earning these two Social Studies credits, beginning with the Class of 2020, students must also take and pass a Civics course.

SOCIAL STUDIES DEPARTMENT

<p>SOCIAL STUDIES FOUNDATIONS <i>Course #2081</i> Full year Credit: 1.0</p>	<p>The goal of this course is to develop in students an understanding of citizenship that can be generalized in various facets of daily life. Students will sharpen their basic understanding of history, government, and social systems through the exploration of current and historical events. This course is for students who are reading two or more years below grade level.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12</p>
<p>WORLD CULTURES <i>Course #1850</i> Full year Credit: 1.0</p>	<p>This course is for students who are reading and writing below grade level. Curriculum in this course is a modification of the grade level standards but still explores the economic, historic, cultural and current issues pertaining to the world's major civilizations. A variety of activities and assessments will be used to foster the acquisition of content knowledge. Differentiated instruction in reading and writing is a component of the course.</p> <p>Prerequisite: Department Chair approval. Open to grade 9.</p>
<p>WORLD CULTURES <i>Course #2140</i> Full year Credit: 1.0</p>	<p>World Cultures explores the geographic, economic, historic, cultural and current issues pertaining to the world's major civilizations. A variety of activities and assessments will be used to foster the acquisition of not only content knowledge, but also skills appropriate to the social studies. NCAA approved course.</p> <p>Prerequisite: None. Open to grade 9. Note: Students may not enroll in both World Cultures and World History Honors.</p>
<p>WORLD HISTORY HONORS <i>Course #2220</i> Full year Credit: 1.0</p>	<p>This course surveys broadly, chronologically and topically, the chief features of various civilizations, culture, nations and major concepts from ancient to modern times. The historical development of Eastern and Western civilizations are explored. Core material is organized around a textbook; however, extensive supplemental reading is required. Students will be challenged with a variety of assessments including tests, papers, speeches, debates, presentations and cooperative learning activities. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grade 9. Note: Students may not enroll in both World History Honors and World Cultures.</p>
<p>AFRICAN AMERICAN HISTORY <i>Course #2239, 2240</i> 1st or 2nd semester Credit: 0.5</p>	<p>African American History focuses on the unique contributions that slaves from Africa, and their descendants, have made towards the cultural and historical legacy of our nation. Topics of study will include the changing legal and social definitions of race in America, the efforts of African Americans to resist servitude, emancipation and its aftermath, the Harlem Renaissance, the Civil Rights movements, and contemporary issues facing African Americans. Students will examine historical sources, with special focus on the art and music created by African Americans. Assessments will include an oral history project, debates, creative projects, essays and exams. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>EAST ASIAN STUDIES <i>Course #2241, 2242</i> 1st or 2nd semester Credit: 0.5</p>	<p>East Asian Studies will examine the history and culture of China, Japan and Korea. Possible topics of study include the Samurai and code of Bushido, the emergence of Japan as a colonial power, comparing American and Japanese accounts of the second World War, the division of Korea, the development of nuclear weapons by North Korea, and the emergence of China as a 21st century global superpower. The course is project, writing, and discussion oriented. Students will be challenged to avoid ethnocentrism and to understand these civilizations from the perspective of the people who came from them. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>GLOBAL ISSUES <i>Course #2231, 2232</i> 1st or 2nd semester Credit: 0.5</p>	<p>Global Issues examines several major contemporary political, social, and diplomatic dilemmas of the 21st century. After tracing the historical roots of contemporary issues, students will analyze and evaluate each issue from a variety of perspectives. Possible topics include the proliferation of nuclear weapons, human rights and genocide, democracy and dissent, the future of the Middle East, the "war on terror," U.S. foreign policy since Vietnam, and major domestic challenges. Active student participation on a daily basis and developing written and oral arguments are major components of a student's grade. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>

SOCIAL STUDIES DEPARTMENT

<p>AMERICAN POLITICS Course #1870, 1875 1st or 2nd Semester Credit: 0.5</p>	<p>This course is for students who are reading and writing below grade level. Curriculum in this course is a modification of the grade level standards but is still a hands-on analysis of government and politics in the United States. Students learn general concepts used to interpret American politics. Analysis of specific case studies through simulation and community activity familiarizes students with the groups, organizations issues and ideas that make up the American political system. Students will explore the causes of different political beliefs and behaviors and the role of interest groups and political parties.</p> <p>Prerequisite: Department Chair approval. Open to grades 10, 11, and 12. Fulfills State of Illinois Civics requirement.</p>
<p>AMERICAN POLITICS Course #2351, 2352 1st or 2nd Semester Credit: 0.5</p>	<p>A hands-on analysis of government and politics in the United States. Students learn general concepts used to interpret American politics. Analysis of specific case studies through simulation and community activity familiarizes students with the groups, organizations, issues and ideas that make up the American political system. Students will explore the causes of different political beliefs and behaviors and the role of interest groups and political parties. In addition, throughout the semester, students will be asked to participate in a civic engagement project which may include civic action, service learning, and public speaking. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12. Fulfills State of Illinois Civics requirement.</p>
<p>WESTERN CIVILIZATION Course #2261, 2262 1st or 2nd semester Credit: 0.5</p>	<p>Western Civilization is a survey of the history of Western Civilization beginning with the influences of Greece and Rome and ending in the early Twentieth Century. Students will explore the historical trends, events, and ideas that have come to shape society today. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12. Note: Students may not enroll in both Western Civilization and Advanced Placement European History.</p>
<p>ADVANCED PLACEMENT EUROPEAN HISTORY Course #2440 Full year Credit: 1.0</p>	<p>Advanced Placement European History traces the political, social, economic, intellectual, and cultural development of European Civilization from the Renaissance to the present. A wide variety of teaching methods are used including discussion, debate, role-play, simulations and trials. Students will learn to use and evaluate primary sources, write critical essays, and analyze historical interpretations. This course prepares the student for the Advanced Placement European History examination. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11, and 12. Note: Students may not enroll in both Advanced Placement European History and Western Civilization. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>
<p>U.S. HISTORY Course #1860 Full year Credit: 1.0</p>	<p>This course is for students who are reading and writing below grade level. Curriculum in this course is a modification of the grade level standards but provides a survey of Native American cultures through European colonization, founding of the new Republic and Constitution, includes the Civil War, and concludes with modern times. Units survey chronologically and topically the major events, personalities and issues which have played a part in the evolution of the American democratic republic. Differentiated instruction in reading and writing is a component of the course.</p> <p>Prerequisite: Department Chair approval. Open to grade 11.</p>

SOCIAL STUDIES DEPARTMENT

<p>U.S. HISTORY <i>Course #2310</i> Full year Credit: 1.0</p>	<p>U.S. History is a survey which covers Native American cultures through European colonization, founding of the new Republic and Constitution, includes the Civil War, and concludes with modern times. Units survey chronologically and topically the major events, personalities and issues which have played a part in the evolution of the American democratic republic. NCAA approved course.</p> <p>Prerequisite: None. Credit in this course fulfills U.S. History requirement. Open to grade 11. Note: Students may not enroll in both U.S. History and Advanced Placement U.S. History.</p>
<p>ADVANCED PLACEMENT U.S. HISTORY <i>Course #2320</i> Full year Credit: 1.0</p>	<p>Advanced Placement United States History is a survey course that is meant to replicate the academic rigor of a two semester college experience in a year. This class requires students to engage in extensive reading of primary sources and historical essays. Focus will be placed on the development of college level reading and writing skills. Key events and major themes such as American diversity, economic transformations and politics and citizenship will be examined in studying the nation’s past. This course prepares the student for the Advanced Placement United States History examination. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Credit in this course fulfills the U.S. History requirement. Open to grade 11. Note: Students may not enroll in both Advanced Placement U.S. History and U.S. History. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>
<p>CONSTITUTIONAL LAW <i>Course #2381, 2382</i> 1st or 2nd semester Credit: 0.5</p>	<p>Constitutional Law is an introductory legal course which investigates many topics, including criminal law, trial rules, court systems, juvenile law, discrimination, and search and seizure law. In addition to using contemporary legal cases, a wide variety of teaching methods are used, including mock trial hearings, mock jury simulations, and videos. The primary learning tool in Constitutional Law is class discussion. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>ECONOMICS <i>Course #2331, 2332</i> 1st or 2nd semester Credit: 0.5</p>	<p>Should the government raise the minimum wage? Is globalization & free trade good for America? How can I retire a millionaire? Learn the answers to these questions and more through this highly interactive class. In economics you’ll read articles & watch videos that help you discuss & debate critical issues in microeconomics, macroeconomics and personal finance. You will demonstrate your learning through projects, presentations, writing blog/discussion posts and quizzes. The course meets your consumer economics requirement while helping you think more critically about the world and how you can change it. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 11 and 12. Note: Students may not take Economics, Advanced Placement Microeconomics or Advanced Placement Macroeconomics concurrently. Fulfills the Consumer Education requirement.</p>

SOCIAL STUDIES DEPARTMENT

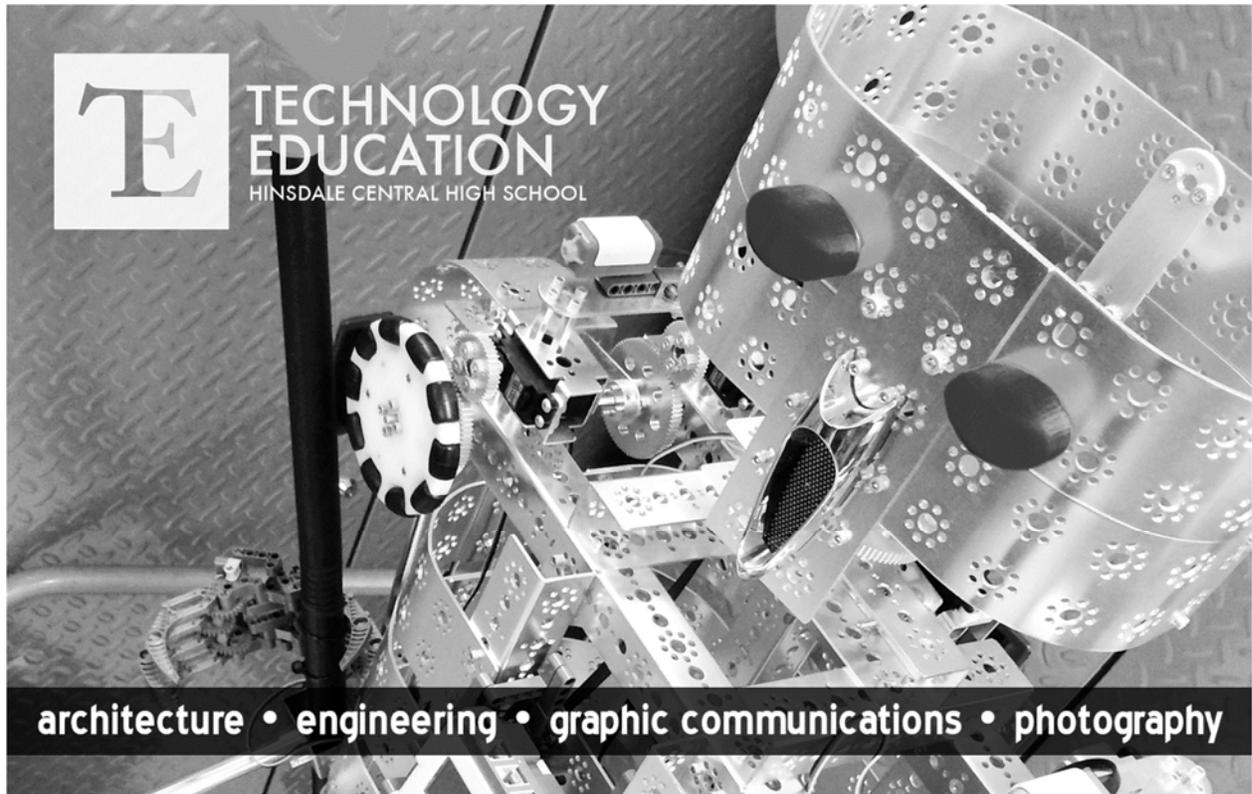

<p>ADVANCED PLACEMENT MACROECONOMICS <i>Course #2441, 2442</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Placement Macroeconomics is the study of the United States' economy. Students examine economic topics such as unemployment, inflation, GDP, international trade, interest rates, monetary policy, fiscal policy, and the national debt and deficit. Students will come to understand the causes for fluctuations in the economy and be able to prescribe economic policies for both healthy and unhealthy economies. Macroeconomics is an interdisciplinary course combining the social sciences with mathematical analysis and graphing. The course prepares students for the Advanced Placement exam in May. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Credit in this course fulfills the Consumer Education requirement. Open to grades 11 and 12. Note: Students may not take Advanced Placement Macroeconomics, Advanced Placement Microeconomics or Economics concurrently. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>
<p>ADVANCED PLACEMENT MICROECONOMICS <i>Course #2341, 2342</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Placement Microeconomics provides students with a thorough understanding of the decision making process for individuals and firms in the marketplace. It places primary emphasis on the operations of the product and factor markets along with the government's role in promoting efficiency and equity in various market structures. The course is conducted in a lecture/seminar manner supported by daily readings, practice problems, and student activities. The course prepares the student for the Advanced Placement exam in Microeconomics exam administered in May. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Credit in this course fulfills the Consumer Education requirement. Open to grades 11 and 12. Note: Students may not take Advanced Placement Macroeconomics, Advanced Placement Microeconomics or Economics concurrently. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>
<p>PHILOSOPHY HONORS <i>Course #2393, 2394</i> 1st or 2nd semester Credit: 0.5</p>	<p>Philosophy Honors will offer interested and intellectually curious students the opportunity to reflect on fundamental questions related to the human condition, such as the basis of knowledge, ethical theories and issues, artificial intelligence, free will versus determinism, rational proofs for the existence of God, and the meaning of evil and suffering. The goal of the course will not be so much to cover a particular body of philosophers, but to raise important issues that will spur students to further inquiry, study, and application in their own lives. Much of the class will involve reading, discussion, and writing. Students will be expected to read carefully, write critically, and participate in class discussions. Philosophy and Ethics is an honors level course. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>PSYCHOLOGY <i>Course #2431, 2432</i> 1st or 2nd semester Credit: 0.5</p>	<p>Psychology focuses on the study of human behavior from many perspectives. Audiovisual materials, experiments, projects and case studies are used to understand the human experience. This class is heavily discussion based. In addition, much independent coursework is used to investigate topics such as development, the brain, altered states of consciousness, learning, personality and abnormal behavior. In addition, throughout the semester, students will independently research and present on a topic of interest in the area of development, the brain, altered states of consciousness, learning, personality or abnormal behavior. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 11 and 12. Note: Students may not take Psychology and Advanced Placement Psychology.</p>

SOCIAL STUDIES DEPARTMENT

<p>ADVANCED PLACEMENT PSYCHOLOGY <i>Course #2430</i> Full year Credit: 1.0</p>	<p>AP Psychology explores why human beings are the way that they are. This course traces the emergence of scientific psychology in the nineteenth century from its roots in philosophy and physiology to present day practices. The development of the major “schools” of psychology and showing how they differed in subject matter and the methods of study are covered. This historical introduction helps students gain an understanding of the principal twentieth century approaches to psychology: behavioral, biological, cognitive, humanistic and psychodynamic. This class prepares students for the Advanced Placement Psychology examination. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Concurrent enrollment in U.S. History or previous completion of U.S. History during the regular school year. Open to grades 11 and 12. Note: Students may not enroll in both AP Psychology and Psychology concurrently. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>
<p>SOCIOLOGY <i>Course #2371, 2372</i> 1st or 2nd semester Credit: 0.5</p>	<p>Sociology is the study of man’s social behavior. The course increases the student’s awareness of social pressures that affect one’s own behavior and the behavior of others. Typical activities such as discussions, experiments, student planned projects and a wide variety of films and videotapes enable the student to apply knowledge gained in the course to his or her own life.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT UNITED STATES GOVERNMENT & POLITICS <i>Course #2361, 2362</i> 1st or 2nd semester Credit: 0.5</p>	<p>AP United States Government and Politics is an advanced placement course designed to give students both theoretical and realistic perspectives on politics and government in the United States. Its focus is on the interconnectedness between the various institutions, opinions and policies that make up the national public system. Student political involvement is emphasized. This class prepares students for the Advanced Placement United States Government and Politics examination. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Concurrent enrollment in U.S. History or previous completion of U.S. History during the regular school year. Open to grades 11 and 12. This course fulfills the State of Illinois Civics requirement. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>

TECHNOLOGY EDUCATION DEPARTMENT

TECHNOLOGY EDUCATION DEPARTMENT

The Technology Education Department offers an elective course of student to all students at Hinsdale Central High School. Department courses help students meet the elective arts requirement of District 86. The primary instructional mode in the classroom is lab-orientated student projects, using a wide range of instructional techniques and a variety of state-of-the-art technologies. The department offers a diverse range of technology-related courses that allows for educational and career exploration. Program area of study include: Engineering and Design, Architecture, Graphic Communications, Photography and Digital Video Production.

*College Credit – Dual Credit Courses:

Dual Credit is a program that enrolls students in college courses while they are still in high school. Dual Credit allows them to earn college credit for high school courses. Dual Credit enables students to save time, money, and avoid duplication of material already learned in high school. Dual Credit is accepted by many colleges or universities. The Technology Education Department has a Dual Credit agreement with Moraine Valley Community College.

TECHNOLOGY EDUCATION DEPARTMENT

ENGINEERING & DESIGN PROGRAM

NOTE: Software titles currently used in our Engineering & Design and Architecture courses include up-to-date versions of AutoCAD, Inventor Professional, Revit Architecture, and 3D Studio Max.

PRE-ENGINEERING 1

Course #6601, 6602

1st or 2nd semester

Credit: 0.5

Supply fee: \$10.00

This course introduces the student to the fundamentals of mechanical drafting while using current AutoCAD software in our CAD Lab. The course is also devoted to Science, Technology, Engineering and Mathematics, (S.T.E.M.)-related content, particularly engineering/technological design problem solving. The student will be taught many AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. Mechanical drawing problems will range from 2D drawings, orthographic projection, sectional view, and pictorial views (isometric and oblique). Freehand sketching on graph paper is also integrated into each assignment. Students will also be introduced to 3D modeling and 3D printing (rapid prototyping). During the semester, each student will create a portfolio of work which will include an individually created 3-D model.

This course is also run as a Dual Credit class with Moraine Valley Community College with the possibility a minimum of 3 hours of college credit tuition free.

Prerequisite: None. Open to grades 9, 10, 11, and 12.

PRE-ENGINEERING 1 HONORS

Course #6731/6732

1st or 2nd semester

Credit: 0.5

This course will continue to introduce the student to the fundamentals of mechanical drafting while using current AutoCAD software in our CAD Lab. The course will further explore Science, Technology, Engineering and Mathematics (S.T.E.M.)-related content and provide the student with a strong background in STEM principles. The student will be taught additional AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. Mechanical drawing problems will range from auxiliary views, rotations, developments, and intersections, and dimensioning techniques of orthographic projection problems. Freehand sketching on graph paper is also integrated into each assignment. During the semester, each student will create an individual portfolio of work.

This course is also run as a Dual Credit class with Moraine Valley Community College with the possibility a minimum of 3 hours of college credit tuition free.

Prerequisite: None. Open to grades 9, 10, 11, and 12.

TECHNOLOGY EDUCATION DEPARTMENT

<p>PRE-ENGINEERING 2 <i>Course #6611, 6612</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>This course will continue to introduce the student to the fundamentals of mechanical drafting while using current AutoCAD software in our CAD Lab. The course will further explore Science, Technology, Engineering and Mathematics (S.T.E.M.) related content and provide the student with a strong background in STEM principles. The student will be taught additional AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. Mechanical drawing problems will range from auxiliary views, rotations, developments and intersections, and dimensioning techniques of orthographic projection problems. Freehand sketching on graph paper is also integrated into each assignment. During the semester, each student will create an individual portfolio of work.</p> <p>This course is also run as a Dual Credit class with Moraine Valley Community College with the possibility a minimum of 3 hours of college credit tuition free.</p> <p>Prerequisites: Pre-Engineering I. Open to grades 9, 10, 11, and 12.</p>
<p>PRE-ENGINEERING 2 HONORS <i>Course #6611A, 6612A</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>The core material for this course is similar to Pre-Engineering 2 course 6611 & 6612; however projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program.</p> <p>This course is also run as a Dual Credit class with Moraine Valley Community College with the possibility a minimum of 3 hours of college credit tuition free.</p> <p>Prerequisites: Pre-Engineering I and department approval. Open to grades 9, 10, 11, and 12.</p>
<p>ENGINEERING & DESIGN <i>Course #6620</i> Full year Credit: 1.0</p> <p>Supply Fee: \$18.00</p>	<p>The goal of the Engineering & Design course is to expand the student’s knowledge in the following areas: computer software usage, manufacturing processes, engineering and design, application of acquired knowledge in making production drawings, and career opportunities in a variety of engineering fields. This course continues exploration of Science, Technology, Engineering and Mathematics (S.T.E.M.)-related content. Engineering design projects will enable students to make the necessary connections between the STEM disciplines and the world around them. Students in this class will be expected to work at an accelerated pace on individual projects and some small group work. The computer is the primary means of graphic problem solving using AutoCAD software. Students will be instructed on proper techniques using Autodesk Inventor to create 3D models. Using Inventor, students will create a model race car that demonstrates the power of this software package. A series of problems which require model construction is also part of the curriculum, including the use of 3D printing technology (rapid prototyping). In addition, students will use 3D digitizer technology for reverse engineering applications, 4 axis CNC mill for production, injection molding and vacuum forming. Robotics topics will also be covered in this course. During the semester, each student will create an individual portfolio of work.</p> <p>This course is also run as a Dual Credit class with Moraine Valley Community College with the possibility a minimum of 3 hours of college credit tuition free.</p> <p>Prerequisites: Pre-Engineering I and Pre-Engineering II. Open to grades 10, 11 and 12.</p>
<p>ENGINEERING & DESIGN HONORS <i>Course #6625</i> Full year Credit: 1.0</p> <p>Supply Fee: \$18.00</p>	<p>The core material for this course is similar to Engineering & Design course #6620; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program.</p> <p>This course is also run as a Dual Credit class with Moraine Valley Community College with the possibility a minimum of 3 hours of college credit tuition free.</p> <p>Prerequisites: Pre-Engineering I and Pre-Engineering II and department approval. Open to grades 10, 11, and 12.</p>

TECHNOLOGY EDUCATION DEPARTMENT

<p>ARCHITECTURE & DESIGN Course #6630 Full year Credit: 1.0</p> <p>Supply Fee: \$18.00</p>	<p>In the course Architecture & Design, the student will learn how to design and draw a complete set of architectural drawings necessary to construct a residential home. The student will apply Science, Technology, Engineering and Mathematics (S.T.E.M.) concepts to design and print a professional set of blueprints. Room planning, flow patterns, design concepts, floor plans, construction details, elevations and presentation drawings will be completed during the first semester using a computer and AutoCAD software. During the second semester, students will construct a scaled (3/4"=1') model of the home they designed the first semester. In addition, non-traditional building methods will be explored: Super Insulated housing, Earth Sheltered housing, Wind Energy, Solar Energy, Energy Efficiency and Green Building. Information related to home construction, home building, building cost, permits and home buying will be explored and discussed.</p> <p>Prerequisite: Pre-Engineering II or Department Approval. Open to grades 11 and 12.</p>
<p>ARCHITECTURE & DESIGN HONORS Course #6635 Full year Credit: 1.0</p> <p>Supply Fee: \$18.00</p>	<p>The core material for this course is similar to Architecture & Design course #6630; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program or architecture program.</p> <p>Prerequisite: Pre-Engineering I and Pre-Engineering II and Department Approval. Open to grades 11 and 12.</p>
<p>ADVANCED ENGINEERING & ARCHITECTURAL MODELING Course #6640 Full year Credit: 1.0</p> <p>Supply Fee: \$18.00</p>	<p>This is the culminating course in the Engineering & Architecture program that will help prepare students for college. Students will have additional challenges as they are introduced to several 3D modeling software programs. Students will be required to use the skills learned in both their engineering and architectural graphics courses as they make the transition from 2D drawings to 3D. Science, Technology, Engineering and Mathematics (S.T.E.M.) concepts will be integrated through the use of various project-based activities. Students will explore software programs such as Inventor, Revit and 3D Studio Max, while developing 3D models and animating them. Students will use 3D digitizer technology for reverse engineering applications to accurately reproduce parts. They will also use 3D print technology (rapid prototyping) to generate models for visual inspection and functional testing. A CNC mill, vacuum form machine, injection molding and foundry will also be applied throughout this course. More in depth robotic principles will be applied to solve problems with a programmable robot. An electronic portfolio will record all work completed during the school year. Students will leave the class with various 3D models and projects they produced.</p> <p>Prerequisite: Engineering & Design & Architecture & Design and/or Department Approval. Open to grade 12.</p>
<p>ADVANCED ENGINEERING & ARCHITECTURAL MODELING HONORS Course #6645 Full year Credit: 1.0</p> <p>Supply Fee: \$18.00</p>	<p>The core material for this course is similar to course #6640, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program.</p> <p>Prerequisite: Engineering & Design, Architecture & Design or Engineering & Design Honors, Architecture & Design Honors and Department Approval. Open to grade 12.</p>

TECHNOLOGY EDUCATION DEPARTMENT

GRAPHIC COMMUNICATION PROGRAM

<p>GRAPHIC COMMUNICATIONS - FUNDAMENTALS (GCF) <i>Course #6661, 6663</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>Want to learn Illustrator and Photoshop skills used in projects common in business to marketing to new media? Graphic Communications Fundamentals places special emphasis on providing a survey of real-world projects using Adobe Creative Suite that are creative, student-driven, challenging and fun. You'll learn technical illustration, typography, color models, animation, layout, photo retouching and image manipulation. This course will provide you with a foundation of essential skills needed in Web Design, Game Design, and Print Design. This course is highly recommended for students interested in college majors related to Entrepreneurship, Business, Marketing, Graphic Design, and Graphic Communications.</p> <p>This course is also run as a Dual Credit class with Moraine Valley Community College with the possibility a minimum of 3 hours of college credit tuition free.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS – WEB DESIGN (GCW) <i>Course #6662, 6664</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>Can you imagine life without Internet? No business today can! In Web Design, you'll get an overview of essential disciplines found in web development and the skills necessary to design, develop and create a professional website every business needs today. Although this is not a programming course, HTML and CSS core coding principles are covered. You'll learn about Internet history, information architecture, site mapping and wireframe development, user experience (UX), search engine optimization (SEO), and develop fluency with Dreamweaver, HTML and CSS. This course is highly recommended for students planning to enter a college majors related to Entrepreneurship, Computer Science, Web Design/Development, New Media Studies, or Graphic Design.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF). Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS – WEB DESIGN HONORS (GCW) <i>Course #6667, 6668</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>The core curriculum for this course is similar to Web Design #6662, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>Prerequisite: Graphic Communications Fundamentals (GCF). Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS –GAME DESIGN HONORS (GGD) <i>Course #6681</i> Full year Credit: 1.0</p> <p>Supply Fee: \$10.00</p>	<p>In Game Design, you'll use a game engine and visual programming to learn about character design, level design, interface design, gameplay best practices and beta testing procedures. As you learn, you'll create a variety of original 2D arcade-style games you design yourself. The class culminates by developing an original multi-level game of your own design while learning team building, leadership and complex project management skills. Game Design is taught as an Honors course and earns honors credit. Therefore, expectations for the course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college majors related to Computer Science, Game Design/Development, or New Media Studies.</p> <p>Prerequisite: Graphic Communications Fundamentals (GCF). Open to grades 10, 11, and 12.</p>

TECHNOLOGY EDUCATION DEPARTMENT

<p>GRAPHIC COMMUNICATIONS – PRINT DESIGN (GCPD) <i>Course #6650, 6651</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>Print Design covers essential skills used in producing printed publications such as Devil’s Advocate (newspaper), El Diablo (yearbook), Solstice (art & literacy magazine) and is especially recommended for students seeking staff editorial positions. In Print Design you’ll learn to design, layout and prepare posters, brochures, and magazine spreads for printed publication. You’ll learn about typography and typographic controls, image preparation, creation of master pages, paragraph and character styles, document pre-flight, and key design and layout principles. Development of fluency with Adobe InDesign is emphasized. This course is highly recommended for motivated students planning to enter a college majors related to Business, Marketing, Entrepreneurship, Journalism, Graphic Design, and Graphic Communications.</p> <p>This course is also run as a Dual Credit class with Moraine Valley Community College with the possibility a minimum of 3 hours of college credit tuition free.</p> <p>Prerequisite: GCF or Journalism 1 (J1 taken concurrently with Department Approval) Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS – PRINT DESIGN HONORS (GCPD) <i>Course #6652, 6653</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>The core material for this course is similar to Desktop Publishing #6640, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>This course is also run as a Dual Credit class with Moraine Valley Community College with the possibility a minimum of 3 hours of college credit tuition free.</p> <p>Prerequisite: Graphic Communications Fundamentals (GCF) or Journalism 1 (J1 taken concurrently with Department Approval). Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS - ADVANCED GRAPHICS (GCA) <i>Course #6660, 6665</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>This student-centered course is designed for those who wish to apply the skills learned in their study of Graphic Communications more deeply to real world projects. Students will focus on several areas of personal interest and develop real world products in a client-project manager arrangement. The outcome of this course is a comprehensive electronic portfolio for use in many college and university admission process.</p> <p>An Honors option is available for this course. Expectations for the Honors option are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>Prerequisite: Graphic Communications Fundamentals (GCF) and one of the following: GCW, GCMM, GCDP. This course may be repeated with Department Chair approval. Students who elect to repeat the course will work with the instructor to create an individualized curriculum. Open to grades 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS – ADVANCED GRAPHICS HONORS (GCA) <i>Course #6666, 6669</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>The core material for this course is an extension of Advanced Graphics #6660/6665; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class and significantly more portfolio requirements. This course is highly recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>Prerequisite: Graphic Communications Fundamentals (GCF) and one of the following: GCW, GCG, GCDP, and Department Approval. This course may be repeated with Department Chair approval. Students who elect to repeat the course will work with the instructor to create an individualized curriculum. Open to grades 10, 11, and 12.</p>

TECHNOLOGY EDUCATION DEPARTMENT

<p>GRAPHIC COMMUNICATIONS -INDEPENDENT STUDY (GCIS) <i>Course #6905, 6906</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>This course is intended for students who have exhausted other course offerings and wish to further skills learned in the Graphic Communications program in an independent atmosphere.</p> <p>Prerequisite: Departmental Approval. Open to grades 11 and 12.</p>
PHOTOGRAPHY PROGRAM	
<p>BASIC PHOTOGRAPHY <i>Course #6691, 6692</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$35.00</p>	<p>Basic photography is for students interested in learning the techniques necessary to produce technically correct and aesthetically pleasing photographs. Digital and film capture of images will be explored. Areas of study will include, but are not limited to, the composition of a good photograph; the processing of black and white photographic materials; and proper application of photographic equipment and supplies. Photographic equipment and supplies will be provided along with cameras for students who do not have access to a Single Lens Reflex (SLR) camera.</p> <p>Prerequisites: None. Open to grades 9, 10, 11, and 12.</p>
<p>DIGITAL COLOR PHOTOGRAPHY <i>Course #6701, 6702</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$35.00</p>	<p>This course is for students interested in the modern methods of Digital Color Photography. The student will use a digital camera to capture images. After capture, photographs will be produced in the digital darkroom using a computer and Photoshop software. Areas of study include, but are not limited to, the principles of color and light; elements of a good photograph; capturing images with a digital camera; editing a photograph for presentation with Photoshop; printing a digital file in color; and preparing a photograph for display. The studio will be used to further the use of shade and shadow, light ratios, and photographic composition techniques. Still life and portrait techniques will be explored. Equipment and supplies will be furnished. Cameras are available for students who do not own or have access to a digital camera. Basic Photography and Digital Color Photography together have articulated credit with the College of DuPage.</p> <p>Prerequisite: Basic Photography. Open to grades 9, 10, 11, and 12.</p>
<p>DIGITAL COLOR PHOTOGRAPHY HONORS <i>Course #6703, 6704</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$35.00</p>	<p>Beyond the regular advanced photography content, additional projects and assignments will require the selection of a concentration and/or theme by the student. The selected theme will necessitate greater depth, complexity, and rigor to produce higher-level photographs. Expectations for this class will require extra lab work outside of class. This class is recommended for highly motivated photography students looking to add meaningful pictures to their portfolio.</p> <p>Prerequisite: Basic Photography. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED PHOTOGRAPHY <i>Course #6812</i> 2nd semester Credit: 0.5</p> <p>Supply fee: \$40.00</p>	<p>In this advanced level course, students will be expected to improve upon their current level of photographic ability. Students will have the opportunity to explore digital and film capture of images. In terms of technique, students will be introduced to different camera formats and the zone system (a procedure which will allow students to make more carefully controlled photographic prints.) Additionally, some non-traditional films, papers, and emulsions will be introduced. In terms of content, through class assignments and independent work, students will further their use of photographic medium to more effectively articulate ideas. Students will have the opportunity to work with black and white film, color film, infrared film, and digital cameras to capture images. Students will be expected to properly display and critique their photographic work.</p> <p>Prerequisites: Basic Photography and Digital Color Photography with instructor approval. Open to grades 10, 11, and 12.</p>

TECHNOLOGY EDUCATION DEPARTMENT

<p>ADVANCED PHOTOGRAPHY HONORS <i>Course #6814</i> 2nd semester Credit: 0.5</p> <p>Supply fee: \$40.00</p>	<p>Beyond the regular advanced photography content additional projects and assignments will require the selection of a concentration and or theme by the student. The selected theme will necessitate the demonstration of greater photographic complexity, and an advanced understanding of light to produce higher-level photographs. Expectations for this class will require extra lab work outside of class. This class is recommended for highly motivated photography students looking to add meaningful well-composed pictures to their portfolio.</p> <p>Prerequisites: Basic Photography and Color Photography with instructor approval. Open to grades 10, 11, and 12.</p>
<p>INDEPENDENT STUDY - PHOTOGRAPHY <i>Course #6907, 6908</i> Credit: 0.5</p> <p>Supply Fee: \$40.00</p>	<p>This course is designed for students who have completed course sequence in photography program and desire further independent course work.</p> <p>Prerequisite: Departmental Approval. Open to grades 11 and 12.</p>
<p>DIGITAL VIDEO PRODUCTION</p>	
<p>DIGITAL VIDEO PRODUCTION <i>Course# 9201, 9202</i> 1st or 2nd semester Credit: 0.5</p>	<p>Digital Video Production is designed to provide students with the skills needed for a career in the technical aspects of media production. Instruction will include camera operations, audio and video editing, sound and lighting techniques, as well as audio mixing. Students will learn to operate video recording equipment; specifically, video/digital cameras, microphones, lighting/grip equipment and other production equipment used in the audio visual production of media. Digital Video Projection class is a team-based environment where students will create a variety of projects with expectations increasing as skills and knowledge are perfected during the semester.</p> <p>Prerequisite: None. Open to all students grades 9, 10, 11, and 12. Course may be repeated with permission of Department Chair. (This Course does not satisfy the elective arts requirement.)</p>
<p>WOODS</p>	
<p>WOODS I <i>Course#6771</i> Credit: 0.5</p> <p>Supply Fee: \$47</p>	<p>This introductory course to modern woodworking will allow students to help plan, design, and create at least three assigned wood projects using various types of wood. In addition students will develop and practice safety in a wood shop laboratory.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12. This course is taught at Hinsdale South, only, and Central students would need to provide their own transportation to and from South. Also, Central students can enroll, but would need to take a study hall adjacent to the course to allow for travel.</p>
<p>WOODS II <i>Course#6780</i> Credit: 1.0</p> <p>Supply Fee: \$137</p>	<p>This follow-up course to Woods I will allow students to further their knowledge of woodworking by planning and building more advanced projects. In addition, students will use more technical set-ups to build four projects: three assigned and one student choice.</p> <p>Prerequisite: Woods I and Department Chair approval. Open to grades 10, 11, and 12. This course is taught at Hinsdale South, only, and Central students would need to provide their own transportation to and from South. Also, Central students can enroll, but would need to take a study hall adjacent to the course to allow for travel.</p>
<p>WOODS III <i>Course#6790</i> Credit: 1.0</p>	<p>This is an advanced woodworking course utilizing all of the information from Woods I and II. Students will design, plan and build a project of their own, consistent with their abilities, interest, and time. In addition, students will have the opportunity to design and build projects for Hinsdale South High School. A fee will be applied as needed depending on projects built.</p> <p>Prerequisite: Woods II and Department Chair approval. Open to grades 11 and 12. This course is taught at Hinsdale South, only, and Central students would need to provide their own transportation to and from South. Also, Central students can enroll, but would need to take a study hall adjacent to the course to allow for travel.</p>

TECHNOLOGY CENTER OF DUPAGE

TECHNOLOGY CENTER OF DUPAGE (TCD)

Technology Center of DuPage (TCD) prepares juniors and seniors for college and a career through 19 advanced career and technical education electives. It is operated by joint agreement among 14 member high school districts, including District #86.

Students spend part of each school at the TCD campus, located at 301 S. Swift Road between North Avenue and Army Trail Road in Addison. Transportation to and from TCD is provided by District #86.

Opportunities through TCD include:

Dual credit (both high school and free, transferable college credit at the same time)
Available industry certifications or licenses
Career exploration and development before making important college decisions.

The only cost to the student is a flat participation fee of \$100 (exception: Cosmetology – see the TCD website for information). Check with your counselor for any fees added by Hinsdale Central High School.

For further information, students should contact their counselor, take the TCD field trip in the fall, read the TCD program guide, or visit the TCD website (www.tcdupage.org) for complete information about the following electives:

TCD PROGRAMS

COMMUNICATION

Computer Information Systems & Game Design
Multimedia & Television Production

HUMAN SERVICES

Cosmetology
Criminal Justice
Early Childhood Education & Care
Fire Science
Emergency Medical Technician
Healthcare Foundations
Medical Terminology & Healthcare Careers
Nursing Assistant Training Program
Professional Cooking, Baking & Service

MANUFACTURING/INDUSTRIAL

Construction Trades
Heating, Ventilation, Air Conditioning (HVAC) & Residential Wiring
Precision Engineering & Design Technology (NEW)
Welding Technology

STEM (Science, Technology, Engineering, Math)

Electronics Technology
PLTW Pathway to Engineering courses:

- Introduction to Engineering Design (IED)
- Principles of Engineering (POE)
- Civil Engineering & Architecture (CEA)
- Computer Science Principles (CSP)
- Digital Electronics (DE)
- Engineering Design & Development (EDD)

TRANSPORTATION

Auto Body Repair & Refinishing
Automotive Technology

TECHNOLOGY CENTER OF DUPAGE

TECHNOLOGY CENTER OF DUPAGE (TCD) 2018 - 2019

TECHNOLOGY CENTER OF DUPAGE PROGRAMS <i>Course # 9009(AM),9010(PM)</i> Credit: 3.0	The requirements and objectives associated with the specific Technology Center of DuPage (TCD) programs listed on the previous page vary greatly. Students who wish to obtain further information about a particular program and/or wish to register for a TCD program must see their counselor. All students must fill out a separate TCD form with parent signature and return to their counselor. Prerequisite: None. Open to grades 11 and 12.
---	--

TCD Enrollment Information

TCD offers advanced career and technical education electives for the District #86 students serious about pursuing one of the available career pathways. The focus is on college and career readiness through applied academics, workplace skill development, and work-based learning experiences, as well as identifying and preparing for the postsecondary education critical for success and advancement in the chosen career pathway. See the TCD website for program information, recommendations, college credit opportunities, available industry certifications, and course syllabi: www.tcdupage.org

Enrollment at TCD is available junior year, senior year, or both. Programs may be taken one or two years, unless otherwise noted. Please talk to your counselor regarding enrollment criteria, including possible course prerequisites, established by District #86.

Listed on the next page are programs offered at TCD as well as District #86 pre-requisites for enrolling in the program. All TCD courses will satisfy the District #86 graduation requirement in Applied Arts. Check with your counselor for any academic credit that specific TCD programs can also fulfill. A maximum of 3.0 units of credit can be earned yearly through TCD course work. See www.tcdupage.org for information about each program's college credit opportunities.

TECHNOLOGY CENTER OF DUPAGE

CAREER CLUSTER TCD Program(s)	RECOMMENDATIONS AND/OR PRE-REQUISITES
COMMUNICATION	
Computer Information Systems & Game Design	
Multimedia & Television Production	
HUMAN SERVICES	
Cosmetology (1 or 2 years; 2 years recommended)	
Criminal Justice (1 or 2 years)	
Early Childhood Education & Care (1 or 2 years)	
Fire Science (1 or 2 years)	
Emergency Medical Technician (1 or 2 years) – EMT available for seniors only	
Healthcare Foundations (1 year)

Electronics Technology (1 or 2 years)	Non-PLTW
Pathway to Engineering (curriculum developed by Project Lead the Way – PLTW.org) Each course is one semester unless noted otherwise –choose two courses per year	
Introduction to Engineering Design (IED)*	Algebra 1 and Geometry recommended
Principles of Engineering (POE)*	Algebra 1 and Geometry recommended
Civil Engineering & Architecture (CEA)*	IED and POE and concurrent enrollment in Advanced Algebra and/or Physics recommended
Computer Science Principles (CSP)	Algebra 1 and Geometry recommended
Digital Electronics (DE) *	IED and POE and concurrent enrollment in Advanced Algebra and/or Physics recommended
Engineering Design & Development (EDD)* This is a one-year capstone course which may be taken concurrently with CEA and DE.	IED/POE, and CEA or DE; concurrent enrollment in Advanced Algebra and Physics recommended
TRANSPORTATION AND LOGISTICS	
Auto Body Repair and Refinishing	
Automotive Technology	

*These are courses offered in the Pathway to Engineering program. Introduction to Engineering Design and Principles of Engineering are foundation courses offered for the first year. Second year students take one specialized course and the capstone course (EDD). Please see the TCD website, www.tcdupage.org for further information.

World Languages

“If you talk to a man in a language he understands, that goes to his head. If you talk to him in his language, that goes to his heart.” Mandela

Philosophy:

The World Language Department strives to contribute to the development of well-rounded, multi-dimensional students who have both knowledge and appreciation of world cultures and civilization as well as a tolerance and acceptance of the cultural differences of various peoples. Furthermore, we hope to prepare our students to be able to participate in the global community. As students become immersed in learning a new language and culture, they are able to better understand how others view the world.

Earning credits:

High School District 86 requires the successful completion of two Elective Arts credits. Taking a World Language will successfully fulfill one of those credits. Two years of the same language will fulfill the entrance requirement of many state public universities in Illinois. Most other universities require World Language study for admission and may require it for graduation from specific degree programs. High school students preparing for college should include one or more world languages in their preparation. Two or more world languages may be taken simultaneously. The latest research indicates that studying two languages at the same time is beneficial and that world language study has positive effects on a student’s English language skills. Completing the third and fourth year in a sequence significantly improves achievement and fluency. Etymology, a semester course, is highly recommended to all students who wish to increase their knowledge and understanding of vocabulary.

Sequence of Study:

Students entering ninth grade with previous world language experience can complete the equivalent of five or six years of high school work, which may include Advanced Placement work. Students who complete the upper levels of a language often test out of the world language requirements, receive college credit, and/or are placed in advanced language courses in college. A sequence of honors level courses is available in all languages offered by the Department. Students who complete the upper levels of a language often test out of the world language requirements, receive college credit, and/or are placed in advanced language courses in college. The first semester of a language must be passed before a student may take the second semester of the same language. Credit must be earned in both semesters of one level of a language before advancing to the next level.

Seal of Biliteracy: As seniors, students have an opportunity to earn the Seal of Biliteracy. The Illinois State Board of Education recognizes students for earning proficiency in English and one additional language. An official seal will be placed on diplomas and official recognition will be documented on transcripts for those who qualify. Students who earn the Seal and attend public Illinois universities can receive college credit for their language study. Interested students should ask their teachers for more information.

WORLD LANGUAGES DEPARTMENT

ETYMOLOGY	
<p>ETYMOLOGY <i>Course #4371, 4372</i> 1st or 2nd Semester Credit: 0.5</p>	<p>Etymology is designed to increase one’s knowledge and understanding of English vocabulary through the study of the most important Greek and Latin roots. Students learn to discover meanings of words through recognition and interpretation of their elements. The skills learned in Etymology equip students to decode vocabulary words encountered elsewhere (transfer of knowledge). The ability to memorize is a necessary fundamental skill. Recommended for all qualifying students who would like to develop their vocabulary before taking standardized tests. NCAA approved course.</p> <p>Prerequisite: A grade of C or better in the world language most recently studied, or (if no world language) consent of the department chair. Open to grades 9, 10, 11, and 12, and especially recommended to sophomores.</p>
FRENCH	
<p>FRENCH 1 <i>Course #4110</i> Full year Credit: 1.0</p>	<p>French 1 is an introduction to the French language and French-speaking cultures. An immersive listening and speaking experience based on everyday situations is provided. Through consistent daily use of French, students actively engage in a variety of structured activities, interactive conversations, games, and short presentations that develop their basic language skills of listening, speaking, reading, and writing. Though this is a beginning level course, students are expected to use French to the extent possible. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>FRENCH 1 HONORS <i>Course #4115</i> Prerequisite: Yes Credit: 1.0 Grade Offered: 9-12</p>	<p>In French I Honors the student will be introduced to the French language and French speaking-culture. The sequential core material for this course is the same as French I. The pace is accelerated; the breadth and scope of the coverage is expanded, and material is added in order to allow for more investigation of the language and culture. This course is conducted in French to a greater extent than is French I. Furthermore, French I Honors students are expected to speak as much French as possible in class. NCAA approved course.</p> <p>Prerequisite: This class is for students who have not previously studied French. Departmental Approval or recommendation of the junior high school teacher. Students who have taken French in middle school may not register for this course. Open to grades 9, 10, 11, and 12.</p>
<p>FRENCH 2 <i>Course #4120</i> Full year Credit: 1.0</p>	<p>This course is a continuation of the first level course, developing more complex reading, writing, speaking, and listening skills with a goal of increased grammatical accuracy. Students are expected to function in French to a greater extent, and all four skills are evaluated. Cultural topics will be explored throughout the year. This course is conducted extensively in French. NCAA approved course.</p> <p>Prerequisite: A grade of C or better in French 1, or recommendation of the junior high school teacher. Open to grades 9, 10, 11, and 12.</p>
<p>FRENCH 2 HONORS <i>Course #4125</i> Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as French II. The pace is accelerated to incorporate the reading and discussion of some short stories and short books, as well as other activities to allow for more investigation of the language and culture. This course is conducted in French to a greater extent than is French II. NCAA approved course.</p> <p>Prerequisite: Departmental Approval or recommendation of the junior high school teacher. Open to grades 9, 10, 11, and 12.</p>
<p>FRENCH 3 <i>Course #4130</i> Full year Credit: 1.0</p>	<p>This course is the continued study of French grammar and culture of the French-speaking world. Class activities include daily practice of reading, writing, listening and speaking skills. Readings include articles, short stories and Le Petit Prince during second semester. In addition, students do oral presentations and write short compositions. The course is conducted extensively in French. NCAA approved course.</p> <p>Prerequisite: A grade of C or better in French 2. Open to grades 9, 10, 11, and 12.</p>

WORLD LANGUAGES DEPARTMENT

<p>FRENCH 3 HONORS <i>Course #4135</i> Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as French 4130. The pace is accelerated; the breadth and scope of the coverage is expanded, and some material is added in order to allow for more investigation of the language and culture. The course is conducted extensively in French, and students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11, and 12.</p>
<p>FRENCH 4 <i>Course #4140</i> Full year Credit: 1.0</p>	<p>French 4 is the study of the history and art of France throughout the centuries (pre-history to present times). Class activities include discussions of prepared reading selections, oral presentations, and the intensive study of one film. The course of study also emphasizes systematic grammar review and limited composition practice. NCAA approved course.</p> <p>Prerequisite: A grade of C or better in French 3. Open to grades 10, 11, and 12.</p>
<p>FRENCH 4 HONORS <i>Course #4145</i> Full year Credit: 1.0</p>	<p>French 4 Honors is the study of the history and art of France throughout the centuries (pre-history to present times). Class activities include discussions of prepared reading selections, oral presentations, and the intensive study of one film. The course of study covers systematic grammar review and more extensive composition practice than French 4. Inasmuch as this course leads sequentially to the Advanced Placement French Language & Culture course, the course content is supplemented with more challenging reading materials and special emphasis is put on oral proficiency. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>
<p>FRENCH 5 HONORS <i>Course #4150</i> Full year Credit: 1.0</p>	<p>French 5 Honors is a course that integrates the study of literature, advanced grammar, advanced oral proficiency, and current events in France. The readings consist of short stories, and a novel from the 20th century organized around the themes of human relationships, moral dilemmas and existentialism. Class activities include discussions of texts, authentic newspaper and magazine articles in French, oral presentations, the study of one film per semester, and improving grammar and writing proficiency. The course is conducted exclusively in French. NCAA approved course.</p> <p>Prerequisite: A grade of C or better in French 4 or 4 Honors. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT FRENCH LANGUAGE & CULTURE <i>Course #4155</i> Full year Credit: 1.0</p>	<p>Advanced Placement French Language & Culture is conducted exclusively in French utilizing authentic materials from the French-speaking world. Students are expected to be conversant with the instructor and with each other in French. Students have regular and ample opportunities to improve all four language skills and to prepare students for the AP Language and Culture Exam. Course content comes from authentic sources produced by native speakers intended for a native speaker audience. This advanced placement course provides intensive and extensive reading, discussion, and analysis in French of diverse sources from various regions of the French-speaking world. The analysis of these sources will specifically target the following AP themes: Personal and Public Identities, Family and Community, Contemporary Life, Global Challenges, Science and Technology, and Beauty and Aesthetics. Students regularly write in French on non-literary topics and study current events with excerpts from French language television and documentaries. Language skills are not taught in isolation, but rather integrated to communicate about a wide range of topics and media. The class prepares students to take the Advanced Placement Exam in French Language & Culture. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 11 and 12. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>
GERMAN	
<p>GERMAN I <i>Course #4210</i> Full year Credit: 1.0</p>	<p>German I is an introduction to the German language and German-speaking cultures. An immersive listening and speaking experience based on everyday situations is provided. Through consistent daily use of German, students actively engage in a variety of structured activities, interactive conversations, games, and short presentations that develop their basic language skills of listening, speaking, reading, and writing. Though this is a beginning level course, students are expected to use German to the extent possible. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>

WORLD LANGUAGES DEPARTMENT

<p>GERMAN 1 HONORS Course #4215 Full year Credit: 1.0</p>	<p>In German I Honors the student will be introduced to the German language and culture. The sequential core material for this course is the same as German I. The pace is accelerated; the breadth and scope of the coverage is expanded, and material is added in order to allow for more investigation of the language and culture. This course is conducted in German to a greater extent than is German I. Furthermore, German 1 Honors students are expected to speak as much German as possible in class. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11, and 12.</p>
<p>GERMAN 2 Course #4220 Full year Credit: 1.0</p>	<p>This course is a continuation of the first level course, developing more complex reading, writing, speaking, and listening skills with a goal of increased grammatical accuracy. Students are expected to function in German to a greater extent, and all four skills are evaluated. Cultural topics will be explored throughout the year. This course is conducted extensively in German. NCAA approved course.</p> <p>Prerequisite: A grade of C or better in German 1. Open to grades 10, 11, and 12.</p>
<p>GERMAN 2 HONORS Course #4225 Full year Credit: 1.0</p>	<p>This course is a continuation of the first level course, developing more complex reading, writing, speaking, and listening skills with a goal of increased grammatical accuracy. Although the core material for this course is the same as German II, this course is accelerated and allows for more investigation of the language and culture. The materials used in this course are authentic sources in order to further develop students' proficiency. All modes of communication are practiced and assessed regularly. This course is designed for students who have had success in German I and who demonstrate the characteristics of a self-directed and motivated language learner. This course is conducted in German to a greater extent than is German I. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>
<p>GERMAN 3 Course #4260 Full year Credit: 1.0</p>	<p>This course provides more extensive development and practice in listening, speaking, reading, and writing as well as increased awareness of and focus on German-speaking cultures, while honing grammar skills. New thematic topics and grammar concepts are introduced to students. All modes of communication are practiced and assessed regularly. This course is conducted in German to a greater extent than is German II. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11, and 12.</p>
<p>GERMAN 3 HONORS Course #4265 Full year Credit: 1.0</p>	<p>In this course previously learned skills are enhanced. A thematic approach is used to integrate advanced learning in speaking, writing, reading, and listening. The sequential core material for this course is the same as German III. The pace is accelerated; the breadth and scope of the coverage is expanded. Material is added in order to allow more investigation of the language and culture. The course is conducted entirely in German; students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11, and 12.</p>
<p>GERMAN 4 Course #4270 Full year Credit: 1.0</p>	<p>This course is a continuation of the third level course, developing more complex reading, writing, speaking, and listening skills with a goal of increased grammatical accuracy. German IV provides an opportunity for students to develop their fluency through intensive conversational practice and grammar study. Culture is studied through reading, viewing, and listening to a variety of authentic resources. Students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11, and 12.</p>

WORLD LANGUAGES DEPARTMENT

<p>ADVANCED PLACEMENT GERMAN LANGUAGE & CULTURE <i>Course #4275</i> Full year Credit: 1.0</p>	<p>Advanced Placement German Language & Culture is conducted exclusively in German utilizing authentic materials from the German-speaking cultures. Students have regular and ample opportunities to improve all four language skills and to prepare for the AP Language and Culture Exam. Course content comes from authentic sources produced by native speakers intended for a native speaker audience. This advanced placement course provides intensive and extensive reading, discussion, and analysis in German of diverse sources. The analysis of these sources will specifically target the following AP themes: Personal and Public Identities, Family and Community, Contemporary Life, Global Challenges, Science and Technology, and Beauty and Aesthetics. Students regularly write in German on non-literary topics and study current events with excerpts from German language television and documentaries. Language skills are not taught in isolation, but rather integrated to communicate about a wide range of topics and media. The class prepares students to take the Advanced Placement Exam in German Language & Culture. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 11 and 12. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>
LATIN	
<p>LATIN 1 <i>Course #4310</i> Full year Credit: 1.0</p>	<p>Latin 1 is primarily designed to develop a student’s ability to read and comprehend the Latin language. Students begin by learning the peculiar demands of an inflected language and are then introduced to Latin morphology, the declensions of its nouns and the conjugation of its verbs. Gradually, elements of syntax and grammar introduce the students to the fundamental requirements needed to read. Concurrent with these pursuits will be an ongoing discovery of the structure of the English language and its many borrowings from the Latin structure. Students’ grasp of English grammar will grow substantially. An ever-evolving Latin vocabulary helps students understand essential concepts in etymology, derivatives, and building a stronger and more precise vocabulary in English. Roman and Greek mythology and Roman daily life comprise the cultural component of the course. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>LATIN 1 HONORS <i>Course #4315</i> Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as Latin I. The pace is accelerated; the breadth and scope of the course are expanded and material is added to explore the language more deeply. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11, and 12.</p>
<p>LATIN 2 <i>Course #4320</i> Full year Credit: 1.0</p>	<p>This course builds on the grammatical and structural foundations established in Latin I. An emphasis is placed on reading and comprehending Latin. Students will learn advanced grammar and move on to their first experience with unadulterated Latin. The cultural focus of the course will be the formation and development of the Roman Republic. NCAA approved course.</p> <p>Prerequisite: A grade of C or better in Latin 1. Open to grades 10, 11, and 12.</p>
<p>LATIN 2 HONORS <i>Course #4325</i> Full year Credit: 1.0</p>	<p>This course builds on the grammatical and structural foundations established in Latin 1. An emphasis is placed on reading and comprehending Latin. Students will learn all of the advanced grammar of the language and move on to their first experiences with unadulterated Latin from a variety of authors. The cultural focus will be on the evolution of the Roman state from monarchy to Republic and Republic to Empire. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11, and 12.</p>

WORLD LANGUAGES DEPARTMENT

<p>LATIN 3-4 LATIN LITERATURE <i>Course #4340</i> Full year Credit: 1.0</p> <p>Offered 2018-2019</p>	<p>This course is a survey of Latin literature sampling several genres including letters, oratory, epigram, history, narrative, philosophy, lyric and elegiac poetry. The survey is designed to further develop students' translation abilities as they review essential grammar and vocabulary. The work will explore the boundaries of each genre and its specific application. Attention will also be paid to the larger historical context of the authors and their works to provide students with an upper level understanding of Roman thought and custom. NCAA approved course.</p> <p>Prerequisite: Latin 2 and departmental approval. Latin 3-4 Latin Literature (4340) and Latin3-4 Caesar/Vergil (4360) are offered in alternate years only. In 2019-2020 Latin 3-4 Caesar/Vergil (4340) will be offered. In 2018-2019 Latin 3-4 Latin Literature will be offered. Open to grades 11 and 12.</p>
<p>LATIN 3-4 CAESAR/VERGIL <i>Course #4360</i> Full year Credit: 1.0</p> <p>Offered 2019-2020</p>	<p>This course will provide a broad exposure to Vergil's <u>Aeneid</u> and Caesar's <u>Commentarii de Bello Gallico</u>. The course works to establish the larger political, historical, and literary contexts through which these literary works can best be understood. Special attention will be paid to the authors' use of rhetorical and poetic figures of speech, diction, imagery, manipulations of the Latin language, as well as the larger themes of both works. NCAA approved course.</p> <p>Prerequisite: Latin 2 and departmental approval. Latin 3-4 Latin Literature (4340) and Latin 3-4 Caesar/Vergil (4360) are offered in alternate years only. In 2019-2020 Latin 3-4 Caesar/Vergil (4360) will be offered. In 2018-2019 Latin 3-4 Latin Literature (4340) will be offered. Open to grades 11 and 12.</p>
<p>LATIN LITERATURE HONORS <i>Course #4355</i> Full year Credit: 1.0</p> <p>Offered 2018-2019</p>	<p>The sequential core material of this course is the same as Latin (4340). The pace is accelerated; the breadth and scope of the course are expanded, and some material is added to explore the language more deeply. NCAA approved course.</p> <p>Prerequisite: Latin 2 and departmental approval. Latin Literature Honors (4355) and AP Latin Caesar/Vergil (4365) are offered in alternate years only. In 2018-2019 AP Latin Caesar/Vergil (4365) will be offered. In 2018-2019 Latin Literature Honors will be offered. Open to grades 11 and 12. Pending confirmation of approval, this course may be offered for dual credit through Loyola University Chicago. More information will be provided to interested students at the beginning of 2018-2019 school year.</p>
<p>ADVANCED PLACEMENT LATIN CAESAR/VERGIL <i>Course #4365</i> Full year Credit: 1.0</p> <p>Offered 2019-2020</p>	<p>Preparatory to the Advanced Placement Exam, the Caesar/Vergil course provides a broad exposure to the primary works of both authors: Vergil's <u>Aeneid</u> and Caesar's <u>Commentarii de Bello Gallico</u>. The course endeavors to establish the larger political, historical, and literary contexts through which these literary works can best be understood. The course will necessarily focus on the stylistic qualities of poetry and prose, Vergil and Caesar, and their effectiveness at conveying an intended message. Attention will also center on how the two authors approach the issues of Roman imperialism, the consequences of war, the portrayal of non-Romans, the nature of leadership, and the role of a state-driven propaganda among others. Essay writing will be developed in line with the close literary analysis required by The College Board. NCAA approved course.</p> <p>Prerequisite: Latin 2 and departmental approval. Latin Literature Honors (4355) and AP Latin (4365) are offered in alternate years only. In 2019-2020 AP Latin Caesar/Vergil (4365) will be offered. In 2018-2019 Latin Literature Honors will be offered. Open to grades 11 and 12. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details. Pending confirmation of approval, this course may be offered for dual credit through Loyola University Chicago. More information will be provided to interested students at the beginning of 2019-2020 school year.</p>

WORLD LANGUAGES DEPARTMENT

SPANISH	
INTRODUCTION TO SPANISH <i>Course #4505</i> Full year Credit: 1.0	Introduction to Spanish 1 is a first year Spanish course designed to emphasize Spanish 1 vocabulary, grammatical concepts, and foreign language study skills in order to provide necessary and additional support to new language learners. The course is designed to provide students with vocabulary and grammar acquisition skills that are crucial to the student's success in future second language study. The course will also focus on developing student responsibility for his or her own learning. Students will learn organization and study skills that will support successful study of a language. Students who successfully complete this course will be able to continue and complete their study of Spanish 1 the following year. The textbook for this course is <u>Realidades Level 1</u> . Prerequisite: None. Open to grades 9, 10, 11, and 12. This course is not open to students who have previously taken Spanish courses. This course is not recommended for native Spanish speakers.
SPANISH 1 <i>Course #4510</i> Full year Credit: 1.0	Spanish I is an introduction to the Spanish language and Spanish-speaking cultures. An immersive listening and speaking experience, based on everyday situations is provided. Through consistent daily use of Spanish, students actively engage in a variety of structured activities, interactive conversations, games, and short presentations that develop their basic language skills of listening, speaking, reading, and writing. Though this is a beginning level course, students are expected to use Spanish to the extent possible. NCAA approved course. Prerequisite: None. Open to grades 9, 10, 11, and 12.
SPANISH 2 <i>Course #4520</i> Full year Credit: 1.0	This course is a continuation of the first level course, developing more complex reading, writing, speaking, and listening skills with a goal of increased grammatical accuracy. Students are expected to function in Spanish to a greater extent, and all four skills are evaluated. Cultural topics will be explored throughout the year. This course is conducted extensively in Spanish. NCAA approved course. Prerequisite: A grade of C or above in Spanish 1 or recommendation of the junior high teacher. Open to grades 9, 10, 11, and 12.
SPANISH 2 HONORS <i>Course #4525</i> Full year Credit: 1.0	This course is a continuation of the first level course, developing more complex reading, writing, speaking, and listening skills with a goal of increased grammatical accuracy. Although the core material for this course is the same as Spanish II, this course is accelerated and allows for more investigation of the language and culture. The materials used in this course are authentic sources in order to further develop students' proficiency. All modes of communication are practiced and assessed regularly. This course is designed for students who have had success in Spanish I (or the junior high equivalent) and who demonstrate the characteristics of a self-directed and motivated language learner. This course is conducted in Spanish to a greater extent than is Spanish II. NCAA approved course. Prerequisite: Departmental approval. Recommendation of the junior high teacher for freshmen. Open to grades 9, 10, 11 and 12.
SPANISH 3 <i>Course #4530</i> Full year Credit: 1.0	This course provides more extensive development and practice in listening, speaking, reading, and writing as well as increased awareness of and focus on Spanish-speaking cultures, while honing grammar skills. New thematic topics and grammar concepts are introduced to students. All modes of communication are practiced and assessed regularly. This course is conducted in Spanish to a greater extent than is Spanish II. NCAA approved course. Prerequisite: A grade of C or better in Spanish 2. Open to grades 9, 10, 11, and 12.

WORLD LANGUAGES DEPARTMENT

<p>SPANISH 3 HONORS <i>Course #4535</i> Full year Credit: 1.0</p>	<p>In this course previously learned skills are enhanced. A thematic approach is used to integrate advanced learning in speaking, writing, reading, and listening. The sequential core material for this course is the same as Spanish III. The pace is accelerated; the breadth and scope of the coverage is expanded. Material is added in order to allow more investigation of the language and culture. The course is conducted entirely in Spanish; students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11, and 12.</p>
<p>SPANISH 4 <i>Course #4540</i> Full year Credit: 1.0</p>	<p>This course is a continuation of the third level course, developing more complex reading, writing, speaking, and listening skills with a goal of increased grammatical accuracy. Spanish IV provides an opportunity for students to develop their fluency through intensive conversational practice and grammar study. Culture is studied through reading, viewing, and listening to a variety of authentic resources. Students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. NCAA approved course.</p> <p>Prerequisite: A grade of C or better in Spanish 3. Open to grades 10, 11 and 12.</p>
<p>SPANISH 5 HONORS: SPANISH STUDIES <i>Course #4545</i> Full year Credit: 1.0</p>	<p>This course surveys the literature, history, culture, and thought of Spain. Through a variety of readings, class discussions, and communicative activities this course also facilitates students' language skills in the three modes of communication (presentational, interpersonal, and interpretive). In addition, grammar review throughout the year facilitates accuracy in student communication. The class is conducted entirely in Spanish, and students are expected to communicate in the target language. This course is designed for students who have had success in Spanish 3H, Spanish 4, Latin American Studies, or AP Spanish Language and Culture. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>
<p>SPANISH 5 HONORS: LATIN AMERICAN STUDIES <i>Course #4550</i> Full year Credit: 1.0</p>	<p>This course offers the opportunity to learn about Latin American cultures through historical readings, authentic literature, and films. The focus of this course is to increase students' understanding of the history and culture of Latin America while also improving fluency in oral and written communication skills through formal and informal speaking and writing activities. The class is conducted entirely in Spanish, and students are expected to communicate in the target language. This course is designed for students who have had success in Spanish 3H, Spanish Studies, or AP Spanish Language and Culture. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT SPANISH LANGUAGE & CULTURE <i>Course #4555</i> Full year Credit: 1.0</p>	<p>The AP Spanish Language and Culture class is conducted exclusively in Spanish utilizing authentic materials from the Spanish-speaking world. Students have regular and ample opportunities to improve all four language skills with a special emphasis on idiomatic usage and to prepare students for the AP Language and Culture Exam. Course content comes from authentic sources produced by native speakers intended for a native speaker audience. This advanced placement course provides intensive and extensive reading, discussion, and analysis in Spanish of diverse sources from various regions of the Spanish-speaking world. The analysis of these sources will specifically target the following AP themes: Personal and Public Identities, Family and Community, Contemporary Life, Global Challenges, Science and Technology, and Beauty and Aesthetics. Students regularly write in-class compositions in Spanish on non-literary topics and study current events with excerpts from Spanish language television and documentaries. Advanced grammar study is continued and integrated into every aspect of the student's work. Language skills are not taught in isolation, but rather integrated to communicate about a wide range of topics and media. The class prepares students to take the Advanced Placement Exam in Spanish Language & Culture. NCAA approved course.</p> <p>Prerequisite: Departmental approval. A grade of an A or a B in Spanish 3H, Spanish 4, Spanish Studies, Latin American Studies or AP Literature and Culture. Open to grades 11 and 12. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>

WORLD LANGUAGES DEPARTMENT

<p>ADVANCED PLACEMENT SPANISH LITERATURE & CULTURE <i>Course #4565</i> Full year Credit: 1.0</p>	<p>The AP Spanish Literature course is based on those representative works required by the AP board for the AP Spanish Literature and Culture Exam. This course surveys the history and literature of Spain and Hispanic America in a chronological fashion relating each work to the 6 course themes and the historical context. All genres are represented and media sources are used regularly to assist in comprehension and analysis. Students are required to read and write outside of class, take part in classroom discussions, listening practices, present reports, and compose essays in order to prepare for the Advanced Placement exam in Spanish Literature and Culture. NCAA approved course.</p> <p>Prerequisite: Departmental approval. A grade of an A or a B in Studies, Latin American Studies or AP Spanish Language and Culture. Open to grades 11 and 12. Upon successful completion of this course, students are expected to take the Advanced Placement (AP) examination in early May. The 2018-2019 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. See page 21 for more details.</p>
<p>SIGN LANGUAGE</p>	
<p>AMERICAN SIGN LANGUAGE I <i>Course #8070</i> CREDIT: 1.0</p>	<p>This course is designed to develop the student’s expressive and receptive signing skills and understanding of basic grammatical structures of American Sign Language. Topics related to deafness and deaf culture will also be explored. This is a class for students who are interested in learning the language of signs. NCAA approved course.</p> <p>This course is taught at Hinsdale South, only, and Central students would need to provide their own transportation to and from South. Also, Central students can enroll, but would need to take a study hall adjacent to the course to allow for travel.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>AMERICAN SIGN LANGUAGE II <i>COURSE #8080</i> CREDIT: 1.0</p>	<p>In American Sign Language II, students will continue to develop receptive and expressive signing skill, study grammatical structures of ASL, and learn more about the history and culture of deaf people. There will be increased opportunities for interaction with deaf students. NCAA approved course.</p> <p>This course is taught at Hinsdale South, only, and Central students would need to provide their own transportation to and from South. Also, Central students can enroll, but would need to take a study hall adjacent to the course to allow for travel.</p> <p>Prerequisite: “C” or better in American Sign Language I. Open to grades 9, 10, 11, and 12.</p>

REGISTRATION INFORMATION

2018 – 2019 ACADEMIC CALENDAR

<i>December</i>	Program of Studies Handbook Copies of Hinsdale Central’s inclusive curriculum book will be posted online. This information should stimulate initial conversations between parents and students regarding appropriate courses for next year. Registration information will be emailed to students and parents. Parents, please review this information with your son/daughter.
<i>Mid-November- first week in January 2019</i>	Curriculum Discussions Individual teacher/student informal advising discussions are held.
<i>January 10, 2019</i>	Eighth Grade Student and Parent Night, HC Gymnasium An informational program will be held for all parents and students to explain the curriculum and the course selection process. An electives fair will be hosted by departments and students to share specific details about elective courses. 6:00 - 7:00 PM Last names A-L 7:00 - 8:00 PM Last names M-Z
<i>January 16-19, 2019</i>	Class of 2020 Counselor Conferences for Current Sophomores Class of 2019 will meet individually with their counselors at an assigned time to finalize their course selections.
<i>January 22-26, 2019</i>	Class of 2019 Counselor Conferences for Current Juniors Class of 2019 will meet individually with their counselors at an assigned time to finalize their course selections. Individual appointments will be announced in English classes.
<i>January 30- February 2, 2019</i>	Class of 2021 Counselor Conferences for Current Freshman Class of 2021 will meet individually with their counselors at an assigned time to finalize their course selections.
<i>January 16, 18, 24- February 1, 5, 2019</i>	Eighth Grade Individual Registration Conferences Incoming Freshman, Class of 2022, conferences will take place in late January and early February at Hinsdale Central High School in the Library. These conferences will include student, parents and their high school counselor for 15 minute appointments. 15 minute phone conferences will also be available for those that aren’t able to meet in person. Phone Conference dates to be announced.
<i>Late April 2019</i>	Course verification can be viewed online. Students and parents will have the opportunity to view course selections online prior to registration appointments. Students should consult with their counselor regarding any concerns about a course change. (Additionally, Department Chair approval to enroll in a class will be required for any classes needing a prerequisite or an honors level course.) Requests for changes may be accommodated dependent upon class size and availability. All schedules will be finalized in late June. No schedule changes will be permitted without Administrative approval. Please Note: Student schedules ARE NOT finalized until the summer registration process.

Dear Students and Parents:

The Hinsdale Central High School Program of Studies book is an important resource for students and parents which I hope will assist you in making course choices. Consider choosing courses that interest you where you may explore your college and career aspirations. Take time to reflect on the course selection process, consider a sense of balance in your life related to your social emotional health and academic goals.

As you page through the Program of Studies, you will find that the book is divided into three distinct sections. The first contains general information about such topics as graduation requirements, dropping and adding courses, schedule changes, and college admission requirements. The second section provides descriptions of all course options available to students. The last section provides students and parents with registration information for next year, worksheets for course selection, the four-year plan, and the graduation credit checklist.

The Program of Studies is designed to prepare you for a registration appointment with your counselor. The registration appointments will be scheduled in January or early February. As you prepare, carefully review the general information section, analyze the course descriptions, speak with your teachers about opportunities and “pencil in” your choices on the worksheets at the back of this handbook. I suggest that you view the registration process in the broad scope of a four-year plan, reflecting on your personal strengths, interests, social emotional health, and future plans. Parents, teachers, and your counselor will guide you through this process. I encourage you to make the best use of the academic opportunities available to you at Hinsdale Central.

Hinsdale Central High School is an educational institution where a student’s academic course work opens opportunities for exploration and challenges their intellectual curiosity. It is important to know that the courses you select during this process are intended to be your final selections for the next school year. We develop our master schedule of classes, hire and re-employ staff based on the enrollment decisions you make. Hopefully you will find our registration process to be one that works well for you. If you have questions about the registration process or the information provided in the Program of Studies, please contact our Counseling Department at (630) 570-8251.

Sincerely,

William C. Walsh
Principal

VISION STATEMENT

Adopted Fall 2003

The expectation of excellence is rooted in the traditions of Hinsdale Central. In an environment that fosters a desire to learn, all members of the organization are committed to educating each student. In order for us to succeed, we must clearly identify standards we will work to achieve and maintain. These standards are identified in several areas and will be the benchmarks by which we will measure our success.

I. Students

The degree to which we measure our success in attaining this vision is by each student's progress. We will provide opportunities that facilitate this growth. In school we:

- a. Work to meet student's needs.
- b. Encourage students to reach their potential in all they do, and to become self-directed learners.
- c. Teach students to accept responsibility for their actions.
- d. Encourage students to get involved in their school and in their community.
- e. Let students know we believe in them and will find ways for them to succeed based on their ability and interests.

II. Staff

Attracting and retaining outstanding people is a must if we are to move toward our vision. In our school we:

- a. Demonstrate our support for a shared vision and a common sense of purpose.
- b. Encourage all members of the organization to be leaders and experts in their fields.
- c. Promote collaboration and collegial decision making on matters relating to students, curriculum, instruction and school.
- d. Facilitate the growth of our students.

III. Curriculum and Instruction

What we decide to teach and how we do so will impact the results we achieve. In our school we:

- a. Recognize our primary focus to provide a solid base for the post-secondary education of our students, while respecting the needs of students who make alternative choices.
- b. Seek to learn effective practices and adapt them for our learning environment.
- c. Believe teachers should collaboratively determine curriculum and assessment standards.
- d. Work to assure the limited time we have to educate our students is used to the greatest benefit for all our school community.

VISION STATEMENT

IV. Climate

All members of our community are responsible for providing a climate that contributes to our success and a high school experience that builds a sense of pride we all share. In our school we:

- a. Provide a safe and secure environment that is conducive to learning.
- b. Recognize that all relationships are based on respect for others and an understanding of each person's responsibility for his/her behavior.
- c. Understand school rules and policies exist to support our organization and are consistently applied by all staff.
- d. Recognize the achievements of all members.
- e. Encourage and model behaviors appropriate to the development of character.

V. Community

The educational community recognizes the importance of maintaining a partnership between the school and community at large. In our school we:

- a. Seek ways to improve the quality of communication between the home and school.
- b. Always provide a clear rationale for policies and practices.
- c. Share information that is important in a timely manner.
- d. Recognize that the more our community is involved and informed, the more successful we will be.

GENERAL INFORMATION

GRADUATION REQUIREMENTS

Each student must successfully complete the following course requirements in order to graduate from Hinsdale Central High School. To graduate, a student must earn a **minimum of 24.0 credits** and successfully meet the listed requirements. In order to earn a diploma, students must comply with all state mandated requirements for standardized testing. In addition, no student shall receive a diploma without passing a satisfactory examination on the federal and Illinois constitutions. Students must take and pass the U.S Constitution Test in U.S History or AP U.S. History. No student shall receive a certificate of graduation without passing a satisfactory examination on patriotism and principles of representative government, proper use of the flag, methods of voting and the Pledge of Allegiance.

Graduation Requirements	Credit
English <i>A given course cannot be used to satisfy a requirement in more than one area, with the exception of the “intensive writing” requirement. State law mandates all students to earn two credits in courses designated as “intensive writing” courses. English I and English II fulfill this requirement as do English and English Foundations.</i>	4.0
Mathematics <i>One of the three years of Mathematics must be an Algebra course (Algebra I, Part 1 AND Algebra 1, Part 2, Algebra 1 Block, Algebra 1, or Math Foundations) and one course must include Geometry content (Geometry, Mathematical Concepts of Algebra & Geometry or Math Foundations. Credits must be earned over three school years.</i>	3.0
Science <i>Students are required to take 2 years of science</i>	2.0
Social Studies <i>World Cultures or World History Honors (1.0) U.S History (1.0) or AP U.S. History (1.0) and pass the U.S. Constitution Test While 2.0 credits are required to graduate, students must also take and pass either Civics (0.5) or AP U.S Government and Politics (0.5) to meet the State of Illinois Civics requirement.</i>	2.0
Elective Arts <i>A student can select from one of seven Elective Arts areas, including all courses in: Art, Business, Family & Consumer Sciences, World Languages, Music, Technology Education or TCD. A student may only declare one (1) credit per department/discipline to count towards this specific graduation requirement.</i>	2.0
Consumer Education* <i>AP Economics: Micro AP Economics: Macro Economics Introduction to Family and Consumer Sciences Introduction to Business Pre-Vocational Studies</i>	0.5
Physical Education/Health <i>Health is a required course taken during sophomore year typically in tandem with one semester of Physical Education. Students have the option of enrolling in an additional semester of Physical Education during their sophomore year for an additional 0.5 credits. All students must complete state-mandated CPR and AED training through their physical education class.</i>	4.0

*The same course may not be used to satisfy requirements for Elective Arts and Consumer Education

GENERAL INFORMATION

STATE TESTING REQUIREMENT

All 11th grade students are required to take the SAT. In order to be classified as an 11th grade student, students must earn a minimum of 11.75 credits prior to the beginning of entering their third year in high school. Students who begin their third year in high school with fewer than 11.75 credits will be classified as 10th grade student solely for the purpose of SAT testing.

STATE OF ILLINOIS CONSUMER EDUCATION REQUIREMENT

Credit: 0.5

Students have the following options to satisfy the mandated graduation requirement:

1. **Consumer Economics**, course #6301, one semester, Business Department course.
2. **Economics**, course #2331, one semester, Social Studies Department course.
3. **AP Macro Economics**, course #2441, one semester, Social Studies Department course.
4. **AP Micro Economics**, course #2341, one semester, Social Studies Department course.
5. **Introduction to Family & Consumer Sciences**, course #6400, full year, Family & Consumer Science Department Course.
6. **Introduction to Business**, course #6100, full year, Business Department course.
7. **Special Education Related Instruction**: enrollment is determined by IEP recommendation.
8. **Consumer Education Online**, course #9101, one semester. Students who enroll in this online course will be supervised by a certified District 86 teacher. This course has the same objectives as the traditional semester-long Consumer Economics course #6301; the content is very similar. Communication between student and teacher will be primarily through the website and by email. Students who enroll in the online version will be required to attend an orientation session, to meet progress markers along the way, and to complete the course during the semester in which they are enrolled.

STATE OF ILLINOIS CIVICS REQUIREMENTS

Credit: 0.5

Students have the following options to satisfy the mandated graduation requirement:

1. **Civics**, #2351, one semester, Social Studies Department Course.
2. **AP United States Government and Politics**, #2361, one semester, Social Studies Department Course.
3. **Special Education Related Instruction**: Enrollment is determined by IEP recommendation.
4. **English Language Related Instruction**: Enrollment is determined by EL recommendation.

COLLEGE ADMISSION REQUIREMENTS

Criteria for college admission vary greatly. The admission committees consider, to varying degrees, the following:

- Type of high school courses actually taken when compared to the courses available in the high school
- Quality of the student's academic record
- Performance on college admission tests – ACT & SAT
- Development and maturity of the individual in areas outside the academic classroom

Courses	Highly Selective Colleges	Public University Colleges	Private 4-Year Colleges	Community and Public Colleges
English	4 years	4 years	4 years	Varies greatly from an open door admission policy to selective course requirements specifically required by the different departments.
Mathematics	4 years	4 years	4 years	
Science	4 years (lab)	3 years	3 years	
Social Studies	3-4 years	3 years	3 years	
Academic Electives	2 years	2 years	2 years	
World Languages*	4 years (one)	*	2-4 years	

Course requirements for entrance into four different types of colleges are listed above. The academic prerequisites typical of colleges in each of the categories listed may change from year to year and therefore, should be used only as general **minimum guidelines**. Specific information may be obtained from high school counselors, college profiles, websites and catalogs, computerized college software programs and college representatives who visit Hinsdale Central High School. Students should be aware of a definite return by colleges to their preference of a **traditional and classical college preparatory curriculum**. Narrowly defined, college preparatory courses are found in the following departments:

GENERAL INFORMATION

Art: *AP Art History, AP Studio Art	Science: Lab courses	Academic Electives: Business, Family & Consumer Sciences, Music, Technology Education, Technology Center of DuPage (TCD)
English: Literature and composition courses	Social Studies	
Mathematics: Computer Science is not generally accepted as a math credit.	World Languages	

**AP Art History and AP Studio Art are generally treated as acceptable college preparatory academic electives by most colleges.*

REGISTRATION REQUIREMENTS

Hinsdale Central course recommendations are based upon evidence of normal progress and achievement in the student's previous school. Incoming freshmen are required to submit evidence of satisfactory completion of the 8th grade. Transcripts of credits earned and grade placement are required from the previous school for all students transferring from other secondary schools. Additionally, all students transferring from an Illinois public high school must obtain the ISBE student in good standing form from the previous school in order to register. Parents of transfer students must present a birth certificate for the student at the time of registration.

A student's grade-point average previously earned at a high school other than a high school in District 86 will be re-calculated based on the grade-point average processes currently used in District 86. Transfer courses, grades earned and grade-point average will appear on the District 86 high school transcript exactly as they are titled on the sending school's transcript and will be indicated as transfer coursework. If the previous school assigned numerical grades, we will use their key to assign letter grades on the District 86 transcript. If no key is available, these courses will be recorded as "Pass" or "Fail." Transfer courses from schools outside of the United States may receive credit, but grades will be reflected as "Pass" or "Fail." A record of a health examination and immunizations at the 9th grade level is required by law. Students will not be allowed to attend school if this state requirement is not met. Incoming freshmen must have a physical performed prior to the purchase of books during the month of August, but *the preferred date of completion for the freshman physical is July 1*. In addition, all students participating in athletics must have a physical examination for each year in which they participate.

Additionally, transfer students and currently enrolled students requesting to transfer credit for a class from an accredited institution outside of HCHS, may be required to take a placement exam to ensure appropriate level of placement for a higher-level class. The Department Chair for the subject area will set a mastery level for the exam. If mastery is not obtained, then a student may need to repeat that course and credit will not be issued.

RESIDENCY

Pursuant to Hinsdale Township High School District 86 Board of Education Policy 7:50 and 7:60, every family must provide acceptable evidence of residency. One of the following documents is required for registration: a current real estate tax bill, mortgage papers, agreement of sale, or a signed lease agreement with student(s) listed as occupants. Two additional documents reflecting the current in-district address must also be presented to verify residency. Contact the registrar for more information on adequate proof of residency.

EARNING COURSE CREDITS

Credit in full year as well as semester courses is earned by semester. That is, students earn 1/2 unit of credit or 0.5 credit for successful completion of each semester. Credit is earned by successfully completing all course requirements as established by the teacher. Excessive absences may result in removal from a course and/or loss of credit.

ADDING A COURSE

Students may add a class to increase the number of attempted credits, provided that space is available and that there is minimal disruption to the student's schedule. This addition must be made by the end of the fifth school day. In order to add a course, a student must obtain signatures on an Add/Drop form from the parent/guardian, the department chair if required, and the student's counselor.

GENERAL INFORMATION

DROPPING A COURSE

Students may request to drop a course for a study hall only if they are enrolled in the maximum number of courses (seven) per semester and only after they have attended and participated in the course for five class periods. Students wishing to drop a course must first discuss it with their parents, teacher and counselor. After a parent/guardian signs the request to drop a course, the counselor and department chair will sign the request as well. A grade of “WF” will be reflected on the transcript of a student who chooses to drop a course after the fourth week of a semester and will be calculated in the grade point average. Students enrolled in year-long courses will not be allowed to drop at the end of the first semester unless it is recommended by the department.

LEVEL CHANGES

It is important that students choose their course loads very carefully, as the master schedule for the building is based off of these selections. Typically a student is required to stay in a course for an entire quarter before the school will honor a request to change the level of coursework. If a request to move course levels is granted, the grade as of the day of the course change will follow the student to the next class.

Students wishing to initiate a level change within the same department must complete the add/drop form and obtain all required signatures (parent/guardian, teacher, department chair, counselor).

COURSE REQUESTS

Each spring Hinsdale Central works to create a schedule of classes for the following academic year that best meets the needs of our students, while still staying within the parameters of staffing requirements (i.e. number of teachers, class size, teaching schedules, state and federal mandates). We work very hard to accommodate student requests; however, due to the complexity of the scheduling process, sometimes student schedules may need to be adjusted. Please keep in mind that changes in course requests or class assignments will not be accepted for any of the following reasons:

- to accommodate a job schedule
- to change teachers
- to change lunches or classes to be with friends
- to have first or last period free
- to accommodate a change of mind

Acceptable reasons for schedule changes may include:

- computer input error
- scheduling conflicts
- failure or near failure in a second semester or year course
- failure to meet a pre-requisite for a course
- department chair or counseling director recommendation
- successful completion of a summer school class

Once a school year begins, schedule changes are permitted only if they meet one of the following conditions.

REPEATING COURSES

A course may be repeated for credit only when a student has previously received a “D” or an “F.” Both the grade received and the credit earned for repeating the course, as well as the original grade and credit received in the course, will be used in computing the student’s grade point average. The student’s transcript will indicate the first grade and credit earned, as well as the second grade and credit earned. However, the credit received for repeating the course will not count toward satisfying graduation requirements unless the student failed the course.

GENERAL INFORMATION

HONOR ROLL AND WEIGHTED GRADES

Grades earned in all courses, exclusive of Physical Education, Driver Education, and Student Aide will be used to calculate a student's grade point average (GPA) according to the following grade point system.

Grade	Honors	Regular
A	6	5
B	5	4
C	4	3
D	2	2
F	1	1
WF	1	1

Dean's List and Honor Roll designation will be determined by the following criteria:

Honor Roll

- 4.0 grade point average
- No grade in any course below a "D"

Dean's List

- 4.5 grade point average
- No grade in any course below a "C"

Dean's List and Honor Roll are based on quarter grades, not semester grades. Thus there are four Honor Rolls and Deans' Lists per year; one each quarter. Incomplete grades are not accepted, and a minimum of four (4) credit-earning courses are needed to qualify for either list.

JUNIOR HIGH/MIDDLE SCHOOL STUDENTS

Junior high schools that feed into District 86 unable to offer advanced coursework for their students may send their students to Hinsdale South for those courses. In these cases, all courses, grades and credit earned will appear on the transcript and will be calculated into the grade point average earned in subsequent years at a high school in District 86. If the course is taken at a D86 school and a student attends the other D86 school, the course, grades and credit earned will appear as transfer credit. If the course is taken at the D86 school the student attends, the course, grades and credit earned will appear as regular credit.

AUDITING COURSES

Only under unusual circumstances will a request to audit a course be considered:

1. When a student has previous credit in a subject they may request to audit the course.
2. When a student wishes to audit a course they have not previously taken, they may request to audit the course. In this case, they may not take the course for credit at a later time.

In both circumstances, requests to audit will be considered only if space is available in the course. Students assume all responsibility of a regular class member. Audited courses will appear on the transcript with a letter grade of AU, but will not receive credit. All requests to audit a course must have administrative approval prior to the first day of class at the latest, but preferably at the time of February registration. Students interested in auditing a course must complete the 'Request to Audit a Course Form,' which may be obtained from the student's counselor and approved by the Director of Counseling.

INDEPENDENT STUDY

Independent Study options may be provided for motivated and mature students who have exhausted the course options of a particular course or field of study. Independent Study courses are initiated on a case-by-case basis through any faculty member and are subject to the approval of the relevant department chairperson, the student's counselor, and the Assistant Principal for Curriculum & Instruction. Upon the approval of all of the aforementioned, final approval is contingent upon the workload of the teacher involved.

GENERAL INFORMATION

INCOMPLETE GRADES

An Incomplete represents work not completed by the end of the quarter. Incompletes are given only in extraordinary circumstances. If the work is made up within the first two weeks of the following quarter, the Incomplete will be changed to a grade or a failure. If the work is not made up by the end of the 2-week period, the grade will be changed to an “F.” An Incomplete will prevent eligibility for Honor Roll.

REGISTRATION PROCEDURES

Students should review the [four-year planning guide](#) and choose courses that will fulfill graduation requirements and build on the student’s strengths, interests and abilities. Students will discuss course recommendations with each of their current teachers and, if there is a need for departmental approval, they should obtain the signature of the Department Chair for that course. Following the recommendation discussions with teachers, students will have an individual appointment with their counselor to review and approve their course selections. Students and parents will be able to view their course requests in Home Access Center throughout the month of February. Courses are scheduled on the basis of your requests. Questions concerning registration procedures and course selections should be directed to your counselor.

ATTENDANCE POLICY

The attendance policy at Hinsdale Central requires that parents call the attendance office **ON THE DAY OF THE ABSENCE** to report their student absent from school on any given day at **(630) 570-8090**. Prearranged absences may be called in prior to the day of the absence and a green prearranged absence form must be completed. Students are expected to attend class on a daily basis and should be aware that attendance is part of his/her evaluation in each class. Students are responsible for all work missed due to an absence. Excessive absences will be handled by the administration and guidance staff and require a parent conference.

MINIMUM ATTENDANCE REQUIREMENT

School Code of Illinois, Section 18-8, requires that all students must be in attendance, exclusive of lunch and passing time, for a minimum of 300 minutes. This necessitates all students attending school for at least six (6) periods a day. Students must maintain 6 credit bearing courses in their schedule each semester.

STUDENT SCHEDULES

Full year courses are usually designated by 4-digit course codes ending in “0” or “5.” Semester courses are primarily designated by numbers ending in “1” (first semester) or “2” (second semester) and may be scheduled either first or second semester. Student schedules are generated by computer and do not allow the student to select a course by semester. Requests are entered but not guaranteed.

R-RATED FILMS OR CLIPS

If R-rated movies or clips from R-rated movies will be used in instruction in any course, a list of those movies will be made available at the time of registration through each department and online. Written permission must be obtained by a parent at the beginning of any course showing R-rated movies or clips from R-rated movies to allow students to view in whole or in part the R-rated movies associated with the class.

MEDICAL STUDY HALLS

Physical Education Medical Study Halls are given to those students with an authorized physician’s medical note that states the student cannot participate in ANY physical activity for three or more weeks.

GENERAL INFORMATION

PHYSICAL EDUCATION EXEMPTIONS

Per policy 6:310, a student in grades 9-12, unless otherwise stated, may submit a written request to the building principal to be excused from physical education courses for the reasons stated below. The Superintendent or designee shall maintain records showing that the criteria set forth in this policy were applied to the student's individual circumstances.

1. For students in grades 11-12, ongoing participation in an interscholastic athletic program as recognized by IHSA.
2. For students in grades 11-12, to enroll in academic classes which are required for graduation from high school, provided that failure to take such classes will result in the pupil being unable to graduate.
3. For students in grades 9-12, ongoing participation in a Marching Band program for credit.

PHYSICAL EDUCATION EXEMPTIONS FOR STUDENT-ATHLETES EXPLANATION

Varsity/Junior Varsity student-athletes in 11th or 12th grades may be exempted from Physical Education their junior and senior years. There are no exemptions allowed for freshmen or sophomore student-athletes per Board Policy 6:310.

CRITERIA TO BE ELIGIBLE FOR AN EXEMPTION

1. The sport is an IHSA sanctioned sport and runs through the Hinsdale Central Athletic Department.
2. The sport requires an athletic permit to participate.
3. The sport involves a schedule of interscholastic competition.
4. The student-athlete must attend practices and games consistently throughout the season.
5. The student-athlete must be on the roster to actually compete in interscholastic competition.
6. Student-athletes must have a current grade of a C or better in his/her current Physical Education course.
7. The student-athlete must complete all state mandated fitness assessments, regardless of exemption.
8. Student-athletes must be in attendance for 300 minutes in a day to perform after school.

Athletes seeking an exemption need to obtain a Physical Education Exemption form in the Athletic Office and follow the procedures outlined on the form.

In addition, students in grades 11-12 may also qualify for a Physical Education exemption in order to enroll in an academic class or classes required for admission to the college(s) or university(ies) which said student intends to apply as long as documented substantiation of the prerequisite secondary courses required for admittance to the postsecondary institution is provided. Policy 6:310 also contains provisions for students with IEPs to qualify for PE exemptions based on an IEP team decision or participation in adaptive athletic programs outside the school setting.

PHYSICAL EDUCATION EXEMPTIONS FOR MARCHING BAND STUDENTS EXPLANATION

Exemption from Physical Education for Matching Band members in grades 9-12 (Items 3 above) is for the participation season (football season) only, except that students through the class of 2022 (i.e., entering freshmen in 2018) enrolled in a qualifying music class for credit who request a Marching Band exemption shall be excused from Physical Education for that school year. Marching Band students interested in exempting out of PE need to be aware of the following:

Marching Band PE Exemption Procedures: In order for music students to obtain a PE Exemption, they MUST be enrolled in a class that is part of the Hinsdale Central Marching Band, and continuous enrollment in that class is required to maintain the exemption. "Band" students are defined as students enrolled in one the following courses: Concert Band, Symphonic Band, Wind Symphony Honors, Wind Ensemble Honors, Concert Percussion Ensemble, and Symphonic Percussion Ensemble.

Students who are eligible for the full year exemption (students through the class of 2022) must enroll in a minimum of 6 courses in addition to the PE Band Exemption. If a student drops below six courses, the exemption is invalidated and the student will be required to attend Early Bird PE, or enroll in PE during the school day. If students drop their qualified band course, they will be automatically enrolled in a PE class. In all cases the exemption is listed on student schedules as course #07219 & #07220 (semester 1 & 2 respectively) PE Band Exemption and the student will receive a 1.0 PE Credit. Marching Band students seeking an exemption need to obtain a Physical Education Exemption form in the Athletic Office and follow the procedures outlined on the form.

GENERAL INFORMATION

PHYSICAL EDUCATION EXEMPTIONS FOR SPECIAL EDUCATION STUDENTS

A student requiring adapted physical education must receive that service in accordance with the student's Individualized Educational Program/Plan (IEP).

A student who is eligible for special education may be excused from physical education courses when:

1. He or she is in grades 9-12, and his or her IEP requires that special education support and services be provided during physical education time, and the student's parent/guardian agrees or the IEP team makes the determination;
2. He or she has an IEP and is participating in an adaptive athletic program outside of the school setting, and the parent/guardian documents the student's participation as required by the Superintendent or designee.

EQUITY AT EQUAL EDUCATION OPPORTUNITIES

Hinsdale Township High School District 86 does not discriminate on the basis of race, color, national origin, sex, disability, or age in its programs and activities and provides equal access to the Boy Scouts and other designated youth groups. The District has established a grievance procedure to provide a prompt, fair review of complaints alleging discrimination and harassment, including alleged violations of Title IX, which prohibits discrimination in educational programs and activities on the basis of sex.

All grievances alleging discrimination and / or harassment, including sex equity / Title IX grievances should be filed with any District Complaint Manager. The Complainant may request a Complaint Manager of the same sex. The Complaint Manager may request the Complainant to provide a written statement regarding the nature of the complaint or require a meeting with the parent(s)/guardian(s) of a student. The Complaint Manager shall assist the Complainant as needed.

ADDITIONAL ACADEMIC OPPORTUNITIES

SEAL OF BILITERACY & COMMENDATION TOWARDS BILITERACY

Students who demonstrate proficiency in both English and another language may qualify to earn a Seal of Biliteracy or Commendation towards Biliteracy on their transcripts. Students must earn either award through approved testing administered and recorded by District 86. No outside testing or administration of a specific language-based test or portfolio will be accepted for the Hinsdale District 86 Seal or Commendation of Biliteracy program. Families wishing to learn more about this program can view the Seal of Biliteracy school webpage, contact either their child's counselor or contact District 86 Seal of Biliteracy Coordinator, Ms. Kelly Owens, at (630) 570-8232 or at kowens@hinsdale86.org.

DUAL CREDIT

Colleges and universities award articulated or dual credit when learning experiences at the secondary level of instruction duplicate those at the post-secondary level. These programs enable students to save time and avoid duplication of material already learned in high school. Dual credits can be applicable to any college or university that accepts transfer credits. Students may request a transcript from the institution with these courses listed after the end of the semester.

College of DuPage Earth Science	Hinsdale Central Earth Science Honors	COD Credits 3
Moraine Valley CC MDT 145 & AET 1 MDT 101 MDT 285 OSA 232 OSA 235	Hinsdale Central Pre-Engineering I & Pre-Engineering I Honors Pre-Engineering II & Pre-Engineering II Honors Engineering & Design and Engineering & Design Honors Graphic Communications Fundamentals Print Design and Print Design Honors	MVCC Credits 4 3 3 3 3
Loyola University LATN283	Hinsdale Central Latin Literature Honors	LU Credits 3

SERVICE CREDITS

Credit: 0.25

Students may elect to serve as a Student Aide during the school year for the following areas: Art, Athletics, Audio Visual, Family & Consumer Sciences, ELL, Counseling, Library, Nurse, Dean's Office, Publications, Science, Technology Education or Student Activities. The credits earned as an Aide count as service credit. Students may elect to serve as an Aide for one or both semesters. They may, however, hold only one Aide position per semester. A 0.25 credit will be granted for each semester. This can be counted toward graduation as a service credit and will be graded on a pass-fail basis.

ALTERNATIVE COURSES

Credits from non-traditional courses and programs including, but not limited to e-learning and correspondence may be counted toward graduation if they meet certain requirements. Such courses must be from an accredited institution and include at least 60 seat hours. The student assumes responsibility for all fees. Coursework taken by current District 86 students via alternative paths (American School, Illinois Virtual School, etc.) will not appear on the District 86 transcript unless there has been prior written approval by the Director of Counseling. Such approved credit will appear on the high school transcript as transfer credit indicating course name, grade and credit earned. The grade will be calculated into the grade-point average of the District 86 school. Additionally, transfer students and currently enrolled students requesting to transfer credit for a class from an accredited institution outside of HCHS, may be required to take a placement exam to ensure appropriate level of placement for a higher-level class. The Department Chair for the subject area will set a mastery level for the exam. If mastery is not obtained, then a student may need to repeat that course and credit will not be issued. Only one outside course class per semester and two outside classes during the summer are approved.

ADDITIONAL ACADEMIC OPPORTUNITIES

SPECIAL EDUCATION PROGRAM OVERVIEW

The Special Education Department provides a full continuum of services and supports designed to meet the Individual Education Program (IEP) needs of students. Students in need of special education services can receive instruction and programming through one or more of the following approaches:

- academic accommodations within the regular education classrooms,
- structured assistance within the regular education classrooms through co-taught supports,
- structured assistance outside the regular class through consultation services,
- related services, and
- direct instruction in specialized course offerings

All of the courses below meet the HCHS graduation requirements:

Course Title	Course #	Credit	Grade Offered
<u>English 1</u>	1810	1.0	9
<u>English 2</u>	1820	1.0	10
<u>English 3</u>	1830	1.0	11
<u>English 4</u>	1840	1.0	12

ADDITIONAL ACADEMIC OPPORTUNITIES

<p>ACADEMIC CENTER RESOURCE <i>Course # 9920, 9924</i> Full year Credit: NC</p>	<p>Academic Center Resource is for students who are self-motivated, well organized, and can demonstrate excellent self-advocacy skills. Students are self-directed learners who can identify strengths/challenges and have developed the necessary compensatory skills to allow them to be successful in the academic school setting. The Academic Center provides students with opportunities for support across curriculum subjects in a structured setting. Students may also seek out departmental support/resources, schedule guidance appointments, and make up any tests/quizzes during this period.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>STUDY SKILLS FOUNDATIONS <i>Course # 2080</i> Full year Credit: 1.0</p>	<p>Students will explore essential aspects of academic, organizational and Social Skills that can be generalized in various facets of daily life. Emphasis will be placed on decision-making and behavior expectations, time management, use of classroom and school resources, and self-advocacy. Community outings are also a component of this class.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>STUDY SKILLS 1 <i>Course # 1951, 1952</i> Full year Credit: 0.5</p>	<p>Study Skills 1 is a freshman-level class. Students enroll in Study Skills based upon a teacher’s recommendation. Study Skills 1 targets the skills required for a successful transition into the high school experience. These include organization, time management, long term planning, listening skills, memory skills, and test preparation skills. Study Skills 1 also serves as a period where students may complete assessments and/or consult with other school staff to meet their individual needs.</p> <p>Prerequisite: Department Chair approval. Open to grade 9.</p>
<p>STUDY SKILLS 2 <i>Course # 1956, 1957</i> Full year Credit: 0.5</p>	<p>Study Skills 2 is a sophomore-level class. The course addresses the maintenance of Study Skills such as effective note-taking and test preparation skills. It also begins to look into research skills that students will need to investigate post-secondary employment or academic vocational programs. In addition, Study Skills 2 serves as a period in which students may complete assessments or consult with other school staff to meet their individual needs.</p> <p>Prerequisite: Department Chair approval. Open to grade 10.</p>
<p>LEARNING STRATEGIES 1 <i>Course # 1958, 1959</i> Full year Credit: 0.5</p>	<p>Learning Strategies 1 is a junior-level class. Students are enrolled in this class based upon a teacher’s recommendation. This class supports students with their study strategies and executive functioning skills. The course also prepares students for any upcoming assessments through academic content review and effective test taking strategies. Additionally, students may use their learning strategies class time to complete classroom assessments and to seek out support from other academic departments. A final component to Learning Strategies is to continue the process of post-secondary planning.</p> <p>Prerequisite: Department Chair approval. Open to grade 11.</p>
<p>LEARNING STRATEGIES 2 <i>Course # 1961, 1962</i> Full year Credit: 0.5</p>	<p>Learning Strategies 2 is a senior-level class. Students are enrolled in this class based upon a teacher’s recommendation. This class supports students with their study strategies and executive functioning skills. This course also prepares students for any upcoming assessments through academic content review and effective test taking strategies. Additionally, students may use their learning strategies class time to complete classroom assessments and to seek out support from other academic departments. A final component to Learning Strategies is to continue the process of post-secondary planning.</p> <p>Prerequisite: Department Chair approval. Open to grade 12.</p>
<p>PROGRAM SUCCESS <i>Course # 1956A, 1957A</i> Full year Credit: 0.5</p>	<p>Program Success provides students time in their day to get additional support with their academic course work and provides students an opportunity to process interactions that have occurred which are having an impact on the student. In addition, arrangements can be made to provide students with academic instruction in a small setting. This instructional arrangement may be necessary for a short duration while new interventions are planned. Program Success also serves as a time when students can communicate with staff, or complete assessments.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>

ADDITIONAL ACADEMIC OPPORTUNITIES

<p>HAVEN Course # 9701/9702 Credit: No Credit</p> <p><i>This is a District 86 program housed at Hinsdale South High School</i></p>	<p>The District 86 therapeutic program, HAVEN, is for students whose behavioral and emotional needs impede and/or significantly disrupts the learning environment for other students despite learning environment supports attempted. The goal is to provide students with developmentally appropriate Pro-Social Independence. The program is designed to assess the level of pro-social independence of each student and to devise strategies, interventions and experiences that help the student build their capacity to become increasingly independent and successful in a school setting. Students will engage in academic course work in order to meet District 86 requirements toward graduation. These supports are provided to students in a small class setting in order to ensure that their academic and social goals are being met. <i>HAVEN is an acronym for Hinsdale Area's Vision of Emotional Needs.</i></p> <p>Prerequisite: IEP Team recommendation and Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>PRE-VOC FOUNDATIONS Course # 2100 Full year Credit: 1.0</p>	<p>This course explores essential skills related to employment. Emphasis will be placed on hands-on in school job training, entry level workplace skill development which may include: following a schedule, time management, efficiency, responsibility, work etiquette, following directions and communicating with co-workers and supervisors. This class meets the Consumer Education requirement.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>ELECTIVE FOUNDATIONS Course # 2060 Full year Credit: 1.0</p>	<p>Through cooperative games and leisure activities, students will explore essential components of self-awareness & self-management, social-awareness, interpersonal skills, and decision-making.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>COOPERATIVE WORK TRAINING Course # 1931, 1932 Full year Credit: 0.5/semester</p>	<p>This course explores obtaining and maintaining a part time paid position in the community. Students enrolled in this class are actively looking or are currently working at a part time job. This class meets once a week during a study hall period to address job application completion and job retention. Seminars are offered throughout the course to address employment topics such as career exploration, understanding your paychecks, conflict resolution, resume and cover letter development, and interviewing skills.</p> <p>Prerequisite: Department Chair approval. Open to grades 10, 11, and 12.</p>
<p>PRE-VOCATIONAL SUPERVISED JOB TRAINING Course # 1941, 1942 Full year Credit: 0.5/semester</p>	<p>This course explores more in-depth application and practice in both school and community based job training, as identified based on individual goals. This class emphasizes career exploration & planning, job application, job search, interviewing, resume development, cover letters, and continued development on communication skills.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>ADULT OPPORTUNITIES Course # 2930 Credit: No credit</p> <p><i>This is a District 86 program offered at the Transition Center.</i></p>	<p>Adult Opportunities is a Community-Based Program for students ages 18-21. The purpose of the program is to implement an innovative, adult-centered community program through a collaborative approach that prepares students for adulthood success while promoting opportunities for independence in the areas of: employment, post-secondary education and training, independent living skills, and community.</p> <p>The goals of the Adult Opportunities program are to: increase independence in adult living situations; improve self-determination skills; improve social and communication skills; increase leisure, recreation, and life skills; experience work-based learning and volunteer work; and prepare for community living and participation.</p> <p>Prerequisite: Teacher recommendation and Department Chair approval. Open to post 12th grade, ages 18-21.</p>

ADDITIONAL ACADEMIC OPPORTUNITIES

ADVANCED PLACEMENT PROGRAM

The Advanced Placement (AP) Program provides students with the opportunity to pursue college-level studies while still in high school and to receive advanced placement and/or credit when entering college. Qualified, academically-oriented students in the 10th, 11th and 12th grades are eligible to participate in the Advanced Placement Program at Hinsdale Central High School.

The Advanced Placement Program at Hinsdale Central High School consists of the following courses:

AP Art History	AP Calculus AB	AP Physics 1
AP Studio Art	AP Calculus BC	AP Physics 2
AP Language & Composition	AP Computer Science Principles	AP Physics C
AP Literature & Composition	AP Computer Science A	AP Seminar: Science
AP French Language and Culture	AP Statistics	AP European History
AP Latin Vergil	AP Music Theory	AP Microeconomics
AP Spanish Language and Culture	AP Biology	AP Macroeconomics
AP Spanish Literature and Culture	AP Chemistry	AP Psychology
	AP Environmental Science	AP U.S. Government & Politics
	AP Research: Science	AP U.S. History

* Upon completion of World History Honors, students may take the World History AP exam

DEPARTMENTS

Advanced Placement courses are offered by seven departments: Art, English, Mathematics, Music, Science, Social Studies, and World Languages. These courses adhere to College Board approved course descriptions and serve as the primary vehicle to prepare students for the voluntary AP examinations in May. In addition to preparing students for the AP exams, AP courses allow students to experience the pace and intensity of college-level courses while still in high school. Some AP courses may explore opportunities for students to work in teams on interdisciplinary themes or projects. Such activities would be designed to provide students the opportunity to solve real-world problems across AP subject areas. The AP courses are challenging and stimulating, require more work and more time than other high school courses.

EXAMINATIONS

The Advanced Placement examinations are administered each year during the second and third weeks of May and can be described as “tough, but fair.” Usually three hours in length, each exam consists of a multiple choice section and free-response section that requires essay writing or problem solving. Every examination receives an overall grade from a team of carefully selected college professors and high school AP teachers on a five-point scale: 5 (extremely well qualified), 4 (well qualified), 3 (qualified), 2 (possibly qualified), and 1 (no recommendation). An AP Grade Report is obtainable online in July to each student, the high school, and if the student requests it, to the college. Unless recommended by the teacher not to do so, all enrolled AP students are expected to take their course ending examinations. For practice tests – check out apstudent.collegeboard.com.

CREDIT

Although each college determines what AP examination grades it will accept for credit and/or advanced placement, the great majority of colleges accept grades of 3 or better and award the student with credit in the subject matter tested. In some cases, no credit is given, but the student may begin the program of study at an advanced level. Students wanting to know what AP grades are considered acceptable by colleges can check out apstudent.collegeboard.com and use their AP Credit Policy Search tool.

FEES

Last year’s fee for each AP exam as established by the College Board was \$94 with an additional \$45 per exam late-testing fee. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. For schools participating in AP Capstone in 2019-20, there will be an additional fee for the class.

ADDITIONAL ACADEMIC OPPORTUNITIES

HONORS PROGRAM

In the Art, Business, English, Mathematics, Music, Science, Social Studies, and World Languages departments, particular courses are designated as honors courses. Honors courses are designed to challenge students of superior ability by enriching and/or accelerating the course content and have standards of high achievement distinctly above those of regular courses. Instruction in honors courses occurs at a faster pace, covers the subject matter in more depth and emphasizes higher level thinking skills.

Honors courses are offered by Art, Business, Family and Consumer Sciences, and Technology Education. The courses allow students to experience a more intense curriculum, higher expectations and greater responsibilities. These courses are challenging and will require more work and time than other high school courses. Admission to the Honors Option courses is based upon a student's application and departmental approval.

HONORS COURSES:

Honors Portfolio H	Journalism 2: Yearbook H	Spanish 5 H: Spanish Studies	Architecture & Design H
Advanced Drawing & Design H	Journalism 2: Online Yearbook H	Spanish 5 H: Latin American Studies	Advanced Engineering & Arch. Modeling H
Studio Art H	French 1 H	Integrated Algebra & Geometry H	Graphic Com. – Web Design H
Advanced Painting H	French 2 H	Geometry H	Graphic Com. - Game Design H
Advanced Ceramics H	French 3 H	Algebra 2 Trigonometry H	Graphic Com. – Print Design H
Advanced Jewelry H	French 4 H	Pre-Calculus H	Graphic Com. – Advanced Graphics H
Graphic Design H	German 1 H	Music (see department)	Digital Color Photography H
Accounting H	German 2 H	Biology H	Advanced Photography H
Business Law I H	German 3 H	Earth Science H	World History H
Business Law 2 H	Latin 1 H	Chemistry H	Philosophy H
Internship H	Latin Literature Honors	SIR-H (summer school only)	Invitation to Teaching H
English 1 H	Latin 2 H	Physics H	Interior Design & Housing H
English 2 H	Spanish 2 H	Pre Engineering I Honors	
H/Seminar in Writing	Spanish 3 H	Pre Engineering II H	
Journalism 2: Newsmagazine H		Engineering & Design H	

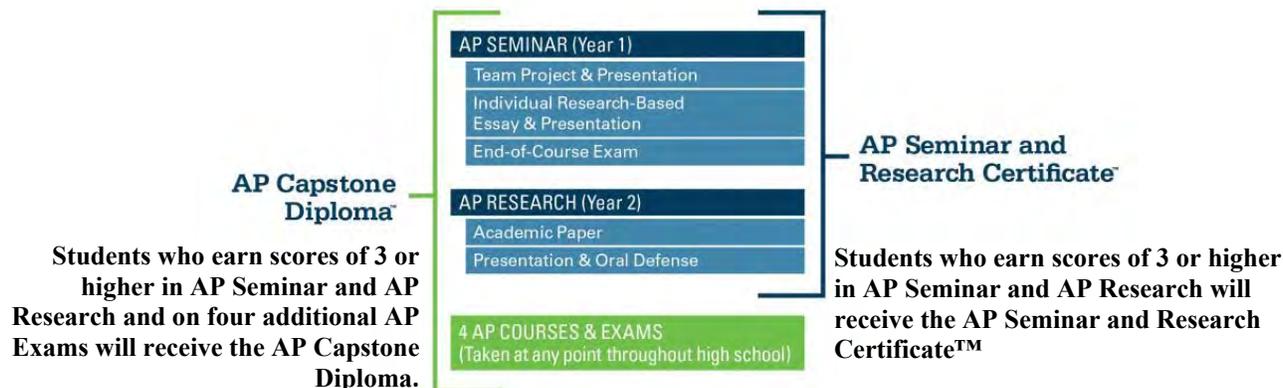

ADDITIONAL ACADEMIC OPPORTUNITIES

AP CAPSTONE

What is AP Capstone?

AP Capstone™ is a College Board program that equips students with the independent research, collaborative teamwork, and communication skills that are increasingly valued by colleges. It cultivates curious, independent, and collaborative scholars and prepares them to make logical, evidence-based decisions.

AP Capstone is comprised of two AP courses — AP Seminar and AP Research — and is designed to complement and enhance the discipline-specific study in other AP courses.

Benefits of AP Capstone

- Fosters the **research**, argumentation, and communication skills that are at the core of college readiness and essential for lifelong learning.
- Provides a setting to build on the knowledge and rigorous course work of AP in an **interdisciplinary** format.
- Offers students a unique opportunity to **distinguish** themselves to colleges and universities.

Combining Scholarly Practice with Academic Intensity

AP Capstone was developed in response to feedback from higher education. The two AP Capstone courses, with their associated performance tasks, assessments, and application of research methodology, require students to:

- Analyze topics through multiple lenses to construct meaning or gain understanding.
- Plan and conduct a study or investigation.
- Propose solutions to real-world problems.
- Plan and produce communication in various forms.
- Collaborate to solve a problem.
- Integrate, synthesize, and make cross-curricular connections.

EXCEL STUDY HALLS

Course # 1020, 1024, 1027, 1028 Credit: 0.50

Excel is designed as an academic support program. Students assigned to the Excel Study Hall will attend every day during their scheduled period and will continue to receive these services until all grades earned are at a C level or above for two consecutive quarters at which point they can transfer into a regular study hall. Excel Study Hall is an academic program where students meet in a supportive environment to receive assistance. The Excel Study Hall staff members consult with classroom teachers and parents to help improve each student's achievement in courses. A 0.5 credit is earned per semester for successful participation in this program. Student support in the areas of organizational skills, study skills, and homework completion will be available and structured with each program. Prerequisite: None. Open to grades 9, 10, 11, and 12. May be repeated.

ART DEPARTMENT

ART

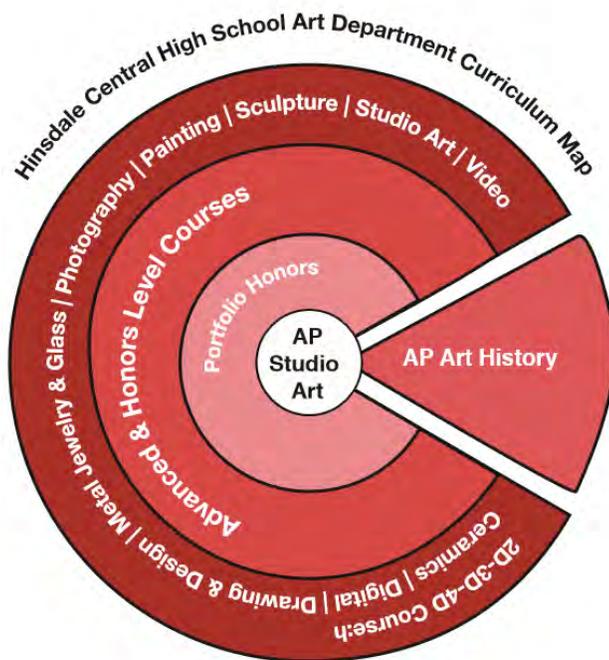

District 86 requires the successful completion of two Elective Arts Credits. Two fine arts credits fulfill the Illinois state public university entrance requirement in Art, Music or Vocation education. Within the Hinsdale Central Art Department, students use media, tools, and technologies to make personal work. As a result, students become problem-solvers and creative thinkers. Student work is displayed throughout the school and community on a continuing basis. Supply fees are required for participation in studio courses.

Articulated credits at College of DuPage are available to Hinsdale Central students who complete certain courses at Hinsdale Central with at least a grade of B and who, upon graduation, attend C.O.D. Articulated credit at College of DuPage is available with the completion of the sequence of Basic Photography and Digital Color Photography.

MISSION STATEMENT

The artistic, intellectual, and personal development of young people, through the visual arts, is the goal of the Hinsdale Central Art Department. We, the art faculty, as mentors, coaches, and artists, are committed to creating a challenging, authentic, and caring creative environment. We challenge students to develop excellence and creativity through art work and to appreciate the importance of art in daily life and culture.

ART DEPARTMENT

Studio Art or Studio Art Honors*							
<i>Studio Art is the only survey course in the Art Department– it is recommended, but not required (9-12)</i>							
Drawing and Design (9-12)	Painting (9-12)	Metal, Jewelry, and Glass (9-12)	Ceramics (9-12)	Sculpture (9-12)	Photography (9-12)	Digital Imaging I (9-12)	Digital Video Art (9-12)
Advanced Drawing and Design* (9-12)	Advanced Painting* (9-12)	Advanced Metal, Jewelry, and Glass* (9-12)	Advanced Ceramics* (9-12)		Digital Color Photography* (9-12) Adv. Photography* (10,11,12)	Digital Imaging II* Or Graphic Design (9-12)	
<i>* Advanced level courses may be taken for Honors credit</i>							
Honors Portfolio (11, 12)**						AP Art History** (10-12)	
AP Studio Art (11,12)** Includes: Drawing/Painting Portfolio, Photography Portfolio, 2-D Design Portfolio, and 3-D Portfolio

ART DEPARTMENT

<p>STUDIO ART <i>Course #5101, 5102</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$22.00</p>	<p>Studio Art is the only course at Central in which introductory students can experiment in a variety of materials. Students will explore fundamental aspects of design, drawing, painting, jewelry, mixed media, and sculpture. Emphasis will be placed on creativity, craftsmanship, and problem solving.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>STUDIO ART HONORS <i>Course #5101A, 5102A</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$22.00</p>	<p>Studio Art Honors is an opportunity for students who are highly motivated and serious about their study of art at Central. Studio Art is the only departmental course that explores a variety of materials. You will explore fundamental aspects of design, drawing, painting, jewelry, mixed media, and sculpture. Emphasis will be placed on creativity, craftsmanship, and problem solving. Honors students are required to keep a journal, visit museums and galleries and enter competitions outside of class to improve and expand their artwork.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester. Open to grades 9, 10, 11, and 12.</p>
<p>DRAWING & DESIGN <i>Course #5211, 5212</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee \$18.00</p>	<p>Drawing & Design is a beginning through intermediate level drawing course. You'll learn basic drawing skills and work with pastel, charcoal, pencil, and pen. Projects will challenge your creativity whether you are a novice or experienced artist.</p> <p>Prerequisite: Studio Art is highly recommended. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED DRAWING & DESIGN <i>Course #5221, 5222</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$18.00</p>	<p>Advanced Drawing & Design continues to develop skills learned in Drawing class. Further exploration of drawing mediums and creative themes will be stressed. The course is geared towards the drawing student.</p> <p>Prerequisite: Drawing & Design. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED DRAWING & DESIGN HONORS <i>Course #5223, 5224</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$18.00</p>	<p>Advanced Drawing & Design Honors is geared towards the serious, more experienced and highly motivated drawing student. Students are required to keep a journal, visit museums and galleries and enter competitions outside of class.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester. Open to grades 9, 10, 11, and 12.</p>
<p>PAINTING <i>Course #5311, 5312</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$22.00</p>	<p>Painting is a class about thinking like a painter. Work in acrylics, watercolor, and oil paint; the course will expose you to many types of painting. Although it is challenging, the course is really fun.</p> <p>Prerequisite: Studio Art is highly recommended. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED PAINTING <i>Course #5321, 5322</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$22.00</p>	<p>In this class, you create a series of paintings based on your own theme. Advanced painters also do a few exercises that allows students to try a new strategy or skill. This course gives students more freedom to determine a personal style and make design choices.</p> <p>Prerequisite: Painting. Open to grades 9, 10, 11, and 12</p>
<p>ADVANCED PAINTING HONORS <i>Course #5323, 5324</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$22.00</p>	<p>Advanced Painting Honors is geared towards the serious, more experienced and highly motivated painting student. Students are required to keep a journal, visit museums and galleries and enter competitions outside of class.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester. Open to grades 9, 10, 11, and 12.</p>

ART DEPARTMENT

<p>JEWELRY, METAL, AND GLASS <i>Course #5351, 5352</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$22.00</p>	<p>Jewelry, Metal, and Glass is a fun and challenging course. You will create small and wearable sculptures from a variety of metals. Glass is also explored through enameling, glass fusing, and glass bead-making. Develop your creative thinking and your fine motor skills (calling all future surgeons and dentists).</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED JEWELRY, METAL, AND GLASS <i>Course #5361, 5362</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$22.00</p>	<p>This concentration enables students to explore the potential of jewelry as a communication tool. You will explore a variety of materials and methods with a focus on body adornment and development of themes. Advanced Jewelry, Metal, and Glass will focus on the development of independent thinking and personal expression. Creative exploration is the key.</p> <p>Prerequisite: Jewelry, Metal, and Glass. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED JEWELRY, METAL, AND GLASS HONORS <i>Course #5363, 5364</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$22.00</p>	<p>Advanced Jewelry, Metal, and Glass Honors is geared towards the serious, more experienced and highly motivated jewelry student. Students are required to keep a journal, visit museums and galleries and enter competitions outside of class.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester. Open to grades 9, 10, 11, and 12.</p>
<p>CERAMICS / CLAY SCULPTURE <i>Course #5421, 5422</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$20.00</p>	<p>Ceramics is an introduction to the basic techniques including hand building, wheel throwing, and glazing. Students will produce both functional and sculptural projects with an emphasis on creativity.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED CERAMICS <i>Course #5431, 5432</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$20.00</p>	<p>Advanced hand building and glazing techniques will also be covered. Emphasis is placed on individual exploration of the potter's wheel and larger hand-built forms. Personal awareness of form, content, and design will be explored. Improve upon and expand what you can do with clay in this class.</p> <p>Prerequisite: Ceramics/Clay Sculpture. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED CERAMICS HONORS <i>Course #5433, 5434</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee \$20.00</p>	<p>Advanced Ceramics/Clay Sculpture Honors is geared towards the serious, more experienced and highly motivated ceramics student. Students are required to keep a journal, visit museums and galleries and enter competitions outside of class.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester. Open to grades 9, 10, 11, and 12.</p>
<p>SCULPTURE <i>Course #5441, 5442</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee \$17.00</p>	<p>In this studio course, students will explore and develop three dimensional designs. Glass, clay, fiber, metals and found objects are some of the materials that will be used. Weld, build, and create in three dimensions.</p> <p>Prerequisite: One semester of Art. Open to grades 9, 10, 11, and 12.</p>
<p>BASIC PHOTOGRAPHY TRADITIONAL and DIGITAL BLACK & WHITE <i>Course #6691, 6692</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$35.00</p>	<p>Basic photography is for students interested in learning the techniques necessary to produce technically correct and aesthetically pleasing photographs. Digital and film capture of images will be explored. Areas of study will include, but are not limited to, the composition of a good photograph; the processing of black and white photographic materials; and proper application of photographic equipment and supplies. Photographic equipment and supplies will be provided along with cameras for students who do not have access to a Single Lens Reflex (SLR) camera.</p> <p>Prerequisites: None. Open to grades 9, 10, 11, and 12.</p>

ART DEPARTMENT

<p>DIGITAL COLOR PHOTOGRAPHY <i>Course #6701, 6702</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$35.00</p>	<p>This course is for students interested in the modern methods of Digital Color Photography. The student will use a digital camera to capture images. After capture, photographs will be produced in the digital darkroom using a computer and Photoshop software. Areas of study include, but are not limited to, the principles of color and light; elements of a good photograph; capturing images with a digital camera; editing a photograph for presentation with Photoshop; printing a digital file in color; and preparing a photograph for display. The studio will be used to further the use of shade and shadow, light ratios, and photographic composition techniques. Still life and portrait techniques will be explored. Equipment and supplies will be furnished. Cameras are available for students who do not own or have access to a digital camera. Basic Photography and Digital Color Photography together have articulated credit with the College of DuPage.</p> <p>Prerequisite: Basic Photography. Open to grades 9, 10, 11, and 12.</p>
<p>DIGITAL COLOR PHOTOGRAPHY HONORS <i>Course #6703, 6704</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$35.00</p>	<p>Beyond the regular advanced photography content, additional projects and assignments will require the selection of a concentration and/or theme by the student. The selected theme will necessitate greater depth, complexity, and rigor to produce higher-level photographs. Expectations for this class will require extra lab work outside of class. This class is recommended for highly motivated photography students looking to add meaningful pictures to their portfolio.</p> <p>Prerequisite: Basic Photography. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED PHOTOGRAPHY <i>Course #6812</i> 2nd semester Credit: 0.5</p> <p>Supply fee: \$40.00</p>	<p>In this advanced level course, students will be expected to improve upon their current level of photographic ability. Students will have the opportunity to explore digital and film capture of images. In terms of technique, students will be introduced to different camera formats and the zone system (a procedure which will allow students to make more carefully controlled photographic prints.) Additionally, some non-traditional films, papers, and emulsions will be introduced. In terms of content, through class assignments and independent work, students will further their use of the photographic medium to more effectively articulate ideas. Students will have the opportunity to work with black and white film, color film, infrared film, and digital cameras to capture images. Students will be expected to properly display and critique their photographic work.</p> <p>Prerequisites: Basic Photography and Digital Color Photography with instructor approval. Open to grades 10, 11, and 12.</p>
<p>ADVANCED PHOTOGRAPHY HONORS <i>Course #6814</i> 2nd semester Credit: 0.5</p> <p>Supply fee: \$40.00</p>	<p>Beyond the regular advanced photography content additional projects and assignments will require the selection of a concentration and or theme by the student. The selected theme will necessitate the demonstration of greater photographic complexity, and an advanced understanding of light to produce higher-level photographs. Expectations for this class will require extra lab work outside of class. This class is recommended for highly motivated photography students looking to add meaningful well-composed pictures to their portfolio.</p> <p>Prerequisites: Basic Photography and Color Photography with instructor approval. Open to grades 10, 11, and 12.</p>
<p>DIGITAL IMAGING 1 <i>Course #5121, 5122</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee \$17.00</p>	<p>This course is designed for students who want to create art on the computer. Artistic and creative problem solving strategies are developed which can help students in all areas of learning. Students take their own digital photographs. Each student will use these images to create original works of art using the software Adobe Photoshop CS5. Students will create a cartoon in Adobe Illustrator CS5 and a digital portfolio is created on a web interface. Software is MAC OS 10.5 or higher. Digital Imaging 1 introduces students to many different tools in Adobe Photoshop and Illustrator while working on their own digital images. Students use their imagination to take and manipulate digital photographs. If students want to pursue a career in graphics, illustration, or another design field, this course is perfect.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>

ART DEPARTMENT

<p>DIGITAL IMAGING 2 <i>Course #5131, 5132</i> 2nd semester Credit: 0.5</p> <p>Supply Fee: \$17.00</p>	<p>Further explore and develop your skills in Adobe Photoshop and Illustrator. While enhancing student's skills, they will work independently on your chosen theme. Major projects are self-directed and flow from your imagination and motivation.</p> <p>Prerequisite: Digital Imaging 1. Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC DESIGN <i>Course #5331, 5332</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$17.00</p>	<p>Dreaming of a career as a Graphic Designer, Art Director, Animator, or other design field? Using Photoshop, InDesign and Illustrator, students will solve design projects for real-client directed design challenges in addition to class design challenges. Working knowledge of Adobe Photoshop CS3, Adobe Illustrator CS3, and Adobe InDesign are needed. Software is MAC OS 10.5 or higher.</p> <p>Prerequisite: Digital Imaging 1. Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC DESIGN HONORS <i>Course # 5335, 5336</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$17.00</p>	<p>This course is recommended for students who are interested in working as a design-creative or art director. Using Photoshop, InDesign and Illustrator, you will solve real-client directed design challenges, in addition to, class design challenges. Honors students are expected to keep a formal journal, attend a workshop outside of class, in addition to class projects.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester. Open to grades 9, 10, 11, and 12.</p>
<p>DIGITAL VIDEO ART <i>Course #5475, 5476</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$17.00</p>	<p>Digital Video Art introduces you to the 4th dimension, TIME. Be creative using digital video techniques or combine moving images with still images. Visual experimentation is encouraged through directing, producing, editing, sound design, screenwriting and videography. Students will work independently and collaboratively to develop their short films. Final Cut Pro and After Effects software will be used for post-production. Students will be encouraged to enter video competitions.</p> <p>Prerequisite: None, but Digital Imaging is recommended. Open to grades 9, 10, 11, and 12.</p>
<p>HONORS PORTFOLIO <i>Course #5473, 5474</i> 1st or 2nd semester Credit: 0.5 (may be repeated twice)</p> <p>Supply Fee: \$22.00</p>	<p>Students will create a body of artwork based on a personal exploration of a central theme or idea. This body of work represents the results of rigorous research, planning and problem-solving. Each student is required to create a reference manual that combines multiple explorations of a variety of media. The work produced in this course may be used as part of the Advanced Placement Art Portfolio. Honors students are expected to keep a formal journal, attend a workshop outside of class, in addition to class projects. The work produced in this course may be used as part of the Advanced Placement Art Portfolio.</p> <p>Prerequisite: Advanced level course. Portfolio review with Department Chair approval. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT ART HISTORY <i>Course #5440</i> Full Year Credit: 1.0</p>	<p>This course provides a survey of the history of art. It is designed to prepare students to take the Advanced Placement examination. Students enrolling in this course are expected to have well developed writing skills and an interest in art and culture. By viewing art from different periods and cultures, they will have a better understanding of world history. Students will be able to travel and wander through museums with an understanding of what they are seeing. Memorization of facts, understanding of larger concepts, and a love of writing will help you. We also go out to view art, occasionally work with art materials, and develop more creative responses to the art and architecture we study.</p> <p>Prerequisite: Department Chair approval. Open to grades 10, 11, and 12. Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The <u>2019-2020 AP exam</u> fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p>

ART DEPARTMENT

**ADVANCED
PLACEMENT STUDIO
ART**

Course #5450

Full year

Credit: 1.0

Supply Fee: \$40.00
(excludes series materials)

This course provides accelerated students with a challenging program of college-level studio work. Prior to the end of the academic year, a portfolio of approximately 44-46 pieces will be submitted to the College Board for evaluation and possible college credit. The AP Program offers three portfolios: Drawing (painting, printmaking, drawing), 2-D Design (photography, graphic design, product design, fashion design), and 3-D Design (jewelry, ceramics, sculpture). AP Studio is a work-intensive, serious, and thought-provoking class. Anyone who ranks art among their primary interests should consider taking this course. This is a fulfilling challenge.

Students interested in this course need to sign up for a brief interview at the Art office before first semester final exams.

Prerequisite: Portfolio review and Department Chair approval. Open to grades 11 and 12. Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The 2019-2020 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.

--	--

Business courses can fulfill 1 credit for the District 86 graduation requirement in the Elective Arts. Business courses can also be taken for general/elective credit. The 0.5 consumer education graduation requirement may be met by successful completion of the department’s Consumer Economics course or Introduction to Business.

Business Department courses are electives; however, with the increase in reliance on technology in our society, the department strongly recommends that all students include computer courses in their high school studies (i.e. Digital Literacy 1 & 2 and Essential Technology).

Students who are contemplating a Business major in college should select one or more Business electives because of the difficulty of college-level Accounting, students are urged to take an Accounting course at Hinsdale Central.

Consumer Economics can be taken any time between sophomore and senior year to meet State of Illinois Consumer Education Requirement.

Internship or **Internship Honors** can be taken Junior or Senior year and is completed outside of the regular school day according to student availability (course can be repeated).

Digital Literacy 1 or 2 can be taken any year, however, taking it early will enhance technology skills for use in later school years.

BUSINESS DEPARTMENT

COMPUTER COURSES	
<p>DIGITAL LITERACY 1 Course #6121, 6122 1st or 2nd semester Credit: 0.5</p>	<p>In this one-semester course, students will expand their knowledge of digital technology and its application in academics and the real world. Students will master the basics of Google Docs, Sheets, Slides, Drawings, and Forms. Students will examine their digital literacy as well as their own digital footprint. Through integrated and collaborative projects, students will apply 21st Century Skills. This course will help students improve their typing skills and technique. Students will also be introduced to a variety of design tools and basic website development.</p> <p>Prerequisite: None. Next course in sequence: Digital Literacy 2. Open to grades 9, 10, 11, and 12</p>
<p>DIGITAL LITERACY 2 Course #6331, 6332 1st or 2nd semester Credit: 0.5</p>	<p>In this one-semester project-based course, students will continue to expand their knowledge of digital technology. Students will master the advanced features of Google Docs, Sheets, Drawings, and Forms by designing promotional materials and professional documents. Using curriculum from Computer Science Discoveries, an introductory computer science course, students will create authentic artifacts and learn the basics of programming and coding. Students will also explore how technology supports business in the fields of Sports and Entertainment Marketing, Hospitality Management, Accounting and Finance. Students will become well versed in Excel. Students will design a website, record a podcast, create a blog, and develop videos on a topic of their choice.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12. Completion of Digital Literacy 1 is recommended.</p>
<p>ESSENTIAL TECHNOLOGY Course #6130 Full year Credit: 1.0</p>	<p>This full-year introductory course allows students to acquire and refine basic computer skills in the digital age. As a result of this course, students will increase their typing speed and accuracy. Students are taught word processing/keyboarding skills, spreadsheets, charts, and digital presentations. The evolving curriculum in this course matches the changes of technology in the world of work. Upon completion of this course, students will be able to understand why technology and their personal digital footprint are important forces in our society. Web-based applications and tools will also be utilized during class projects. This course is similar in content to a combined Digital Literacy 1 & 2, but curriculum will be individualized and paced appropriately to meet each student's needs.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, 12</p>
BUSINESS COURSES	
<p>INTRODUCTION TO BUSINESS Course #6100 Full year Credit: 1.0</p> <p>(0.5 Elective Arts/0.5 Consumer Ed. - Must complete the entire year to receive Consumer Ed. credit)</p>	<p>This course gives students a background in the basic operations of business and develops an understanding of the economic role of business in our society. Major areas of study include economics, banking, credit, insurance, budgeting, consumer protection, government, entrepreneurship and taxes. Skill is developed through a wide variety of activities including computer research, projects, and classroom activities.</p> <p>Successful completion of this course fulfills the District's Consumer Education requirement for graduation. Prerequisite: None. Open to grades 9 and 10.</p>
<p>INVESTMENT PLANNING Course #6111, 6112 1st or 2nd semester Credit: 0.5</p>	<p>In this course students will study basic investment principles involving stocks, commodities, bonds and mutual funds. Students will also learn about tax information, effects of the economy on the market, government regulations of securities and on-line investing. Current issues as they relate to investing will be discussed. Teams will be formed to participate in the Stock Market Game by trading on-line.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>

BUSINESS DEPARTMENT

<p>ACCOUNTING <i>Course #6170</i> Full year Credit: 1.0</p>	<p>This course develops a basic understanding of double-entry accounting. The accounting cycle, accounting theory, financial reports and financial analysis are included. Online accounting work papers, spreadsheets and accounting software are used to apply all accounting concepts. This course is recommended for college-bound students planning a career in accounting, finance, management or marketing.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>ACCOUNTING HONORS <i>Course #6180</i> Full year Credit: 1.0</p>	<p>Accounting Honors will prepare students for the rigor of college accounting. Students will develop an understanding of double-entry accounting. Topics covered include the following: accounting cycle, accounting systems, internal controls, journals, receivables and payables, accruals and deferrals, inventory, fixed assets and depreciation, financial statement preparation and analysis, and taxes. A computerized accounting program will be utilized, as well as spreadsheets. The core material for this course is similar to Accounting 6170; however, more topics are covered, the pace is accelerated and expectations are higher. This course is highly recommended for motivated students planning to enter a college business program.</p> <p>Prerequisite: Department Chair approval. Open to grades 11 and 12.</p>
<p>MARKETING <i>Course #6181, 6182</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course focuses on the activities necessary to market products, services, and ideas to consumers. Major topics include market segmentation, consumer behavior, marketing research, product planning, and advertising. Students will apply marketing concepts learned in class by researching, creating and advertising new products.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>SPORTS MARKETING <i>Course #6183, 6184</i> 1st or 2nd semester Credit: 0.5</p>	<p>This intermediate marketing course will introduce students to the exciting field of sports marketing and its role in society. Students will develop a thorough understanding of the marketing concepts and theories that apply to sports and sporting events. Course topics will include sponsorships, endorsements, licensing, event marketing and sports marketing plans. Students will plan, create, and assess sports marketing communication programs that include advertising, marketing, public relations and news media. Emerging issues in sports marketing will also be discussed.</p> <p>Prerequisite: Marketing. Open to grades 10, 11, and 12.</p>
<p>BUSINESS LAW 1 <i>Course #6231, 6233</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces students to the legal system and the law as it applies to personal and business situations which may occur in their daily lives. It also examines the court system, torts, crimes, technology and the law, contracts, family law, wills and estates. Key elements of this course are case studies, mock trials and a field trip to the courts and jails. NCAA approved course.</p> <p>Prerequisite: None. Next course in sequence: Business Law 2. Open to grades 11 and 12</p>
<p>BUSINESS LAW 1 HONORS <i>Course #6234, 6235</i> 1st or 2nd semester Credit: 0.5</p>	<p>The core material for this course is similar to Business Law 1 course #6231; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college business program. NCAA approved course.</p> <p>Prerequisite: Department Chair approval. Next course in sequence: Business Law 2. Open to grades 11 and 12.</p>
<p>BUSINESS LAW 2 <i>Course #6232</i> 2nd semester only Credit: 0.5</p>	<p>This course examines the criminal justice system, the Supreme Court, bailments and real estate transactions, ethics and employment policies and contracts. Group discussions, case studies, guest speakers and a field trip will be utilized to present and examine these concepts. To develop a better understanding of the legal system, students will participate in a mock trial tournament throughout the semester. NCAA approved course.</p> <p>Prerequisite: Business Law 1 or Business Law 1 Honors. Open to grades 11 and 12.</p>

BUSINESS DEPARTMENT

<p>BUSINESS LAW 2 HONORS Course #6236 2nd semester only Credit: 0.5</p>	<p>The core material for this course is similar to Business Law 2 course #6232; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college business program. NCAA approved course.</p> <p>Prerequisite: Business Law 1 or Business Law 1 Honors and Department Chair approval. Open to grades 11 and 12.</p>
<p>ENTREPRENEURIAL STUDIES Course #6241, 6242 1st or 2nd semester Credit: 0.5</p>	<p>Do you have an interest in owning or running a business some day? This course will help you develop that entrepreneurial spirit and the skills necessary to be successful in your new business. Topics of study include the entrepreneurial personality and skills; marketing, financing and managing a business; legal requirements of a business; and career opportunities in entrepreneurship. Students will develop an idea and create a business plan.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>CONSUMER ECONOMICS Course #6301, 6302 1st or 2nd semester Credit: 0.5</p>	<p>This course helps students to understand the consumer's role in a mixed economy. Students will learn about various topics that they will use their entire life. Topics of study include: money management, consumer rights and responsibilities, credit, purchasing of goods and services, making sound investment plans and preparing individual tax returns.</p> <p>Successful completion of this course fulfills the District's <u>Consumer Education</u> requirement for graduation. An online version of this course is available. Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>CONSUMER ECONOMICS ELL Course #6302T 2nd semester Credit: 0.5</p>	<p>This course helps students to understand the consumer's role in a mixed economy. Students will learn about various topics that they will use their entire life. Topics of study include: money management, consumer rights and responsibilities, credit, purchasing of goods and services, making sound investment plans and preparing individual tax returns. This course is designed to meet the needs of English Language Learners.</p> <p>Successful completion of this course fulfills the District's Consumer Education requirement for graduation. ELL Coordinator approval is required. Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>INTERNSHIP Course #8401, 8402 1st or 2nd semester Credit: 0.5 General credit only Not Elective Arts credit</p>	<p>This program is designed to provide students with an opportunity for career exploration in a field of their choice. Students will work with a mentor outside of the school day for 50-75 hours in their career field. It is suggested that students have their own placements, however, if assistance is needed finding a placement, students should contact an internship coordinator. Students will be expected to keep a detailed journal, write a reflection paper and discuss their experiences with a related class.</p> <p><i>Students will receive a pass or fail grade only for this course.</i></p> <p>Prerequisite: None. Open to grades 11 and 12 upon acceptance after interview.</p>
<p>INTERNSHIP HONORS Course #8403, 8404 1st or 2nd semester Credit: 0.5 General credit only Not Elective Arts credit</p>	<p>The core material for this course is similar to Internship course #8401/8402; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time. This course is highly recommended for motivated students giving serious consideration to a specific career.</p> <p><i>Students will receive a weighted grade for this course.</i></p> <p>Prerequisite: Department Chair approval. Open to grades 11 and 12 upon acceptance after interview.</p>

BUSINESS DEPARTMENT

**TECH SUPPORT
INTERNSHIP
(TSI)**
Course #8405
Credit: 1.0

The Technology Support Internship (TSI) course is a hands-on study of technology integration in an educational context. Students will be trained to oversee daily technology issues in order to assess which problems surface throughout the school day. Students will define the best approach to addressing or solving the problems for students and teachers.

Students will troubleshoot hardware, software, and network problems, as well as process service tickets and inventory stock. Students will be required to complete and maintain several running projects that address problems or solutions in educational tech integration. They will also be expected to provide training sessions on Chromebook use and digital citizenship to incoming freshmen and transfer students. The course also provides students with the opportunity to pursue an independent learning pathway and potential professional certifications in one of four areas: Application, Innovation, Design, and Entrepreneurship.

Prerequisite: Department Chair approval/application. Open to grades 10-12
This course can be repeated as an Honors Option available after completion of the first year.

VISION STATEMENT

ENGLISH

High School District 86 requires the successful completion of a minimum of four English credits for graduation. In addition, all students who are enrolled in school must be enrolled in an English course **each semester**. The four credits in English must be taken and passed sequentially and include full year courses freshman and sophomore years and full or half-year courses junior and senior years. Junior and senior students must take core English courses in the following areas: semester courses in writing, literature and communication, or full year courses in literature/writing. Only one communication course taken junior or senior year will count toward the core requirement. There are enrichment courses open to all grade levels.

VISION STATEMENT

The skills and knowledge of English/language arts are essential for student success in virtually all areas of the curriculum and society. To meet the challenges of the 21st Century, students need to be clear and effective writers and speakers, critical and insightful readers, and life-long independent and collaborative learners. With the guidance of parents, community, and a dedicated English faculty, our students will graduate from Hinsdale Central as valuable contributors to the world in which we live.

MISSION STATEMENT

The mission of the English Department is to develop in each of our students the following academic attributes: an understanding and appreciation of literature; a proficiency and confidence in writing; the ability to understand communication clearly through active listening, critical observation, and analysis; creativity and imagination in the areas of reading, writing, and speaking; and an appreciation of various cultural and human perspectives through the study and discussion of literature.

ENGLISH

<p>ENGLISH 1 <i>Course #1110</i> Full year Credit: 1.0</p> <p>Supply fee: \$12.00 <i>For No Red Ink Subscription</i></p>	<p>English 1 builds upon students' prior knowledge of grammar, vocabulary, word usage, and the mechanics of writing and include the four aspects of language use: reading, writing, speaking, and listening. This course introduces and defines various genres of literature, with writing exercises often linked to reading selections. NCAA approved course.</p> <p>This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: Incoming freshman eligibility is based on multiple sources of information, including MAP scores and recommendation of 8th grade instructor. Open to grade 9.</p>
<p>ENGLISH 1 HONORS <i>Course #1120</i> Full year Credit: 1.0</p> <p>Supply fee: \$18.00 <i>For No Red Ink Subscription and online novel</i></p>	<p>English 1 Honors is a course for the student who reads avidly and who shows strong motivation and high academic achievement. Students read a variety of literature, including fiction, nonfiction, drama, and short stories. Discussion, in-depth analysis, and written assignments accompany these readings. Research skills, source identification, development of search strategies, and attribution are all taught in conjunction with the library staff. Grammar usage is emphasized. Consistent, thoughtful class participation is expected of all students. NCAA approved course.</p> <p>This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: Incoming freshman eligibility is based on multiple sources of information, including MAP scores and recommendation of 8th grade instructor. Open to grade 9.</p>
<p>ENGLISH 2 <i>Course #1210</i> Full year Credit: 1.0</p>	<p>English 2 offers a balanced focus on composition and literature. Students learn about the alternate aims and audiences of written compositions by writing persuasive, critical, and creative multi-paragraph essays and compositions. Through the study of various genres of literature, students can improve their comprehension and develop the skills to determine the author's intent and theme and to recognize the techniques used by the author to deliver his or her message. NCAA approved course.</p> <p>This course satisfies the ISBE graduation requirement for “intensive writing.” Prerequisite: English 1. Open to grade 10.</p>
<p>ENGLISH 2 HONORS <i>Course #1220</i> Full year Credit: 1.0</p>	<p>This course, for the superior academic sophomore student, is a general survey approach to English literature in which major English authors and their representative works are studied. Authors' themes as well as specific literary types are studied: poetry, drama, short story, and novel. Composition skill development is divided between exposition (critical analysis and personal essays) and creative writing. A research paper is also required, a unit taught in conjunction with certified library media specialists. Vocabulary will be studied in the context of the literature. NCAA approved course.</p> <p>This course satisfies the ISBE graduation requirement for “intensive writing.” Prerequisite: English 1 or English 1 Honors and Department Chair approval. Open to grade 10.</p>
<p>ENGLISH FOUNDATIONS <i>Course #2000</i> Full year Credit: 1.0</p>	<p>This is for students who are reading and writing two or more years below grade level. The course explores fundamental elements of reading, writing, and listening and speaking that can be generalized in various facets of daily life.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>ENGLISH <i>Course #1810, 1820, 1830, and 1840</i> Full year Credit: 1.0</p>	<p>This course is for students who are reading and writing below grade level. Curriculum in this course is a modification of the grade level standards but is in alignment with the Illinois Learning Standards. This course provides a differentiated approach to teaching vocabulary development, literature, and the writing process. Assessments are completed to monitor progress in the areas of reading and writing.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>

ENGLISH

CORE WRITING COURSES	
SENIOR COMPOSITION Course #1313, 1314 1 st or 2 nd semester Credit: 0.5	This course is designed for students who wish to improve writing skills for the demands of college coursework. This course includes a review of the multi-paragraph essay and instruction in developing and elaborating on ideas in writing. Students will learn to build arguments in response to texts they read in class. Students will also review punctuation, sentence structure, mechanics, and other grammar topics. NCAA approved course. Prerequisite: U.S. Literature and Composition or Department Chair approval. Open to Grade 12.
RHETORIC Course #1351, 1352 1 st or 2 nd semester Credit: 0.5	Rhetoric focuses on students' writing skills and develops their ability to compose different types of papers for a range of purposes and audiences. This course enables students to explore and practice descriptive, narrative, persuasive, or expository styles as they write paragraphs, essays, letters, applications, formal documented papers, or technical reports. Although Rhetoric may present some opportunities for creative writing, its focus usually remains on nonfiction, scholarly, or formal writing. NCAA approved course. Prerequisite: English 3. Open to grade 12.
HONORS SEMINAR IN WRITING Course #1355 Full year Credit: 1.0	Honors Seminar in Writing is a process-oriented workshop class in which students learn to select writing topics, draft, edit, give and receive response, revise, and refine their writing with the guidance of their peers and their teacher. This year-long course is especially designed for those who enjoyed the rhetorical nature of AP Language and Composition and are interested in analyzing the choices writers make involving idea development, arrangement, syntax, and diction. Students will read a variety of memoirs, cultural criticisms, and personal essays as they explore in their own writing real-world complexities. Join this small community of students who appreciate the art of writing. NCAA approved course. Prerequisite: Department Chair approval. There is an application process involved. Open to grade 12.
CORE LITERATURE COURSES	
SENIOR LITERATURE Course #1491, 1492 1 st or 2 nd semester Credit: 0.5	Powerful stories affect us in profound ways, inspiring us, challenging us, deepening our human experience. The fundamental approach to Senior Literature is to foster a love of reading by encouraging strong emotional connections with powerful stories while emphasizing reading skills and literary analysis. This course is designed for students who wish to improve reading skills for the demands of college coursework. Students will read many types of texts, including both traditional forms of fiction and drama, as well as graphic novels, films, and nonfiction texts. Group discussion is emphasized, but students also write essays, take tests, and give oral presentations about these texts. NCAA approved course. Prerequisite: U.S Literature and Composition or Department Chair approval. Open to grade 12.
WORLD LITERATURE Course #1541, 1542 1 st or 2 nd semester Credit: 0.5	World Literature uses representative literature selections from ancient and/or modern times from countries around the world. Students improve their critical-thinking skills as they comprehend the diversity of literary traditions and the influences of those traditions. Oral discussion is an integral part of literature courses, and written compositions are often required. NCAA approved course. Prerequisite: None. Open to grade 12.
BRITISH LITERATURE 1 Course #1581, 1582 1 st or 2 nd semester Credit: 0.5	Human tragedy, genuine emotion, realistic characters, and outrageous jokes—all reasons that we still read the works of Shakespeare. British Literature 1 offers students the opportunity to discover the genius of Shakespeare's plays. This course explores the comedies and tragedies of the most famous playwright of the English language. Emphasis is placed on analyzing Shakespeare's language to find the clues he left his actors and audience to understand the true meaning of his works. Evaluation is based on discussion, quizzes, essays, performance, and tests. NCAA approved course. Prerequisite: None. Open to grade 12.

ENGLISH

<p>BRITISH LITERATURE 2 <i>Course #1591, 1592</i> 1st or 2nd semester Credit: 0.5</p>	<p>This college preparatory course focuses on the role of literature in Ireland’s rich, violent, and tumultuous past. Students will read and discuss contemporary and historical issues in Ireland through books, plays, short stories, newspaper articles, and films. The issues of oppression, resistance, and Irish identity will be at the heart of this course. Evaluation is based on discussions of the readings, written activities, presentations, and tests/quizzes. Students will be asked to write creatively in the style of many of the major texts. NCAA approved course.</p> <p>Prerequisite: None. Open to grade 12.</p>
<p>SELECTED THEMES IN LITERATURE: African American Literature <i>Course #1523, 1524</i> 1st or 2nd Semester Credit: 0.5</p>	<p>This course explores the African-American experience as reflected in the literature and oral tradition of the community, from the earliest days of our nation to current writers and thinkers. The course will explore not only traditional literary genres such as fiction, poetry, drama, and essays, but also consider areas of film, music, and art as well. Students will study the wide span of the African-American experience from slave narratives to current rap music. Students will also have an opportunity to explore the history and experience of Chicago’s African-American experience and literature as a specific focus as well as pursue a major research project on some area of the African-American experience such as a specific author, prominent figure, or essential artistic/cultural movement. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>CORE LITERATURE/WRITING COURSES</p>	
<p>ENGLISH 3 <i>Course #1320</i> Full year Credit: 1.0</p>	<p>English 3 continues to develop students’ writing skills, emphasizing clear, logical writing patterns, word choice, and usage, as students write essays and begin to learn the techniques of writing research papers. Students continue to read works of literature, which often form the backbone of the writing assignments. Literary conventions and stylistic devices may receive greater emphasis than in previous courses. NCAA approved course.</p> <p>Prerequisite: English 2. Open to grade 11.</p>
<p>U.S. LITERATURE AND COMPOSITION <i>Course #1300</i> Full year Credit: 1.0</p>	<p>This course is designed for the student who may need more support in writing and reading. This college-prep course focuses on developing reading skills for understanding fiction, nonfiction, and poetry. Students are required to be productive and engaged participants in daily class activities, such as the practice of specific reading strategies, discussion, and written responses. For writing instruction, emphasis is placed on core writing topics such as thesis statements, organizational patterns, paragraph development, and sentence correctness. Homework reading and writing are required. Students must write a research paper in order to earn credit for the course. NCAA approved course.</p> <p>Prerequisite: English 2. Open to grade 11.</p>
<p>ADVANCED PLACEMENT LANGUAGE AND COMPOSITION <i>Course #1730</i> Full year Credit: 1.0</p>	<p>Following the College Board’s suggested curriculum designed to parallel college-level English courses, AP English Language and Composition courses expose students to prose written in a variety of periods, disciplines, and rhetorical contexts. These courses emphasize the interaction of authorial purpose, intended audience, and the subject at hand, and through them, students learn to develop stylistic flexibility as they write compositions covering a variety of subjects that are intended for various purposes. NCAA approved course.</p> <p>Prerequisite: English 2 Honors or Department Chair approval. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The 2019-2020 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p>

ENGLISH

<p>ADVANCED PLACEMENT LITERATURE AND COMPOSITION <i>Course #1731</i> Full year Credit: 1.0</p>	<p>Following the College Board’s suggested curriculum designed to parallel college-level English courses, AP English Literature and Composition courses enable students to develop critical standards for evaluating literature. Students study the language, character, action, and theme in works of recognized literary merit; enrich their understanding of connotation, metaphor, irony, syntax, and tone; and write compositions of their own (including literary analysis, exposition, argument, narrative, and creative writing). NCAA approved course.</p> <p>Prerequisite: AP Language and Composition or Department Chair approval. Open to grade 12. Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The <u>2019-2020 AP exam fee is \$94 per exam.</u></p>
<p>CORE COMMUNICATION COURSES</p>	
<p>SPEECH / COMMUNICATION <i>Course #1411, 1412</i> 1st or 2nd semester Credit: 0.5</p>	<p>Thoughtful, eloquent, and effective communication is key to success. This course helps students become more confident and organized speakers, writers, and presenters. The course teaches listening skills, the ability to give and receive tactful and constructive feedback, and includes instruction in research and presentation. Students speak and write daily. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>DEBATE AND WRITING <i>Course #1441, 1442</i> 1st or 2nd semester Credit: 0.5</p>	<p>Analysis, argument, questioning, and cooperation—these are the lifelong skills fostered in Debate and Writing. Focusing especially on current events related to timeless issues, students will speak, read, and write daily, and participate in both formal and informal debates, learning how to present perspectives other than their own. Students leave this course with the confidence and resourcefulness needed to enter those conversations especially encountered in college and the professional workplace that require a sense of perspective in sorting out complex issues. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>SOCIAL COMMUNICATION <i>Course #2005</i> Full year Credit: 1.0</p>	<p>This class is for students who struggle with social pragmatic language. Topics covered in the class include thinking in a group, thinking about others, thinking about others thinking about me, and thinking to create relationships. The goal is for students to increase their ability to take another’s perspective, increase problem solving capabilities, and develop and understand how our body is connected to communication and personal relationships with others. This course is a pass/fail course.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>ENRICHMENT COURSES</p>	
<p>ACADEMIC READING 1 <i>Course #1100</i> Full year Credit: 1.0</p>	<p>Academic Reading 1 is designed for ninth-grade students whose test scores and past classroom performance demonstrate that they would benefit from direct instruction in reading, writing and vocabulary. Students will complete diagnostic tests in several skill areas at both the beginning and end of the school year to track their growth. The curriculum is comprised of units that address skills of expert readers, including determining main and supporting ideas, developing a variety of vocabulary strategies, and building fluency. Academic Reading students are simultaneously enrolled in this course and English 1. Students who demonstrate adequate growth can exit the course at the semester with Department Chair approval.</p> <p>Prerequisite: Department Chair approval. Open to grade 9.</p>
<p>ACADEMIC READING 2 <i>Course #1102</i> Full year Credit: 1.0</p>	<p>Academic Reading 2 is designed for tenth-grade students who were identified during their freshman year as likely to benefit from direct reading and writing instruction and supplemental in-school language arts instruction and support. Guided by multiple diagnostic assessments and a review of student data, teachers target specific student needs while utilizing engaging, purposeful, research-based practices. Student progress is monitored regularly to ensure that students are receiving the best instruction for their specific needs. Academic Reading 2 students are simultaneously enrolled in this course and English 2.</p> <p>Prerequisite: Department Chair approval. Open to grade 10.</p>

ENGLISH

<p>READING Course #1890 Full year Credit: 1.0 Course fee: \$20</p>	<p>Reading is a course designed for students in 9th through 12th grade who demonstrate a need for direct instruction in reading strategies because they are reading two or more years below grade level. Students will complete diagnostic tests at the start of the year, in the middle of the year, and at the end of the year. These tests will be used to track growth and also to provide necessary information so that instruction can be individualized to a student’s needs. Instruction in oral fluency, silent reading comprehension, oral reading comprehension, listening comprehension, vocabulary, grammar, and phonics will be provided individually and in a whole class setting. The curriculum is comprised of lessons from the Jamestown Timed Reading series, current events articles, Six Minute Solution passages, the Language! Reading series, Aimsweb fluency and comprehension passages, and Averil Coxhead’s High-Incidence Academic Word List.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>SELECTED THEMES IN LITERATURE: Dystopian Literature: Stories Of “What If?” Course #1521, 1522 1st or 2nd semester Credit: 0.5</p>	<p>Were you psyched to discover District 13 survived? Have you ever wondered what it would be like to take Soma? Would you be willing to set yourself on fire to save books? If you’ve loved books about the not-so-bright future, this is the class for you. This course will cover dystopian literature and film, emphasizing themes dealing with the imagination of better worlds and worse worlds. Because utopian/dystopian literature expresses what an author sees as possible, hopes is possible, and fears is possible, readers must engage in social and political critiques. We will explore four central dystopian types as presented in literature and film: the political, the philosophical/religious, the environmental, and the corporate. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>FILM STUDIES Course #1641, 1642 1st or 2nd semester Credit: 0.5</p>	<p>Film Studies presents an opportunity for students to discover, critique, and appreciate movies. This is an exciting course where students learn to see movies like a film critic, create highly interactive, media/technology based projects to express their ideas about cinema, and even try their hand at becoming a movie mogul, investing millions into blockbusters and independent films. Students are encouraged to pursue their own movie interests as they are exposed to significant cultural and ideological movements in film history. Significant emphasis will be placed on learning the technical components of movies (editing, shot types, angles, etc.) as understanding this film grammar is the foundation of film analysis. Students will not only be asked to think about <i>how</i> a movie was made, but also <i>why</i> a movie was made. Written expression and graded discussion are the primary ways students will demonstrate their understanding of the technical, aesthetic, and rhetorical components that make movies effective. Some outside of class viewing is required.</p> <p>Although not all movies are shown in their entirety, written permission must be obtained by a parent at the beginning of this course to allow for students to view the R-rated movies associated with this class. At the time of registration, if R-rated movies are to be utilized in whole or in part, a list of these movies will be available through the English Department and online.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>JOURNALISM 1 Course #1651, 1652 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces students to the fundamentals of journalism. Emphasis is placed on interviewing, writing, editing, assessing the audience, and meeting deadlines. Units of study include responsibilities and ethics, Associated Press style, interviewing, news writing, feature writing, and page design. The culminating activity is a magazine prospectus, which will include a feature story spread. This course is intended as a practical application of newspaper/newsmagazine news gathering and writing techniques, not as an analysis of the media. While this course is open to all interested students, those students interested in becoming editors of <i>Devils’ Advocate</i> or <i>El Diablo</i> are strongly encouraged to take Journalism 1 sophomore year. NCAA approved course.</p> <p>Prerequisite: No course prerequisite required. Open to grades 10 and 11.</p>

ENGLISH

<p>JOURNALISM 2: NEWSMAGAZINE HONORS <i>Course #1660</i> Full year Credit: 1.0</p>	<p>This course introduces students to the fundamentals of journalism. Emphasis is placed on interviewing, writing, editing, assessing the audience, and meeting deadlines. Units of study include responsibilities and ethics, Associated Press style, interviewing, news writing, feature writing, and page design. All final story assignments must be typed, and the culminating activity is a feature story spread. This course is intended as a practical application of newspaper/newsmagazine news gathering and writing techniques, not as an analysis of the media.</p> <p>Prerequisite: No course prerequisite required. However, there is an application and interview process required. Open to grades 11 and 12.</p>
<p>JOURNALISM 2: ONLINE NEWSMAGAZINE HONORS <i>Course #1665</i> Full year Credit: 1.0</p>	<p>Students in this class are online content contributors and editors and will be responsible for all content on www.hcdevilsadvocate.com, the <i>Devils' Advocate</i> online newsmagazine. Students will assume editorial leadership and participate as a member of the staff in all activities required to create a quality online site using a WordPress template. Students will be expected to develop story ideas, research stories, write and copy-edit. The grade is determined by job performance. Students should be prepared to spend out-of-class time working on the site as interviews, writing, photography and videography often take place outside the class period. Journalism 2 may be repeated for credit with the consent of the instructor and Department Chair.</p> <p>Prerequisite: No course prerequisite required. However, there is an application and interview process required. Open to grades 11 and 12.</p>
<p>JOURNALISM 2: YEARBOOK HONORS <i>Course #1670</i> Full year Credit: 1.0</p>	<p>Journalism 2: Yearbook Honors is a writing and production course for students interested in designing a yearbook. The classroom portion of the course emphasizes the mechanics of strong, journalistic writing, strategies for effective communication, digital photography, and graphic design. Researching and interviewing are also covered as students prepare to write stories for the school yearbook. The student should have above average writing skills. Additional work outside of class is required; the outside assignments may focus on writing, photography, page-layout skills, and the business aspect of the yearbook. Students will also be part of the extra-curricular yearbook activity and must take the course to be eligible for an editor position. Journalism may be repeated for credit with consent of the instructor and department chairperson.</p> <p>Prerequisite: No course prerequisite required. However, there is an application and interview process required. Open to grades 11 and 12.</p>
<p>CREATIVE WRITING <i>Course #1341, 1342</i> 1st or 2nd semester Credit: 0.5</p>	<p>Creative Writing courses offer students the opportunity to develop and improve their technique and individual style in poetry, short story, drama, essays, and other forms of prose. The emphasis of the courses is on writing; however, students may study exemplary representations and authors to obtain a fuller appreciation of the form and craft. Although most creative writing classes cover several expressive forms, others concentrate exclusively on one particular form (such as poetry or playwriting). NCAA approved course.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>ACTING 1 <i>Course #1681, 1682</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces students to basic acting techniques of the theatre. Activities include improvisation, concentration exercises, ensemble-building, character analysis and development, play-reading, monologue preparation, and scene preparation.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>

ENGLISH

<p>ACTING 2 Course #1683, 1684 1st or 2nd semester Credit: 0.5</p>	<p>This course allows students to expand on their acting skills and expertise while focusing mainly on the <i>physical</i> aspects of performance. Activities include monologues, scene work, improvisation, impersonation, and the creation of original characters. Students should be prepared to explore the many ways in which action, movement, or specific physical choices influence character development.</p> <p>Prerequisite: Acting 1. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED ACTING Course #1685, 1686 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Acting is a performance-oriented course that gives the advanced acting student concentrated training in various acting styles and performance techniques. Students will tackle complex scene study, improvisation, college audition monologue preparation, physical training for the actor and the examination of various theatrical career options. This course will culminate in a workshop production. This course may be repeated for credit with consent of the instructor and department chair.</p> <p>Prerequisite: Acting 2 or Department Chair approval. Open to grades 10, 11, and 12.</p>

ENGLISH LANGUAGE LEARNERS

E. L. L.

ENGLISH LANGUAGE LEARNER PROGRAM

Lee-Cheng Wang, Design

MISSION STATEMENT

The mission of the English Language Learner Program (ELL) is to assist international students who are learning English as a Second Language. The ELL program provides academic and social support to help students adjust to the American culture and, in particular, to Hinsdale Central High School. The ELL program will assist them in making a successful transition into the mainstream school community.

In order to fulfill the mission, the ELL program offers *academic* classes in English as a Second Language (ESL 1, 2 and 3) for credit and ELL resource classes that may receive credit. ELL also addresses individual student needs, including language issues, academic programs, and cultural, social adjustments. English as-a-Second Language classes are taught in conjunction with the English Department in order to transition students into the mainstream English classes. As students adjust academically and socially, they *transition with support* into the full general education curriculum and the school community.

ENGLISH LANGUAGE LEARNERS

<p>ESL 1 Course # 1050 Full year Credit: 2.0 (1 English credit + 1 general graduation credit)</p>	<p>This course is designed for the English Language Learner who is new to the United States and whose English proficiency is emerging and developing. The course focuses on teaching basic communication and study skills in order for the ELL student to be successful at Hinsdale Central High School. Listening, speaking, reading and writing skills will be taught in order to help the ELL student in mainstream classes succeed academically and complement the ESL 2 curriculum. In addition, the course will provide activities to include students in the American culture.</p> <p>Prerequisite: ELL Coordinator approval. Open to grades 9, 10, 11, and 12.</p>
<p>ESL 2 Course # 1030 Full year Credit: 1.0</p>	<p>This course continues the work started in ESL 1 by developing emerging and beginner listening, speaking, reading and writing skills in standard American English. This course will parallel the goals and skills of English 1. In addition, the course will continue to build student communication skills and self-advocacy skills in standard American English to aid in mainstream academic success.</p> <p>Prerequisite: ELL Coordinator approval. Open to grades 9, 10, 11, and 12.</p>
<p>ESL 3 Course # 1040 Full year Credit: 1.0</p>	<p>The goal of ESL 3 is to prepare the intermediate level English Language Learner to transition successfully into the mainstream English class. The course will continue to develop skills and strategies in listening, speaking, reading and writing of standard American English while focusing on how the strategies can be used in mainstream academic success. Course materials will parallel the goals and skills of the English Program. Lastly, this course reinforces self-advocacy skills to promote academic mainstream success for the transitioning English Language Learner.</p> <p>Prerequisite: ELL Coordinator approval. Open to grades 9, 10, 11, and 12.</p>
<p>ELL RESOURCE Course # 1003, 1004 1st or 2nd semester Credit: 0.5 Or non-credit</p>	<p>This tutorial resource is designed to: 1) help students maintain satisfactory achievement levels in their regular classes; 2) encourage conversational English; 3) accelerate the development of vocabulary understanding, reading comprehension and writing skills in the English language; and 4) facilitate cultural adjustment.</p> <p>Prerequisite: ELL Coordinator approval. Open to grades 9, 10, 11 & 12 international students who have limited English language proficiency. This program may be scheduled in place of a regularly scheduled study hall. This course must be taken for credit if the student is enrolled in ESL 1 or ESL 2. It may be taken for credit or non-credit with ELL Coordinator recommendation.</p>
<p>ELL TUTOR Course # 1013, 1014 1st or 2nd semester Credit: 0.5</p>	<p>ELL tutors assist other individual ELL students with academic and English language needs.</p> <p>Prerequisite: Recommendation of ELL Coordinator. Open to grades 11 and 12.</p>

FAMILY & CONSUMER SCIENCES DEPARTMENT

FAMILY & CONSUMER SCIENCES DEPARTMENT

The Family and Consumer Sciences Department strives to improve the lives of families, individuals and communities through advanced level learning opportunities for all students while fostering academic achievement, career exploration, creativity, and problem-solving skills.

FAMILY & CONSUMER SCIENCES DEPARTMENT

<p>INTRODUCTION TO FAMILY & CONSUMER SCIENCES Course #6400 Full year Credit: 1.0 <i>(0.5 Consumer Education, 0.5 Elective Arts)</i></p> <p>Supply fee \$25.00</p>	<p>This course introduces the student to the following areas of Family & Consumer Science: consumer education, child care, interior design, culinary and sewing. The consumer education unit focuses on basic economic concepts such as career opportunities, budgeting, banking, credit, transportation, insurance, and housing. Additional class activities include a computer-aided design, interior design project, nutritious meal planning, basic food preparation, sewing projects and exposure to child development. This course will prepare students for future semester courses in Family & Consumer Sciences including Interior Design & Housing, Child Care & Development, Creative Cooking 1, Creative Sewing and Nutrition Wellness & Cooking.</p> <p>Successful completion of this course fulfills the ISBE's Consumer Education requirement for graduation. Must complete the entire year to receive consumer education credit. Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
CULINARY	
<p>FOUNDATIONS OF COOKING Course #1976A, 1976B 1st or 2nd semester Credit: 0.5</p>	<p>This course explores foundational cooking skills and concepts that can be applied in daily life. An emphasis will be placed on safety, sanitation, reading a recipe, proper selection and use of culinary equipment, independent meal preparation and nutritionally sound food choices. Foundations of Cooking is designed to meet the needs of students with a variety of physical, cognitive, or social needs. Lab work will focus on organization and teamwork. In addition, the course offers a smaller class size to make appropriate individualized instruction.</p> <p>This course may be repeated as necessary. Prerequisite: Departmental Approval. Suggested follow-up courses when skills deemed appropriate: Introduction to Family and Consumer Sciences and Creative Cooking 1. Open to grades 9, 10, 11, and 12.</p>
<p>CREATIVE COOKING 1 Course #6411, 6413 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$25.00</p>	<p>Creative Cooking 1 is designed to teach basic food preparation skills utilizing various types of culinary equipment and a range of preparation and cooking techniques. The following areas of study are covered in this course: measuring, knife skills, cooking methods, nutrition, fruits, food presentations, vegetables, breads, pastas, vegetarian dishes, desserts, and microwave cooking. The course culminates in a student driven practical 4 course meal applying the knowledge they have learned over the semester. While this course provides personal enrichment, it may also serve as a foundation for further training in culinary arts.</p> <p>Prerequisite: None. Suggested follow-up courses: Creative Cooking 2, Nutrition, Wellness & Cooking, and/or Chef & Restaurant. Open to grades 9, 10, 11, and 12.</p>
<p>CREATIVE COOKING 2 Course #6412, 6414 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$25.00</p>	<p>This course, a continuation of Creative Cooking 1, provides training in the following advanced techniques of food preparation: choux pastry (cream puffs & eclairs), international foods, cakes and cake decorating, homemade pasta, sweet and savory yeast breads, pies, meats, meringues, mother sauces and garnishing. Students prepare a variety of recipes, while enriching their personal culinary skills. This course also serves as a foundation for further training in the culinary arts.</p> <p>Prerequisite: Creative Cooking 1. Suggested follow-up: Chef & Restaurant, Nutrition, Wellness & Cooking and/or Baking & Pastry Arts. Open to grades 9, 10, 11, and 12.</p>
<p>BAKING & PASTRY ARTS Course #6415, 6417 1st or 2nd Semester Credit: 0.5</p> <p>Supply Fee \$25.00</p>	<p>This course provides focused training in the culinary field of European baking techniques. Focus will be on ingredients, preparation methods and finishing techniques. Units will include sanitation, metric measuring, breads, pastries (including cakes) cookies and display techniques. This course is designed for personal skill development as well as a base for further culinary training.</p> <p>Prerequisite: Grade of C or better in Creative Cooking 2. Suggested follow-up courses: Nutrition, Wellness, & Cooking; Chef & Restaurant. Open to grades 10, 11, and 12.</p>

FAMILY & CONSUMER SCIENCES DEPARTMENT

<p>NUTRITION, WELLNESS & COOKING Course #6431, 6432 1st or 2nd semester Credit: 0.5 <i>(Anticipated offering in 2021-22)</i></p> <p>Supply fee \$25.00</p>	<p>This course is designed to teach students how to build a lifetime of good nutrition and wellness practices while utilizing the food preparation and cooking skills from prerequisite courses. Students are given the essential tools to understand why and how people need to make more practical and healthy choices in their diet and daily routines. They will work cooperatively in lab groups applying what they have learned in each focused topic. While this course provides personal enrichment, it may also serve as a foundation for further training in health and culinary related fields. Suggested follow-up courses include Baking & Pastry Arts, Chef & Restaurant, Creative Cooking 1 and Creative Cooking 2.</p> <p>Prerequisite: Grade of C or better in Introduction to Family & Consumer Sciences or Creative Cooking 1. Suggested follow-up courses include Baking & Pastry Arts, Chef & Restaurant, Creative Cooking 1 and Creative Cooking 2. Open to grades 10, 11, and 12.</p>
<p>CHEF & RESTAURANT Course #6421, 6422 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$25.00</p>	<p>This course is designed for students curious about hospitality related careers (event planning, hotel and restaurant management, etc.) or careers in the culinary industry. Students will operate mini-restaurants and catering jobs rotating through various aspects of food service including front of the house and back of the house job tasks. They will apply culinary knowledge such as knife skills, cooking methods, and baking and pastry skills as they prepare, plate and serve gourmet meals in this fast paced, real world work environment. Activities include menu selection, recipe testing, cost analysis, table settings, meal preparation, meal service and commercial safety and sanitation techniques.</p> <p>Due to classroom space limitations, students who have previously completed Creative Cooking 1 or IFACS will be given preference. Suggested Follow-up: Baking and Pastry, Nutrition, Wellness & Cooking. Open to grades 11 and 12.</p>
FAMILY LIVING	
<p>SINGLE SURVIVAL Course #6441, 6442 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$5.00</p>	<p>Will you need to know how to find an apartment, evaluate job offers, balance a budget, and provide for your own needs to be successful after you graduate? Whether you are heading away to college or into the workforce today's young adults need these skills more than ever! Brush up on your career development, money management, personal safety and security, nutrition, home improvement skills and more! Each unit covered addresses the needs of young adults to research and evaluate the choices they will be making beginning in the next year as they leave high school.</p> <p>Prerequisite: None. Open to grades 11 and 12. Suggested follow-up course: Personal Perspectives.</p>
<p>PERSONAL PERSPECTIVES Course #6591, 6592 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed to help the student understand the challenges of our society, develops the student's ability to cope with problems and make mature decisions. The course focuses on the application of sociology and psychology concepts to the students' personal life. Areas of study include: theories of personality development, family relationships, crisis in the family (substance abuse, child abuse, divorce, and death) communication skills, dating, marriage and parenting.</p> <p>Prerequisite: None. Open to grades 11 and 12. Suggested follow-up course: Single Survival.</p>
FASHION	
<p>CREATIVE SEWING Course #6551, 6552 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$10.00</p>	<p>This course is for students interested in sewing for practical purposes, personal enjoyment and/or to develop skills to be used in careers related to clothing construction, fashion merchandising, design and retail. Students will complete three or more individual projects in Creative Sewing. Garment construction projects will increase in difficulty as students attain skills. Technical abilities will be enhanced through the use of sewing and embroidery machines, sergers and other technologies. Sequencing of the course includes basic sewing machine techniques, fabric and pattern selection, interpreting pattern instructions, construction techniques (darts, zippers, hems, buttons, applying interfacing, etc.) and embroidery.</p> <p>Prerequisite: None. Suggested follow-up courses: Advanced Sewing or Fashion Merchandising & Design. Open to grades 9, 10, 11, and 12</p>

FAMILY & CONSUMER SCIENCES DEPARTMENT

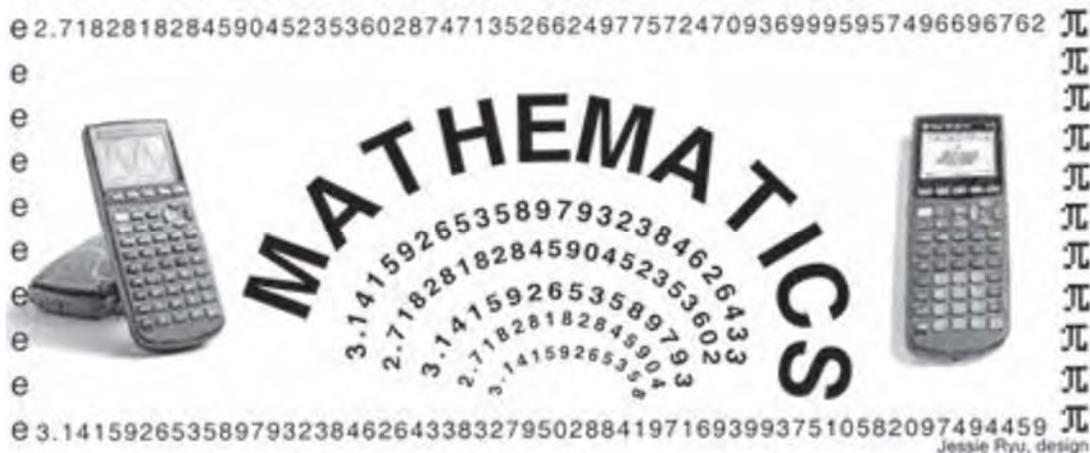

<p>ADVANCED SEWING <i>Course #6561, 6562</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$10.00</p>	<p>Students in this course will learn quilting and applique through designing and sewing a tote bag or backpack (student’s choice) including a personalized embroidered logo. Three additional projects will be selected on an individual basis and approved by the instructor. Projects will focus on advance construction techniques including garment fitting, pattern design and researching, and sewing with a challenging fabric.</p> <p>Prerequisite: Creative Sewing. Suggested follow-up courses: Fashion Merchandising & Design or Advanced Sewing Independent Study. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED SEWING INDEPENDENT STUDY <i>Course #6410A, 6410B</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$10.00</p>	<p>This course is a continuation of Advanced Sewing and focuses on advanced construction techniques through individually selected projects approved by the instructor. Students will be guided through various areas of study that may include repurposing a ready-to-wear garment, formal wear, original embroidery design, fully lined jacket or coat, and fashion design through draping on a dress form. Seniors who enroll in this course may choose to create a senior quilt for one of their projects. While this course provides personal enrichment, it may also serve as a foundation for further training in a fashion related field.</p> <p>This course may be repeated with subsequent projects that continually incorporate new design techniques and sewing construction skills.</p> <p>Course may be repeated up to three times. Prerequisite: Advanced Sewing. Suggested follow-up courses: Fashion Merchandising & Design or second enrollment in Advanced Sewing Independent Study. Open to grades 10, 11, and 12.</p>
<p>FASHION MERCHANDISING & DESIGN <i>Course #6571, 6572</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$25.00</p>	<p>This course is designed to allow students to explore and understand the various aspects of the fashion industry. Areas of study include the evolution of fashion, fashion trends and design, advertising, merchandising, and retail functions. Creative projects include logo and fashion line illustrations, visual window displays, fashion show planning, and in-depth looks at designers and retailers. This course serves as a foundation for further training in fashion related occupations, as well as provides opportunities for personal enrichment.</p> <p>Prerequisite: None. Suggested follow-up course: Creative Sewing. Open to grades 10, 11, and 12.</p>
INTERIOR DESIGN	
<p>INTERIOR DESIGN & HOUSING <i>Course #6451, 6452</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$25.00</p>	<p>This course is meant to introduce students to the area of residential designs, space planning and home decor. Students will learn how to identify housing styles and their details throughout American history, including the local influence of Frank Lloyd Wright and his Home and Studio in Oak Park. A hands on creative approach will take place when the course content focuses on the elements and principles of design, allowing students to showcase their artistic and original decorative ideas on visual design boards. Students will spend a large portion of the class utilizing technology in the interior design fields by using computer aided drafting for projects and a cumulative student designed and decorated home. It is recommended that students have strong computer technology skills when enrolling in this course.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>INTERIOR DESIGN & HOUSING HONORS <i>Course #6453, 6454</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee \$25.00</p>	<p>The core material for this course is similar to Interior Design and Housing #6451/#6452; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are college level and will require additional reading and research outside of class. This course is recommended for highly motivated students interested in interior design or related fields.</p> <p>Prerequisite: Department Approval. Open to grades 10, 11, and 12.</p>

FAMILY & CONSUMER SCIENCES DEPARTMENT

TEACHING	
<p>CHILD CARE & DEVELOPMENT <i>Course #6582</i> 2nd semester only Credit: 0.5</p>	<p>This course is designed for students who enjoy working with, or plan to work with, children. Areas of study include family planning, pregnancy and childbirth, child development from newborn through school-age, and preparing learning activities for our preschool practicum. Students will teach and observe children in our Discovery Corner Preschool as an integral part of the program. This course helps prepare students for careers in child-related fields, including teaching.</p> <p>Prerequisite: None. Suggested follow-up: Invitation to Teaching. Suggested first part of teaching sequence to be taken Sophomore or Junior year. Open to grades 10, 11, and 12.</p>
<p>INVITATION TO TEACHING <i>Course #6481, 6482</i> 1st or 2nd semester Credit 1.0 (one semester -two class periods)</p> <p>Supply fee \$10.00</p>	<p>This course offers a teaching internship, enabling students to work under the supervision of certified preschool, elementary and middle school staff. Once placed, the students will spend four days each week at their assigned schools to assist, observe and teach young children. Teaching responsibilities include journaling, observing, creating a visual display, facilitating a guest speaker, creating and teaching lessons, and shadowing a teacher for a day. Classroom study is focused on related issues in education including meeting the needs of a diverse student population and classroom management technology within the classroom and current topics in education. Highly recommended for anyone pursuing a career working with children in any capacity.</p> <p>Acceptance into the program is based on application, staff feedback, academic standing, attendance and demonstration of character. Students who have previously completed Child Care & Development will be given preference. Application may be picked up in the Counseling Office in January. Course may be repeated both semesters.</p> <p>Suggested Prerequisite: Child Care & Development. Open to grade 12 only.</p>
<p>INVITATION TO TEACHING HONORS <i>Course #6483, 6484</i> 1st or 2nd semester Credit 1.0 (one semester- two class periods)</p> <p>Supply fee \$10.00</p>	<p>The core curriculum for this course are similar to Invitation to Teach Course 6481/6482; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are college level and will require additional time outside of class. This course is recommended for highly motivated students interested in education or related fields.</p> <p>Students who have previously completed Child Care & Development will be given preference. Course may be repeated both semesters. Application may be picked up in the Counseling Office in January. Acceptance into the program is based on application, staff feedback, academic standing, attendance and demonstration of character.</p> <p>Suggested Prerequisite: Child Care & Development. Open to grade 12 only.</p>
<p>FOUNDATIONS OF COOKING AIDE <i>Course #2002A/2002B</i> 1st or 2nd Semester Credit 0.5</p>	<p>The Foundations of Cooking Aide position is offered to sophomores, juniors, and seniors who are interested in working with students with a variety of physical, cognitive, and social needs. As an aide the students serve as role models in social norms and appropriate lab behavior.</p> <p>Acceptance into the program is based on application, academic standing, attendance and demonstration of character. Application may be picked up in the Family and Consumer Sciences Office in January. Prerequisite: Introduction to Family & Consumer Sciences or Creative Cooking 1, application, and department chair approval. Priority will be given to those students interested in a career in education.</p>

MATHEMATICS DEPARTMENT

MATHEMATICS DEPARTMENT

Mission Statement

The mission of the Mathematics Department is to develop in our students the mathematical skills and habits of mind they will need to be prepared for college, to become productive citizens, and to pursue their career interests. We are committed to meeting each student's social, emotional, and learning needs by providing a rigorous curriculum and quality instruction that will actively engage students in constructing and applying mathematical concepts to solve problems. We will employ current technology to enhance students' mathematical knowledge and number sense. We strive to develop students who can express the mathematical connections in the world around them with algebraic, geometric, or numeric representations.

Three credits in Mathematics are required for graduation. Credit must be earned in both semesters of a full year course before advancing to the next course in the sequence. Any student who earns a D in a mathematics course is strongly recommended to retake one or both semesters in summer school before attempting the next course in the sequence. The deficiencies indicated by the D grade will make success in the next course in the sequence very difficult. Successful completion of Algebra and Geometry in any sequence and enrollment in Algebra 2 Trigonometry (3300G, 3310, or 3320) during or before junior year is ideal preparation for college standardized testing.

Typical Sequences (shown below)

Freshman	Sophomore	Junior	Senior
Algebra 2/Trig Honors	Pre-Calculus Honors <i>and/or</i> AP Statistics	AP Calculus BC <i>and/or</i> AP Statistics	Multivariable Calculus <i>and/or</i> AP Statistics
Integrated Algebra and Geo. Honors	Algebra 2/Trig Honors	Pre-Calculus Honors <i>and/or</i> AP Statistics	AP Calculus BC <i>and/or</i> AP Statistics
Geometry Honors	Algebra 2/Trig Honors	Pre-Calculus Honors <i>and/or</i> AP Statistics	AP Calculus BC <i>and/or</i> AP Statistics
Geometry	Algebra 2 Trig	Pre-Calculus <i>and/or</i> AP Statistics	AP Calculus AB <i>or</i> Intro to Calculus <i>and/or</i> Intro to Statistics <i>and/or</i> College Prep Math <i>and/or</i> AP Statistics
Algebra 1	Geometry (3261) <i>and</i> Algebra 2 Trig (3362)	Pre-Calculus	AP Calculus AB <i>or</i> Intro to Calculus <i>and/or</i> Intro to Statistics <i>and/or</i> College Prep Math <i>and/or</i> AP Statistics
Algebra 1	Geometry	Algebra 2 Trig	Pre-Calculus <i>or</i> Intro to Statistics <i>and/or</i> College Preparatory Mathematics
Algebra 1 Part 1	Algebra 1 (3141G) <i>and</i> Geometry (3232G)	Algebra 2 Trig (3300G)	Intro to Statistics I <i>and</i> College Preparatory Mathematics
Algebra 1 Part 1	Algebra 1 Part 2 (3100G)	Geometry (3200G)	Algebra 2 Trigonometry (3300G)

*AP Computer Science Principles is available for students who have completed Algebra 1 and AP Computer Science A is available for students having completed Algebra 2

*It is not typically recommended that students complete summer coursework for the purpose of advancing in their math sequence, due to the abbreviated nature of summer curricula. Any student wishing to do so must receive a recommendation and/or approval from the Math Department prior to enrolling in a summer course.

MATHEMATICS DEPARTMENT

<p>MATH FOUNDATIONS <i>Course#2030</i> Full year Credit: 1.0</p>	<p>This course explores fundamental math concepts that can be generalized in various facets of daily life. Curriculum includes problem solving and computation, money and number sense, and basic estimation and measurement. Basic analytical methods, geometry, and data analysis are also emphasized. This course is designed for students who are performing significantly below grade level in math.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>MATHEMATICAL CONCEPTS OF ALGEBRA & GEOMETRY <i>Course#1871</i> Full year Credit: 1.0</p>	<p>This course is designed for students who are performing below grade level in math. Curriculum in this course is a modification of the grade level standards but is in alignment with the New Illinois Learning Standards. This course provides a foundational approach of introducing important topics in Algebra and Geometry. Algebra topics include expressions, equations, and inequalities. Geometry topics include lines, segments, angles, triangles, perimeter, area, and volume. A graphing calculator is required.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>ALGEBRA 1 PART 1 <i>Course#3090</i> Full year Credit: 1.0</p>	<p>This course introduces important topics in Algebra. Algebra topics include expressions, equations, inequalities and linear functions. This course is appropriate for students with reasonable facility with arithmetic operations and average grades in mathematics. A graphing calculator is required. NCAA approved course.</p> <p>Prerequisite: Recommendation of previous teacher and departmental approval. Next course in sequence: Algebra 1 Part 2 (3100G). Open to grades 9, 10, 11, and 12.</p>
<p>MATHEMATICAL CONCEPTS OF ALGEBRA & TRIGONOMETRY <i>Course#1872</i> Full year Credit: 1.0</p>	<p>This course is designed for students who are performing below grade level in math. Curriculum in this course is a modification of the grade level standards but is in alignment with the New Illinois Learning Standards. This course expands the material studied in Mathematical Concepts of Algebra and Geometry, emphasizing real world applications and associated graphical analysis. Linear, quadratic, and polynomial functions are explored. Exponential, trigonometric, and logarithmic functions are introduced. This course is for students who desire additional college preparatory mathematics. A graphing calculator is required for this course.</p> <p>Prerequisite: Department Chair approval. Open to grades 11 and 12.</p>
<p>ALGEBRA 1 PART 2 <i>Course#3100G</i> Full year Credit: 1.0</p>	<p>This course continues the important topics in Algebra. Topics include exponents, systems of equations, inequalities, linear and quadratic functions, polynomial expressions, probability, and statistics. A graphing calculator is required. NCAA approved course.</p> <p>This course fulfills the ISBE graduation requirement for Algebra 1. Prerequisite: Algebra 1 Part 1 and department approval. Next course in sequence: Geometry (3200G). Open to grades 10, 11, and 12.</p>
<p>ALGEBRA 1 BLOCK SEMESTER 1 <i>Course#3141G</i> 1st semester Credit: 1.0</p>	<p>This course has the same core curriculum as #3100G, but is taught in a single semester, two periods daily. NCAA approved course.</p> <p>Prerequisite: Algebra 1 Part 1 and teacher recommendation. Open to grades 10 and 11.</p>

MATHEMATICS DEPARTMENT

<p>ALGEBRA 1 <i>Course #3110</i> Full year Credit: 1.0</p>	<p>This course focuses on fundamental properties of the real numbers. Equations, inequalities, linear and quadratic functions, as well as their real world applications are major themes of this course. Mastery of basic arithmetic skills is a prerequisite for this course. A graphing calculator is required for this course. NCAA approved course.</p> <p>This course fulfills the ISBE graduation requirement for Algebra 1. Prerequisite: 8th grade teacher recommendation or Departmental approval. Next course in sequence: Geometry. Open to grades 9, 10, 11, and 12.</p>
<p>GEOMETRY <i>Course #3200G</i> Full year Credit: 1.0</p>	<p>This course uses an intuitive approach to study the fundamental concepts in Geometry. Although deductive reasoning is practiced, much less emphasis is placed on writing formal proofs. Students experience geometric concepts through frequent constructions and hands on activities. Some students from #3110 Algebra 1 may be advised to take this course. A graphing calculator is required in this course. NCAA approved course.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Algebra 1 (3100G or 3110) and Departmental approval. Next course in sequence: Algebra 2 Trigonometry (3300G) based upon teacher recommendation. Open to grades 10, 11, and 12.</p>
<p>GEOMETRY BLOCK SEMESTER 2 <i>Course #3232G</i> 2nd semester Credit: 1.0</p>	<p>This course has the same core curriculum as #3200G, but is taught in a single semester, two periods daily. NCAA approved course.</p> <p>Prerequisite: Algebra 1 Part 2 (3100G or 3141G) and teacher recommendation. Open to grades 10 and 11.</p>
<p>GEOMETRY <i>Course #3210</i> Full year Credit: 1.0</p>	<p>Geometry focuses on proof and continues the use of Algebra in reinforcing of plane geometry concepts. Properties of lines, angles, triangles, quadrilaterals and circles are studied. Special attention is given to concepts of congruence, perpendicularity, parallelism, area, similarity, coordinate geometry, logic and deductive reasoning. A graphing calculator is required in this course. NCAA approved course.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Algebra 1, 8th grade teacher recommendation, and Departmental approval. Next course in sequence: Algebra 2 Trigonometry. Open to grades 9, 10, 11, and 12.</p>
<p>GEOMETRY HONORS <i>Course #3220</i> Full year Credit: 1.0</p>	<p>Geometry Honors is designed for the superior mathematics student with a strong foundation in Algebra. The course addresses the same topics included in Geometry, but with more depth. This course provides an in-depth study of Euclidean geometry. Particular attention is given to the nature of mathematical systems, logic, and deductive and inductive proofs. Students are expected to exercise their creative capacities, and apply their knowledge to different situations. A graphing calculator is required for this course. NCAA approved course.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Algebra 1, 8th grade teacher recommendation, and Departmental approval. Next course in sequence: Algebra 2 Trigonometry Honors or Algebra 2 Trigonometry, based on teacher recommendation. Open to grades 9, 10, 11, and 12.</p>
<p>GEOMETRY BLOCK SEMESTER 1 <i>Course #3261</i> 1st semester Credit: 1.0</p>	<p>This course has the same curriculum as #3210, but is taught in a single semester, two periods daily. NCAA approved course.</p> <p>Prerequisite: Algebra 1 (3110), teacher recommendation, and Departmental approval. Open to grade 10.</p>

MATHEMATICS DEPARTMENT

<p>INTEGRATED ALGEBRA & GEOMETRY HONORS <i>Course #3280</i> Full year Credit: 1.0</p>	<p>This honors course explores Algebra 1 and Geometry topics in greater depth than regular Algebra 1. Students who are successful in this course should be well prepared to continue in our honors and AP sequence. A graphing calculator is required for this course. NCAA approved course.</p> <p>Prerequisite: Algebra 1, Geometry, and 8th grade teacher recommendation. Next course in sequence: Algebra 2 Trigonometry or Algebra 2 Trigonometry Honors. Open to grade 9.</p>
<p>ALGEBRA 2 TRIGONOMETRY <i>Course #3300G</i> Full year Credit: 1.0</p>	<p>The basic material for this course described under #3310 Algebra 2 Trigonometry is recommended for students from Geometry #3200G. Some students from #3210 Geometry may be advised to take this course. A graphing calculator is required in this course. NCAA approved course.</p> <p>Prerequisite: Geometry (3200G or 3200) and Departmental approval. Open to grades 11 and 12.</p>
<p>ALGEBRA 2 TRIGONOMETRY <i>Course #3310</i> Full year Credit: 1.0</p>	<p>Algebra 2 Trigonometry continues the study of linear functions, topics explored in Algebra and Geometry. It introduces the complex number system and non-linear function families: polynomial, exponential, logarithmic, radical and rational functions. Functions are applied to Trigonometry, and a foundation in statistics is provided so students can explore these topics in future mathematics courses. A graphing calculator is required for this course. NCAA approved course.</p> <p>Prerequisite: Geometry. Next course in sequence: Pre-Calculus or College Preparatory Mathematics or Introduction to Statistics or AP Statistics, based on teacher recommendation. Open to grades 10, 11, and 12.</p>
<p>ALGEBRA 2 TRIGONOMETRY HONORS <i>Course #3320</i> Full year Credit: 1.0</p>	<p>This course deals with the topics of Algebra 2 / Trigonometry in more depth, emphasizing the function approach and applications. Particular attention will be given to the nature of a mathematical system. Students are expected to be capable of creative problem solving and individual study. A graphing calculator is required for this course. NCAA approved course.</p> <p>Prerequisite: Geometry Honors and departmental approval. Next course in sequence: Pre-Calculus Honors or Pre-Calculus or AP Statistics, based on teacher recommendation. Open to grades 9, 10, 11, and 12.</p>
<p>ALGEBRA 2 TRIGONOMETRY BLOCK SEMESTER 2 <i>Course #3362</i> 2nd semester Credit: 1.0</p>	<p>This course has the same curriculum as #3310, but is taught in a single semester, two periods daily. NCAA approved course.</p> <p>Prerequisite: Algebra 1 (3110), Geometry (3210 or 3261), teacher recommendation, and Departmental approval. Open to grade 10.</p>
<p>COLLEGE PREPARATORY MATHEMATICS <i>Course #3403</i> 1st semester Credit: 0.5</p>	<p>This course focuses on important topics in mathematical modeling and data analysis with a particular focus on applications. This course is appropriate for college-bound students and helps students prepare for college entrance math exams. A graphing calculator is required for this course. NCAA approved course.</p> <p>Prerequisite: Algebra 2 Trigonometry (3300G or 3310) and Department approval. Open to grades 11 and 12.</p>

MATHEMATICS DEPARTMENT

<p>INTRODUCTION TO STATISTICS <i>Course #3431, 3432</i> 1st semester/Full year Credit: 0.5/1.0</p>	<p>This course focuses on the major themes of introductory statistics. It will introduce students to the major concepts and tools for collecting, analyzing, and drawing conclusions from categorical and quantitative data. Additional topics of probability, sampling, and statistical inference are addressed. A graphing calculator with advanced statistics capabilities is required. NCAA approved course.</p> <p>Prerequisite for #3431: Algebra 2 Trigonometry (3300G or 3310) and department approval. Prerequisite for #3432: Successful completion of #3431. Next course in sequence: AP Statistics or College Preparatory Mathematics upon teacher recommendation. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT STATISTICS <i>Course #3500</i> Full year Credit: 1.0</p>	<p>Advanced Placement Statistics will introduce students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. It will emphasize sound statistical thinking rather than routine procedures. There are four themes in the AP Statistics course: exploring data, sampling and experimentation, anticipating patterns, and statistical inference. A graphing calculator with advanced statistics capabilities is required in this course. NCAA approved course.</p> <p>Prerequisite: Algebra 2 Trig. Honors, Algebra 2 Trig., Pre-Calculus, or Pre-Calculus Honors and Departmental approval. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The <u>2019-2020 AP exam fee</u> is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p>
<p>PRE-CALCULUS <i>Course #3410</i> Full year Credit: 1.0</p>	<p>This course is a study of functions and their applications, and expands on the material studied in Algebra 2 Trigonometry. Areas of study include: real and complex numbers and functions (polynomial, exponential, logarithmic and trigonometric), conics, parametric equations, and polar coordinates. It is recommended for students who are preparing to enter a technical or semi-technical profession, or planning to study Calculus. A graphing calculator is required in this course. NCAA approved course.</p> <p>Prerequisite: Algebra 2 Trigonometry or Algebra 2 Trigonometry Honors and Departmental approval. Next course in sequence: AP Calculus AB or Intro to Calculus or AP Statistics. Open to grades 10, 11, and 12.</p>
<p>PRE-CALCULUS HONORS <i>Course #3420</i> Full year Credit: 1.0</p>	<p>Pre-Calculus Honors treats the topics of Pre-Calculus in greater depth, emphasizing precision and the communication of ideas. Additional topics of probability, sequences, and limits are addressed. A graphing calculator is required for this course. NCAA approved course.</p> <p>Prerequisite: Algebra 2 Trigonometry Honors and Departmental approval. Next course in sequence: Upon satisfactory completion of Pre-Calculus Honors, students are prepared for AP Calculus and AP Statistics. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED PLACEMENT COMPUTER SCIENCE A <i>Course #3480</i> Full year Credit: 1.0</p>	<p>The Computer Science A AP College Board curriculum guidelines are followed in this course. The emphasis of this course is to prepare students for the AP Exam and future programming courses. Programming concepts including variables, constants, expressions, conditionals, arrays, ArrayLists, iteration, functions, and object oriented programming using classes are covered. An emphasis is placed on problem solving. Additionally, programming methodology and design, pre-defined and abstract data types, sorting, data structures, and algorithms related to data structures are discussed. Applications of computing, a working knowledge of hardware and software systems, and the ethical and social implications of computing are examined. The programming language is JAVA. NCAA approved course.</p> <p>Prerequisite: Algebra 2 Trigonometry and Departmental approval. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The <u>2019-2020 AP exam fee</u> is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p>

MATHEMATICS DEPARTMENT

<p>ADVANCED PLACEMENT COMPUTER SCIENCE PRINCIPLES <i>Course #3495</i> Full year Credit: 1.0</p>	<p>This course is an entry level AP course which presents concepts and computational thinking practices that are central to the computer science discipline. It provides an introduction to the rapidly expanding field of computer technology while focusing on using technology in creative, meaningful ways. NCAA approved course.</p> <p>Prerequisite: Algebra 1 and Departmental approval. Open to grades 9, 10, 11, and 12.</p> <p>Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The <u>2019-2020 AP exam fee is \$94 per exam.</u> There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p>
<p>INTRODUCTION TO CALCULUS <i>Course #3440/3441</i> One semester Credit: 0.5</p>	<p>The Introduction to Calculus course is designed to provide students an opportunity to extend and synthesize their previous math coursework through an introduction to the fundamental concepts of calculus. Students will build on their knowledge of functions and rates of change to develop an understanding of derivatives through the use of limits. Applications that model real-life scenarios through a data-driven approach will be used to connect to fields including business, finance, liberal arts, economics, and the social sciences. This course will also introduce students to the concepts of antiderivatives and integrals through accumulation functions and the Fundamental Theorem.</p> <p>Prerequisite: Pre-Calculus and Departmental approval. Open to grade 12.</p>
<p>ADVANCED PLACEMENT CALCULUS AB <i>Course #3510</i> Full year Credit: 1.0</p>	<p>Advanced Placement Calculus (AB) emphasizes conceptual understandings through manual and technological applications of the derivatives and integrals of algebraic, trigonometric, exponential and logarithmic functions, and relations. A graphing calculator is required for this course. NCAA approved course.</p> <p>Prerequisite: Pre-Calculus or Pre-Calculus Honors and Departmental approval. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The <u>2019-2020 AP exam fee is \$94 per exam.</u> There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p>
<p>ADVANCED PLACEMENT CALCULUS BC <i>Course #3520</i> Full year Credit: 1.0</p>	<p>Advanced Placement Calculus BC provides an in-depth study of the topics described in Calculus AB, as well as calculus of two dimensional vectors, polar functions, parametric curves, and infinite series. A graphing calculator is required for this course. NCAA approved course.</p> <p>Prerequisite: Pre-Calculus Honors and Departmental Approval. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The <u>2019-2020 AP exam fee is \$94 per exam.</u> There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p>
<p>COMPUTER SCIENCE TOPICS 1 HONORS <i>Course #3611</i> 1st semester Credit: 0.5</p>	<p>Computer Science Topics 1 reviews and builds upon the concepts taught in the AP Computer Science A course. The primary emphasis of the course is on data structures algorithms using the JAVA programming language. Stacks, queues, linked lists, trees, heaps, hash tables, sets, maps, and graphs are covered in great detail. Following the data structures unit, students learn a second programming language. GUI's, advanced sorting algorithms, and cell phone applications are explored. Students have the opportunity to complete an independent study project at the conclusion of the course.</p> <p>Prerequisite: AP Computer Science A and Department approval. Open to grades 11 and 12.</p>

MATHEMATICS DEPARTMENT

<p>COMPUTER SCIENCE TOPICS 2 HONORS <i>Course #3622</i> 2nd semester Credit: 0.5</p>	<p>This course is a continuation of the Computer Science Topics 1 course described above.</p> <p>Prerequisite: AP Computer Science A and Department approval. Open to grades 11 and 12.</p>
<p>MULTIVARIABLE CALCULUS 1 HONORS <i>Course #3641</i> 1st semester Credit: 0.5</p>	<p>Multivariable Calculus 1 provides students advanced study in mathematics. Topics include Fourier series, geometry of space, vector functions, and partial derivatives. NCAA approved course.</p> <p>Prerequisite: AP Calculus BC and Departmental Approval. Open to grades 10, 11, and 12.</p>
<p>MULTIVARIABLE CALCULUS 2 HONORS <i>Course #3652</i> 2nd semester Credit: 0.5</p>	<p>Multivariable Calculus 2 provides students with advanced study in mathematics. Topics include vector calculus and multiple integrals, including cylindrical and spherical coordinates. Line and surface integrals are covered in detail, as are the Fundamental Theorem of Calculus for line integrals, Green’s Theorem, Divergence Theorem, and Stokes’ Theorem. NCAA approved course.</p> <p>Prerequisite: AP Calculus BC and Departmental Approval. Open to grades 10, 11, and 12.</p>
<p>ENRICHMENT COURSES</p>	
<p>MATH EXCEL ALGEBRA 1 <i>Course #3030, 3035</i> 1st and 2nd semester Credit 0.5 each semester</p>	<p>Math Excel Algebra is designed to support students enrolled in Algebra 1 by providing them additional instruction, individualized practice, and support during the school day. In this small guided study hall led by an Excel teacher and a math teacher, students will have time and support to complete their mathematics homework in addition to other coursework. Math Excel Algebra is a semester course and students will earn credit towards graduation for each semester they are enrolled on a pass/fail basis. Students are encouraged to enroll in both semesters. Grading will be on a Pass or Fail basis for this course.</p> <p>Open to students in grade 9 with a recommendation from their 8th Grade Teacher.</p>

MUSIC DEPARTMENT

MUSIC

All courses in the Music Department fulfill the Elective Arts graduation requirement. Two fine arts credits fulfill the Illinois state public university entrance requirements in Art, Music or Foreign Language. Music performance courses are designed to not only improve the level of performance skill of the student, but also to develop a deeper understanding of culture and aesthetics.

All performance music ensembles include events outside the school day that are a significant part of course expectations. A calendar of rehearsals and performances is available on the music department website, www.hcmusic.org. Auditing of music courses (participation for no credit) is not permitted.

Students may earn honors credit in any performance music class by enrolling in the honors section and completing additional requirements throughout the school year. More information about the music honors program of study can be found on the honors tab of the music department website.

**Information subject to change. Please refer to the program of studies online for final honors credit options.

***Music courses without a corresponding general or honors section **Students using an early bird music course as an honors option receive no credit for the early bird course. Students enrolled in an every other day early bird music course will receive a quarter credit per semester for each course. See Honors Study in Music for more information.**

Course numbers with the "AN" or "BN" suffix are early bird music courses that meet every other day before school during period zero. These courses are extensions of the curriculum and students must also be enrolled in a class during the school day to participate, with the exception of bass, guitar, piano students. Students can register for one "AN" class, one "BN" class, or one of each. Courses with no prerequisites are the entry point for freshmen who do not audition and students new to performance music.

MUSIC DEPARTMENT

Hinsdale Township High School District 86 Music Honors

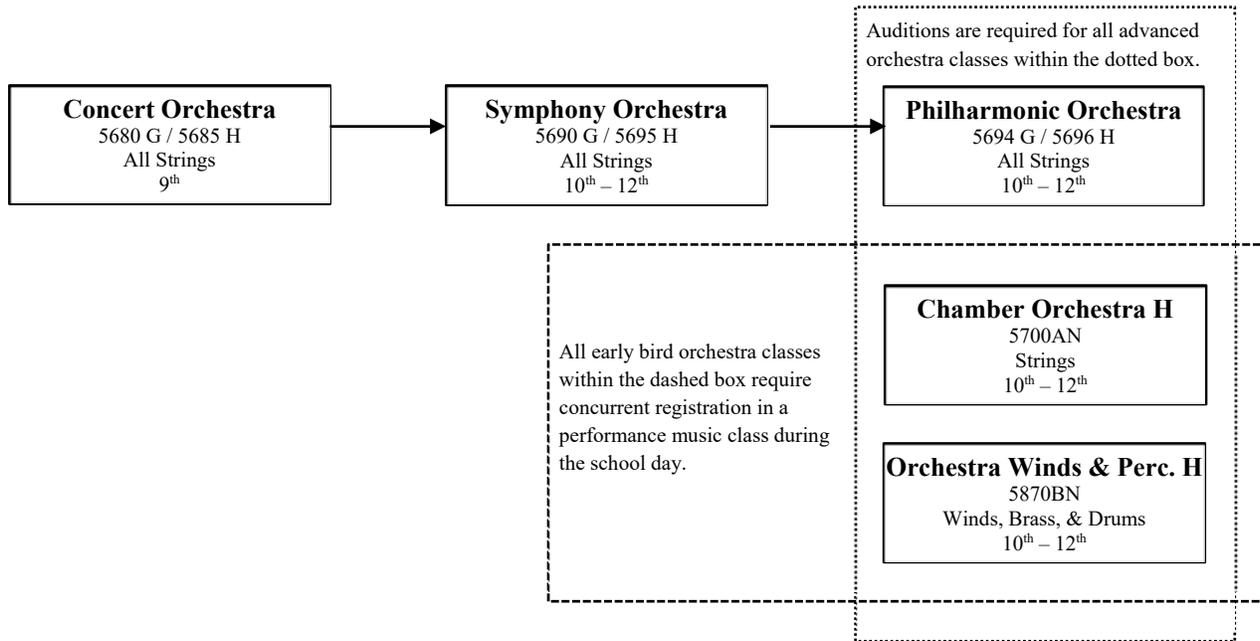

Honors level study is available to students enrolled in any music department course.

- To enroll in the Honors section of your performance music class you must sign up by mid-September and complete the requirements below.
- Students who do not register by the deadline will be placed in the regular section of their performance music class.
- All private lesson, performance, and leadership verification will be submitted online through the music department website.
- All activities used to earn Honors Credit must occur between the published first and last days of the school year.
- Any alterations to the Honors Credit plan will be considered on an individual basis and must be approved by your director in advance.

I. Individual Instruction	II. Solo Performance	III. Ensemble Participation	IV. Music Service	V. Written Projects
REQUIRED:	CHOOSE 1:	CHOOSE 2 :	CHOOSE 1:	CHOOSE 1:
(a) Receive regular, weekly private instruction with a professional musician, or at least 210 minutes each quarter, throughout the entire school year. This requirement is waived for students taking a second music class for honors.	(a) Perform an appropriate solo at the Solo & Ensemble Festival. (b) Perform a solo in a performance setting like a private lesson studio recital or church service. (c) Enroll in a non-credit bearing supplemental music experience course.	(a) Participate in the ILMEA District 1 auditions process. (b) Perform in an extracurricular ensemble. (c) Perform at five home game performances. (d) Perform in an ensemble outside of school like a community orchestra or church choir.	(a) Be a Section Leader or a member of the Student Staff. (b) Complete a music department project, like sorting music, organizing uniforms, or cleaning up after a performance. (c) Serve in a leadership role in another school or community organization. A signed verification form is required. (d) Perform an additional solo at an Honors Recital.	(a) Write a research paper on a director-approved musical topic. (b) Compose or arrange a written piece of music. This project requires pre-approval from your director.

MUSIC DEPARTMENT

ORCHESTRA COURSE SEQUENCE

ORCHESTRA COURSE DESCRIPTIONS

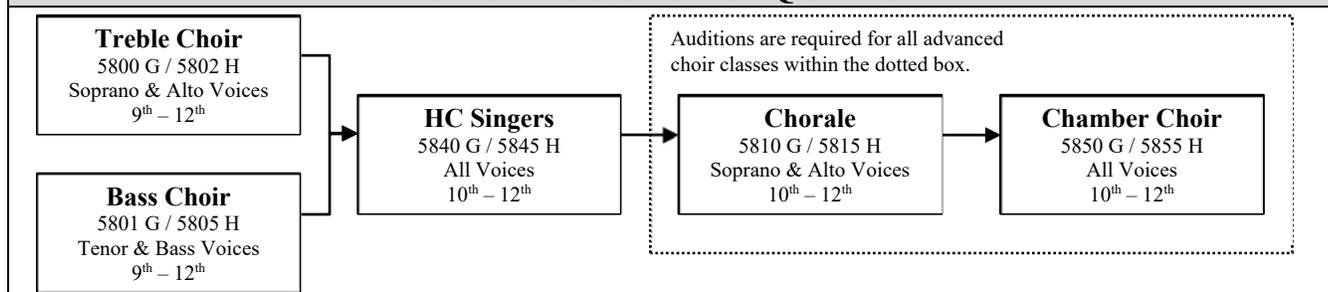

<p>CONCERT ORCHESTRA <i>General Course #5680</i> <i>Honors Course #5685</i> Full year Credit: 1.0</p> <p>CSO Field Trip: \$14 Orchestra Clinic or Exchange: \$14</p>	<p>Concert Orchestra is a class designed for all incoming freshmen string players. The class is centered on refining fundamental string techniques, introducing basic music theory, reinforcing effective rehearsal and practice habits, and performing level-appropriate string literature. Concert orchestra performs a variety of concerts throughout the year as well as participates in Hinsdale Solo and Ensemble Festival. This class offers honors credit that involves additional requirements.</p> <p>Prerequisite: none. Open to grade 9. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>SYMPHONY ORCHESTRA <i>General Course #5690</i> <i>Honors Course #5695</i> Full year Credit: 1.0</p> <p>Concert Attire Fee: \$110 CSO Field Trip: \$14 Orchestra Clinic or Exchange: \$14</p>	<p>Symphony Orchestra is a class designed for sophomore, junior, and senior string players seeking to further improve their performance and understanding of orchestral repertoire. The class is centered on introducing advanced level string techniques, intermediate level music theory, and performing level-appropriate string and full orchestra repertoire. The string section of Symphony Orchestra combines with Orchestra Winds & Percussion players to create a full orchestra experience. Symphony Orchestra members perform in a variety of concerts throughout the year as well as at the Hinsdale Solo and Ensemble Festival. This class offers honors credit that involves additional requirements.</p> <p>Prerequisite: director approval. Open to grades 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>

MUSIC DEPARTMENT

<p>PHILHARMONIC ORCHESTRA <i>General Course #5694</i> <i>Honors Course #5696</i> Full year Credit: 1.0</p> <p>Concert Attire Fee: Up To \$110 CSO Field Trip: \$14 Orchestra Clinic or Exchange: \$14</p>	<p>Philharmonic Orchestra is a class designed for advanced sophomore, junior, and senior players seeking to perform advanced orchestral literature. The class is centered around developing a deeper understanding of orchestral playing and covers advanced topics such as orchestral bowing, becoming a section leader, effective leading and following, and many others. It is assumed that students in this class already have achieved a high level of string technique through private instruction and chamber playing. The string section of Philharmonic Orchestra combines with Wind Ensemble members to perform high level full orchestra repertoire. Philharmonic Orchestra members perform in a variety of concerts throughout the year as well as at the Hinsdale Solo and Ensemble Festival. This class offers honors credit that involves additional requirements. This is an auditioned class.</p> <p>Prerequisite: director approval & audition. Open to grades 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>CHAMBER ORCHESTRA H <i>Honors Course# 5700AN</i> Full year Credit: 0.0 or 0.5**</p> <p>CSO Field Trip: \$14 Orchestra Clinic or Exchange: \$14</p>	<p>Chamber Orchestra is an early bird class designed for advanced freshman, sophomore, junior, and senior string players interested in performing advanced chamber string repertoire. The class focuses on developing chamber playing skills as students will perform in large chamber groups, quartets, trios, and duets. The class meets every other day on a rotating AB weekly schedule. This class offers honors credit that involves additional requirements. This is an auditioned class and concurrent registration in an orchestra class is also required.</p> <p>Prerequisite: director approval & audition. Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>ORCHESTRA WINDS & PERCUSSION H <i>Honors Course # 5870BN</i> Full year Credit 0.0 or 0.5**</p> <p>CSO Field Trip: \$14 Orchestra Clinic or Exchange: \$14</p>	<p>Woodwind, brass, and percussion players may, through placement audition, be selected for Orchestra Winds & Percussion Honors. This is a select ensemble of advanced wind and percussion players who will rehearse every other day as an Early Bird class. These players make up the Symphony Orchestra Wind and Percussion sections. Concurrent registration in a band class is required.</p> <p>Prerequisite: director approval & audition. Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>

MUSIC DEPARTMENT

CHOIR COURSE SEQUENCE

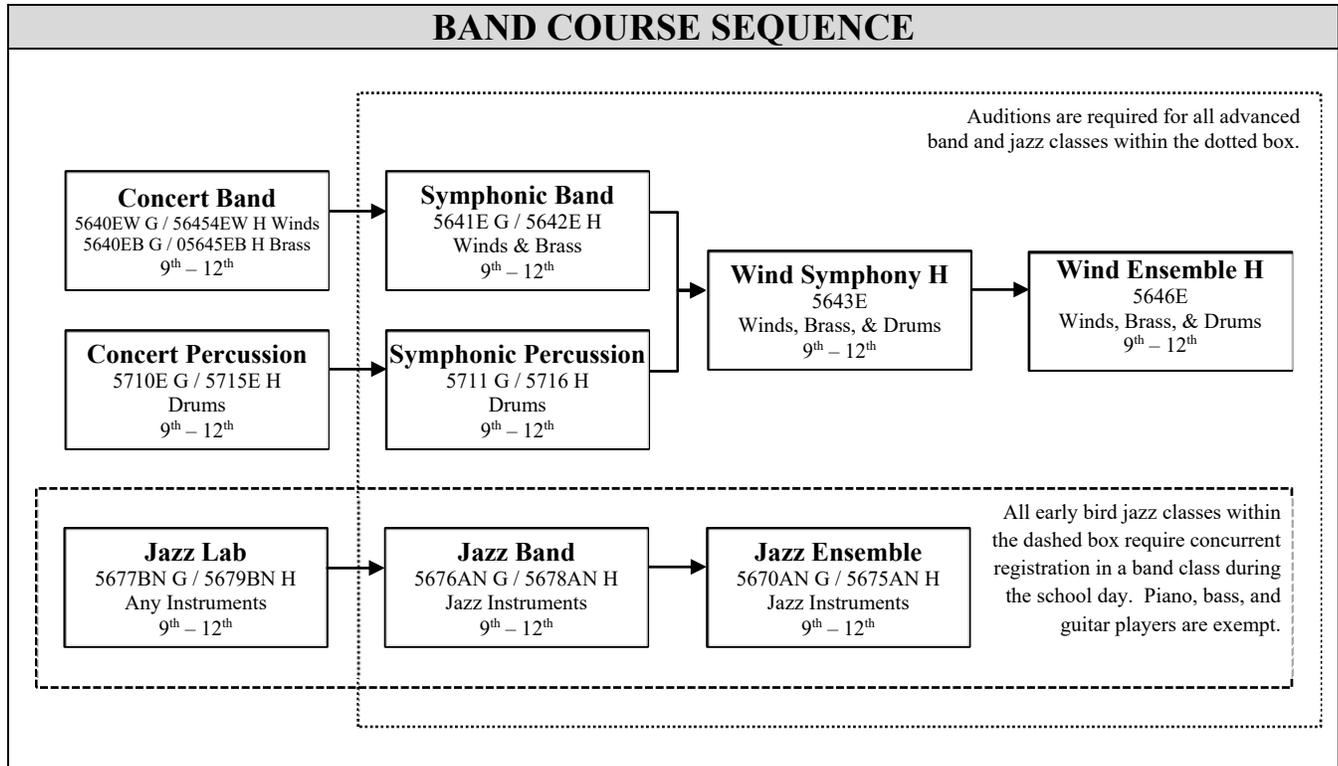

CHOIR COURSE DESCRIPTIONS

<p>TREBLE CHOIR <i>General Course # 5800</i> <i>Honors Course # 5802</i> Full year Credit: 1.0</p> <p>Shirt Fee: Up to \$10 Choir Clinic or Exchange:\$14</p>	<p>Teaches and examines basic vocal techniques, practice and performance of choral music, sight singing and theory. A variety of choral music will be practiced and performed. Honors credit is available for this course.</p> <p>Prerequisite: none. Intended for all 9th grade treble voices & first-year singers. Open to grades 9, 10, 11, and 12. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>BASS CHOIR <i>General Course # 5801</i> <i>Honors Course # 5805</i> Full year Credit: 1.0</p> <p>Shirt Fee: Up to \$10 Choir Clinic or Exchange:\$14</p>	<p>Teaches and examines basic vocal techniques, practice and performance of choral music, sight singing and theory. A variety of choral music will be practiced and performed. Honors credit is available for this course.</p> <p>Prerequisite: none. Intended for 9th and 10th grade bass voices & first-year singers. Open to grades 9, 10, 11, and 12. Students earning honor credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>HINSDALE CENTRAL SINGERS <i>General Course # 5840</i> <i>Honors Course # 5845</i> Full year Credit: 1.0</p> <p>Shirt Fee: Up to \$10 Choir Clinic or Exchange:\$14</p>	<p>Level two of vocal techniques for treble and bass voices. A variety of mixed choir choral literature is practiced and performed. Continued study of sight singing and theory. Honors credit is available for this course.</p> <p>Prerequisite: Director approval. Open to grades 10, 11, and 12. May be repeated for credit. Students earning honor credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>CHORALE <i>General Course # 5810</i> <i>Honors Course # 5815</i> Full year Credit: 1.0</p> <p>Concert Attire Fee: Up to \$110 Shirt Fee: Up to \$10 Choir Clinic or Exchange:\$14</p>	<p>An advanced level of vocal technique for treble voices, sight singing and theory. This advanced choral group practices and performs a variety of music. Extra performances or rehearsals may be scheduled. Honors credit is available for this course. An audition is required.</p> <p>Prerequisite: director approval & audition. Open to grades 10, 11, and 12. May be repeated for credit. Students earning honor credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>

MUSIC DEPARTMENT

<p>CHAMBER CHOIR General Course # 5850 Honors Course # 5855 Full year Credit: 1.0 Concert Attire Fee: Up to \$110 Shirt Fee: Up to \$10 Up to 5 Local Performances: \$14 Choir Clinic or Exchange: \$14</p>	<p>An advanced group with a high level of musicianship, vocal technique, sight singing and theory skills. A large variety of musical styles will be practiced and performed. This ensemble performs frequently outside of the school day for community events. Honors credit is available for this course. An audition is required.</p> <p>Prerequisite: director approval & audition. Open to grades 10, 11, and 12. May be repeated for credit. Students earning honor credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
--	--

INFORMATION FOR ALL BAND CLASSES

Students enrolled in the Hinsdale Central High School Bands perform at home games, local parades, pep rallies, formal concerts, and other community events. Band classes improve musicianship, develop technique, and provide performance opportunities featuring a variety of musical styles and ensemble settings. Every band course is an academic class that meets during a class period and also requires occasional rehearsals and performances outside the school day; however, students are encouraged to participate in other advanced academic classes, athletics, and activities. Opportunities for student leadership, overnight travel, and extracurricular performing are available. All band classes can be repeated each year for credit and are open to students in every grade. All students in courses with the “E” suffix combine to perform as part of the Red Devil Marching Band and Pep Band and are eligible for an Athletic Waiver from the Physical requirement.

Students must be enrolled in one of the six band classes to participate in jazz classes, orchestra wind and percussion sections, and other extracurricular band activities. The band page of the Music Department website, www.hcmusic.org, has the most current information about the band program, auditions, and honors credit requirements. Questions may be emailed to the band directors: Mr. Matt Kurinsky, at mkurinsk@hinsdale86.org or Mr. Matt Goeke at mgoeke@hinsdale86.org.

MUSIC DEPARTMENT

BAND COURSE DESCRIPTIONS	
<p>CONCERT BAND <i>Winds General Course</i> #5640EW <i>Wind Honors Course</i> #5645EW</p> <p><i>Brass General Course</i> #5640EB <i>Brass Honors Course</i> #5645EB</p> <p>Full year Credit: 1.0 NO PERCUSSIONISTS</p> <p>Camp Fee: \$10 Shirt Fee: Up to \$10 Equipment Fee: Up to \$60 Up to 2 Parades: \$14 Each Band Clinic or Exchange: \$14</p>	<p>Concert Band Winds is open to all flute, oboe, clarinet, bassoon, and saxophone players and Concert Band Brass is open to all trumpet, horn, trombone, baritone, and tuba players without an audition. It is also open to beginners in addition to experienced performers. Students will study the fundamentals of wind instrument performance, music reading, and music theory. See the Information for All Band Classes for more details on page 70.</p> <p>Prerequisite: none. Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>SYMPHONIC BAND <i>General Course #5641E</i> <i>Honors Course #5642E</i></p> <p>Full year Credit: 1.0</p> <p>Camp Fee: \$10 Shirt Fee: Up to \$10 Equipment Fee: Up to \$73 Up to 2 Parades: \$14 Each Up to 2 Band Clinic or Exchange: \$14 CSO Field Trip: \$14</p>	<p>The Symphonic Band is an auditioned concert band made up of flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, baritone, and tuba players. This class develops a more advanced level of wind instrument performance and requires students to have a good understanding of music reading and music theory. See the Information for All Band Classes for more detail on page 72.</p> <p>Prerequisite: director approval & audition. Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>WIND SYMPHONY H <i>Honors Course #5643E</i></p> <p>Full year Credit: 1.0</p> <p>Concert Attire Fee: Up to \$110 Camp Fee: \$10 Shirt Fee: Up to \$10 Equipment Fee: Up to \$60 Up to 2 Parades: \$14 Each Up to 2 Band Clinic or Exchange: \$14 CSO Field Trip: \$14</p>	<p>The Wind Symphony is an auditioned concert band made up of a limited number of flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, baritone, tuba, and percussion players. Enrolled students must be proficient at reading and performing music and must meet honors credit requirements. Students will frequently perform advanced standards and the latest compositions of contemporary wind band literature. See the Information for All Band Classes for more details.</p> <p>Prerequisite: director approval & audition. Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>WIND ENSEMBLE H <i>Honors Course #5646E</i></p> <p>Full year Credit: 1.0</p> <p>Concert Attire Fee: Up to \$105 Camp Fee: \$10 Shirt Fee: Up to \$10 Equipment Fee: Up to \$60 Up to 2 Parades: \$14 Each Up to 2 Band Clinic or Exchange: \$14 CSO Field Trip: \$14</p>	<p>The Wind Ensemble is an auditioned, highly selective, concert band made up of a limited number of flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, baritone, tuba, and percussion players. Enrolled students must be proficient at reading and performing music and must meet honors credit requirements. Students will frequently perform the most advanced standards and the latest compositions of contemporary wind band literature. See the Information for All Band Classes for more details.</p> <p>Prerequisite: director approval & audition. Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>

MUSIC DEPARTMENT

<p>CONCERT PERCUSSION ENSEMBLE <i>General Course #5710E</i> <i>Honors Course #5715E</i> Full year Credit: 1.0</p> <p>Camp Fee: \$10 Shirt Fee: Up to \$10 Equipment Fee: Up to \$60 Up to 2 Parades: \$14 Each Band Clinic or Exchange: \$14</p>	<p>The Concert Percussion Ensemble is an entry level class for students interested in performing band music on percussion instruments and drum set. In addition to performing as a percussion ensemble, students will also prepare standard band literature to perform with the wind players in other band classes. Enrolled students will learn the basics of music reading and percussion technique. See the Information for All Band Classes for more details.</p> <p>Prerequisite: none. Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>SYMPHONIC PERCUSSION ENSEMBLE <i>General Course #5711E</i> <i>Honors Course # 5716E</i> Full year Credit: 1.0</p> <p>Camp Fee: \$10 Shirt Fee: Up to \$10 Equipment Fee: Up to \$60 Up to 2 Parades: \$14 Each Band Clinic or Exchange: \$14</p>	<p>The Symphonic Percussion Ensemble is an auditioned class only for percussion and drum set players. In addition to performing as a percussion ensemble, students will also prepare standard band literature to perform with the wind players in other band classes. Enrolled students must be able to read music and have a good understanding of percussion technique. See the Information for All Band Classes for more details.</p> <p>Prerequisite: director approval & audition. Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>JAZZ LAB <i>General Course#5677BN</i> <i>Honors Course#5679BN</i> Full year Credit: 0.0 or 0.5**</p> <p>1 Local Performance: \$14</p>	<p>The Jazz Lab is an entry level class for instrumental and vocal music students interested in performing contemporary music in a variety of styles while developing improvisation skills. Students may be grouped into ensembles according to ability and instrumentation. See the Information for All Band Classes for more details.</p> <p>Prerequisite: concurrent enrollment in a band class (except piano, bass, & guitar). Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>JAZZ BAND <i>General Course#5676AN</i> <i>Honors Course#5678AN</i> Full year Credit: 0.0 or 0.5**</p> <p>Up to 3 Local Performances: \$14 Each</p>	<p>The Jazz Band is an auditioned traditional big band made up of saxophone, trombone, trumpet, piano, bass, guitar, and drum set players. Students enrolled in this class study jazz performance in a variety of styles. The class develops an understanding of scale and chord theory and encourages improvisation. This class meets every other day during the “Early Bird” Period 0. See the Information for All Band Classes for more details.</p> <p>Prerequisite: director approval, audition, and concurrent enrollment in a band class (except piano, bass, & guitar). Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>
<p>JAZZ ENSEMBLE <i>General Course#5670AN</i> <i>Honors Course#5675AN</i> Full year Credit: 0.0 or 0.5**</p> <p>Up to 3 Local Performances: \$14 Each</p>	<p>The Jazz Ensemble is the top auditioned traditional big band made up of saxophone, trombone, trumpet, piano, bass, guitar, and drum set players. Students enrolled in this class study jazz performance in a variety of styles and frequently perform. Enrolled students should have a good understanding of scale and chord theory and must be comfortable practicing improvisation. This class meets every other day during the “Early Bird” Period 0. Students may also enroll in Honors Orchestra Winds and Percussion. See the Information for All Band Classes for more details.</p> <p>Prerequisite: director approval, audition, and concurrent enrollment in a band class (except piano, bass, & guitar). Open to grades 9, 10, 11, and 12. May be repeated for credit. A musical instrument is required for this course. Students earning honors credit in music classes may be required to take individual lessons with a private teacher for a minimum of 210 minutes each quarter.</p>

MUSIC DEPARTMENT

ADDITIONAL MUSIC ELECTIVES	
GUITAR 1 <i>Course #5941, 5942</i> 1 st or 2 nd semester Credit: 0.5	This guitar class is designed for high school students who want to learn to play the guitar and have the opportunity to participate in music performance. This class is for students with no previous guitar experience. Besides learning to note read and develop the necessary technical skills needed to play the guitar, students will learn the essentials of music theory, improvisation and composition. The students will also learn to play solos and in ensembles in a variety of styles including folk, pop, blues, and rock. Prerequisite: None. Open to grades 9, 10, 11, and 12. May be repeated for credit.
GUITAR 2 <i>Course #5951, 5952</i> 1 st or 2 nd semester Credit: 0.5	This guitar class is a continuation of Guitar I and is designed to expand the student's musical and technical skills in guitar performance. This course will emphasize the intermediate level of music theory, composition and improvisation, and practice techniques. This class will also continue its study of various music styles and have opportunities to perform solos and in ensembles. More advanced guitar technique such as lead and rhythm playing, using effects, and others will be introduced in this course. Prerequisite: None. Open to grades 9, 10, 11, and 12. May be repeated for credit
COMPUTER MUSIC THEORY <i>Course #5931</i> 1 st or 2 nd semester Credit: 0.5	This class is an entry level music theory course for beginners that will explore the written aspects of rhythm, pitch, and harmony using web applications like www.musictheory.net. Students will work through online lessons and exercises about musical symbols and terminology and will complete simple written composition projects using NoteFlight. This course can prepare students who are not enrolled in Hinsdale Central's bands, choirs, or orchestras, to take AP Music Theory and students will have the opportunity to submit original compositions to the ILMEA composition competition. Prerequisite: None. Open to grades 9, 10, 11, and 12. May be repeated for credit
COMPUTER MUSIC SEQUENCING <i>Course #5932</i> 1 st or 2 nd semester Credit: 0.5	This class is an entry level electronic music production course that will explore music through digital manipulation using web applications like Soundtrap. Students will learn to record and manipulate audio, select and appropriately place microphones, create and edit loops, and experiment with drum machines and sequencers. Students will publish the final products and have the opportunity to submit original compositions and remixes to the ILMEA composition competition. Prerequisite: None. Open to grades 9, 10, 11, and 12. May be repeated for credit
BACH TO ROCK <i>Course #5631, 5632</i> 1 st or 2 nd semester Credit: 0.5	This course will explore music's origins, historical, and social influences, from Gregorian chant to Rock and the present day. Recordings of these examples will be used extensively so students are introduced to musical periods, musical form, styles, and genres of classical, rock, and popular music. This course will focus on musicians and musical groups that have shaped yesterday's, today's, and the future musical world. YouTube recordings will be used during the semester so students can listen to the music studied. Prerequisite: None. Open to grades 9, 10, 11, and 12.
BEGINNING PIANO & COMPOSITION <i>Course #5920</i> Full Year Credit: 1.0	Beginning Piano is an entry-level performance music course. Students will learn the basics of reading music notation in order to play the piano, alone and with other students, and will use a variety of resources to learn music theory, practice technique, create compositions, and perform. Projects will include creating original compositions and learning to play your favorite song. Prerequisite: none. Open to grades 9, 10, 11, and 12. May be repeated for credit.
ADVANCED PIANO COMPOSITION / THEORY <i>Course #5921</i> Full year Credit: 1.0	This course is designed for the serious piano student who wants to learn how to improve piano performance, compose, and perform original compositions. Students learn to use music writing programs like Sibelius, Finale, Band in a Box, and Cakewalk, using Yamaha Synthesizer workstations. Theory will be taught throughout the year as well as composition technique. Students may enter competitions with songs they create and additional performance opportunities may be available. Upon the conclusion of this course, students are expected to take the AP exam. Prerequisite: teacher approval. Open to grades 9, 10, 11, and 12.

MUSIC DEPARTMENT

AP MUSIC THEORY*Course #5900*

Full year

Credit: 1.0

Advanced Placement Music Theory prepares music students for the Music Theory Advanced Placement Examination through the study of musical elements and techniques including notation, scales and modes, intervals, chords, non-harmonic tones, cadences, ear training, sight singing, melody, form, and composition. Success on the AP Exam can result in college credit. All prospective students must be recommended to Mr. Kurinsky by their music director or private lesson instructor.

Prerequisite: teacher approval. Open to grades 10, 11, and 12.

Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The 2019-2020 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.

PHYSICAL, DRIVER, AND HEALTH EDUCATION

PHYSICAL EDUCATION DEPARTMENT

Physical education is the science of human movement and the courses are designed to provide instruction and insight into healthy physical activities. All Physical Education offerings are designed to promote good health, safety, fitness, awareness of the value of recreation, and an appreciation of all forms of physical expression. Per the mandate House Bill 5397 all students in grades 3-12 will complete fitness testing and data will be reported to the Illinois State Board of Education.

Freshmen, juniors and seniors must register for Physical Education EACH semester

COURSE TITLE	Course # (First/Second Semester)	Prerequisite	Credit	Grade Offered
Adaptive Physical Education	7080	Yes	1.0	9-12
Adaptive PE Aide	7084/7085	Yes	0.5	11-12
Group Exercise	7307/7322	No	0.5	10-12
Aquatics	7305/7320	No	0.5	10-12
Physical Conditioning	7306/7321	No	0.5	10-12

Competitive Team Sports	7312/7327	No	0.5	10-12

PHYSICAL, DRIVER, AND HEALTH EDUCATION

<p>ADAPTIVE PHYSICAL EDUCATION <i>Course #7080</i> Full year Credit: 1.0</p>	<p>Adaptive PE offers an alternative PE option for students who are unable to participate in a regular physical education course. Adaptive PE is designed to meet the needs of students with a variety of physical, cognitive, or social needs. This course is intended to give the learner the skills necessary for a lifetime of rich leisure, recreation, and sport experience to enhance physical fitness and wellness. In addition, this course offers a smaller class size to make individualized instruction more appropriate. Our program also utilizes a peer mentor program. The peer mentors help in the gym hallways, and serve as role models for our students.</p> <p>Prerequisite: Departmental Approval. Open to grades 9, 10, 11, and 12.</p>
<p>ADAPTIVE PE AIDE <i>Course #7084, 7085</i> Credit: 0.5</p>	<p>The Adaptive Physical Education Aide class is offered to juniors and seniors who are interested in working with students with a variety of physical, cognitive, and social needs. As a “peer buddy” students are encouraged to serve as role models in the class (wear PE attire and participate daily, model appropriate behavior, etc.). This class will swim during both semesters. Daily attendance is required.</p> <p>Prerequisite: Application from PE office and Departmental Approval. Priority will be given to those students interested in a career in education. This course may be repeated. Open to grades 11 and 12.</p>
<p>GROUP EXERCISE <i>Course #7307, 7322</i> Credit: 0.5</p>	<p>This class introduces students to components of cardiovascular activity through aerobic movements. Students will also address the principles of muscular strength and endurance through the use of free weights and toning exercises. Core workouts, yoga, Pilates, and fitness dance are introduced as part of this class as methods for students to increase flexibility, strength and balance. Students will be introduced to the R.A.D Self-Defense System which will provide students with an experience in basic self-defense skills. (May be repeated).</p> <p>Prerequisite: None. May be repeated. Open to grades 10, 11, and 12.</p>
<p>AQUATICS <i>Course #7305, 7320</i> Credit: 0.5</p>	<p>This course provides students the opportunity to engage in sports and activities designed for the aquatic environment. The Learning Target for the course includes swim stroke development, aerobic fitness, and biomechanic analysis of the four competitive swimming strokes, as well as starts and turns. Water safety habits, basic lifeguarding skills, water aerobics, dry land exercises, and weight training specific to aquatic activity will also be introduced. Recommended for prospective triathletes and swimmers (May be repeated).</p> <p>Prerequisite: None. May be repeated. Open to grades 10, 11, and 12.</p>
<p>PHYSICAL CONDITIONING <i>Course #7306, 7321</i> Credit: 0.5</p>	<p>This course provides students the opportunity to experience the development of strength and performance training. Fundamental and advanced techniques will be applied to resistance training and functional fitness concepts in order to enhance students’ strength, power, and agility. Additional concepts such as nutrition and stress management will be cover throughout the semester. Recommended for any person wishing to improve overall competitive effectiveness.</p> <p>Prerequisite: None. May be repeated. Open to grades 10, 11, and 12.</p>
<p>WEIGHT TRAINING (Bouchard Center) <i>Course #7309, 7324</i> Credit: 0.5</p>	<p>Gain knowledge and understanding of weight training theory, advanced weight training practices, sport specific weight training techniques and proper nutritional practices. Initiate and develop weight training programs. Improve muscular strength and endurance (May be repeated).</p> <p>Prerequisite: None. May be repeated. Open to grades 10, 11, and 12.</p>
<p>EARLY BIRD P.E. <i>Course #7373, 7374</i> Credit: 0.5</p>	<p>This physical education course runs from 7AM to 7:50AM except on Late Start Days, which will run from 8AM to 8:40AM. This course is designed to meet the needs of each student’s individual health and fitness goals. Students will learn how to properly design a Personal Fitness Plan that will address proper biomechanics of strength training and effective training methods to improve aerobic fitness.</p> <p>Prerequisite: None. May be repeated. Open to grades 10, 11, and 12.</p>

PHYSICAL, DRIVER, AND HEALTH EDUCATION

FRESHMAN PHYSICAL EDUCATION <i>Course #7113, 7114</i>	Students' entry level experiences in the program consist of participation in a full-year core of activities that focus on the physical development and improvement of the fitness of the student. Students will participate in a variety of team and individual sports and activities to meet the learning outcome of the course. Activities included basketball, tchoukball, soccer, square dance, volleyball, badminton, fitness concepts, introduction to strength and functional training, football, tennis, gymnastics, swimming, group exercise, wrestling and dance. Students will also engage in the Yale University RULER curriculum which focuses on Social Emotional Learning targets. Along with this curriculum students will have to opportunity to collaborate with the school's Peer Leadership program to acclimate students to the high school experience. Prerequisite: None. Open to grade 9.			
LIFEGUARDING/ CPR/ FIRSTAID <i>Course #7310, 7325</i> Credit: 0.5	Meets American Red Cross Lifesaving Certification, Cardiopulmonary Resuscitation Certification and Standard First Aid Certification. Students must be able to swim 500 yards non-stop to enroll. No student may use a Physical Education exemption in this class and receive Red Cross certification or recertification. Prerequisite: None. May be repeated. Open to grades 10, 11, and 12.			
PERSONAL FITNESS (Fitness Center) <i>Course #7308, 7323</i> Credit: 0.5	Variable course content. Teacher directed workouts and individualized conditioning programs designed to address fitness goals are incorporated. Principles and skills relating to cardiovascular endurance, muscular strength, muscular endurance, and flexibility are incorporated. Equipment orientation includes cardiovascular machines, proper weight training techniques and circuit training. At the completion of course, students will be able to design and implement their own fitness program. Prerequisite: None. May be repeated. Open to grades 10, 11, and 12.			
FITNESS INTEGRATED THROUGH SPORTS (F.I.T.S) - SEMESTER 1 Includes sports and activities for lifelong participation. Instruction provided in basic skill, rules, strategies, and social behavior necessary to achieve competent level of participation, practice, game situations and tournament play. In addition, students will be introduced to fitness components such as cardiovascular endurance, muscular strength, muscular endurance and flexibility. Select one of the following options listed below.				
Lifetime Activities <i>Course #7311</i> 1 st Semester Credit: 0.5	Softball Basketball Volleyball Aquatics	Tennis Archery Fitness Testing Football	Badminton Frisbee Golf Soccer Tchoukball	Lifetime Activities <i>Course #7311</i> 1 st Semester Credit: 0.5
Competitive Team Sports <i>Course #7312</i> 1 st Semester Credit: 0.5	Volleyball Ultimate Frisbee Aquatic Games	Football/Navy Outdoor Hockey Soccer	Team Handball Flicker Ball Fitness Testing	Competitive Team Sports <i>Course #7312</i> 1 st Semester Credit: 0.5
FITNESS INTEGRATED THROUGH SPORTS (F.I.T.S) - SEMESTER 2 Includes sports and activities for lifelong participation. Instruction provided in basic skill, rules, strategies, and social behavior necessary to achieve competent level of participation, practice, game situations and tournament play. In addition, students will be introduced to fitness components such as cardio-vascular endurance, muscular strength, muscular endurance and flexibility. Select one of the following options. Select one of the following options listed below.				
Lifetime Activities <i>Course #7326</i> 2 nd Semester Credit: 0.5	Pickleball Volleyball	Ping Pong Aquatics Basketball	Golf Group Exercise Softball Tchoukball	Outdoor Education Fitness Testing
Competitive Team Sports <i>Course #7327</i> 2 nd Semester Credit: 0.5	Volleyball Basketball	Team Games Softball	Outdoor Hockey	Aquatic Games

PHYSICAL, DRIVER, AND HEALTH EDUCATION

DRIVER EDUCATION

Course #7461/7462

Credit: 0.25

\$350.00 Course fee

\$20.00 Permit fee required by State

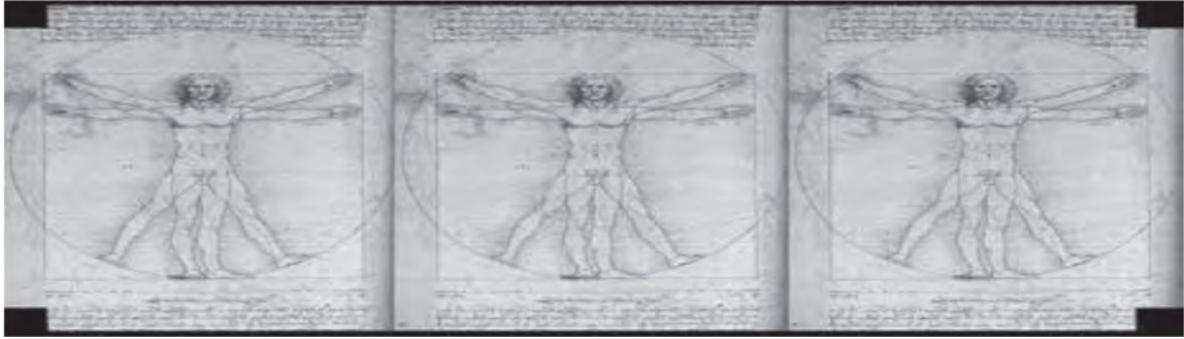

Driver Education, though an elective course, is required in order to obtain a state driver's license prior to the age of 18. Driver Education will follow state mandates on the number of classroom instruction and in car training. Student schedules must allow for one period per day during one semester in order to complete course requirements. Student's class time will be divided between behind the wheel instruction with a certified instructor for 24 class periods (6 hours of daylight driving) and 30 hours of classroom instruction.

Any incoming freshman can enroll in Driver Education as long as he/she turns 15 years of age prior to the start of the semester.

If you turn 15 years of age prior to the start of the semester, you are eligible to enroll in Driver Education. Students enrolled in Driver Education will receive two grades at the end of the semester: one for the classroom phase, and one for the behind-the-wheel phase. Upon successful completion of the Driver Education Cooperative Testing program, students will be eligible for their license without need for further examination by the Illinois Secretary of State Office.

As a prerequisite, students enrolling in Driver Education must be passing eight semester classes within the two most recent semesters of attendance. Only classes used to determine a student's GPA will be allowed to meet this requirement.

PHYSICAL, DRIVER, AND HEALTH EDUCATION

HEALTH EDUCATION

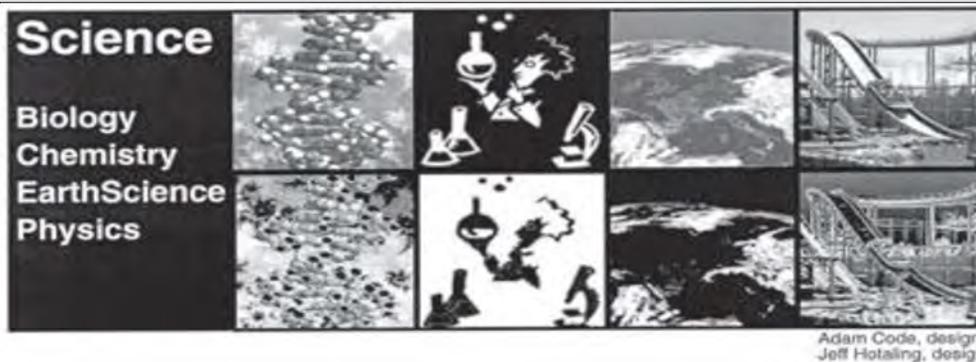

Sophomores have the option of taking Health Education for one semester and Physical Education for the other semester. Students electing to enroll in summer school Health Education will be placed in Physical Education for both semesters in order to be compliant with the mandated daily physical education requirement.

COURSE TITLE	Course # (First/Second Semester)	Prerequisite	Credit	Grade Offered
Health Education	7501/7502	No	0.5	10
Health Education ELL	7502T	No	0.5	10-12
Introduction to Sports Medicine	7521/7522	Yes	0.5	10-12
Health Foundations	2002	Yes	0.5	9-12
Health	2780A/2780B	Yes	0.5	9-12
HEALTH EDUCATION <i>Course #7501, 7502</i> Credit: 0.5 (Included in student's G.P.A.)	The goal of this course is to promote and develop positive attitudes and behaviors related to the overall wellness of Hinsdale Central students. Students are taught how to access valid health information and health-promoting products and services. The students will also learn how to analyze the influence of culture, media, technology and other factors on health. Topics of study within the Health Education program include: Introduction to Wellness, Alcohol, Tobacco and other Drugs, Nutrition and Fitness, Communicable and Non-communicable Diseases, and Human Reproduction. The curriculum is aligned with District 86 program goals, Illinois and National Health Education Standards, and Illinois State Standards for Social/Emotional Learning.			
REQUIRED FOR GRADUATION. This course should be taken in tandem with Physical Education during the sophomore year. Open to grade 10.				
HEALTH EDUCATION ELL <i>Course #7502T</i> Credit: 0.5 (Included in student's G.P.A.)	The goal of this course is to promote and develop positive attitudes and behaviors related to the overall wellness of Hinsdale Central students. Students are taught how to access valid health information and health-promoting products and services. The students will also learn how to analyze the influence of culture, media, technology and other factors on health. Topics of study within the Health Education program include: Introduction to Wellness, Alcohol, Tobacco and other Drugs, Nutrition and Fitness, Communicable and Non-communicable Diseases, and Human Reproduction. The curriculum is aligned with District 86 program goals, Illinois and National Health Education Standards, and Illinois State Standards for Social/Emotional Learning. Content is designed to meet the needs of English Language Learners.			
REQUIRED FOR GRADUATION. This course should be taken in tandem with Physical Education during the sophomore year. Open to grade 10, 11, and 12. Approval of ELL Coordinator Required.				

PHYSICAL, DRIVER, AND HEALTH EDUCATION

<p>INTRODUCTION TO SPORTS MEDICINE Course #7521, 7522 Credit: 0.5</p> <p>(General credit only; not for elective arts. Included in student's G.P.A.)</p>	<p>The goal of this course is to help students become more knowledgeable and proficient in the following areas: principles and practices of athletic training; anatomy, physiology, injury recognition, treatment and rehabilitation as they relate to sports and leisure activities. This course also provides valuable hands-on experience and is highly recommended for those students who are interested in careers in nursing, medicine, athletic training, physical therapy, or coaching.</p> <p>Prerequisite: Successful completion of Health Education or approval of Department Chair. Open to grades 10, 11, and 12.</p>
<p>HEALTH FOUNDATIONS Course #2002 2nd Semester Credit 0.5</p>	<p>This course is for students who are reading at least three years below grade level. The goal of this course is to promote and develop positive attitudes and behaviors related to the overall wellness of Hinsdale Central students. Students are taught how to access valid health information and health-promotion products and services. The students will also learn how to analyze the influence of culture, media, technology and other factors on health. Topics of study within the Health Education program include: Introduction to Wellness, Alcohol, Tobacco and other Drugs, Nutrition and Fitness, Communicable and Non-communicable Diseases, and Human Reproduction. The curriculum is a modification of grade level standards, but is aligned with District 86 program goals, Illinois and National Health Education Standards. Students enrolled in this course must also be enrolled in Adaptive PE.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>HEALTH Course #2780A/2780B Credit: 0.5 (included in student's G.P.A)</p>	<p>This course is for students who are reading at least two years below grade level. The goal of this course to promote and develop positive attitudes and behaviors related to the overall wellness of Hinsdale Central students. Students are taught how to access valid health information and health-promoting products and services. The students will also learn how to analyze the influence of culture, media, technology and other factors on health. Topics of study within the Health Education program include: Introduction to Wellness, Alcohol, Tobacco and other Drugs, Nutrition and Fitness, Communicable and Non-communicable Diseases, and Human Reproduction. The curriculum is aligned with District 86 program goals, Illinois and National Health Education Standards, and Illinois State Standards for Social/Emotional Learning.</p> <p>Prerequisite: Department Chair approval. Open to grades 10, 11, and 12.</p>

SCIENCE DEPARTMENT

SCIENCE DEPARTMENT

Two credits in science are required for graduation. Each credit must be earned by completing both semesters of a given course (one credit can be earned through the semester course offerings).

All students should have experience in both the biological and physical/earth sciences. Two years of the same type of science, if this excludes other areas of science, is not recommended.

1. Courses in science are designed to develop an understanding of the natural and physical world, to stress the importance of major scientific principles, to develop reasonable competence in the use of the methods of science and to help recognize and prepare for the role science plays in our evolving technological world. The many course offerings and sequences in science have been carefully planned to meet the needs of each student, whether he/she considers science as a future career, as an interesting avocation or as a necessity for all citizens in our technological society.
2. Courses are taught in classroom-laboratory situations which provide opportunities for individual and group instruction, investigation and experimentation. All science classes require a teacher recommendation.
3. The following are possible four-year course sequences:

Seq.	Grade 9	Grade 10	Grade 11	Grade 12
1.	Earth Science <i>or</i> Biology	Biology Earth Science	Chemistry/Physics	Chemistry Themed <i>or</i> Traditional <i>or</i> Physics Themed <i>or</i> Traditional
2.	Biology	Chemistry Themed <i>or</i> Chemistry Traditional	Physics Themed <i>or</i> Physics Traditional	Earth Science semester courses <i>or</i> Earth Science Honors <i>or</i> <u>select</u> Advanced Placement courses
3.	Biology	Chemistry Themed <i>or</i> Chemistry Traditional	Earth Science semester courses*	Physics Themed Physics Traditional
4.	Biology <i>or</i> Biology H <i>or</i> Earth Science <i>or</i> Earth Science-H	Earth Science <i>or</i> Earth Science-H <i>or</i> Biology <i>or</i> Biology-H	Chemistry Traditional/Themed <i>or</i> Chemistry - H	AP Physics 1, Advanced Placement courses <i>or</i> AP Seminar: Science AP Seminar: Research
5.	Biology Honors	Chemistry Honors (concurrent enrollment in AP Seminar: Science)	AP Physics 1 (concurrent enrollment in AP Seminar: Science)	Advanced Placement courses
6.	Chemistry H (if you are registered for Algebra 2 Trig or higher)	A.P. Physics 1	AP Biology <i>or</i> AP Environmental Science	Advanced Placement course AP Seminar: Science AP Seminar: Research

The aforementioned sequences by no means represent all sequences available to students. The possibilities are numerous. A more useful way to view science courses is by the year offered. The following table serves that purpose.

*Students who have taken Earth Science 3740G or Earth Science 3750 are not eligible to enroll in Earth Science semester courses.

**A.P. Seminar: Science is open to 10, 11 and 12th grade students. Please see description for more details.

SCIENCE DEPARTMENT

<p>SCIENCE FOUNDATIONS <i>Course#2050</i> Full year Credit: 1.0</p>	<p>Students will investigate key elements of physical and social wellness that can be generalized in various facets of daily life, including proper nutrition, sleep, self-care, and exercise. They will explore the benefits of leisure activities and socialization. Students will also explore fundamental concepts, principles and interconnections of the life, physical and earth sciences. This course is intended for students who are reading two or more years below grade level.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12.</p>
<p>FUNDAMENTALS OF EARTH SCIENCE <i>Course #2720</i> Full year Credit 1.0</p>	<p>This course is for students who are reading and writing significantly below grade level. Curriculum in this course is a modification of the grade level standards, but is designed to acquaint students with inquiry based learning, where students take factual information and use it for analysis. The systematic approach of this course provides an introduction to major earth science concepts while emphasizing literacy and executive functioning skills. The content includes a basic introduction to topics of: geology, oceanography, meteorology, and astronomy. This course is designed to assist students with reading comprehension as it relates to science literacy. Class activities include laboratory investigations and class discussions.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11 and 12.</p>
<p>FUNDAMENTALS OF BIOLOGICAL SCIENCE <i>Course#3690</i> Full year Credit: 1.0</p>	<p>This course is for students who are reading and writing significantly below grade level. Curriculum in this course is a modification of the grade level standards, but is designed to acquaint students with properties of living organisms. The content includes a basic introduction to topics as the relationship between structure and function in living organisms as it relates to the human body, evolution, genetics, and some aspects of ecology. The systematic approach of this course provides an introduction to major biological concepts while emphasizing literacy and executive functioning skills. This course is designed to assist students with reading comprehension as it relates to science literacy. Class activities include laboratory investigations and class discussions.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11 and 12.</p>
<p>BIOLOGY <i>Course#3700G</i> Full year Credit: 1.0</p>	<p>Biology involves the study of life and life processes. Topics covered include energetics, cellular and molecular biology, ecology, evolution, biochemistry, plants, and animals. The approach of this course provides an introduction to major biological concepts while emphasizing literacy and executive functioning skills. This course is designed to assist students with reading comprehension as it relates to science literacy. NCAA approved course.</p> <p>Prerequisite: Incoming freshmen eligibility is based upon Math department placement, test scores, first quarter science grade (8th grade) and recommendation of 8th grade instructor. Open to grades 9, 10, 11, and 12.</p>
<p>BIOLOGY <i>Course#3710</i> Full year Credit: 1.0</p>	<p>Biology involves the study of life and life processes. Topics covered include energetics, cellular and molecular biology, ecology, evolution, biochemistry, plants, and animals. NCAA approved course.</p> <p>Prerequisite: Incoming freshmen eligibility is based upon Math department placement, test scores, first quarter science grade (8th grade) and recommendation of 8th grade instructor. Open to grades 9, 10, 11, and 12.</p>
<p>BIOLOGY HONORS <i>Course#3720</i> Full year Credit: 1.0</p>	<p>Biology Honors covers similar topics as Biology, but at a deeper level and at an accelerated pace, requiring strong reading and math skills and increased student independence. NCAA approved course.</p> <p>Students earning a C in this course will not be eligible for a level change.</p> <p>Prerequisite: High ability in science, mathematics and reading. Incoming freshmen eligibility is based upon Math department placement, test scores, first quarter science grade (8th grade) and recommendation of 8th grade instructor. Open to grades 9, 10, 11,</p>

SCIENCE DEPARTMENT

<p>ANATOMY AND PHYSIOLOGY Course#3725 Full year Credit: 1.0</p>	<p>Anatomy & Physiology develops students' understanding of the workings of the human body. Reading and memorization are key skills required for this course. Topics include cells, tissues, and functional systems. Dissections play an important role in the learning process of this course. NCAA approved course.</p> <p>Prerequisite: Successful completion of Biology and Chemistry and teacher recommendation. Open to grades 11 and 12. This course is ONLY offered at the HINSDALE SOUTH CAMPUS. This course is taught at Hinsdale South, only, and Central students would need to provide their own transportation to and from South. Also, Central students can enroll, but would need to take a study hall adjacent to the course to allow for travel.</p>
<p>ADVANCED PLACEMENT BIOLOGY Course#3730 Full year Credit: 1.0</p> <p>Supply fee: \$10.00</p>	<p>A.P. Biology follows the College Board's Advanced Placement curriculum and parallels two semesters of college-level biology course work. This course is rigorous and fast paced, and nightly reading and note taking are required. Topics include energetics, biochemistry, cellular biology, molecular biology, ecology, and population biology. Students are expected to take the AP exam. NCAA approved course.</p> <p>Prerequisite: Three years of science, including a year of Biology and a year of Chemistry and departmental recommendation. Concurrent enrollment in third year of science and AP Biology is permitted. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The 2019-2020 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p>
<p>ADVANCED PLACEMENT ENVIRONMENTAL SCIENCE Course#3770 Full year Credit: 1.0</p>	<p>A.P. Environmental Science follows the College Board's Advanced Placement curriculum and parallels one semester of college-level environmental course work. Students explore the interrelationships of the natural world, identify and analyze environmental problems, evaluate the relative risks associated with the problems, and examine alternative solutions for resolving and/or preventing them. Students are expected to take the AP exam NCAA approved course.</p> <p>Prerequisite: Three years of science and departmental recommendation. Concurrent enrollment in a third year of science and AP Environmental Science is permitted. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The 2019-2020 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p>
<p>EARTH SCIENCE Course#3740G Full year Credit: 1.0</p>	<p>Earth Science courses offer insight into the environment on earth and the earth's environment in space. Topics include history of the earth, geology, astronomy, and meteorology. The approach of this course provides an introduction to major earth science concepts while emphasizing literacy and executive functioning skills. This course is designed to assist students with reading comprehension as it relates to science literacy. NCAA approved course.</p> <p>Prerequisite: Incoming freshmen eligibility is based upon Math department placement, test scores, first quarter science grade (8th grade) and recommendation of 8th grade instructor. Open to grades 9-12</p>
<p>EARTH SCIENCE Course#3750 Full year Credit: 1.0</p>	<p>Earth Science offers insight into the environment on earth and the earth's environment in space. Topics include history of the earth, geology, astronomy, and meteorology. NCAA approved course.</p> <p>Prerequisite: Incoming freshmen eligibility is based upon Math department placement, test scores, first quarter science grade (8th grade) and recommendation of 8th grade instructor. Open to grades 9 and 10.</p>

SCIENCE DEPARTMENT

<p>EARTH SCIENCE HONORS <i>Course#3760</i> Full year Credit: 1.0</p>	<p>Earth Science Honors covers similar topics as Earth Science, but at a deeper level and at an accelerated pace, requiring strong reading and math skills and increased student independence. NCAA approved course.</p> <p>Students earning a C in this course will not be eligible for a level change.</p> <p>Students enrolled in this course will be eligible to earn one semester of dual credit through College of DuPage.</p> <p>Prerequisite: High ability in science, mathematics and reading. Incoming freshmen eligibility is based upon Math department placement, test scores, first quarter science grade (8th grade) and recommendation of 8th grade instructor. Open to grades 9, 10, 11, and 12.</p>
<p>METEOROLOGY & ASTRONOMY <i>Course#3771</i> 1st semester only Credit: 0.5</p>	<p>This Earth Science course offers insight into the environment on earth and the earth's environment in space. Topics include history of the earth as it relates to meteorology and astronomy. NCAA approved course.</p> <p>Prerequisite: At least one year of high school science, and departmental recommendation. This course is NOT open to anyone who has already taken Earth Science. Open to grades 11 and 12.</p>
<p>GEOLOGY & OCEANOGRAPHY <i>Course#3782</i> 2nd semester only Credit: 0.5</p>	<p>This Earth Science course offers insight into the environment on earth and the earth's environment in space. Topics include history of the earth as it relates to geology and oceanography. NCAA approved course.</p> <p>Prerequisite: At least one year of high school science, and departmental recommendation. This course is NOT open to anyone who has already taken Earth Science. Open to grades 11 and 12.</p>
<p>CHEMISTRY/ PHYSICS 1 <i>Course#3800</i> Full year Credit: 1.0</p>	<p>Chemistry/Physics is designed for those students needing additional chemistry and physics background before enrolling in a full-year course. Approximately one semester each will be devoted to topics in chemistry, such as atomic structure and gases, and topics in physics, such as motion and waves. This lab-oriented course is taught at a pace that allows students to focus on chemistry and physics content development as well as study skills that could prepare students for a full-year chemistry or physics course. NCAA approved course.</p> <p>Prerequisite: Successful completion of Algebra and departmental recommendation. This course is not open to students who have taken Chemistry or Physics. Open to grades 11 and 12.</p>
<p>CHEMISTRY THEMED <i>Course#3810</i> Full year Credit: 1.0</p> <p>Supply fee: \$10.00</p>	<p>Chemistry investigates the composition, properties, and reactions of substances. Traditional chemistry topics are covered and include atomic structure, nuclear chemistry, matter and the periodic table, molecular geometry, stoichiometry, bonding, thermodynamics, gases, and chemical equations. Students must have a strong grasp of Algebra. This course does not meet the prerequisite for A.P. Chemistry. NCAA approved course.</p> <p>Topics in Chemistry Themed are covered with an emphasis on themes including water, natural resources, petroleum, air and nuclear chemistry. This method of teaching chemistry is endorsed by the American Chemical Society.</p> <p>Prerequisite: Successful completion of Algebra 1, concurrent enrollment in Geometry or higher and departmental recommendation. Open to grades 10, 11, and 12.</p>
<p>CHEMISTRY TRADITIONAL <i>Course#3820</i> Full year Credit: 1.0</p> <p>Supply fee: \$10.00</p>	<p>Chemistry investigates the composition, properties, and reactions of substances. Traditional chemistry topics are covered and include atomic structure, nuclear chemistry, matter and the periodic table, molecular geometry, stoichiometry, bonding, thermodynamics, gases, and chemical equations. Students must have a strong grasp of Algebra. This course meets the prerequisite for A.P. Chemistry. NCAA approved course.</p> <p>Prerequisite: Successful completion of Algebra 1, concurrent enrollment in Geometry or higher and departmental recommendation. Open to grades 10, 11, and 12.</p>

SCIENCE DEPARTMENT

<p>CHEMISTRY HONORS <i>Course#3830</i> Full year Credit: 1.0</p> <p>Supply fee: \$10.00</p>	<p>Chemistry Honors covers similar topics as Chemistry, but at a deeper level and at an accelerated pace, requiring strong math skills and increased student independence. This course meets the pre-requisite for A.P. Chemistry. NCAA approved course.</p> <p>Students earning a C in this course will not be eligible for a level change.</p> <p>Prerequisite: Successful completion of Algebra I and departmental recommendation which will be based on a high level of ability in science, mathematics, and reading. Open to grades 10, 11, 12 and 9th graders enrolled in Algebra 2 Trig or higher.</p>
<p>ADVANCED PLACEMENT CHEMISTRY <i>Course#3840</i> Full year Credit: 1.0</p> <p>Supply fee: \$10.00</p>	<p>A.P. Chemistry follows the College Board's Advanced Placement curriculum and parallels two semesters of college-level chemistry course work. This course is rigorous and fast paced. Topics include atomic structure, bonding, equilibrium, acids/bases, solutions, oxidation-reduction, kinetics, and thermodynamics. Students are expected to take the AP exam. NCAA approved course.</p> <p>Prerequisite: Three years of science, including a year of Chemistry (Traditional or Honors) and a year of Physics (Traditional or Honors) and departmental recommendation. Concurrent enrollment in a third year of science and AP Chemistry is permitted. Open to grades 11 and 12. Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The <u>2019-2020 AP exam fee</u> is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p>
<p>PHYSICS THEMED <i>Course#3900</i> Full year Credit: 1.0</p>	<p>Physics investigates the study of the forces and laws of nature affecting matter, such as motion, momentum, waves, and energy. A strong grasp of Algebra is required. This course does not meet the prerequisite for A.P. Physics courses. NCAA approved course.</p> <p>Topics in Physics Themed are covered with an emphasis on themes including physics of the arts, electrical physics, sports physics and rollercoaster physics.</p> <p>Prerequisite: successful completion of Algebra 1, concurrent enrollment in Algebra II/Trig and departmental recommendation. Open to grades 10, 11, and 12.</p>
<p>PHYSICS TRADITIONAL <i>Course#3920</i> Full year Credit: 1.0</p>	<p>Physics investigates the study of the forces and laws of nature affecting matter, such as motion, momentum, waves, and energy. A strong grasp of Algebra is required. This course does meet the prerequisite for A.P. Physics courses. NCAA approved course.</p> <p>Prerequisites: Successful completion of Algebra I, concurrent enrollment in Algebra II/Trig, and departmental recommendation. Open to grades 10, 11, and 12.</p>
<p>ADVANCED PLACEMENT PHYSICS 1 <i>Course#3930</i> Full year Credit: 1.0</p>	<p>A.P. Physics 1 follows the College Board's Advanced Placement curriculum and parallels one semester of algebra-based, college-level physics course work. Topics include Newtonian mechanics (including rotational motion); work, energy and power; mechanical waves and sound; and simple circuits. Students are expected to take the AP exam. NCAA approved course.</p> <p>Students earning a C in this course will not be eligible for a level change.</p> <p>Prerequisites: Successful completion of Algebra 2 Trigonometry and departmental recommendation that will be based upon high level ability in science, mathematics and reading. Open to grades 10, 11, and 12.</p> <p>Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The <u>2019-2020 AP exam fee</u> is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p>

SCIENCE DEPARTMENT

<p>ADVANCED PLACEMENT PHYSICS 2 <i>Course#3950</i> Full year Credit: 1.0</p>	<p>A.P. Physics 2 follows the College Board's Advanced Placement curriculum and parallels one semester of algebra-based college-level physics course work. Topics include mechanics, fluids, thermal physics, waves and optics, electrostatics, electricity, magnetism, and atomic physics. Students are expected to take the AP exam. NCAA approved course.</p> <p>Students are required to purchase an on-line homework program.</p> <p>Prerequisite: Department recommendation, and three years of science including chemistry and either A.P. Physics 1 or traditional physics. Concurrent enrollment in a third year of science is permitted. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The <u>2019-2020 AP exam fee</u> is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p>
<p>ADVANCED PLACEMENT PHYSICS C <i>Course#3960</i> Full year Credit: 1.0</p>	<p>A.P. Physics C follows the College Board's Advanced Placement curriculum and parallels two semesters of calculus-based, college-level physics course work. This course is rigorous and fast paced. Topics include in-depth investigations into mechanics, electricity, and magnetisms. Students are expected to take the AP exam.NCAA approved course.</p> <p>Prerequisite: Departmental recommendation and three years of science, including years of Chemistry and Physics (AP Physics 1), as well as completion of Calculus AB or BC, or concurrent enrollment. Concurrent enrollment in a third year of science and AP Physics is permitted. Open to grades 11 and 12.</p> <p>Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. Upon completion of this course, students are eligible to sit for two different AP Physics exams- AP Physics C: Mechanics and AP Physics C: Electriciy & Magnetism. The <u>2019-2020 AP exam fee</u> is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p>

SCIENCE DEPARTMENT

AP CAPSTONE PROGRAM

ADVANCED PLACEMENT SEMINAR: SCIENCE
Course#3981
 Full year Honors Credit
 Credit: 1.0

A.P. Seminar: Science engages students in cross-curricular conversations that explore the complexities of academic and real-world issues by analyzing divergent perspectives. Throughout the course, students will collaborate on group scientific research assignments, complete individual science research, and present and defend their conclusions. Students must complete the written and oral portions of the AP Exam.

This is an elective science course and does not count towards your science graduation requirement nor does it serve as a prerequisite for Advanced Placement science courses. Earned credit will be applied to the student's overall graduation credit total. NCAA approved course.

Prerequisite: Successful completion of an honors level science course or successful completion of a regular level science course and teacher recommendation. During the school year, 2 years of science or concurrent enrollment in a second year of science. Open to grades 10, 11, and 12.

Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The 2019-2020 AP exam fee is \$142 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.

This course is a prerequisite course for AP Research. Students who successfully complete both AP Seminar and AP Research will receive either an AP Certificate or AP Diploma depending on the number of AP courses they have completed.

Supply fee: \$10.00

ADVANCED PLACEMENT RESEARCH: SCIENCE
Course#3982
 Full year Honors Credit
 Credit: 1.0

A.P. Research: Science engages students in an exploration of an academic topic, problem, or issue that interests them. With the assistance of a research advisor/mentor, students design, plan, and conduct a year-long research-based investigation. Students further their skills acquired in the AP Seminar course by understanding research methodology; employing ethical research practices; and accessing, analyzing, and synthesizing information as they address a research question. Students must submit an academic paper and orally defend their research to the College Board for evaluation and scoring.

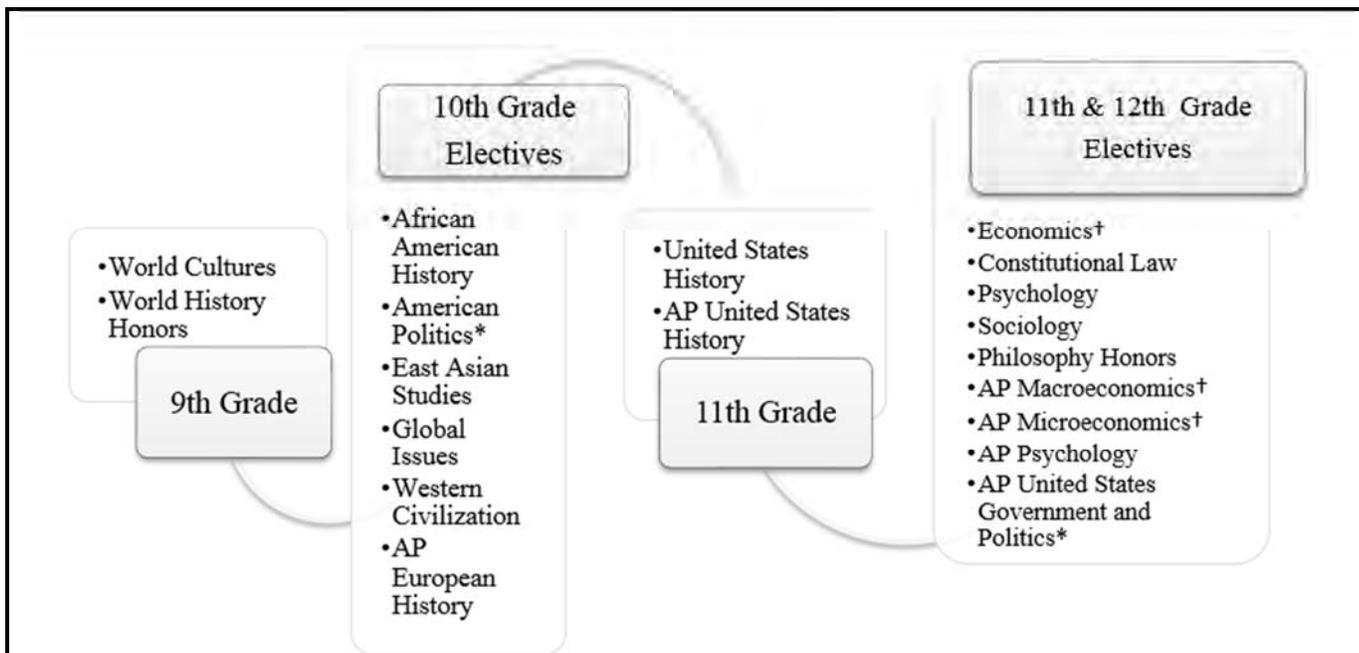

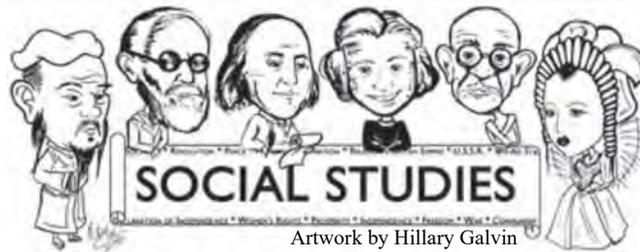

This is an elective science course and does not count towards your science graduation requirement nor does it serve as a prerequisite for Advanced Placement science courses. Earned credit will be applied to the student's overall graduation credit total. NCAA approved course.

Upon successful completion of this course, students are assessed on the academic paper and presentation and oral defense of research which is submitted to College Board for evaluation and scoring to determine the AP grade. The 2019-2020 AP exam fee for evaluation and scoring is \$142. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.

Supply fee: \$10.00

Prerequisite: Successful completion of AP Seminar: Science

SOCIAL STUDIES DEPARTMENT

MISSION STATEMENT

The Hinsdale Central Social Studies Department strives to be respected by all school constituencies for its ability to inspire and direct the personal, intellectual, and civic development of its students. The department emphasizes the process of learning, whereby students critically examine issues, evaluate multiple points-of-view, and synthesize perspectives from a variety of disciplines, resulting in the ability to solve problems and make informed decisions. The department seeks to promote an understanding of diverse cultures, values, and systems; from this, students will gain awareness of their own values, as well as those of others. The tolerance and diversity that result from this training are balanced by a commitment to exploring and building common values such as democratic participation and freedom of expression. It is a department that collegial, with high expectations of its students and of itself. The department seeks to foster a love of learning through enthusiasm for the social studies disciplines, use of a variety of instructional strategies, and the dynamic of individual personalities committed to a set of shared goals.

Two (2) credits in Social Studies are required for graduation. One of these credits must be U.S. History, which also satisfies the state requirement. This credit must be earned by completing both semesters of U.S. History or Advanced Placement U.S. History. The second credit must be earned during the freshman year by taking either World Cultures or World History Honors. Students entering the 9th grade in the 2018-2019 school year, and all subsequent students, will need to meet the State of Illinois Civics requirement.

House Bill 4025 stipulates that at least one semester of a high school student's mandated two-year social studies graduation requirement in Illinois must be a civics course. The bill was amended by House Bill 800, which states that the requirement is effective immediately for "students entering the 9th grade in the 2016-2017 school year and continues each school year thereafter."

District 86 Board of Education Policy 6:300 complies with this legislative mandate by stating that students attending District 86 schools must earn two credits in Social Studies for graduation with one credit in US History and one credit in World Cultures or World Studies Honors (unless waived by the Principal for academically at-risk students). In addition to earning these two Social Studies credits, beginning with the Class of 2020, students must also take and pass a Civics course.

SOCIAL STUDIES DEPARTMENT

<p>SOCIAL STUDIES FOUNDATIONS <i>Course #2081</i> Full year Credit: 1.0</p>	<p>The goal of this course is to develop in students an understanding of citizenship that can be generalized in various facets of daily life. Students will sharpen their basic understanding of history, government, and social systems through the exploration of current and historical events. This course is for students who are reading two or more years below grade level.</p> <p>Prerequisite: Department Chair approval. Open to grades 9, 10, 11, and 12</p>
<p>WORLD CULTURES <i>Course #1850</i> Full year Credit: 1.0</p>	<p>This course is for students who are reading and writing below grade level. Curriculum in this course is a modification of the grade level standards but still explores the economic, historic, cultural and current issues pertaining to the world's major civilizations. A variety of activities and assessments will be used to foster the acquisition of content knowledge. Differentiated instruction in reading and writing is a component of the course.</p> <p>Prerequisite: Department Chair approval. Open to grade 9.</p>
<p>WORLD CULTURES <i>Course #2140</i> Full year Credit: 1.0</p>	<p>World Cultures explores the geographic, economic, historic, cultural and current issues pertaining to the world's major civilizations. A variety of activities and assessments will be used to foster the acquisition of not only content knowledge, but also skills appropriate to the social studies. NCAA approved course.</p> <p>Prerequisite: None. Open to grade 9. Note: Students may not enroll in both World Cultures and World History Honors.</p>
<p>WORLD CULTURES ELL <i>Course #2140T</i> Full year Credit: 1.0</p>	<p>World Cultures explores the geographic, economic, historic, cultural and current issues pertaining to the world's major civilizations. A variety of activities and assessments will be used to foster the acquisition of not only content knowledge, but also skills appropriate to the social studies. NCAA approved course. This course is designed to meet the needs of English Language Learners.</p> <p>Prerequisite: None. Open to grade 9-11. Note: ELL Coordinator approval required.</p>
<p>WORLD HISTORY HONORS <i>Course #2220</i> Full year Credit: 1.0</p>	<p>This course surveys broadly, chronologically and topically, the chief features of various civilizations, culture, nations and major concepts throughout world history. The historical development of Eastern and Western civilizations are explored. Core material is organized around a textbook; however, extensive supplemental reading is required. Students will be challenged with a variety of assessments including tests, papers, speeches, debates, presentations and cooperative learning activities. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grade 9. Note: Students may not enroll in both World History Honors and World Cultures.</p>
<p>AFRICAN AMERICAN HISTORY <i>Course #2239, 2240</i> 1st or 2nd semester Credit: 0.5</p>	<p>African American History focuses on the unique contributions that slaves from Africa, and their descendants, have made towards the cultural and historical legacy of our nation. Topics of study will include the changing legal and social definitions of race in America, the efforts of African Americans to resist servitude, emancipation and its aftermath, the Harlem Renaissance, the Civil Rights movements, and contemporary issues facing African Americans. Students will examine historical sources, with special focus on the art and music created by African Americans. Assessments will include an oral history project, debates, creative projects, essays and exams. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>EAST ASIAN STUDIES <i>Course #2241, 2242</i> 1st or 2nd semester Credit: 0.5</p>	<p>East Asian Studies will examine the history and culture of China, Japan and Korea. Possible topics of study include the Samurai and code of Bushido, the emergence of Japan as a colonial power, comparing American and Japanese accounts of the second World War, the division of Korea, the development of nuclear weapons by North Korea, and the emergence of China as a 21st century global superpower. The course is project, writing, and discussion oriented. Students will be challenged to avoid ethnocentrism and to understand these civilizations from the perspective of the people who came from them. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>

SOCIAL STUDIES DEPARTMENT

<p>GLOBAL ISSUES <i>Course #2231, 2232</i> 1st or 2nd semester Credit: 0.5</p>	<p>Global Issues examines several major contemporary political, social, and diplomatic dilemmas of the 21st century. After tracing the historical roots of contemporary issues, students will analyze and evaluate each issue from a variety of perspectives. Possible topics include the proliferation of nuclear weapons, human rights and genocide, democracy and dissent, the future of the Middle East, the “war on terror,” U.S. foreign policy since Vietnam, and major domestic challenges. Active student participation on a daily basis and developing written and oral arguments are major components of a student’s grade. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12.</p>
<p>CIVICS <i>Course #1870, 1875</i> 1st or 2nd Semester Credit: 0.5</p>	<p>This course is for students who are reading and writing below grade level. Curriculum in this course is a modification of the grade level standards but is still a hands-on analysis of government and politics in the United States. Students learn general concepts used to interpret American politics. Analysis of specific case studies through simulation and community activity familiarizes students with the groups, organizations issues and ideas that make up the American political system. Students will explore the causes of different political beliefs and behaviors and the role of interest groups and political parties.</p> <p>Prerequisite: Department Chair approval. Open to grades 10, 11, and 12. Fulfills State of Illinois Civics requirement.</p>
<p>CIVICS <i>Course #2351, 2352</i> 1st or 2nd Semester Credit: 0.5</p>	<p>A hands-on analysis of government and politics in the United States. Students learn general concepts used to interpret American politics. Analysis of specific case studies through simulation and community activity familiarizes students with the groups, organizations, issues and ideas that make up the American political system. Students will explore the causes of different political beliefs and behaviors and the role of interest groups and political parties. In addition, throughout the semester, students will be asked to participate in a civic engagement project which may include civic action, service learning, and public speaking. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12. Fulfills State of Illinois Civics requirement.</p>
<p>CIVICS ELL <i>Course #2351T, 2352T</i> 1st or 2nd Semester Credit: 0.5</p>	<p>A hands-on analysis of government and politics in the United States. Students learn general concepts used to interpret American politics. Analysis of specific case studies through simulation and community activity familiarizes students with the groups, organizations, issues and ideas that make up the American political system. Students will explore the causes of different political beliefs and behaviors and the role of interest groups and political parties. In addition, throughout the semester, students will be asked to participate in a civic engagement project which may include civic action, service learning, and public speaking. NCAA approved course. This course is designed to meet the needs of English Language Learners</p> <p>Prerequisite: None. Open to grades 11, and 12. Fulfills State of Illinois Civics requirement. ELL Coordinator approval required.</p>
<p>WESTERN CIVILIZATION <i>Course #2261, 2262</i> 1st or 2nd semester Credit: 0.5</p>	<p>Western Civilization is a survey of the history of Western Civilization beginning with the influences of Greece and Rome and ending in the early Twentieth Century. Students will explore the historical trends, events, and ideas that have come to shape society today. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 10, 11, and 12. Note: Students may not enroll in both Western Civilization and Advanced Placement European History.</p>

SOCIAL STUDIES DEPARTMENT

<p>ADVANCED PLACEMENT EUROPEAN HISTORY <i>Course #2440</i> Full year Credit: 1.0</p>	<p>Advanced Placement European History traces the political, social, economic, intellectual, and cultural development of European Civilization from the Renaissance to the present. A wide variety of teaching methods are used including discussion, debate, role-play, simulations and trials. Students will learn to use and evaluate primary sources, write critical essays, and analyze historical interpretations. This course prepares the student for the Advanced Placement European History examination. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11, and 12. Note: Students may not enroll in both Advanced Placement European History and Western Civilization. Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The <u>2019-2020 AP exam fee</u> is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p>
<p>U.S. HISTORY <i>Course #1860</i> Full year Credit: 1.0</p>	<p>This course is for students who are reading and writing below grade level. Curriculum in this course is a modification of the grade level standards but provides a survey of Native American cultures through European colonization, founding of the new Republic and Constitution, includes the Civil War, and concludes with modern times. Units survey chronologically and topically the major events, personalities and issues which have played a part in the evolution of the American democratic republic. Differentiated instruction in reading and writing is a component of the course.</p> <p>Prerequisite: Department Chair approval. Open to grade 11.</p>
<p>U.S. HISTORY <i>Course #2310</i> Full year Credit: 1.0</p>	<p>U.S. History is a survey which covers Native American cultures through European colonization, founding of the new Republic and Constitution, includes the Civil War, and concludes with modern times. Units survey chronologically and topically the major events, personalities and issues which have played a part in the evolution of the American democratic republic. NCAA approved course.</p> <p>Prerequisite: None. Credit in this course fulfills U.S. History requirement. Open to grade 11. Note: Students may not enroll in both U.S. History and Advanced Placement U.S. History.</p>
<p>U.S. HISTORY ELL <i>Course #2310T</i> Full year Credit: 1.0</p>	<p>U.S. History is a survey which covers Native American cultures through European colonization, founding of the new Republic and Constitution, includes the Civil War, and concludes with modern times. Units survey chronologically and topically the major events, personalities and issues which have played a part in the evolution of the American democratic republic. NCAA approved course. This course is designed to meet the needs of English Language Learners</p> <p>Prerequisite: None. Credit in this course fulfills U.S. History requirement. Open to grades 11-12. ELL Coordinator approval required.</p>
<p>ADVANCED PLACEMENT U.S. HISTORY <i>Course #2320</i> Full year Credit: 1.0</p>	<p>Advanced Placement United States History is a survey course that is meant to replicate the academic rigor of a two semester college experience in a year. This class requires students to engage in extensive reading of primary sources and historical essays. Focus will be placed on the development of college level reading and writing skills. Key events and major themes such as American diversity, economic transformations and politics and citizenship will be examined in studying the nation's past. This course prepares the student for the Advanced Placement United States History examination. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Credit in this course fulfills the U.S. History requirement. Open to grade 11. Note: Students may not enroll in both Advanced Placement U.S. History and U.S. History. Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The <u>2019-2020 AP exam fee</u> is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p>

SOCIAL STUDIES DEPARTMENT

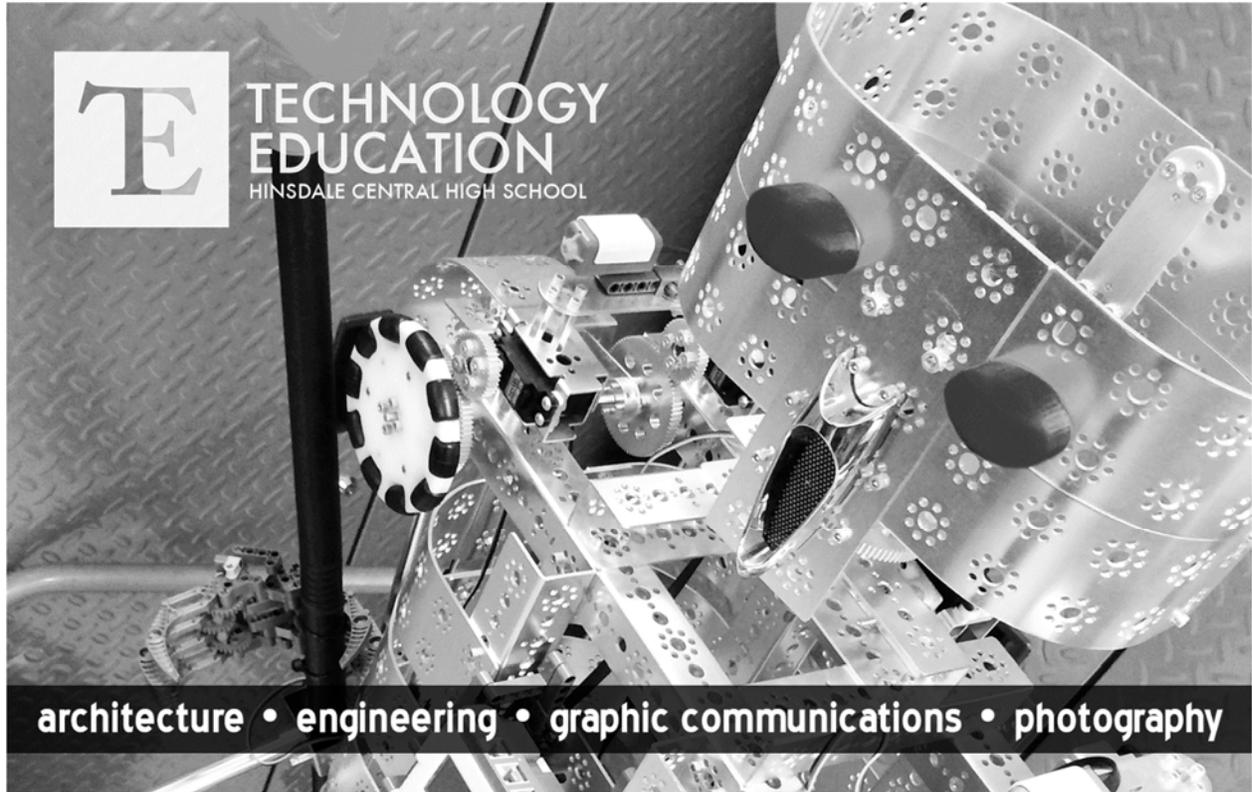

<p>CONSTITUTIONAL LAW <i>Course #2381, 2382</i> 1st or 2nd semester Credit: 0.5</p>	<p>Constitutional Law is an introductory legal course which investigates many topics, including criminal law, trial rules, court systems, juvenile law, discrimination, and search and seizure law. In addition to using contemporary legal cases, a wide variety of teaching methods are used, including mock trial hearings, mock jury simulations, and videos. The primary learning tool in Constitutional Law is class discussion. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>ECONOMICS <i>Course #2331, 2332</i> 1st or 2nd semester Credit: 0.5</p>	<p>Should the government raise the minimum wage? Is globalization & free trade good for America? How can I retire a millionaire? Learn the answers to these questions and more through this highly interactive class. In economics you'll read articles & watch videos that help you discuss & debate critical issues in microeconomics, macroeconomics and personal finance. You will demonstrate your learning through projects, presentations, writing blog/discussion posts and quizzes. The course meets your consumer economics requirement while helping you think more critically about the world and how you can change it. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 11 and 12. Note: Students may not take Economics, Advanced Placement Microeconomics or Advanced Placement Macroeconomics concurrently. Fulfills the Consumer Education requirement.</p>
<p>ADVANCED PLACEMENT MACROECONOMICS <i>Course #2441, 2442</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Placement Macroeconomics is the study of the United States' economy. Students examine economic topics such as unemployment, inflation, GDP, international trade, interest rates, monetary policy, fiscal policy, and the national debt and deficit. Students will come to understand the causes for fluctuations in the economy and be able to prescribe economic policies for both healthy and unhealthy economies. Macroeconomics is an interdisciplinary course combining the social sciences with mathematical analysis and graphing. The course prepares students for the Advanced Placement exam in May. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 11 and 12.</p> <p>Note: Students may not take Advanced Placement Macroeconomics, Advanced Placement Microeconomics or Economics concurrently. Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The 2019-2020 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p> <p>Fulfills the Consumer Education requirement.</p>
<p>ADVANCED PLACEMENT MICROECONOMICS <i>Course #2341, 2342</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Placement Microeconomics provides students with a thorough understanding of the decision making process for individuals and firms in the marketplace. It places primary emphasis on the operations of the product and factor markets along with the government's role in promoting efficiency and equity in various market structures. The course is conducted in a lecture/seminar manner supported by daily readings, practice problems, and student activities. The course prepares the student for the Advanced Placement exam in Microeconomics exam administered in May. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 11 and 12.</p> <p>Note: Students may not take Advanced Placement Macroeconomics, Advanced Placement Microeconomics or Economics concurrently. Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The 2019-2020 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p> <p>Fulfills the Consumer Education requirement.</p>

SOCIAL STUDIES DEPARTMENT

<p>PHILOSOPHY HONORS <i>Course #2393, 2394</i> 1st or 2nd semester Credit: 0.5</p>	<p>Philosophy Honors will offer interested and intellectually curious students the opportunity to reflect on the big questions of the human condition, such as knowledge, ethics, artificial intelligence, free will versus determinism, rational proofs for the existence of God, and the meaning of evil and suffering. The goal of the course will not be to cover a group of philosophers, but to raise important issues that will spur students to further inquiry, study, and application in their own lives. The class relies on discussion, demonstrations, debates, films, and reflection on assigned texts. Philosophy is an honors level course. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>PSYCHOLOGY <i>Course #2431, 2432</i> 1st or 2nd semester Credit: 0.5</p>	<p>Psychology focuses on the study of human behavior from many perspectives. Audiovisual materials, experiments, projects and case studies are used to understand the human experience. This class is heavily discussion based. In addition, much independent coursework is used to investigate topics such as development, the brain, altered states of consciousness, learning, personality and abnormal behavior. In addition, throughout the semester, students will independently research and present on a topic of interest in the area of development, the brain, altered states of consciousness, learning, personality or abnormal behavior. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 11 and 12. Note: Students may not take Psychology and Advanced Placement Psychology.</p>
<p>ADVANCED PLACEMENT PSYCHOLOGY <i>Course #2430</i> Full year Credit: 1.0</p>	<p>AP Psychology explores why human beings are the way that they are. This course traces the emergence of scientific psychology in the nineteenth century from its roots in philosophy and physiology to present day practices. The development of the major “schools” of psychology and showing how they differed in subject matter and the methods of study are covered. This historical introduction helps students gain an understanding of the principal twentieth century approaches to psychology: behavioral, biological, cognitive, humanistic and psychodynamic. This class prepares students for the Advanced Placement Psychology examination. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Concurrent enrollment in U.S. History or previous completion of U.S. History during the regular school year. Open to grades 11 and 12.</p> <p>Note: Students may not take Psychology and Advanced Placement Psychology.</p> <p>Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The 2019-2020 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p>
<p>SOCIOLOGY <i>Course #2371, 2372</i> 1st or 2nd semester Credit: 0.5</p>	<p>Sociology is the study of man’s social behavior. The course increases the student’s awareness of social pressures that affect one’s own behavior and the behavior of others. Typical activities such as discussions, experiments, student planned projects and a wide variety of films and multimedia enable the student to apply knowledge gained in the course to his or her own life.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT UNITED STATES GOVERNMENT & POLITICS <i>Course #2361, 2362</i> 1st or 2nd semester Credit: 0.5</p>	<p>AP United States Government and Politics is an advanced placement course designed to give students both theoretical and realistic perspectives on politics and government in the United States. Its focus is on the interconnectedness between the various institutions, opinions and policies that make up the national public system. Student political involvement is emphasized. This class prepares students for the Advanced Placement United States Government and Politics examination. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Concurrent enrollment in U.S. History or previous completion of U.S. History during the regular school year. Open to grades 11 and 12. This course fulfills the State of Illinois Civics requirement. Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The 2019-2020 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p>

TECHNOLOGY EDUCATION DEPARTMENT

TECHNOLOGY EDUCATION DEPARTMENT

The Technology Education Department offers a selection of elective courses to all students at Hinsdale Central High School. Department courses help students meet the elective arts requirement of District 86. The primary instructional mode in the classroom is lab-orientated student projects, using a wide range of instructional techniques and a variety of state-of-the-art technologies. The department offers a diverse range of technology-related courses that allows for educational and career exploration. Program area of study include: Engineering and Design, Architecture, Graphic Communications, Photography and Digital Video Production.

*College Credit – Dual Credit Courses:

Dual Credit is a program that enrolls students in college courses while they are still in high school. Dual Credit allows them to earn college credit for high school courses. Dual Credit enables students to save time, money, and avoid duplication of material already learned in high school. Dual Credit is accepted by many colleges or universities. The Technology Education Department has a Dual Credit agreement with Moraine Valley Community College.

Technology Education Program Program Course Sequences

ENGINEERING & DESIGN PROGRAM	
<p>NOTE: Software titles currently used in our Engineering & Design and Architecture courses include up-to-date versions of AutoCAD, Inventor Professional, Revit Architecture, and 3D Studio Max.</p>	
<p>PRE-ENGINEERING 1 <i>Course #6601, 6602</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply fee: \$10.00</p>	<p>This course introduces the student to the fundamentals of mechanical drafting while using current AutoCAD software in our CAD Lab. The course is also devoted to Science, Technology, Engineering and Mathematics, (S.T.E.M.)-related content, particularly engineering/technological design problem solving. The student will be taught many AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. Mechanical drawing problems will range from 2D drawings, orthographic projection, sectional view, and pictorial views (isometric and oblique). Freehand sketching on graph paper is also integrated into each assignment. Students will be introduced to 3D modeling and 3D printing (rapid prototyping). During the semester, each student will create a portfolio of work which will include an individually created 3-D model.</p> <p>This course is also run as a Dual Credit class with Moraine Valley Community College with the possibility a minimum of 4 hours of college credit tuition free.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>PRE-ENGINEERING 1 HONORS <i>Course #6731/6732</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course will continue to introduce the student to the fundamentals of mechanical drafting while using current AutoCAD software in our CAD Lab. The course will further explore Science, Technology, Engineering and Mathematics (S.T.E.M.)-related content and provide the student with a strong background in STEM principles. The student will be taught additional AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. Mechanical drawing problems will range from auxiliary views, rotations, developments and intersections, and dimensioning techniques of orthographic projection problems. Freehand sketching on graph paper is also integrated into each assignment. During the semester, each student will create an individual portfolio of work.</p> <p>This course is also run as a Dual Credit class with Moraine Valley Community College with the possibility a minimum of 4 hours of college credit tuition free.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>

TECHNOLOGY EDUCATION DEPARTMENT

<p>PRE-ENGINEERING 2 <i>Course #6611, 6612</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>This course will continue to introduce the student to the fundamentals of mechanical drafting while using current AutoCAD software in our CAD Lab. The course will further explore Science, Technology, Engineering and Mathematics (S.T.E.M.) related content and provide the student with a strong background in STEM principles. The student will be taught additional AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. Mechanical drawing problems will range from auxiliary views, rotations, developments and intersections, and dimensioning techniques of orthographic projection problems. Freehand sketching on graph paper is also integrated into each assignment. During the semester, each student will create an individual portfolio of work.</p> <p>This course is also run as a Dual Credit class with Moraine Valley Community College with the possibility a minimum of 4 hours of college credit tuition free.</p> <p>Prerequisites: Pre-Engineering I. Open to grades 9, 10, 11, and 12.</p>
<p>PRE-ENGINEERING 2 HONORS <i>Course #6611A, 6612A</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>The core material for this course is similar to Pre-Engineering 2 course 6611 & 6612; however projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program.</p> <p>This course is also run as a Dual Credit class with Moraine Valley Community College with the possibility a minimum of 4 hours of college credit tuition free.</p> <p>Prerequisites: Pre-Engineering I and department approval. Open to grades 9, 10, 11, and 12.</p>
<p>ENGINEERING & DESIGN <i>Course #6620</i> Full year Credit: 1.0</p> <p>Supply Fee: \$18.00</p>	<p>The goal of the Engineering & Design course is to expand the student’s knowledge in the following areas: computer software usage, manufacturing processes, engineering and design, application of acquired knowledge in making production drawings, and career opportunities in a variety of engineering fields. This course continues exploration of Science, Technology, Engineering and Mathematics (S.T.E.M.)-related content. Engineering design projects will enable students to make the necessary connections between the STEM disciplines and the world around them. Students in this class will be expected to work at an accelerated pace on individual projects and some small group work. The computer is the primary means of graphic problem solving using AutoCAD software. Students will be instructed on proper techniques using Autodesk Inventor to create 3D models. Using Inventor, students will create a model race car that demonstrates the power of this software package. A series of problems which require model construction is also part of the curriculum, including the use of 3D printing technology (rapid prototyping). In addition, students will use 3D digitizer technology for reverse engineering applications, 4 axis CNC mill for production, injection molding and vacuum forming. Robotics topics will also be covered in this course. During the semester, each student will create an individual portfolio of work.</p> <p>This course is also run as a Dual Credit class with Moraine Valley Community College with the possibility a minimum of 3 hours of college credit tuition free.</p> <p>Prerequisites: Pre-Engineering I and Pre-Engineering II. Open to grades 10, 11 and 12.</p>
<p>ENGINEERING & DESIGN HONORS <i>Course #6625</i> Full year Credit: 1.0</p> <p>Supply Fee: \$18.00</p>	<p>The core material for this course is similar to Engineering & Design course #6620; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program.</p> <p>This course is also run as a Dual Credit class with Moraine Valley Community College with the possibility a minimum of 3 hours of college credit tuition free.</p> <p>Prerequisites: Pre-Engineering I and Pre-Engineering II and department approval. Open to grades 10, 11, and 12.</p>

TECHNOLOGY EDUCATION DEPARTMENT

<p>ARCHITECTURE & DESIGN Course #6630 Full year Credit: 1.0</p> <p>Supply Fee: \$18.00</p>	<p>In the course Architecture & Design, the student will learn how to design and draw a complete set of architectural drawings necessary to construct a residential home. The student will apply Science, Technology, Engineering and Mathematics (S.T.E.M.) concepts to design and print a professional set of blueprints. Room planning, flow patterns, design concepts, floor plans, construction details, elevations and presentation drawings will be completed during the first semester using a computer and AutoCAD software. During the second semester, students will construct a scaled (3/4"=1') model of the home they designed the first semester. In addition, non-traditional building methods will be explored: Super Insulated housing, Earth Sheltered housing, Wind Energy, Solar Energy, Energy Efficiency and Green Building. Information related to home construction, home building, building cost, permits and home buying will be explored and discussed.</p> <p>Prerequisite: Pre-Engineering II or Department Approval. Open to grades 11 and 12.</p>
<p>ARCHITECTURE & DESIGN HONORS Course #6635 Full year Credit: 1.0</p> <p>Supply Fee: \$18.00</p>	<p>The core material for this course is similar to Architecture & Design course #6630; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program or architecture program.</p> <p>Prerequisite: Pre-Engineering I and Pre-Engineering II and Department Approval. Open to grades 11 and 12.</p>
<p>ADVANCED ENGINEERING & ARCHITECTURAL MODELING Course #6640 Full year Credit: 1.0</p> <p>Supply Fee: \$18.00</p>	<p>This is the culminating course in the Engineering & Architecture program that will help prepare students for college. Students will have additional challenges as they are introduced to several 3D modeling software programs. Students will be required to use the skills learned in both their engineering and architectural graphics courses as they make the transition from 2D drawings to 3D. Science, Technology, Engineering and Mathematics (S.T.E.M.) concepts will be integrated through the use of various project-based activities. Students will explore software programs such as Inventor, Revit and 3D Studio Max, while developing 3D models and animating them. Students will use 3D digitizer technology for reverse engineering applications to accurately reproduce parts. They will also use 3D print technology (rapid prototyping) to generate models for visual inspection and functional testing. A CNC mill, vacuum form machine, injection molding and foundry will also be applied throughout this course. More in depth robotic principles will be applied to solve problems with a programmable robot. An electronic portfolio will record all work completed during the school year. Students will leave the class with various 3D models and projects they produced.</p> <p>Prerequisite: Engineering & Design & Architecture & Design and/or Department Approval. Open to grade 12.</p>
<p>ADVANCED ENGINEERING & ARCHITECTURAL MODELING HONORS Course #6645 Full year Credit: 1.0</p> <p>Supply Fee: \$18.00</p>	<p>The core material for this course is similar to course #6640, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program.</p> <p>Prerequisite: Engineering & Design, Architecture & Design or Engineering & Design Honors, Architecture & Design Honors and Department Approval. Open to grade 12.</p>

TECHNOLOGY EDUCATION DEPARTMENT

GRAPHIC COMMUNICATION PROGRAM

<p>GRAPHIC COMMUNICATIONS - FUNDAMENTALS (GCF) <i>Course #6661, 6663</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>Want to learn Illustrator and Photoshop skills used in projects common in business to marketing to new media? Graphic Communications Fundamentals places special emphasis on providing a survey of real-world projects using Adobe Creative Suite that are creative, student-driven, challenging and fun. You'll learn technical illustration, typography, color models, animation, layout, photo retouching and image manipulation. This course will provide you with a foundation of essential skills needed in Web Design, Game Design, and Print Design. This course is highly recommended for students interested in college majors related to Entrepreneurship, Business, Marketing, Graphic Design, and Graphic Communications.</p> <p>This course is also run as a Dual Credit class with Moraine Valley Community College with the possibility a minimum of 3 hours of college credit tuition free.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS – WEB DESIGN (GCW) <i>Course #6662, 6664</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>Can you imagine life without Internet? No business today can! In Web Design, you'll get an overview of essential disciplines found in web development and the skills necessary to design, develop and create a professional website every business needs today. Although this is not a programming course, HTML and CSS core coding principles are covered. You'll learn about Internet history, information architecture, site mapping and wireframe development, user experience (UX), search engine optimization (SEO), and develop fluency with Dreamweaver, HTML and CSS. This course is highly recommended for students planning to enter a college majors related to Entrepreneurship, Computer Science, Web Design/Development, New Media Studies, or Graphic Design.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF). Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS – WEB DESIGN HONORS (GCW) <i>Course #6667, 6668</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>The core curriculum for this course is similar to Web Design #6662, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>Prerequisite: Graphic Communications Fundamentals (GCF). Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS –GAME DESIGN HONORS (GGD) <i>Course #6681</i> Full year Credit: 1.0</p> <p>Supply Fee: \$10.00</p>	<p>In Game Design, you'll use a game engine and visual programming to learn about character design, level design, interface design, gameplay best practices and beta testing procedures. As you learn, you'll create a variety of original 2D arcade-style games you design yourself. The class culminates by developing an original multi-level game of your own design while learning team building, leadership and complex project management skills. Game Design is taught as an Honors course and earns honors credit. Therefore, expectations for the course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college majors related to Computer Science, Game Design/Development, or New Media Studies.</p> <p>Prerequisite: Graphic Communications Fundamentals (GCF). Open to grades 10, 11, and 12.</p>

TECHNOLOGY EDUCATION DEPARTMENT

<p>GRAPHIC COMMUNICATIONS – PRINT DESIGN (GCPD) <i>Course #6650, 6651</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>Print Design covers essential skills used in producing printed publications such as Devil's Advocate (newspaper), El Diablo (yearbook), Solstice (art & literacy magazine) and is especially recommended for students seeking staff editorial positions. In Print Design you'll learn to design, layout and prepare posters, brochures, and magazine spreads for printed publication. You'll learn about typography and typographic controls, image preparation, creation of master pages, paragraph and character styles, document pre-flight, and key design and layout principles. Development of fluency with Adobe InDesign is emphasized. This course is highly recommended for motivated students planning to enter a college majors related to Business, Marketing, Entrepreneurship, Journalism, Graphic Design, and Graphic Communications.</p> <p>This course is also run as a Dual Credit class with Moraine Valley Community College with the possibility a minimum of 3 hours of college credit tuition free.</p> <p>Prerequisite: GCF or Journalism 1 (J1 taken concurrently with Department Approval) Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS – PRINT DESIGN HONORS (GCPD) <i>Course #6652, 6653</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>The core material for this course is similar to Desktop Publishing #6640, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>This course is also run as a Dual Credit class with Moraine Valley Community College with the possibility a minimum of 3 hours of college credit tuition free.</p> <p>Prerequisite: Graphic Communications Fundamentals (GCF) or Journalism 1 (J1 taken concurrently with Department Approval). Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS - ADVANCED GRAPHICS (GCA) <i>Course #6660, 6665</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>This student-centered course is designed for those who wish to apply the skills learned in their study of Graphic Communications more deeply to real world projects. Students will focus on several areas of personal interest and develop real world products in a client-project manager arrangement. The outcome of this course is a comprehensive electronic portfolio for use in many college and university admission process.</p> <p>An Honors option is available for this course. Expectations for the Honors option are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>Prerequisite: Graphic Communications Fundamentals (GCF) and one of the following: GCW, GCMM, GCDP. This course may be repeated with Department Chair approval. Students who elect to repeat the course will work with the instructor to create an individualized curriculum. Open to grades 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS – ADVANCED GRAPHICS HONORS (GCA) <i>Course #6666, 6669</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>The core material for this course is an extension of Advanced Graphics #6660/6665; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class and significantly more portfolio requirements. This course is highly recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>Prerequisite: Graphic Communications Fundamentals (GCF) and one of the following: GCW, GCG, GCDP, and Department Approval. This course may be repeated with Department Chair approval. Students who elect to repeat the course will work with the instructor to create an individualized curriculum. Open to grades 10, 11, and 12.</p>

TECHNOLOGY EDUCATION DEPARTMENT

<p>GRAPHIC COMMUNICATIONS -INDEPENDENT STUDY (GCIS) <i>Course #6905, 6906</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$10.00</p>	<p>This course is intended for students who have exhausted other course offerings and wish to further skills learned in the Graphic Communications program in an independent atmosphere.</p> <p>Prerequisite: Departmental Approval. Open to grades 11 and 12.</p>
PHOTOGRAPHY PROGRAM	
<p>BASIC PHOTOGRAPHY <i>Course #6691, 6692</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$35.00</p>	<p>Basic photography is for students interested in learning the techniques necessary to produce technically correct and aesthetically pleasing photographs. Digital and film capture of images will be explored. Areas of study will include, but are not limited to, the composition of a good photograph; the processing of black and white photographic materials; and proper application of photographic equipment and supplies. Photographic equipment and supplies will be provided along with cameras for students who do not have access to a Single Lens Reflex (SLR) camera.</p> <p>Prerequisites: None. Open to grades 9, 10, 11, and 12.</p>
<p>DIGITAL COLOR PHOTOGRAPHY <i>Course #6701, 6702</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$35.00</p>	<p>This course is for students interested in the modern methods of Digital Color Photography. The student will use a digital camera to capture images. After capture, photographs will be produced in the digital darkroom using a computer and Photoshop software. Areas of study include, but are not limited to, the principles of color and light; elements of a good photograph; capturing images with a digital camera; editing a photograph for presentation with Photoshop; printing a digital file in color; and preparing a photograph for display. The studio will be used to further the use of shade and shadow, light ratios, and photographic composition techniques. Still life and portrait techniques will be explored. Equipment and supplies will be furnished. Cameras are available for students who do not own or have access to a digital camera.</p> <p>Prerequisite: Basic Photography. Open to grades 9, 10, 11, and 12.</p>
<p>DIGITAL COLOR PHOTOGRAPHY HONORS <i>Course #6703, 6704</i> 1st or 2nd semester Credit: 0.5</p> <p>Supply Fee: \$35.00</p>	<p>Beyond the regular advanced photography content, additional projects and assignments will require the selection of a concentration and/or theme by the student. The selected theme will necessitate greater depth, complexity, and rigor to produce higher-level photographs. Expectations for this class will require extra lab work outside of class. This class is recommended for highly motivated photography students looking to add meaningful pictures to their portfolio.</p> <p>Prerequisite: Basic Photography. Open to grades 9, 10, 11, and 12.</p>
<p>ADVANCED PHOTOGRAPHY <i>Course #6812</i> 2nd semester Credit: 0.5</p> <p>Supply fee: \$40.00</p>	<p>In this advanced level course, students will be expected to improve upon their current level of photographic ability. Students will have the opportunity to explore digital and film capture of images. In terms of technique, students will be introduced to different camera formats and the zone system (a procedure which will allow students to make more carefully controlled photographic prints.) Additionally, some non-traditional films, papers, and emulsions will be introduced. In terms of content, through class assignments and independent work, students will further their use of photographic medium to more effectively articulate ideas. Students will have the opportunity to work with black and white film, color film, infrared film, and digital cameras to capture images. Students will be expected to properly display and critique their photographic work.</p> <p>Prerequisites: Basic Photography and Digital Color Photography with instructor approval. Open to grades 10, 11, and 12.</p>

TECHNOLOGY EDUCATION DEPARTMENT

<p>ADVANCED PHOTOGRAPHY HONORS <i>Course #6814</i> 2nd semester Credit: 0.5</p> <p>Supply fee: \$40.00</p>	<p>Beyond the regular advanced photography content additional projects and assignments will require the selection of a concentration and or theme by the student. The selected theme will necessitate the demonstration of greater photographic complexity, and an advanced understanding of light to produce higher-level photographs. Expectations for this class will require extra lab work outside of class. This class is recommended for highly motivated photography students looking to add meaningful well-composed pictures to their portfolio.</p> <p>Prerequisites: Basic Photography and Color Photography with instructor approval. Open to grades 10, 11, and 12.</p>
<p>INDEPENDENT STUDY - PHOTOGRAPHY <i>Course #6907, 6908</i> Credit: 0.5</p> <p>Supply Fee: \$40.00</p>	<p>This course is designed for students who have completed course sequence in photography program and desire further independent course work.</p> <p>Prerequisite: Departmental Approval. Open to grades 11 and 12.</p>
<p>DIGITAL VIDEO PRODUCTION</p>	
<p>DIGITAL VIDEO PRODUCTION <i>Course# 9201, 9202</i> 1st or 2nd semester Credit: 0.5</p>	<p>Digital Video Production is designed to provide students with the skills needed for a career in the technical aspects of media production. Instruction will include camera operations, audio and video editing, sound and lighting techniques, as well as audio mixing. Students will learn to operate video recording equipment; specifically, video/digital cameras, microphones, lighting/grip equipment and other production equipment used in the audio visual production of media. Digital Video Projection class is a team-based environment where students will create a variety of projects with expectations increasing as skills and knowledge are perfected during the semester.</p> <p>Prerequisite: None. Open to all students grades 9, 10, 11, and 12. Course may be repeated with permission of Department Chair.</p>
<p>WOODS</p>	
<p>WOODS I <i>Course#6771</i> Credit: 0.5</p> <p>Supply Fee: \$47</p>	<p>This introductory course to modern woodworking will allow students to help plan, design, and create at least three assigned wood projects using various types of wood. In addition students will develop and practice safety in a wood shop laboratory.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12. This course is taught at Hinsdale South, only, and Central students would need to provide their own transportation to and from South. Also, Central students can enroll, but would need to take a study hall adjacent to the course to allow for travel.</p>
<p>WOODS II <i>Course#6780</i> Credit: 1.0</p> <p>Supply Fee: \$137</p>	<p>This follow-up course to Woods I will allow students to further their knowledge of woodworking by planning and building more advanced projects. In addition, students will use more technical set-ups to build four projects: three assigned and one student choice.</p> <p>Prerequisite: Woods I and Department Chair approval. Open to grades 10, 11, and 12. This course is taught at Hinsdale South, only, and Central students would need to provide their own transportation to and from South. Also, Central students can enroll, but would need to take a study hall adjacent to the course to allow for travel.</p>
<p>WOODS III <i>Course#6790</i> Credit: 1.0</p>	<p>This is an advanced woodworking course utilizing all of the information from Woods I and II. Students will design, plan and build a project of their own, consistent with their abilities, interest, and time. In addition, students will have the opportunity to design and build projects for Hinsdale South High School. A fee will be applied as needed depending on projects built.</p> <p>Prerequisite: Woods II and Department Chair approval. Open to grades 11 and 12. This course is taught at Hinsdale South, only, and Central students would need to provide their own transportation to and from South. Also, Central students can enroll, but would need to take a study hall adjacent to the course to allow for travel.</p>

TECHNOLOGY CENTER OF DUPAGE

TECHNOLOGY CENTER OF DUPAGE (TCD)

Technology Center of DuPage (TCD) prepares juniors and seniors for college and a career through 19 advanced career and technical education electives. It is operated by joint agreement among 14 member high school districts, including District #86.

Students spend part of each school at the TCD campus, located at 301 S. Swift Road between North Avenue and Army Trail Road in Addison. Transportation to and from TCD is provided by District #86.

Opportunities through TCD include:

Dual credit (both high school and free, transferable college credit at the same time)
Available industry certifications or licenses
Career exploration and development before making important college decisions.

The only cost to the student is a flat participation fee of \$100 (exception: Cosmetology – see the TCD website for information). Check with your counselor for any fees added by Hinsdale Central High School.

For further information, students should contact their counselor, take the TCD field trip in the fall, read the TCD program guide, or visit the TCD website (www.tcdupage.org) for complete information about the following electives:

TCD PROGRAMS

COMMUNICATION

Computer Information Systems & Game Design
Multimedia & Television Production

HUMAN SERVICES

Cosmetology
Criminal Justice
Early Childhood Education & Care
Fire Science
Emergency Medical Technician
Healthcare Foundations
Medical Terminology & Healthcare Careers
Nursing Assistant Training Program
Professional Cooking, Baking & Service

MANUFACTURING/INDUSTRIAL

Construction Trades
Heating, Ventilation, Air Conditioning (HVAC) & Residential Wiring
Precision Engineering & Design Technology (NEW)
Welding Technology

STEM (Science, Technology, Engineering, Math)

Electronics Technology

PLTW Pathway to Engineering courses:

- Introduction to Engineering Design (IED)
- Principles of Engineering (POE)
- Civil Engineering & Architecture (CEA)
- Computer Science Principles (CSP)
- Digital Electronics (DE)
- Engineering Design & Development (EDD)

TRANSPORTATION

Auto Body Repair & Refinishing
Automotive Technology

TECHNOLOGY CENTER OF DUPAGE

TECHNOLOGY CENTER OF DUPAGE (TCD) 2019 - 2020	
TECHNOLOGY CENTER OF DUPAGE PROGRAMS <i>Course # 9009(AM),9010(PM)</i> Credit: 3.0	The requirements and objectives associated with the specific Technology Center of DuPage (TCD) programs listed on the previous page vary greatly. Students who wish to obtain further information about a particular program and/or wish to register for a TCD program must see their counselor. All students must fill out a separate TCD form with parent signature and return to their counselor. Prerequisite: None. Open to grades 11 and 12.

TCD Enrollment Information

TCD offers advanced career and technical education electives for the District #86 students serious about pursuing one of the available career pathways. The focus is on college and career readiness through applied academics, workplace skill development, and work-based learning experiences, as well as identifying and preparing for the postsecondary education critical for success and advancement in the chosen career pathway. See the TCD website for program information, recommendations, college credit opportunities, available industry certifications, and course syllabi: www.tcdupage.org

Enrollment at TCD is available junior year, senior year, or both. Programs may be taken one or two years, unless otherwise noted. Please talk to your counselor regarding enrollment criteria, including possible course prerequisites, established by District #86.

Listed on the next page are programs offered at TCD as well as District #86 pre-requisites for enrolling in the program. All TCD courses will satisfy the District #86 graduation requirement in Elective Arts. Check with your counselor for any academic credit that specific TCD programs can also fulfill. A maximum of 3.0 units of credit can be earned yearly through TCD course work. See www.tcdupage.org for information about each program's college credit opportunities.

TECHNOLOGY CENTER OF DUPAGE

CAREER CLUSTER TCD Program(s)	RECOMMENDATIONS AND/OR PRE-REQUISITES
COMMUNICATION	
Computer Information Systems & Game Design	
Multimedia & Television Production	
HUMAN SERVICES	
Cosmetology (1 or 2 years; 2 years recommended)	
Criminal Justice (1 or 2 years)	
Early Childhood Education & Care (1 or 2 years)	
Fire Science (1 or 2 years)	
Emergency Medical Technician (1 or 2 years) – EMT available for seniors only	
Healthcare Foundations (1 year)	
Medical Terminology & Healthcare Careers (1 year)	
Nursing Assistant Training Program (1 year)	
Professional Cooking, Baking & Service (1 or 2 years)	
MANUFACTURING / INDUSTRIAL	
Construction Trades (1 or 2 years)	
HVAC & Residential Wiring (1 or 2 years)	
Precision Engineering & Design Technology (1 or 2 years)	
Welding Technology (1 or 2 years)	
STEM (Science, Technology, Engineering, Math)	
Electronics Technology (1 or 2 years)	Non-PLTW
Pathway to Engineering (curriculum developed by Project Lead the Way – PLTW.org) Each course is one semester unless noted otherwise –choose two courses per year	
Introduction to Engineering Design (IED)*	Algebra 1 and Geometry recommended
Principles of Engineering (POE)*	Algebra 1 and Geometry recommended
Civil Engineering & Architecture (CEA)*	IED and POE and concurrent enrollment in Advanced Algebra and/or Physics recommended
Computer Science Principles (CSP)	Algebra 1 and Geometry recommended
Digital Electronics (DE) *	IED and POE and concurrent enrollment in Advanced Algebra and/or Physics recommended
Engineering Design & Development (EDD)* This is a one-year capstone course which may be taken concurrently with CEA and DE.	IED/POE, and CEA or DE; concurrent enrollment in Advanced Algebra and Physics recommended
TRANSPORTATION AND LOGISTICS	
Auto Body Repair and Refinishing	
Automotive Technology	

*These are courses offered in the Pathway to Engineering program. Introduction to Engineering Design and Principles of Engineering are foundation courses offered for the first year. Second year students take one specialized course and the capstone course (EDD). Please see the TCD website, www.tcdupage.org for further information.

WORLD LANGUAGES DEPARTMENT

WORLD LANGUAGES DEPARTMENT

World Languages

Maggie Ahern, Design

“If you talk to a man in a language he understands, that goes to his head. If you talk to him in his language that goes to his heart.” -Mandela

PHILOSOPHY:

The World Language Department strives to contribute to the development of well-rounded, multi-dimensional students who have both knowledge and appreciation of world cultures and civilization as well as a tolerance and acceptance of the cultural differences of various peoples. Furthermore, we hope to prepare our students to be able to participate in the global community. As students become immersed in learning a new language and culture, they are able to better understand how others view the world.

EARNING CREDITS:

High School District 86 requires the successful completion of two Elective Arts credits. Taking a World Language will successfully fulfill one of those credits. Two years of the same language will fulfill the entrance requirement of many state public universities in Illinois. Most other universities require World Language study for admission and may require it for graduation from specific degree programs. High school students preparing for college should include one or more world languages in their preparation. Two or more world languages may be taken simultaneously. The latest research indicates that studying two languages at the same time is beneficial and that world language study has positive effects on a student's English language skills. Completing the third and fourth year in a sequence significantly improves achievement and fluency. Etymology, a semester course, is highly recommended to all students who wish to increase their knowledge and understanding of vocabulary.

SEQUENCE OF STUDY:

Students entering ninth grade with previous world language experience can complete the equivalent of five or six years of high school work, which may include Advanced Placement work. Students who complete the upper levels of a language often test out of the world language requirements, receive college credit, and/or are placed in advanced language courses in college. A sequence of honors level courses is available in all languages offered by the Department. The first semester of a language must be passed before a student may take the second semester of the same language. Credit must be earned in both semesters of one level of a language before advancing to the next level.

SEAL OF BILITERACY:

As seniors, students have an opportunity to earn the Seal of Biliteracy. The Illinois State Board of Education recognizes students for earning proficiency in English and one additional language. An official seal will be placed on diplomas and official recognition will be documented on transcripts for those who qualify. Students who earn the Seal and attend public Illinois universities can receive college credit for their language study. Interested students should ask their teachers for more information.

WORLD LANGUAGES DEPARTMENT

ETYMOLOGY	
<p>ETYMOLOGY <i>Course #4371, 4372</i> 1st or 2nd Semester Credit: 0.5</p>	<p>Etymology is designed to increase one’s knowledge and understanding of English vocabulary through the study of the most important Greek and Latin roots. Students learn to discover meanings of words through recognition and interpretation of their elements. The skills learned in Etymology equip students to decode vocabulary words encountered elsewhere (transfer of knowledge). The ability to memorize is a necessary fundamental skill. Recommended for all qualifying students who would like to develop their vocabulary before taking standardized tests. NCAA approved course.</p> <p>Prerequisite: A grade of C or better in the world language most recently studied, or (if no world language) consent of the department chair. Open to grades 9, 10, 11, and 12, and especially recommended to sophomores.</p>
FRENCH	
<p>FRENCH 1 <i>Course #4110</i> Full year Credit: 1.0</p>	<p>French 1 is an introduction to the French language and French-speaking cultures. An immersive listening and speaking experience based on everyday situations is provided. Through consistent daily use of French, students actively engage in a variety of structured activities, interactive conversations, games, and short presentations that develop their basic language skills of listening, speaking, reading, and writing. Though this is a beginning level course, students are expected to use French to the extent possible. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>FRENCH 1 HONORS <i>Course #4115</i> Prerequisite: Yes Credit: 1.0 Grade Offered: 9-12</p>	<p>In French I Honors the student will be introduced to the French language and culture. The sequential core material for this course is the same as French I. The pace is accelerated; the breadth and scope of the coverage is expanded, and material is added in order to allow for more investigation of the language and culture. Furthermore, French 1 Honors students are expected to speak as much French as possible in class. NCAA approved course.</p> <p>Prerequisite: This class is for students who have not previously studied French. Departmental Approval or recommendation of the junior high school teacher. Students who have taken French in middle school may not register for this course. Open to grades 9, 10, 11, and 12.</p>
<p>FRENCH 2 <i>Course #4120</i> Full year Credit: 1.0</p>	<p>This course is a continuation of the first level course, developing more complex reading, writing, speaking, and listening skills with a goal of increased grammatical accuracy. Students are expected to function in French to a greater extent, and all four skills are evaluated. Cultural topics will be explored throughout the year. This course is conducted in French to a greater extent than is French I. NCAA approved course.</p> <p>Prerequisite: A grade of C or better in French 1, or recommendation of the junior high school teacher. Open to grades 9, 10, 11, and 12.</p>
<p>FRENCH 2 HONORS <i>Course #4125</i> Full year Credit: 1.0</p>	<p>This course is a continuation of the first level course, developing more complex reading, writing, speaking, and listening skills with a goal of increased grammatical accuracy. Although the core material for this course is the same as French II, this course is accelerated and allows for more investigation of the language and culture. The materials used in this course are authentic sources in order to further develop students’ proficiency. All modes of communication are practiced and assessed regularly. This course is designed for students who have had success in French I and who demonstrate the characteristics of a self-directed and motivated language learner. This course is conducted extensively in French. NCAA approved course.</p> <p>Prerequisite: Departmental Approval or recommendation of the junior high school teacher. Open to grades 9, 10, 11, and 12.</p>
<p>FRENCH 3 <i>Course #4130</i> Full year Credit: 1.0</p>	<p>This course provides more extensive development and practice in listening, speaking, reading, and writing as well as increased awareness of and focus on French-speaking cultures, while honing grammar skills. New thematic topics and grammar concepts are introduced to students. All modes of communication are practiced and assessed regularly. This course is conducted in French to a greater extent than is French II. NCAA approved course.</p> <p>Prerequisite: A grade of C or better in French 2. Open to grades 9, 10, 11, and 12.</p>

WORLD LANGUAGES DEPARTMENT

<p>FRENCH 3 HONORS <i>Course #4135</i> Full year Credit: 1.0</p>	<p>In this course previously learned skills are enhanced. A thematic approach is used to integrate advanced learning in speaking, writing, reading, and listening. The sequential core material for this course is the same as French III. The pace is accelerated; the breadth and scope of the coverage is expanded. Material is added in order to allow more investigation of the language and culture. The course is conducted entirely in French; students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11, and 12.</p>
<p>FRENCH 4 <i>Course #4140</i> Full year Credit: 1.0</p>	<p>This course is a continuation of the third level course, developing more complex reading, writing, speaking, and listening skills with a goal of increased grammatical accuracy. French IV provides an opportunity for students to develop their fluency through intensive conversational practice and grammar study. Culture is studied through reading, viewing, and listening to a variety of authentic resources. Students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. NCAA approved course.</p> <p>Prerequisite: A grade of C or better in French 3. Open to grades 10, 11, and 12.</p>
<p>FRENCH 4 HONORS <i>Course #4145</i> Full year Credit: 1.0</p>	<p>French 4 Honors is the study of the history and art of France throughout the centuries (pre-history to present times). Class activities include discussions of prepared reading selections, oral presentations, and the intensive study of one film. The course of study covers systematic grammar review and more extensive composition practice than French 4. Inasmuch as this course leads sequentially to the Advanced Placement French Language & Culture course, the course content is supplemented with more challenging reading materials and special emphasis is put on oral proficiency. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>
<p>FRENCH 5 HONORS <i>Course #4150</i> Full year Credit: 1.0</p>	<p>French 5 Honors is a course that integrates the study of literature, advanced grammar, advanced oral proficiency, and current events in France. The readings consist of short stories, and a novel from the 20th century organized around the themes of human relationships, moral dilemmas and existentialism. Class activities include discussions of texts, authentic newspaper and magazine articles in French, oral presentations, the study of one film per semester, and improving grammar and writing proficiency. The course is conducted exclusively in French. NCAA approved course.</p> <p>Prerequisite: A grade of C or better in French 4 or 4 Honors. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT FRENCH LANGUAGE & CULTURE <i>Course #4155</i> Full year Credit: 1.0</p>	<p>Advanced Placement French Language & Culture is conducted exclusively in French utilizing authentic materials from the French-speaking cultures. Students have regular and ample opportunities to improve all four language skills and to prepare for the AP Language and Culture Exam. Course content comes from authentic sources produced by native speakers intended for a native speaker audience. This advanced placement course provides intensive and extensive reading, discussion, and analysis in French of diverse sources. The analysis of these sources will specifically target the following AP themes: Personal and Public Identities, Family and Community, Contemporary Life, Global Challenges, Science and Technology, and Beauty and Aesthetics. Language skills are not taught in isolation, but rather integrated to communicate about a wide range of topics and media. The class prepares students to take the Advanced Placement Exam in French Language & Culture. This course is conducted entirely in French; students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 11 and 12. Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The 2019-2020 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p>

WORLD LANGUAGES DEPARTMENT

GERMAN	
<p>GERMAN 1 <i>Course #4210</i> Full year Credit: 1.0</p>	<p>German I is an introduction to the German language and German-speaking cultures. An immersive listening and speaking experience based on everyday situations is provided. Through consistent daily use of German, students actively engage in a variety of structured activities, interactive conversations, games, and short presentations that develop their basic language skills of listening, speaking, reading, and writing. Though this is a beginning level course, students are expected to use German to the extent possible. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>GERMAN 1 HONORS <i>Course #4215</i> Full year Credit: 1.0</p>	<p>In German I Honors the student will be introduced to the German language and culture. The sequential core material for this course is the same as German I. The pace is accelerated; the breadth and scope of the coverage is expanded, and material is added in order to allow for more investigation of the language and culture. This course is conducted in German to a greater extent than is German I. Furthermore, German 1 Honors students are expected to speak as much German as possible in class. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11, and 12.</p>
<p>GERMAN 2 <i>Course #4220</i> Full year Credit: 1.0</p>	<p>This course is a continuation of the first level course, developing more complex reading, writing, speaking, and listening skills with a goal of increased grammatical accuracy. Students are expected to function in German to a greater extent, and all four skills are evaluated. Cultural topics will be explored throughout the year. This course is conducted in German to a greater extent than is German I. NCAA approved course.</p> <p>Prerequisite: A grade of C or better in German 1. Open to grades 10, 11, and 12.</p>
<p>GERMAN 2 HONORS <i>Course #4225</i> Full year Credit: 1.0</p>	<p>This course is a continuation of the first level course, developing more complex reading, writing, speaking, and listening skills with a goal of increased grammatical accuracy. Although the core material for this course is the same as German II, this course is accelerated and allows for more investigation of the language and culture. The materials used in this course are authentic sources in order to further develop students' proficiency. All modes of communication are practiced and assessed regularly. This course is designed for students who have had success in German I and who demonstrate the characteristics of a self-directed and motivated language learner. This course is conducted exclusively in German. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>
<p>GERMAN 3 <i>Course #4260</i> Full year Credit: 1.0</p>	<p>This course provides more extensive development and practice in listening, speaking, reading, and writing as well as increased awareness of and focus on German-speaking cultures, while honing grammar skills. New thematic topics and grammar concepts are introduced to students. All modes of communication are practiced and assessed regularly. This course is conducted in German to a greater extent than is German II. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11, and 12.</p>
<p>GERMAN 3 HONORS <i>Course #4265</i> Full year Credit: 1.0</p>	<p>In this course previously learned skills are enhanced. A thematic approach is used to integrate advanced learning in speaking, writing, reading, and listening. The sequential core material for this course is the same as German III. The pace is accelerated; the breadth and scope of the coverage is expanded. Material is added in order to allow more investigation of the language and culture. The course is conducted entirely in German; students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11, and 12.</p>

WORLD LANGUAGES DEPARTMENT

<p>GERMAN 4 <i>Course #4270</i> Full year Credit: 1.0</p>	<p>This course is a continuation of the third level course, developing more complex reading, writing, speaking, and listening skills with a goal of increased grammatical accuracy. German IV provides an opportunity for students to develop their fluency through intensive conversational practice and grammar study. Culture is studied through reading, viewing, and listening to a variety of authentic resources. Students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11, and 12.</p>
<p>ADVANCED PLACEMENT GERMAN LANGUAGE & CULTURE <i>Course #4275</i> Full year Credit: 1.0</p>	<p>Advanced Placement German Language & Culture is conducted exclusively in German utilizing authentic materials from the German-speaking cultures. Students have regular and ample opportunities to improve all four language skills and to prepare for the AP Language and Culture Exam. Course content comes from authentic sources produced by native speakers intended for a native speaker audience. This advanced placement course provides intensive and extensive reading, discussion, and analysis in German of diverse sources. The analysis of these sources will specifically target the following AP themes: Personal and Public Identities, Family and Community, Contemporary Life, Global Challenges, Science and Technology, and Beauty and Aesthetics. Language skills are not taught in isolation, but rather integrated to communicate about a wide range of topics and media. The class prepares students to take the Advanced Placement Exam in German Language & Culture. This course is conducted entirely in German; students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 11 and 12. Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The 2019-2020 AP exam fee is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p>
LATIN	
<p>LATIN 1 <i>Course #4310</i> Full year Credit: 1.0</p>	<p>Latin I is an introduction to the language, culture, and civilization of the Romans. Students begin by learning the unique demands of an inflected language and are then introduced to Latin morphology, the declensions of its nouns and the conjugation of its verbs. Gradually, elements of syntax and grammar introduce the students to the fundamental requirements needed to read Latin. Students actively engage in a variety of structured activities, games, and short presentations that develop their basic language skills in reading, translating, and writing in Latin. Roman and Greek mythology and Roman daily life comprise the cultural component of the course. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>LATIN 1 HONORS <i>Course #4315</i> Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as Latin I. The pace is accelerated; the breadth and scope of the course are expanded and material is added to explore the language more deeply. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11, and 12.</p>
<p>LATIN 2 <i>Course #4320</i> Full year Credit: 1.0</p>	<p>This course reviews and builds on the grammatical and structural foundations established in Latin I. An emphasis is placed on reading and comprehending Latin. Students will learn intermediate grammar and read longer passages in Latin. The cultural focus of the course will be the formation and development of the Roman civilization with an emphasis on key figures and events in Roman history. NCAA approved course.</p> <p>Prerequisite: A grade of C or better in Latin 1. Open to grades 10, 11, and 12.</p>

WORLD LANGUAGES DEPARTMENT

<p>LATIN 2 HONORS <i>Course #4325</i> Full year Credit: 1.0</p>	<p>This course reviews and builds on the grammatical and structural foundations established in Latin 1. An emphasis is placed on reading and comprehending Latin. Students will learn all of the advanced grammar of the language and move on to their first experiences with unadulterated Latin. Students will deepen their knowledge of Latin vocabulary through class work and assessments. The cultural focus will be on the evolution of the Roman state from monarchy to Republic and Republic to Empire with an emphasis on key figures and events in Roman history. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11, and 12.</p>
<p>LATIN 3-4 LATIN LITERATURE <i>Course #4340</i> Full year Credit: 1.0</p> <p>Offered 2020-2021</p>	<p>This course is a survey of Latin literature sampling several genres including letters, oratory, epigram, history, narrative, philosophy, lyric and elegiac poetry. The survey is designed to further develop students' translation abilities as they review essential grammar and vocabulary. The work will explore the boundaries of each genre and its specific application. Attention will also be paid to the larger historical context of the authors and their works to provide students with an upper level understanding of Roman thought and custom. NCAA approved course.</p> <p>Prerequisite: Latin 2 and departmental approval. Latin 3-4 Latin Literature (4340) and Latin3-4 Caesar/Vergil (4360) are offered in alternate years only. In 2019-2020 Latin 3-4 Caesar/Vergil (4340) will be offered. In 2020-2021 Latin 3-4 Latin Literature will be offered. Open to grades 11 and 12.</p>
<p>LATIN 3-4 CAESAR/VERGIL <i>Course #4360</i> Full year Credit: 1.0</p> <p>Offered 2019-2020</p>	<p>This course will provide a broad exposure to Vergil's <u>Aeneid</u> and Caesar's <u>Commentarii de Bello Gallico</u>. The course works to establish the larger political, historical, and literary contexts through which these literary works can best be understood. Special attention will be paid to the authors' use of rhetorical and poetic figures of speech, diction, imagery, manipulations of the Latin language, as well as the larger themes of both works. NCAA approved course.</p> <p>Prerequisite: Latin 2 and departmental approval. Latin 3-4 Latin Literature (4340) and Latin 3-4 Caesar/Vergil (4360) are offered in alternate years only. In 2019-2020 Latin 3-4 Caesar/Vergil (4360) will be offered. In 2020-2021 Latin 3-4 Latin Literature (4340) will be offered. Open to grades 11 and 12.</p>
<p>LATIN LITERATURE HONORS <i>Course #4355</i> Full year Credit: 1.0</p> <p>Offered 2020-2021</p>	<p>This course is a survey of Latin literature and it also introduces students to the intensive study of major Latin authors, including Cicero, Ovid, and Catullus. The survey is designed to further develop students' translation abilities as they review essential grammar and vocabulary. Attention will also be paid to the larger historical context of the authors and their works. This course alternates yearly with AP Latin. NCAA approved course.</p> <p>Prerequisite: Latin 2 and departmental approval. Latin Literature Honors (4355) and AP Latin Caesar/Vergil (4365) are offered in alternate years only. In 2018-2019 AP Latin Caesar/Vergil (4365) will be offered. In 2018-2019 Latin Literature Honors will be offered. Open to grades 11 and 12. This course may be offered for dual credit through Loyola University Chicago. More information will be provided to interested students at the beginning of 2020-2021 school year.</p>

WORLD LANGUAGES DEPARTMENT

<p>ADVANCED PLACEMENT LATIN CAESAR/VERGIL <i>Course #4365</i> Full year Credit: 1.0</p> <p>Offered 2019-2020</p>	<p>This course follows the AP Latin syllabus prescribed by the College Board. Students will read required selections from Caesar’s <i>De Bello Gallico</i> and Vergil’s <i>Aeneid</i> as well as other authors. The course will necessarily focus on the stylistic qualities of poetry and prose, Vergil and Caesar, and the historical context of each work. Attention will also center on how the two authors approach the issues of Roman imperialism, the consequences of war, the portrayal of non-Romans, the nature of leadership, and the role of a state-driven propaganda among others. This course alternates yearly with Latin Literature Honors. NCAA approved course.</p> <p>Prerequisite: Latin 2 and departmental approval. Latin Literature Honors (4355) and AP Latin (4365) are offered in alternate years only. In 2019-2020 AP Latin Caesar/Vergil (4365) will be offered. In 2018-2019 Latin Literature Honors will be offered. Open to grades 11 and 12. Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The <u>2019-2020 AP exam fee</u> is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy. Pending confirmation of approval, this course may be offered for dual credit through Loyola University Chicago. More information will be provided to interested students at the beginning of 2019-2020 school year.</p>
SPANISH	
<p>INTRODUCTION TO SPANISH <i>Course #4505</i> Full year Credit: 1.0</p>	<p>Introduction to Spanish 1 is a first year Spanish course designed to emphasize Spanish 1 vocabulary, grammatical concepts, and foreign language study skills in order to provide necessary and additional support to new language learners. The course is designed to provide students with vocabulary and grammar acquisition skills that are crucial to the student’s success in future second language study. The course will also focus on developing student responsibility for his or her own learning. Students will learn organization and study skills that will support successful study of a language. Students who successfully complete this course will be able to continue and complete their study of Spanish 1 the following year. The textbook for this course is <u>Realidades Level 1</u>.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12. This course is not open to students who have previously taken Spanish courses. This course is not recommended for native Spanish speakers.</p>
<p>SPANISH 1 <i>Course #4510</i> Full year Credit: 1.0</p>	<p>Spanish I is an introduction to the Spanish language and Spanish-speaking cultures. An immersive listening and speaking experience, based on everyday situations is provided. Through consistent daily use of Spanish, students actively engage in a variety of structured activities, interactive conversations, games, and short presentations that develop their basic language skills of listening, speaking, reading, and writing. Though this is a beginning level course, students are expected to use Spanish to the extent possible. NCAA approved course.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>
<p>SPANISH 2 <i>Course #4520</i> Full year Credit: 1.0</p>	<p>This course is a continuation of the first level course, developing more complex reading, writing, speaking, and listening skills with a goal of increased grammatical accuracy. Students are expected to function in Spanish to a greater extent, and all four skills are evaluated. Cultural topics will be explored throughout the year. This course is conducted in Spanish to a greater extent than is Spanish I. NCAA approved course.</p> <p>Prerequisite: A grade of C or above in Spanish 1 or recommendation of the junior high teacher. Open to grades 9, 10, 11, and 12.</p>

WORLD LANGUAGES DEPARTMENT

<p>SPANISH 2 HONORS <i>Course #4525</i> Full year Credit: 1.0</p>	<p>This course is a continuation of the first level course, developing more complex reading, writing, speaking, and listening skills with a goal of increased grammatical accuracy. Although the core material for this course is the same as Spanish II, this course is accelerated and allows for more investigation of the language and culture. The materials used in this course are authentic sources in order to further develop students' proficiency. All modes of communication are practiced and assessed regularly. This course is designed for students who have had success in Spanish I (or the junior high equivalent) and who demonstrate the characteristics of a self-directed and motivated language learner. This course is conducted extensively in Spanish. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Recommendation of the junior high teacher for freshmen. Open to grades 9, 10, 11 and 12.</p>
<p>SPANISH 3 <i>Course #4530</i> Full year Credit: 1.0</p>	<p>This course provides more extensive development and practice in listening, speaking, reading, and writing as well as increased awareness of and focus on Spanish-speaking cultures, while honing grammar skills. New thematic topics and grammar concepts are introduced to students. All modes of communication are practiced and assessed regularly. This course is conducted in Spanish to a greater extent than is Spanish II. NCAA approved course.</p> <p>Prerequisite: A grade of C or better in Spanish 2. Open to grades 9, 10, 11, and 12.</p>
<p>SPANISH 3 HONORS <i>Course #4535</i> Full year Credit: 1.0</p>	<p>In this course previously learned skills are enhanced. A thematic approach is used to integrate advanced learning in speaking, writing, reading, and listening. The sequential core material for this course is the same as Spanish III. The pace is accelerated; the breadth and scope of the coverage is expanded. Material is added in order to allow more investigation of the language and culture. The course is conducted entirely in Spanish; students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11, and 12.</p>
<p>SPANISH 4 <i>Course #4540</i> Full year Credit: 1.0</p>	<p>This course is a continuation of the third level course, developing more complex reading, writing, speaking, and listening skills with a goal of increased grammatical accuracy. Spanish IV provides an opportunity for students to develop their fluency through intensive conversational practice and grammar study. Culture is studied through reading, viewing, and listening to a variety of authentic resources. Students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. NCAA approved course.</p> <p>Prerequisite: A grade of C or better in Spanish 3. Open to grades 10, 11 and 12.</p>
<p>SPANISH 5 HONORS: SPANISH STUDIES <i>Course #4545</i> Full year Credit: 1.0</p>	<p>This course surveys the literature, history, culture, and thought of Spain. Through a variety of readings, class discussions, and communicative activities this course also facilitates students' language skills in the three modes of communication (presentational, interpersonal, and interpretive). In addition, grammar review throughout the year facilitates accuracy in student communication. The class is conducted entirely in Spanish, and students are expected to communicate in the target language. This course is designed for students who have had success in Spanish 3H, Spanish 4, Latin American Studies, or AP Spanish Language and Culture. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>
<p>SPANISH 5 HONORS: LATIN AMERICAN STUDIES <i>Course #4550</i> Full year Credit: 1.0</p>	<p>This course offers the opportunity to learn about Latin American cultures through historical readings, authentic literature, and films. The focus of this course is to increase students' understanding of the history and culture of Latin America while also improving fluency in oral and written communication skills through formal and informal speaking and writing activities. The class is conducted entirely in Spanish, and students are expected to communicate in the target language. This course is designed for students who have had success in Spanish 3H, Spanish Studies, or AP Spanish Language and Culture. NCAA approved course.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>

WORLD LANGUAGES DEPARTMENT

<p>ADVANCED PLACEMENT SPANISH LANGUAGE & CULTURE <i>Course #4555</i> Full year Credit: 1.0</p>	<p>Advanced Placement Spanish Language & Culture is conducted exclusively in Spanish utilizing authentic materials from Spanish-speaking cultures. Students have regular and ample opportunities to improve all four language skills and to prepare for the AP Language and Culture Exam. Course content comes from authentic sources produced by native speakers intended for a native speaker audience. This advanced placement course provides intensive and extensive reading, discussion, and analysis in Spanish of diverse sources. The analysis of these sources will specifically target the following AP themes: Personal and Public Identities, Family and Community, Contemporary Life, Global Challenges, Science and Technology, and Beauty and Aesthetics. Language skills are not taught in isolation, but rather integrated to communicate about a wide range of topics and media. The class prepares students to take the Advanced Placement Exam in Spanish Language & Culture. This course is conducted entirely in Spanish; students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. NCAA approved course.</p> <p>Prerequisite: Departmental approval. A grade of an A or a B in Spanish 3H, Spanish 4, Spanish Studies, Latin American Studies or AP Literature and Culture. Open to grades 11 and 12. Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The <u>2019-2020 AP exam fee</u> is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p>
<p>ADVANCED PLACEMENT SPANISH LITERATURE & CULTURE <i>Course #4565</i> Full year Credit: 1.0</p>	<p>The AP Spanish Literature course is based on those representative works required by the AP board for the AP Spanish Literature and Culture Exam. This course surveys the history and literature of Spain and Hispanic America in a chronological fashion relating each work to the 6 course themes and the historical context. All genres are represented and media sources are used regularly to assist in comprehension and analysis. Students are required to read and write outside of class, take part in classroom discussions, listening practices, present reports, and compose essays in order to prepare for the Advanced Placement exam in Spanish Literature and Culture. NCAA approved course.</p> <p>Prerequisite: Departmental approval. A grade of an A or a B in Studies, Latin American Studies or AP Spanish Language and Culture. Open to grades 11 and 12. Upon successful completion of this course, students have the option to take the Advanced Placement (AP) examination in early May. The <u>2019-2020 AP exam fee</u> is \$94 per exam. There may be additional district fees associated with the administration of AP exams, which is allowed by College Board policy.</p>
SIGN LANGUAGE	
<p>AMERICAN SIGN LANGUAGE I <i>Course #8070</i> CREDIT: 1.0</p>	<p>American Sign Language I is an introduction to American Sign Language and Deaf culture. An immersive performance based environment which includes interactive practice of the language with staff, peers and the use of technology, along with direct visual presentation of materials will be utilized. Students are actively engaged in expressive and receptive skills in ASL, understanding basic vocabulary, grammatical structures, and appropriate use of space and body. Deaf culture topics such as Hearing loss, Assistive technology, and Deaf perspectives are also covered. Attendance and participation are key to success in this class and students are expected to use ASL to the extent possible. NCAA approved course.</p> <p>This course is taught at Hinsdale South, only, and Central students would need to provide their own transportation to and from South. Also, Central students can enroll, but would need to take a study hall adjacent to the course to allow for travel.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12.</p>

WORLD LANGUAGES DEPARTMENT

**AMERICAN SIGN
LANGUAGE II**
COURSE #8080
CREDIT: 1.0

An immersive performance based environment which includes interactive practice of the language with staff, peers and the use of technology, along with direct visual presentation of materials. Students are actively engaged in advanced skills taught in the course which include expressive and receptive skills in ASL, understanding proper/conceptual vocabulary, grammatical structures, and appropriate use of space and body. Topics such as Interpreting, Classifiers, and a range of projects will be included. An understanding and respect for Deaf culture will be reinforced throughout the year. Attendance and participation are key to success. This class is conducted extensively in ASL.

This course is taught at Hinsdale South, only, and Central students would need to provide their own transportation to and from South. Also, Central students can enroll, but would need to take a study hall adjacent to the course to allow for travel.

Prerequisite: "C" or better in American Sign Language I. Open to grades 9, 10, 11, and 12.

REGISTRATION INFORMATION

2019 – 2020 COURSE SELECTION TIMELINE

<i>November</i>	Program of Studies Handbook Copies of Hinsdale Central’s inclusive curriculum book will be posted online. This information should stimulate initial conversations between parents and students regarding appropriate courses for next year. Registration information will be emailed to students and parents. Parents, please review this information with your son/daughter.
<i>Mid-November- first week in January 2019</i>	Curriculum Discussions Individual teacher/student informal advising discussions are held.
<i>January 9, 2019</i>	Eighth Grade Student and Parent Night, HC Gymnasium An informational program will be held for all parents and students to explain the curriculum and the course selection process. An electives fair will be hosted by departments and students to share specific details about elective courses. 6:00 - 7:00 PM Last names A-L 7:00 - 8:00 PM Last names M-Z
<i>January 14-17, 2019</i>	Class of 2021 Counselor Conferences for Current Sophomores Class of 2021 will meet individually with their counselors at an assigned time to finalize their course selections.
<i>January 18-25, 2019</i>	Class of 2020 Counselor Conferences for Current Juniors Class of 2020 will meet individually with their counselors at an assigned time to finalize their course selections. Individual appointments will be announced in English classes.
<i>January 29- February 1, 2019</i>	Class of 2022 Counselor Conferences for Current Freshman Class of 2022 will meet individually with their counselors at an assigned time to finalize their course selections.
<i>January 15, 17, 29, and February 4, 2019</i>	Eighth Grade Individual Registration Conferences Incoming Freshman, Class of 2023, conferences will take place in late January and early February at Hinsdale Central High School. These conferences will include student, parents and their high school counselor for 15 minute appointments. 15 minute phone conferences will also be available for those that aren’t able to meet in person. Phone Conference dates to be announced.
<i>February 2019</i>	Course verification can be viewed online. Students and parents will have the opportunity to view course requests online prior to registration appointments. Students should consult with their counselor regarding any concerns about a course change. (Additionally, Department Chair approval to enroll in a class will be required for any classes needing a prerequisite or an honors level course.) Requests for changes may be accommodated dependent upon class size and availability. All schedules will be finalized in late June. No schedule changes will be permitted without Administrative approval. Please Note: Student schedules ARE NOT finalized until the summer registration process.

Dear Students, Parents and Guardians:

The *Program of Studies Handbook* provides you with an overview of the courses offered here at Hinsdale South High School. It also serves as a comprehensive guide to graduation requirements, the grading system and other information directly related to your sons' and daughters' academic experience here at our high school. Our Guidance and Counseling staff is available to assist you in the process of designing a comprehensive four-year program tailored to the needs of each student.

Our belief is that student learning should be the center of all we do here at Hinsdale South. As a part of this focus, we require that all students take a minimum class load of six credits. This allows them to be actively engaged in the learning process for most of their school day.

Should you have any questions after reading through the information provided in this book please feel free to contact our Guidance Department at 468-4251. Your ideas and suggestions on how to continue to improve both our curriculum and our communication to you are welcome. We invite you to be our partners in providing the best education possible for the students of this community.

Sincerely,

Claudia M. Geocaris
Principal

General Information

Graduation Requirements

Each student must successfully complete the following course requirements in order to graduate from Hinsdale South High School. In addition, no student shall receive a certificate of graduation without passing a satisfactory examination on patriotism and principles of representative government, proper use of the flag, methods of voting and the Pledge of Allegiance. Each student must also take the Prairie State Achievement Exam (PSAE) in order to receive a regular high school diploma unless the student is exempt under state law.

To graduate, a student must earn a minimum of 24.0 credits and successfully meet the listed requirements. A given course cannot be used to satisfy a requirement in more than one area, with the exception of the “intensive writing” requirement.

Beginning with the class of 2010, state law mandates all students to earn two credits in courses designated as “intensive writing” courses. In this case, two credits of the 24 minimum credits may be earned in classes taken to fulfill the “intensive writing” requirement.

Department Requirements	Credit
English	4.0
Mathematics	3.0*
*Starting with the class of 2009, 3 years of Mathematics is required for graduation.	
*Starting with the class of 2010, 1 of the 3 years of Mathematics must be an Algebra course and 1 course must include Geometry content.	
Science	2.0
Social Studies	2.0
World Studies or World Studies Honors (1.0)	
U.S. History, American Studies or AP U.S. History (1.0)	
Elective Arts	2.0
A student can select from one of seven Elective Arts areas, including all courses in: Art, Business, Family & Consumer Sciences, Foreign Language, Music, Technology Education or TCD. A student may only declare one (1) credit per department/discipline to count towards this specific graduation requirement.	
Consumer Education	0.5
Consumer Economics	OR
Economics	Consumer Economics
Exploring Family and Consumer Sciences	Proficiency Test
AP Economics: Micro	
AP Economics: Macro	
Physical Education/Health	4.0
Health is a required course taken during sophomore year typically in tandem with one semester of Physical Education. Students have the option of enrolling in an additional semester of Physical Education during their sophomore year for an additional 0.5 credits.

General Information

Academic Load

Students must be enrolled in a minimum of six (6) courses per semester.

Adding/Dropping Courses

Failing students who drop a course after the 4th week will show an "F" on their permanent record. Students may add a course at the beginning of a semester if there is space available in the course. However, they may not drop a course and add another in its place. Requests to add a course must be made no later than the first week of the semester in which the course is to be added.

Advanced Placement Program

Advanced Placement (AP) courses are offered in seven departments: Art, English, Foreign Language, Mathematics, Music, Science and Social Studies. These courses adhere to the suggested College Board course descriptions and serve as the primary vehicle to prepare students for the AP examination in May. In addition to preparing students for the AP exam, AP courses allow students to experience the pace and intensity of a college-level course while still in high school. Although each college determines what AP examination grades it will accept for credit and/or Advanced Placement, the great majority of colleges accept scores of 3 or better and award the student credit in the subject matter tested (see www.collegeboard.com/ap/creditpolicy). In some cases, no credit is given, but the student begins their program of study at an advanced level. Please consult the course descriptions for the list of Advanced Placement courses in each of the aforementioned departments.

Articulated Credit at the College of DuPage

The College of DuPage awards articulated credit when learning experiences at the secondary level of instruction duplicate those at the post-secondary level. Articulated credit enables students to save time and avoid duplication of material already learned in high school. Articulated credit is awarded by and can be applied at the College of DuPage towards a C.O.D. certificate or two-year degree program.

Class Rank and Honor Roll

Grades earned in all courses, exclusive of Physical Education and Driver Education will be used to determine class rank and honor roll according to the following grade point system.

<u>Grade</u>	<u>Honors/Advanced Placement</u>	<u>Regular/General/Ed. Services/D H H</u>
A	6.0	5.0
B	5.0	4.0
C	4.0	3.0
D	2.0	2.0
F	1.0	1.0
I	1.0	1.0

Deans List and Honor Roll designation will include **all** courses **EXCEPT** Physical Education and Driver's Education, and will be determined by the following criteria:

Dean's List: 4.5 grade point average with no grade below a "C"

Honor Roll: 4.0 grade point average with no grade below a "D"

Honor Roll is based on the quarter grade point average, no incomplete grades, and a minimum of four (4) credit-earning courses. Class rank is determined by the cumulative grade point average and is recalculated after each semester's grades are posted. Honor Roll students become eligible for Dean's List recognition.

General Information

College Admission Requirements

Criteria for college admission differ greatly. The admission committees at various colleges and universities across the country consider, to varying degrees, the following:

- Type of high school courses actually taken when compared to the courses available in the high school
- Quality of the student's academic record
- Performance on college admission tests – SAT & ACT
- Development and maturity of the individual in areas outside the academic classroom

Students and parents are advised that the Illinois Board of Higher Education has adopted these entrance requirements for the state's public universities and baccalaureate transfer programs at community colleges:

English	<p>Four (4) years</p> <p>Course work should emphasize reading, writing, speaking, and listening (written and oral communication skills). Particularly important is emphasis on sentence structure, paragraph structure, systematic organization, and diction--word choice that is appropriate, clear and effective. Analysis of literature might include characteristics such as point of view, theme, setting, character, and style to help the student become more sensitive and appreciative as a reader.</p>
Mathematics	<p>Three (3) years (introductory through advanced algebra, geometry, trigonometry, or fundamentals of computer programming)</p> <p>Traditional preparation for college mathematics is a year each of Algebra I, Geometry, and Advanced Algebra, with a fourth year of advanced mathematics for engineering, science, and many business majors. Many colleges require a minimum of Algebra and Geometry. Acceptable computer science courses may include the study of a structured programming language and use of computing as a means to solve problems.</p>
Science	<p>Three (3) years of a laboratory science</p> <p>Traditional preparation for college is three years of laboratory science courses. Laboratory science courses include GeoPhysics, Earth Science, Physics, Chemistry, and Biology.</p>
Social Studies	<p>Three (3) years (emphasizing history and government)</p> <p>One year of United States History or a combination of United States History and American Government is required. Beyond history and government, acceptable social studies include Anthropology, Economics, Geography, Philosophy, Political Science, Psychology, and Sociology.</p>
Other	<p>Two (2) years in foreign language, music, or art.</p> <p>If foreign language is chosen, a minimum of two years of the same language is recommended and in some cases required. Some universities consider sign language as a foreign language, but most do not. Check with the college/university to which you are applying to verify specific entrance requirements.</p>

These admissions requirements, totaling 15 units of high school core course work, are in effect for freshmen entering Illinois public universities and baccalaureate transfer programs at community colleges. Courses used to meet admission requirements are those that are part of the high school's college preparatory curriculum and emphasize classroom or laboratory experience.

Colleges and universities will also establish specific criteria for provisional admission to baccalaureate and baccalaureate transfer programs for applicants who do not meet minimum high school course requirements and any other institutional requirements for regular admission. Each college or university will provide a plan describing options for students with specific course deficiencies and a means by which a deficiency can be remediated.

General Information

Early Graduation

Students may be able to utilize the early graduation option as prescribed by the State of Illinois, if they meet District 86 graduation requirements. This process will begin with the student's guidance counselor of record and a thorough review of transcript will take place. This recommendation will be submitted to the building principal for approval.

Earning Course Credit

Credit in full-year as well as semester courses is earned by semester. That is, students earn a .50 unit of credit for successful completion of each semester (.25 for Driver Education, Excel, and Staff Aide). Credit is earned by successfully completing all course requirements as established by the teacher. Excessive absences may result in removal from class and/or a loss of credit.

Excel Program

Excel is an academic support program where students meet in a structured environment to receive tutorial assistance in core academic areas along with study skills instruction. In this program, students are also shown how to study for classes and prepare for tests. As a result, students are required to use an assignment notebook. The Excel staff members consult with classroom teachers and parents to help improve each student's achievement in courses. A .25 credit is earned per semester for successful participation in this program.

Extended/Alternative Credit

Credits from e-learning, correspondence, or college courses may be counted toward graduation. Such courses must be from an institution accredited by the North Central Association of Colleges and Secondary Schools. The student must be a fourth or fifth year senior and must assume responsibility for all fees. Prior written approval from the counselor is required.

G-Level Program

In several departments (Deaf and Hard of Hearing, Mathematics and Science), particular courses are designated as G-level courses. G-level courses are designed to meet the special needs of students in particular subject areas. Admission to G-level courses is based upon several established selection criteria: teacher recommendation; results of the EXPLORE Test Series; past academic performance; and department approval.

Hinsdale South High School Course Selection Procedure

Complete the appropriate Course Selection Form indicating your choice of subjects. Note any prerequisites and the year offered for each course. On the basis of your interest, aptitude, maturity, and post-secondary school plans you will be recommended for the most suitable instructional approach available in each course. After your parents and counselor have approved and signed the Course Selection Form, return it to your counselor. During your designated registration appointment, Course Selection Forms bearing the signature of student, counselor, **and** parents are considered an indication of completed registration and **are final**. Classes are scheduled on the basis of your requests. Therefore, changes in course requests or class assignments will not be accepted for any of the following reasons: (a) to accommodate job schedule; (b) to change teachers; (c) to change lunch or study periods; (d) to change to be with friends. Questions concerning registration procedures and course selections should be directed to the Guidance Department.

Honors Program

Certain courses in Art, Business, English, Foreign Language, Mathematics, Music, Science, and Social Studies are designated as honors courses. These courses are designed to challenge students with superior academic ability and motivation. They provide accelerated course content and require a higher standard of achievement. Honors placement is made by the respective Department Chairperson based on past academic record, Explore test scores, subject area test scores, and teacher recommendation.

General Information

Minimum Attendance Requirement

Section 18.8 of the *School Code of Illinois* requires that all students be in attendance for a minimum of 300 minutes per day, exclusive of lunch and passing time. Therefore, all students must be enrolled for at least six periods of either class or on-campus study hall.

Repeating Courses

A course may be repeated only when a student has previously received a "D" or "F". All attempts will be recorded on a student's transcript and will be computed into the grade point average. Repeated courses will not count toward meeting graduation requirements unless a student has previously received an "F".

Requirements for Admission

Hinsdale South admission requirements are based upon evidence of normal progress and achievement in the student's previous school. Incoming freshmen are required to submit evidence of satisfactory completion of the 8th grade. Transcripts of credits earned and grade placement are required from the previous school for all students transferring from other secondary schools. The record of a health examination and immunizations at the 9th grade level is required by law. Students will not be allowed to attend school if this state requirement is not met. In addition, all students participating in athletics must have a physical examination for each year in which they participate. We cannot emphasize too strongly the need for this to be accomplished prior to the opening of school. Incoming freshmen must have a physical performed prior to the purchase of books during the month of August.

Art Department

Department Chairperson Ms. Cathy Klasek

The art curriculum strives to develop the student's interests and abilities as a consumer, hobbyist, or professional career artist. Though the majority of art courses are studio oriented and concentrate on "doing", one of the primary aims of the art curriculum is to expand the student's ability to understand, enjoy and critique not only art of his/her own creation, but also the great art masterpieces of the past and present. Many visuals such as slides, films, internet and prints, as well as field trips and technology, are used to stimulate an appreciation of great art and to demonstrate art techniques and processes. ***Students purchase a course specific fee card at the bookstore that helps defray the cost of art supplies.***

Please see Course Description for detailed Prerequisites.

Art Department

STUDIO ART

Course #05211

Prereq: none
Level: 9, 10, 11
Credit: 0.5
Supply fee: \$15

Students will be able to explore aspects of design, drawing, painting, mixed media, and sculpture in a one semester experience. Studio Art is the semester course in which introductory students can experiment with a variety of media. Sketchbooks assignments supplement class work. *It is highly recommended that students interested in Drawing or Painting start with either Studio Art or Art Foundations.*

ART FOUNDATIONS

Course #05100

Prereq: none
Level: 9, 10, 11
Credit: 1.0
Supply fee: \$22

The year-long Art Foundations course allows students the optimum time to develop and master the basic skills and techniques of drawing, color theory, painting, sculpture, ceramics, printmaking, calligraphy, and graphic design. Students are introduced to digital imaging. Connections are made to art history, popular culture, and advertising within the units. Sketchbook assignments supplement class work. *It is highly recommended that students interested in Drawing or Painting start with either Studio Art or Art Foundations.*

DRAWING AND DESIGN

Course #05201

Prereq: none
Level: 10, 11, 12
Credit: 0.5
Supply fee: \$36

Drawing and Design is a course for the dedicated student who has the ability or a keen interest in improving their ability in drawing. Basic drawing skills are refined and further developed through experiences with a variety of media such as pencil, charcoal, ink, technical pen, pastel and computer. Complex drawing and design problems in perspective, value, and composition as well as experiences in critiquing their own work and the work of masters help to reinforce the technical skills. *It is strongly recommended that students interested in Ideas in Art Honors begin with Drawing and Design as a foundation.*

IDEAS IN ART HONORS

Course #05441

Prereq: Advanced level course and Dept. Chair approval
Level: 10, 11, 12
Credit: 0.5
Supply fee: \$30

Students will create a body of artwork based on a personal exploration of a central theme or idea. This body of work represents the results of rigorous research, planning, self assessment, and problem solving. Each student is required to create a reference sketchbook that demonstrates multiple explorations of their chosen medias. The work produced in this course may be used as part of the Advanced Placement portfolio.

ART WORKSHOP

Course #05561

Prereq: none
Level: 10, 11, 12
Credit: 0.5
Supply fee: \$40

This class is designed to introduce students to an assortment of fine arts and craft media. Projects include glass fusing and slumping, collage, glass mosaic, book making, and fiber arts. It is intended for the serious hobbyist. Patience and thoughtful planning are required as students turn in detail design sketches for each project. Students will also learn to apply the elements and principles of design to each project.

JEWELRY

Course #05320

Prereq: none
Level: 10, 11, 12
Credit: 0.5
Supply fee: \$55

This course introduces students to basic and complex beading and wire wrapping techniques used to create jewelry. Fine motor skills, manual dexterity, good vision and patience are needed to design and create a variety of beaded bracelets, chainmaille bracelets, Viking knit bracelets/necklaces, crochet wire bead necklaces, earrings and unique pins. Students will learn vocabulary and be tested on their technical skills. Sterling silver will be available at cost for students who wish to create finer jewelry.

CERAMICS I

Course #05301

Prereq: none
Level: 10, 11, 12
Credit: 0.5
Supply fee: \$25

A variety of projects in this studio course introduce the steps to finished ceramic pieces: preparation of clay, hand-building techniques, firing, decorating, and glazing. Craftsmanship, good design and problem solving are emphasized. Students are expected to understand and use basic ceramic vocabulary, and keep of all class sketches and hand-outs.

CERAMICS II

Course #05312

Prereq: Ceramics I; Approval of Ceramics Instructor
Level: 10, 11, 12
Credit: 0.5
Supply fee: \$25

Building on techniques learned in Ceramics I, students are involved in more advanced hand-building projects and are able to create exciting work on the potter's wheel for the first time. Projects involving conceptual exploration are a foundation for the ceramic hobbyist or college bound student. A written report on surface decoration is assigned.

Art Department

CERAMICS III

Course #05321

Prereq: Ceramics II; Approval of Ceramics Instructor
Level: 11, 12
Credit: 0.5
Supply fee: \$25

This course allows the serious ceramics-minded student to expand his/her ability to design and produce clay pieces of artistic merit and personal style. Students will develop and use their own glazes. An individual course of study is arranged between the instructor and student. Ceramics III, with teacher approval, may be taken for AP Studio Art credit (#05210).

DIGITAL IMAGING I

Course #05071

Prereq: none
Level: 10, 11, 12
Credit: 0.5
Supply fee: \$8

Digital Imaging offers students a creative approach to computer literacy. Participants will learn to work with numerous software programs currently being used by businesses and colleges including Photoshop, Illustrator, and Maya. Emphasis is on using the computer to create fine art.

DIGITAL IMAGING II

Course #05072

Prereq: Digital Imaging I
Level: 10, 11, 12
Credit: 0.5
Supply fee: \$8

Creation of graphic images using advanced software features will be explored. Composition, color theory, rendering, and personal interpretation of subject matter will be stressed.

GRAPHIC / WEB PAGE DESIGN

Course #05111

Prereq: Studio Art, Art Foundations or Digital Imaging I
Level: 10, 11, 12
Credit: 0.5
Supply fee: \$8

This course introduces students to the various career and free-lance opportunities available in the visual communications field. Emphasis is placed on the development of an idea from thumbnail sketch to finished computer-generated image. Acquisition of basic commercial skills will be stressed in activities such as logo design, business cards, brochure design, point of purchase design, and advertising layouts. This course culminates in the layout, production, and animation of a personal website that will serve as a portfolio and gallery of original student designs and concepts. Presentation and critique skills will be incorporated into every project. Software such as Photoshop, Dreamweaver, and Flash will be utilized in the class.

PHOTOGRAPHY I

Course #05001

Prereq: none
Level: 10, 11, 12
Credit: 0.5

This course provides the theoretical background and opportunities for skill development necessary to: (1) operate a variety of film cameras; (2) develop and print black and white film; (3) take well-composed and meaningful pictures; (4) organize their mounted photos into a portfolio. Specifics include: proper use and selection of film and lighting, composition, scenery and action shots, the camera as a communications tool, and various darkroom techniques. Students are required to have their own camera that uses 35mm film as well as purchase all other supplies (film, negative sleeves and photo paper) from the bookstore.

PHOTOGRAPHY II

Course #05012

Prereq: Photography I
Level: 10, 11, 12
Credit: 0.5

This course introduces additional photographic techniques. Darkroom experimentations with high contrast film, solarizations and image distortions are introduced. Students will be able to work with some alternative processes as well as digital images. Assignments are geared both toward specific photographic careers in photo journalism, advertising, photography, and portrait photography, as well as, fine art photography. Students organize their various images into a photographic portfolio. Students are required to have their own camera that uses 35mm film as well as purchase all other supplies (film, negative sleeves and photo paper) from the bookstore.

PHOTOGRAPHY III

Course #05422

Prereq: Photography II
Level: 11, 12
Credit: 0.5

This course allows the serious photography-minded student to expand his/her knowledge and ability to create artistic photographs with her/her own personal style. An individual course of study will be arranged between student and teacher at the beginning of the semester. Students must supply their own camera and supplies for this class. Photography III, with teacher approval, may be taken for AP Studio Art credit (#05210).

Art Department

PAINTING

Course #05400

Prereq: none
Level: 10, 11, 12
Credit: 1.0
Supply fee: \$40

In this studio class students learn how to use a variety of media and techniques including acrylics and watercolor. Students produce paintings on paper and student stretched canvasses. Students execute six to eight paintings during the school year and possibly a group mural. The history of painting through the ages is introduced and explored through internet searches and PowerPoint presentations.

SCULPTURE

Course #05171

Prereq: none
Level: 10, 11, 12
Credit: 0.5
Supply fee: \$25

In this studio course, students explore three-dimensional design and low-relief work through additive, subtractive, and mold-making techniques. Students work in a variety of media that may include wood, plaster, clay, stone, fiber and mixed media. By viewing films and slides students learn the development of sculpture through the ages. A written report on a sculptor and his work is assigned.

ANIMATION AND CARTOONING

Course #05591

Prereq: none
Level: 11, 12
Credit: 0.5
Supply fee: \$20

This course introduces the student to the art and history of cartooning and animation. Students learn caricature cartooning as well as developing their own cartoon character and comic strips. Techniques of animation are taught and enable students to produce their own animated film shorts. Students will also have hands-on experience using a color video animation system and Maya software.

ADVANCED PLACEMENT

ART HISTORY

Course #05580

Prereq: Dept. Chair approval
Level: 10,11,12
Credit: 1.0
Supply fee: \$40

This course provides a survey of the history of western and non-western art from pre-historic times to the present and teaches methods of interpreting and analyzing works of art. Students with good writing skills and an interest in art and its place in our world can do well in the course. Hands on projects, focusing on process rather than product, cooperative group assignments and Internet searches are correlated with the period under study. Field trips to Chicago area museums and important architectural structures enhance classroom learning and help familiarize the students with the cultural offerings of the city.

ART PORTFOLIO

Course #05570

Prereq: Drawing and Design or Painting, and Dept. Chair approval
(or comprehensive portfolio review by the Art Department)
Level: 12
Credit: 1.0
Supply fee: \$40

This course is for students who plan to major in art in college or art school, or who simply desire the rigorous challenge of senior studio art work. Students complete a portfolio which includes fourteen to sixteen pieces of art work - drawings, paintings, prints, graphics, and three-dimensional work. A culminating series project will also be assigned demonstrating the students' artistic statement. Students will have experiences in art criticism, and will organize a group show in the Hinsdale South Art Gallery.

ADVANCED PLACEMENT

STUDIO ART

Course #05210

Prereq: Drawing and Design or Painting, and Dept. Chair approval
(or comprehensive portfolio review by the Art Department)
Level: 11, 12
Credit: 1.0

This course provides accelerated students with a challenging program of college-level studio work. Prior to the end of the academic year, a portfolio of approximately 24 pieces will be submitted to the College Board for evaluation and possible college credit. The advanced placement program requires more time and commitment than typical high school art courses. Therefore, the student enrolling in the course should be highly motivated, serious, self-directed and willing to work. *This course may be repeated as Course #05220.*

Business Department

Department Chairperson Dr. Gary Hutchinson

Business courses are designed to prepare students for college, careers and employment in the computer, financial, legal, management and marketing fields. Our department shares the fundamental responsibilities of public education and strives to provide our students a safe, caring, up-to-date environment while helping ensure that all students attain appropriate levels of achievement in areas vital to their continuing development. We feel that it is our responsibility to plan, implement, and update enthusiastic programs. Students can then attain a satisfactory level of achievement appropriate to either immediate employment or advanced education in preparation for career opportunities. Opportunities are abundant for students in the business world if their preparation is complete and their attitudes are positive. The Business teachers of Hinsdale South High School identify those opportunities for our students and help them in attaining high personal goals for the future.

See course description for detailed prerequisites.

INFORMATION PROCESSING

COMPUTER KEYBOARDING

Course # 06121

Prereq: None
Level: 9, 10, 11, 12
Credit: 0.5

Computer Keyboarding is designed for the student who wants to acquire skills necessary to enhance the value of the computer for academic and personal use. In Computer Keyboarding the student learns, develops, and refines correct fingering techniques to develop speed and accuracy. The student also learns basic word processing functions using Microsoft Word. Formats and features presented include letters, outlines, reports, columns, tables, resumes, and graphics.

If a student's schedule can be arranged to accommodate a full year course, it is recommended that the student enroll in Word Processing.

The student who earns a grade of "B" or better in this course may receive articulated credit for Office Technology Information 1100 at the College of DuPage.

WORD PROCESSING

Course # 06200

Prereq: None
Level: 9, 10, 11, 12
Credit: 1.0

Word Processing uses Microsoft Word to develop proficiency in keyboarding and word processing skills for academic, personal, and employment use. The student learns and develops keyboarding skills and techniques intended to build skill and accuracy. Using Microsoft Word, the student formats personal and business letters, envelopes, memorandums, outlines, tables, and multi-page reports. Students also develop an in-depth knowledge of more advanced features such as document merge, macros, sorting, templates, styles, graphics, and desktop publishing. Also included are Internet, Excel and PowerPoint units.

The student who earns a grade of "B" or better in this course may receive articulated credit for Office Technology Information 1100 at the College of DuPage.

Business Department

COMPUTER BUSINESS APPLICATIONS

Course # 06162

Prereq: Computer Keyboarding, Word Processing or concurrent enrollment in Word Processing second semester, or successful completion of the Computer Proficiency Test
Level: 9, 10, 11, 12
Credit: 0.5

Students will develop their knowledge of spreadsheet and database applications. This is a hands-on course in which students will complete an in-depth study of Microsoft Excel and Access. In addition, students will become proficient in the use of the computer and peripherals such as the digital camera and scanner, integrating these tools to enhance Excel and Access applications. This class is recommended for all students who need these skills for their academic classes.

INTERNET & WEB PAGE APPLICATIONS

Course # 06172

Prereq: Comp. Keyboarding, Word Processing or concurrent enrollment in Word Processing second semester, or successful completion of the Computer Proficiency Test
Level: 9, 10, 11, 12
Credit: 0.5

Students will focus upon the creation of an effective informational web page and proper use of the Internet. Microsoft FrontPage, along with Internet Explorer and other software, will assist students in a hands-on practical approach. Students will also become proficient in the integrated use of digital and digital video cameras, scanners, and Internet search engines as they apply to Internet and web page applications.

MULTIMEDIA APPLICATIONS

Course # 06182

Prereq: Comp. Keyboarding, Word Processing or concurrent enrollment in Word Processing second semester, or successful completion of the Computer Proficiency Test
Level: 9, 10, 11, 12
Credit: 0.5

Students will develop a working knowledge of desktop publishing and presentation software applications. An in-depth study of Microsoft PowerPoint, Publisher, and related software will be completed. In addition, students will become proficient in the use of the computer and peripherals such as the digital camera, digital video camera, and scanner in integrating PowerPoint and Publisher applications.

APPLIED BUSINESS

Students will be able to enroll in Consumer Economics either in the traditional 'face-to-face,' five-day-per-week 50 minute class (#06151), or in an 'online' version (#06131). The objectives and the examinations of these two courses will be the same. The content of the two versions of the course will be very similar.

CONSUMER ECONOMICS

Course # 06151

Prereq: None
Level: 9, 10, 11, 12
Credit: 0.5

Consumer Economics will integrate economic concepts with the student's important role in the economy as a citizen, consumer, and worker. Topics include: money management, buying goods and services, banking (savings and checking), investments, the efficient use of credit and loans, consumer protection, insurance, housing, and our tax system.
This course fulfills the state mandate for consumer education.

Business Department

ONLINE CONSUMER ECONOMICS

Course #06131

Prereq: Dept. Chair approval

Level: 10, 11, 12

Credit: 0.5

Students who enroll in Online Consumer Economics will complete all of their class work through a web site supervised by a certified District 86 teacher. Communication between student and teacher will primarily be through the web site and by email. Students who enroll this course will be required to attend an orientation session, to meet progress markers along the way, and to complete the course during the semester in which they are enrolled.

This course fulfills the state mandate for consumer education.

BUSINESS LAW I

Course # 06231

Prereq: None

Level: 11, 12

Credit: 0.5

Students will gain an appreciation of our legal system as it relates to their personal lives, business practices, and office procedures. Topics include: our legal system (crimes, torts, courts), contracts and consumer law. A field trip to a local court and jail and participation in mock trials as lawyers, witnesses, or jurors help students gain an understanding and an appreciation of how the American legal system functions.

BUSINESS LAW II

Course # 06242

Prereq: Business Law I

Level: 11, 12

Credit: 0.5

Students will investigate our legal system as it relates to their personal lives, business practices, and office procedures. Topics include: The Supreme Court System, contract law, family law, personal law and employment law. A field trip to a local court and jail and participation in mock trials as lawyers, witnesses, or jurors help students gain an understanding and an appreciation of how the American legal system functions. Students will also participate in The National On-line Youth Summit sponsored by the American Bar Association.

MANAGEMENT, MARKETING & FINANCE

ACCOUNTING

Course # 06320

Prereq: None

Level: 11, 12

Credit: 1.0

This course covers the principles and procedures of accounting. Both manual and computerized double-entry systems are taught. Practice sets and exercises are used during supervised laboratory sessions to develop skills in practical applications. Through the use of microcomputers, students also gain familiarity with computerized accounting procedures. The objectives of this course include preparing students for initial accounting jobs in business and providing a technical background for college-bound students who plan to enter certain fields of business. ***Students who earn a grade of "B" or better each semester in this course may receive articulated credit for Accounting 1110 at the College of DuPage.***

ACCOUNTING HONORS

Course # 06350

Prereq: Depart.

Chairperson approval

Level; 11, 12

Credit: 1.0

In this course, students develop an understanding of double-entry accounting. Topics covered include the following: accounting cycle, banking activities, special journals, payroll, accounting systems and design, internal controls, financial statement analysis, and deferrals and accruals. Students also utilize computer software for problem solving and learn spreadsheet applications.

BUSINESS MANAGEMENT AND ENTREPRENEURIAL STUDIES

Course # 06421

Prereq: None

Level: 11, 12

Credit: 0.5

Business Management and Entrepreneurial Studies is designed for students with above-average grades who are planning to major in business in college or are interested in starting or managing their own business. This course is an introduction to current practices in the world of business. Units of instruction include economic trends, entrepreneurship, business organization, human relations, ethics, management, marketing, finance, and international business.

Business Department

MARKETING

Course # 06480

Prereq: Completion or current enrollment in a Business course

Level: 11, 12

Credit: 1.0

Supply fee: \$25

This course is designed to prepare students for the challenges and opportunities in the field of marketing. Topics covered include current trends in marketing, consumer behavior, sales, advertising, entrepreneurship, and human relations. Marketing is beneficial for students planning to enroll in related programs in college and also for students working part-time in related jobs.

In addition, students participate in the activities of DECA, an organization for marketing students.

EMPLOYMENT EXPERIENCE

BUSINESS WORK EXPERIENCES

Course # 06490

Prereq: *Marketing or concurrent enrollment in Marketing and coordinator approval*

Level: 11, 12

Credit: 1.0

Business Work Experiences provides the student with actual paid business experience related to their career goals. Students are employed in local businesses from a minimum of 15 hours to a maximum of 25 hours per week for which they receive monetary compensation. A wide variety of experience is available in fields such as apparel and accessories, automotive, food distribution, food service, hotel and tourism, general merchandise retailing, and various office related careers, including banking, accounting, and administrative assistant positions. This work experience program prepares students for further study or a career in marketing, retailing, management, finance, accounting, or administrative office positions. Students are selected by application and interview with emphasis on factors including reliability, integrity, and career goal. ***It is the student's responsibility to make travel arrangements to and from the job. Students must maintain enrollment and earn a passing grade in Marketing to receive credit for this work experience program.***

INTERNSHIP

Course # 06461

Prereq: Dept. Chairperson or coordinator approval

Level: 11, 12

Credit: 0.25 per semester (this class may be repeated for up to 1 credit)

Internship is an elective semester program for the highly motivated junior or senior. The program provides students with opportunities in the local community for hands-on career exploration in their chosen field. Acceptance into the program is determined by factors such as faculty letters of recommendation, availability of a community sponsor, and interviews with the coordinator and the community sponsor. Students are required to keep a journal of their experiences and complete a summary report. During the internship, students observe daily operations, confer with other personnel, and participate and contribute to the functions of the organization for at least 50% of the hours spent in the internship experience. Student performance in the Internship program is evaluated on a pass-fail basis. ***The internship is conducted exclusively outside of the school day with no pay for a minimum of 50 hours during the semester. Students must make the travel arrangements necessary to fulfill their internship responsibilities.***

Deaf and Hard of Hearing

Department Chairperson Ms. Patricia Even

The Deaf and Hard of Hearing Department provides educational and support services for Deaf and Hard of Hearing students in the DuPage West Cook Regional Program. These supportive services include: interpreters, note takers, program assistants, tutorial, Social Work services, Speech and Language services, behavior supports, Guidance Counselors specifically for the Deaf and Hard of Hearing, and self-contained classes taught by teachers of the Deaf and Hard of Hearing.

See course description for detailed prerequisites

VISION STATEMENT

Strengthening the Deaf Community through Excellence in Education

MISSION STATEMENT

We will provide opportunities to improve learning and communication skills that will enable each student to be responsible and independent to their maximum potential, as well as provide opportunities to support each other in their continuous growth that leads them into their future.

DHH PROGRAM GOALS

- Teach the value of education as it relates to the future
- Encourage independence, responsibility and self-advocacy
- Support collaboration, respect and collegiality

Deaf and Hard of Hearing

AMERICAN SIGN LANGUAGE

AMERICAN SIGN LANGUAGE I

Course # 08070

Prereq: none

Level: 9, 10, 11, 12

Credit: 1.0

This course is designed to develop the student's expressive and receptive signing skills and understanding of basic grammatical structures of American Sign Language. Topics related to Deaf history and culture will also be explored. This is a class for students who are interested in learning the language of signs.

This class is open to all students.

AMERICAN SIGN LANGUAGE II

Course # 08080

Prereq: "C" or better in American Sign Language I

Level: 9, 10, 11, 12

Credit: 1.0

In American Sign Language II, students will continue to develop receptive and expressive signing skill, study grammatical structures of ASL, and learn more about the history and culture of deaf people. There will be increased opportunities for interaction with deaf students.

This class is open to all students.

ENGLISH COURSES

ENGLISH I

Course # 08110

Prereq: none

Level: 9

Credit: 1.0

English I teaches language skills in a program that integrates metacognitive literary analysis, problem solving strategies, cooperative learning, and multimedia presentations. Students will read and analyze a wide range of expository and narrative reading materials at their instructional level. General areas of focus include; myths, poetry, short stories, novels, and various works of non-fiction.

ENGLISH II

Course # 08120

Prereq: English I

Level: 10

Credit: 1.0

English II continues with the goals from English I in emphasizing metacognition as well as print and vocabulary skills. Students continue to develop strategic reading and writing skills while studying works from various genre.

ENGLISH III

Course # 08130

Prereq: English II

Level: 11

Credit: 1.0

The focus on language development continues in English III. Students continue to apply reading strategies to improve understanding and fluency. General areas of study include: short stories, novels, biographies, Deaf studies, and various works of non-fiction.

ENGLISH IV

Course # 08140

Prereq: English III

Level: 12

Credit: 1.0

English IV includes extensive literacy development. Decision making and cross cultural issues are examined within the course as various works are studied. The skill of accessing, organizing, writing, and editing information is stressed.

ENGLISH I-G

Course # 08150

Prereq: none

Level: 9

Credit: 1.0

English-G seeks to develop basic skills and stimulate growth in expressive and receptive language. Reading, writing, vocabulary, and social skills are developed through the use of units of study utilizing language for practical-life needs. Grammar and syntax are continually developed throughout the year. Functional living skills are the focus.

Deaf and Hard of Hearing

ENGLISH II-G

Course # 08160

Prereq: English I - G

Level: 10

Credit: 1.0

English II-G seeks to develop basic skills and stimulate growth in expressive and receptive language. Reading, writing, vocabulary, and social skills are developed through the use of units of study utilizing language for practical-life needs. Grammar and syntax are continually developed throughout the year. Functional living skills are the focus.

ENGLISH III-G

Course # 08170

Prereq: English II - G

Level: 11

Credit: 1.0

English III-G seeks to develop basic skills and stimulate growth in expressive and receptive language. Reading, writing, vocabulary, and social skills are developed through the use of units of study utilizing language for practical-life needs. Grammar and syntax are continually developed throughout the year. Functional living skills are the focus.

ENGLISH IV-G

Course # 08180

Prereq: English III - G

Level: 12

Credit: 1.0

English IV-G seeks to develop basic skills and stimulate growth in expressive and receptive language. Reading, writing, vocabulary, and social skills are developed through the use of units of study utilizing language for practical-life needs. Grammar and syntax are continually developed throughout the year. Functional living skills are the focus.

READING IMPROVEMENT I

Course # 08051

Prereq: none

Level: 10, 11, 12

Credit: 0.5

The purpose of this course is to help students develop critical thinking skills necessary to improve reading comprehension. The variety of material and focus of discussions encourage students to recognize similarities and differences, determine sequence, classify information and develop reasoning skills. Use of resources and vocabulary development are also presented in this class. **(This course does not fulfill NCAA initial eligibility requirements for college athletics.)**

READING IMPROVEMENT II

Course # 08061

Prereq: Reading Improvement I

Level: 10, 11, 12

Credit: 0.5

Skills that were learned in Reading Improvement I are reinforced while additional skills are introduced. These include distinguishing between fact and opinion, developing problem-solving skills, using context clues, drawing conclusions and making inferences. Use of resources and vocabulary development are also presented in this class. **(This course does not fulfill NCAA initial eligibility requirements for college athletics.)**

WRITING IMPROVEMENT I

Course # 08031

Prereq: none

Level: 10, 11, 12

Credit: 0.5

This course will focus on developing the written English skills of the students in areas including grammar, creative writing, and everyday applications of written language. Particular topics chosen will depend on individual student needs.

WRITING IMPROVEMENT II

Course # 08041

Prereq: none

Level: 10, 11, 12

Credit: 0.5

This course will focus on further developing the written English skills of the students in areas including grammar, expository writing, and everyday applications of written language. Particular topics chosen will depend on individual student needs.

SOCIAL STUDIES COURSES

WORLD STUDIES

Course # 08240

Prereq: none
Level: 9
Credit: 1.0

World Studies is a survey course of the earth, its characteristics, its people and their cultures. It includes individual map and globe building skills and small discussion groups, focusing on learning and understanding the effect of geography on the lives of the earth's people. Related student projects and visual aids will predominate throughout the course.

WORLD STUDIES-G

Course # 08250

Prereq: none
Level: 9,10
Credit: 1.0

This course is a modification of World Studies 08240. Students will follow the curriculum with a more local focus. **(This course does not fulfill NCAA initial eligibility requirements for college athletics.)**

U. S. HISTORY

Course # 08230

Prereq: none
Level: 11
Credit: 1.0

This course is a study of United States history including the United States government and both U. S. and Illinois Constitutions. Students must pass the U. S. and Illinois Constitution tests in order to graduate. Major historical eras are studied. The relationship between the United States and other nations is analyzed. Current events are also covered during this course.

U. S. HISTORY – G

Course # 08220

Prereq: none
Level: 11
Credit: 1.0

US History-G is a survey course designed for student to develop a basic knowledge of the concepts necessary to make positive contributions as a citizen of the USA. **(This course does not fulfill NCAA initial eligibility requirements for college athletics.)**

MATH COURSES

MATH I-G

Course # 08310

Prereq: none
Level: 9
Credit: 1.0

This course deals with the development of computation and basic math application skills: addition, subtraction, multiplication and division. The student is taught problem solving techniques, and how to apply math skills to everyday situations. Individual students may also be introduced to fractions, decimals, calculator and the computer.

MATH II-G

Course # 08320

Prereq: Math I-G
Level: 10
Credit: 1.0

This course is a continuation of Course # 08310. Practical math skills, which are necessary to develop independence, are the focus.

CAREER MATHEMATICS

Course # 08350

Prereq: Math I-G or Math II-G
Level: 11, 12
Credit: 1.0

Career Mathematics is a course that continues to emphasize basic math skills as they relate to daily living. Computer concepts will be reinforced and students will have hands-on experience throughout the year. **(This course does not fulfill NCAA initial eligibility requirements for college athletics.)**

Deaf and Hard of Hearing

PRE-ALGEBRA**Course # 08360**

Prereq: none

Level: 9, 10, 11

Credit: 1.0

This course is designed for the student who wishes to take Algebra and needs improvement in the higher-level computation skills and vocabulary necessary to be successful in that class. Students will be advised to take this course when pre-testing reveals gaps in these areas. **(This course does not fulfill NCAA initial eligibility requirements for college athletics.)**

ALGEBRA I, PART I**Course # 08330**

Prereq: Recommendations of 8th grade teacher and/or high school math teacher

Level: 9, 10, 11

Credit: 1.0

This course is designed for the average student who has successfully developed arithmetic skills in addition, subtraction, multiplication, and division with whole numbers, decimals, and fractions. The class covers working with positive and negative numbers, variables, beginning algebraic expressions, and monomials and polynomials. Computer concepts will be reinforced and students will have hands-on experience throughout the year. Lecture, application, and daily assignments are the main teaching methods. Upon completion of this course, the student should be ready to enter Algebra I, Part 2 (08340). A text is required.

ALGEBRA I, PART 2**Course # 08340**

Prereq: Algebra I, Part I

Level: 10, 11, 12

Credit: 1.0

This course is the continuation of Algebra I, Part I (08330). The course further develops the following skills: polynomials, graphing, quadratic equations, open sentences and the real number system. Instruction includes discussion and daily assignments. Computer concepts will be reinforced and students will have hands-on experience throughout the year. A text is required.

GEOMETRY-G**Course # 08380**

Prereq: "C" or better in Algebra I, Part 2 or Department Chairperson recommendation

Level: 11, 12

Credit: 1.0

This course has been developed to follow the Deaf and Hard of Hearing two-year algebra sequence. It emphasizes geometric principles and practical applications rather than proofs. Most proofs will be informal in nature, using the discovery method. Computer concepts will be reinforced with students having hands-on experience throughout the year. A compass, a straight edge, and a protractor are required materials for this course.

SCIENCE COURSES

SCIENCE EXPLORATION I**Course # 08450**

Prereq: none

Level: 9, 10

Credit: 1.0

This science course is especially designed for the student who does not have a strong background or vocabulary base in science or scientific concepts and basic academic abilities. Topics include: introduction to the science laboratory, the scientific method, charts and graphs, measurement and the study of ecosystems, human body systems, and varieties of animals. Class activities are geared toward concrete, active learning situations that are highly visual and can be taught in a hierarchical manner.

SCIENCE EXPLORATION II**Course # 08460**

Prereq: none

Level: 9, 10

Credit: 1.0

This science course is especially designed for the student who does not have a strong background in science and scientific concepts and basic academic skills. Topics include: Introduction to the science laboratory, the scientific method, charts and graphs, measurement and applied physical science, such as the study of engines, electricity and electronics, and space science. Class activities are geared toward concrete, active learning situations that are highly visual and can be taught in a hierarchical manner.

Deaf and Hard of Hearing

INTRODUCTION TO EARTH SCIENCE

Course # 08410

Prereq: none

Level: 9, 10

Credit: 1.0

This course covers the science of the non-living environment. Topics include introduction to the science laboratory, basic geology, weather and its effect on the environment, energy from fossil fuels, and alternative forms of energy. Class activities are geared toward concrete, active learning situations that are highly visual.

INTRODUCTION TO BIOLOGY

Course # 08430

Prereq: none

Level: 9, 10

Credit: 1.0

Biology is offered for the student who has some previous experience in science and whose language skills are average or better. It is a study of living things (plants and animals) and how they relate to the environment. Covered in this course are topics such as ecology, evolution, reproduction, genetics, and the plant and animal kingdoms. Students are expected to write lab reports, do library research and read outside materials.

HEALTH COURSES

HEALTH EDUCATION

Course # 08481

Prereq: none

Level: 10

Credit: 0.5

Health, a state-mandated course, is required of all sophomore students. The course covers a number of specific topics including: the positive effects of exercise and the ill-effects of drugs; alcohol and tobacco; first aid; human birth, growth and development; reproductive systems; and venereal diseases.

HEALTH-G

Course # 08491

Prereq: none

Level: 10

Credit: 0.5

This course is a modification of Health 08481. This course addresses the practical applications of health related topics listed above for course 08481. **(This course does not fulfill NCAA initial eligibility requirements for college athletics.)**

BUSINESS COURSES

CONSUMER EDUCATION

Course # 08631

Prereq: none

Level: 11,12

Credit: 0.5

This course fulfills the Consumer Education requirement for graduation. The student is to identify the basic choices consumers make and what information, understandings, and practical skills are needed to make them. Topics to be covered include: spending and saving money, buying food, using credit, buying medicine and cosmetics, choosing transportation, buying clothes, finding a place to live, and insuring health, property, and life. Deaf Services and supports are also covered in this course. Students are introduced to issues such as advocacy agencies, Americans with Disabilities Act (ADA), and securing and using an interpreter. The student's evaluation is based on tests, daily assignments, projects, and individual goals.

Deaf and Hard of Hearing

CONSUMER EDUCATION-G**Course # 08621**

Prereq: none

Level: 11,12

Credit: 0.5

This course is a modification of Consumer Economics (08631). **This course fulfills the Consumer Education requirement for graduation.** The student is to identify the basic choices consumers make and what information, understandings, and practical skills are needed to make them. Topics to be covered include: spending and saving money, buying food, using credit, buying medicine and cosmetics, choosing transportation, buying clothes, finding a place to live, and insuring health, property, and life. Deaf Services and supports are also covered in this course and use of resources to assist with these activities will also be presented. Students are introduced to issues such as advocacy agencies, Americans with Disabilities Act (ADA), and securing and using an interpreter. The student's evaluation is based on tests, daily assignments, projects, and individual goals.

KEYBOARDING**Course # 08811**

Prereq: none

Level: 9, 10, 11, 12

Credit: 0.5

The content is similar to Computer Keyboarding (BUS 6121). This course is designed to develop and refine correct finger placement techniques to develop speed and accuracy. The student also is introduced to basic word processing functions using Microsoft Word. Formats and features include letters, outlines, reports, columns, tables, resumés, and graphics.

COMPUTER APPLICATIONS**Course # 08831**

Prereq: Keyboarding

Level: 10, 11, 12

Credit: 0.5

This course will focus on developing basic computer application skills, spreadsheets, and proper use of the internet. Students will work with Microsoft Word, Excel, and Windows to develop the computer skills necessary for basic computer use.

OFFICE SYSTEMS**Course #08851**

Prereq: Keyboarding

Level: 11, 12

Credit: 0.5

This course is designed for the student entering the work force and the student going to college. Since most jobs require basic knowledge of technology, the course will prepare the student for universal, technology-based environments. Machines such as copy/printers, scanners, faxes, handhelds, digital cameras and laptops will be introduced.

FAMILY & CONSUMER SCIENCES COURSES

INTRODUCTION TO COOKING**Course # 08771**

Prereq: none

Level: 9, 10, 11, 12

Credit: 0.5

This course teaches nutrition, meal planning, purchasing food and basic food preparation. Lab work provides experiences in food preparation and consumption.

ADULT & FAMILY RELATIONSHIPS**Course # 08791**

Prereq: none

Level: 11, 12

Credit: 0.5

This course is designed to help students prepare for responsible decisions as they begin their adult lives. It addresses the roles and responsibilities of adults in our society, problem-solving strategies as they apply to family relationships, marriage, parenting, and interaction with peers and other adults.

ART COURSES

ART FOUNDATIONS I & II

Course # 08841, #08842

Prereq: none

Level: 9, 10, 11, 12

Credit: 0.5 each

This course is for DHH students interested in art. Art Foundations or Studio Art are highly recommended for all art courses at the sophomore, junior, and senior level. Students learn basic skills and techniques of drawing, painting, sculpture, printmaking, ceramics and calligraphy. Art appreciation is included through films, slides, the internet and field trips. Sketchbook assignments supplement class work.

DRIVER EDUCATION

DRIVER EDUCATION

Course # 08611/08612

Prereq: Sophomore, Junior, or Senior class standing

Level: 10, 11, 12

Credit: .25 Credit (1 Semester)

Successful completion of the course is required to obtain a state driver's license prior to the age of 18 years. Driver Education is a multiphase course consisting of 30 classroom hours, up to 12 hours of simulator training, and a minimum of 3 hours of in-car training.

Students must be 15 years of age on or before January 20, 2007.

In addition, Public Act 88-188 requires that a student must have passed at least eight (8) courses in the previous two semesters in order to be eligible to take Driver Education. In other words, if a student fails too many classes, he or she will not be eligible to take Driver Education and will be withdrawn from the class.

TRANSITION COURSES

COMMUNITY BASED PROGRAM

Course # 08910

Prereq: none

Level: 9, 10, 11, 12

Credit: Variable

Instruction for Community Based students focuses on the acquisition of skills necessary to function as independently as possible in the community, in the use of communication skills, in the use of leisure time, in the domestic domain, and vocationally. Instruction takes place as much as possible in community environments. *Credit for community based students will be awarded based on the achievement of IEP and transition goals after a conference between the teacher, guidance counselor, and department chair.*

COMMUNITY BASED PRACTICAL

ARTS

Course # 08920

Prereq: none

Level: 12

Credit: Variable

Students will develop skills in practical arts, which will allow them to function more independently in the domestic and vocational domains. *Credit for community based students will be awarded based on the achievement of IEP and transition goals after a conference between the teacher, guidance counselor, and department chair.*

Deaf and Hard of Hearing

COMMUNITY BASED FINE ARTS**Course # 08930**

Prereq: none

Level: 9-12

Credit: Variable

Students will work on art projects using a variety of media, in order to better develop recreational and leisure skills as well as to improve fine motor skills. *Credit for community based students will be awarded based on the achievement of IEP and transition goals after a conference between the teacher, guidance counselor, and department chair.*

RELATED INSTRUCTION I**Course # 08720**

Prereq: none

Level: 11, 12

Credit: 1.0

This is a course geared toward expanding students' work potential. Emphasis is placed on students' advocating for their future, entering the world of work, and succeeding as an employee. The curriculum focuses on helping students apply, practice, and evaluate their skills as an employee as well as a participant in the community. Real work experiences and Deaf role models help students understand what is expected of them as a contributing member of a work environment,

RELATED INSTRUCTION II**Course # 08730**

Prereq: Concurrent enrollment in 08731 or 08732

Level: 11, 12

Credit: 1.0

This course continues to expand a students' ability to work successfully in an area of occupational interest. Course content, teaching style and student assessments are modified to accommodate Transition Plan outcomes. Individual Transition Portfolios are created to help foster independence in post-secondary programs and/or services.

S.W.T. (Supervised Work Training)**Course # 08731, 08732**

Prereq: Concurrent enrollment in 08730

Level: 10, 11, 12

Credit: 0.5

In-school and community work experiences are available in a variety of settings to teach general work related skills. Students are supervised and evaluated on attainment of employment competencies. Concurrent enrollment in Related Instruction is required.

SUPPORT SERVICES**TUTORIAL****Course # 08511/08512**

Prereq: None

Level: 9, 10, 11, 12

Credit: 0.25

This course provides support to DHH students for their academic courses. Students receive teacher supervised study time to complete homework and prepare for their mainstreamed and self-contained courses. Student progress and grades in all classes are monitored by the teacher and more directed assistance may be provided. Individual study skills can also be addressed. Related services as scheduled in their IEP can also be accessed during this time. Students receive a Pass/Fail grade and are issued 0.25 credit per semester.

STUDENT SUPPORT CENTER**Course # 08521, 08522**

Prereq: Department Chairperson approval

Level: 9, 10, 11, 12

Credit: .25

This service is designed for students needing additional instruction in problem-solving interpersonal relationships and study skills in addition to academic support. A functional analysis is completed, as determined by the IEP to develop a Behavior Intervention Plan which directs and monitors student progress. Related services can also be accessed during this time. Students receive a Pass/Fail grade and are issued a 0.25 credit per semester.

Department Chairperson Ms. Anne Kairis

The Educational Services Department provides the continuum of educational support services to students with disabilities as defined by the Individuals with Disabilities Education Act (IDEA) and the Illinois 23 Administrative Code. Programs are developed to meet the unique individual needs of students. These include direct educational supports and instruction through consultation and collaboration with general education for students with learning disabilities, services to identified students with behavioral challenges through the Personal Adjustment Program, and a range of options for students with cognitive/multiple needs through the Foundations Program. Additional supports available for students as determined appropriate include Occupational Therapy, Physical Therapy, Speech/Language Therapy and Psychological and Social Work Services. The LaGrange Area Department of Special Education (L.A.D.S.E.) works cooperatively with the Educational Services Department.

PLACEMENT IN EDUCATIONAL SERVICES COURSES IS BASED UPON AN INDIVIDUAL CASE STUDY EVALUATION AND RECOMMENDATION BY THE EDUCATIONAL SERVICES STUDENT SUPPORT TEAM.

Please see Course Description for detailed Prerequisites.

Educational Services

STUDY SKILLS

Course #01720

Prereq: Approval of Department
Chairperson
Level: 9
Credit: 1.0

Study Skills is designed to assist students in developing and improving study habits. Individual learning styles are assessed to determine independence levels related to specific study skills. Instruction will focus on organization, memory, test-taking, information gathering and specific learning strategies in reading and written language.

PREVOCATIONAL SUPERVISED JOB TRAINING

Course #01850

Prereq: Approval of Department
Chairperson
Level: 9, 10
Credit: 1.0

The goal of the program is to develop job responsibility, initiative, and positive employer--employee relationships within a controlled school job station. The student will work one period per day at a school station, which may include: audio-visual, laundry, library or cafeteria. The student will maintain time and log activity sheets. The Prevocational Coordinator will be involved in placement, supervision, and evaluation of students.

PERSONAL ADJUSTMENT

Course #01991/01992

Prereq: Approval of Department
Chairperson
Level: 9, 10, 11, 12
Credit: 1.0

The Personal Adjustment program provides a highly structured academic and behavioral environment for those students who have experienced extreme difficulty coping with the regular school setting.

FOUNDATIONS FOR LEARNING

Course #11710

Prereq: Approval of Department
Chairperson
Level: 9, 10, 11, 12
Credit: 1.0
Supply fee: \$180

This course is available to students enrolled in the Foundations for Learning program and emphasizes the acquisition and mastery of functional skills in three areas: academic, social, vocational. The course provides for extensive community-based, experiential learning.

RESOURCE

Course #01971/01972

Prereq: Approval of Department
Chairperson
Level: 10, 11, 12
Credit: .50 / .25 per semester

Resource is a structured class in which students receive tutorial assistance to improve basic academic skills. The Resource teacher consults with classroom teachers to help improve each student's achievement in given courses.

LEARNING STRATEGIES

Course #02010

Prereq: Study Skills
Level: 10
Credit: 1.0 per Semester

This course is designed to build on the skills acquired in Study Skills. Emphasis will be on supporting and maintaining competency in learning strategies within the regular classroom settings. Learning strategies will address transition needs which is a necessary component of each student's Individual Education Plan. The course will support the consultation/ collaboration initiative. Instruction will focus on: Organizational Skills/Time Management, Critical Thinking/Reading Strategies, Test Taking/Extended Time, Communication/Self-Advocacy, Social Skills/Behavior Self-Management and Transitional Planning.

EXTENDED RESOURCE

Course #11720

Level: 9, 10, 11, 12
Credit: 1.0
Supply fee: \$40

Extended Resource is a structured class in which students receive tutorial assistance to improve basic academic skills. The Extended Resource teacher consults with classroom teachers to help improve each student's achievement in given courses. Students are scheduled into at least one Extended Resource period but can access the Extended Resource room and teacher throughout the school day.

ENGLISH DYNAMICS I

Course #01670

Level: 9

Credit: 1.0

English Dynamics is an adapted English course for students in the Educational Services program who have reading and writing skills that are significantly below grade level. Students can earn English credit in order to meet graduation requirements and master goals according to their individual education plans. This full year course emphasizes reading comprehension, vocabulary, communication, and written expression.

ENGLISH DYNAMICS II

Course #01680

Level: 10

Credit: 1.0

English Dynamics is an adapted English course for students in the Educational Services program who have reading and writing skills that are significantly below grade level. Students can earn English credit in order to meet graduation requirements and master goals according to their individual education plans. This full year course emphasizes reading comprehension, vocabulary, communication, and written expression.

ENGLISH DYNAMICS III

Course #01690

Level: 11

Credit: 1.0

English Dynamics is an adapted English course for students in the Educational Services program who have reading and writing skills that are significantly below grade level. Students can earn English credit in order to meet graduation requirements and master goals according to their individual education plans. This full year course emphasizes reading comprehension, vocabulary, communication, and written expression.

ADULT OPPORTUNITIES

Course #02930

Level: Ages 18, 19, 20, 21, 22

Credit: No credit

Supply fee: \$180

Students will achieve within the overall mission of Hinsdale South High School by creating an exemplary adult-centered learning community. Students will seek and implement strategies and opportunities for improving good citizenship; facilitating adult independence and growth; uniting with students, families, and community entities to achieve definite goals with a common purpose; and demonstrate a commitment to the success and well being of all members.

Students engage in real-world opportunities and training that engage the qualities of good citizenship, in the areas of:

- Vocational/Employment
- Recreation/Leisure
- Independent Living
- Community Access
- Interpersonal Relationships

English Department

Department Chairperson Mr. David Anderson

The English Department offers a variety of courses designed to develop essential communication skills in not only reading, writing, and speaking, but also listening and thinking skills. Students will be grouped in order to assure the most challenging and productive studies according to their abilities and achievement levels. A variety of materials and instructional techniques is used to match the capabilities of the groups established: Honors and Regular. Such groupings for the freshman year are based upon scores on standardized tests and ability as demonstrated in junior high school, teacher recommendation, and a writing sample. Placement in any level is not static but subject to review and change resulting from the student's progress during freshman year and before enrollment in successive courses, sophomore through senior years. **Four (4.0) credits in English are required for graduation.** English I, II, and III are required for graduation, but the fourth credit may be earned in a variety of combinations of English electives. Because of the sequencing of the writing and reading assignments in the required courses in English I, II, and III, students must pass both semesters of a class before being able to advance to the next level. **Therefore, students cannot be concurrently enrolled in English I, II, or III.** Failures in English I, II, or III are required to be made up during summer school. NOTE: Students must be enrolled in an English class for every semester in attendance.

Please see Course Description for detailed Prerequisites.

CATEGORIES OF ENGLISH CLASSES

While four (4.0) credits in English are required for graduation, students have the following options in taking English credit. These options fall in several categories:

Core Credits: Students must follow this sequence of courses. If a student fails a semester of one of these classes, the student must make up the failing grade during summer school before advancing to the next level.

Freshmen:	English I <u>or</u> English I Honors
Sophomores:	English II <u>or</u> English II Honors
Juniors:	English III-American Literature <u>or</u> English III-American Studies <u>or</u> Advanced Placement English Language & Composition.

Options for the Fourth Credit: Students may take any combination of the following classes for the fourth credit in English. Note that some classes are a full year (1.0 credit) and some are a semester long (0.5 credit). When planning courses for this fourth credit, students are advised to check with their English III teachers and their Guidance counselors for the best fit for college and career requirements.

Full year (1.0 credit) classes

CORE CREDITS

ENGLISH I

Course # 01110

Prereq: None

Level: 9

Credit: 1.0

English I teaches essential oral and written language skills in a program that integrates literary analysis, library research, listening skills, problem-solving strategies, teamwork, and multimedia presentations. Students will explore fiction and non-fiction works including short stories, novels, poetry, drama, mythology, and biographies. The course allows students to express their understanding of important concepts and mastery of skills through discussions, projects, compositions, creative writing, and presentations.

This course fulfills one of two "Intensive Writing" requirement credits.

There is required reading during the summer before beginning this course.

ENGLISH I HONORS

Course # 01120

Prereq: Dept. Chairperson

Approval

Level: 9

Credit: 1.0

This course, for the superior academic student, not only incorporates the materials and skills of English I, but also is designed to provide an enriched study of literary forms and purposes, a great variety of student written expression, and more formal oral communication activities. The student will be introduced to the development of literature from its beginnings in the oral tradition to the standard modern literary genres – short story, novel, drama, biography, and poetry. Written assignments stress expository writing, especially mastery of the multi-paragraph essay. More sophisticated grammatical concepts are presented to improve the student's style of expression. Students perform a variety of speech assignments. A vocabulary text is also included.

This course fulfills one of two "Intensive Writing" requirement credits.

There is required reading during the summer before beginning this course.

ENGLISH II

Course # 01210

Prereq: Pass both semesters of English I

Level: 10

Credit: 1.0

A variety of literary works, composition assignments, and oral activities is presented. Within thematic units, various literary types (novel, short story, poetry, drama) will be studied and compositions written. Composition assignments stress the multi-paragraph essay organizational format, although some creative writing is also expected. Special emphasis is placed on the more sophisticated modes of persuasive, comparison/contrast, and cause and effect essay development. Research strategies of varying scope are presented during the second semester.

This course fulfills one of two "Intensive Writing" requirement credits.

There is required reading during the summer before beginning this course.

English Department

ENGLISH II HONORS

Course # 01220

Prereq: English I Honors
and/or Dept. Chairperson
approval

Level: 10

Credit: 1.0

This course, for the superior academic sophomore student, is a general survey approach to English literature in which major English authors and their representative works are studied. Authors' themes as well as specific literary types are studied: poetry, drama (especially Shakespeare), short story, and novel. Composition skill development is divided between exposition (critical analysis and personal essays) and creative writing. A research paper is also required. Vocabulary will be studied in the context of the literature.

This course fulfills one of two "Intensive Writing" requirement credits.

There is required reading during the summer before beginning this course.

ENGLISH III – AMERICAN LITERATURE

Course # 01330

Prereq: Pass both semesters
of English II

Level: 11

Credit: 1.0

English III builds on the skills acquired in English I and English II. A background in American Literature is provided emphasizing outstanding American authors from colonial to modern times in the genres of fiction, non-fiction, drama, and poetry. In addition, there is challenging emphasis on vocabulary and study skills development and the development of research expertise. Written work consists of the expository essay, some creative writing, and the completion of a college level research paper.

There is required reading during the summer before beginning this course.

AMERICAN STUDIES

Course # 01345

Prereq: Pass both semesters
of English II

Level: 11

Credit: 2.0 one for junior level
English; one for U.S. History

This interdisciplinary class is offered for a wide range of junior students who are academically motivated, self-directed, or college bound. The course will take an intensive survey approach to American literature and American history, emphasizing the advantage of seeing the "sense of connectedness" between the history of each era and its relationship to and influence on the art, music, and literature produced during that period. Challenging literary and historical analysis will be pursued throughout the course in lectures, discussions, and writing assignments. In addition, there will be emphasis on vocabulary, study skills, and the development of research expertise. Writing assignments will include the development of literary analysis, expository essays, some creative writing, and independent study towards the research paper. Special projects coordinated between the two disciplines will include the research paper and enrichment field experiences. Reflective of their overall effort and ability to excel in this interdisciplinary environment, students earn a single grade for this two-part course.

There is required reading during the summer before beginning this course.

**ADVANCED PLACEMENT
ENGLISH LANGUAGE &
COMPOSITION**

Course # 01320

Prereq: English II Honors
and/or Dept. Chairperson
approval

Level: 11

Credit: 1.0

Through an intensive survey approach to American literature, this course prepares students for the Advanced Placement English Language & Composition exam in May. Major American authors and their representative works will be studied. Students will comprehend, analyze and evaluate American literature that encompasses various time periods and literary movements with a focus on rhetorical analysis. Additional emphasis will be placed on independent study and research. Students will develop stylistic maturity in their prose by enhancing their ability to use grammatical conventions both appropriately and with sophistication. Students will create and sustain arguments based on readings, research and personal experience. Vocabulary study will be included for each semester.

There is required reading during the summer before beginning this course.

OPTIONS FOR FOURTH CREDIT

ADVANCED ACTING

Course # 01601

Prereq: Introduction to
Theatre Arts or Dept.
Chairperson approval

Level: 10, 11, 12

Credit: 0.5

Advanced Acting is a performance-oriented course that gives the student concentrated training in the art of mime and in developing various acting styles and performance techniques. In addition, students advance their study of the art of characterization through the development of bodily movement and vocal expression. Students are individually graded on their progress in learning and applying skills through class performance as they relate to the various dramatic forms. Included are field trips to see plays representative of the style studied and a final audience-invited performance.

**ADVANCED
COMMUNICATIONS**

Course # 01631

Prereq: Pass both semesters
of English I

Level: 10, 11, 12

Credit: 0.5

This class is designed to give the student background and experience in the study of public speaking and performance. It provides opportunities for the student to learn organizational speech and writing and research skills, write scripts and speeches, prepare cuttings from the works of noted authors, and evaluate his performance and the performances of others. Students will analyze the work of professional and gifted performers in all areas of communication and performance. Students will also receive instruction and practical experience in a variety of speech forms: oratory, extemporaneous speaking, oral interpretation of literature (both prose and poetry), humorous and dramatic interpretation (individual, duet, and group), and radio and television broadcasting.

There is required reading during the summer before beginning this course.

English Department

ADVANCED PLACEMENT ENGLISH LITERATURE & COMPOSITION

Course # 01480

Prereq: AP English Language & Composition and/or Dept. Chairperson approval

Level: 12
Credit: 1.0

AP English Literature & Composition, "Great Books," focuses on selected major works of Western Civilization in the field of literature, philosophy, political theory, history, theology, and psychology. Required readings in all the genres of fiction include such writers as Joyce, Dante, Austen, Dostoevsky, Shakespeare, and Sophocles and a spectrum of non-fiction: letters, treatises, essays, handbooks, and dialogues by such writers as Mill, Nietzsche, Locke, Epictetus, and Plato. A summer reading list is required. Students read critically and participate actively in the great and continuing conversations on the pivotal human issues found in these classics. Student partners lead discussions according to the Great Books method. Compositions include papers on analysis, synthesis, evaluation, and hypothesis as well as delineation of each author's arguments in non-fiction. Two semester term papers are also required, analyzing, comparing, and contrasting at least three works, two of which are read outside of class. *This course prepares the student for the Advanced Placement exam in May*

There is required reading during the summer before beginning this course.

COLLEGE LITERACY: STRATEGIES IN READING AND WRITING

Course # 01621

Prereq: Pass both semesters of English III

Level: 12
Credit: 0.5

This college bound course is designed for students who wish to improve their critical thinking skills and reading and writing strategies for the heavier demands of college coursework. The topics covered will be literary analysis, reading for the research paper, vocabulary development, and textbook reading strategies. Students will read self-selected novels from a college-bound list.

There is required reading during the summer before beginning this course.

CREATIVE WRITING

Course # 01561

Prereq: Pass both semesters of English II

Level: 11, 12
Credit: 0.5

Creative Writing emphasizes individualized creative thought and challenging exercises in the various genres of prose, drama, and poetry. Balancing individual creativity with disciplined focus is a must for success in the course. The student completes two major portfolio projects each semester in addition to daily writing and/or reading assignments. The student is encouraged to compete in local, state, and national contests. Emphasis will be placed upon both recognizing the elements of style of great authors in selected reading passages and in developing individual creative style.

There is required reading during the summer before beginning this course.

**ENGLISH IV – CLASSIC
FICTION: FUTURE WORLDS**

Course # 01441

Prereq: Pass both semesters
of English III

Level: 12

Credit: 0.5

This senior elective explores views presented by various science fiction writers. Through this survey of classic and contemporary science fiction, students will consider different attitudes regarding the future of humankind. Along with the reading of novels, students will have a variety of writing experience including a research paper. The course will end with an independent novel portfolio where students will showcase a science fiction book of choice. Course evaluation will be measured through tests, quizzes, class discussions, two analysis papers, one creative writing project, one research paper, one novel portfolio. Texts include *Ender's Game*, *Blood Child*, *The Cure*, *Feed*, a novel of choice, and the anthology: *Science Fiction, Science Fact and You*.

There is required reading during the summer before beginning this course.

**ENGLISH IV – POPULAR
LITERATURE**

Course # 01461

Prereq: Pass both semesters
of English III

Level: 12

Credit: 0.5

Designed for college and non-college bound seniors, "Popular Literature" focuses on works of the 80s, 90s, and today, while emphasizing the differences of popular and classical literatures. The origin and dynamic characteristics of this genre in today's society will be analyzed through the reading of class books and literature circles. Types of reading audiences and "requirements" of a popular literature author will also be studied. Students will be required to complete written, oral and group projects in addition to the readings; class discussion will constitute a major portion of the class. Authors to be read and studied may include John Grisham, Harlan Coben, Dan Brown, James Patterson, Patricia Cornwell, Sandara Brown, Stephen King, Danielle Steel, Nicholas Sparks, Mary Higgins Clark, and Tom Clancy. Novels may include *Dark Tower*, *The Notebook*, *The Partner*, *Roses are Red*, *Tell No One*, *Hello Darkness*, *DaVinci Code*, and *Angels and Demons*.

There is required reading during the summer before beginning this course.

**EXPOSITORY WRITING AND
THE RESEARCH PAPER**

Course # 01531

Prereq: Pass both semesters
of English III

Level: 12

Credit: 0.5

This elective is designed for college-bound seniors who desire experience in writing exposition and the formal research paper. The course develops student writing in various types of exposition typically assigned in freshman college composition classes. Much emphasis is placed upon review of grammatical principles, improvement of vocabulary, and development of an organized, individual writing style. In addition, the student is also required to apply these principles to a research unit and paper. Students use computers to complete their writing and research assignments.

There is required reading during the summer before beginning this course.

HUMANITIES

Course # 02285

Prereq: Average to above
average grades. Dept.
Chairperson approval.

Level: 12

Credit: 2.0 (one in English;
one in Social Studies)

An interdisciplinary study of world history and literature with emphasis on philosophy, religions, and the arts of various peoples throughout history as they faced the universal questions of life and existence. The origins of Western culture will be highlighted. Students earn a single grade for this two-period course.

There is required reading during the summer before beginning this course.

English Department

INTRODUCTION TO THEATRE ARTS

Course # 01380

Prereq: None
Level: 9, 10, 11, 12
Credit: 1.0

Introduction to Theatre Arts is a performance-oriented drama course geared to developing the creative and dramatic talents of individual students. This course uses student acting and teacher-student evaluation as the major teaching method to help the student understand the medium of theatre. It develops sensitivity to the thoughts, beliefs, and ideas of mankind through study, in-class performance, and theatre attendance. Included are field trips to see plays representative of the style studied and a final audience-invited performance.

JOURNALISM LAB: NEWSPAPER

Course # 01381

Prereq: None
Level: 10, 11, 12
Credit: 0.5

This class can be taken in addition to or in place of Journalistic Writing. This is a writing and production course for students interested in working on *The Stinger* or for those interested in pursuing journalism in college. Students will develop and/or refine their journalistic writing skills. Writing news, sports, opinions, entertainment and feature articles; copy-editing; design elements; headline writing; advertising; and newspaper business management will be covered. Journalism may be repeated for credit with consent of the instructor and department chair. ***This course does NOT fulfill NCAA initial eligibility requirements for college.***

JOURNALISM LAB: YEARBOOK

Course # 01400

Prereq: "C" average and Dept. Chairperson approval
Level: 10, 11, 12
Credit: 1.0

This is a writing and production course for students interested in designing a yearbook. The classroom portion of the course emphasizes the mechanics of strong, journalistic writing, strategies for effective communication, digital photography, and graphic design. Researching and interviewing are also covered as students prepare to write stories for the school yearbook, *Vespa*. Work is completed using Adobe InDesign CS2 software. The student should have above average writing skills. Additional work outside of class is required; the outside assignments may focus on writing, photography, page-layout skills, and the business aspect of the yearbook. Journalism may be repeated for credit with consent of instructor and department chairperson. ***This course does NOT fulfill NCAA initial eligibility requirements for college.***

JOURNALISTIC WRITING

Course # 01361

Prereq: None
Level: 10, 11, 12
Credit: 0.5

This course is an intensive writing course for those interested in writing for newspapers and magazines. The course covers all types of journalistic writing, including news, features, sports, editorials, columns, and reviews. Information gathering through interviews and library research will refine reading, listening, and speaking skills. In addition, students will learn about the ethics and the history of the journalistic field. Most of the material will be written for publication in *The Stinger*, the student newspaper. This course is a prerequisite for appointment to editorial positions on *The Stinger* staff.

MAJOR BRITISH AUTHORS I

Course # 01411

Prereq: Pass both semesters of English III
Level: 12
Credit: 0.5

Major British Authors I is a course designed for college-bound seniors and emphasizes English literature and culture. Beginning with the origins of the English language, the course traces chronologically the development of English language and literature until 1750. Works and authors to be studied include: *Beowulf*, *The Canterbury Tales*, Shakespeare, Milton, Dryden, and Swift. Composition assignments will include analytical essays as well as creative writings. Students will be asked to work independently and cooperatively throughout the semester.

There is required reading during the summer before beginning this course.

MAJOR BRITISH AUTHORS II

Course # 01421

Prereq: Pass both semesters
of English III

Level: 12

Credit: 0.5

Major British Authors II is designed for college-bound seniors and emphasizes English literature and culture from 1750 through the 20th century. Poetry, plays, and essays will be studied, with an emphasis upon the novels of the 19th and 20th centuries. Writers such as Blake, Wordsworth, Keats, Austen, the Brontes, and Shaw will be studied. Students will be asked to work independently and cooperatively throughout the semester.

There is required reading during the summer before beginning this course.

READING IMPROVEMENT I

Course # 01551

Prereq: Dept. Chairperson
approval

Level: 9, 10, 11, 12

Credit: 0.5

This course is designed for students who are challenged in vocabulary, critical reading and comprehension and who need to strengthen study skills. Students will take diagnostic and placement tests in several skill areas before pursuing intensive large group, small group, and individual instruction. At the same time, students will complete a program of individually planned sustained reading of several books for which written reports will be required.

This course does NOT fulfill NCAA initial eligibility requirements for college.

READING IMPROVEMENT II

Course # 01592

Prereq: Pass Reading
Improvement I

Level: 9, 10, 11, 12

Credit: 0.5

Reading Improvement II is designed for students with serious reading needs who can profit from additional opportunities to further develop reading skills. *This course is offered second semester only.*

This course does NOT fulfill NCAA initial eligibility requirements for college.

WORLD LITERATURE I

Course # 01571

Prereq: Pass both semesters
of English III

Level: 12

Credit: 0.5

This elective course is designed for college-bound seniors. In short, the intent of World Literature I is to enrich students' cultural literacy by discussing a handful of historical, philosophical, and social issues that regularly confront young people in the early twenty-first century. The class will incorporate a variety of media. Film, food, music, clothing, poetry, and stage drama are all potential topics of study; however, the focus will be on the novel. The syllabus is drawn from a list that includes the challenging work of Nobel Prize winners alongside international bestsellers and graphic novels.

There is required reading during the summer before beginning this course.

WORLD LITERATURE II

Course # 01581

Prereq: Pass both semesters
of English III

Level: 12

Credit: 0.5

This course is designed for college-bound seniors. While the course will be similar in nature to World Literature I, the two are not considered part of a series; students may take either course or both. The class differs from World Literature I in that it attempts to focus on one specific theme: storytelling. More specifically, the class will look at international authors' efforts to write about human trial and tragedy using dynamic storytelling techniques like reverse narration or graphic novels.

There is required reading during the summer before beginning this course.

English Department

WRITING WORKSHOP

Course # 01611

Prereq: Pass both semesters of English III

Level: 12

Credit: 0.5

This elective course is designed for the student with average to below-average writing skills and focuses on pre-writing and revision through word processing as keys to writing improvement. In addition, emphasis is placed on basic writing skills such as effective thesis statements, brainstorming, organizational patterns, methods of essay development, vocabulary development, and sentence correctness. Some of the writing assignments include sensory writing, personal narrative, description, persuasion, and analysis essay, leading to a research paper at the end of the course. Regular attendance and effective use of class time is mandatory. ***There is required reading during the summer before beginning this course.***

ELECTIVES

ACADEMIC READING

Course # 01100

Prereq: Dept. Chairperson recommendation

Level: 9

Credit: 1.0

Academic Reading is designed for ninth grade students whose standardized test scores demonstrate that they would benefit from direct instruction on reading and vocabulary strategies. Students will complete diagnostic tests in several skill areas at both the beginning and end of the school year to track their growth. The curriculum is comprised of units that address skills that “good readers” internalize including previewing, predicting, summarizing, questioning, and analysis of text structure. In addition to these lessons, students will also receive weekly vocabulary instruction. Finally, students will engage in daily sustained silent reading both inside and outside of class. Comprehension of these novels is assessed both orally and in writing through book talks, presentations, class discussions, journals, projects, more formal writing, and a variety of other authentic assessments. Academic Reading students are simultaneously enrolled in both this course and English I; both classes are taught by the same English teacher. Although both Academic Reading and English I have separate curricula, Academic Reading will include some pre-teaching and re-teaching of skills and strategies taught in English I.

MASS MEDIA

Course # 01661

Prereq: Pass both semesters of English II

Level: 11, 12

Credit: 0.5

Mass Media is offered as an introduction to the subject of media issues and contains a blend of theory and practice. Units to be studied include: television, advertising, film, newspapers, radio broadcasting, and audio and video recording. Various creative projects will be pursued as well as projects involving writing and reading. A certain amount of independent library research in the areas studied is expected. An evening film study is also required. Course activities are designed to enable students to understand and evaluate the influence of mass media on their lives.

RADIO BROADCASTING

Course # 01671

Prereq: Dept. Chairperson approval

Level: 10, 11, 12

Credit: 0.5

Radio Broadcasting is a one-semester course offered as an introduction to the field of radio broadcasting and the communication skills involved in it. Students will receive training in the preparation of materials and use of the technical equipment used in broadcasting. Actual broadcast experience will be given to each student through the use of the district-owned FM station, WHSD 88.5. Evaluation of student performance will be based on projects, tests, and practical demonstration of the abilities to use broadcast techniques and equipment.

READING FUNDAMENTALS

Course # 01715

Prereq: Approval from the English or Educational Services Dept. Chairperson
Level: 9, 10, 11, 12
Credit: 1.0

This course is designed to help students with significant reading weaknesses improve their reading skills in an individualized, low-stress environment. Strategies for reading and spelling multi-syllabic words are taught, using the *Megawords* multi-sensory approach. A variety of high interest, age, and skill appropriate materials are used to increase reading fluency and comprehension. Study skills that support the regular curriculum are also emphasized.

COURSES FOR STUDENTS WITH LIMITED ENGLISH PROFICIENCY

TPI TUTORIAL

Course # 04801

Prereq: Dept. Chairperson approval
Level: 9, 10, 11, 12
Credit: 0

This course is designed to create daily opportunities for students to receive the necessary assistance they may need to succeed in the mainstream content courses at the secondary level. Individual time and attention will be provided to supplement and augment the content delivered in the students' mainstream coursework. There will also be supplementary activities to encourage knowledge of and adjustment to the new culture and how to succeed academically.

This course does NOT fulfill NCAA initial eligibility requirements for college athletics.

TRANSITIONAL ENGLISH I

Course # 04790

Prereq: Dept. Chairperson approval
Level: 9, 10, 11, 12
Credit: 1.0

This course is for "Limited English Proficiency" students who function adequately even though English is not their primary language, but whose performance could be improved by supportive help in language skills. It will include individual and group instruction designed to "fill the gaps" of culture and language which inhibit these students from reaching full academic potential. Students enrolled in this course for credit may also enroll in Course # 04801 Tutorial to replace study hall(s) when additional help is necessary.

This course does NOT fulfill NCAA initial eligibility requirements for college athletics.

TRANSITIONAL ENGLISH II

Course # 04710

Prereq: Dept. Chairperson approval
Level: 9, 10, 11, 12
Credit: 1.0

This course is for "Limited English Proficiency" students who function adequately even though English is not their primary language, but whose performance could be improved by supportive help in language skills and who have taken Transitional English I. It will include individual and group instruction designed to "fill the gaps" of culture and language which inhibit these students from reaching full academic potential. Students enrolled in this course for credit may also enroll in Course # 04801 Tutorial to replace study hall(s) when additional help is necessary.

This course does NOT fulfill NCAA initial eligibility requirements for college athletics.

ENGLISH AS A SECOND LANGUAGE I

Course # 04770

Prereq: Recommendation by the teacher of the Transitional Program of Instruction (TPI)
Level: 9, 10, 11, 12
Credit: 1.0

This course is designed for students whose first language is not English and whose communication skills need more support than can be provided in a regular English class. The course provides a sequential curriculum that allows the students to acquire standard American English. The course parallels, when and where possible, the regular English I curriculum. It will also provide supplementary activities to encourage knowledge of and adjustment to U.S. culture. This class may be taken concurrently with ESL II with TPI Director permission.

English Department

ENGLISH AS A SECOND LANGUAGE II

Course # 04780

Prereq: Recommendation by the teacher of the Transitional Program of Instruction (TPI)
Level: 9, 10, 11, 12
Credit: 1.0

This course is designed for students who have limited English proficiency but have a basic vocabulary and understanding of the language. The course provides a sequential curriculum that allows the students increased practice in standard American English. The course parallels, when and where possible, the regular English II curriculum. It will also provide supplementary activities to encourage knowledge of and adjustment to U.S. culture. This class may be taken concurrently with ESL I and ESL III with TPI Director permission.

ENGLISH AS A SECOND LANGUAGE III

Course # 04760

Prereq: Recommendation by the teacher of the Transitional Program of Instruction (TPI)
Level: 11, 12
Credit: 1.0

This course is designed primarily for immigrant students arriving as juniors or seniors. Students should have a basic vocabulary and understanding of the language. The course provides a sequential curriculum that allows the students increased practice in standard American English. The course parallels, when and where possible, the regular English III curriculum. It will also provide supplementary activities to encourage knowledge of and adjustment to U.S. culture. This class may be taken concurrently with ESL II with TPI Director permission.

Family & Consumer Sciences

Department Chairperson Dr. Gary Hutchinson

The Department of Family & Consumer Sciences is concerned with enhancing the social, intellectual, economic, aesthetic, and physical well being of both individuals and families. The courses in the department provide students with the basic skills and tools necessary to perform the various functions of the family. Family members will need to know how to use critical thinking skills to analyze the effects of technology and its multitude of new resources and products on the family. Courses in this department offer opportunities for creative expression and personal fulfillment as well as employment skills. Applied arts credit is given for all Family and Consumer Sciences courses. A fee is required for enrollment in all foods related courses. Students are required to purchase all materials for sewing.

Family & Consumer Sciences related careers and the suggested course sequencing:

CAREER	APPLICABLE COURSES
Dietitian Chef/Baker Hotel/Restaurant Management	Foods & Nutrition Creative Foods Chef & Restaurant
Fashion Designer/Buyer Fashion Display/Illustrator	Fashion Merchandising Creative Sewing Creative Sewing II
Architect Interior Design	Architectural Styles & Interior Design
Social Worker Teacher Preschool Child Care Worker	Child Development Understanding Relationships Introduction to Teaching
Tailor Seamstress	Creative Sewing Creative Sewing II

Please see Course Description for detailed Prerequisites.

Family & Consumer Sciences

EXPLORING FAMILY & CONSUMER SCIENCES

Course #06500

Prereq: none

Level: 9, 10, 11, 12

Credit: 1.0 (0.5 Consumer Educ., 0.5

Applied Arts)

Supply fee: \$10

This survey class introduces the student to all areas of Family & Consumer Sciences: consumer economics, foods, sewing, child development, housing, fashion, interior design and personal development. Projects and practical applications actively involve the students. This is a good place to begin Family and Consumer Sciences studies. ***This course fulfills the state mandate for consumer education*** and also provides one semester credit for Elective Arts. *Student must pass the semester in which the Consumer Unit is taught in order to fulfill the state mandate.*

FOODS & NUTRITION

Course #06501

Prereq: none

Level: 9, 10, 11, 12

Credit: 0.5

Supply fee: \$20

Do you love to cook or want to learn to cook? Foods and Nutrition is the first of three courses in foods. It is a concentrated study of nutrition, food preparation, consumer buying and meal planning. Emphasis is on correct food preparation techniques and principles of cookery. Lab periods provide practical experiences in time management, equipment use, food preparation skills and serving meals. The course is designed for personal enjoyment and as preparation for further training in food service. Students ***cannot receive credit*** for both Foods & Nutrition and Senior Foods.

Suggested follow-up class: Creative Foods.

CREATIVE FOODS

Course #06522

Prereq: Foods and Nutrition or Senior Foods

Level: 9, 10, 11, 12

Credit: 0.5

Supply fee: \$20

Do you like using your creative talents to produce culinary works of art? Creative Foods is a continuation of Foods and Nutrition, emphasizing student preferences and creativity. Students select and prepare a variety of appetizers, pastries, breads and main dishes. Activities include the fundamentals of cake decorating with students designing and decorating their own cakes. The course is designed for personal enjoyment and to ready students for further training in food service.

Suggested follow-up class: Chef & Restaurant.

CHEF AND RESTAURANT

Course #06532

Prereq: Foods and Nutrition or Senior Foods

Level: 10, 11, 12

Credit: 0.5

Supply fee: 20

This course is designed for future chefs and those who are interested in the commercial food industry. Students will operate a "mini restaurant" incorporating all aspects of food service and serve luncheon meals to Hinsdale South staff. Activities include menu selection, recipe testing, cost analysis, table settings, meal preparation, meal service and commercial cleanup techniques. While Creative Foods is not required for enrollment, it is strongly recommended.

SENIOR FOODS

Course #06541

Prereq: none

Level: 12

Credit: 0.5

Supply fee: \$20

Do you want to learn how to cook before going to college or living on your own? Senior Foods is designed to give students an overview of meal preparation and nutrition. Emphasis is on nutrition, food preparation, meal planning and food purchasing. Lab periods provide experiences in time management, equipment use and food preparation techniques. Students ***cannot receive credit*** for both Foods and Nutrition and Senior Foods.

Suggested follow-up class: Creative Foods.

Family & Consumer Sciences

CREATIVE SEWING

Course #06552

Prereq: none

Level: 9, 10, 11, 12

Credit: 0.5

Supply fee: \$10

Do you like to express yourself creatively by the clothes you wear? Learn to sew your own unique clothes using commercial patterns. In this class, emphasis is placed on individual projects suited to the student's preferences and abilities. Students will use a computerized sewing machine to produce high quality clothing they will be proud to wear. In addition to personal enjoyment, sewing is excellent preparation for careers in fashion and interior design.

Suggested follow-up classes: Fashion Merchandising or Creative Sewing II

CREATIVE SEWING II

Course # 06562

Prereq: Creative Sewing

Level: 9, 10, 11, 12

Credit: 0.5

Supply fee: \$10

This course focuses on advanced sewing techniques with various projects chosen by the student and approved by the instructor. Areas of study may include textile arts, tailoring, formalwear, serging techniques and fashion design. Each project incorporates new clothing construction skills based on student preferences and abilities.

Suggested follow-up class: Fashion Merchandising

FASHION MERCHANDISING

Course #06571

Prereq: none

Level: 10, 11, 12

Credit: 0.5

Supply fee: \$10

Fashion Merchandising brings the exciting world of fashion to life through the study of today's fashion industry. Activities include color analysis, textiles, fashion trends and personal selection of fashions. Creativity and projects involving fashion design and sketching, window displays and a student fashion show are emphasized. This course may be taken for personal enrichment as well as preparation for fashion related careers.

CHILD DEVELOPMENT

Course #06581

Prereq: none

Level: 10, 11, 12

Credit: 0.5

Do you love working with children or hope to be a parent someday? Are you thinking of a teaching career in elementary or preschool education? This course helps you understand how young children develop physically, intellectually, socially and emotionally. Class activities include conducting a preschool program in the school, observing young children, listening to guest speakers and evaluating children's toys and activities. Students plan activities appropriate for various age groups and participate in the fun with the children. **Students who earn a "B" or better in this class may receive articulated credit for Early Childhood Education & Care 1100 at College of DuPage.**

Suggested follow-up class: Introduction to Teaching or Understanding Relationships.

UNDERSTANDING RELATIONSHIPS

Course #06611

Prereq: none

Level: 11, 12

Credit: 0.5

This course encompasses "a slice of life" and provides an opportunity for students to better understand themselves and discuss issues relevant to adolescents. Topics include personal identity, self-esteem, values, dating, marriage and meaningful relationships with family and friends. Through class discussions and group work, students practice life skills in communication, stress management, decision-making and conflict resolution. Understanding Relationships is recommended for all Juniors and Seniors interested in personal development or careers requiring interpersonal skills.

Suggested follow-up class: Child Development

Family & Consumer Sciences

ARCHITECTURAL STYLES AND INTERIOR DESIGN

Course #06621

Prereq: none

Level: 10, 11, 12

Credit: 0.5

Supply fee: \$10

In this project-oriented class students learn to apply the elements and principles of design to architecture and interior spaces. Students explore the development of housing styles as well as identifying furniture styles, designing kitchen layouts and creating beautiful living areas. The final project involves designing a dream home including architectural drafting techniques, floor plans, arranging furniture and decorating with samples of paint, wallpaper and carpet. Architectural Styles and Interior Design is for personal enjoyment and creative expression as well as career preparation.

INTRODUCTON TO TEACHING

Course #06591

Prereq: Recommendation of counselor, application and interview by instructor, good academic standing. Child Development recommended.

Level: 12

Credit: 1.0 (one semester, two class periods)

This course offers a realistic teaching experience enabling students to work under the supervision of certified staff at elementary and middle schools. Students will spend four days a week at their assigned school. One day per week will be a classroom component to study related issues in education. Students will keep a journal of experiences. Responsibilities include creation of a teaching unit, visual displays, and tutoring younger children. Personal transportation preferred, however car pooling is possible.

Applications available in FACS office near room 152 or from the Guidance Counselor.

Foreign Language Department

**Department Chairperson
Mrs. Fran Mirro**

The Foreign Language Department seeks to develop its students into well-rounded, multi-dimensional individuals who have both knowledge and appreciation of foreign cultures and civilizations and a tolerance and acceptance of the cultural differences of various peoples. We recognize and wish to make our students aware of the personal, national, economic, and academic limitations of provincialism as our world grows evermore interdependent.

Two years of the same language will fulfill the entrance requirement of the state public universities in Illinois. Many universities require more than one year of foreign language study for admission and may require it for graduation from specific degree programs. Therefore, high school students preparing for college should include one or more foreign languages in their preparation. Credit for a full year of foreign language will fulfill one-year of the two-year District 86 Elective Arts requirement.

Students entering the ninth grade with previous foreign language experience can complete the equivalent of five years of high school work which may include Advanced Placement work. Students who complete the upper levels of a language often test out of the foreign language requirements, receive college credit, and/or are placed in advanced language courses in college. A four-year sequence of honors level courses is available in all languages offered by the department.

Etymology, a semester course, is highly recommended to all students and especially to those planning to continue in upper level languages courses. Etymology is also excellent preparation for college admission testing (PSAT, SAT).

Please see Course Description for detailed Prerequisites.

GERMAN

GERMAN I

Course # 04200

Prereq: None

Level: 9, 10, 11, 12

Credit: 1.0

German I is an introduction to the German language and culture. An intensive listening and speaking experience, based on everyday situations is provided. Students will learn the basic sounds of the language, pronunciation, grammar, vocabulary, and sentence patterns. Active reading and writing are introduced. Language skills and an understanding of the German people are obtained from the study of folk tales, recipes, songs, videos, and introductory reading from newspapers and discussions of the history and politics of the German people.

GERMAN I HONORS

Course # 04210

Prereq: Concurrent registration in English Honors and/or Math Honors and Dept. Chairperson approval

Level: 9, 10, 11, 12

Credit: 1.0

In German I Honors the student will be introduced to the German language and culture. In addition to the content of the German I course, students will be involved in higher level learning activities in listening, speaking, reading, and writing as a required part of the course. Additional enrichment reading assignments, projects, and presentations are integrated in the form of simple narratives, fairy tales, songs, and poems.

GERMAN II

Course # 04220

Prereq: "C" in German I

Level: 10, 11, 12

Credit: 1.0

German II provides a continuation of the skills learned in German I with an emphasis on communication and culture, while writing skills and practical vocabulary are greatly increased. Writing and performing skits gives the students the chance to "live" the language and an opportunity to more fully enjoy listening to and speaking German.

GERMAN II HONORS

Course # 04270

Prereq: "A" in German I or "B" in German I with Dept. Chairperson approval, or "C" in German I Honors

Level: 10, 11, 12

Credit: 1.0

In addition to the content of the German II course, German II Honors emphasizes higher level learning in listening, speaking, reading and writing. More advanced vocabulary and grammar structures will be studied, as well as German culture, customs, and history. Students are challenged by the addition of reading selection and urged towards mastery in communication skills

GERMAN III

Course # 04280

Prereq: "C" in German II

Level: 11, 12

Credit: 1.0

German III continues to emphasize communication skills, grammatical structures and a cultural approach. Students will increase their reading skills and vocabulary by reading short stories and a selection of poetry. Individualized study projects are integrated as well.

GERMAN III HONORS

Course # 04230

Prereq: "A" in German II or "B" in German II with Dept. Chairperson approval, or "C" in German II Honors

Level: 11, 12

Credit: 1.0

In this course previously learned skills are enhanced. Advanced vocabulary and grammar are studied along with short stories, cultural readings and selections from newspapers and classical literature. A thematic approach is used to integrate advanced learning in speaking, writing and active listening. Individualized study projects are pursued. Students will gain cultural understanding through excerpts from history, art, music, literature, geography, and films. Students are encouraged to begin to prepare for the Advanced Placement Exam in German.

Foreign Language Department

GERMAN IV

Course # 04290

Prereq: "C" in German III

Level: 11, 12

Credit: 1.0

German IV will continue the reading, grammar, listening, and composition writing in German. It will emphasize verbal and written communication and present selections from literature, art, music, science, history, and films. Students enrolled in the class are encouraged to prepare for College Placement tests

ADVANCED PLACEMENT

GERMAN LANGUAGE

Course # 04240

Prereq: "A" in German III "B" in German III with Dept. Chairperson approval, or "C" in German III Honors

Level: 11, 12

Credit: 1.0

Advanced Placement German Language is the fourth course in the German sequence and is a college level course requiring the ability to work independently on a college level. This class emphasizes higher level learning skills in order to increase the student's reading rate and comprehension. Through the reading of literary masterpieces the student is enriched in his personal life as well as in his understanding of contemporary and historical Germany. Individual study projects are pursued. *Students enrolled in this course are encouraged to take the Advanced Placement Test in German in May.*

GERMAN V HONORS

Course # 04260

Prereq: "A" or "B" in German IV or Depart. Chairperson approval or "C" in Adv. Placement German Language

Level: 12

Credit: 1.0

German V Honors is the fifth course offered in the German language sequence and requires the ability to work independently on a college level. The student will read and analyze the masterpieces of German literature. Advanced study of grammar and writing practice are provided. Students will complete essays and compositions in German. Individualized study projects make up a large part of this course.

LATIN

LATIN I

Course # 04300

Prereq: None

Level: 9, 10, 11, 12

Credit: 1.0

This course provides an introduction to the language, culture, and civilization of the Romans. Particular attention is also paid to increasing students' proficiency in their own language since over 50% of the words in the English language are derived from Latin. Grammar, syntax, vocabulary and translation are stressed. Classical allusions to our own civilization and the Roman contribution to western civilization are also emphasized.

LATIN I HONORS

Course # 04310

Prereq: Concurrent registration in English Honors and/or Math Honors

Level: 9, 10, 11, 12

Credit: 1.0

In Latin I Honors, students will be introduced to the language, culture, and civilization of the Romans. This course differs from Latin I in the number and variety of textbook and workbook assignments. Also, special projects and written or oral presentations are required.

LATIN II

Course # 04320

Prereq: "C" in Latin I

Level: 11, 12

Credit: 1.0

This course includes a review of the material studied in Latin I. By the end of the first semester students will have acquired basic knowledge of grammar and vocabulary. Attention is devoted in the second semester to reading passages from important Roman authors. Supplementary units will include Roman mythology, history, and the derivation of English words from their Latin roots. *Successful completion of this course with a grade of "B" or higher is a prerequisite for Advanced Placement Latin: Vergil or Advanced Placement Latin: Literature*

Foreign Language Department

LATIN II HONORS

Course # 04350

Prereq: "B" in Latin I Honors or "A" in Latin I

Level: 10, 11, 12

Credit: 1.0

In addition to the content in Latin II, Latin II Honors includes an increase in the number and variety of textbook and workbook assignments. Also, special projects and written or oral presentations are required. Students are encouraged and prepared to take the College Board Achievement Test in Latin. *Successful completion of this course with a grade of "B" or higher is a prerequisite for Advanced Placement Latin: Vergil or Advanced Placement Latin: Literature*

ADVANCED PLACEMENT

LATIN: VERGIL

Course # 04360

Prereq: Successful completion of a Latin II

Level: 11, 12

Credit: 1.0

This course is designed to prepare students to take the Advanced Placement examination in Vergil in May. Students in this course will read Vergil's epic poem, *The Aeneid*. While grammar and syntax remain important, more attention is paid to the development of an appreciation for epic poetry. Reading assignments alternate with group discussion and individual reports on topics in the history and literature of the late Roman Republic and early Roman Empire. The subject matter of this course alternates with that of Advanced Placement Latin Literature.

Preparation for the Advanced Placement Examination in Vergil alternates yearly with the Advanced Placement Examination in Latin Literature.

ADVANCED PLACEMENT

LATIN: LITERATURE

Course # 04340

Prereq: Successful completion of a Latin II

Level: 11, 12

Credit: 1.0

This course is designed to prepare students to take the Advanced Placement examination in Latin Literature in May. Students in this course will read, translate, understand, analyze, and interpret selections from the Latin Lyric poets Catullus and Horace. While grammar and syntax remain important, more attention is paid to the development of an appreciation for lyric poetry. Reading assignments alternate with group discussion and individual reports on topics such as the life and times of the two poets, antecedents of lyric poetry, and the metrical patterns of lyric poetry.

Preparation for the Advanced Placement Examination in Latin Literature alternates yearly with the Advanced Placement Examination in Vergil.

ETYMOLOGY

ETYMOLOGY

Course # 04701

Prereq: "C" in the Foreign Language most recently studied

Level: 10, 11, 12

Credit: 0.5

This course is designed to increase knowledge and understanding of English vocabulary. Students learn to discover meanings of words through recognition and interpretation of their elements. Supplementary activities add variety to the learning process. Etymology is especially recommended for students who plan to take the PSAT, ACT, SAT or other college entrance exams.

Foreign Language Department

FRENCH

FRENCH I

Course # 04100

Prereq: None

Level: 9, 10, 11, 12

Credit: 1.0

Emphasis is placed on learning to pronounce the sounds of the language and to acquire enough vocabulary and structural patterns to survive in a French-speaking country as a tourist. All material is culturally based. The language lab provides extensive practice in the formation of listening and speaking skills. Writing and reading will also be developed. Juniors who have not studied a foreign language, or who would like to diversify their foreign language skills while enhancing their English vocabulary and grammar are encouraged to include a two-year sequence of French in their program. One year of French is required to participate in the France trip.

FRENCH I HONORS

Course # 04110

Prereq: None – concurrent enrollment in other Honors courses preferred

Level: 9, 10, 11, 12

Credit: 1.0

The French I Honors program is the same as French I but for the student who is usually enrolled in Honors courses and who wishes to participate in higher-level learning activities. Emphasis is placed on enriching speaking, reading, and writing skills as well as heightened cultural awareness through projects. All Honors students will participate in the National French Contest.

FRENCH II

Course # 04120

Prereq: “C” in French I

Level: 9, 10, 11, 12

Credit: 1.0

French II continues to develop speaking, listening, reading, and writing skills. Emphasis is placed on acquisition of vocabulary and more advanced grammar concepts, including use of the past, future, and conditional tenses. Students will develop increasing cultural awareness. Students will practice in the language lab and are encouraged to communicate in French during class.

FRENCH II HONORS

Course # 04170

Prereq: “A” in French I or “B” in French I and Dept. Chairperson approval or “C” in French I Honors

Level: 9, 10, 11, 12

Credit: 1.0

French II Honors is the same as French II, but for the student who demonstrated exceptional proficiency in French I or French I Honors. Students are required to speak in French in class. Students will be challenged with the opportunities to prepare writing samples and perform skits working towards mastery in communication skills.

FRENCH III

Course # 04130

Prereq: “C” in French II

Level: 10, 11, 12

Credit: 1.0

French III reviews and expands skills learned in Level II including increased speaking, reading, writing, and comprehension skills. Emphasis is placed on more extensive vocabulary acquisition and a more complete study of grammar. Original skits will be written and performed. Practice in the language lab will continue. A field trip to the Art Institute of Chicago is the culminating activity of the Art Unit. Students are encouraged to communicate in French during class.

Foreign Language Department

FRENCH III HONORS

Course # 04180

Prereq: "A" in French II or "B" in French II and Dept. Chairperson approval or "C" in French II Honors
 Level: 9, 10, 11, 12
 Credit: 1.0

French III Honors is the same as French III, but for the student who demonstrated exceptional proficiency in French II or French II Honors. Students will be required to communicate exclusively in French. Journal writing helps prepare the student for the AP class. More extensive understanding of French culture and civilization will enhance the students' ability to communicate with native speakers who are used to non-native speakers of French. A field trip to the Art Institute of Chicago is the culminating activity of the Art unit. Students are encouraged to participate in immersion weekend programs. All Honors students will participate in the National French Contest.

FRENCH IV

Course # 04140

Prereq: French III
 Level: 11, 12
 Credit: 1.0

French IV provides a complete review of French grammar and continued acquisition of vocabulary, including idioms. The course of study involves lengthier readings, a study of history, and some literature. Students will be asked to communicate in French as much as possible. Cultural projects may be included. Students are encouraged to participate in the National French Contest and immersion weekend programs.

ADVANCED PLACEMENT FRENCH LANGUAGE

Course # 04150

Prereq: "C" in French III Honors or "A" in French III or "B" in French III with Dept. Chairperson approval
 Level: 11, 12
 Credit: 1.0

AP French IV is a college level course that entails intensive work acquiring advanced vocabulary and a complete grammar review along with development of extended discourse skills. Emphasis is placed on improving authentic pronunciation skills, speaking, and listening comprehension in the language lab. Reading in history, civilization, and literature are included. Students are encouraged to participate in immersion weekend programs. Students will be prepared to take all college entrance and achievement exams in French. The class is conducted entirely in French. *Students enrolled in this course are encouraged to take the Advanced Placement Test in French in May.*

FRENCH V HONORS

Course # 04190

Prereq: Successful completion of Advanced Placement French IV
 Level: 12
 Credit: 1.0

In French V the student continues to study more advanced grammar and acquire a richer vocabulary. Continued work in the language lab will help prepare the student for the various portions of the AP Language Exam. Advanced reading skills are emphasized. Students are encouraged to participate in immersion weekend programs. Students will be prepared to take all college entrance and achievement tests in French. The class is conducted entirely in French. *Students enrolled in this course are also encouraged to take the Advanced Placement Test in French in May.*

SPANISH

SPANISH I

Course # 04510

Prereq: None
 Level: 9, 10, 11, 12
 Credit: 1.0

In Spanish I, the students develop communication skills, study grammatical structures, and learn about culture. Students study the basics of the language: speaking, listening comprehension, reading and writing. Cultural studies include a variety of media that illustrate culture and customs and discussion of the psychology of the Hispanic people and geography.

Foreign Language Department

SPANISH II

Course # 04520

Prereq: "C" in Spanish I

Level: 9, 10, 11, 12

Credit: 1.0

In Spanish II, the students will continue to develop communication skills, study grammatical structures and learn about culture. Specific cultural emphasis will be given to Mexico, Central America and South America. Specific communication skills will emphasize listening and speaking with increased instruction and practice in reading and writing.

SPANISH II HONORS

Course # 04580

Prereq: "A" in Spanish I

Level: 9, 10, 11, 12

Credit: 1.0

In addition to the content covered in Spanish II, Spanish II Honors will emphasize listening comprehension, meaningful conversation, reading selected text for conversation-stimulating content, and development of writing skills.

SPANISH III

Course # 04530

Prereq: "C" in Spanish II

Level: 10, 11, 12

Credit: 1.0

In Spanish III, students will continue to develop communication skills, grammatical structures and learn about the culture of various Spanish-speaking countries. Specific communication skills will emphasize the development of improved listening comprehension, speaking and writing, as well as further practice in reading and vocabulary building.

SPANISH III HONORS

Course # 04570

Prereq: "A" in Spanish II or "B" in Spanish II with Dept. Chairperson approval or "C" in Spanish II Honors

Level: 10, 11, 12

Credit: 1.0

Spanish III Honors provides the opportunity for students to progress from a structured sequential language program to one, which emphasizes, in a thematic approach, integration of all language skills. Students will progress toward the goal of independent use of the language in speaking, reading, writing, and active listening. Furthermore, students will gain an understanding of Spanish culture through the study of history, art, music, literature, geography, and customs.

SPANISH IV

Course # 04540

Prereq: "C" in Spanish III

Level: 11, 12

Credit: 1.0

Spanish IV provides an opportunity for students to develop their fluency through intensive conversational practice and to strengthen their skills in writing, reading, listening, vocabulary and comprehension. Culture is studied through reading, movies, field trips, and skits.

ADVANCED PLACEMENT SPANISH LANGUAGE

Course # 04550

Prereq: "A" in Spanish III or "B" in Spanish III with Dept. Chairperson approval or "C" in Spanish III Honors

Level: 11, 12

Credit: 1.0

Advanced Placement Spanish Language offers students a college level experience. It is the fourth course in the Spanish sequence and provides an opportunity for students to further develop their skills in writing, speaking, reading, and listening comprehension. Culture is studied through reading selections, discussions and field trips. Intensive work in grammar and vocabulary will be required in order to help students prepare for college board achievement and placement. *Students enrolled in this course are encouraged to take the Advanced Placement Test in Spanish in May.*

SPANISH V HONORS

Course # 04590

Prereq: "C" in AP Spanish Language or "C" in Spanish IV

Level: 12

Credit: 1.0

Spanish V Honors provides an opportunity for students to further develop their skills in writing, speaking, reading and listening comprehension. Intensive work in grammar and vocabulary will be required in order to help students prepare for college board achievement and placement. Culture is studied through literature. *Students enrolled in this course are also encouraged to take the Advanced Placement Test in Spanish in May.*

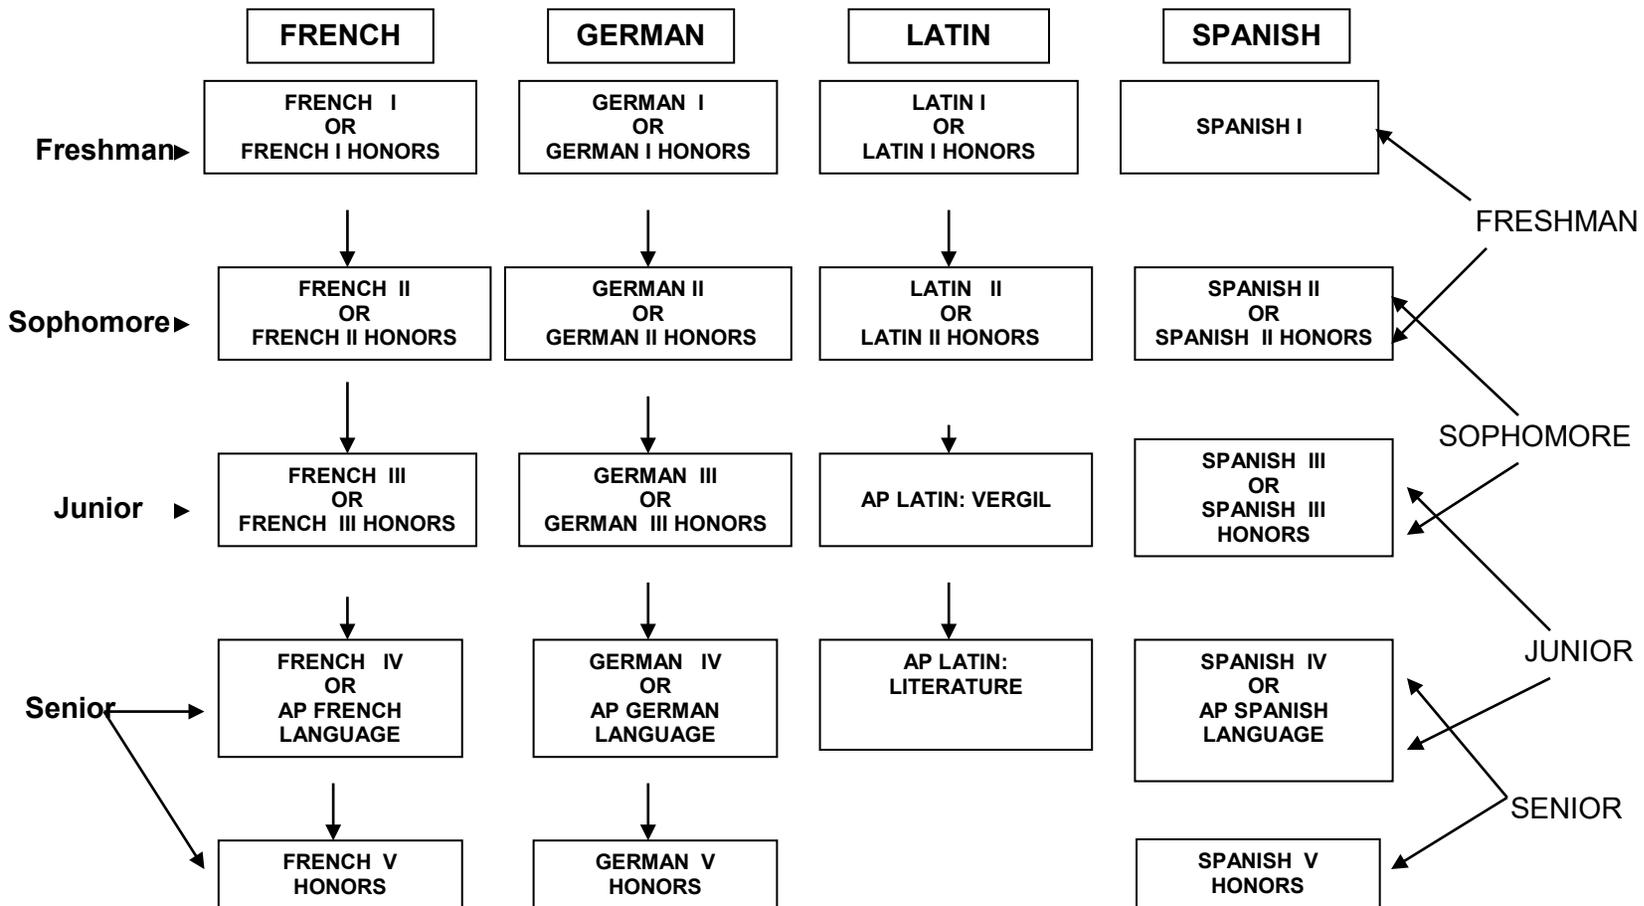

Foreign Language Department

HINSDALE SOUTH HIGH SCHOOL FOREIGN LANGUAGE DEPARTMENT

Two credits of Elective Arts are required for graduation. Foreign Language is considered one of the Elective Arts. However, only one credit in Foreign Language may be applied to this graduation requirement. Some colleges require 2 years of the same Foreign Language for college entrance and admission consideration. Entrance into our Honors programs requires department chair approval.

Mathematics Department

Department Chairperson Mr. Ismael Zamora

Vision: “Every student a mathematically literate problem solver.”

Mission: The mission of the Mathematics Department is to develop in our students the mathematical abilities they will need to become productive citizens. We are committed to providing curriculum, instruction, and assessment that will actively involve students in constructing and applying mathematical ideas to solve problems and enable students to express the mathematical connections in the world around us with algebraic, geometric, or numeric representations.

Graphing calculators are required for ALL MATH AND SCIENCE COURSES. The recommended calculator is a any type of TI-83 Or TI-84. Other TI calculators may be used, but are not recommended.

Note:

Any student who earns a D in a mathematics course is strongly recommended to retake one or both semesters in summer school before attempting the next course in the sequence. The deficiencies indicated by the D grade will make success in the next course in the sequence very difficult.

It is not recommended to take Algebra I in summer school to accelerate since Algebra is the foundation of all secondary school mathematics. It is recommended to be taken during the school year. Students wishing to advance should take a summer school course after completing Algebra 1 during the regular school year. Another option is to double up Geometry and Algebra 2 during the students sophomore year.

Department chairperson approval is required when a change of level is requested. Failure of a course in a given track, in and of itself, does not imply an automatic change to a lower sequence. Upward level changes require a 95% semester average in the previous course.

Please see Course Description for detailed Prerequisites.

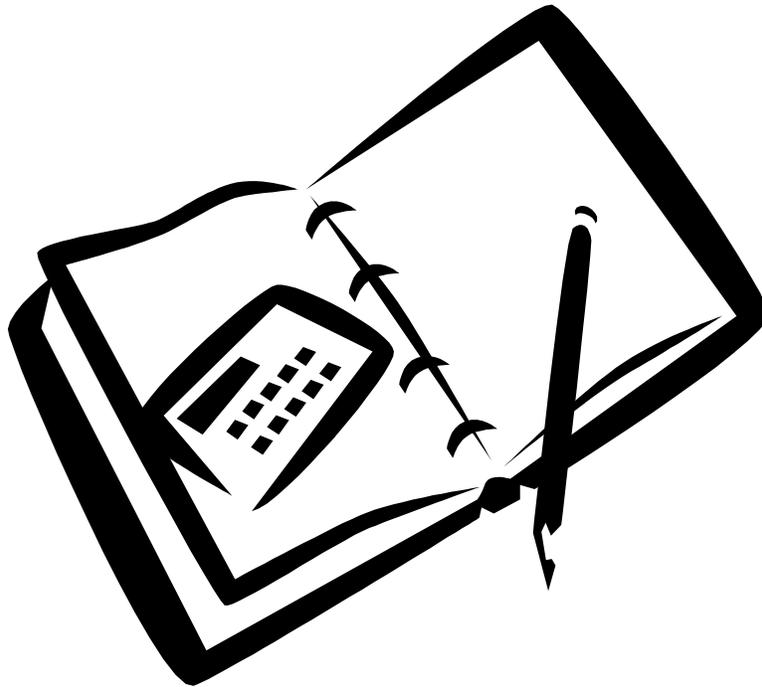

<u>Course Title</u>	<u>Course No.</u>	<u>Prerequisite</u>	<u>Credit</u>	<u>Levels</u>
Concepts of Algebra & Geometry	03150	Yes	1.0	9

Mathematics Department

Mathematics Department

CONCEPTS OF ALGEBRA AND GEOMETRY

Course #03150

Prereq: Department Chair approval

Level: 9

Credit: 1.0

This course is designed for students who require a refresher in foundational mathematics facts, in addition to giving them the tools which will allow them to be successful in Algebra I Block and Geometry-G and future math courses. It meets the state requirement as a course that addresses Geometry content, but not the year-long Algebra credit. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

This course satisfies the Geometry content requirement.

ALGEBRA I

Course # 03110

Prereq: Recommendation of 8th grade teacher and Dept.

Chairperson approval

Level: 9, 10, 11, 12

Credit: 1.0

This course is required for entrance to most colleges. It is also basic to a career or future study in all fields. Mastery of the basic arithmetic skills is a prerequisite for this course. The primary topics studied are properties of numbers, equations and inequalities, and an introduction to linear and nonlinear functions, polynomials, and graphing. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

This course fulfills the Algebra I requirement.

ALGEBRA I BLOCK

Course # 03120, 03130

Prereq: Recommendation of 8th grade teacher

Level: 9, 10, 11, 12

Credit: 2.0

This course is a double-period Algebra I so the student can complete Algebra in one year but devote more time to learning and applying the topics. It is designed for the student who learns at a slower pace. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

This course fulfills the Algebra I requirement.

GEOMETRY-G

Course #03200

Prereq: Algebra I, Block

Level: 10, 11, 12

Credit: 1.0

This course is designed to follow the Algebra I block. It deals with the general topics of Geometry 03210 emphasizing hands-on-learning, practical applications and informal argument instead of formal proof. This course would be very beneficial for any student pursuing post-secondary education. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

This course satisfies the Geometry content requirement.

GEOMETRY

Course # 03210

Prereq: C or better in Algebra I at the High School or pass the entrance test at the end of 7th or

8th grade Algebra I and

Department Chairperson

approval

Level: 9, 10, 11, 12

Credit: 1.0

Geometry is required for entrance into most colleges and many vocational programs. This course continues the use of algebra in geometric situations, calls on the power of logic and proof, and incorporates applications to real-world problems in the plane and in space. This course is for students who intend to pursue post-secondary education of two or more years. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

This course satisfies the Geometry content requirement.

GEOMETRY HONORS

Course # 03220

Prereq: A in Algebra I at the

High School or pass the entrance test at the end of 7th or

8th grade Algebra and

Department Chairperson

Approval.

Level: 9, 10

Credit: 1.0

Geometry Honors is designed for the superior mathematics student and deals with the topics included in regular Geometry 03210, but with more depth. Three-dimensional and coordinate geometric proofs are included. Particular attention is given to the nature of mathematical systems, logic, and deductive and inductive proofs. *A graphing calculator is required for this course, preferably, any type of TI-83 or 84.*

This course satisfies the Geometry content requirement.

Mathematics Department

ALGEBRA II/ TRIGONOMETRY G

Course # 03300

Prereq: Geometry or Geometry-G and Department Chairperson Approval

Level: 11, 12

Credit: 1.0

This course is recommended for students completing the G sequence of courses or who did C or D work in Algebra I and/or Geometry. The topics studied are real and complex numbers, conic sections, and exponential, logarithmic, polynomial, and trigonometric functions. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

ALGEBRA II / TRIGONOMETRY

Course # 03310

Prereq: C or better in Algebra I and Geometry

Level: 10, 11, 12

Credit: 1.0

This course is designed for college bound students and useful for preparing for College Board tests like the SAT and ACT. It continues the study of linear and quadratic functions, graphing, polynomial, exponential and logarithmic functions, and introductory probability and trigonometry. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

ALGEBRA II / TRIGONOMETRY HONORS

Course # 03320

Prereq: B or better in Geometry Honors or Department

Chairperson Approval

Level: 9, 10, 11

Credit: 1.0

This course deals with the topics of Algebra II / Trigonometry 03310 in more depth, emphasizing the function approach and applications. Particular attention will be given to the nature of a mathematical system. This is a college-preparatory course. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

PRECALCULUS

Course # 03400

Prereq: C or better in Algebra II /Trigonometry or Algebra II /Trigonometry Honors or Introduction to Statistics or Math Analysis & Research

Level: 10, 11, 12

Credit: 1.0

This course is a study of functions and applications. It extends the topics of Algebra 2/Trigonometry and adds conic sections and some finite math topics. This course is recommended for students who are preparing to enter a profession, a technical or semi-technical field, or planning to take at least one college-level mathematics course. *A graphing calculator is required, preferably any type of TI-83 or 84.*

PRECALCULUS HONORS

Course # 03410

Prereq: B or better in Algebra II/ Trigonometry Honors or A in Algebra II/Trigonometry and Department Chairperson approval

Level: 10, 11, 12

Credit: 1.0

Precalculus Honors treats the topics of 03400 Precalculus in greater depth, with more emphasis placed on proof, abstract structure, and preciseness of thought and communication. In addition, analytic geometry of the plane, probability, and the polar coordinate system is studied. *A graphing calculator is required for this course, preferably any type of TI-83 or 84*

ADVANCED PLACEMENT CALCULUS AB

Course # 03420

Prereq: B or better in Precalculus

Level: 10, 11, 12

Credit: 1.0

Advanced Placement Calculus is a college level course offered for serious students interested in advanced placement in college or for mathematics, science, engineering, or business students. Material studied includes beginning differential and integral calculus and applications. Students are encouraged to take the College Board Advanced Placement AB exam in calculus in May. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

**ADVANCED PLACEMENT
CALCULUS BC****Course # 03430**

Prereq: Department

Chairperson

Approval and Precalculus

Honors

Level: 11, 12

Credit: 1.0

This course covers material contained in AP Calculus AB, application of integrals, differential equations, and infinite series. Students are encouraged to take College Board Advanced Placement BC exam in Calculus in May. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

WEB PROGRAMMING**Course # 03451**

Prereq: Geometry or concurrent enrollment in Geometry or Department Chairperson approval

Level: 10, 11, 12

Credit: 0.5

This course uses web documents as a method to explore computer programming, data manipulation, and data presentation via HTML and JavaScript languages. Students will apply logical thinking skills and programming concepts to develop interactive web pages. Upon successful completion, the students will be capable of creating their own interactive web pages. Evaluation is based on projects, assignments, and tests.

**ADVANCED WEB
PROGRAMMING****Course # 03462**

Prereq: Web Programming or Department approval.

Level: 10, 11, 12

Credit: 0.5

Advanced Web programming is a continuation of Web programming, moving from JavaScript to JavaApplet CGI scripting and other web-based languages. HTML and web page design will be used as a method of maintaining a portfolio of class work. Evaluation is based on projects, assignments, and tests. The next course in the sequence is Introduction to Java or AP Computer Science.

This course is offered second semester only.

INTRODUCTION TO JAVA**Course # 03482**

Prereq: Web Programming or Department approval

Level: 11, 12

Credit: 0.5

This course introduces the student to Java program design and implementation. Topics include data types, logical control statement, file management, and procedural and object oriented design. Students will be introduced to real life and career-based applications of computer programming. Evaluation is based on projects, assignments and tests.

The next course in sequence is Advanced Placement Computer Science.

This course is offered second semester only.

**ADVANCED PLACEMENT
COMPUTER SCIENCE AB****Course # 03500**

Prereq: B or better in

Introduction to Java, Advanced Web Programming or Department Chairperson approval

Level: 11, 12

Credit: 1.0

The course focuses on programming methodology, algorithms, and data structures. Applications are used to develop student awareness of the need for particular algorithms and data structures, as well as to provide topics for programming assignments to which students can apply their knowledge. The Java programming language is the vehicle for implementing computer-based solutions to particular programs. Treatments of computer systems and the social implications of computing are integrated into the course. To be successful in this course, a student must have demonstrated proficiency in the previous course content, either Advanced Web Programming or Introduction to Java. *Students will be encouraged to take the Advanced Placement exam in computer programming in May, either level A or AB.*

Mathematics Department

ADVANCED PLACEMENT STATISTICS

Course # 03440

Prereq: B or better in Algebra II/
Trigonometry

Level: 11, 12

Credit: 1.0

The purpose of Advanced Placement Statistics is to introduce students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. The following themes are covered; exploring data, planning a study, anticipating patterns, and statistical inference. This course would be excellent for students planning to major in business or social sciences as well as science or mathematics. *Students will be encouraged to take the Advanced Placement Statistics test in the spring. A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

INTRODUCTION TO STATISTICS

Course # 03471

Prereq: C or better in Algebra II /
Trigonometry (any level) and
Department Chairperson

Approval.

Level: 12

Credit: .5

The primary topics to be studied are data analysis, including representing and describing data and creating and analyzing a survey. This course is appropriate for college-bound students and is, therefore, recommended for all Algebra II-G students who achieved at the C or above level. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

MATHEMATICAL ANALYSIS AND RESEARCH

Course # 03472

Prereq: C or better in Algebra II
Trigonometry and Department
Chairperson approval

Level; 12

Credit: 0.5

This is a survey of algebraic functions, mathematical modeling, elementary probability and research techniques in mathematics. This course is appropriate for college-bound students and is, therefore, recommended for all Algebra II students who achieved at the C or above level and for Algebra II-G students who achieved at the C level or higher. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

MATH TOPICS I HONORS

Course # 03511

Prereq: Department
Chairperson approval

Level: 12

Credit: 0.5

Math Topics I is for students who have completed Advanced Placement Calculus BC, Advanced Placement Computer Science and/or Advanced Placement Statistics and would like to continue their studies of topics in Advanced Calculus, Computer Science, Linear Algebra or Advanced Statistics. Students must find a sponsoring teacher in order to sign up for this course. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

MATH TOPICS II HONORS

Course # 03512

Prereq: Math Topics I Honors
and Department Chairperson
approval

Level: 12

Credit: 0.5

Math Topics II is a continuation of Math Topics I. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

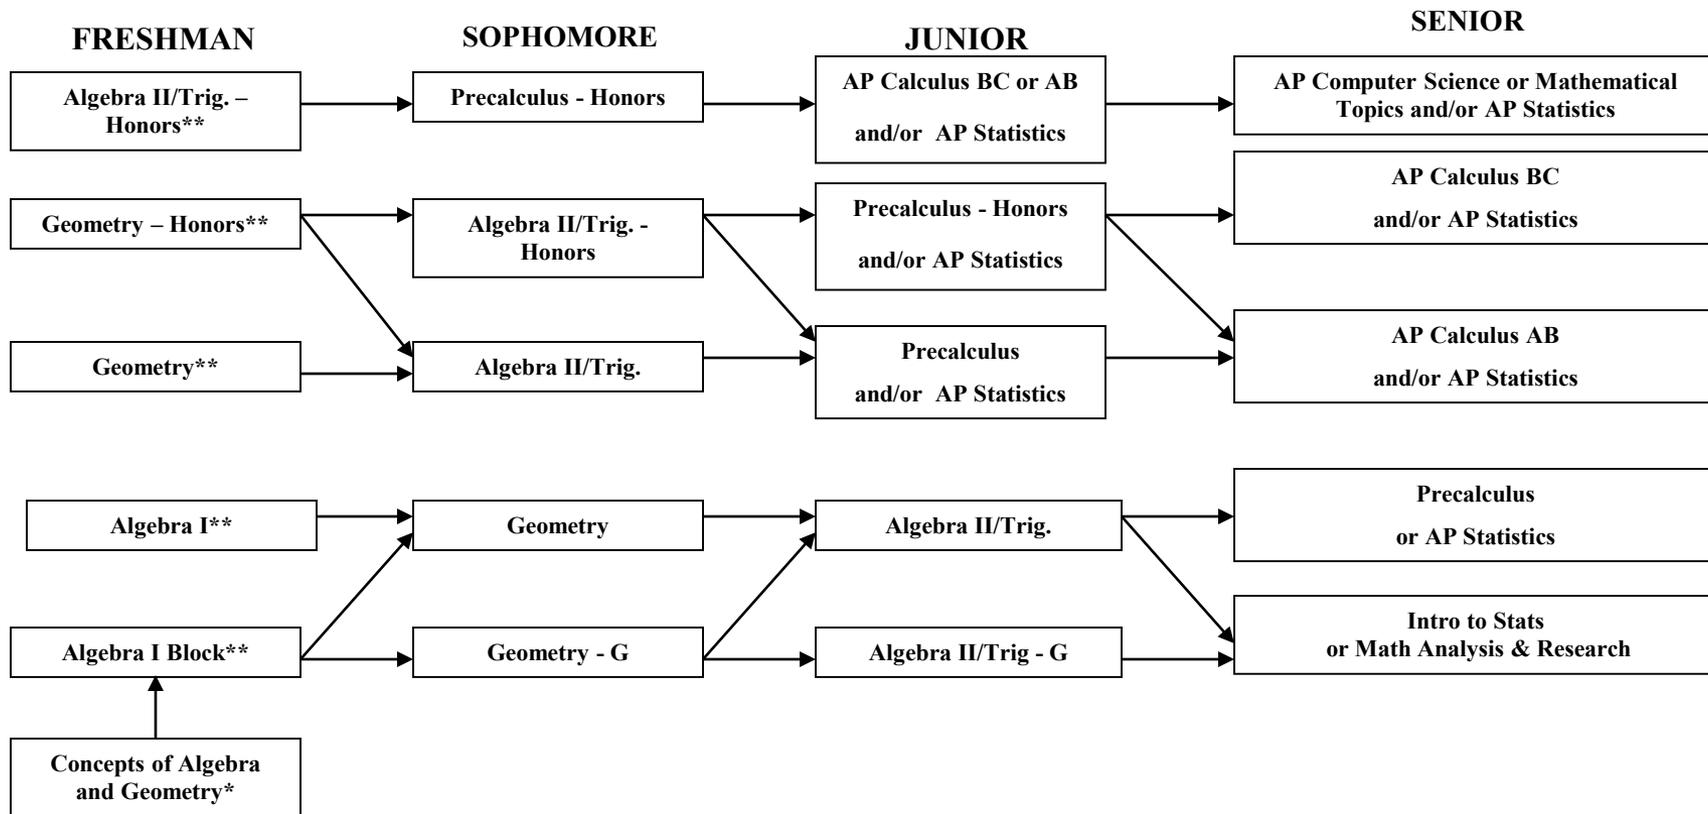

HINSDALE SOUTH HIGH SCHOOL MATHEMATICS DEPARTMENT

Starting with the class of 2009, 3 years of Mathematics are required for graduation. Starting with the class of 2010, 1 of the 3 years must be an Algebra course and one course must include Geometry content. Credits must be earned in three full-year courses.

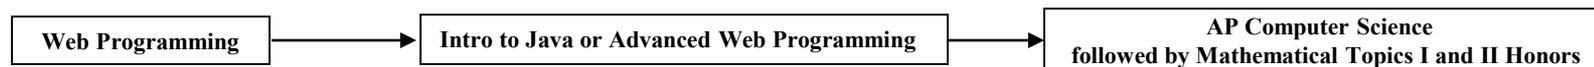

Colleges require at least Algebra, Geometry, and Algebra II/Trig for admission. Many also require Precalculus.

**** These courses require Department Chair approval for registration.**

(AP Statistics may be taken any time after Algebra II with a B or better performance in Algebra II.)

COMPUTER COURSES TAUGHT BY THE MATH DEPARTMENT: Students with an aptitude in mathematics should take at least one semester of a computer course. Students with a strong math aptitude should consider the AP Computer Science curriculum.

Note: Department chairperson approval is required when a change of level (for example, Honors to regular level) is requested. Failure of a course in a given track, in and of itself, does not imply an automatic change to a lower sequence.

Music Department

Department Chairperson Mr. Paul Kimpton

Music education is critical in the formulation of well-rounded citizens. By providing all students many and varied musical experiences, we will create, foster and develop individuals with a better understanding of the arts. Through music education we hope to develop better problem solvers, students as communicators, critical thinkers, cooperative workers, skilled information processors and lifelong learners. Students in music performance classes will be provided multiple experiences combining performance with historical and theoretical information. The Music Department enhances student understanding of music's connection to all academic disciplines and the world in which they live by providing information and experiences in everyday courses. **Students may earn up to four credits in the same music course.**

Please see Course Description for detailed Prerequisites.

<u>Course Title</u>	<u>Course No.</u>	<u>Prerequisite</u>	<u>Credit</u>	<u>Levels</u>
Concert Band	05610	Yes	1.0	9-12
Symphonic Band Honors	05620	Yes	1.0	9-12

Music Department

CONCERT BAND

Course #05610

SYMPHONIC BAND HONORS

Course #05620

--See Honors Requirements--

Prereq: Audition by High School Band Director. Call 630-468-4450 to schedule an audition.

Level: 9, 10, 11, 12

Credit: 1.0

The Concert Band is a performance-oriented class which offers challenging musical experiences. The performance schedule is designed to give students musical opportunities in both small and large groups. Performances include all home football games, two to three marching band competitions, winter and spring band concerts, and Illinois High School large group (Band), solo, and ensemble contests. **Marching band students in grades 10 - 12 may be exempt from Physical Education during football season. Please inquire with counselor during registration.**

JAZZ BAND

Course #05600

Prereq: Audition by High School Band Director

Level: 9, 10, 11, 12

Credit: 1.0

Jazz Band is designed for students who want to learn Jazz in a big band setting. Emphasis will be placed on learning jazz improvisation, theory, and the various styles jazz music offers. The Jazz Band is expected to perform at several concerts, shows, and community performances throughout the year. This class is the full Jazz band experience. Students are encouraged to be enrolled in the Concert Band. Membership will be determined by audition and instrumentation.

SYMPHONIC PERCUSSION

Course #05660

Prereq: Department Chairperson approval

Level: 9, 10, 11, 12

Credit: 1.0

Honors credit available.

The Symphonic Percussion course is a performance-oriented class, which offers percussion students a challenging daily percussion experience. Members of the class are still a part of the band for all performances. The percussion students will be taught a curriculum where tympani, snare, mallets and multiple percussion techniques are all used in both small and large group ensembles. Performances include all home football games, two to three marching competitions, winter and spring band concerts, and Illinois High School Large (band), solo and ensemble contests.

BEGINNING PIANO/MUSIC THEORY/COMPOSITION

Course #05640

Prereq: none

Level: 9, 10, 11, 12

Credit: 1.0

This course is designed for students to learn how to read music and play the piano. Students learn to use the music writing program *Sibelius* on Macintosh computers using 8-16 track Korg Synthesizer workstations. Theory will be taught throughout the year as well as composition technique. Students will collaborate with the advanced class to create a CD of selections they compose and will learn how to mix, burn, edit and produce the cover and music for this CD with the advanced class.

ADVANCED PIANO COMPOSITION/THEORY

Course #05650

Prereq: Department Chairperson approval

Level: 9, 10, 11, 12

Credit: 1.0

This course is designed for the serious piano student who wants to learn how to compose and perform original compositions. Students learn to use the music writing program *Sibelius* on Macintosh computers using 8-16 track Korg Synthesizer workstations. Theory will be taught throughout the year as well as composition technique. Students will enter competitions with songs they create in addition to performing in one to two concerts. Students will create a CD of selections they compose and will learn how to mix, burn, edit and produce the cover and music for this CD.

Music Department

AP MUSIC THEORY

Course #05670

Prereq: Department Chairperson approval

Level: 9, 10, 11, 12

Credit: 1.0

This course is designed for students who are going to take the AP Music Test in May. Students taking the course must have previous musical skills and performance skills on piano or some type of instrument. The assignments and daily work are designed to prepare students for the test and the areas specified by the College Board. Students wanting to learn music theory only should take the Advanced Piano Course that is offered. AP Music credit may be used in college as both an elective humanities credit and a music credit in college. Students enrolled are required to take the AP Music Test in May. Students will use the music theory learned to compose chorals, cadences, melodies, bass lines, melodic dictation examples for the class in addition to composing sample questions for the class similar to the questions used in the retired AP Exams using Sibelius 4 music composition software.

BACH TO ROCK

Course # 05631

Prereq: None

Level: 9, 10, 11, 12

Credit: 0.5

Supply fee: \$30

This course will explore music's origins, historical and social influences from Gregorian chant to Rock and the present day. Recordings of these examples will be used extensively so students are introduced to musical periods, musical form, styles and genres of classical, rock and popular music. This course will focus on musicians and musical groups that have shaped yesterday's, today's, and the future musical world. Each student receives an iPod to use during the semester so they are able to listen to the music studied.

ORCHESTRA

CHAMBER ORCHESTRA STRINGS

Course #05780

Prereq: Audition by High School Director.

Call 630.468.4459 to schedule an audition.

CHAMBER ORCHESTRA HONORS

Course #05790

--See Honors Requirements--

Prereq: Director approval

Level: 9, 10, 11, 12

Credit: 1.0

Concert Orchestra is open to any student who plays violin, viola, cello, or string bass. The curriculum is designed to develop string instrument performance techniques. Students will also perform as an ensemble. Music from all periods is studied from Baroque to the Beatles. Students wishing to begin instruction in stringed instrument playing should contact the Orchestra Director.

CHORUS

TREBLE CHORUS

Course #05700

Level: 9, 10, 11, 12

Credit: 1.0

This course is the entry-level vocal music ensemble open to all female treble singers. Through the study and performance of treble and mixed choir literature, not only will individual students further develop their own music literacy and personal singing skills, but large group skills will also benefit. Course requirements are built around each student's regular attendance, and also include each student's participation in: (1) all concerts, (fall, winter, and spring) (2) attendance at music contests and workshops/clinics, and (3) special rehearsals.

Music Department

BASS CHORUS

Course #05710

Level: 9, 10, 11, 12

Credit: 1.0

This course is the entry-level vocal music ensemble open to all male tenor and bass singers. Through the study and performance of music for the Bass Chorus, not only will individual students further develop their own music literacy and personal singing skills, but large group skills will also benefit. Course requirements are built around each student's regular attendance, and also include each student's participation in: (1) all concerts, (fall, winter, and spring) (2) attendance at various music contests, workshops/clinics, and (3) special rehearsals.

VARSITY MIXED CHORUS

Course # 05820

VARSITY MIXED CHORUS HONORS

Course # 05810

Prereq: Audition with Director

Level: 10, 11, 12

Credit: 1.0

Varsity Mixed Chorus is the top-level large group choral music ensemble for sophomore, junior and senior singers. Through the study and performance of a wide variety of choral music for the advanced mixed chorus, both individual and large group music skills will be further developed. Course requirements include regular daily attendance, in conjunction with attendance at all concerts, competitions, and workshops/clinics.

VARSITY TREBLE CHORUS

Course # 05800

Prereq: Consent of Director

Level: 10, 11, 12

Credit: 1.0

Varsity Treble Chorus is the intermediate treble choir ensemble for Sophomore, Junior, and Senior female singers. It is the purpose of the course to incorporate individual and group music skill building through the preparation and performance of advanced treble choir literature. Course requirements include participating in all concerts, competitions/clinics, and special rehearsals, in conjunction with daily in-class rehearsals.

MADRIGALS/JAZZ CHOIR

Course # 05830

MADRIGAL/JAZZ HONORS

Course # 05840

---See Honors Requirements---

Prereq: Consent of Choral Director

Level: 10, 11, 12

Credit: 1.0

Madrigals/Jazz Choir is a full-year course for selected 10th, 11th, and 12th grade students, which will focus on the performance of the Madrigal Christmas dinner in the fall semester and outside performance opportunities throughout the year. Admittance is by audition only. Concurrent membership in another music course is highly recommended. Madrigal students are also required to learn and perform the repertoire of Varsity Mixed Chorus.

HONORS STUDY IN MUSIC

Students will have the opportunity to qualify for honors study in the following performance programs: Symphonic Band Honors (including Symphonic Percussion), Concert Orchestra Honors, Varsity Mixed Chorus, and Madrigal/Jazz Honors. Selections will be the *Illinois Music Educators Association* audition music, which can be obtained from the instructors in June of each year. Honors selection will be based on the IMEA material performed during the third week of September. ***Please read the section below for more information on requirements.***

REQUIREMENTS FOR HONORS STUDY

Advanced students in Concert Band, Percussion, Varsity Choir, Concert Orchestra and Madrigals/Jazz Choir may audition for the honors level of that ensemble. *These students will, as part of the requirements, remain as members of their curricular ensemble and fulfill all obligations of that ensemble.* In addition, students will be required to perform the following activities:

1. Students must audition for the IMEA District Festival on the State Audition material. This audition will be held in October at a local high school.
2. Private lessons once a week for thirty minutes. The number of lessons per quarter will be one less than the number of weeks in the Quarter. For example, if we have ten weeks in one quarter the students must take nine lessons during that quarter. Students will be responsible for turning in the completed lesson form signed by the private teacher. The teaching staff will approve the private teachers each year.
3. Two solo performances. One will be an Honors Recital in November, which will be open to the public. Instrumentalists will perform a major solo work with piano accompaniment. Vocalists must perform at least two songs, one in a foreign language. The recital will be a graded event. Students will be given a set of guidelines before the event, which will be used to assess the performance. Students must show the director the solo selected to check for level of difficulty and appropriateness at least four weeks before the performance.
4. A second performance of a different solo will be in March at the Illinois High School Association State Solo and Ensemble contest. The directors of the honors students will grade the solo and the performance before the contest. Then the students will perform the same solo for the state judge who will rate and make written comments and suggestions. The importance of this experience is that the student receives an outside critique of his/her playing/singing ability and can be better prepared for college auditions, which will be very similar to the this solo experience.

In addition, by the recital, each student will turn in a 1000 word paper (typed, double spaced) about the selection they are performing. The research paper should cover the composer and his works, historical perspective, as well as the repertoire being performed. Students must use proper format as well as a minimum of five sources with a maximum of two Internet sites.

Music Department

Physical, Health, & Driver Education

Department Chairperson Mr. Paul Hoel

The Physical Education Department offers a variety of courses designed to develop skills and knowledge in the following areas: team sports, individual sport activities, personalized fitness/wellness programs, and life-long learning activities. Students have the opportunity to select from a wide variety of course offerings that will best meet their individual Physical Education needs.

PHYSICAL EDUCATION ACTIVITIES

Freshman Choices

Aerobics
 Badminton
 Basketball
 Floor Hockey
 Folk/Square/Swing Dance
 Gymnastics
 Physical Fitness Concepts (9)
 Physical Fitness Applications (10)
 Physical Fitness Testing
 Soccer
 Softball
 Speed-A-Way
 Swimming
 Tennis
 Touch Football
 Track & Field
 Volleyball
 Wrestling

Sophomore, Junior and Senior Choices

Aerobics	Recreational Sports
Aerobic Fitness	Rhythmic Gymnastics
Archery	Roller Blading
Badminton	Snorkeling
Basketball	Soccer
CC Skiing	Softball
Flickerball	Speed-A-Way
Floor Hockey	Team Handball
Golf	Tennis
Ice Skating	Touch Football
Lacrosse	Volleyball (indoor)
Navy Football	Volleyball (outdoor)
Net Games	Water Games
Outdoor Ed.	Weight Lifting
Pickleball	Yoga
Physical Fitness Applications	
Lifeguard Certification (2 nd sem. only)	

Students must register for Physical Education EACH semester.

<u>Grade</u>	<u>Semester 1</u>	<u>Semester 2</u>
9	Course No. 07161	Course No. 07162
10*/11/12	Course No. 07471	Course No. 07472

***Junior & Senior Athletes may be exempt from Physical Education during their sport season. Please inquire with counselor during registration.**

***Sophomores have the option of taking Health Education for one semester and Physical Education for the other semester by registering for the following courses:**

<u>Semester 1</u>	<u>Semester 2</u>
Physical Education 07471	Health 07502
or	
Health 07501	Physical Education 07472

Physical, Health, & Driver Education

DRIVER EDUCATION

Counselors will assign sophomore students to the appropriate semester for their Driver Education and Health classes based on their birth date. This designation will be determined at the registration counseling session that will be held in early February with each student and counselor. This same determination will take place for any junior or senior student who has not completed the Driver Education program. **Due to recent changes in Drivers Education laws by the State of Illinois, our school may not be able to honor all requests by students to enroll in Drivers Education during their sophomore year. Students will be enrolled according to birthdates.**

Successful completion of the course is required to obtain an Illinois driver's license prior to the age of 18 years. Driver Education is a multiphase course designed to meet all of the current driver education laws.

In addition, Public Act 88-188 requires that a student must have passed at least eight (8) courses in the previous two semesters in order to be eligible to take Driver Education. In other words, if a student fails too many classes, he or she will not be eligible to take Driver Education and will be withdrawn from the class.

HEALTH EDUCATION

HEALTH EDUCATION

Course #07501 (1st semester)

Course #07502 (2nd semester)

Prereq: none

Level: 10

Credit: 0.5

Health Education involves the promotion and development of health knowledge, attitudes, and skills useful in adolescent and adult life. Its aim is to produce health literacy by engaging students in a self-directed exploration of the concept of personal wellness. Such exploration will empower students to make informed lifestyle decisions as they relate to emotional health, alcohol, tobacco and other drugs, nutrition, fitness and weight maintenance as well as the risks and consequences of sexual activity. A number of teaching and learning strategies shall be used in this course including guided lecture and discussion, group work, presentations, hands-on activities and projects, guest speakers, and utilizing the Internet to gain valid and reliable health information.

ADVANCED HEALTH

Course #07511

Prereq: "B" or better in Health Education or instructor's consent

Level: 11, 12

Credit: 0.5

Advanced Health provides for development of knowledge and mastery of skills in the following areas: self-study dealing with diet, fitness, and stress management issues; American Red Cross certification in cardiopulmonary resuscitation and first aid; and in-depth analysis of current health issues. Authentic application of health knowledge will be emphasized. The instructional methods will include class discussion, demonstrations, individual and group projects, in and out-of-class readings, debates, and field trips.

Science Department

Department Chairperson Ms. Julie Gaubatz

The Science Department provides students with opportunities to develop observation, investigation, technological and problem-solving skills that will benefit students as they enter the worlds of college and work. Prerequisites may be waived by teacher or department chair recommendation. **Please see Course Description for detailed prerequisites.**

<u>Course Title</u>	<u>Course No.</u>	<u>Prerequisite</u>	<u>Credit</u>	<u>Levels</u>
GeoPhysics	03640 03610 (AR)	Yes	1	9

AP Physics B	03930	Yes	1	12
AP Physics C	03940	Yes	1	12

- Students are strongly encouraged to take **four** years of science courses. Most colleges require a minimum of three science credits. Students may take multiple science courses their sophomore, junior and senior years.
- All science courses emphasize laboratory investigations, problem-solving skills, real world applications, technology in the classroom, and reading, writing and note taking skills.
- Hinsdale South High School's Honors classes require motivated students who are able to complete work independently and consistently while applying critical thinking and problem-solving skills. Honors classes require teacher recommendations.
- Advanced Placement (AP) courses provide students with an opportunity to earn an average of 8 college credits upon successful completion of the AP exam, depending on the AP policy of the college you will be attending (see www.collegeboard.com/ap/creditpolicy). AP courses cover college-level material at a college-level pace with college-level expectations. Because of the level of study presented in AP courses, teacher recommendations are required. Students who plan to attend college are encouraged to take the appropriate prerequisites and to develop skills and work habits that will prepare them for AP classes their junior or senior years.
- Hinsdale South also offers a variety of electives for sophomores, juniors and seniors that allow students to explore the sciences and expand their knowledge base. Electives can be taken concurrently with core courses.
- Listed course prerequisites may be waived by teacher or department chair recommendation.

HSHS SCIENCE DEPARTMENT COURSE SEQUENCE FOR THE CLASS OF 2012:

8 th Grade	9 th Grade	10 th Grade	11 th Grade	12 th Grade

CORE COURSES

GEOPHYSICS

Course # 03640

Prereq: Department Chair recommendation; This course cannot be taken by students who have earned a science credit in Earth Science.
Level: 9 (higher with recommendation)
Credit: 1.0

This course combines Earth Science content while exploring the Physics that underlie observable phenomenon. Topics include plate tectonics, mountain-building and volcanoes, astronomy, history of the Earth, velocity, acceleration, waves, energy, forces, magnetism, and atomic structure. These topics will be explored via inquiry, graphing and applied mathematics which will be built on in students' sophomore year science course, Chemistry. This course is also offered in an Academic Reading (AR) format (#03610) for students who read below grade level.

PHYSICS HONORS

Course #03920 (9)

Course # 03960 (11, 12)

Prereq: Freshmen: Department Chair recommendation; Concurrent with Geometry or higher. Junior/Seniors: Teacher recommendation; Chemistry; Concurrent with Algebra II or higher.
Level: 9, 11, 12
Credit: 1.0

Freshmen (#03920): Topics include the study of motion, forces, momentum, work, energy, power, waves, sound, light, optics and electromagnetism. These topics will be explored via inquiry, graphing and applied mathematics which will be built on in students' sophomore year science course, Chemistry. A high level of understanding is expected and problem-solving will be challenging.

Juniors/Seniors (#03960): Similar topics are covered as listed above. This course is appropriate for students with above average math and critical thinking skills.

CONCEPTS IN CHEMISTRY

Course # 03840

Prereq: Biology, Teacher recommendation
Level: 10, 11, 12
Credit: 1.0
Supply fee: \$10

This course is an issue-oriented laboratory course. Traditional chemistry topics are covered and include acids and bases, organic and nuclear chemistry, kinetics, behavior of gases, thermodynamics and the quantitative aspects of chemistry. This course is appropriate for students with below average math ability, and does not serve as a Prereq for AP science courses. This course will be offered in an Academic Reading (AR) format beginning in the 2008-2009 school year for students who read below level.

CHEMISTRY

Course # 03810

Prereq: Biology, Teacher recommendation
Level: 10, 11, 12
Credit: 1.0
Supply fee: \$10

This is a traditional high school chemistry course. Topics include acids and bases, organic and nuclear chemistry, kinetics, behavior of gases, thermodynamics and the quantitative aspects of chemistry. This course is appropriate for students with average math ability and can serve as a Prereq for AP science courses.

CHEMISTRY HONORS

Course # 03830

Prereq: Biology, Teacher recommendation, Concurrent with Geometry or higher.
Level: 10, 11, 12
Credit: 1.0
Supply fee: \$10

Similar topics are covered as in Chemistry, but a higher level of understanding is expected and problem-solving will be more challenging. This course is appropriate for students with above average math and reading abilities and can serve as a Prereq for AP science courses.

CORE COURSES

BIOLOGY G

Course # 03600

Prereq: Earth Science, Teacher recommendation and Dept. Chair approval
Level: 10, 11, 12
Credit: 1.0

This course is designed specifically for those students who do not have a strong background in science due to reading or other learning issues. An emphasis is placed on the comprehension of major concepts and the acquisition and comprehension of new information from multiple sources. Placement is dependent upon teacher recommendation and department chairperson approval.

BIOLOGY

Course # 03720

Prereq: Earth Science
Level: 10, 11, 12
Credit: 1.0

This course is an introduction to the study of life. Topics covered include the scientific method, cellular biology, molecular biology, ecology, evolution, biochemistry and body systems. This course is also offered in an Academic Reading (AR) format (#03750) for students who read below grade level.

BIOLOGY HONORS

Course # 03730

Prereq: Earth Science; Teacher recommendation
Level: 10
Credit: 1.0

This course covers similar topics to Biology (#03720) with more in-depth labs, reading and explorations.

PHYSICS

Course # 03970

Prereq: Chemistry; Concurrent with Algebra II or higher.
Level: 11, 12
Credit: 1.0

This is a traditional high school physics course. Topics include the study of motion, forces, momentum, work, energy, power, waves, sound, light, optics and electromagnetism. This course is appropriate for students with average math ability.

ELECTIVE COURSES

ASTRONOMY: THE SOLAR SYSTEM/STARS AND GALAXIES

Course # 03691/03692

Prereq: Two core science credits (or concurrent with 2nd core science)
Level: 10, 11, 12
Credit: 0.5 each

Astronomy—The Solar System investigates the history and origins of astronomy, telescopes, calendars, and the solar system. Astronomy—Stars and Galaxies investigates ordinary stars, stellar distances and motions, supernovae, pulsars and black holes, overview of the universe, stellar evolution, and galaxy formation. These two semester courses may be taken independently of each other.

ECOLOGY: AN ECOSYSTEMS APPROACH/HUMAN IMPACT ON THE ENVIRONMENT

Course # 03751/03752

Prereq: Two core sciences; can be concurrent with 2nd core course as long as Biology has been successfully completed.
Level: 10, 11, 12
Credit: 0.5 each

These courses are designed to teach the fundamental principles of ecology, including energy flow, ecosystems, man's impact on nature and cycles. Students explore the importance of the balances that are found in nature and the implications that upsetting these balances can have on entire systems. These two semester courses may be taken independently of each other.

Science Department

ANATOMY AND PHYSIOLOGY

Course # 03980

Prereq: Biology and Chemistry

Level: 11, 12

Credit: 1.0

This course develops students' understanding of the workings of the human body. Dissections, including a fetal pig, various cow organs and joints and a cat, play an important role in the learning process of this course. Careers in health-related fields are emphasized through in-class activities and field trips.

EARTH SCIENCE HONORS

Course # 03660

Prereq: Biology and Chemistry (or concurrent with 2nd core science)

Level: 10 - 12

Credit: 1.0

Students develop an understanding for Earth and all its functions by questioning, analyzing, experimenting, and evaluating their discoveries in the classroom, laboratory and out in the field.

ADVANCED PLACEMENT COURSES

ADVANCED PLACEMENT BIOLOGY

Course # 03740

Prereq: Biology, Chemistry, Teacher recommendation.

Level: 11, 12

Credit: 1.0

Advanced Placement Biology covers two semesters of college-level general biology which applies previous knowledge to biochemistry, cellular biology, molecular biology, phylogeny and population biology. Typically, students can earn 8 college credit hours depending on AP exam scores (see www.collegeboard.com/ap/creditpolicy).

ADVANCED PLACEMENT CHEMISTRY

Course # 03820

Prereq: Biology, Chemistry and Physics (can be concurrent); Teacher recommendation

Level: 11, 12

Credit: 1.0

Supply fee: \$10

Advanced Placement Chemistry is a college-level chemistry course which applies previous knowledge to atomic structure, bonding, nuclear chemistry, solutions, oxidation-reduction, kinetics and thermodynamics. Typically, students can earn 8 college credit hours depending on AP exam scores (see www.collegeboard.com/ap/creditpolicy).

ADVANCED PLACEMENT ENVIRONMENTAL SCIENCE

Course # 03670

Prereq: Chemistry and Earth Science or Biology; Teacher recommendation.

Level: 11, 12

Credit: 1.0

Advanced Placement Environmental Science is a college-level science course that explores cycles, chemistry in the environment, ecosystems, population, relationships in nature and man's effect on the planet. Typically, students can earn 3 college credits depending on AP exam scores (see www.collegeboard.com/ap/creditpolicy).

ADVANCED PLACEMENT PHYSICS B

Course # 03930

Prereq: A or B in Physics; Concurrent with Alg II/Trig or higher; Teacher recommendation.

Level: 12

Credit: 1.0

Advanced Placement Physics B is a college-level survey course that includes the topics: Newtonian mechanics; relativity; fluid mechanics and thermal physics; electricity and magnetism; waves and optics; and atomic and nuclear physics. Typically, students can earn up to 8 college credit hours for non-major physics courses depending on AP exam scores (see www.collegeboard.com/ap/creditpolicy).

ADVANCED PLACEMENT PHYSICS C

Course # 03940

Prereq: A or B in Physics; Concurrent with Calculus or higher; Teacher recommendation.

Level: 12

Credit: 1.0

Advanced Placement Physics C is a calculus-based physics course that has a reduced focus compared to AP Physics B, but more in-depth investigations into mechanics, electricity and magnetism. Typically, students can earn up to 8 college credit hours for physics/engineering or general majors depending on AP exam scores (see www.collegeboard.com/ap/creditpolicy).

Department Chairperson Mr. Matthew Guritz

For students to develop as citizens, they must learn democratic values and practice democratic process skills that are appropriate for their age and maturity. Social studies courses teach students these essential values and skills. Additionally, students must be prepared for success in college and the work place through practice in data analysis, analytical writing, and development of presentation skills. Regardless of a student's career and life choices, all students will deal with politics, cultural and religious differences, and social conflict on a daily basis. A strong social science education is vital for success in a diverse and rapidly changing society.

See course description for detailed prerequisite.

- Students are strongly encouraged to take **four** years of social studies courses. Students may take multiple social studies courses their sophomore, junior and senior years.
- All social studies courses emphasize analytical writing, primary and secondary source interpretation, real world applications, technology in the classroom, and reading, writing and note taking skills.
- Hinsdale South High School's Honors classes require motivated students who are able to complete work independently and consistently while applying critical thinking and problem-solving skills. Honors classes require teacher recommendations.
- Advanced Placement (AP) courses provide students with an opportunity to earn college credits upon successful completion of the AP exam, depending on the AP policy of the college you will be attending (see www.collegeboard.com/ap/creditpolicy). AP courses cover college-level material at a college-level pace with college-level expectations. Because of the level of study presented in AP courses, teacher recommendations are required. Students who plan to attend college are encouraged to take the appropriate prerequisites and to develop skills and work habits that will prepare them for AP classes their sophomore, junior and senior years.
- Hinsdale South also offers a variety of electives for sophomores, juniors and seniors that allow students to explore the social studies and expand their knowledge base. Electives can be taken concurrently with core courses. Listed course prerequisites may be waived by teacher or department chair recommendation.

Social Studies Department

WORLD STUDIES

Course # 02470

Prereq: None
Level: 9
Credit: 1.0

An examination of global history, geography, economics, culture, government and contemporary concerns. Students discover the common elements of human cultures and their diversity. The course is organized by social science themes and standards. Development of reading, writing, thinking, and communication skills are emphasized. Use of maps, primary and secondary sources, reading strategies, and the resources of the Library Media Center are taught.

WORLD STUDIES HONORS

Course # 02390

Prereq: Dept. Chairperson
Recommendation
Level: 9
Credit: 1.0

An in-depth study of important episodes in World History from Renaissance to modern times. The historical development of modern problems is emphasized. Extensive supplemental reading is required. Development of writing skills is an important goal of this course. *Students are prepared to take Advanced Placement courses.*

ADVANCED PLACEMENT EUROPEAN HISTORY

Course # 02520

Prereq: Recommendation of
World Studies teacher and
Dept. Chairperson approval.
Level: 10
Credit: 1.0

Intensive study of European History from the Renaissance to the present. College-level reading and writing assignments. Historiographical analysis. The course will prepare students to take the Advanced Placement exam in May.

GEOGRAPHY

Course # 02501

Prereq: None
Level: 10, 11, 12
Credit: 0.5

An examination of human societies in their habitat. Exploration of the inter-relationships between human beings and our physical environment. Analysis of the physical bases of geography. Focus on selected regions throughout the world, examining political, historical, social, and cultural consequences of physical geography. Considerable map work, oral and written reports, and some supplemental reading are required.

ECONOMICS

Course # 02341

Prereq: Average or above
average grades
Level: 10, 11, 12
Credit: 0.5

The Social Studies Department recommends Economics for college-bound students, and students who will be pursuing careers in business, finance, politics, or engineering. Students examine the choices made in the use of natural resources and division of national wealth. Students study national and global affairs by reading newspapers, magazines, and viewing videos. A stock market simulation is a major activity.

This course fulfills the state mandate for consumer education.

PSYCHOLOGY I

Course # 02431

Prereq: None
Level: 10, 11, 12
Credit: 0.5

An introduction to the principles of human behavior, including learning, motivation, personality development, and adjustment. Students will have an opportunity to test various theories of psychology using their own life experiences. Some typical activities include discussions, experiments, readings, and a variety of audio-visual materials. Much importance is placed on classroom discussion.

Social Studies Department

PSYCHOLOGY II**Course # 02462**

Prereq: Psychology I (above average grades) and Dept. Chairperson approval.

Level: 11, 12

Credit: 0.5

An advanced analysis of the major learning and personality theories in the field of psychology. The students' experiences are organized around a variety of activities that will probe these psychological theories in depth. Designing as well as participating in several experiments are a major component of this course.

ADVANCED PLACEMENT PSYCHOLOGY**Course # 02510**

Prereq: Dept. Chairperson approval

Level: 10, 11, 12

Credit: 1.0

An intensive study of the principles of human behavior, including learning, motivation, personality development, and adjustment. College-level readings and activities are assigned. *This course will prepare students for the Advanced Placement exam in May.*

SOCIOLOGY**Course # 02381**

Prereq: None

Level: 11, 12

Credit: 0.5

Sociology is the study of how groups affect human behavior. In this course we will examine the principles of sociology and apply them to current problems that face American society. The course focuses on developing students' viewpoints and insights on problems facing American society through small group and class discussions. Some of the topics discussed are the future of marriage and the family, world population problems, abortion, crime in America, and the future of American cities.

AMERICAN POLITICS**Course # 02351**

Prereq: None

Level: 10, 11, 12

Credit: 0.5

A hands-on analysis of government and politics in the United States. Students learn general concepts used to interpret American politics. Analysis of specific case studies through simulation and community activity familiarizes students with the groups, organizations, issues, and ideas that make up the American political system. Students will explore the causes of different political beliefs and behaviors and the role of interest groups and political parties.

UNITED STATES HISTORY**Course # 02310**

Prereq: None

Level: 11

Credit: 1.0

Juniors are required to pass U.S. History or American Studies or AP U.S. History. *Transfer students who have not previously done so must pass a test on the Illinois and U.S. Constitutions as a requirement for graduation.* In U.S. History students satisfy Illinois requirements for study of the Declaration of Independence, United States Constitution, Illinois State Constitution, and Flag Code. Students practice critical inquiry into the past in relationship to the present. Students are evaluated on written projects, tests, and class participation. ***This course fulfills one of two "intensive Writing" requirement credits.***

ADVANCED PLACEMENT U.S. HISTORY**Course # 02320**

Prereq: Dept. Chairperson approval

Level: 11

Credit: 1.0

Juniors are required to pass U.S. History or American Studies or AP U.S. History. Students read college-level materials and write argumentative essays. Coverage of American history is chronological. Various interpretations of crucial historical issues is emphasized. Students will use original documents to develop skills in interpretation of events and making generalizations. A test on the Illinois and U.S. Constitution is offered to satisfy the graduation requirement. *This course will prepare students for the Advanced Placement exam in May.*

Social Studies Department

AMERICAN STUDIES

Course # 01345

Prereq: None

Level: 11

Credit: 2.0 (one in English;
one in Social Studies)

Juniors are required to pass U.S. History or American Studies or AP U.S. History. An interdisciplinary study of U.S. history and literature. Connections are drawn between historical events and themes and literary works and their themes. Students earn a single grade for this two-period course.

ADVANCED PLACEMENT ECONOMICS: MICRO

Course # 02361

Prereq: Dept. Chairperson
approval

Level: 11, 12

Credit: 0.5

Microeconomics is the study of individual businesses, households, and workers in the American economy. Students will learn how prices are determined in a capitalist economy, how businesses can maximize profits, and the different levels of competition between firms in different industries. The second half of the course will examine the role the U. S. government should play in regulating the American economy, the wages workers should receive for different jobs, and how outsourcing is affecting America's economy. Microeconomics is an interdisciplinary course combining the social sciences with mathematical analysis and graphing. *This course will prepare students for the Advanced Placement exam in May. **This course fulfills the state mandate for consumer education.***

ADVANCED PLACEMENT ECONOMICS: MACRO

Course # 02372

Prereq: Completion of
Economics or AP Econ: Micro,
and Dept. Chairperson
approval.

Level: 11, 12

Credit: 0.5

Macroeconomics is the study of the United States' economy. Students will examine economic topics such as unemployment, inflation, GDP, interest rates, monetary policy, fiscal policy, and the national debt and deficit. Students will come to understand the causes for problems in the economy and be able to prescribe economic policies for both healthy and unhealthy economies. Macroeconomics is an interdisciplinary course combining the social sciences with mathematical analysis and graphing. *This course will prepare students for the Advanced Placement exam in May. **This course fulfills the state mandate for consumer education.***

This course is offered second semester only.

ADVANCED PLACEMENT GOVERNMENT & POLITICS, U.S.

Course # 02451

Prereq: Dept. Chairperson
approval

Level: 11, 12

Credit: 0.5

Students develop the knowledge and analytical skills needed to evaluate contemporary American government. Students study political scientists' theories about the Congress, the Presidency and the Judiciary. Students analyze some principal areas of public policy such as economic, foreign affairs, defense and welfare. *This course will prepare students for the Advanced Placement exam in May.*

HUMANITIES

Course # 02285

Prereq: Average to above-
average grades and Dept.
Chairperson approval

Level: 12

Credit: 2.0 (one in English;
one in Social Studies)

An interdisciplinary study of world history and literature with emphasis on philosophy, religions, and the arts of various peoples throughout history as they faced the universal questions of life and existence. The origins of Western culture will be highlighted. Students earn a single grade for this two-period course.

Social Studies Department

Technology Education Department

Department Chairperson Dr. Gary Hutchinson

The Technology Education Department offers two areas of study which includes computer-aided design and woodworking. These courses are laboratory classes, which provide skills, such as problem solving and group work, necessary to adult life. Technology courses fulfill the practical arts graduation requirement. If you are interested in engineering, architecture, or construction management, you should enroll in the computer aided design and/or woods sequence. A fee is charged to cover the cost of materials for project work. Technology Education is a rapidly growing and changing field of study. The Technology Education curriculum at Hinsdale South will give students the latest information necessary to prepare for careers in this and related fields after high school graduation.

Please see Course Description for detailed Prerequisites.

<u>Course Title</u>	<u>Course No.</u>	<u>Prerequisite</u>	<u>Credit</u>	<u>Levels</u>
Pre-Engineering I	06741	No	0.5	9-12
Pre-Engineering II	06751	Yes	0.5	9-12
Architectural Design	06730	Yes	1.0	10-12
Engineering Design	06721	Yes	0.5	10-12

Woods II	06780	Yes	1.0	10-12
Woods III	06790	Yes	1.0	11-12

Technology Education Department

PRE-ENGINEERING I

Course #06741

Prereq: none
Level: 9, 10, 11, 12
Credit: 0.5

This introductory course to computer aided design covers practical drafting and problem-solving skills. Most work will be done on the computers using AutoCAD by Autodesk. Some manual sketching will be done on graph paper to begin the drawing process.

PRE-ENGINEERING II

Course #06751

Prereq: Pre-Engineering I
Level: 9, 10, 11, 12
Credit: 0.5

This follow-up course to Pre-Engineering I will enable students to develop more advanced techniques in computer aided drafting through the introduction of three-dimensional problems and more advanced two-dimensional figures. AutoCAD will be used for most of this course.

ARCHITECTURAL DESIGN

Course #06730

Prereq: Pre-Engineering II
Level: 10, 11, 12
Credit: 1.0
Supply fee: \$15

This course will introduce students to residential architecture. Students will learn most of the technical information necessary to draw a set of blueprints for a single-family home. The first semester project will consist of planning and designing a complete set of prints using industry standards as examples. The second semester will be devoted to constructing a framed model of the home designed. We will use a $\frac{1}{2}'' = 1'-0''$ as our scale. Information regarding building and contracting a home will be used to help understand residential construction in the Midwest.

ENGINEERING DESIGN

Course #06721

Prereq: Pre-Engineering II
Level: 10, 11, 12
Credit: .5

This course provides students with technical information necessary to plan and design parts and products for industry. The students will plan, research, design, create, and test products to improve the efficiency of advanced, industrial machines.

WOODS I

Course #06771

Prereq: none
Level: 9, 10, 11, 12
Credit: 0.5
Supply fee: \$47

This introductory course to modern woodworking will allow students to help plan, design, and create at least three assigned wood projects using various hard and soft woods. In addition students will develop and practice safety in a wood shop laboratory.

WOODS II

Course #06780

Prereq: Woods I
Level: 10, 11, 12
Credit: 1.0
Supply fee: \$137

This follow-up course to Woods I will allow students to further their knowledge of woodworking by planning and building more advanced projects. In addition, students will use more technical set-ups to build three projects: two assigned and one student choice.

WOODS III

Course #06790

Prereq: Woods II
Level: 11, 12
Credit: 1.0

This is an advanced class utilizing all of the information from Woods I and II. Students will design, plan and build a project of their own, consistent with their abilities, interest, and time. In addition, students will have the opportunity to design and build a project for Hinsdale South High School.

Technology Center of DuPage

Mr. Edward Susmilch, TCD Principal

301 S. Swift Road, Addison, IL 60190
(630) 620-8770

Hinsdale High School District 86 has joined with seven other high school districts in DuPage County to establish a career vocational center called The Technology Center of DuPage (TCD). TCD is not a separate educational institution, trade school or college. Rather, TCD is a part of the high school curriculum just like Art or Foreign Language. The programs are considered elective subjects and some of them are transferable for college credits.

The mission of TCD is to provide an educational environment that supports and encourages individual learning styles, develops occupational skills and professionalism, promotes academic growth, and assists students in discovering their potential.

Eligible juniors and seniors who choose the TCD elective spend a part of each school day at both their "home" high school and at the TCD Career Center. Hinsdale South provides bus transportation to the Center (located in Addison) for the half day session at TCD. Class time at the Center and travel times takes four periods; therefore students may enroll for three classes at Hinsdale South. The 3.0 per year and 1.5 per semester credits earned at TCD are used to satisfy the 24.0 unit graduation requirement.

In addition to receiving credits at Hinsdale South, some programs at TCD contribute to long term career and college planning by offering college credits at local colleges or credentials towards state, federal and/or national licensing exams or by offering credentials towards apprenticeships. For more detailed and up-to-date information regarding this, please go to the TCD website (www.tcdupage.org/aboutus.html).

Technology Center of DuPage

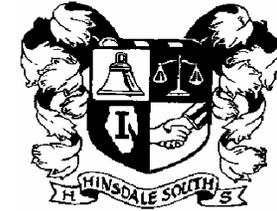

The following are programs offered through TCD. For more detailed information about the program description and employers involved, please go to the TCD website (www.tcdupage.org/programs.html).

Building and Machining	Business	Communications
Construction Trades	Computer Information Systems	Graphic Communications
Manufacturing Technology	Data Entry Occupations	Multimedia & Television Production
Pre-Architectural & Pre-Engineering CAD	Office Systems Technology	
Health & Safety Services	Mechanical	Personal Services
Certified Nurse Assistant	Auto Body Repair & Refinishing	Culinary, Pastry Arts, & Hotel Management
Medical & Health Care Careers	Automotive Technology	Early Childhood Education & Care
Fire Science		Cosmetology
	Technical	
	Electronics & Computers Technology	
	Heating, Ventilation, Air Conditioning & Refrigeration	
	Network Technician	

STUDENTS ELECTING TO ENROLL IN ANY OF THE TCD PROGRAMS SHOULD USE COURSE CODE 09000 ON THEIR ENROLLMENT FORM.

Final eligibility for all TCD programs will be made by Hinsdale South High School. Eligibility criteria will include past history of attendance, discipline, and academic progress.

HINSDALE SOUTH GUIDANCE DEPARTMENT FOUR YEAR ACADEMIC PLAN

INSTRUCTIONS:

1. Please complete / update your 4 year plan of courses by filling in the blanks for each year.
2. Check your selections to make sure you will meet graduation requirements.
3. If college-bound, check to make sure that you are meeting minimum requirements for college entrance.
4. Bring this sheet with you to your counselor appointment along with your course selection sheet to finalize your course requests.
5. This plan will be retained by your counselor and used for future academic planning.
6. INDICATES FLEXIBILITY IN ACADEMIC SCHEDULING.

Director of Guidance

Michael Matozzi
Director of Deans

Dear Students, Parents and Guardians:

You will soon begin the process of selecting courses for the 2009-10 school year. The enclosed *Program of Studies Handbook* provides you with an overview of the courses offered here at Hinsdale South High School. It also serves as a comprehensive guide to graduation requirements, the grading system and other information directly related to the academic experience. Please know that our Guidance and Counseling staff is also available to assist each student in the process of designing a comprehensive four-year program.

At Hinsdale South, student learning is our primary focus. As a part of this emphasis, we require that all students take a minimum course load of six credits. This allows them to be actively engaged in the learning process for most of their school day. Furthermore, we encourage students to select a course sequence that it is rigorous and relevant in a manner that will allow them to challenge their academic potential.

Please take the time to carefully review the *Program of Studies Handbook*. We invite parents and students to be our partners in providing the best possible education at Hinsdale South High School. Should you have any questions after reading the information provided in this book, please feel free to contact our Guidance Department at (630) 468-4251.

Sincerely,

A handwritten signature in black ink, appearing to read "B.P. Waterman".

General Information

Graduation Requirements

Each student must successfully complete the following course requirements in order to graduate from Hinsdale South High School. In addition, no student shall receive a certificate of graduation without passing a satisfactory examination on patriotism and principles of representative government, proper use of the flag, methods of voting and the Pledge of Allegiance. Each student must also take the Prairie State Achievement Exam (PSAE) in order to receive a regular high school diploma unless the student is exempt under state law.

To graduate, a student must earn a minimum of 24.0 credits and successfully meet the listed requirements. A given course cannot be used to satisfy a requirement in more than one area, with the exception of the “intensive writing” requirement.

State law mandates all students to earn two credits in courses designated as “intensive writing” courses. In this case, two credits of the 24 minimum credits may be earned in classes taken to fulfill the “intensive writing” requirement. English I and English II fulfill this requirement.

Department Requirements	Credit
English	4.0
Mathematics	3.0
One of the three years of Mathematics must be an Algebra course and 1 course must include Geometry content.	
Science	2.0
Social Studies	2.0
World Studies or World Studies Honors (1.0)	
U.S. History, American Studies or AP U.S. History (1.0)	
Elective Arts	2.0
A student can select from one of seven Elective Arts areas, including all courses in: Art, Business, Family & Consumer Sciences, Foreign Language, Music, Technology Education or TCD. A student may only declare one (1) credit per department/discipline to count towards this specific graduation requirement.	
Consumer Education	0.5
Personal Money Management	OR
Online Consumer Economics	
Introduction to Business	
Economics	Consumer Economics
Exploring Family and Consumer Sciences	Proficiency Test
AP Economics: Micro	
AP Economics: Macro	
Physical Education/Health	4.0
Health is a required course taken during sophomore year typically in tandem with one semester of Physical Education. Students have the option of enrolling in an additional semester of Physical Education during their sophomore year for an additional 0.5 credits.

General Information

College Admission Requirements

Criteria for college admission differ greatly. The admission committees at various colleges and universities across the country consider, to varying degrees, the following:

- Type of high school courses actually taken when compared to the courses available in the high school
- Quality of the student's academic record
- Performance on college admission tests – SAT & ACT
- Development and maturity of the individual in areas outside the academic classroom

Students and parents are advised that the Illinois Board of Higher Education has adopted these entrance requirements for the state's public universities and baccalaureate transfer programs at community colleges:

English	Four (4) years Course work should emphasize reading, writing, speaking, and listening (written and oral communication skills). Particularly important is emphasis on sentence structure, paragraph structure, systematic organization, and diction--word choice that is appropriate, clear and effective. Analysis of literature might include characteristics such as point of view, theme, setting, character, and style to help the student become more sensitive and appreciative as a reader.
Mathematics	Three (3) years (introductory through advanced algebra, geometry, trigonometry, or fundamentals of computer programming) Traditional preparation for college mathematics is a year each of Algebra I, Geometry, and Advanced Algebra, with a fourth year of advanced mathematics for engineering, science, and many business majors. Many colleges require a minimum of Algebra and Geometry. Acceptable computer science courses may include the study of a structured programming language and use of computing as a means to solve problems.
Science	Three (3) years of a laboratory science Traditional preparation for college is a minimum of three years of core laboratory science courses. Core laboratory science courses include GeoPhysics, Physics, Chemistry, and Biology.
Social Studies	Three (3) years (emphasizing history and government) One year of United States History or a combination of United States History and American Government is required. Beyond history and government, acceptable social studies include Economics, Geography, Political Science, Psychology, and Sociology.
Other	Two (2) years in foreign language, music, or art. If foreign language is chosen, a minimum of two years of the same language is recommended and in some cases required. Some universities consider sign language as a foreign language, but some do not. Check with the college/university to which you are applying to verify specific entrance requirements.

These admissions requirements, totaling 15 units of high school core course work, are in effect for freshmen entering Illinois public universities and baccalaureate transfer programs at community colleges. Courses used to meet admission requirements are those that are part of the high school's college preparatory curriculum and emphasize classroom or laboratory experience.

Colleges and universities will also establish specific criteria for provisional admission to baccalaureate and baccalaureate transfer programs for applicants who do not meet minimum high school course requirements and any other institutional requirements for regular admission. Each college or university will provide a plan describing options for students with specific course deficiencies and a means by which a deficiency can be remediated.

General Information

Academic Load

Students must be enrolled in a minimum of six (6) courses per semester.

Adding/Dropping Courses

Adding a Course: Students may add a course at the beginning of a semester if there is space available. Requests to add a course must be made no later than the first five full class periods of the semester. In order to add a course, a student must obtain signatures from the parent/guardian, the department chair if required, and the student's counselor.

Dropping a Course: Students may request to drop a course only if they are enrolled in the maximum number of courses (seven) per semester **and** only after they have attended and participated in the course for five full class periods. Approval to drop a course requires signatures from the parent/guardian, the appropriate department chair, and the student's counselor. It is understood that the student will have a conversation with the teacher prior to initiating this process. If a student elects to drop a course, the dropped course will be replaced with a study period. In some cases, adding a course to replace a dropped course may be accommodated if the curriculum permits and seats are available.

A grade of "F" will be reflected on the transcript of a student who chooses to drop a course after the fourth week of a semester. **Students enrolled in year long courses will not be allowed to drop at the end of first semester unless it is recommended by the department.**

Advanced Placement Program

Advanced Placement (AP) courses are offered in seven departments: Art, English, Foreign Language, Mathematics, Music, Science and Social Studies. These courses adhere to the suggested College Board course descriptions and serve as the primary vehicle to prepare students for the AP examination in May. In addition to preparing students for the AP exam, AP courses allow students to experience the pace and intensity of a college-level course while still in high school. Although each college determines what AP examination grades it will accept for credit and/or Advanced Placement, the great majority of colleges accept scores of 3 or better and award the student credit in the subject matter tested (see www.collegeboard.com/ap/creditpolicy). In some cases, no credit is given, but the student begins their program of study at an advanced level. Please consult the course descriptions for the list of Advanced Placement courses in each of the aforementioned departments.

Articulated Credit at the College of DuPage

The College of DuPage awards articulated credit when learning experiences at the secondary level of instruction duplicate those at the post-secondary level. Articulated credit enables students to save time and avoid duplication of material already learned in high school. Articulated credit is awarded by and can be applied at the College of DuPage towards a C.O.D. certificate or two-year degree program.

Class Rank and Honor Roll

Students in the Class of 2010 will have the option of reporting class rank on college applications. **Beginning with the Class of 2011, class rank has been eliminated.** Quarter grades earned in all courses, exclusive of Physical Education and Driver Education, are used to determine Dean's List and Honor Roll according to the grade point system noted below. Both weighted and unweighted GPAs are reported.

Grade	Honors/Advanced Placement	General Ed/Spec.Ed/DHH
A	6.0	5.0
B	5.0	4.0
C	4.0	3.0
D	2.0	2.0
F	1.0	1.0
I	1.0	1.0

Deans List and Honor Roll designation will be determined by the following criteria:

Dean's List: 4.5 grade point average with no grade below a "C"

Honor Roll: 4.0 grade point average with no grade below a "D"

Dean's List/Honor Roll is based on the quarter grade point average, no incomplete grades, and a minimum of four (4) credit-earning courses.

General Information

Course Request Procedure:

Each spring our school works to create a schedule of classes for the following academic year that best meets the needs of our students, while still staying within the parameters of staffing requirements (i.e. number of teachers, class size, teaching schedules, state and federal mandates). We work very hard to accommodate student requests; however, due to the complexity of the scheduling process, sometimes student schedules may need to be adjusted. Letters verifying a student's course selections are mailed home each year. Please keep in mind that changes in course requests or class assignments will **not** be accepted for any of the following reasons:

- to accommodate a job schedule
- to change teachers
- to change lunches or classes to be with friends
- to have first or last period free
- to accommodate a change of mind

Acceptable reasons for schedule changes may include:

- computer input error
- scheduling conflicts
- failure or near failure in a second semester or year course
- failure to meet a pre-requisite for a course
- department chair or guidance director recommendation
- successful completion of a summer school class

Credit Recovery:

Students may be able to enroll in a section of Academic Tutoring (01671/01672) to recover lost credits in English, Mathematics, Science and Social Studies classes. Students should speak with the appropriate department chairperson and their guidance counselor if interested.

Early Graduation

Students may be able to utilize the early graduation option as prescribed by the State of Illinois, if they meet District 86 graduation requirements. This process will begin with the student's guidance counselor of record and a thorough review of transcript will take place. This recommendation will be submitted to the building principal for approval.

Earning Course Credit

Credit in full-year as well as semester courses is earned by semester. That is, students earn a .50 unit of credit for successful completion of each semester (.25 for Driver Education, Excel, and Staff Aide). Credit is earned by successfully completing all course requirements as established by the teacher. Excessive absences may result in removal from class and/or a loss of credit.

Excel Program

Excel is an academic support program where students meet in a structured environment to receive tutorial assistance in core academic areas along with study skills instruction. In this program, students are also shown how to study for classes and prepare for tests. As a result, students are required to use an assignment notebook. The Excel staff members consult with classroom teachers and parents to help improve each student's achievement in courses. A .25 credit is earned per semester for successful participation in this program.

Extended/Alternative Credit

Credits from e-learning, correspondence, or college courses may be counted toward graduation. Such courses must be from an accredited institution. The student must be a **fourth or fifth year senior** and must assume responsibility for all fees. Prior written approval from the counselor is required.

General Information

G-Level Program

In several departments (Deaf and Hard of Hearing, Mathematics and Science), particular courses are designated as G-level courses. G-level courses are designed to meet the special needs of students in particular subject areas. Admission to G-level courses is based upon several established selection criteria: teacher recommendation; results of the EXPLORE Test Series; past academic performance; and department approval.

Honors Program

Certain courses in Art, Business, English, Foreign Language, Mathematics, Music, Science, and Social Studies are designated as honors courses. These courses are designed to challenge students with superior academic ability and motivation. They provide accelerated course content and require a higher standard of achievement. Honors placement is made by the respective Department Chairperson based on past academic record, Explore test scores, subject area test scores, and teacher recommendation.

Minimum Attendance Requirement

Section 18.8 of the *School Code of Illinois* requires that all students be in attendance for a minimum of 300 minutes per day, exclusive of lunch and passing time. Therefore, all students must be enrolled for at least six periods of either class or on-campus study hall.

Repeating Courses

A course may be repeated only when a student has previously received a "D" or "F". All attempts will be recorded on a student's transcript and will be computed into the grade point average. Repeated courses will not count toward meeting graduation requirements unless a student has previously received an "F".

Requirements for Registration

Hinsdale South admission requirements are based upon evidence of normal progress and achievement in the student's previous school. Incoming freshmen are required to submit evidence of satisfactory completion of the 8th grade. Transcripts of credits earned and grade placement are required from the previous school for all students transferring from other secondary schools. The record of a health examination and immunizations at the 9th grade level is required by law. Students will not be allowed to attend school if this state requirement is not met. In addition, all students participating in athletics must have a physical examination for each year in which they participate. We cannot emphasize too strongly the need for this to be accomplished prior to the opening of school. Incoming freshmen must have a physical performed prior to the purchase of books during the month of August.

Staff Aides

Students may earn .25 credit per semester by serving as a staff aide. To pursue this option, students need to speak to a staff member and their guidance counselor.

Art Department

Department Chairperson Ms. Cathy Klasek

The art curriculum strives to develop the student's interests and abilities as a consumer, hobbyist, or professional career artist. Though the majority of art courses are studio oriented and concentrate on "doing", one of the primary aims of the art curriculum is to expand the student's ability to understand, enjoy and critique not only art of his/her own creation, but also the great art masterpieces of the past and present. Many visuals such as slides, films, internet and prints, as well as field trips and technology, are used to stimulate an appreciation of great art and to demonstrate art techniques and processes. ***Students purchase a course specific fee card at the bookstore that helps defray the cost of art supplies.***

Please see Course Description for detailed Prerequisites.

Art Department

STUDIO ART

Course #05211

Prereq: none
Level: 9, 10, 11
Credit: 0.5
Supply fee: \$15

Students will be able to explore aspects of design, drawing, painting, mixed media, and sculpture in a one semester experience. Studio Art is the semester course in which introductory students can experiment with a variety of media. Sketchbooks assignments supplement class work. *It is highly recommended that students interested in Drawing or Painting start with either Studio Art or Art Foundations.*

ART FOUNDATIONS

Course #05100

Prereq: none
Level: 9, 10, 11
Credit: 1.0
Supply fee: \$22

The year-long Art Foundations course allows students the optimum time to develop and master the basic skills and techniques of drawing, color theory, painting, sculpture, ceramics, printmaking, calligraphy, and graphic design. Students are introduced to digital imaging. Connections are made to art history, popular culture, and advertising within the units. Sketchbook assignments supplement class work. *It is highly recommended that students interested in Drawing or Painting start with either Studio Art or Art Foundations.*

DRAWING AND DESIGN

Course #05201

Prereq: none
Level: 10, 11, 12
Credit: 0.5
Supply fee: \$36

Drawing and Design is a course for the dedicated student who has the ability or a keen interest in improving their ability in drawing. Basic drawing skills are refined and further developed through experiences with a variety of media such as pencil, charcoal, ink, technical pen, pastel and computer. Complex drawing and design problems in perspective, value, and composition as well as experiences in critiquing their own work and the work of masters help to reinforce the technical skills. *It is strongly recommended that students interested in Ideas in Art Honors begin with Drawing and Design as a foundation.*

IDEAS IN ART HONORS

Course #05441

Prereq: Advanced level course and Dept.
Chair approval
Level: 10, 11, 12
Credit: 0.5
Supply fee: \$30

Students will create a body of artwork based on a personal exploration of a central theme or idea. This body of work represents the results of rigorous research, planning, self assessment, and problem solving. Each student is required to create a reference sketchbook that demonstrates multiple explorations of their chosen medias. The work produced in this course may be used as part of the Advanced Placement portfolio.

ART WORKSHOP

Course #05561

Prereq: none
Level: 10, 11, 12
Credit: 0.5
Supply fee: \$40

This class is designed to introduce students to an assortment of fine arts and craft media. Projects include glass fusing and slumping, collage, glass mosaic, book making, and fiber arts. It is intended for the serious hobbyist. Patience and thoughtful planning are required as students turn in detail design sketches for each project. Students will also learn to apply the elements and principles of design to each project.

JEWELRY

Course #05331

Prereq: none
Level: 10, 11, 12
Credit: 0.5
Supply fee: \$55

This course introduces students to basic and complex beading and wire wrapping techniques used to create jewelry. Fine motor skills, manual dexterity, good vision and patience are needed to design and create a variety of beaded bracelets, chainmaille bracelets, Viking knit bracelets/necklaces, crochet wire bead necklaces, earrings and unique pins. Students will learn vocabulary and be tested on their technical skills. Sterling silver will be available at cost for students who wish to create finer jewelry.

CERAMICS I

Course #05301

Prereq: none
Level: 10, 11, 12
Credit: 0.5
Supply fee: \$25

A variety of projects in this studio course introduce the steps to finished ceramic pieces: preparation of clay, hand-building techniques, firing, decorating, and glazing. Craftsmanship, good design and problem solving are emphasized. Students are expected to understand and use basic ceramic vocabulary, and keep of all class sketches and hand-outs.

CERAMICS II

Course #05312

Prereq: Ceramics I; Approval of Ceramics Instructor
Level: 10, 11, 12
Credit: 0.5
Supply fee: \$25

Building on techniques learned in Ceramics I, students are involved in more advanced hand-building projects and are able to create exciting work on the potter's wheel for the first time. Projects involving conceptual exploration are a foundation for the ceramic hobbyist or college bound student. A written report on surface decoration is assigned.

Art Department

CERAMICS III

Course #05321

Prereq: Ceramics II; Approval of Ceramics Instructor
Level: 11, 12
Credit: 0.5
Supply fee: \$25

This course allows the serious ceramics-minded student to expand his/her ability to design and produce clay pieces of artistic merit and personal style. Students will develop and use their own glazes. An individual course of study is arranged between the instructor and student. Ceramics III, with teacher approval, may be taken for AP Studio Art credit (#05210).

DIGITAL IMAGING I

Course #05071

Prereq: none
Level: 10, 11, 12
Credit: 0.5
Supply fee: \$8

Digital Imaging offers students a creative approach to computer literacy. Participants will learn to work with numerous software programs currently being used by businesses and colleges including Photoshop, Illustrator, and Maya. Emphasis is placed on using the computer as the media to create fine art.

DIGITAL IMAGING II

Course #05072

Prereq: Digital Imaging I
Level: 10, 11, 12
Credit: 0.5
Supply fee: \$8

Creation of graphic images using advanced software features will be explored. Composition, color theory, rendering, and personal interpretation of subject matter will be stressed. Students will develop a portfolio of eight images as well as a website of their work.

GRAPHIC / WEB PAGE DESIGN

Course #05111

Prereq: Studio Art, Art Foundations or Digital Imaging I
Level: 10, 11, 12
Credit: 0.5
Supply fee: \$8

This course introduces students to the various career and free-lance opportunities available in the visual communications field. Emphasis is placed on the development of an idea from thumbnail sketch to finished computer-generated image. Acquisition of basic commercial skills will be stressed in activities such as logo design, business cards, brochure design, point of purchase design, and advertising layouts. This course culminates in the layout, production, and animation of a personal website that will serve as a portfolio and gallery of original student designs and concepts. Presentation and critique skills will be incorporated into every project. Software such as Photoshop, Dreamweaver, and Flash will be utilized in the class.

PHOTOGRAPHY I

Course #05001

Prereq: none
Level: 10, 11, 12
Credit: 0.5

This course provides the theoretical background and opportunities for skill development necessary to: (1) operate a variety of film cameras; (2) develop and print black and white film; (3) take well-composed and meaningful pictures; (4) organize their mounted photos into a portfolio. Specifics include: proper use and selection of film and lighting, composition, scenery and action shots, the camera as a communications tool, and various darkroom techniques. *Students are required to have their own camera that uses 35mm film as well as purchase all other supplies (film, negative sleeves and photo paper) from the bookstore.*

PHOTOGRAPHY II

Course #05012

Prereq: Photography I
Level: 10, 11, 12
Credit: 0.5

This course introduces additional photographic techniques. Darkroom experimentations with high contrast film, solarizations and image distortions are introduced. Students will be able to work with some alternative processes as well as digital images. Assignments are geared both toward specific photographic careers in photo journalism, advertising, photography, and portrait photography, as well as, fine art photography. Students organize their various images into a photographic portfolio. Students are required to have their own camera that uses 35mm film as well as purchase all other supplies (film, negative sleeves and photo paper) from the bookstore.

PHOTOGRAPHY III

Course #05422

Prereq: Photography II
Level: 11, 12
Credit: 0.5

This course allows the serious photography-minded student to expand his/her knowledge and ability to create artistic photographs with her/her own personal style. An individual course of study will be arranged between student and teacher at the beginning of the semester. Students must supply their own camera and supplies for this class. Photography III, with teacher approval, may be taken for AP Studio Art credit (#05210).

Art Department

PAINTING

Course #05400

Prereq: none
Level: 10, 11, 12
Credit: 1.0
Supply fee: \$40

In this studio class students learn how to use a variety of media and techniques including acrylics and watercolor. Students produce paintings on paper and student stretched canvasses. Students execute six to eight paintings during the school year and possibly a group mural. The history of painting through the ages is introduced and explored through internet searches and PowerPoint presentations.

SCULPTURE

Course #05171

Prereq: none
Level: 10, 11, 12
Credit: 0.5
Supply fee: \$25

In this studio course, students explore three-dimensional design and low-relief work through additive, subtractive, and mold-making techniques. Students work in a variety of media that may include wood, plaster, clay, stone, fiber, wax and mixed media. By viewing films and slides students learn the development of sculpture through the ages. A written report on a sculptor and his work is assigned.

ANIMATION AND CARTOONING

Course #05591

Prereq: none
Level: 11, 12
Credit: 0.5
Supply fee: \$20

This course introduces the student to the art and history of cartooning and animation. Students learn caricature cartooning as well as developing their own cartoon character and comic strips. Techniques of animation are taught and enable students to produce their own animated film shorts. Students will also have hands-on experience using a color video animation system and Maya software.

ADVANCED PLACEMENT

ART HISTORY

Course #05580

Prereq: Dept. Chair approval
Level: 10,11,12
Credit: 1.0

This course provides a survey of the history of western and non-western art from pre-historic times to the present and teaches methods of interpreting and analyzing works of art. Students with good writing skills and an interest in art and its place in our world can do well in the course. Hands on projects, focusing on process rather than product, cooperative group assignments and Internet searches are correlated with the period under study. Field trips to Chicago area museums and important architectural structures enhance classroom learning and help familiarize the students with the cultural offerings of the city.

ART PORTFOLIO

Course #05570

Prereq: Drawing and Design or Painting, and Dept. Chair approval
(or comprehensive portfolio review by the Art Department)
Level: 12
Credit: 1.0
Supply fee: \$40

This course is for students who plan to major in art in college or art school, or who simply desire the rigorous challenge of senior studio art work. Students complete a portfolio which includes fourteen to sixteen pieces of art work - drawings, paintings, prints, graphics, and three-dimensional work. A culminating series project will also be assigned demonstrating the students' artistic statement. Students will have experiences in art criticism, and will organize a group show in the Hinsdale South Art Gallery.

ADVANCED PLACEMENT

STUDIO ART

Course #05210

Prereq: Drawing and Design or Painting, and Dept. Chair approval
(or comprehensive portfolio review by the Art Department)
Level: 11, 12
Credit: 1.0
Supply fee: \$40

This course provides accelerated students with a challenging program of college-level studio work. Prior to the end of the academic year, a portfolio of approximately 24 pieces will be submitted to the College Board for evaluation and possible college credit. The advanced placement program requires more time and commitment than typical high school art courses. Therefore, the student enrolling in the course should be highly motivated, serious, self-directed and willing to work. *This course may be repeated as Course #05220.*

Business Department

Department Chairperson Dr. Gary Hutchinson

Business courses are designed to prepare students for college, careers and employment in the computer, financial, legal, management and marketing fields. Our department shares the fundamental responsibilities of public education and strives to provide our students a safe, caring, up-to-date environment while helping ensure that all students attain appropriate levels of achievement in areas vital to their continuing development. We feel that it is our responsibility to plan, implement, and update enthusiastic programs. Students can then attain a satisfactory level of achievement appropriate to either immediate employment or advanced education in preparation for career opportunities. Opportunities are abundant for students in the business world if their preparation is complete and their attitudes are positive. The Business teachers of Hinsdale South High School identify those opportunities for our students and help them in attaining high personal goals for the future.

See course description for detailed prerequisites.

INFORMATION PROCESSING

COMPUTER KEYBOARDING

Course # 06121

Prereq: None
Level: 9, 10, 11, 12
Credit: 0.5

Computer Keyboarding is designed for the student who wants to acquire skills necessary to enhance the value of the computer for academic and personal use. In Computer Keyboarding the student learns, develops, and refines correct fingering techniques to develop speed and accuracy. The student also learns basic word processing functions using Microsoft Word. Formats and features presented include letters, outlines, reports, columns, tables, resumes, and graphics.

If a student's schedule can be arranged to accommodate a full year course, it is recommended that the student enroll in Word Processing.

The student who earns a grade of "B" or better in this course may receive articulated credit for Office Technology Information 1100 at the College of DuPage.

WORD PROCESSING

Course # 06200

Prereq: None
Level: 9, 10, 11, 12
Credit: 1.0

Word Processing uses Microsoft Word to develop proficiency in keyboarding and word processing skills for academic, personal, and employment use. The student learns and develops keyboarding skills and techniques intended to build skill and accuracy. Using Microsoft Word, the student formats personal and business letters, envelopes, memorandums, outlines, tables, and multi-page reports. Students also develop an in-depth knowledge of more advanced features such as document merge, macros, sorting, templates, styles, graphics, and desktop publishing. Also included are Internet, Excel and PowerPoint units.

The student who earns a grade of "B" or better in this course may receive articulated credit for Office Technology Information 1100 at the College of DuPage.

COMPUTER BUSINESS APPLICATIONS

Course # 06162

Prereq: Computer Keyboarding, Word Processing or concurrent enrollment in Word Processing second semester, or successful completion of the Computer Proficiency Test
Level: 9, 10, 11, 12
Credit: 0.5

Students will develop their knowledge of spreadsheet and database applications. This is a hands-on course in which students will complete an in-depth study of Microsoft Excel and Access. In addition, students will become proficient in the use of the computer and peripherals such as the digital camera and scanner, integrating these tools to enhance Excel and Access applications. This class is recommended for all students who need these skills for their academic classes.

Business Department

INTERNET & WEB PAGE APPLICATIONS

Course # 06172

Prereq: Comp.
Keyboarding, Word Processing or concurrent enrollment in Word Processing second semester, or successful completion of the Computer Proficiency Test
Level: 9, 10, 11, 12
Credit: 0.5

Students will focus upon the creation of an effective informational web page and proper use of the Internet. Microsoft FrontPage, along with Internet Explorer and other software, will assist students in a hands-on practical approach. Students will also become proficient in the integrated use of digital and digital video cameras, scanners, and Internet search engines as they apply to Internet and web page applications.

MULTIMEDIA APPLICATIONS

Course # 06182

Prereq: Comp.
Keyboarding, Word Processing or concurrent enrollment in Word Processing second semester, or successful completion of the Computer Proficiency Test
Level: 9, 10, 11, 12
Credit: 0.5

Students will develop a working knowledge of desktop publishing and presentation software applications. An in-depth study of Microsoft PowerPoint, Publisher, Movie Maker, and related software will be completed. In addition, students will become proficient in the use of the computer and peripherals such as the digital camera, digital video camera, and scanner in integrating PowerPoint and Publisher applications.

APPLIED BUSINESS

Students will be able to enroll in Personal Money Management (formerly Consumer Economics) either in the traditional 'face-to-face,' five-day-per-week 50 minute class (#06151), or in an 'online' version (#06131). The objectives and the examinations of these two courses will be the same. The content of the two versions of the course will be very similar.

PERSONAL MONEY MANAGEMENT

Course # 06151

Prereq: None
Level: 10, 11, 12
Credit: 0.5

Personal Money Management (formerly named Consumer Economics) will integrate economic concepts with the student's important role in the economy as a citizen, consumer, and worker. Topics include: money management, buying goods and services, banking (savings and checking), investments, the efficient use of credit and loans, consumer protection, insurance, housing, and our tax system.

This course fulfills the state mandate for consumer education.

ONLINE CONSUMER ECONOMICS

Course #06131

Prereq: Dept. Chair approval
Level: 10, 11, 12
Credit: 0.5

Students who enroll in Online Consumer Economics will complete all of their class work through a web site supervised by a certified District 86 teacher. Communication between student and teacher will primarily be through the web site and by email. Students who enroll this course will be required to attend an orientation session, to meet progress markers along the way, and to complete the course during the semester in which they are enrolled.

This course fulfills the state mandate for consumer education.

BUSINESS LAW I

Course # 06231

Prereq: None
Level: 11, 12
Credit: 0.5

Students will gain an appreciation of our legal system as it relates to their personal lives, business practices, and office procedures. Topics include: our legal system (crimes, torts, courts), contracts and consumer law. A field trip to a local court and jail and participation in mock trials as lawyers, witnesses, or jurors help students gain an understanding and an appreciation of how the American legal system functions.

BUSINESS LAW II

Course # 06242

Prereq: Business Law I

Level: 11, 12

Credit: 0.5

Students will investigate our legal system as it relates to their personal lives, business practices, and office procedures. Topics include: The Supreme Court System, contract law, family law, personal law and employment law. A field trip to a local court and jail and participation in mock trials as lawyers, witnesses, or jurors help students gain an understanding and an appreciation of how the American legal system functions. Students will also participate in The National On-line Youth Summit sponsored by the American Bar Association.

INTRODUCTION TO BUSINESS

Course # 06100

Prereq: None

Level: 9, 10

Credit: 1.0

This course gives students a background in the basic operations of business and develops an understanding of the economic role of business in our society. Topics covered include types of business organization, marketing, advertising, accounting, human resources, management decision making, investing, finance, international business, and economics. Skill is developed through a wide variety of activities including computer research, projects, and classroom activities. This course is recommended for students who wish to further study business (Business Management, Accounting, Marketing, Law) at Hinsdale South.

This course fulfills the state mandate for consumer education.

MANAGEMENT, MARKETING & FINANCE

ACCOUNTING

Course # 06320

Prereq: None

Level: 11, 12

Credit: 1.0

This course covers the principles and procedures of accounting. Both manual and computerized double-entry systems are taught. Practice sets and exercises are used during supervised laboratory sessions to develop skills in practical applications. Through the use of microcomputers, students also gain familiarity with computerized accounting procedures. The objectives of this course include preparing students for initial accounting jobs in business and providing a technical background for college-bound students who plan to enter certain fields of business. ***Students who earn a grade of "B" or better each semester in this course may receive articulated credit for Accounting 1110 at the College of DuPage.***

ACCOUNTING HONORS

Course # 06350

Prereq: Depart.

Chairperson approval

Level; 11, 12

Credit: 1.0

In this course, students develop an understanding of double-entry accounting. Topics covered include the following: accounting cycle, banking activities, special journals, payroll, accounting systems and design, internal controls, financial statement analysis, and deferrals and accruals. Students also utilize computer software for problem solving and learn spreadsheet applications.

BUSINESS MANAGEMENT AND ENTREPRENEURIAL STUDIES

Course # 06421

Prereq: None

Level: 11, 12

Credit: 0.5

Business Management and Entrepreneurial Studies is designed for students with above-average grades who are planning to major in business in college or are interested in starting or managing their own business. This course is an introduction to current practices in the world of business. Units of instruction include economic trends, entrepreneurship, business organization, human relations, ethics, management, marketing, finance, and international business.

Business Department

MARKETING

Course # 06470/#06480

Prereq: Completion or current enrollment in a Business course

Level: 11, 12

Credit: 1.0

Supply fee: \$25

Marketing is designed to prepare students for the challenges and opportunities in the field of marketing. Topics covered include current trends in marketing, consumer behavior, sales, advertising, entrepreneurship, and human relations.

Course # 06470

Students not enrolled in Business Work Experiences (Course #06490) should select Course #06470. Marketing 06470 is beneficial for those planning to enroll in related business/marketing programs in college.

Course # 06480

Students enrolling in Business Work Experiences (Course #06490) need to be concurrently enrolled in Marketing #06480. This course is designed for students working part-time in related jobs and also for students planning to enroll in related programs in college.

In addition, all Marketing students participate in the activities of DECA, an organization for marketing students.

EMPLOYMENT EXPERIENCE

BUSINESS WORK EXPERIENCES

Course # 06490

Prereq: *Marketing or concurrent enrollment in Marketing and coordinator approval*

Level: 11, 12

Credit: 1.0

Business Work Experiences provides the student with actual paid business experience related to their career goals. Students are employed in local businesses from a minimum of 15 hours to a maximum of 25 hours per week for which they receive monetary compensation. A wide variety of experience is available in fields such as apparel and accessories, automotive, food distribution, food service, hotel and tourism, general merchandise retailing, and various office related careers, including banking, accounting, and administrative assistant positions. This work experience program prepares students for further study or a career in marketing, retailing, management, finance, accounting, or administrative office positions. Students are selected by application and interview with emphasis on factors including reliability, integrity, and career goal. ***It is the student's responsibility to make travel arrangements to and from the job. Students must maintain enrollment and earn a passing grade in Marketing to receive credit for this work experience program.***

INTERNSHIP

Course # 06461

Prereq: Dept. Chairperson or coordinator approval

Level: 11, 12

Credit: 0.25 per semester (this class may be repeated for up to 1 credit)

Internship is an elective semester program for the highly motivated junior or senior. The program provides students with opportunities in the local community for hands-on career exploration in their chosen field. Acceptance into the program is determined by factors such as faculty letters of recommendation, availability of a community sponsor, and interviews with the coordinator and the community sponsor. Students are required to keep a journal of their experiences and complete a summary report. During the internship, students observe daily operations, confer with other personnel, and participate and contribute to the functions of the organization for at least 50% of the hours spent in the internship experience. Student performance in the Internship program is evaluated on a pass-fail basis. ***The internship is conducted exclusively outside of the school day with no pay for a minimum of 50 hours during the semester. Students must make the travel arrangements necessary to fulfill their internship responsibilities.***

Deaf and Hard of Hearing

Department Chairperson Ms. Patricia Even

The Deaf and Hard of Hearing Department provides educational and support services for Deaf and Hard of Hearing students in the DuPage West Cook Regional Program. These supportive services include: interpreters, program assistants, tutorial, Social Work services, Speech and Language services, behavior supports, Guidance Counselors specifically for the Deaf and Hard of Hearing, Vocational Support Team, and self-contained classes taught by teachers of the Deaf and Hard of Hearing.

See course description for detailed prerequisites

VISION STATEMENT

Strengthening the Deaf Community through Excellence in Education

MISSION STATEMENT

We will provide opportunities to improve learning and communication skills that will enable each student to be responsible and independent to their maximum potential, as well as provide opportunities to support each other in their continuous growth that leads them into their future.

DHH PROGRAM GOALS

- Teach the value of education as it relates to the future
- Encourage independence, responsibility and self-advocacy
- Support collaboration, respect and collegiality

Deaf and Hard of Hearing

AMERICAN SIGN LANGUAGE

AMERICAN SIGN LANGUAGE I

Course # 08070

Prereq: none

Level: 9, 10, 11, 12

Credit: 1.0

This course is designed to develop the student's expressive and receptive signing skills and understanding of basic grammatical structures of American Sign Language. Topics related to Deaf history and culture will also be explored. This is a class for students who are interested in learning the language of signs.

This class is open to all students.

AMERICAN SIGN LANGUAGE II

Course # 08080

Prereq: "C" or better in American Sign Language I

Level: 9, 10, 11, 12

Credit: 1.0

In American Sign Language II, students will continue to develop receptive and expressive signing skill, study grammatical structures of ASL, and learn more about the history and culture of deaf people. There will be increased opportunities for interaction with deaf students.

This class is open to all students.

ENGLISH COURSES

ENGLISH I

Course # 08110

Prereq: none

Level: 9

Credit: 1.0

English I teaches language skills in a program that integrates metacognitive literary analysis, problem solving strategies, cooperative learning, and multimedia presentations. Students will read and analyze a wide range of expository and narrative materials at their instructional level. General areas of focus include; myths, poetry, short stories, novels, and various works of non-fiction.

ENGLISH II

Course # 08120

Prereq: English I

Level: 10

Credit: 1.0

English II continues with the goals from English I in emphasizing metacognition as well as print and vocabulary skills. Students continue to develop strategic reading and writing skills while studying works from various genre.

ENGLISH III

Course # 08130

Prereq: English II

Level: 11

Credit: 1.0

The focus on language development continues in English III. Students continue to apply reading strategies to improve understanding and fluency. General areas of study include: short stories, novels, biographies, Deaf studies, and various works of non-fiction.

ENGLISH IV

Course # 08140

Prereq: English III

Level: 12

Credit: 1.0

English IV includes extensive literacy development. Decision making and cross cultural issues are examined within the course as various works are studied. The skill of accessing, organizing, writing, and editing information is stressed.

ENGLISH I-G

Course # 08150

Prereq: none

Level: 9

Credit: 1.0

English-G seeks to develop basic skills and stimulate growth in expressive and receptive language. Reading, writing, vocabulary, and social skills are developed through the use of units of study utilizing language for practical-life needs. Grammar and syntax are continually developed throughout the year. Functional living skills are the focus.

Deaf and Hard of Hearing

ENGLISH II-G

Course # 08160

Prereq: English I - G

Level: 10

Credit: 1.0

English II-G seeks to develop basic skills and stimulate growth in expressive and receptive language. Reading, writing, vocabulary, and social skills are developed through the use of units of study utilizing language for practical-life needs. Grammar and syntax are continually developed throughout the year. Functional living skills are the focus.

ENGLISH III-G

Course # 08170

Prereq: English II - G

Level: 11

Credit: 1.0

English III-G seeks to develop basic skills and stimulate growth in expressive and receptive language. Reading, writing, vocabulary, and social skills are developed through the use of units of study utilizing language for practical-life needs. Grammar and syntax are continually developed throughout the year. Functional living skills are the focus.

ENGLISH IV-G

Course # 08180

Prereq: English III - G

Level: 12

Credit: 1.0

English IV-G seeks to develop basic skills and stimulate growth in expressive and receptive language. Reading, writing, vocabulary, and social skills are developed through the use of units of study utilizing language for practical-life needs. Grammar and syntax are continually developed throughout the year. Functional living skills are the focus.

READING IMPROVEMENT I

Course # 08051

Prereq: none

Level: 10, 11, 12

Credit: 0.5

The purpose of this course is to improve reading skills as well as promoting an interest in reading. Units of study include organizational skills, reading strategies, study skills, and vocabulary expansion. **(This course does not fulfill NCAA initial eligibility requirements for college athletics.)**

READING IMPROVEMENT II

Course # 08061

Prereq: Reading Improvement I

Level: 10, 11, 12

Credit: 0.5

Skills that were learned in Reading Improvement I are reinforced while additional skills are introduced. These include distinguishing between fact and opinion, developing problem-solving skills, using context clues, drawing conclusions and making inferences. Use of resources and vocabulary development are also presented in this class. **(This course does not fulfill NCAA initial eligibility requirements for college athletics.)**

WRITING IMPROVEMENT I

Course # 08031

Prereq: none

Level: 10, 11, 12

Credit: 0.5

The purpose of this course is to improve writing skills as well as promoting an interest in writing. Units of study include grammar, organizational skills, writing conventions, writing for a purpose, and vocabulary expansion.

WRITING IMPROVEMENT II

Course # 08041

Prereq: none

Level: 10, 11, 12

Credit: 0.5

This course will focus on further development of the written English skills of the students in areas including grammar, expository writing, and everyday applications of written language. Particular topics chosen will depend on individual student needs.

SOCIAL STUDIES COURSES

WORLD STUDIES

Course # 08240

Prereq: none
Level: 9
Credit: 1.0

World Studies is a survey course of the earth, its characteristics, its people and their cultures. It includes individual map and globe building skills and small discussion groups, focusing on learning and understanding the effect of geography on the lives of the earth's people. Related student projects and visual aids will predominate throughout the course.

WORLD STUDIES-G

Course # 08250

Prereq: none
Level: 9,10
Credit: 1.0

This course is a modification of World Studies 08240. Students will follow the curriculum with a more local focus. **(This course does not fulfill NCAA initial eligibility requirements for college athletics.)**

U. S. HISTORY

Course # 08230

Prereq: none
Level: 11
Credit: 1.0

This course is a study of United States history including the United States government and both U. S. and Illinois Constitutions. Students must pass the U. S. and Illinois Constitution tests in order to graduate. Major historical eras are studied. The relationship between the United States and other nations is analyzed. Current events are also covered during this course.

U. S. HISTORY – G

Course # 08220

Prereq: none
Level: 11
Credit: 1.0

US History-G is a survey course designed for student to develop a basic knowledge of the concepts necessary to make positive contributions as a citizen of the USA. **(This course does not fulfill NCAA initial eligibility requirements for college athletics.)**

MATH COURSES

MATH I-G

Course # 08310

Prereq: none
Level: 9
Credit: 1.0

This course deals with the development of computation and basic math application skills: addition, subtraction, multiplication and division. The student is taught problem solving techniques, and how to apply math skills to everyday situations. Individual students may also be introduced to fractions, decimals, calculator and the computer.

MATH II-G

Course # 08320

Prereq: Math I-G
Level: 10
Credit: 1.0

This course is a continuation of Math I-G. Skill development will focus on practical math skills, problem solving and use of resources for assistance. Basic algebra and geometry concepts and skills will be introduced as they relate to daily living.

CAREER MATHEMATICS

Course # 08350

Prereq: Math I-G or Math II-G
Level: 11, 12
Credit: 1.0

Career Mathematics is a course that continues to emphasize basic math skills as they relate to daily living. Computer concepts will be reinforced and students will have hands-on experience throughout the year. **(This course does not fulfill NCAA initial eligibility requirements for college athletics.)**

Deaf and Hard of Hearing

PRE-ALGEBRA

Course # 08360

Prereq: none

Level: 9, 10, 11

Credit: 1.0

This course is designed for the student who wishes to take Algebra and needs improvement in the higher-level computation skills and vocabulary necessary to be successful in that class. Students will be advised to take this course when pre-testing reveals gaps in these areas. **(This course does not fulfill NCAA initial eligibility requirements for college athletics.)**

ALGEBRA I, PART I

Course # 08330

Prereq: Recommendations of 8th grade teacher and/or high school math teacher

Level: 9, 10, 11

Credit: 1.0

This course is designed for the average student who has successfully developed arithmetic skills in addition, subtraction, multiplication, and division with whole numbers, decimals, and fractions. The class covers working with positive and negative numbers, variables, beginning algebraic expressions, and monomials and polynomials. Computer concepts will be reinforced and students will have hands-on experience throughout the year. Lecture, application, and daily assignments are the main teaching methods. Upon completion of this course, the student should be ready to enter Algebra I, Part 2 (08340). A text is required.

ALGEBRA I, PART 2

Course # 08340

Prereq: Algebra I, Part I

Level: 10, 11, 12

Credit: 1.0

This course is the continuation of Algebra I, Part I. The course further develops the following skills: polynomials, graphing, quadratic equations, open sentences and the real number system. Instruction includes discussion and daily assignments. Computer concepts will be reinforced and students will have hands-on experience throughout the year. Geometry concepts will also be introduced.

GEOMETRY-G

Course # 08380

Prereq: "C" or better in Algebra I, Part 2 or Department Chairperson recommendation

Level: 11, 12

Credit: 1.0

This course has been developed to follow the Deaf and Hard of Hearing two-year algebra sequence. It emphasizes geometric principles and practical applications rather than proofs. Most proofs will be informal in nature, using the discovery method. Computer concepts will be reinforced with students having hands-on experience throughout the year. A compass, a straight edge, and a protractor are required materials for this course.

SCIENCE COURSES

SCIENCE EXPLORATION I

Course # 08450

Prereq: none

Level: 9, 10

Credit: 1.0

This science course is especially designed for the student who does not have a strong background or vocabulary base in science or scientific concepts. Topics include: introduction to the science laboratory, the scientific method, charts and graphs, measurement and the study of ecosystems, human body systems, and varieties of animals. Class activities are geared toward concrete, active learning situations that are highly visual and can be taught in a hierarchical manner.

SCIENCE EXPLORATION II

Course # 08460

Prereq: none

Level: 9, 10

Credit: 1.0

This science course is especially designed for the student who does not have a strong background in science and scientific concepts and have basic academic skills. Topics include: Introduction to the science laboratory, the scientific method, charts and graphs, measurement and applied physical science, such as the study of energy, electricity and electronics, and space science. Class activities are geared toward concrete, active learning situations that are highly visual and can be taught in a hierarchical manner.

Deaf and Hard of Hearing

INTRODUCTION TO EARTH SCIENCE

Course # 08410

Prereq: none

Level: 9, 10

Credit: 1.0

This course covers the science of the non-living environment. Topics include introduction to the science laboratory, basic geology, weather and its effect on the environment, energy from fossil fuels, and alternative forms of energy. Class activities are geared toward concrete, active learning situations that are highly visual.

INTRODUCTION TO BIOLOGY

Course # 08430

Prereq: none

Level: 9, 10

Credit: 1.0

Biology is offered for the student who has some previous experience in science and whose language skills are average or better. It is a study of living things (plants and animals) and how they relate to the environment. Covered in this course are topics such as ecology, evolution, genetics, and the plant and animal kingdoms. Students are expected to write lab reports, do library research and read outside materials.

HEALTH COURSES

HEALTH EDUCATION

Course # 08481

Prereq: none

Level: 10

Credit: 0.5

Health, a state-mandated course, is required of all sophomore students. The course covers a number of specific topics including: the positive effects of exercise and the ill-effects of drugs; alcohol and tobacco; first aid; human birth, growth and development; reproductive systems; and sexually transmitted diseases.

HEALTH-G

Course # 08491

Prereq: none

Level: 10

Credit: 0.5

This course is a modification of Health 08481. This course addresses the practical applications of health related topics listed above for course 08481. **(This course does not fulfill NCAA initial eligibility requirements for college athletics.)**

BUSINESS COURSES

CONSUMER EDUCATION

Course # 08631

Prereq: none

Level: 11,12

Credit: 0.5

This course fulfills the Consumer Education requirement for graduation. The purpose of this course is to develop the skills needed to be wise consumers of products and services. Topics of study will include spending and saving money, use of credit, decision making related to purchases, credit and insurance. Students are also exposed to services related to their hearing loss. These services include introduction to the Americans with Disabilities Act, community support agencies, and how to obtain and utilize a sign language interpreter.

CONSUMER EDUCATION-G

Course # 08621

Prereq: none

Level: 11,12

Credit: 0.5

This course fulfills the Consumer Education requirement for graduation. The purpose of this course is to develop the skills needed to be wise consumers of products and services. Topics of study will include the use of resources to assist with accomplishment of the following skills: spending and saving money, cautions of credit, decision making related to purchases, and managing insurance. Students are also exposed to services related to their hearing loss. These services include introduction to the Americans with Disabilities Act, community support agencies, and how to obtain and utilize a sign language interpreter.

Deaf and Hard of Hearing

KEYBOARDING

Course # 08811

Prereq: none

Level: 9, 10, 11, 12

Credit: 0.5

The content is similar to Computer Keyboarding (BUS 6121). This course is designed to develop and refine correct finger placement techniques to develop speed and accuracy. The student also is introduced to basic word processing functions using Microsoft Word. Formats and features include letters, outlines, reports, columns, tables, resumés, and graphics.

COMPUTER APPLICATIONS

Course # 08831

Prereq: Keyboarding

Level: 10, 11, 12

Credit: 0.5

This course will focus on developing basic computer application skills, spreadsheets, and proper use of the internet. Students will work with Microsoft Word, Excel, and Windows to develop the computer skills necessary for basic computer use.

OFFICE SYSTEMS

Course #08851

Prereq: Keyboarding

Level: 11, 12

Credit: 0.5

This course is designed for the student entering the work force and the student going to college. Since most jobs require basic knowledge of technology, the course will prepare the student for universal, technology-based environments. Machines such as copy/printers, scanners, faxes, handhelds, digital cameras and laptops will be introduced.

FAMILY & CONSUMER SCIENCES COURSES

INTRODUCTION TO COOKING

Course # 08771

Prereq: none

Level: 9, 10, 11, 12

Credit: 0.5

This course teaches nutrition, meal planning, purchasing food and basic food preparation. Lab work provides experiences in food preparation and consumption.

ADULT & FAMILY RELATIONSHIPS

Course # 08791

Prereq: none

Level: 11, 12

Credit: 0.5

This course is designed to help students prepare for responsible decisions as they begin their adult lives. It addresses the roles and responsibilities of adults in our society, problem-solving strategies as they apply to family relationships, marriage, parenting, and interaction with peers and other adults.

ART COURSES

ART FOUNDATIONS I & II

Course # 08841, #08842

Prereq: none

Level: 9, 10, 11, 12

Credit: 0.5 each

This course is for DHH students interested in art. Art Foundations or Studio Art are highly recommended for all art courses at the sophomore, junior, and senior level. Students learn basic skills and techniques of drawing, painting, sculpture, printmaking, ceramics and calligraphy. Art appreciation is included through films, slides, the internet and field trips. Sketchbook assignments supplement class work.

Deaf and Hard of Hearing

DRIVER EDUCATION

DRIVER EDUCATION

Course # 08611/08612

Prereq: Sophomore, Junior, or Senior class standing

Level: 10, 11, 12

Credit: .25 Credit (1 Semester)

Successful completion of the course is required to obtain a state driver's license prior to the age of 18 years. Driver Education is a multiphase course consisting of 30 classroom hours, up to 6 hours of simulator training, and a minimum of 6 hours of in-car training.

Students must be 15 years of age on or before the class begins.

In addition, Public Act 88-188 requires that a student must have passed at least eight (8) courses in the previous two semesters in order to be eligible to take Driver Education. In other words, if a student fails too many classes, he or she will not be eligible to take Driver Education and will be withdrawn from the class.

TRANSITION COURSES

COMMUNITY BASED PROGRAM

Course # 08910

Prereq: none

Level: 9, 10, 11, 12

Credit: Variable

Instruction for Community Based students focuses on the acquisition of skills necessary to function as independently as possible in the community, in the use of communication skills, in the use of leisure time, in the domestic domain, and vocationally. Instruction takes place as much as possible in community environments. *Credit for community based students will be awarded based on the achievement of IEP and transition goals after a conference between the teacher, guidance counselor, and department chair.*

COMMUNITY BASED PRACTICAL ARTS

Course # 08920

Prereq: none

Level: 12

Credit: Variable

Students will develop skills in practical arts, which will allow them to function more independently in the domestic and vocational domains. *Credit for community based students will be awarded based on the achievement of IEP and transition goals after a conference between the teacher, guidance counselor, and department chair.*

Deaf and Hard of Hearing

COMMUNITY BASED FINE ARTS**Course # 08930**

Prereq: none

Level: 9-12

Credit: Variable

Students will work on art projects using a variety of media, in order to better develop recreational and leisure skills as well as to improve fine motor skills. *Credit for community based students will be awarded based on the achievement of IEP and transition goals after a conference between the teacher, guidance counselor, and department chair.*

RELATED INSTRUCTION I**Course # 08720**

Prereq: none

Level: 11, 12

Credit: 1.0

This course is designed to develop the general work skills that are applicable to all work environments. The curriculum focuses on helping students practice and evaluate their skills as an employee. Emphasis is placed on self-advocacy, entering the world of work, and succeeding as an employee. Deaf role models from the community will be invited to discuss their own personal experiences of transitioning into the world of work.

RELATED INSTRUCTION II**Course # 08730**

Prereq: Concurrent enrollment in 08731 or 08732

Level: 11, 12

Credit: 1.0

This course is individualized to address the work skills needed to the vocation in which the student is currently working. Attention is also given to the chosen profession of the student. Course content, teaching style, and student assessments are modified to accommodate Transition Plan outcomes. Individual Transition Portfolios are created to foster independence for post-secondary employment and/or services.

S.W.T. (Supervised Work Training)**Course # 08731, 08732**

Prereq: Concurrent enrollment in 08730

Level: 10, 11, 12

Credit: 0.5

In-school and community work experiences are available in a variety of settings to teach general work related skills. Students are supervised and evaluated on attainment of employment competencies. Concurrent enrollment in Related Instruction is required.

SUPPORT SERVICES**TUTORIAL****Course # 08511/08512**

Prereq: None

Level: 9, 10, 11, 12

Credit: 0.25

This course provides support to DHH students for their academic courses. Students receive teacher supervised study time to complete homework and prepare for their mainstreamed and self-contained courses. Student progress and grades in all classes are monitored by the teacher and more directed assistance may be provided. Individual study skills can also be addressed. Related services as scheduled in their IEP can also be accessed during this time. Students receive a Pass/Fail grade and are issued 0.25 credit per semester.

STUDENT SUPPORT CENTER**Course # 08521, 08522**

Prereq: Department Chairperson approval

Level: 9, 10, 11, 12

Credit: .25

This service is designed for students needing additional instruction in problem-solving interpersonal relationships and study skills in addition to academic support. A functional analysis is completed, as determined by the IEP to develop a Behavior Intervention Plan which directs and monitors student progress. Related services can also be accessed during this time. Students receive a Pass/Fail grade and are issued a 0.25 credit per semester.

Department Chairperson Mr. David Anderson

The English Department offers a variety of courses designed to develop essential communication skills in not only reading, writing, and speaking, but also listening and thinking skills. Students will be grouped in order to assure the most challenging and productive studies according to their abilities and achievement levels. A variety of materials and instructional techniques is used to match the capabilities of the groups established: Honors and Regular. Such groupings for the freshman year are based upon scores on standardized tests and ability as demonstrated in junior high school, teacher recommendation, and a writing sample. Placement in any level is not static but subject to review and change resulting from the student's progress during freshman year and before enrollment in successive courses, sophomore through senior years. **Four (4.0) credits in English are required for graduation.** English I, II, and III are required for graduation, but the fourth credit may be earned in a variety of combinations of English electives. Because of the sequencing of the writing and reading assignments in the required courses in English I, II, and III, students must pass both semesters of a class before being able to advance to the next level. **Therefore, students cannot be concurrently enrolled in English I, II, or III.** Failures in English I, II, or III are required to be made up during summer school. NOTE: Students must be enrolled in an English class for every semester in attendance.

Please see Course Description for detailed Prerequisites.

CATEGORIES OF ENGLISH CLASSES

While four (4.0) credits in English are required for graduation, students have the following options in taking English credit. These options fall in several categories:

Core Credits: Students must follow this sequence of courses. If a student fails a semester of one of these classes, the student must make up the failing grade during summer school before advancing to the next level.

Freshmen:	English I <u>or</u> English I Honors
Sophomores:	English II <u>or</u> English II Honors
Juniors:	English III-American Literature <u>or</u> English III-American Studies <u>or</u> Advanced Placement English Language & Composition.

Options for the Fourth Credit: Students may take any combination of the following classes for the fourth credit in English. Note that some classes are a full year (1.0 credit) and some are a semester long (0.5 credit). When planning courses for this fourth credit, students are advised to check with their English III teachers and their Guidance counselors for the best fit for college and career requirements.

Full year (1.0 credit) classes

- AP English Literature & Composition
- Humanities
- Introduction to Theatre Arts
- Journalism Lab: Yearbook

One semester (0.5 credit) classes

** indicates classes available to seniors only*

- Major British Authors I*
- Major British Authors II*
- World Literature I*
- World Literature II*
- College Literacy*
- English IV: Popular Literature*
- English IV: Classic Fiction: Future Worlds *
- Expository Writing and the Research Paper*
- Writing Workshop*
- Advanced Acting
- Advanced Communications
- Reading Improvement I
- Reading Improvement II
- Creative Writing
- Journalistic Writing
- Journalism Lab: Newspaper

Electives: Although the following courses broaden the students' experience in English, they DO NOT satisfy the required 4.0 credits in English. Instead, these classes count towards students' elective credits.

- Academic Reading
- Mass Media
- Radio Broadcasting
- Reading Fundamentals

Courses for Students with Limited English Proficiency: These classes are designed for students with limited experience with the English language. Students must have the permission of the Director of the Transitional Program of Instruction in order to be placed into these classes.

- Transitional English I
- Transitional English II
- TPI Tutorial
- English as a Second Language I
- English as a Second Language II
- English as a Second Language III

English Department

CORE CREDITS

ENGLISH I

Course # 01110

Prereq: None

Level: 9

Credit: 1.0

English I teaches essential oral and written language skills in a program that integrates literary analysis, library research, listening skills, problem-solving strategies, teamwork, and multimedia presentations. Students will explore fiction and non-fiction works including short stories, novels, poetry, drama, mythology, and biographies. The course allows students to express their understanding of important concepts and mastery of skills through discussions, projects, compositions, creative writing, and presentations.

This course fulfills one of two "Intensive Writing" requirement credits.

There is required reading during the summer before beginning this course.

ENGLISH I HONORS

Course # 01120

Prereq: Dept. Chairperson Approval

Level: 9

Credit: 1.0

This course, for the superior academic student, not only incorporates the materials and skills of English I, but also is designed to provide an enriched study of literary forms and purposes, a great variety of student written expression, and more formal oral communication activities. The student will be introduced to the development of literature from its beginnings in the oral tradition to the standard modern literary genres – short story, novel, drama, biography, and poetry. Written assignments stress expository writing, especially mastery of the multi-paragraph essay. More sophisticated grammatical concepts are presented to improve the student's style of expression. Students perform a variety of speech assignments. A vocabulary text is also included.

This course fulfills one of two "Intensive Writing" requirement credits.

There is required reading during the summer before beginning this course.

ENGLISH II

Course # 01210

Prereq: Pass both semesters of English I

Level: 10

Credit: 1.0

A variety of literary works, composition assignments, and oral activities is presented. Within thematic units, various literary types (novel, short story, poetry, drama) will be studied and compositions written. Composition assignments stress the multi-paragraph essay organizational format, although some creative writing is also expected. Special emphasis is placed on the more sophisticated modes of persuasive, comparison/contrast, and cause and effect essay development. Research strategies of varying scope are presented during the second semester.

This course fulfills one of two "Intensive Writing" requirement credits.

There is required reading during the summer before beginning this course.

ENGLISH II AR

Course # 01200

Prereq: Pass both semesters of English I & Dept. Chair Approval

Level: 10

Credit: 1.0

Along with following the curriculum of English II, this course also focuses on additional strategies to improve students' academic reading (AR) abilities. Placement in this class is dependent on students' test scores, achievement in English I, and teacher recommendations.

This course fulfills one of two "Intensive Writing" requirement credits.

There is required reading during the summer before beginning this course.

ENGLISH II HONORS

Course # 01220

Prereq: English I Honors
and/or Dept. Chairperson
approval

Level: 10

Credit: 1.0

This course, for the superior academic sophomore student, is a general survey approach to English literature in which major English authors and their representative works are studied. Authors' themes as well as specific literary types are studied: poetry, drama (especially Shakespeare), short story, and novel. Composition skill development is divided between exposition (critical analysis and personal essays) and creative writing. A research paper is also required. Vocabulary will be studied in the context of the literature.

This course fulfills one of two "Intensive Writing" requirement credits.

There is required reading during the summer before beginning this course.

ENGLISH III – AMERICAN LITERATURE

Course # 01330

Prereq: Pass both semesters
of English II

Level: 11

Credit: 1.0

English III builds on the skills acquired in English I and English II. A background in American Literature is provided emphasizing outstanding American authors from colonial to modern times in the genres of fiction, non-fiction, drama, and poetry. In addition, there is challenging emphasis on vocabulary and study skills development and the development of research expertise. Written work consists of the expository essay, some creative writing, and the completion of a college level research paper.

There is required reading during the summer before beginning this course.

AMERICAN STUDIES

Course # 01340/01350

Prereq: Pass both semesters
of English II

Level: 11

Credit: 2.0 one for junior level
English; one for U.S. History

This interdisciplinary class is offered for a wide range of junior students who are academically motivated, self-directed, or college bound. The course will take an intensive survey approach to American literature and American history, emphasizing the advantage of seeing the "sense of connectedness" between the history of each era and its relationship to and influence on the art, music, and literature produced during that period. Challenging literary and historical analysis will be pursued throughout the course in lectures, discussions, and writing assignments. In addition, there will be emphasis on vocabulary, study skills, and the development of research expertise. Writing assignments will include the development of literary analysis, expository essays, some creative writing, and independent study towards the research paper. Special projects coordinated between the two disciplines will include the research paper and enrichment field experiences. Reflective of their overall effort and ability to excel in this interdisciplinary environment, students earn a single grade for this two-part course.

There is required reading during the summer before beginning this course.

English Department

ADVANCED PLACEMENT ENGLISH LANGUAGE & COMPOSITION

Course # 01320

Prereq: English II Honors
and/or Dept. Chairperson
approval

Level: 11

Credit: 1.0

Through an intensive survey approach to American literature, this course prepares students for the Advanced Placement English Language & Composition Exam offered each spring. Major American authors and their representative works will be studied as students will comprehend, analyze and evaluate American literature that encompasses various time periods and literary movements with a focus on rhetorical analysis. Students will develop stylistic maturity in their prose by enhancing their ability to use grammatical writing conventions both appropriately and with sophistication. Students will create and sustain arguments based on readings, research and personal experience. Additional emphasis will be placed on independent study and research as well as vocabulary acquisition.

There is required reading during the summer before beginning this course.

OPTIONS FOR FOURTH CREDIT

ADVANCED ACTING

Course # 01601

Prereq: Introduction to
Theatre Arts or Dept.
Chairperson approval

Level: 10, 11, 12

Credit: 0.5

Advanced Acting is a performance-oriented course that gives the student concentrated training in the art of mime and in developing various acting styles and performance techniques. In addition, students advance their study of the art of characterization through the development of bodily movement and vocal expression. Students are individually graded on their progress in learning and applying skills through class performance as they relate to the various dramatic forms. Included are field trips to see plays representative of the style studied and a final audience-invited performance.

ADVANCED COMMUNICATIONS

Course # 01631

Prereq: Pass both semesters
of English I

Level: 10, 11, 12

Credit: 0.5

This class is designed to give the student background and experience in the study of public speaking and performance. It provides opportunities for the student to learn organizational speech and writing and research skills, write scripts and speeches, prepare cuttings from the works of noted authors, and evaluate his performance and the performances of others. Students will analyze the work of professional and gifted performers in all areas of communication and performance. Students will also receive instruction and practical experience in a variety of speech forms: oratory, extemporaneous speaking, oral interpretation of literature (both prose and poetry), humorous and dramatic interpretation (individual, duet, and group), and radio and television broadcasting.

There is required reading during the summer before beginning this course.

**ADVANCED PLACEMENT
ENGLISH LITERATURE &
COMPOSITION**

Course # 01480

Prereq: AP English Language
& Composition and/or Dept.

Chairperson approval

Level: 12

Credit: 1.0

AP English Literature & Composition, "Great Books," focuses on selected major works of Western Civilization in the field of literature, philosophy, political theory, history, theology, and psychology. Required readings in all the genres of fiction include such writers as Joyce, Dante, Austen, Dostoevsky, Shakespeare, and Sophocles and a spectrum of non-fiction: letters, treatises, essays, handbooks, and dialogues by such writers as Mill, Nietzsche, Locke, Epictetus, and Plato. A summer reading list is required. Students read critically and participate actively in the great and continuing conversations on the pivotal human issues found in these classics. Student partners lead discussions according to the Great Books method. Compositions include papers on analysis, synthesis, evaluation, and hypothesis as well as delineation of each author's arguments in non-fiction. Two semester term papers are also required, analyzing, comparing, and contrasting at least three works, two of which are read outside of class. *This course prepares the student for the Advanced Placement exam in May*

There is required reading during the summer before beginning this course.

**COLLEGE LITERACY:
STRATEGIES IN READING
AND WRITING**

Course # 01621

Prereq: Pass both semesters
of English III

Level: 12

Credit: 0.5

This college bound course is designed for students who wish to improve their critical thinking skills and reading and writing strategies for the heavier demands of college coursework. The topics covered will be literary analysis, reading for the research paper, vocabulary development, and textbook reading strategies. Students will read self-selected novels from a college-bound list.

There is required reading during the summer before beginning this course.

CREATIVE WRITING

Course # 01561

Prereq: Pass both semesters
of English II

Level: 11, 12

Credit: 0.5

Creative Writing emphasizes individualized creative thought and challenging exercises in the various genres of prose, drama, and poetry. Balancing individual creativity with disciplined focus is a must for success in the course. The student completes two major portfolio projects each semester in addition to daily writing and/or reading assignments. The student is encouraged to compete in local, state, and national contests. Emphasis will be placed upon both recognizing the elements of style of great authors in selected reading passages and in developing individual creative style.

There is required reading during the summer before beginning this course.

English Department

ENGLISH IV – CLASSIC FICTION: FUTURE WORLDS

Course # 01441

Prereq: Pass both semesters of English III

Level: 12

Credit: 0.5

This senior elective explores views presented by various science fiction writers. Through this survey of classic and contemporary science fiction, students will consider different attitudes regarding the future of humankind. Along with the reading of novels, students will have a variety of writing experience including a research paper. The course will end with an independent novel portfolio where students will showcase a science fiction book of choice. Course evaluation will be measured through tests, quizzes, class discussions, two analysis papers, one creative writing project, one research paper, one novel portfolio. Texts include *Ender's Game*, *Blood Child*, *The Cure*, *Feed*, a novel of choice, and the anthology: *Science Fiction, Science Fact and You*.

There is required reading during the summer before beginning this course.

ENGLISH IV – POPULAR LITERATURE

Course # 01461

Prereq: Pass both semesters of English III

Level: 12

Credit: 0.5

Designed for college and non-college bound seniors, "Popular Literature" focuses on works of the 80s, 90s, and today, while emphasizing the differences of popular and classical literatures. The origin and dynamic characteristics of this genre in today's society will be analyzed through the reading of class books and literature circles. Types of reading audiences and "requirements" of a popular literature author will also be studied. Students will be required to complete written, oral and group projects in addition to the readings; class discussion will constitute a major portion of the class. Authors to be read and studied may include John Grisham, Harlan Coben, Dan Brown, James Patterson, Patricia Cornwell, Sandara Brown, Stephen King, Danielle Steel, Nicholas Sparks, Mary Higgins Clark, and Tom Clancy. Novels may include *Dark Tower*, *The Notebook*, *The Partner*, *Roses are Red*, *Tell No One*, *Hello Darkness*, *DaVinci Code*, and *Angels and Demons*.

There is required reading during the summer before beginning this course.

EXPOSITORY WRITING AND THE RESEARCH PAPER

Course # 01531

Prereq: Pass both semesters of English III

Level: 12

Credit: 0.5

This elective is designed for college-bound seniors who desire experience in writing exposition and the formal research paper. The course develops student writing in various types of exposition typically assigned in freshman college composition classes. Much emphasis is placed upon review of grammatical principles, improvement of vocabulary, and development of an organized, individual writing style. In addition, the student is also required to apply these principles to a research unit and paper. Students use computers to complete their writing and research assignments.

There is required reading during the summer before beginning this course.

HUMANITIES

Course # 02285

Prereq: Average to above average grades. Dept. Chairperson approval.

Level: 12

Credit: 2.0 (one in English; one in Social Studies)

An interdisciplinary study of world history and literature with emphasis on philosophy, religions, and the arts of various peoples throughout history as they faced the universal questions of life and existence. The origins of Western culture will be highlighted. Students earn a single grade for this two-period course.

There is required reading during the summer before beginning this course.

English Department

INTRODUCTION TO THEATRE ARTS

Course # 01380

Prereq: None

Level: 9, 10, 11, 12

Credit: 1.0

Introduction to Theatre Arts is a performance-oriented drama course geared to developing the creative and dramatic talents of individual students. This course uses student acting and teacher-student evaluation as the major teaching method to help the student understand the medium of theatre. It develops sensitivity to the thoughts, beliefs, and ideas of mankind through study, in-class performance, and theatre attendance. Included are field trips to see plays representative of the style studied and a final audience-invited performance.

JOURNALISM LAB: NEWSPAPER

Course # 01381

Prereq: None

Level: 10, 11, 12

Credit: 0.5

This class can be taken in addition to or in place of Journalistic Writing. This is a writing and production course for students interested in working on *The Stinger* or for those interested in pursuing journalism in college. Students will develop and/or refine their journalistic writing skills. Writing news, sports, opinions, entertainment and feature articles; copy-editing; design elements; headline writing; advertising; and newspaper business management will be covered. Journalism may be repeated for credit with consent of the instructor and department chair. ***This course does NOT fulfill NCAA initial eligibility requirements for college.***

JOURNALISM LAB: YEARBOOK

Course # 01400

Prereq: "C" average and Dept.

Chairperson approval

Level: 10, 11, 12

Credit: 1.0

This is a writing and production course for students interested in designing a yearbook. The classroom portion of the course emphasizes the mechanics of strong, journalistic writing, strategies for effective communication, digital photography, and graphic design. Researching and interviewing are also covered as students prepare to write stories for the school yearbook, *Vespa*. Work is completed using Adobe InDesign CS3 software. The student should have above average writing skills. Additional work outside of class is required; the outside assignments may focus on writing, photography, page-layout skills, and the business aspect of the yearbook. Journalism may be repeated for credit with consent of instructor and department chairperson. ***This course does NOT fulfill NCAA initial eligibility requirements for college.***

JOURNALISTIC WRITING

Course # 01361

Prereq: None

Level: 10, 11, 12

Credit: 0.5

This course is an intensive writing course for those interested in writing for newspapers and magazines. The course covers all types of journalistic writing, including news, features, sports, editorials, columns, and reviews. Information gathering through interviews and library research will refine reading, listening, and speaking skills. In addition, students will learn about the ethics and the history of the journalistic field. Most of the material will be written for publication in *The Stinger*, the student newspaper. This course is a prerequisite for appointment to editorial positions on *The Stinger* staff.

MAJOR BRITISH AUTHORS I

Course # 01411

Prereq: Pass both semesters of English III

Level: 12

Credit: 0.5

Major British Authors I is a course designed for college-bound seniors and emphasizes English literature and culture. Beginning with the origins of the English language, the course traces chronologically the development of English language and literature until 1750. Works and authors to be studied include: *Beowulf*, *The Canterbury Tales*, Shakespeare, Milton, Dryden, and Swift. Composition assignments will include analytical essays as well as creative writings. Students will be asked to work independently and cooperatively throughout the semester.

There is required reading during the summer before beginning this course.

English Department

MAJOR BRITISH AUTHORS II

Course # 01421

Prereq: Pass both semesters
of English III

Level: 12

Credit: 0.5

Major British Authors II is designed for college-bound seniors and emphasizes English literature and culture from 1750 through the 20th century. Poetry, plays, and essays will be studied, with an emphasis upon the novels of the 19th and 20th centuries. Writers such as Blake, Wordsworth, Keats, Austen, the Brontes, and Shaw will be studied. Students will be asked to work independently and cooperatively throughout the semester.

There is required reading during the summer before beginning this course.

READING IMPROVEMENT I

Course # 01551

Prereq: None

Level: 9, 10, 11, 12

Credit: 0.5

This course is designed for students who are challenged in vocabulary, critical reading and comprehension and who need to strengthen study skills. Students will take diagnostic and placement tests in several skill areas before pursuing intensive large group, small group, and individual instruction. At the same time, students will complete a program of individually planned sustained reading of several books for which written reports will be required.

This course does NOT fulfill NCAA initial eligibility requirements for college.

READING IMPROVEMENT II

Course # 01592

Prereq: None

Level: 9, 10, 11, 12

Credit: 0.5

Reading Improvement II is designed for students with serious reading needs who can profit from additional opportunities to further develop reading skills. *This course is offered second semester only.*

This course does NOT fulfill NCAA initial eligibility requirements for college.

WORLD LITERATURE I

Course # 01571

Prereq: Pass both semesters
of English III

Level: 12

Credit: 0.5

This elective course is designed for college-bound seniors. In short, the intent of World Literature I is to enrich students' cultural literacy by discussing a handful of historical, philosophical, and social issues that regularly confront young people in the early twenty-first century. The class will incorporate a variety of media. Film, food, music, clothing, poetry, and stage drama are all potential topics of study; however, the focus will be on the novel. The syllabus is drawn from a list that includes the challenging work of Nobel Prize winners alongside international bestsellers and graphic novels.

There is required reading during the summer before beginning this course.

WORLD LITERATURE II

Course # 01581

Prereq: Pass both semesters
of English III

Level: 12

Credit: 0.5

This course is designed for college-bound seniors. While the course will be similar in nature to World Literature I, the two are not considered part of a series; students may take either course or both. The class differs from World Literature I in that it attempts to focus on one specific theme: storytelling. More specifically, the class will look at international authors' efforts to write about human trial and tragedy using dynamic storytelling techniques like reverse narration or graphic novels.

There is required reading during the summer before beginning this course.

WRITING WORKSHOP

Course # 01611

Prereq: Pass both semesters of English III

Level: 12

Credit: 0.5

This elective course is designed for the student with average to below-average writing skills and focuses on pre-writing and revision through word processing as keys to writing improvement. In addition, emphasis is placed on basic writing skills such as effective thesis statements, brainstorming, organizational patterns, methods of essay development, vocabulary development, and sentence correctness. Some of the writing assignments include sensory writing, personal narrative, description, persuasion, and analysis essay, leading to a research paper at the end of the course. Regular attendance and effective use of class time is mandatory. ***There is required reading during the summer before beginning this course.***

ELECTIVES

ACADEMIC READING

Course # A01100

Prereq: Dept. Chairperson recommendation

Level: 9

Credit: 1.0

Academic Reading is designed for ninth grade students whose standardized test scores demonstrate that they would benefit from direct instruction on reading and vocabulary strategies. Students will complete diagnostic tests in several skill areas at both the beginning and end of the school year to track their growth. The curriculum is comprised of units that address skills that “good readers” internalize including previewing, predicting, summarizing, questioning, and analysis of text structure. In addition to these lessons, students will also receive weekly vocabulary instruction. Finally, students will engage in daily sustained silent reading both inside and outside of class. Comprehension of these novels is assessed both orally and in writing through book talks, presentations, class discussions, journals, projects, more formal writing, and a variety of other authentic assessments. Academic Reading students are simultaneously enrolled in both this course and English I; both classes are taught by the same English teacher. Although both Academic Reading and English I have separate curricula, Academic Reading will include some pre-teaching and re-teaching of skills and strategies taught in English I.

MASS MEDIA

Course # 01661

Prereq: Pass both semesters of English II

Level: 11, 12

Credit: 0.5

Mass Media is offered as an introduction to the subject of media issues and contains a blend of theory and practice. Units to be studied include: television, advertising, film, newspapers, radio broadcasting, and audio and video recording. Various creative projects will be pursued as well as projects involving writing and reading. A certain amount of independent library research in the areas studied is expected. An evening film study is also required. Course activities are designed to enable students to understand and evaluate the influence of mass media on their lives.

RADIO BROADCASTING

Course # 01651

Prereq: Dept. Chairperson approval

Level: 10, 11, 12

Credit: 0.5

Radio Broadcasting is a one-semester course offered as an introduction to the field of radio broadcasting and the communication skills involved in it. Students will receive training in the preparation of materials and use of the technical equipment used in broadcasting. Actual broadcast experience will be given to each student through the use of the district-owned FM station, WHSD 88.5. Evaluation of student performance will be based on projects, tests, and practical demonstration of the abilities to use broadcast techniques and equipment.

English Department

READING FUNDAMENTALS

Course # 01715

Prereq: Approval from the English or Educational Services Dept. Chairperson
Level: 9, 10, 11, 12
Credit: 1.0

This course is designed to help students with significant reading weaknesses improve their reading skills in an individualized, low-stress environment. Strategies for reading and spelling multi-syllabic words are taught, using the *Megawords* multi-sensory approach. A variety of high interest, age, and skill appropriate materials are used to increase reading fluency and comprehension. Study skills that support the regular curriculum are also emphasized.

COURSES FOR STUDENTS WITH LIMITED ENGLISH PROFICIENCY

TPI TUTORIAL

Course # 04801

Prereq: Dept. Chairperson approval
Level: 9, 10, 11, 12
Credit: 0

This course is designed to create daily opportunities for students to receive the necessary assistance they may need to succeed in the mainstream content courses at the secondary level. Individual time and attention will be provided to supplement and augment the content delivered in the students' mainstream coursework. There will also be supplementary activities to encourage knowledge of and adjustment to the new culture and how to succeed academically.

This course does NOT fulfill NCAA initial eligibility requirements for college athletics.

TRANSITIONAL ENGLISH I

Course # 04790

Prereq: Dept. Chairperson approval
Level: 9, 10, 11, 12
Credit: 1.0

This course is for "Limited English Proficiency" students who function adequately even though English is not their primary language, but whose performance could be improved by supportive help in language skills. It will include individual and group instruction designed to "fill the gaps" of culture and language which inhibit these students from reaching full academic potential. Students enrolled in this course for credit may also enroll in Course # 04801 Tutorial to replace study hall(s) when additional help is necessary.

This course does NOT fulfill NCAA initial eligibility requirements for college athletics.

TRANSITIONAL ENGLISH II

Course # 04710

Prereq: Dept. Chairperson approval
Level: 9, 10, 11, 12
Credit: 1.0

This course is for "Limited English Proficiency" students who function adequately even though English is not their primary language, but whose performance could be improved by supportive help in language skills and who have taken Transitional English I. It will include individual and group instruction designed to "fill the gaps" of culture and language which inhibit these students from reaching full academic potential. Students enrolled in this course for credit may also enroll in Course # 04801 Tutorial to replace study hall(s) when additional help is necessary.

This course does NOT fulfill NCAA initial eligibility requirements for college athletics.

ENGLISH AS A SECOND LANGUAGE I

Course # 04770

Prereq: Recommendation by the teacher of the Transitional Program of Instruction (TPI)
Level: 9, 10, 11, 12
Credit: 1.0

This course is designed for students whose first language is not English and whose communication skills need more support than can be provided in a regular English class. The course provides a sequential curriculum that allows the students to acquire standard American English. The course parallels, when and where possible, the regular English I curriculum. It will also provide supplementary activities to encourage knowledge of and adjustment to U.S. culture. This class may be taken concurrently with ESL II with TPI Director permission.

ENGLISH AS A SECOND LANGUAGE II

Course # 04780

Prereq: Recommendation by the teacher of the Transitional Program of Instruction (TPI)
Level: 9, 10, 11, 12
Credit: 1.0

This course is designed for students who have limited English proficiency but have a basic vocabulary and understanding of the language. The course provides a sequential curriculum that allows the students increased practice in standard American English. The course parallels, when and where possible, the regular English II curriculum. It will also provide supplementary activities to encourage knowledge of and adjustment to U.S. culture. This class may be taken concurrently with ESL I and ESL III with TPI Director permission.

ENGLISH AS A SECOND LANGUAGE III

Course # 04760

Prereq: Recommendation by the teacher of the Transitional Program of Instruction (TPI)
Level: 11, 12
Credit: 1.0

This course is designed primarily for immigrant students arriving as juniors or seniors. Students should have a basic vocabulary and understanding of the language. The course provides a sequential curriculum that allows the students increased practice in standard American English. The course parallels, when and where possible, the regular English III curriculum. It will also provide supplementary activities to encourage knowledge of and adjustment to U.S. culture. This class may be taken concurrently with ESL II with TPI Director permission.

Family & Consumer Sciences

Department Chairperson Dr. Gary Hutchinson

The Department of Family & Consumer Sciences is concerned with enhancing the social, intellectual, economic, aesthetic, and physical well being of both individuals and families. The courses in the department provide students with the basic skills and tools necessary to perform the various functions of the family. Family members will need to know how to use critical thinking skills to analyze the effects of technology and its multitude of new resources and products on the family. Courses in this department offer opportunities for creative expression and personal fulfillment as well as employment skills. Applied arts credit is given for all Family and Consumer Sciences courses. A fee is required in most foods related courses. Students are required to purchase materials for sewing.

Family & Consumer Sciences related careers and the suggested course sequencing:

CAREER	APPLICABLE COURSES
Dietitian Chef/Baker Hotel/Restaurant Management	Foods & Nutrition Creative Foods Chef & Restaurant
Fashion Designer/Buyer Fashion Display/Illustrator	Fashion Merchandising & Design Creative Sewing Creative Sewing II
Architect Interior Design	Architectural Styles & Interior Design
Social Worker Teacher Preschool Child Care Worker	Child Development Understanding Relationships Introduction to Teaching
Tailor Seamstress	Creative Sewing Creative Sewing II

Please see Course Description for detailed Prerequisites.

Family & Consumer Sciences

EXPLORING FAMILY & CONSUMER SCIENCES

Course #06500

Prereq: none

Level: 9, 10, 11, 12

Credit: 1.0 (0.5 Consumer Educ., 0.5

Applied Arts)

Supply fee: \$10

This survey class introduces the student to all areas of Family & Consumer Sciences: consumer economics, foods, sewing, child development, housing, fashion, interior design and personal development. Projects and practical applications actively involve the students. This is a good place to begin Family and Consumer Sciences studies. ***This course fulfills the state mandate for consumer education*** and also provides one semester credit for Elective Arts. *Student must pass the semester in which the Consumer Unit is taught in order to fulfill the state mandate.*

FOODS & NUTRITION

Course #06501

Prereq: none

Level: 9, 10, 11, 12

Credit: 0.5

Supply fee: \$20

Do you love to cook or want to learn to cook? Foods and Nutrition is the first of three courses in foods. It is a concentrated study of nutrition, food preparation, consumer buying and meal planning. Emphasis is on correct food preparation techniques and principles of cookery. Lab periods provide practical experiences in time management, equipment use, food preparation skills and serving meals. The course is designed for personal enjoyment and as preparation for further training in food service. Students ***cannot receive credit*** for both Foods & Nutrition and Senior Foods.

Suggested follow-up class: Creative Foods.

CREATIVE FOODS

Course #06522

Prereq: Foods and Nutrition or Senior Foods

Level: 9, 10, 11, 12

Credit: 0.5

Supply fee: \$20

Do you like using your creative talents to produce culinary works of art? Creative Foods is a continuation of Foods and Nutrition, emphasizing student preferences and creativity. Students select and prepare a variety of appetizers, pastries, breads and main dishes. Activities include the fundamentals of cake decorating with students designing and decorating their own cakes. The course is designed for personal enjoyment and to ready students for further training in food service.

Suggested follow-up class: Chef & Restaurant.

CHEF AND RESTAURANT

Course #06532

Prereq: Foods and Nutrition or Senior Foods AND teacher approval

Level: 10, 11, 12

Credit: 0.5

Supply fee: \$20

This course is designed for future chefs and those who are interested in the commercial food industry. Students will operate a "mini restaurant" incorporating all aspects of food service and serve luncheon meals to Hinsdale South staff. Activities include menu selection, recipe testing, cost analysis, table settings, meal preparation, meal service and commercial cleanup techniques. While Creative Foods is not required as a prerequisite for enrollment, it is strongly recommended.

SENIOR FOODS

Course #06541

Prereq: none

Level: 12

Credit: 0.5

Supply fee: \$20

Do you want to learn how to cook before going to college or living on your own? Senior Foods is designed to give students an overview of meal preparation and nutrition. Emphasis is on nutrition, food preparation, meal planning and food purchasing. Lab periods provide experiences in time management, equipment use and food preparation techniques. Students ***cannot receive credit*** for both Foods and Nutrition and Senior Foods.

Suggested follow-up class: Creative Foods.

Family & Consumer Sciences

CREATIVE SEWING

Course #06552

Prereq: none

Level: 9, 10, 11, 12

Credit: 0.5

Supply fee: \$10

Do you like to express yourself creatively by the clothes you wear? Learn to sew your own unique clothes using commercial patterns. In this class, emphasis is placed on individual projects suited to the student's preferences and abilities. Students will use a computerized sewing machine to produce high quality clothing they will be proud to wear. In addition to personal enjoyment, sewing is excellent preparation for careers in fashion and interior design.

Suggested follow-up classes: Fashion Merchandising & Design or Creative Sewing II

CREATIVE SEWING II

Course # 06562

Prereq: Creative Sewing

Level: 10, 11, 12

Credit: 0.5

Supply fee: \$10

This course focuses on advanced sewing techniques with various projects chosen by the student and approved by the instructor. Areas of study may include textile arts, tailoring, formalwear, serging techniques and fashion design. Each project incorporates new clothing construction skills based on student preferences and abilities.

Suggested follow-up class: Fashion Merchandising & Design

FASHION MERCHANDISING & DESIGN

Course #06571

Prereq: none

Level: 10, 11, 12

Credit: 0.5

Supply fee: \$10

Fashion Merchandising & Design brings the exciting world of fashion to life through the study of today's fashion industry. Activities include color analysis, textiles, fashion trends and personal selection of fashions. Creativity and projects involving fashion design and sketching, window displays and a student fashion show are emphasized. This course may be taken for personal enrichment as well as preparation for fashion related careers.

CHILD DEVELOPMENT

Course #06581

Prereq: none

Level: 10, 11, 12

Credit: 0.5

Do you love working with children or hope to be a parent someday? Are you thinking of a teaching career in elementary or preschool education? This course helps you understand how young children develop physically, intellectually, socially and emotionally. Class activities include conducting a preschool program in the school, observing young children, listening to guest speakers and evaluating children's toys and activities. Students plan activities appropriate for various age groups and participate in the fun with the children. **Students who earn a "B" or better in this class may receive articulated credit for Early Childhood Education & Care 1100 at College of DuPage.**

Suggested follow-up class: Introduction to Teaching or Understanding Relationships.

UNDERSTANDING RELATIONSHIPS

Course #06611

Prereq: none

Level: 11, 12

Credit: 0.5

This course encompasses "a slice of life" and provides an opportunity for students to better understand themselves and discuss issues relevant to adolescents. Topics include personal identity, self-esteem, values, dating, marriage and meaningful relationships with family and friends. Through class discussions and group work, students practice life skills in communication, stress management, decision-making and conflict resolution. Understanding Relationships is recommended for all Juniors and Seniors interested in personal development or careers requiring interpersonal skills.

Suggested follow-up class: Child Development

Family & Consumer Sciences

ARCHITECTURAL STYLES AND INTERIOR DESIGN

Course #06621

Prereq: none

Level: 10, 11, 12

Credit: 0.5

Supply fee: \$10

In this project-oriented class students learn to apply the elements and principles of design to architecture and interior spaces. Students explore the development of housing styles as well as identifying furniture styles, designing kitchen layouts and creating beautiful living areas. The final project involves designing a dream home including architectural drafting techniques, floor plans, arranging furniture and decorating with samples of paint, wallpaper and carpet. Architectural Styles and Interior Design is for personal enjoyment and creative expression as well as career preparation.

INTRODUCTON TO TEACHING

Course #06595

Prereq: Recommendation of counselor, application and interview by instructor, good academic standing. Child Development recommended.

Level: 12

Credit: 1.0 (one semester, two class periods)

This course offers a realistic teaching experience enabling students to work under the supervision of certified staff at elementary and middle schools. Students will spend four days a week at their assigned school. One day per week will be a classroom component to study related issues in education. Students will keep a journal of experiences. Responsibilities include creation of a teaching unit, visual displays, and tutoring younger children. Personal transportation preferred, however car pooling is possible.

Applications available in FACS office near room 152 or from the Guidance Counselor.

Foreign Language Department

Department Chairperson Mrs. Fran Mirro

The Foreign Language Department seeks to develop its students into well-rounded, multi-dimensional individuals who have both knowledge and appreciation of foreign cultures and civilizations and a tolerance and acceptance of the cultural differences of various peoples. We recognize and wish to make our students aware of the personal, national, economic, and academic limitations of provincialism as our world grows evermore interdependent.

Two years of the same language will fulfill the entrance requirement of the state public universities in Illinois. Many universities require more than one year of foreign language study for admission and may require it for graduation from specific degree programs. Therefore, high school students preparing for college should include one or more foreign languages in their preparation. Credit for a full year of foreign language will fulfill one-year of the two-year District 86 Elective Arts requirement.

Students entering the ninth grade with previous foreign language experience can complete the equivalent of five years of high school work which may include Advanced Placement work. Students who complete the upper levels of a language often test out of the foreign language requirements, receive college credit, and/or are placed in advanced language courses in college. A four-year sequence of honors level courses is available in all languages offered by the department.

Etymology, a semester course, is highly recommended to all students and especially to those planning to continue in upper level languages courses. Etymology is also excellent preparation for college admission testing (PSAT, SAT).

Please see Course Description for detailed Prerequisites.

GERMAN

GERMAN I

Course # 04200

Prereq: None

Level: 9, 10, 11, 12

Credit: 1.0

German I is an introduction to the German language and culture. An intensive listening and speaking experience, based on everyday situations is provided. Students will learn the basic sounds of the language, pronunciation, grammar, vocabulary, and sentence patterns. Active reading and writing are introduced. Language skills and an understanding of the German people are obtained from the study of folk tales, recipes, songs, videos, and introductory reading from newspapers and discussions of the history and politics of the German people.

GERMAN I HONORS

Course # 04210

Prereq: Concurrent registration in English Honors and/or Math Honors and Dept. Chairperson approval

Level: 9, 10, 11, 12

Credit: 1.0

In German I Honors the student will be introduced to the German language and culture. In addition to the content of the German I course, students will be involved in higher level learning activities in listening, speaking, reading, and writing as a required part of the course. Additional enrichment reading assignments, projects, and presentations are integrated in the form of simple narratives, fairy tales, songs, and poems.

GERMAN II

Course # 04220

Prereq: "C" in German I

Level: 10, 11, 12

Credit: 1.0

German II provides a continuation of the skills learned in German I with an emphasis on communication and culture, while writing skills and practical vocabulary are greatly increased. Writing and performing skits gives the students the chance to "live" the language and an opportunity to more fully enjoy listening to and speaking German.

GERMAN II HONORS

Course # 04270

Prereq: "A" in German I or "B" in German I with Dept. Chairperson approval, or "C" in German I Honors

Level: 10, 11, 12

Credit: 1.0

In addition to the content of the German II course, German II Honors emphasizes higher level learning in listening, speaking, reading and writing. More advanced vocabulary and grammar structures will be studied, as well as German culture, customs, and history. Students are challenged by the addition of reading selection and urged towards mastery in communication skills

GERMAN III

Course # 04280

Prereq: "C" in German II

Level: 11, 12

Credit: 1.0

German III continues to emphasize communication skills, grammatical structures and a cultural approach. Students will increase their reading skills and vocabulary by reading short stories and a selection of poetry. Individualized study projects are integrated as well.

GERMAN III HONORS

Course # 04230

Prereq: "A" in German II or "B" in German II with Dept. Chairperson approval, or "C" in German II Honors

Level: 11, 12

Credit: 1.0

In this course previously learned skills are enhanced. Advanced vocabulary and grammar are studied along with short stories, cultural readings and selections from newspapers and classical literature. A thematic approach is used to integrate advanced learning in speaking, writing and active listening. Individualized study projects are pursued. Students will gain cultural understanding through excerpts from history, art, music, literature, geography, and films. Students are encouraged to begin to prepare for the Advanced Placement Exam in German.

Foreign Language Department

GERMAN IV

Course # 04290

Prereq: "C" in German III

Level: 11, 12

Credit: 1.0

German IV will continue the reading, grammar, listening, and composition writing in German. It will emphasize verbal and written communication and present selections from literature, art, music, science, history, and films. Students enrolled in the class are encouraged to prepare for College Placement tests

ADVANCED PLACEMENT GERMAN LANGUAGE

Course # 04240

Prereq: A" in German III "B" in German III with Dept. Chairperson approval, or "C" in German III Honors

Level: 11, 12

Credit: 1.0

Advanced Placement German Language is the fourth course in the German sequence and is a college level course requiring the ability to work independently on a college level. This class emphasizes higher level learning skills in order to increase the student's reading rate and comprehension. Through the reading of literary masterpieces the student is enriched in his personal life as well as in his understanding of contemporary and historical Germany. Individual study projects are pursued. *Students enrolled in this course are encouraged to take the Advanced Placement Test in German in May.*

GERMAN V HONORS

Course # 04260

Prereq: "A" or "B" in German IV or Depart. Chairperson approval or "C" in Adv. Placement German

Language

Level: 12

Credit: 1.0

German V Honors is the fifth course offered in the German language sequence and requires the ability to work independently on a college level. The student will read and analyze the masterpieces of German literature. Advanced study of grammar and writing practice are provided. Students will complete essays and compositions in German. Individualized study projects make up a large part of this course.

LATIN

LATIN I

Course # 04300

Prereq: None

Level: 9, 10, 11, 12

Credit: 1.0

This course provides an introduction to the language, culture, and civilization of the Romans. Particular attention is also paid to increasing students' proficiency in their own language since over 50% of the words in the English language are derived from Latin. Grammar, syntax, vocabulary and translation are stressed. Classical allusions to our own civilization and the Roman contribution to western civilization are also emphasized.

LATIN I HONORS

Course # 04310

Prereq: Concurrent registration in English Honors and/or Math Honors

Level: 9, 10, 11, 12

Credit: 1.0

In Latin I Honors, students will be introduced to the language, culture, and civilization of the Romans. This course differs from Latin I in the number and variety of textbook and workbook assignments. Also, special projects and written or oral presentations are required.

LATIN II

Course # 04320

Prereq: "C" in Latin I

Level: 11, 12

Credit: 1.0

This course includes a review of the material studied in Latin I. By the end of the first semester students will have acquired basic knowledge of grammar and vocabulary. Attention is devoted in the second semester to reading passages from important Roman authors. Supplementary units will include Roman mythology, history, and the derivation of English words from their Latin roots. *Successful completion of this course with a grade of "B" or higher is a prerequisite for Advanced Placement Latin: Vergil or Advanced Placement Latin: Literature*

Foreign Language Department

LATIN II HONORS

Course # 04350

Prereq: "B" in Latin I Honors or "A" in Latin I

Level: 10, 11, 12

Credit: 1.0

In addition to the content in Latin II, Latin II Honors includes an increase in the number and variety of textbook and workbook assignments. Also, special projects and written or oral presentations are required. Students are encouraged and prepared to take the College Board Achievement Test in Latin. *Successful completion of this course with a grade of "B" or higher is a prerequisite for Advanced Placement Latin: Vergil or Advanced Placement Latin: Literature*

ADVANCED PLACEMENT

LATIN: VERGIL

Course # 04360

Prereq: Successful completion of a Latin II

Level: 11, 12

Credit: 1.0

This course is designed to prepare students to take the Advanced Placement examination in Vergil in May. Students in this course will read Vergil's epic poem, *The Aeneid*. While grammar and syntax remain important, more attention is paid to the development of an appreciation for epic poetry. Reading assignments alternate with group discussion and individual reports on topics in the history and literature of the late Roman Republic and early Roman Empire. The subject matter of this course alternates with that of Advanced Placement Latin Literature.

Preparation for the Advanced Placement Examination in Vergil alternates yearly with Latin Literature Honors.

LATIN LITERATURE HONORS

Course # 04340

Prereq: Successful completion of a Latin II

Level: 11, 12

Credit: 1.0

This course is designed to solidify the students' understanding of both basic and advanced Latin grammar. It also introduces students to the intensive study of major Latin authors, including Petronius, Ovid, Catullus, and others. Students will also be introduced to critical analysis of Latin literature including reading of secondary scholarship on texts. Continuing also is the students' exploration of ancient culture and society. This course is designed as bridge for students between Latin II and AP Latin: Vergil, but is not a prerequisite for AP Latin: Vergil.

ETYMOLOGY

ETYMOLOGY

Course # 04701

Prereq: "C" in the Foreign

Language most recently studied

Level: 10, 11, 12

Credit: 0.5

This course is designed to increase knowledge and understanding of English vocabulary. Students learn to discover meanings of words through recognition and interpretation of their elements. Supplementary activities add variety to the learning process. Etymology is especially recommended for students who plan to take the PSAT, ACT, SAT or other college entrance exams.

Foreign Language Department

FRENCH

FRENCH I

Course # 04100

Prereq: None
Level: 9, 10, 11, 12
Credit: 1.0

Emphasis is placed on learning to pronounce the sounds of the language and to acquire enough vocabulary and structural patterns to survive in a French-speaking country as a tourist. All material is culturally based. The language lab provides extensive practice in the formation of listening and speaking skills. Writing and reading will also be developed. Juniors who have not studied a foreign language, or who would like to diversify their foreign language skills while enhancing their English vocabulary and grammar are encouraged to include a two-year sequence of French in their program. One year of French is required to participate in the France trip.

FRENCH I HONORS

Course # 04110

Prereq: None – concurrent enrollment in other Honors courses preferred
Level: 9, 10, 11, 12
Credit: 1.0

The French I Honors program is the same as French I but for the student who is usually enrolled in Honors courses and who wishes to participate in higher-level learning activities. Emphasis is placed on enriching speaking, reading, and writing skills as well as heightened cultural awareness through projects. All Honors students will participate in the National French Contest.

FRENCH II

Course # 04120

Prereq: “C” in French I
Level: 9, 10, 11, 12
Credit: 1.0

French II continues to develop speaking, listening, reading, and writing skills. Emphasis is placed on acquisition of vocabulary and more advanced grammar concepts, including use of the past, future, and conditional tenses. Students will develop increasing cultural awareness. Students will practice in the language lab and are encouraged to communicate in French during class.

FRENCH II HONORS

Course # 04170

Prereq: “A” in French I or “B” in French I and Dept. Chairperson approval or “C” in French I Honors
Level: 9, 10, 11, 12
Credit: 1.0

French II Honors is the same as French II, but for the student who demonstrated exceptional proficiency in French I or French I Honors. Students are required to speak in French in class. Students will be challenged with the opportunities to prepare writing samples and perform skits working towards mastery in communication skills.

FRENCH III

Course # 04130

Prereq: “C” in French II
Level: 10, 11, 12
Credit: 1.0

French III reviews and expands skills learned in Level II including increased speaking, reading, writing, and comprehension skills. Emphasis is placed on more extensive vocabulary acquisition and a more complete study of grammar. Original skits will be written and performed. Practice in the language lab will continue. A field trip to the Art Institute of Chicago is the culminating activity of the Art Unit. Students are encouraged to communicate in French during class.

Foreign Language Department

FRENCH III HONORS

Course # 04180

Prereq: "A" in French II or "B" in French II and Dept. Chairperson approval or "C" in French II Honors
 Level: 9, 10, 11, 12
 Credit: 1.0

French III Honors is the same as French III, but for the student who demonstrated exceptional proficiency in French II or French II Honors. Students will be required to communicate exclusively in French. Journal writing helps prepare the student for the AP class. More extensive understanding of French culture and civilization will enhance the students' ability to communicate with native speakers who are used to non-native speakers of French. A field trip to the Art Institute of Chicago is the culminating activity of the Art unit. Students are encouraged to participate in immersion weekend programs. All Honors students will participate in the National French Contest.

FRENCH IV

Course # 04140

Prereq: French III
 Level: 11, 12
 Credit: 1.0

French IV provides a complete review of French grammar and continued acquisition of vocabulary, including idioms. The course of study involves lengthier readings, a study of history, and some literature. Students will be asked to communicate in French as much as possible. Cultural projects may be included. Students are encouraged to participate in the National French Contest and immersion weekend programs.

ADVANCED PLACEMENT FRENCH LANGUAGE

Course # 04150

Prereq: "C" in French III Honors or "A" in French III or "B" in French III with Dept. Chairperson approval
 Level: 11, 12
 Credit: 1.0

AP French IV is a college level course that entails intensive work acquiring advanced vocabulary and a complete grammar review along with development of extended discourse skills. Emphasis is placed on improving authentic pronunciation skills, speaking, and listening comprehension in the language lab. Reading in history, civilization, and literature are included. Students are encouraged to participate in immersion weekend programs. Students will be prepared to take all college entrance and achievement exams in French. *The class is conducted entirely in French. Students enrolled in this course are encouraged to take the Advanced Placement Test in French in May.*

FRENCH V HONORS

Course # 04190

Prereq: Successful completion of Advanced Placement French IV
 Level: 12
 Credit: 1.0

In French V the student continues to study more advanced grammar and acquire a richer vocabulary. Continued work in the language lab will help prepare the student for the various portions of the AP Language Exam. Advanced reading skills are emphasized. Students are encouraged to participate in immersion weekend programs. Students will be prepared to take all college entrance and achievement tests in French. *The class is conducted entirely in French. Students enrolled in this course are encouraged to take the Advanced Placement Test in French in May.*

SPANISH

SPANISH I

Course # 04510

Prereq: None
 Level: 9, 10, 11, 12
 Credit: 1.0

In Spanish I, the students develop communication skills, study grammatical structures, and learn about culture. Students study the basics of the language: speaking, listening comprehension, reading and writing. Cultural studies include a variety of media that illustrate culture and customs and discussion of the psychology of the Hispanic people and geography.

Foreign Language Department

SPANISH II

Course # 04520

Prereq: "C" in Spanish I

Level: 9, 10, 11, 12

Credit: 1.0

In Spanish II, the students will continue to develop communication skills, study grammatical structures and learn about culture. Specific cultural emphasis will be given to Mexico, Central America and South America. Specific communication skills will emphasize listening and speaking with increased instruction and practice in reading and writing.

SPANISH II HONORS

Course # 04580

Prereq: "A" in Spanish I

Level: 9, 10, 11, 12

Credit: 1.0

In addition to the content covered in Spanish II, Spanish II Honors will emphasize listening comprehension, meaningful conversation, reading selected text for conversation-stimulating content, and development of writing skills.

SPANISH III

Course # 04530

Prereq: "C" in Spanish II

Level: 10, 11, 12

Credit: 1.0

In Spanish III, students will continue to develop communication skills, grammatical structures and learn about the culture of various Spanish-speaking countries. Specific communication skills will emphasize the development of improved listening comprehension, speaking and writing, as well as further practice in reading and vocabulary building.

SPANISH III HONORS

Course # 04570

Prereq: "A" in Spanish II or "B" in Spanish II with Dept. Chairperson approval or "C" in Spanish II Honors

Level: 10, 11, 12

Credit: 1.0

Spanish III Honors provides the opportunity for students to progress from a structured sequential language program to one, which emphasizes, in a thematic approach, integration of all language skills. Students will progress toward the goal of independent use of the language in speaking, reading, writing, and active listening. Furthermore, students will gain an understanding of Spanish culture through the study of history, art, music, literature, geography, and customs.

SPANISH IV

Course # 04540

Prereq: "C" in Spanish III

Level: 11, 12

Credit: 1.0

Spanish IV provides an opportunity for students to develop their fluency through intensive conversational practice and to strengthen their skills in writing, reading, listening, vocabulary and comprehension. Culture is studied through reading, movies, field trips, and skits.

ADVANCED PLACEMENT SPANISH LANGUAGE

Course # 04550

Prereq: "A" in Spanish III or "B" in Spanish III with Dept. Chairperson approval or "C" in Spanish III Honors

Level: 11, 12

Credit: 1.0

Advanced Placement Spanish Language offers students a college level experience. It is the fourth course in the Spanish sequence and provides an opportunity for students to further develop their skills in writing, speaking, reading, and listening comprehension. Culture is studied through reading selections, discussions and field trips. Intensive work in grammar and vocabulary will be required in order to help students prepare for college board achievement and placement. *Students enrolled in this course are encouraged to take the Advanced Placement Test in Spanish in May.*

SPANISH V HONORS

Course # 04590

Prereq: "C" in AP Spanish Language or "C" in Spanish IV

Level: 12

Credit: 1.0

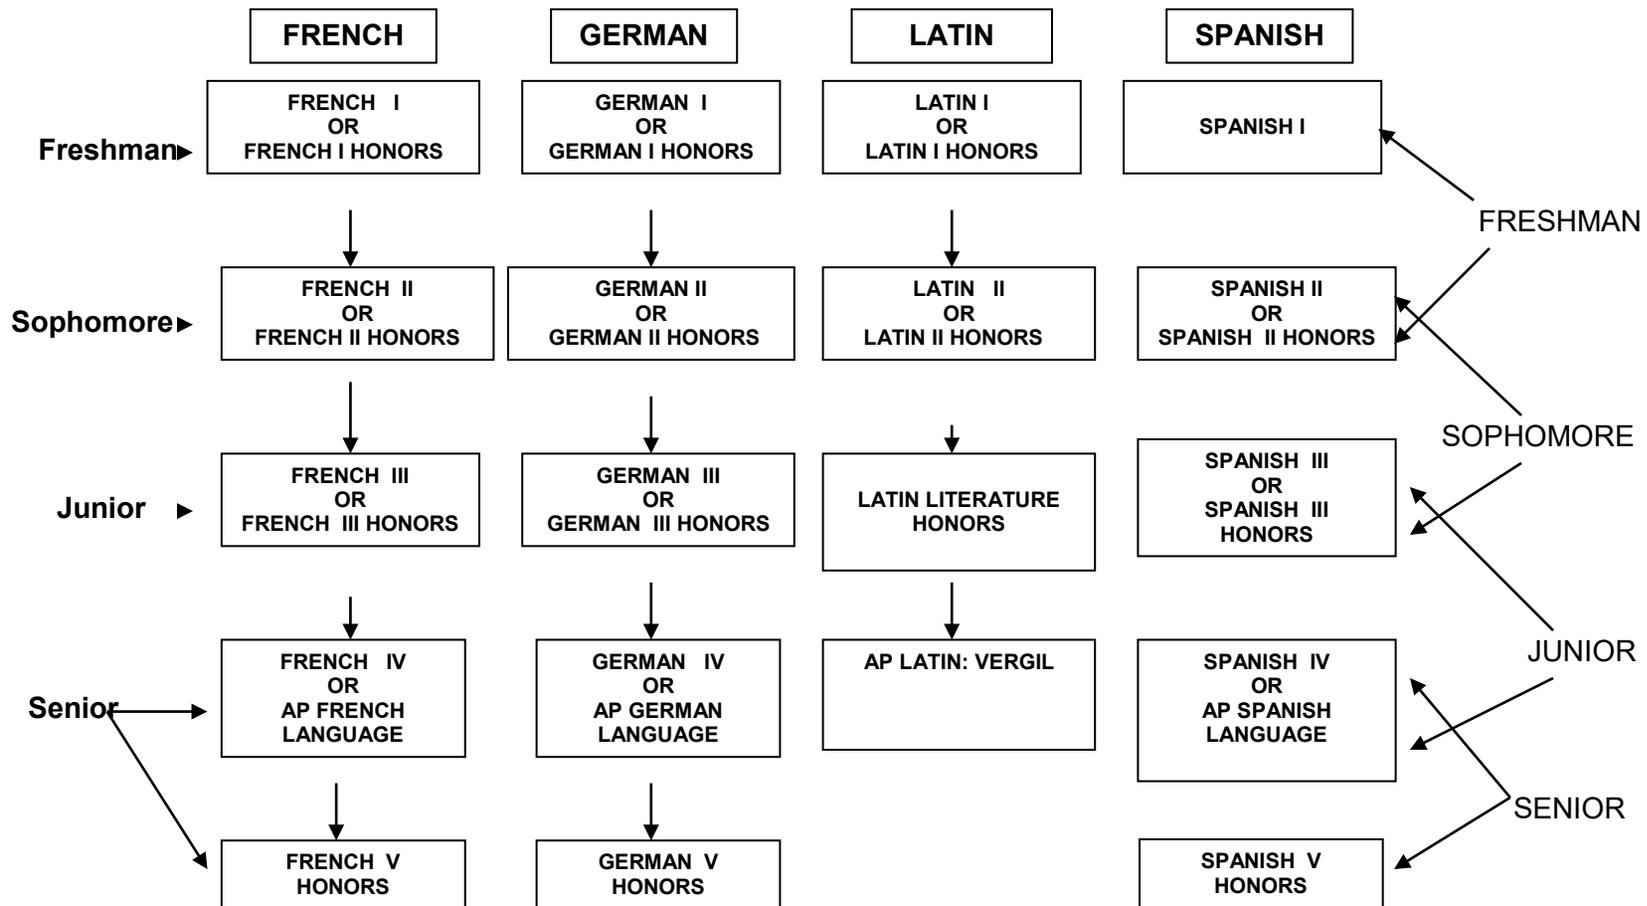

Spanish V Honors provides an opportunity for students to further develop their skills in writing, speaking, reading and listening comprehension. Intensive work in grammar and vocabulary will be required in order to help students prepare for college board achievement and placement. Culture is studied through literature. *Students enrolled in this course are encouraged to take the Advanced Placement Test in Spanish in May.*

HINSDALE SOUTH HIGH SCHOOL FOREIGN LANGUAGE DEPARTMENT

Two credits of Elective Arts are required for graduation. Foreign Language is considered one of the Elective Arts. However, only one credit in Foreign Language may be applied to this graduation requirement. Some colleges require 2 years of the same Foreign Language for college entrance and admission consideration. Entrance into our Honors programs requires department chair approval.

Director of the Library Media Center Ms. Yvonne Mullins

The mission of the Library Media Department is to support our educational community with information resources that empower teachers and students to become effective users of information and independent, responsible and enthusiastic life-long learners.

In order to realize this mission the librarians strive to:

- Provide resources in a variety of formats that support academic and personal interests;
- Deliver instruction in reading, research, technology and media literacies;
- Collaborate with faculty to design resource-based curriculum assignments and assessments.

The following course is offered through the Library Media Department:

TELEVISION PRODUCTION I

Course # TBD

Prereq: None

Level: 10, 11, 12

Credit: .5

This course is designed to develop students' skills in the creative and technical aspects of video production for television and other media. Students will develop an understanding of the various types of broadcast media and their intentions and design. Instruction will include introduction to camera operations, audio and video editing, sound and lighting techniques and audio mixing. Students will learn to operate video and DVD recording equipment, video/digital cameras, microphones, lighting/grip equipment and other production equipment used in the video and audio production of television programs. Students will complete several video production projects demonstrating a sequential development of basic skills. The primary focus will be on the individual student as he/she learns the basics of television production.

Note: This taught is taught at Central Campus. South students are welcome to enroll in the course. The course will be scheduled either 1st or 10th period to best accommodate students from South.

Mathematics Department

Department Chairperson Mr. Ismael Zamora

Vision: “Every student a mathematically literate problem solver.”

Mission: The mission of the Mathematics Department is to develop in our students the mathematical abilities they will need to become productive citizens. We are committed to providing curriculum, instruction, and assessment that will actively involve students in constructing and applying mathematical ideas to solve problems and enable students to express the mathematical connections in the world around us with algebraic, geometric, or numeric representations.

Graphing calculators are required for ALL MATH AND SCIENCE COURSES. The recommended calculator is a any type of TI-83 Or TI-84. Other TI calculators may be used, but are not recommended.

Note:

Any student who earns a D in a mathematics course is strongly recommended to retake one or both semesters in summer school before attempting the next course in the sequence. The deficiencies indicated by the D grade will make success in the next course in the sequence very difficult.

It is not recommended to take Algebra I in summer school to accelerate since Algebra is the foundation of all secondary school mathematics. It is recommended to be taken during the school year. Students wishing to advance should take a summer school course after completing Algebra 1 during the regular school year. Another option is to double up Geometry and Algebra 2 during the students sophomore year.

Department chairperson approval is required when a change of level is requested. Failure of a course in a given track, in and of itself, does not imply an automatic change to a lower sequence. Upward level changes require a 95% semester average in the previous course.

Please see Course Description for detailed Prerequisites.

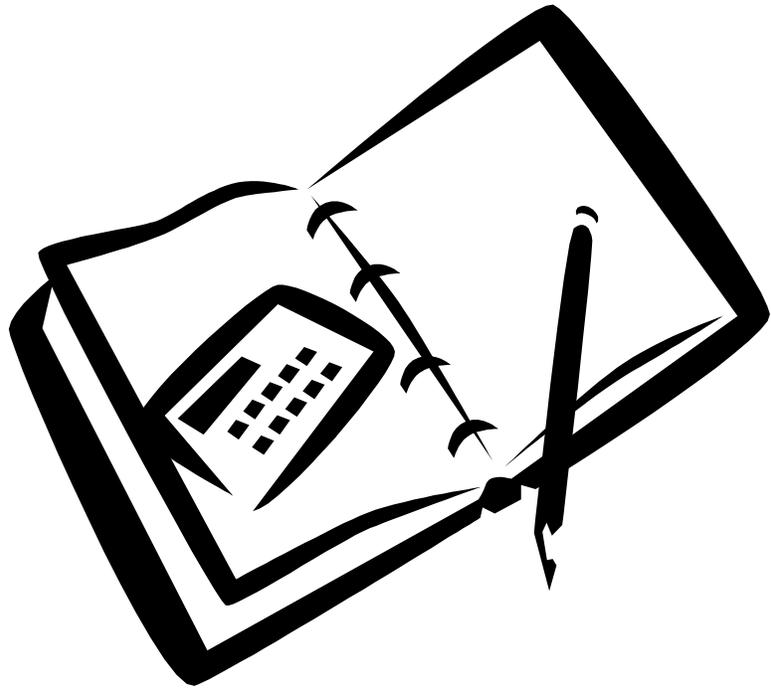

<u>Course Title</u>	<u>Course No.</u>	<u>Prerequisite</u>	<u>Credit</u>	<u>Levels</u>
Concepts of Algebra & Geometry	03150	Yes	1.0	9

Mathematics Department

Mathematics Department

CONCEPTS OF ALGEBRA AND GEOMETRY

Course #03150

Prereq: Department Chair approval

Level: 9

Credit: 1.0

This course is designed for students who require a refresher in foundational mathematics facts, in addition to giving them the tools which will allow them to be successful in Algebra I Block and Geometry-G and future math courses. It meets the state requirement as a course that addresses Geometry content, but not the year-long Algebra credit. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

This course satisfies the Geometry content requirement.

ALGEBRA I

Course # 03110

Prereq: Recommendation of 8th grade teacher and Dept.

Chairperson approval

Level: 9, 10, 11, 12

Credit: 1.0

This course is required for entrance to most colleges. It is also basic to a career or future study in all fields. Mastery of the basic arithmetic skills is a prerequisite for this course. The primary topics studied are properties of numbers, equations and inequalities, and an introduction to linear and nonlinear functions, polynomials, and graphing. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

This course fulfills the Algebra I requirement.

ALGEBRA I BLOCK

Course # 03140

Prereq: Recommendation of 8th grade teacher

Level: 9, 10, 11, 12

Credit: 2.0

This course is a double-period Algebra I so the student can complete Algebra in one year but devote more time to learning and applying the topics. It is designed for the student who learns at a slower pace. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

This course fulfills the Algebra I requirement.

GEOMETRY-G

Course #03200

Prereq: Algebra I, Block

Level: 10, 11, 12

Credit: 1.0

This course is designed to follow the Algebra I block. It deals with the general topics of Geometry 03210 emphasizing hands-on-learning, practical applications and informal argument instead of formal proof. This course would be very beneficial for any student pursuing post-secondary education. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

This course satisfies the Geometry content requirement.

GEOMETRY

Course # 03210

Prereq: C or better in Algebra I at the High School or pass the entrance test at the end of 7th or

8th grade Algebra I and

Department Chairperson

approval

Level: 9, 10, 11, 12

Credit: 1.0

Geometry is required for entrance into most colleges and many vocational programs. This course continues the use of algebra in geometric situations, calls on the power of logic and proof, and incorporates applications to real-world problems in the plane and in space. This course is for students who intend to pursue post-secondary education of two or more years. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

This course satisfies the Geometry content requirement.

GEOMETRY HONORS

Course # 03220

Prereq: A in Algebra I at the High School or pass the

entrance test at the end of 7th or 8th grade Algebra and

Department Chairperson

Approval.

Level: 9, 10

Credit: 1.0

Geometry Honors is designed for the superior mathematics student and deals with the topics included in regular Geometry 03210, but with more depth. Three-dimensional and coordinate geometric proofs are included. Particular attention is given to the nature of mathematical systems, logic, and deductive and inductive proofs. *A graphing calculator is required for this course, preferably, any type of TI-83 or 84.*

This course satisfies the Geometry content requirement.

Mathematics Department

**ALGEBRA II/
TRIGONOMETRY G****Course # 03300**

Prereq: Geometry or Geometry-G and Department Chairperson Approval

Level: 11, 12

Credit: 1.0

This course is recommended for students completing the G sequence of courses or who did C or D work in Algebra I and/or Geometry. The topics studied are real and complex numbers, conic sections, and exponential, logarithmic, polynomial, and trigonometric functions. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

**ALGEBRA II /
TRIGONOMETRY****Course # 03310**

Prereq: C or better in Algebra I and Geometry

Level: 10, 11, 12

Credit: 1.0

This course is designed for college bound students and useful for preparing for College Board tests like the SAT and ACT. It continues the study of linear and quadratic functions, graphing, polynomial, exponential and logarithmic functions, and introductory probability and trigonometry. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

**ALGEBRA II /
TRIGONOMETRY HONORS****Course # 03320**

Prereq: B or better in Geometry Honors or Department Chairperson Approval

Level: 9, 10, 11

Credit: 1.0

This course deals with the topics of Algebra II / Trigonometry 03310 in more depth, emphasizing the function approach and applications. Particular attention will be given to the nature of a mathematical system. This is a college-preparatory course. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

PRECALCULUS**Course # 03400**

Prereq: C or better in Algebra II /Trigonometry or Algebra II/ Trigonometry Honors or Introduction to Statistics or Math Analysis & Research

Level: 10, 11, 12

Credit: 1.0

This course is a study of functions and applications. It extends the topics of Algebra 2/Trigonometry and adds conic sections and some finite math topics. This course is recommended for students who are preparing to enter a profession, a technical or semi-technical field, or planning to take at least one college-level mathematics course. *A graphing calculator is required, preferably any type of TI-83 or 84.*

PRECALCULUS HONORS**Course # 03410**

Prereq: B or better in Algebra II/ Trigonometry Honors or A in Algebra II/Trigonometry and Department Chairperson approval

Level: 10, 11, 12

Credit: 1.0

Precalculus Honors treats the topics of 03400 Precalculus in greater depth, with more emphasis placed on proof, abstract structure, and preciseness of thought and communication. In addition, analytic geometry of the plane, probability, and the polar coordinate system is studied. *A graphing calculator is required for this course, preferably any type of TI-83 or 84*

**ADVANCED PLACEMENT
CALCULUS AB****Course # 03420**

Prereq: B or better in Precalculus

Level: 10, 11, 12

Credit: 1.0

Advanced Placement Calculus is a college level course offered for serious students interested in advanced placement in college or for mathematics, science, engineering, or business students. Material studied includes beginning differential and integral calculus and applications. Students are encouraged to take the College Board Advanced Placement AB exam in calculus in May. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

**ADVANCED PLACEMENT
CALCULUS BC**

Course # 03430

Prereq: Department

Chairperson

Approval and Precalculus

Honors

Level: 11, 12

Credit: 1.0

This course covers material contained in AP Calculus AB, application of integrals, differential equations, and infinite series. Students are encouraged to take College Board Advanced Placement BC exam in Calculus in May. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

WEB PROGRAMMING

Course # 03451

Prereq: Geometry or concurrent enrollment in Geometry or Department Chairperson approval

Level: 10, 11, 12

Credit: 0.5

This course uses web documents as a method to explore computer programming, data manipulation, and data presentation via HTML and JavaScript languages. Students will apply logical thinking skills and programming concepts to develop interactive web pages. Upon successful completion, the students will be capable of creating their own interactive web pages. Evaluation is based on projects, assignments, and tests.

**ADVANCED WEB
PROGRAMMING**

Course # 03462

Prereq: Web Programming or Department approval.

Level: 10, 11, 12

Credit: 0.5

Advanced Web programming is a continuation of Web programming, moving from JavaScript to JavaApplet CGI scripting and other web-based languages. HTML and web page design will be used as a method of maintaining a portfolio of class work. Evaluation is based on projects, assignments, and tests. The next course in the sequence is Introduction to Java or AP Computer Science. *This course is offered second semester only.*

INTRODUCTION TO JAVA

Course # 03482

Prereq: Web Programming or Department approval

Level: 11, 12

Credit: 0.5

This course introduces the student to Java program design and implementation. Topics include data types, logical control statement, file management, and procedural and object oriented design. Students will be introduced to real life and career-based applications of computer programming. Evaluation is based on projects, assignments and tests.

The next course in sequence is Advanced Placement Computer Science.

This course is offered second semester only.

**ADVANCED PLACEMENT
COMPUTER SCIENCE AB**

Course # 03500

Prereq: B or better in

Introduction to Java, Advanced Web Programming or Department Chairperson approval

Level: 11, 12

Credit: 1.0

The course focuses on programming methodology, algorithms, and data structures. Applications are used to develop student awareness of the need for particular algorithms and data structures, as well as to provide topics for programming assignments to which students can apply their knowledge. The Java programming language is the vehicle for implementing computer-based solutions to particular programs. Treatments of computer systems and the social implications of computing are integrated into the course. To be successful in this course, a student must have demonstrated proficiency in the previous course content, either Advanced Web Programming or Introduction to Java. *Students will be encouraged to take the Advanced Placement exam in computer programming in May, either level A or AB.*

Mathematics Department

ADVANCED PLACEMENT STATISTICS

Course # 03440

Prereq: B or better in Algebra II/
Trigonometry
Level: 11, 12
Credit: 1.0

The purpose of Advanced Placement Statistics is to introduce students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. The following themes are covered; exploring data, planning a study, anticipating patterns, and statistical inference. This course would be excellent for students planning to major in business or social sciences as well as science or mathematics. *Students will be encouraged to take the Advanced Placement Statistics test in the spring. A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

INTRODUCTION TO STATISTICS

Course # 03471

Prereq: C or better in Algebra II /
Trigonometry (any level) and
Department Chairperson
Approval.
Level: 12
Credit: .5

The primary topics to be studied are data analysis, including representing and describing data and creating and analyzing a survey. This course is appropriate for college-bound students and is, therefore, recommended for all Algebra II-G students who achieved at the C or above level. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

MATHEMATICAL ANALYSIS AND RESEARCH

Course # 03472

Prereq: C or better in Algebra II
Trigonometry and Department
Chairperson approval
Level; 12
Credit: 0.5

This is a survey of algebraic functions, mathematical modeling, elementary probability and research techniques in mathematics. This course is appropriate for college-bound students and is, therefore, recommended for all Algebra II students who achieved at the C or above level and for Algebra II-G students who achieved at the C level or higher. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.* Students may not earn credit for both 03472 and 03400/03410.

MATH TOPICS I HONORS

Course # 03511

Prereq: Department
Chairperson approval
Level: 12
Credit: 0.5

Math Topics I is for students who have completed Advanced Placement Calculus BC, Advanced Placement Computer Science and/or Advanced Placement Statistics and would like to continue their studies of topics in Advanced Calculus, Computer Science, Linear Algebra or Advanced Statistics. Students must find a sponsoring teacher in order to sign up for this course. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

MATH TOPICS II HONORS

Course # 03512

Prereq: Math Topics I Honors
and Department Chairperson
approval
Level: 12
Credit: 0.5

Math Topics II is a continuation of Math Topics I. *A graphing calculator is required for this course, preferably any type of TI-83 or 84.*

Music Department

Department Chairperson Mr. Paul Kimpton

Music education is critical in the formulation of well-rounded citizens. By providing all students many and varied musical experiences, we will create, foster and develop individuals with a better understanding of the arts. Through music education we hope to develop better problem solvers, students as communicators, critical thinkers, cooperative workers, skilled information processors and lifelong learners. Students in music performance classes will be provided multiple experiences combining performance with historical and theoretical information. The Music Department enhances student understanding of music's connection to all academic disciplines and the world in which they live by providing information and experiences in everyday courses. **Students may earn up to four credits in the same music course.**

Please see Course Description for detailed Prerequisites.

CONCERT BAND

Course #05610

SYMPHONIC BAND HONORS

Course #05620

--See Honors Requirements--

Prereq: Audition by High School Band Director. Call 630-468-4450 to schedule an audition.

Level: 9, 10, 11, 12

Credit: 1.0

The Concert Band is a performance-oriented class which offers challenging musical experiences. The performance schedule is designed to give students musical opportunities in both small and large groups. Performances include all home football games, two to three marching band competitions, winter and spring band concerts, and Illinois High School large group (Band), solo, and ensemble contests. **Marching band students in grades 10 - 12 may be exempt from Physical Education during football season. Please inquire with counselor during registration.**

JAZZ BAND

Course #05600

Prereq: Audition by High School Band Director

Level: 9, 10, 11, 12

Credit: 1.0

Jazz Band is designed for students who want to learn Jazz in a big band setting. Emphasis will be placed on learning jazz improvisation, theory, and the various styles jazz music offers. The Jazz Band is expected to perform at several concerts, shows, and community performances throughout the year. This class is the full Jazz band experience. Students are encouraged to be enrolled in the Concert Band. Membership will be determined by audition and instrumentation.

SYMPHONIC PERCUSSION

Course #05660

Prereq: Department Chairperson approval

Level: 9, 10, 11, 12

Credit: 1.0

Honors credit available.

The Symphonic Percussion course is a performance-oriented class, which offers percussion students a challenging daily percussion experience. Members of the class are still a part of the band for all performances. The percussion students will be taught a curriculum where tympani, snare, mallets and multiple percussion techniques are all used in both small and large group ensembles. Performances include all home football games, two to three marching competitions, winter and spring band concerts, and Illinois High School Large (band), solo and ensemble contests.

BEGINNING PIANO/MUSIC THEORY/COMPOSITION

Course #05640

Prereq: none

Level: 9, 10, 11, 12

Credit: 1.0

This course is designed for students to learn how to read music and play the piano. Students learn to use the music writing program *Sibelius* using Korg Synthesizer workstations. Theory will be taught throughout the year as well as composition technique. Students will collaborate with the advanced class to create a CD of selections they compose and will learn how to mix, burn, edit and produce the cover and music for this CD with the advanced class.

ADVANCED PIANO COMPOSITION/THEORY

Course #05650

Prereq: Department Chairperson approval

Level: 9, 10, 11, 12

Credit: 1.0

This course is designed for the serious piano student who wants to learn how to compose and perform original compositions. Students learn to use the music writing program *Sibelius* using Korg Synthesizer workstations. Theory will be taught throughout the year as well as composition technique. Students will enter competitions with songs they create in addition to performing in one to two concerts. Students will create a CD of selections they compose and will learn how to mix, burn, edit and produce the cover and music for this CD.

Music Department

AP MUSIC THEORY

Course #05670

Prereq: Department Chairperson approval

Level: 9, 10, 11, 12

Credit: 1.0

This course is designed for students who are going to take the AP Music Test in May. Students taking the course must have previous musical skills and performance skills on piano or some type of instrument. The assignments and daily work are designed to prepare students for the test and the areas specified by the College Board. Students wanting to learn music theory only should take the Advanced Piano Course that is offered. AP Music credit may be used in college as both an elective humanities credit and a music credit in college. Students enrolled are required to take the AP Music Test in May. Students will use the music theory learned to compose chorals, cadences, melodies, bass lines, melodic dictation examples for the class in addition to composing sample questions for the class similar to the questions used in the retired AP Exams using Sibelius 4 music composition software.

BACH TO ROCK

Course # 05631

Prereq: None

Level: 9, 10, 11, 12

Credit: 0.5

Supply fee: \$30

This course will explore music's origins, historical and social influences from Gregorian chant to Rock and the present day. Recordings of these examples will be used extensively so students are introduced to musical periods, musical form, styles and genres of classical, rock and popular music. This course will focus on musicians and musical groups that have shaped yesterday's, today's, and the future musical world. Each student receives an iPod to use during the semester so they are able to listen to the music studied.

ORCHESTRA

CHAMBER ORCHESTRA STRINGS

Course #05780

Prereq: Audition by High School Director.
Call 630.468.4459 to schedule an audition.

CHAMBER ORCHESTRA HONORS

Course #05790

--See Honors Requirements--

Prereq: Director approval

Level: 9, 10, 11, 12

Credit: 1.0

Concert Orchestra is open to any student who plays violin, viola, cello, or string bass. The curriculum is designed to develop string instrument performance techniques. Students will also perform as an ensemble. Music from all periods is studied from Baroque to the Beatles. Students wishing to begin instruction in stringed instrument playing should contact the Orchestra Director.

CHORUS

TREBLE CHORUS

Course #05700

Level: 9, 10, 11, 12

Credit: 1.0

This course is the entry-level vocal music ensemble open to all female treble singers. Through the study and performance of treble and mixed choir literature, not only will individual students further develop their own music literacy and personal singing skills, but large group skills will also benefit. Course requirements are built around each student's regular attendance, and also include each student's participation in: (1) all concerts, (fall, winter, and spring) (2) attendance at music contests and workshops/clinics, and (3) special rehearsals.

Music Department

BASS CHORUS

Course #05710

Level: 9, 10, 11, 12

Credit: 1.0

This course is the entry-level vocal music ensemble open to all male tenor and bass singers. Through the study and performance of music for the Bass Chorus, not only will individual students further develop their own music literacy and personal singing skills, but large group skills will also benefit. Course requirements are built around each student's regular attendance, and also include each student's participation in: (1) all concerts, (fall, winter, and spring) (2) attendance at various music contests, workshops/clinics, and (3) special rehearsals.

VARSITY MIXED CHORUS

Course # 05820

VARSITY MIXED CHORUS HONORS

Course # 05810

Prereq: Audition with Director

Level: 10, 11, 12

Credit: 1.0

Varsity Mixed Chorus is the top-level large group choral music ensemble for sophomore, junior and senior singers. Through the study and performance of a wide variety of choral music for the advanced mixed chorus, both individual and large group music skills will be further developed. Course requirements include regular daily attendance, in conjunction with attendance at all concerts, competitions, and workshops/clinics.

VARSITY TREBLE CHORUS

Course # 05800

Prereq: Consent of Director

Level: 10, 11, 12

Credit: 1.0

Varsity Treble Chorus is the intermediate treble choir ensemble for Sophomore, Junior, and Senior female singers. It is the purpose of the course to incorporate individual and group music skill building through the preparation and performance of advanced treble choir literature. Course requirements include participating in all concerts, competitions/clinics, and special rehearsals, in conjunction with daily in-class rehearsals.

MADRIGALS/JAZZ CHOIR

Course # 05830

MADRIGAL/JAZZ HONORS

Course # 05840

---See Honors Requirements---

Prereq: Consent of Choral Director

Level: 10, 11, 12

Credit: 1.0

Madrigals/Jazz Choir is a full-year course for selected 10th, 11th, and 12th grade students, which will focus on the performance of the Madrigal Christmas dinner in the fall semester and outside performance opportunities throughout the year. Admittance is by audition only. Concurrent membership in another music course is highly recommended. Madrigal students are also required to learn and perform the repertoire of Varsity Mixed Chorus.

HONORS STUDY IN MUSIC

Students will have the opportunity to qualify for honors study in the following performance programs: Symphonic Band Honors (including Symphonic Percussion), Concert Orchestra Honors, Varsity Mixed Chorus, and Madrigal/Jazz Honors. Selections will be the *Illinois Music Educators Association* audition music, which can be obtained from the instructors in June of each year. Honors selection will be based on the IMEA material performed during the third week of September. ***Please read the section below for more information on requirements.***

REQUIREMENTS FOR HONORS STUDY

Advanced students in Concert Band, Percussion, Varsity Choir, Concert Orchestra and Madrigals/Jazz Choir may audition for the honors level of that ensemble. *These students will, as part of the requirements, remain as members of their curricular ensemble and fulfill all obligations of that ensemble.* In addition, students will be required to perform the following activities:

1. Students must audition for the IMEA District Festival on the State Audition material. This audition will be held in October at a local high school.
2. Private lessons once a week for thirty minutes. The number of lessons per quarter will be one less than the number of weeks in the Quarter. For example, if we have ten weeks in one quarter the students must take nine lessons during that quarter. Students will be responsible for turning in the completed lesson form signed by the private teacher. The teaching staff will approve the private teachers each year.
3. Two solo performances. One will be an Honors Recital in November, which will be open to the public. Instrumentalists will perform a major solo work with piano accompaniment. Vocalists must perform at least two songs, one in a foreign language. The recital will be a graded event. Students will be given a set of guidelines before the event, which will be used to assess the performance. Students must show the director the solo selected to check for level of difficulty and appropriateness at least four weeks before the performance.
4. A second performance of a different solo will be in March at the Illinois High School Association State Solo and Ensemble contest. The directors of the honors students will grade the solo and the performance before the contest. Then the students will perform the same solo for the state judge who will rate and make written comments and suggestions. The importance of this experience is that the student receives an outside critique of his/her playing/singing ability and can be better prepared for college auditions, which will be very similar to the this solo experience.

In addition, by the recital, each student will turn in a 1000 word paper (typed, double spaced) about the selection they are performing. The research paper should cover the composer and his works, historical perspective, as well as the repertoire being performed. Students must use proper format as well as a minimum of five sources with a maximum of two Internet sites.

Music Department

Physical, Health, & Driver Education

Department Chairperson Mr. Paul Hoel

The Physical Education Department offers a variety of courses designed to develop skills and knowledge in the following areas: team sports, individual sport activities, personalized fitness/wellness programs, and life-long learning activities. Students have the opportunity to select from a wide variety of course offerings that will best meet their individual Physical Education needs.

PHYSICAL EDUCATION ACTIVITIES

Freshman Choices

Aerobics
 Badminton
 Basketball
 Floor Hockey
 Folk/Square/Swing Dance
 Gymnastics
 Physical Fitness Concepts (9)
 Physical Fitness Applications (10)
 Physical Fitness Testing
 Soccer
 Softball
 Speed-A-Way
 Swimming
 Tennis
 Touch Football
 Track & Field
 Volleyball
 Wrestling

Sophomore, Junior and Senior Choices

Aerobics	Recreational Sports
Aerobic Fitness	Rhythmic Gymnastics
Archery	Roller Blading
Badminton	Snorkeling
Basketball	Soccer
CC Skiing	Softball
Flickerball	Speed-A-Way
Floor Hockey	Tchoukball
Golf	Team Handball
Ice Skating	Tennis
Lacrosse	Touch Football
Navy Football	Ultimate Frisbee
Net Games	Volleyball (indoor)
Outdoor Ed.	Volleyball (outdoor)
Pickleball	Water Games
Physical Fitness Applications	Weight Lifting
Lifeguard Certification (2 nd sem. only)	Yoga

Students must register for Physical Education EACH semester.

<u>Grade</u>	<u>Semester 1</u>	<u>Semester 2</u>
9 (Learning Readiness PE) <i>This class will stress movement, cross lateral activities, and aerobic exercise; taking full advantage of the effects that exercise and movement have on learning.</i>	Course No. 07161	Course No. 07162
10*/11/12	Course No. 07471	Course No. 07472
10^/11/12	Tumbling 07481	Tumbling 07482

***Junior & Senior Athletes may be exempt from Physical Education during their sport season. Please inquire with counselor during registration.**

^Sophomores have the option of taking Health Education for one semester and Physical Education for the other semester by registering for the following courses:

<u>Semester 1</u>	<u>Semester 2</u>
Physical Education 07471	Health 07502
or	
Health 07501	Physical Education 07472

Physical, Health, & Driver Education

DRIVER EDUCATION

Counselors will assign sophomore students to the appropriate semester for their Driver Education and Health classes based on their birth date. This designation will be determined at the registration counseling session that will be held in early February with each student and counselor. This same determination will take place for any junior or senior student who has not completed the Driver Education program. **Due to recent changes in Drivers Education laws by the State of Illinois, our school may not be able to honor all requests by students to enroll in Drivers Education during their sophomore year. Students will be enrolled according to birthdates.**

Successful completion of the course is required to obtain an Illinois driver's license prior to the age of 18 years. Driver Education is a multiphase course designed to meet all of the current driver education laws.

In addition, Public Act 88-188 requires that a student must have passed at least eight (8) courses in the previous two semesters in order to be eligible to take Driver Education. In other words, if a student fails too many classes, he or she will not be eligible to take Driver Education and will be withdrawn from the class.

HEALTH EDUCATION

HEALTH EDUCATION

Course #07501 (1st semester)

Course #07502 (2nd semester)

Prereq: none

Level: 10

Credit: 0.5

Health Education involves the promotion and development of health knowledge, attitudes, and skills useful in adolescent and adult life. Its aim is to produce health literacy by engaging students in a self-directed exploration of the concept of personal wellness. Such exploration will empower students to make informed lifestyle decisions as they relate to emotional health, alcohol, tobacco and other drugs, nutrition, fitness and weight maintenance as well as the risks and consequences of sexual activity. A number of teaching and learning strategies shall be used in this course including guided lecture and discussion, group work, presentations, hands-on activities and projects, guest speakers, and utilizing the Internet to gain valid and reliable health information.

ADVANCED HEALTH

Course #07511

Prereq: "B" or better in Health Education or instructor's consent

Level: 11, 12

Credit: 0.5

Advanced Health provides for development of knowledge and mastery of skills in the following areas: self-study dealing with diet, fitness, and stress management issues; American Red Cross certification in cardiopulmonary resuscitation and first aid; and in-depth analysis of current health issues. Authentic application of health knowledge will be emphasized. The instructional methods will include class discussion, demonstrations, individual and group projects, in and out-of-class readings, debates, and field trips.

Science Department

Department Chairperson

Ms. Julie Gaubatz

The Science Department provides students with opportunities to develop observation, investigation, technological and problem-solving skills that will benefit students as they enter the worlds of college and work. Prerequisites may be waived by teacher or department chair recommendation. **Please see Course Description for detailed prerequisites.**

<u>Course Title</u>	<u>Course No.</u>	<u>Prerequisite</u>	<u>Credit</u>	<u>Levels</u>
GeoPhysics	03640 03610A (AR)	Yes	1	9
Physics Honors	03960 (11, 12) 03920 (9)	Yes	1	9, 11, 12

AP Physics B	03930	Yes	1	12
AP Physics C	03940	Yes	1	12

- Students are strongly encouraged to take **four** years of science courses. Most colleges require a minimum of three science credits. Students may take multiple science courses their sophomore, junior and senior years.
- All science courses emphasize laboratory investigations, problem-solving skills, real world applications, technology in the classroom, and reading, writing and note taking skills.
- Hinsdale South High School's Honors classes require motivated students who are able to complete work independently and consistently while applying critical thinking and problem-solving skills. Honors classes require teacher recommendations.
- Advanced Placement (AP) courses provide students with an opportunity to earn an average of 8 college credits upon successful completion of the AP exam, depending on the AP policy of the college you will be attending (see www.collegeboard.com/ap/creditpolicy). AP courses cover college-level material at a college-level pace with college-level expectations. Because of the level of study presented in AP courses, teacher recommendations are required. Students who plan to attend college are encouraged to take the appropriate prerequisites and to develop skills and work habits that will prepare them for AP classes their junior or senior years.
- Hinsdale South also offers a variety of electives for sophomores, juniors and seniors that allow students to explore the sciences and expand their knowledge base. Electives can be taken concurrently with core courses.

- Listed course prerequisites may be waived by teacher or department chair recommendation.

Science Department

HSHS SCIENCE DEPARTMENT COURSE SEQUENCE FOR THE CLASSES OF 2012 AND 2013:

8 th Grade	9 th Grade	10 th Grade	11 th Grade	12 th Grade
		Concepts in Chemistry		
Math 8 →	Geophysics (AR option available)	Chemistry	Biology (AR option available)

Electives Available		Astronomy, Earth Science H (if taken concurrently with Chemistry)	Physics Astronomy, A&P Earth Science H AP Phys B AP Phys C AP Environmental Science AP Chemistry	Physics Astronomy Ecology, A&P Earth Science H AP Phys B AP Phys C AP Environmental Science AP Chemistry AP Biology

HSHS SCIENCE DEPARTMENT COURSE SEQUENCE FOR THE CLASSES OF 2010 AND 2011:

9 th Grade	10 th Grade	11 th Grade	12 th Grade
Earth Science →	Biology (AR option available)	Concepts in Chemistry, Chemistry OR Chemistry H	Physics OR Physics H
Biology OR Biology H →	Concepts in Chemistry, Chemistry OR Chemistry H	Physics OR Physics H	
	Astronomy Ecology (see prerequisites)	Astronomy, A&P Earth Science H, Ecology AP Phys B, AP Phys C AP Environmental Science AP Chemistry	Astronomy, Ecology A&P, Earth Science H AP Phys B, AP Phys C AP Environmental Science AP Chemistry, AP Biology

CORE COURSES

GEOPHYSICS

Course # 03640

Prereq: Department Chair recommendation. This course cannot be taken by students who have earned a science credit in Earth Science.
Level: 9 (higher with recommendation)
Credit: 1.0

This course combines Earth Science content while exploring the Physics that underlie observable phenomenon. Topics include plate tectonics, mountain-building and volcanoes, astronomy, history of the Earth, velocity, acceleration, waves, energy, forces, magnetism, and atomic structure. These topics will be explored via inquiry, graphing and applied mathematics which will be built on in students' sophomore year science course, Chemistry. This course is also offered in an Academic Reading (AR) format (#03610A) for students who need extra assistance in reading comprehension.

PHYSICS HONORS

Course #03920 (9)

Course # 03960 (11,12)

Prereq: Freshmen: Department Chair recommendation; Concurrent with Geometry or higher. Junior/Seniors: Teacher recommendation; Successful completion of Chemistry; Concurrent with Algebra II or higher.
Level: 9, 11, 12
Credit: 1.0

Freshmen (#03920): Topics include the study of motion, forces, momentum, work, energy, power, waves, sound, light, optics and electromagnetism. These topics will be explored via inquiry, graphing and applied mathematics which will be built on in students' sophomore year science course, Chemistry. A high level of understanding is expected and problem-solving will be challenging.

Juniors/Seniors (#03960): Similar topics are covered as listed above. This course is appropriate for students with above average math and critical thinking skills.

CONCEPTS IN CHEMISTRY

Course # 03840

Prereq: Sophomores: Successful completion of GeoPhysics; Teacher recommendation. Juniors/Seniors: Successful completion of Biology; Teacher recommendation
Level: 10, 11, 12
Credit: 1.0
Supply fee: \$10

This course is an issue-oriented laboratory course. Traditional chemistry topics are covered and include acids and bases, organic and nuclear chemistry, kinetics, behavior of gases, thermodynamics and the quantitative aspects of chemistry. This course is appropriate for students with below average math ability and does not serve as a Prereq for AP science courses. This course is also offered in an Academic Reading (AR) format (#03850A) for students who need extra assistance in reading comprehension.

CHEMISTRY

Course # 03810

Prereq: Sophomores: Successful completion of GeoPhysics or Physics Honors; Teacher recommendation. Junior/Seniors: Successful completion of Biology; Teacher recommendation
Level: 10, 11, 12
Credit: 1.0
Supply fee: \$10

This is a traditional high school chemistry course. Topics include acids and bases, organic and nuclear chemistry, kinetics, behavior of gases, thermodynamics and the quantitative aspects of chemistry. This course is appropriate for students with average math ability and can serve as a Prereq for AP science courses.

CHEMISTRY HONORS

Course # 03830

Prereq: Sophomores: Successful completion of GeoPhysics or Physics Honors; Teacher recommendation. Junior/Seniors: Successful completion of Biology and Algebra I or higher; Teacher recommendation.
Level: 10, 11, 12
Credit: 1.0
Supply fee: \$10

Similar topics are covered as in Chemistry, but a higher level of understanding is expected and problem-solving will be more challenging. This course is appropriate for students with above average math and reading abilities and can serve as a Prereq for AP science courses.

CORE COURSES

BIOLOGY G

Course # 03600

Prereq: Teacher recommendation and Department Chair approval
Level: 11, 12
Credit: 1.0

This course is designed specifically for students who do not have a strong background in science due to reading or other learning issues. An emphasis is placed on the comprehension of major concepts and the acquisition and comprehension of new information from multiple sources. Placement is dependent upon teacher recommendation and department chairperson approval.

BIOLOGY

Course # 03720

Prereq: Teacher recommendation
Level: 11, 12
Credit: 1.0

This course is an introduction to the study of life. Topics covered include the scientific method, cellular biology, molecular biology, ecology, evolution, biochemistry and body systems. This course is also offered in an Academic Reading (AR) format (#03750A) for students who need extra assistance in reading comprehension.

BIOLOGY HONORS

Course # 03730

Prereq: Successful completion of Earth Science; Teacher recommendation
Level: n/a
Credit: 1.0

This course covers similar topics to Biology (#03720) with more in-depth labs, reading and explorations. Due to the change in science course sequencing, this course will not be offered in 2009-2010.

PHYSICS

Course # 03970

Prereq: Successful completion of Chemistry; Concurrent with Algebra II or higher.
Level: 11, 12
Credit: 1.0

This is a traditional high school physics course. Topics include the study of motion, forces, momentum, work, energy, power, waves, sound, light, optics and electromagnetism. This course is appropriate for students with average math ability.

ELECTIVE COURSES

ASTRONOMY: THE SOLAR SYSTEM/STARS AND GALAXIES

Course # 03691/03692

Prereq: Successful completion of two core science credits; Can be concurrent with 2nd core science); Teacher recommendation.
Level: 10, 11, 12
Credit: 0.5 each

Astronomy—The Solar System investigates the history and origins of astronomy, telescopes, calendars, and the solar system. Astronomy—Stars and Galaxies investigates ordinary stars, stellar distances and motions, supernovae, pulsars and black holes, overview of the universe, stellar evolution, and galaxy formation. These two semester courses may be taken independently of each other.

ECOLOGY: AN ECOSYSTEMS APPROACH/HUMAN IMPACT ON THE ENVIRONMENT

Course # 03751/03752

Prereq: Successful completion of two core sciences; Can be concurrent with 2nd core course as long as Biology has been successfully completed; Teacher recommendation.
Level: 11, 12
Credit: 0.5 each

These courses are designed to teach the fundamental principles of ecology, including energy flow, ecosystems, man's impact on nature and cycles. Students explore the importance of the balances that are found in nature and the implications that upsetting these balances can have on entire systems. These two semester courses may be taken independently of each other.

ANATOMY AND PHYSIOLOGY

Course # 03980

Prereq: Successful completion of Biology and Chemistry; Teacher recommendation.

Level: 11, 12

Credit: 1.0

This course develops students' understanding of the workings of the human body. Dissections, including a fetal pig, various cow organs and joints and a cat, play an important role in the learning process of this course. Careers in health-related fields are emphasized through in-class activities and field trips.

EARTH SCIENCE HONORS

Course # 03660

Prereq: Successful completion of two core science courses (must include Chemistry); Teacher recommendation.

Level: 11, 12

Credit: 1.0

Students develop an understanding for Earth and all its functions by questioning, analyzing, experimenting, and evaluating their discoveries in the classroom, laboratory and out in the field. *Students can not receive credit for both Earth Science and Earth Science Honors.*

ADVANCED PLACEMENT COURSES

ADVANCED PLACEMENT BIOLOGY

Course # 03740

Prereq: Successful completion of Chemistry and Biology; Teacher recommendation.

Level: 11, 12

Credit: 1.0

Advanced Placement Biology covers two semesters of college-level general biology which applies previous knowledge to biochemistry, cellular biology, molecular biology, phylogeny and population biology. Typically, students can earn 8 college credit hours depending on AP exam scores (see www.collegeboard.com/ap/creditpolicy).

ADVANCED PLACEMENT CHEMISTRY

Course # 03820

Prereq: Successful completion of Biology & Chemistry; Teacher recommendation. Successful completed of Physics highly recommended.

Level: 11, 12

Credit: 1.0

Supply fee: \$10

Advanced Placement Chemistry is a college-level chemistry course which applies previous knowledge to atomic structure, bonding, nuclear chemistry, solutions, oxidation-reduction, kinetics and thermodynamics. Typically, students can earn 8 college credit hours depending on AP exam scores (see www.collegeboard.com/ap/creditpolicy).

ADVANCED PLACEMENT ENVIRONMENTAL SCIENCE

Course # 03670

Prereq: Successful completion of Biology and Chemistry; Teacher recommendation.

Level: 11, 12

Credit: 1.0

Advanced Placement Environmental Science is a college-level science course that explores cycles, chemistry in the environment, ecosystems, population, relationships in nature and man's effect on the planet. Typically, students can earn 3 college credits depending on AP exam scores (see www.collegeboard.com/ap/creditpolicy).

ADVANCED PLACEMENT PHYSICS B

Course # 03930

Prereq: A or B in Physics; Concurrent with Alg II/Trig or higher; Teacher recommendation.

Level: 12

Credit: 1.0

Advanced Placement Physics B is a college-level survey course that includes the topics: Newtonian mechanics; relativity; fluid mechanics and thermal physics; electricity and magnetism; waves and optics; and atomic and nuclear physics. Typically, students can earn up to 8 college credit hours for non-major physics courses depending on AP exam scores (see www.collegeboard.com/ap/creditpolicy).

ADVANCED PLACEMENT PHYSICS C

Course # 03940

Prereq: A or B in Physics; Concurrent with Calculus or higher; Teacher recommendation.

Level: 12

Credit: 1.0

Advanced Placement Physics C is a calculus-based physics course that has a reduced focus compared to AP Physics B, but more in-depth investigations into mechanics, electricity and magnetism. Typically, students can earn up to 8 college credit hours for physics/engineering or general majors depending on AP exam scores (see www.collegeboard.com/ap/creditpolicy).

Department Chairperson Mr. Matthew Guritz

For students to develop as citizens, they must learn democratic values and practice democratic process skills that are appropriate for their age and maturity. Social studies courses teach students these essential values and skills. Additionally, students must be prepared for success in college and the work place through practice in data analysis, analytical writing, and development of presentation skills. Regardless of a student's career and life choices, all students will deal with politics, cultural and religious differences, and social conflict on a daily basis. A strong social science education is vital for success in a diverse and rapidly changing society.

See course description for detailed prerequisite.

- Students are strongly encouraged to take **four** years of social studies courses. Students may take multiple social studies courses their sophomore, junior and senior years.
- All social studies courses emphasize analytical writing, primary and secondary source interpretation, real world applications, technology in the classroom, and reading, writing and note taking skills.
- Hinsdale South High School's Honors classes require motivated students who are able to complete work independently and consistently while applying critical thinking and problem-solving skills. Honors classes require teacher recommendations.
- Advanced Placement (AP) courses provide students with an opportunity to earn college credits upon successful completion of the AP exam, depending on the AP policy of the college you will be attending (see www.collegeboard.com/ap/creditpolicy). AP courses cover college-level material at a college-level pace with college-level expectations. Because of the level of study presented in AP courses, teacher recommendations are required. Students who plan to attend college are encouraged to take the appropriate prerequisites and to develop skills and work habits that will prepare them for AP classes their sophomore, junior and senior years.
- Hinsdale South also offers a variety of electives for sophomores, juniors and seniors that allow students to explore the social studies and expand their knowledge base. Electives can be taken concurrently with core courses. Listed course prerequisites may be waived by teacher or department chair recommendation.

Social Studies Department

WORLD STUDIES**Course # 02470**

Prereq: None

Level: 9

Credit: 1.0

An examination of global history, geography, economics, culture, government and contemporary concerns. Students discover the common elements of human cultures and their diversity. The course is organized by social science themes and standards. Development of reading, writing, thinking, and communication skills are emphasized. Use of maps, primary and secondary sources, reading strategies, and the resources of the Library Media Center are taught.

WORLD STUDIES HONORS**Course # 02390**

Prereq: Dept. Chairperson

Recommendation

Level: 9

Credit: 1.0

An in-depth study of important episodes in World History from Renaissance to modern times. The historical development of modern problems is emphasized. Extensive supplemental reading is required. Development of writing skills is an important goal of this course. *Students are prepared to take Advanced Placement courses.*

WORLD CULTURES**Course # 02480**

Prereq: Dept. Chairperson

Recommendation

Level: 10

Credit: 1.0

This full year social studies course is for sophomores and other students who due to schedule constraints or other factors still need to fulfill the graduation requirement for World Studies. World Cultures explores the geographic, economic, historic, cultural and current issues pertaining to the world's major civilizations. A variety of activities and assessments will be used to foster the acquisition of not only content knowledge, but also critical thinking skills appropriate to the social studies.

**ADVANCED PLACEMENT
EUROPEAN HISTORY****Course # 02520**

Prereq: Recommendation of

World Studies teacher and

Dept. Chairperson approval.

Level: 10

Credit: 1.0

Intensive study of European History from the Renaissance to the present. College-level reading and writing assignments. Historiographical analysis. The course will prepare students to take the Advanced Placement exam in May.

**AFRICAN-AMERICAN
HISTORY****Course # 02331**

Prereq: None

Level: 10, 11, 12

Credit: 0.5

An in-depth elective that enhances the World Cultures and United States History curricula by tracing the experiences of African-Americans from pre-revolutionary America to present day. In addition, it will enhance existing African-American strands in both English and art courses offered at Hinsdale South. It will encourage students to think critically and reflect upon modern day American society and racism. It will emphasize depth compared to the breadth of U.S. History, it will investigate the concept of race and its application in American society, and it will involve issues of race and culture in a multicultural society.

GEOGRAPHY**Course # 02501**

Prereq: None

Level: 10, 11, 12

Credit: 0.5

An examination of human societies in their habitat. Exploration of the inter-relationships between human beings and our physical environment. Analysis of the physical bases of geography. Focus on selected regions throughout the world, examining political, historical, social, and cultural consequences of physical geography. Considerable map work, oral and written reports, and some supplemental reading are required.

PSYCHOLOGY I**Course # 02431**

Prereq: None

Level: 10, 11, 12

Credit: 0.5

An introduction to the principles of human behavior, including learning, motivation, personality development, and adjustment. Students will have an opportunity to test various theories of psychology using their own life experiences. Some typical activities include discussions, experiments, readings, and a variety of audio-visual materials. Much importance is placed on classroom discussion.

Social Studies Department

PSYCHOLOGY II

Course # 02462

Prereq: Psychology I (above average grades) and Dept. Chairperson approval.

Level: 11, 12

Credit: 0.5

An advanced analysis of the major learning and personality theories in the field of psychology. The students' experiences are organized around a variety of activities that will probe these psychological theories in depth. Designing as well as participating in several experiments are a major component of this course.

ADVANCED PLACEMENT PSYCHOLOGY

Course # 02510

Prereq: Dept. Chairperson approval

Level: 10, 11, 12

Credit: 1.0

An intensive study of the principles of human behavior, including learning, motivation, personality development, and adjustment. College-level readings and activities are assigned. *This course will prepare students for the Advanced Placement exam in May.*

SOCIOLOGY

Course # 02381

Prereq: None

Level: 11, 12

Credit: 0.5

Sociology is the study of how groups affect human behavior. In this course we will examine the principles of sociology and apply them to current problems that face American society. The course focuses on developing students' viewpoints and insights on problems facing American society through small group and class discussions. Some of the topics discussed are the future of marriage and the family, world population problems, abortion, crime in America, and the future of American cities.

AMERICAN POLITICS

Course # 02351

Prereq: None

Level: 10, 11, 12

Credit: 0.5

A hands-on analysis of government and politics in the United States. Students learn general concepts used to interpret American politics. Analysis of specific case studies through simulation and community activity familiarizes students with the groups, organizations, issues, and ideas that make up the American political system. Students will explore the causes of different political beliefs and behaviors and the role of interest groups and political parties.

UNITED STATES HISTORY

Course # 02310

Prereq: None

Level: 11

Credit: 1.0

Juniors are required to pass U.S. History or American Studies or AP U.S. History. *Transfer students who have not previously done so must pass a test on the Illinois and U.S. Constitutions as a requirement for graduation.* In U.S. History students satisfy Illinois requirements for study of the Declaration of Independence, United States Constitution, Illinois State Constitution, and Flag Code. Students practice critical inquiry into the past in relationship to the present. Students are evaluated on written projects, tests, and class participation.

ADVANCED PLACEMENT U.S. HISTORY

Course # 02320

Prereq: Dept. Chairperson approval

Level: 11

Credit: 1.0

Juniors are required to pass U.S. History or American Studies or AP U.S. History. Students read college-level materials and write argumentative essays. Coverage of American history is chronological. Various interpretations of crucial historical issues is emphasized. Students will use original documents to develop skills in interpretation of events and making generalizations. A test on the Illinois and U.S. Constitution is offered to satisfy the graduation requirement. *This course will prepare students for the Advanced Placement exam in May.*

Social Studies Department

AMERICAN STUDIES

Course # 01350/01340

Prereq: None

Level: 11

Credit: 2.0 (one in English;
one in Social Studies)

Juniors are required to pass U.S. History or American Studies or AP U.S. History. An interdisciplinary study of U.S. history and literature. Connections are drawn between historical events and themes and literary works and their themes. Students earn a single grade for this two-period course.

ADVANCED PLACEMENT ECONOMICS: MICRO

Course # 02361

Prereq: Dept. Chairperson
approval

Level: 11, 12

Credit: 0.5

Microeconomics is the study of individual businesses, households, and workers in the American economy. Students will learn how prices are determined in a capitalist economy, how businesses can maximize profits, and the different levels of competition between firms in different industries. The second half of the course will examine the role the U. S. government should play in regulating the American economy, the wages workers should receive for different jobs, and how outsourcing is affecting America's economy. Microeconomics is an interdisciplinary course combining the social sciences with mathematical analysis and graphing. *This course will prepare students for the Advanced Placement exam in May. **This course fulfills the state mandate for consumer education.***

ADVANCED PLACEMENT ECONOMICS: MACRO

Course # 02372

Prereq: Completion of
Economics or AP Econ: Micro,
and Dept. Chairperson
approval.

Level: 11, 12

Credit: 0.5

Macroeconomics is the study of the United States' economy. Students will examine economic topics such as unemployment, inflation, GDP, interest rates, monetary policy, fiscal policy, and the national debt and deficit. Students will come to understand the causes for problems in the economy and be able to prescribe economic policies for both healthy and unhealthy economies. Macroeconomics is an interdisciplinary course combining the social sciences with mathematical analysis and graphing. *This course will prepare students for the Advanced Placement exam in May. **This course fulfills the state mandate for consumer education.***

This course is offered second semester only.

ADVANCED PLACEMENT GOVERNMENT & POLITICS, U.S.

Course # 02451

Prereq: Dept. Chairperson
approval

Level: 11, 12

Credit: 0.5

Students develop the knowledge and analytical skills needed to evaluate contemporary American government. Students study political scientists' theories about the Congress, the Presidency and the Judiciary. Students analyze some principal areas of public policy such as economic, foreign affairs, defense and welfare. *This course will prepare students for the Advanced Placement exam in May.*

HUMANITIES

Course # 02285

Prereq: Average to above-
average grades and Dept.
Chairperson approval

Level: 12

Credit: 2.0 (one in English;
one in Social Studies)

An interdisciplinary study of world history and literature with emphasis on philosophy, religions, and the arts of various peoples throughout history as they faced the universal questions of life and existence. The origins of Western culture will be highlighted. Students earn a single grade for this two-period course.

Special Education

**Department Chairperson
Ms. Anne Kairis**

The Special Education Department provides the continuum of educational support services to students with disabilities as defined by the Individuals with Disabilities Improvement Act and the Illinois 23 Administrative Code. Programs are developed to meet the unique individual needs of students. These supports include direct instruction, co-teaching in core classes, collaboration with general education teachers, and resource support. Additional supports available for students as determined in their individual educational plan could include occupational therapy, physical therapy, speech/language therapy, psychological and social work services. All of the classes are structured to assist in the attainment of the students' goals as written in the IEP.

PLACEMENT IN EDUCATIONAL SERVICES COURSES IS BASED UPON AN INDIVIDUAL CASE STUDY EVALUATION AND RECOMMENDATION BY THE EDUCATIONAL SERVICES STUDENT SUPPORT TEAM.

Please see Course Description for detailed Prerequisites.

<p><u>STUDY SKILLS</u> Course #01720 Prereq: Approval of Department Chairperson Level: 9 Credit: 1.0</p>	<p>Designed to assist students in acquisition of strategies to access core curriculum. Instruction focuses on organization, memory, test-taking, develop of skills in the areas of reading, writing, and math literacy.</p>
<p><u>PREVOCATIONAL SUPERVISED JOB TRAINING</u> Course #01850 Prereq: Approval of Department Chairperson Level: 9, 10 Credit: 1.0</p>	<p>The goal of the program is to develop job responsibility, initiative, and positive employer--employee relationships within a controlled school job station. The student will work one period per day at a school station, which may include: audio-visual, laundry, library or cafeteria. The student will maintain time and log activity sheets. The Transition Coordinator will be involved in placement, supervision, and evaluation of students. <i>Pass/Fail grades are issued for this course.</i></p>
<p><u>PERSONAL ADJUSTMENT</u> Course #01991/01992 Prereq: Approval of Dept. Chairperson Level: 9, 10, 11, 12 Credit: 1.0</p>	<p>Provides a highly supportive academic environment structured to address the behavioral/ emotional needs of students through out the school day. Students can only accrue up to two full credits of personal adjustment in this program.</p>
<p><u>EXTENDED PERSONAL ADJUSTMENT (AIM)</u> Course #01980 Prereq: Approval of Dept. Chairperson Level: 9, 10, 11, 12 Credit: 1.0</p>	<p>This program addresses the needs of students who need more targeted instruction in reading and math along with the development of social/emotional goals. It is available throughout most of the school day.</p>
<p><u>FOUNDATIONS FOR LEARNING</u> Course #11710 Prereq: Approval of Dept. Chairperson Level: 9, 10, 11, 12 Credit: 1.0 Supply fee: \$180</p>	<p>This course is available to students enrolled in the Foundations for Learning program and emphasizes the acquisition and mastery of functional skills in three areas: academic, social, vocational. The course provides for extensive community-based, experiential learning.</p>
<p><u>RESOURCE</u> Course #01971/01972 Prereq: Approval of Department Chairperson Level: 10, 11, 12 Credit: .5 / .25 per semester</p>	<p>Structured so that students receive assistance accessing the general education curriculum. Additional focus is on the development of student advocacy skills that will translate to post-secondary settings.</p>
<p><u>LEARNING STRATEGIES</u> Course #02010 Prereq: Study Skills Level: 10 Credit: .5 per semester</p>	<p>Designed to build on the abilities acquired in Study Skills. Emphasis is on supporting and maintaining competency in learning strategies in the general education curriculum. Instruction can focus on development of organizational skills, time management, critical thinking, reading strategies, test taking, social skills and transition planning.</p>
<p><u>EXTENDED RESOURCE</u> Course #11720 Level: 9, 10, 11, 12 Credit: 1.0 Supply fee: \$40</p>	<p>Structured so that students can receive additional support in basic academic skills throughout the day. Students are scheduled into at least one Extended Resource period but can access the Extended Resource room and teacher throughout the school day.</p>
<p><u>ENGLISH DYNAMICS I</u> Course #01670 Level: 9 Credit: 1.0</p>	<p>English Dynamics is an adapted English course for students in the Educational Services program who have reading and writing skills that are significantly below grade level. Students can earn English credit in order to meet graduation requirements and master goals according to their individual education plans. This full year course emphasizes reading comprehension, vocabulary, communication, and written expression.</p>

Special Education

ENGLISH DYNAMICS II

Course #01680

Level: 10
Credit: 1.0

English Dynamics is an adapted English course for students in the Educational Services program who have reading and writing skills that are significantly below grade level. Students can earn English credit in order to meet graduation requirements and master goals according to their individual education plans. This full year course emphasizes reading comprehension, vocabulary, communication, and written expression.

ENGLISH DYNAMICS III

Course #01690

Level: 11
Credit: 1.0

English Dynamics is an adapted English course for students in the Educational Services program who have reading and writing skills that are significantly below grade level. Students can earn English credit in order to meet graduation requirements and master goals according to their individual education plans. This full year course emphasizes reading comprehension, vocabulary, communication, and written expression.

ADULT OPPORTUNITIES (SOAR)

Course #02930

Level: Ages 18, 19, 20, 21, 22
Credit: No credit
Supply fee: \$180

Students will achieve within the overall mission of Hinsdale South High School by creating an exemplary adult-centered learning community. Students will seek and implement strategies and opportunities for improving good citizenship; facilitating adult independence and growth; uniting with students, families, and community entities to achieve definite goals with a common purpose; and demonstrate a commitment to the success and well being of all members. Students engage in real-world opportunities and training that engage the qualities of good citizenship, in the areas of Vocational/Employment, Recreation/Leisure, Independent Living, Community Access, Interpersonal Relationships.

FOODS I

Course #01722

Prereq: Approval of Dept. Chairperson
Level: 9, 10, 11, 12
Credit: .5

This course that is co-taught between the Family and Consumer Sciences Department and Special Education Department. The course is designed to give students an opportunity to practice creating meals that they will be able to recreate on their own. Emphasis is on safety, sanitation, nutrition, following a basic recipe, and creating simple meals independently. The lab activities also provide experiences in time management and teamwork. Student "peer helpers" add a unique component to the classroom as they assist, support and interact with the students during daily labs and activities.
This course is strongly recommended for any special education student before they take Foods and Nutrition. The course may be repeated as necessary.

PRINCIPLES OF DIGITAL COMMUNICATION

Course # 01731

Prereq: Approval of Dept. Chairperson
Level: 9, 10, 11, 12
Credit: 1.0

This course that is co-taught between the Business Department and Special Education Department. Student programs are individualized to meet varying ability levels and needs in developing and improve computer skills for both career and personal use. The student learns and develops correct fingering techniques for the operation of the computer keyboard and completes drills designed to develop speed and accuracy. Evaluations are based on keyboarding techniques, daily class work, timed writings, assignments, written tests and projects. Operating both hardware and software associated with a desktop computer that uses the Microsoft Windows/Office environment, students will focus on developing and improving basic navigation, problem solving, and obtaining job related computer skills.

Department Chairperson Dr. Gary Hutchinson

The Technology Education Department offers two areas of study which includes computer-aided design and woodworking. These courses are laboratory classes, which provide skills, such as problem solving and group work, necessary to adult life. Technology courses fulfill the practical arts graduation requirement. If you are interested in engineering, architecture, or construction management, you should enroll in the computer aided design and/or woods sequence. A fee is charged to cover the cost of materials for project work. Technology Education is a rapidly growing and changing field of study. The Technology Education curriculum at Hinsdale South will give students the latest information necessary to prepare for careers in this and related fields after high school graduation.

Please see Course Description for detailed prerequisites.

<u>Course Title</u>	<u>Course No.</u>	<u>Prerequisite</u>	<u>Credit</u>	<u>Levels</u>

Technology Education Department

PRE-ENGINEERING I

Course #06741

Prereq: none
Level: 9, 10, 11, 12
Credit: 0.5

This introductory course to computer aided design covers practical drafting and problem-solving skills. Most work will be done on the computers using AutoCAD by Autodesk through the introduction of two and three-dimensional problems. Some manual sketching will be done on graph paper to begin the drawing process.

PRE-ENGINEERING II

Course #06751

Prereq: Pre-Engineering I
Level: 9, 10, 11, 12
Credit: 0.5

This follow-up course to Pre-Engineering I will enable students to develop more advanced techniques in computer aided drafting through three-dimensional problems and more advanced two-dimensional figures and techniques. AutoCAD will be used for most of this course.

ARCHITECTURAL DESIGN

Course #06730

Prereq: Pre-Engineering II
Level: 10, 11, 12
Credit: 1.0
Supply fee: \$15

This course will introduce students to residential architecture. Students will learn the technical information necessary to draw a set of blueprints for a single-family home. The first semester project will consist of planning and designing a complete set of prints using industry standards as examples. The second semester will be devoted to constructing a scale model using basswood and a three-dimensional model using Revit of the home designed. Information regarding building and contracting a home will be used to help understand residential construction in the Midwest.

ENGINEERING DESIGN

Course #06721

Prereq: Pre-Engineering II
Level: 10, 11, 12
Credit: .5

This course provides students with technical information necessary to plan and design parts and products for industry. The students will plan, research, design, create, and test products to improve the efficiency of advanced applications.

WOODS I

Course #06771

Prereq: none
Level: 9, 10, 11, 12
Credit: 0.5
Supply fee: \$47

This introductory course to modern woodworking will allow students to help plan, design, and create at least three assigned wood projects using various types of wood. In addition students will develop and practice safety in a wood shop laboratory.

WOODS II

Course #06780

Prereq: Woods I
Level: 10, 11, 12
Credit: 1.0
Supply fee: \$137

This follow-up course to Woods I will allow students to further their knowledge of woodworking by planning and building more advanced projects. In addition, students will use more technical set-ups to build four projects: three assigned and one student choice.

WOODS III

Course #06790

Prereq: Woods II
Level: 11, 12
Credit: 1.0

This is an advanced class utilizing all of the information from Woods I and II. Students will design, plan and build a project of their own, consistent with their abilities, interest, and time. In addition, students will have the opportunity to design and build a project for Hinsdale South High School. A fee will be applied as needed depending on projects built.

Technology Center of DuPage

Mr. Edward Susmilch, TCD Principal

301 S. Swift Road, Addison, IL 60190
(630) 620-8770

Hinsdale High School District 86 has joined with seven other high school districts in DuPage County to establish a career vocational center called The Technology Center of DuPage (TCD). TCD is not a separate educational institution, trade school or college. Rather, TCD is a part of the high school curriculum just like Art or Foreign Language. The programs are considered elective subjects and some of them are transferable for college credits.

The mission of TCD is to provide an educational environment that supports and encourages individual learning styles, develops occupational skills and professionalism, promotes academic growth, and assists students in discovering their potential.

Eligible juniors and seniors who choose the TCD elective spend a part of each school day at both their "home" high school and at the TCD Career Center. Hinsdale South provides bus transportation to the Center (located in Addison) for the half day session at TCD. Class time at the Center and travel times takes four periods; therefore students may enroll for three classes at Hinsdale South. The 3.0 per year and 1.5 per semester credits earned at TCD are used to satisfy the 24.0 unit graduation requirement.

In addition to receiving credits at Hinsdale South, some programs at TCD contribute to long term career and college planning by offering college credits at local colleges or credentials towards state, federal and/or national licensing exams or by offering credentials towards apprenticeships. For more detailed and up-to-date information regarding this, please go to the TCD website (www.tcdupage.org/aboutus.html).

Technology Center of DuPage

The following are programs offered through TCD. For more detailed information about the program description and employers involved, please go to the TCD website (www.tcdupage.org/programs.html).

Building and Machining	Business	Communications
Construction Trades	Computer Information Systems	Graphic Communications
Manufacturing Technology	Data Entry Occupations	Multimedia & Television Production
Pre-Architectural & Pre-Engineering CAD	Office Systems Technology	
Health & Safety Services	Mechanical	Personal Services
Certified Nurse Assistant	Auto Body Repair & Refinishing	Culinary, Pastry Arts, & Hotel Management
Medical & Health Care Careers	Automotive Technology	Early Childhood Education & Care
Fire Science		Cosmetology
	Technical	
	Electronics & Computers Technology	
	Heating, Ventilation, Air Conditioning & Refrigeration	
	Network Technician	

STUDENTS ELECTING TO ENROLL IN ANY OF THE TCD PROGRAMS SHOULD USE COURSE CODE 09000 ON THEIR ENROLLMENT FORM.

Final eligibility for all TCD programs will be made by Hinsdale South High School. Eligibility criteria will include past history of attendance, discipline, and academic progress.

HINSDALE SOUTH GUIDANCE DEPARTMENT FOUR YEAR ACADEMIC PLAN

INSTRUCTIONS:

1. Please complete / update your 4 year plan of courses by filling in the blanks for each year.
2. Check your selections to make sure you will meet graduation requirements.
3. If college-bound, check to make sure that you are meeting minimum requirements for college entrance.
4. Bring this sheet with you to your counselor appointment along with your course selection sheet to finalize your course requests.
5. This plan will be retained by your counselor and used for future academic planning.
6. INDICATES FLEXIBILITY IN ACADEMIC SCHEDULING.

Hinsdale South High School

Dear Students, Parents and Guardians:

You will soon begin the process of selecting courses for the 2012-2013 school year. This *Program of Studies Handbook* provides you with an overview of the courses offered here at Hinsdale South High School. It also serves as a comprehensive guide to graduation requirements, the grading system and other information directly related to the academic experience. Please know that our Guidance and Counseling staff is also available to assist each student in the process of designing a comprehensive four-year program.

At Hinsdale South, student learning is our primary focus. As a part of this emphasis, we require that all students take a minimum course load of six credits. This allows them to be actively engaged in the learning process for most of their school day. Furthermore, we encourage students to select a course sequence that it is rigorous and relevant in a manner that will allow them to challenge their academic potential.

Please take the time to carefully review the *Program of Studies Handbook*. We invite parents and students to be our partners in providing the best possible education at Hinsdale South High School. Should you have any questions after reading the information provided in this book, please feel free to contact our Guidance Department at (630) 468-4251.

Sincerely,

Brian P. Waterman
Principal

Graduation Requirements

Each student must successfully complete the following course requirements in order to graduate from Hinsdale South High School. In addition, no student shall receive a diploma without passing a satisfactory examination on the federal and Illinois constitutions. Each student must also take the Prairie State Achievement Exam (PSAE) in order to receive a regular high school diploma unless the student is exempt under state law.

To graduate, a student must earn **a minimum of 24.0 credits** and successfully meet the listed requirements. A given course cannot be used to satisfy a requirement in more than one area, with the exception of the “intensive writing” requirement.

State law mandates all students to earn two credits in courses designated as “intensive writing” courses. In this case, two credits of the 24 minimum credits may be earned in classes taken to fulfill the “intensive writing” requirement. English I and English II fulfill this requirement.

Graduation Requirements	Credit
English	4.0
Mathematics <i>One of the three years of Mathematics must be an Algebra course and one course must include Geometry content.</i>	3.0
Science	2.0
Social Studies <i>World Studies, World Cultures or World Studies Honors (1.0) U.S. History, American Studies or AP U.S. History (1.0) Passing of the U.S. Constitution Test</i>	2.0
Elective Arts <i>A student can select from one of seven Elective Arts areas, including all courses in: Art, Business, Family & Consumer Sciences, World Languages, Music, Technology Education or TCD. A student may only declare one (1) credit per department/discipline to count towards this specific graduation requirement.</i>	2.0
Consumer Education <i>Personal Money Management Online Consumer Economics Introduction to Business Economics Exploring Family and Consumer Sciences AP Economics: Micro AP Economics: Macro</i>	0.5
Physical Education/Health <i>Health is a required course taken during sophomore year typically in tandem with one semester of Physical Education. Students have the option of enrolling in an additional semester of Physical Education during their sophomore year for an additional 0.5 credits.</i>	4.0
Prairie State Achievement Exam (PSAE) <i>This two-day exam is taken by all 11th grade students in April and is required for graduation.</i>

General Information

College Admission Requirements

Criteria for college admission differ greatly. The admission committees at various colleges and universities across the country consider, to varying degrees, the following:

- Type of high school courses taken when compared to the courses available in the high school
- Quality of the student's academic record
- Performance on college admission tests – SAT I & ACT
- Development and maturity of the individual in areas outside the academic classroom

Students and parents are advised that the Illinois Board of Higher Education has adopted these entrance requirements for the state's public universities and baccalaureate transfer programs at community colleges:

English	<p>Four (4) years</p> <p>Course work should emphasize reading, writing, speaking, and listening (written and oral communication skills). Particularly important is emphasis on sentence structure, paragraph structure, systematic organization, and diction--word choice that is appropriate, clear and effective. Analysis of literature might include characteristics such as point of view, theme, setting, character, and style to help the student become more sensitive and appreciative as a reader.</p>
Mathematics	<p>Three (3) years</p> <p>Traditional preparation for college mathematics is a year each of Algebra I, Geometry, and Advanced Algebra, with a fourth year of advanced mathematics for engineering, science, and many business majors. Many colleges require a minimum of Algebra and Geometry. Acceptable computer science courses may include the study of a structured programming language and use of computing as a means to solve problems.</p>
Science	<p>Three (3) years of a laboratory science</p> <p>Traditional preparation for college is a minimum of three years of core laboratory science courses. Core laboratory science courses include GeoPhysics, Physics, Chemistry, and Biology.</p>
Social Studies	<p>Three (3) years (emphasizing history and government)</p> <p>One year of United States History or a combination of United States History and American Government is required. Beyond history and government, acceptable social studies include World Studies, Economics, Geography, Political Science, Psychology, and Sociology.</p>
Other	<p>Two (2) years in world languages, music, or art.</p> <p>If world languages are chosen, a minimum of two years of the same language is recommended and in some cases required. Some universities consider sign language as a world language, but some do not. Check with the college/university to which you are applying to verify specific entrance requirements.</p>

These admissions requirements, totaling 15 units of high school core course work, are in effect for freshmen entering Illinois public universities and baccalaureate transfer programs at community colleges. Courses used to meet admission requirements are those that are part of the high school's college preparatory curriculum and emphasize classroom or laboratory experience.

Colleges and universities will also establish specific criteria for provisional admission to baccalaureate and baccalaureate transfer programs for applicants who do not meet minimum high school course requirements and any other institutional requirements for regular admission. Each college or university will provide a plan describing options for students with specific course deficiencies and a means by which a deficiency can be remediated.

General Information

Academic Load: Students must be enrolled in a minimum of six (6) courses per semester.

Adding/Dropping Courses:

Adding a Course: Students may add a course at the beginning of a semester if there is space available. Requests to add a course must be made no later than the first five full class periods of the semester. In order to add a course, a student must obtain signatures from the parent/guardian, the department chair if required, and the student's counselor.

Dropping a Course: Students may request to drop a course only if they are enrolled in the maximum number of courses (seven) per semester **and** only after they have attended and participated in the course for five full class periods. Approval to drop a course requires signatures from the parent/guardian, the appropriate department chair, and the student's counselor. It is understood that the student will have a conversation with the teacher prior to initiating this process. If a student elects to drop a course, the dropped course will be replaced with a study period. A grade of "F" will be reflected on the transcript of a student who chooses to drop a course after the fourth week of a semester. Students enrolled in year-long courses will not be allowed to drop at the end of first semester unless it is recommended by the department.

Advanced Placement Program: Advanced Placement (AP) courses are offered in seven departments: Art, English, World Languages, Mathematics, Music, Science and Social Studies. These courses adhere to the suggested College Board course descriptions and serve as the primary vehicle to prepare students for the AP examination in May. In addition to preparing students for the AP exam, AP courses allow students to experience the pace and intensity of a college-level course while still in high school. Although each college determines what AP examination grades it will accept for credit and/or Advanced Placement, the great majority of colleges require scores of 3 or better and award the student credit in the subject matter tested (see www.collegeboard.com/ap/creditpolicy). In some cases, no credit is given, but the student begins their program of study at an advanced level. Please consult the course descriptions for the list of Advanced Placement courses in each of the aforementioned departments.

Alternative Credit: Credits from non-traditional courses and programs including, but not limited to, e-learning, correspondence, distance/blend learning, or college courses may be counted toward graduation. Such courses must be from an accredited institution. The student assumes responsibility for all fees. Coursework taken by current District 86 students via these alternative paths (American School, Illinois Virtual School, etc..) will not appear on the District 86 transcript unless there has been prior approval in writing by the Director of Guidance. Such approved coursework will appear on the high school transcript as transfer credit indicating course name, grade and credit earned. The grade will be calculated into the grade-point average of the District 86 high school.

Articulated Credit and Dual Credit at the College of DuPage (C.O.D.): The College of DuPage awards articulated or dual credit when learning experiences at the secondary level of instruction duplicate those at the post-secondary level. These programs enable students to save time and avoid duplication of material already learned in high school. Articulated credits are only applicable to the College of DuPage while dual credits can be accepted at any college or university that accepts transfer credits. Students may request a transcript from C.O.D. with these course listed after the end of the semester. A list of courses for which students may earn articulated or dual credits will be available during registration.

Class Rank: District 86 does not maintain class rank.

Course Credit: Credit in full-year as well as semester courses is earned by semester. That is, students earn a .50 unit of credit for successful completion of each semester (.25 for Driver Education & Staff Aide). Credit is earned by successfully completing all course requirements as established by the teacher. Excessive absences may result in removal from class and/or a loss of credit.

General Information

Course Request Procedure: Each spring our school works to create a schedule of classes for the following academic year that best meets the needs of our students, while still staying within the parameters of staffing requirements (i.e. number of teachers, class size, teaching schedules, state and federal mandates). We work very hard to accommodate student requests; however, due to the complexity of the scheduling process, sometimes student schedules may need to be adjusted. Letters verifying a student's course selections are mailed home each year.

Please keep in mind that changes in course requests or class assignments will **not** be accepted for any of the following reasons:

- to accommodate a job schedule
- to change teachers
- to change lunches or classes to be with friends
- to have first or last period free
- to accommodate a change of mind

Acceptable reasons for schedule changes may include:

- computer input error
- scheduling conflicts
- failure or near failure in a second semester or year course
- failure to meet a pre-requisite for a course
- department chair or Director of Guidance recommendation
- successful completion of a summer school class

Credit Recovery: Students may be able to enroll in a section of Credit Recovery Lab (01671/01672) to recover lost credits in English, Mathematics, Science and Social Studies classes. Students should speak with the appropriate department chairperson and their school counselor if interested. Prior approval from the Director of Guidance is required. The recovered credit will not replace the original grade earned in the course. Recovered credits earn a new grade that is posted on student transcripts.

Early Bird Physical Education: Students may decide to earn their Physical Education credit by enrolling in Early Bird Physical Education which meets daily from 7:00 – 7:50 a.m. This opportunity is open to all seniors, juniors and sophomores and also to freshmen who are enrolled in instrumental or vocal music classes or who are dually enrolled in English 1/Academic Reading and Algebra 1 Block. All students that elect this option are required to attend their assigned study hall. This opportunity is only possible on a space available basis.

Early Graduation: Students may be able to utilize the early graduation option as prescribed by the State of Illinois, if they meet District 86 graduation requirements. This process will begin with the student's guidance counselor of record and a thorough review of transcript will take place. This recommendation will be submitted by the Director of Guidance to the building principal for approval.

Excel Program: Excel is an academic support program where students meet in a structured environment to receive tutorial assistance in core academic areas. As part of the Excel curricula, students learn executive functioning skills including organization, study skills, and time management. In this program, students are also shown how to study for classes and prepare for tests. As a result, students are required to use an assignment notebook. The Excel staff members consult with classroom teachers and parents to help improve each student's achievement in courses. A 0.5 credit is earned per semester for successful participation in this program. *The Excel Program is offered before school (Course #09100), during the school day (Course #09201/09202) and after school (Course #09400).*

Honors Program: Certain courses in Art, Business, English, FACS, World Languages, Mathematics, Music, Science, and Social Studies are designated as honors courses. These courses are designed to challenge students with superior academic ability and motivation. They provide accelerated course content and require a higher standard of achievement. Honors placement is made by the respective Department Chairperson based on past academic record, Explore test scores, subject area test scores, and teacher recommendation.

General Information

Honor Roll and Dean's List: Quarter grades earned in all courses, exclusive of Physical Education and Driver Education, are used to determine Dean's List and Honor Roll according to the grade point system noted below. Both weighted and unweighted GPAs are reflected on student transcripts.

Grade	Honors/Advanced Placement	General Ed/Spec.Ed/DHH
A	6.0	5.0
B	5.0	4.0
C	4.0	3.0
D	2.0	2.0
F	1.0	1.0
I	1.0	1.0

Dean's List and Honor Roll designation will be determined by the following criteria:

Dean's List: 4.5 grade point average with no grade below a "C"

Honor Roll: 4.0 grade point average with no grade below a "D"

Dean's List/Honor Roll is based on the quarter grade point average, no incomplete grades, and a minimum of four (4) credit-earning courses.

Independent Study: Independent Study options may be provided for motivated and mature students who have exhausted the course options of a particular course of study. Independent Study courses are initiated on a case-by-case basis through any faculty member and are subject to the approval of the department chairperson, the student's school counselor, and the Assistant Principal for Curriculum & Instruction.

Junior High/Middle School Students: Junior high schools that feed into D86 unable to offer advanced coursework for their students may send their students to D86 for those courses. In these cases, all courses, grades and credit earned will appear on the transcript but will not be calculated into the grade-point average earned in subsequent years at a high school in District 86. If the course is taken at a D86 school and the student attends the other D86 school, the course, grades, and credit earned will appear as transfer credit. If the course is taken at the D86 school the student attends, the course, grades, and credit earned will appear as regular credit.

Minimum Attendance Requirement: Section 18.8 of the School Code of Illinois requires that all students be in attendance for a minimum of 300 minutes per day, exclusive of lunch and passing time. Therefore, all students must be enrolled for at least six periods of either class or on-campus study hall.

Registration Requirements for New Students: Hinsdale South course recommendations are based upon evidence of normal progress and achievement in the student's previous school. Incoming freshmen are required to submit evidence of satisfactory completion of the 8th grade. Transcripts of credits earned and grade placement are required from the previous school for all students transferring from other secondary schools. Additionally, all students transferring from an Illinois public high school must obtain the ISBE student in good standing form from the previous school in order to register. Parents of transfer students must present a birth certificate for the student at the time of registration. All new transfer students and families who have moved since the previous school year must supply proof of in-district residency in order to register. One of the following documents is required for registration: a current real estate tax bill, mortgage papers, agreement of sale, or a signed lease agreement with student(s) listed as occupants. Two additional documents reflecting the current in-district address must also be presented to verify residency. The acceptable forms include but are not limited to the following: valid driver's license or state ID, voter registration card, library card, home or renter's insurance documentation, auto registration, gas, cable, or electric bill, or a public aid card. A student's grade-point average previously earned at a high school other than a high school in District 86 will be calculated with the grade-point average earned at a District 86 high school. Transfer courses, grades earned and grade-point average will appear on the District 86 high school transcript and will be indicated as transfer coursework. The record of a health examination and immunizations at the 9th grade level is required by law. Students will not be allowed to attend school if this state requirement is not met. In addition, all students participating in athletics must have a physical examination for each year in which they participate. Incoming freshmen must have a physical performed prior to the purchase of books during the month of August. *The preferred date of completion for the freshman physical is July 1.*

General Information

Repeating Courses: A course may be repeated only when a student has previously received a "D" or "F". All attempts will be recorded on a student's transcript and will be computed into the grade point average. Repeated courses will not count toward meeting graduation requirements unless a student has previously received an "F".

Staff Aides: Students may earn .25 credit per semester by serving as a staff aide. To pursue this option, students need to speak to a staff member and their school counselor and follow the "Adding/Dropping Courses" procedure outlined on Page 8.

Study Hall and "Hornet Honor" Seniors: All students enrolled in Study Hall are required to attend. The only exception is Seniors who have earned a place on the "*Hornet Honor*" list by consistently demonstrating the Hornet Habit principles of accountability, respect and engagement. "*Hornet Honor*" seniors have the option of requesting a 1st period "Late Arrival" or a 10th period "Early Dismissal" in lieu of Study Hall during the course request process. Only "Hornet Honor" seniors who have "Late Arrival" or "Early Dismissal" on their official schedules have earned this privilege of late arrival/early dismissal. "Hornet Honor" seniors who have "Late Arrival" are expected to arrive on time to their 2nd period class and those enrolled in "Early Dismissal" are expected to vacate the building at the conclusion of 9th period. Study Hall attendance is required for "*Hornet Honor*" seniors enrolled in Study Hall during periods 2 – 9. Study Hall attendance is required for every student with "Study Hall" on their official schedule regardless of what period the study hall is or what year the child is in school.

Art Department

Logan Obermeyer

The art curriculum strives to develop the student's interests and abilities as a consumer, hobbyist, or professional career artist. Though the majority of art courses are studio oriented and concentrate on the production of art, one of the primary aims of the art curriculum is to expand the student's ability to understand, enjoy and critique not only art of his/her own creation, but also the great art masterpieces of the past and present. Many visuals such as prints, Internet images, videos and actual work, as well as field trips and technology, are used to stimulate an appreciation of great art and to demonstrate art techniques and processes. **Students purchase a course specific fee card at the bookstore that helps defray the cost of art supplies.**

STUDIO ART
Course #05211
 Prereq: none
 Level: 9, 10, 11
 Credit: 0.5
 Supply fee: \$15

Students will be able to explore aspects of design, drawing, painting, mixed media, and sculpture in a one semester experience. Studio Art is the semester course in which introductory students can experiment with a variety of media. Sketchbooks assignments supplement class work. *It is highly recommended that students interested in Drawing or Painting start with either Studio Art or Art Foundations.*

DRAWING AND DESIGN
Course #05201
 Prereq: Studio Art* (for Grade 9 only)
 Level: 9*, 10, 11, 12
 Credit: 0.5
 Supply fee: \$36

Drawing and Design is a course for the dedicated student who has the ability or a keen interest in improving their ability in drawing. Basic drawing skills are refined and further developed through experiences with a variety of media such as pencil, charcoal, ink, technical pen, pastel and computer. Complex drawing and design problems in perspective, value, and composition as well as experiences in critiquing their own work and the work of masters help to reinforce the technical skills. *It is strongly recommended that students interested in Ideas in Art Honors begin with Drawing and Design as a foundation.*

ART FOUNDATIONS**Course #05100****ART FOUNDATIONS****w/honors option****Course #05110**

Prereq: none

Level: 9, 10, 11

Credit: 1.0

Supply fee: \$22

Course #05100: The yearlong Art Foundations course allows students the optimum time to develop and master the basic skills and techniques of drawing, color theory, painting, sculpture, ceramics, printmaking, calligraphy, and graphic design. Students are introduced to the art elements and principles of design, evaluation of projects, and digital imaging. Connections are made to art history, popular culture, and advertising within the units. Sketchbook assignments supplement class work. It is highly recommended that students interested in Drawing or Painting start with either Studio Art or Art Foundations.

Course #5110 w/honors option: The yearlong Art Foundations w/honors option course allows students the time to expand upon the skills and concepts within the Art Foundations course. Enhanced opportunities to go above and beyond the regular curriculum through the creation of their own portfolio and exhibition of artwork are required. Mastery of techniques and development of personal style, concept, and student voice are emphasized.

DRAWING AND DESIGN**Course #05201**

Prereq: Studio Art* (for Grade 9 only)

Level: 9*, 10, 11, 12

Credit: 0.5

Supply fee: \$36

Drawing and Design is a course for the dedicated student who has the ability or a keen interest in improving their ability in drawing. Basic drawing skills are refined and further developed through experiences with a variety of media such as pencil, charcoal, ink, technical pen, pastel and computer. Complex drawing and design problems in perspective, value, and composition as well as experiences in critiquing their own work and the work of masters help to reinforce the technical skills. *It is strongly recommended that students interested in Ideas in Art Honors begin with Drawing and Design as a foundation.*

IDEAS IN ART HONORS**Course #05441**

Prereq: Advanced level course and Dept. Chair approval

Level: 10, 11, 12

Credit: 0.5

Supply fee: \$30

Students will create a body of artwork based on a personal exploration of a central theme or idea. This body of work represents the results of rigorous research, planning, self-assessment, and problem solving. Each student is required to create a reference sketchbook that demonstrates multiple explorations of their chosen medias. The work produced in this course may be used as part of the Advanced Placement portfolio.

ART WORKSHOP**Course #05561**

Prereq: none

Level: 9, 10, 11, 12

Credit: 0.5

Supply fee: \$40

This class is designed to introduce students to an assortment of fine arts and craft media. Projects include glass fusing, slumping and mosaic, bookmaking and collage techniques and beading. It is intended for the serious hobbyist. Patience and thoughtful planning are required as students turn in detail design sketches for each project. Students will also learn to apply the elements and principles of design to each project.

JEWELRY**Course #05331**

Prereq: none

Level: 10, 11, 12

Credit: 0.5

Supply fee: \$55

This course introduces students to basic and complex beading and wire wrapping techniques used to create jewelry. Fine motor skills, manual dexterity, good vision and patience are needed to design and create a variety of beaded bracelets, chainmail bracelets, Viking knit bracelets/necklaces, crochet wire bead necklaces, earrings and unique pins. Students will learn vocabulary and be tested on their technical skills. Sterling silver will be available at cost for students who wish to create finer jewelry.

CERAMICS II**Course #05312**

Prereq: Ceramics I; Approval of Ceramics Instructor

Level: 10, 11, 12

Credit: 0.5

Supply fee: \$25

Building on techniques learned in Ceramics I, students are involved in more advanced hand-building projects and are able to create exciting work on the potter's wheel for the first time. Projects involving conceptual exploration are a foundation for the ceramic hobbyist or college bound student. A written report and presentation will be assigned.

Art Department

CERAMICS III

Course #05321

Prereq: Ceramics II; Approval of Ceramics Instructor

Level: 11, 12

Credit: 0.5

Supply fee: \$25

This course allows the serious ceramics-minded student to expand his/her ability to design and produce clay pieces of artistic merit and personal style. Students will develop and use their own glazes. An individual course of study is arranged between the instructor and student. Ceramics III, with teacher approval, may be taken for AP Studio Art credit (#05210).

DIGITAL IMAGING I

Course #05071

Prereq: Studio Art* (for grade 9 only)

Level: 9*, 10, 11, 12

Credit: 0.5

Supply fee: \$8

Digital Imaging offers students a creative approach to computer literacy. Participants will learn to work with numerous software programs currently being used by businesses and colleges including Photoshop, Illustrator, and Maya. Emphasis is placed on using the computer as the media to create fine art.

DIGITAL IMAGING II

Course #05072

Prereq: Digital Imaging I

Level: 10, 11, 12

Credit: 0.5

Supply fee: \$8

Creation of graphic images using advanced software features will be explored. Composition, color theory, rendering, and personal interpretation of subject matter will be stressed. Students will develop a portfolio of eight images as well as a website of their work.

GRAPHIC / WEB PAGE DESIGN

Course #05111

Prereq: Studio Art, Art Foundations or Digital Imaging I

Level: 10, 11, 12

Credit: 0.5

Supply fee: \$8

This course introduces students to the various career and free-lance opportunities available in the visual communications field. Emphasis is placed on the development of an idea from thumbnail sketch to finished computer-generated image. Acquisition of basic commercial skills will be stressed in activities such as logo design, business cards, brochure design, point of purchase design, and advertising layouts. This course culminates in the layout, production, and animation of a personal website that will serve as a portfolio and gallery of original student designs and concepts. Presentation and critique skills will be incorporated into every project. Software such as Photoshop, Dreamweaver, and Flash will be utilized in the class.

PHOTOGRAPHY I

Course #05001

Prereq: none

Level: 9, 10, 11, 12

Credit: 0.5

This course provides the theoretical background and opportunities for skill development necessary to: (1) operate a variety of film cameras; (2) develop and print black and white film; (3) take well-composed and meaningful pictures; (4) organize their mounted photos into a portfolio. Specifics include: proper use and selection of film and lighting, composition, scenery and action shots, the camera as a communications tool, and various darkroom techniques. *Students are required to have their own camera that uses 35mm film as well as purchase all other supplies (film, negative sleeves and photo paper) from the bookstore.*

PHOTOGRAPHY II

Course #05012

Prereq: Photography I

Level: 10, 11, 12

Credit: 0.5

This course introduces additional photographic techniques. Darkroom experimentations with high contrast film, solarizations and image distortions are introduced. Students will be able to work with some alternative processes as well as digital images. Assignments are geared both toward specific photographic careers in photo journalism, advertising, photography, and portrait photography, as well as, fine art photography. Students organize their various images into a photographic portfolio. Students are required to have their own camera that uses 35mm film as well as purchase all other supplies (film, negative sleeves and photo paper) from the bookstore.

Art Department

PHOTOGRAPHY III**Course #05422**

Prereq: Photography II

Level: 10, 11, 12

Credit: 0.5

This course allows the serious photography-minded student to expand his/her knowledge and ability to create artistic photographs with her/her own personal style. An individual course of study will be arranged between student and teacher at the beginning of the semester. Students must supply their own camera and supplies for this class. Photography III, with teacher approval, may be taken for AP Studio Art credit (#05210).

PAINTING**Course #05400**

Prereq: none

Level: 10, 11, 12

Credit: 1.0

Supply fee: \$40

In this studio class students learn how to use a variety of media and techniques including acrylics and watercolor. Students produce paintings on paper and student stretched canvasses. Students execute six to eight paintings during the school year and possibly a group mural. The history of painting through the ages is introduced and explored through internet searches and PowerPoint presentations.

SCULPTURE**Course #05171**

Prereq: none

Level: 9, 10, 11, 12

Credit: 0.5

Supply fee: \$25

In this studio course, students explore three-dimensional design and low-relief work through additive, subtractive, and mold-making techniques. Students work in a variety of media that may include wood, plaster, clay, stone, fiber, wax and mixed media. By viewing films and slides students learn the development of sculpture through the ages. A written report on a sculptor and his work is assigned.

ANIMATION AND CARTOONING**Course #05591**

Prereq: none

Level: 10, 11, 12

Credit: 0.5

Supply fee: \$20

This course introduces the student to the art and history of cartooning and animation. Students learn caricature cartooning as well as developing their own cartoon character and comic strips. Techniques of animation are taught and enable students to produce their own animated film shorts. Students will also have hands-on experience using a color video animation system and Maya software.

ADVANCED PLACEMENT**ART HISTORY****Course #05580**

Prereq: Dept. Chair approval

Level: 10,11,12

Credit: 1.0

This course provides a survey of the history of western and non-western art from pre-historic times to the present and teaches methods of interpreting and analyzing works of art. Students with good writing skills and an interest in art and its place in our world can do well in the course. Hands on projects, focusing on process rather than product, cooperative group assignments and Internet searches are correlated with the period under study. Field trips to Chicago area museums and important architectural structures enhance classroom learning and help familiarize the students with the cultural offerings of the city.

ART PORTFOLIO**Course #05570**

Prereq: Drawing and Design or Painting, and Dept. Chair approval (or comprehensive portfolio review by the Art Department)

Level: 12

Credit: 1.0

Supply fee: \$40

This course is for students who plan to major in art in college or art school, or who simply desire the rigorous challenge of senior studio art work. Students complete a portfolio which includes fourteen to sixteen pieces of art work - drawings, paintings, prints, graphics, and three-dimensional work. A culminating series project will also be assigned demonstrating the students' artistic statement. Students will have experiences in art criticism, and will organize a group show in the Hinsdale South Art Gallery.

ADVANCED PLACEMENT**STUDIO ART****Course #05210**

Prereq: Drawing and Design or Painting, and Dept. Chair approval (or comprehensive portfolio review by the Art Department)

Level: 11, 12

Credit: 1.0

Supply fee: \$40

This course provides accelerated students with a challenging program of college-level studio work. Prior to the end of the academic year, a portfolio of approximately 24 pieces will be submitted to the College Board for evaluation and possible college credit. The advanced placement program requires more time and commitment than typical high school art courses. Therefore, the student enrolling in the course should be highly motivated, serious, self-directed and willing to work. *This course may be repeated as Course #05220.*

Business Department

Department Chairperson

Dr. Gary Hutchinson

Business courses are designed to prepare students for college, careers and employment in the computer, financial, legal, management and marketing fields. Our department shares the fundamental responsibilities of public education and strives to provide our students a safe, caring, up-to-date environment while helping ensure that all students attain appropriate levels of achievement in areas vital to their continuing development. We feel that it is our responsibility to plan, implement, and update enthusiastic programs. Students can then attain a satisfactory level of achievement appropriate to either immediate employment or advanced education in preparation for career opportunities. Opportunities are abundant for students in the business world if their preparation is complete and their attitudes are positive. The Business teachers of Hinsdale South High School identify those opportunities for our students and help them in attaining high personal goals for the future.

See course description for detailed prerequisites.

INFORMATION PROCESSING

COMPUTER KEYBOARDING

Course # 06121

Prereq: None

Level: 9, 10, 11, 12

Credit: 0.5

Computer Keyboarding is designed for the student who wants to acquire skills necessary to enhance the value of the computer for academic and personal use. In Computer Keyboarding the student learns, develops, and refines correct fingering techniques to develop speed and accuracy. The student also learns basic word processing functions using Microsoft Word. Formats and features presented include letters, outlines, reports, columns, tables, resumes, and graphics. ***If a student's schedule can be arranged to accommodate a full year course, it is recommended that the student enroll in Word Processing.***

Suggested follow-up course: Computer Business Applications, Internet & Web Page Applications, and/or Multimedia Applications.

WORD PROCESSING

Course # 06200

Prereq: None

Level: 9, 10, 11, 12

Credit: 1.0

Word Processing uses Microsoft Word to develop proficiency in keyboarding and word processing skills for academic, personal, and employment use. The student learns and develops keyboarding skills and techniques intended to build skill and accuracy. Using Microsoft Word, the student formats personal and business letters, envelopes, memorandums, outlines, tables, and multi-page reports. Students also develop an in-depth knowledge of more advanced features such as document merge, macros, sorting, templates, styles, graphics, and desktop publishing. Also included are Internet, Excel and PowerPoint units.

Suggested follow-up course: Computer Business Applications, Internet & Web Page Applications, and/or Multimedia Applications.

COMPUTER BUSINESS APPLICATIONS

Course # 06162

Prereq: None

Level: 9, 10, 11, 12

Credit: 0.5

Students will develop their knowledge of spreadsheet and database applications. This is a hands-on course in which students will complete an in-depth study of Microsoft Excel and Access. In addition, students will become proficient in the use of the computer and peripherals such as the digital camera and scanner, integrating these tools to enhance Excel and Access applications. This class is recommended for all students who need these skills for their academic classes.

Though there is no prerequisite, successful completion of Computer Keyboarding or Word Processing or concurrent enrollment in either, is highly recommended. Proper keyboarding technique and speed, along with basic document development, formatting, and proofreading are expected.

Business Department

INTERNET & WEB PAGE APPLICATIONS

Course # 06172

Prereq: None
Level: 9, 10, 11, 12
Credit: 0.5

Students will focus upon the creation of an effective informational web page and proper use of the Internet. Microsoft Expression, along with Internet Explorer and other software, will assist students in a hands-on practical approach. Students will also become proficient in the integrated use of digital cameras, scanners, and Internet search engines as they apply to Internet and web page applications. ***Though there is no prerequisite, successful completion of Computer Keyboarding or Word Processing or concurrent enrollment in either, is highly recommended. Proper keyboarding technique and speed, along with basic document development, formatting, and proofreading are expected.***

MULTIMEDIA APPLICATIONS

Course # 06182

Prereq: None
Level: 9, 10, 11, 12
Credit: 0.5

Students will develop a working knowledge of desktop publishing and presentation software applications. An in-depth study of Microsoft PowerPoint, Publisher, Movie Maker, and related software will be completed. In addition, students will become proficient in the use of the computer and peripherals such as the digital camera, digital video camera, and scanner in integrating PowerPoint and Publisher applications. ***Though there is no prerequisite, successful completion of Computer Keyboarding or Word Processing or concurrent enrollment in either, is highly recommended. Proper keyboarding technique and speed, along with basic document development, formatting, and proofreading are expected.***

APPLIED BUSINESS

INTRODUCTION TO BUSINESS

Course # 06100

Prereq: None
Level: 9, 10
Credit: 1.0

This course gives students a background in the basic operations of business and develops an understanding of the economic role of business in our society. Topics covered include types of business organization, marketing, advertising, accounting, human resources, management decision making, investing, finance, international business, and economics. Skill is developed through a wide variety of activities including computer research, projects, and classroom activities. This course is recommended for students who wish to further study business (Business Management, Accounting, Marketing, and Law) at Hinsdale South. ***Students who pass both semesters will fulfill the state mandate for Consumer Education.***

This course is recommended for students who wish to further study business (Business Management, Accounting, Marketing, and Law) at Hinsdale South.

Students will be able to enroll in Personal Money Management either in the traditional 'face-to-face,' five-day-per-week 50 minute class (#06151), or in an 'online' version (#06131). The objectives and the examinations of these two courses will be the same. The content of the two versions of the course will be very similar.

PERSONAL MONEY MANAGEMENT

Course # 06111

Prereq: None
Level: 10, 11, 12
Credit: 0.5

Personal Money Management will integrate economic concepts with the student's important role in the economy as a citizen, consumer, and worker. Topics include: money management, buying goods and services, banking (savings and checking), investments, the efficient use of credit and loans, consumer protection, insurance, housing, and our tax system. ***A student cannot receive credit for both this course and Online Consumer Economics (06131). This course fulfills the state mandate for Consumer Education.***

Business Department

ONLINE CONSUMER ECONOMICS

Course #06131

Prereq: Dept. Chair approval

Level: 10, 11, 12

Credit: 0.5

Students who enroll in Online Consumer Economics will complete all of their class work through a website supervised by a certified District 86 teacher. Communication between student and teacher will primarily be through the website and by email. Students who enroll in this course will be required to attend an orientation session, to meet progress markers along the way, and to complete the course during the semester in which they are enrolled. **A student cannot earn credit for both this course and Personal Money Management (06111).**

This course fulfills the state mandate for consumer education.

BUSINESS LAW I

Course # 06231

BUSINESS LAW 1

w/honors option

Course #06221

Prereq: None

Level: 11, 12

Credit: 0.5

Course #06231: Students will gain an appreciation of our legal system as it relates to their personal lives, business practices, and office procedures. Topics include: our legal system (courts, criminal and civil law) contracts, personal, and consumer law. A field trip to a local court and participation in mock trials as lawyers, witnesses, and/or jurors help students gain an understanding and an appreciation of how the American legal system functions.

Course #06221 w/honors option: Business Law I w/honors option is recommended for the highly motivated student, especially those interested in pursuing a degree in Business or Law. Students electing the honors option will be required to complete a more rigorous and in depth curriculum for each unit. Students electing the honors credit option will work with the same topical material as the Business Law class. However the topics will be looked at on a different level by all honors students. All unit materials in this course will have the following emphasis: (1) Writing intensive, (2) Research based, (3) Higher complexity of analysis and reasoning, and (4) Professional level presentation of work.

BUSINESS LAW II

Course # 06242

Prereq: Business Law I

Level: 11, 12

Credit: 0.5

Students will investigate our legal system as it relates to their personal lives, business practices, and office procedures. Topics include: The Supreme Court System, property law, sales law, money law and business/employment law. A field trip to a local court and participation in mock trials as lawyers, witnesses, or jurors help students gain an understanding and an appreciation of how the American legal system functions. Students will also participate in The National On-line Youth Summit sponsored by the American Bar Association.

MANAGEMENT, MARKETING & FINANCE

ACCOUNTING

Course # 06320

Prereq: None

Level: 11, 12

Credit: 1.0

This course covers the principles and procedures of accounting. Both manual and computerized double-entry systems are taught. Practice sets and exercises are used during supervised laboratory sessions to develop skills in practical applications. Through the use of microcomputers, students also gain familiarity with computerized accounting procedures. The objectives of this course include preparing students for initial accounting jobs in business and providing a technical background for college-bound students who plan to enter certain fields of business.

ACCOUNTING HONORS

Course # 06350

Prereq: Department

Chairperson approval

Level: 11, 12

Credit: 1.0

In this course, students develop an understanding of double-entry accounting. Topics covered include the following: accounting cycle, banking activities, special journals, payroll, accounting systems and design, internal controls, financial statement analysis, and deferrals and accruals. Students also utilize computer software for problem solving and learn spreadsheet applications.

Business Department

**BUSINESS
MANAGEMENT AND
ENTREPRENEURIAL
STUDIES**

Course # 06421

**BUSINESS
MANAGEMENT AND
ENTREPRENEURIAL
STUDIES w/honors option**

Course # 06431

Prereq: None

Level: 11, 12

Credit: 0.5

Course #06421: Business Management and Entrepreneurial Studies is designed for students with above-average grades who are planning to major in business in college or are interested in starting or managing their own business. This course is an introduction to current practices in the world of business. Units of instruction include economic trends, entrepreneurship, business organization, human relations, ethics, management, marketing, finance, and international business.

Course #06431 w/honors option: Business Management and Entrepreneurial Studies w/honors option is designed for students with above-average grades who are planning to major in business in college or are interested in starting or managing their own business. Students will prepare themselves for the challenges of the business world and becoming an entrepreneur/manager by relating current practices in the world of business to: economic trends, business organization, human relations, ethics, management, marketing, finance, and international business.

MARKETING

Course # 06470/#06480

Prereq: None

Level: 11, 12

Credit: 1.0

Supply fee: \$25

**MARKETING
w/honors option**

Course # 06460

Prereq: Teacher approval

Level: 11, 12

Credit: 1.0

Supply fee: \$25

Marketing is designed to prepare students for the challenges and opportunities in the field of marketing. Topics covered include current trends in marketing, consumer behavior, sales, advertising, entrepreneurship, human relations and sports marketing.

Course # 06470: Students not enrolled in Business Work Experiences (Course #06490) should select Course #06470. Marketing 06470 is beneficial for those planning to enroll in related business/marketing programs in college.

Course # 06480: Students enrolling in Business Work Experiences (Course #06490) need to be concurrently enrolled in Marketing #06480. This course is designed for students working part-time in related jobs and also for students planning to enroll in related programs in college.

Course #06460 w/honors option: This honors option course advances a student's study into the field of marketing is beneficial for those planning to enroll in related business/marketing programs in college. Students will be prepared for the challenges and opportunities in the field of marketing with in-depth study of current trends in marketing, consumer behavior, sales, advertising, entrepreneurship, human relations and sports marketing.

In addition, all Marketing students participate in the activities of BPA, an organization for business students. Though there is no prerequisite for Marketing, successful completion of or concurrent enrollment in another Business course is encouraged.

EMPLOYMENT EXPERIENCE

BUSINESS WORK EXPERIENCES

Course # 06490

Prereq: Marketing or concurrent enrollment in Marketing and coordinator approval

Level: 11, 12

Credit: 1.0

Business Work Experiences provides the student with actual paid business experience related to their career goals. Students are employed in local businesses from a minimum of 15 hours to a maximum of 25 hours per week for which they receive monetary compensation. A wide variety of experience is available in fields such as apparel and accessories, automotive, food distribution, food service, hotel and tourism, general merchandise retailing, and various office related careers, including banking, accounting, and administrative assistant positions. This work experience program prepares students for further study or a career in marketing, retailing, management, finance, accounting, or administrative office positions. Students are selected by application and interview with emphasis on factors including reliability, integrity, and career goal. ***It is the student's responsibility to make travel arrangements to and from the job. Students must maintain enrollment and earn a passing grade in Marketing to receive credit for this work experience program.***

INTERNSHIP

Course # 06461

Prereq: Dept. Chairperson or coordinator approval

Level: 11, 12

Credit: 0.25 per semester
(this class may be repeated for up to 1 credit)

Internship is an elective semester program for the highly motivated junior or senior. The program provides students with opportunities in the local community for hands-on career exploration in their chosen field. Acceptance into the program is determined by factors such as faculty letters of recommendation, availability of a community sponsor, and interviews with the coordinator and the community sponsor. Students are required to keep a journal of their experiences and complete a summary report. During the internship, students observe daily operations, confer with other personnel, and participate and contribute to the functions of the organization for at least 50% of the hours spent in the internship experience. Student performance in the Internship program is evaluated on a pass-fail basis. ***The internship is conducted exclusively outside of the school day with no pay for a minimum of 50 hours during the semester. Students must make the travel arrangements necessary to fulfill their internship responsibilities.***

Deaf and Hard of Hearing

Department Chairperson Ms. Patricia Even

The Deaf and Hard of Hearing Department provides educational and support services for Deaf and Hard of Hearing students in the DuPage West Cook Regional Program. These supportive services include: interpreters, program assistants, tutorial, Social Work services, Speech and Language services, behavior supports, Guidance Counselors specifically for the Deaf and Hard of Hearing, Vocational Support Team, and self-contained classes taught by teachers of the Deaf and Hard of Hearing.

See course description for detailed prerequisites

VISION STATEMENT

Strengthening the Deaf Community through Excellence in Education

MISSION STATEMENT

We will provide opportunities to improve learning and communication skills that will enable each student to be responsible and independent to their maximum potential, as well as provide opportunities to support each other in their continuous growth that leads them into their future.

DHH PROGRAM GOALS

- Teach the value of education as it relates to the future
- Encourage independence, responsibility and self-advocacy
- Support collaboration, respect and collegiality

Deaf and Hard of Hearing

AMERICAN SIGN LANGUAGE

AMERICAN SIGN LANGUAGE I

Course # 08070

Prereq: none

Level: 9, 10, 11, 12

Credit: 1.0

This course is designed to develop the student's expressive and receptive signing skills and understanding of basic grammatical structures of American Sign Language. Topics related to deafness and deaf culture will also be explored. This is a class for students who are interested in learning the language of signs.

This class is open to all students.

AMERICAN SIGN LANGUAGE II

Course # 08080

Prereq: "C" or better in American Sign Language I

Level: 9, 10, 11, 12

Credit: 1.0

In American Sign Language II, students will continue to develop receptive and expressive signing skill, study grammatical structures of ASL, and learn more about the history and culture of deaf people. There will be increased opportunities for interaction with deaf students.

This class is open to all students.

ENGLISH COURSES

ENGLISH I

Course # 08110

Prereq: none

Level: 9

Credit: 1.0

English I teaches language skills in a program that integrates metacognitive literary analysis, problem solving strategies, cooperative learning, and multimedia presentations. Students will read and analyze a wide range of expository and narrative reading materials at their instructional level. General areas of focus include; myths, poetry, short stories, novels, and various works of non-fiction.

ENGLISH II

Course # 08120

Prereq: English I

Level: 10

Credit: 1.0

English II continues with the goals from English I in emphasizing metacognition as well as print and vocabulary skills. Students continue to develop strategic reading and writing skills while studying works from various genre.

ENGLISH III

Course # 08130

Prereq: English II

Level: 11

Credit: 1.0

The focus on language development continues in English III. Students continue to apply reading strategies to improve understanding and fluency. General areas of study include: short stories, novels, biographies, Deaf studies, and various works of non-fiction.

ENGLISH IV

Course # 08140

Prereq: English III

Level: 12

Credit: 1.0

English IV includes extensive literacy development. Decision making and cross cultural issues are examined within the course as various works are studied. The skill of accessing, organizing, writing, and editing information is stressed.

ENGLISH I-G

Course # 08150

Prereq: none

Level: 9

Credit: 1.0

English-G seeks to develop basic skills and stimulate growth in expressive and receptive language. Reading, writing, vocabulary, and social skills are developed through the use of units of study utilizing language for practical-life needs. Grammar and syntax are continually developed throughout the year. Functional living skills are the focus.

Deaf and Hard of Hearing

ENGLISH II-G

Course # 08160

Prereq: English I - G

Level: 10

Credit: 1.0

English II-G seeks to develop basic skills and stimulate growth in expressive and receptive language. Reading, writing, vocabulary, and social skills are developed through the use of units of study utilizing language for practical-life needs. Grammar and syntax are continually developed throughout the year. Functional living skills are the focus.

ENGLISH III-G

Course # 08170

Prereq: English II - G

Level: 11

Credit: 1.0

English III-G seeks to develop basic skills and stimulate growth in expressive and receptive language. Reading, writing, vocabulary, and social skills are developed through the use of units of study utilizing language for practical-life needs. Grammar and syntax are continually developed throughout the year. Functional living skills are the focus.

ENGLISH IV-G

Course # 08180

Prereq: English III - G

Level: 12

Credit: 1.0

English IV-G seeks to develop basic skills and stimulate growth in expressive and receptive language. Reading, writing, vocabulary, and social skills are developed through the use of units of study utilizing language for practical-life needs. Grammar and syntax are continually developed throughout the year. Functional living skills are the focus.

READING IMPROVEMENT I

Course # 08051

Prereq: none

Level: 10, 11, 12

Credit: 0.5

The purpose of this course is to improve reading skills as well as promoting an interest in reading. Units of study include organizational skills, reading strategies, study skills, and vocabulary expansion. **(This course does not fulfill NCAA initial eligibility requirements for college athletics.)**

READING IMPROVEMENT II

Course # 08061

Prereq: Reading Improvement I

Level: 10, 11, 12

Credit: 0.5

Skills that were learned in Reading Improvement I are reinforced while additional skills are introduced. These include distinguishing between fact and opinion, developing problem-solving skills, using context clues, drawing conclusions and making inferences. Use of resources and vocabulary development are also presented in this class. **(This course does not fulfill NCAA initial eligibility requirements for college athletics.)**

WRITING IMPROVEMENT I

Course # 08031

Prereq: none

Level: 10, 11, 12

Credit: 0.5

The purpose of this course is to improve writing skills as well as promoting an interest in writing. Units of study include grammar, organizational skills, writing conventions, writing for a purpose, and vocabulary expansion.

WRITING IMPROVEMENT II

Course # 08041

Prereq: none

Level: 10, 11, 12

Credit: 0.5

This course will focus on further development of the written English skills of the students in areas including grammar, expository writing, and everyday applications of written language. Particular topics chosen will depend on individual student needs.

Deaf and Hard of Hearing

SOCIAL STUDIES COURSES

WORLD STUDIES

Course # 08240

Prereq: none

Level: 9

Credit: 1.0

World Studies is a survey course of the earth, its characteristics, its people and their cultures. It includes individual map and globe building skills and small discussion groups, focusing on learning and understanding the effect of geography on the lives of the earth's people. Related student projects and visual aids will predominate throughout the course.

WORLD STUDIES-G

Course # 08250

Prereq: none

Level: 9,10

Credit: 1.0

This course is a modification of World Studies 08240. Students will follow the curriculum with a more local focus. **(This course does not fulfill NCAA initial eligibility requirements for college athletics.)**

U. S. HISTORY

Course # 08230

Prereq: none

Level: 11

Credit: 1.0

This course is a study of United States history including the United States government and both U. S. and Illinois Constitutions. Students must pass the U. S. and Illinois Constitution tests in order to graduate. Major historical eras are studied. The relationship between the United States and other nations is analyzed. Current events are also covered during this course.

U. S. HISTORY – G

Course # 08220

Prereq: none

Level: 11

Credit: 1.0

US History-G is a survey course designed for student to develop a basic knowledge of the concepts necessary to make positive contributions as a citizen of the USA. **(This course does not fulfill NCAA initial eligibility requirements for college athletics.)**

MATH COURSES

MATH I-G

Course # 08310

Prereq: none

Level: 9

Credit: 1.0

This course deals with the development of computation and basic math application skills: addition, subtraction, multiplication and division. The student is taught problem solving techniques, and how to apply math skills to everyday situations. Individual students may also be introduced to fractions, decimals, calculator and the computer.

MATH II-G

Course # 08320

Prereq: Math I-G

Level: 10

Credit: 1.0

This course is a continuation of Math I-G. Skill development will focus on practical math skills, problem solving and use of resources for assistance. Basic algebra and geometry concepts and skills will be introduced as they relate to daily living.

CAREER MATHEMATICS

Course # 08350

Prereq: Math I-G or Math II-G

Level: 11, 12

Credit: 1.0

Career Mathematics is a course that continues to emphasize basic math skills as they relate to daily living. Computer concepts will be reinforced and students will have hands-on experience throughout the year. **(This course does not fulfill NCAA initial eligibility requirements for college athletics.)**

Deaf and Hard of Hearing

ALGEBRA I, PART I

Course # 08330

Prereq: Recommendations of 8th grade teacher and/or high school math teacher

Level: 9, 10, 11

Credit: 1.0

This course is designed for the average student who has successfully developed arithmetic skills in addition, subtraction, multiplication, and division with whole numbers, decimals, and fractions. The class covers working with positive and negative numbers, variables, beginning algebraic expressions, and monomials and polynomials. Computer concepts will be reinforced and students will have hands-on experience throughout the year. Lecture, application, and daily assignments are the main teaching methods. Upon completion of this course, the student should be ready to enter Algebra I, Part 2 (08340). A text is required.

ALGEBRA I, PART 2

Course # 08340

Prereq: Algebra I, Part I

Level: 10, 11, 12

Credit: 1.0

This course is the continuation of Algebra I, Part I. The course further develops the following skills: polynomials, graphing, quadratic equations, open sentences and the real number system. Instruction includes discussion and daily assignments. Computer concepts will be reinforced and students will have hands-on experience throughout the year. Geometry concepts will also be introduced.

SCIENCE COURSES

SCIENCE EXPLORATION I

Course # 08450

Prereq: none

Level: 9, 10

Credit: 1.0

This science course is especially designed for the student who does not have a strong background or vocabulary base in science or scientific concepts. Topics include: introduction to the science laboratory, the scientific method, charts and graphs, measurement and the study of ecosystems, human body systems, and varieties of animals. Class activities are geared toward concrete, active learning situations that are highly visual and can be taught in a hierarchical manner.

SCIENCE EXPLORATION II

Course # 08460

Prereq: none

Level: 9, 10

Credit: 1.0

This science course is especially designed for the student who does not have a strong background in science and scientific concepts and have basic academic skills. Topics include: Introduction to the science laboratory, the scientific method, charts and graphs, measurement and applied physical science, such as the study of energy, electricity and electronics, and space science. Class activities are geared toward concrete, active learning situations that are highly visual and can be taught in a hierarchical manner.

INTRODUCTION TO EARTH SCIENCE

Course # 08410

Prereq: none

Level: 9, 10

Credit: 1.0

This course covers the science of the non-living environment. Topics include introduction to the science laboratory, basic geology, weather and its effect on the environment.

INTRODUCTION TO BIOLOGY

Course # 08430

Prereq: none

Level: 9, 10

Credit: 1.0

Biology is offered for the student who has some previous experience in science and whose language skills are average or better. It is a study of living things (plants and animals) and how they relate to the environment. Covered in this course are topics such as ecology, evolution, genetics, and the plant and animal kingdoms. Students are expected to write lab reports, do library research and read outside materials.

Deaf and Hard of Hearing

HEALTH COURSES

HEALTH EDUCATION

Course # 08481

Prereq: none

Level: 10

Credit: 0.5

Health, a state-mandated course, is required of all sophomore students. The course covers a number of specific topics including: the positive effects of exercise and the ill-effects of drugs; alcohol and tobacco; first aid; human birth, growth and development; reproductive systems; and sexually transmitted diseases.

HEALTH-G

Course # 08491

Prereq: none

Level: 10

Credit: 0.5

This course is a modification of Health 08481. This course addresses the practical applications of health related topics listed above for course 08481. **(This course does not fulfill NCAA initial eligibility requirements for college athletics.)**

BUSINESS COURSES

CONSUMER EDUCATION

Course # 08631

Prereq: none

Level: 11,12

Credit: 0.5

This course fulfills the Consumer Education requirement for graduation. The goal of this course is to help each student develop the vocabulary and understanding needed to handle personal finances and be a wise consumer of goods and services. Topics of study include: capitalism, socialism, income, expenses, assets, investments, liabilities, budgeting, managing cash flow, banking, insurance, income taxes, and purchasing a vehicle or home. Students are also exposed to services related to their hearing loss, such as community support agencies, how to obtain the services of a sign language interpreter, and their rights under the Americans with Disabilities Act (ADA).

CONSUMER EDUCATION-G

Course # 08621

Prereq: none

Level: 11,12

Credit: 0.5

This course fulfills the Consumer Education requirement for graduation. The goal of this course is to help each student develop the vocabulary and understanding needed to handle personal finances and be a wise consumer of goods and services. Topics of study include: earning, spending and saving money, borrowing money and the dangers of consumer credit, creating a budget and managing cash flow, banking, insurance, income taxes, and the purchasing a vehicle or home. Students are also exposed to services related to their hearing loss, such as community support agencies, how to obtain the services of a sign language interpreter, and their rights under the Americans with Disabilities Act (ADA).

KEYBOARDING

Course # 08811

Prereq: none

Level: 9, 10, 11, 12

Credit: 0.5

The content is similar to Computer Keyboarding (BUS 6121). This course is designed to develop and refine correct finger placement techniques to develop speed and accuracy. The student also is introduced to basic word processing functions using Microsoft Word. Formats and features include letters, outlines, reports, columns, tables, resumés, and graphics.

COMPUTER APPLICATIONS

Course # 08831

Prereq: Keyboarding

Level: 10, 11, 12

Credit: 0.5

This course will focus on developing basic computer application skills, spreadsheets, and proper use of the internet. Students will work with Microsoft Word, Excel, and Windows to develop the computer skills necessary for basic computer use.

Deaf and Hard of Hearing

OFFICE SYSTEMS

Course #08851

Prereq: Keyboarding

Level: 11, 12

Credit: 0.5

This course is designed for the student entering the work force and the student going to college. Since most jobs require basic knowledge of technology, the course will prepare the student for universal, technology-based environments. Machines such as copy/printers, scanners, faxes, handhelds, digital cameras and laptops will be introduced.

FAMILY & CONSUMER SCIENCES COURSES

INTRODUCTION TO COOKING

Course # 08771

Prereq: none

Level: 9, 10, 11, 12

Credit: 0.5

This course teaches nutrition, meal planning, purchasing food and basic food preparation. Lab work provides experiences in food preparation and consumption.

ADULT & FAMILY RELATIONSHIPS

Course # 08791

Prereq: none

Level: 11, 12

Credit: 0.5

This course is designed to help students prepare for responsible decisions as they begin their adult lives. It addresses the roles and responsibilities of adults in our society, problem-solving strategies as they apply to family relationships, marriage, parenting, and interaction with peers and other adults.

ART COURSES

ART FOUNDATIONS I & II

Course # 08841, #08842

Prereq: none

Level: 9, 10, 11, 12

Credit: 0.5 each

This course is for DHH students interested in art. Art Foundations or Studio Art are highly recommended for all art courses at the sophomore, junior, and senior level. Students learn basic skills and techniques of drawing, painting, sculpture, printmaking, ceramics and calligraphy. Art appreciation is included through films, slides, the internet and field trips. Sketchbook assignments supplement class work.

DRIVER EDUCATION

DRIVER EDUCATION

Course # 08611/08612

Prereq: Sophomore, Junior, or Senior class standing

Level: 10, 11, 12

Credit: .25 Credit (1 Semester)

Successful completion of the course is required to obtain a state driver's license prior to the age of 18 years. Driver Education is a multiphase course consisting of 30 classroom hours, up to 6 hours of simulator training, and a minimum of 6 hours of in-car training.

Students must be 15 years of age on or before the class begins.

In addition, Public Act 88-188 requires that a student must have passed at least eight (8) courses in the previous two semesters in order to be eligible to take Driver Education. In other words, if a student fails too many classes, he or she will not be eligible to take Driver Education and will be withdrawn from the class.

Deaf and Hard of Hearing

TRANSITION COURSES

COMMUNITY BASED PROGRAM

Course # 08910

Prereq: none

Level: 9, 10, 11, 12

Credit: Variable

Instruction for Community Based students focuses on the acquisition of skills necessary to function as independently as possible in the community, in the use of communication skills, in the use of leisure time, in the domestic domain, and vocationally. Instruction takes place as much as possible in community environments. *Credit for community based students will be awarded based on the achievement of IEP and transition goals after a conference between the teacher, guidance counselor, and department chair.*

COMMUNITY BASED PRACTICAL ARTS

Course # 08920

Prereq: none

Level: 12

Credit: Variable

Students will develop skills in practical arts, which will allow them to function more independently in the domestic and vocational domains. *Credit for community based students will be awarded based on the achievement of IEP and transition goals after a conference between the teacher, guidance counselor, and department chair.*

Deaf and Hard of Hearing

COMMUNITY BASED FINE ARTS

Course # 08930

Prereq: none
Level: 9-12
Credit: Variable

Students will work on art projects using a variety of media, in order to better develop recreational and leisure skills as well as to improve fine motor skills. *Credit for community based students will be awarded based on the achievement of IEP and transition goals after a conference between the teacher, guidance counselor, and department chair.*

RELATED INSTRUCTION I

Course # 08720

Prereq: none
Level: 11, 12
Credit: 1.0

This course is designed to develop the general work skills that are applicable to all work environments. The curriculum focuses on helping students practice and evaluate their skills as an employee. Emphasis is placed on self-advocacy, entering the world of work, and succeeding as an employee. Deaf role models from the community will be invited to discuss their own personal experiences of transitioning into the world of work.

RELATED INSTRUCTION II

Course # 08730

Prereq: Concurrent enrollment in 08731 or 08732
Level: 11, 12
Credit: 1.0

This course is individualized to address the work skills needed to the vocation in which the student is currently working. Attention is also given to the chosen profession of the student. Course content, teaching style, and student assessments are modified to accommodate Transition Plan outcomes. Individual Transition Portfolios are created to foster independence for post-secondary employment and/or services.

S.W.T. (Supervised Work Training)

Course # 08731, 08732

Prereq: Concurrent enrollment in 08730
Level: 10, 11, 12
Credit: 0.5

In-school and community work experiences are available in a variety of settings to teach general work related skills. Students are supervised and evaluated on attainment of employment competencies. Concurrent enrollment in Related Instruction is required.

SUPPORT SERVICES

TUTORIAL

Course # 08511/08512

Prereq: None
Level: 9, 10, 11, 12
Credit: 0.25

This course provides support to DHH students for their academic courses. Students receive teacher supervised study time to complete homework and prepare for their mainstreamed and self-contained courses. Student progress and grades in all classes are monitored by the teacher and more directed assistance may be provided. Individual study skills can also be addressed. Related services as scheduled in their IEP can also be accessed during this time. Students receive a Pass/Fail grade and are issued 0.25 credit per semester.

STUDENT SUPPORT CENTER

Course # 08521, 08522

Prereq: Department Chairperson approval
Level: 9, 10, 11, 12
Credit: .25

This service is designed for students needing additional instruction in problem-solving interpersonal relationships and study skills in addition to academic support. A functional analysis is completed, as determined by the IEP to develop a Behavior Intervention Plan which directs and monitors student progress. Related services can also be accessed during this time. Students receive a Pass/Fail grade and are issued a 0.25 credit per semester.

English Department

Department Chairperson Mr. David Anderson

The English Department offers a variety of courses designed to develop essential communication skills in not only reading, writing, and speaking, but also listening and thinking skills. Students will be grouped in order to assure the most challenging and productive studies according to their abilities and achievement levels. A variety of materials and instructional techniques is used to match the capabilities of the groups established: Honors and Regular. Such groupings for the freshman year are based upon scores on standardized tests and ability as demonstrated in junior high school, teacher recommendation, and a writing sample. Placement in any level is not static but subject to review and change resulting from the student's progress during freshman year and before enrollment in successive courses, sophomore through senior years. **Four (4.0) credits in English are required for graduation.** English I, II, and III are required for graduation, but the fourth credit may be earned in a variety of combinations of English electives. Because of the sequencing of the writing and reading assignments in the required courses in English I, II, and III, students must pass both semesters of a class before being able to advance to the next level. **Therefore, students cannot be concurrently enrolled in English I, II, or III.** Failures in English I, II, or III are required to be made up during summer school. NOTE: Students must be enrolled in an English class for every semester in attendance.

Please see Course Description for detailed Prerequisites.

CATEGORIES OF ENGLISH CLASSES

While four (4.0) credits in English are required for graduation, students have the following options in taking English credit. These options fall in several categories:

Core Credits: Students must follow this sequence of courses. If a student fails a semester of one of these classes, the student must make up the failing grade during summer school before advancing to the next level.

Freshmen:	English I <u>or</u> English I Honors
Sophomores:	English II <u>or</u> English II AR <u>or</u> English II Honors
Juniors:	English III-American Literature <u>or</u> English III AR <u>or</u> English III-American Studies <u>or</u> Advanced Placement English Language & Composition.

Options for the Fourth Credit: Students may take any combination of the following classes for the fourth credit in English. Note that some classes are a full year (1.0 credit) and some are a semester long (0.5 credit). When planning courses for this fourth credit, students are advised to check with their English III teachers and their Guidance counselors for the best fit for college and career requirements.

Full year (1.0 credit) classes

- Introduction to Theatre Arts
- Journalism Lab: Yearbook
- Journalism Lab: Yearbook w/ honors option
- Humanities
- AP English Literature

One semester (0.5 credit) classes

** indicates classes available to seniors only*

- World Literature I*
- World Literature II*
- College Literacy*
- English IV: Popular Literature*
- English IV: Science Fiction *
- Expository Writing and the Research Paper*
- Writing Workshop*
- Advanced Acting
- Advanced Communications
- Film as Literature
- Reading Workshop
- Creative Writing
- Journalistic Writing
- Journalistic Writing w/honors option

Electives: Although the following courses broaden the students' experience in English, they DO NOT satisfy the required 4.0 credits in English. Instead, these classes count towards students' elective credits.

- Academic Reading
- Mass Media
- Radio Broadcasting

Courses for Students with Limited English Proficiency: These classes are designed for students with limited experience with the English language. Students must have the permission of the Director of English Language Learning in order to be placed into these classes.

- Transitional English Language Learning I
- Transitional English Language Learning II
- ELL Tutorial
- English as a Second Language I
- English as a Second Language II
- English as a Second Language III

CORE CREDITS

ENGLISH I

Course # 01110

Prereq: None

Level: 9

Credit: 1.0

English I teaches essential written language and communication skills in a program that integrates literary analysis, library research, listening skills, problem-solving strategies, teamwork, and multimedia presentations. Students will explore fiction and non-fiction works including short stories, novels, poetry, drama, mythology, and biographies. The course allows students to express their understanding of important concepts and mastery of skills through discussions, projects, compositions, creative writing, and presentations.

This course fulfills one of two "Intensive Writing" requirement credits.

There is required reading during the summer before beginning this course.

ENGLISH I HONORS

Course # 01120

Prereq: Dept. Chairperson

Approval

Level: 9

Credit: 1.0

This course, for the superior academic student, not only incorporates the materials and skills of English I, but also is designed to provide an enriched study of literary forms and purposes, a great variety of student written expression, and more formal oral communication activities. The student will be introduced to the development of literature from its beginnings in the oral tradition to the standard modern literary genres – short story, novel, drama, biography, and poetry. Written assignments stress expository writing, especially mastery of the multi-paragraph essay. More sophisticated grammatical concepts are presented to improve the student's style of expression. Students perform a variety of speech assignments. A vocabulary text is also included.

This course fulfills one of two "Intensive Writing" requirement credits.

There is required reading during the summer before beginning this course.

ENGLISH II

Course # 01210

Prereq: Pass both semesters of English I

Level: 10

Credit: 1.0

A variety of literary works, composition assignments, and oral activities is presented. Within thematic units, various literary types (novel, short story, poetry, drama) will be studied and compositions written. Composition assignments stress the multi-paragraph essay organizational format, although some creative writing is also expected. Special emphasis is placed on the more sophisticated modes of persuasive, comparison/contrast, and cause and effect essay development. Research strategies of varying scope are presented during the second semester.

This course fulfills one of two "Intensive Writing" requirement credits.

There is required reading during the summer before beginning this course.

ENGLISH II AR

Course # 01200

Prereq: Pass both semesters of English I & Dept. Chair

Approval

Level: 10

Credit: 1.0

Along with following the curriculum of English II, this course also focuses on additional strategies to improve students' academic reading (AR) abilities. Placement in this class is dependent on students' test scores, achievement in English I, and teacher recommendations.

This course fulfills one of two "Intensive Writing" requirement credits.

There is required reading during the summer before beginning this course.

English Department

ENGLISH II HONORS

Course # 01220

Prereq: English I Honors
and/or Dept. Chairperson
approval

Level: 10

Credit: 1.0

This course, for the superior academic sophomore student, is a general survey approach to English literature in which major English authors and their representative works are studied. Authors' themes as well as specific literary types are studied: poetry, drama (especially Shakespeare), short story, and novel. Composition skill development is divided between exposition (critical analysis and personal essays) and creative writing. A research paper is also required. Vocabulary will be studied in the context of the literature.

This course fulfills one of two "Intensive Writing" requirement credits.

There is required reading during the summer before beginning this course.

ENGLISH III – AMERICAN LITERATURE

Course # 01330

Prereq: Pass both semesters
of English II

Level: 11

Credit: 1.0

English III builds on the skills acquired in English I and English II. The course focuses on American Literature and emphasizes outstanding American authors from early to modern times in the genres of fiction, non-fiction, drama, and poetry. In addition, there is a challenging emphasis on grammar, vocabulary, and study skills development. Written work consists of the expository essay and the completion of a college level research paper.

There is required reading during the summer before beginning this course.

ENGLISH III AR

Course # 01310

Prereq: Pass both semesters
of English II

Level: 11

Credit: 1.0

Along with following the curriculum of English III – American Literature, this course also focuses on additional strategies to improve students' academic reading (AR) abilities. Placement in this class is dependent on students' test scores, achievement in English II, and teacher recommendations.

This course will not be offered during the 2012-2013 school year.

AMERICAN STUDIES

Course # 01360

Prereq: Pass both semesters
of English II

Level: 11

Credit: 2.0 one for junior level
English; one for U.S. History

This interdisciplinary class is offered for a wide range of junior students who are academically motivated, self-directed, or college bound. The course will take an intensive survey approach to American literature and American history, emphasizing the advantage of seeing the "sense of connectedness" between the history of each era and its relationship to and influence on the art, music, and literature produced during that period. Challenging literary and historical analysis will be pursued throughout the course in lectures, discussions, and writing assignments. In addition, there will be emphasis on vocabulary, study skills, and the development of research expertise. Writing assignments will include the development of literary analysis, expository essays, some creative writing, and independent study towards the research paper. Special projects coordinated between the two disciplines will include the research paper and enrichment field experiences. Reflective of their overall effort and ability to excel in this interdisciplinary environment, students earn a single grade for this two-part course.

There is required reading during the summer before beginning this course.

**ADVANCED PLACEMENT
ENGLISH LANGUAGE &
COMPOSITION**

Course # 01320

Prereq: English II Honors
and/or Dept. Chairperson
approval

Level: 11

Credit: 1.0

Through an intensive survey approach to American literature, this course prepares students for the Advanced Placement English Language & Composition Exam offered each spring. Major American authors and their representative works will be studied as students will comprehend, analyze and evaluate American literature that encompasses various time periods and literary movements with a focus on rhetorical analysis. Students will develop stylistic maturity in their prose by enhancing their ability to use grammatical writing conventions both appropriately and with sophistication. Students will create and sustain arguments based on readings, research and personal experience. Additional emphasis will be placed on independent study and research as well as vocabulary acquisition. ***There is required reading during the summer before beginning this course.***

OPTIONS FOR FOURTH CREDIT

ADVANCED ACTING

Course # 01601

Prereq: Introduction to
Theatre Arts or Dept.
Chairperson approval

Level: 10, 11, 12

Credit: 0.5

Advanced Acting is a performance-oriented course that gives the student concentrated training in the art of mime and in developing various acting styles and performance techniques. In addition, students advance their study of the art of characterization through the development of bodily movement and vocal expression. Students are individually graded on their progress in learning and applying skills through class performance as they relate to the various dramatic forms. Included are field trips to see plays representative of the style studied and a final audience-invited performance.

**ADVANCED
COMMUNICATIONS**

Course # 01631

Prereq: Pass both semesters
of English I

Level: 10, 11, 12

Credit: 0.5

This class is designed to give the student background and experience in the study of public speaking and performance. It provides opportunities for the student to learn organizational speech and writing and research skills, write scripts and speeches, prepare cuttings from the works of noted authors, and evaluate his performance and the performances of others. Students will analyze the work of professional and gifted performers in all areas of communication and performance. Students will also receive instruction and practical experience in a variety of speech forms: oratory, extemporaneous speaking, oral interpretation of literature (both prose and poetry), humorous and dramatic interpretation (individual, duet, and group), and radio and television broadcasting. ***There is required reading during the summer before beginning this course.***

**ADVANCED PLACEMENT
ENGLISH LITERATURE &
COMPOSITION**

Course # 01480

Prereq: AP English
Language & Composition
and/or Dept. Chairperson
approval

Level: 12

Credit: 1.0

AP English Literature & Composition, "Great Books," focuses on selected major works of Western Civilization in the field of literature, philosophy, political theory, history, theology, and psychology. Required readings in all the genres of fiction include such writers as Joyce, Dante, Austen, Dostoevsky, Shakespeare, and Sophocles and a spectrum of non-fiction: letters, treatises, essays, handbooks, and dialogues by such writers as Mill, Nietzsche, Locke, Epictetus, and Plato. A summer reading list is required. Students read critically and participate actively in the great and continuing conversations on the pivotal human issues found in these classics. Student partners lead discussions according to the Great Books method. Compositions include papers on analysis, synthesis, evaluation, and hypothesis as well as delineation of each author's arguments in non-fiction. Two semester term papers are also required, analyzing, comparing, and contrasting at least three works, two of which are read outside of class. ***This course prepares the student for the Advanced Placement exam in May. There is required reading during the summer before beginning this course.***

English Department

COLLEGE LITERACY: STRATEGIES IN READING AND WRITING

Course # 01621

Prereq: Pass both semesters of English III

Level: 12

Credit: 0.5

This college bound course is designed for students who wish to improve their critical thinking skills and reading and writing strategies for the heavier demands of college coursework. The topics covered will be literary analysis, reading for the research paper, vocabulary development, and textbook reading strategies. Students will read self-selected novels from a college-bound list. ***There is required reading during the summer before beginning this course.***

FILM AS LITERATURE

Course # 1451

Prereq: Pass both semesters of English II

Level: 11, 12

Credit: 0.5

Film as Literature is a course designed for students who enjoy movies, yet wish to go beyond merely watching them, and into the realm of thinking critically about how and why they are made, just as literature is studied. Throughout the semester, students will attempt to define the essential question: what makes a film great? We will consider how directors use sound, lighting, camera movement, and editing in order to create meaning and enjoyment. The class will critique a wide variety of genres, both past and present, and will demonstrate their understanding through engaging class discussions, collaborative projects, and writing, both formal and informal. By the end of the semester, students will grow in their ability to interpret film (as well as written texts), and to appreciate the fascinating world of cinema. ***There is required reading during the summer before beginning this course.***

SCIENCE FICTION

Course # 01431

Prereq: Pass both semesters of English III

Level: 12

Credit: 0.5

This senior elective explores views presented by various science fiction writers. Through this survey of classic and contemporary science fiction, students will consider different attitudes regarding the future of humankind. Along with the reading of novels, students will have a variety of writing experience including a research paper. The course will end with an independent novel portfolio where students will showcase a science fiction book of choice. Course evaluation will be measured through tests, quizzes, class discussions, two analysis papers, one creative writing project, one research paper, one novel portfolio. Texts include *Ender's Game*, *Blood Child*, *The Cure*, *Feed*, a novel of choice, and the anthology: *Science Fiction, Science Fact and You*. ***There is required reading during the summer before beginning this course.***

POPULAR LITERATURE

Course # 01461

Prereq: Pass both semesters of English III

Level: 12

Credit: 0.5

Designed for college and non-college bound seniors, "Popular Literature" focuses on works of 90s and today, while emphasizing the differences of popular and classical literatures. The origin and dynamic characteristics of this genre in today's society will be analyzed through the reading of class books and literature circles. Types of reading audiences and "requirements" of a popular literature author will also be studied. Students will be required to complete written, oral and group projects in addition to the readings; class discussion will constitute a major portion of the class. Authors to be read and studied may include John Grisham, Harlan Coben, Dan Brown, James Patterson, Patricia Cornwell, Sandra Brown, Stephen King, Danielle Steel, Nicholas Sparks, Mary Higgins Clark, and Tom Clancy. Novels may include *Dark Tower*, *The Notebook*, *The Partner*, *Roses are Red*, *Tell No One*, *Hello Darkness*, *DaVinci Code*, and *Angels and Demons*. ***There is required reading during the summer before beginning this course.***

CREATIVE WRITING

Course # 01561

Prereq: Pass both semesters of English II
 Level: 11, 12
 Credit: 0.5

Creative Writing emphasizes individualized creative thought and challenging exercises in the various genres of prose, drama, and poetry. Balancing individual creativity with disciplined focus is a must for success in the course. The student completes two major portfolio projects each semester in addition to daily writing and/or reading assignments. The student is encouraged to compete in local, state, and national contests. Emphasis will be placed upon both recognizing the elements of style of great authors in selected reading passages and in developing individual creative style.

There is required reading during the summer before beginning this course.

EXPOSITORY WRITING AND THE RESEARCH PAPER

Course # 01531

Prereq: Pass both semesters of English III
 Level: 12
 Credit: 0.5

This elective is designed for college-bound seniors who desire experience in writing exposition and the formal research paper. The course develops student writing in various types of exposition typically assigned in freshman college composition classes. Much emphasis is placed upon review of grammatical principles, improvement of vocabulary, and development of an organized, individual writing style. In addition, the student is also required to apply these principles to a research unit and paper. Students use computers to complete their writing and research assignments.

There is required reading during the summer before beginning this course.

HUMANITIES

Course # 02260

Prereq: Average to above average grades. Dept. Chairperson approval.
 Level: 12
 Credit: 2.0 (one in English; one in Social Studies)

An interdisciplinary study of world history and literature with emphasis on philosophy, religions, and the arts of various peoples throughout history as they faced the universal questions of life and existence. The origins of Western culture will be highlighted. Students earn a single grade for this two-period course.

There is required reading during the summer before beginning this course.

INTRODUCTION TO THEATRE ARTS

Course # 01380

Prereq: None
 Level: 9, 10, 11, 12
 Credit: 1.0

Introduction to Theatre Arts is a performance-oriented drama course geared to developing the creative and dramatic talents of individual students. This course uses student acting and teacher-student evaluation as the major teaching method to help the student understand the medium of theatre. It develops sensitivity to the thoughts, beliefs, and ideas of mankind through study, in-class performance, and theatre attendance. Included are field trips to see plays representative of the style studied and a final audience-invited performance.

English Department

JOURNALISM LAB: YEARBOOK

Course # 01400

JOURNALISM LAB: YEARBOOK w/honors option

Course # 01410

Prereq: "C" average and
Dept. Chairperson approval
Level: 9, 10, 11, 12
Credit: 1.0

Course #01400: This is a writing and production course for students interested in designing a yearbook. The classroom portion of the course emphasizes the mechanics of strong, journalistic writing, strategies for effective communication, digital photography, and graphic design. Researching and interviewing are also covered as students prepare to write stories for the school yearbook, *Vespa*. Work is completed using Adobe InDesign CS3 software. The student should have above average writing skills. Additional work outside of class is required; the outside assignments may focus on writing, photography, page-layout skills, and the business aspect of the yearbook. Students will also be part of the extra-curricular yearbook club. Journalism may be repeated for credit with consent of instructor and department chairperson. ***This course does NOT fulfill NCAA initial eligibility requirements for college.***

Course #01410 w/honors option: To receive honors credit, the student must serve as an editor. Editors are chosen through previous journalism experience, an application, and an interview with the adviser. The honors level includes all the elements of the regular level course plus the additional workload an editor must handle. This includes planning the book, coaching and leading the staff, revising their work, and attending all meetings and events required by the adviser.

JOURNALISTIC WRITING

Course # 01361

JOURNALISTIC WRITING w/honors option

Course # 01371

Prereq: None
Level: 10, 11, 12
Credit: 0.5

Course #01361: This course is an intensive writing course for those interested in writing for newspapers and magazines. The course covers all types of journalistic writing, including news, features, sports, editorials, columns, and reviews. Information gathering through interviews and library research will refine reading, listening, and speaking skills. In addition, students will learn about the ethics and the history of the journalistic field. Some of the material will be written for publication in *The Stinger*, the student newspaper. This course is a prerequisite for appointment to editorial positions on *The Stinger* staff. *This class can be taken multiple times with teacher approval.*

Course #01371 w/honors option: To receive honors credit, the student must serve as an editor on the *Stinger* student news magazine. Editors are chosen through previous journalism experience, an application, and a formal interview with the adviser. The honors level includes all the elements of the regular level course plus the additional workload an editor must handle, that include being responsible for a section of the paper, attending be-weekly meetings, attending deadline week, and editing, designing and writing the *Stinger*. Honors students (editors) will also lead small mini-lessons on topics they have previously mastered; these opportunities will help to increase and sharpen communication and leadership skills. Honors students (editors) must also attend required events scheduled by the adviser.

READING WORKSHOP

Course # 01541

Prereq: None
Level: 9, 10, 11, 12
Credit: 0.5

This course is designed for students who are challenged in vocabulary, critical reading and comprehension and who need to strengthen study skills. Students will take diagnostic and placement tests in several skill areas before pursuing intensive large group, small group, and individual instruction. At the same time, students will complete a program of individually planned sustained reading of several books for which written reports will be required.

This course does NOT fulfill NCAA initial eligibility requirements for college.

WRITING WORKSHOP

Course # 01611

Prereq: Pass both semesters of English III

Level: 12

Credit: 0.5

This course is designed for the student with average to below-average writing skills. The course will build upon writing skills learned freshman, sophomore, and junior years and focuses on using word processing as a tool for writing improvement. This course's structure uses a workshop-style format to help students develop basic writing skills such as brainstorming, effective organizational patterns, establishing a purpose, writing to an audience, vocabulary development, and sentence correctness. Some of the writing assignments include, but are not limited to, descriptive writing, personal narrative, persuasion, and analytic essays. Students will also learn to write for the workplace and will complete a job portfolio. ***There is required reading during the summer before beginning this course.***

WORLD LITERATURE I: AFRICAN LITERATURE

Course # 01571

Prereq: Pass both semesters of English III

Level: 12

Credit: 0.5

This course is designed for college-bound seniors and will take students on a literary tour of modern Africa. The class will focus on novels from a variety of geographic regions and historical time periods, but it will also incorporate other media such as film, food, music, and drama. Topics may include analysis of personal freedoms under imperialism as well as the historical role played by language and economics in development across the continent. *World Literature I and II are not sequential; therefore, students may take either one or both. ***There is required reading during the summer before beginning this course.***

WORLD LITERATURE II: LITERATURE OF ASIA & THE MIDDLE EAST

Course # 01581

Prereq: Pass both semesters of English III

Level: 12

Credit: 0.5

This course is designed for college-bound seniors. Similar to World Literature I, it will focus on novels representing various cultural groups; however, students in World Literature II will study Asia and the Middle East. Topics may include the role of women in modern Iran, the Chinese Cultural Revolution, and historical opinions of nuclear warfare in Japan. *World Literature I and II are not sequential; therefore, students may take either one or both. ***There is required reading during the summer before beginning this course.***

English Department

ELECTIVES

ACADEMIC READING

Course # A01100

Prereq: Dept. Chairperson recommendation

Level: 9

Credit: 1.0

Academic Reading is designed for ninth grade students whose standardized test scores demonstrate that they would benefit from direct instruction on reading and vocabulary strategies. Students will complete diagnostic tests in several skill areas at both the beginning and end of the school year to track their growth. The curriculum is comprised of units that address skills that “good readers” internalize including previewing, predicting, summarizing, questioning, and analysis of text structure. In addition to these lessons, students will also receive weekly vocabulary instruction. Finally, students will engage in daily sustained silent reading both inside and outside of class. Comprehension of these novels is assessed both orally and in writing through book talks, presentations, class discussions, journals, projects, more formal writing, and a variety of other authentic assessments. Academic Reading students are simultaneously enrolled in both this course and English I; both classes are taught by the same English teacher. Although both Academic Reading and English I have separate curricula, Academic Reading will include some pre-teaching and re-teaching of skills and strategies taught in English I.

MASS MEDIA

Course # 01661

Prereq: Pass both semesters of English II

Level: 11, 12

Credit: 0.5

Mass Media is offered as an introduction to the subject of media issues and contains a blend of theory and practice. Units to be studied include: television, advertising, film, newspapers, radio broadcasting, and audio and video recording. Various creative projects will be pursued as well as projects involving writing and reading. A certain amount of independent library research in the areas studied is expected. An evening film study is also required. Course activities are designed to enable students to understand and evaluate the influence of mass media on their lives.

RADIO BROADCASTING

Course # 01651

Prereq: Dept. Chairperson approval

Level: 10, 11, 12

Credit: 0.5

Radio Broadcasting is a one-semester course offered as an introduction to the field of radio broadcasting and the communication skills involved in it. Students will receive training in the preparation of materials and use of the technical equipment used in broadcasting. Actual broadcast experience will be given to each student through the use of the district-owned FM station, WHSD 88.5. Evaluation of student performance will be based on projects, tests, and practical demonstration of the abilities to use broadcast techniques and equipment.

COURSES FOR ENGLISH LANGUAGE LEARNERS (ELL)

ELL TUTORIAL

Course # 04801

Prereq: Dept. Chairperson approval

Level: 9, 10, 11, 12

Credit: 0

This course is designed to create daily opportunities for students to receive the necessary assistance they may need to succeed in the mainstream content courses at the secondary level. Individual time and attention will be provided to supplement and augment the content delivered in the students' mainstream coursework. There will also be supplementary activities to encourage knowledge of and adjustment to the new culture and how to succeed academically.

This course does NOT fulfill NCAA initial eligibility requirements for college athletics.

ENGLISH LANGUAGE LEARNING I

Course # 04790

Prereq: Dept. Chairperson approval

Level: 9, 10, 11, 12

Credit: 1.0

This course is for "Limited English Proficiency" students who function adequately even though English is not their primary language, but whose performance could be improved by supportive help in language skills. It will include individual and group instruction designed to "fill the gaps" of culture and language which inhibit these students from reaching full academic potential. Students enrolled in this course for credit may also enroll in Course # 04801 Tutorial to replace study hall(s) when additional help is necessary.

This course does NOT fulfill NCAA initial eligibility requirements for college athletics.

ENGLISH LANGUAGE LEARNING II

Course # 04710

Prereq: Dept. Chairperson approval

Level: 9, 10, 11, 12

Credit: 1.0

This course is for "Limited English Proficiency" students who function adequately even though English is not their primary language, but whose performance could be improved by supportive help in language skills and who have taken Transitional English I. It will include individual and group instruction designed to "fill the gaps" of culture and language which inhibit these students from reaching full academic potential. Students enrolled in this course for credit may also enroll in Course # 04801 Tutorial to replace study hall(s) when additional help is necessary.

This course does NOT fulfill NCAA initial eligibility requirements for college athletics.

ENGLISH AS A SECOND LANGUAGE I

Course # 04770

Prereq: Recommendation by the Director of English Language Learning

Level: 9, 10, 11, 12

Credit: 1.0

This course is designed for students whose first language is not English and whose communication skills need more support than can be provided in a regular English class. The course provides a sequential curriculum that allows the students to acquire standard American English. The course parallels, when and where possible, the regular English I curriculum. It will also provide supplementary activities to encourage knowledge of and adjustment to U.S. culture. This class may be taken concurrently with ESL II with permission from the Director of English Language Learning. This class may be taken as supplementary coursework with mainstream English classes with permission of the English Department Chair and the Director of English Language Learning.

English Department

ENGLISH AS A SECOND LANGUAGE II

Course # 04780

Prereq: Recommendation by the Director of English Language Learning
Level: 9, 10, 11, 12
Credit: 1.0

This course is designed for students who have limited English proficiency but have a basic vocabulary and understanding of the language. The course provides a sequential curriculum that allows the students increased practice in standard American English. The course parallels, when and where possible, the regular English II curriculum. It will also provide supplementary activities to encourage knowledge of and adjustment to U.S. culture. This class may be taken concurrently with ESL I and ESL III with permission from the Director of English Language Learning. This class may be taken as supplementary coursework with mainstream English classes with permission of the English Department Chair and the Director of English Language Learning.

ENGLISH AS A SECOND LANGUAGE III

Course # 04760

Prereq: Recommendation by the Director of English Language Learning
Level: 11, 12
Credit: 1.0

This course is designed primarily for immigrant students arriving as juniors or seniors. Students should have a basic vocabulary and understanding of the language. The course provides a sequential curriculum that allows the students increased practice in standard American English. The course parallels, when and where possible, the regular English III curriculum. It will also provide supplementary activities to encourage knowledge of and adjustment to U.S. culture. This class may be taken concurrently with ESL II with permission from the Director of English Language Learning. This class may be taken as supplementary coursework with mainstream English classes with permission of the English Department Chair and the Director of English Language Learning.

Family & Consumer Sciences

Department Chairperson Dr. Gary Hutchinson

The Department of Family & Consumer Sciences is concerned with enhancing the social, intellectual, economic, aesthetic, and physical well being of both individuals and families. The courses in the department provide students with the basic skills and tools necessary to perform the various functions of the family. Family members will need to know how to use critical thinking skills to analyze the effects of technology and its multitude of new resources and products on the family. Courses in this department offer opportunities for creative expression and personal fulfillment as well as employment skills. Applied arts credit is given for all Family and Consumer Sciences courses. A fee is required in most foods related courses. Students are required to purchase materials for sewing.

Family & Consumer Sciences related careers and the suggested course sequencing:
