Dear Students and Parents,

Hinsdale Central High School is an exciting place to be a student and to prepare for post-high school opportunities. Registering for classes each winter is an important rite of passage in your journey through HCHS.

This 2008-2009 edition of the Hinsdale Central Program of Studies book is an important resource for students and parents in making good course choices.

As you page through the Program of Studies, you will find three distinct sections. (1) The first section contains general information about such topics as graduation requirements, dropping and adding courses, incompletes, schedule changes, and college admission requirements. (2) The second section presents a description of all courses available to students for the 2008-2009 school year. (3) The last section provides students and parents with 2008-2009 registration information and worksheets for course selection, the four-year plan, and the graduation credit checklist.

The selection of appropriate courses for the four years of high school is important. Hinsdale Central has a wide array of courses to meet individual student's needs. Parents, teachers, and the counselor can guide students through the registration process. Careful consideration of personal interests and abilities, graduation requirements, and post-secondary goals is important in order for each student to make the best use of the academic opportunities available.

Please use this Program of Studies book to prepare for the registration appointment with your Guidance Counselor, which will be scheduled later this month and in early February. As you prepare, carefully review the general information section, analyze the course descriptions and "pencil" in your choices on the worksheets at the back of this handbook.

It is important to know that the courses you select in February are intended to be your final selection of courses for the 2008-2009 school year. We build a master schedule of classes, and we hire and re-employ teachers based on the enrollment decisions you make. As high school students, you should make careful decisions and then follow through with them.

We hope we have made this process one that can work well for you. If you have questions or suggestions, please call.

Sincerely,

Kevin Pobst

Vision Statement

HINSDALE CENTRAL VISION STATEMENT

Adopted Fall 2003

The expectation of excellence is rooted in the traditions of Hinsdale Central. In an environment that fosters a desire to learn, all members of the organization are committed to educating each student. In order for us to succeed, we must clearly identify standards we will work to achieve and maintain. These standards are identified in several areas and will be the benchmarks by which we will measure our success.

I. Students

The degree to which we measure our success in attaining this vision is by each student's progress. We will provide opportunities that facilitate this growth. In our school we:

- a. work to meet students' needs.
- b. encourage students to reach their potential in all they do, and to become self-directed learners.
- c. teach students to accept responsibility for their actions.
- d. encourage students to get involved in their school and in their community.
- e. let students know we believe in them and will find ways for them to succeed based on their ability and interests.

II. Staff

Attracting and retaining outstanding people is a must if we are to move toward our vision. In our school we:

- a. demonstrate our support for a shared vision and a common sense of purpose.
- b. encourage all members of the organization to be leaders and experts in their fields.
- c. promote collaboration and collegial decision-making on matters relating to students, curriculum, instruction, and school improvement initiatives.
- d. facilitate the growth of our students.

III. Curriculum and Instruction

What we decide to teach and how we do so will impact the results we achieve. In our school we:

- a. recognize our primary focus is to provide a solid base for the post-secondary education of our students, while respecting the needs of students who make alternative choices.
 - b. seek to learn effective practices and adapt them for our learning environment.
 - c. believe teachers should collaboratively determine curriculum and assessment standards.
 - d. work to assure the limited time we have to educate our students is used to the greatest benefit for all our school community.
-

IV. *Climate*

All members of our community are responsible for providing a climate that contributes to our success and a high school experience that builds a sense of pride we all share. In our school we:

- a. provide a safe and secure environment that is conducive to learning.
- b. recognize that all relationships are based on respect for others and an understanding of each person's responsibility for his/her behavior.
- c. understand school rules and policies exist to support our organization and are consistently applied by all staff.
- d. recognize the achievements of all members.
- e. encourage and model behaviors appropriate to the development of character.

V. *Community*

The educational community recognizes the importance of maintaining a partnership between the school and community at large. In our school we:

- a. seek ways to improve the quality of communication between the home and school.
- b. always provide a clear rationale for policies and practices.
- c. share information that is important in a timely manner.
- d. recognize that the more our community is involved and informed, the more successful we will be.

Acknowledgments

Students contributed to the artwork displayed at the beginning of each department's description of courses.

Many thanks to the following students for their designs:

Students have the option of enrolling in an additional semester of Physical Education during sophomore year for an additional 0.5 credit.</div> 	

General Information

Earning Course Credits Credit in full year as well as semester courses is earned by semester. That is, students earn 1/2 unit of credit or 0.5 credit for successful completion of each semester.

Credit is earned by successfully completing all course requirements as established by the teacher. Excessive absences may result in removal from a course and/or loss of credit.

Alternative Courses E-learning, correspondence, or college courses may be counted toward graduation. Such courses must be from an institution accredited by the North Central Association of Colleges and Secondary Schools; the student must be a fourth or fifth year senior; and the student assumes responsibility for all fees. Prior written approval from the Director of Guidance is required.

Academic Load Students must be enrolled in a minimum of six (6) courses per semester.

Admission Requirements Admission requirements are based upon evidence of normal progress and achievement in the previous school. Incoming freshman are required to submit evidence of satisfactory completion of the 8th grade. Transcripts of credits earned and grade placement are required from the previous school for all students transferring from other secondary schools. Transfer credit and grades will be determined by the Registrar and are based on Hinsdale Central's curriculum and requirements. The report of a health examination and required immunizations at the 9th grade level is **required by law**. Students will not be allowed to attend school if this State requirement is not met. In addition, all students participating in athletics must have a physical examination for each year in which they participate. We cannot emphasize too strongly the need for this to be accomplished prior to the opening of school.

College of DuPage Articulated Credit Hinsdale Township High School District 86 and the College of DuPage have entered into an agreement, Articulated Credits, in which Hinsdale Central students may receive credit for courses taken in high school once they are enrolled in the College of DuPage. A minimum grade of B must be received in the high school courses to receive C.O.D. credit.

College of DuPage	Hinsdale Central	C.O.D. Credits
Ad. & Illustration Design	Digital Imaging 3: Advertising and Illustration	3
Photography 100	Basic and Color Photography	5
Accounting 1110	Accounting and Accounting Honors	3
Child Care & Develop. 100	Child Care and Development	3

Advanced Placement Program

The Advanced Placement (AP) Program provides students with the opportunity to pursue college-level studies while still in high school and to receive advanced placement and/or credit when entering college. Qualified, academically oriented students in the tenth, eleventh, and twelfth grades are eligible to participate in the Advanced Placement Program at Hinsdale Central High School.

The Advanced Placement Program at Hinsdale Central High School consists of the following courses:

AP Art History
AP Studio Art
AP Language & Comp.
AP Lit. & Composition 1
(British Literature)
AP Lit. & Composition 2
(World Literature)
AP French Language
*AP German Language**
AP Latin Literature
AP Latin Vergil
AP Spanish Language
AP Spanish Literature
AP Calculus (AB)
AP Calculus (BC)
AP Computer Science A
AP Computer Science AB
AP Statistics
AP Music Theory
AP Biology
AP Chemistry
AP Environmental
Science
AP Physics B
AP Physics C
AP European History
AP Gov't. & Politics
AP Microeconomics
AP Psychology
AP U.S. History

** Upon completion of German 4H, students may take the AP German language exam.*

Departments

Advanced Placement courses are offered by seven departments: Art, English, Foreign Language, Mathematics, Music, Science, and Social Studies. These courses, in general, adhere to the suggested College Board course descriptions and serve as the primary vehicle to prepare students for the voluntary AP examinations in May. In addition to preparing students for the AP exams, AP courses allow students to experience the pace and intensity of college-level courses while still in high school. Some AP courses may explore opportunities for students to work in teams on interdisciplinary themes or projects. Such activities would be designed to provide students the opportunity to solve real-world problems across AP subject areas. The AP courses are challenging and stimulating, require more work and more time than other high school courses, but are ranked by former AP students as the most valuable experiences of their high school education.

Examinations

The Advanced Placement examinations are administered each year during the second and third weeks of May and can be described as “tough, but fair.” Usually three hours in length, each exam consists of a multiple choice section and free-response section that requires essay writing or problem solving. Every examination receives an overall grade from a team of carefully selected college professors and high school AP teachers on a five-point scale: 5 (extremely well qualified), 4 (well qualified), 3 (qualified), 2 (possibly qualified), and 1 (no recommendation). An AP Grade Report is sent in July to each student, the high school, and if the student requests it, to the college. Unless recommended by the teacher not to do so, all enrolled AP students are expected to take their course ending examinations.

Credit

Although each college determines what AP examination grades it will accept for credit and/or advanced placement, the great majority of colleges accept grades of 3 or better and award the student with credit in the subject matter tested. In some cases, no credit is given, but the student begins the program of study at an advanced level. Many colleges will grant sophomore standing to a student who presents acceptable scores on three or more AP examinations. Students wanting to know what AP grades are considered acceptable by the colleges in which they are interested should write the Director of Admissions of the college or consult with the Director of Guidance at Hinsdale Central.

General Information

G-Level Program

G - Level Courses:

Foundations of Alg/Geo.

Algebra 1G

Geometry - G

Algebra 2/Trig - G

Earth Science - G

Biology - G

In the Mathematics and Science departments, particular courses are designated as G-level courses. College preparatory in nature, G-level courses are designed to meet the special needs of students in particular subject areas.

Admission

Admission to G-level courses is based upon several established selection criteria:

- teacher recommendations
- results of the 8th-grade EXPLORE Test
- past academic performance
- department approval
- student and parent input

Honors Program

Honors (H) Courses:

Ideas in Art H

Accounting H

English 1 H

English 2 H

H/Seminar in Writing

French 2 H

French 3 H

French 4 H

German 1 H

German 2 H

German 3 H

German 4 H

Latin 1 H

Latin 2 H

Spanish 2 H

Spanish 3 H

Spanish 4 H

Geometry H

Algebra 2 Trig H

Pre-Calculus H

Music (see department)

Biology H

Earth Science H

Chemistry H

Physics H

World History H

In the Art, Business, English, Foreign Language, Mathematics, Music, Science and Social Studies departments, particular courses are designated as honors courses. Honors courses are designed to challenge students of superior ability by enriching and/or accelerating the course content and have standards of achievement distinctly above those of regular courses. Instruction in honors courses occurs at a faster pace, covers the subject matter in more depth and emphasizes higher level thinking skills.

Admission

Admission to the honors program is based upon several established selection criteria:

- teacher recommendation
- results of the 8th-grade EXPLORE Test
- past academic performance
- departmental approval

Students with superior ability, a commitment to the subject matter and a motivation to learn are encouraged to apply for admission to the honors program.

honors sequencing chart

The chart below is the suggested sequence of courses leading to the Advanced Placement Program.

Department	Freshman	Sophomore	Junior	Senior

General Information

Honor Roll and Weighted Grades

Grades earned in all academic courses, exclusive of Physical Education and Driver Education, will be used to determine honor roll according to the following grade point system.

Honor Roll

- 4.0 grade point average
- no grade below a "D"

Honor Roll is based on the quarter grade point average, no incomplete grades and a minimum of four credit-earning courses. Class rank is determined by the cumulative grade point average and is recalculated after each semester's grades are posted. Honor Roll students become eligible for Dean's List recognition.

Dean's List

- 4.5 grade point average
- no grade below a "C"
- Class Rank is optional for classes of 2009 & 2010, Class Rank will not be awarded for the Class of 2011

Grade	Honors	Regular
A	6	5
B	5	4
C	4	3
D	2	2
F	1	1
WF	1	1

Scheduling & Schedule Changes

The school reserves the right to **adjust any student schedule** to better meet the needs of the overall school schedule due to the complexities of arranging teachers' schedules, balancing class size, etc. The master schedule of courses is determined by completed registration requests from students and is considered by the administration to be final. Two letters verifying each student's course selections are mailed home each year. The first such letter is sent in April and the second in early July. Therefore, changes in course requests or class assignments will **not** be accepted for any of the following reasons:

- to accommodate a job schedule
- to change teachers
- to change classes to be with friends
- to have last period free
- change of mind

Dropping Course(s)

Students may request to drop a course only if they are enrolled in the maximum (7) number of courses per semester **and** only after they have fully participated in the course for one week. Requests to drop a course are submitted to the student's counselor and the appropriate department chair. A study period (zero credit) only will be added.

Students who drop a course after **September 3, 2008**, for the first semester and **January 30, 2009**, (applies to semester courses only) for second semester will show an "F" on their permanent record. Students who drop a course which places them below the minimum (6) course enrollment standard will receive an "F" in the dropped course and be assigned to a study hall. **Students enrolled in year long courses will not be allowed to drop at the end of first semester unless it is recommended by the department.**

Adding Course(s)

Although students are not allowed to drop a course and add another in its place, students will, in general, be allowed to increase their academic load by dropping their study period at the beginning of a semester if there is space available in the course. Students will not be allowed to add a course at the beginning of first semester after **September 3, 2008**, and at the beginning of second semester after **January 30, 2009**.

Repeating Course(s) A course may be repeated for credit only when a student has previously received a “D” or an “F.” Both the grade received and the credit earned for repeating the course, as well as the original grade and credit received in the course, will be used in computing the student’s grade point average. The student’s transcript will indicate the first grade and credit earned, as well as the second grade and credit earned. However, the credit received for repeating the course will not count toward satisfying graduation requirements unless the student failed the course.

Auditing Courses Only under unusual circumstances will a request to audit a course be considered:

1. When a student has previous credit in a subject they may request to audit the course.
2. When a student wishes to audit a course they have not previously taken, they may request to audit the course. In this case, they may not take the course for credit at a later time.

Request to Audit a Class forms may be obtained from the student’s counselor. In both circumstances, requests to audit will be considered only if space is available in the course. Students assume all responsibility of a regular class member, but receive no grade or credit.

All requests to audit a course must have administrative approval prior to the first day of class at the latest, but preferably at the time of February registration. Students interested in auditing a course must complete the form, **Request to Audit a Class**, which may be obtained from the student’s counselor and approved by the Director of Guidance.

Incomplete Grades An Incomplete represents work not completed by the end of the quarter. Incompletes are given only in **extraordinary** circumstances. This work must be made up within the first **two weeks** of the following quarter and the Incomplete changed to a grade or a failure. If the work is not made up by the end of the **2-week** period, the grade will be changed to an “F.” An Incomplete will prevent eligibility for Honor Roll.

Registration Procedures Complete the appropriate **Course Request Form** indicating your choice of subjects and obtain the necessary teacher signatures. When you have selected your courses and your parents have approved and signed the **Course Request Form**, return it to your teacher in homeroom for your counselor’s approval. An individual appointment will be scheduled with your counselor to review and approve your course selections. **Course Request Forms** bearing the signature of counselor **and** parents are considered finalizing and completing the course registration for the next year. Courses are scheduled on the basis of your requests. Questions concerning registration procedures and course selections should be directed to the Guidance Department.

Course Request Forms are available through the Guidance Department.

General Information

Attendance Policy

The attendance policy at Hinsdale Central requires that parents call the attendance office **ON THE DAY OF THE ABSENCE** to report their student absent from school on any given day at 630.570.8090 anytime before 4:00 p.m. Prearranged absences may be called in **prior** to the day of the absence and a green prearranged absence form must be completed. Students are expected to attend class on a daily basis and should be aware that attendance is part of his/her evaluation in each class. Students are responsible for all work missed due to an absence. Excessive absences will be handled by the administration and guidance staff and require a parent conference.

*Attendance Office Phone
630.570.8090 between
4:00 a.m. and 4:00 p.m.*

Minimum Attendance Requirement

School Code of Illinois, Section 18-8, requires that all students must be in attendance, exclusive of lunch and passing time, for a minimum of 300 minutes. This necessitates all students attending school for at least six (6) periods a day.

College Admission Requirements

Criteria for college admission vary greatly. The admission committees consider, to varying degrees, the following:

- type of high school courses actually taken when compared to the courses available in the high school
- quality of the student's academic record
- performance on college admission tests - SAT & ACT
- development and maturity of the individual in areas outside the academic classroom.

<i>Courses</i>	Highly Selective Colleges	Public Universities Colleges	Private 4-Year Colleges	Community Public & Public Colleges
<i>English</i>	4 years	4 years	4 years	Varies greatly from an open door admission policy to selective course requirements specifically required by the different departments.
<i>Mathematics</i>	4 years	4 years	4 years	
<i>Science</i>	4 years (lab)	3 years	3 years	
<i>Social Studies</i>	3-4 years	3 years	3 years	
<i>Academic Electives*</i>	2 years	2 years	2 years	
<i>Foreign Language</i>	4 years (one)	*	2-4 years	

*Academic Electives**

*Art
Business
Family & Con. Sciences
Foreign Language
Integrated Art & Tech.
Music
Technology Education
Technology Center of
DuPage (TCD)*

*AP Art History and
AP Studio Art are
generally treated as
acceptable college
preparatory academic
electives by most colleges.*

Course requirements for entrance into four different types of colleges are listed above. The academic prerequisites typical of colleges in each of the categories listed may change from year to year and therefore, should be used only as a general **minimum guidelines**. Specific information may be obtained from high school counselors, college profiles, websites and catalogs, computerized college software programs and college representatives who visit Hinsdale Central High School. Students should be aware of a definite return by colleges to their preference of a **traditional and classical college preparatory curriculum**. Narrowly defined, college preparatory courses are found in the following departments:

Art*: AP Art History and AP Studio Art

Foreign Language*

English: literature and composition courses

Mathematics: Computer Science is not generally accepted as a math credit.

Science: lab courses

Social Studies

General Information

Student Schedules

Full year courses are usually designated by 4-digit course codes ending in “0” or “5.” Semester courses are primarily designated by numbers ending in “1” (first semester) or “2” (second semester) and may be scheduled either first or second semester. **Student schedules are generated by computer and do not allow the student to select a course by semester. Requests are entered but not guaranteed.**

Service Credits

Students may elect to serve as a Student Aide during the school year for the following areas: Art, Audio Visual, Family & Consumer Sciences, Guidance, Library, Nurse, Deans’ Office, Publications, Science, Student Activities, or TPI. The credits earned as an Aide count as service credit. Students may elect to serve as an Aide for one or both semesters. They may, however, hold only one Aide position per semester. One-quarter (.25) credit will be granted for each semester. This can be counted toward graduation as a service credit and will be graded on a pass-fail basis.

Course Descriptions

Excel Study Hall

Course #1020

1st or 2nd semester

Credit: 0.25

Excel is designed as an academic support program targeting specific freshman and sophomores. Student support in the areas of organizational skills, reading skills/strategies, study skills, and homework completion will be available and structured within this program. Students assigned to the Excel Program will attend 5 days per week during their scheduled period and will continue to receive these services until all grades earned are at a C level or above for two consecutive quarters at which point they can transfer into a regular study hall.

Prerequisite: None. Open to grades 9 & 10.

State of Illinois

Consumer Education

Requirement

Credit: 0.5

There are several ways to satisfy this mandated graduation requirement. Students have the following options:

1. **Consumer Economics**, course #6301, one semester, Business Department course, see page 22.
2. **Economics**, course #2331, one semester, Social Studies Department course, see page 71.
3. **AP Micro Economics**, course #2341, one semester, Social Studies Department course, see page 71.
4. **Introduction to Family & Consumer Sciences**, course #6400, full year, Family & Consumer Science Department Course, see page 34.
5. **Introduction to Business**, course #6100, full year, Business Department course, see page 21.
6. **Educational Services Related Instruction**, enrollment is determined by IEP recommendation.
7. **Consumer Education Online course**, course #9101, one semester.

Students who enroll in this online course will do all of their class work through a web site supervised by a certified District 86 teacher. This course has the same objectives and examinations as the traditional semester-long Consumer Economics course #6301; the content is very similar. Communication between student and teacher will be primarily through the web site and by email. Students who enroll in the online version will be required to attend an orientation session, to meet progress markers along the way, and to complete the course during the semester in which they are enrolled.

8. **Illinois Consumer Education Proficiency Test (ICEPT) #9103**

At the direction of the Illinois State Board of Education, the 2008-2009 school year will provide 2 testing sessions for ICEPT, one in late September and the other in late January. Students enrolled in grades 9-12 who are not currently enrolled in a consumer education course may be included in this administration. Contact the Director of Guidance to register for this test.

ART

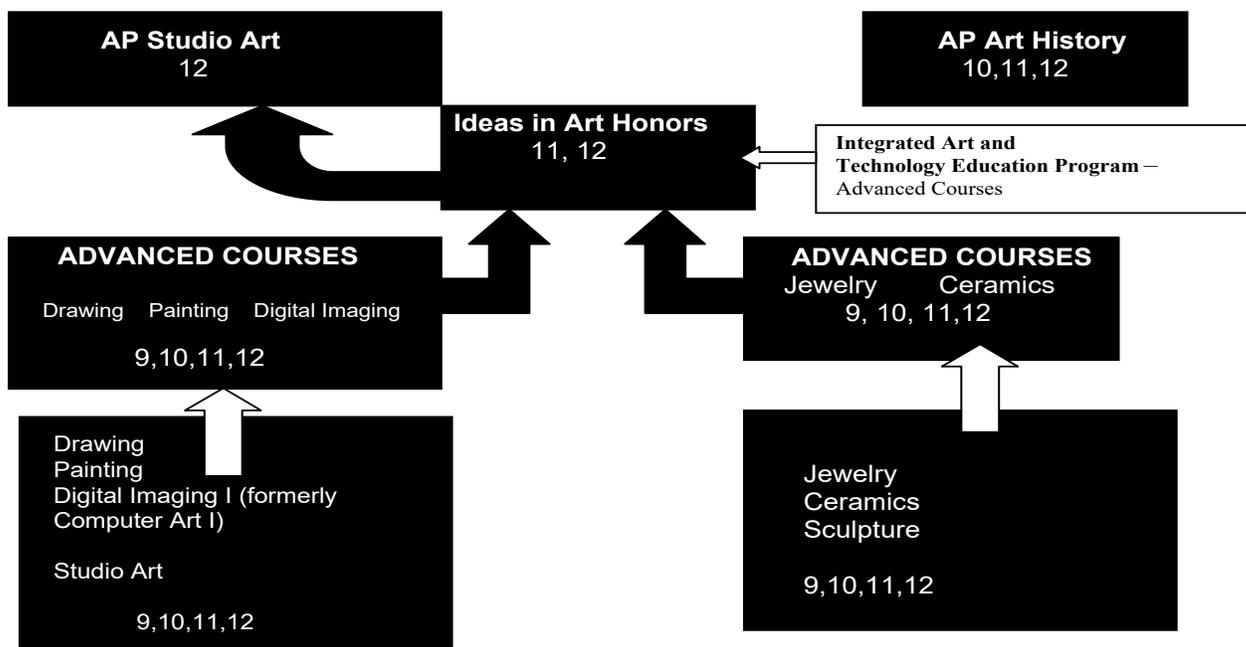

Left to right
 Allison Cartwright
 Joe Glatz
 Joe Lacy
 Brooke Chenery
 Emily Longano

High School District 86 requires the successful completion of two Elective Arts credits. One fine arts credit fulfills the Illinois state public university entrance requirement in Art, Music or Foreign Language. The courses offered by the Art Department are designed to develop an appreciation and understanding of art, art production, art history, and creative problem-solving. Student work is displayed throughout the school and community on a continuing basis. Supply fees are required for participation in studio courses.

MISSION STATEMENT

The artistic, intellectual, and personal development of young people, through the visual arts, is the goal of the Hinsdale Central Art Department. We, the art faculty, as mentors, coaches, jurors, and artists, are committed to creating a challenging, authentic, and caring creative environment. We will actively involve students with the visual arts through theory and practice. We will challenge students to develop awareness of excellence and the role of art in human life and human culture.

STUDIO ART

Course # 5101

1st or 2nd semester

Credit: 0.5

Students will explore fundamental aspects of design, drawing, painting, jewelry, mixed media, and sculpture. Emphasis will be placed on creativity, craftsmanship, and problem solving. Studio Art is the only course in which introductory students can experiment in a variety of materials. *It is highly recommended that students interested in Drawing and Painting start with Studio Art as a foundation.*

Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$20.00

DRAWING

Course # 5211

1st or 2nd semester

Credit: 0.5

Drawing is a specialized art course that teaches students a variety of strategies to improve his/her ability to draw from life. The course also introduces several drawing tools, including: pastel, charcoal, colored pencils, and pen and ink. A development of individual style and understanding of design will be stressed.

Prerequisite: Studio Art is highly recommended. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00

ADVANCED DRAWING

Course # 5221

1st or 2nd semester

Credit: 0.5

Advanced Drawing is a continuation of the themes and techniques started in the Drawing course in which students are asked to develop work which demonstrates mature drawing ability. Students are expected to investigate how drawings can be designed to communicate original ideas to a viewer. Students will be required to work on their drawings beyond classroom time.

Prerequisite: 5211. Open to grades 10, 11 and 12. Supply Fee: \$17.00

Art Department

PAINTING

Course # 5311

1st or 2nd semester
Credit: 0.5

Painting is a course that introduces students to the complexities of painting. Knowledge of a variety of painting materials, processes, and techniques is stressed. Acrylics, watercolor, and oil are used by students to create meaningful and original works of art.

Prerequisite: Studio Art is highly recommended. Open to grades 9, 10, 11 and 12. Supply Fee: \$20.00

ADVANCED PAINTING

Course # 5321

1st or 2nd semester
Credit: 0.5

Advanced Painting is a continuation of the exploration started in Painting. In Advanced Painting, students are able to gain more experience with painting materials introduced in the previous course. Students are expected to demonstrate their painting skill through the creation of a personal series.

Prerequisite: 5311. Open to grades 10, 11 and 12. Supply Fee: \$20.00

JEWELRY AND METAL SMITHING

Course # 5351

1st or 2nd semester
Credit: 0.5

This course is for students interested in learning to create jewelry and/or small scale sculptures using metals and other materials. A range of metal fabrication techniques and alternative types of media will be explored. A diverse set of images will be used to explore design concepts to enhance students' visual awareness and problem-solving.

Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$21.00

ADVANCED JEWELRY AND METAL SMITHING

Course # 5361

1st or 2nd semester
Credit: 0.5

This course is a continuation of Jewelry and Metal Smithing but on an advanced level. A wider range of metal fabrication methods and materials will be introduced than in the entry level course. The concept of body adornment and the contribution of jewelry to the enhancement of the body will be addressed and studied. The course will focus on the development of independent thinking and personal expression. This concentration enables students to explore the potential of jewelry as a communication tool.

Prerequisite: 5351. Open to grades 10, 11 and 12. Supply Fee: \$21.00

CERAMICS/CLAY SCULPTURE

Course # 5421

1st or 2nd semester
Credit: 0.5

Using clay as an art material will be the focus for this course. The student will create hand-built projects, work on the potter's wheel, and apply glazes. Students will also develop an understanding, appreciation, and sensitivity to clay and its role in history and culture.

Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00

ADVANCED CERAMICS

Course # 5431

1st or 2nd semester
Credit: 0.5

Advanced Ceramics continues the exploration of clay as a functional and artistic medium. This course will further explore advanced handbuilding and wheel throwing techniques. Complex projects will challenge the students artistically, as well as technically. The students will spend a majority of the semester working on the potter's wheel and exploring advanced technique. Advanced handbuilding and glazing techniques will also be covered.

Prerequisite: 5421. Open to grades 10, 11 and 12. Supply Fee: \$17.00

SCULPTURE

Course # 5441

1st or 2nd semester
Credit: 0.5

In this studio course, students will explore and develop three-dimensional design. Wood, clay, plaster, metals and found objects, are some of the materials that will be used. Emphasis will be placed on the examination of contemporary and historical roles of sculpture in society.

Prerequisite: One semester of Art. Open to grades 9, 10, 11, 12. Supply Fee: \$17.00

IDEAS IN ART HONORS

Course # 5473

1st or 2nd semester

Credit: 0.5 (may be repeated twice)

Students will create a body of artwork based on a personal exploration of a central theme or idea. This body of work represents the results of rigorous research, planning and problem-solving. Each student is required to create a reference manual that combines multiple explorations of a variety of media. The work produced in this course may be used as part of the Advanced Placement Art Portfolio.

Prerequisite: Advanced level course, portfolio review with departmental approval. Open to grades 11,12. Supply Fee: \$20.00

ADVANCED PLACEMENT ART HISTORY

Course # 5440

Full year

Credit: 1.0

This course provides a survey of the history of art from pre-historic to present time. It is designed to prepare students to take the Advanced Placement examination in Art History. Methods of analyzing and evaluating works of art will be introduced. Students enrolling in this course are expected to have well developed writing skills and an interest in art and culture.

Prerequisite: Departmental approval. Open to grades 10, 11 and 12.

ADVANCED PLACEMENT STUDIO ART

Course # 5450

Full year

Credit: 1.0

This course provides accelerated students with a challenging program of college-level studio work. Prior to the end of the academic year, a portfolio of approximately 44-46 pieces will be submitted to the College Board for evaluation and possible college credit. This advanced placement program requires more time and commitment than typical high school art courses. Therefore, the students enrolling in the course should be highly motivated, serious, self-directed and willing to work. The Ideas in Art course is highly recommended for students considering this course. **Students interested in this course need to submit a portfolio of eight pieces to the Art office before first semester final exams.**

Prerequisite: Portfolio review and Departmental approval. Open to grades 11 and 12. Supply Fee: \$40.00 (excludes series materials)

Art Department

Integrated Art and Technology Education Program

The Integrated Art and Technology Education Program is offered as an elective course of study to all students at Hinsdale Central. Our program is interested in the use of technology as a tool or medium in various art/technology-related areas of study, including Graphic Communications, Photography, and Digital Imaging.

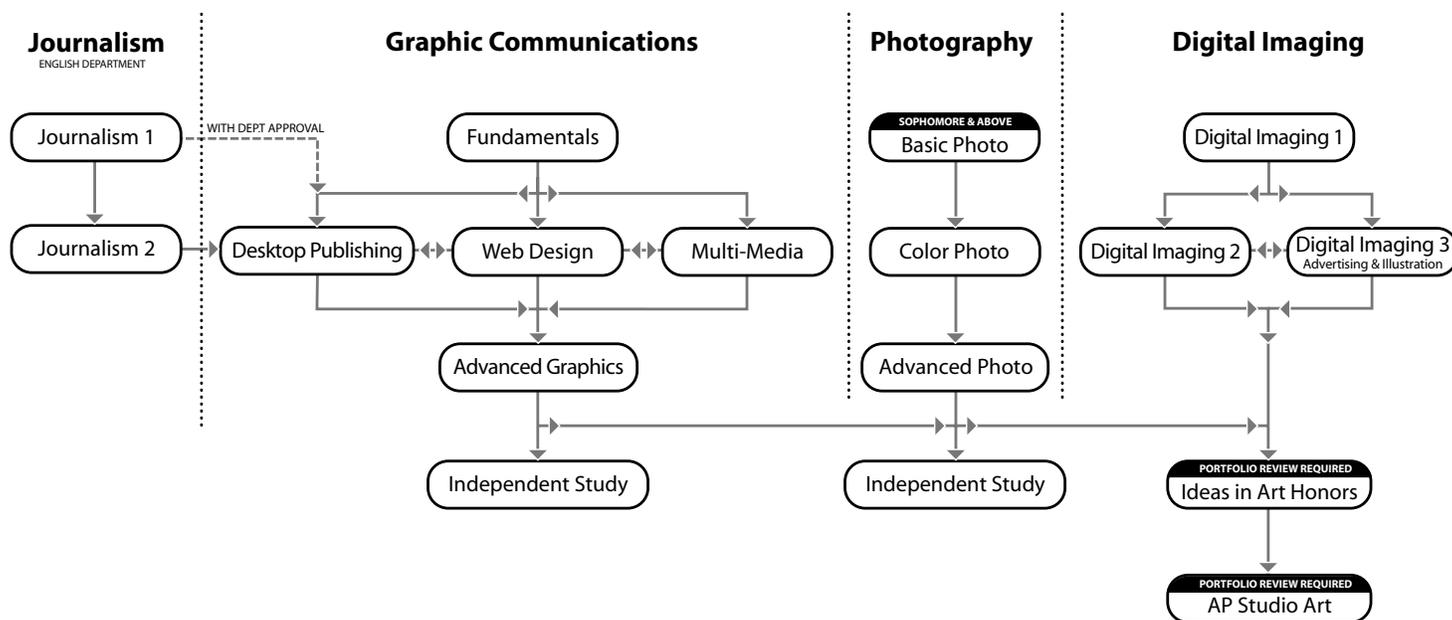

Articulated credits at College of DuPage are available to Hinsdale Central students who complete certain courses at Hinsdale Central with a minimum grade of a B and who, upon graduation, attend C.O.D.

The following courses offer articulated credit at College of DuPage:

- Digital Imaging 3: Advertising and Illustration
- Basic Photography
- Color Photography

Each class has a lab fee charged to students for materials.

The mission of the Integrated Art and Technology Education Program at Hinsdale Central High School is to create opportunities for students to use technology as a tool to demonstrate creative expression and/or technical skill. Courses offered in this program will provide students with experiences in digital media and technology, including: photography, graphic communications, design and illustration, digital imaging, web design, multimedia, animation, and other relevant digital media and technology.

Integrated Art & Technology Education Program

Program Course Sequences

DIGITAL IMAGING PROGRAM

DIGITAL IMAGING 1
Course # 5121
 1st or 2nd semester
 Credit: 0.5

Digital Imaging 1 introduces the student to the artistic and creative potential of the computer. The creation of original works using design elements and principles will be emphasized. The software programs Adobe Photoshop CS2, Adobe Illustrator CS2, Macromedia Flash MX, and Adobe InDesign will allow students to create images. Students will also gain experience in scanning and digital photography.

Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00

DIGITAL IMAGING 2

Course # 5132

2nd semester

Credit: 0.5

Digital Imaging 2, a continuation of Digital Imaging 1, further explores the creative potential of the computer and the software used to create artwork. Students will increase their knowledge of computers and various software programs. Knowledge of computer applications in Adobe Photoshop CS2, Adobe Illustrator CS2, Macromedia Flash MX and Adobe InDesign will be explored, as well as the creation of original, artistic works of art using scanning, digitizing and digital photography. Students will explore post modern principles and develop a theme to compile a series of artwork.

Prerequisite: 5121. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00

DIGITAL IMAGING 3: ADVERTISING AND ILLUSTRATION

Course # 5331

1st or 2nd semester

Credit: 0.5

This course explores the commercial application of Advertising and the basics of Illustration. Computer and some traditional illustration skills will be used. The course will be run like an advertising design business with a client/artist relationship underlying major projects. A knowledge of Photoshop and Illustrator is helpful.

Prerequisite: Digital Imaging 1. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00

GRAPHIC COMMUNICATIONS PROGRAM

GRAPHIC COMMUNICATIONS-FUNDAMENTALS (GCF)

Course # 6661

1st or 2nd semester

Credit: 0.5

This course provides students with the essential skills necessary for creating print and web documents. Special emphasis is placed on furnishing students with realistic experiences using industry standard software such as Adobe Illustrator and PhotoShop. Areas of study include technical illustration, typography, color models, photo retouching and image preparation. This course provides sound fundamental skills for later courses in Graphic Communications.

Prerequisite: None. Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00

GRAPHIC COMMUNICATIONS -DESKTOP PUBLISHING (GCDP)

Course # 6650

1st or 2nd semester

Credit: 0.5

Learn to design, layout and prepare documents for print. Use of Adobe InDesign and related Adobe products is stressed. Topics include typography and typographic controls, color usage, preparation of photographic and line art, working with copy, setting up master pages and style sheets, paper characteristics, and binding processes. This course covers essential skills used in producing the Devil's Advocate (newspaper) and El Diablo (yearbook) and is especially recommended for students who are interested in editorial positions.

Prerequisite: GCF or Journalism 1 (J1 taken concurrently with dept. approval) Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00

GRAPHIC COMMUNICATIONS -WEB DESIGN (GCW)

Course # 6662

1st or 2nd semester

Credit: 0.5

Create professional looking web sites! Web Design provides students with an overview of essential disciplines found in electronic publishing for the Internet. **This is not a programming course.** Instead, the focus of the class will be on providing students with realistic experiences needed to create HTML based web sites using professional web page editing software. Areas of study include Internet history, information architecture, interface design, site navigation systems, graphic optimization, and web page editor use.

Prerequisite: Graphic Communications-Fundamentals (GCF). Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00

GRAPHIC COMMUNICATION WEB-BASED MULTIMEDIA (GCMW)

Course # 6681

1st or 2nd semester

Credit: 0.5

Create motion graphics and video! This course give students the skills to create animated graphics, Flash animations, and produce simple videos. Students will gain experience using industry standard software like Adobe Image Ready, and Flash to create many to the types of motion graphics found on the web. Students will also be introduced to digital video, learn how to capture and edit their footage, and ultimately producing their own short commercials.

Prerequisite: Graphic Communications-Fundamentals (GCF). Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00

Art Department

GRAPHIC COMMUNICATION ADVANCED GRAPHICS (GCA)

Course # 6660

1st or 2nd semester

Credit: 0.5

This course is designed for those students who wish to apply the skills learned in their study of Graphic Communications to real world projects. Students will focus on several areas of interest and develop real world products in a client-project manager arrangement.

Prerequisite: Graphic Communications-Fundamentals (GCF) and one of the following: GCW, GCMM, GCDP. Open to grades 10, 11 & 12. Supply Fee: \$10.00

GRAPHIC COMMUNICATION INDEPENDENT STUDY (GCIS)

Course # 6905/6906 - Graphic Communications

1st or 2nd semester

Credit: 0.5

This course is for students who have exhausted other course offerings and wish to further skills learned in the Graphic Communications program in an independent atmosphere.

Prerequisite: DEPARTMENT APPROVAL. Open to grades 11 & 12. Supply Fee: \$10.00

PHOTOGRAPHY PROGRAM

BASIC PHOTOGRAPHY

Course # 6691

1st or 2nd semester

Credit: 0.5

Basic Photography is for students interested in learning the techniques necessary to produce technically correct and aesthetically pleasing photographs, as well as the responsibility of caring for photographic equipment using the 35 mm SLR camera. Areas of study will include, but are not limited to: the composition of good photographs; the processing of black and white photographic materials; and proper application of equipment, supplies and special darkroom techniques. Equipment and supplies will be provided and cameras will be available for students who do not have access to a 35mm SLR camera.

Prerequisites: None. Open to grades 10, 11 & 12. Supply Fee: \$35.00.

COLOR PHOTOGRAPHY

Course # 6701

1st or 2nd semester

Credit: 0.5

This course is designed for someone interested in the modern methods of color photography. The student will use a film and digital SLR camera to capture their images. Areas of study include, but are not limited to: the principles of color and light; elements of a good photograph; capturing images on negatives, slides and digital media; printing in color; and preparing photographs for display. Equipment and supplies will be furnished. Cameras are available for students who do not own or have access to a film or digital SLR camera. Basic Photography and Color Photography together have articulated credit with The College of DuPage.

Prerequisites: Basic Photography. Open to grades 10, 11 & 12. Supply Fee: \$35.00.

ADVANCED PHOTOGRAPHY - (Formerly Intermediate Photography)

Course # 6812

2nd semester

Credit: 0.5

In this advanced level course, students will be expected to improve upon their current level of photographic ability. In terms of technique, this will involve the introduction of the medium format camera and the zone system (a procedure which will allow students to make more carefully controlled photographic prints.) Additionally, some non-traditional films, papers, and emulsions will be introduced. In terms of content, through class assignments and independent works students will begin to use the photographic medium to more effectively articulate ideas. Students may work with black and white film, color film, and digital cameras to capture images.

Prerequisite: Basic Photography and Color Photography with instructor approval. Open to grades 11 and 12. Supply fee: \$40.00.

PHOTOGRAPHY- INDEPENDENT STUDY

Course # 6907/6908

Credit: 0.5

This course is designed for students who have completed course sequence in photography program and desire further independent course work.

Prerequisite: DEPARTMENT APPROVAL. Open to grades 11 & 12. Supply Fee: \$40.00

BUSINESS

Accounting
Accounting Honors
Advanced Computer Applications
Business Law 1 & 2
Consumer Economics
Digital Communication Tools 1
Digital Communication Tools 2
Digital Tools and Applications
Entrepreneurship
Internship
Introduction to Business
Investment Planning
Marketing
Visual Basic Programming

Business courses can fulfill 1 credit for the District 86 graduation requirement in the Elective Arts. Business courses can also be taken for general/elective credit. The 0.5 consumer education graduation requirement may be met by successful completion of the department's Consumer Economics course or Introduction to Business.

Business Department courses are electives; however, with the increase in reliance on technology in our society, the department strongly recommends that all students include computer courses in their high-school studies (i.e., Digital Communication Tools 1 & 2, Digital Tools and Applications, Advanced Computer Applications).

Students who are contemplating a Business major in college should select one or more Business electives. Because of the difficulty of college-level Accounting, students are urged to take an Accounting course at Hinsdale Central.

Business Department Computer Curriculum

Computer Courses

DIGITAL COMMUNICATION TOOLS 1*Course # 6121*

1st or 2nd semester

Credit: 0.5

This course enables students to acquire and refine vital and emerging computer skills in this digital age. Students will begin by developing keyboarding skills using the touch method. Students will also be introduced to some of the latest input technologies, including speech recognition software and using tablet PC's. Constructing, formatting and editing documents using Microsoft Word, Excel, and PowerPoint will be the focus of production work in this course. Internet applications and email will also be taught and utilized during class projects. [Credit is NOT given for both Digital Communications Tools 1 and Digital Tools and Applications.]

Prerequisite: None. Next course in sequence: Digital Communications 2. Open to grades 9, 10, 11 & 12.

DIGITAL TOOLS AND APPLICATIONS*Course # 6130*

Full year

Credit: 1.0

This course enables students to acquire and refine vital and emerging computer skills in this digital age. Students will begin by developing keyboarding skills using the touch method. Students will also be introduced to some of the latest input technologies, including speech recognition software and using tablet PC's. Constructing, formatting and editing of documents using basic and more advanced features Microsoft Word, Excel, and PowerPoint. Desktop Publishing, database, and web page development will also be introduced. Internet applications and email will also be taught and utilized during class projects. This year-long course will take your computer skills to new heights, enabling you to integrate technology in a variety of ways in projects for other classes. [Credit is NOT given for both Digital Communication Tools 1 and Digital Tools and Applications.]

Prerequisite: None. Next course in sequence: Advanced Computer Applications. Open to grades 9, 10, 11 & 12.

DIGITAL COMMUNICATION TOOLS 2*Course # 6331*

1st or 2nd semester

Credit: 0.5

Continue to develop your overall computer skills in this course as more advanced features are taught in word processing, spreadsheets and charts, and digital presentations. Desktop publishing, database and web page development will also be introduced. Constructing, formatting and editing of documents using Microsoft Word, Excel, PowerPoint, Publisher, Access and FrontPage will continue to be the focus of production work in this course. Internet applications and email will also be utilized during class projects. Students will also continue to work with some of the latest input technologies, including speech recognition software, as well as stylus input and hand-writing conversion using Tablet PC's.

Prerequisite: None, however, Digital Communication Tools 1 is recommended. Proper keyboarding technique and speed, along with basic document development, formatting, and proofreading are expected. Open to grades 9, 10, 11 & 12.

ADVANCED COMPUTER APPLICATIONS*Course # 6341*

1st or 2nd semester

Credit: 0.5

Can't get enough of computers? This course may be for you. Students will further their skills using Microsoft Office (Word, Excel, PowerPoint, Access) and increase their web page development skills. Video capture and editing software will also be introduced. A simulated company web page will be developed by students and used throughout the course to demonstrate their new computer skills.

Prerequisite: Digital Communication Tools 2 or Digital Tools and Applications. Open to grades 10, 11 & 12.

VISUAL BASIC PROGRAMMING*Course # 6351*

1st or 2nd semester

Credit: 0.5

Do you have a desire to take your computer skills to a new level? If so, then Visual Basic may be the course for you. Learn how to create applications in a graphical user interface to solve business problems. Microsoft's Visual Basic simplifies many routine programming tasks by providing tools that allow you to create applications for the Windows operating system. A variety of stand-alone and Microsoft Office-related applications will be developed.

Prerequisite: None. Open to grades 10, 11 & 12.

Business

General Courses

INTRODUCTION TO BUSINESS

Course # 6100

Full year

Credit: 1.0 (0.5 Elective Arts/0.5 Consumer Ed. - Must complete the entire year to receive Consumer Ed. credit)

This course gives students a background in the basic operations of business and develops an understanding of the economic role of business in our society. Major areas of study include banking, credit, insurance, budgeting, consumer protection, government, entrepreneurship and taxes. Skill is developed through a wide variety of activities including computer research, projects, and classroom activities. **Successful completion of this course fulfills the District's Consumer Education requirement for graduation.**

Prerequisite: None. Open to grades 9 and 10.

INVESTMENT PLANNING

Course # 6111

1st or 2nd semester

Credit: 0.5

In this course students will study basic investment principles involving stocks, commodities, bonds and mutual funds. Students will also learn about tax information, government regulations of securities and on-line investing. Teams will be formed to participate in the Stock Market Game by trading on-line.

Prerequisite: None. Open to grades 10, 11 and 12.

ACCOUNTING

Course # 6170

Full year

Credit: 1.0

This course develops a basic understanding of double-entry accounting. The accounting cycle, accounting theory, financial reports and financial analysis are included. Accounting simulation sets, Excel spreadsheets and automated accounting software are used to apply all accounting concepts. This course is recommended for college-bound students planning a career in accounting, finance, management or marketing.

Prerequisite: None. Open to grades 11 and 12.

ACCOUNTING HONORS

Course # 6180

Full year

Credit: 1.0

Accounting Honors will prepare students for the rigor of college accounting. Students will develop an understanding of double-entry accounting. Topics covered include the following: accounting cycle, accounting systems, internal controls, journals, receivables and payables, accruals and deferrals, inventory, fixed assets and depreciation, financial statement preparation and analysis, taxes, and an introduction to managerial and cost accounting. A computerized accounting program will also be utilized, as well as the Excel spreadsheet program.

The core material for this course is similar to Accounting 6170; however, more topics are covered, the pace is accelerated and expectations are higher. This course is highly recommended for motivated students planning to enter a college business program.

Prerequisite: Department Chair approval. Open to grades 11 and 12.

MARKETING

Course # 6181

1st or 2nd semester

Credit: 0.5

This course focuses on the activities necessary to market products, services, and ideas to consumers. Major topics include market segmentation, consumer behavior, marketing research, product planning, and advertising. Students will apply marketing concepts learned in class by researching, creating and advertising new products.

Prerequisite: None. Open to grades 10, 11 and 12.

BUSINESS LAW 1

Course # 6231

1st or 2nd semester

Credit: 0.5

This course introduces students to the legal system and the law as it applies to personal and business situations which may occur in their daily lives. It also examines the court system, torts, technology and the law, contracts, bailments and real estate transactions. Key elements of this course are case studies, mock trials and a field trip to the courts.

Prerequisite: None. Next course in sequence: Business Law 2. Open to grades 11 and 12.

General Courses

BUSINESS LAW 2

Course # 6232

2nd semester only

Credit: 0.5

This course examines the criminal justice system, the Supreme Court, family law, wills and estates, ethics and employment policies and contracts. Group discussions, case studies, guest speakers and a field trip will be utilized to present and examine these concepts. To develop a better understanding of the legal system, students will participate in a mock trial tournament.

Prerequisite: Business Law 1. Open to grades 11 and 12.

ENTREPRENEURSHIP

Course # 6241

1st or 2nd semester

Credit: 0.5

Do you have an interest in owning or running a business some day? This course will help you develop that entrepreneurial spirit and the skills necessary to be successful in your new business. Topics of study include the entrepreneurial personality and skills; marketing, financing and managing a business; legal requirements of a business; and career opportunities in entrepreneurship. Students will develop an idea, create a business plan, and then use the business plan to actually start and run a business in this course.

Prerequisite: None. Open to grades 11 and 12.

CONSUMER ECONOMICS

Course # 6301

1st or 2nd semester

Credit: 0.5

This course helps students to understand the consumer's role in a mixed economy. Students will learn about various topics that they will use their entire life. Topics of study include: money management, consumer rights and responsibilities, credit, purchasing of goods and services, making sound investment plans and preparing individual tax returns. **Successful completion of this course fulfills the District's Consumer Education requirement for graduation.**

Prerequisite: None. Open to grades 10, 11 and 12.

INTERNSHIP

Course # 8401, 8402

1st or 2nd semester

Credit: 0.25 general credit only—not
Elective Arts credit)

This program is designed to provide students with an opportunity for career exploration in a field of their choice. Students will work with a mentor outside of the school day for 50-75 hours in their career field. They will be expected to keep a detailed journal, write a reflection paper, and discuss their experiences with a related class.

Prerequisite: None. Open to grades 11 and 12 upon acceptance after interview.

Rahul Sawlani, edit.

DRIVER EDUCATION

Course # 7461, 7462

1st or 2nd semester

Credit: 0.25

Classroom Driver Education, though an elective course, is required in order to obtain a state driver's license prior to the age of 18. Driver Education will follow state mandates on the number of hours of classroom instruction and in-car training. Student schedules must allow for one period per day during one semester in order to complete course requirements. Coordinator: Alan Housner

Due to recent changes in Drivers Education laws by the State of Illinois, our school may not be able to honor all requests by students to enroll in Drivers Education during their sophomore year. Students will be enrolled according to birthdates.

Students enrolled in Driver Education will receive two grades at the end of the semester: one for the classroom phase, and one for the behind-the-wheel phase. Upon successful completion of the Driver Education Cooperative Testing program, students will be eligible for their license without need for further examination by the Illinois Secretary of State Office. **\$20.⁰⁰ Permit fee required by State.**

Prerequisite: None. Preference is given to grades 10, 11 and 12.

Per State Law:

As a prerequisite, students enrolling in Driver Education must be passing eight semester classes within the two most recent semesters of attendance. Only classes used to determine a student's GPA will be allowed to meet this requirement.

Nick Gawriluk, design
Brendan Husarik, design

Students eligible for special education services as specified by an Individualized Education Program (IEP) receive specialized instruction and services through one or more of the following approaches:

- individualized academic accommodations and/or modifications within regular education classrooms,
- structured assistance within regular education classrooms,
- structured assistance outside the regular class,
- related services, and
- direct instruction in specialized course offerings.

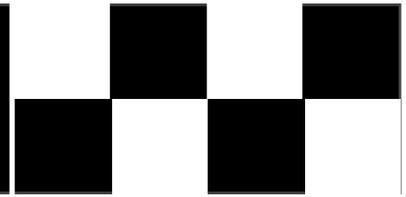

The following specialized classes taught by certified special education teachers may be implemented in the 2008-2009 school year. **Course enrollment is determined by IEP recommendation.** Courses meet HCHS graduation requirements.

** May be taken more than once for credit (maximum 4.0 credits).

ENGLISH

High School District 86 requires the successful completion of a minimum of four English credits for graduation. In addition, all students who are enrolled in school must be enrolled in an English course **each semester**. The four credits in English must be taken and passed sequentially and include full year courses freshman and sophomore years and full or half year courses junior and senior years. Junior and senior students must take Core English courses in the following areas: semester courses in Writing, Literature and Communication, or full year courses in Literature/Writing. Only one Communication course taken junior or senior year will count toward the Core requirement. There are enrichment courses open to all grade levels.

VISION STATEMENT

The skills and knowledge of English/language arts are essential for student success in virtually all areas of the curriculum and society. To meet the challenges of the 21st Century and beyond, students need to be clear and effective writers and speakers, critical and insightful readers, skilled information processors, collaborative and independent, and life-long learners. With the guidance of parents, community and a dedicated English faculty, our students will graduate from Hinsdale Central as valuable contributors to the world in which we live.

MISSION STATEMENT

The mission of the English Department is to develop in each of our students the following academic attributes: an understanding and appreciation of literature; a proficiency and confidence in writing; the ability to understand communication clearly through active listening, critical observation, and analysis; meaningful questioning skills; habits of critical reading, writing, and speaking skills that carry over to adult life; creativity and imagination in the areas of reading, writing, and speaking; and an appreciation of various cultural and human perspectives through the study and discussion of literature.

English Department

ESL-ENGLISH 1

Course # 1030

Full year

Credit: 1.0

This course is designed for students whose first language is not English and whose communication skills need more support than can be provided in a regular English class. Listening, speaking, reading and writing will be taught to assist the students in learning standard American English. This course will parallel the goals and skills of English 1. In addition, it will provide activities to include students in the American culture.

Prerequisite: Transitional Program of Instruction (TPI) director and English Department Chair approval. Open to grades 9 - 12.

ESL-ENGLISH 2

Course # 1040

Full year

Credit: 1.0

This course continues the work started in ESL-English 1. It will continue to develop the students' skills in listening, speaking, reading and writing of standard American English. In addition it will assist students in the reading and writing skills needed in their content area courses. Course materials may include those from English 2.

Prerequisite: TPI director and English Department Chair approval. Open to grades 9 - 12.

ENGLISH 1

Course # 1110

Full year

Credit: 1.0

Freshman English incorporates instruction in many areas including study skills, vocabulary development, library experiences, literature, and the writing process. The literature includes short story, nonfiction, drama, and novels. Reading, writing, speaking, listening, and thinking skills are emphasized. Independent reading and research projects are intended to develop life-long learners. Technology is integrated into the curriculum with a "hands-on" focus. These activities are designed to foster interest and stimulate class participation. The goal is to develop competent learners, thoughtful readers, enthusiastic writers and effective oral communicators. **This course satisfies the ISBE graduation requirement for "intensive writing."**

Prerequisite: Incoming freshman eligibility is based on multiple sources of information, including EXPLORE scores and recommendation of 8th grade instructor. Open to grade 9.

ENGLISH 1 - HONORS

Course # 1120

Full year

Credit: 1.0

This course is for the student who has achieved a high level of written and spoken accuracy and who reads avidly and enthusiastically. Students read a variety of literature. Discussion, in-depth analysis, and written assignments accompany these readings. Classical and contemporary drama are taught and creative writing from the students is encouraged through their own poetry and story composition. In addition, the expository writing process and grammar usage are emphasized. Speeches and group performances are also required. Consistent, thoughtful class participation is highly valued. **This course satisfies the ISBE graduation requirement for "intensive writing."**

Prerequisite: Incoming freshman eligibility is based on multiple sources of information, including EXPLORE scores and recommendation of 8th grade instructor. Open to grade 9.

ENGLISH 2
Course # 1210
Full year
Credit: 1.0

English 2 covers the areas of literature, writing, vocabulary, grammar and speech. Through literature, selected plays, poetry, short stories and novels, students will learn to analyze and appreciate literature. In the area of writing, an emphasis is placed on multi-paragraph essays. Grammar and vocabulary will be covered throughout the year in conjunction with writing and literature. Improvement of public speaking and presentation skills is also a focus of the course. The use of technology in classroom presentations is emphasized. Consistent class participation is imperative. **This course satisfies the ISBE graduation requirement for “intensive writing.”**

Prerequisite: English 1. Open to grade 10.

ENGLISH 2 - HONORS
Course # 1220
Full year
Credit: 1.0

This course is designed for students who show strong motivation and high academic achievement. A commitment to developing critical thinking patterns and clear, effective communication skills form the foundation of the curriculum. A thematic approach will emphasize the role of literature in society. This course offers a variety of challenging reading and writing ranging from creative papers to essays about literature. Students are expected to work on long-range assignments and to be consistently active in class discussions. Active class participation is expected of all students. **This course satisfies the ISBE graduation requirement for “intensive writing.”**

Prerequisite: English 1 or English 1 Honors and Department Chair approval. Open to grade 10.

CORE WRITING COURSES

COMPOSITION
Course # 1311
1st or 2nd semester
Credit: 0.5

This course focuses on the development of the multi-paragraph essay along with mechanics and vocabulary and is taught in conjunction with the use of the computer writing lab and the Writing Center. The core writing assignments include personal narration, comparison/contrast, process, description, and a research paper. In addition, on a weekly basis, students participate in free-writes that stimulate their thinking processes, contribute to discussions on writing, develop written responses to a variety of current issues, and work within groups to evaluate the effectiveness of their writing assignments.

Prerequisite: English 2. Open to grades 11 & 12.

EXPOSITORY WRITING
Course # 1321
1st or 2nd semester
Credit: 0.5

This course includes a variety of expository writing experiences. Required papers include: formal letters, persuasive, literary analysis, comparison/contrast and a research paper, many in conjunction with the computer writing lab, Writing Center, and library. Skills such as using the library, taking notes, and formulating bibliographies are learned. Grammar, mechanics, and usage are stressed. Methods used include individual conferences, writing workshops, and peer editing where students write, proofread, revise and analyze papers. Students must write a research paper in order to earn credit for the course.

Prerequisite: English 2. Open to grades 11 & 12.

RHETORIC
Course # 1351
1st or 2nd semester
Credit: 0.5

This course is offered for college-bound students looking for further writing development. The text and course cover a number of writing strategies including definition, analogy, persuasion, causation, and literary analysis. Lecture, individual conferences, peer editing, and workshops are the methods employed. Library research and a successfully completed research paper take place the second quarter of the semester and must be completed to earn course credit.

Prerequisite: Expository Writing or English 3. Open to grade 12.

English Department

HONORS SEMINAR IN WRITING

Course # 1355

1st or 2nd semester

Credit: 0.5

Each Writing Center tutor independently researches a current topic with emphasis placed on primary research skills. Tutors select a committee of professionals to help them guide their research and compose a major senior thesis, written in three sections. Students also tutor peers in the Writing Center, as well as develop and teach mini-lessons on writing for English classes. Selection of tutors is based on completion of an application, a personal interview, and teacher recommendations.

Prerequisite: Expository Writing, AP Language and Composition or English 3, Department Chair approval. Open to grade 12.

CORE LITERATURE COURSES

SENIOR LITERATURE

Course # 1491

1st or 2nd semester

Credit: 0.5

This course exposes the students to literature from different countries, and is designed for the senior student who has taken U.S. Literature as a junior and wants a moderately paced perspective of world literature. Students write essays, take tests, give oral presentations and have group discussions about what they read.

Prerequisite: U.S. Literature - Open to grade 12.

UNITED STATES LITERATURE

Course # 1511

1st or 2nd semester

Credit: 0.5

This course focuses on reading and understanding works of American authors for the general level students. Several major novels will be included, along with some non-fiction, drama, and short stories. Assignments include study guides, group discussions, tests, projects, and essays. Daily homework is required.

Prerequisite: English 2. Open to grade 11.

WORLD LITERATURE

Course # 1541

1st or 2nd semester

Credit: 0.5

This college preparatory course for the average and above average reader wrestles with universal problems and themes, exposing students to the thinking and experience of different world cultures. Students read novels, short stories, plays and/or poetry and react in discussion, writing and projects. Grades are generally based on quizzes and tests, essay and other writing, projects, and class discussion and other forms of participation.

Prerequisite: None. Open to grade 12.

AMERICAN LITERATURE

Course # 1561

1st or 2nd semester

Credit: 0.5

This is a literature course for students who will read widely, study and interpret some of the great American works in their social and historical contexts. Students will also write numerous essays and present group and individual speeches. Class participation is imperative so that students can exchange ideas and interpretations of the literature.

Prerequisite: English 2. Open to grade 11.

BRITISH LITERATURE 1

Course # 1581

1st or 2nd semester

Credit: 0.5

Human tragedy, genuine emotion, realistic, flawed characters, and outrageous jokes - all reasons that we still read the works of Shakespeare. British Literature I offers students the opportunity to discover the genius of Shakespeare's plays. This course explores the comedies, tragedies, and histories of the most famous playwright of the English language. Emphasis will be placed on the memorable characters, riveting plots, and universal themes present in some of Shakespeare most popular plays. Evaluation is based on discussion, quizzes, essays, tests, and, of course, performance.

Prerequisite: None. Open to grade 12.

BRITISH LITERATURE 2**Course # 1591**

1st or 2nd semester

Credit: 0.5

This college preparatory course will offer students the opportunity to examine the effects of the expanding British Empire on Britain and other nations, specifically Ireland. Aside from examining such notable writers as Browning and Dickens, the course will focus on how the literature of Ireland reflects its rich and tumultuous history. Students will explore the Irish culture in conflict with Britain through a variety of genres such as fiction, non-fiction, music, and poetry. The use of comedy will also be explored as a means to shape societal views. Evaluation will be based on discussions of the readings, written activities, presentations, and tests/quizzes.

Prerequisite: None. Open to grade 12.

CORE LITERATURE/WRITING COURSES**ENGLISH 3****Course # 1320**

Full year

Credit: 1.0

English 3 is a challenging, full year course that combines American Literature and Expository Writing and offers the college-bound student a unique approach to a wide variety of assignments. A strong feature of this course is the emphasis on daily class participation and involvement by all students. Writing strategies studied include persuasive, comparison/contrast, letter writing, literary analysis and a research project. Students will investigate their developing relationship to American heritage and culture through their involvement in a number of creative projects. This course may be team taught by two English teachers in a larger class setting. This course meets the core course requirements for literature and writing.

Prerequisite: English 2. Open to grade 11.

AMERICAN STUDIES**Course # 1550**

Full year

Credit: 2.0 (one credit each of English and American History)

This course combines English with American History and is team-taught by two teachers, one from the English Department and one from Social Studies. Students will enjoy the combination of literature, history, writing, and oral presentations in both small and large group settings. Trends in American History and literature are discussed and researched. A variety of expository writing strategies are covered along with special projects and field trips. The course meets for two back-to-back periods.

Prerequisite: English 2. Open to grade 11.

ADVANCED PLACEMENT LANGUAGE AND COMPOSITION**Course # 1730**

Full year

Credit: 1.0

This college preparatory English course requires students to write papers using a variety of strategies and subjects and to write confidently and effectively. Students will read complex texts and explore issues by examining rhetorical strategies and stylistic choices used by American authors. This course assumes that students understand and capably use standard English grammar. There will be an emphasis on increasing students' vocabulary, improving sentence structures, and developing more effective and efficient organization techniques with regard to writing. Students will study non-fiction, fiction, and poetry. This course prepares students for the Advanced Placement exam in Language and Composition.

Prerequisite: English 2-Honors or Department Chair approval. Open to grade 11.

ADVANCED PLACEMENT LITERATURE AND COMPOSITION – BRITISH LITERATURE**Course # 1731**

1st or 2nd semester

Credit: 0.5

This Advanced Placement Literature and Composition course is the study of British Literature, including such classic authors as Shakespeare, Wilde, Joyce, and Conrad. There will also be a focus on the interpretation and analysis of Romantic and Victorian poetry in preparation for the Advanced Placement Literature and Composition exam. Assignments include in-class essays, memorization, and short analytical writings. Students are also responsible for leading daily class discussions in order to share ideas and interpretations of what they read. This course prepares students for the type of literary analysis asked of students in the Advanced Placement exam in Literature and Composition.

Prerequisite: AP Language and Composition. Open to grade 12.

English Department

ADVANCED PLACEMENT LITERATURE AND COMPOSITION – WORLD LITERATURE

Course # 1732

1st or 2nd semester

Credit: 0.5

This Advanced Placement Literature and Composition course is the study of world literature drawn from multiple genres, time periods, and cultures. A close analysis of literary works will take place in class and with students independently. Writing assignments will focus on the critical analysis of literature that will include authors representing myriad cultures. Assignments include in-class essays, research projects, memorization, and oral presentations. Students are responsible for leading daily class discussions about what they read. This course prepares students for the Advanced Placement exam in Literature and Composition.

**Prerequisite: AP Language and Composition, or Department Chair approval.
Open to grade 12.**

CORE COMMUNICATION COURSES

SPEECH/COMMUNICATION

Course # 1411

1st or 2nd semester

Credit: 0.5

This course helps students become effective communicators in everyday, person-to-person relationships. A variety of speeches is given, including narrative, argumentative, informative and interview speeches. Assignments vary between individual and small group presentations. The course teaches listening skills and the ability to give and receive tactful and constructive criticism. Speech organizational skills are emphasized and students are exposed to a wide variety of subject matter and must be involved daily in class discussion. At the completion of this course, each student should feel confident in choosing an appropriate topic, preparing written notes and outlines and delivering a 3-5 minute speech with a strong introduction, body and conclusion.

Prerequisite: None. Open to grades 11 & 12.

DISCUSSION AND DEBATE

Course # 1441

1st or 2nd semester

Credit: 0.5

This communication course teaches the skills and techniques needed in formal discussion and debate, among which are listening, leadership, courtesy, topic analysis, research, evaluation of information, and presentation. During first quarter, students participate in a variety of researched performance activities, such as simulated town meetings, talk shows, and current event speeches. Second quarter focuses on the skills of debating; teams of speakers research a controversial issue, decide on the pros and cons of a solution to the problem, and present their views to the class. Discussion and debate is particularly geared toward those interested in current events and who are familiar with the fundamentals of public speaking. There are written components required for each assignment. Students are evaluated on research, preparation, performance, and participation.

Prerequisite: None. Open to grades 11 & 12.

ENRICHMENT COURSES

JOURNALISM 1

Course # 1651

1st or 2nd semester

Credit: 0.5

This course introduces students to the fundamentals of journalism. Emphasis is placed on interviewing, writing, editing, assessing the audience, and meeting deadlines. Units of study include responsibilities and ethics, Associated Press style, interviewing, news writing, editing, feature writing, opinion writing, sports writing, page design, and computer skills. All final story assignments must be typed and the culminating activity is a feature story spread. This course is intended as a practical application of newspaper/newsmagazine newsgathering and writing techniques, not as an analysis of the media. While this course is open to all interested students, those students interested in becoming editors of *The Devils' Advocate* or *El Diablo* are strongly encouraged to take Journalism 1 sophomore year.

Prerequisite: None. Open to grades 10 & 11. All students must have a B average in English.

JOURNALISM 2: NEWSMAGAZINE

Course # 1661, 1662

1st or 2nd semester

Credit: 0.5

Students in this class are editors and will be responsible for publishing *The Devils' Advocate* according to established deadlines. Students will assume editorial leadership and participate in all activities required to create a quality publication using a desktop publishing system. Students will be expected to develop story ideas, research stories, write and edit copy, design pages and handle advertising accounts. Students should be prepared to spend out-of-class time working on the publication. Journalism 2 may be repeated for credit with consent of the instructor and department chair.

Prerequisite: Journalism 1, application and interview process, and consent of the newsmagazine advisor. Open to grades 10, 11 & 12.

JOURNALISM 2: YEARBOOK

Course # 1671, 1672

1st or 2nd semester

Credit: 0.5

Students in this class are editors and will be responsible for producing *El Diablo*. This course will cover skills and responsibilities of a journalist involved in publishing a yearbook. Students will organize, research, write copy and design page layouts. They will receive credit for work on yearbook. Journalism 2 may be repeated for credit with consent of the instructor and department chair.

Prerequisite: Application and interview process and consent of the yearbook advisor. Open to grades 10, 11 & 12.

DRAMA

Course # 1681

1st or 2nd semester

Credit: 0.5

This course provides basic instruction in acting techniques and dramatic evaluation. The one prerequisite is willingness to perform in front of other students and to act like characters different from one's self. Various plays, pantomimes, improvisations and cuttings from scripts are studied and performed. In addition to these activities, class members are encouraged to experience an audition and to work on the Hinsdale Drama Group's current production. An evening performance is required.

Prerequisite: None. Open to grades 9, 10, 11 & 12.

*** General credit only-not elective arts.

INTRODUCTION TO FAMILY & CONSUMER SCIENCES

Course # 6400

Full year

Credit: 1.0 (0.5 consumer education, 0.5 elective arts) Must complete the entire year to receive consumer education credit.

This course introduces the student to the following areas of Family & Consumer Science: consumer education, child care, interior design, foods and sewing. The consumer education unit focuses on basic economic concepts such as career opportunities, budgeting, banking, credit, transportation and housing. Additional class activities include an interior design project, basic food preparation and entertainment, sewing projects and exposure to child development. **Successful completion of this course fulfills the District's Consumer Education requirement for graduation. Supply fee \$25.00**

Prerequisite: None. Open to grades 9, 10, 11 & 12.

CREATIVE COOKING 1

Course # 6411

1st or 2nd semester

Credit: 0.5

This course is designed to teach basic food preparation skills utilizing various types of culinary equipment and a range of preparation and cooking techniques. The following areas of study are covered in this course: measuring, cutting skills, cooking methods, nutrition, fruits, vegetables, breads, pastas, vegetarian dishes, desserts, and microwave cooking. The course culminates in a student driven practical final meal applying the knowledge they have learned over the semester. While this course provides personal enrichment, it may also serve as a foundation for further training in food service. **Supply fee \$25.00**

Suggested follow-up courses: Creative Cooking 2 and Chef & Restaurant.

Prerequisite: None. Open to grades 9, 10, 11 & 12.

CREATIVE COOKING 2

Course # 6412

1st or 2nd semester

Credit: 0.5

This course, a continuation of Creative Cooking 1, provides training in the following advanced techniques of food preparation: international and gourmet foods, cakes and cake decorating, pasta, pastry, yeast breads, pies and more. Students prepare a variety of recipes. While this course provides personal enrichment, it may also serve as a foundation for further training in food service. **Suggested follow-up: Chef and Restaurant. Supply fee \$25.00**

Prerequisite: 6411. Open to grades 9, 10, 11 & 12.

CHEF AND RESTAURANT

Course # 6421

1st or 2nd semester

Credit: 0.5

Chef and Restaurant develops skills used in the fast growing food service and hospitality industries. Previous cooking experience is a plus and may be required in the future of this course. The main emphasis of this course is to develop and manage mini restaurants and a catering business. The restaurants include pre planned and student generated menus and themes. The catering business creates customized menus based on clients' individual requests. This course serves as a foundation for students wishing to enter a chef or hospitality training program or personal catering business. **Supply fee \$25.00**

***Prerequisite: Suggested Introduction to Family and Consumer Sciences ((6400) or Creative Cooking 1 (6411). Open to grades 11 & 12.**

*Due to classroom space limitations students who have previously completed Creative Cooking or IFACS will be given preferential placement.

SINGLE SURVIVAL

Course # 6441

1st or 2nd semester

Credit: 0.5

This course is designed to provide skills to live independently after high school. The following areas of study will be covered: personal assets, job searching, money management, credit, identity theft, nutrition, insurance, map reading, taxes, and reflection on current issues. There will be a basic meal preparation unit. **Supply fee \$5.00**

Suggested follow-up course: Personal Perspectives (6591).

Prerequisite: None. Open to grades 11 & 12.

PERSONAL PERSPECTIVES

Course # 6591

1st or 2nd semester

Credit: 0.5

This course, designed to help the student understand the challenges of our society, develops the student's ability to cope with problems and make adult decisions. Areas of study include: theories of personality development, family relationships, crisis in the family (alcoholism, divorce, death), communication skills, dating, marriage and parenting. **Suggested follow-up course: Single Survival (6441).**

Prerequisite: None. Open to grades 11 & 12.

Family & Consumer Sciences

CREATIVE SEWING

Course # 6551

1st or 2nd semester

Credit: 0.5

Students will learn to sew for practical purposes and personal enjoyment as they select three or more projects to meet skills requirements. Consecutive projects will increase in degree of difficulty as students use technology to assemble and create unique items. Areas of study include basic sewing machine techniques, fabric and pattern selection, construction techniques and interpreting pattern instructions. **Suggested follow-up courses: Creative Sewing Independent Study (6561) or Fashion Merchandising (6571). Supply fee \$10.00**

Prerequisite: None. Open to grades 9, 10, 11 & 12.

CREATIVE SEWING INDEPENDENT STUDY

Course # 6561

1st or 2nd semester

Credit: 0.5

This course focuses on advanced construction techniques on individually selected projects approved by the instructor. Students master the use of a computerized embroidery machine and serger. Areas of study may include textile arts, formalwear, pattern redesigning, fashion design, or other related areas of student interest. This course may be repeated twice, but subsequent projects must continually incorporate new sewing construction skills. **Suggested follow-up courses: Fashion Merchandising (6571) or second enrollment in Creative Sewing Independent Study (6561). Supply fee \$10.00**

Prerequisite: Creative Sewing. Open to grades 9, 10, 11 & 12.

FASHION MERCHANDISING

Course # 6571

1st or 2nd semester

Credit: 0.5

This course is designed to allow the student to explore and understand the various facets of today's fashion industry. Areas of study include: evolution of fashion, fashion drawing and design, the role of the fashion buyer, original design collection illustration, advertising and retailing functions. Projects include research on a specific designer, clothing trend studies, visual window display and a fashion show or class business incorporating all the retailing functions studied. While this course serves as a foundation for further training in a fashion related occupation, it also provides an opportunity for personal enrichment. **Suggested follow-up course: Creative Sewing (6551). Supply fee \$25.00**

Prerequisite: None. Open to grades 10, 11 and 12.

ARCHITECTURAL STYLES AND DESIGN

Course # 6451

1st or 2nd semester

Credit: 0.5

The focus of this course is on preparing students to select, furnish and decorate a residence. Emphasis is on the following: elements and principles of design, color, housing styles, window coverings, sample selection, decorating interiors and computer drafting. Design boards and technology presentations are incorporated in most projects. This course serves as a foundation for careers in architecture and interior design, as well as personal enrichment. **Supply fee \$25.00**

Prerequisite: None. Open to grades 10, 11 & 12.

CHILD CARE & DEVELOPMENT

Course # 6582

2nd semester only

Credit: 0.5

This course prepares the student for parenting or a career in the field of teaching or child-related occupations. Areas of study include family planning, pregnancy and childbirth, child development from infancy through eight years of age, and planning learning activities for an eight-week preschool practicum. Students will teach and observe children in our Discovery Corner Preschool as an integral part of the program. ***Suggested follow-up: Invitation to Teach (6481 or 6482).**

Prerequisite: None. Open to grades 10, 11 & 12. Articulated credit available through College of DuPage.

* Suggested 1st part of teaching sequence to be taken Sophomore or Junior year.

INVITATION TO TEACH

Course # 6481, 6482

1st or 2nd semester

Credit: 0.5

This course offers a realistic teaching experience enabling students to work under the supervision of certified staff at preschool, elementary or middle schools. Once placed, students will spend four days each week at their assigned school to assist, observe and teach young children. Teaching responsibilities include journaling, observations, creating a visual display, facilitating a field trip, creating and teaching a lesson, and shadowing a teacher for a day. Classroom study focuses on related issues in education.

Suggested Prerequisite: Child Care & Development (6581). Open to grade 12 only.

***Enrollment based on application, counselor recommendation, and instructor approval (based on academic standing, school attendance and character).**

Application may be picked up in the Guidance office.

* Suggested 2nd part of teaching sequence.

Hinsdale Central Foreign Language Department Department Mission

Our mission as a department is to enable students to acquire, develop, expand, and apply their knowledge of a second language.

We do this by working collaboratively within our learning community to

- Maximize student potential for learning and language acquisition, and
- Guide student learning by modeling good study habits and effective learning skills.

We do this so that students can integrate and transfer knowledge of a second language throughout their lives, and gain a broader perspective and understanding of world cultures within a respectful community of learners.

Two years of the same language will fulfill the entrance requirement of the state public universities in Illinois which will be in effect for the Class of 1993 and succeeding graduating classes. Most other universities require foreign language study for admission and may require it for graduation from specific degree programs. **High school students preparing for college should include one or more foreign languages in their preparation.**

Students entering the ninth grade with previous foreign language experience can complete the equivalent of six years of high school work, which may include Advanced Placement work. Students who complete the upper levels of a language often test out of the foreign language requirements, receive college credit, and/or are placed in advanced language courses in college. A four-year sequence of honors level courses is available in all languages offered by the department.

Etymology, a semester course, is highly recommended to all students who wish to increase their knowledge and understanding of vocabulary. Two or more foreign languages may be taken simultaneously. The latest research indicates that studying two languages at the same time is beneficial and that foreign language study has positive effects on a student's English language skills. Completing the third and fourth year in a sequence significantly improves achievement.

The first semester of a language must be passed before a student may take the second semester of the same language. Credit must be earned in both semesters of one level of a language before advancing to the next level.

Transfer students or students with foreign languages in their background are **required** to contact the department chair for placement. Students may need to take an oral and written exam to ensure proper placement.

* & ** indicates course offerings in alternating years. See course descriptions.

FRENCH

FRENCH 1

Course # 4110

Full year

Credit: 1.0

French 1 offers a basic introduction to the vocabulary and grammar of the language. The pace of the course begins moderately and increases as students have more experience with the language. Students will be taught basic reading and writing strategies using textbook examples. Reading, writing, speaking and listening skills are practiced and assessed regularly. Readings and projects center on cultural information. Although grammar concepts may be taught in English, students are always expected to use French in class to the extent possible. This course is conducted mostly in French.

Prerequisite: None. Open to grades 9, 10, 11 & 12.

FRENCH 2

Course # 4120

Full year

Credit: 1.0

This course is an articulated continuation of the French 1 program and continues building the same skills. Students are expected to participate actively in class activities and function in French to a greater extent, and all four skills are evaluated.

Prerequisite: A grade of C or better in French 1, or recommendation of the junior high school teacher. Open to grades 9, 10, 11 & 12.

FRENCH 2 - H

Course # 4125

Full year

Credit: 1.0

The sequential core material for this course is the same as French 4120. The pace is accelerated to allow for the reading and discussion of some short stories and other activities to challenge the more capable student. The course is conducted in French to a greater extent than is French 4120.

Prerequisite: Departmental approval. (Recommendation of the junior high teacher for freshman.) Open to grades 9, 10, 11 & 12.

FRENCH 3

Course # 4130

Full year

Credit: 1.0

This course is the study of the geography and culture of France interwoven concurrently with the study of grammar. Class activities include daily discussions of reading assignments enriched through film, French TV news clips, slides and newspaper articles. In addition, students do oral presentations and write short compositions. During second semester, students read and discuss *Le Petit Prince*. The course is conducted extensively in French.

Prerequisite: A grade of C or better in French 2. Open to grades 9, 10, 11 & 12.

FRENCH 3 - H

Course # 4135

Full year

Credit: 1.0

The sequential core material for this course is the same as French 4130. The pace is accelerated; the breadth and scope of the coverage is expanded, and some material is added to challenge the capabilities of the more able students. The course is conducted extensively in French.

Prerequisite: Departmental approval. Open to grades 9, 10, 11 & 12.

FRENCH 4

Course # 4140

Full year

Credit: 1.0

French 4 is the study of the history, and art of France throughout the centuries (pre-history to present time). Class activities include discussion of prepared reading selections, oral presentations, and the intensive study of one film. The course of study also emphasizes systematic grammar review and limited composition practice.

Prerequisite: A grade of C or better in French 3. Open to grades 10, 11 & 12.

FRENCH 4 - H

Course # 4145

Full year

Credit: 1.0

French 4 Honors is the study of the history, and art of France throughout the centuries (pre-history to present time). Class activities include discussion of prepared reading selections, oral presentations, and the intensive study of one film. The course of study covers systematic grammar review and more extensive composition practice than French 4. Inasmuch as this course leads sequentially to the AP French 5 course, the course content is supplemented with more challenging reading material and special emphasis is put on oral proficiency.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

Foreign Language

FRENCH 5

Course # 4150

Full year

Credit: 1.0

French 5 is a course that integrates the study of literature, advanced grammar and current events in France. The readings consist of short stories, and a novel from the 20th century organized around the themes of human relationships, moral dilemmas and existentialism. Class activities include discussions of texts in French, the study of one film per semester and improving grammar and writing proficiency. The course is conducted extensively in French.

Prerequisite: A grade of C or better in French 4. Open to grades 11 & 12.

ADVANCED PLACEMENT FRENCH LANGUAGE

Course # 4155

Full year

Credit: 1.0

Advanced Placement French Language, a study of literature of the 19th and 20th centuries, provides intensive and extensive reading, discussion and analysis in French of selected literary masterpieces by Mérimée, Rostand, and Voltaire. Students also write compositions in French on non-literary topics and study some current events with excerpts from French television. Advanced grammar review is continued. Course content is designed to improve all four language skills with special emphasis on idiomatic usage, and to prepare students for the Advanced Placement language exam in French.

Prerequisite: Departmental approval. Open to grades 11 & 12.

GERMAN

GERMAN 1

Course # 4210

Full year

Credit: 1.0

German 1 offers an introduction to the basic grammar and vocabulary of the language. Students are actively engaged in learning activities that allow them to practice and use German. Students use the language in structured activities, interactive conversations, and short presentations. Reading and writing exercises use material previously practiced orally. Assessment measures listening, speaking, reading and writing. The course is conducted extensively in the language.

Prerequisite: None. Open to grades 9, 10, 11 & 12.

GERMAN 1 - H

Course # 4215

Full year

Credit: 1.0

The sequential core material for this course is the same as German 4210. The pace may be accelerated and the breadth and scope of the coverage may be expanded. Some material is added to challenge the capabilities of the more able students.

Prerequisite: Departmental approval. Open to grades 9, 10, 11 & 12.

GERMAN 2

Course # 4220

Full year

Credit: 1.0

This course is a continuation of the first level course, developing more complex oral and reading and writing skills. The course is conducted almost entirely in the language. Supplementary reading of simple selections may be used to introduce the student to the world of German literature and to improve the student's ability in speaking and writing.

Prerequisite: A grade of C or better in German 1. Open to grades 10, 11 & 12.

GERMAN 2 - H
Course # 4225
Full year
Credit: 1.0

The sequential core material for this course is the same as German 4220. The pace is accelerated; the breadth and scope of the coverage is expanded and some material is added to challenge the capabilities of the more able students.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

GERMAN 3
Course # 4260
Full year
Credit: 1.0

German 3 is designed to develop greater fluency in oral proficiency, reading, writing, and further appreciation of German history and culture. The course features a selection of prose and poetry by contemporary and earlier German writers, and a systematic review and extension of basic grammar patterns. In addition to a basic text, one or more literary readers or plays may be used. Activities center around classroom discussion of reading selections, oral presentations, and original skits by students. The course is conducted extensively in German.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

GERMAN 3 - H
Course # 4265
Full year
Credit: 1.0

The sequential core material is the same as German 3. The pace may be accelerated; the breadth and scope of coverage may be expanded. Some material is added to challenge the capabilities of the more able students. The course is conducted extensively in German.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

GERMAN 4
Course # 4270
Full year
Credit: 1.0

German 4 provides an introduction to contemporary German life, literature and culture. The objective is to increase the student's skills in oral and written expression, and to give systematic cultural information and grammatical review. In addition to a basic cultural reader, selections of modern German short fiction will acquaint the student with present day trends and attitudes. Class activities center around classroom discussion of reading selections, including current news magazines. The materials and activities utilized in this course will help students to further improve and refine all four language skills. The course is conducted exclusively in German.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

GERMAN 4 - H
Course # 4275
Full year
Credit: 1.0

The sequential core material is the same as German 4. The pace may be accelerated; the breadth and scope of coverage may be expanded. Some material is added to challenge the capabilities of the more able students. Materials and activities utilized in this course will help students to further improve and refine all four language skills. The course is conducted exclusively in German.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

Foreign Language

LATIN

LATIN 1

Course # 4310

Full year

Credit: 1.0

Latin 1 is primarily designed to develop a student's ability to read and comprehend the Latin language. Students begin by learning the peculiar demands of an inflected language and are then introduced to Latin morphology, the declensions of its nouns and the conjugation of its verbs. Gradually, elements of syntax and grammar introduce the students to the fundamental requirements needed to read. Concurrent with these pursuits will be an ongoing discovery of the structure of the English language and its many borrowings from the Latin structure. Students' grasp of English grammar will grow substantially. An ever evolving Latin vocabulary helps students understand essential concepts in etymology, derivatives, and building a stronger and more precise vocabulary in English. Roman and Greek mythology and Roman daily life comprise the cultural component of the course.

Prerequisite: None. Open to grades 9, 10, 11 & 12.

LATIN 1 - H

Course # 4315

Full year

Credit: 1.0

The sequential core material of this course is the same as Latin 4310. The pace is accelerated; the breadth and scope of the coverage is expanded and some material is added to challenge the capabilities of the more able students.

Prerequisite: Departmental approval. Open to grades 9, 10, 11 & 12.

LATIN 2

Course # 4320

Full year

Credit: 1.0

This course builds on the grammatical and structural foundations established in Latin I. An emphasis is placed on reading and comprehending Latin. Students will complete the Latin I text and the grammar of the Latin II text before moving on to their first experience with unadulterated Latin. Authors to be read include Caesar, Catullus, Augustus, or whom ever the instructor feels the students are capable of reading. The cultural focus of the course will be the formation and development of the Roman Republic.

Prerequisite: A grade of C or better in Latin 1. Open to grades 10, 11 & 12.

LATIN 2 - H

Course # 4325

Full year

Credit: 1.0

The sequential core material of this course is the same as Latin 4320. The pace is accelerated; the breadth and scope of the coverage is expanded, and some material is added to challenge the capabilities of the more able students.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

LATIN 3-4 LATIN LITERATURE

Course # 4340

Full year

Credit: 1.0

Offered 2008 - 2009

The first semester of this course is a prose survey designed to further the development of students' translation abilities as they review essential grammar and vocabulary. The reading selections include letters of Pliny the Younger and the *Cena Trimalchionis* by Petronius. The second semester of the course includes reading selections from the elegiac poet, Catullus and the essayist/poet, Ovid. The work will focus on the metrical qualities of each author and their use of imagery and figures of speech. Attention will also be paid to the larger historical context of the authors and their works.

Prerequisite: Latin 2 and departmental approval. Latin 4340 and 4360 are offered in alternate years only. In 2008-2009 Latin 3-4 Literature (4340) will be offered. In 2009-2010 Latin 3-4 Vergil (4360) will be offered. Open to grades 11 & 12.

LATIN 3-4 VERGIL

Course # 4360

Full year

Credit: 1.0

Offered 2009 - 2010

The first semester of this course is a prose survey designed to further the development of students' translation abilities as they review essential grammar and vocabulary. The reading selections will be drawn from the late Republican period and will include works by Caesar, Augustus, and Cicero. These selections will provide a historical, literary and political context for the study of Vergil's major work, the *Aeneid*. The second semester involves reading and analysis of portions the *Aeneid*. The work stresses Vergil's use of meter, rhetorical style and poetic figures of speech.

Prerequisite: Latin 2 and departmental approval. Latin 4340 and 4360 are offered in alternate years only. In 2008-2009 Latin 3-4 Literature(4340) will be offered. In 2009-2010 Latin 3-4 Vergil (4360) will be offered. Open to grades 11 & 12.

ADVANCED PLACEMENT LATIN LITERATURE (Catullus-Ovid)

Course # 4355

Full year

Credit: 1.0

Offered 2008 - 2009

Preparatory to the Advanced Placement exam, the Advanced Placement Catullus-Ovid course examines selections from the elegiac poet, Catullus, and the essayist/poet, Ovid. Students will explore some of the more noteworthy poems from the Catullan corpus, as well as selections from Ovid's **Amores** and **Metamorphoses**. The metrical qualities of each will be considered in addition to their use of imagery, and figures of speech. Particular motifs and general themes will be considered in their larger historical context. Essay writing will be developed in line with the close literary analysis required by the College Board.

Prerequisites: Latin 2 and departmental approval. AP Latin 4355 and AP Latin 4365 are offered in alternate years only. In 2008-2009 AP Latin Literature (4355) will be offered. In 2009-2010 AP Latin Vergil (4365) will be offered. Open to grades 11 & 12.

ADVANCED PLACEMENT LATIN VERGIL

Course # 4365

Full year

Credit: 1.0

Offered 2009 - 2010

Preparatory to the Advanced Placement exam, the Advanced Placement Vergil course involves a thorough reading and analysis of the poet's major work, the **Aeneid**. After reading Homer's **Iliad** and **Odyssey** in translation, the course works to establish the larger historical, literary, and political context through which the purpose of the poem can be understood. Special attention will be paid to Vergil's use of meter, rhetorical and poetic figures of speech, poetic imagery, diction, as well as his manipulations of the Latin language. Essay writing will be developed in line with the close literary analysis required by the College Board.

Prerequisites: Latin 2 and departmental approval. AP Latin 4355 and AP Latin 4365 are offered in alternate years only. In 2008-2009 AP Latin Literature (4355) will be offered. In 2009-2010 AP Latin Vergil (4365) will be offered. Open to grades 11 & 12.

ETYMOLOGY

Course # 4371

1st or 2nd semester

Credit: 0.5

Etymology is designed to increase one's knowledge and understanding of English vocabulary with an emphasis on the most important Greek and Latin roots. This course is designed to build a student's vocabulary and to improve reading comprehension. The skills learned in Etymology equip students to recognize unknown vocabulary words encountered in course work (both high school and college) and on standardized tests.

Prerequisite: A grade of C or better in the foreign language most recently studied, or (if no foreign language) consent of the department chair. Open to grades 9, 10, 11 & 12, and especially recommended to sophomores (before taking ACT and SAT tests).

SPANISH

SPANISH 1

Course # 4510

Full year

Credit: 1.0

An introductory course which develops communication skills with an emphasis on listening and speaking. The student is taught to use the language actively through extensive oral work in daily dialogue, grammar patterns, and idioms. Reading and writing exercises use materials previously practiced orally. Evaluation measures listening, speaking, reading, and writing. The course is conducted extensively in Spanish. This course is for students who have not taken a full course of Spanish I in junior high and earned a grade of B or higher.

Prerequisite: None. Open to grades 9, 10, 11 & 12.

Foreign Language

SPANISH 2
Course # 4520
Full year
Credit: 1.0

Although the core material for this course is the same as Spanish 4520, this course uses a higher level text. In addition, students will be taught specific strategies for reading, writing and listening. The pace is also accelerated to allow for the reading and discussion of authentic literary selections. Reading, writing, speaking, and listening skills are practiced and assessed regularly. This course is designed for students who have had success in Spanish 4510 (or Jr. High equivalent) and who demonstrate the characteristics of a self-directed, mature student. This course is conducted almost entirely in Spanish.

Prerequisite: A grade of C or above in Spanish 1 or recommendation of the junior high school teacher. Open to grades 9, 10, 11 & 12.

SPANISH 2 - H
Course # 4525
Full year
Credit: 1.0

The sequential core material for this course is similar to Spanish 4520. The pace is accelerated to allow for the reading and discussion of authentic reading selections. This material is added to challenge the capabilities of the more able students. The course is conducted in Spanish to a greater extent than is Spanish 4520.

Prerequisite: Departmental approval. Recommendation of the junior high teacher for freshmen. Open to grades 9, 10, 11 & 12.

SPANISH 3
Course # 4530
Full year
Credit: 1.0

Spanish 3 is structured to maintain and improve the listening and speaking skills already developed in the first and second years, and to give increased emphasis to the development of reading, writing, and listening skills. The basic text materials include short reading selections, as well as speaking activities and grammar explanations. The classes are conducted extensively in Spanish, making use of structured drills and conversation stimuli to accompany the increased reading and writing exercises.

Prerequisite: A grade of C or better in Spanish 2. Open to grades 9, 10, 11 & 12.

SPANISH 3 - H
Course # 4535
Full year
Credit: 1.0

The sequential core material for this course is similar to Spanish 4530. The pace is accelerated; the breadth and scope of the coverage is expanded. Material is added to challenge students' capabilities. Additionally, students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. The class is conducted extensively in Spanish.

Prerequisite: Departmental approval. Open to grades 9, 10, 11 & 12.

SPANISH 4
Course # 4540
Full year
Credit: 1.0

Spanish 4 is a survey course focused on Spain that takes students from the Middle Ages to the present day through historical, cultural, and authentic literary texts. Students learn to interact with literature using a variety of reading strategies and skills and develop an appreciation for and understanding of Spanish culture. Students read, write, and present throughout the year. Grammar from previous years is reviewed and reinforced. The course is conducted extensively in Spanish.

Prerequisite: A grade of C or better in Spanish 3. Open to grades 10, 11 & 12.

SPANISH 4 - H
Course # 4545
Full year
Credit: 1.0

Although the core material for this course is similar to Spanish 4540, this course uses higher level texts for both the literature and history. In addition, students will write essays in Spanish for each unit of study and create a portfolio of their work throughout the year. The pace is accelerated to allow for more profound discussion of the texts. Reading, writing, speaking and listening skills are practiced and assessed regularly. This course is designed for students who have had success in Spanish 4535 and who demonstrate the characteristics of a self-directed, mature student. Students are expected to communicate almost entirely in Spanish in the classroom. This course is conducted entirely in Spanish.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

SPANISH 5*Course # 4550*

Full year

Credit: 1.0

Spanish 5 introduces the student to the literature and thought of Latin America, as opposed to the emphasis upon Spain in Spanish 4. Students read selections from representative works, participate in classroom discussion, give reports and write essays. Class is conducted in Spanish. Grammar is reviewed as needed. Some reading and writing is expected of the students outside of class.

Prerequisite: A grade of C or better in Spanish 4. Open to grades 11 & 12.

ADVANCED PLACEMENT SPANISH LANGUAGE*Course # 4555*

Full year

Credit: 1.0

This course surveys the literature, culture and thought of Hispanic America. Students read selections from representative literary works and cultural texts, participate in classroom discussions, give oral reports and write essays of various lengths. The class is conducted exclusively in Spanish and students are expected to be conversant in the language. The class will also prepare those students who wish to take the Advanced Placement exam in Spanish Language.

Prerequisite: A grade of A or B in Spanish 4-H or A in Spanish 4 and departmental approval. Open to grades 11 & 12.

ADVANCED PLACEMENT SPANISH LITERATURE*Course # 4565*

Full year

Credit: 1.0

The AP Spanish Literature course is based on those representative works suggested by the AP board and required for the AP Spanish Literature exam. This course surveys the literature of Spain and Hispanic America in a sequential and thematic fashion. Students are required to read and write outside of class, take part in classroom discussions, present reports and compose essays in order to prepare for the Advanced Placement exam in Spanish Literature.

Prerequisite: A grade of A or B in AP Spanish or Spanish 5 and departmental approval. Open to grade 12.

Justin Geller, design

HEALTH EDUCATION

Course # 7501, 7502

1st or 2nd semester

Credit: 0.5 (Included in student's G.P.A.)

The goal of this course is to promote and develop attitudes and behaviors related to the overall wellness of Hinsdale Central students. Students are taught how to access valid health information and health-promoting products and services. The students will also learn how to analyze the influence of culture, media, technology and other factors on health. Topics of study within the Health Education program include: Introduction to Wellness, First Aid, Alcohol Tobacco and other Drugs, Nutrition and Fitness, Communicable and Non-communicable Diseases, and Human Reproduction. The curriculum is aligned with District 86 program goals, Illinois and National Health Education Standards.

REQUIRED FOR GRADUATION. This course should be taken in tandem with Physical Education during the sophomore year.

**INTRODUCTION TO SPORTS
MEDICINE**

Course # 7521

1st or 2nd semester

Credit: 0.5

The goal of this course is to help students become more knowledgeable and proficient in the following areas: principles and practices of athletic training; anatomy, physiology, injury recognition, treatment and rehabilitation as they relate to sports and leisure activities. This course also provides valuable hands-on experience and is highly recommended for those students who are interested in careers in nursing, medicine, athletic training, physical therapy, or coaching.

Prerequisite: Successful completion of Health Education or approval of Department Chair.

Open to grades 10, 11, & 12.

Class of 2008 Two credits in mathematics are required for graduation.

Class of 2009, 2010 & 2011 Three credits in mathematics are required for graduation.

Credit must be earned in both semesters of a full year course before advancing to the next course in the sequence. Any student who earns a D in a mathematics course is strongly recommended to retake one or both semesters in summer school before attempting the next course in the sequence. The deficiencies indicated by the D grade will make success in the next course in the sequence very difficult. Various sequences of courses and electives are offered to enable students to select mathematics programs to fit their special interests and abilities.

Typical sequences are shown below:

<u>Freshman</u>	<u>Sophomore</u>	<u>Junior</u>	<u>Senior</u>
Alg. 2/Trig H	Pre-Calc H	AP Calculus (BC)	AP Statistics and/or Math topics
Geometry H	Alg. 2/Trig H	Pre-Calc H and/or AP Statistics	AP Calc (BC) and/or AP Statistics
Geometry	Alg. 2/Trig	Pre-Calculus	AP Calc (AB) and/or AP Statistics
Geometry	Alg. 2 /Trig	Math Analysis and Intro. to Stat.	Pre-Calculus
Algebra 1	Geometry	Alg. 2/Trig	Math Analysis and/or Intro. to Stat.
Foundations of Alg. and Geo.	Alg. 1G	Geometry G	Alg. 2/Trig G
Applied Fund of Math	Foundations of Alg/Geo	Alg. 1G	Geometry G

CALCULATORS

Calculators are tools commonly used in departmental courses. While general recommendations of appropriate calculator functionality are included in each course description, calculator recommendations for specific courses can be obtained by contacting the mathematics department or your math teacher. Most courses require a graphing calculator, at a cost of about \$120.

COMPUTER COURSES TAUGHT BY THE MATHEMATICS DEPARTMENT

Students with an aptitude in mathematics should take at least a semester computer course. Students with strong mathematics aptitude should plan ahead for the AP Computer Science curriculum.

Introduction to Web Programming
Advanced Web Programming

Introduction to JAVA
AP Computer Science A or AB

Mathematics Department

COURSE TITLE	Course #	Prerequisite	Credit	Grade Offered
Applied Fundamentals of Math	3050	Yes	1.0	9-12

APPLIED FUNDAMENTALS OF MATH

Course # 3050

Full year

Credit: 1.0

This course covers a variety of practical topics such as basic probability, creating and interpreting graphs, formulas, fractions, percent, measurement, perimeter, basic geometry, consumer skills, and basic algebra. A scientific calculator with fraction capabilities is required.

Prerequisite: Recommendation of previous teacher and departmental approval.
Next course in sequence: Foundations of Algebra and Geometry. Open to grades 9, 10, 11 & 12.

FOUNDATIONS OF ALGEBRA AND GEOMETRY

Course # 3090

Full year

Credit: 1.0

This course introduces important topics in Algebra and Geometry. Algebra topics include expressions, equations, inequalities and linear functions. Geometry topics include lines, segments, angles, triangles, perimeter, area and volume. This course is appropriate for students with reasonable facility with arithmetic operations and average grades in mathematics. A graphing calculator is required.

This course fulfills the ISBE graduation requirement of a course with Geometry content.

Prerequisite: Recommendation of previous teacher and departmental approval.
Next course in sequence: Algebra 1G. Open to grades 9, 10, 11 & 12.

ALGEBRA 1 G

Course # 3100

Full year

Credit: 1.0

This course continues the important topics in Algebra. Topics include exponents, systems of equations, inequalities, linear and quadratic functions, polynomial expressions, probability, and statistics. A graphing calculator is required.

This course fulfills the ISBE graduation requirement for Algebra 1.

Prerequisite: Foundations of Algebra and Geometry and department approval.
Next course in sequence: Geometry G. Open to grades 10, 11 & 12.

ALGEBRA 1

Course # 3110

Full year

Credit: 1.0

This course focuses on fundamental properties of the real numbers. Linear and quadratic equations are emphasized. Rational expressions and equations are introduced. Real world applications are explored. Algebra 1 is recommended for grade 9 students who have achieved a strong facility with arithmetic operations and above average grades in mathematics or for those students whose Algebra skills need strengthening. A graphing calculator with matrix capabilities is required in this course.

This course fulfills the ISBE graduation requirement for Algebra 1.

Prerequisite: 8th grade teacher recommendation or departmental approval. Next course in sequence: Geometry. Open to grades 9, 10, 11 & 12.

Mathematics Department

GEOMETRY-G

Course # 3200

Full year

Credit: 1.0

Geometry-G uses an intuitive approach to study the fundamental concepts in Geometry. Although deductive reasoning is practiced, much less emphasis is placed on writing formal proofs. Students experience geometric concepts through frequent constructions, hands on activities, and interactive geometry software. Some students from 3110 Algebra may be advised to take this course. A scientific calculator is required in this course.

This course fulfills the ISBE graduation requirement of a course with Geometry content.

Prerequisite: Algebra 1G or Algebra 1 and departmental approval. Next course in sequence: Algebra 2-Trigonometry-G based upon teacher recommendation. Open to grades 10, 11 & 12.

GEOMETRY

Course # 3210

Full year

Credit: 1.0

Geometry focuses on proof and fundamental concepts of plane geometry with some informal three-dimensional considerations. Properties of lines, angles, triangles, quadrilaterals and circles are studied. Special attention is given to concepts of congruence, perpendicularity, parallelism, area, similarity, coordinate geometry, logic and deductive reasoning as well as geometric probability. A scientific calculator is required in this course.

This course fulfills the ISBE graduation requirement of a course with Geometry content.

Prerequisite: (Entering freshmen who have had Algebra in 8th grade must also have a strong teacher recommendation.) Algebra 1 and departmental approval. Next course in sequence: Algebra 2-Trigonometry. Open to grades 9, 10, 11 & 12.

GEOMETRY - H

Course # 3220

Full year

Credit: 1.0

This honors course provides an in-depth study of all the topics of plane Euclidean geometry including three-dimensional geometry. Particular attention will be given to the nature of a mathematical system, logic and proof. Students are expected to exercise their creative capacities, and apply their knowledge to different situations. Recommended for students who have a high interest in mathematics and have achieved, without undue stress, an A average in Algebra. A scientific calculator is required in this course.

This course fulfills the ISBE graduation requirement of a course with Geometry content.

Prerequisite: Algebra 1 and departmental approval. Next course in sequence: Algebra 2-Trigonometry-H or Algebra 2-Trigonometry, based on teacher recommendation. Open to grades 9, 10, 11 & 12.

ALGEBRA 2-TRIGONOMETRY G

Course # 3300

Full year

Credit: 1.0

The basic material for this course, described under 3310 Algebra 2-Trigonometry, is recommended for students from Geometry - G. Some students from 3210 Geometry may be advised to take this course. A graphing calculator with matrix capabilities is required in this course.

Prerequisite: Geometry - G or Geometry and departmental approval. Open to grades 11 & 12.

ALGEBRA 2-TRIGONOMETRY

Course # 3310

Full year

Credit: 1.0

Algebra 2-Trigonometry expands the material studied in Algebra and Geometry, emphasizing real-world applications and associated graphical analysis. The complex number system is studied. Linear, quadratic, exponential, logarithmic, polynomial, rational and trigonometric functions are explored. Transformations and inverses of functions are introduced. This course is recommended for students with a grade average of C or better in Algebra and Geometry who desire a third year of college preparatory mathematics. A graphing calculator with matrix capabilities is required in this course.

Prerequisite: Geometry. Next course in sequence: Math Analysis and Intro to Stats or Pre-Calculus. Open to grades 10, 11 & 12.

ALGEBRA 2-TRIGONOMETRY H

Course # 3320

Full year

Credit: 1.0

This honors course provides a more in-depth study of the topics described above in Algebra 2-Trigonometry, as well as circular functions and probability. Students are expected to be capable of creative problem solving and individual study. This course is recommended for students who have a high interest in mathematics, with no less than a B+ average in previous mathematics courses. A graphing calculator with matrix capabilities is required in this course.

Prerequisite: Geometry - H and departmental approval. Next course in sequence: Pre-Calculus-H or Pre-Calculus, based on teacher recommendation. Open to grades 9, 10, 11 & 12.

INTRODUCTION TO WEB PROGRAMMING

Course # 3351

1st or 2nd semester

Credit: 0.5

This course focuses on the creation of World Wide Web documents using the HTML and JavaScript languages. Students are expected to spend laboratory time outside of class working on their projects. Introductory programming concepts will be presented using JavaScript in order to create more dynamic, self-modifying web pages. Internet access at home is recommended.

Prerequisite: Algebra 1 or departmental approval. Open to grades 9, 10, 11 & 12.

ADVANCED WEB PROGRAMMING

Course # 3371

1st or 2nd semester

Credit: 0.5

This course is a continuation of Introduction to Web Programming. The course will include programming to the web server setting, cascading style sheets and animation.

Prerequisite: Introduction to Web Programming and departmental approval. Open to grades 10, 11 & 12.

INTRODUCTION TO JAVA

Course # 3392

2nd semester

Credit: 0.5

This course provides an introduction to computer programming using the JAVA programming language. Programming concepts such as variables, constants, expressions, conditionals, arrays, iteration, functions, and object oriented programming using classes will be presented and discussed. An emphasis will be placed on practical problem solving. Students are expected to spend laboratory time outside of class working on their projects.

Prerequisite: Geometry and departmental approval. Next course in sequence: Advanced Placement Computer Science. Open to grades 10, 11 & 12.

MATH ANALYSIS

Course # 3401

1st semester

Credit: 0.5

This course focuses on important topics in mathematical modeling. Topics include algorithms, matrices, graphs, and probability, with applications such as elections, fair division, population growth, scheduling, conflict resolution, routing, and game theory. A graphing calculator with matrix capabilities is required.

Prerequisite: Algebra 2 / Trigonometry and department approval. Next course in sequence: Introduction to Statistics. Open to grades 11,12.

INTRODUCTION TO STATISTICS

Course # 3402

2nd semester

Credit: 0.5

This course focuses on important topics in statistics. Topics include statistical plots, statistical summaries of data, regression, probability, normal distributions, and sampling methods. A graphing calculator with advanced statistical commands is required.

Prerequisite: Algebra 2 / Trigonometry and department approval. Next course in sequence: Pre-calculus. Open to grades 11,12.

Mathematics Department

PRE-CALCULUS

Course # 3410

Full year

Credit: 1.0

This course expands on the material studied in Algebra 2-Trigonometry. These areas of study include: real and complex numbers and functions (polynomial, exponential, logarithmic and trigonometric). Additional areas of study are conics, notions of limits, continuity, circular functions, mathematics of finance, parametric equations, and polar coordinates. It is recommended for students who are preparing to enter a technical or semi-technical profession, or planning to study Calculus. A graphing calculator with matrix capabilities is required in this course.

Prerequisite: Algebra 2-Trigonometry or Algebra 2-Trigonometry-H and departmental approval. Next course in sequence: AP Calculus or AP Statistics. Open to grades 10, 11 & 12.

PRE-CALCULUS - H

Course # 3420

Full year

Credit: 1.0

This honors course provides a more in-depth study of the topics covered in Pre-Calculus with greater emphasis of both theory and applications. Additional topics include curve fitting and physics applications. A graphing calculator with matrix capabilities is required in this course.

Prerequisite: Algebra 2-Trigonometry - H and departmental approval. Next course in sequence: Upon satisfactory completion of Pre-Calculus - H, the students is prepared for a serious course in Calculus. Open to grades 9, 10, 11 & 12.

ADVANCED PLACEMENT COMPUTER SCIENCE A

Course # 3480

Full year

Credit: 1.0

A.P. Computer Science A is intended for those students whose work in college will involve the theory of computing and data structures. Programming methodology and design, pre-defined and abstract data types, data structures (arrays, stacks, queues) and algorithms related to those data structures will be emphasized. Applications of computing, a working knowledge of hardware and software systems, as well as the ethical and social implications of computing are considered. The programming language used is JAVA. Students will need to spend laboratory time outside of class working on their projects.

Prerequisite: Introduction to JAVA and departmental approval. Open to grades 11 & 12.

ADVANCED PLACEMENT COMPUTER SCIENCE AB

Course # 3490

Full year

Credit: 1.0

A.P. Computer Science AB includes the topics from AP Computer Science A, as well as an emphasis on more advanced data structures (linked lists, trees, sets, maps, tables) and the corresponding algorithms used to manipulate the data in these structures. The programming language used is JAVA. Students will need to spend laboratory time outside of class working on their projects.

Prerequisite: Introduction to JAVA and departmental approval. Open to grades 11 & 12.

ADVANCED PLACEMENT STATISTICS

Course # 3500

Full year

Credit: 1.0

Advanced Placement Statistics will introduce students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. It will emphasize sound statistical thinking rather than routine procedures. This course is intended to be equivalent to an introductory non-calculus based college course in statistics. Students will do a significant amount of reading and independent projects. A graphing calculator with advanced statistics capabilities is required in this course.

Prerequisite: Algebra 2 H or Pre-Calculus or Pre-Calculus H and departmental approval. Open to grades 10, 11 & 12.

**ADVANCED PLACEMENT
CALCULUS (AB)**

Course # 3510

Full year

Credit: 1.0

Advanced Placement Calculus (AB) emphasizes conceptual understandings through manual and technological applications of the derivatives and integrals of algebraic, trigonometric, exponential and logarithmic functions, and relations. This course prepares the student for the AB level Advanced Placement Examination. Satisfactory performance on this examination gives the student an opportunity to qualify for college credit in calculus. A graphing calculator meeting the College Board's optimal technology expectation for the AP Calculus exam is required in this course.

Prerequisite: Pre-Calculus or Pre-Calculus - H and departmental approval. Open to grades 10, 11 & 12.

**ADVANCED PLACEMENT
CALCULUS (BC)**

Course # 3520

Full year

Credit: 1.0

Advanced Placement Calculus (BC) provides an in-depth study of the topics described in Calculus (AB), as well as two dimensional vectors, polar coordinates, parametric curves and series. This course prepares the student for the BC level Advanced Placement examination. Satisfactory performance on this examination gives the student an opportunity to qualify for college credit in calculus. A graphing calculator meeting the College Board's optimal technology expectation for the AP Calculus Exam is required in this course.

Prerequisite: Pre-Calculus or Pre-Calculus - H and departmental approval. Open to grades 10, 11 & 12.

MATH TOPICS 1 - H

Course # 3641

1st semester only

Credit: 0.5

Math Topics 1 is an independent study course which provides students advanced study in mathematics or computer science. Determined by the department, a student will be introduced to Linear Algebra, Multivariable Calculus, or Calculus-based Statistics.

Prerequisite: Departmental approval. Open to grade 12.

MATH TOPICS 2 - H

Course # 3652

2nd semester only

Credit: 0.5

Math Topics 2 is an independent study course which provides students with advanced study in mathematics or computer science. Determined by the department, a student will be introduced to Linear Algebra, Differential Equations, or Calculus-based Statistics.

Prerequisite: Departmental approval. Open to grade 12.

All courses in the Music Department fulfill the Elective Arts graduation requirement. Two fine arts credits fulfill the Illinois state public university entrance requirements in Art, Music or Foreign Language. Music performance courses are designed to not only improve the level of performance skill of the student, but also to develop a deeper understanding of culture and aesthetics.

All music performance courses include performances outside the school day as a significant part of student expectations. Lists of performances and any outside rehearsals will be provided at the beginning of the school year. Auditing of music courses (participation for no credit) is not permitted.

IMPORTANT INFORMATION FOR INCOMING FRESHMEN AND THEIR PARENTS:

The following courses are available for freshmen enrollment and do not require an audition:

Concert Orchestra (5680): violin, viola, cello and string bass players only

Concert Band (5640): flute, oboe, clarinet (all types), bassoon, saxophone (all types), trumpet/cornet, French horn, trombone, baritone horn, tuba

Percussion Ensemble (5710): all percussionists

Mixed Choir (5800): vocalists: male and female

The following course is open to freshmen enrollment but does require an audition:

Jazz Ensemble 1 (5650) is open only to members of Concert Band and requires the student to be registered for both, except for students playing piano, bass, or guitar. All students are invited to audition at the start of school in August. It is not possible to sign up for Jazz Band 1 now. The class meets as an "Early Bird" at 7:00AM, 90 days per year. (See page 55)

The following courses are for upperclassmen only and require an audition with the instructor prior to January 17, 2008:

Women's Chorale (5810), Hinsdale Central Singers (5840), Chamber Singers (5850). audition with Mrs. Burkemper in Room 169, 630-570-8452

Symphonic Orchestra (5690): audition with Mr. Wirtz, Room 163, 630-570-8453

Jazz Ensemble 2 and 3 (5660 and 5670): auditions for these classes are held the week of January 7, 2008. These auditions are open to students who play saxophone, trumpet, trombone, piano, guitar, bass, or drum set. Go to www.hcjazz.org after December 15, 2007, to register for an audition or call Mr. Waggoner at 630-570-8450. Jazz Ensemble 3 auditions are held during Jazz Ensemble 1 and 2 classes in January.

HONORS STUDY IN MUSIC

Students have the opportunity to qualify for honors study in music performance courses. There are several ways that you can become eligible.

Strings Players may, through auditions in September, be selected for the Honors Chamber Orchestra. This is a select ensemble of advanced string players who rehearse every other morning as an Early Bird class. Concurrent registration in Concert Orchestra or Symphony Orchestra is required.

Wind and Percussion Players may, through auditions in September, be selected for Honors Orchestra Winds and Percussion. This is a select ensemble of advanced wind and percussion players who will rehearse every other day as an Early Bird class. These players make up the Symphony Orchestra Wind and Percussion sections. Concurrent registration in Concert Band or Percussion Ensemble is required.

All students in the following courses will have the option for earning Honors credit:

- Women's Chorale (5810)
- Hinsdale Central Singers (5840)
- Chamber Singers (5850)
- Symphony Orchestra (5690)
- Concert Band (5640)
- Percussion Ensemble (5710)
- Jazz Ensembles 2 (5660) and 3 (5670)

Each participant will be required to participate in several activities during the school year that will enhance musical experiences, and abilities. Please see each instructor for more details. To become eligible for Honors credit, each candidate will be selected by audition in **September**, by the department instructors. Audition materials, and information may be obtained from the department instructors.

INSTRUMENTAL MUSIC

CONCERT BAND

Course # 5640

Full year

Credit: 1.0

Concert Band is the primary performance ensemble for all wind instrument players. Students enrolled in this course develop their musical knowledge and technical ability through the study and performance of band music. Concert Band students rehearse and perform throughout the year in several settings that include full concert bands, small ensembles, the Red Devil Marching Band, and the Pep Band. The concert Bands have occasional commitments outside the school day. Students may be auditioned and grouped into sections based on instrumentation and ability. Honors credit is available for this course. Please visit www.hcbands.org for more information or contact the band director, Mr. Kurinsky.

Prerequisite: Director approval. Open to grades 9, 10, 11, and 12.

This course may be repeated each year for credit.

JAZZ ENSEMBLE 1

Course # 5650

Full year

Credit: 1.0

Jazz Ensemble 1 is the initial training ensemble for the Jazz Program at Hinsdale Central. It is open only to musicians who are enrolled in Concert Band or Percussion Ensemble unless they play piano, bass, or guitar. (Students playing those instruments are exempt from this requirement.) Wind players in Jazz Ensemble 1 may play any wind instrument. Jazz Ensemble 1 meets as a year-long, "early-bird" class at 7:00 AM, 90 days per year.

Prerequisite: Director approval and audition. Open to grades 9, 10, 11 and 12.

This course may be repeated for credit.

JAZZ ENSEMBLE 2

Course # 5660

Full year

Credit: 1.0

Jazz Ensemble 2 is only open to musicians playing one of the following instruments: saxophone, trumpet, trombone, piano, guitar, bass, or drum set. Open auditions for this ensemble will be held the week of January 7, 2008. For audition information, see www.hcjazz.org. Priority will be given to students who are currently members of Jazz Ensemble 1 or 2 who play the appropriate instruments. Instrumentation is limited to six saxophones (two altos, two tenors, and two baritones), four trombones, five trumpets, two guitarists, two pianists, two bassists, and three drummers. Honors credit is available for this ensemble, and the course may be repeated for credit. Jazz Ensemble 2 meets as a year-long, "early-bird" class at 7:00 AM, 90 days per year.

(Note: Starting with the Class of 2012, enrollment in Jazz Ensemble 2 must be concurrent with Concert Band or Percussion Ensemble.)

Prerequisite: Director approval, audition and current membership in Jazz Ensemble 1 or 2. Open to grades 10, 11, and 12. This course may be repeated for credit.

JAZZ ENSEMBLE 3

Course # 5670

Full year

Credit: 1.0

Jazz Ensemble 3 is made up of students previously involved in the Jazz program. There are no open auditions for this group – auditions will take place in the Jazz 1 and Jazz 2 classes for open spots in this ensemble. Instrumentation is limited to six saxophones (two altos, two tenors, and two baritones), four trombones, five trumpets, two guitarists, two pianists, two bassists, and three drummers. Honors credit is available for this ensemble, and the course may be repeated for credit.

Prerequisite: Director approval, audition and current membership in Jazz Ensemble 1, 2, or 3. Open to grades 10, 11, and 12. This course may be repeated for credit.

CONCERT ORCHESTRA

Course # 5680

Full year

Credit: 1.0

This group will perform concerts as well as develop the basic techniques involved in playing a stringed instrument.

Prerequisite: Director approval. Open to grade 9.

SYMPHONY ORCHESTRA

Course # 5690

Full year

Credit: 1.0

A class for higher level development of string instrument techniques and the study of appropriate music. This class combines with members of the Concert Band to perform music from the standard repertoire of orchestral music. An audition is required **prior to January 19, 2007.**

Prerequisite: Audition & director approval. Open to grades 10, 11 & 12. This course may be repeated for credit.

PERCUSSION ENSEMBLE

Course # 5710

Full year

Credit: 1.0

Percussion Ensemble is the performing ensemble for all percussion players. Percussionists do not sign up for Concert Band. Students enrolled in this course develop their musical knowledge and technical ability through the study and performance of percussion music. Percussion Ensemble students rehearse and perform throughout the year as a group, as well as in the percussion sections of the concert bands, the Red Devil Marching Band, and the Pep Band. The Percussion Ensemble has occasional commitments outside the school day. Students may be auditioned and grouped into sections based on instrumentation and ability. Honors credit is available for this course. Please visit www.hcbands.org for more information or contact the band director, Mr. Kurinsky.

Prerequisite: Director approval. Open to grades 9, 10, 11, and 12. This course may be repeated each year for credit.

VOCAL MUSIC

MIXED CHOIR

(formerly Concert Choir)

Course # 5800

Full year

Credit: 1.0

Teaches and examines basic vocal techniques, practice and performance of choral music, sight singing and theory. A variety of choral music will be practiced and performed. This course may be separated by gender.

Section 1 - Treble Choir Section 2 - Men's Choir

Prerequisite: None. Open to all ninth graders and to all other grade levels who have not participated in vocal music at school before.

WOMEN'S CHORALE

(formerly A cappella Choir)

Course # 5810

Full year

Credit: 1.0

Level two of vocal techniques focused on the female voice. A variety of women's choral literature is practiced and performed. Advanced study of sight singing and theory. Honors credit is available for this course. An audition is required prior to January 17, 2008.

Prerequisite: Audition and director approval. Open to grades 10 and 11. This course may be repeated for credit.

HINSDALE CENTRAL SINGERS

Course # 5840

Full year

Credit: 1.0

An advanced level of vocal technique, sight singing and theory. This advanced choral group practices and performs a variety of music. Extra performances or rehearsals may be scheduled. Honors credit is available for this course. An audition is required prior to January 17, 2008.

Prerequisite: Audition and director approval. Open to grades 10, 11 and 12. This course may be repeated for credit.

Music

CHAMBER SINGERS

(formerly Madrigal Singers)

Course # 5850

Full year

Credit: 1.0

An advanced group with a high level of musicianship, vocal technique, sight singing and theory skills. A large variety of musical styles will be practiced and performed. This ensemble performs frequently outside of the school day for community events. Honors credit is available for this course. An audition is required prior to January 17, 2008.

Prerequisite: Audition and director approval. Open to grades 11 and 12. This course may be repeated for credit.

MUSIC THEORY

AP MUSIC THEORY

Course # 5900

Full year

Credit: 1.0

AP Music Theory prepares music students for the Music Theory Advanced Placement Examination through the study of musical elements and techniques including notation, scales and modes, intervals, chords, non-harmonic tones, cadences, ear training, sight-singing, melody, form, and composition. Success on the AP Exam can result in college credit. All prospective students must be recommended to Mr. Kurinsky by their music director or private lesson instructor.

Prerequisite: Director approval. Open to grades 10,11 and 12.

PHYSICAL EDUCATION

KATY HEALY, DESIGN

All students must take physical education or health each semester in attendance. Four (4) credits of Physical Education/Health are required for graduation. Health is a required semester course to be taken during the 10th grade year. Students have an option of also enrolling in Physical Education during that semester for an additional 0.5 credit. A student earns 1/2 credit for each semester of passing work in Physical Education. Students who fail Physical Education must make up the credit by enrolling in an equivalent course at another approved institution. Students will not be allowed to enroll in more than one period of required Physical Education per semester. Students are expected to attend class daily, dress in the standard uniform and participate to their ability. Excessive absences, uniform violations or tardies will have an adverse effect upon a student’s grade. Grades are based upon ability, improvement, class participation, attitude and respect.

Physical education is the science of human movement and the courses are designed to provide instruction and insight into healthful physical activities. All Physical Education offerings are designed to promote good health, safety, fitness, awareness of the value of recreation, and an appreciation of all forms of physical expression.

Students must register for Physical Education **EACH** semester. *

<u>GRADE</u>	<u>SEMESTER 1</u>	<u>SEMESTER 2</u>
9	7113	7114

Freshman: basketball, track and field, softball, soccer, square dance, volleyball, badminton, fitness concepts, team building, football, tennis, gymnastics, swimming, wrestling and modern dance.

10/11/12

Students are to enroll in one option each semester.

*Sophomores may exercise their option of taking **Health Education and only one semester of Physical Education** by registering for the following courses: **P.E. option/Health 7502 or Health 7501/PE option.**

Sophomore, Junior and Senior: Select one activity from each semester.

Physical Education

AQUATICS

Course # 7305

1st semester

Credit: 0.5

Includes sports and activities designed for the aquatic environment. Included are the development of skills in springboard diving, analysis of the four competitive swimming strokes, as well as starts and turns. Water safety habits, basic lifeguarding skills, water aerobics, dryland exercises, and weight training specific to aquatic activity will also be introduced. Recommended for prospective triathletes and swimmers. (May be repeated.)

COMPETITIVE PHYSICAL CONDITIONING

Course # 7306

1st semester

Credit: 0.5

Rigorous physical conditioning with emphasis on running and development of cardiovascular and upper body strength. A challenging regimen to enhance stamina and endurance. Recommended for any person wishing to improve their competitive effectiveness. P.E. waivers will not be accepted for this class. (May be repeated.)

STEP AEROBICS

Course # 7307

1st semester

Credit: 0.5

A class introducing students to aerobic skills. Students will incorporate basic aerobic movements into a cardiovascular workout improving not only aerobic skills, but cardiovascular efficiency. Yoga and pilates are introduced as part of this selection as an alternative method for students to increase flexibility, strength and balance. (May be repeated.)

PERSONAL FITNESS (FITNESS CENTER)

Course # 7308

1st semester

Credit: 0.5

Variable course content. Each student undertakes an individualized conditioning program designed to address the individual's personal fitness goals. Principles and skills relating to cardiovascular conditioning, strength, flexibility and body composition. Equipment orientation includes Stairmaster, rowing machines, stationary bikes, ellipticals, proper weight training selection and form, circuit training. Individual fitness assessment (May be repeated.)

COMPREHENSIVE WEIGHT TRAINING

Course # 7309

1st semester

Credit: 0.5

Gain knowledge and understanding of weight training theory, advanced weight training practices, sport specific weight training techniques and proper nutritional practices. Initiate and develop weight training programs. Improve muscular strength and endurance. (May be repeated.)

LIFEGUARD/CPR/FIRST AID

Course # 7310

1st semester

Credit: 0.5

Meets American Red Cross Lifesaving Certification, Cardiopulmonary Resuscitation Certification and Standard First Aid Certification. Students must be able to swim 500 yds. non-stop to enroll. No student may use a P.E. waiver in this class and receive Red Cross certification or recertification.

LIFETIME SPORT CLUSTER

Course # 7311, 7312, 7313

1st semester

Credit: 0.5

Includes sports and activities for lifelong participation. Instruction provided in basic skills, rules, strategies, and social behavior necessary to achieve competent level of participation, practice, game situations and tournament play. Select one of the following options. Please note: **Option 2 is designated for those who desire a more competitive atmosphere.**

7311	Option 1 (Team Concept):	Softball Volleyball	Tennis Basketball	Square Dance Badminton/ Pickleball
7312	Option 2 (Competitive Option):	Sand Volleyball Ultimate Frisbee	Football Outdoor Hockey	Soccer Basketball
7313	Option 3 (Individual Concept):	Tennis Badminton Volleyball	Archery Aquatic Activity	Pickleball Roller Skating

Physical Education

AQUATICS
Course # 7320
2nd semester
Credit: 0.5

Includes sports and activities designed for the aquatic environment. Included are the development of skills in springboard diving, analysis of the four competitive swimming strokes, as well as starts and turns. Water safety habits, basic lifeguarding skills, water aerobics, dryland exercises, and weight training specific to aquatic activity will also be introduced. Recommended for prospective triathletes and swimmers. (May be repeated.)

COMPETITIVE PHYSICAL CONDITIONING
Course # 7321
2nd semester
Credit: 0.5

Rigorous physical conditioning with emphasis on running and development of cardiovascular and upper body strength. A challenging regimen to enhance stamina and endurance. Recommended for any person wishing to improve their competitive effectiveness. P.E. waivers will not be accepted in this class. (May be repeated.)

STEP AEROBICS
Course # 7322
2nd semester
Credit: 0.5

A class introducing students to aerobics skills. Students will incorporate basic aerobic movements into a cardiovascular workout improving not only aerobic skills, but cardiovascular efficiency. Yoga and pilates are introduced as part of this selection as an alternative method for students to increase flexibility, strength and balance. (May be repeated.)

PERSONAL FITNESS (FITNESS CENTER)
Course # 7323
2nd semester
Credit: 0.5

Variable course content. Each student undertakes an individualized conditioning program designed to address the individual's personal fitness goals. Principles and skills relating to cardiovascular conditioning, strength, flexibility and body composition. Equipment orientation includes Stairmaster, rowing machines, stationary bikes, ellipticals, proper weight training selection and form, circuit training. Individual fitness assessment (May be repeated.)

COMPREHENSIVE WEIGHT TRAINING
Course # 7324
2nd semester
Credit: 0.5

Gain knowledge and understanding of weight training theory, advanced weight training practices, sport specific weight training techniques and proper nutritional practices. Initiate and develop weight training programs. Improve muscular strength and endurance. (May be repeated.)

LIFEGUARDING/CPR/FIRST AID
Course # 7325
2nd semester
Credit: 0.5

Meets American Red Cross Lifesaving Certification, Cardiopulmonary Resuscitation Certification and Standard First Aid Certification. Students must be able to swim 500 yds. non-stop to enroll. No student may use a P.E. waiver in this class and receive Red Cross certification or recertification.

LIFETIME SPORT CLUSTER
Course # 7326,7327,7328
2nd semester
Credit: 0.5

Includes sports and activities for lifelong participation. Instruction provided in basic skills, rules, strategies, and social behavior necessary to achieve competent level of participation, practice, game situations and tournament play. Select one of the following options. (May be repeated.) Please note: **Option 2 is designated for those who desire a more competitive atmosphere.**

7329 Option 4 (Recreational Concept):	Volleyball	Ping Pong	Bowling*	Pickleball
	Badminton	Softball	Sand Volleyball	
7327 Option 2 (Competitive Option):	Volleyball	Basketball	Floor Hockey	
	Pickleball	Team Games	Softball	

* Supply fee of \$30.00 is required for this off-campus activity. Fee is collected at time of participation.

ADAPTIVE PHYSICAL EDUCATION
Course # 7080
Full year
Credit: 1.0

This self-contained section of Adaptive Physical Education is offered to students who are restricted and prevented from activity in a regular program. This could include ambulatory cases, congenital defects, and handicapped students. Each student in the section will be given a separate (IEP) individual education program which has earned approval from a physician, school nurse, and parent(s) as appropriate.

Prerequisite: Departmental and/or Educational Services departmental approval. Open to grades 9, 10, 11 and 12.

Physical Education

EARLY BIRD P.E.

Course # 7373, 7374

1st or 2nd semester

Credit: 0.5

This physical education class is open to all sophomores, juniors, and seniors who wish to add an extra period to their day, giving them greater flexibility to select other specialized courses. The course runs from 7:00 a.m. to 7:50 a.m. daily. Students must provide their own transportation.

PHYSICAL EDUCATION EXEMPTION

Students interested in exempting out of PE during their 2008-2009 athletic or marching band season in order to take a study hall need to be aware of the following:

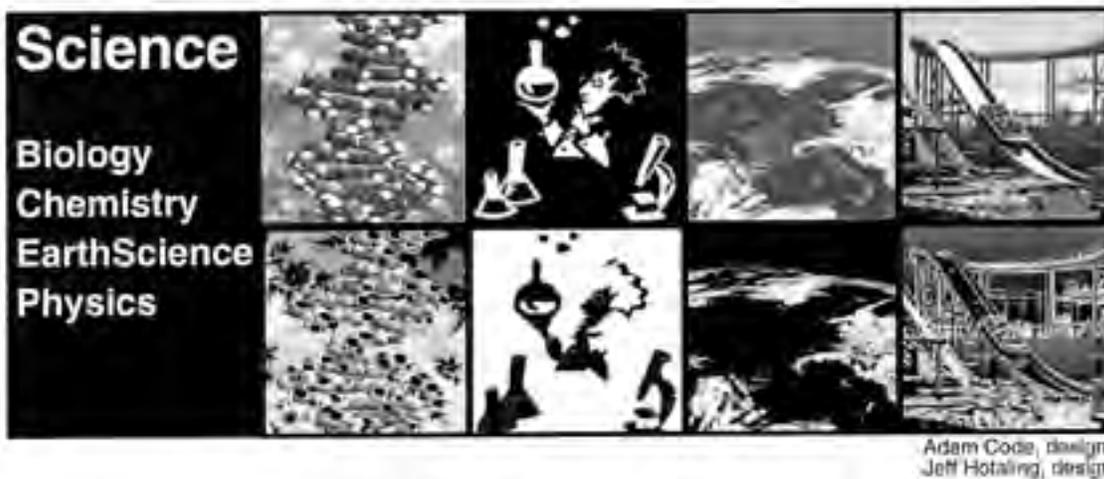

1. PE Exemption is available for **Junior** and **Senior** athletes and **Sophomore, Junior, and Senior** Marching Band members only.
 - a. Students must be enrolled in six academic classes in addition to a PE class.
 - b. Students must NOT have a study hall in their schedule.
2. In order to be eligible for PE Exemption, a student must fill out both sides of the request form with all required signatures and turn it in to his/her counselor at the individualized registration appointment in January or February. Forms will be distributed during the January Homeroom.
3. These course codes will be used for PE Exemptions that fall in the following marking periods:

<i>Code</i>	<i>1st</i>	<i>2nd</i>	<i>3rd</i>	<i>4th</i>	<i>Girls' Sports</i>	<i>Boys' Sports</i>	<i>Activity</i>
07218*	Sport	PE			Golf Tennis	Golf	
07219**	Sport	Sport			Volleyball Cross Country Swimming FB Cheerleading FB Poms	Football Soccer Cross Country	Marching Band
07220*+	PE	Sport	Sport	PE	Bowling Basketball Gymnastics BB Cheerleading BB Poms	Bowling Wrestling Basketball Swimming	
07221*			PE then Sport	Sport	Track Badminton Water Polo Soccer Softball Lacrosse	Track Gymnastics Tennis Water Polo Baseball Volleyball Lacrosse	

* These PE Exemption students must still register for a PE class during the semester of their exemption. They are not guaranteed the class of their choice. This is due to space limitations caused by exempted students flowing in and out of PE classes throughout the year.

** These PE Exemption students will not register for a PE class for 1st Semester. They need to select a PE option for 2nd Semester only.

+ Students re-entering PE once their season is over may be put into Personal Fitness if space is not open in the class they vacated.

Two credits in science are required for graduation. Each credit must be earned by completing both semesters of a given course (one credit can be earned through the semester course offerings).

All students should have experience in both the biological and physical/earth sciences. Two years of the same type of science, if this excludes other areas of science, is not recommended.

Courses in science are designed to develop an understanding of the natural and physical world, to stress the importance of major scientific principles, to develop reasonable competence in the use of the methods of science and to help recognize and prepare for the role science plays in our evolving technological world. The many course offerings and sequences in science have been carefully planned to meet the needs of each student, whether he/she considers science as a future career, as an interesting avocation or as a necessity for all citizens in our technological society.

Courses are taught in classroom-laboratory situations which provide opportunities for individual and group instruction, investigation and experimentation.

The following are possible four-year course sequences:

<u>Seq.</u>	<u>Grade 9</u>	<u>Grade 10</u>	<u>Grade 11</u>	<u>Grade 12</u>
1.	Earth Science - G or Biology - G	Biology - G Earth Science - G	Chemistry/Physics	Chemistry Themed or Physics Themed
2.	Biology or Earth Science	Earth Science or Biology	Chemistry Themed or Chemistry Traditional	Physics Themed or Physics Traditional
3.	Biology	Chemistry Themed or Chemistry Traditional	Physics Themed or Physics Traditional	Earth Science semester courses or Earth Science Honors or select Advanced Placement courses
4.	Biology	Chemistry Themed or Chemistry Traditional	Earth Science	Physics Themed Physics Traditional
5.	Earth Science or Earth Science - H	Biology or Biology - H	Chemistry Traditional or Chemistry - H	Physics Traditional, Physics - H or Advanced Placement courses
6.	Biology Honors	Chemistry Honors	Physics Honors	Advanced Placement courses

The following semester courses are available to upperclassmen:

- Meteorology/Astronomy (**student must not have taken Earth Science**)
- Geology/Oceanography (**student must not have taken Earth Science**)

The aforementioned sequences by no means represent all sequences available to students. The possibilities are numerous. Possibly a more useful way to view science courses is by the year offered. The following table serves that purpose.

Science Department

COURSE TITLE	Course #	Prerequisite	Credit	Grade Offered
Fundamentals of Physical Science	3680	Yes	1.0	9-12
Fundamentals of Biological Science	3690	Yes	1.0	9-12
Biology - General	3700	Yes	1.0	9-12
Biology	3710	Yes	1.0	9-12
Biology - Honors	3720	Yes	1.0	9-12
Advanced Placement Biology	3730	Yes	1.0	11-12
Advanced Placement Environmental Science	3770	Yes	1.0	11-12
Earth Science - General	3740	Yes	1.0	9-12
Earth Science	3750	Yes	1.0	9-11
Earth Science - Honors	3760	Yes	1.0	9-12
Meteorology/Astronomy	3771	Yes	0.5	10-12
Geology/Oceanography	3781	Yes	0.5	10-12
Chemistry/Physics I	3800	Yes	1.0	11-12
Chemistry - Themed	3810	Yes	1.0	10-12
Chemistry - Traditional	3820	Yes	1.0	10-12
Chemistry - Honors	3830	Yes	1.0	10-12
Advanced Placement Chemistry	3840	Yes	1.0	11-12
Physics - Themed	3900	Yes	1.0	11-12
Physics - Traditional	3920	Yes	1.0	10-12
Physics - Honors	3930	Yes	1.0	10-12
Advanced Placement Physics B	3950	Yes	1.0	11-12
Advanced Placement Physics C	3960	Yes	1.0	11-12

FUNDAMENTALS OF PHYSICAL SCIENCE

Course # 3680

Full year

Credit: 1.0

This course focuses on the basic principles of the physical science. Students are directly involved in the development of each concept presented. The goal is to sharpen skills of observation and inference. Fundamentals of Physical Science is a laboratory course.

Prerequisite: Successful completion of Biology General and Earth Science General. Enrollment in this course is by teacher recommendation only.

FUNDAMENTALS OF BIOLOGICAL SCIENCE

Course # 3690

Full year

Credit: 1.0

This course investigates the basic structure, activities and relationships among living things. Class activities include laboratory investigations and class discussions.

Prerequisite: Must be recommended cooperatively by Educational Services, Science and Guidance departments. Fundamentals of Biological Science 3690 is being reviewed and will NOT be offered in 2008-2009.

BIOLOGY - GENERAL

Course # 3700

Full year

Credit: 1.0

This course is designed to acquaint students with properties of living organisms. The course content includes such topics as the relationship between structure and function in living organisms as it relates to the human body, evolution, genetics, and many aspects of ecology. The approach of this course is to provide an introduction to major biological concepts with the use of an easily readable textbook. Biology - G is a laboratory course.

Prerequisite: Incoming freshmen eligibility is based upon test scores and recommendation of 8th grade instructor. Grades 10, 11 & 12 must have departmental recommendation. Open to grades 9, 10, 11 & 12.

BIOLOGY

Course # 3710

Full year

Credit: 1.0

This course is designed to acquaint students with properties of living organisms. This course's content includes such topics as the relationship between the structure and function in living organisms as it relates to the human body, evolution, genetics, and varied ecological principals. These areas are investigated in greater depth and application than Biology-General. The impact that humans have on the global environment is studied during the end of this course. Methods of scientific inquiry are employed in classroom instruction. Good ability in reading comprehension is **ESSENTIAL** for success in this course. Biology - R is a laboratory course.

Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Grades 10, 11 & 12 must have departmental recommendation. Open to grades 9, 10, 11 & 12.

BIOLOGY - HONORS

Course # 3720

Full year

Credit: 1.0

The course follows a molecular approach in the following content areas: cellular biology, evolution, genetics and its applications, and aspects of human biology. Compared to Biology 3710, the content areas are covered in greater depth and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. This course utilizes an inquiry approach in which students incorporate factual information into a framework of reflection and analysis. Biology - H is a laboratory course.

Prerequisite: High ability in science, mathematics and reading. Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Grades 10, 11 & 12 must have departmental recommendation. Open to grades 9, 10, 11 & 12.

ADVANCED PLACEMENT BIOLOGY

Course # 3730

Full year

Credit: 1.0

This course follows the College Board's Advanced Placement curriculum and as such is extremely rigorous and fast paced. This course is comparable to an introductory college level course. College level materials are used. Advanced Placement Biology is a laboratory course.

Prerequisite: Three years of science, including a year of Biology and a year of Chemistry and departmental recommendation. Concurrent enrollment in third year of science and AP Biology is permitted. Open to grades 11 & 12.

ADVANCED PLACEMENT ENVIRONMENTAL SCIENCE

Course # 3770

Full year

Credit: 1.0

This course follows the College Board's Advanced Placement curriculum and as such is extremely rigorous and fast paced. This course will provide students with the scientific principles, concepts and methods required to understand the interrelationships of the natural world, to identify and analyze environmental problems, and to examine alternative solutions for resolving and/or preventing them. Field trips are an integral part of this course and are therefore mandatory. This course is comparable to a one-semester introductory college-level course; college-level materials are used. Advanced Placement Environmental Science is a laboratory course.

Prerequisite: Three years of science and departmental recommendation. Concurrent enrollment in a third year of science and AP Environmental Science is permitted. Open to grades 11 & 12.

EARTH SCIENCE - GENERAL

Course # 3740

Full year

Credit: 1.0

The core material for this course is similar to that of 3750 Earth Science. The approach of the text used in this course is understandable, practical and, most important, it aids students who need an introduction to major concepts in Earth Science in an easy to read form. Earth Science - G is a laboratory course.

Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Grades 10, 11 & 12 must have departmental recommendation. Open to grades 9, 10, 11 & 12.

Science Department

EARTH SCIENCE

Course # 3750

Full year

Credit: 1.0

This course utilizes an inquiry approach in which students take factual information and use it for analysis. The main units of study are: geology, oceanography, meteorology and astronomy. Good ability in reading comprehension and average ability in math are **ESSENTIAL** for success in this program. Earth Science is a laboratory course.

Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Grade 10 & 11 must have departmental recommendation. Open to grades 9 - 11.

EARTH SCIENCE - HONORS

Course # 3760

Full year

Credit: 1.0

This course uses a college-level textbook and covers major topics in meteorology, astronomy, and geology. Compared to Earth Science 3750, the pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. The approach of the course involves traditional learning, labs, and tests paired with cooperative group work, presentations, and written projects. Earth Science - H is a laboratory course.

Prerequisite: High ability in science, mathematics and reading. Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Grades 10, 11 & 12 must have departmental recommendation. Open to grades 9, 10, 11 & 12.

METEOROLOGY AND ASTRONOMY

Course # 3771

1st or 2nd semester

Credit: 0.5

Meteorology is the study of the mechanics of the atmosphere, weather and climatic patterns. Astronomy is concerned with the celestial bodies that comprise the known physical universe. The astronomy portion of this course DOES NOT emphasize astrophysics. This course includes teamwork to help develop problem solving skills. Good reading skills and comprehension are required. Meteorology and Astronomy is a laboratory course.

Prerequisite: At least one year of high school science, excluding Earth Science, and departmental recommendation. Open to grades 10, 11 & 12.

GEOLOGY AND OCEANOGRAPHY

Course # 3781

1st or 2nd semester

Credit: 0.5

This course examines the physical processes that shape and change the earth's crust. The physical, chemical, geological and biological aspects of the ocean are explored with equal time devoted to each aspect. This course includes teamwork to help develop problem solving skills. Good reading skills and comprehension are required. Geology and Oceanography is a laboratory course.

Prerequisite: At least one year of high school science, excluding Earth Science, and departmental recommendation. Open to grades 10, 11 & 12.

CHEMISTRY/PHYSICS I

Course # 3800

Full year

Credit: 1.0

This course is designed for those students needing additional chemistry and physics background before enrollment in a full-year course. Approximately one semester each will be devoted to topics in chemistry, such as atomic structure and gases, and topics in physics, such as motion and waves. This lab oriented course is taught at a pace that allows students to focus on chemistry and physics content development as well as study skills that could prepare students for a full-year chemistry or physics course. This is a laboratory course.

Prerequisite: Successful completion of Algebra and departmental recommendation. This course is not open to students who have taken Chemistry or Physics. Open to grades 11 & 12.

**CHEMISTRY-Themed
(Formerly Chemistry)****Course # 3810**

Full year

Credit: 1.0

This course is an issue-oriented laboratory course. Traditional chemistry concepts such as stoichiometry, acids and bases, and behavior of gases are taught through the study of special topics including: nuclear chemistry, petroleum, water, and air. This course includes teamwork to help develop problem-solving skills and an understanding of the relevance and concepts of chemistry in everyday living. Good ability in reading comprehension and average ability in math are essential for success in this program. This course has a field-based lab requirement. This is a laboratory course and it does not meet the prerequisite for A.P. Chemistry.

Prerequisite: Successful completion of Algebra 1 and departmental recommendation. Open to grades 10, 11 & 12.

**CHEMISTRY-Traditional
(Formerly Chemistry Enriched)****Course # 3820**

Full year

Credit: 1.0

This is a traditional high school chemistry course. Traditional chemistry concepts such as stoichiometry, acids and bases, behavior of gases and equilibrium are taught as students independently develop understanding through participation in classroom lecture, assignments, activities and labs. Good ability in reading comprehension and average ability in math are essential for success in this program. This is a laboratory course and it meets the prerequisite for A.P. Chemistry.

Prerequisite: Successful completion of Algebra 1 and departmental recommendation. Open to grades 10, 11 & 12.

CHEMISTRY - HONORS**Course # 3830**

Full year

Credit: 1.0

The core material for this course is similar to that of Chemistry-Traditional and follows a similar sequence. The pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. Chemistry - Honors is a laboratory course. This course meets the pre-requisite for A.P. Chemistry.

Prerequisite: High ability in science, mathematics and reading and departmental recommendation. Open to grades 10, 11 & 12.

**ADVANCED PLACEMENT
CHEMISTRY****Course # 3840**

Full year

Credit: 1.0

This course follows the College Board's Advanced Placement curriculum and as such is extremely rigorous and fast paced. Students are required to do significant amounts of work outside of class. This course is comparable to an introductory college level chemistry course. College level materials are used. Advanced Placement Chemistry is a laboratory course.

Prerequisite: Three years of science, including a year of Chemistry (Enriched or Honors) and a year of Physics (Enriched or Honors) and departmental recommendation. Concurrent enrollment in a third year of science and AP Chemistry is permitted. Open to grades 11 & 12.

**PHYSICS-Themed
(Formerly Physics)****Course # 3900**

Full year

Credit: 1.0

This is a theme-directed laboratory course. Topics include motion, forces, energy, waves, sound, optics, electricity and magnetism and are taught in a directed approach with frequent assessment through participation in classroom lecture, assignments, activities, projects, and labs. This course is appropriate for students with average math ability. This is a laboratory course and it does not meet the prerequisite for A.P. Physics courses.

Prerequisite: Successful completion of Algebra I, concurrent enrollment in Algebra II/Trig, and departmental recommendation. Open to grades 11 & 12.

**PHYSICS-Traditional
(Formerly Physics Enriched)****Course # 3920**

Full year

Credit: 1.0

This is a traditional high school physics laboratory course. Topics such as motion, forces, momentum, energy, waves, sound, light, optics, electricity, and magnetism are taught as students independently develop understanding with less frequent assessment through participation in classroom lecture, assignments, activities, projects, and labs. This course is appropriate for students with average math ability. This is a laboratory course and meets the prerequisite for A.P. Physics courses.

Prerequisites: Successful completion of Algebra I, concurrent enrollment in Algebra II/Trig, and departmental recommendation. Open to grades 10, 11 & 12.

Science Department

PHYSICS - HONORS

Course # 3930

Full year

Credit: 1.0

This course uses a college-level textbook. Compared to Physics-Traditional, the pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. Physics Honors is extremely math intensive at the Algebra/Trig level with an emphasis on symbolic manipulation of variables. This course meets the prerequisite for AP Physics. Physics-H is a laboratory course.

Prerequisites: Successful completion of Trigonometry and departmental recommendation that will be based upon high level ability in science, mathematics and reading. Open to grades 10, 11 & 12.

ADVANCED PLACEMENT PHYSICS B

Course # 3950

Full year

Credit: 1.0

This course follows the College Board's Advanced Placement curriculum and as such is extremely rigorous and fast paced. This course follows the Advanced Placement Physics B format, so approximately one-third of the year is devoted to mechanics, one-third to classical electricity and magnetism, and the remainder to light/optics/nuclear. Algebra is used in problem solving and derivations. This course, which uses college level materials, is comparable to an introductory college physics course for non-engineering majors. Advanced Placement Physics is a laboratory course.

Prerequisite: Departmental recommendation and three years of science, including years of Chemistry and Physics (Enriched or Honors). Concurrent enrollment in a third year of science and AP Physics is permitted. Open to grades 11 & 12.

ADVANCED PLACEMENT PHYSICS C

Course # 3960

Full year

Credit: 1.0

This course follows the College Board's Advanced Placement curriculum and as such is extremely rigorous and fast paced. This course follows the Advanced Placement Physics C format so approximately one-half of the year is devoted to mechanics and the other to classical electricity and magnetism. Calculus is used in problem solving and derivations with usage increasing as the course progresses. This course, which uses college level materials, is comparable to an introductory college physics course for engineering majors. Advanced Placement Physics is a laboratory course.

Prerequisite: Departmental recommendation and three years of science, including years of Chemistry and Physics (Honors), as well as completion of Calculus AB or BC, or concurrent enrollment. Concurrent enrollment in a third year of science and AP Physics is permitted. Open to grades 11 & 12.

Brian Spannagel, design

VISION STATEMENT

Americans consume more information than ever before and communicate it with technologies unavailable just decades ago. Such changes provide social studies educators and their students with unexplored resources and powerful new tools. We believe that in this environment students must be able to analyze diverse information, discern multiple perspectives, employ a variety of approaches, and synthesize these into their own meaningful view of the past and present. Our nation, struggling to find a common ground of shared values, also finds challenges in the information revolution. Yet we believe that with historical memory and an appreciation and understanding of our social connections, students will act as informed and responsible citizens.

MISSION STATEMENT

The Hinsdale Central Social Studies Department strives to be respected by all school constituencies for its ability to inspire and direct the personal, intellectual, and civic development of its students. The department emphasizes the process of learning, whereby students critically examine issues, evaluate multiple points-of-view, and synthesize perspectives from a variety of disciplines, resulting in the ability to solve problems and make informed decisions. The department seeks to promote an understanding of diverse cultures, values, and systems; from this, students will gain awareness of their own values, as well as those of others. The tolerance and diversity that result from this training are balanced by a commitment to exploring and building common values such as democratic participation and freedom of expression.

It is a department that is self-directed, collegial, with high expectations of its students and of itself. The department seeks to foster a love of learning through enthusiasm for the social studies disciplines, use of a variety of instructional strategies, and the dynamic of individual personalities committed to a set of shared goals.

Two (2) credits in Social Studies are required for graduation. One of these credits must be U.S. History, which also satisfies the state requirement for an “Americanism” unit. This credit must be earned by completing both semesters of U.S. History, American Studies or Advanced Placement U.S. History. The second credit must be earned during the freshman year by taking either World Cultures or World History - H.

Freshman Program: All freshmen must take either World Cultures or World History Honors. Students must satisfy this requirement by earning credit in both semester one and semester two of the course in which they enroll.

Sophomore Program: If a student has failed either one or both semesters of his/her freshman course, he/she must make up the failed credit. Sophomore electives include Global Issues, Asian Studies, Russian Studies, Western Civilization and AP European History.

Junior Program: American Studies, U.S. History or AP U.S. History are full year courses. One is required by the State of Illinois for graduation. See electives open to juniors.

Senior Program: There are no required courses at this level. See electives open to seniors.

WORLD CULTURES

Course # 2140

Full year
Credit: 1.0

World Cultures explores the geographic, economic, historic, cultural and current issues pertaining to the world's major civilizations. A variety of activities and assessments will be used to foster the acquisition of not only content knowledge, but also critical thinking skills appropriate to the social studies.

Prerequisite: None. Open to grade 9.

WORLD HISTORY - H

Course # 2220

Full year
Credit: 1.0

This course surveys broadly, chronologically and topically, the chief features of various civilizations, culture, nations and major concepts from ancient to modern times. The historical development of Eastern and Western civilizations are explored. Core material is organized around a textbook; however, extensive supplemental reading is required. Students will be challenged with a variety of assessments including tests, papers, speeches, debates, presentations and cooperative learning activities.

Prerequisite: High standardized test scores and the recommendation of the 8th grade social studies teacher. Open to grade 9.

WESTERN CIVILIZATION

Course # 2261

1st or 2nd semester
Credit: 0.5

Western Civilization is a survey of the history of Western Civilization beginning with the influences of Greece and Rome and ending in the early Twentieth Century. Students will explore the historical trends, events, and ideas that have come to shape society today. This course is designed to accommodate those students not taking AP European History and/or World History Honors.

Prerequisite: None. Open to grades 10, 11 & 12.

GLOBAL ISSUES

Course # 2231

1st or 2nd semester

Credit: 0.5

Global Issues examines several major contemporary political, social, and diplomatic dilemmas of the 21st century. After tracing the historical roots of contemporary issues, students will analyze and evaluate each issue from a variety of perspectives. Possible topics include the development of nuclear weapons, human rights and genocide, democracy and dissent, the future of the Middle East, the “war on terror,” and U.S. foreign policy since Vietnam. Active student participation is expected as the class revolves around in-class discussions, informal debates, oral arguments, and persuasive essays.

Prerequisite: None. Open to grades 10, 11 & 12.

ASIAN STUDIES

Course # 2241

1st or 2nd semester

Credit: 0.5

Asian Studies will examine the history and culture of China, Japan and Korea. Possible topics of study include the Samurai and code of Bushido, the emergence of Japan as a colonial power, the Rape of Nanking, the Korean War, the development of nuclear weapons by North Korea, and the emergence of China as a 21st century global superpower. The course is project, writing, and discussion oriented complimented with a field trip and experiential learning. Students will be challenged to avoid ethnocentrism and to understand these civilizations from the perspective of the people who came from them.

Prerequisite: None. Open to grades 10, 11 & 12.

RUSSIAN STUDIES

Course # 2251

1st or 2nd semester

Credit: 0.5

Russian Studies will examine the history, culture, geography, and political ideology of Russia and the former Soviet Union. The course places special emphasis on the Romanov Dynasty, communist rule in the former Soviet Union, and contemporary affairs, including Russia’s role on the world stage. This class offers a unique opportunity to focus one’s studies on a specific and highly relevant part of the world. In addition, Russian Studies places special emphasis on writing in the social studies context.

Prerequisites: None. Open to grades 10, 11 & 12.

ADVANCED PLACEMENT EUROPEAN HISTORY

Course # 2440

Full year

Credit: 1.0

Advanced Placement European History traces the political, social, economic, intellectual, and cultural development of European Civilization from the Renaissance to the present. A wide variety of teaching methods are used including discussion, debate, role-play, simulations and trials. Students will learn to use and evaluate primary sources, write critical essays, and analyze historical interpretations. This course prepares the student for the Advanced Placement European History examination.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

AMERICAN STUDIES

Course # 1550

Full year

Credit: 2.0 (one credit each of English and American History)

American Studies combines English with American History and is team-taught by two teachers, one from the English Department and one from Social Studies. Students will enjoy the combination of literature, history, writing, and oral presentations in both small and large group settings. Trends in American History and literature are discussed and researched. A variety of expository writing strategies are covered along with special projects and field trips. The course meets for two back-to-back periods.

Prerequisite: None. Credit in this course fulfills the U. S. History requirement. Open to grade 11.

Social Studies Department

U.S. HISTORY

Course # 2310

Full year

Credit: 1.0

U.S. History is a survey which covers U.S. History from Native American cultures through European colonization, founding of the new Republic and Constitution, includes the Civil War, and concludes with modern times. Units survey chronologically and topically the major events, personalities and issues which have played a part in the evolution of the American democratic republic.

Prerequisite: None. Required by State Law for graduation. Open to grade 11.

ADVANCED PLACEMENT U.S. HISTORY

Course # 2320

Full year

Credit: 1.0

Advanced Placement United States History is a survey course that is meant to replicate the academic rigor of a two semester college experience in a year. This class requires students to engage in extensive reading of primary sources and historical essays. Focus will be placed on the development of college level reading and writing skills. Key events and major themes such as American diversity, economic transformations and politics and citizenship will be examined in studying the nation's past. This course prepares the student for the Advanced Placement United States History examination.

Prerequisite: Departmental approval. Credit in this course fulfills the U.S. History requirement. Open to grade 11.

ECONOMICS

Course # 2331

1st or 2nd semester

Credit: 0.5

Economics investigates the principles that drive decision-makers, both consumers and producers, in our global marketplace. Students specifically examine the major components of the U.S. economic system; such as, opportunity costs, trade-offs, production and consumption practices, money and banking, savings and investment, business management and labor, business cycles, and economic relationships between nations. The study of Economics helps prepare students to make rational economic choices both in their own lives and in their participation in policy decisions as citizens of a city, state, nation, and the world. Learning is enhanced through current events, economic simulations, and class activities. **Successful completion of this course fulfills the District's Consumer Education requirement for graduation.**

Prerequisite: None. Open to grades 11 & 12.

ADVANCED PLACEMENT MICROECONOMICS

Course # 2341

1st or 2nd semester

Credit: 0.5

Advanced Placement Microeconomics provides students with a thorough understanding of the decision making process for individuals and firms in the marketplace. It places primary emphasis on the operations of the product and factor markets along with the government's role in promoting efficiency and equity in various market structures. The course is conducted in a lecture/seminar manner supported by daily readings, practice problems, and student activities. The course prepares the student for the Advanced Placement exam in Microeconomics exam administered in May. **Successful completion of this course fulfills the District's Consumer Education requirement for graduation.**

Prerequisite: Departmental Approval. Open to grades 11 & 12.

CONSTITUTIONAL LAW

Course # 2381

1st or 2nd semester

Credit: 0.5

Constitutional Law is an introductory legal course which investigates many topics, including criminal law, trial rules, court systems, juvenile law, discrimination, and search and seizure law. In addition to using contemporary legal cases, a wide variety of teaching methods are used, including mock trial hearings, mock jury simulations, and videos. The primary learning tool in Constitutional Law is class discussion. Additionally, an alternative final exam is available for those students who would prefer a project.

Prerequisite: None. Open to grades 11 & 12.

**ADVANCED PLACEMENT
UNITED STATES GOVERNMENT
AND POLITICS**

Course # 2361

1st or 2nd semester

Credit: 0.5

AP United States Government and Politics is an advanced placement course designed to give students both theoretical and realistic perspectives on politics and government in the United States. Its focus is on the interconnectedness between the various institutions, opinions and policies that make up the national public system. Student political involvement is emphasized. This class prepares students for the Advanced Placement United States Government and Politics examination.

Prerequisite: Departmental approval. Concurrent enrollment in U.S. History or previous completion of U.S. History during the regular school year. Open to grades 11 & 12.

SOCIOLOGY

Course # 2371

1st or 2nd semester

Credit: 0.5

Sociology is the study of man's social behavior. The course increases the student's awareness of social pressures that affect one's own behavior and the behavior of others. Typical activities such as discussions, experiments, student planned projects and a wide variety of films and videotapes enable the student to apply knowledge gained in the course to his or her own life.

Prerequisite: None. Open to grades 11 & 12.

PHILOSOPHY AND ETHICS

Course # 2391

1st or 2nd semester

Credit: 0.5

Philosophy and Ethics will offer interested and intellectually curious students the opportunity to reflect on fundamental questions related to the human condition, such as the basis of knowledge, ethical theories and issues, artificial intelligence, free will versus determinism, rational proofs for the existence of God, and the meaning of evil and suffering. The goal of the course will not be so much to cover a particular body of philosophers, but to raise important issues that will spur students to further inquiry, study, and application in their own lives. Much of the class will involve reading, discussion, and writing. Students will be expected to read carefully, write critically, and participate in class discussions.

Prerequisite: None. Open to grades 11 & 12.

PSYCHOLOGY

Course # 2431

1st or 2nd semester

Credit: 0.5

Psychology focuses on the study of human behavior from many perspectives. Audiovisual materials, experiments, projects and case studies are used to understand the human experience. This class is heavily discussion based. In addition, much independent coursework is used to investigate topics such as development, the brain, altered states of consciousness, learning, personality and abnormal behavior.

Prerequisite: None. Open to grades 11 & 12.

**ADVANCED PLACEMENT
PSYCHOLOGY**

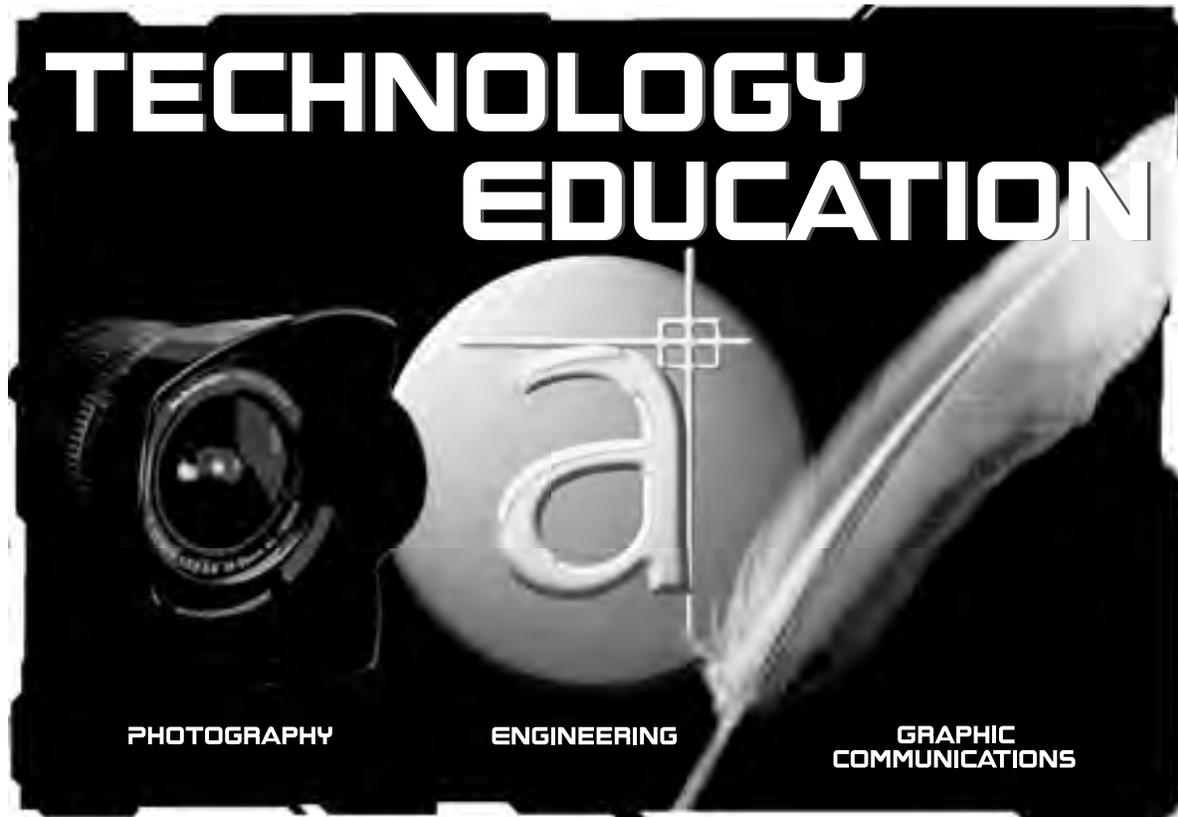

Course # 2430

Full year

Credit: 1.0

AP Psychology explores why human beings are the way that they are. This course traces the emergence of scientific psychology in the nineteenth century from its roots in philosophy and physiology to present day practices. The development of the major "schools" of psychology and showing how they differed in subject matter and the methods of study are covered. This historical introduction helps students gain an understanding of the principal twentieth century approaches to psychology: behavioral, biological, cognitive, humanistic and psychodynamic. This class prepares students for the Advanced Placement Psychology examination.

Prerequisite: Departmental approval. Open to grades 11 & 12.

The Technology Education Department offers an elective course of study to all students at Hinsdale Central. Technology Education courses help students meet the elective arts requirement. Our program of course offerings focuses on a variety of technologies that develop skills in graphic communication and design. Several courses are available to students who wish to explore the educational and career opportunities in Architecture, Engineering, Graphic Communications and Photography.

The primary instructional mode in the department is laboratory-oriented student projects and exercises. A wide range of instructional techniques and technologies is used in the classroom.

Articulated credits at College of DuPage are available to Hinsdale Central students who complete certain courses at Hinsdale Central with at least a grade of B and who upon graduation, attend C.O.D. The list of approved courses with articulated credit at College of DuPage is as follows:

Basic Photography
Color Photography

Each class has a lab fee charged to the student to cover the cost of materials used by the students for project work.

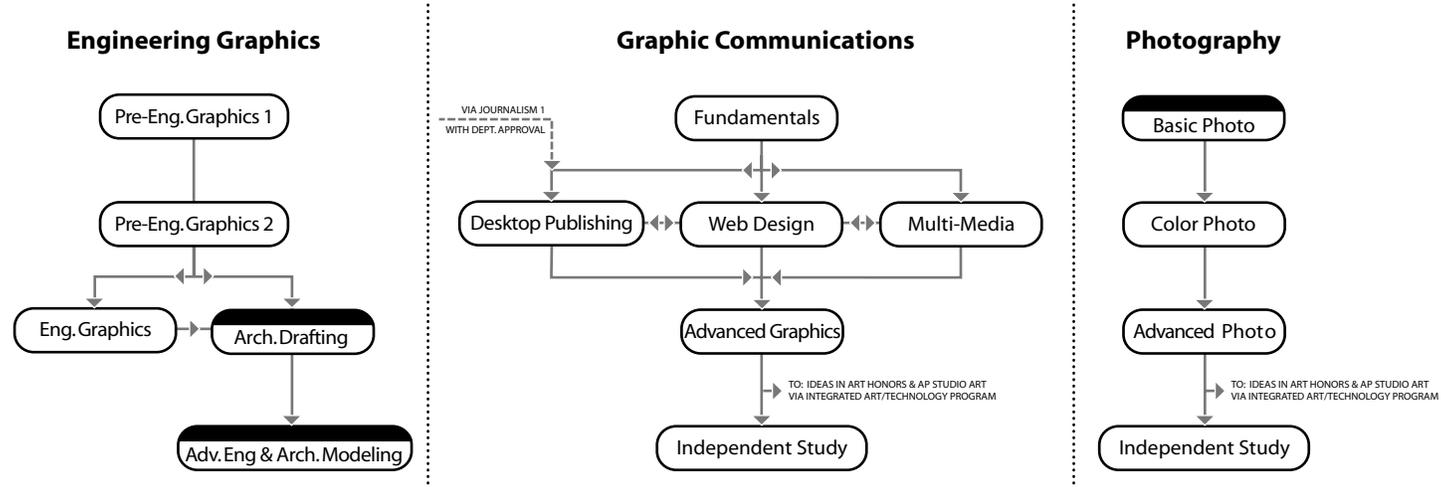

Technology Education

COURSE TITLE	Course #	Prerequisite	Credit	Grade Offered
Pre-Engineering Graphics 1	6601	No	0.5	9-12
Pre-Engineering Graphics 2	6611	Yes	0.5	9-12
Engineering Graphics	6620	Yes	1.0	10-12
Architectural Drafting	6630	Yes	1.0	11-12
Advanced Engineering and Architectural Modeling	6640	Yes	1.0	12

Shown below are possible course selection sequences in the Engineering Graphics Program as students enter each grade.

	9th Grade	10th Grade	11th Grade	12th Grade
1st Year	Pre-Engineering Gr 1	Pre-Engineering Gr 1	Pre-Engineering Gr 1	Pre-Engineering Gr 1
	Pre-Engineering Gr 2	Pre-Engineering Gr 2	Pre-Engineering Gr 2	Pre-Engineering Gr 2
2nd Year	Engineering Graphics	Engineering Graphics and/or Architectural Drafting	Engineering Graphics and/or Architectural Drafting	
3rd Year	Architectural Drafting	Architectural Drafting and/or Advanced Engineering and Architectural Modeling		
4th Year	Advanced Engineering and Architectural Modeling			

Shown below are course sequences for the Graphic Communications Program. Students are encouraged to take entry level courses as early as possible to allow for further courses as need or interest develops.

Technology Education Programs Program Course Sequences

Technology Education

ENGINEERING GRAPHICS PROGRAM

NOTE: Hinsdale Central High School is part of the ACES Program offered through the Autodesk Corp. Software titles currently used in our Engineering Graphics and Architecture courses include: AutoCAD 2008, Inventor Professional 2008, Revit Architecture, and VIZ 2008.

PRE-ENGINEERING GRAPHICS 1

Course # 6601

1st or 2nd semester

Credit: 0.5

This course introduces the student to the fundamentals of mechanical drafting while using AutoCAD software in our CAD Lab. The student will be taught many AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. A few of the software commands the student will use are: line, circle, erase, trim, extend, array, text, move, copy, rotate and scale. Mechanical drawing problems will range from 2D drawings, orthographic projection, sectional view, and pictorial views (isometric and oblique). Freehand sketching on graph paper is also integrated into each assignment. A portfolio of all the student work will be bound together to be taken home at the end of the semester.

Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply fee: \$10.00.

PRE-ENGINEERING GRAPHICS 2

Course # 6611

1st or 2nd semester

Credit: 0.5

This course will continue to introduce the student to the fundamentals of mechanical drafting while using AutoCAD software in our CAD Lab. The student will be taught additional AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. A few of the software commands the student will use are: dtext, offset, object snaps, basic dimensioning techniques, hatching and plotting skills. Mechanical drawing problems will range from auxiliary views, rotations, developments and intersections, and dimensioning techniques of orthographic projection problems. Freehand sketching on graph paper is also integrated into each assignment. A portfolio of all the student work will be bound together to be taken home at the end of the semester.

Prerequisites: 6601. Open to grades 9, 10, 11 and 12. Supply Fee: \$10.00.

ENGINEERING GRAPHICS

Course # 6620

Full year

Credit: 1.0

The goal of the Engineering Graphics course is to expand the student's knowledge in the following areas: computer software usage, manufacturing processes, engineering and design, application of acquired knowledge in making production drawings, and career opportunities in a variety of engineering fields. Students in this class will be expected to work at an accelerated pace on individual projects and some small group work. The computer is the primary means of graphic problem solving using AutoCAD software. Students will be introduced to additional software packages capable of producing 3D solid models. Exploration of Inventor software from Autodesk will lead students to the creation of model racecars that demonstrate the power of this software package. A series of problems which require model construction will also be part of the curriculum. A portfolio of all the student work will be bound together to be taken home at the end of the year.

Prerequisites: 6601 and 6611. Open to grades 10, 11 & 12. Supply Fee: \$18.00.

ARCHITECTURAL DRAFTING

Course # 6630

Full year

Credit: 1.0

This course covers the techniques and methods of construction drawing. The first semester is spent developing a set of plans for a “summer home” to be drawn with a computer using AutoCAD software. First floor plans, foundation plans, wall sections, elevations, door and window schedules and a front view presentation drawing will constitute the course work for the first semester. During the second semester, each student will construct to scale a framing model of his or her home. Scale: 3/4”=1’. The course covers cost, construction and other factors related to home building. Information will be interjected throughout the course about building and buying a home.

Prerequisite: 6611 or departmental approval. Open to grades 10, 11 & 12.

Supply Fee: \$18.00.

ADVANCED ENGINEERING AND ARCHITECTURAL MODELING

Course # 6640

Full year

Credit: 1.0

This course will provide the student with additional challenges as they are introduced to several 3D modeling software programs. Students will be required to use the skills learned in both their engineering and architectural graphics courses as they make the transition from 2D drawings to 3D. Students will explore software programs such as Inventor, Revit and Autodesk Viz, while developing 3D models and animating them. An electronic portfolio will record all work completed during the school year.

Prerequisite: Engineering Graphics and Architectural Drafting and/or instructor approval. Open to grade 12 and/or departmental approval. Supply Fee: \$18.00.

Technology Education

Integrated Art and Technology Education Program

The Integrated Art and Technology Education Program is offered as an elective course of study to all students at Hinsdale Central. Our program is interested in the use of technology as a tool or medium in various art/technology-related areas of study, including Graphic Communications, Photography, and Digital Imaging .

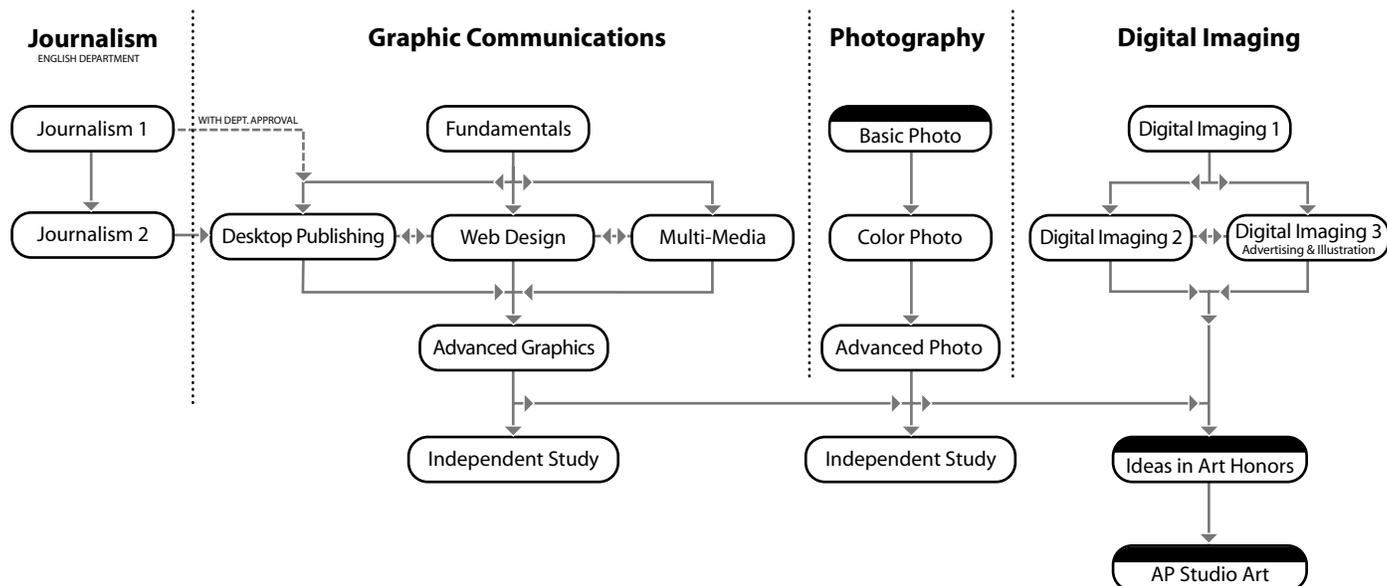

Articulated credits at College of DuPage are available to Hinsdale Central students who complete certain courses at Hinsdale Central with a minimum grade of a B and who, upon graduation, attend C.O.D.

The following courses offer articulated credit at College of DuPage:

- Digital Imaging 3: Advertising and Illustration
- Basic Photography
- Color Photography

Each class has a lab fee charged to students for materials.

The mission of the Integrated Art and Technology Education Program at Hinsdale Central High School is to create opportunities for students to use technology as a tool to demonstrate creative expression and/or technical skill. Courses offered in this program will provide students with experiences in digital media and technology, including: photography, graphic communications, design and illustration, digital imaging, web design, multimedia, animation, and other relevant digital media and technology.

Integrated Art & Technology Education Program
Program Course Sequences

GRAPHIC COMMUNICATIONS PROGRAM

GRAPHIC COMMUNICATIONS FUNDAMENTALS (GCF)

Course # 6661

1st or 2nd semester

Credit: 0.5

This course provides students with the essential skills necessary for creating print and web documents. Special emphasis is placed on furnishing students with realistic experiences using industry standard software such as Adobe Illustrator and PhotoShop. Areas of study include technical illustration, typography, color models, photo retouching and image preparation. This course provides sound fundamental skills for later courses in Graphic Communications.

Prerequisite: None. Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00

GRAPHIC COMMUNICATIONS - DESKTOP PUBLISHING (GCDP)

Course # 6650

1st or 2nd semester

Credit: 0.5

Learn to design, layout and prepare documents for print. Use of Adobe InDesign and related Adobe products is stressed. Topics include typography and typographic controls, color usage, preparation of photographic and line art, working with copy, setting up master pages and style sheets, paper characteristics, and binding processes. This course covers essential skills used in producing the Devil's Advocate (newspaper) and El Diablo (yearbook) and is especially recommended for students who are interested in editorial positions.

**Prerequisite: GCF or Journalism 1 (J1 taken concurrently with dept. approval)
Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00**

GRAPHIC COMMUNICATIONS - WEB DESIGN (GCW)

Course # 6662

1st or 2nd semester

Credit: 0.5

Create professional looking web sites! Web Design provides students with an overview of essential disciplines found in electronic publishing for the Internet. **This is not a programming course.** Instead, the focus of the class will be on providing students with realistic experiences needed to create HTML based web sites using professional web page editing software. Areas of study include Internet history, information architecture, interface design, site navigation systems, graphic optimization, and web page editor use.

Prerequisite: Graphic Communications-Fundamentals (GCF). Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00

GRAPHIC COMMUNICATION WEB-BASED MULTIMEDIA (GCMM)

Course # 6681

1st or 2nd semester

Credit: 0.5

Create motion graphics and video! This course give students the skills to create animated graphics, Flash animations, and produce simple videos. Students will gain experience using industry standard software like Adobe Image Ready, and Flash to create many to the types of motion graphics found on the web. Students will also be introduced to digital video, learn how to capture and edit their footage, and ultimately producing their own short commercials.

Prerequisite: Graphic Communications-Fundamentals (GCF). Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00

GRAPHIC COMMUNICATION ADVANCED GRAPHICS (GCA)

Course # 6660

1st or 2nd semester

Credit: 0.5

This course is designed for those students who wish to apply the skills learned in their study of Graphic Communications to real world projects. Students will focus on several areas of interest and develop real world products in a client-project manager arrangement.

Prerequisite: Graphic Communications-Fundamentals (GCF) and one of the following: GCW, GCMM, GCDP. Open to grades 10, 11 & 12. Supply Fee: \$10.00

GRAPHIC COMMUNICATION INDEPENDENT STUDY (GCIS)

Course # 6905/6906 - Graphic Communications

1st or 2nd semester

Credit: 0.5

This course is for students who have exhausted other course offerings and wish to further skills learned in the Graphic Communications program in an independent atmosphere.

Prerequisite: DEPARTMENT APPROVAL. Open to grades 11 & 12. Supply Fee: \$10.00

Technology Education

PHOTOGRAPHY PROGRAM

BASIC PHOTOGRAPHY

Course # 6691

1st or 2nd semester

Credit: 0.5

Basic Photography is for students interested in learning the techniques necessary to produce technically correct and aesthetically pleasing photographs, as well as the responsibility of caring for photographic equipment using the 35 mm SLR camera. Areas of study will include, but are not limited to: the composition of good photographs; the processing of black and white photographic materials; and proper application of equipment, supplies and special darkroom techniques. Equipment and supplies will be provided and cameras will be available for students who do not have access to a 35mm SLR camera.

Prerequisites: None. Open to grades 10, 11 & 12. Supply Fee: \$35.00.

COLOR PHOTOGRAPHY

Course # 6701

1st or 2nd semester

Credit: 0.5

This course is designed for someone interested in the modern methods of color photography. The student will use a film and digital SLR camera to capture their images. Areas of study include, but are not limited to: the principles of color and light; elements of a good photograph; capturing images on negatives, slides and digital media; printing in color; and preparing photographs for display. Equipment and supplies will be furnished. Cameras are available for students who do not own or have access to a film or digital SLR camera. Basic Photography and Color Photography together have articulated credit with The College of DuPage.

Prerequisites: Basic Photography. Open to grades 10, 11 & 12. Supply Fee: \$35.00.

ADVANCED PHOTOGRAPHY - (Formerly Intermediate Photography)

Course # 6812

2nd semester

Credit: 0.5

In this advanced level course, students will be expected to improve upon their current level of photographic ability. In terms of technique, this will involve the introduction of the medium format camera and the zone system (a procedure which will allow students to make more carefully controlled photographic prints.) Additionally, some non-traditional films, papers, and emulsions will be introduced. In terms of content, through class assignments and independent works students will begin to use the photographic medium to more effectively articulate ideas. Students may work with black and white film, color film, and digital cameras to capture images.

Prerequisite: Basic Photography and Color Photography with instructor approval. Open to grades 11 and 12. Supply fee: \$40.00.

PHOTOGRAPHY- INDEPENDENT STUDY

Course # 6907/6908

Credit: 0.5

This course is designed for students who have completed course sequence in photography program and desire further independent course work.

Prerequisite: DEPARTMENT APPROVAL. Open to grades 11 & 12. Supply Fee: \$40.00

DIGITAL IMAGING PROGRAM

DIGITAL IMAGING 1

Course # 5121

1st or 2nd semester

Credit: 0.5

Digital Imaging 1 introduces the student to the artistic and creative potential of the computer. The creation of original works using design elements and principles will be emphasized. The software programs Adobe Photoshop CS2, Adobe Illustrator CS2, Macromedia Flash MX, and Adobe InDesign will allow students to create images. Students will also gain experience in scanning and digital photography.

Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00

DIGITAL IMAGING 2

Course # 5132

2nd semester

Credit: 0.5

Digital Imaging 2, a continuation of Digital Imaging 1, further explores the creative potential of the computer and the software used to create artwork. Students will increase their knowledge of computers and various software programs. Knowledge of computer applications in Adobe Photoshop CS2, Adobe Illustrator CS2, Macromedia Flash MX and Adobe InDesign will be explored, as well as the creation of original, artistic works of art using scanning, digitizing and digital photography. Students will explore post modern principles and develop a theme to compile a series of artwork.

Prerequisite: 5121. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00

DIGITAL IMAGING 3: ADVERTISING AND ILLUSTRATION

Course # 5331

1st or 2nd semester

Credit: 0.5

This course explores the commercial application of Advertising and the basics of Illustration. Computer and some traditional illustration skills will be used. The course will be run like an advertising design business with a client/artist relationship underlying major projects. A knowledge of Photoshop and Illustrator is helpful.

Prerequisite: Digital Imaging 1. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00

Hinsdale High School District No. 86 participates with other high school districts in DuPage County to support an area technology center. Technology Center of DuPage provides comprehensive vocational-technical education for high school students whose career objectives are related to vocational-technical fields. Students are bused to the center (located in Addison) for half-day sessions each day (periods five through ten). During the other half of the school day (periods one through four), students attend classes and lunch and participate in extra-curricular activities at Hinsdale Central. Credits earned at TCD can be used to satisfy the units required for graduation. All TCD courses will satisfy the District 86 graduation requirement in Applied Arts. A maximum of 3.0 units of credit can be earned yearly through TCD course work and 3.0 additional units of credit can be earned per year through Hinsdale Central course work.

Students are expected to follow Hinsdale Central’s disciplinary code both at Hinsdale and at TCD. If a student violates school policy and is not permitted to ride the school bus, the student will be withdrawn failing from his TCD courses.

TCD offers junior -senior level programs in the following areas: “Kit fees” are listed below for each area. Cost is range for first and second years.

	1 ST YEAR	2 ND YEAR		1 ST YEAR	2 ND YEAR
<u>BUILDING & MACHINING</u>			<u>MECHANICAL</u>		
Pre-architectural & Pre-engineering CAD	\$75-\$95	\$85-\$105	Auto Body Repair & Refinishing	\$420-\$500	\$140-\$175

**TECHNOLOGY CENTER OF
DU PAGE CAREER PROGRAMS**

Course # 9010
Credit: 3.0

The requirements and objectives associated with the specific Technology Center of DuPage (TCD) programs listed above vary greatly. Students who wish further information about a particular program and/or wish to register for a TCD program must see their counselor. All students must fill out a separate TCD form with parent signature and return to their counselor.

Prerequisite: None. Open to grades 11 & 12.

TECHNOLOGY CENTER OF DUPAGE (TCD) 2008-2009

GENERAL INFORMATION

The twenty programs operating at TCD are open to juniors and seniors. The TCD campus is located in Addison, Illinois, approximately thirty minutes from Hinsdale Central. Students are scheduled through their counselors to have fourth period lunch and attend TCD the remainder of the day. TCD offers three elective credits which count towards the elective arts graduation requirement. TCD is a year long program; therefore, students should enroll in February for the following year during their registration conference with their counselor. Each student must fill out a TCD application signed by a parent and their counselor. Although there are no specific requirements for TCD enrollment (other than being of junior or senior status), students are advised to work closely with their counselors to fit in all graduation requirements. Please refer to the TCD website <http://www.tcdupage.org> for more information.

CUSTOMIZE YOUR CURRICULUM

TCD helps students learn on two levels. First, it provides hands-on basics to offer experiences that go beyond theory. Secondly, it helps provide a practical workplace to sharpen skills necessary for a chosen career. TCD incorporates a self-paced, goal by goal learning style which encourages self –management and productivity.

ACCREDITATION

TCD is fully accredited by the North Central Association Commission on Accreditation and School Improvement (NA-CASI). It is one of the Midwest's finest schools for career and technical education, and the recipient of the Lincoln Award for Commitment to Excellence from the Lincoln Foundation.

EARN COLLEGE CREDIT AND SCHOLARSHIPS

Many programs offer dual credit through College of DuPage that can be transferred to other colleges and universities accepting COD course work. Other colleges offer advanced standing or credit upon enrollment, including Lewis University, Ferris State University, Triton Junior College, Kendall College, William Rainey Harper College, Johnson & Wales University, and the Cooking & Hospitality Institute of Chicago.

COLLEGE ARTICULATED CREDIT THROUGH TCD PROGRAMS

Hinsdale Township High School District 86 and the College of DuPage have an agreement, articulated credits, in which Hinsdale Central students may receive credit for courses taken in high school once they are enrolled in the College of DuPage. A minimum grade of B must be earned in a TCD course in order to receive COD credit. There is no formal sign-up process for the students to be eligible to receive this credit. TCD courses can provide between two and six semester credit hours depending on the program. Other colleges in addition to COD accepting articulated credit from TCD courses include Triton College, Lewis University, Harper College, Johnson and Wales University, Kendall College and The Cooking and Hospitality Institute of Chicago.

SCHOLARSHIPS AND AWARDS

A TCD student can gain recognition and win scholarships like the Hospitality Club and Skills USA. TCD instructors are also aware of many industry-related and organizational scholarships specifically for students in career and technical education.

GRADUATE SUCCESSES

One year after graduation:

59% continued their education

32% work full-time, a third of those in their related field

2% work and go to school

3% enter the military

CAREER ACCELERATION PROGRAMS

TCD offers twenty of the fastest growing occupations. The knowledge a student will gain can also be applied to a wider range of career choices.

PROFESSIONAL LICENSING

Through TCD a student can earn industry-recognized credentials that open doors. TCD programs help students prepare for career-related state, federal, professional or national licensing exams.

TCD SUMMARY

TCD is part of Hinsdale Central's elective courses. TCD is not a trade school, nor is it a college. TCD focuses on teaching career skills as well as enhancing basic principles of academics. There is no charge to attend TCD. However, programs do have fees for supplies, tools or uniforms as noted in each course description. TCD is a great option for students wishing to pursue a more "career oriented" curriculum. Interested students should work closely with their counselors regarding which program might be best suited for their needs.

T. P. I.

Transitional Program of Instruction

Lee-Cheng Wang, Design

MISSION STATEMENT

The mission of the Transitional Program of Instruction (TPI) is to assist international students who have limited English skills. The TPI program provides academic and social support as students adjust to the American culture and, in particular, to Hinsdale Central High School. TPI will assist them in transitioning into the mainstream of the school community.

In order to fulfill the mission, TPI offers *academic* classes in English as a Second Language (ESL-1 and 2) for credit and TPI resource classes that may receive credit. TPI also addresses individual student needs, including language issues, academic programs, and cultural, social adjustments. English as a Second Language classes are taught in conjunction with the English Department in order to transition students into the mainstream English classes. As students adjust academically and socially, they *transition with support* into the full general education curriculum and the school community. Lastly, students exit the program when they are academically successful.

ESL-ENGLISH 1

Course # 1030

Full year

Credit: 1.0

This course is designed for students whose first language is not English and whose communication skills need more support than can be provided in a regular English class. Listening, speaking, reading and writing will be taught to assist the students in learning standard American English. This course will parallel the goals and skills of English 1. In addition, it will provide activities to include students in the American culture. **Students enrolled in this course must take TPI Resource (Course #1003, 1004) for credit.**

Prerequisite: TPI Director and English Department Chair approval. Open to grades 9 - 12.

ESL-ENGLISH 2

Course # 1040

Full year

Credit: 1.0

This course continues the work started in ESL-English 1. It will continue to develop the students' skills in listening, speaking, reading and writing of standard American English. In addition it will assist students in the reading and writing skills needed in their content area courses. Course materials may include those from English 2. **Students enrolled in this course must take TPI Resource (Course #1003, 1004) for credit.**

Prerequisite: TPI Director and English Department Chair approval. Open to grades 9 - 12.

TRANSITIONAL PROGRAM OF INSTRUCTION (TPI) RESOURCE

Course # 1003, 1004

1st or 2nd semester

Credit: 0.25

or non-credit

This tutorial resource is designed to: 1) help students maintain satisfactory achievement levels in their regular classes; 2) encourage conversational English; 3) accelerate the development of vocabulary understanding, reading comprehension and writing skills in the English language; and 4) facilitate cultural adjustment.

Prerequisite: TPI Director approval. Open to grades 9, 10, 11 & 12 international students who have limited English language proficiency. This program may be scheduled in place of a regularly scheduled study hall. This course must be taken for credit if the student is enrolled in ESL1 or ESL2. It may be taken for credit or non-credit with TPI director recommendation.

TRANSITIONAL PROGRAM OF INSTRUCTION - AIDE

Course # 1013, 1014

1st or 2nd semester

Credit: 0.25

TPI aides assist other individual TPI students with academic and English language needs.

Prerequisite: Recommendation of TPI Director. Open to grades 11 & 12.

REGISTRATION INFO

2008-2009 academic calendar

Early January **Program of Studies Handbook**
 Individual student copies of Hinsdale Central's inclusive curriculum book will be mailed to every home by the first week in January. This information should stimulate initial conversations between parents and students regarding appropriate courses for next year.

January **Curriculum Discussions Begin**
 Individual teacher/student informal advising discussions are held.

January 9, 2008 **Dissemination Homeroom**
 Registration packets and actual registration forms are distributed in this homeroom. Parents are advised to ask their son/daughter to review this information together.

January 10, 2008 **Advise and Sign Day, Semester Classes**
 On this day, students should carry their registration forms to each of their semester classes. Teachers will discuss curricular offerings in their departments. Teachers will also sign each student's registration form signifying the appropriate course recommendations.

January 16, 2008 **Eighth Grade Student and Parent Night**
 An information program will be held for all parents and students at 7:00 p.m. at HCHS to explain the curriculum and the course selection process.

January 22, 2008 **Advise and Sign Day, Year-long Classes**
 On this day, students should carry their registration forms to each of their year-long classes. Teachers will discuss curricular offerings in their departments. Teachers will also sign each student's registration form signifying the appropriate course recommendations.

January 23, 2008 **Collection Homeroom**
 At this homeroom every student hands in the completed registration form (all appropriate teacher and parent signatures are included).

January 29 - February 1, 2008 **Class of 2009 Counselor Conferences**
 Class of 2009 will meet individually with their counselors at an assigned time to finalize their course selections. Individual appointments will be announced in the two homerooms.

February 4 - 8, 2008 **Class of 2010 Counselor Conferences**
 Class of 2010 will meet individually with their counselors at an assigned time to finalize their course selections. Individual appointments will be announced in the two homerooms.

February 11 - 15, 2008 **Class of 2011 Counselor Conferences**
 Class of 2011 will meet individually with their counselors at an assigned time to finalize their course selections. Individual appointments will be announced in the two homerooms.

January 29 - February 12, 2008 **Eighth Grade Individual Registration Conferences**
 Incoming Freshman, Class of 2012, conferences will take place in late January and early February at the local junior high schools. These conferences, will include student, parents and their high school counselor. Appointments are to be scheduled by calling your junior high school Principal's office.

April 2008 **Verification Sheets**
 Confirmation sheets will be mailed home to every student verifying the exact courses the student is registered for in the 2008-2009 academic year. Any computer error should be corrected at this time.

2008-2009 course selections

Generic Scratch Copy

Please check the label on the right. If your name or address is incorrect, please line through it and print the correct information.

List in the spaces provided the classes you have selected for the 2008-2009 school year. Refer to the Registration Instruction Sheet for details.

All appropriate signatures must be written on this form before it is handed in during Homeroom on Wednesday, January 23rd.

Make certain that you have met the graduation requirements as they are listed in the 2008-2009 Program of Studies Handbook.

Graduation Requirements

To graduate, a student must earn a minimum of 24.0 credits and successfully meet the requirements printed below and in General Information (page 2). The 2.0 Elective Arts credit requirement may be satisfied by taking courses from Art, Business, Family & Consumer Science, Foreign Language, Technology Education, Music, or TCD. No more than one credit per department will be counted toward the Elective Arts requirement.

*Class of 2009, 2010, 2011 & 2012

All students must complete 3 full credits of Mathematics courses.

One of the 3 full credits of Mathematics required must be an Algebra 1 course and one of them must include Geometry content. The Algebra course credit may be earned prior to enrollment in District 86, but students must still complete 3 full credits of Mathematics study in high school.

English	4.0 Credits	Science	2.0 Credits
Social Studies	2.0 Credits	Elective Arts	2.0 Credits

Registration Information

district 86 summer session

Registration Registration for the 2008 Summer Session will be taken from Monday, April 14, through Friday, June 6. Driver Education registration ends on May 2. To register for a summer course, obtain a Summer Session Registration card from your counselor after April 14.

Tuition Students living in District 86 - \$200.00 per semester.
Students living outside District 86 - \$300.00 per semester.
Students enrolled in Driver Education - \$300.00 per semester.
Additional charges for books, supplementary materials, and field trips may be required. Books will be obtained on the first day of school.

First Semester Dates Monday, June 9, through Tuesday, July 1, 2008.
Second Semester Dates Wednesday, July 2, through Friday, July 25, 2008.
Times Classes meet from 8:00 a.m. to 1:00 p.m.
Driver Education meets from 9:00 a.m. to 11:00 a.m., with additional individually scheduled time for behind the wheel and simulator training.

Location & Room Assignment Location for the 2008 Summer Session will be Hinsdale South. Driver Education classes will be held at both South and Central. Specific classroom assignments will be posted in the buildings on the first day of classes.

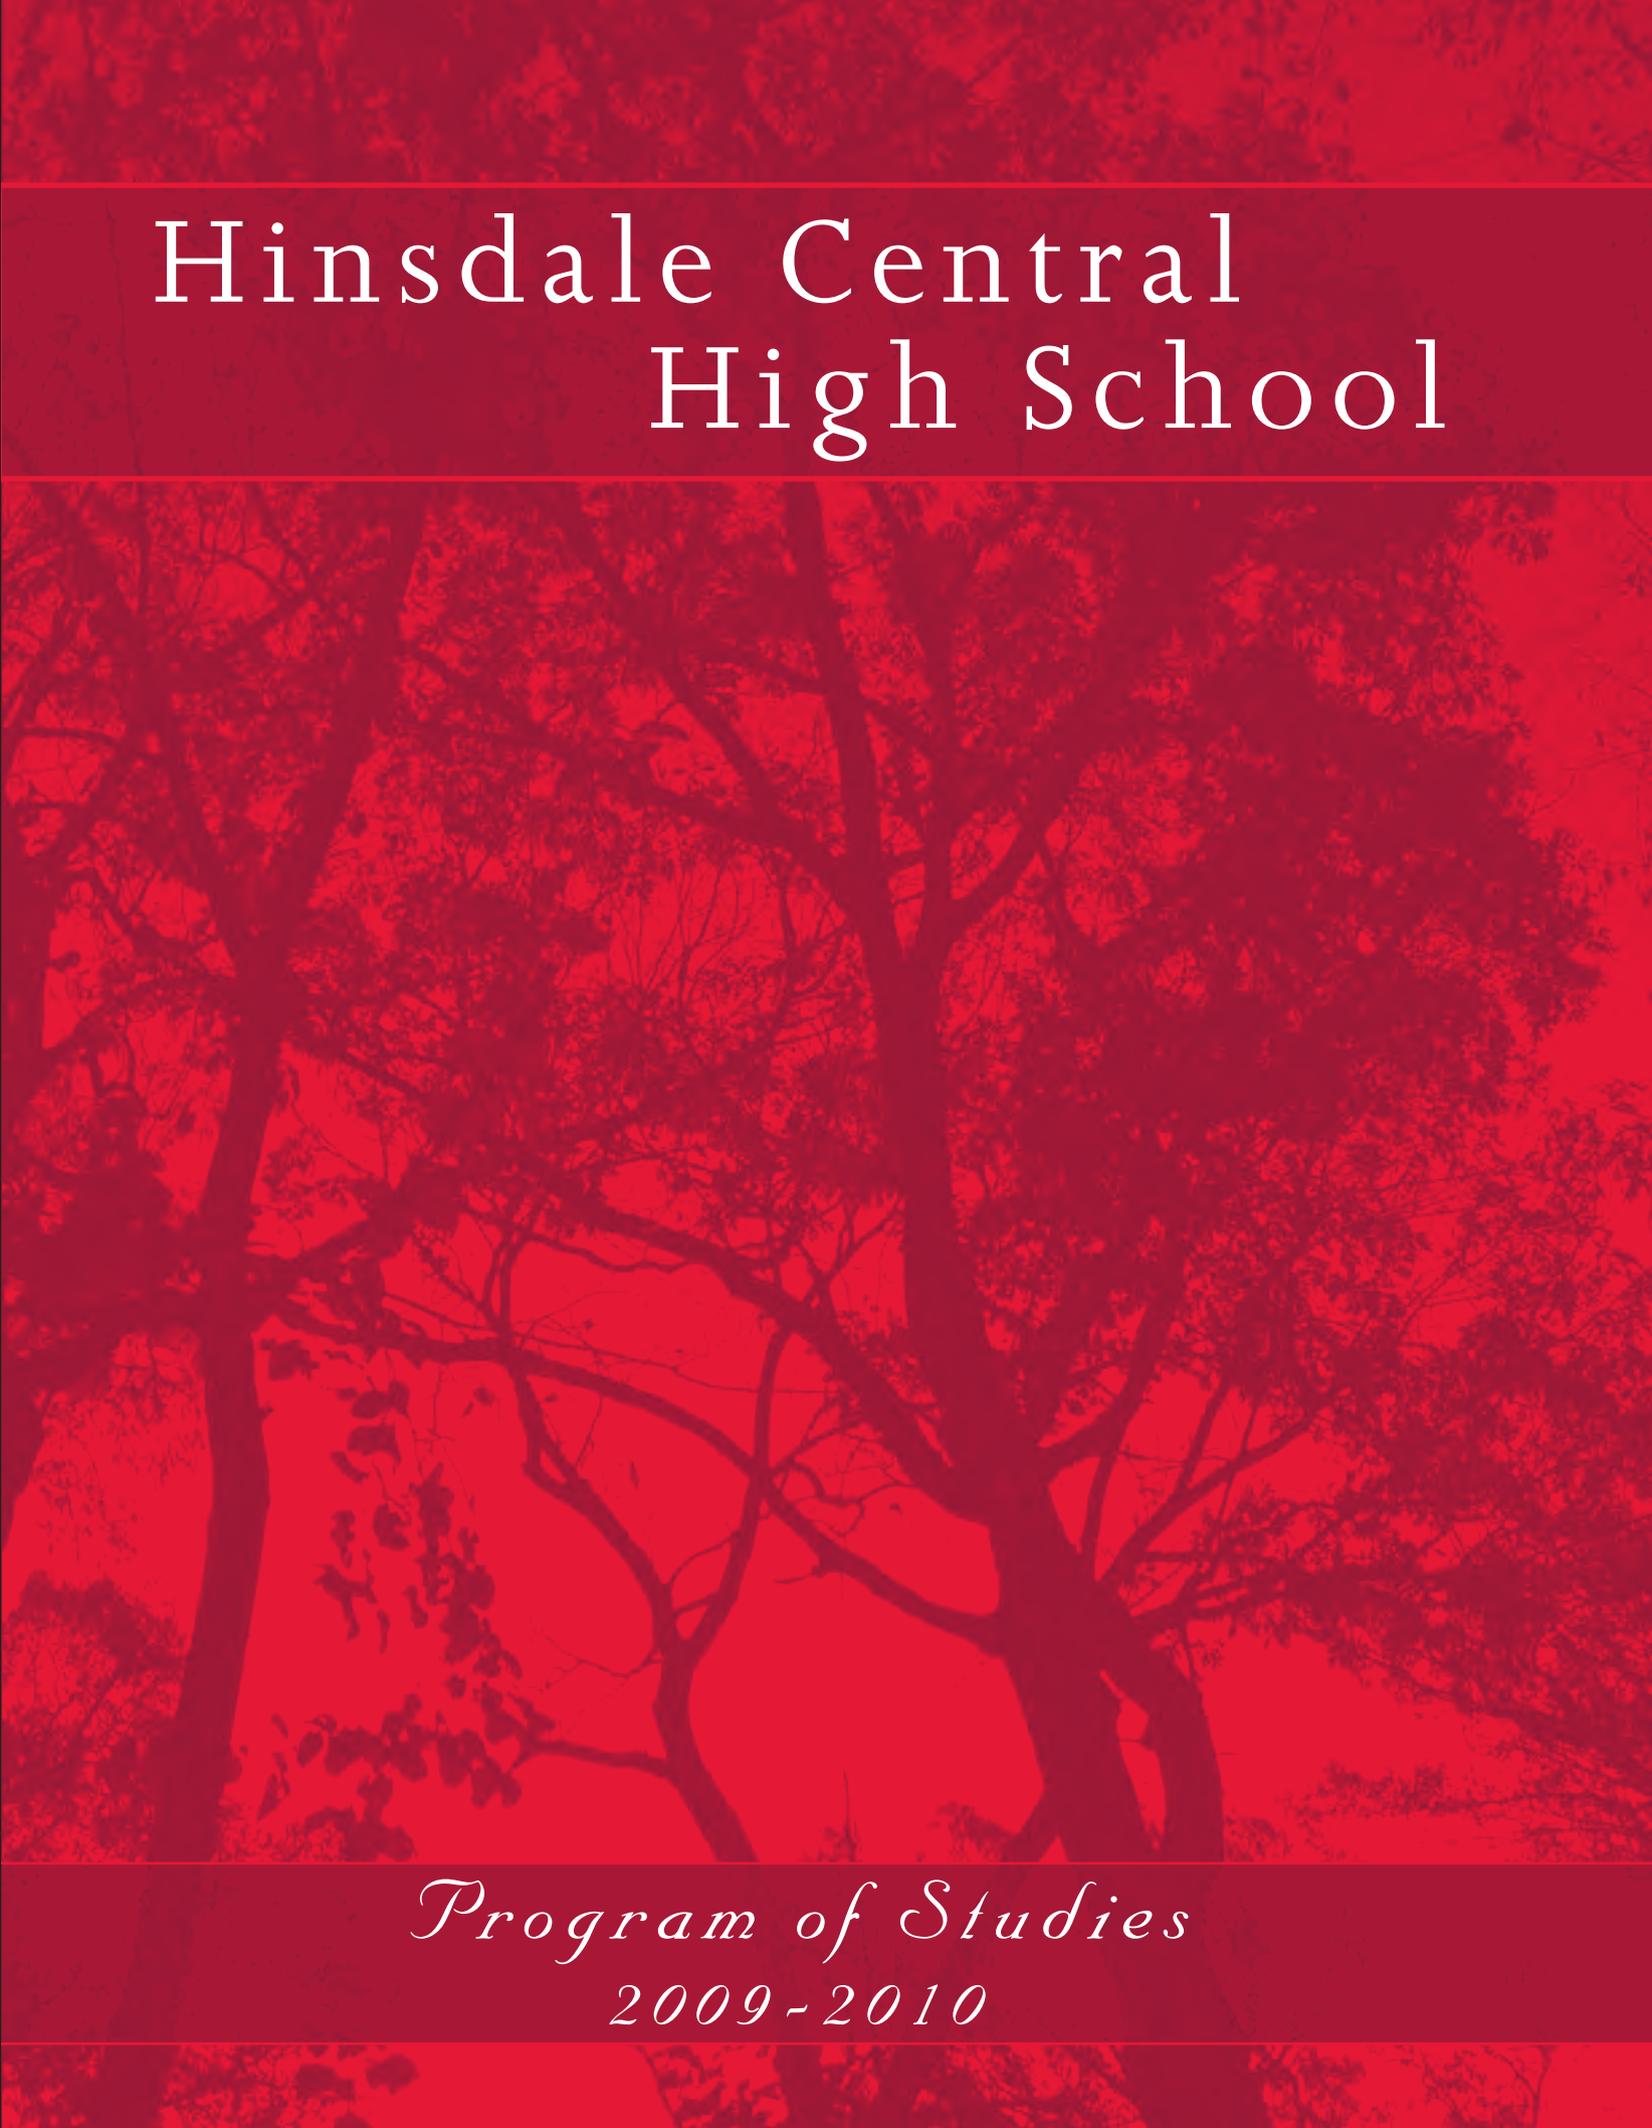

Transportation Free summer school bus transportation will be provided from selected feeder schools and between Hinsdale Central and Hinsdale South high schools. Detailed information will be available in the summer school brochure.

Attendance **It is necessary that students attend every day, on time.** Summer Session courses are intensive. A one day absence from summer school is the equivalent of missing one week of a regular school course. If regular attendance is not possible, enrollment is not recommended.

Questions Please see your guidance counselor.

Course Offerings Academic courses offered during the 2008 summer session will **likely** include:

* Repeat or failed course only	Foundations of Algebra and Geometry	Biology
	Algebra I-G	Chemistry
	Algebra I	Earth Science
	Geometry	Consumer Economics
	Geometry G	Consumer Education (Online)
	Algebra II/Trigonometry	Keyboarding
	English I, II, III, IV *	World Cultures/ World Studies
	Reading and Study Skills	Economics
	ESL Enrichment	U.S. History
	Etymology 1	Driver Education
	Etymology 2 (Online)	Health
		Physical Education*

The background of the entire page is a solid red color with a faint, darker red silhouette of a large, leafy tree. The tree's branches are intricate and spread across the frame. The text is overlaid on this background.

Dear Students and Parents,

Hinsdale Central High School is an exciting place to be a student and to prepare for post-high school opportunities. Registering for classes each winter is an important rite of passage in your journey through HCHS.

This 2009-2010 edition of the Hinsdale Central Program of Studies book is an important resource for students and parents in making good course choices.

As you page through the Program of Studies, you will find three distinct sections. (1) The first section contains general information about such topics as graduation requirements, dropping and adding courses, incompletes, schedule changes, and college admission requirements. (2) The second section presents a description of all courses available to students for the 2009-2010 school year. (3) The last section provides students and parents with 2009-2010 registration information and worksheets for course selection, the four-year plan, and the graduation credit checklist.

The selection of appropriate courses for the four years of high school is important. Hinsdale Central has a wide array of courses to meet individual student's needs. Parents, teachers, and the counselor can guide students through the registration process. Careful consideration of personal interests and abilities, graduation requirements, and post-secondary goals is important in order for each student to make the best use of the academic opportunities available.

Please use this Program of Studies book to prepare for the registration appointment with your Guidance Counselor, which will be scheduled in January or early February. As you prepare, carefully review the general information section, analyze the course descriptions and "pencil" in your choices on the worksheets at the back of this handbook.

It is important to know that the courses you select in February are intended to be your final selection of courses for the 2009-2010 school year. We build a master schedule of classes, and we hire and re-employ teachers based on the enrollment decisions you make. As high school students, you should make careful decisions and then follow through with them.

We hope we have made this process one that can work well for you. If you have questions or suggestions, please see your counselor.

Sincerely,

Kevin Pobst
Principal

Vision Statement

HINSDALE CENTRAL VISION STATEMENT

Adopted Fall 2003

The expectation of excellence is rooted in the traditions of Hinsdale Central. In an environment that fosters a desire to learn, all members of the organization are committed to educating each student. In order for us to succeed, we must clearly identify standards we will work to achieve and maintain. These standards are identified in several areas and will be the benchmarks by which we will measure our success.

I. Students

The degree to which we measure our success in attaining this vision is by each student's progress. We will provide opportunities that facilitate this growth. In our school we:

- a. work to meet students' needs.
- b. encourage students to reach their potential in all they do, and to become self-directed learners.
- c. teach students to accept responsibility for their actions.
- d. encourage students to get involved in their school and in their community.
- e. let students know we believe in them and will find ways for them to succeed based on their ability and interests.

II. Staff

Attracting and retaining outstanding people is a must if we are to move toward our vision. In our school we:

- a. demonstrate our support for a shared vision and a common sense of purpose.
- b. encourage all members of the organization to be leaders and experts in their fields.
- c. promote collaboration and collegial decision-making on matters relating to students, curriculum, instruction, and school improvement initiatives.
- d. facilitate the growth of our students.

III. Curriculum and Instruction

What we decide to teach and how we do so will impact the results we achieve. In our school we:

- a. recognize our primary focus is to provide a solid base for the post-secondary education of our students, while respecting the needs of students who make alternative choices.
 - b. seek to learn effective practices and adapt them for our learning environment.
 - c. believe teachers should collaboratively determine curriculum and assessment standards.
 - d. work to assure the limited time we have to educate our students is used to the greatest benefit for all our school community.
-

IV. Climate

All members of our community are responsible for providing a climate that contributes to our success and a high school experience that builds a sense of pride we all share. In our school we:

- a. provide a safe and secure environment that is conducive to learning.
- b. recognize that all relationships are based on respect for others and an understanding of each person's responsibility for his/her behavior.
- c. understand school rules and policies exist to support our organization and are consistently applied by all staff.
- d. recognize the achievements of all members.
- e. encourage and model behaviors appropriate to the development of character.

V. Community

The educational community recognizes the importance of maintaining a partnership between the school and community at large. In our school we:

- a. seek ways to improve the quality of communication between the home and school.
- b. always provide a clear rationale for policies and practices.
- c. share information that is important in a timely manner.
- d. recognize that the more our community is involved and informed, the more successful we will be.

Acknowledgments

Students contributed to the artwork displayed at the beginning of each department's description of courses.

General Information

Earning Course Credits Credit in full year as well as semester courses is earned by semester. That is, students earn 1/2 unit of credit or 0.5 credit for successful completion of each semester.

Credit is earned by successfully completing all course requirements as established by the teacher. Excessive absences may result in removal from a course and/or loss of credit.

Alternative Courses E-learning, correspondence, or college courses may be counted toward graduation. Such courses must be from an accredited institution. The student must be a fourth or fifth year senior, and the student assumes responsibility for all fees. Prior written approval from the Director of Guidance is required.

Academic Load Students must be enrolled in a minimum of six (6) courses per semester.

Admission Requirements Admission requirements are based upon evidence of normal progress and achievement in the previous school. Incoming freshman are required to submit evidence of satisfactory completion of the 8th grade. Transcripts of credits earned and grade placement are required from the previous school for all students transferring from other secondary schools. Transfer credit and grades will be determined by the Registrar and are based on Hinsdale Central's curriculum and requirements. The report of a health examination and required immunizations at the 9th grade level is **required by law**. Students will not be allowed to attend school if this state requirement is not met. In addition, all students participating in athletics must have a physical examination for each year in which they participate. We cannot emphasize too strongly the need for this to be accomplished prior to the opening of school.

College of DuPage Articulated Credit Hinsdale Township High School District 86 and the College of DuPage have entered into an agreement, Articulated Credits, in which Hinsdale Central students may receive credit for courses taken in high school once they are enrolled in the College of DuPage. A minimum grade of B must be received in the high school courses to receive C.O.D. credit.

College of DuPage	Hinsdale Central	C.O.D. Credits
Ad. & Illustration Design	Digital Imaging 3: Advertising and Illustration	3
Photography 100	Basic and Color Photography	5
Accounting 1110	Accounting and Accounting Honors	3
Child Care & Develop. 100	Child Care and Development	3

Advanced Placement Program

The Advanced Placement (AP) Program provides students with the opportunity to pursue college-level studies while still in high school and to receive advanced placement and/or credit when entering college. Qualified, academically-oriented students in the tenth, eleventh, and twelfth grades are eligible to participate in the Advanced Placement Program at Hinsdale Central High School.

The Advanced Placement Program at Hinsdale Central High School consists of the following courses:

AP Art History
AP Studio Art
AP Language & Comp.
AP Lit. & Composition
AP French Language
*AP German Language**
AP Latin Vergil
AP Spanish Language
AP Spanish Literature
AP Calculus (AB)
AP Calculus (BC)
AP Computer Science A
AP Statistics
AP Music Theory
AP Biology
AP Chemistry
AP Environmental Science
AP Physics B
AP Physics C
AP European History
AP Gov't. & Politics
AP Microeconomics
AP Psychology
AP U.S. History

** Upon completion of German 4H, students may take the AP German language exam.*

Departments

Advanced Placement courses are offered by seven departments: Art, English, Foreign Language, Mathematics, Music, Science, and Social Studies. These courses, adhere to College Board approved course descriptions and serve as the primary vehicle to prepare students for the voluntary AP examinations in May. In addition to preparing students for the AP exams, AP courses allow students to experience the pace and intensity of college-level courses while still in high school. Some AP courses may explore opportunities for students to work in teams on interdisciplinary themes or projects. Such activities would be designed to provide students the opportunity to solve real-world problems across AP subject areas. The AP courses are challenging and stimulating, require more work and more time than other high school courses.

Examinations

The Advanced Placement examinations are administered each year during the second and third weeks of May and can be described as “tough, but fair.” Usually three hours in length, each exam consists of a multiple choice section and free-response section that requires essay writing or problem solving. Every examination receives an overall grade from a team of carefully selected college professors and high school AP teachers on a five-point scale: 5 (extremely well qualified), 4 (well qualified), 3 (qualified), 2 (possibly qualified), and 1 (no recommendation). An AP Grade Report is sent in July to each student, the high school, and if the student requests it, to the college. Unless recommended by the teacher not to do so, all enrolled AP students are expected to take their course ending examinations.

Credit

Although each college determines what AP examination grades it will accept for credit and/or advanced placement, the great majority of colleges accept grades of 3 or better and award the student with credit in the subject matter tested. In some cases, no credit is given, but the student may begin the program of study at an advanced level. Students wanting to know what AP grades are considered acceptable by the colleges in which they are interested should write the Director of Admissions of the college or consult with the Director of Guidance at Hinsdale Central.

General Information

G-Level Program

G - Level Courses:

Foundations of Alg/Geo.

Algebra 1G

Geometry - G

Algebra 2/Trig - G

Earth Science - G

Biology - G

In the Mathematics and Science departments, particular courses are designated as G-level courses. College preparatory in nature, G-level courses are designed to meet the special needs of students in particular subject areas.

Admission

Admission to G-level courses is based upon several established selection criteria:

- teacher recommendations
- results of the 8th-grade EXPLORE Test
- past academic performance
- department approval
- student and parent input

Honors Program

Honors (H) Courses:

Ideas in Art H

Accounting H

English 1 H

English 2 H

H/Seminar in Writing

French 2 H

French 3 H

French 4 H

German 1 H

German 2 H

German 3 H

German 4 H

Latin 1 H

Latin 2 H

Spanish 2 H

Spanish 3 H

Spanish 4 H

Geometry H

Algebra 2 Trig H

Integrated Algebra H

and Geometry H

Pre-Calculus H

Music (see department)

Biology H

Earth Science H

Chemistry H

Physics H

World History H

In the Art, Business, English, Foreign Language, Mathematics, Music, Science and Social Studies departments, particular courses are designated as honors courses. Honors courses are designed to challenge students of superior ability by enriching and/or high accelerating the course content and have standards of high achievement distinctly above those of regular courses. Instruction in honors courses occurs at a faster pace, covers the subject matter in more depth and emphasizes higher level thinking skills.

Admission

Admission to the honors program is based upon several established selection criteria:

- teacher recommendation
- results of the 8th-grade EXPLORE Test
- past academic performance
- departmental approval

Students with superior ability, a commitment to the subject matter and a motivation to learn are encouraged to apply for admission to the honors program.

honors sequencing chart

The chart below is the suggested sequence of courses leading to the Advanced Placement Program.

Department	Freshman	Sophomore	Junior	Senior
Art	Studio Art	2-D or 3-D courses	2-D or 3-D courses Ideas in Art	AP Studio Art AP Art History
English	English 1 H	English 2 H	AP Language & Comp.	AP Lit. and Comp. or Honors Sem. in Writing
Foreign Language	French 2 H	French 3 H	French 4 H	AP French Language
	German 1 H	German 2 H	German 3 H	German 4 H
	Latin 1 H	Latin 2 H	Honors Latin (Lit or Vergil)	AP Latin (Vergil)
	Spanish 2 H	Spanish 3 H	Spanish 4 H	AP Spanish (Lang or Lit)

General Information

Honor Roll and Weighted Grades

Grades earned in all academic courses, exclusive of Physical Education and Driver Education, will be used to determine honor roll according to the following grade point system.

Honor Roll

- 4.0 grade point average
- no grade below a “D”

Honor Roll is based on the quarter grade point average, no incomplete grades and a minimum of four credit-earning courses. Honor Roll students become eligible for Dean’s List recognition.

Dean’s List

- 4.5 grade point average
- no grade below a “C”
- Class Rank is optional for the class of 2010. Class Rank will not be awarded for the classes of 2011, 2012 and 2013.

Grade	Honors	Regular
A	6	5
B	5	4
C	4	3
D	2	2
F	1	1
WF	1	1

Scheduling & Schedule Changes

Each spring our school works to create a schedule of classes for the following academic year that best meets the needs of our students, while still staying within the parameters of staffing requirements (i.e. number of teachers, class size, teaching schedules, state and federal mandates). We work very hard to accommodate student requests; however, due to the complexity of the scheduling process, sometimes student schedules may need to be adjusted. Letters verifying a student’s course selections are mailed home each year. Please keep in mind that changes in course requests or class assignments will not be accepted for any of the following reasons:

- to accommodate a job schedule
- to change teachers
- to change lunches or classes to be with friends
- to have first or last period free
- to accommodate a change of mind

Acceptable reasons for schedule changes may include:

- computer input error
- scheduling conflicts
- failure or near failure in a second semester or year course
- failure to meet a pre-requisite for a course
- department chair or guidance director recommendation
- successful completion of a summer school class

Dropping Course(s)

Students may request to drop a course only if they are enrolled in the maximum number of courses (seven) per semester **and** only after they have attended and participated in the course for five full class periods. Approval to drop a course requires signatures from the parent/guardian, the appropriate department chair, and the student’s counselor. It is understood that the student will have a conversation with the teacher prior to initiating this process. If a student elects to drop a course, the dropped course will be replaced with a study period. In some cases, adding a course to replace a dropped course may be accommodated if the curriculum permits and seats are available.

A grade of “F” will be reflected on the transcript of a student who chooses to drop a course after the fourth week of a semester. **Students enrolled in year long courses will not be allowed to drop at the end of first semester unless it is recommended by the department.**

Adding Course(s)

Students may add a course at the beginning of a semester if there is space available. Requests to add a course must be made no later than the first five full class periods of the semester. In order to add a course, a student must obtain signatures from the parent/guardian, the department chair if required, and the student’s counselor.

Repeating Course(s)

A course may be repeated for credit only when a student has previously received a “D” or an “F.” Both the grade received and the credit earned for repeating the course, as well as the original grade and credit received in the course, will be used in computing the student’s grade point average. The student’s transcript will indicate the first grade and credit earned, as well as the second grade and credit earned. However, the credit received for repeating the course will not count toward satisfying graduation requirements unless the student failed the course.

Auditing Courses

Only under unusual circumstances will a request to audit a course be considered:

1. When a student has previous credit in a subject they may request to audit the course.
2. When a student wishes to audit a course they have not previously taken, they may request to audit the course. In this case, they may not take the course for credit at a later time.

Request to Audit a Class forms may be obtained from the student’s counselor.

In both circumstances, requests to audit will be considered only if space is available in the course. Students assume all responsibility of a regular class member, but receive no grade or credit.

All requests to audit a course must have administrative approval prior to the first day of class at the latest, but preferably at the time of February registration. Students interested in auditing a course must complete the form, **Request to Audit a Class**, which may be obtained from the student’s counselor and approved by the Director of Guidance.

Incomplete Grades

An Incomplete represents work not completed by the end of the quarter. Incompletes are given only in **extraordinary** circumstances. This work must be made up within the first **two weeks** of the following quarter and the Incomplete changed to a grade or a failure. If the work is not made up by the end of the **2-week** period, the grade will be changed to an “F.” An Incomplete will prevent eligibility for Honor Roll.

Registration Procedures

Complete the appropriate **Course Request Form** indicating your choice of subjects and obtain the necessary teacher signatures. When you have selected your courses and your parents have approved and signed the **Course Request Form**, return it to your teacher in homeroom for your counselor’s approval. An individual appointment will be scheduled with your counselor to review and approve your course selections. **Course Request Forms** bearing the signature of counselor **and** parents are considered finalizing and completing the course registration for the next year. Courses are scheduled on the basis of your requests. Questions concerning registration procedures and course selections should be directed to the Guidance Department.

Course Request Forms are available through the Guidance Department.

General Information

Attendance Policy

*Attendance Office phone
630.570.8090 between
4:00 a.m. and 4:00 p.m.*

The attendance policy at Hinsdale Central requires that parents call the attendance office **ON THE DAY OF THE ABSENCE** to report their student absent from school on any given day at 630.570.8090 anytime before 4:00 p.m. Prearranged absences may be called in **prior** to the day of the absence and a green prearranged absence form must be completed. Students are expected to attend class on a daily basis and should be aware that attendance is part of his/her evaluation in each class. Students are responsible for all work missed due to an absence. Excessive absences will be handled by the administration and guidance staff and require a parent conference.

Minimum Attendance Requirement

School Code of Illinois, Section 18-8, requires that all students must be in attendance, exclusive of lunch and passing time, for a minimum of 300 minutes. This necessitates all students attending school for at least six (6) periods a day.

College Admission Requirements

Criteria for college admission vary greatly. The admission committees consider, to varying degrees, the following:

- type of high school courses actually taken when compared to the courses available in the high school
- quality of the student's academic record
- performance on college admission tests - SAT & ACT
- development and maturity of the individual in areas outside the academic classroom.

<i>Courses</i>	Highly Selective Colleges	Public Universities Colleges	Private 4-Year Colleges	Community Public & Public Colleges
<i>English</i>	4 years	4 years	4 years	Varies greatly from an open door admission policy to selective course requirements specifically required by the different departments.
<i>Mathematics</i>	4 years	4 years	4 years	
<i>Science</i>	4 years (lab)	3 years	3 years	
<i>Social Studies</i>	3-4 years	3 years	3 years	
<i>Academic Electives*</i>	2 years	2 years	2 years	
<i>Foreign Language</i>	4 years (one)	*	2-4 years	

*Academic Electives**

*Art
Business
Family & Con. Sciences
Foreign Language
Integrated Art & Tech.
Music
Technology Education
Technology Center of
DuPage (TCD)*

*AP Art History and
AP Studio Art are
generally treated as accept-
able college
preparatory academic elec-
tives by most colleges.*

Course requirements for entrance into four different types of colleges are listed above. The academic prerequisites typical of colleges in each of the categories listed may change from year to year and therefore, should be used only as a general **minimum guidelines**. Specific information may be obtained from high school counselors, college profiles, websites and catalogs, computerized college software programs and college representatives who visit Hinsdale Central High School. Students should be aware of a definite return by colleges to their preference of a **traditional and classical college preparatory curriculum**. Narrowly defined, college preparatory courses are found in the following departments:

Art*: AP Art History and AP Studio Art

Foreign Language*

English: literature and composition courses

Mathematics: Computer Science is not generally accepted as a math credit.

Science: lab courses

Social Studies

General Information

Student Schedules

Full year courses are usually designated by 4-digit course codes ending in “0” or “5.” Semester courses are primarily designated by numbers ending in “1” (first semester) or “2” (second semester) and may be scheduled either first or second semester. **Student schedules are generated by computer and do not allow the student to select a course by semester. Requests are entered but not guaranteed.**

Service Credits

Students may elect to serve as a Student Aide during the school year for the following areas: Art, Audio Visual, Family & Consumer Sciences, Guidance, Library, Nurse, Deans’ Office, Publications, Science, Student Activities, or TPI. The credits earned as an Aide count as service credit. Students may elect to serve as an Aide for one or both semesters. They may, however, hold only one Aide position per semester. One-quarter (.25) credit will be granted for each semester. This can be counted toward graduation as a service credit and will be graded on a pass-fail basis.

Course Descriptions

Excel Study Halls

Course # 1020 & #1024

Academic Study Halls

Course # 1025 & #1026

1st or 2nd semester

Credit: 0.25

Excel is designed as an academic support program targeting specific freshman and sophomores. Students assigned to the Excel Program will attend 5 days per week during their scheduled period and will continue to receive these services until all grades earned are at a C level or above for two consecutive quarters at which point they can transfer into a regular study hall. Excel Academic Study Hall (Excel II) is an academic program where students meet in a supportive environment to receive tutorial assistance in core academic areas. The Excel Academic Study Hall staff members consult with classroom teachers and parents to help improve each student’s achievement in courses. A .25 credit is earned per semester for successful participation in this program. Student support in the areas of organizational skills, reading skills/strategies, study skills, and homework completion will be available and structured with each program.

Prerequisite: None. Open to grades 9-12 May be repeated

State of Illinois

Consumer Education Requirement

Credit: 0.5

There are several ways to satisfy this mandated graduation requirement. Students have the following options:

1. **Consumer Economics**, course #6301, one semester, Business Department course, see page 22.
2. **Economics**, course #2331, one semester, Social Studies Department course, see page 71.
3. **AP Micro Economics**, course #2341, one semester, Social Studies Department course, see page 71.
4. **Introduction to Family & Consumer Sciences**, course #6400, full year, Family & Consumer Science Department Course, see page 34.
5. **Introduction to Business**, course #6100, full year, Business Department course, see page 21.
6. **Educational Services Related Instruction**, enrollment is determined by IEP recommendation.
7. **Consumer Education Online course**, course #9101, one semester.

Students who enroll in this online course will do all of their class work through a web site supervised by a certified District 86 teacher. This course has the same objectives and examinations as the traditional semester-long Consumer Economics course #6301; the content is very similar. Communication between student and teacher will be primarily through the web site and by email. Students who enroll in the online version will be required to attend an orientation session, to meet progress markers along the way, and to complete the course during the semester in which they are enrolled.

8. **Illinois Consumer Education Proficiency Test (ICEPT) #9103**

At the direction of the Illinois State Board of Education, the 2009-2010 school year will provide two testing sessions for ICEPT, one in late September and the other in late January. Students enrolled in grades 9-12 who are not currently enrolled in a consumer education course may be included in this administration. Contact the Director of Guidance to register for this test. Passing the test is recorded on the student’s transcript, but no course credit is awarded.

ART

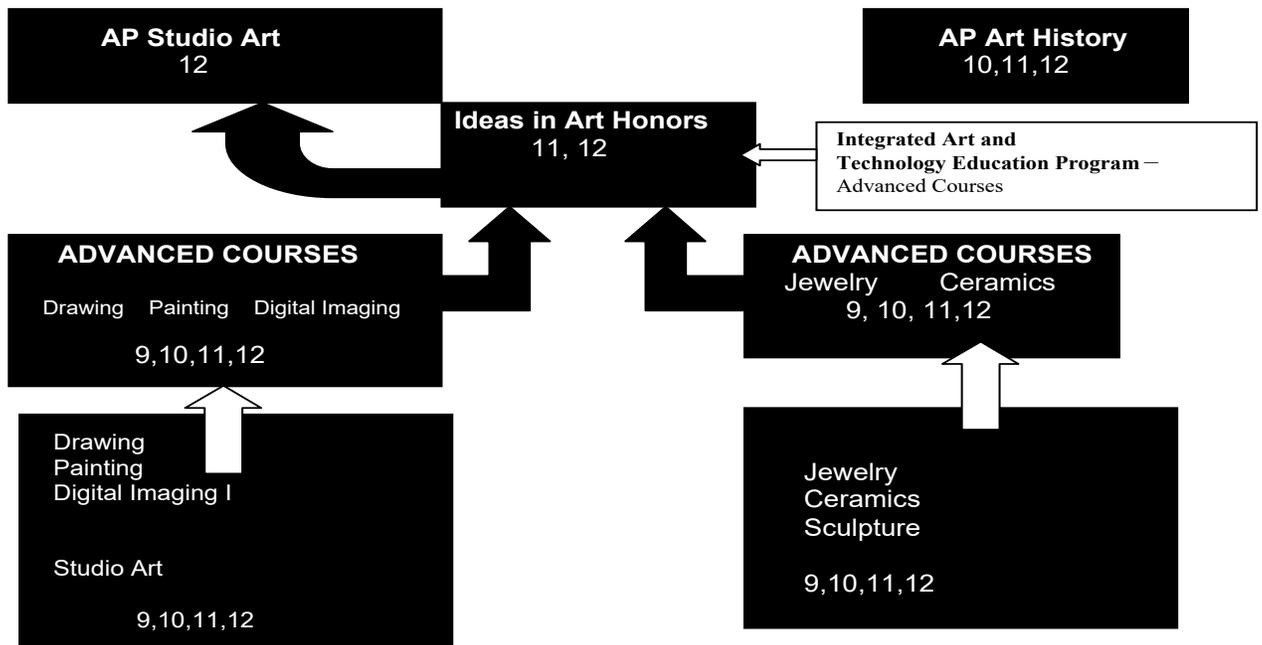

Left to right
 Allison Cartwright
 Joe Glatz
 Joe Lacy
 Brooke Chenery
 Emily Longano

High School District 86 requires the successful completion of two Elective Arts credits. Two fine arts credit fulfills the Illinois state public university entrance requirement in Art, Music or Foreign Language. The courses offered by the Art Department are designed to develop an appreciation and understanding of art, art production, art history, and creative problem-solving. Student work is displayed throughout the school and community on a continuing basis. Supply fees are required for participation in studio courses.

MISSION STATEMENT

The artistic, intellectual, and personal development of young people, through the visual arts, is the goal of the Hinsdale Central Art Department. We, the art faculty, as mentors, coaches, jurors, and artists, are committed to creating a challenging, authentic, and caring creative environment. We will actively involve students with the visual arts through theory and practice. We will challenge students to develop awareness of excellence and the role of art in human life and human culture.

STUDIO ART

Course # 5101

1st or 2nd semester

Credit: 0.5

Students will explore fundamental aspects of design, drawing, painting, jewelry, mixed media, and sculpture. Emphasis will be placed on creativity, craftsmanship, and problem solving. Studio Art is the only course in which introductory students can experiment in a variety of materials. *It is highly recommended that students interested in Drawing and Painting start with Studio Art as a foundation.*

Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$20.00

DRAWING

Course # 5211

1st or 2nd semester

Credit: 0.5

Drawing is a specialized art course that teaches students a variety of strategies to improve his/her ability to draw from life. The course also introduces several drawing tools, including: pastel, charcoal, colored pencils, and pen and ink. A development of individual style and understanding of design will be stressed.

Prerequisite: Studio Art is highly recommended. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00

ADVANCED DRAWING

Course # 5221

1st or 2nd semester

Credit: 0.5

Advanced Drawing is a continuation of the themes and techniques started in the Drawing course in which students are asked to develop work which demonstrates mature drawing ability. Students are expected to investigate how drawings can be designed to communicate original ideas to a viewer. Students will be required to work on their drawings beyond classroom time.

Prerequisite: 5211. Open to grades 10, 11 and 12. Supply Fee: \$17.00

Art Department

PAINTING

Course # 5311

1st or 2nd semester
Credit: 0.5

Painting is a course that introduces students to the complexities of painting. Knowledge of a variety of painting materials, processes, and techniques is stressed. Acrylics, watercolor, and oil are used by students to create meaningful and original works of art.

Prerequisite: Studio Art is highly recommended. Open to grades 9, 10, 11 and 12. Supply Fee: \$20.00

ADVANCED PAINTING

Course # 5321

1st or 2nd semester
Credit: 0.5

Advanced Painting is a continuation of the exploration started in Painting. In Advanced Painting, students are able to gain more experience with painting materials introduced in the previous course. Students are expected to demonstrate their painting skill through the creation of a personal series.

Prerequisite: 5311. Open to grades 10, 11 and 12. Supply Fee: \$20.00

JEWELRY AND METAL SMITHING

Course # 5351

1st or 2nd semester
Credit: 0.5

This course is for students interested in learning to create jewelry and/or small scale sculptures using metals and other materials. A range of metal fabrication techniques and alternative types of media will be explored. A diverse set of images will be used to explore design concepts to enhance students' visual awareness and problem-solving.

Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$21.00

ADVANCED JEWELRY AND METAL SMITHING

Course # 5361

1st or 2nd semester
Credit: 0.5

This course is a continuation of Jewelry and Metal Smithing but on an advanced level. A wider range of metal fabrication methods and materials will be introduced than in the entry level course. The concept of body adornment and the contribution of jewelry to the enhancement of the body will be addressed and studied. The course will focus on the development of independent thinking and personal expression. This concentration enables students to explore the potential of jewelry as a communication tool.

Prerequisite: 5351. Open to grades 10, 11 and 12. Supply Fee: \$21.00

CERAMICS/CLAY SCULPTURE

Course # 5421

1st or 2nd semester
Credit: 0.5

Using clay as an art material will be the focus for this course. The student will create hand-built projects, work on the potter's wheel, and apply glazes. Students will also develop an understanding, appreciation, and sensitivity to clay and its role in history and culture.

Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00

ADVANCED CERAMICS

Course # 5431

1st or 2nd semester
Credit: 0.5

Advanced Ceramics continues the exploration of clay as a functional and artistic medium. This course will further explore advanced handbuilding and wheel throwing techniques. Complex projects will challenge the students artistically, as well as technically. The students will spend a majority of the semester working on the potter's wheel and exploring advanced technique. Advanced handbuilding and glazing techniques will also be covered.

Prerequisite: 5421. Open to grades 10, 11 and 12. Supply Fee: \$17.00

SCULPTURE

Course # 5441

1st or 2nd semester
Credit: 0.5

In this studio course, students will explore and develop three-dimensional design. Wood, clay, plaster, metals and found objects, are some of the materials that will be used. Emphasis will be placed on the examination of contemporary and historical roles of sculpture in society.

Prerequisite: One semester of Art. Open to grades 9, 10, 11,12. Supply Fee: \$17.00

IDEAS IN ART HONORS

Course # 5473

1st or 2nd semester

Credit: 0.5 (may be repeated twice)

Students will create a body of artwork based on a personal exploration of a central theme or idea. This body of work represents the results of rigorous research, planning and problem-solving. Each student is required to create a reference manual that combines multiple explorations of a variety of media. The work produced in this course may be used as part of the Advanced Placement Art Portfolio.

Prerequisite: Advanced level course, portfolio review with departmental approval. Open to grades 11,12. Supply Fee: \$20.00

ADVANCED PLACEMENT ART HISTORY

Course # 5440

Full year

Credit: 1.0

This course provides a survey of the history of art. It is designed to prepare students to take the Advanced Placement examination. Methods of analyzing and evaluating works of art will be introduced. Students enrolling in this course are expected to have well developed writing skills and an interest in art and culture.

Prerequisite: Departmental approval. Open to grades 10, 11 and 12.

ADVANCED PLACEMENT STUDIO ART

Course # 5450

Full year

Credit: 1.0

This course provides accelerated students with a challenging program of college-level studio work. Prior to the end of the academic year, a portfolio of approximately 44-46 pieces will be submitted to the College Board for evaluation and possible college credit. This advanced placement program requires more time and commitment than typical high school art courses. Therefore, the students enrolling in the course should be highly motivated, serious, self-directed and willing to work. The Ideas in Art course is highly recommended for students considering this course. **Students interested in this course need to submit a portfolio of eight pieces to the Art office before first semester final exams.**

Prerequisite: Portfolio review and Departmental approval. Open to grades 11 and 12. Supply Fee: \$40.00 (excludes series materials)

Art Department

Integrated Art and Technology Education Program

The Integrated Art and Technology Education Program is offered as an elective course of study to all students at Hinsdale Central. Our program is interested in the use of technology as a tool or medium in various art/technology-related areas of study, including Graphic Communications, Photography, and Digital Imaging.

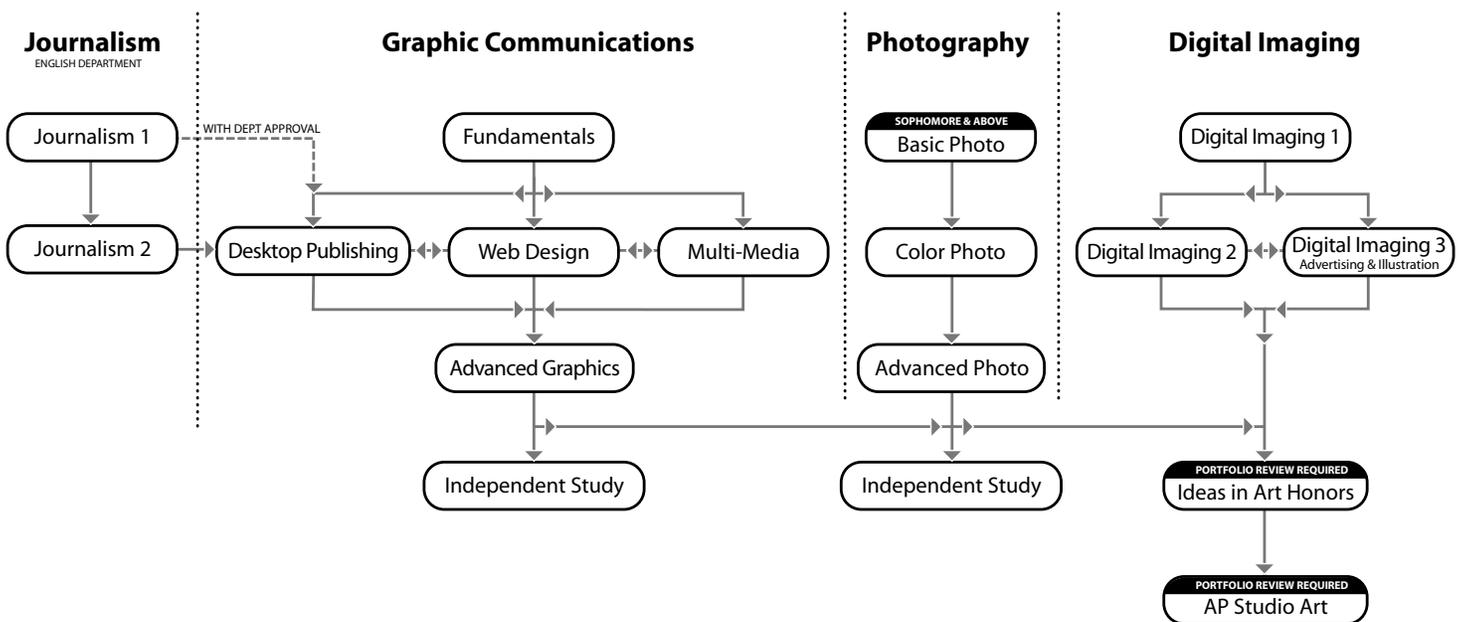

Articulated credits at College of DuPage are available to Hinsdale Central students who complete certain courses at Hinsdale Central with a minimum grade of a B and who, upon graduation, attend C.O.D.

The following courses offer articulated credit at College of DuPage:

Digital Imaging 3: Advertising and Illustration
Basic Photography
Color Photography

Each class has a lab fee charged to students for materials.

The mission of the Integrated Art and Technology Education Program at Hinsdale Central High School is to create opportunities for students to use technology as a tool to demonstrate creative expression and/or technical skill. Courses offered in this program will provide students with experiences in digital media and technology, including: photography, graphic communications, design and illustration, digital imaging, web design, multimedia, animation, and other relevant digital media and technology.

Integrated Art & Technology Education Program Program Course Sequences

DIGITAL IMAGING PROGRAM

DIGITAL IMAGING 1

Course # 5121

1st or 2nd semester

Credit: 0.5

Digital Imaging 1 introduces students to the artistic potential of the computer. Artistic and creative problem solving strategies are developed which can help students in all areas of learning. Students take their own digital photographs. Each student will use his/her digital photographic images to create original works of art using the software Adobe Photoshop CS3. Students will create a cartoon in Adobe Illustrator CS3 and a digital portfolio is created in Adobe Flash MX.

Prerequisite: None. Open to grades 9, 10, 11, 12. Supply Fee \$17.00

DIGITAL IMAGING 2

Course # 5132

2nd semester

Credit: 0.5

Digital Imaging 2, a continuation of Digital Imaging 1, further explores the artistic potential of the computer and creative problem solving strategies. Students will increase their artistic knowledge and skills while working on independent project ideas based on his/her theme in art. Traditional art materials will be explored or added as students are encouraged to think outside the “digital box”. Students take their own digital photographs. Each student will use his/her digital photographic images to create original works of art. Working knowledge of Adobe Photoshop CS3, Adobe Illustrator CS3, and Adobe Flash, will be needed.

Prerequisite: Digital Imaging 1: Open to grades 9, 10, 11, 12. Supply Fee: \$17.00

DIGITAL IMAGING 3: ADVERTISING AND ILLUSTRATION

Course # 5331

1st or 2nd semester

Credit: 0.5

Digital Imaging 3 is a graphic design advertising art class. Students interested in a career in Graphic Design, learn the essential skills of design as it relates to advertising. The computer is used as a tool to create and solve real world design problems. Traditional illustration or drawing techniques will also be explored. Design principles have been introduced and learned, through a series of small projects. Afterwards, the course will be run like an advertising design business with a client/designer relationship underlying major projects. Working knowledge of Adobe Photoshop CS3, Adobe Illustrator CS3, and Adobe InDesign will be needed.

Prerequisite: Digital Imaging 1: Open to grades 9, 10, 11, 12. Supply Fee: \$17.00

GRAPHIC COMMUNICATIONS PROGRAM

GRAPHIC COMMUNICATIONS-FUNDAMENTALS (GCF)

Course # 6661

1st or 2nd semester

Credit: 0.5

This course provides students with the essential skills necessary for creating print and web documents. Special emphasis is placed on furnishing students with realistic experiences using industry standard software such as Adobe Illustrator and PhotoShop. Areas of study include technical illustration, typography, color models, photo retouching and image preparation. This course provides sound fundamental skills for later courses in Graphic Communications.

Prerequisite: None. Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00

GRAPHIC COMMUNICATIONS -DESKTOP PUBLISHING (GCDP)

Course # 6650

1st or 2nd semester

Credit: 0.5

Learn to design, layout and prepare documents for print. Use of Adobe InDesign and related Adobe products is stressed. Topics include typography and typographic controls, color usage, preparation of photographic and line art, working with copy, setting up master pages and style sheets, paper characteristics, and binding processes. This course covers essential skills used in producing the Devil’s Advocate (newspaper) and El Diablo (yearbook) and is especially recommended for students who are interested in editorial positions.

**Prerequisite: GCF or Journalism 1 (J1 taken concurrently with dept. approval)
Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00**

GRAPHIC COMMUNICATIONS -WEB DESIGN (GCW)

Course # 6662

1st or 2nd semester

Credit: 0.5

Create professional looking web sites! Web Design provides students with an overview of essential disciplines found in electronic publishing for the Internet. **This is not a programming course.** Instead, the focus of the class will be on providing students with realistic experiences needed to create HTML based web sites using professional web page editing software. Areas of study include Internet history, information architecture, interface design, site navigation systems, graphic optimization, and web page editor use.

Prerequisite: Graphic Communications-Fundamentals (GCF). Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00

GRAPHIC COMMUNICATION WEB-BASED MULTIMEDIA (GCMM)

Course # 6681

1st or 2nd semester

Credit: 0.5

Create motion graphics and video! This course give students the skills to create animated graphics, Flash animations, and produce simple videos. Students will gain experience using industry standard software like Adobe Image Ready, and Flash to create many to the types of motion graphics found on the web. Students will also be introduced to digital video, learn how to capture and edit their footage, and ultimately producing their own short commercials.

Prerequisite: Graphic Communications-Fundamentals (GCF). Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00

Art Department

GRAPHIC COMMUNICATION ADVANCED GRAPHICS (GCA)

Course # 6660

1st or 2nd semester

Credit: 0.5

This course is designed for those students who wish to apply the skills learned in their study of Graphic Communications to real world projects. Students will focus on several areas of interest and develop real world products in a client-project manager arrangement.

Prerequisite: Graphic Communications-Fundamentals (GCF) and one of the following: GCW, GCOMM, GCDP. Open to grades 10, 11 & 12. Supply Fee: \$10.00

GRAPHIC COMMUNICATION INDEPENDENT STUDY (GCIS)

Course # 6905/6906 - Graphic Communications

1st or 2nd semester

Credit: 0.5

This course is for students who have exhausted other course offerings and wish to further skills learned in the Graphic Communications program in an independent atmosphere.

Prerequisite: DEPARTMENT APPROVAL. Open to grades 11 & 12. Supply Fee: \$10.00

PHOTOGRAPHY PROGRAM

BASIC PHOTOGRAPHY

Course # 6691

1st or 2nd semester

Credit: 0.5

Basic Photography is for students interested in learning the techniques necessary to produce technically correct and aesthetically pleasing photographs, as well as the responsibility of caring for photographic equipment using the 35 mm SLR camera. Areas of study will include, but are not limited to: the composition of good photographs; the processing of black and white photographic materials; and proper application of equipment, supplies and special darkroom techniques. Equipment and supplies will be provided and cameras will be available for students who do not have access to a 35mm SLR camera.

Prerequisites: None. Open to grades 10, 11 & 12. Supply Fee: \$35.00.

COLOR PHOTOGRAPHY

Course # 6701

1st or 2nd semester

Credit: 0.5

This course is designed for someone interested in the modern methods of color photography. The student will use a film and digital SLR camera to capture their images. Areas of study include, but are not limited to: the principles of color and light; elements of a good photograph; capturing images on negatives, slides and digital media; printing in color; and preparing photographs for display. Equipment and supplies will be furnished. Cameras are available for students who do not own or have access to a film or digital SLR camera. Basic Photography and Color Photography together have articulated credit with The College of DuPage.

Prerequisites: Basic Photography. Open to grades 10, 11 & 12. Supply Fee: \$35.00.

ADVANCED PHOTOGRAPHY -

Course # 6812

2nd semester

Credit: 0.5

In this advanced level course, students will be expected to improve upon their current level of photographic ability. In terms of technique, this will involve the introduction of the medium format camera and the zone system (a procedure which will allow students to make more carefully controlled photographic prints.) Additionally, some non-traditional films, papers, and emulsions will be introduced. In terms of content, through class assignments and independent works students will begin to use the photographic medium to more effectively articulate ideas. Students may work with black and white film, color film, and digital cameras to capture images.

Prerequisite: Basic Photography and Color Photography with instructor approval. Open to grades 11 and 12. Supply fee: \$40.00.

PHOTOGRAPHY- INDEPENDENT STUDY

Course # 6907/6908

Credit: 0.5

This course is designed for students who have completed course sequence in photography program and desire further independent course work.

Prerequisite: DEPARTMENT APPROVAL. Open to grades 11 & 12. Supply Fee: \$40.00

BUSINESS

Accounting
Accounting Honors
Advanced Computer Applications
Business Law 1 & 2
Consumer Economics
Digital Communication Tools 1
Digital Communication Tools 2
Digital Tools and Applications
Entrepreneurship
Internship
Introduction to Business
Investment Planning
Marketing
Visual Basic Programming

Business courses can fulfill 1 credit for the District 86 graduation requirement in the Elective Arts. Business courses can also be taken for general/elective credit. The 0.5 consumer education graduation requirement may be met by successful completion of the department's Consumer Economics course or Introduction to Business.

Business Department courses are electives; however, with the increase in reliance on technology in our society, the department strongly recommends that all students include computer courses in their high-school studies (i.e., Digital Communication Tools 1 & 2, Digital Tools and Applications, Advanced Computer Applications).

Students who are contemplating a Business major in college should select one or more Business electives. Because of the difficulty of college-level Accounting, students are urged to take an Accounting course at Hinsdale Central.

	<u>Full-year Courses</u>	<u>Semester Courses</u>

Business Department Computer Curriculum

Computer Courses

DIGITAL COMMUNICATION TOOLS 1*Course # 6121*

1st or 2nd semester

Credit: 0.5

This course enables students to acquire and refine vital and emerging computer skills in this digital age. Students will begin by developing keyboarding skills using the touch method. Students will also be introduced to some of the latest input technologies, including speech recognition software and using tablet PC's. Constructing, formatting and editing documents using Microsoft Word, Excel, and PowerPoint will be the focus of production work in this course. Internet applications and email will also be taught and utilized during class projects. [Credit is NOT given for both Digital Communications Tools 1 and Digital Tools and Applications.]

Prerequisite: None. Next course in sequence: Digital Communications 2. Open to grades 9, 10, 11 & 12.

DIGITAL TOOLS AND APPLICATIONS*Course # 6130*

Full year

Credit: 1.0

This course enables students to acquire and refine vital and emerging computer skills in this digital age. Students will begin by developing keyboarding skills using the touch method. Students will also be introduced to some of the latest input technologies, including speech recognition software and using tablet PC's. Constructing, formatting and editing of documents using basic and more advanced features Microsoft Word, Excel, and PowerPoint. Desktop Publishing, database, and web page development will also be introduced. Internet applications and email will also be taught and utilized during class projects. This year-long course will take your computer skills to new heights, enabling you to integrate technology in a variety of ways in projects for other classes. [Credit is NOT given for both Digital Communication Tools 1 and 2 and Digital Tools and Applications.]

Prerequisite: None. Next course in sequence: Advanced Computer Applications. Open to grades 9, 10, 11 & 12.

DIGITAL COMMUNICATION TOOLS 2*Course # 6331*

1st or 2nd semester

Credit: 0.5

Continue to develop your overall computer skills in this course as more advanced features are taught in word processing, spreadsheets and charts, and digital presentations. Desktop publishing, database and web page development will also be introduced. Constructing, formatting and editing of documents using Microsoft Word, Excel, PowerPoint, Publisher, Access and FrontPage will continue to be the focus of production work in this course. Internet applications and email will also be utilized during class projects. Students will also continue to work with some of the latest input technologies, including speech recognition software, as well as stylus input and handwriting conversion using Tablet PC's.

Prerequisite: None, however, Digital Communication Tools 1 is recommended. Proper keyboarding technique and speed, along with basic document development, formatting, and proofreading are expected. Open to grades 9, 10, 11 & 12.

ADVANCED COMPUTER APPLICATIONS*Course # 6341*

1st or 2nd semester

Credit: 0.5

Can't get enough of computers? This course may be for you. Students will further their skills using Microsoft Office (Word, Excel, PowerPoint, Access) and increase their web page development skills. Video capture, podcasting, storyboarding, and video editing software will also be introduced. A simulated company web page will be developed by students and used throughout the course to demonstrate their new computer skills.

Prerequisite: Digital Communication Tools 2 or Digital Tools and Applications. Open to grades 10, 11 & 12.

VISUAL BASIC PROGRAMMING*Course # 6351*

1st or 2nd semester

Credit: 0.5

Do you have a desire to take your computer skills to a new level? If so, then Visual Basic may be the course for you. Learn how to create applications in a graphical user interface to solve business problems. Microsoft's Visual Basic simplifies many routine programming tasks by providing tools that allow you to create applications for the Windows operating system. A variety of stand-alone and Microsoft Office-related applications will be developed.

Prerequisite: None. Open to grades 10, 11 & 12.

Business

General Courses

INTRODUCTION TO BUSINESS

Course # 6100

Full year

Credit: 1.0 (0.5 Elective Arts/0.5 Consumer Ed. - Must complete the entire year to receive Consumer Ed. credit)

This course gives students a background in the basic operations of business and develops an understanding of the economic role of business in our society. Major areas of study include banking, credit, insurance, budgeting, consumer protection, government, entrepreneurship and taxes. Skill is developed through a wide variety of activities including computer research, projects, and classroom activities. **Successful completion of this course fulfills the District's Consumer Education requirement for graduation.**

Prerequisite: None. Open to grades 9 and 10.

INVESTMENT PLANNING

Course # 6111

1st or 2nd semester

Credit: 0.5

In this course students will study basic investment principles involving stocks, commodities, bonds and mutual funds. Students will also learn about tax information, effects of the economy on the market, government regulations of securities and on-line investing. Current issues as they relate to investing will be discussed. Teams will be formed to participate in the Stock Market Game by trading on-line.

Prerequisite: None. Open to grades 10, 11 and 12.

ACCOUNTING

Course # 6170

Full year

Credit: 1.0

This course develops a basic understanding of double-entry accounting. The accounting cycle, accounting theory, financial reports and financial analysis are included. Accounting simulation sets, Excel spreadsheets and automated accounting software are used to apply all accounting concepts. This course is recommended for college-bound students planning a career in accounting, finance, management or marketing.

Prerequisite: None. Open to grades 11 and 12.

ACCOUNTING HONORS

Course # 6180

Full year

Credit: 1.0

Accounting Honors will prepare students for the rigor of college accounting. Students will develop an understanding of double-entry accounting. Topics covered include the following: accounting cycle, accounting systems, internal controls, journals, receivables and payables, accruals and deferrals, inventory, fixed assets and depreciation, financial statement preparation and analysis, taxes, and an introduction to managerial and cost accounting. A computerized accounting program will also be utilized, as well as the Excel spreadsheet program.

The core material for this course is similar to Accounting 6170; however, more topics are covered, the pace is accelerated and expectations are higher. This course is highly recommended for motivated students planning to enter a college business program.

Prerequisite: Department Chair approval. Open to grades 11 and 12.

MARKETING

Course # 6181

1st or 2nd semester

Credit: 0.5

This course focuses on the activities necessary to market products, services, and ideas to consumers. Major topics include market segmentation, consumer behavior, marketing research, product planning, and advertising. Students will apply marketing concepts learned in class by researching, creating and advertising new products.

Prerequisite: None. Open to grades 10, 11 and 12.

BUSINESS LAW 1

Course # 6231

1st or 2nd semester

Credit: 0.5

This course introduces students to the legal system and the law as it applies to personal and business situations which may occur in their daily lives. It also examines the court system, torts, technology and the law, contracts, bailments and real estate transactions. Key elements of this course are case studies, mock trials and a field trip to the courts.

Prerequisite: None. Next course in sequence: Business Law 2. Open to grades 11 and 12.

General Courses

BUSINESS LAW 2*Course # 6232*

2nd semester only

Credit: 0.5

This course examines the criminal justice system, the Supreme Court, family law, wills and estates, ethics and employment policies and contracts. Group discussions, case studies, guest speakers and a field trip will be utilized to present and examine these concepts. To develop a better understanding of the legal system, students will participate in a mock trial tournament.

Prerequisite: Business Law 1. Open to grades 11 and 12.

ENTREPRENEURSHIP*Course # 6241*

1st or 2nd semester

Credit: 0.5

Do you have an interest in owning or running a business some day? This course will help you develop that entrepreneurial spirit and the skills necessary to be successful in your new business. Topics of study include the entrepreneurial personality and skills; marketing, financing and managing a business; legal requirements of a business; and career opportunities in entrepreneurship. Students will develop an idea, create a business plan, and then use the business plan to actually start and run a business in this course.

Prerequisite: None. Open to grades 11 and 12.

CONSUMER ECONOMICS*Course # 6301*

1st or 2nd semester

Credit: 0.5

This course helps students to understand the consumer's role in a mixed economy. Students will learn about various topics that they will use their entire life. Topics of study include: money management, consumer rights and responsibilities, credit, purchasing of goods and services, making sound investment plans and preparing individual tax returns. **Successful completion of this course fulfills the District's Consumer Education requirement for graduation. (An on-line version of this course is available. See page 10 for details.)**

Prerequisite: None. Open to grades 10, 11 and 12.

INTERNSHIP*Course # 8401, 8402*

1st or 2nd semester

Credit: 0.25 general credit only—not Elective Arts credit)

This program is designed to provide students with an opportunity for career exploration in a field of their choice. Students will work with a mentor outside of the school day for 50-75 hours in their career field. They will be expected to keep a detailed journal, write a reflection paper, and discuss their experiences with a related class.

Prerequisite: None. Open to grades 11 and 12 upon acceptance after interview.

Rahul Sawlani, edit.

DRIVER EDUCATION

Course # 7461, 7462

1st or 2nd semester

Credit: 0.25

Classroom Driver Education, though an elective course, is required in order to obtain a state driver's license prior to the age of 18. Driver Education will follow state mandates on the number of hours of classroom instruction and in-car training. Student schedules must allow for one period per day during one semester in order to complete course requirements. Coordinator: Alan Housner

Due to recent changes in Drivers Education laws by the State of Illinois, our school may not be able to honor all requests by students to enroll in Drivers Education during their sophomore year. Students will be enrolled according to birthdates.

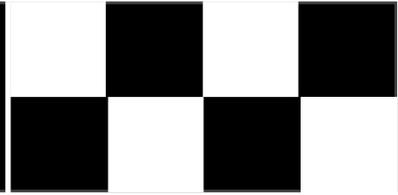

Students enrolled in Driver Education will receive two grades at the end of the semester: one for the classroom phase, and one for the behind-the-wheel phase. Upon successful completion of the Driver Education Cooperative Testing program, students will be eligible for their license without need for further examination by the Illinois Secretary of State Office. **\$20.⁰⁰ Permit fee required by State.**

Prerequisite: None. Preference is given to grades 10, 11 and 12.

Per State Law:

As a prerequisite, students enrolling in Driver Education must be passing eight semester classes within the two most recent semesters of attendance. Only classes used to determine a student's GPA will be allowed to meet this requirement.

ENGLISH

High School District 86 requires the successful completion of a minimum of four English credits for graduation. In addition, all students who are enrolled in school must be enrolled in an English course **each semester**. The four credits in English must be taken and passed sequentially and include full year courses freshman and sophomore years and full or half year courses junior and senior years. Junior and senior students must take Core English courses in the following areas: semester courses in Writing, Literature and Communication, or full year courses in Literature/Writing. Only one Communication course taken junior or senior year will count toward the Core requirement. There are enrichment courses open to all grade levels.

VISION STATEMENT

The skills and knowledge of English/language arts are essential for student success in virtually all areas of the curriculum and society. To meet the challenges of the 21st Century and beyond, students need to be clear and effective writers and speakers, critical and insightful readers, skilled information processors, collaborative and independent, and lifelong learners. With the guidance of parents, community and a dedicated English faculty, our students will graduate from Hinsdale Central as valuable contributors to the world in which we live.

MISSION STATEMENT

The mission of the English Department is to develop in each of our students the following academic attributes: an understanding and appreciation of literature; a proficiency and confidence in writing; the ability to understand communication clearly through active listening, critical observation, and analysis; meaningful questioning skills; habits of critical reading, writing, and speaking skills that carry over to adult life; creativity and imagination in the areas of reading, writing, and speaking; and an appreciation of various cultural and human perspectives through the study and discussion of literature.

ESL-ENGLISH 1A**Course # 1050**

Full year

Credit: 1.0

This course is designed for the English Language Learner (ELL) who is new to the United States and whose English proficiency is emerging and developing. The course focuses on teaching basic communication and study skills in order for the ELL to be successful at Hinsdale Central High School. Listening, speaking, reading and writing skills will be taught in order to help the ELL in mainstream classes succeed academically and complement the ESL-English 1B curriculum. In addition, the course will provide activities to include students in the American culture.

Prerequisite: Transitional Program of Instruction (TPI) director and English Department Chair approval. Open to grades 9-12.

ESL-ENGLISH 1B**Course # 1030**

Full year

Credit: 1.0

This course continues the work started in ESL-English 1A by developing emerging and beginner listening, speaking, reading and writing strategies and skills in standard American English to the English Language Learner (ELL). This course will parallel the goals and skills of English 1. In addition, the course will continue to build student communication skills and self-advocacy skills in standard American English to aid in mainstream academic success.

Prerequisite: Transitional Program of Instruction (TPI) director and English Department Chair approval. Open to grades 9-12.

ESL-ENGLISH 2**Course # 1040**

Full year

Credit: 1.0

The goal of ESL-English 2 is to prepare the intermediate level English Language Learner (ELL) to transition successfully into the mainstream English class. The course will continue to develop skills and strategies in listening, speaking, reading and writing of standard American English while focusing on how the strategies can be used in mainstream academic success. Course materials will parallel the goals and skills of the English 2 program. This course reinforces self-advocacy skills to promote mainstream academic success for the transitioning English Language Learner.

Prerequisite: Transitional Program of Instruction (TPI) director and English Department Chair approval. Open to grades 9-12.

ENGLISH 1**Course # 1110**

Full year

Credit: 1.0

English 1 incorporates instruction in many areas including vocabulary development, library experiences, literature, and the writing process. The literature includes short story, nonfiction, drama, poetry, and novels. Reading, writing, speaking, listening, and thinking skills are emphasized. Independent reading and research projects are intended to develop life-long learners. Technology is integrated into the curriculum in conjunction with the library staff. These activities are designed to foster interest and stimulate class participation. The goal is to develop competent learners, thoughtful readers, enthusiastic writers, and effective oral communicators. **This course satisfies the ISBE graduation requirement for “intensive writing.”**

Prerequisite: Incoming freshman eligibility is based on multiple sources of information, including EXPLORE scores and recommendation of 8th grade instructor. Open to grade 9.

ENGLISH 1 HONORS**Course # 1120**

Full year

Credit: 1.0

This course is for the student who has achieved a high level of written and spoken accuracy and who reads avidly and enthusiastically. Students read a variety of literature. Discussion, in-depth analysis, and written assignments accompany these readings. Classical and contemporary dramas are taught, and creative writing from the students is encouraged through their own poetry and story composition. In addition, the expository writing process and grammar usage are emphasized. Speeches and group performances are required. Consistent, thoughtful class participation is highly valued. **This course satisfies the ISBE graduation requirement for “intensive writing.”**

Prerequisite: Incoming freshman eligibility is based on multiple sources of information, including EXPLORE scores and recommendation of 8th grade instructor. Open to grade 9.

English Department

ENGLISH 2
Course # 1210
Full year
Credit: 1.0

English 2 covers the areas of literature, writing, vocabulary, grammar, and speech. Through literature, selected plays, poetry, and novels, students will learn to analyze and appreciate literature. In the area of writing, an emphasis is placed on multi-paragraph essays. Grammar and vocabulary will be covered throughout the year in conjunction with writing and literature. Public speaking will be practiced. Consistent class participation is imperative. **This course satisfies the ISBE graduation requirement for “intensive writing.”**

Prerequisite: English 1. Open to grade 10.

ENGLISH 2 - HONORS
Course # 1220
Full year
Credit: 1.0

Challenging reading and writing assignments form the foundation of the English 2 Honors curriculum. Geared towards students who show strong motivation and high academic achievement, the class helps students develop critical thinking patterns and effective oral and written communication skills. Students are expected to work on long-range assignments and to be consistently active in class discussions. Research fundamentals—topic generation, source evaluation and attribution—are taught in conjunction with the library staff. Active class participation, in the form of peer editing, small group work and partner projects as well as class discussion, is expected of all students. **This course satisfies the ISBE graduation requirement for “intensive writing.”**

Prerequisite: English 1 or English 1 Honors and Department Chair approval. Open to grade 10.

CORE WRITING COURSES

COMPOSITION
Course # 1311
1st or 2nd semester
Credit: 0.5

This course is designed for the student with average to below-average writing skills and focuses on prewriting and revision as keys to writing improvement. In addition, emphasis is placed on basic writing skills such as effective thesis statements, organizational patterns, paragraph development, and sentence correctness. The core writing assignments include personal narration, process, description, college application essay, writing about literature, and a research paper. Students will work within groups to evaluate the effectiveness of their writing assignments. Students must write a research paper in order to earn credit for the course.

Prerequisite: English 2. Open to grades 11 & 12.

EXPOSITORY WRITING
Course # 1321
1st or 2nd semester
Credit: 0.5

Harness the power of the written word. By studying classic and contemporary essays, students learn to implement a variety of writing techniques into original essays that will be related as much as possible to the students’ own interests and life experiences. Students will expand their view of the writing process and come to see it as both an art and a science. Basic grammar and style will be reinforced in order to help students write clearly. Students will also learn to craft a detailed research paper through careful topic selection, rigorous information collection using the school’s library databases, and effective organization and appropriate formatting of the finished paper. Students must write a research paper in order to earn credit for the course.

Prerequisite: English 2. Open to grades 11 & 12.

RHETORIC
Course # 1351
1st or 2nd semester
Credit: 0.5

In today’s complex world, clear communication is imperative. This course draws on the traditional study of rhetoric—in terms of the persuasive appeals, purpose, and audience—to lay the groundwork for solid, thoughtful, and effective written communication. The class helps students develop into clear, incisive thinkers who can write confidently in various situations for various purposes. Rhetoric also focuses on building research skills to ensure that students are well-versed in finding, evaluating, and synthesizing multiple sources of information. Students will hone their writing skills in order to discover, explain, question, and justify stances on controversial issues in our contemporary world.

Prerequisite: Expository Writing or English 3. Open to grade 12.

HONORS SEMINAR IN WRITING

Course # 1355

Full year

Credit: 1.0

Honors Seminar in Writing is a class for the intellectually curious who value the power of the written word and are eager to become more sophisticated writers. This year-long course is especially designed for those who have been grabbed by the rhetorical nature of AP Language and Composition and are interested in analyzing stylistic elements in professional and personal writing. Students will read texts that are challenging and nuanced and, in their writing, explore real-world complexities through primary and secondary research. The members of this course are committed to crafting and revising their own nonfiction essays, with the intention of publication. Join this small community of students who appreciate the art of writing.

Prerequisite: Expository Writing, AP Language and Composition, or English 3 and Department Chair approval. Open to grade 12.

CORE LITERATURE COURSES

AMERICAN LITERATURE

Course # 1561

1st or 2nd semester

Credit: 0.5

“I hear America singing, the varied carols I hear...” So wrote Walt Whitman in his famous poem, “I Hear America Singing.” Over the course of the semester, students will study the “varied carols” in American Literature in order to learn about our country and, ultimately, themselves. Students will read and analyze works from diverse authors, genres, themes, and styles as they explore how literature links us to our historical and cultural heritage. As they sample literature from the American Enlightenment (1776) to the present, they will see how literature is a reflection of a changing American society. They will examine how the American ideals of freedom, opportunity, equality, and independence are reflected in American literature and how literature helps shape such ideals. Class participation is imperative so that students can exchange ideas and interpretations of the literature.

Prerequisite: English 2. Open to grade 11.

UNITED STATES LITERATURE

Course # 1511

1st or 2nd semester

Credit: 0.5

This course focuses on developing reading skills through a variety of mediums including fiction, non-fiction, drama, and media. Students are required to be productive and engaged participants in daily class activities, such as the practice of specific reading strategies, discussion, and written responses. Homework reading is required.

Prerequisite: English 2. Open to grade 11.

SENIOR LITERATURE

Course # 1491

1st or 2nd semester

Credit: 0.5

Powerful stories affect us in profound ways, inspiring us, challenging us, deepening our human experience. The fundamental approach to Senior Literature is to aid students in fostering a love of reading by encouraging strong emotional connections with powerful stories, while emphasizing reading skills and literary analysis. Students in this course study the ways storytellers use their art to make us feel and think more deeply. This is a moderately paced course designed for the senior student who has taken U.S. Literature as a junior. Students encounter many exciting types of texts, including both traditional forms of fiction and drama, as well as graphic novels, films, and nonfiction texts. Group discussion is emphasized, but students also write essays, take tests, and give oral presentations about these texts.

Prerequisite: United States Literature. Open to grade 12.

WORLD LITERATURE

Course # 1541

1st or 2nd semester

Credit: 0.5

This college preparatory course for the average and above average reader will afford students the opportunity to gain a better understanding of and appreciation for various cultures from around the world. Through an array of compelling—and mostly contemporary—works, students will be challenged to grapple with universal problems and themes. Common assessments include essays and other writing assignments, discussion, quizzes/tests, oral presentations, and projects.

Prerequisite: None. Open to grade 12.

English Department

BRITISH LITERATURE 1

Course # 1581

1st or 2nd semester

Credit: 0.5

Human tragedy, genuine emotion, realistic, flawed characters, and outrageous jokes—all reasons that we still read the works of Shakespeare. British Literature I offers students the opportunity to discover the genius of Shakespeare's plays. This course explores the comedies, tragedies, and histories of the most famous playwright of the English language. Emphasis is placed on the memorable characters, riveting plots, and universal themes present in some of Shakespeare's most popular plays. Evaluation is based on discussion, quizzes, essays, tests, and, of course, performance.

Prerequisite: None. Open to grade 12.

BRITISH LITERATURE 2

Course # 1591

1st or 2nd semester

Credit: 0.5

This college preparatory course for the average and above average reader focuses on the role of literature in Ireland's rich, violent, and tumultuous past. We will read and discuss contemporary and historical issues in Ireland and, by extension, Great Britain through books, plays, short stories, newspaper articles, and films. The issues of oppression, resistance, and desire for freedom will be at the heart of this course. Evaluation is based on discussions of the readings, written activities, presentations, and tests/quizzes.

Prerequisite: None. Open to grade 12.

CORE LITERATURE/WRITING COURSES

ENGLISH 3

Course # 1320

Full year

Credit: 1.0

Take a personal journey through the American Dream in English 3. In this course we will explore some of the most popular and enduring American literature, focusing on what makes Americans unique. Students will have the opportunity to improve their writing through ACT style prompts, dealing with both personal perspective and literary analysis, as well as the "college essay." English 3 students will also explore personal interests and improve their research and writing skills through the I-Search paper. The course culminates with America On Stage—a showcase of performances of poetry, drama, and comedy of America. Some sections of this course are team taught in a larger setting.

Prerequisite: English 2. Open to grade 11.

AMERICAN STUDIES

Course # 1550

Full year

Credits: 1.0 English, 1.0 Social Studies

American Studies surveys America's past through the use of non-fiction texts, novels, films, visual arts, music, news sources, and primary source documents. The curriculum integrates history and literature by examining American texts through rhetoric, analysis, thematic connection, and inquiry. Students will find a challenging educational environment utilizing a variety of methodologies including current event discussions, media presentations, and field trips. The course meets for two back-to-back periods and is team taught in a larger setting. Teachers plan, instruct, and evaluate student work together.

Prerequisite: English 2. Open to grade 11.

ADVANCED PLACEMENT LANGUAGE AND COMPOSITION

Course # 1730

Full year

Credit: 1.0

According to the College Board, an Advanced Placement Course in English Language and Composition is designed for talented, imaginative students who read with finesse and write with clarity and style; who are curious and responsive to academic risk-taking; and who are not deterred by hard work. If this is you, welcome to Advanced Placement Language and Composition! In this college-level writing course, students develop the ability to analyze the rhetorical features of texts, speeches, and visuals as well as to produce their own writing—both analytical and argumentative—on a variety of subjects. In addition to in-class and shorter out-of-class writing assignments, students will also learn how to evaluate, use, and cite primary and secondary sources so that they can develop well-synthesized writings of extended length. This course assumes that students understand and capably use standard English grammar and prepares students for the Advanced Placement Exam in Language and Composition.

Prerequisite: English 2 Honors or Department Chair approval. Open to grade 11.

ADVANCED PLACEMENT LITERATURE AND COMPOSITION

Course # 1731

Full year

Credit: 1.0

This Advanced Placement Literature and Composition course is designed as an intensive study of literature drawn from multiple genres, time periods, and cultures, including but not limited to such authors as Shakespeare, Paton, Atwood, and Conrad. Students will read poetry, drama, novels, and short fiction deliberately and thoroughly, participating orally and in writing in close textual analysis. Independent, outside reading will be expected. Assignments include in-class essays, research projects, memorizations, oral presentations, and analytical writings. Students are responsible for participating actively and taking the lead in class discussions of the literature they read. This course prepares students for the Advanced Placement Exam in Literature and Composition.

**Prerequisite: AP Language and Composition or Department Chair approval.
Open to grade 12.**

CORE COMMUNICATION COURSES

SPEECH/COMMUNICATION

Course # 1411

1st or 2nd semester

Credit: 0.5

Effective communication is the key to success in all aspects of life. This course helps students become effective communicators in everyday, person-to-person relationships. Students deliver a variety of speeches, including narrative, argumentation, informative, and interview. Assignments vary between individual and small group presentations. The course teaches listening skills and the ability to give and receive tactful and constructive criticism. Students are exposed to a wide variety of subject matter and must be involved daily in class discussion. At the completion of this course, each student should feel confident in choosing an appropriate topic, preparing written notes and outlines, and delivering a 3-5 minute speech with a strong introduction, body, and conclusion.

Prerequisite: None. Open to grades 11 & 12.

DISCUSSION AND DEBATE

Course # 1441

1st or 2nd semester

Credit: 0.5

Listening, leadership, courtesy, topic analysis, research, evaluation of sources and databases, articulation, and confidence—these are the life long skills fostered in Discussion and Debate. This course helps students learn to access a range of informational sources available at the Hinsdale Central library in order to build arguments about contemporary topics used in debates. Students will participate in formal and informal class discussions, a simulated town meeting, a group discussion panel, debates, current event speeches, and a role play of an individual's life after reading a biography or autobiography. Reading, writing, researching, and active participation are all major components of this course. Students should already have a familiarity with and a sense of confidence about public speaking as multiple performances will be required during the semester. By the end of the semester, students should feel a sense of mastery at organizing, working cooperatively with others, researching, preparing for, and delivering public performances.

Prerequisite: None. Open to grades 11 & 12.

ENRICHMENT COURSES

ACADEMIC READING

Course # 1100

Full year

Credit: 1.0

Academic Reading is designed for ninth grade students whose standardized test scores demonstrate that they would benefit from direct instruction in reading and vocabulary strategies. Students will complete diagnostic tests in several skill areas at both the beginning and end of the school year to track their growth. The curriculum is comprised of units that address skills that "good readers" internalize including previewing, predicting, summarizing, questioning, and analysis of text structure. To build reading skills, students will use the texts from their social studies, science and math classes. In addition to these lessons, students will also receive weekly vocabulary instruction. Finally, students will engage in daily sustained silent reading both inside and outside of class. Academic Reading students are simultaneously enrolled in both this course and English I. Although both Academic Reading and English I have separate curricula, Academic Reading will include some pre-teaching and re-teaching of skills and strategies taught in English I.

Prerequisite: Department Chair approval. Open to grade 9.

English Department

JOURNALISM 1

Course # 1651

1st or 2nd semester

Credit: 0.5

This course introduces students to the fundamentals of journalism. Emphasis is placed on interviewing, writing, editing, assessing the audience, and meeting deadlines. Units of study include responsibilities and ethics, Associated Press style, interviewing, news writing, feature writing, and page design. All final story assignments must be typed and the culminating activity is a feature story spread. This course is intended as a practical application of newspaper/newsmagazine newsgathering and writing techniques, not as an analysis of the media. While this course is open to all interested students, those students interested in becoming editors of *Devils' Advocate* or *El Diablo* are strongly encouraged to take Journalism 1 sophomore year.

Prerequisite: Students must have a B average in English. Open to grades 10 & 11.

JOURNALISM 2: NEWSMAGAZINE

Course # 1661, 1662

1st or 2nd semester

Credit: 0.5

Students in this class are editors and will be responsible for publishing *Devils' Advocate* according to established deadlines. Students will assume editorial leadership and participate in all activities required to create a quality publication using a desktop publishing system. Students will be expected to develop story ideas, research stories, write and edit copy, design pages and handle advertising accounts. Students should be prepared to spend out-of-class time working on the publication. Journalism 2 may be repeated for credit with consent of the instructor and department chair.

Prerequisite: Journalism 1, application and interview process, and consent of the newsmagazine adviser. Open to grades 10, 11 & 12.

JOURNALISM 2: YEARBOOK

Course # 1671,1672

1st or 2nd semester

Credit: 0.5

Students in this class are editors and will be responsible for producing *El Diablo*. This course will cover skills and responsibilities of a journalist involved in publishing a yearbook. Students will assume editorial leadership and participate in all activities required to create a quality publication using a desktop publishing system. Students will be expected to develop story ideas, research stories, write and edit copy, design pages and handle advertising accounts to meet deadlines established by the adviser/instructor in accordance with the publication company's requirements. Students should be prepared to spend out-of-class time working on the publication in order to receive credit.

Prerequisite: Application and interview process and consent of the yearbook adviser. Open to grades 10, 11 & 12.

CREATIVE WRITING

Course # 1341

1st or 2nd semester

Credit: 0.5

Creative Writing encourages students to explore less conventional writing. Brainstorming, clustering, associational and analogical thinking, imaging, storytelling and imaginative fantasy are some of the in-class activities that generate students' writing of stories, poems, dialogs, prose vignettes, myths and personal essays. A journal, in which the student records thoughts, feelings, experiences, dreams, fantasies, memories and intuitive insights, serves as a sourcebook, providing the raw material from which more polished writing will emerge. Careful revisions as well as the sharing of one's own writing with the class in informal, non-threatening discussions also constitute an important part of the course's content.

Prerequisite: Department approval and a writing sample. Open to grades 11 & 12.

DRAMA

Course # 1681

1st or 2nd semester

Credit: 0.5

Drama has one prerequisite: the willingness to get up and perform! In this full participation performance class students learn and practice fundamentals of acting, movement, pantomime, and improv. In addition, students find, analyze, memorize, and act out monologues and scenes from plays. As a culminating experience, all students will participate in an evening performance to which parents and friends are invited. Class members are encouraged to experience an audition and to work onstage or backstage for the Drama Club's current production.

Prerequisite: None. Open to grades 9, 10, 11 & 12.

Family & Consumer Sciences

INTRODUCTION TO FAMILY & CONSUMER SCIENCES

Course # 6400

Full year

Credit: 1.0 (0.5 consumer education, 0.5 elective arts) Must complete the entire year to receive consumer education credit.

This course introduces the student to the following areas of Family & Consumer Science: consumer education, child care, interior design, foods and sewing. The consumer education unit focuses on basic economic concepts such as career opportunities, budgeting, banking, credit, transportation and housing. Additional class activities include an interior design project, basic food preparation and entertainment, sewing projects and exposure to child development. **Successful completion of this course fulfills the District's Consumer Education requirement for graduation. Supply fee \$25.00**

Prerequisite: None. Open to grades 9, 10, 11 & 12.

CREATIVE COOKING 1

Course # 6411

1st or 2nd semester

Credit: 0.5

This course is designed to teach basic food preparation skills utilizing various types of culinary equipment and a range of preparation and cooking techniques. The following areas of study are covered in this course: measuring, cutting skills, cooking methods, nutrition, fruits, vegetables, breads, pastas, vegetarian dishes, desserts, and microwave cooking. The course culminates in a student driven practical final meal applying the knowledge they have learned over the semester. While this course provides personal enrichment, it may also serve as a foundation for further training in food service. **Supply fee \$25.00**

Suggested follow-up courses: Creative Cooking 2 and Chef & Restaurant.

Prerequisite: None. Open to grades 9, 10, 11 & 12.

CREATIVE COOKING 2

Course # 6412

1st or 2nd semester

Credit: 0.5

This course, a continuation of Creative Cooking 1, provides training in the following advanced techniques of food preparation: international and gourmet foods, cakes and cake decorating, pasta, pastry, yeast breads, pies and more. Students prepare a variety of recipes. While this course provides personal enrichment, it may also serve as a foundation for further training in food service. **Suggested follow-up: Chef and Restaurant. Supply fee \$25.00**

Prerequisite: 6411. Open to grades 9, 10, 11 & 12.

CHEF AND RESTAURANT

Course # 6421

1st or 2nd semester

Credit: 0.5

Chef and Restaurant develops skills used in the fast growing food service and hospitality industries. Previous cooking experience is a plus and may be required in the future of this course. The main emphasis of this course is to develop and manage mini restaurants and a catering business. The restaurants include pre planned and student generated menus and themes. The catering business creates customized menus based on clients' individual requests. This course serves as a foundation for students wishing to enter a chef or hospitality training program or personal catering business. **Supply fee \$25.00**

***Prerequisite: Suggested Introduction to Family and Consumer Sciences ((6400) or Creative Cooking 1 (6411). Open to grades 11 & 12.**

*Due to classroom space limitations students who have previously completed Creative Cooking I or IFACS will be given preferential placement.

SINGLE SURVIVAL

Course # 6441

1st or 2nd semester

Credit: 0.5

This course is designed to provide skills to live independently after high school. The following areas of study will be covered: personal assets, job searching, money management, credit, identity theft, nutrition, insurance, map reading, taxes, and reflection on current issues. There will be a basic meal preparation unit. **Supply fee \$5.00**

Suggested follow-up course: Personal Perspectives (6591).

Prerequisite: None. Open to grades 11 & 12.

PERSONAL PERSPECTIVES

Course # 6591

1st or 2nd semester

Credit: 0.5

This course, designed to help the student understand the challenges of our society, develops the student's ability to cope with problems and make adult decisions. Areas of study include: theories of personality development, family relationships, crisis in the family (alcoholism, divorce, death), communication skills, dating, marriage and parenting. **Suggested follow-up course: Single Survival (6441).**

Prerequisite: None. Open to grades 11 & 12.

CREATIVE SEWING

Course # 6551

1st or 2nd semester

Credit: 0.5

Students will learn to sew for practical purposes and personal enjoyment as they select three or more projects to meet skills requirements. Consecutive projects will increase in degree of difficulty as students use technology to assemble and create unique items. Areas of study include basic sewing machine techniques, fabric and pattern selection, construction techniques and interpreting pattern instructions. **Suggested follow-up courses: Creative Sewing Independent Study (6561) or Fashion Merchandising (6571). Supply fee \$10.00**

Prerequisite: None. Open to grades 9, 10, 11 & 12.

CREATIVE SEWING INDEPENDENT STUDY

Course # 6561

1st or 2nd semester

Credit: 0.5

This course focuses on advanced construction techniques on individually selected projects approved by the instructor. Students master the use of a computerized embroidery machine and serger. Areas of study may include textile arts, formalwear, pattern redesigning, fashion design, or other related areas of student interest. This course may be repeated twice, but subsequent projects must continually incorporate new sewing construction skills. **Suggested follow-up courses: Fashion Merchandising (6571) or second enrollment in Creative Sewing Independent Study (6561). Supply fee \$10.00**

Prerequisite: Creative Sewing. Open to grades 9, 10, 11 & 12.

FASHION MERCHANDISING

Course # 6571

1st or 2nd semester

Credit: 0.5

This course is designed to allow the student to explore and understand the various facets of today's fashion industry. Areas of study include: evolution of fashion, fashion drawing and design, the role of the fashion buyer, original design collection illustration, advertising and retailing functions. Projects include research on a specific designer, clothing trend studies, visual window display and a fashion show or class business incorporating all the retailing functions studied. While this course serves as a foundation for further training in a fashion related occupation, it also provides an opportunity for personal enrichment. **Suggested follow-up course: Creative Sewing (6551). Supply fee \$25.00**

Prerequisite: None. Open to grades 10, 11 and 12.

ARCHITECTURAL STYLES AND DESIGN

Course # 6451

1st or 2nd semester

Credit: 0.5

The focus of this course is on preparing students to select, furnish and decorate a residence. Emphasis is on the following: elements and principles of design, color, housing styles, window coverings, sample selection, decorating interiors and computer drafting. Design boards and technology presentations are incorporated in most projects. This course serves as a foundation for careers in architecture and interior design, as well as personal enrichment. **Supply fee \$25.00**

Prerequisite: None. Open to grades 10, 11 & 12.

CHILD CARE & DEVELOPMENT

Course # 6582

2nd semester only

Credit: 0.5

This course prepares the student for parenting or a career in the field of teaching or child-related occupations. Areas of study include family planning, pregnancy and childbirth, child development from infancy through eight years of age, and planning learning activities for an eight-week preschool practicum. Students will teach and observe children in our Discovery Corner Preschool as an integral part of the program. ***Suggested follow-up: Invitation to Teach (6481 or 6482).**

Prerequisite: None. Open to grades 10, 11 & 12. Articulated credit available through College of DuPage.

* Suggested 1st part of teaching sequence to be taken Sophomore or Junior year.

INVITATION TO TEACH

Course # 6481, 6482

1st or 2nd semester

Credit 1.0 (one semester two class periods)

This course offers a realistic teaching experience enabling students to work under the supervision of certified staff at preschool, elementary or middle schools. Once placed, students will spend four days each week at their assigned school to assist, observe and teach young children. Teaching responsibilities include journaling, observations, creating a visual display, facilitating a field trip, creating and teaching lessons and shadowing a teacher for a day. Classroom study focuses on related issues in education. **Supply fee \$10.00**

Suggested Prerequisite: Child Care & Development (6581). Open to grade 12 only.

***Enrollment based on application, counselor recommendation, and instructor approval (based on academic standing, school attendance and character). Application may be picked up in the Guidance office.**

Students who have previously completed Child Care & Development will be given preferential placement.

Chris Paxton, design

Hinsdale Central Foreign Language Department Department Mission Statement

Our mission as a department is to enable students to acquire, develop, expand, and apply their knowledge of a second language.

We do this by working collaboratively within our learning community to:

- Maximize student potential for learning and language acquisition
- Guide student learning by modeling good study habits and effective learning skills.

We do this so that students can integrate and transfer knowledge of a second language throughout their lives, and gain a broader perspective and understanding of world cultures within a respectful community of learners.

Two years of the same language will fulfill the entrance requirement of the state public universities in Illinois. Most other universities require foreign language study for admission and may require it for graduation from specific degree programs. ***High school students preparing for college should include one or more foreign languages in their preparation.***

Students entering ninth grade with previous foreign language experience can complete the equivalent of six years of high school work, which may include Advanced Placement work. Students who complete the upper levels of a language often test out of the foreign language requirements, receive college credit, and/or are placed in advanced language courses in college. A four-year sequence of honors level courses is available in all languages offered by the department.

Etymology, a semester course, is highly recommended to all students who wish to increase their knowledge and understanding of vocabulary. Two or more foreign languages may be taken simultaneously. The latest research indicates that studying two languages at the same time is beneficial and that foreign language study has positive effects on a student's English language skills. Completing the third and fourth year in a sequence significantly improves achievement.

The first semester of a language must be passed before a student may take the second semester of the same language. Credit must be earned in both semesters of one level of a language before advancing to the next level.

Foreign Language

FRENCH

FRENCH 1

Course # 4110

Full year

Credit: 1.0

French 1 offers a basic introduction to the vocabulary and grammar of the language. The pace of the course begins moderately and increases as students have more experience with the language. Students will be taught basic reading and writing strategies using textbook examples. Reading, writing, speaking and listening skills are practiced and assessed regularly. Readings and projects center on cultural information. Although grammar concepts may be taught in English, students are always expected to use French in class to the extent possible. This course is conducted mostly in French.

Prerequisite: None. Open to grades 9, 10, 11 & 12

FRENCH 2

Course # 4120

Full year

Credit: 1.0

This course is an articulated continuation of the French 1 program and continues building the same skills. Students are expected to participate actively in class activities and function in French to a great extent, and all four skills are evaluated.

Prerequisite: A grade of C or better in French 1, or recommendation of the junior high school teacher. Open to grades 9, 10, 11 & 12.

FRENCH 2 - H

Course # 4125

Full year

Credit: 1.0

The sequential core material for this course is the same as French 4120. The pace is accelerated to allow for the reading and discussion of some short stories and short books, as well as other activities to challenge the more capable student. This course is conducted in French to a greater extent than is French 4120.

Prerequisite: Departmental approval or recommendation of the junior high school teacher. Open to grades 9, 10, 11 & 12.

FRENCH 3

Course # 4130

Full year

Credit: 1.0

This course is the study of the geography and culture of France interwoven concurrently with the study of grammar. Class activities include daily discussions of reading assignments enriched through film, French TV, news clips, slides and newspaper articles. In addition, students do oral presentations and write short compositions. During second semester, students read and discuss *Le Petit Prince*. The course is conducted extensively in French.

Prerequisite: A grade of C or better in French 2. Open to grades 9, 10, 11 & 12.

FRENCH 3 - H

Course # 4135

Full year

Credit: 1.0

The sequential core material for this course is the same as French 4130. The pace is accelerated; the breadth and scope of the coverage is expanded, and some material is added to challenge the capabilities of the more able students. The course is conducted extensively in French.

Prerequisite: Departmental approval. Open to grades 9, 10, 11 & 12.

FRENCH 4

Course # 4140

Full year

Credit: 1.0

French 4 is the study of the history, and art of France throughout the centuries (pre-history to present times). Class activities include discussions of prepared reading selections, oral presentations, and the intensive study of one film. The course of study also emphasizes systematic grammar review and limited composition practice.

Prerequisite: A grade of C or better in French 3. Open to grades 10, 11 & 12.

FRENCH 4 - H

Course # 4145

Full year

Credit: 1.0

French 4 Honors is the study of the history, and art of France throughout the centuries (pre-history to present times). Class activities include discussions of prepared reading selections, oral presentations, and the intensive study of one film. The course of study covers systematic grammar review and more extensive composition practice than French 4. Inasmuch as this course leads sequentially to the AP French 5 course, the course content is supplemented with more challenging reading materials and special emphasis is put on oral proficiency.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

FRENCH 5
Course # 4150
Full year
Credit: 1.0

French 5 is a course that integrates the study of literature, advanced grammar and current events in France. The readings consist of short stories, and a novel from the 20th century organized around the themes of human relationships, moral dilemmas and existentialism. Class activities include discussions of texts in French, the study of one film per semester and improving grammar and writing proficiency. The course is conducted extensively in French

Prerequisite: A grade of C or better in French 4. Open to grades 11 & 12.

ADVANCED PLACEMENT FRENCH LANGUAGE
Course # 4155
Full year
Credit: 1.0

Advanced Placement French Language, a study of literature of the 19th and 20th centuries, provides intensive and extensive reading, discussion and analysis in French of selected literary masterpieces by Mérimée, Rostand, and Voltaire. Students also write compositions in French on non-literary topics and study some current events with excerpts from French television. Advanced grammar review is continued. Course content is designed to improve all four language skills with special emphasis on idiomatic usage, and to prepare students for the Advanced Placement language exam in French.

Prerequisite: Departmental approval. Open to grades 11 & 12.

GERMAN

GERMAN 1
Course # 4210
Full year
Credit: 1.0

German 1 offers an introduction to the basic grammar and vocabulary of the language. Students are actively engaged in learning activities that allow them to practice and use German. Students use the language in structured activities, interactive conversations, and short presentations. Reading and writing exercises use material previously practiced orally. Assessment measures listening, speaking, reading and writing. The course is conducted extensively in German.

Prerequisite: None. Open to grades 9, 10, 11 & 12.

GERMAN 1 - H
Course # 4215
Full year
Credit: 1.0

The sequential core material for this course is the same as German 4210. The pace may be accelerated and the breadth and scope of the coverage may be expanded. Some material is added to challenge the capabilities of the more able students.

Prerequisite: Departmental approval. Open to grades 9, 10, 11 & 12.

GERMAN 2
Course # 4220
Full year
Credit: 1.0

This course is a continuation of the first level course, developing more complex oral, reading, and writing skills. The course is conducted almost entirely in German. Supplementary reading of simple selections may be used to introduce the student to the world of German literature and to improve the student's ability in speaking and writing.

Prerequisite: A grade of C or better in German 1. Open to grades 10, 11 & 12.

Foreign Language

GERMAN 2 - H
Course # 4225
Full year
Credit: 1.0

The sequential core material for this course is the same as German 4220. The pace is accelerated; the breadth and scope of the coverage is expanded and some material is added to challenge the capabilities of the more able students.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

GERMAN 3
Course # 4260
Full year
Credit: 1.0

German 3 is designed to develop greater fluency in oral proficiency, reading, writing, and further appreciation of German history and culture. The course features a selection of prose and poetry by contemporary and earlier German writers, and a systematic review and extension of basic grammar patterns. In addition to a basic text, one or more literary readers or plays may be used. Activities center around classroom discussion of reading selections, oral presentations, and original skits by students. The course is conducted extensively in German.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

GERMAN 3 - H
Course # 4265
Full year
Credit: 1.0

The sequential core material for this course is the same as German 3. The pace may be accelerated; the breadth and scope of the coverage may be expanded. Some material is added to challenge the capabilities of the more able students. The course is conducted extensively in German.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

GERMAN 4
Course # 4270
Full year
Credit: 1.0

German 4 provides an introduction to contemporary German life, literature and culture. The objective is to increase the student's skills in oral and written expression, and to give systematic cultural information and grammatical review. In addition to a basic cultural reader, selections of modern German short fiction will acquaint the student with present day trends and attitudes. Class activities center around classroom discussion of reading selections, including current news magazines. The materials and activities utilized in this course will help students to further improve and refine all four language skills. The course is conducted extensively in German.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

GERMAN 4 - H
Course # 4275
Full year
Credit: 1.0

The sequential core material is the same as German 4. The pace may be accelerated; the breadth and scope of coverage may be expanded. Some material is added to challenge the capabilities of the more able students. Material and activities utilized in this course will help students to further improve and refine all four language skills. The course is conducted exclusively in German.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

LATIN

LATIN 1

Course # 4310

Full year

Credit: 1.0

Latin 1 is primarily designed to develop a student's ability to read and comprehend the Latin language. Students begin by learning the peculiar demands of an inflected language, and are then introduced to Latin morphology, the declensions of its nouns and the conjugation of its verbs. Gradually, elements of syntax and grammar introduce the students to the fundamental requirements needed to read. Concurrent with these pursuits will be an ongoing discovery of the structure of the English language and its many borrowings from the Latin structure. Students' grasp of English grammar will grow substantially. An ever-evolving Latin vocabulary helps students understand essential concepts in etymology, derivatives, and building a stronger and more precise vocabulary in English. Roman and Greek mythology and Roman daily life comprise the cultural component of the course.

Prerequisite: None. Open to grades 9, 10, 11, & 12.

LATIN 1 - H

Course # 4315

Full year

Credit: 1.0

The sequential core material for this course is the same as Latin 4310. The pace is accelerated; the breadth and scope of the coverage is expanded and some material is added to challenge the capabilities of the more able students.

Prerequisite: Departmental approval. Open to grades 9, 10, 11 & 12.

LATIN 2

Course # 4320

Full year

Credit: 1.0

This course builds on the grammatical and structural foundations established in Latin I. An emphasis is placed on reading and comprehending Latin. Students will learn advanced grammar and move on to their first experience with unadulterated Latin. The cultural focus of the course will be the formation and development of the Roman Republic.

Prerequisite: A grade of C or better in Latin 1. Open to grades 10, 11, & 12.

LATIN 2 - H

Course # 4325

Full year

Credit: 1.0

The sequential core material for this course is the same as Latin 4320. The pace is accelerated; the breadth and scope of the coverage is expanded and some material is added to challenge the capabilities of the more able students.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

LATIN 3-4 LATIN LITERATURE

Course # 4340

Full year

Credit: 1.0

Offered 2010 - 2011

This course is a survey of Latin literature sampling several genres including letters, oratory, epigram, history, narrative, philosophy, lyric and elegiac poetry. The survey is designed to further develop students' translation abilities as they review essential grammar and vocabulary. The work will explore the boundaries of each genre and its specific application. Attention will also be paid to the larger historical context of the authors and their works to provide students with an upper level understanding of Roman thought and custom.

Prerequisite: Latin 2 and departmental approval. Latin 4340 and 4360 are offered in alternate years only. In 2009-2010 Latin 3-4 Vergil (4360) will be offered. In 2010-2011 Latin 3-4 Latin Literature will be offered. Open to grades 11 & 12.

LATIN 3-4 VERGIL

Course # 4360

Full year

Credit: 1.0

Offered 2009 - 2010

The first semester of this course is a prose survey designed to further the development of students' translation abilities as they review essential grammar and vocabulary. The reading selections will be drawn from the late Republican period and will include works by Caesar, Augustus, and Cicero. These selections will provide a historical, literary and political context for the study of Vergil's major work, the **Aeneid**. The second semester involves reading and analysis of portions the **Aeneid**. The work stresses Vergil's use of meter, rhetorical style and poetic figures of speech.

Prerequisite: Latin 2 and departmental approval. Latin 4340 and 4360 are offered in alternate years only. In 2009-2010 Latin 3-4 Vergil (4360) will be offered. In 2010-2011 Latin 3-4 Latin Literature will be offered. Open to grades 11 & 12.

Foreign Language

LATIN LITERATURE HONORS

(Catullus-Ovid)

Course # 4355

Full year

Credit: 1.0

Offered 2010 - 2011

The sequential core material of this course is the same as Latin 4340. The pace is accelerated; the breadth and scope of the coverage is expanded, and some material is added to challenge the capabilities of the more able students.

Prerequisite: Latin 2 and departmental approval. Latin Literature Honors 4355 and AP Latin Vergil 4365 are offered in alternate years only. In 2009-2010 AP Latin Vergil (4365) will be offered. In 2010-2011 Latin Literature Honors will be offered. Open to grades 11 & 12.

ADVANCED PLACEMENT LATIN VERGIL

Course # 4365

Full year

Credit: 1.0

Offered 2009 - 2010

Preparatory to the Advanced Placement exam, the Advanced Placement Vergil course involves a thorough reading and analysis of the poet's major work, the Aeneid. After reading Homer's *Iliad* and *Odyssey* in translation, the course works to establish the larger historical, literary, and political context through which the purpose of the poem can be understood. Special attention will be paid to Vergil's use of meter, rhetorical and poetic figures of speech, poetic imagery, diction, as well as his manipulations of the Latin language. Essay writing will be developed in line with the close literary analysis required by the College Board.

Prerequisite: Latin 2 and departmental approval. Latin Literature Honors 4355 and AP Latin 4365 are offered in alternate years only. In 2009-2010 AP Latin Vergil (4365) will be offered. In 2010-2011 Latin Literature Honors will be offered. Open to grades 11 & 12.

ETYMOLOGY

ETYMOLOGY

Course # 4371

1st or 2nd semester

Credit: 0.5

Etymology is designed to increase one's knowledge and understanding of English vocabulary through the study of the most important Greek and Latin roots. Students learn to discover meanings of words through recognition and interpretation of their elements. The skills learned in Etymology equip students to decode vocabulary words encountered elsewhere (transfer of knowledge). The ability to memorize is a necessary fundamental skill. Recommended for all qualifying foreign language students.

Prerequisite: A grade of C or better in the foreign language most recently studied, or (if no foreign language) consent of the department chair. Open to grades 9, 10, 11 & 12, and especially recommended to sophomores.

SPANISH

INTRODUCTION TO SPANISH

Course # 4505

Full year

Credit: 1.0

Introduction to Spanish 1 is a first year Spanish course designed to emphasize Spanish 1 vocabulary, grammatical concepts, and foreign language study skills in order to provide necessary and additional support to new language learners. The course is designed to provide students with vocabulary and grammar acquisition skills that are crucial to the student's success in future second language study. The course will also focus on developing student responsibility for his or her own learning. Students will learn organization and study skills that will support successful study of second language. Students who successfully complete this course will be able to continue and complete their study of Spanish 1 the following year.

Prerequisite: None. Open to grades 9, 10, 11 & 12.

SPANISH 1
Course # 4510
Full year
Credit: 1.0

An introductory course which develops communication skills with an emphasis on listening and speaking. The student is taught to use the language actively through extensive oral work in daily dialogue, grammar patterns, and idioms. Reading and writing exercises use materials previously practiced orally. Evaluation measures listening, speaking, reading, and writing. The course is conducted extensively in Spanish. This course is for students who have not taken a full course of Spanish 1 in junior high and earned a grade of B or higher.

Prerequisite: None. Open to grades 9, 10, 11 & 12.

SPANISH 2
Course # 4520
Full year
Credit: 1.0

This course is a continuation of the first level course, developing more complex oral, reading, and writing skills. Students are expected to participate actively in class activities and to function in Spanish to a greater extent, and all four skills are evaluated. Supplementary reading of simple selections and books will be used to improve students' ability in reading, speaking and writing.

Prerequisite: A grade of C or above in Spanish 1 or recommendation of the junior high school teacher. Open to grades 9, 10, 11 & 12.

SPANISH 2 - H
Course # 4525
Full year
Credit: 1.0

Although the core material for this course is the same as Spanish 4520, this course uses a higher level text. In addition, students will be taught specific strategies for reading, writing and listening. The pace is also accelerated to allow for the reading and discussion of authentic literary selections. Reading, writing, speaking, and listening skills are practiced and assessed regularly. This course is designed for students who have had success in Spanish 4510 (or Jr. High equivalent) and who demonstrate the characteristics of a self-directed, mature student. This course is conducted almost entirely in Spanish.

Prerequisite: Departmental approval. Recommendation of the junior high teacher for freshmen. Open to grades 9, 10, 11 & 12.

SPANISH 3
Course # 4530
Full year
Credit: 1.0

Spanish 3 is structured to maintain and improve the listening and speaking skills already developed in the first and second years, and to give increased emphasis to the development of reading, writing, and listening skills. The basic text materials include short reading selections, as well as speaking activities and grammar explanations. The classes are conducted extensively in Spanish, making use of structured drills and conversation stimuli to accompany the increased reading and writing exercises.

Prerequisite: A grade of C or better in Spanish 2. Open to grades 9, 10, 11 & 12.

SPANISH 3 - H
Course # 4535
Full year
Credit: 1.0

The sequential core material for this course is similar to Spanish 4530. The pace is accelerated; the breadth and scope of the coverage is expanded. Material is added to challenge students' capabilities. Additionally, students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. The class is conducted extensively in Spanish.

Prerequisite: Departmental approval. Open to grades 9, 10, 11 & 12.

SPANISH 4
Course # 4540
Full year
Credit: 1.0

Spanish 4 is a survey course focused on Spain that takes students from the Middle Ages to the present day through historical, cultural, and authentic literary texts. Students learn to interact with literature using a variety of reading strategies and skills and develop an appreciation for and understanding of Spanish culture. Students read, write, and present throughout the year. Grammar from previous years is reviewed and reinforced, with an emphasis on oral communication skills. The course is conducted extensively in Spanish.

Prerequisite: A grade of C or better in Spanish 3. Open to grades 10, 11 & 12.

Foreign Language

SPANISH 4 - H

Course # 4545

Full year

Credit: 1.0

Although the core material for this course is the same as Spanish 4540, this course uses higher level texts for both the literature and history. In addition, students will write essays in Spanish for each unit of study and create a portfolio of their work throughout the year. The pace is accelerated to allow for more profound discussion of the texts. Reading, writing, speaking and listening skills are practiced and assessed regularly. This course is designed for students who have had success in Spanish 4535 and who demonstrate the characteristics of a self-directed, mature student. Students are expected to communicate almost entirely in Spanish in the classroom. This course is conducted entirely in Spanish.

Prerequisite: Departmental approval. Open to grades 10, 11 &12.

SPANISH 5

Course # 4550

Full year

Credit: 1.0

Spanish 5 introduces the student to the literature and thought of Latin America, as opposed to the emphasis upon Spain in Spanish 4. Students read selections from representative works, participate in classroom discussion, give reports and write essays. Class is conducted in Spanish. Grammar is reviewed as needed. Some reading and writing is expected of the students outside of class.

Prerequisite: A grade of C or better in Spanish 4. Open to grades 11 &12.

ADVANCED PLACEMENT SPANISH LANGUAGE

Course # 4555

Full year

Credit: 1.0

This course surveys the literature, culture and thought of Hispanic America. Students read selections from representative works and cultural texts, participate in classroom discussions, give oral reports and write essays of various lengths. The class is conducted extensively in Spanish and students are expected to be conversant in the language. The class will also prepare those students who wish to take the Advanced Placement exam in Spanish Language.

Prerequisite: A grade of A or B in Spanish 4-H or A in Spanish 4 and departmental approval. Open to grades 11 &12.

ADVANCED PLACEMENT SPANISH LITERATURE

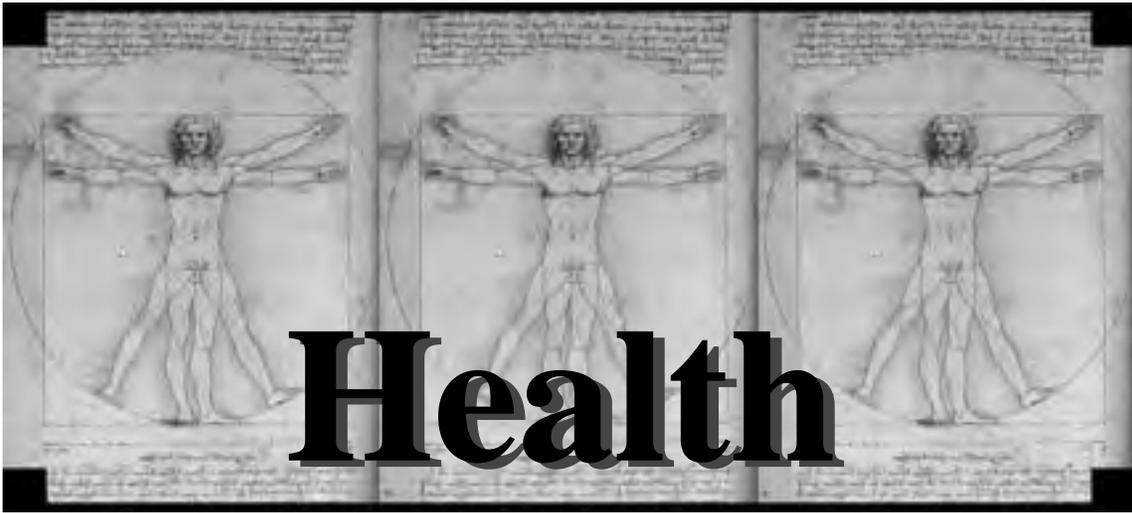

Course # 4565

Full year

Credit: 1.0

The AP Spanish Literature course is based on those representative works suggested by the AP board and required for the AP Spanish Literature exam. This course surveys the literature of Spain and Hispanic America in a sequential and thematic fashion. Students are required to read and write outside of class, take part in classroom discussions, present reports and compose essays in order to prepare for the Advanced Placement exam in Spanish Literature.

Prerequisite: A grade of A or B in AP Spanish Language or A in Spanish 5 and departmental approval. Open to grade 12.

Justin Geller, design

HEALTH EDUCATION

Course # 7501, 7502

1st or 2nd semester

Credit: 0.5 (Included in student's G.P.A.)

The goal of this course is to promote and develop positive attitudes and behaviors related to the overall wellness of Hinsdale Central students. Students are taught how to access valid health information and health-promoting products and services. The students will also learn how to analyze the influence of culture, media, technology and other factors on health. Topics of study within the Health Education program include: Introduction to Wellness, Alcohol, Tobacco and other Drugs, Nutrition and Fitness, Communicable and Non-communicable Diseases, and Human Reproduction. The curriculum is aligned with District 86 program goals, Illinois and National Health Education Standards.

REQUIRED FOR GRADUATION. This course should be taken in tandem with Physical Education during the sophomore year.

INTRODUCTION TO SPORTS MEDICINE

Course # 7521

1st or 2nd semester

Credit: 0.5

The goal of this course is to help students become more knowledgeable and proficient in the following areas: principles and practices of athletic training; anatomy, physiology, injury recognition, treatment and rehabilitation as they relate to sports and leisure activities. This course also provides valuable hands-on experience and is highly recommended for those students who are interested in careers in nursing, medicine, athletic training, physical therapy, or coaching.

Prerequisite: Successful completion of Health Education or approval of Department Chair.

Open to grades 10, 11, & 12.

**Director of the Library Media Center
Mrs. Kathleen Krepps**

The mission of the Library Media Department is to support our educational community with information resources that empower teachers and students to become effective users of information and independent, responsible and enthusiastic life-long learners.

In order to realize this mission the librarians strive to:

- Provide resources in a variety of formats that support academic and personal interests;
- Deliver instruction in reading, research, technology and media literacies;
- Collaborate with faculty to design resource-based curriculum assignments and assessments.

The following course is offered through the Library Media Department:

DIGITAL VIDEO PRODUCTION

Course # 9201

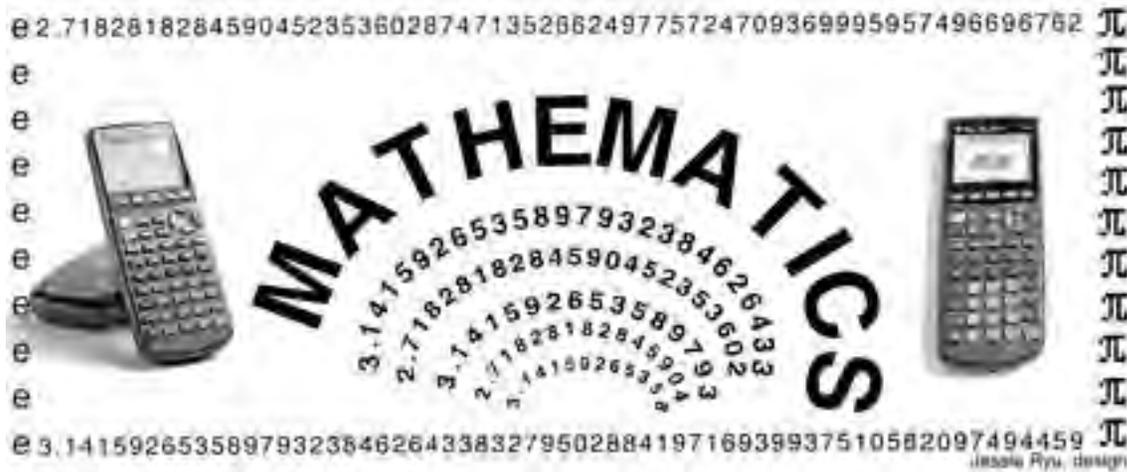

1st or 2nd semester

Credit: 0.5

This course is designed to develop students' skills in the creative and technical aspects of digital video production. Students will develop an understanding of video application and design. Instruction will include introduction to camera operations, audio and video editing, sound and lighting techniques and audio mixing. Students will learn to operate video and DVD recording equipment, video/digital cameras and microphones. Students will complete several video production projects demonstrating a sequential development of basic skills. The primary focus will be on enhancing communication and visual literacy skills.

The course will be scheduled either 1st or 10th period.

Prerequisite: None Open to grades 10, 11 & 12.

Three credits in mathematics are required for graduation.

Credit must be earned in both semesters of a full year course before advancing to the next course in the sequence. Any student who earns a D in a mathematics course is strongly recommended to retake one or both semesters in summer school before attempting the next course in the sequence. The deficiencies indicated by the D grade will make success in the next course in the sequence very difficult. Successful completion of Algebra and Geometry in any sequence and enrollment in Alg 2G, Alg2, or Alg2H during or before junior year is ideal preparation for college standardized testing.

Typical sequences are shown below:

<u>Freshman</u>	<u>Sophomore</u>	<u>Junior</u>	<u>Senior</u>
Alg. 2/Trig H	Pre-Calc H	AP Calculus (BC)	AP Statistics and/or Math topics
Integrated Alg. and Geo. H	Alg. 2/Trig H	Pre-Calc H	AP Calc (BC) and/or AP Statistics
Geometry H	Alg. 2/Trig H	Pre-Calc H and/or AP Statistics	AP Calc (BC) and/or AP Statistics
Geometry	Alg. 2/Trig	Pre-Calculus	AP Calc (AB) and/or AP Statistics
Geometry	Alg. 2 /Trig	Math Analysis and Intro. to Stat.	Pre-Calculus
Algebra 1	Geometry	Alg. 2/Trig	Math Analysis and/or Intro. to Stat.
Foundations of Alg. and Geo.	Alg. 1G (sem1)/GeoG (sem2)	Alg. 2 /Trig G	Math Analysis and/or Finite Math
Foundations of Alg. and Geo.	Alg. 1G	Geometry G	Alg. 2/Trig G
Applied Fund of Math	Foundations of Alg/Geo	Alg. 1G	Geometry G

CALCULATORS

Calculators are tools commonly used in departmental courses. While general recommendations of appropriate calculator functionality are included in each course description, calculator recommendations for specific courses can be obtained by contacting the mathematics department or your math teacher. Most courses require a graphing calculator, at a cost of about \$120.

COMPUTER COURSES TAUGHT BY THE MATHEMATICS DEPARTMENT

Students with an aptitude in mathematics should take at least a semester computer course. Students with strong mathematics aptitude should plan ahead for the AP Computer Science curriculum.

Introduction to Web Programming
Advanced Web Programming

APPLIED FUNDAMENTALS OF MATH

Course # 3050

Full year

Credit: 1.0

This course covers a variety of practical topics such as basic probability, creating and interpreting graphs, formulas, fractions, percent, measurement, perimeter, basic geometry, consumer skills, and basic algebra. A scientific calculator with fraction capabilities is required.

Prerequisite: Recommendation of previous teacher and departmental approval. Next course in sequence: Foundations of Algebra and Geometry. Open to grades 9, 10, 11 & 12.

FOUNDATIONS OF ALGEBRA AND GEOMETRY

Course # 3090

Full year

Credit: 1.0

This course introduces important topics in Algebra and Geometry. Algebra topics include expressions, equations, inequalities and linear functions. Geometry topics include lines, segments, angles, triangles, perimeter, area and volume. This course is appropriate for students with reasonable facility with arithmetic operations and average grades in mathematics. A graphing calculator is required.

This course fulfills the ISBE graduation requirement of a course with Geometry content.

Prerequisite: Recommendation of previous teacher and departmental approval. Next course in sequence: Algebra 1G. Open to grades 9, 10, 11 & 12.

ALGEBRA 1 G

Course # 3100

Full year

Credit: 1.0

This course continues the important topics in Algebra. Topics include exponents, systems of equations, inequalities, linear and quadratic functions, polynomial expressions, probability, and statistics. A graphing calculator is required.

This course fulfills the ISBE graduation requirement for Algebra 1.

Prerequisite: Foundations of Algebra and Geometry and department approval. Next course in sequence: Geometry G. Open to grades 10, 11 & 12.

ALGEBRA 1 G

Course # 3141/3151

1st semester

Credit: 1.0

This course has the same core curriculum as #3100, but is taught in a single semester, two periods daily.

Prerequisite: Foundations of Algebra and Geometry and teacher recommendation. Open to grades 10 and 11.

ALGEBRA 1

Course # 3110

Full year

Credit: 1.0

This course focuses on fundamental properties of the real numbers. Linear and quadratic equations are emphasized. Rational expressions and equations are introduced. Real world applications are explored. Algebra 1 is recommended for grade 9 students who have achieved a strong facility with arithmetic operations and above average grades in mathematics or for those students whose Algebra skills need strengthening. A graphing calculator with matrix capabilities is required in this course.

This course fulfills the ISBE graduation requirement for Algebra 1.

Prerequisite: 8th grade teacher recommendation or departmental approval. Next course in sequence: Geometry. Open to grades 9, 10, 11 & 12.

GEOMETRY-G

Course # 3200

Full year

Credit: 1.0

Geometry-G uses an intuitive approach to study the fundamental concepts in Geometry. Although deductive reasoning is practiced, much less emphasis is placed on writing formal proofs. Students experience geometric concepts through frequent constructions, hands on activities, and interactive geometry software. Some students from 3110 Algebra may be advised to take this course. A scientific calculator is required in this course.

This course fulfills the ISBE graduation requirement of a course with Geometry content.

Prerequisite: Algebra 1G or Algebra 1 and departmental approval. Next course in sequence: Algebra 2-Trigonometry-G based upon teacher recommendation. Open to grades 10, 11 & 12.

Mathematics Department

GEOMETRY-G

Course # 3232/3242

2nd semester

Credit: 1.0

This course has the same core curriculum as #3200, but is taught in a single semester, two periods daily.

Prerequisite: Algebra 1G and teacher recommendation. Open to grades 10 and 11.

GEOMETRY

Course # 3210

Full year

Credit: 1.0

Geometry focuses on proof and fundamental concepts of plane geometry with some informal three-dimensional considerations. Properties of lines, angles, triangles, quadrilaterals and circles are studied. Special attention is given to concepts of congruence, perpendicularity, parallelism, area, similarity, coordinate geometry, logic and deductive reasoning as well as geometric probability. A scientific calculator is required in this course.

This course fulfills the ISBE graduation requirement of a course with Geometry content.

Prerequisite: (Entering freshmen who have had Algebra in 8th grade must also have a strong teacher recommendation.) Algebra 1 and departmental approval. Next course in sequence: Algebra 2-Trigonometry. Open to grades 9, 10, 11 & 12.

GEOMETRY - H

Course # 3220

Full year

Credit: 1.0

This honors course provides an in-depth study of all the topics of plane Euclidean geometry including three-dimensional geometry. Particular attention will be given to the nature of a mathematical system, logic and proof. Students are expected to exercise their creative capacities, and apply their knowledge to different situations. Recommended for students who have a high interest in mathematics and have achieved, without undue stress, an A average in Algebra. A scientific calculator is required in this course.

This course fulfills the ISBE graduation requirement of a course with Geometry content.

Prerequisite: Algebra 1 and departmental approval. Next course in sequence: Algebra 2-Trigonometry-H or Algebra 2-Trigonometry, based on teacher recommendation. Open to grades 9, 10, 11 & 12.

INTEGRATED ALGEBRA AND GEOMETRY - H

Course # 3280

Full year

Credit: 1.0

This honors course reviews important concepts in Algebra 1 and Geometry. Topics will be explored in greater depth than the introductory courses, and additional new topics will be presented. Students who are successful in this course should be well prepared for a sequence of Algebra 2/Trigonometry H, Precalculus H, and an AP course on Calculus and/or Statistics.

Prerequisite: Algebra 1, Geometry and teacher recommendation. Next course in sequence: Algebra 2/Trigonometry or Algebra 2/Trigonometry H. Open to grade 9.

ALGEBRA 2-TRIGONOMETRY G

Course # 3300

Full year

Credit: 1.0

The basic material for this course, described under 3310 Algebra 2-Trigonometry, is recommended for students from Geometry - G. Some students from 3210 Geometry may be advised to take this course. A graphing calculator with matrix capabilities is required in this course.

Prerequisite: Geometry - G or Geometry and departmental approval. Open to grades 11 & 12.

ALGEBRA 2-TRIGONOMETRY

Course # 3310

Full year

Credit: 1.0

Algebra 2-Trigonometry expands the material studied in Algebra and Geometry, emphasizing real-world applications and associated graphical analysis. The complex number system is studied. Linear, quadratic, exponential, logarithmic, polynomial, rational and trigonometric functions are explored. Transformations and inverses of functions are introduced. This course is recommended for students with a grade average of C or better in Algebra and Geometry who desire a third year of college preparatory mathematics. A graphing calculator with matrix capabilities is required in this course.

Prerequisite: Geometry. Next course in sequence: Math Analysis and Intro to Stats or Pre-Calculus. Open to grades 9, 10, 11 & 12.

ALGEBRA 2-TRIGONOMETRY H

Course # 3320

Full year

Credit: 1.0

This honors course provides a more in-depth study of the topics described above in Algebra 2-Trigonometry, as well as circular functions and probability. Students are expected to be capable of creative problem solving and individual study. This course is recommended for students who have a high interest in mathematics, with no less than a B+ average in previous mathematics courses. A graphing calculator with matrix capabilities is required in this course.

Prerequisite: Geometry - H and departmental approval. Next course in sequence: Pre-Calculus-H or Pre-Calculus, based on teacher recommendation. Open to grades 9, 10, 11 & 12.

INTRODUCTION TO WEB PROGRAMMING

Course # 3351

1st or 2nd semester

Credit: 0.5

This course focuses on the creation of World Wide Web documents using the HTML and JavaScript languages. Students are expected to spend laboratory time outside of class working on their projects. Introductory programming concepts will be presented using JavaScript in order to create more dynamic, self-modifying web pages. Internet access at home is recommended.

Prerequisite: Algebra 1 or departmental approval. Open to grades 9, 10, 11 & 12.

ADVANCED WEB PROGRAMMING

Course # 3371

1st or 2nd semester

Credit: 0.5

This course is a continuation of Introduction to Web Programming. The course will include programming to the web server setting, cascading style sheets and animation.

Prerequisite: Introduction to Web Programming and departmental approval. Open to grades 10, 11 & 12.

INTRODUCTION TO JAVA

Course # 3392

2nd semester

Credit: 0.5

This course provides an introduction to computer programming using the JAVA programming language. Programming concepts such as variables, constants, expressions, conditionals, arrays, iteration, functions, and object oriented programming using classes will be presented and discussed. An emphasis will be placed on practical problem solving. Students are expected to spend laboratory time outside of class working on their projects.

Prerequisite: Geometry and departmental approval. Next course in sequence: Advanced Placement Computer Science. Open to grades 10, 11 & 12.

MATH ANALYSIS

Course # 3401

1st semester

Credit: 0.5

This course focuses on important topics in mathematical modeling. Topics include algorithms, matrices, graphs, and probability, with applications such as elections, fair division, population growth, scheduling, conflict resolution, routing, and game theory. A graphing calculator with matrix capabilities is required.

Prerequisite: Algebra 2 / Trigonometry and department approval. Next course in sequence: Introduction to Statistics or Finite Math. Open to grades 11,12.

INTRODUCTION TO STATISTICS

Course # 3432

2nd semester

Credit: 0.5

This course focuses on important topics in statistics. Topics include statistical plots, statistical summaries of data, regression, probability, normal distributions, and sampling methods. A graphing calculator with advanced statistical commands is required.

Prerequisite: Algebra 2 / Trigonometry and department approval. Next course in sequence: Pre-Calculus. Open to grades 11,12.

FINITE MATH

Course # 3442

2nd semester

Credit: 0.5

This course focuses on topics from Algebra, Trigonometry, and Statistics with an emphasis on applications. A wide variety of problem solving techniques will be explored.

Prerequisite: Algebra 2/Trigonometry G or Algebra 2/Trigonometry and teacher recommendation. Open to grades 11 and 12.

Mathematics Department

PRE-CALCULUS

Course # 3410

Full year

Credit: 1.0

This course expands on the material studied in Algebra 2-Trigonometry. These areas of study include: real and complex numbers and functions (polynomial, exponential, logarithmic and trigonometric). Additional areas of study are conics, notions of limits, continuity, circular functions, mathematics of finance, parametric equations, and polar coordinates. It is recommended for students who are preparing to enter a technical or semi-technical profession, or planning to study Calculus. A graphing calculator with matrix capabilities is required in this course.

Prerequisite: Algebra 2-Trigonometry or Algebra 2-Trigonometry-H and departmental approval. Next course in sequence: AP Calculus or AP Statistics. Open to grades 10, 11 & 12.

PRE-CALCULUS - H

Course # 3420

Full year

Credit: 1.0

This honors course provides a more in-depth study of the topics covered in Pre-Calculus with greater emphasis of both theory and applications. Additional topics include curve fitting and physics applications. A graphing calculator with matrix capabilities is required in this course.

Prerequisite: Algebra 2-Trigonometry - H and departmental approval. Next course in sequence: Upon satisfactory completion of Pre-Calculus - H, the students is prepared for a serious course in Calculus. Open to grades 9, 10, 11 & 12.

ADVANCED PLACEMENT COMPUTER SCIENCE A

Course # 3480

Full year

Credit: 1.0

A.P. Computer Science A is intended for those students whose work in college will involve the theory of computing and data structures. Programming methodology and design, pre-defined and abstract data types, data structures (arrays, stacks, queues) and algorithms related to those data structures will be emphasized. Applications of computing, a working knowledge of hardware and software systems, as well as the ethical and social implications of computing are considered. The programming language used is JAVA. Students will need to spend laboratory time outside of class working on their projects.

Prerequisite: Introduction to JAVA and departmental approval. Open to grades 11 & 12.

ADVANCED PLACEMENT STATISTICS

Course # 3500

Full year

Credit: 1.0

Advanced Placement Statistics will introduce students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. It will emphasize sound statistical thinking rather than routine procedures. This course is intended to be equivalent to an introductory non-calculus based college course in statistics. Students will do a significant amount of reading and independent projects. A graphing calculator with advanced statistics capabilities is required in this course.

Prerequisite: Algebra 2 H or Pre-Calculus or Pre-Calculus H and departmental approval. Open to grades 10, 11 & 12.

ADVANCED PLACEMENT CALCULUS (AB)

Course # 3510

Full year

Credit: 1.0

Advanced Placement Calculus (AB) emphasizes conceptual understandings through manual and technological applications of the derivatives and integrals of algebraic, trigonometric, exponential and logarithmic functions, and relations. This course prepares the student for the AB level Advanced Placement Examination. Satisfactory performance on this examination gives the student an opportunity to qualify for college credit in calculus. A graphing calculator meeting the College Board's optimal technology expectation for the AP Calculus exam is required in this course.

Prerequisite: Pre-Calculus or Pre-Calculus - H and departmental approval. Open to grades 10, 11 & 12.

**ADVANCED PLACEMENT
CALCULUS (BC)**

Course # 3520

Full year

Credit: 1.0

Advanced Placement Calculus (BC) provides an in-depth study of the topics described in Calculus (AB), as well as two dimensional vectors, polar coordinates, parametric curves and series. This course prepares the student for the BC level Advanced Placement examination. Satisfactory performance on this examination gives the student an opportunity to qualify for college credit in calculus. A graphing calculator meeting the College Board's optimal technology expectation for the AP Calculus Exam is required in this course.

Prerequisite: Pre-Calculus or Pre-Calculus - H and departmental approval. Open to grades 10, 11 & 12.

MATH TOPICS 1 - H

Course # 3641

1st semester only

Credit: 0.5

Math Topics 1 is an independent study course which provides students advanced study in mathematics or computer science. Determined by the department, a student will be introduced to Linear Algebra, Multivariable Calculus, or Calculus-based Statistics.

Prerequisite: Departmental approval. Open to grade 12.

MATH TOPICS 2 - H

Course # 3652

2nd semester only

Credit: 0.5

Math Topics 2 is an independent study course which provides students with advanced study in mathematics or computer science. Determined by the department, a student will be introduced to Linear Algebra, Differential Equations, or Calculus-based Statistics.

Prerequisite: Departmental approval. Open to grade 12.

All courses in the Music Department fulfill the Elective Arts graduation requirement. Two fine arts credits fulfill the Illinois state public university entrance requirements in Art, Music or Foreign Language. Music performance courses are designed to not only improve the level of performance skill of the student, but also to develop a deeper understanding of culture and aesthetics.

All music performance courses include performances outside the school day as a significant part of student expectations. Lists of performances and any outside rehearsals will be provided at the beginning of the school year. Auditing of music courses (participation for no credit) is not permitted.

IMPORTANT INFORMATION FOR INCOMING FRESHMEN AND THEIR PARENTS:

The following courses are available for freshmen enrollment and do not require an audition:

Concert Orchestra (5680): violin, viola, cello and string bass players only

Concert Band (5640): flute, oboe, clarinet (all types), bassoon, saxophone (all types), trumpet/cornet, French horn, trombone, baritone horn, tuba

Percussion Ensemble (5710): all percussionists

Mixed Choir (5800): vocalists: male and female

The following courses are open to freshmen enrollment but do require an audition:

Jazz Ensemble 1 (5650) is open only to members of Concert Band, Symphonic Band, and Percussion Ensemble and requires the student to be registered for both, except for students playing piano, bass, or guitar. All students are invited to audition at the start of school in August. It is not possible to sign up for Jazz Band 1 now. The class meets as an "Early Bird" at 7:00AM, 90 days per year. (See Course Description)

Symphonic Band (5642) flute, oboe, bassoon, clarinet (all types), saxophone (all types), trumpet/cornet, French horn, trombone, baritone, tuba. Audition with Mr. Kurinsky, Room 167, 630-570-8451

The following courses are available for upperclassmen and require an audition with the instructor prior to January 16, 2009:

Women's Chorale (5810), Hinsdale Central Singers (5840), Chamber Singers (5850). audition with Mrs. Burkemper in Room 169, 630-570-8452

Symphonic Orchestra (5690): audition with Mr. Wirtz, Room 163, 630-570-8453

Jazz Ensemble 2 and 3 (5660 and 5670): auditions for these classes are held the week of January 5, 2009. See Course Description for more information. Jazz Ensemble 2 and 3 auditions are held during Jazz Ensemble 1 and 2 classes in January.

Symphonic Band (5642): audition with Mr. Kurinsky, Room 167, 630-570-8451

COURSE TITLE	Course #	Prerequisite	Audition Required	Credit	Grade Offered

Music

HONORS STUDY IN MUSIC

Students have the opportunity to qualify for honors study in music performance courses. There are several ways that you can become eligible.

Strings Players may, through auditions in September, be selected for the Honors Chamber Orchestra. This is a select ensemble of advanced string players who rehearse every other morning as an Early Bird class. Concurrent registration in Concert Orchestra or Symphony Orchestra is required.

Wind and Percussion Players may, through auditions in September, be selected for Honors Orchestra Winds and Percussion. This is a select ensemble of advanced wind and percussion players who will rehearse every other day as an Early Bird class. These players make up the Symphony Orchestra Wind and Percussion sections. Concurrent registration in Symphonic Band or Percussion Ensemble is required.

All students in the following courses will have the option for earning honors credit:

Mixed Choir (5800)
Women's Chorale (5810)
Hinsdale Central Singers (5840)
Chamber Singers (5850)
Symphony Orchestra (5690)
Concert Band (5640)
Symphonic Band (5642)
Percussion Ensemble (5710)
Jazz Ensembles 1 (5650), 2 (5660), and 3 (5670)

Each participant will be required to participate in several activities during the school year that will enhance musical experiences, and abilities. Please see each instructor for more details. To become eligible for honors credit, each candidate will be selected by audition in **September**, by the department instructors. Audition materials, and information may be obtained from the department instructors.

BAND

CONCERT BAND

Course # 5640

Full year
Credit: 1.0

Concert Band is a performance ensemble for all wind instrument players. It focuses on the development of wind instrument technique. All Freshmen wind instrument players who have not auditioned for Mr. Kurinsky sign up for Concert Band. All band students will perform with the Red Devil Marching Band, the Pep Band, and in small ensembles. The Concert Band has occasional commitments outside the school day that almost never conflict with athletic participation. Honors Credit is available for this course. Sophomore, Junior, and Senior band students may exempt out of Physical Education during first semester. Students enrolled in Concert Band may also audition for Jazz Ensemble 1 or 2, and may perform with the wind section of the Concert Orchestra. Visit www.hcbands.org or contact Mr. Kurinsky at mkurinsk@hinsdale8.org for more information.

Prerequisite: Director approval. Open to grades 9, 10, 11, and 12.
This course may be repeated each year for credit.

SYMPHONIC BAND

Course # 5642

Full year
Credit: 1.0

Symphonic Band is a performance ensemble open to all wind instrument players by audition only. It is a class for higher level development of wind instrument technique. All band students will perform with the Red Devil Marching Band, the Pep Band, and in small ensembles. The Symphonic Band has occasional commitments outside the school day that rarely conflict with athletic participation. Honors Credit is available for this course. Sophomore, Junior, and Senior band students may exempt out of Physical Education during first semester. Students enrolled in Symphonic Band may also audition for Jazz Ensemble 1 or 2, and may perform with the wind section of the Symphony Orchestra. Visit www.hcbands.org or contact Mr. Kurinsky at mkurinsk@hinsdale8.org for more information.

Prerequisite: Director approval and audition. Open to grades 9, 10, 11, and 12.
This course may be repeated each year for credit.

PERCUSSION ENSEMBLE

Course # 5710

Full year

Credit: 1.0

Percussion Ensemble is the performing ensemble for all drum and percussion players. It focuses on the development of percussion technique. Percussionists do not sign up for Concert Band or Symphonic Band. All band students will perform with the Red Devil Marching Band, the Pep Band, and in small ensembles. The Percussion Ensemble has occasional commitments outside the school day that rarely conflict with athletic participation. Honors Credit is available for this course. Sophomore, Junior, and Senior band students may exempt out of Physical Education during first semester. Students enrolled in Percussion Ensemble may also audition for Jazz Ensemble 1 or 2, and may perform with the Concert Orchestra or the Symphony Orchestra. Students may be auditioned and grouped into sections based on ability. Visit www.hcbands.org or contact Mr. Kurinsky at mkurinsk@hinsdale8.org for more information.

Prerequisite: Director approval. Open to grades 9, 10, 11, and 12. This course may be repeated each year for credit.

JAZZ ENSEMBLE 1

Course # 5650

Full year

Credit: 1.0

Jazz Ensemble 1 is the initial training ensemble for the Jazz Program at Hinsdale Central. It is open only to musicians who are enrolled in Symphonic Band, Concert Band, or Percussion Ensemble unless they play piano, bass, or guitar. (Students playing those instruments are exempt from this requirement.) Wind players in Jazz Ensemble 1 may play any wind instrument. Jazz Ensemble 1 meets as a year-long, “early-bird” class at 7:00 AM, 90 days per year. Honors credit is available for this ensemble.

Prerequisite: Director approval and audition. Open to grades 9, 10, 11 and 12. This course may be repeated for credit.

JAZZ ENSEMBLE 2

Course # 5660

Full year

Credit: 1.0

Jazz Ensemble 2 is only open to musicians playing one of the following instruments: saxophone, trumpet, trombone, piano, guitar, bass, or drum set. Open auditions for this ensemble will be held the week of January 5, 2009. For audition information, see www.hcjazz.org. Priority will be given to students who are currently members of Jazz Ensemble 1 or 2 who play the appropriate instruments. Instrumentation is limited to six saxophones (two altos, two tenors, and two baritones), four trombones, five trumpets, two guitarists, two pianists, two bassists, and three drummers. Honors credit is available for this ensemble, and the course may be repeated for credit. Jazz Ensemble 2 meets as a yearlong, “early-bird” class at 7:00 AM, 90 days per year.

(Note: Starting with the Class of 2012, enrollment in Jazz Ensemble 2 must be concurrent with Symphonic Band, Concert Band, or Percussion Ensemble.)

Prerequisite: Director approval, audition and current membership in Jazz Ensemble 1 or 2. Open to grades 10, 11, and 12. This course may be repeated for credit.

JAZZ ENSEMBLE 3

Course # 5670

Full year

Credit: 1.0

Jazz Ensemble 3 is made up of students previously involved in the Jazz program. There are no open auditions for this group – auditions will take place in the Jazz 1 and Jazz 2 classes for open spots in this ensemble. Instrumentation is limited to six saxophones (two altos, two tenors, and two baritones), four trombones, five trumpets, two guitarists, two pianists, two bassists, and three drummers. Honors credit is available for this ensemble, and the course may be repeated for credit.

Prerequisite: Director approval, audition and current membership in Jazz Ensemble 1, 2, or 3. Open to grades 10, 11, and 12. This course may be repeated for credit.

ORCHESTRA

CONCERT ORCHESTRA

Course # 5680

Full year

Credit: 1.0

This class will develop the basic techniques involved in playing a stringed instrument and perform concerts with members of the Concert Band. Music from the standard repertoire of orchestral music will be studied.

Prerequisite: Director approval. Open to grade 9. This course may be repeated for credit.

Music

SYMPHONY ORCHESTRA

Course # 5690

Full year
Credit: 1.0

A class for higher level development of string instrument techniques and the study of appropriate music. This class combines with members of the Symphonic Band to perform Music from the standard repertoire of orchestral music. Honors credit is available for this course. An audition is required **prior to January 9, 2009.**

Prerequisite: Audition & director approval. Open to grades 10, 11 & 12. This course may be repeated for credit.

CHOIR

MIXED CHOIR

Course # 5800

Full year
Credit: 1.0

Teaches and examines basic vocal techniques, practice and performance of choral music, sight singing and theory. A variety of choral music will be practiced and performed. This course may be separated by gender. Honors credit is available for this course.
Section 1 - Treble Choir Section 2 - Men's Choir

Prerequisite: None. Open to all ninth graders and to all other grade levels who have not participated in vocal music at school before.

WOMEN'S CHORALE

Course # 5810

Full year
Credit: 1.0

Level two of vocal techniques focused on the female voice. A variety of women's choral literature is practiced and performed. Advanced study of sight singing and theory. Honors credit is available for this course. An audition is required prior to January 16, 2009.

Prerequisite: Audition and director approval. Open to grades 10 and 11. This course may be repeated for credit.

HINSDALE CENTRAL SINGERS

Course # 5840

Full year
Credit: 1.0

An advanced level of vocal technique, sight singing and theory. This advanced choral group practices and performs a variety of music. Extra performances or rehearsals may be scheduled. Honors credit is available for this course. An audition is required prior to January 16, 2009.

Prerequisite: Audition and director approval. Open to grades 10, 11 and 12. This course may be repeated for credit.

CHAMBER SINGERS

Course # 5850

Full year
Credit: 1.0

An advanced group with a high level of musicianship, vocal technique, sight singing and theory skills. A large variety of musical styles will be practiced and performed. This ensemble performs frequently outside of the school day for community events. Honors credit is available for this course. An audition is required prior to January 16, 2009.

Prerequisite: Audition and director approval. Open to grades 11 and 12. This course may be repeated for credit.

MUSIC THEORY

AP MUSIC THEORY

Course # 5900

Full year
Credit: 1.0

AP Music Theory prepares music students for the Music Theory Advanced Placement Examination through the study of musical elements and techniques including notation, scales and modes, intervals, chords, non-harmonic tones, cadences, ear training, sight singing, melody, form, and composition. Success on the AP Exam can result in college credit. All prospective students must be recommended to Mr. Kurinsky by their music director or private lesson instructor.

Prerequisite: Director approval. Open to grades 10, 11 and 12.

PHYSICAL EDUCATION

KATY HEALY, DESIGN

All students must take physical education or health each semester in attendance. Four (4) credits of Physical Education/Health are required for graduation. Health is a required semester course to be taken during the 10th grade year. Students have an option of also enrolling in Physical Education during that semester for an additional 0.5 credit. A student earns 1/2 credit for each semester of passing work in Physical Education. Students who fail Physical Education must make up the credit by enrolling in an equivalent course at another approved institution. Students will not be allowed to enroll in more than one period of required Physical Education per semester. Students are expected to attend class daily, dress in the standard uniform and participate to their ability.

Physical education is the science of human movement and the courses are designed to provide instruction and insight into healthy physical activities. All Physical Education offerings are designed to promote good health, safety, fitness, awareness of the value of recreation, and an appreciation of all forms of physical expression.

Students must register for Physical Education **EACH** semester. *

<u>GRADE</u>	<u>SEMESTER 1</u>	<u>SEMESTER 2</u>
9	7113	7114

Freshman: basketball, track and field, softball, soccer, square dance, volleyball, badminton, fitness concepts, team building, football, tennis, gymnastics, swimming, wrestling and modern dance.

10/11/12 Students are to enroll in one option each semester.

*Sophomores may exercise their option of taking **Health Education and only one semester of Physical Education** by registering for the following courses: **P.E. option/Health 7502 or Health 7501/PE option.**

Sophomore, Junior and Senior: Select one activity from each semester.

Physical Education

AQUATICS

Course # 7305

1st semester

Credit: 0.5

Includes sports and activities designed for the aquatic environment. Included are the development of skills in springboard diving, analysis of the four competitive swimming strokes, as well as starts and turns. Water safety habits, basic lifeguarding skills, water aerobics, dryland exercises, and weight training specific to aquatic activity will also be introduced. Recommended for prospective triathletes and swimmers. (May be repeated.)

COMPETITIVE PHYSICAL CONDITIONING

Course # 7306

1st semester

Credit: 0.5

Rigorous physical conditioning with emphasis on running and development of cardiovascular and upper body strength. A challenging regimen to enhance stamina and endurance. Recommended for any person wishing to improve their competitive effectiveness. P.E. exemptions will not be accepted for this class. (May be repeated.)

AEROBICS

Course # 7307

1st semester

Credit: 0.5

This class introduces students to components of cardiovascular activity through aerobic movements. Students will also address the principles of muscular strength and endurance through the use of free weights and toning exercises. Core workouts, yoga and pilates are introduced as part of this class as methods for students to increase flexibility, strength and balance. (May be repeated)

PERSONAL FITNESS (FITNESS CENTER)

Course # 7308

1st semester

Credit: 0.5

Variable course content. Each student undertakes an individualized conditioning program designed to address the individual's personal fitness goals. Principles and skills relating to cardiovascular conditioning, strength, flexibility and body composition. Equipment orientation includes Stairmaster, rowing machines, stationary bikes, ellipticals, proper weight training selection and form, circuit training. Individual fitness assessment (May be repeated.)

COMPREHENSIVE WEIGHT TRAINING (BOUCHARD CENTER)

Course # 7309

1st semester

Credit: 0.5

Gain knowledge and understanding of weight training theory, advanced weight training practices, sport specific weight training techniques and proper nutritional practices. Initiate and develop weight training programs. Improve muscular strength and endurance. (May be repeated.)

LIFEGUARD/CPR/FIRST AID

Course # 7310

1st semester

Credit: 0.5

Meets American Red Cross Lifesaving Certification, Cardiopulmonary Resuscitation Certification and Standard First Aid Certification. Students must be able to swim 500 yds. non-stop to enroll. No student may use a P.E. exemptions in this class and receive Red Cross certification or recertification.

FITNESS INTEGRATED THROUGH SPORTS

Course # 7311, 7312, 7313

1st semester

Credit: 0.5

Includes sports and activities for lifelong participation. Instruction provided in basic skill, rules, strategies, and social behavior necessary to achieve competent level of participation, practice, game situations and tournament play. In addition, students will be introduced to fitness components such as cardiovascular endurance, muscular strength, muscular endurance and flexibility. Select one of the following options. Please note: **FITS 2 is designated for those who desire a competitive atmosphere.**

7311 Fits 1 (Team Concept):

Softball
Volleyball

Tennis
Basketball

Square Dance
Badminton/Pickleball

7312 Fits 2 (Competitive Option):

Sand Volleyball
Ultimate Frisbee

Football/Navy
Outdoor Hockey

Softball
Basketball

7313 Fits 3 (Individual Concept):

Tennis
Badminton
Volleyball

Archery
Aquatic Activity

Pickleball
Roller Skating

AQUATICS
Course # 7320
 2nd semester
 Credit: 0.5

Includes sports and activities designed for the aquatic environment. Included are the development of skills in springboard diving, analysis of the four competitive swimming strokes, as well as starts and turns. Water safety habits, basic lifeguarding skills, water aerobics, dryland exercises, and weight training specific to aquatic activity will also be introduced. Recommended for prospective triathletes and swimmers. (May be repeated.)

**COMPETITIVE PHYSICAL
 CONDITIONING**
Course # 7321
 2nd semester
 Credit: 0.5

Rigorous physical conditioning with emphasis on running and development of cardiovascular and upper body strength. A challenging regimen to enhance stamina and endurance. Recommended for any person wishing to improve their competitive effectiveness. P.E. exemptions will not be accepted in this class. (May be repeated.)

AEROBICS
Course # 7322
 2nd semester
 Credit: 0.5

This class introduces students to components of cardiovascular activity through aerobic movements. Students will also address the principles of muscular strength and endurance through the use of free weights and toning exercises. Core workouts, yoga and pilates are introduced as part of this class as methods for students to increase flexibility, strength and balance. (May be repeated)

**PERSONAL FITNESS (FITNESS
 CENTER)**
Course # 7323
 2nd semester
 Credit: 0.5

Variable course content. Each student undertakes an individualized conditioning program designed to address the individual's personal fitness goals. Principles and skills relating to cardiovascular conditioning, strength, flexibility and body composition. Equipment orientation includes Stairmaster, rowing machines, stationary bikes, ellipticals, proper weight training selection and form, circuit training. Individual fitness assessment (May be repeated.)

**COMPREHENSIVE WEIGHT
 TRAINING (BOUCHARD CENTER)**
Course # 7324
 2nd semester
 Credit: 0.5

Gain knowledge and understanding of weight training theory, advanced weight training practices, sport specific weight training techniques and proper nutritional practices. Initiate and develop weight training programs. Improve muscular strength and endurance. (May be repeated.)

LIFEGUARDING/CPR/FIRST AID
Course # 7325
 2nd semester
 Credit: 0.5

Meets American Red Cross Lifesaving Certification, Cardiopulmonary Resuscitation Certification and Standard First Aid Certification. Students must be able to swim 500 yds. non-stop to enroll. No student may use a P.E. exemption in this class and receive Red Cross certification or recertification.

**FITNESS INTEGRATED THROUGH
 SPORTS**
Course # 7326,7327,7328
 2nd semester
 Credit: 0.5

Includes sports and activities for lifelong participation. Instruction provided in basic skill, rules, strategies, and social behavior necessary to achieve competent level of participation, practice, game situations and tournament play. In addition, students will be introduced to fitness components such as cardiovascular endurance, muscular strength, muscular endurance and flexibility. Select one of the following options. (May be repeated.) Please note: **FITS 2 is designated for those who desire a competitive atmosphere.**

- | | | | | |
|--|------------|------------|-----------------------|------------|
| 7329 Fits 4 (Recreational Concept): | Volleyball | Ping Pong | Bowling* | Pickleball |
| | Badminton | Softball | Sand Volleyball | |
| 7327 Fits 2 (Competitive Option): | Volleyball | Basketball | Outdoor Hockey (Feb.) | |
| | Pickleball | Team Games | Softball | |

* Supply fee of \$30.00 is required for this off-campus activity. Fee is collected at time of participation.

ADAPTIVE PHYSICAL EDUCATION
Course # 7080
 Full year
 Credit: 1.0

This self-contained section of Adaptive Physical Education is offered to students who are restricted and prevented from activity in a regular program. This could include ambulatory cases, congenital defects, and handicapped students. Each student in the section will be given a separate (IEP) individual education program which has earned approval from a physician, school nurse, and parent(s) as appropriate.

Prerequisite: Departmental and/or Educational Services departmental approval. Open to grades 9, 10, 11 and 12.

Physical Education

EARLY BIRD P.E.

Course # 7373, 7374

1st or 2nd semester

Credit: 0.5

This physical education class is open to all sophomores, juniors, and seniors who wish to add an extra period to their day, giving them greater flexibility to select other specialized courses. The course runs from 7:00 a.m. to 7:50 a.m. daily. Students must provide their own transportation.

PHYSICAL EDUCATION EXEMPTION

Students interested in exempting out of PE during their 2009-2010 athletic or marching band season in order to take a study hall need to be aware of the following:

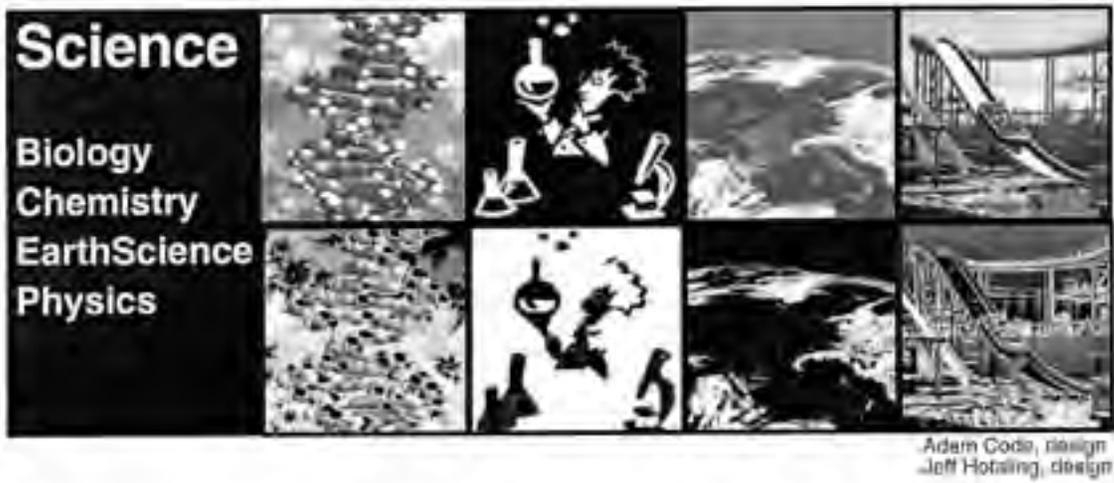

1. PE Exemption is available for **Junior** and **Senior** athletes and **Sophomore, Junior, and Senior** Marching Band members only.
 - a. Students must be enrolled a full seven period schedule.
 - b. Students must NOT have a study hall in their schedule.
2. In order to be eligible for PE Exemption, a student must fill out both sides of the request form with all required signatures and turn it in to his/her counselor at the individualized registration appointment in January or February. Forms will be distributed during the January Homeroom.
3. These course codes will be used for PE Exemptions that fall in the following marking periods:

<i>Code</i>	<i>1st</i>	<i>2nd</i>	<i>3rd</i>	<i>4th</i>	<i>Girls' Sports</i>	<i>Boys' Sports</i>	<i>Activity</i>
07218*	Sport	PE			Golf Tennis	Golf	
07219**	Sport	Sport			Volleyball Cross Country Swimming FB Cheerleading FB Poms	Football Soccer Cross Country	Marching Band
07220*+	PE	Sport	Sport	PE	Bowling Basketball Gymnastics BB Cheerleading BB Poms	Bowling Wrestling Basketball Swimming	
07221*			PE then Sport	Sport	Track Badminton Water Polo Soccer Softball Lacrosse	Track Gymnastics Tennis Water Polo Baseball Volleyball Lacrosse	

* These PE Exemption students must still register for a PE class during the semester of their exemption. They are not guaranteed the class of their choice. This is due to space limitations caused by exempted students flowing in and out of PE classes throughout the year.

** These PE Exemption students will not register for a PE class for 1st Semester. They need to select a PE option for 2nd Semester only.

+ Students re-entering PE once their season is over may be put into Personal Fitness if space is not open in the class they vacated.

Two credits in science are required for graduation. Each credit must be earned by completing both semesters of a given course (one credit can be earned through the semester course offerings). All students should have experience in both the biological and physical/earth sciences. Two years of the same type of science, if this excludes other areas of science, is not recommended.

Courses in science are designed to develop an understanding of the natural and physical world, to stress the importance of major scientific principles, to develop reasonable competence in the use of the methods of science and to help recognize and prepare for the role science plays in our evolving technological world. The many course offerings and sequences in science have been carefully planned to meet the needs of each student, whether he/she considers science as a future career, as an interesting avocation or as a necessity for all citizens in our technological society.

Courses are taught in classroom-laboratory situations which provide opportunities for individual and group instruction, investigation and experimentation.

The following are possible four-year course sequences:

<u>Seq.</u>	<u>Grade 9</u>	<u>Grade 10</u>	<u>Grade 11</u>	<u>Grade 12</u>
1.	Earth Science - G or Biology - G	Biology - G Earth Science - G	Chemistry/Physics	Chemistry Themed or Physics Themed
2.	Biology or Earth Science	Earth Science or Biology	Chemistry Themed or Chemistry Traditional	Physics Themed or Physics Traditional
3.	Biology	Chemistry Themed or Chemistry Traditional	Physics Themed or Physics Traditional	Earth Science semester courses or Earth Science Honors or select Advanced Placement courses
4.	Biology	Chemistry Themed or Chemistry Traditional	Earth Science semester courses* or Earth Science	Physics Themed Physics Traditional
5.	Earth Science or Earth Science - H	Biology or Biology - H	Chemistry Traditional or Chemistry - H	Physics Traditional, Physics - H or Advanced Placement courses
6.	Biology Honors	Chemistry Honors	Physics Honors	Advanced Placement courses

*The following semester courses are available to upperclassmen:

- Meteorology/Astronomy (**student must not have taken Earth Science**)
- Geology/Oceanography (**student must not have taken Earth Science**)

The aforementioned sequences by no means represent all sequences available to students. The possibilities are numerous. Possibly a more useful way to view science courses is by the year offered. The following table serves that purpose.

Science Department

COURSE TITLE	Course #	Prerequisite	Credit	Grade Offered
Fundamentals of Physical Science	3680	Yes	1.0	9-12
Fundamentals of Biological Science	3690	Yes	1.0	9-12
Biology - General	3700	Yes	1.0	9-12
Biology	3710	Yes	1.0	9-12
Biology - Honors	3720	Yes	1.0	9-12
Advanced Placement Biology	3730	Yes	1.0	11-12
Advanced Placement Environmental Science	3770	Yes	1.0	11-12
Earth Science - General	3740	Yes	1.0	9-10
Earth Science	3750	Yes	1.0	9-10
Earth Science - Honors	3760	Yes	1.0	9-12
Meteorology/Astronomy	3771	Yes	0.5	11-12
Geology/Oceanography	3781	Yes	0.5	11-12
Chemistry/Physics I	3800	Yes	1.0	11-12
Chemistry - Themed	3810	Yes	1.0	10-12
Chemistry - Traditional	3820	Yes	1.0	10-12
Chemistry - Honors	3830	Yes	1.0	10-12
Advanced Placement Chemistry	3840	Yes	1.0	11-12
Physics - Themed	3900	Yes	1.0	11-12
Physics - Traditional	3920	Yes	1.0	10-12
Physics - Honors	3930	Yes	1.0	10-12
Advanced Placement Physics B	3950	Yes	1.0	11-12
Advanced Placement Physics C	3960	Yes	1.0	11-12

FUNDAMENTALS OF PHYSICAL SCIENCE

Course # 3680

Full year

Credit: 1.0

This course focuses on the basic principles of the physical science. Students are directly involved in the development of each concept presented. The goal is to sharpen skills of observation and inference. Fundamentals of Physical Science is a laboratory course.

Prerequisite: Successful completion of Biology General and Earth Science General. Enrollment in this course is by teacher recommendation only.

FUNDAMENTALS OF BIOLOGICAL SCIENCE

Course # 3690

Full year

Credit: 1.0

This course investigates the basic structure, activities and relationships among living things. Class activities include laboratory investigations and class discussions.

Prerequisite: Must be recommended cooperatively by Educational Services, Science and Guidance departments. Fundamentals of Biological Science 3690 is being reviewed and will NOT be offered in 2009-2010.

BIOLOGY - GENERAL

Course # 3700

Full year

Credit: 1.0

This course is designed to acquaint students with properties of living organisms. The course content includes such topics as the relationship between structure and function in living organisms as it relates to the human body, evolution, genetics, and many aspects of ecology. The approach of this course is to provide an introduction to major biological concepts with the use of an easily readable textbook. Biology - G is a laboratory course.

Prerequisite: Incoming freshmen eligibility is based upon test scores and recommendation of 8th grade instructor. Grades 10, 11 & 12 must have departmental recommendation. Open to grades 9, 10, 11 & 12.

BIOLOGY

Course # 3710

Full year

Credit: 1.0

This course is designed to acquaint students with properties of living organisms. This course's content includes such topics as the relationship between the structure and function in living organisms as it relates to the human body, evolution, genetics, and varied ecological principals. These areas are investigated in greater depth and application than Biology-General. The impact that humans have on the global environment is studied during the end of this course. Methods of scientific inquiry are employed in classroom instruction. Good ability in reading comprehension is **ESSENTIAL** for success in this course. Biology - R is a laboratory course.

Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Grades 10, 11 & 12 must have departmental recommendation. Open to grades 9, 10, 11 & 12.

BIOLOGY - HONORS

Course # 3720

Full year

Credit: 1.0

The course follows a molecular approach in the following content areas: cellular biology, evolution, genetics and its applications, and aspects of human biology. Compared to Biology 3710, the content areas are covered in greater depth and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. This course utilizes an inquiry approach in which students incorporate factual information into a framework of reflection and analysis. Biology - H is a laboratory course.

Prerequisite: High ability in science, mathematics and reading. Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Grades 10, 11 & 12 must have departmental recommendation. Open to grades 9, 10, 11 & 12.

ADVANCED PLACEMENT BIOLOGY

Course # 3730

Full year

Credit: 1.0

This course follows the College Board's Advanced Placement curriculum and as such is extremely rigorous and fast paced. This course is comparable to an introductory college level course. College level materials are used. Advanced Placement Biology is a laboratory course.

Prerequisite: Three years of science, including a year of Biology and a year of Chemistry and departmental recommendation. Concurrent enrollment in third year of science and AP Biology is permitted. Open to grades 11 & 12.

ADVANCED PLACEMENT ENVIRONMENTAL SCIENCE

Course # 3770

Full year

Credit: 1.0

This course follows the College Board's Advanced Placement curriculum and as such is extremely rigorous and fast paced. This course will provide students with the scientific principles, concepts and methods required to understand the interrelationships of the natural world, to identify and analyze environmental problems, and to examine alternative solutions for resolving and/or preventing them. Field trips are an integral part of this course and are therefore mandatory. This course is comparable to a one-semester introductory college-level course; college-level materials are used. Advanced Placement Environmental Science is a laboratory course.

Prerequisite: Three years of science and departmental recommendation. Concurrent enrollment in a third year of science and AP Environmental Science is permitted. Open to grades 11 & 12.

EARTH SCIENCE - GENERAL

Course # 3740

Full year

Credit: 1.0

The core material for this course is similar to that of 3750 Earth Science. The approach of the text used in this course is understandable, practical and, most important, it aids students who need an introduction to major concepts in Earth Science in an easy to read form. Earth Science - G is a laboratory course.

Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Grades 10, 11 & 12 must have departmental recommendation. Open to grades 9 & 10.

Science Department

EARTH SCIENCE

Course # 3750

Full year

Credit: 1.0

This course utilizes an inquiry approach in which students take factual information and use it for analysis. The main units of study are: geology, oceanography, meteorology and astronomy. Good ability in reading comprehension and average ability in math are **ESSENTIAL** for success in this program. Earth Science is a laboratory course.

Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Grade 10 & 11 must have departmental recommendation. Open to grades 9 - 11.

EARTH SCIENCE - HONORS

Course # 3760

Full year

Credit: 1.0

This course uses a college-level textbook and covers major topics in meteorology, astronomy, and geology. Compared to Earth Science 3750, the pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. The approach of the course involves traditional learning, labs, and tests paired with cooperative group work, presentations, and written projects. Earth Science - H is a laboratory course.

Prerequisite: High ability in science, mathematics and reading. Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Grades 10, 11 & 12 must have departmental recommendation. Open to grades

METEOROLOGY AND ASTRONOMY

Course # 3771

1st or 2nd semester

Credit: 0.5

Meteorology is the study of the mechanics of the atmosphere, weather and climatic patterns. Astronomy is concerned with the celestial bodies that comprise the known physical universe. The astronomy portion of this course DOES NOT emphasize astrophysics. This course includes teamwork to help develop problem solving skills. Good reading skills and comprehension are required. Meteorology and Astronomy is a laboratory course.

Prerequisite: At least one year of high school science, and departmental recommendation. This course is NOT open to anyone who has already taken Earth Science. Open to grades 11 & 12.

GEOLOGY AND OCEANOGRAPHY

Course # 3781

1st or 2nd semester

Credit: 0.5

This course examines the physical processes that shape and change the earth's crust. The physical, chemical, geological and biological aspects of the ocean are explored with equal time devoted to each aspect. This course includes teamwork to help develop problem solving skills. Good reading skills and comprehension are required. Geology and Oceanography is a laboratory course.

Prerequisite: At least one year of high school science, and departmental recommendation. This course is NOT open to anyone who has already taken Earth Science. Open to grades 11 & 12.

CHEMISTRY/PHYSICS I

Course # 3800

Full year

Credit: 1.0

This course is designed for those students needing additional chemistry and physics background before enrollment in a full-year course. Approximately one semester each will be devoted to topics in chemistry, such as atomic structure and gases, and topics in physics, such as motion and waves. This lab oriented course is taught at a pace that allows students to focus on chemistry and physics content development as well as study skills that could prepare students for a full-year chemistry or physics course. This is a laboratory course.

Prerequisite: Successful completion of Algebra and departmental recommendation. This course is not open to students who have taken Chemistry or Physics. Open to grades 11 & 12.

CHEMISTRY-Themed**Course # 3810**

Full year

Credit: 1.0

This course is an issue-oriented laboratory course. Traditional chemistry concepts such as stoichiometry, acids and bases, and behavior of gases are taught through the study of special topics including: nuclear chemistry, petroleum, water, and air. This course includes teamwork to help develop problem-solving skills and an understanding of the relevance and concepts of chemistry in everyday living. Good ability in reading comprehension and average ability in math are essential for success in this program. This course has a field-based lab requirement. This is a laboratory course and it does not meet the prerequisite for A.P. Chemistry.

Prerequisite: Successful completion of Algebra 1 and departmental recommendation. Open to grades 10, 11 & 12.

CHEMISTRY-Traditional**Course # 3820**

Full year

Credit: 1.0

This is a traditional high school chemistry course. Traditional chemistry concepts such as stoichiometry, acids and bases, behavior of gases and equilibrium are taught as students independently develop understanding through participation in classroom lecture, assignments, activities and labs. Good ability in reading comprehension and average ability in math are essential for success in this program. This is a laboratory course and it meets the prerequisite for A.P. Chemistry.

Prerequisite: Successful completion of Algebra 1 and departmental recommendation. Open to grades 10, 11 & 12.

CHEMISTRY - HONORS**Course # 3830**

Full year

Credit: 1.0

The core material for this course is similar to that of Chemistry-Traditional and follows a similar sequence. The pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. Chemistry - Honors is a laboratory course. This course meets the pre-requisite for A.P. Chemistry.

Prerequisite: High ability in science, mathematics and reading and departmental recommendation. Open to grades 10, 11 & 12.

ADVANCED PLACEMENT**CHEMISTRY****Course # 3840**

Full year

Credit: 1.0

This course follows the College Board's Advanced Placement curriculum and as such is extremely rigorous and fast paced. Students are required to do significant amounts of work outside of class. This course is comparable to an introductory college level chemistry course. College level materials are used. Advanced Placement Chemistry is a laboratory course.

Prerequisite: Three years of science, including a year of Chemistry (Traditional or Honors) and a year of Physics (Traditional or Honors) and departmental recommendation. Concurrent enrollment in a third year of science and AP Chemistry is permitted. Open to grades 11 & 12.

PHYSICS-Themed**Course # 3900**

Full year

Credit: 1.0

This is a theme-directed laboratory course. Topics include motion, forces, energy, waves, sound, optics, electricity and magnetism and are taught in a directed approach with frequent assessment through participation in classroom lecture, assignments, activities, projects, and labs. **This course uses an electronic textbook and requires internet access.** This course is appropriate for students with average math ability. This is a laboratory course and it does not meet the prerequisite for A.P. Physics courses.

Prerequisite: Successful completion of Algebra I, concurrent enrollment in Algebra II/Trig, and departmental recommendation. Open to grades 11 & 12.

PHYSICS-Traditional**(Course # 3920)**

Full year

Credit: 1.0

This is a traditional high school physics laboratory course. Topics such as motion, forces, momentum, energy, waves, sound, light, optics, electricity, and magnetism are taught as students independently develop understanding with less frequent assessment through participation in classroom lecture, assignments, activities, projects, and labs. This course is appropriate for students with average math ability. This is a laboratory course and meets the prerequisite for A.P. Physics courses.

Prerequisites: Successful completion of Algebra I, concurrent enrollment in Algebra II/Trig, and departmental recommendation. Open to grades 10, 11 & 12.

Science Department

PHYSICS - HONORS

Course # 3930

Full year

Credit: 1.0

This course uses a college-level textbook. Compared to Physics-Traditional, the pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. Physics Honors is extremely math intensive at the Algebra/Trig level with an emphasis on symbolic manipulation of variables. This course meets the prerequisite for AP Physics. Physics-H is a laboratory course.

Prerequisites: Successful completion of Trigonometry and departmental recommendation that will be based upon high level ability in science, mathematics and reading. Open to grades 10, 11 & 12.

ADVANCED PLACEMENT PHYSICS B

Course # 3950

Full year

Credit: 1.0

This course follows the College Board's Advanced Placement curriculum and as such is extremely rigorous and fast paced. This course follows the Advanced Placement Physics B format, so approximately one-third of the year is devoted to mechanics, one-third to classical electricity and magnetism, and the remainder to light/optics/nuclear. Algebra is used in problem solving and derivations. This course, which uses college level materials, is comparable to an introductory college physics course for non-engineering majors. Advanced Placement Physics is a laboratory course.

Prerequisite: Departmental recommendation and three years of science, including years of Chemistry and Physics (Traditional or Honors). Concurrent enrollment in a third year of science and AP Physics is permitted. Open to grades 11 & 12.

ADVANCED PLACEMENT PHYSICS C

Course # 3960

Full year

Credit: 1.0

This course follows the College Board's Advanced Placement curriculum and as such is extremely rigorous and fast paced. This course follows the Advanced Placement Physics C format so approximately one-half of the year is devoted to mechanics and the other to classical electricity and magnetism. Calculus is used in problem solving and derivations with usage increasing as the course progresses. This course, which uses college level materials, is comparable to an introductory college physics course for engineering majors. Advanced Placement Physics is a laboratory course.

Prerequisite: Departmental recommendation and three years of science, including years of Chemistry and Physics (Honors), as well as completion of Calculus AB or BC, or concurrent enrollment. Concurrent enrollment in a third year of science and AP Physics is permitted. Open to grades 11 & 12.

SOCIAL STUDIES

VISION STATEMENT

Americans consume more information than ever before and communicate it with technologies unavailable just decades ago. Such changes provide social studies educators and their students with unexplored resources and powerful new tools. We believe that in this environment students must be able to analyze diverse information, discern multiple perspectives, employ a variety of approaches, and synthesize these into their own meaningful view of the past and present. Our nation, struggling to find a common ground of shared values, also finds challenges in the information revolution. Yet, we believe that with historical memory and an appreciation and understanding of our social connections, students will act as informed and responsible citizens.

To view sample packets for each social studies course, please visit our department page on the Hinsdale Central website and use the password, socialstudies.

MISSION STATEMENT

The Hinsdale Central Social Studies Department strives to be respected by all school constituencies for its ability to inspire and direct the personal, intellectual, and civic development of its students. The department emphasizes the process of learning, whereby students critically examine issues, evaluate multiple points-of-view, and synthesize perspectives from a variety of disciplines, resulting in the ability to solve problems and make informed decisions. The department seeks to promote an understanding of diverse cultures, values, and systems; from this, students will gain awareness of their own values, as well as those of others. The tolerance and diversity that result from this training are balanced by a commitment to exploring and building common values such as democratic participation and freedom of expression.

It is a department that is self-directed, collegial, with high expectations of its students and of itself. The department seeks to foster a love of learning through enthusiasm for the social studies disciplines, use of a variety of instructional strategies, and the dynamic of individual personalities committed to a set of shared goals.

Two (2) credits in Social Studies are required for graduation. One of these credits must be U.S. History, which also satisfies the state requirement for an “Americanism” unit. This credit must be earned by completing both semesters of U.S. History, American Studies or Advanced Placement U.S. History. The second credit must be earned during the freshman year by taking either World Cultures or World History - H.

Freshman Program: All freshmen must take either World Cultures or World History Honors. Students must satisfy this requirement by earning credit in both semester one and semester two of the course in which they enroll.

Sophomore Program: If a student has failed either one or both semesters of his/her freshman course, he/she must make up the failed credit. Sophomore electives include Global Issues, Asian Studies, Russian Studies, Western Civilization and AP European History.

Junior Program: American Studies, U.S. History or AP U.S. History are full year courses. One is required by the State of Illinois for graduation. See electives open to juniors.

Senior Program: There are no required courses at this level. See electives open to seniors.

WORLD CULTURES

Course # 2140

Full year

Credit: 1.0

World Cultures explores the geographic, economic, historic, cultural and current issues pertaining to the world's major civilizations. A variety of activities and assessments will be used to foster the acquisition of not only content knowledge, but also critical thinking skills appropriate to the social studies.

Prerequisite: None. Open to grade 9.

Note: Students may not take World Cultures and World History Honors.

WORLD HISTORY - H

Course # 2220

Full year

Credit: 1.0

This course surveys broadly, chronologically and topically, the chief features of various civilizations, culture, nations and major concepts from ancient to modern times. The historical development of Eastern and Western civilizations are explored. Core material is organized around a textbook; however, extensive supplemental reading is required. Students will be challenged with a variety of assessments including tests, papers, speeches, debates, presentations and cooperative learning activities.

Prerequisite: High standardized test scores and the recommendation of the 8th grade social studies teacher. Open to grade 9.

Note: Students may not take World History Honors and World Cultures.

WESTERN CIVILIZATION

Course # 2261

1st or 2nd semester

Credit: 0.5

Western Civilization is a survey of the history of Western Civilization beginning with the influences of Greece and Rome and ending in the early Twentieth Century. Students will explore the historical trends, events, and ideas that have come to shape society today. This course is designed to accommodate those students not taking AP European History and/or World History Honors.

Prerequisite: None. Open to grades 10, 11 & 12.

Note: Students may not take Western Civilization and Advanced Placement European History.

GLOBAL ISSUES

Course # 2231

1st or 2nd semester

Credit: 0.5

Global Issues examines several major contemporary political, social, and diplomatic dilemmas of the 21st century. After tracing the historical roots of contemporary issues, students will analyze and evaluate each issue from a variety of perspectives. Possible topics include the development of nuclear weapons, human rights and genocide, democracy and dissent, the future of the Middle East, the “war on terror,” and U.S. foreign policy since Vietnam. Active student participation is expected as the class revolves around in-class discussions, informal debates, oral arguments, and persuasive essays.

Prerequisite: None. Open to grades 10, 11 & 12.

EAST ASIAN STUDIES

Course # 2241

1st or 2nd semester

Credit: 0.5

Asian Studies will examine the history and culture of China, Japan and Korea. Possible topics of study include the Samurai and code of Bushido, the emergence of Japan as a colonial power, the Rape of Nanking, the Korean War, the development of nuclear weapons by North Korea, and the emergence of China as a 21st century global superpower. The course is project, writing, and discussion oriented complimented with a field trip and experiential learning. Students will be challenged to avoid ethnocentrism and to understand these civilizations from the perspective of the people who came from them.

Prerequisite: None. Open to grades 10, 11 & 12.

RUSSIAN STUDIES

Course # 2251

1st or 2nd semester

Credit: 0.5

Russian Studies will examine the history, culture, geography, and political ideology of Russia and the former Soviet Union. The course places special emphasis on the Romanov Dynasty, communist rule in the former Soviet Union, and contemporary affairs, including Russia’s role on the world stage. This class offers a unique opportunity to focus one’s studies on a specific and highly relevant part of the world. In addition, Russian Studies places special emphasis on writing in the social studies context.

Prerequisite: None. Open to grades 10, 11 & 12.

AFRICAN AMERICAN HISTORY

Course # 2240

1st or 2nd semester

Credit: 0.5

African American History focuses on the unique contributions that slaves from Africa, and their descendents, have made towards the cultural and historical legacy of our nation. Topics of study will include the changing legal and social definitions of race in America, the efforts of African Americans to resist servitude, emancipation and its aftermath, the Harlem Renaissance, the Civil Rights movements, and contemporary issues facing African Americans. Students will examine historical sources, with special focus on the art and music created by African Americans. Assessments will include an oral history project, debates, creative projects, essays and exams.

Prerequisite: None. Open to grades 10, 11 & 12.

ADVANCED PLACEMENT EUROPEAN HISTORY

Course # 2440

Full year

Credit: 1.0

Advanced Placement European History traces the political, social, economic, intellectual, and cultural development of European Civilization from the Renaissance to the present. A wide variety of teaching methods are used including discussion, debate, role-play, simulations and trials. Students will learn to use and evaluate primary sources, write critical essays, and analyze historical interpretations. This course prepares the student for the Advanced Placement European History examination.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

Note: Students may not take Advanced Placement European History and Western Civilization.

AMERICAN STUDIES

Course # 1550

Full year

Credit: 2.0 (one credit each of English and American History)

American Studies surveys America’s past through the use of non-fiction texts, novels, films, visual arts, music, news sources, and primary source documents. The curriculum integrates history and literature by examining American texts through rhetoric, analysis, thematic connection, and inquiry. Students will find a challenging educational environment containing a variety of methodologies including current event discussions, media presentations and field trips. Teachers plan, instruct, and evaluate student work together. The course meets for two back-to-back periods.

Prerequisite: None. Credit in this course fulfills the U.S. History requirement. Open to grade 11.

Note: Students may not take American Studies and U.S. History or Advanced Placement U.S. History.

Social Studies Department

U.S. HISTORY

Course # 2310

Full year

Credit: 1.0

U.S. History is a survey which covers Native American cultures through European colonization, founding of the new Republic and Constitution, includes the Civil War, and concludes with modern times. Units survey chronologically and topically the major events, personalities and issues which have played a part in the evolution of the American democratic republic.

Prerequisite: None. Required by State Law for graduation. Open to grade 11.

Note: Students may not take U.S. History and American Studies or Advanced Placement U.S. History.

ADVANCED PLACEMENT U.S. HISTORY

Course # 2320

Full year

Credit: 1.0

Advanced Placement United States History is a survey course that is meant to replicate the academic rigor of a two semester college experience in a year. This class requires students to engage in extensive reading of primary sources and historical essays. Focus will be placed on the development of college level reading and writing skills. Key events and major themes such as American diversity, economic transformations and politics and citizenship will be examined in studying the nation's past. This course prepares the student for the Advanced Placement United States History examination.

Prerequisite: Departmental approval. Credit in this course fulfills the U.S. History requirement. Open to grade 11.

Note: Students may not take Advanced Placement U.S. History and American Studies or U.S. History.

ECONOMICS

Course # 2331

1st or 2nd semester

Credit: 0.5

Economics investigates the principles that drive decision-makers, both consumers and producers, in our global marketplace. Students specifically examine the major components of the U.S. economic system; such as, opportunity costs, trade-offs, production and consumption practices, money and banking, savings and investment, business management and labor, business cycles, and economic relationships between nations. The study of Economics helps prepare students to make rational economic choices both in their own lives and in their participation in policy decisions as citizens of a city, state, nation, and the world. Learning is enhanced through current events, economic simulations, and class activities. **Successful completion of this course fulfills the District's Consumer Education requirement for graduation.**

Prerequisite: None. Open to grades 11 & 12.

Note: Students may not take Economics and Advanced Placement Microeconomics.

ADVANCED PLACEMENT MICROECONOMICS

Course # 2341

1st or 2nd semester

Credit: 0.5

Advanced Placement Microeconomics provides students with a thorough understanding of the decision making process for individuals and firms in the marketplace. It places primary emphasis on the operations of the product and factor markets along with the government's role in promoting efficiency and equity in various market structures. The course is conducted in a lecture/seminar manner supported by daily readings, practice problems, and student activities. The course prepares the student for the Advanced Placement exam in Microeconomics exam administered in May. **Successful completion of this course fulfills the District's Consumer Education requirement for graduation.**

Prerequisite: Departmental Approval. Open to grades 11 & 12.

Note: Students may not take Advanced Placement Microeconomics and Economics.

CONSTITUTIONAL LAW

Course # 2381

1st or 2nd semester

Credit: 0.5

Constitutional Law is an introductory legal course which investigates many topics, including criminal law, trial rules, court systems, juvenile law, discrimination, and search and seizure law. In addition to using contemporary legal cases, a wide variety of teaching methods are used, including mock trial hearings, mock jury simulations, and videos. The primary learning tool in Constitutional Law is class discussion. Additionally, an alternative final exam is available for those students who would prefer a project.

Prerequisite: None. Open to grades 11 & 12.

**ADVANCED PLACEMENT
UNITED STATES GOVERNMENT
AND POLITICS**

Course # 2361

1st or 2nd semester

Credit: 0.5

AP United States Government and Politics is an advanced placement course designed to give students both theoretical and realistic perspectives on politics and government in the United States. Its focus is on the interconnectedness between the various institutions, opinions and policies that make up the national public system. Student political involvement is emphasized. This class prepares students for the Advanced Placement United States Government and Politics examination.

Prerequisite: Departmental approval. Concurrent enrollment in U.S. History or previous completion of U.S. History during the regular school year. Open to grades 11 & 12.

SOCIOLOGY

Course # 2371

1st or 2nd semester

Credit: 0.5

Sociology is the study of man's social behavior. The course increases the student's awareness of social pressures that affect one's own behavior and the behavior of others. Typical activities such as discussions, experiments, student planned projects and a wide variety of films and videotapes enable the student to apply knowledge gained in the course to his or her own life.

Prerequisite: None. Open to grades 11 & 12.

PHILOSOPHY AND ETHICS

Course # 2391

1st or 2nd semester

Credit: 0.5

Philosophy and Ethics will offer interested and intellectually curious students the opportunity to reflect on fundamental questions related to the human condition, such as the basis of knowledge, ethical theories and issues, artificial intelligence, free will versus determinism, rational proofs for the existence of God, and the meaning of evil and suffering. The goal of the course will not be so much to cover a particular body of philosophers, but to raise important issues that will spur students to further inquiry, study, and application in their own lives. Much of the class will involve reading, discussion, and writing. Students will be expected to read carefully, write critically, and participate in class discussions.

Prerequisite: None. Open to grades 11 & 12.

PSYCHOLOGY

Course # 2431

1st or 2nd semester

Credit: 0.5

Psychology focuses on the study of human behavior from many perspectives. Audio-visual materials, experiments, projects and case studies are used to understand the human experience. This class is heavily discussion based. In addition, much independent coursework is used to investigate topics such as development, the brain, altered states of consciousness, learning, personality and abnormal behavior.

Prerequisite: None. Open to grades 11 & 12.

Note: Students may not take Psychology and Advanced Placement Psychology.

**ADVANCED PLACEMENT
PSYCHOLOGY**

Course # 2430

Full year

Credit: 1.0

AP Psychology explores why human beings are the way that they are. This course traces the emergence of scientific psychology in the nineteenth century from its roots in philosophy and physiology to present day practices. The development of the major "schools" of psychology and showing how they differed in subject matter and the methods of study are covered. This historical introduction helps students gain an understanding of the principal twentieth century approaches to psychology: behavioral, biological, cognitive, humanistic and psychodynamic. This class prepares students for the Advanced Placement Psychology examination.

Prerequisite: Departmental approval. Open to grades 11 & 12.

Note: Students may not take Advanced Placement Psychology and Psychology.

Nick Gawriluk, design
Brendan Husarik, design

Students eligible for special education services as specified by an Individualized Education Program (IEP) receive specialized instruction and services through one or more of the following approaches:

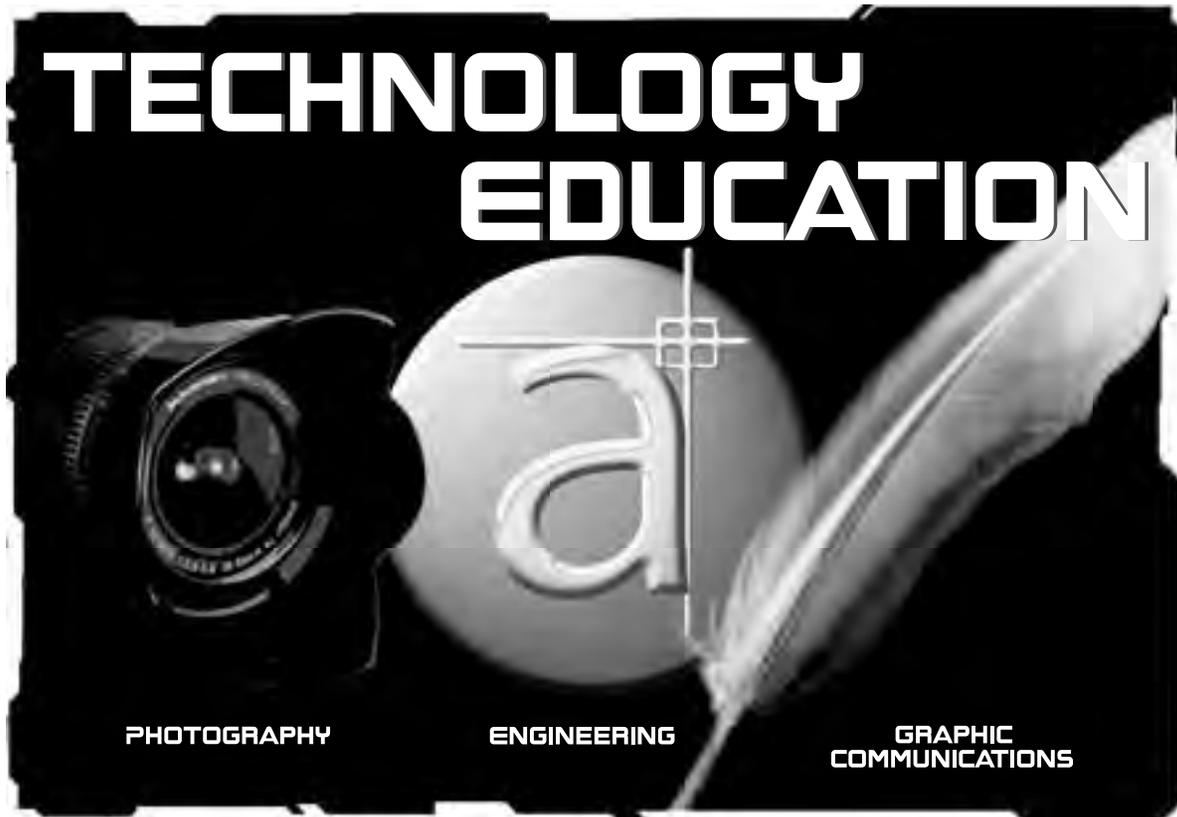

- individualized academic accommodations and/or modifications within regular education classrooms,
- structured assistance within regular education classrooms,
- structured assistance outside the regular class,
- related services, and
- direct instruction in specialized course offerings.

The following specialized classes taught by certified special education teachers may be implemented in the 2009-2010 school year. **Course enrollment is determined by IEP recommendation.** Courses meet HCHS graduation requirements.

COURSE TITLE	Course #	Credit	Grade Offered
English	1810/1820/1830/1840	1.0	9-12
* Cooperative Work Training	1931/1932	.5/sem.	10-12
* Prevocational Supervised Job Training	1941/1942	.5/sem.	9-12
Resource	1950	NC	11-12

Learning Strategies 2	1961/1962	.25/sem.	12
** Daily Living Skills English	2000	1.0	9-12
** Daily Living Skills Math	2030	1.0	9-12
Adult Opportunities	2930	NC	Post 12

* May be taken more than once for credit (maximum 2.0 credits).

** May be taken more than once for credit (maximum 4.0 credits).

The Technology Education Department offers an elective course of study to all students at Hinsdale Central. Technology Education courses help students meet the elective arts requirement. Our program of course offerings focuses on a variety of technologies that develop skills in graphic communication and design. Several courses are available to students who wish to explore the educational and career opportunities in Architecture, Engineering, Graphic Communications and Photography.

The primary instructional mode in the department is laboratory-oriented student projects and exercises. A wide range of instructional techniques and technologies is used in the classroom.

Articulated credits at College of DuPage are available to Hinsdale Central students who complete certain courses at Hinsdale Central with at least a grade of B and who upon graduation, attend C.O.D. The list of approved courses with articulated credit at College of DuPage is as follows:

- Basic Photography
- Color Photography

Each class has a lab fee charged to the student to cover the cost of materials used by the students for project work.

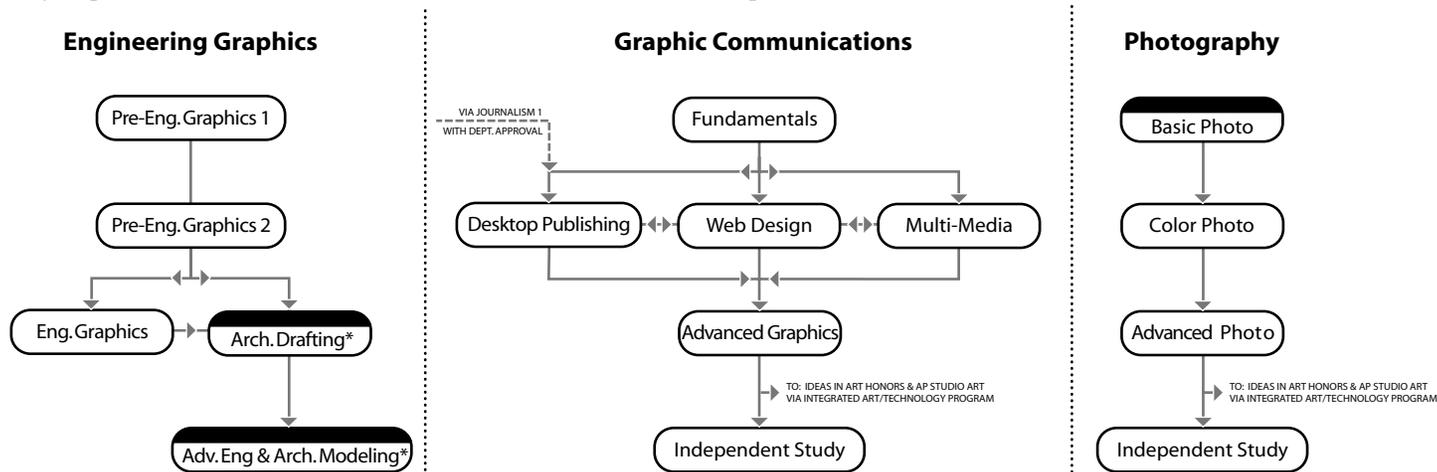

Technology Education

COURSE TITLE	Course #	Prerequisite	Credit	Grade Offered
Pre-Engineering Graphics 1	6601	No	0.5	9-12
Pre-Engineering Graphics 2	6611	Yes	0.5	9-12
Engineering Graphics	6620	Yes	1.0	10-12

Shown below are possible course selection sequences in the Engineering Graphics Program as students enter each grade.

	9th Grade	10th Grade	11th Grade	12th Grade
1st Year	Pre-Engineering Gr 1	Pre-Engineering Gr 1	Pre-Engineering Gr 1	Pre-Engineering Gr 1
	Pre-Engineering Gr 2	Pre-Engineering Gr 2	Pre-Engineering Gr 2	Pre-Engineering Gr 2
2nd Year	Engineering Graphics	Engineering Graphics and/or Architectural Drafting	Engineering Graphics and/or Architectural Drafting	
3rd Year	Architectural Drafting	Architectural Drafting and/or Advanced Engineering and Architectural Modeling		
4th Year	Advanced Engineering and Architectural Modeling			

Shown below are course sequences for the Graphic Communications Program. Students are encouraged to take entry level courses as early as possible to allow for further courses as need or interest develops.

* May be taken simultaneously with department approval.

Technology Education Programs Program Course Sequences

ENGINEERING GRAPHICS PROGRAM

NOTE: Software titles currently used in our Engineering Graphics and Architecture courses include: AutoCAD 2008, Inventor Professional 2008, Revit Architecture, and 3D Studio Max..

PRE-ENGINEERING GRAPHICS 1

Course # 6601

1st or 2nd semester

Credit: 0.5

This course introduces the student to the fundamentals of mechanical drafting while using AutoCAD software in our CAD Lab. The student will be taught many AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. A few of the software commands the student will use are: line, circle, erase, trim, extend, array, text, move, copy, rotate and scale. Mechanical drawing problems will range from 2D drawings, orthographic projection, sectional view, and pictorial views (isometric and oblique). Freehand sketching on graph paper is also integrated into each assignment. Students will also be introduced to 3D modeling and 3D printing (rapid prototyping). A portfolio of all the student work will be bound together to be taken home at the end of the semester.

Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply fee: \$10.00.

PRE-ENGINEERING GRAPHICS 2

Course # 6611

1st or 2nd semester

Credit: 0.5

This course will continue to introduce the student to the fundamentals of mechanical drafting while using AutoCAD software in our CAD Lab. The student will be taught additional AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. A few of the software commands the student will use are: dtext, offset, object snaps, basic dimensioning techniques, hatching and plotting skills. Mechanical drawing problems will range from auxiliary views, rotations, developments and intersections, and dimensioning techniques of orthographic projection problems. Freehand sketching on graph paper is also integrated into each assignment. A portfolio of all the student work will be bound together to be taken home at the end of the semester.

Prerequisites: 6601. Open to grades 9, 10, 11 and 12. Supply Fee: \$10.00.

ENGINEERING GRAPHICS

Course # 6620

Full year

Credit: 1.0

The goal of the Engineering Graphics course is to expand the student's knowledge in the following areas: computer software usage, manufacturing processes, engineering and design, application of acquired knowledge in making production drawings, and career opportunities in a variety of engineering fields. Students in this class will be expected to work at an accelerated pace on individual projects and some small group work. The computer is the primary means of graphic problem solving using AutoCAD software. Students will be introduced to additional software packages capable of producing 3D solid models. Exploration of Inventor software from Autodesk will lead students to the creation of model racecars that demonstrate the power of this software package. A series of problems which require model construction will also be part of the curriculum including the use of 3D printing technology (rapid prototyping). In addition, students will use 3D digitizer technology for reverse engineering applications. A portfolio of all the student work will be bound together to be taken home at the end of the year.

Prerequisites: 6601 and 6611. Open to grades 10, 11 & 12. Supply Fee: \$18.00.

Technology Education

ARCHITECTURAL DRAFTING

Course # 6630

Full year

Credit: 1.0

This course covers the techniques and methods of construction drawing. The first semester is spent developing a set of plans for a “summer home” to be drawn with a computer using AutoCAD software. First floor plans, foundation plans, wall sections, elevations, door and window schedules and a front view presentation drawing will constitute the course work for the first semester. During the second semester, each student will construct to scale a framing model of his or her home. Scale: 3/4”=1’. The course covers cost, construction and other factors related to home building. Information will be interjected throughout the course about building and buying a home.

Prerequisite: 6611 or departmental approval. Open to grades 10, 11 & 12.

Supply Fee: \$18.00.

ADVANCED ENGINEERING AND ARCHITECTURAL MODELING

Course # 6640

Full year

Credit: 1.0

This course will provide the student with additional challenges as they are introduced to several 3D modeling software programs. Students will be required to use the skills learned in both their engineering and architectural graphics courses as they make the transition from 2D drawings to 3D. Students will explore software programs such as Inventor, Revit and 3D Studio Max, while developing 3D models and animating them. Students will use 3D digitizer technology for reverse engineering applications to accurately reproduce parts. They will also use 3D print technology (rapid prototyping) to generate models for visual inspection and functional testing. An electronic portfolio will record all work completed during the school year.

Prerequisite: Engineering Graphics and Architectural Drafting and/or instructor approval. Open to grade 12 and/or departmental approval. Supply Fee: \$18.00.

Integrated Art and Technology Education Program

The Integrated Art and Technology Education Program is offered as an elective course of study to all students at Hinsdale Central. Our program is interested in the use of technology as a tool or medium in various art/technology-related areas of study, including Graphic Communications, Photography, and Digital Imaging .

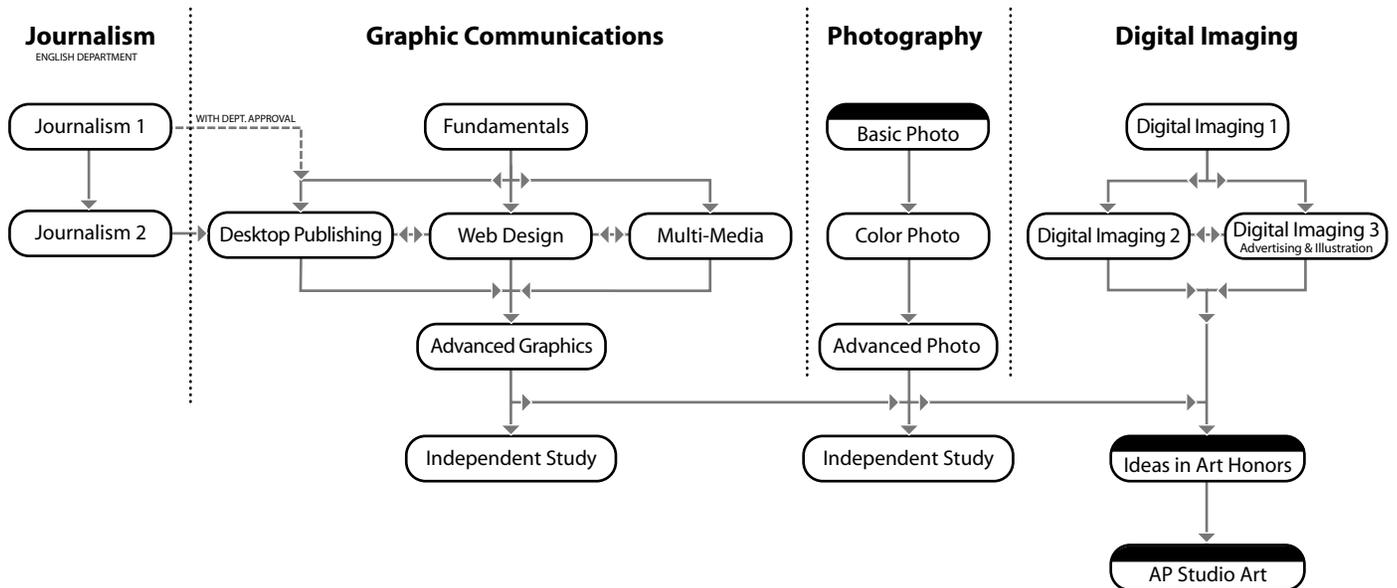

Articulated credits at College of DuPage are available to Hinsdale Central students who complete certain courses at Hinsdale Central with a minimum grade of a B and who, upon graduation, attend C.O.D.

The following courses offer articulated credit at College of DuPage:

- Digital Imaging 3: Advertising and Illustration
- Basic Photography
- Color Photography

Each class has a lab fee charged to students for materials.

The mission of the Integrated Art and Technology Education Program at Hinsdale Central High School is to create opportunities for students to use technology as a tool to demonstrate creative expression and/or technical skill. Courses offered in this program will provide students with experiences in digital media and technology, including: photography, graphic communications, design and illustration, digital imaging, web design, multimedia, animation, and other relevant digital media and technology.

Integrated Art & Technology Education Program
Program Course Sequences

Technology Education

GRAPHIC COMMUNICATIONS PROGRAM

GRAPHIC COMMUNICATIONS FUNDAMENTALS (GCF)

Course # 6661

1st or 2nd semester

Credit: 0.5

This course provides students with the essential skills necessary for creating print and web documents. Special emphasis is placed on furnishing students with realistic experiences using industry standard software such as Adobe Illustrator and PhotoShop. Areas of study include technical illustration, typography, color models, photo retouching and image preparation. This course provides sound fundamental skills for later courses in Graphic Communications.

Prerequisite: None. Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00

GRAPHIC COMMUNICATIONS - DESKTOP PUBLISHING (GCDP)

Course # 6650

1st or 2nd semester

Credit: 0.5

Learn to design, layout and prepare documents for print. Use of Adobe InDesign and related Adobe products is stressed. Topics include typography and typographic controls, color usage, preparation of photographic and line art, working with copy, setting up master pages and style sheets, paper characteristics, and binding processes. This course covers essential skills used in producing the Devil's Advocate (newspaper) and El Diablo (yearbook) and is especially recommended for students who are interested in editorial positions.

**Prerequisite: GCF or Journalism 1 (J1 taken concurrently with dept. approval)
Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00**

GRAPHIC COMMUNICATIONS - WEB DESIGN (GCW)

Course # 6662

1st or 2nd semester

Credit: 0.5

Create professional looking web sites! Web Design provides students with an overview of essential disciplines found in electronic publishing for the Internet. **This is not a programming course.** Instead, the focus of the class will be on providing students with realistic experiences needed to create HTML based web sites using professional web page editing software. Areas of study include Internet history, information architecture, interface design, site navigation systems, graphic optimization, and web page editor use.

Prerequisite: Graphic Communications-Fundamentals (GCF). Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00

GRAPHIC COMMUNICATION WEB-BASED MULTIMEDIA (GCOMM)

Course # 6681

1st or 2nd semester

Credit: 0.5

Create motion graphics and video! This course give students the skills to create animated graphics, Flash animations, and produce simple videos. Students will gain experience using industry standard software like Adobe Image Ready, and Flash to create many to the types of motion graphics found on the web.

Prerequisite: Graphic Communications-Fundamentals (GCF). Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00

GRAPHIC COMMUNICATION ADVANCED GRAPHICS (GCA)

Course # 6660

1st or 2nd semester

Credit: 0.5

This course is designed for those students who wish to apply the skills learned in their study of Graphic Communications to real world projects. Students will focus on several areas of interest and develop real world products in a client-project manager arrangement.

Prerequisite: Graphic Communications-Fundamentals (GCF) and one of the following: GCW, GCOMM, GCDP. Open to grades 10, 11 & 12. Supply Fee: \$10.00

GRAPHIC COMMUNICATION INDEPENDENT STUDY (GCIS)

Course # 6905/6906 - Graphic Communications

1st or 2nd semester

Credit: 0.5

This course is for students who have exhausted other course offerings and wish to further skills learned in the Graphic Communications program in an independent atmosphere.

Prerequisite: DEPARTMENT APPROVAL. Open to grades 11 & 12. Supply Fee: \$10.00

PHOTOGRAPHY PROGRAM

BASIC PHOTOGRAPHY

Course # 6691

1st or 2nd semester

Credit: 0.5

Basic Photography is for students interested in learning the techniques necessary to produce technically correct and aesthetically pleasing photographs, as well as the responsibility of caring for photographic equipment using the 35 mm SLR camera. Areas of study will include, but are not limited to: the composition of good photographs; the processing of black and white photographic materials; and proper application of equipment, supplies and special darkroom techniques. Equipment and supplies will be provided and cameras will be available for students who do not have access to a 35mm SLR camera.

Prerequisites: None. Open to grades 10, 11 & 12. Supply Fee: \$35.00.

COLOR PHOTOGRAPHY

Course # 6701

1st or 2nd semester

Credit: 0.5

This course is designed for someone interested in the modern methods of color photography. The student will use a film and digital SLR camera to capture their images. Areas of study include, but are not limited to: the principles of color and light; elements of a good photograph; capturing images on negatives, slides and digital media; printing in color; and preparing photographs for display. Equipment and supplies will be furnished. Cameras are available for students who do not own or have access to a film or digital SLR camera. Basic Photography and Color Photography together have articulated credit with The College of DuPage.

Prerequisites: Basic Photography. Open to grades 10, 11 & 12. Supply Fee: \$35.00.

ADVANCED PHOTOGRAPHY

Course # 6812

2nd semester

Credit: 0.5

In this advanced level course, students will be expected to improve upon their current level of photographic ability. In terms of technique, this will involve the introduction of the medium format camera and the zone system (a procedure which will allow students to make more carefully controlled photographic prints.) Additionally, some non-traditional films, papers, and emulsions will be introduced. In terms of content, through class assignments and independent works students will begin to use the photographic medium to more effectively articulate ideas. Students may work with black and white film, color film, and digital cameras to capture images.

Prerequisite: Basic Photography and Color Photography with instructor approval. Open to grades 11 and 12. Supply fee: \$40.00.

PHOTOGRAPHY- INDEPENDENT STUDY

Course # 6907/6908

Credit: 0.5

This course is designed for students who have completed course sequence in photography program and desire further independent course work.

Prerequisite: DEPARTMENT APPROVAL. Open to grades 11 & 12. Supply Fee: \$40.00

Technology Education

DIGITAL IMAGING PROGRAM

DIGITAL IMAGING 1

Course # 5121

1st or 2nd semester

Credit: 0.5

Digital Imaging 1 introduces students to the artistic potential of the computer. Artistic and creative problem solving strategies are developed which can help students in all areas of learning. Students take their own digital photographs. Each student will use his/her digital photographic images to create original works of art using the software Adobe Photoshop CS3. Students will create a cartoon in Adobe Illustrator CS3 and a digital portfolio is created in Adobe Flash MX.

Prerequisite: None. Open to grades 9, 10, 11, 12. Supply Fee \$17.00

DIGITAL IMAGING 2

Course # 5132

2nd semester

Credit: 0.5

Digital Imaging 2, a continuation of Digital Imaging 1, further explores the artistic potential of the computer and creative problem solving strategies. Students will increase their artistic knowledge and skills while working on independent project ideas based on his/her theme in art. Traditional art materials will be explored or added as students are encouraged to think outside the "digital box". Students take their own digital photographs. Each student will use his/her digital photographic images to create original works of art. Working knowledge of Adobe Photoshop CS3, Adobe Illustrator CS3, and Adobe Flash, will be needed.

Prerequisite: Digital Imaging 1: Open to grades 9, 10, 11, 12. Supply Fee: \$17.00

DIGITAL IMAGING 3: ADVERTISING AND ILLUSTRATION

Course # 5331

1st or 2nd semester

Credit: 0.5

Digital Imaging 3 is a graphic design advertising art class. Students interested in a career in Graphic Design, learn the essential skills of design as it relates to advertising. The computer is used as a tool to create and solve real world design problems. Traditional illustration or drawing techniques will also be explored. Design principles have been introduced and learned, through a series of small projects. Afterwards, the course will be run like an advertising design business with a client/designer relationship underlying major projects. Working knowledge of Adobe Photoshop CS3, Adobe Illustrator CS3, and Adobe InDesign will be needed..

Prerequisite: Digital Imaging 1: Open to grades 9, 10, 11, 12. Supply Fee: \$17.00

Hinsdale High School District No. 86 participates with other high school districts in DuPage County to support an area technology center. Technology Center of DuPage provides comprehensive vocational-technical education for high school students whose career objectives are related to vocational-technical fields. Students are bused to the center (located in Addison) for half-day sessions each day (periods five through ten). During the other half of the school day (periods one through four), students attend classes and lunch and participate in extra-curricular activities at Hinsdale Central. Credits earned at TCD can be used to satisfy the units required for graduation. All TCD courses will satisfy the District 86 graduation requirement in Applied Arts. A maximum of 3.0 units of credit can be earned yearly through TCD course work and 3.0 additional units of credit can be earned per year through Hinsdale Central course work.

Students are expected to follow Hinsdale Central’s disciplinary code both at Hinsdale and at TCD. If a student violates school policy and is not permitted to ride the school bus, the student will be withdrawn failing from his TCD courses.

TCD offers junior -senior level programs in the following areas: “Kit fees” are listed below for each area. Cost is range for first and second years.

	1 ST YEAR	2 ND YEAR
Construction Trades	\$190-\$350	\$135-\$145
Landscape Design & Management	\$150-\$235	\$70-\$100
Manufacturing Technology	\$150-\$175	\$75-\$100
Pre-Architectural & Pre-Engineering Technology	\$75-\$95	\$75-\$85
Computer Information Systems	\$12-\$15	\$12-\$15
Data Entry	\$50-\$125	\$5-\$15
Office Systems Technology	\$95-\$125	\$5-\$15
Graphic Communications	\$90-\$100	\$35-\$50
Multimedia & TV Production	\$125-\$135	\$65-\$75
Certified Nurse Assistant	\$155-\$160	
Medical & Health Care Careers	\$100-\$130	
Criminal Justice	\$150-\$175	\$150-\$175
Fire Science	\$250-\$300	\$250-\$275
Auto Body Repair Refinishing	\$160	\$145
Automotive Technology	\$310-\$330	\$60-\$165
Cosmetology	\$475-\$500	\$185-\$235
Culinary, Pastry Arts, & Hospitality Management	\$250-\$350	\$250-\$350
Early Childhood Education & Care	\$75-\$95	\$25-\$30
Electronics & Pre-Engineering Technology	\$70-\$80	\$85-\$90
HVACR	\$215-\$270	\$110-\$120
Residential Wiring & Home Technology	\$460-\$480	

**TECHNOLOGY CENTER OF
DU PAGE CAREER PROGRAMS**

Course # 9010

Credit: 3.0

The requirements and objectives associated with the specific Technology Center of DuPage (TCD) programs listed above vary greatly. Students who wish further information about a particular program and/or wish to register for a TCD program must see their counselor. All students must fill out a separate TCD form with parent signature and return to their counselor.

Prerequisite: None. Open to grades 11 & 12.

TECHNOLOGY CENTER OF DUPAGE (TCD) 2009-2010

GENERAL INFORMATION

The twenty one programs operating at TCD are open to juniors and seniors. The TCD campus is located in Addison, Illinois, approximately thirty minutes from Hinsdale Central. Students are scheduled through their counselors to have fourth period lunch and attend TCD the remainder of the day. TCD offers three elective credits which count towards the elective arts graduation requirement. TCD is a year long program; therefore, students should enroll in February for the following year during their registration conference with their counselor. Each student must fill out a TCD application signed by a parent and their counselor. Although there are no specific requirements for TCD enrollment (other than being of junior or senior status), students are advised to work closely with their counselors to fit in all graduation requirements. Please refer to the TCD website <http://www.tcdupage.org> for more information.

CUSTOMIZE YOUR CURRICULUM

TCD helps students learn on two levels. First, it provides hands-on basics to offer experiences that go beyond theory. Secondly, it helps provide a practical workplace to sharpen skills necessary for a chosen career. TCD incorporates a self-paced, goal by goal learning style which encourages self-management and productivity.

ACCREDITATION

TCD is fully accredited by the North Central Association Commission on Accreditation and School Improvement (NA-CASI). It is one of the Midwest's finest schools for career and technical education, and the recipient of the Lincoln Award for Commitment to Excellence from the Lincoln Foundation.

EARN COLLEGE CREDIT AND SCHOLARSHIPS

Many programs offer dual credit through College of DuPage that can be transferred to other colleges and universities accepting COD course work. Other colleges offer advanced standing or credit upon enrollment, including Lewis University, Ferris State University, Triton Junior College, Kendall College, William Rainey Harper College, Johnson & Wales University, and the Cooking & Hospitality Institute of Chicago.

COLLEGE ARTICULATED CREDIT THROUGH TCD PROGRAMS

Hinsdale Township High School District 86 and the College of DuPage have an agreement, articulated credits, in which Hinsdale Central students may receive credit for courses taken in high school once they are enrolled in the College of DuPage. A minimum grade of B must be earned in a TCD course in order to receive COD credit. There is no formal sign-up process for the students to be eligible to receive this credit. TCD courses can provide between two and six semester credit hours depending on the program. Other colleges in addition to COD accepting articulated credit from TCD courses include Triton College, Lewis University, Harper College, Johnson and Wales University, Kendall College and The Cooking and Hospitality Institute of Chicago.

SCHOLARSHIPS AND AWARDS

A TCD student can gain recognition and win scholarships like the Hospitality Club and Skills USA. TCD instructors are also aware of many industry-related and organizational scholarships specifically for students in career and technical education.

GRADUATE SUCCESSES

One year after graduation:

59% continued their education

32% work full-time, a third of those in their related field

2% work and go to school

3% enter the military

CAREER ACCELERATION PROGRAMS

TCD offers twenty one of the fastest growing occupations. The knowledge a student will gain can also be applied to a wider range of career choices.

PROFESSIONAL LICENSING

Through TCD a student can earn industry-recognized credentials that open doors. TCD programs help students prepare for career-related state, federal, professional or national licensing exams.

TCD SUMMARY

TCD is part of Hinsdale Central's elective courses. TCD is not a trade school, nor is it a college. TCD focuses on teaching career skills as well as enhancing basic principles of academics. There is no charge to attend TCD. However, programs do have fees for supplies, tools or uniforms as noted in each course description. TCD is a great option for students wishing to pursue a more "career oriented" curriculum. Interested students should work closely with their counselors regarding which program might be best suited for their needs.

T. P. I.

Transitional Program of Instruction

Lee-Cheng Wang, Design

MISSION STATEMENT

The mission of the Transitional Program of Instruction (TPI) is to assist international students who have limited English skills. The TPI program provides academic and social support as students adjust to the American culture and, in particular, to Hinsdale Central High School. TPI will assist them in transitioning into the mainstream of the school community.

In order to fulfill the mission, TPI offers *academic* classes in English as a Second Language (ESL-1 and 2) for credit and TPI resource classes that may receive credit. TPI also addresses individual student needs, including language issues, academic programs, and cultural, social adjustments. English as a Second Language classes are taught in conjunction with the English Department in order to transition students into the mainstream English classes. As students adjust academically and socially, they *transition with support* into the full general education curriculum and the school community. Lastly, students exit the program when they are academically successful.

ESL-ENGLISH 1A

Course # 1050

Full year

Credit: 1.0

This course is designed for the English Language Learner who is new to the United States and whose English Proficiency is emerging and developing. The course focuses on teaching basic communication and study skills in order for the ELL to be successful at Hinsdale Central High School. Listening, speaking, reading and writing skills will be taught in order to help the ELL in mainstream classes succeed academically and complement the ESL-English 1B curriculum. In addition, the course will provide activities to include students in the American Culture.

Prerequisite: TPI Director Chair approval. Open to grades 9 - 12.

ESL-ENGLISH 1B

Course # 1030

Full year

Credit: 1.0

This course continues the work started in ESL-English 1A by developing emerging and beginner listening, speaking, reading and writing strategies and skills in standard American English to the English Language Learner. This course will parallel the goals and skills of English 1. In addition, the course will continue to build student communication skills and self-advocacy skills in standard American English to aid in Mainstream Academic Success.

Prerequisite: TPI Director approval. Open to grades 9 - 12.

ESL-ENGLISH 2

Course # 1040

Full year

Credit: 1.0

The goal of ESL-English 2 is to prepare the intermediate level English Language Learner to transition successfully into the Mainstream English class. The course will continue to develop skills and strategies in listening, speaking, reading and writing of standard American English while focusing on how the strategies can be used in Mainstream Academic Success. Course materials will parallel the goals and skills of the English Program. Lastly, this course reinforces self-advocacy skills to promote Academic Mainstream success for the transitioning English Language Learner.

Prerequisite: TPI Director approval. Open to grades 9 - 12.

TRANSITIONAL PROGRAM OF INSTRUCTION (TPI) RESOURCE

Course # 1003, 1004

1st or 2nd semester

Credit: 0.25

or non-credit

This tutorial resource is designed to: 1) help students maintain satisfactory achievement levels in their regular classes; 2) encourage conversational English; 3) accelerate the development of vocabulary understanding, reading comprehension and writing skills in the English language; and 4) facilitate cultural adjustment.

Prerequisite: TPI Director approval. Open to grades 9, 10, 11 & 12 international students who have limited English language proficiency. This program may be scheduled in place of a regularly scheduled study hall. This course must be taken for credit if the student is enrolled in ESL1 or ESL2. It may be taken for credit or non-credit with TPI director recommendation.

TRANSITIONAL PROGRAM OF INSTRUCTION - AIDE

Course # 1013, 1014

1st or 2nd semester

Credit: 0.25

TPI aides assist other individual TPI students with academic and English language needs.

Prerequisite: Recommendation of TPI Director. Open to grades 11 & 12.

REGISTRATION INFO

2009-2010 academic calendar

- Mid December* **Program of Studies Handbook**
Individual student copies of Hinsdale Central's inclusive curriculum book will be handed out to students in class. This information should stimulate initial conversations between parents and students regarding appropriate courses for next year.
- January* **Curriculum Discussions Begin**
Individual teacher/student informal advising discussions are held.
- January 7, 2009* **Dissemination Homeroom**
Registration packets and actual registration forms are distributed in this homeroom. Parents are advised to ask their son/daughter to review this information together.
- January 8, 2009* **Advise and Sign Day, Semester Classes**
On this day, students should carry their registration forms to each of their semester classes. Teachers will discuss curricular offerings in their departments. Teachers will also sign each student's registration form signifying the appropriate course recommendations.
- January 14, 2009* **Eighth Grade Student and Parent Night**
An information program will be held for all parents and students at 7:00 p.m. at HCHS to explain the curriculum and the course selection process.
- January 20, 2009* **Advise and Sign Day, Year-long Classes**
On this day, students should carry their registration forms to each of their year-long classes. Teachers will discuss curricular offerings in their departments. Teachers will also sign each student's registration form signifying the appropriate course recommendations.
- January 21, 2009* **Collection Homeroom**
At this homeroom every student hands in the completed registration form (all appropriate teacher and parent signatures are included).
- January 26 - 30, 2009* **Class of 2010 Counselor Conferences**
Class of 2010 will meet individually with their counselors at an assigned time to finalize their course selections. Individual appointments will be announced in the two homerooms.
- February 2 - 6, 2009* **Class of 2011 Counselor Conferences**
Class of 2011 will meet individually with their counselors at an assigned time to finalize their course selections. Individual appointments will be announced in the two homerooms.
- February 9 - 13, 2009* **Class of 2012 Counselor Conferences**
Class of 2012 will meet individually with their counselors at an assigned time to finalize their course selections. Individual appointments will be announced in the two homerooms.
- January 27 - February 10, 2009* **Eighth Grade Individual Registration Conferences**
Incoming Freshman, Class of 2013, conferences will take place in late January and early February at the local junior high schools. These conferences, will include student, parents and their high school counselor. Appointments are to be scheduled by calling your junior high school Principal's office.
- April 2009* **Verification Sheets**
Confirmation sheets will be mailed home to every student verifying the exact courses the student is registered for in the 2009-2010 academic year. Any computer error should be corrected at this time.

Graduation Requirements

To graduate, a student must earn a minimum of 24.0 credits and successfully meet the requirements printed below and in General Information. The 2.0 Elective Arts credit requirement may be satisfied by taking courses from Art, Business, Family & Consumer Science, Foreign Language, Technology Education, Music, or TCD. No more than one credit per department will be counted toward the Elective Arts requirement.

All students must complete 3 full credits of Mathematics courses. One of the 3 full credits of Mathematics required must be an Algebra 1 course and one of them must include Geometry content. The Algebra course credit may be earned prior to enrollment in District 86, but students must still complete 3 full credits of Mathematics study in high school.

English 4.0 Credits	Science 2.0 Credits
Social Studies 2.0 Credits Freshman Year (1.0 Credit) US History (1.0 Credit)	Elective Arts 2.0 Credits
Mathematics 3.0 Credits	Physical Ed/Health 4.0 Credits
	Consumer Education 0.5 Credits or passing the ICEPT (given in Oct./Jan.)

Dear Students and Parents,

Hinsdale Central High School is an exciting place to be a student and experiencing the multitude of opportunities available to you represents an important rite of passage. Registering for next year's courses is a part of that experience.

The 2010-2011 edition of the Hinsdale Central Program of Studies book is an important resource for students and parents which we hope will assist you in making good course choices.

Paging through the Program of Studies, you will find that the book is divided into three distinct sections. The first contains general information about such topics as graduation requirements, dropping and adding courses, schedule changes, and college admission requirements. The second section provides descriptions of all courses available to students. The last section provides students and parents with registration information for next year and worksheets for course selection, the four-year plan, and the graduation credit checklist.

As you select your courses, you should turn this process into a four-year plan as you think about your personal strengths, interests and future plans. Parents, teachers, and your counselor will guide you through this process. Please take the time to make careful consideration of the opportunities available to you so that you are able to make the best use of the academic opportunities available to you.

You should use this Program of Studies book to prepare for your registration appointment with your Guidance Counselor. These will be scheduled in January or early February. As you prepare, carefully review the general information section, analyze the course descriptions and "pencil in" your choices on the worksheets at the back of this handbook.

It is important to know that the courses you select during this process are intended to be your final selections for the 2010-2011 school year. We develop our master schedule of classes, and we hire and re-employ teachers based on the enrollment decisions you make. As high school students, you should make careful decisions and then follow through with them.

We hope we have made this process one that can work well for you. If you have questions or suggestions, please see your counselor.

Sincerely,

Frank Kesman
Interim Principal

Tom Paulsen
Interim Principal

Vision Statement

HINSDALE CENTRAL VISION STATEMENT

Adopted Fall 2003

The expectation of excellence is rooted in the traditions of Hinsdale Central. In an environment that fosters a desire to learn, all members of the organization are committed to educating each student. In order for us to succeed, we must clearly identify standards we will work to achieve and maintain. These standards are identified in several areas and will be the benchmarks by which we will measure our success.

I. Students

The degree to which we measure our success in attaining this vision is by each student's progress. We will provide opportunities that facilitate this growth. In our school we:

- a. work to meet students' needs.
- b. encourage students to reach their potential in all they do, and to become self-directed learners.
- c. teach students to accept responsibility for their actions.
- d. encourage students to get involved in their school and in their community.
- e. let students know we believe in them and will find ways for them to succeed based on their ability and interests.

II. Staff

Attracting and retaining outstanding people is a must if we are to move toward our vision. In our school we:

- a. demonstrate our support for a shared vision and a common sense of purpose.
- b. encourage all members of the organization to be leaders and experts in their fields.
- c. promote collaboration and collegial decision-making on matters relating to students, curriculum, instruction, and school improvement initiatives.
- d. facilitate the growth of our students.

III. Curriculum and Instruction

What we decide to teach and how we do so will impact the results we achieve. In our school we:

- a. recognize our primary focus is to provide a solid base for the post-secondary education of our students, while respecting the needs of students who make alternative choices.
 - b. seek to learn effective practices and adapt them for our learning environment.
 - c. believe teachers should collaboratively determine curriculum and assessment standards.
 - d. work to assure the limited time we have to educate our students is used to the greatest benefit for all our school community.
-

IV. Climate

All members of our community are responsible for providing a climate that contributes to our success and a high school experience that builds a sense of pride we all share. In our school we:

- a. provide a safe and secure environment that is conducive to learning.
- b. recognize that all relationships are based on respect for others and an understanding of each person's responsibility for his/her behavior.
- c. understand school rules and policies exist to support our organization and are consistently applied by all staff.
- d. recognize the achievements of all members.
- e. encourage and model behaviors appropriate to the development of character.

V. Community

The educational community recognizes the importance of maintaining a partnership between the school and community at large. In our school we:

- a. seek ways to improve the quality of communication between the home and school.
- b. always provide a clear rationale for policies and practices.
- c. share information that is important in a timely manner.
- d. recognize that the more our community is involved and informed, the more successful we will be.

Acknowledgments

Students contributed to the artwork displayed at the beginning of each department's description of courses.

Students have the option of enrolling in an additional semester of Physical Education during sophomore year for an additional 0.5 credit.</div> 	

General Information

Earning Course Credits Credit in full year as well as semester courses is earned by semester. That is, students earn 1/2 unit of credit or 0.5 credit for successful completion of each semester.

Credit is earned by successfully completing all course requirements as established by the teacher. Excessive absences may result in removal from a course and/or loss of credit.

Alternative Courses E-learning, correspondence, or college courses may be counted toward graduation. Such courses must be from an accredited institution. The student assumes responsibility for all fees. Prior written approval from the Director of Guidance is required.

Academic Load Students must be enrolled in a minimum of six (6) courses per semester.

Admission Requirements Admission requirements are based upon evidence of normal progress and achievement in the previous school. Incoming freshman are required to submit evidence of satisfactory completion of the 8th grade. Transcripts of credits earned and grade placement are required from the previous school for all students transferring from other secondary schools. Transfer credit and grades will be determined by the Registrar and are based on Hinsdale Central's curriculum and requirements. The report of a health examination and required immunizations at the 9th grade level is **required by law**. Students will not be allowed to attend school if this state requirement is not met. In addition, all students participating in athletics must have a physical examination for each year in which they participate. We cannot emphasize too strongly the need for this to be accomplished prior to the opening of school.

Articulated Credit and Dual Credit at the College of DuPage The College of DuPage awards articulated or dual credit when learning experiences at the secondary level of instruction duplicate those at the post-secondary level. These programs enable students to save time and avoid duplication of material already learned in high school. Articulated credits are only applicable to the College of DuPage while dual credits can be accepted at any college or university that accepts transfer credits. Students may request a transcript from C.O.D. with these course listed after the end of the semester.

Advanced Placement Program

The Advanced Placement (AP) Program provides students with the opportunity to pursue college-level studies while still in high school and to receive advanced placement and/or credit when entering college. Qualified, academically-oriented students in the tenth, eleventh, and twelfth grades are eligible to participate in the Advanced Placement Program at Hinsdale Central High School.

The Advanced Placement Program at Hinsdale Central High School consists of the following courses:

AP Art History
AP Studio Art
AP Language & Comp.
AP Lit. & Composition
AP French Language
AP German Language*
AP Latin Vergil
AP Spanish Language
AP Spanish Literature
AP Calculus (AB)
AP Calculus (BC)
AP Computer Science A
AP Statistics
AP Music Theory
AP Biology
AP Chemistry
AP Environmental Science
AP Physics B
AP Physics C
AP European History
AP Gov't. & Politics
AP Microeconomics
AP Macroeconomics
AP Psychology
AP U.S. History

**** Upon completion of German 4H, students may take the AP German language exam.***

Departments

Advanced Placement courses are offered by seven departments: Art, English, Mathematics, Music, Science, Social Studies, and World Languages. These courses, adhere to College Board approved course descriptions and serve as the primary vehicle to prepare students for the voluntary AP examinations in May. In addition to preparing students for the AP exams, AP courses allow students to experience the pace and intensity of college-level courses while still in high school. Some AP courses may explore opportunities for students to work in teams on interdisciplinary themes or projects. Such activities would be designed to provide students the opportunity to solve real-world problems across AP subject areas. The AP courses are challenging and stimulating, require more work and more time than other high school courses.

Examinations

The Advanced Placement examinations are administered each year during the second and third weeks of May and can be described as “tough, but fair.” Usually three hours in length, each exam consists of a multiple choice section and free-response section that requires essay writing or problem solving. Every examination receives an overall grade from a team of carefully selected college professors and high school AP teachers on a five-point scale: 5 (extremely well qualified), 4 (well qualified), 3 (qualified), 2 (possibly qualified), and 1 (no recommendation). An AP Grade Report is sent in July to each student, the high school, and if the student requests it, to the college. Unless recommended by the teacher not to do so, all enrolled AP students are expected to take their course ending examinations.

Credit

Although each college determines what AP examination grades it will accept for credit and/or advanced placement, the great majority of colleges accept grades of 3 or better and award the student with credit in the subject matter tested. In some cases, no credit is given, but the student may begin the program of study at an advanced level. Students wanting to know what AP grades are considered acceptable by the colleges in which they are interested should write the Director of Admissions of the college or consult with the Director of Guidance at Hinsdale Central.

General Information

G-Level Program

G - Level Courses:

Foundations of Alg/Geo.

Algebra 1G

Geometry - G

Algebra 2/Trig - G

Earth Science - G

Biology - G

In the Mathematics and Science departments, particular courses are designated as G-level courses. College preparatory in nature, G-level courses are designed to meet the special needs of students in particular subject areas.

Admission

Admission to G-level courses is based upon several established selection criteria:

- teacher recommendations
- results of the 8th-grade EXPLORE Test
- past academic performance
- department approval
- student and parent input

Honors Program

Honors (H) Courses:

Ideas in Art H

Accounting H

English 1 H

English 2 H

H/Seminar in Writing

French 1 H

French 2 H

French 3 H

French 4 H

German 1 H

German 2 H

German 3 H

German 4 H

Latin 1 H

Latin 2 H

Spanish 2 H

Spanish 3 H

Spanish 4 H

Geometry H

Algebra 2 Trig H

Integrated Algebra H

and Geometry H

Pre-Calculus H

Music (see department)

Biology H

Earth Science H

Chemistry H

Physics H

World History H

In the Art, Business, English, Mathematics, Music, Science, Social Studies and World Languages departments, particular courses are designated as honors courses. Honors courses are designed to challenge students of superior ability by enriching and/or high accelerating the course content and have standards of high achievement distinctly above those of regular courses. Instruction in honors courses occurs at a faster pace, covers the subject matter in more depth and emphasizes higher level thinking skills.

Admission

Admission to the honors program is based upon several established selection criteria:

- teacher recommendation
- results of the 8th-grade EXPLORE Test
- past academic performance
- departmental approval

Students with superior ability, a commitment to the subject matter and a motivation to learn are encouraged to apply for admission to the honors program.

General Information

Honor Roll and Weighted Grades

Grades earned in all academic courses, exclusive of Physical Education and Driver Education, will be used to determine honor roll according to the following grade point system.

Honor Roll

- 4.0 grade point average
- no grade below a "D"

Honor Roll is based on the quarter grade point average, no incomplete grades and a minimum of four credit-earning courses. Honor Roll students become eligible for Dean's List recognition.

Dean's List

- 4.5 grade point average
- no grade below a "C"
- Class Rank is optional for the class of 2010. Class Rank will not be awarded for the classes of 2011, 2012 and 2013.

Grade	Honors	Regular
A	6	5
B	5	4
C	4	3
D	2	2
F	1	1
WF	1	1

Course Requests

Each spring our school works to create a schedule of classes for the following academic year that best meets the needs of our students, while still staying within the parameters of staffing requirements (i.e. number of teachers, class size, teaching schedules, state and federal mandates). We work very hard to accommodate student requests; however, due to the complexity of the scheduling process, sometimes student schedules may need to be adjusted. Please keep in mind that changes in course requests or class assignments will not be accepted for any of the following reasons:

- to accommodate a job schedule
- to change teachers
- to change lunches or classes to be with friends
- to have first or last period free
- to accommodate a change of mind

Acceptable reasons for schedule changes may include:

- computer input error
- scheduling conflicts
- failure or near failure in a second semester or year course
- failure to meet a pre-requisite for a course
- department chair or guidance director recommendation
- successful completion of a summer school class

Dropping a Course

Students may request to drop a course only if they are enrolled in the maximum number of courses (seven) per semester **and** only after they have attended and participated in the course for five full class periods. Approval to drop a course requires signatures from the parent/guardian, teacher, the appropriate department chair, and the student's counselor. It is understood that the student will have a conversation with his/her counselor and teacher prior to initiating this process. If a student elects to drop a course, the dropped course will be replaced with a study hall period. In some cases, adding a course to replace a dropped course may be accommodated if the curriculum permits and seats are available.

A grade of "F" will be reflected on the transcript of a student who chooses to drop a course after the fourth week of a semester. **Students enrolled in year long courses will not be allowed to drop at the end of first semester unless it is recommended by the department.**

Adding a Course

Students may add a course at the beginning of a semester if there is space available. Requests to add a course must be made no later than the first five full class periods of the semester. In order to add a course, a student must obtain signatures from the parent/guardian, the department chair if required, and the student's counselor.

Repeating Course(s) A course may be repeated for credit only when a student has previously received a “D” or an “F.” Both the grade received and the credit earned for repeating the course, as well as the original grade and credit received in the course, will be used in computing the student’s grade point average. The student’s transcript will indicate the first grade and credit earned, as well as the second grade and credit earned. However, the credit received for repeating the course will not count toward satisfying graduation requirements unless the student failed the course.

Auditing Courses Only under unusual circumstances will a request to audit a course be considered:

1. When a student has previous credit in a subject they may request to audit the course.
2. When a student wishes to audit a course they have not previously taken, they may request to audit the course. In this case, they may not take the course for credit at a later time.

Request to Audit a Class forms may be obtained from the student’s counselor. In both circumstances, requests to audit will be considered only if space is available in the course. Students assume all responsibility of a regular class member, but receive no grade or credit.

All requests to audit a course must have administrative approval prior to the first day of class at the latest, but preferably at the time of February registration. Students interested in auditing a course must complete the form, **Request to Audit a Class**, which may be obtained from the student’s counselor and approved by the Director of Guidance.

Incomplete Grades An Incomplete represents work not completed by the end of the quarter. Incompletes are given only in **extraordinary** circumstances. This work must be made up within the first **two weeks** of the following quarter and the Incomplete changed to a grade or a failure. If the work is not made up by the end of the **2-week** period, the grade will be changed to an “F.” An Incomplete will prevent eligibility for Honor Roll.

Registration Procedures Complete the appropriate **Course Request Form** indicating your choice of subjects and obtain the necessary teacher signatures. When you have selected your courses and your parents have approved and signed the **Course Request Form**, return it to your teacher in homeroom for your counselor’s approval. An individual appointment will be scheduled with your counselor to review and approve your course selections. **Course Request Forms** bearing the signature of counselor **and** parents are considered finalizing and completing the course registration for the next year. Courses are scheduled on the basis of your requests. Questions concerning registration procedures and course selections should be directed to the Guidance Department.

Course Request Forms are available through the Guidance Department.

General Information

Attendance Policy

Attendance Office phone
630.570.8090

The attendance policy at Hinsdale Central requires that parents call the attendance office **ON THE DAY OF THE ABSENCE** to report their student absent from school on any given day at 630.570.8090. Prearranged absences may be called in **prior** to the day of the absence and a green prearranged absence form must be completed. Students are expected to attend class on a daily basis and should be aware that attendance is part of his/her evaluation in each class. Students are responsible for all work missed due to an absence. Excessive absences will be handled by the administration and guidance staff and require a parent conference.

Minimum Attendance Requirement

School Code of Illinois, Section 18-8, requires that all students must be in attendance, exclusive of lunch and passing time, for a minimum of 300 minutes. This necessitates all students attending school for at least six (6) periods a day.

College Admission Requirements

Criteria for college admission vary greatly. The admission committees consider, to varying degrees, the following:

- type of high school courses actually taken when compared to the courses available in the high school
- quality of the student's academic record
- performance on college admission tests - SAT & ACT
- development and maturity of the individual in areas outside the academic classroom.

<i>Courses</i>	Highly Selective Colleges	Public Universities Colleges	Private 4-Year Colleges	Community Public & Public Colleges
<i>English</i>	4 years	4 years	4 years	Varies greatly from an open door admission policy to selective course requirements specifically required by the different departments.
<i>Mathematics</i>	4 years	4 years	4 years	
<i>Science</i>	4 years (lab)	3 years	3 years	
<i>Social Studies</i>	3-4 years	3 years	3 years	
<i>Academic Electives*</i>	2 years	2 years	2 years	
<i>World Languages</i>	4 years (one)	*	2-4 years	

*Academic Electives**

Art

Business

Family & Con. Sciences

Integrated Art & Tech.

Music

Technology Education

Technology Center of

DuPage (TCD)

World Languages

AP Art History and

AP Studio Art are

generally treated as acceptable college

preparatory academic electives by most colleges.

Course requirements for entrance into four different types of colleges are listed above. The academic prerequisites typical of colleges in each of the categories listed may change from year to year and therefore, should be used only as a general **minimum guidelines**. Specific information may be obtained from high school counselors, college profiles, websites and catalogs, computerized college software programs and college representatives who visit Hinsdale Central High School. Students should be aware of a definite return by colleges to their preference of a **traditional and classical college preparatory curriculum**. Narrowly defined, college preparatory courses are found in the following departments:

Art*: AP Art History and AP Studio Art

English: literature and composition courses

Mathematics: Computer Science is not generally accepted as a math credit.

Science: lab courses

Social Studies

World Languages*

General Information

Student Schedules

Full year courses are usually designated by 4-digit course codes ending in “0” or “5.” Semester courses are primarily designated by numbers ending in “1” (first semester) or “2” (second semester) and may be scheduled either first or second semester. **Student schedules are generated by computer and do not allow the student to select a course by semester. Requests are entered but not guaranteed.**

Service Credits

Students may elect to serve as a Student Aide during the school year for the following areas: Art, Audio Visual, Family & Consumer Sciences, E.L.L., Guidance, Library, Nurse, Deans’ Office, Publications, Science, or Student Activities. The credits earned as an Aide count as service credit. Students may elect to serve as an Aide for one or both semesters. They may, however, hold only one Aide position per semester. One-quarter (.25) credit will be granted for each semester. This can be counted toward graduation as a service credit and will be graded on a pass-fail basis.

Course Descriptions

Excel Study Halls

Course # 1020 & #1024

Academic Study Halls

Course # 1025 & #1026

1st or 2nd semester

Credit: 0.25

Excel is designed as an academic support program targeting specific freshman and sophomores. Students assigned to the Excel Program will attend 5 days per week during their scheduled period and will continue to receive these services until all grades earned are at a C level or above for two consecutive quarters at which point they can transfer into a regular study hall. Excel Academic Study Hall is an academic program where students meet in a supportive environment to receive tutorial assistance in core academic areas. The Excel Academic Study Hall staff members consult with classroom teachers and parents to help improve each student’s achievement in courses. A .25 credit is earned per semester for successful participation in this program. Student support in the areas of organizational skills, reading skills/strategies, study skills, and homework completion will be available and structured with each program.

Prerequisite: None. Open to grades 9-12 May be repeated

State of Illinois

Consumer Education Requirement

Credit: 0.5

There are several ways to satisfy this mandated graduation requirement. Students have the following options:

1. **Consumer Economics**, course #6301, one semester, Business Department course, see page 22.
2. **Economics**, course #2331, one semester, Social Studies Department course, see page 65.
3. **AP Macroeconomics** or **AP Micro Economics**, course #2341, one semester, Social Studies Department course, see page 66.
4. **Introduction to Family & Consumer Sciences**, course #6400, full year, Family & Consumer Science Department Course, see page 34.
5. **Introduction to Business**, course #6100, full year, Business Department course, see page 21.
6. **Special Education Related Instruction**, enrollment is determined by IEP recommendation.
7. **Consumer Education Online course**, course #9101, one semester.

Students who enroll in this online course will do all of their class work through a web site supervised by a certified District 86 teacher. This course has the same objectives and examinations as the traditional semester-long Consumer Economics course #6301; the content is very similar. Communication between student and teacher will be primarily through the web site and by email. Students who enroll in the online version will be required to attend an orientation session, to meet progress markers along the way, and to complete the course during the semester in which they are enrolled.

8. **Illinois Consumer Education Proficiency Test (ICEPT) #9103**

At the direction of the Illinois State Board of Education, the 2010-2011 school year will provide two testing sessions for ICEPT, one in late September and the other in late January. Students enrolled in grades 9-12 who are not currently enrolled in a consumer education course may be included in this administration. Contact the Director of Guidance to register for this test. Passing the test is recorded on the student’s transcript, but no course credit is awarded.

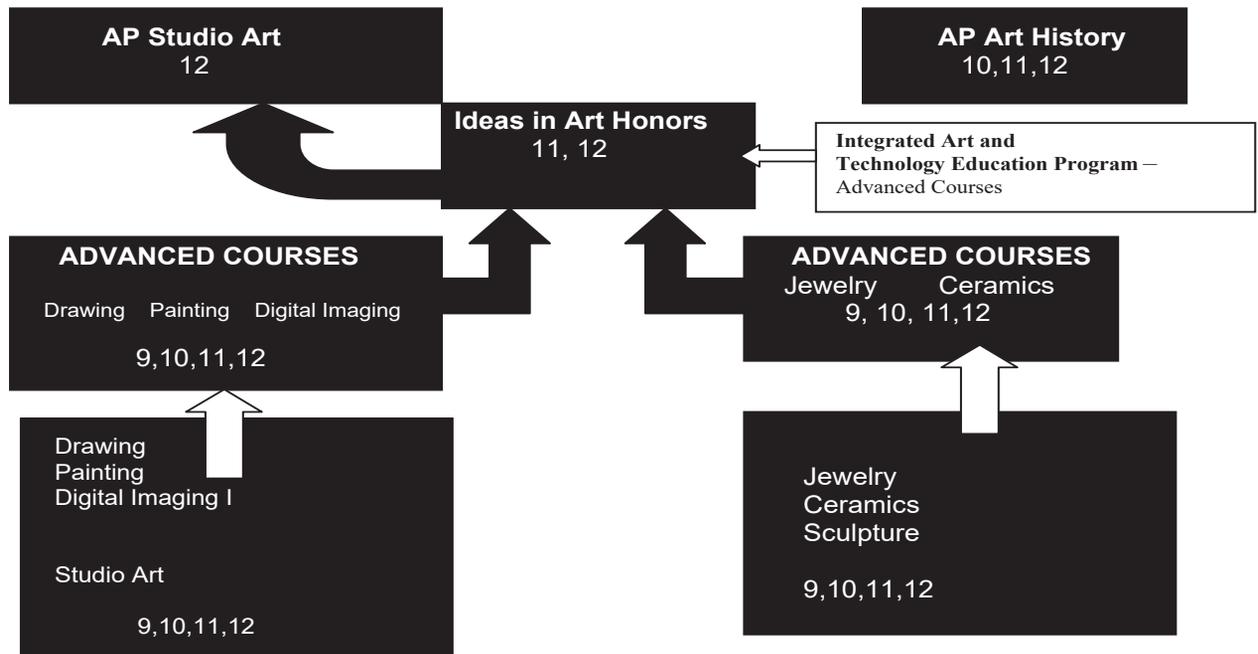

ART

High School District 86 requires the successful completion of two Elective Arts credits. Two fine arts credit fulfills the Illinois state public university entrance requirement in Art, Music or Foreign Language. The courses offered by the Art Department are designed to develop an appreciation and understanding of art, art production, art history, and creative problem-solving. Student work is displayed throughout the school and community on a continuing basis. Supply fees are required for participation in studio courses.

MISSION STATEMENT

The artistic, intellectual, and personal development of young people, through the visual arts, is the goal of the Hinsdale Central Art Department. We, the art faculty, as mentors, coaches, jurors, and artists, are committed to creating a challenging, authentic, and caring creative environment. We will actively involve students with the visual arts through theory and practice. We will challenge students to develop awareness of excellence and the role of art in human life and human culture.

STUDIO ART

Course # 5101

1st or 2nd semester

Credit: 0.5

Students will explore fundamental aspects of design, drawing, painting, jewelry, mixed media, and sculpture. Emphasis will be placed on creativity, craftsmanship, and problem solving. Studio Art is the only course in which introductory students can experiment in a variety of materials. *It is highly recommended that students interested in Drawing and Painting start with Studio Art as a foundation.*

Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$20.00

DRAWING

Course # 5211

1st or 2nd semester

Credit: 0.5

Drawing is a specialized art course that teaches students a variety of strategies to improve his/her ability to draw from life. The course also introduces several drawing tools, including: pastel, charcoal, colored pencils, and pen and ink. A development of individual style and understanding of design will be stressed.

Prerequisite: Studio Art is highly recommended. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00

ADVANCED DRAWING

Course # 5221

1st or 2nd semester

Credit: 0.5

Advanced Drawing is a continuation of the themes and techniques started in the Drawing course in which students are asked to develop work which demonstrates mature drawing ability. Students are expected to investigate how drawings can be designed to communicate original ideas to a viewer. Students will be required to work on their drawings beyond classroom time.

Prerequisite: 5211. Open to grades 10, 11 and 12. Supply Fee: \$17.00

Art Department

PAINTING

Course # 5311

1st or 2nd semester

Credit: 0.5

Painting is a course that introduces students to the complexities of painting. Knowledge of a variety of painting materials, processes, and techniques is stressed. Acrylics, watercolor, and oil are used by students to create meaningful and original works of art.

Prerequisite: Studio Art is highly recommended. Open to grades 9, 10, 11 and 12. Supply Fee: \$20.00

ADVANCED PAINTING

Course # 5321

1st or 2nd semester

Credit: 0.5

Advanced Painting is a continuation of the exploration started in Painting. In Advanced Painting, students are able to gain more experience with painting materials introduced in the previous course. Students are expected to demonstrate their painting skill through the creation of a personal series.

Prerequisite: 5311. Open to grades 10, 11 and 12. Supply Fee: \$20.00

JEWELRY AND METAL SMITHING

Course # 5351

1st or 2nd semester

Credit: 0.5

This course is for students interested in learning to create jewelry and/or small scale sculptures using metals and other materials. A range of metal fabrication techniques and alternative types of media will be explored. A diverse set of images will be used to explore design concepts to enhance students' visual awareness and problem-solving.

Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$21.00

ADVANCED JEWELRY AND METAL SMITHING

Course # 5361

1st or 2nd semester

Credit: 0.5

This course is a continuation of Jewelry and Metal Smithing but on an advanced level. A wider range of metal fabrication methods and materials will be introduced than in the entry level course. The concept of body adornment and the contribution of jewelry to the enhancement of the body will be addressed and studied. The course will focus on the development of independent thinking and personal expression. This concentration enables students to explore the potential of jewelry as a communication tool.

Prerequisite: 5351. Open to grades 10, 11 and 12. Supply Fee: \$21.00

CERAMICS/CLAY SCULPTURE

Course # 5421

1st or 2nd semester

Credit: 0.5

Using clay as an art material will be the focus for this course. The student will create hand-built projects, work on the potter's wheel, and apply glazes. Students will also develop an understanding, appreciation, and sensitivity to clay and its role in history and culture.

Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00

ADVANCED CERAMICS

Course # 5431

1st or 2nd semester

Credit: 0.5

Advanced Ceramics continues the exploration of clay as a functional and artistic medium. This course will further explore advanced handbuilding and wheel throwing techniques. Complex projects will challenge the students artistically, as well as technically. The students will spend a majority of the semester working on the potter's wheel and exploring advanced technique. Advanced handbuilding and glazing techniques will also be covered.

Prerequisite: 5421. Open to grades 10, 11 and 12. Supply Fee: \$17.00

SCULPTURE

Course # 5441

1st or 2nd semester

Credit: 0.5

In this studio course, students will explore and develop three-dimensional design. Wood, clay, plaster, metals and found objects, are some of the materials that will be used. Emphasis will be placed on the examination of contemporary and historical roles of sculpture in society.

Prerequisite: One semester of Art. Open to grades 9, 10, 11,12. Supply Fee: \$17.00

IDEAS IN ART HONORS

Course # 5473

1st or 2nd semester

Credit: 0.5 (may be repeated twice)

Students will create a body of artwork based on a personal exploration of a central theme or idea. This body of work represents the results of rigorous research, planning and problem-solving. Each student is required to create a reference manual that combines multiple explorations of a variety of media. The work produced in this course may be used as part of the Advanced Placement Art Portfolio.

Prerequisite: Advanced level course, portfolio review with departmental approval. Open to grades 11,12. Supply Fee: \$20.00

ADVANCED PLACEMENT ART HISTORY

Course # 5440

Full year

Credit: 1.0

This course provides a survey of the history of art. It is designed to prepare students to take the Advanced Placement examination. Methods of analyzing and evaluating works of art will be introduced. Students enrolling in this course are expected to have well developed writing skills and an interest in art and culture.

Prerequisite: Departmental approval. Open to grades 10, 11 and 12.

ADVANCED PLACEMENT STUDIO ART

Course # 5450

Full year

Credit: 1.0

This course provides accelerated students with a challenging program of college-level studio work. Prior to the end of the academic year, a portfolio of approximately 44-46 pieces will be submitted to the College Board for evaluation and possible college credit. This advanced placement program requires more time and commitment than typical high school art courses. Therefore, the students enrolling in the course should be highly motivated, serious, self-directed and willing to work. The Ideas in Art course is highly recommended for students considering this course. **Students interested in this course need to submit a portfolio of eight pieces to the Art office before first semester final exams.**

Prerequisite: Portfolio review and Departmental approval. Open to grades 11 and 12. Supply Fee: \$40.00 (excludes series materials)

Art Department

Integrated Art and Technology Education Program

The Integrated Art and Technology Education Program is offered as an elective course of study to all students at Hinsdale Central. Our program is interested in the use of technology as a tool or medium in various art/technology-related areas of study, including Graphic Communications, Photography, and Digital Imaging.

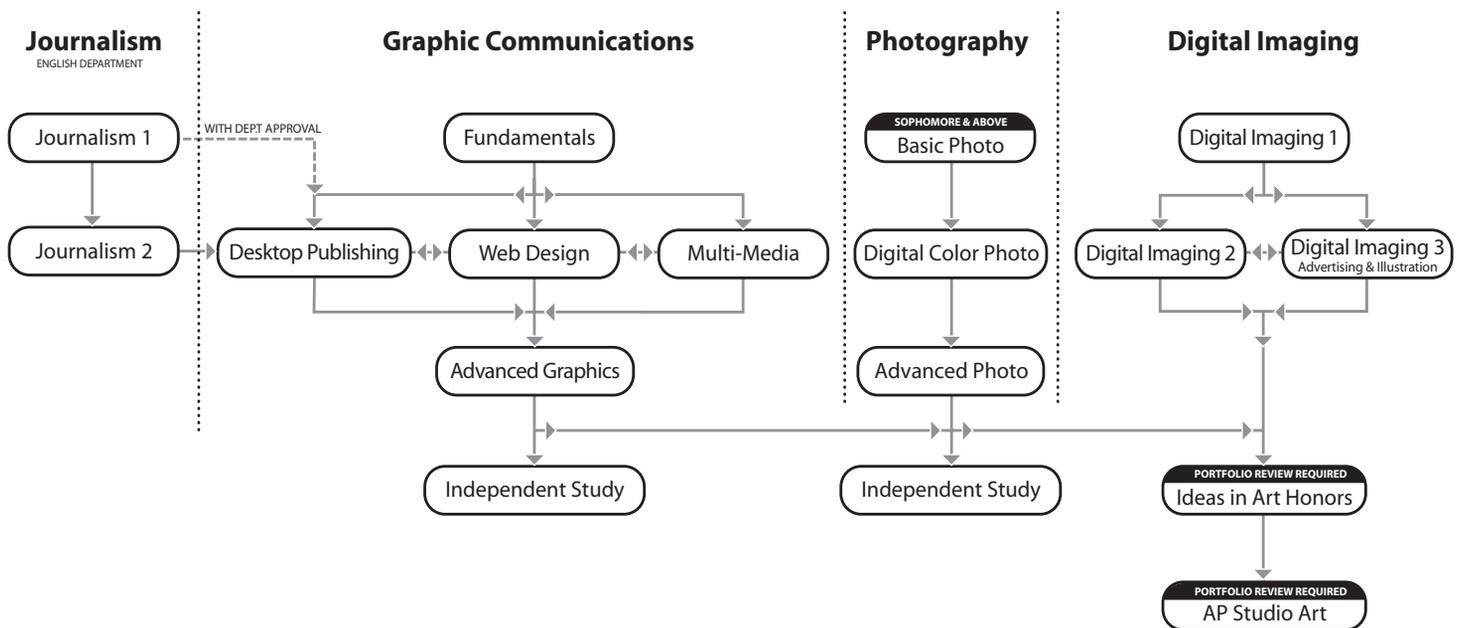

Articulated credits at College of DuPage are available to Hinsdale Central students who complete certain courses at Hinsdale Central with a minimum grade of a B and who, upon graduation, attend C.O.D.

The following courses offer articulated credit at College of DuPage:

- Digital Imaging 3: Advertising and Illustration
- Basic Photography
- Digital Color Photography

Each class has a lab fee charged to students for materials.

The mission of the Integrated Art and Technology Education Program at Hinsdale Central High School is to create opportunities for students to use technology as a tool to demonstrate creative expression and/or technical skill. Courses offered in this program will provide students with experiences in digital media and technology, including: photography, graphic communications, design and illustration, digital imaging, web design, multimedia, animation, and other relevant digital media and technology.

Integrated Art & Technology Education Program

Program Course Sequences

DIGITAL IMAGING PROGRAM

DIGITAL IMAGING 1

Course # 5121

1st or 2nd semester

Credit: 0.5

Digital Imaging 1 introduces students to the artistic potential of the computer. Artistic and creative problem solving strategies are developed which can help students in all areas of learning. Students take their own digital photographs. Each student will use his/her digital photographic images to create original works of art using the software Adobe Photoshop CS3. Students will create a cartoon in Adobe Illustrator CS3 and a digital portfolio is created in Adobe Flash MX.

Prerequisite: None. Open to grades 9, 10, 11, 12. Supply Fee \$17.00

DIGITAL IMAGING 2

Course # 5132

2nd semester

Credit: 0.5

Digital Imaging 2, a continuation of Digital Imaging 1, further explores the artistic potential of the computer and creative problem solving strategies. Students will increase their artistic knowledge and skills while working on independent project ideas based on his/her theme in art. Traditional art materials will be explored or added as students are encouraged to think outside the “digital box”. Students take their own digital photographs. Each student will use his/her digital photographic images to create original works of art. Working knowledge of Adobe Photoshop CS3, Adobe Illustrator CS3, and Adobe Flash, will be needed.

Prerequisite: Digital Imaging 1: Open to grades 9, 10, 11, 12. Supply Fee: \$17.00

DIGITAL IMAGING 3: ADVERTISING AND ILLUSTRATION

Course # 5331

1st or 2nd semester

Credit: 0.5

Digital Imaging 3 is a graphic design advertising art class. Students interested in a career in Graphic Design, learn the essential skills of design as it relates to advertising. The computer is used as a tool to create and solve real world design problems. Traditional illustration or drawing techniques will also be explored. Design principles have been introduced and learned, through a series of small projects. Afterwards, the course will be run like an advertising design business with a client/designer relationship underlying major projects. Working knowledge of Adobe Photoshop CS3, Adobe Illustrator CS3, and Adobe InDesign will be needed.

Prerequisite: Digital Imaging 1: Open to grades 9, 10, 11, 12. Supply Fee: \$17.00

GRAPHIC COMMUNICATIONS PROGRAM

GRAPHIC COMMUNICATIONS-FUNDAMENTALS (GCF)

Course # 6661

1st or 2nd semester

Credit: 0.5

This course provides students with the essential skills necessary for creating print and web documents. Special emphasis is placed on furnishing students with realistic experiences using industry standard software such as Adobe Illustrator and PhotoShop. Areas of study include technical illustration, typography, color models, photo retouching and image preparation. This course provides sound fundamental skills for later courses in Graphic Communications.

Prerequisite: None. Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00

GRAPHIC COMMUNICATIONS -DESKTOP PUBLISHING (GCDP)

Course # 6650

1st or 2nd semester

Credit: 0.5

Learn to design, layout and prepare documents for print. Use of Adobe InDesign and related Adobe products is stressed. Topics include typography and typographic controls, color usage, preparation of photographic and line art, working with copy, setting up master pages and style sheets, paper characteristics, and binding processes. This course covers essential skills used in producing the Devil's Advocate (newspaper) and El Diablo (yearbook) and is especially recommended for students who are interested in editorial positions.

**Prerequisite: GCF or Journalism 1 (J1 taken concurrently with dept. approval)
Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00**

GRAPHIC COMMUNICATIONS -WEB DESIGN (GCW)

Course # 6662

1st or 2nd semester

Credit: 0.5

Create professional looking web sites! Web Design provides students with an overview of essential disciplines found in electronic publishing for the Internet. **This is not a programming course.** Instead, the focus of the class will be on providing students with realistic experiences needed to create HTML based web sites using professional web page editing software. Areas of study include Internet history, information architecture, interface design, site navigation systems, graphic optimization, and web page editor use.

Prerequisite: Graphic Communications-Fundamentals (GCF). Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00

GRAPHIC COMMUNICATIONS -WEB-BASED MULTIMEDIA (GCOMM)

Course # 6681

1st or 2nd semester

Credit: 0.5

Create motion graphics and video! This course give students the skills to create animated graphics, Flash animations, and produce simple videos. Students will gain experience using industry standard software like Adobe Image Ready, and Flash to create many to the types of motion graphics found on the web. Students will also be introduced to digital video, learn how to capture and edit their footage, and ultimately producing their own short commercials.

Prerequisite: Graphic Communications-Fundamentals (GCF). Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00

Art Department

GRAPHIC COMMUNICATIONS - ADVANCED GRAPHICS (GCA)

Course # 6660

1st or 2nd semester

Credit: 0.5

This course is designed for those students who wish to apply the skills learned in their study of Graphic Communications to real world projects. Students will focus on several areas of interest and develop real world products in a client-project manager arrangement.

Prerequisite: Graphic Communications-Fundamentals (GCF) and one of the following: GCW, GCMM, GCDP. Open to grades 10, 11 & 12. Supply Fee: \$10.00

GRAPHIC COMMUNICATIONS - INDEPENDENT STUDY (GCIS)

Course # 6905/6906 - Graphic Communications

1st or 2nd semester

Credit: 0.5

This course is for students who have exhausted other course offerings and wish to further skills learned in the Graphic Communications program in an independent atmosphere.

Prerequisite: Department approval. Open to grades 11 & 12. Supply Fee: \$10.00

PHOTOGRAPHY PROGRAM

BASIC PHOTOGRAPHY

Course # 6691

1st or 2nd semester

Credit: 0.5

Basic Photography is for students interested in learning the techniques necessary to produce technically correct and aesthetically pleasing photographs, as well as the responsibility of caring for photographic equipment using the 35 mm SLR camera. Areas of study will include, but are not limited to: the composition of good photographs; the processing of black and white photographic materials; and proper application of equipment, supplies and special darkroom techniques. Equipment and supplies will be provided and cameras will be available for students who do not have access to a 35mm SLR camera.

Prerequisites: None. Open to grades 10, 11 & 12. Supply Fee: \$35.00.

DIGITAL COLOR PHOTOGRAPHY

Course # 6701

1st or 2nd semester

Credit: 0.5

This course is designed for someone interested in the modern methods of **Digital Color Photography**. The student will use a digital camera to capture images. After capture, editing will be accomplished in the digital darkroom using the computer and the software **Photoshop**. Areas of study include, but are not limited to: the principles of color and light; elements of a good photograph; capturing images with a digital camera; editing a photograph for presentation with **Photoshop**; printing a digital file in color; and preparing a photograph for display. The studio will be used to further the use of shade and shadow, light ratios, and photographic composition techniques. Still life and portrait techniques will be explored. Equipment and supplies will be furnished. Cameras are available for students who do not own or have access to a digital camera. Basic Photography and Digital Color Photography together have articulated credit with the College of DuPage.

Prerequisites: Basic Photography. Open to grades 10, 11 & 12. Supply Fee: \$35.00.

ADVANCED PHOTOGRAPHY -

Course # 6812

2nd semester

Credit: 0.5

In this advanced level course, students will be expected to improve upon their current level of photographic ability. In terms of technique, this will involve the introduction of the medium format camera and the zone system (a procedure which will allow students to make more carefully controlled photographic prints.) Additionally, some non-traditional films, papers, and emulsions will be introduced. In terms of content, through class assignments and independent works students will begin to use the photographic medium to more effectively articulate ideas. Students may work with black and white film, color film, and digital cameras to capture images.

Prerequisite: Basic Photography and Color Photography with instructor approval. Open to grades 11 and 12. Supply fee: \$40.00.

PHOTOGRAPHY- INDEPENDENT STUDY

Course # 6907/6908

Credit: 0.5

This course is designed for students who have completed course sequence in photography program and desire further independent course work.

Prerequisite: Department approval. Open to grades 11 & 12. Supply Fee: \$40.00

BUSINESS

Accounting
Accounting Honors
Advanced Computer Applications
Business Law 1 & 2
Consumer Economics
Digital Communication Tools 1
Digital Communication Tools 2
Digital Tools and Applications
Entrepreneurship
Internship
Introduction to Business
Investment Planning
Marketing
Sports Marketing
Visual Basic Programming

Business courses can fulfill 1 credit for the District 86 graduation requirement in the Elective Arts. Business courses can also be taken for general/elective credit. The 0.5 consumer education graduation requirement may be met by successful completion of the department's Consumer Economics course or Introduction to Business.

Business Department courses are electives; however, with the increase in reliance on technology in our society, the department strongly recommends that all students include computer courses in their high-school studies (i.e., Digital Communication Tools 1 & 2, Digital Tools and Applications, Advanced Computer Applications).

Students who are contemplating a Business major in college should select one or more Business electives. Because of the difficulty of college-level Accounting, students are urged to take an Accounting course at Hinsdale Central.

	<u>Full-year Courses</u>	<u>Semester Courses</u>

Business Department Computer Curriculum

Computer Courses

DIGITAL COMMUNICATION TOOLS 1*Course # 6121*

1st or 2nd semester

Credit: 0.5

This course enables students to acquire and refine vital and emerging computer skills in this digital age. Students will develop keyboarding skills using the touch method, and be introduced to some of the latest input technologies, including speech recognition software and using tablet PC's. Constructing, formatting and editing documents using Microsoft Word, Excel, and PowerPoint will be the focus of production work in this course. Internet applications and email will also be taught and utilized during class projects. [Credit is NOT given for both Digital Communications Tools 1 and Digital Tools and Applications.]

Prerequisite: None. Next course in sequence: Digital Communications 2. Open to grades 9, 10, 11 & 12.

DIGITAL TOOLS AND APPLICATIONS*Course # 6130*

Full year

Credit: 1.0

This course enables students to acquire and refine vital and emerging computer skills in this digital age. Students will develop keyboarding skills using the touch method, and be introduced to some of the latest input technologies, including speech recognition software and using tablet PC's. Constructing, formatting and editing of documents using basic and more advanced features Microsoft Word, Excel, and PowerPoint. Desktop Publishing, database, and web page development will also be introduced. Internet applications and email will also be taught and utilized during class projects. This year-long course will take your computer skills to new heights, enabling you to integrate technology in a variety of ways in projects for other classes. [Credit is NOT given for both Digital Communication Tools 1 and 2 and Digital Tools and Applications.]

Prerequisite: None. Next course in sequence: Advanced Computer Applications. Open to grades 9, 10, 11 & 12.

DIGITAL COMMUNICATION TOOLS 2*Course # 6331*

1st or 2nd semester

Credit: 0.5

Continue to develop your overall computer skills in this course as more advanced features are taught in word processing, spreadsheets and charts, and digital presentations. Desktop publishing, database and web page development will also be introduced. Constructing, formatting and editing of documents using Microsoft Word, Excel, PowerPoint, Publisher, Access and FrontPage will continue to be the focus of production work in this course. Internet applications and email will also be utilized during class projects. Students will also continue to work with some of the latest input technologies, including speech recognition software, as well as stylus input and handwriting conversion using Tablet PC's.

Prerequisite: None, however, Digital Communication Tools 1 is recommended. Proper keyboarding technique and speed, along with basic document development, formatting, and proofreading are expected. Open to grades 9, 10, 11 & 12.

ADVANCED COMPUTER APPLICATIONS*Course # 6341*

1st or 2nd semester

Credit: 0.5

Can't get enough of computers? This course may be for you. Students will further their skills using Microsoft Office (Word, Excel, PowerPoint, Access) and increase their web page development skills. Video capture, podcasting, storyboarding, and video editing software will also be introduced. A simulated company web page will be developed by students and used throughout the course to demonstrate their new computer skills.

Prerequisite: Digital Communication Tools 2 or Digital Tools and Applications. Open to grades 10, 11 & 12.

VISUAL BASIC PROGRAMMING*Course # 6351*

1st or 2nd semester

Credit: 0.5

Do you have a desire to take your computer skills to a new level? If so, then Visual Basic may be the course for you. Learn how to create applications in a graphical user interface to solve business problems. Microsoft's Visual Basic simplifies many routine programming tasks by providing tools that allow you to create applications for the Windows operating system. A variety of stand-alone and Microsoft Office-related applications will be developed.

Prerequisite: None. Open to grades 10, 11 & 12.

Business

General Courses

INTRODUCTION TO BUSINESS

Course # 6100

Full year

Credit: 1.0 (0.5 Elective Arts/0.5 Consumer Ed. - Must complete the entire year to receive Consumer Ed. credit)

This course gives students a background in the basic operations of business and develops an understanding of the economic role of business in our society. Major areas of study include banking, credit, insurance, budgeting, consumer protection, government, entrepreneurship and taxes. Skill is developed through a wide variety of activities including computer research, projects, and classroom activities. **Successful completion of this course fulfills the District's Consumer Education requirement for graduation.**

Prerequisite: None. Open to grades 9 and 10.

INVESTMENT PLANNING

Course # 6111

1st or 2nd semester

Credit: 0.5

In this course students will study basic investment principles involving stocks, commodities, bonds and mutual funds. Students will also learn about tax information, effects of the economy on the market, government regulations of securities and on-line investing. Current issues as they relate to investing will be discussed. Teams will be formed to participate in the Stock Market Game by trading on-line.

Prerequisite: None. Open to grades 10, 11 and 12.

ACCOUNTING

Course # 6170

Full year

Credit: 1.0

This course develops a basic understanding of double-entry accounting. The accounting cycle, accounting theory, financial reports and financial analysis are included. Accounting simulation sets, Excel spreadsheets and automated accounting software are used to apply all accounting concepts. This course is recommended for college-bound students planning a career in accounting, finance, management or marketing.

Prerequisite: None. Open to grades 11 and 12.

ACCOUNTING HONORS

Course # 6180

Full year

Credit: 1.0

Accounting Honors will prepare students for the rigor of college accounting. Students will develop an understanding of double-entry accounting. Topics covered include the following: accounting cycle, accounting systems, internal controls, journals, receivables and payables, accruals and deferrals, inventory, fixed assets and depreciation, financial statement preparation and analysis, taxes, and an introduction to managerial and cost accounting. A computerized accounting program will also be utilized, as well as the Excel spreadsheet program.

The core material for this course is similar to Accounting 6170; however, more topics are covered, the pace is accelerated and expectations are higher. This course is highly recommended for motivated students planning to enter a college business program.

Prerequisite: Department Chair approval. Open to grades 11 and 12.

MARKETING

Course # 6181

1st or 2nd semester

Credit: 0.5

This course focuses on the activities necessary to market products, services, and ideas to consumers. Major topics include market segmentation, consumer behavior, marketing research, product planning, and advertising. Students will apply marketing concepts learned in class by researching, creating and advertising new products.

Prerequisite: None. Open to grades 10, 11 and 12.

SPORTS MARKETING

Course # 6183

1st or 2nd semester

Credit: 0.5

This intermediate marketing course will introduce students to the exciting field of sports marketing and its role in society. Students will develop a thorough understanding of the marketing concepts and theories that apply to sports and sporting events. The areas this course will cover include sponsorships, endorsements, licensing, event marketing and sports marketing plans. Students will plan, create, and assess sports marketing communication programs that include advertising, marketing, public relations and news media. Emerging issues in sports marketing will also be discussed.

Prerequisite: Marketing Open to grades 10, 11 and 12

General Courses

BUSINESS LAW 1*Course # 6231*

1st or 2nd semester

Credit: 0.5

This course introduces students to the legal system and the law as it applies to personal and business situations which may occur in their daily lives. It also examines the court system, torts, technology and the law, contracts, family law, wills and estates. Key elements of this course are case studies, mock trials and a field trip to the courts.

Prerequisite: None. Next course in sequence: Business Law 2. Open to grades 11 and 12.

BUSINESS LAW 2*Course # 6232*

2nd semester only

Credit: 0.5

This course examines the criminal justice system, the Supreme Court, bailments and real estate transactions, ethics and employment policies and contracts. Group discussions, case studies, guest speakers and a field trip will be utilized to present and examine these concepts. To develop a better understanding of the legal system, students will participate in a mock trial tournament.

Prerequisite: Business Law 1. Open to grades 11 and 12.

ENTREPRENEURSHIP*Course # 6241*

1st or 2nd semester

Credit: 0.5

Do you have an interest in owning or running a business some day? This course will help you develop that entrepreneurial spirit and the skills necessary to be successful in your new business. Topics of study include the entrepreneurial personality and skills; marketing, financing and managing a business; legal requirements of a business; and career opportunities in entrepreneurship. Students will develop an idea, create a business plan, and then use the business plan to actually start and run a business in this course.

Prerequisite: None. Open to grades 11 and 12.

CONSUMER ECONOMICS*Course # 6301*

1st or 2nd semester

Credit: 0.5

This course helps students to understand the consumer's role in a mixed economy. Students will learn about various topics that they will use their entire life. Topics of study include: money management, consumer rights and responsibilities, credit, purchasing of goods and services, making sound investment plans and preparing individual tax returns. **Successful completion of this course fulfills the District's Consumer Education requirement for graduation. (An on-line version of this course is available. See page 10 for details.)**

Prerequisite: None. Open to grades 10, 11 and 12.

INTERNSHIP*Course # 8401, 8402*

1st or 2nd semester

Credit: 0.25 general credit only—not Elective Arts credit)

This program is designed to provide students with an opportunity for career exploration in a field of their choice. Students will work with a mentor outside of the school day for 50-75 hours in their career field. Due to time constraints, it is suggested that students have their own placements, however, if assistance is needed finding a placement, students should contact an internship coordinator. Students will be expected to keep a detailed journal, write a reflection paper and discuss their experiences with a related class.

Prerequisite: None. Open to grades 11 and 12 upon acceptance after interview.

Rahul Sawlani, edit.

DRIVER EDUCATION

Course # 7461, 7462

1st or 2nd semester

Credit: 0.25

Classroom Driver Education, though an elective course, is required in order to obtain a state driver's license prior to the age of 18. Driver Education will follow state mandates on the number of hours of classroom instruction and in-car training. Student schedules must allow for one period per day during one semester in order to complete course requirements. Coordinator: Alan Housner

Due to recent changes in Drivers Education laws by the State of Illinois, our school may not be able to honor all requests by students to enroll in Drivers Education during their sophomore year. Students will be enrolled according to birthdates.

Students enrolled in Driver Education will receive two grades at the end of the semester: one for the classroom phase, and one for the behind-the-wheel phase. Upon successful completion of the Driver Education Cooperative Testing program, students will be eligible for their license without need for further examination by the Illinois Secretary of State Office. **\$20.00 Permit fee required by State.**

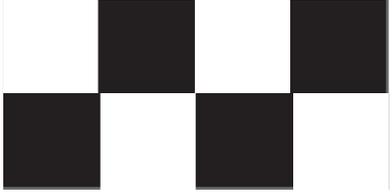

* According to state statute, Driver Education permits cannot be issued until 30 days prior to class.

Prerequisite: None. Preference is given to grades 10, 11 and 12.

Per State Law:

As a prerequisite, students enrolling in Driver Education must be passing eight semester classes within the two most recent semesters of attendance. Only classes used to determine a student's GPA will be allowed to meet this requirement.

ENGLISH

High School District 86 requires the successful completion of a minimum of four English credits for graduation. In addition, all students who are enrolled in school must be enrolled in an English course **each semester**. The four credits in English must be taken and passed sequentially and include full year courses freshman and sophomore years and full or half year courses junior and senior years. Junior and senior students must take Core English courses in the following areas: semester courses in Writing, Literature and Communication, or full year courses in Literature/Writing. Only one Communication course taken junior or senior year will count toward the Core requirement. There are enrichment courses open to all grade levels.

VISION STATEMENT

The skills and knowledge of English/language arts are essential for student success in virtually all areas of the curriculum and society. To meet the challenges of the 21st Century and beyond, students need to be clear and effective writers and speakers, critical and insightful readers, skilled information processors, collaborative and independent, and lifelong learners. With the guidance of parents, community, and a dedicated English faculty, our students will graduate from Hinsdale Central as valuable contributors to the world in which we live.

MISSION STATEMENT

The mission of the English Department is to develop in each of our students the following academic attributes: an understanding and appreciation of literature; a proficiency and confidence in writing; the ability to understand communication clearly through active listening, critical observation, and analysis; meaningful questioning skills; habits of critical reading, writing, and speaking skills that carry over to adult life; creativity and imagination in the areas of reading, writing, and speaking; and an appreciation of various cultural and human perspectives through the study and discussion of literature.

ESL-ENGLISH 1A**Course # 1050**

Full year

Credit: 1.0

This course is designed for the English Language Learner (ELL) who is new to the United States and whose English proficiency is emerging and developing. The course focuses on teaching basic communication and study skills in order for the ELL to be successful at Hinsdale Central High School. Listening, speaking, reading and writing skills will be taught in order to help the ELL in mainstream classes succeed academically and complement the ESL-English 1B curriculum. In addition, the course will provide activities to include students in the American culture.

Prerequisite: English Language Learner Program (ELL) director and English Department Chair approval. Open to grades 9-12.

ESL-ENGLISH 1B**Course # 1030**

Full year

Credit: 1.0

This course continues the work started in ESL-English 1A by developing emerging and beginner listening, speaking, reading and writing strategies and skills in standard American English to the English Language Learner (ELL). This course will parallel the goals and skills of English 1. In addition, the course will continue to build student communication skills and self-advocacy skills in standard American English to aid in mainstream academic success.

Prerequisite: English Language Learner Program (ELL) director and English Department Chair approval. Open to grades 9-12.

ESL-ENGLISH 2**Course # 1040**

Full year

Credit: 1.0

The goal of ESL-English 2 is to prepare the intermediate level English Language Learner (ELL) to transition successfully into the mainstream English class. The course will continue to develop skills and strategies in listening, speaking, reading and writing of standard American English while focusing on how the strategies can be used in mainstream academic success. Course materials will parallel the goals and skills of the English 2 program. This course reinforces self-advocacy skills to promote mainstream academic success for the transitioning English Language Learner.

Prerequisite: English Language Learner Program (ELL) director and English Department Chair approval. Open to grades 9-12.

ENGLISH 1**Course # 1110**

Full year

Credit: 1.0

English 1 incorporates instruction in many areas including literature, writing, speaking, research, vocabulary, and grammar. The literature includes nonfiction, short story, drama, poetry, and novels. Writing instruction includes summary, paraphrase, argument, analysis, and synthesis. Research skills – topic generation, source identification, evaluation, and attribution – are taught in conjunction with the library staff. Regular active class participation is essential. The goal of the course is to develop competent learners, thoughtful readers, enthusiastic writers, and effective oral communicators. **This course satisfies the ISBE graduation requirement for “intensive writing.”**

Prerequisite: Incoming freshman eligibility is based on multiple sources of information, including EXPLORE scores and recommendation of 8th grade instructor. Open to grade 9.

ENGLISH 1 HONORS**Course # 1120**

Full year

Credit: 1.0

This course is for the student who has achieved a high level of written and spoken accuracy and who reads avidly and enthusiastically. Students read a variety of literature. Discussion, in-depth analysis, and written assignments accompany these readings. Classical and contemporary dramas are taught, and creative writing from the students is encouraged through their own poetry and story composition. In addition, the expository writing process and grammar usage are emphasized. Speeches and group performances are required. Consistent, thoughtful class participation is highly valued. **This course satisfies the ISBE graduation requirement for “intensive writing.”**

Prerequisite: Incoming freshman eligibility is based on multiple sources of information, including EXPLORE scores and recommendation of 8th grade instructor. Open to grade 9.

English Department

ENGLISH 2
Course # 1210
Full year
Credit: 1.0

English 2 covers the areas of literature, writing, vocabulary, grammar, and speech. Through literature, selected plays, poetry, and novels, students will learn to analyze and appreciate literature. In the area of writing, an emphasis is placed on multi-paragraph essays. Grammar and vocabulary will be covered throughout the year in conjunction with writing and literature. Public speaking will be practiced. Consistent class participation is imperative. **This course satisfies the ISBE graduation requirement for “intensive writing.”**

Prerequisite: English 1. Open to grade 10.

ENGLISH 2 - HONORS
Course # 1220
Full year
Credit: 1.0

Challenging reading and writing assignments form the foundation of the English 2 Honors curriculum. Geared towards students who show strong motivation and high academic achievement, the class helps students develop critical thinking patterns and effective oral and written communication skills. Students are expected to work on long-range assignments and to be consistently active in class discussions. Research fundamentals—topic generation, source evaluation and attribution—are taught in conjunction with the library staff. Active class participation, in the form of peer editing, small group work and partner projects as well as class discussion, is expected of all students. **This course satisfies the ISBE graduation requirement for “intensive writing.”**

Prerequisite: English 1 or English 1 Honors and Department Chair approval. Open to grade 10.

CORE WRITING COURSES

COMPOSITION
Course # 1311
1st or 2nd semester
Credit: 0.5

This course is designed for the student with average to below-average writing skills and focuses on prewriting and revision as keys to writing improvement. In addition, emphasis is placed on basic writing topics such as thesis statements, organizational patterns, paragraph development, and sentence correctness. The core writing assignments include personal narration, process, description, college application essay, writing about literature, and a research paper. Students will work within groups to evaluate the effectiveness of their writing assignments. Students must write a research paper in order to earn credit for the course.

Prerequisite: English 2. Open to grades 11 & 12.

EXPOSITORY WRITING
Course # 1321
1st or 2nd semester
Credit: 0.5

Harness the power of the written word! By studying classic and contemporary essays, students learn to implement a variety of writing techniques to craft original essays that are related as much as possible to the students’ own interests and life experiences. Students are challenged to expand their conception of essay form and development. Basic grammar and style will be reinforced in order to help students write clearly. Students will also learn to construct a detailed research paper through careful topic selection, rigorous information collection using the school’s library databases, and effective organization and appropriate formatting of the finished paper. Students must write a research paper in order to earn credit for the course.

Prerequisite: English 2. Open to grades 11 & 12.

RHETORIC
Course # 1351
1st or 2nd semester
Credit: 0.5

In today’s complex world, clear communication is imperative. This course draws on the traditional study of rhetoric—in terms of the persuasive appeals, purpose, and audience—to lay the groundwork for solid, thoughtful, and effective written communication. The class helps students develop into clear, incisive thinkers who can write confidently in various situations for various purposes. Rhetoric also focuses on building research skills to ensure that students are well-versed in finding, evaluating, and synthesizing multiple sources of information. Students will hone their writing skills in order to discover, explain, question, and justify stances on controversial issues in our contemporary world.

Prerequisite: Expository Writing or English 3. Open to grade 12.

HONORS SEMINAR IN WRITING

Course # 1355

Full year

Credit: 1.0

Honors Seminar in Writing is a class for the intellectually curious who value the power of the written word and are eager to become more sophisticated writers. This year-long course is especially designed for those who have been grabbed by the rhetorical nature of AP Language and Composition and are interested in analyzing stylistic elements in professional and personal writing. Students will read texts that are challenging and nuanced and, in their writing, explore real-world complexities through primary and secondary research. The members of this course are committed to crafting and revising their own nonfiction essays, with the intention of publication. Join this small community of students who appreciate the art of writing.

Prerequisite: Expository Writing, AP Language and Composition, or English 3 and Department Chair approval. Open to grade 12.

CORE LITERATURE COURSES

AMERICAN LITERATURE

Course # 1561

1st or 2nd semester

Credit: 0.5

“I hear America singing, the varied carols I hear...” So wrote Walt Whitman in his famous poem, “I Hear America Singing.” Over the course of the semester, students will study the “varied carols” in American Literature in order to learn about our country and, ultimately, themselves. Students will read and analyze works from diverse authors, genres, themes, and styles as they explore how literature links us to our historical and cultural heritage. As they sample literature from the American Enlightenment (1776) to the present, they will see how literature is a reflection of a changing American society. They will examine how the American ideals of freedom, opportunity, equality, and independence are reflected in American literature and how literature helps shape such ideals. Class participation is imperative so that students can exchange ideas and interpretations of the literature.

Prerequisite: English 2. Open to grade 11.

UNITED STATES LITERATURE

Course # 1511

1st or 2nd semester

Credit: 0.5

This course focuses on developing reading skills through a variety of mediums including fiction, non-fiction, drama, and media. Students are required to be productive and engaged participants in daily class activities, such as the practice of specific reading strategies, discussion, and written responses. Homework reading is required.

Prerequisite: English 2. Open to grade 11.

SENIOR LITERATURE

Course # 1491

1st or 2nd semester

Credit: 0.5

Powerful stories affect us in profound ways, inspiring us, challenging us, deepening our human experience. The fundamental approach to Senior Literature is to aid students in fostering a love of reading by encouraging strong emotional connections with powerful stories, while emphasizing reading skills and literary analysis. Students in this course study the ways storytellers use their art to make us feel and think more deeply. This is a moderately paced course designed for the senior student who has taken U.S. Literature as a junior. Students encounter many exciting types of texts, including both traditional forms of fiction and drama, as well as graphic novels, films, and nonfiction texts. Group discussion is emphasized, but students also write essays, take tests, and give oral presentations about these texts.

Prerequisite: United States Literature. Open to grade 12.

WORLD LITERATURE

Course # 1541

1st or 2nd semester

Credit: 0.5

This college preparatory course for the average and above average reader will afford students the opportunity to gain a better understanding of and appreciation for various cultures from around the world. Through an array of compelling—and mostly contemporary—works, students will be challenged to grapple with universal problems and themes. Common assessments include essays and other writing assignments, discussion, quizzes/tests, oral presentations, and projects.

Prerequisite: None. Open to grade 12.

English Department

BRITISH LITERATURE 1

Course # 1581

1st or 2nd semester

Credit: 0.5

Human tragedy, genuine emotion, realistic, flawed characters, and outrageous jokes—all reasons that we still read the works of Shakespeare. British Literature I offers students the opportunity to discover the genius of Shakespeare's plays. This course explores the comedies, tragedies, and histories of the most famous playwright of the English language. Emphasis is placed on the memorable characters, riveting plots, and universal themes present in some of Shakespeare's most popular plays. Evaluation is based on discussion, quizzes, essays, tests, and, of course, performance.

Prerequisite: None. Open to grade 12.

BRITISH LITERATURE 2

Course # 1591

1st or 2nd semester

Credit: 0.5

This college preparatory course for the average and above average reader focuses on the role of literature in Ireland's rich, violent, and tumultuous past. Students will read and discuss contemporary and historical issues in Ireland and, by extension, Great Britain through books, plays, short stories, newspaper articles, and films. The issues of oppression, resistance, and desire for freedom will be at the heart of this course. Evaluation is based on discussions of the readings, written activities, presentations, and tests/quizzes.

Prerequisite: None. Open to grade 12.

CORE LITERATURE/WRITING COURSES

ENGLISH 3

Course # 1320

Full year

Credit: 1.0

Take a personal journey through the American Dream in English 3. In this course we will explore some of the most popular and enduring works of American literature, focusing on what makes Americans unique. Students will have the opportunity to improve their writing through ACT style prompts, dealing with both personal perspective and literary analysis, as well as the "college essay." English 3 students will also explore personal interests and improve their research and writing skills through the I-Search paper. The course culminates with America On Stage—a showcase of performances of poetry, drama, and comedy of America.

Prerequisite: English 2. Open to grade 11.

AMERICAN STUDIES

Course # 1550

Full year

Credits: 1.0 English, 1.0 Social Studies

American Studies surveys America's past through the use of non-fiction texts, novels, films, visual arts, music, news sources, and primary source documents. The curriculum integrates history and literature by examining American texts through rhetoric, analysis, thematic connection, and inquiry. Students will find a challenging educational environment utilizing a variety of methodologies including current event discussions, media presentations, and field trips. The course meets for two back-to-back periods and is team taught in a larger setting. Teachers plan, instruct, and evaluate student work together.

Prerequisite: English 2. Open to grade 11.

ADVANCED PLACEMENT LANGUAGE AND COMPOSITION

Course # 1730

Full year

Credit: 1.0

According to the College Board, an Advanced Placement Course in English Language and Composition is designed for talented, imaginative students who read with finesse and write with clarity and style; who are curious and responsive to academic risk-taking; and who are not deterred by hard work. In this college-level writing course, students develop the ability to analyze the rhetorical features of texts, speeches, and visuals as well as to produce their own writing—both analytical and argumentative—on a variety of subjects. In addition to in-class and shorter out-of-class writing assignments, students will also learn how to access, evaluate and cite primary and secondary sources so that they can develop writings of extended length. This course assumes that students understand and capably use standard English grammar and prepares students for the Advanced Placement Exam in Language and Composition.

Prerequisite: English 2 Honors or Department Chair approval. Open to grade 11.

ADVANCED PLACEMENT LITERATURE AND COMPOSITION

Course # 1731

Full year

Credit: 1.0

This Advanced Placement Literature and Composition course is designed as an intensive study of literature drawn from multiple genres, time periods, and cultures, including but not limited to such authors as Shakespeare, Paton, Atwood, and Conrad. Students will read poetry, drama, novels, and short fiction deliberately and thoroughly, participating orally and in writing in close textual analysis. Independent, outside reading will be expected. Assignments include in-class essays, research projects, memorizations, oral presentations, and analytical writings. Students are responsible for participating actively and taking the lead in class discussions of the literature they read. This course prepares students for the Advanced Placement Exam in Literature and Composition.

**Prerequisite: AP Language and Composition or Department Chair approval.
Open to grade 12.**

CORE COMMUNICATION COURSES

SPEECH/COMMUNICATION

Course # 1411

1st or 2nd semester

Credit: 0.5

Effective communication is the key to success in all aspects of life. This course helps students become effective communicators in everyday, person-to-person relationships. Students deliver a variety of speeches, including narrative, argumentation, informative, and interview. Assignments vary between individual and small group presentations. The course teaches listening skills and the ability to give and receive tactful and constructive criticism. Students are exposed to a wide variety of subject matter and must be involved daily in class discussion. At the completion of this course, each student should feel confident in choosing an appropriate topic, preparing written notes and outlines, and delivering a 3-5 minute speech with a strong introduction, body, and conclusion.

Prerequisite: None. Open to grades 11 & 12.

DISCUSSION AND DEBATE

Course # 1441

1st or 2nd semester

Credit: 0.5

Listening, leadership, courtesy, topic analysis, research, evaluation of sources and databases, articulation, and confidence—these are the life long skills fostered in Discussion and Debate. This course helps students learn to access a range of informational sources available at the Hinsdale Central library in order to build arguments about contemporary topics used in debates. Students will participate in formal and informal class discussions, a simulated town meeting, a group discussion panel, debates, current event speeches, and a role play of an individual's life after reading a biography or autobiography. Reading, writing, researching, and active participation are all major components of this course. Students should already have a familiarity with and a sense of confidence about public speaking as multiple performances will be required during the semester. By the end of the semester, students should feel a sense of mastery at organizing, working cooperatively with others, researching, preparing for, and delivering public performances.

Prerequisite: None. Open to grades 11 & 12.

ENRICHMENT COURSES

ACADEMIC READING

Course # 1100

Full year

Credit: 1.0

Academic Reading is designed for ninth grade students whose standardized test scores demonstrate that they would benefit from direct instruction in reading and vocabulary strategies. Students will be assessed in several skill areas throughout the year to track their growth. The curriculum is comprised of units that address skills that “good readers” internalize including determining main and supporting ideas, developing a variety of vocabulary strategies, and building fluency. To build reading skills, core textbook material will be supplemented with texts from students' social studies and science classes. Finally, students will engage in daily sustained silent reading of self-selected material. Academic Reading students are simultaneously enrolled in this course and English I.

Prerequisite: Department Chair approval. Open to grade 9.

English Department

JOURNALISM 1

Course # 1651

1st or 2nd semester

Credit: 0.5

This course introduces students to the fundamentals of journalism. Emphasis is placed on interviewing, writing, editing, assessing the audience, and meeting deadlines. Units of study include responsibilities and ethics, Associated Press style, interviewing, news writing, feature writing, and page design. All final story assignments must be typed, and the culminating activity is a feature story spread. This course is intended as a practical application of newspaper/newsmagazine newsgathering and writing techniques, not as an analysis of the media. While this course is open to all interested students, those students interested in becoming editors of *Devils' Advocate* or *El Diablo* are strongly encouraged to take Journalism 1 sophomore year.

Prerequisite: Students must have a B average in English. Open to grades 10 & 11.

JOURNALISM 2: NEWSMAGAZINE

Course # 1661, 1662

1st or 2nd semester

Credit: 0.5

Students in this class are editors and will be responsible for publishing *Devils' Advocate* according to established deadlines. Students will assume editorial leadership and participate in all activities required to create a quality publication using a desktop publishing system. Students will be expected to develop story ideas, research stories, write and edit copy, design pages and handle advertising accounts. Part of the grade is determined by job performance. Students should be prepared to spend out-of-class time working on the publication. Journalism 2 may be repeated for credit with consent of the instructor and department chair.

Prerequisite: Journalism 1, application and interview process, and consent of the newsmagazine adviser. Open to grades 10, 11 & 12.

JOURNALISM 2: YEARBOOK

Course # 1671, 1672

1st or 2nd semester

Credit: 0.5

Students in this class are editors and will be responsible for producing *El Diablo*. This course will cover skills and responsibilities of a journalist involved in publishing a yearbook. Students will assume editorial leadership and participate in all activities required to create a quality publication using a desktop publishing system. Students will be expected to develop story ideas, research stories, write and edit copy, design pages and handle advertising accounts to meet deadlines established by the adviser/instructor in accordance with the publication company's requirements. Students should be prepared to spend out-of-class time working on the publication in order to receive credit.

Prerequisite: Application and interview process and consent of the yearbook adviser. Open to grades 10, 11 & 12.

CREATIVE WRITING

Course # 1341

1st or 2nd semester

Credit: 0.5

Creative Writing encourages students to explore less conventional writing. Brainstorming, clustering, associational and analogical thinking, imaging, storytelling and imaginative fantasy are some of the in-class activities that generate students' writing of stories, poems, dialogs, prose vignettes, myths and personal essays. A journal, in which the student records thoughts, feelings, experiences, dreams, fantasies, memories and intuitive insights, serves as a sourcebook, providing the raw material from which more polished writing will emerge. Careful revisions as well as the sharing of one's own writing with the class in informal, non-threatening discussions also constitute an important part of the course's content.

Prerequisite: Department approval and a writing sample. Open to grades 11 & 12.

DRAMA

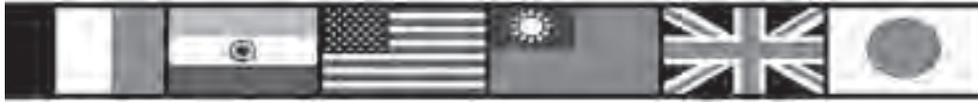

Course # 1681

1st or 2nd semester

Credit: 0.5

Drama has one prerequisite: the willingness to get up and perform! In this full participation performance class students learn and practice fundamentals of acting, movement, pantomime, and improv. In addition, students find, analyze, memorize, and act out monologues and scenes from plays. As a culminating experience, all students will participate in an evening performance to which parents and friends are invited. Class members are encouraged to experience an audition and to work onstage or backstage for the Drama Club's current production.

Prerequisite: None. Open to grades 9, 10, 11 & 12.

E.L.L.

English Language Learner Program

Lee-Cheng Wang, Design

MISSION STATEMENT

The mission of the English Language Learner Program (ELL) is to assist international students who have limited English skills. The ELL program provides academic and social support as students adjust to the American culture and, in particular, to Hinsdale Central High School. ELL will assist them in transitioning into the mainstream of the school community.

In order to fulfill the mission, ELL offers *academic* classes in English as a Second Language (ESL-1 and 2) for credit and ELL resource classes that may receive credit. ELL also addresses individual student needs, including language issues, academic programs, and cultural, social adjustments. English as a Second Language classes are taught in conjunction with the English Department in order to transition students into the mainstream English classes. As students adjust academically and socially, they *transition with support* into the full general education curriculum and the school community. Lastly, students exit the program when they are academically successful.

ESL-ENGLISH 1A

Course # 1050

Full year

Credit: 1.0

This course is designed for the English Language Learner who is new to the United States and whose English Proficiency is emerging and developing. The course focuses on teaching basic communication and study skills in order for the ELL to be successful at Hinsdale Central High School. Listening, speaking, reading and writing skills will be taught in order to help the ELL in mainstream classes succeed academically and complement the ESL-English 1B curriculum. In addition, the course will provide activities to include students in the American Culture.

Prerequisite: ELL Director Chair approval. Open to grades 9 - 12.

ESL-ENGLISH 1B

Course # 1030

Full year

Credit: 1.0

This course continues the work started in ESL-English 1A by developing emerging and beginner listening, speaking, reading and writing strategies and skills in standard American English to the English Language Learner. This course will parallel the goals and skills of English 1. In addition, the course will continue to build student communication skills and self-advocacy skills in standard American English to aid in Mainstream Academic Success.

Prerequisite: ELL Director approval. Open to grades 9 - 12.

ESL-ENGLISH 2

Course # 1040

Full year

Credit: 1.0

The goal of ESL-English 2 is to prepare the intermediate level English Language Learner to transition successfully into the Mainstream English class. The course will continue to develop skills and strategies in listening, speaking, reading and writing of standard American English while focusing on how the strategies can be used in Mainstream Academic Success. Course materials will parallel the goals and skills of the English Program. Lastly, this course reinforces self-advocacy skills to promote Academic Mainstream success for the transitioning English Language Learner.

Prerequisite: ELL Director approval. Open to grades 9 - 12.

ELL RESOURCE

Course # 1003, 1004

1st or 2nd semester

Credit: 0.25

or non-credit

This tutorial resource is designed to: 1) help students maintain satisfactory achievement levels in their regular classes; 2) encourage conversational English; 3) accelerate the development of vocabulary understanding, reading comprehension and writing skills in the English language; and 4) facilitate cultural adjustment.

Prerequisite: ELL Director approval. Open to grades 9, 10, 11 & 12 international students who have limited English language proficiency. This program may be scheduled in place of a regularly scheduled study hall. This course must be taken for credit if the student is enrolled in ESL1 or ESL2. It may be taken for credit or non-credit with ELL director recommendation.

ELL TUTOR

Course # 1013, 1014

1st or 2nd semester

Credit: 0.25

ELL tutors assist other individual ELL students with academic and English language needs.

Prerequisite: Recommendation of ELL Director. Open to grades 11 & 12.

Family & Consumer Sciences

Megan McDonald, design

Courses in Family and Consumer Sciences provide the foundation for professional careers, as well as personal enrichment. Students considering Family and Consumer Sciences related careers should prepare by enrolling early in departmental offerings in their preferred area. Lab fees are required in some courses.

◆ SUGGESTED SEQUENCING FOR FAMILY & CONSUMER SCIENCES CAREER AREAS ◆

FOODS

- * Intro. to Family & Consumer Sciences (9-12)
- Creative Cooking 1 (9-12)
- Creative Cooking 2 (9-12)
- Nutrition and Wellness (11-12)
- Chef and Restaurant (11-12)

FASHION

- * Intro. to Family & Consumer Sciences (9-12)
- Creative Sewing (9-12)
- Creative Sewing Independent Study (9-12)
- Fashion Merchandising (10-12)

INTERIOR DESIGN

- * Intro. to Family & Consumer Sciences (9-12)
- Architectural Styles & Design (10-12)

TEACHING

- * Intro to Family & Consumer Sciences (9-12)
- ** Child Care and Development (10-12)
- Invitation to Teach (12)

FAMILY LIVING

- Single Survival (11-12)
- Personal Perspectives (11-12)

◆ PLEASE REFER TO THE INDIVIDUAL COURSE DESCRIPTIONS FOR MORE INFORMATION ◆

COURSE TITLE	Course #	Prerequisite	Credit	Grade Offered
Intro. to Family & Consumer Sciences*	6400	No	1.0	9-12
Creative Cooking 1	6411	No	0.5	9-12
Creative Cooking 2	6412	Yes	0.5	9-12
Chef & Restaurant **	6421	Yes	0.5	11-12

* Meets Consumer Education graduation requirement (0.5 consumer education, 0.5 elective arts).

** Creative Cooking I or IFACS suggested

*** General credit only-not elective arts. Child Care & Development suggested as a prerequisite

INTRODUCTION TO FAMILY & CONSUMER SCIENCES

Course # 6400

Full year

Credit: 1.0 (0.5 consumer education, 0.5 elective arts) Must complete the entire year to receive consumer education credit.

This course introduces the student to the following areas of Family & Consumer Science: consumer education, child care, interior design, foods and sewing. The consumer education unit focuses on basic economic concepts such as career opportunities, budgeting, banking, credit, transportation and housing. Additional class activities include an interior design project, basic food preparation and entertainment, sewing projects and exposure to child development. **Successful completion of this course fulfills the District's Consumer Education requirement for graduation. Supply fee \$25.00**

Prerequisite: None. Open to grades 9, 10, 11 & 12.

CREATIVE COOKING 1

Course # 6411

1st or 2nd semester

Credit: 0.5

This course is designed to teach basic food preparation skills utilizing various types of culinary equipment and a range of preparation and cooking techniques. The following areas of study are covered in this course: measuring, cutting skills, cooking methods, nutrition, fruits, vegetables, breads, pastas, vegetarian dishes, desserts, and microwave cooking. The course culminates in a student driven practical final meal applying the knowledge they have learned over the semester. While this course provides personal enrichment, it may also serve as a foundation for further training in food service. **Supply fee \$25.00**

Suggested follow-up courses: Creative Cooking 2 and Chef & Restaurant.

Prerequisite: None. Open to grades 9, 10, 11 & 12.

CREATIVE COOKING 2

Course # 6412

1st or 2nd semester

Credit: 0.5

This course, a continuation of Creative Cooking 1, provides training in the following advanced techniques of food preparation: international and gourmet foods, cakes and cake decorating, pasta, pastry, yeast breads, pies and more. Students prepare a variety of recipes. While this course provides personal enrichment, it may also serve as a foundation for further training in food service. **Suggested follow-up: Chef and Restaurant. Supply fee \$25.00**

Prerequisite: 6411. Open to grades 9, 10, 11 & 12.

CHEF AND RESTAURANT

Course # 6421

1st or 2nd semester

Credit: 0.5

*Due to classroom space limitations students who have previously completed Creative Cooking I or IFACS will be given preferential placement.

Chef and Restaurant is an introductory course to professional food service operations. Previous cooking experience is extremely beneficial and may be required in the future for this course. The emphasis is on developing and managing quantity food service businesses, including pre planned and student generated menu and themes, as well as customized menu creation to serve the needs of clients. Several weeks will be spent on back of the house management including product costing, requiring math computation skills. This course serves as a foundation for students wishing to enter a chef or hospitality management program of study.

Supply fee \$25.00

***Prerequisite: Suggested Introduction to Family and Consumer Sciences ((6400) or Creative Cooking 1 (6411). Open to grades 11 & 12.**

NUTRITION AND WELLNESS

Course # 6431

1st or 2nd semester

Credit: 0.5

New Course

This course is designed to teach students how to build a lifetime of good nutrition and wellness practices while utilizing the food preparation skills from prerequisite courses. Students are given the essential tools to understand why and how people need to make more practical and healthy choices in their diet and daily routines. They will work cooperatively in lab groups applying what they have learned in each focused topic. While this course provides personal enrichment, it may also serve as a foundation for further training in health and culinary related fields. **Supply fee \$25.00**

Prerequisite: Grade of C or better in Introduction to Family and Consumer Sciences or Creative Cooking 1. Open to grades 11 & 12.

Family & Consumer Sciences

SINGLE SURVIVAL

Course # 6441

1st or 2nd semester

Credit: 0.5

This course is designed to provide skills to live independently after high school, whether away at college or living on their own. The course covers personal assets, career development, including resume writing, money management, credit, identity theft, nutrition and basic meal prep, insurance, transportation, taxes, getting an apartment and reflection on current topics.

Supply fee \$5.00

Suggested follow-up course: Personal Perspectives (6591).

Prerequisite: None. Open to grades 11 & 12.

PERSONAL PERSPECTIVES

Course # 6591

1st or 2nd semester

Credit: 0.5

This course, designed to help the student understand the challenges of our society, develops the student's ability to cope with problems and make adult decisions. Areas of study include: theories of personality development, family relationships, crisis in the family (alcoholism, divorce, death), communication skills, dating, marriage and parenting. **Suggested follow-up course: Single Survival (6441).**

Prerequisite: None. Open to grades 11 & 12.

CREATIVE SEWING

Course # 6551

1st or 2nd semester

Credit: 0.5

Students will learn to sew for practical purposes and personal enjoyment as they select three or more projects to meet skills requirements. Consecutive projects will increase in degree of difficulty as students use technology to assemble and create unique items. Areas of study include basic sewing machine techniques, fabric and pattern selection, construction techniques and interpreting pattern instructions. **Suggested follow-up courses: Creative Sewing Independent Study (6561) or Fashion Merchandising (6571). Supply fee \$10.00**

Prerequisite: None. Open to grades 9, 10, 11 & 12.

CREATIVE SEWING INDEPENDENT STUDY

Course # 6561

1st or 2nd semester

Credit: 0.5

This course focuses on advanced construction techniques on individually selected projects approved by the instructor. Students master the use of a computerized embroidery machine and serger. Areas of study may include textile arts, formalwear, pattern redesigning, fashion design, or other related areas of student interest. This course may be repeated twice, but subsequent projects must continually incorporate new sewing construction skills. **Suggested follow-up courses: Fashion Merchandising (6571) or second enrollment in Creative Sewing Independent Study (6561). Supply fee \$10.00**

Prerequisite: Creative Sewing. Open to grades 9, 10, 11 & 12.

FASHION MERCHANDISING

Course # 6571

1st or 2nd semester

Credit: 0.5

This course is designed to allow the student to explore and understand the various facets of today's fashion industry. Areas of study include: evolution of fashion, fashion drawing and design, the role of the fashion buyer, original design collection illustration, advertising and retailing functions. Projects include research on a specific designer, clothing trend studies, visual window display and a fashion show or class business incorporating all the retailing functions studied. While this course serves as a foundation for further training in a fashion related occupation, it also provides an opportunity for personal enrichment. **Suggested follow-up course: Creative Sewing (6551). Supply fee \$25.00**

Prerequisite: None. Open to grades 10, 11 and 12.

ARCHITECTURAL STYLES AND DESIGN

Course # 6451

1st or 2nd semester

Credit: 0.5

The focus of this course is on preparing students to select, furnish and decorate a residence. Emphasis is on the following: elements and principles of design, color, housing styles, window coverings, sample selection, decorating interiors and computer drafting. Design boards and technology presentations are incorporated in most projects. This course serves as a foundation for careers in architecture and interior design, as well as personal enrichment. **Supply fee \$25.00**

Prerequisite: None. Open to grades 10, 11 & 12.

CHILD CARE & DEVELOPMENT

Course # 6582

2nd semester only

Credit: 0.5

* Suggested 1st part of teaching sequence to be taken Sophomore or Junior year.

This course prepares the student for parenting or a career in the field of teaching or child-related occupations. Areas of study include family planning, pregnancy and childbirth, child development from infancy through eight years of age, and planning learning activities for an eight-week preschool practicum. Students will teach and observe children in our Discovery Corner Preschool as an integral part of the program.

***Suggested follow-up: Invitation to Teach (6481 or 6482).**

Prerequisite: None. Open to grades 10, 11 & 12. Articulated credit available through College of DuPage.

INVITATION TO TEACH

Course # 6481, 6482

1st or 2nd semester

Credit 1.0 (one semester two class periods)

Students who have previously completed Child Care & Development will be given preferential placement.

This course offers a teaching internship, enabling students to work under the supervision of certified preschool, elementary and middle school staff. Once placed, the students will spend four days each week at their assigned schools to assist, observe and teach young children. Teaching responsibilities include journaling, observing, creating a visual display, facilitating a guest speaker, creating and teaching lessons, and shadowing a teacher for a day. Classroom study is focused on related issues in education including meeting the needs of a diverse student population, classroom management, technology within the classroom and professional topics in education. **Supply fee \$10.00**

Suggested Prerequisite: Child Care & Development (6581). Open to grade 12 only.

***Enrollment based on application, counselor recommendation, and instructor approval (based on academic standing, school attendance and character).
*Application may be picked up in the Guidance office.***

Justin Geller, design

HEALTH EDUCATION

Course # 7501, 7502

1st or 2nd semester

Credit: 0.5 (Included in student's G.P.A.)

The goal of this course is to promote and develop positive attitudes and behaviors related to the overall wellness of Hinsdale Central students. Students are taught how to access valid health information and health-promoting products and services. The students will also learn how to analyze the influence of culture, media, technology and other factors on health. Topics of study within the Health Education program include: Introduction to Wellness, Alcohol, Tobacco and other Drugs, Nutrition and Fitness, Communicable and Non-communicable Diseases, and Human Reproduction. The curriculum is aligned with District 86 program goals, Illinois and National Health Education Standards.

REQUIRED FOR GRADUATION. This course should be taken in tandem with Physical Education during the sophomore year.

**INTRODUCTION TO SPORTS
MEDICINE**

Course # 7521

1st or 2nd semester

Credit: 0.5

The goal of this course is to help students become more knowledgeable and proficient in the following areas: principles and practices of athletic training; anatomy, physiology, injury recognition, treatment and rehabilitation as they relate to sports and leisure activities. This course also provides valuable hands-on experience and is highly recommended for those students who are interested in careers in nursing, medicine, athletic training, physical therapy, or coaching.

Prerequisite: Successful completion of Health Education or approval of Department Chair.

Open to grades 10, 11, & 12.

**Director of the Library Media Center
Mrs. Kathleen Krepps**

The mission of the Library Media Department is to support our educational community with information resources that empower teachers and students to become effective users of information and independent, responsible and enthusiastic life-long learners.

In order to realize this mission the librarians strive to:

- Provide resources in a variety of formats that support academic and personal interests;
- Deliver instruction in reading, research, technology and media literacies;
- Collaborate with faculty to design resource-based curriculum assignments and assessments.

The following course is offered through the Library Media Department:

DIGITAL VIDEO PRODUCTION

Course # 9201

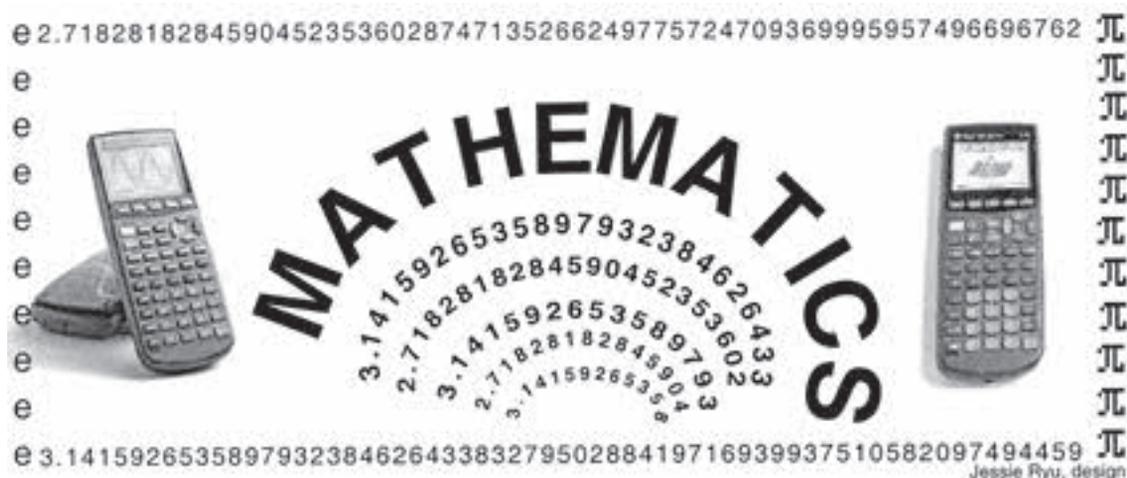

1st or 2nd semester

Credit: 0.5

This course is designed to develop students' skills in the creative and technical aspects of digital video production. Students will develop an understanding of video application and design. Instruction will include introduction to camera operations, audio and video editing, sound and lighting techniques and audio mixing. Students will learn to operate video and DVD recording equipment, video/digital cameras and microphones. Students will complete several video production projects demonstrating a sequential development of basic skills. The primary focus will be on enhancing communication and visual literacy skills.

The course will be scheduled either 1st or 10th period.

Prerequisite: None Open to grades 10, 11 & 12.

Three credits in mathematics are required for graduation.

Credit must be earned in both semesters of a full year course before advancing to the next course in the sequence. Any student who earns a D in a mathematics course is strongly recommended to retake one or both semesters in summer school before attempting the next course in the sequence. The deficiencies indicated by the D grade will make success in the next course in the sequence very difficult. Successful completion of Algebra and Geometry in any sequence and enrollment in Alg 2G, Alg2, or Alg2H during or before junior year is ideal preparation for college standardized testing.

Typical sequences are shown below:

<u>Freshman</u>	<u>Sophomore</u>	<u>Junior</u>	<u>Senior</u>
Alg. 2/Trig H	Pre-Calc H	AP Calculus (BC)	AP Statistics and/or Math topics
Integrated Alg. and Geo. H	Alg. 2/Trig H	Pre-Calc H	AP Calc (BC) and/or AP Statistics
Geometry H	Alg. 2/Trig H	Pre-Calc H and/or AP Statistics	AP Calc (BC) and/or AP Statistics
Geometry	Alg. 2/Trig	Pre-Calculus	AP Calc (AB) and/or AP Statistics
Geometry	Alg. 2 /Trig	Math Analysis and Intro. to Stat.	Pre-Calculus
Algebra 1	Geometry	Alg. 2/Trig	Math Analysis and/or Intro. to Stat.
Foundations of Alg. and Geo.	Alg. 1G (sem1)/GeoG (sem2)	Alg. 2 /Trig G	Math Analysis and/or Finite Math
Foundations of Alg. and Geo.	Alg. 1G	Geometry G	Alg. 2/Trig G
Applied Fund of Math	Foundations of Alg/Geo	Alg. 1G	Geometry G

CALCULATORS

Calculators are tools commonly used in departmental courses. While general recommendations of appropriate calculator functionality are included in each course description, calculator recommendations for specific courses can be obtained by contacting the mathematics department or your math teacher. Most courses require a graphing calculator, at a cost of about \$120.

COMPUTER COURSES TAUGHT BY THE MATHEMATICS DEPARTMENT

Students with an aptitude in mathematics should take at least a semester computer course. Students with strong mathematics aptitude should plan ahead for the AP Computer Science curriculum.

APPLIED FUNDAMENTALS OF MATH

Course # 3050

Full year

Credit: 1.0

This course covers a variety of practical topics such as basic probability, creating and interpreting graphs, formulas, fractions, percent, measurement, perimeter, basic geometry, consumer skills, and basic algebra. A scientific calculator with fraction capabilities is required.

Prerequisite: Recommendation of previous teacher and departmental approval. Next course in sequence: Foundations of Algebra and Geometry. Open to grades 9, 10, 11 & 12.

FOUNDATIONS OF ALGEBRA AND GEOMETRY

Course # 3090

Full year

Credit: 1.0

This course introduces important topics in Algebra and Geometry. Algebra topics include expressions, equations, inequalities and linear functions. Geometry topics include lines, segments, angles, triangles, perimeter, area and volume. This course is appropriate for students with reasonable facility with arithmetic operations and average grades in mathematics. A graphing calculator is required.

This course fulfills the ISBE graduation requirement of a course with Geometry content.

Prerequisite: Recommendation of previous teacher and departmental approval. Next course in sequence: Algebra 1G. Open to grades 9, 10, 11 & 12.

ALGEBRA 1 G

Course # 3100

Full year

Credit: 1.0

This course continues the important topics in Algebra. Topics include exponents, systems of equations, inequalities, linear and quadratic functions, polynomial expressions, probability, and statistics. A graphing calculator is required.

This course fulfills the ISBE graduation requirement for Algebra 1.

Prerequisite: Foundations of Algebra and Geometry and department approval. Next course in sequence: Geometry G. Open to grades 10, 11 & 12.

ALGEBRA 1 G

Course # 3141

1st semester

Credit: 1.0

This course has the same core curriculum as #3100, but is taught in a single semester, two periods daily.

Prerequisite: Foundations of Algebra and Geometry and teacher recommendation. Open to grades 10 and 11.

ALGEBRA 1

Course # 3110

Full year

Credit: 1.0

This course focuses on fundamental properties of the real numbers. Linear and quadratic equations are emphasized. Rational expressions and equations are introduced. Real world applications are explored. Algebra 1 is recommended for grade 9 students who have achieved a strong facility with arithmetic operations and above average grades in mathematics or for those students whose Algebra skills need strengthening. A graphing calculator with matrix capabilities is required in this course.

This course fulfills the ISBE graduation requirement for Algebra 1.

Prerequisite: 8th grade teacher recommendation or departmental approval. Next course in sequence: Geometry. Open to grades 9, 10, 11 & 12.

GEOMETRY-G

Course # 3200

Full year

Credit: 1.0

Geometry-G uses an intuitive approach to study the fundamental concepts in Geometry. Although deductive reasoning is practiced, much less emphasis is placed on writing formal proofs. Students experience geometric concepts through frequent constructions, hands on activities, and interactive geometry software. Some students from 3110 Algebra may be advised to take this course. A scientific calculator is required in this course.

This course fulfills the ISBE graduation requirement of a course with Geometry content.

Prerequisite: Algebra 1G or Algebra 1 and departmental approval. Next course in sequence: Algebra 2-Trigonometry-G based upon teacher recommendation. Open to grades 10, 11 & 12.

GEOMETRY-G*Course # 3232*2nd semester

Credit: 1.0

This course has the same core curriculum as #3200, but is taught in a single semester, two periods daily.

Prerequisite: Algebra 1G and teacher recommendation. Open to grades 10 and 11.

GEOMETRY*Course # 3210*

Full year

Credit: 1.0

Geometry focuses on proof and fundamental concepts of plane geometry with some informal three-dimensional considerations. Properties of lines, angles, triangles, quadrilaterals and circles are studied. Special attention is given to concepts of congruence, perpendicularity, parallelism, area, similarity, coordinate geometry, logic and deductive reasoning as well as geometric probability. A scientific calculator is required in this course.

This course fulfills the ISBE graduation requirement of a course with Geometry content.

Prerequisite: (Entering freshmen who have had Algebra in 8th grade must also have a strong teacher recommendation.) Algebra 1 and departmental approval.

Next course in sequence: Algebra 2-Trigonometry. Open to grades 9, 10, 11 & 12.

GEOMETRY - H*Course # 3220*

Full year

Credit: 1.0

This honors course provides an in-depth study of all the topics of plane Euclidean geometry including three-dimensional geometry. Particular attention will be given to the nature of a mathematical system, logic and proof. Students are expected to exercise their creative capacities, and apply their knowledge to different situations. Recommended for students who have a high interest in mathematics and have achieved, without undue stress, an A average in Algebra. A scientific calculator is required in this course.

This course fulfills the ISBE graduation requirement of a course with Geometry content.

Prerequisite: Algebra 1 and departmental approval. Next course in sequence: Algebra 2-Trigonometry-H or Algebra 2-Trigonometry, based on teacher recommendation. Open to grades 9, 10, 11 & 12.

**INTEGRATED ALGEBRA AND
GEOMETRY - H***Course # 3280*

Full year

Credit: 1.0

This honors course reviews important concepts in Algebra 1 and Geometry. Topics will be explored in greater depth than the introductory courses, and additional new topics will be presented. Students who are successful in this course should be well prepared for a sequence of Algebra 2/Trigonometry H, Precalculus H, and an AP course on Calculus and/or Statistics.

Prerequisite: Algebra 1, Geometry and teacher recommendation. Next course in sequence: Algebra 2/Trigonometry or Algebra 2/Trigonometry H. Open to grade 9.

ALGEBRA 2-TRIGONOMETRY G*Course # 3300*

Full year

Credit: 1.0

The basic material for this course, described under 3310 Algebra 2-Trigonometry, is recommended for students from Geometry - G. Some students from 3210 Geometry may be advised to take this course. A graphing calculator with matrix capabilities is required in this course.

Prerequisite: Geometry - G or Geometry and departmental approval. Open to grades 11 & 12.

ALGEBRA 2-TRIGONOMETRY*Course # 3310*

Full year

Credit: 1.0

Algebra 2-Trigonometry expands the material studied in Algebra and Geometry, emphasizing real-world applications and associated graphical analysis. The complex number system is studied. Linear, quadratic, exponential, logarithmic, polynomial, rational and trigonometric functions are explored. Transformations and inverses of functions are introduced. This course is recommended for students with a grade average of C or better in Algebra and Geometry who desire a third year of college preparatory mathematics. A graphing calculator with matrix capabilities is required in this course.

Prerequisite: Geometry. Next course in sequence: Math Analysis and Intro to Stats or Pre-Calculus. Open to grades 9, 10, 11 & 12.

Mathematics Department

ALGEBRA 2-TRIGONOMETRY H

Course # 3320

Full year

Credit: 1.0

This honors course provides a more in-depth study of the topics described above in Algebra 2-Trigonometry, as well as circular functions and probability. Students are expected to be capable of creative problem solving and individual study. This course is recommended for students who have a high interest in mathematics, with no less than a B+ average in previous mathematics courses. A graphing calculator with matrix capabilities is required in this course.

Prerequisite: Geometry - H and departmental approval. Next course in sequence: Pre-Calculus-H or Pre-Calculus, based on teacher recommendation. Open to grades 9, 10, 11 & 12.

INTRODUCTION TO WEB PROGRAMMING

Course # 3351

1st or 2nd semester

Credit: 0.5

This course focuses on the creation of World Wide Web documents using the HTML and JavaScript languages. Students are expected to spend laboratory time outside of class working on their projects. Introductory programming concepts will be presented using JavaScript in order to create more dynamic, self-modifying web pages. Internet access at home is recommended.

Prerequisite: Algebra 1 or departmental approval. Open to grades 9, 10, 11 & 12.

ADVANCED WEB PROGRAMMING

Course # 3372

2nd semester

Credit: 0.5

This course is a continuation of Introduction to Web Programming. The course will include programming to the web server setting, cascading style sheets and animation.

Prerequisite: Introduction to Web Programming and departmental approval. Open to grades 9, 10, 11 & 12.

INTRODUCTION TO JAVA

Course # 3392

2nd semester

Credit: 0.5

This course provides an introduction to computer programming using the JAVA programming language. Programming concepts such as variables, constants, expressions, conditionals, arrays, iteration, functions, and object oriented programming using classes will be presented and discussed. An emphasis will be placed on practical problem solving. Students are expected to spend laboratory time outside of class working on their projects.

Prerequisite: Geometry and departmental approval. Next course in sequence: Advanced Placement Computer Science. Open to grades 10, 11 & 12. Not offered 2010-2011

MATH ANALYSIS

Course # 3401

1st semester

Credit: 0.5

This course focuses on important topics in mathematical modeling. Topics include algorithms, matrices, graphs, and probability, with applications such as elections, fair division, population growth, scheduling, conflict resolution, routing, and game theory. A graphing calculator with matrix capabilities is required.

Prerequisite: Algebra 2/Trigonometry G or Algebra 2/Trigonometry and department approval. Next course in sequence: Introduction to Statistics or Finite Math. Open to grades 11,12.

INTRODUCTION TO STATISTICS

Course # 3432

2nd semester

Credit: 0.5

This course focuses on important topics in statistics. Topics include statistical plots, statistical summaries of data, regression, probability, normal distributions, and sampling methods. A graphing calculator with advanced statistical commands is required.

Prerequisite: Algebra 2/Trigonometry and department approval. Next course in sequence: Pre-Calculus. Open to grades 11,12.

FINITE MATH

Course # 3442

2nd semester

Credit: 0.5

This course focuses on topics from Algebra, Trigonometry, and Statistics with an emphasis on applications. A wide variety of problem solving techniques will be explored.

Prerequisite: Algebra 2/Trigonometry G or Algebra 2/Trigonometry and teacher recommendation. Open to grades 11 and 12.

PRE-CALCULUS

Course # 3410

Full year

Credit: 1.0

This course expands on the material studied in Algebra 2-Trigonometry. These areas of study include: real and complex numbers and functions (polynomial, exponential, logarithmic and trigonometric). Additional areas of study are conics, notions of limits, continuity, circular functions, mathematics of finance, parametric equations, and polar coordinates. It is recommended for students who are preparing to enter a technical or semi-technical profession, or planning to study Calculus. A graphing calculator with matrix capabilities is required in this course.

Prerequisite: Algebra 2-Trigonometry or Algebra 2-Trigonometry-H and departmental approval. Next course in sequence: AP Calculus or AP Statistics. Open to grades 10, 11 & 12.

PRE-CALCULUS - H

Course # 3420

Full year

Credit: 1.0

This honors course provides a more in-depth study of the topics covered in Pre-Calculus with greater emphasis of both theory and applications. Additional topics include curve fitting and physics applications. A graphing calculator with matrix capabilities is required in this course.

Prerequisite: Algebra 2-Trigonometry - H and departmental approval. Next course in sequence: Upon satisfactory completion of Pre-Calculus - H, the students is prepared for a serious course in Calculus. Open to grades 9, 10, 11 & 12.

ADVANCED PLACEMENT COMPUTER SCIENCE A

Course # 3480

Full year

Credit: 1.0

A.P. Computer Science A is intended for those students whose work in college will involve the theory of computing and data structures. Programming methodology and design, pre-defined and abstract data types, data structures (arrays, stacks, queues) and algorithms related to those data structures will be emphasized. Applications of computing, a working knowledge of hardware and software systems, as well as the ethical and social implications of computing are considered. The programming language used is JAVA. Students will need to spend laboratory time outside of class working on their projects.

Prerequisite: Algebra 2/Trigonometry and departmental approval. Open to grades 11 & 12.

ADVANCED PLACEMENT STATISTICS

Course # 3500

Full year

Credit: 1.0

Advanced Placement Statistics will introduce students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. It will emphasize sound statistical thinking rather than routine procedures. This course is intended to be equivalent to an introductory non-calculus based college course in statistics. Students will do a significant amount of reading and independent projects. A graphing calculator with advanced statistics capabilities is required in this course.

Prerequisite: Algebra 2 H or Pre-Calculus or Pre-Calculus H and departmental approval. Open to grades 10, 11 & 12.

ADVANCED PLACEMENT CALCULUS (AB)

Course # 3510

Full year

Credit: 1.0

Advanced Placement Calculus (AB) emphasizes conceptual understandings through manual and technological applications of the derivatives and integrals of algebraic, trigonometric, exponential and logarithmic functions, and relations. This course prepares the student for the AB level Advanced Placement Examination. Satisfactory performance on this examination gives the student an opportunity to qualify for college credit in calculus. A graphing calculator meeting the College Board's optimal technology expectation for the AP Calculus exam is required in this course.

Prerequisite: Pre-Calculus or Pre-Calculus - H and departmental approval. Open to grades 10, 11 & 12.

Mathematics Department

ADVANCED PLACEMENT CALCULUS (BC)

Course # 3520

Full year

Credit: 1.0

Advanced Placement Calculus (BC) provides an in-depth study of the topics described in Calculus (AB), as well as two dimensional vectors, polar coordinates, parametric curves and series. This course prepares the student for the BC level Advanced Placement examination. Satisfactory performance on this examination gives the student an opportunity to qualify for college credit in calculus. A graphing calculator meeting the College Board's optimal technology expectation for the AP Calculus Exam is required in this course.

Prerequisite: Pre-Calculus or Pre-Calculus - H and departmental approval. Open to grades 10, 11 & 12.

COMPUTER SCIENCE TOPICS 1-H

Course # 3611

1st semester

Credit: 0.5

Computer Science Topics 1 provides students advanced study in computer science beyond AP. Each semester students will work on advanced computer programming techniques and languages.

Prerequisite: AP Computer Science and Department approval Open to grades 11-12

COMPUTER SCIENCE TOPICS 2-H

Course # 3622

2nd semester

Credit: 0.5

Computer Science Topics 2 provides students advanced study in computer science beyond AP. Each semester students will work on advanced computer programming techniques and languages.

Prerequisite: AP Computer Science and Department approval Open to grades 11-12

MATH TOPICS 1 - H

Course # 3641

1st semester only

Credit: 0.5

Math Topics 1 provides students advanced study in mathematics. Determined by the department, a student will be introduced to Linear Algebra, Multivariable Calculus, or Calculus-based Statistics.

Prerequisite: Departmental approval. Open to grade 12.

MATH TOPICS 2 - H

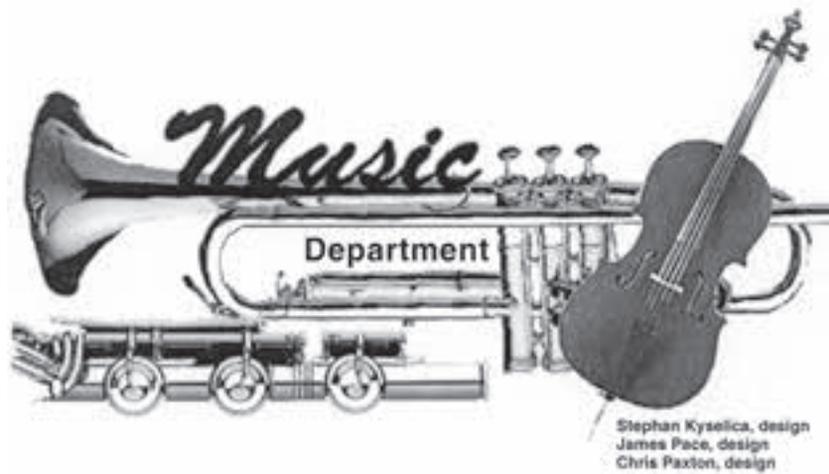

Course # 3652

2nd semester only

Credit: 0.5

Math Topics 2 provides students with advanced study in mathematics. Determined by the department, a student will be introduced to Linear Algebra, Differential Equations, or Calculus-based Statistics.

Prerequisite: Departmental approval. Open to grade 12.

All courses in the Music Department fulfill the Elective Arts graduation requirement. Two fine arts credits fulfill the Illinois state public university entrance requirements in Art, Music or Foreign Language. Music performance courses are designed to not only improve the level of performance skill of the student, but also to develop a deeper understanding of culture and aesthetics.

All music performance courses include performances outside the school day as a significant part of student expectations. Lists of performances and any outside rehearsals will be provided at the beginning of the school year. Auditing of music courses (participation for no credit) is not permitted.

IMPORTANT INFORMATION FOR INCOMING FRESHMEN AND THEIR PARENTS:

The following courses are available for freshmen enrollment and do not require an audition:

- Concert Orchestra (5680): violin, viola, cello and string bass players only
- Concert Band (5640): flute, oboe, clarinet (all types), bassoon, saxophone (all types), trumpet/cornet, French horn, trombone, baritone horn, tuba
- Concert Percussion (5710): all drum and percussionists
- Treble Choir (5800) Female Vocalists
- Men’s Choir (5801) Male Vocalists

The following course is open to freshmen enrollment but does require an audition:

- Jazz Ensemble 1 (5650) is open only to students enrolled in a band course. Ensemble and requires the student to be registered for both, except for students playing piano, bass, or guitar. All students are invited to audition at the start of school in August. It is not possible to sign up for Jazz Band 1 now. The class meets as an “Early Bird” at 7:00AM, 90 days per year. (See Course Description)

The following courses require an audition with Mr. Kurinsky; Room 167, mkurinsk@hinsdale86.org:

- Symphonic Band (5641) flute, oboe, clarinet (all types), bassoon, saxophone (all types), trumpet/cornet, French horn, trombone, baritone, tuba
- Wind Ensemble (5646) flute, oboe, clarinet (all types), bassoon, saxophone (all types), trumpet/cornet, French horn, trombone, baritone, tuba, percussion/drums
- Symphonic Percussion (5711) all percussion and drums

The following courses are available for upperclassmen and require an audition with the instructor:

- Women’s Chorale (5810), Hinsdale Central Singers (5840), Chamber Singers (5850). audition with Mrs. Burkemper in Room 169, 630-570-8452
- Symphony Orchestra (5690): audition with Mr. Wirtz, Room 163, 630-570-8453
- Jazz Ensemble 2 and 3 (5660 and 5670): auditions for these classes are held the first week of January. See Course Description for more information. Jazz Ensemble 2 and 3 auditions are held during Jazz Ensemble 1 and 2 classes in January.
- Symphonic Band (5641) and Symphonic Percussion (5711) and Wind Ensemble (5646): audition with Mr. Kurinsky, Room 167, email: mkurinsk@hinsdale86.org

HONORS STUDY IN MUSIC

Students have the opportunity to qualify for honors study in music performance courses. There are several ways that you can become eligible.

Strings Players may, through auditions in September, be selected for the Honors Chamber Orchestra. This is a select ensemble of advanced string players who rehearse every other morning as an Early Bird class. Concurrent registration in Concert Orchestra or Symphony Orchestra is required.

Wind and Percussion Players may, through auditions in September, be selected for Honors Orchestra Winds and Percussion. This is a select ensemble of advanced wind and percussion players who will rehearse every other day as an Early Bird class. These players make up the Symphony Orchestra Wind and Percussion sections. Concurrent registration in Symphonic Band or Percussion Ensemble is required.

All students in music courses will have the option for earning honors credit:

Each student will be required to participate in several activities during the school year that will enhance musical experiences, and abilities. Please see each instructor for more details. To become eligible for honors credit, each candidate will be selected by audition in **September**, by the department instructors. Audition materials, and information may be obtained from the department instructors.

BAND

CONCERT BAND

Course # 5640

Full year

Credit: 1.0

Concert Band is the entry level performance ensemble for wind players. No audition is required. All Concert Band students will perform with the Red Devil Marching Band, the Pep Band, and in small ensembles. The Concert Band has commitments outside the school day that rarely conflict with athletics, activities, or academics. Honors Credit is available for this course. Sophomore, Junior, and Senior band students may exempt out of Physical Education during first semester. Students enrolled in Concert Band may also audition for a Jazz Ensemble or Orchestra Wind Section. Visit www.hcbands.org or contact Mr. Kurinsky at mkurinsk@hinsdale8.org for more information.

Prerequisite: Director approval. Open to grades 9, 10, 11, and 12.
This course may be repeated each year for credit.

SYMPHONIC BAND

Course # 5641

Full year

Credit: 1.0

Symphonic Band is a performance ensemble open to all wind instrument players by audition only. All Symphonic Band students will perform with the Red Devil Marching Band, the Pep Band, and in small ensembles. The Symphonic Band has commitments outside the school day that rarely conflict with athletics, activities, or academics. Honors Credit is available for this course. Sophomore, Junior, and Senior band students may exempt out of Physical Education during first semester. Students enrolled in Symphonic Band may also audition to participate in a Jazz Ensemble or Orchestra Wind Section. Visit www.hcbands.org or contact Mr. Kurinsky at mkurinsk@hinsdale86.org for more information.

Prerequisite: Director approval and audition. Open to grades 9, 10, 11, and 12.
This course may be repeated each year for credit.

Music

WIND ENSEMBLE

Course # 5646

Full year

Credit: 1.0

Wind Ensemble is a small group of elite wind and percussion players with advanced levels of musicianship. Auditions are required. All Wind Ensemble students will perform with the Red Devil Marching Band, the Pep Band, and in small ensembles. The Wind Ensemble has commitments outside the school day that rarely conflict with athletics, activities, or academics. Honors Credit is available for this course. Sophomore, Junior, and Senior band students may exempt out of Physical Education during first semester. Students enrolled in Winds Ensemble may also audition to participate in a Jazz Ensemble or Orchestra Wind Section. Visit www.hcbands.org or contact Mr. Kurinsky at mkurinsk@hinsdale86.org for more information.

Prerequisite: Director approval and audition. Open to grades 9, 10, 11, and 12. This course may be repeated each year for credit.

CONCERT PERCUSSION

Course # 5710

Full year

Credit: 1.0

Concert Percussion is the entry level ensemble for all drum and percussion players. Percussionists do not sign up for Concert Band or Symphonic Band. All Concert Percussion students will perform with the Red Devil Marching Band, the Pep Band, and in small ensembles. Concert Percussion has occasional commitments outside the school day that rarely conflict with athletics, activities, or academics. Honors Credit is available for this course. Sophomore, Junior, and Senior band students may exempt out of Physical Education during first semester. Students enrolled in Concert Percussion may also audition for a Jazz Ensemble or Orchestra Percussion Section. Visit www.hcbands.org or contact Mr. Kurinsky at mkurinsk@hinsdale86.org for more information.

Prerequisite: Director approval. Open to grades 9, 10, 11, and 12. This course may be repeated each year for credit.

SYMPHONIC PERCUSSION

Course # 5711

Full year

Credit: 1.0

Symphonic Percussion is a performance ensemble open to all drum and percussion players by audition only. Percussionists do not sign up for Concert Band or Symphonic Band. All Symphonic Percussion students will perform with the Red Devil Marching Band, the Pep Band, and in small ensembles. The Symphonic Percussion has occasional commitments outside the school day that rarely conflict with athletics, activities, or academics. Honors Credit is available for this course. Sophomore, Junior, and Senior band students may exempt out of Physical Education during first semester. Students enrolled in Symphonic Percussion may also audition for a Jazz Ensemble or Orchestra Percussion Section. Visit www.hcbands.org or contact Mr. Kurinsky at mkurinsk@hinsdale86.org for more information.

Prerequisite: Director approval. Open to grades 9, 10, 11, and 12. This course may be repeated each year for credit.

JAZZ ENSEMBLE 1

Course # 5650

Full year

Credit: 1.0

Jazz Ensemble 1 is the initial training ensemble for the Jazz Program at Hinsdale Central. It is open only to musicians who are enrolled in Symphonic Band, Concert Band, or Symphonic Percussion unless they play piano, bass, or guitar. (Students playing those instruments are exempt from this requirement.) Wind players in Jazz Ensemble 1 may play any wind instrument. Jazz Ensemble 1 meets as a year-long, “early-bird” class at 7:00 AM, 90 days per year. Honors credit is available for this ensemble.

Prerequisite: Director approval and audition. Open to grades 9, 10, 11 and 12. This course may be repeated for credit.

JAZZ ENSEMBLE 2

Course # 5660

Full year

Credit: 1.0

Jazz Ensemble 2 is only open to musicians playing one of the following instruments: saxophone, trumpet, trombone, piano, guitar, bass, or drum set. Open auditions for this ensemble will be held the first week of January. For audition information, see www.hcjazz.org. Priority will be given to students who are currently members of Jazz Ensemble 1 or 2 who play the appropriate instruments. Instrumentation is limited to six saxophones (two altos, two tenors, and two baritones), four trombones, five trumpets, two guitarists, two pianists, two bassists, and three drummers. Honors credit is available for this ensemble, and the course may be repeated for credit. Jazz Ensemble 2 meets as a yearlong, “early-bird” class at 7:00 AM, 90 days per year.

(Note: Starting with the Class of 2012, enrollment in Jazz Ensemble 2 must be concurrent with Symphonic Band, Concert Band, or Percussion Ensemble.)

Prerequisite: Director approval, audition and current membership in Jazz Ensemble 1 or 2. Open to grades 10, 11, and 12. This course may be repeated for credit.

JAZZ ENSEMBLE 3

Course # 5670

Full year

Credit: 1.0

Jazz Ensemble 3 is made up of students previously involved in the Jazz program. There are no open auditions for this group – auditions will take place in the Jazz 1 and Jazz 2 classes for open spots in this ensemble. Instrumentation is limited to six saxophones (two altos, two tenors, and two baritones), four trombones, five trumpets, two guitarists, two pianists, two bassists, and three drummers. Honors credit is available for this ensemble, and the course may be repeated for credit.

Prerequisite: Director approval, audition and current membership in Jazz Ensemble 1, 2, or 3. Open to grades 10, 11, and 12. This course may be repeated for credit.

ORCHESTRA

CONCERT ORCHESTRA

Course # 5680

Full year

Credit: 1.0

This class will develop the basic techniques involved in playing a stringed instrument and perform concerts with members of the Concert Band. Music from the standard repertoire of orchestral music will be studied.

Prerequisite: Director approval. Open to grade 9. This course may be repeated for credit.

SYMPHONY ORCHESTRA

Course # 5690

Full year

Credit: 1.0

A class for higher level development of string instrument techniques and the study of appropriate music. This class combines with members of the Symphonic Band to perform Music from the standard repertoire of orchestral music. Honors credit is available for this course. An audition is required.

Prerequisite: Audition & director approval. Open to grades 10, 11 & 12. This course may be repeated for credit.

CHOIR

TREBLE CHOIR

Course # 5800

Full year

Credit: 1.0

Teaches and examines basic vocal techniques, practice and performance of choral music, sight singing and theory. A variety of choral music will be practiced and performed. Honors credit is available for this course.

Prerequisite: None. Open to all ninth graders and to all other grade levels who have not participated in vocal music at school before.

MEN'S CHOIR

Course # 5801

Full year

Credit: 1.0

Teaches and examines basic vocal techniques, practice and performance of choral music, sight singing and theory. A variety of choral music will be practiced and performed. Honors credit is available for this course.

Prerequisite: None. Open to all ninth graders and to all other grade levels who have not participated in vocal music at school before.

Music

WOMEN'S CHORALE

Course # 5810

Full year

Credit: 1.0

Level two of vocal techniques focused on the female voice. A variety of women's choral literature is practiced and performed. Advanced study of sight singing and theory. Honors credit is available for this course. An audition is required.

Prerequisite: Director approval. Open to grades 10-12. This course may be repeated for credit.

HINSDALE CENTRAL SINGERS

Course # 5840

Full year

Credit: 1.0

An advanced level of vocal technique, sight singing and theory. This advanced choral group practices and performs a variety of music. Extra performances or rehearsals may be scheduled. Honors credit is available for this course. An audition is required.

Prerequisite: Director approval. Open to grades 10, 11 and 12. This course may be repeated for credit.

CHAMBER CHOIR

Course # 5850

Full year

Credit: 1.0

An advanced group with a high level of musicianship, vocal technique, sight singing and theory skills. A large variety of musical styles will be practiced and performed. This ensemble performs frequently outside of the school day for community events. Honors credit is available for this course. An audition is required.

Prerequisite: Audition and director approval. Open to grades 11 and 12. This course may be repeated for credit.

MUSIC THEORY

AP MUSIC THEORY

Course # 5900

Full year

Credit: 1.0

AP Music Theory prepares music students for the Music Theory Advanced Placement Examination through the study of musical elements and techniques including notation, scales and modes, intervals, chords, non-harmonic tones, cadences, ear training, sight singing, melody, form, and composition. Success on the AP Exam can result in college credit. All prospective students must be recommended to Mr. Kurinsky by their music director or private lesson instructor.

Prerequisite: Director approval. Open to grades 10, 11 and 12.

Further information can be found at the following websites:

www.hcbands.org

www.hcmusic.org

www.hcjazz.org

PHYSICAL EDUCATION

KATY HEALY, DESIGN

All students must take physical education or health each semester in attendance. Four (4) credits of Physical Education/Health are required for graduation. Health is a required semester course to be taken during the 10th grade year. Students have an option of also enrolling in Physical Education during that semester for an additional 0.5 credit. A student earns 1/2 credit for each semester of passing work in Physical Education. Students who fail Physical Education must make up the credit by enrolling in an equivalent course at another approved institution. Students will not be allowed to enroll in more than one period of required Physical Education per semester. Students are expected to attend class daily, dress in the standard uniform and participate to their ability.

Physical education is the science of human movement and the courses are designed to provide instruction and insight into healthy physical activities. All Physical Education offerings are designed to promote good health, safety, fitness, awareness of the value of recreation, and an appreciation of all forms of physical expression.

Students must register for Physical Education **EACH** semester. *

<u>GRADE</u>	<u>SEMESTER 1</u>	<u>SEMESTER 2</u>
9	7113	7114

Freshman: basketball, track and field, softball, soccer, square dance, volleyball, badminton, fitness concepts, team building, football, tennis, gymnastics, swimming, group exercise, wrestling and modern dance.

10/11/12 Students are to enroll in one option each semester.

*Sophomores may exercise their option of taking **Health Education and only one semester of Physical Education** by registering for the following courses: **P.E. option/Health 7502 or Health 7501/PE option.**

Sophomore, Junior and Senior: Select one activity from each semester.

Physical Education

AQUATICS
Course # 7305
 1st semester
 Credit: 0.5

Includes sports and activities designed for the aquatic environment. Included are the development of skills in springboard diving, analysis of the four competitive swimming strokes, as well as starts and turns. Water safety habits, basic lifeguarding skills, water aerobics, dryland exercises, and weight training specific to aquatic activity will also be introduced. Recommended for prospective triathletes and swimmers. (May be repeated.)

**COMPETITIVE PHYSICAL
 CONDITIONING**
Course # 7306
 1st semester
 Credit: 0.5

A strong emphasis on core training, general strength, stability and explosive power. Recommended for any person wishing to improve overall competitive effectiveness.

AEROBICS
Course # 7307
 1st semester
 Credit: 0.5

This class introduces students to components of cardiovascular activity through aerobic movements. Students will also address the principles of muscular strength and endurance through the use of free weights and toning exercises. Core workouts, yoga and pilates are introduced as part of this class as methods for students to increase flexibility, strength and balance. (May be repeated)

**PERSONAL FITNESS (FITNESS
 CENTER)**
Course # 7308
 1st semester
 Credit: 0.5

Variable course content. Each student undertakes an individualized conditioning program designed to address the individual's personal fitness goals. Principles and skills relating to cardiovascular conditioning, strength, flexibility and body composition. Equipment orientation includes Stairmaster, rowing machines, stationary bikes, ellipticals, proper weight training selection and form, circuit training. Individual fitness assessment (May be repeated.)

**COMPREHENSIVE WEIGHT
 TRAINING (BOUCHARD CENTER)**
Course # 7309
 1st semester
 Credit: 0.5

Gain knowledge and understanding of weight training theory, advanced weight training practices, sport specific weight training techniques and proper nutritional practices. Initiate and develop weight training programs. Improve muscular strength and endurance. (May be repeated.)

LIFEGUARD/CPR/FIRST AID
Course # 7310
 1st semester
 Credit: 0.5

Meets American Red Cross Lifesaving Certification, Cardiopulmonary Resuscitation Certification and Standard First Aid Certification. Students must be able to swim 500 yds. non-stop to enroll. No student may use a P.E. exemptions in this class and receive Red Cross certification or recertification.

**FITNESS INTEGRATED THROUGH
 SPORTS**
Course # 7311, 7312, 7313
 1st semester
 Credit: 0.5

Includes sports and activities for lifelong participation. Instruction provided in basic skill, rules, strategies, and social behavior necessary to achieve competent level of participation, practice, game situations and tournament play. In addition, students will be introduced to fitness components such as cardiovascular endurance, muscular strength, muscular endurance and flexibility. Select one of the following options. Please note: **FITS 2 is designated for those who desire a competitive atmosphere.**

7311 Fits 1 (Individual Concept):

Run for Fun
 Orienteering
 Aquatics

Tennis
 Archery
 Fitness Testing

Roller blading
 Badminton
 Frisbee Golf

7312 Fits 2 (Competitive Option):

Volleyball
 Ultimate Frisbee
 Aquatic Games

Football/Navy
 Outdoor Hockey
 Soccer

Team Handball
 Flicker Ball
 Fitness Testing

7313 Fits 3 (Team Concept):

Volleyball
 Basketball
 Fitness Testing

Square Dance
 Softball

Ultimate Frisbee
 Soccer
 Football

Physical Education

AQUATICS
Course # 7320
 2nd semester
 Credit: 0.5

Includes sports and activities designed for the aquatic environment. Included are the development of skills in springboard diving, analysis of the four competitive swimming strokes, as well as starts and turns. Water safety habits, basic lifeguarding skills, water aerobics, dryland exercises, and weight training specific to aquatic activity will also be introduced. Recommended for prospective triathletes and swimmers. (May be repeated.)

**COMPETITIVE PHYSICAL
 CONDITIONING**
Course # 7321
 2nd semester
 Credit: 0.5

A strong emphasis on core training, general strength, stability and explosive power. Recommended for any person wishing to improve overall competitive effectiveness.

AEROBICS
Course # 7322
 2nd semester
 Credit: 0.5

This class introduces students to components of cardiovascular activity through aerobic movements. Students will also address the principles of muscular strength and endurance through the use of free weights and toning exercises. Core workouts, yoga and pilates are introduced as part of this class as methods for students to increase flexibility, strength and balance. (May be repeated)

**PERSONAL FITNESS (FITNESS
 CENTER)**
Course # 7323
 2nd semester
 Credit: 0.5

Variable course content. Each student undertakes an individualized conditioning program designed to address the individual's personal fitness goals. Principles and skills relating to cardiovascular conditioning, strength, flexibility and body composition. Equipment orientation includes Stairmaster, rowing machines, stationary bikes, ellipticals, proper weight training selection and form, circuit training. Individual fitness assessment (May be repeated.)

**COMPREHENSIVE WEIGHT
 TRAINING (BOUCHARD CENTER)**
Course # 7324
 2nd semester
 Credit: 0.5

Gain knowledge and understanding of weight training theory, advanced weight training practices, sport specific weight training techniques and proper nutritional practices. Initiate and develop weight training programs. Improve muscular strength and endurance. (May be repeated.)

LIFEGUARDING/CPR/FIRST AID
Course # 7325
 2nd semester
 Credit: 0.5

Meets American Red Cross Lifesaving Certification, Cardiopulmonary Resuscitation Certification and Standard First Aid Certification. Students must be able to swim 500 yds. non-stop to enroll. No student may use a P.E. exemption in this class and receive Red Cross certification or recertification.

**FITNESS INTEGRATED THROUGH
 SPORTS**
Course # 7326,7327,7329
 2nd semester
 Credit: 0.5

Includes sports and activities for lifelong participation. Instruction provided in basic skill, rules, strategies, and social behavior necessary to achieve competent level of participation, practice, game situations and tournament play. In addition, students will be introduced to fitness components such as cardiovascular endurance, muscular strength, muscular endurance and flexibility. Select one of the following options. (May be repeated.) Please note: **FITS 2 is designated for those who desire a competitive atmosphere.**

7326 Fits 1 (Individual Concept):	Bowling*, Pickleball	Ping Pong Aquatics	Golf Group Exercise	Outdoor Education Fitness Testing
7327 Fits 2 (Competitive Option):	Volleyball Badminton	Kickball Softball	Bowling* Sand Volleyball	Pickleball
7329 Fits 3 (Team Concept):	Volleyball Pickleball	Basketball Team Games	Outdoor Hockey (Feb.) Softball	Fitness Testing Aquatic Games

* Supply fee of \$30.00 is required for this off-campus activity. Fee is collected at time of participation.

ADAPTIVE PHYSICAL EDUCATION
Course # 7080
 Full year
 Credit: 1.0

This self-contained section of Adaptive Physical Education is offered to students who are restricted and prevented from activity in a regular program. This could include ambulatory cases, congenital defects, and handicapped students. Each student in the section will be given a separate (IEP) individual education program which has earned approval from a physician, school nurse, and parent(s) as appropriate.

Prerequisite: Departmental and/or Educational Services departmental approval. Open to grades 9, 10, 11 and 12.

Physical Education

EARLY BIRD P.E.
Course # 7373, 7374
 1st or 2nd semester
 Credit: 0.5

This physical education class is open to all sophomores, juniors, and seniors who wish to add an extra period to their day, giving them greater flexibility to select other specialized courses. The course runs from 7:00 a.m. to 7:50 a.m. daily. Students must provide their own transportation.

PHYSICAL EDUCATION EXEMPTION

Students interested in exempting out of PE during their 2009-2010 athletic or marching band season in order to take a study hall need to be aware of the following:

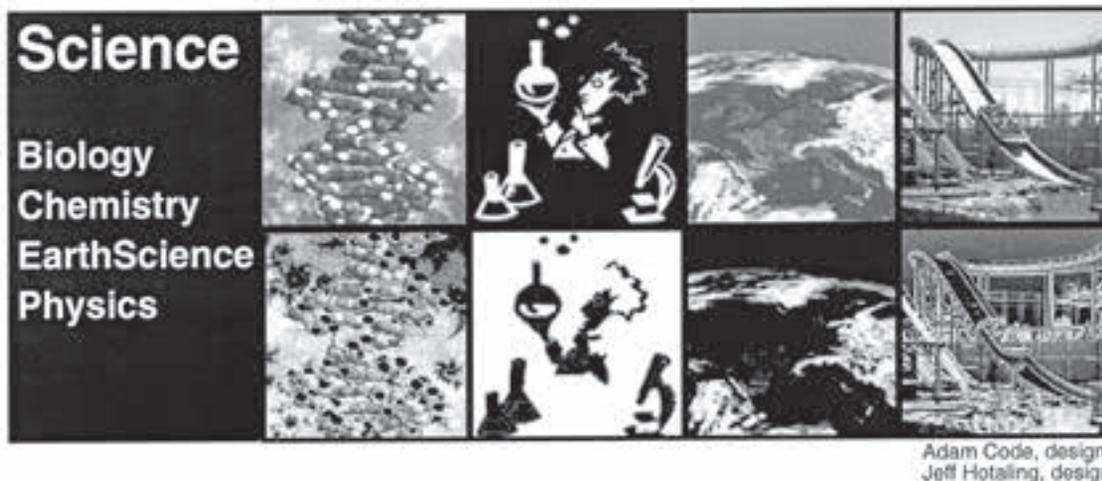

1. PE Exemption is available for **Junior** and **Senior** athletes and **Sophomore, Junior, and Senior** Marching Band members only.
 - a. Students must be enrolled in a full seven period schedule.
 - b. Students must NOT have a study hall in their schedule.
2. In order to be eligible for PE Exemption, a student must fill out both sides of the request form with all required signatures and turn it in to his/her counselor at the individualized registration appointment in January or February. Forms will be distributed during the January Homeroom.
3. These course codes will be used for PE Exemptions that fall in the following marking periods:

<i>Code</i>	<i>1st</i>	<i>2nd</i>	<i>3rd</i>	<i>4th</i>	<i>Girls' Sports</i>	<i>Boys' Sports</i>	<i>Activity</i>
07218*	Sport	PE			Golf Tennis	Golf	
07219**	Sport	Sport			Volleyball Cross Country Swimming FB Cheerleading FB Poms	Football Soccer Cross Country	Marching Band
07220*+	PE	Sport	Sport	PE	Bowling Basketball Gymnastics BB Cheerleading BB Poms	Bowling Wrestling Basketball Swimming	
07221*			PE then Sport	Sport	Track Badminton Water Polo Soccer Softball Lacrosse	Track Gymnastics Tennis Water Polo Baseball Volleyball Lacrosse	

* These PE Exemption students must still register for a PE class during the semester of their exemption. They are not guaranteed the class of their choice. This is due to space limitations caused by exempted students flowing in and out of PE classes throughout the year.

** These PE Exemption students will not register for a PE class for 1st Semester. They need to select a PE option for 2nd Semester only.

+ Students re-entering PE once their season is over may be put into Personal Fitness if space is not open in the class they vacated.

Two credits in science are required for graduation. Each credit must be earned by completing both semesters of a given course (one credit can be earned through the semester course offerings).

All students should have experience in both the biological and physical/earth sciences. Two years of the same type of science, if this excludes other areas of science, is not recommended.

Courses in science are designed to develop an understanding of the natural and physical world, to stress the importance of major scientific principles, to develop reasonable competence in the use of the methods of science and to help recognize and prepare for the role science plays in our evolving technological world. The many course offerings and sequences in science have been carefully planned to meet the needs of each student, whether he/she considers science as a future career, as an interesting avocation or as a necessity for all citizens in our technological society.

Courses are taught in classroom-laboratory situations which provide opportunities for individual and group instruction, investigation and experimentation. All science classes require a teacher recommendation.

The following are possible four-year course sequences:

<u>Seq.</u>	<u>Grade 9</u>	<u>Grade 10</u>	<u>Grade 11</u>	<u>Grade 12</u>
1.	Earth Science - G or Biology - G	Biology - G Earth Science - G	Chemistry/Physics	Chemistry Themed or Physics Themed
2.	Biology or Earth Science	Earth Science or Biology	Chemistry Themed or Chemistry Traditional	Physics Themed or Physics Traditional
3.	Biology	Chemistry Themed or Chemistry Traditional	Physics Themed or Physics Traditional	Earth Science semester courses or Earth Science Honors or select Advanced Placement courses
4.	Biology	Chemistry Themed or Chemistry Traditional	Earth Science semester courses* or Earth Science	Physics Themed Physics Traditional
5.	Earth Science or Earth Science - H	Biology or Biology - H	Chemistry Traditional or Chemistry - H	Physics Traditional, Physics - H or Advanced Placement courses
6.	Biology Honors	Chemistry Honors	Physics Honors	Advanced Placement courses

*The following semester courses are available to upperclassmen:

- Meteorology/Astronomy (**student must not have taken Earth Science**)
- Geology/Oceanography (**student must not have taken Earth Science**)

The aforementioned sequences by no means represent all sequences available to students. The possibilities are numerous. Possibly a more useful way to view science courses is by the year offered. The following table serves that purpose.

Science Department

COURSE TITLE	Course #	Prerequisite	Credit	Grade Offered
Fundamentals of Physical Science	3680	Yes	1.0	11-12
Fundamentals of Biological Science	3690	Yes	1.0	9-12
Biology - General	3700	Yes	1.0	9-12
Biology	3710	Yes	1.0	9-12
Biology - Honors	3720	Yes	1.0	9-12
Advanced Placement Biology	3730	Yes	1.0	11-12
Advanced Placement Environmental Science	3770	Yes	1.0	11-12
Earth Science - General	3740	Yes	1.0	9-12
Earth Science	3750	Yes	1.0	9-11
Earth Science - Honors	3760	Yes	1.0	9-12
Meteorology/Astronomy	3771	Yes	0.5	11-12
Geology/Oceanography	3781	Yes	0.5	11-12
Chemistry/Physics I	3800	Yes	1.0	11-12
Chemistry - Themed	3810	Yes	1.0	10-12
Chemistry - Traditional	3820	Yes	1.0	10-12
Chemistry - Honors	3830	Yes	1.0	10-12
Advanced Placement Chemistry	3840	Yes	1.0	11-12
Physics - Themed	3900	Yes	1.0	10-12
Physics - Traditional	3920	Yes	1.0	10-12
Physics - Honors	3930	Yes	1.0	10-12
Advanced Placement Physics B	3950	Yes	1.0	11-12
Advanced Placement Physics C	3960	Yes	1.0	11-12

FUNDAMENTALS OF PHYSICAL SCIENCE

Course # 3680

Full year
Credit: 1.0

This course focuses on the basic principles of the physical science. Students are directly involved in the development of each concept presented. The goal is to sharpen skills of observation and inference. Fundamentals of Physical Science is a laboratory course.

Prerequisite: Successful completion of Biology General and Earth Science General. Enrollment in this course is by teacher recommendation only.

FUNDAMENTALS OF BIOLOGICAL SCIENCE

Course # 3690

Full year
Credit: 1.0

This course investigates the basic structure, activities and relationships among living things. Class activities include laboratory investigations and class discussions.

Prerequisite: Must be recommended cooperatively by Educational Services, Science and Guidance departments. Fundamentals of Biological Science 3690 is being reviewed and will NOT be offered in 2010-2011.

BIOLOGY - GENERAL

Course # 3700

Full year
Credit: 1.0

This course is designed to acquaint students with properties of living organisms. The course content includes such topics as the relationship between structure and function in living organisms as it relates to the human body, evolution, genetics, and many aspects of ecology. The approach of this course is to provide an introduction to major biological concepts with the use of an easily readable textbook. Biology - G is a laboratory course.

Prerequisite: Incoming freshmen eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 & 12.

BIOLOGY

Course # 3710

Full year

Credit: 1.0

This course is designed to acquaint students with properties of living organisms. This course's content includes such topics as the relationship between the structure and function in living organisms as it relates to the human body, evolution, genetics, and varied ecological principals. These areas are investigated in greater depth and application than Biology-General. The impact that humans have on the global environment is studied during the end of this course. Methods of scientific inquiry are employed in classroom instruction. Good ability in reading comprehension is **ESSENTIAL** for success in this course. Biology - R is a laboratory course.

Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 & 12.

BIOLOGY - HONORS

Course # 3720

Full year

Credit: 1.0

The course follows a molecular approach in the following content areas: cellular biology, evolution, genetics and its applications, and aspects of human biology. Compared to Biology 3710, the content areas are covered in greater depth and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. This course utilizes an inquiry approach in which students incorporate factual information into a framework of reflection and analysis. Biology - H is a laboratory course.

Prerequisite: High ability in science, mathematics and reading. Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 & 12.

ADVANCED PLACEMENT BIOLOGY

Course # 3730

Full year

Credit: 1.0

This course follows the College Board's Advanced Placement curriculum and as such is extremely rigorous and fast paced. This course is comparable to an introductory college level course. College level materials are used. Advanced Placement Biology is a laboratory course.

Prerequisite: Three years of science, including a year of Biology and a year of Chemistry and departmental recommendation. Concurrent enrollment in third year of science and AP Biology is permitted. Open to grades 11 & 12.

ADVANCED PLACEMENT ENVIRONMENTAL SCIENCE

Course # 3770

Full year

Credit: 1.0

This course follows the College Board's Advanced Placement curriculum and as such is extremely rigorous and fast paced. This course will provide students with the scientific principles, concepts and methods required to understand the interrelationships of the natural world, to identify and analyze environmental problems, and to examine alternative solutions for resolving and/or preventing them. Field trips are an integral part of this course and are therefore mandatory. This course is comparable to a one-semester introductory college-level course; college-level materials are used. Advanced Placement Environmental Science is a laboratory course.

Prerequisite: Three years of science and departmental recommendation. Concurrent enrollment in a third year of science and AP Environmental Science is permitted. Open to grades 11 & 12.

EARTH SCIENCE - GENERAL

Course # 3740

Full year

Credit: 1.0

The core material for this course is similar to that of 3750 Earth Science. The approach of the text used in this course is understandable, practical and, most important, it aids students who need an introduction to major concepts in Earth Science in an easy to read form. Earth Science - G is a laboratory course.

Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 & 12.

Science Department

EARTH SCIENCE

Course # 3750

Full year

Credit: 1.0

This course utilizes an inquiry approach in which students take factual information and use it for analysis. The main units of study are: geology, oceanography, meteorology and astronomy. Good ability in reading comprehension and average ability in math are **ESSENTIAL** for success in this program. Earth Science is a laboratory course.

Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9 - 11.

EARTH SCIENCE - HONORS

Course # 3760

Full year

Credit: 1.0

This course uses a college-level textbook and covers major topics in meteorology, astronomy, and geology. Compared to Earth Science 3750, the pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. The approach of the course involves traditional learning, labs, and tests paired with cooperative group work, presentations, and written projects. Earth Science - H is a laboratory course.

Prerequisite: High ability in science, mathematics and reading. Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 & 12.

METEOROLOGY AND ASTRONOMY

Course # 3771

1st or 2nd semester

Credit: 0.5

Meteorology is the study of the mechanics of the atmosphere, weather and climatic patterns. Astronomy is concerned with the celestial bodies that comprise the known physical universe. The astronomy portion of this course DOES NOT emphasize astrophysics. This course includes teamwork to help develop problem solving skills. Good reading skills and comprehension are required. Meteorology and Astronomy is a laboratory course.

Prerequisite: At least one year of high school science, and departmental recommendation. This course is NOT open to anyone who has already taken Earth Science. Open to grades 11 & 12.

GEOLOGY AND OCEANOGRAPHY

Course # 3781

1st or 2nd semester

Credit: 0.5

This course examines the physical processes that shape and change the earth's crust. The physical, chemical, geological and biological aspects of the ocean are explored with equal time devoted to each aspect. This course includes teamwork to help develop problem solving skills. Good reading skills and comprehension are required. Geology and Oceanography is a laboratory course.

Prerequisite: At least one year of high school science, and departmental recommendation. This course is NOT open to anyone who has already taken Earth Science. Open to grades 11 & 12.

CHEMISTRY/PHYSICS I

Course # 3800

Full year

Credit: 1.0

This course is designed for those students needing additional chemistry and physics background before enrollment in a full-year course. Approximately one semester each will be devoted to topics in chemistry, such as atomic structure and gases, and topics in physics, such as motion and waves. This lab oriented course is taught at a pace that allows students to focus on chemistry and physics content development as well as study skills that could prepare students for a full-year chemistry or physics course. This is a laboratory course.

Prerequisite: Successful completion of Algebra and departmental recommendation. This course is not open to students who have taken Chemistry or Physics. Open to grades 11 & 12.

CHEMISTRY-Themed**Course # 3810**

Full year
Credit: 1.0

(Both Chemistry-Themed and Chemistry-Traditional are REGULAR level courses.) This is an environmentally themed chemistry course which teaches traditional chemistry concepts such as stoichiometry, acids and bases, and behavior of gases. These topics are taught through the study of environmental topics including: nuclear chemistry, petroleum, water and air. This course incorporates teamwork to develop problem solving skills and an understanding of the relevance and concepts of chemistry in everyday living. This course has a field-based lab requirement. This is a laboratory course and it does not meet the prerequisite for A.P. Chemistry.

Prerequisite: Successful completion of Algebra 1 and departmental recommendation. Open to grades 10, 11 & 12.

CHEMISTRY-Traditional**Course # 3820**

Full year
Credit: 1.0

(Both Chemistry-Themed and Chemistry-Traditional are REGULAR level chemistry courses.) This is a traditional high school chemistry course. Traditional chemistry concepts such as stoichiometry, acids and bases, behavior of gases and molecular shapes are taught as students independently develop understanding through participation in classroom lecture, assignments, activities and labs. This is a laboratory course and it meets the prerequisite for A.P. Chemistry.

Prerequisite: Successful completion of Algebra 1 and departmental recommendation. Open to grades 10, 11 & 12.

CHEMISTRY - HONORS**Course # 3830**

Full year
Credit: 1.0

The core material for this course is similar to that of Chemistry-Traditional and follows a similar sequence. The pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. Chemistry - Honors is a laboratory course. This course meets the pre-requisite for A.P. Chemistry.

Prerequisite: High ability in science, mathematics and reading and departmental recommendation. Open to grades 10, 11 & 12.

ADVANCED PLACEMENT**CHEMISTRY****Course # 3840**

Full year
Credit: 1.0

This course follows the College Board's Advanced Placement curriculum and as such is extremely rigorous and fast paced. Students are required to do significant amounts of work outside of class. This course is comparable to an introductory college level chemistry course. College level materials are used. Advanced Placement Chemistry is a laboratory course.

Prerequisite: Three years of science, including a year of Chemistry (Traditional or Honors) and a year of Physics (Traditional or Honors) and departmental recommendation. Concurrent enrollment in a third year of science and AP Chemistry is permitted. Open to grades 11 & 12.

PHYSICS-Themed**Course # 3900**

Full year
Credit: 1.0

This is a theme-directed laboratory course. Topics include motion, forces, energy, waves, sound, optics, electricity and magnetism and are taught in a directed approach with frequent assessment through participation in classroom lecture, assignments, activities, projects and labs. **This course uses an electronic textbook and an electronic homework program which require internet access.** This course is appropriate for students with average math ability. This is a laboratory course and it does not meet the prerequisite for A.P. Physics courses.

Prerequisite: successful completion of Algebra 1, concurrent enrollment in Algebra II/Trig and departmental recommendation. Open to grades 10, 11 & 12

Science Department

PHYSICS-Traditional

(Course # 3920)

Full year

Credit: 1.0

This is a traditional high school physics laboratory course. Topics such as motion, forces, momentum, energy, waves, sound, light, optics, electricity, and magnetism are taught as students independently develop understanding with less frequent assessment through participation in classroom lecture, assignments, activities, projects, and labs. This course is appropriate for students with average math ability. This is a laboratory course and meets the prerequisite for A.P. Physics courses.

Prerequisites: Successful completion of Algebra I, concurrent enrollment in Algebra II/Trig, and departmental recommendation. Open to grades 10, 11 & 12.

PHYSICS - HONORS

Course # 3930

Full year

Credit: 1.0

This course uses a college-level textbook. Compared to Physics-Traditional, the pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. Physics Honors is extremely math intensive at the Algebra/Trig level with an emphasis on symbolic manipulation of variables. This course meets the prerequisite for AP Physics. Physics-H is a laboratory course.

Prerequisites: Successful completion of Trigonometry and departmental recommendation that will be based upon high level ability in science, mathematics and reading. Open to grades 10, 11 & 12.

ADVANCED PLACEMENT PHYSICS B

Course # 3950

Full year

Credit: 1.0

This course follows the College Board's Advanced Placement curriculum and as such is extremely rigorous and fast paced. This course follows the Advanced Placement Physics B format, so approximately one-third of the year is devoted to mechanics, one-third to classical electricity and magnetism, and the remainder to light/optics/nuclear. Algebra is used in problem solving and derivations. This course, which uses college level materials, is comparable to an introductory college physics course for non-engineering majors. Advanced Placement Physics is a laboratory course.

Prerequisite: Departmental recommendation and three years of science, including years of Chemistry and Physics (Traditional or Honors). Concurrent enrollment in a third year of science and AP Physics is permitted. Open to grades 11 & 12.

ADVANCED PLACEMENT PHYSICS C

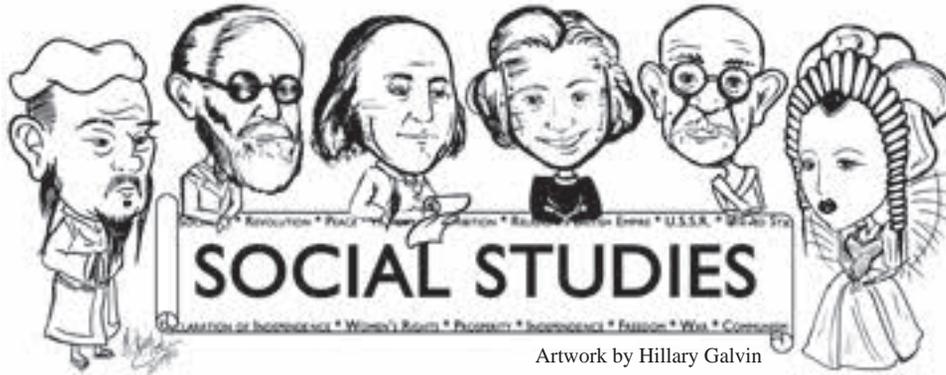

Course # 3960

Full year

Credit: 1.0

This course follows the College Board's Advanced Placement curriculum and as such is extremely rigorous and fast paced. This course follows the Advanced Placement Physics C format so approximately one-half of the year is devoted to mechanics and the other to classical electricity and magnetism. Calculus is used in problem solving and derivations with usage increasing as the course progresses. This course, which uses college level materials, is comparable to an introductory college physics course for engineering majors. Advanced Placement Physics is a laboratory course.

Prerequisite: Departmental recommendation and three years of science, including years of Chemistry and Physics (Honors), as well as completion of Calculus AB or BC, or concurrent enrollment. Concurrent enrollment in a third year of science and AP Physics is permitted. Open to grades 11 & 12.

To view sample packets for each social studies course, please visit our department page on the Hinsdale Central website and use the password, socialstudies.

MISSION STATEMENT

The Hinsdale Central Social Studies Department strives to be respected by all school constituencies for its ability to inspire and direct the personal, intellectual, and civic development of its students. The department emphasizes the process of learning, whereby students critically examine issues, evaluate multiple points-of-view, and synthesize perspectives from a variety of disciplines, resulting in the ability to solve problems and make informed decisions. The department seeks to promote an understanding of diverse cultures, values, and systems; from this, students will gain awareness of their own values, as well as those of others. The tolerance and diversity that result from this training are balanced by a commitment to exploring and building common values such as democratic participation and freedom of expression.

It is a department that is self-directed, collegial, with high expectations of its students and of itself. The department seeks to foster a love of learning through enthusiasm for the social studies disciplines, use of a variety of instructional strategies, and the dynamic of individual personalities committed to a set of shared goals.

Two (2) credits in Social Studies are required for graduation. One of these credits must be U.S. History, which also satisfies the state requirement for an “Americanism” unit. This credit must be earned by completing both semesters of U.S. History, American Studies or Advanced Placement U.S. History. The second credit must be earned during the freshman year by taking either World Cultures or World History - H.

Freshman Program: All freshmen must take either World Cultures or World History Honors. Students must satisfy this requirement by earning credit in both semester one and semester two of the course in which they enroll.

Sophomore Program: If a student has failed either one or both semesters of his/her freshman course, he/she must make up the failed credit. See electives open to sophomores.

Junior Program: American Studies, U.S. History or AP U.S. History are full year courses. One is required by the State of Illinois for graduation. See electives open to juniors.

Senior Program: There are no required courses at this level. See electives open to seniors.

WORLD CULTURES

Course # 2140

Full year
Credit: 1.0

World Cultures explores the geographic, economic, historic, cultural and current issues pertaining to the world's major civilizations. A variety of activities and assessments will be used to foster the acquisition of not only content knowledge, but also critical thinking skills appropriate to the social studies.

Prerequisite: None. Open to grade 9.

Note: Students may not take World Cultures and World History Honors.

WORLD HISTORY - H

Course # 2220

Full year
Credit: 1.0

This course surveys broadly, chronologically and topically, the chief features of various civilizations, culture, nations and major concepts from ancient to modern times. The historical development of Eastern and Western civilizations are explored. Core material is organized around a textbook; however, extensive supplemental reading is required. Students will be challenged with a variety of assessments including tests, papers, speeches, debates, presentations and cooperative learning activities.

Prerequisite: Departmental approval. Open to grade 9.

Note: Students may not take World History Honors and World Cultures.

WESTERN CIVILIZATION

Course # 2261

1st or 2nd semester
Credit: 0.5

Western Civilization is a survey of the history of Western Civilization beginning with the influences of Greece and Rome and ending in the early Twentieth Century. Students will explore the historical trends, events, and ideas that have come to shape society today. This course is designed to accommodate those students not taking AP European History and/or World History Honors.

Prerequisite: None. Open to grades 10, 11 & 12.

Note: Students may not take Western Civilization and Advanced Placement European History.

GLOBAL ISSUES

Course # 2231

1st or 2nd semester

Credit: 0.5

Global Issues examines several major contemporary political, social, and diplomatic dilemmas of the 21st century. After tracing the historical roots of contemporary issues, students will analyze and evaluate each issue from a variety of perspectives. Possible topics include the proliferation of nuclear weapons, human rights and genocide, democracy and dissent, the future of the Middle East, the “war on terror,” U.S. foreign policy since Vietnam, and major domestic challenges. Active student participation on a daily basis is expected and is a major component of a student’s grade. In addition, developing and defending written and oral arguments are essential elements of the course.

Prerequisite: None. Open to grades 10, 11 & 12.

EAST ASIAN STUDIES

Course # 2241

1st or 2nd semester

Credit: 0.5

Asian Studies will examine the history and culture of China, Japan and Korea. Possible topics of study include the Samurai and code of Bushido, the emergence of Japan as a colonial power, the Rape of Nanking, the Korean War, the development of nuclear weapons by North Korea, and the emergence of China as a 21st century global superpower. The course is project, writing, and discussion oriented complimented with a field trip and experiential learning. Students will be challenged to avoid ethnocentrism and to understand these civilizations from the perspective of the people who came from them.

Prerequisite: None. Open to grades 10, 11 & 12.

RUSSIAN STUDIES

Course # 2251

1st or 2nd semester

Credit: 0.5

Russian Studies will examine the history, culture, geography, and political ideology of Russia and the former Soviet Union. The course places special emphasis on the Romanov Dynasty, communist rule in the former Soviet Union, and contemporary affairs, including Russia’s role on the world stage. This class offers a unique opportunity to focus one’s studies on a specific and highly relevant part of the world. In addition, Russian Studies places special emphasis on writing in the social studies context.

Prerequisite: None. Open to grades 10, 11 & 12.

AFRICAN AMERICAN HISTORY

Course # 2240

1st or 2nd semester

Credit: 0.5

African American History focuses on the unique contributions that slaves from Africa, and their descendents, have made towards the cultural and historical legacy of our nation. Topics of study will include the changing legal and social definitions of race in America, the efforts of African Americans to resist servitude, emancipation and its aftermath, the Harlem Renaissance, the Civil Rights movements, and contemporary issues facing African Americans. Students will examine historical sources, with special focus on the art and music created by African Americans. Assessments will include an oral history project, debates, creative projects, essays and exams.

Prerequisite: None. Open to grades 10, 11 & 12.

ADVANCED PLACEMENT EUROPEAN HISTORY

Course # 2440

Full year

Credit: 1.0

Advanced Placement European History traces the political, social, economic, intellectual, and cultural development of European Civilization from the Renaissance to the present. A wide variety of teaching methods are used including discussion, debate, role-play, simulations and trials. Students will learn to use and evaluate primary sources, write critical essays, and analyze historical interpretations. This course prepares the student for the Advanced Placement European History examination.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

Note: Students may not take Advanced Placement European History and Western Civilization.

Social Studies Department

AMERICAN STUDIES

Course # 1550

Full year

Credit: 2.0 (one credit each of English and American History)

American Studies surveys America's past through the use of non-fiction texts, novels, films, visual arts, music, news sources, and primary source documents. The curriculum integrates history and literature by examining American texts through rhetoric, analysis, thematic connection, and inquiry. Students will find a challenging educational environment containing a variety of methodologies including current event discussions, media presentations and field trips. Teachers plan, instruct, and evaluate student work together. The course meets for two back-to-back periods.

Prerequisite: None. Credit in this course fulfills the U.S. History requirement. Open to grade 11.

Note: Students may not take American Studies and U.S. History or Advanced Placement U.S. History.

U.S. HISTORY

Course # 2310

Full year

Credit: 1.0

U.S. History is a survey which covers Native American cultures through European colonization, founding of the new Republic and Constitution, includes the Civil War, and concludes with modern times. Units survey chronologically and topically the major events, personalities and issues which have played a part in the evolution of the American democratic republic.

Prerequisite: None. Required by State Law for graduation. Open to grade 11.

Note: Students may not take U.S. History and American Studies or Advanced Placement U.S. History.

ADVANCED PLACEMENT U.S. HISTORY

Course # 2320

Full year

Credit: 1.0

Advanced Placement United States History is a survey course that is meant to replicate the academic rigor of a two semester college experience in a year. This class requires students to engage in extensive reading of primary sources and historical essays. Focus will be placed on the development of college level reading and writing skills. Key events and major themes such as American diversity, economic transformations and politics and citizenship will be examined in studying the nation's past. This course prepares the student for the Advanced Placement United States History examination.

Prerequisite: Departmental approval. Credit in this course fulfills the U.S. History requirement. Open to grade 11.

Note: Students may not take Advanced Placement U.S. History and American Studies or U.S. History.

ECONOMICS

Course # 2331

1st or 2nd semester

Credit: 0.5

Economics investigates the principles that drive decision-makers, both consumers and producers, in our global marketplace. Students specifically examine the major components of the U.S. economic system; such as, opportunity costs, trade-offs, production and consumption practices, money and banking, savings and investment, business management and labor, business cycles, and economic relationships between nations. The study of Economics helps prepare students to make rational economic choices both in their own lives and in their participation in policy decisions as citizens of a city, state, nation, and the world. Learning is enhanced through current events, economic simulations, and class activities. **Successful completion of this course fulfills the District's Consumer Education requirement for graduation.**

Prerequisite: None. Open to grades 11 & 12.

Note: Students may not take Economics and Advanced Placement Microeconomics or Advanced Placement Macroeconomics concurrently.

ADVANCED PLACEMENT MICROECONOMICS

Course # 2341

1st or 2nd semester

Credit: 0.5

Advanced Placement Microeconomics provides students with a thorough understanding of the decision making process for individuals and firms in the marketplace. It places primary emphasis on the operations of the product and factor markets along with the government's role in promoting efficiency and equity in various market structures. The course is conducted in a lecture/seminar manner supported by daily readings, practice problems, and student activities. The course prepares the student for the Advanced Placement exam in Microeconomics exam administered in May. **Successful completion of this course fulfills the District's Consumer Education requirement for graduation.**

Prerequisite: Departmental approval. Open to grades 11 & 12.

Note: Students may not take Advanced Placement Macroeconomics, Advanced Placement Microeconomics or Economics concurrently.

ADVANCED PLACEMENT MACROECONOMICS

Course # 2442

2nd semester only

Credit: 0.5

Advanced Placement Macroeconomics is the study of the United States' economy. Students examine economic topics such as unemployment, inflation, GDP, international trade, interest rates, monetary policy, fiscal policy, and the national debt and deficit. Students will come to understand the causes for problems in the economy and be able to prescribe economic policies for both healthy and unhealthy economies. Macroeconomics is an interdisciplinary course combining the social sciences with mathematical analysis and graphing. The course prepares students for the Advanced Placement exam in May. **Successful completion of this course fulfills the District's Consumer Education requirement for graduation.**

Prerequisite: Completion of AP Microeconomics or Economics and departmental approval. Open to grades 11 & 12.

Note: Students may not take Advanced Placement Macroeconomics, Advanced Placement Microeconomics or Economics concurrently.

CONSTITUTIONAL LAW

Course # 2381

1st or 2nd semester

Credit: 0.5

Constitutional Law is an introductory legal course which investigates many topics, including criminal law, trial rules, court systems, juvenile law, discrimination, and search and seizure law. In addition to using contemporary legal cases, a wide variety of teaching methods are used, including mock trial hearings, mock jury simulations, and videos. The primary learning tool in Constitutional Law is class discussion. Additionally, an alternative final exam is available for those students who would prefer a project.

Prerequisite: None. Open to grades 11 & 12.

ADVANCED PLACEMENT UNITED STATES GOVERNMENT AND POLITICS

Course # 2361

1st or 2nd semester

Credit: 0.5

AP United States Government and Politics is an advanced placement course designed to give students both theoretical and realistic perspectives on politics and government in the United States. Its focus is on the interconnectedness between the various institutions, opinions and policies that make up the national public system. Student political involvement is emphasized. This class prepares students for the Advanced Placement United States Government and Politics examination.

Prerequisite: Departmental approval. Concurrent enrollment in U.S. History or previous completion of U.S. History during the regular school year. Open to grades 11 & 12.

Social Studies Department

SOCIOLOGY

Course # 2371

1st or 2nd semester

Credit: 0.5

Sociology is the study of man's social behavior. The course increases the student's awareness of social pressures that affect one's own behavior and the behavior of others. Typical activities such as discussions, experiments, student planned projects and a wide variety of films and videotapes enable the student to apply knowledge gained in the course to his or her own life.

Prerequisite: None. Open to grades 11 & 12.

PHILOSOPHY AND ETHICS

Course # 2391

1st or 2nd semester

Credit: 0.5

Philosophy and Ethics will offer interested and intellectually curious students the opportunity to reflect on fundamental questions related to the human condition, such as the basis of knowledge, ethical theories and issues, artificial intelligence, free will versus determinism, rational proofs for the existence of God, and the meaning of evil and suffering. The goal of the course will not be so much to cover a particular body of philosophers, but to raise important issues that will spur students to further inquiry, study, and application in their own lives. Much of the class will involve reading, discussion, and writing. Students will be expected to read carefully, write critically, and participate in class discussions.

Prerequisite: None. Open to grades 11 & 12.

PSYCHOLOGY

Course # 2431

1st or 2nd semester

Credit: 0.5

Psychology focuses on the study of human behavior from many perspectives. Audio-visual materials, experiments, projects and case studies are used to understand the human experience. This class is heavily discussion based. In addition, much independent coursework is used to investigate topics such as development, the brain, altered states of consciousness, learning, personality and abnormal behavior.

Prerequisite: None. Open to grades 11 & 12.

Note: Students may not take Psychology and Advanced Placement Psychology.

ADVANCED PLACEMENT PSYCHOLOGY

Course # 2430

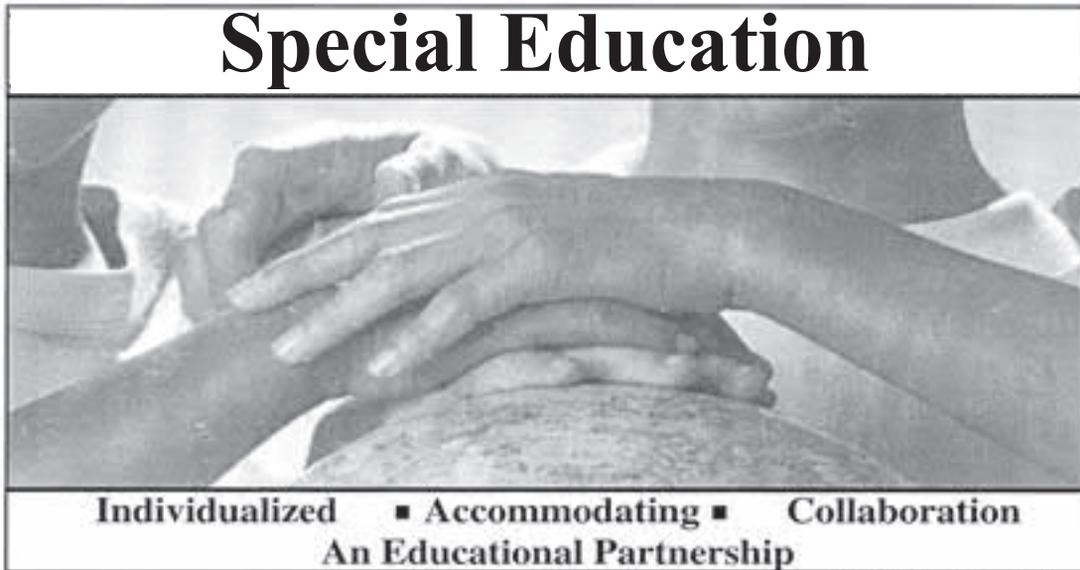

Full year

Credit: 1.0

AP Psychology explores why human beings are the way that they are. This course traces the emergence of scientific psychology in the nineteenth century from its roots in philosophy and physiology to present day practices. The development of the major "schools" of psychology and showing how they differed in subject matter and the methods of study are covered. This historical introduction helps students gain an understanding of the principal twentieth century approaches to psychology: behavioral, biological, cognitive, humanistic and psychodynamic. This class prepares students for the Advanced Placement Psychology examination.

Prerequisite: Departmental approval. Open to grades 11 & 12.

Note: Students may not take Advanced Placement Psychology and Psychology.

Nick Gawriluk, design
Brendan Husarik, design

Students eligible for special education services as specified by an Individual Education Program (IEP) receive specialized instruction and services through one or more of the following approaches:

- individualized academic accommodations and/or modifications within the regular education classrooms,
- structured assistance within the regular education classrooms,
- structured assistance outside the regular class,
- related services, and
- direct instruction in specialized course offerings

The following specialized classes taught by certified special education teachers may be implemented in the 2010 – 2011 school year. **Course enrollment is determined by IEP recommendation.** Courses meet the HCHS graduation requirements.

Course Title	Course #	Credit	Grade Offered
English	1810/1820/1830/1840	1.0	9-12
World Cultures	1850	1.0	9
**Reading	1890	1.0	9-12
Foundations of Algebra and Geometry	1871	1.0	9-10

** May be taken more than once for credit (maxium 4.0 credits)

Special Education

ACADEMIC CENTER RESOURCE

Course # 9920/9924

Full year

Credit: NC

Academic Center Resource is for students who are self motivated, well organized, and can demonstrate excellent self-advocacy skills. Students are self-directed learners who can identify strengths/challenges and have developed the necessary compensatory skills to allow them to be successful in the academic school setting. The Academic Center provides students with opportunities for support across curriculum subjects in a structured setting. Students may also seek out departmental support/resources, schedule guidance appointments, and make up any tests/quizzes during this period.

Prerequisite: IEP recommendation. Open to grades 9-12.

STUDY SKILLS 1

Course # 1951/1952

Full year

Credit: 0.25/semester

Study Skills 1 is a freshman-level resource class specifically targeted for students with an IEP. Students enroll in study skills based upon a team recommendation at the most recent IEP meeting. Study Skills 1 targets the skills required for a successful transition into the high school experience. These include organization, time management, homework completion, long term planning, listening skills, memory skills, and test preparation skills. Study skills 1 also serves as a period where students may complete assessments and/or consult with other school staff to meet their individual needs.

Prerequisite: IEP recommendation. Open to grade 9.

STUDY SKILLS 2

Course # 1956/1957

Full year

Credit: 0.25/semester

Study Skills 2 is a sophomore-level resource class specifically targeted for students with an IEP. The course addresses the maintenance of study skills such as effective note-taking and test preparation skills. It also begins to look into research skills that students will need to investigate post-secondary employment or academic/vocational programs. In addition, Study Skills 2 serves as a period in which students may complete assessments or consult with other school staff to meet their individual needs.

Prerequisite: IEP recommendation. Open to grade 10.

LEARNING STRATEGIES 1

Course # 1958/1959

Full year

Credit: 0.25/semester

Learning strategies 1 is a junior-level resource class. Students are enrolled in this class based upon the IEP team's recommendation. This class supports students with their current course work and prepares students for any upcoming assessments through academic content review and effective test taking strategies. Additionally, students may use their learning strategies class time to complete classroom assessments and to seek out support from other academic departments and related service providers. A final component to Learning Strategies is to continue the process of post secondary and transitional planning.

Prerequisite: IEP recommendation. Open to grade 11.

LEARNING STRATEGIES 2

Course # 1961/1962

Full year

Credit: 0.25/semester

Learning strategies 2 is a senior-level resource class. Students are enrolled in this class based upon the IEP team's recommendation. This class supports students with their current course work and prepares students for any upcoming assessments through academic content review and effective test taking strategies. Additionally, students may use their learning strategies class time to complete classroom assessments and to seek out support from other academic departments and related service providers. A final component to Learning Strategies is to continue the process of post secondary and transitional planning.

Prerequisite: IEP recommendation. Open to grade 12.

PROGRAM SUCCESS*Course # 1956A/1957A*

Full year

Credit: 0.25/semester

Program Success is for students whose emotional/behavioral needs interfere significantly with their learning or that of other classmates. Program Success provides students time in their day to get additional support with their academic course as well as provide students an opportunity to process situation that have occurred which are having a social and/or emotional impact on the student. In addition, instructional arrangements can be made to provide students with academic instruction in a self-contained setting. This instruction arrangement may be necessary for short durations while new interventions are planned. Program Success also serves as a time when students can communicate with staff or complete assessments.

Prerequisite: IEP recommendation. Open to grades 9-12.

LIFE SKILLS ENGLISH*Course # 2000*

Full year

Credit: 1.0

This course explores fundamental elements of reading, writing, and listening and speaking that can be generalized in various facets of daily life. Curriculum is individualized according to the goals and objectives delineated in each student IEP.

Prerequisite: IEP recommendation. Open to grades 9-12.

LIFE SKILLS MATH*Course # 2030*

Full year

Credit: 1.0

This course explores fundamental math concepts that can be generalized in various facets of daily life. Curriculum includes problem solving and computation, money and number sense, and basic estimation and measurement. Basic analytical methods, geometry, and data analysis are also emphasized. Curriculum is individualized according to the goals and objectives delineated in each student IEP.

Prerequisite: IEP recommendation. Open to grades 9-12.

LIFE SKILLS DRAMA*Course # 2080*

Full year

Credit: 1.0

Students will explore essential aspects of academic, organizational and social skills that can be generalized in various facets of daily life. Emphasis will be placed on decision-making and behavior expectations, time management, use of classroom and school resources, and self-advocacy. Curriculum is individualized according to the goals and objectives delineated in each student IEP.

Prerequisite: IEP recommendation. Open to grades 9-12.

LIFE SKILLS SOCIAL STUDIES*Course # 2081*

Full year

Credit: 1.0

The goal of this course is to develop in students an understanding of citizenship that can be generalized in various facets of daily life. Students will sharpen their basic understanding of history, government, and social systems through the exploration of current and historical events. Curriculum is individualized according to the goals and objectives delineated in each student IEP.

Prerequisite: IEP recommendation. Open to grades 9-12.
Life Skills Social Studies will NOT be offered for the 2010 – 2011.

LIFE SKILLS SCIENCE*Course # 2050*

Full year

Credit: 1.0

Students will investigate key elements of physical and social wellness that can be generalized in various facets of daily life, including proper nutrition, sleep, self-care, and exercise. Students will also explore the benefits of leisure activities and socialization. Curriculum is individualized according to the goals and objectives delineated in each student IEP.

Prerequisite: IEP recommendation. Open to grades 9-12.

Special Education

LIFE SKILLS PRE-VOC

Course # 2100

Full year

Credit: 1.0

This course explores essential skills related to employment. Emphasis will be placed on hands on in school job training, entry level workplace skill development which may include: following a schedule, time management, efficiency, responsibility, work etiquette, following directions and communicating with co-workers and supervisors. Curriculum is individualized according to the employment goals and objectives delineated in each student IEP.

Prerequisite: IEP recommendation. Open to grades 9-12.

LIFE SKILLS ELECTIVE

Course # 2060

Full year

Credit: 1.0

Through cooperative games, community experiences, and leisure activities, students will explore essential components of self-awareness & self-management, social-awareness, interpersonal skills, and decision-making. Curriculum is individualized according to the goals and objectives delineated in each student IEP.

Prerequisite: IEP recommendation. Open to grades 9-12.

ENGLISH

Course # 1810/1820/1830/1840

Full year

Credit: 1.0

Special education English classes are offered at each grade level. The curriculum incorporates vocabulary development, literature, and the writing process. Curriculum is aligned with grade level English course but taught at an instructional level. Direct reading a writing supports are provided. Weekly assessments are completed weekly to monitor progress in the areas of reading and writing.

Prerequisite: IEP recommendation. Open to grades 9-12.

WORLD CULTURES

Course # 1850

Full year

Credit: 1.0

World Cultures explores the economic, historic, cultural and current issues pertaining to the world's major civilization. A variety of activities and assessments will be used to foster the acquisition of not only content knowledge, but also critical thinking skills appropriate to the social studies. The curriculum supports students who have deficiencies in reading and writing.

Prerequisite: IEP recommendation. Open to grade 9.

READING

Course # 1890

Full year

Credit: 1.0

Reading is a course designed for students in 9th through 12th grade who demonstrate a need for direct instruction in reading strategies because they are reading two or more levels below grade level. Students will complete diagnostic tests at the start of the year, in the middle of the year, and at the end of the year. These tests will be used to track growth and also to provide necessary information so that instruction can be individualized to a student's needs. Instruction in oral fluency, silent reading comprehension, oral reading comprehension, listening comprehension, vocabulary, grammar, and phonics will be provided individually and in a whole class setting. The curriculum is comprised of lessons from the Jamestown Timed Reading series, current events articles, Six Minute Solution passages, the Language! Reading series, Aimsweb fluency and comprehension passages, and Averil Coxhead's High-Incidence Academic Word List.

Prerequisite: IEP recommendation. Open to grades 9-12.

FOUNDATIONS of ALGEBRA and GEOMETRY

Course # 1871

Full year

Credit: 1.0

This course introduces important topics in Algebra and Geometry. Algebra topics include expressions, equations, inequalities, and linear functions. Geometry topics include lines, segments, angles, triangles, perimeter, area, and volume. This course is appropriate for students with reasonable facility with arithmetic operations. A graphing calculator is required.

Prerequisite: IEP recommendation. Open to grades 9-10.

COOPERATIVE WORK TRAINING

Course # 1931/1932

Full year

Credit: 0.5/semester

This course explores obtaining and maintaining a part time paid position in the community. Students enrolled in this class are actively looking or are currently working at a part time job. This class meets once a week during a resource period to address job application completion and job retention. Seminars are offered throughout the course to address employment topics such as career exploration, understanding your paycheck, conflict resolution, resume and cover letter development, interviewing skill development. Participation in this class is identified as needed.

Prerequisite: IEP recommendation. Open to grades 10-12. Cooperative Work Training will NOT be offered for the 2010-2011 school year.

PRE VOCATIONAL SUPERVISED JOB TRAINING

Course # 1941/1942

Full year

Credit: 0.5/semester

This course explores more in-depth application and practice in both in-school and community based job training, as identified based on individual goals. This class emphasizes career exploration & planning, job application, job search, interviewing, resume development, cover letters, and continued development on communication skills.

Prerequisite: IEP recommendation. Open to grades 9-12.

ADULT OPPORTUNITIES

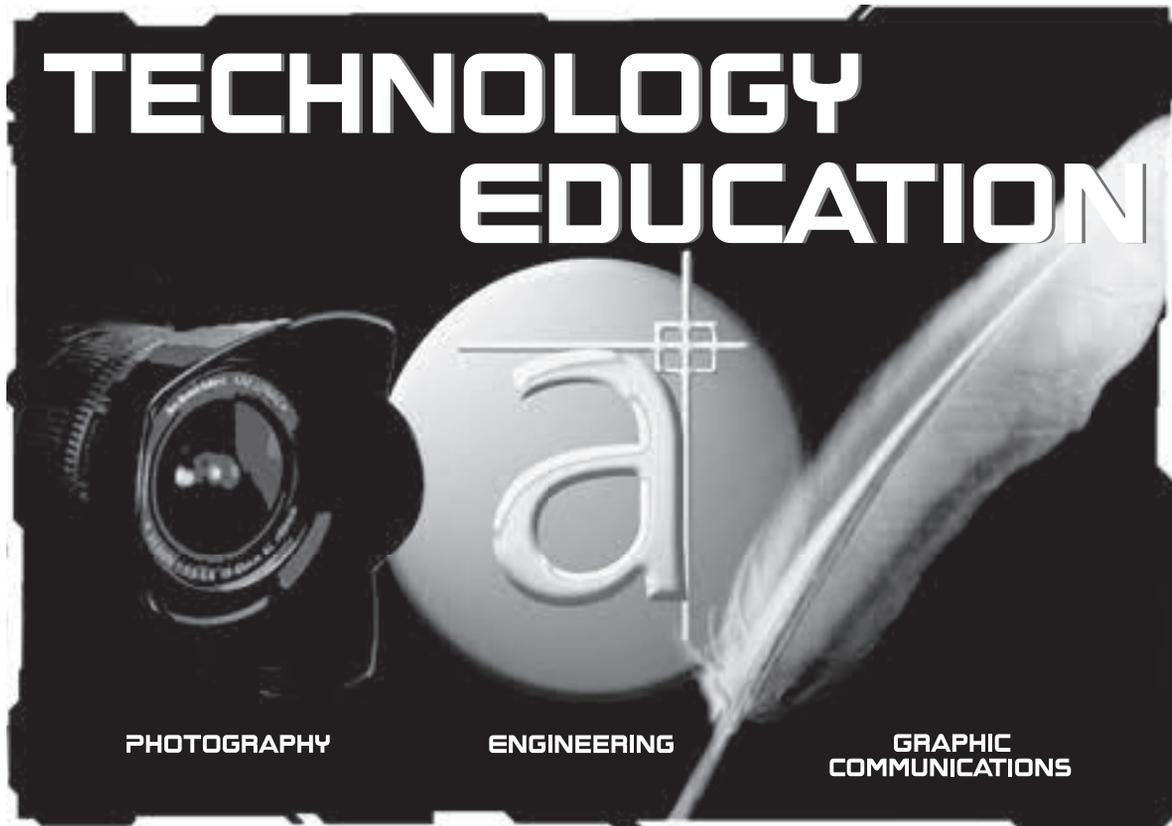

Course # 2930

Full year

Credit: NC

This program is available to young adults who are 18-22 and have completed their academic graduation requirements. The program is individually designed to assist young adults in pursuing their transition goals related to education, employment, independent living and social aspirations through community based instruction and activities. Emphasis will be placed on preparing young adults to manage their own lives and face the challenges of adulthood when they are no longer receiving support from their high school. Program participation is individually determined based on need and transition goals.

Prerequisite: IEP recommendation. Open to post 12th grade students.

The Technology Education Department offers an elective course of study to all students at Hinsdale Central. Technology Education courses help students meet the elective arts requirement. Our program of course offerings focuses on a variety of technologies that develop skills in graphic communication and design. Several courses are available to students who wish to explore the educational and career opportunities in Architecture, Engineering, Graphic Communications and Photography.

The primary instructional mode in the department is laboratory-oriented student projects and exercises. A wide range of instructional techniques and technologies is used in the classroom.

Articulated credits at College of DuPage are available to Hinsdale Central students who complete certain courses at Hinsdale Central with at least a grade of B and who upon graduation, attend C.O.D. The list of approved courses with articulated credit at College of DuPage is as follows:

Basic Photography
Digital Color Photography

Each class has a lab fee charged to the student to cover the cost of materials used by the students for project work.

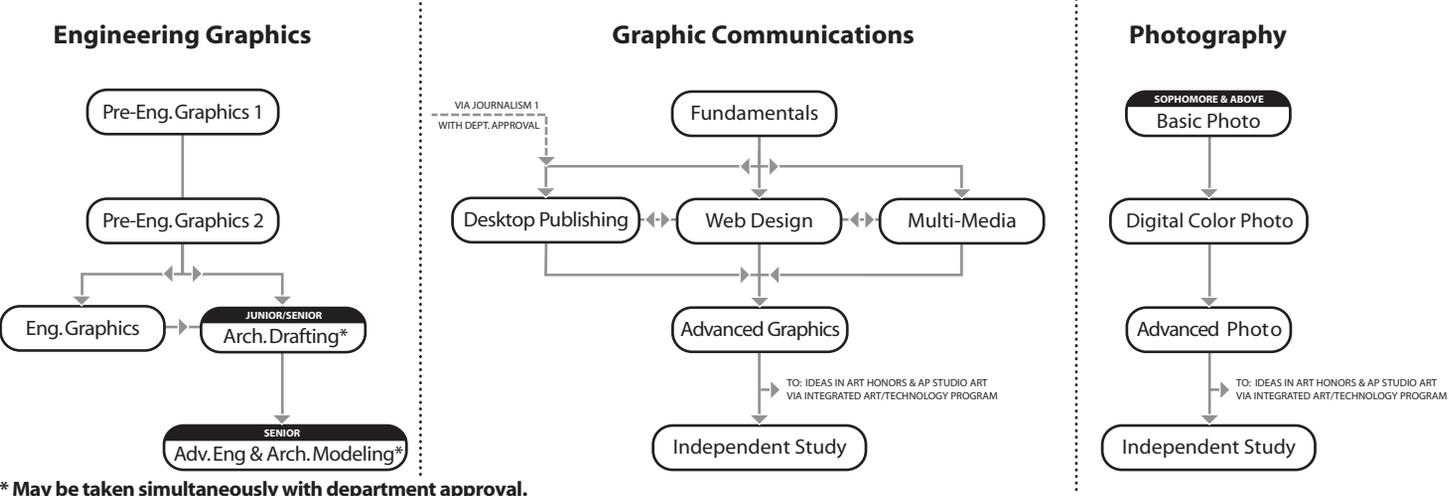

Technology Education

Technology Education

ENGINEERING GRAPHICS PROGRAM

NOTE: Software titles currently used in our Engineering Graphics and Architecture courses include: AutoCAD 2011, Inventor Professional 2010, Revit Architecture, and 3D Studio Max..

PRE-ENGINEERING GRAPHICS 1

Course # 6601

1st or 2nd semester

Credit: 0.5

This course introduces the student to the fundamentals of mechanical drafting while using AutoCAD software in our CAD Lab. The student will be taught many AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. Mechanical drawing problems will range from 2D drawings, orthographic projection, sectional view, and pictorial views (isometric and oblique). Freehand sketching on graph paper is also integrated into each assignment. Students will also be introduced to 3D modeling and 3D printing (rapid prototyping). A portfolio of all the student work will be bound together to be taken home at the end of the semester. A student-created 3D model will also be taken home by every student.

Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply fee: \$10.00.

PRE-ENGINEERING GRAPHICS 2

Course # 6611

1st or 2nd semester

Credit: 0.5

This course will continue to introduce the student to the fundamentals of mechanical drafting while using AutoCAD software in our CAD Lab. The student will be taught additional AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. Mechanical drawing problems will range from auxiliary views, rotations, developments and intersections, and dimensioning techniques of orthographic projection problems. Freehand sketching on graph paper is also integrated into each assignment. A portfolio of all the student work will be bound together to be taken home at the end of the semester.

Prerequisites: 6601. Open to grades 9, 10, 11 and 12. Supply Fee: \$10.00.

ENGINEERING GRAPHICS

Course # 6620

Full year

Credit: 1.0

The goal of the Engineering Graphics course is to expand the student's knowledge in the following areas: computer software usage, manufacturing processes, engineering and design, application of acquired knowledge in making production drawings, and career opportunities in a variety of engineering fields. Students in this class will be expected to work at an accelerated pace on individual projects and some small group work. The computer is the primary means of graphic problem solving using AutoCAD software. Students will be instructed on proper techniques using Autodesk Inventor to create 3D models. This software will lead students to the creation of model racecars that demonstrate the power of this software package. A series of problems which require model construction will also be part of the curriculum including the use of 3D printing technology (rapid prototyping). In addition, students will use 3D digitizer technology for reverse engineering applications. A portfolio of all the student work will be bound together to be taken home at the end of the year.

Prerequisites: 6601 and 6611. Open to grades 10, 11 & 12. Supply Fee: \$18.00.

ARCHITECTURAL DRAFTING

Course # 6630

Full year

Credit: 1.0

In the course, Architectural Drafting, the student will learn how to design and draw a complete set of architectural drawings necessary to construct a residential home. Room planning, flow patterns, design concepts, floor plans, construction details, elevations and presentation drawings will be completed during the first semester using a computer and AutoCAD software. Second semester students will construct a scaled ($3/4"=1'$) model of the home they designed the first semester. In addition non-traditional building methods will be explored: Super Insulated housing, Earth Sheltered housing, Wind Energy, Solar Energy, Energy Efficiency and Green Building. Information related to home construction, home building, building cost, permits and home buying will be explored and discussed.

Prerequisite: 6611 or departmental approval. Open to grades 10, 11 & 12.
Supply Fee: \$18.00.

ADVANCED ENGINEERING AND ARCHITECTURAL MODELING

Course # 6640

Full year

Credit: 1.0

This course will provide the student with additional challenges as they are introduced to several 3D modeling software programs. Students will be required to use the skills learned in both their engineering and architectural graphics courses as they make the transition from 2D drawings to 3D. Students will explore software programs such as Inventor, Revit and 3D Studio Max, while developing 3D models and animating them. Students will use 3D digitizer technology for reverse engineering applications to accurately reproduce parts. They will also use 3D print technology (rapid prototyping) to generate models for visual inspection and functional testing. An electronic portfolio will record all work completed during the school year. Students will also leave the class with various 3D models they produced.

Prerequisite: Engineering Graphics and Architectural Drafting and/or instructor approval. Open to grade 12 and/or departmental approval. Supply Fee: \$18.00.

Technology Education

Integrated Art and Technology Education Program

The Integrated Art and Technology Education Program is offered as an elective course of study to all students at Hinsdale Central. Our program is interested in the use of technology as a tool or medium in various art/technology-related areas of study, including Graphic Communications, Photography, and Digital Imaging .

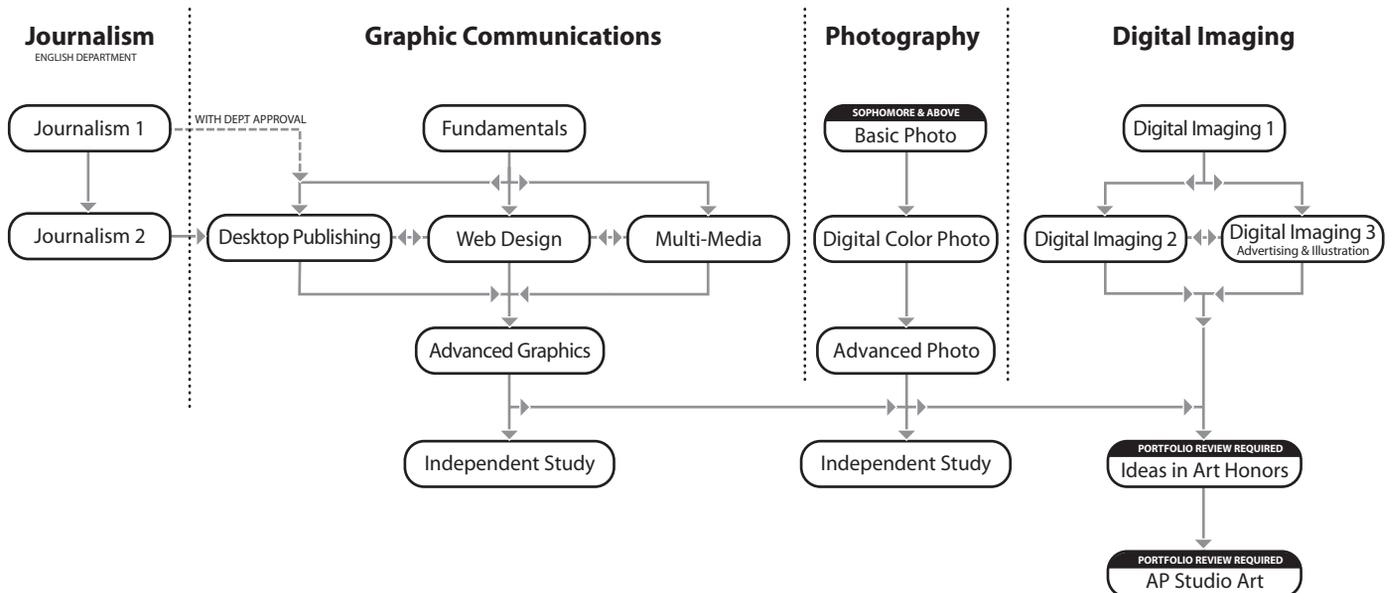

Articulated credits at College of DuPage are available to Hinsdale Central students who complete certain courses at Hinsdale Central with a minimum grade of a B and who, upon graduation, attend C.O.D.

The following courses offer articulated credit at College of DuPage:

- Digital Imaging 3: Advertising and Illustration
- Basic Photography
- Digital Color Photography

Each class has a lab fee charged to students for materials.

The mission of the Integrated Art and Technology Education Program at Hinsdale Central High School is to create opportunities for students to use technology as a tool to demonstrate creative expression and/or technical skill. Courses offered in this program will provide students with experiences in digital media and technology, including: photography, graphic communications, design and illustration, digital imaging, web design, multimedia, animation, and other relevant digital media and technology.

Integrated Art & Technology Education Program Program Course Sequences

GRAPHIC COMMUNICATIONS PROGRAM

GRAPHIC COMMUNICATIONS FUNDAMENTALS (GCF)

Course # 6661

1st or 2nd semester

Credit: 0.5

This course provides students with the essential skills necessary for creating print and web documents. Special emphasis is placed on furnishing students with realistic experiences using industry standard software such as Adobe Illustrator and PhotoShop. Areas of study include technical illustration, typography, color models, photo retouching and image preparation. This course provides sound fundamental skills for later courses in Graphic Communications.

Prerequisite: None. Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00

GRAPHIC COMMUNICATIONS - DESKTOP PUBLISHING (GCDP)

Course # 6650

1st or 2nd semester

Credit: 0.5

Learn to design, layout and prepare documents for print. Use of Adobe InDesign and related Adobe products is stressed. Topics include typography and typographic controls, color usage, preparation of photographic and line art, working with copy, setting up master pages and style sheets, paper characteristics, and binding processes. This course covers essential skills used in producing the Devil's Advocate (newspaper) and El Diablo (yearbook) and is especially recommended for students who are interested in editorial positions.

**Prerequisite: GCF or Journalism 1 (J1 taken concurrently with dept. approval)
Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00**

GRAPHIC COMMUNICATIONS - WEB DESIGN (GCW)

Course # 6662

1st or 2nd semester

Credit: 0.5

Create professional looking web sites! Web Design provides students with an overview of essential disciplines found in electronic publishing for the Internet. **This is not a programming course.** Instead, the focus of the class will be on providing students with realistic experiences needed to create HTML based web sites using professional web page editing software. Areas of study include Internet history, information architecture, interface design, site navigation systems, graphic optimization, and web page editor use.

Prerequisite: Graphic Communications-Fundamentals (GCF). Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00

GRAPHIC COMMUNICATIONS - WEB-BASED MULTIMEDIA (GCOMM)

Course # 6681

1st or 2nd semester

Credit: 0.5

Create motion graphics and video! This course give students the skills to create animated graphics, Flash animations, and produce simple videos. Students will gain experience using industry standard software like Adobe Image Ready, and Flash to create many to the types of motion graphics found on the web.

Prerequisite: Graphic Communications-Fundamentals (GCF). Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00

GRAPHIC COMMUNICATIONS - ADVANCED GRAPHICS (GCA)

Course # 6660

1st or 2nd semester

Credit: 0.5

This course is designed for those students who wish to apply the skills learned in their study of Graphic Communications to real world projects. Students will focus on several areas of interest and develop real world products in a client-project manager arrangement.

Prerequisite: Graphic Communications-Fundamentals (GCF) and one of the following: GCW, GCOMM, GCDP. Open to grades 10, 11 & 12. Supply Fee: \$10.00

GRAPHIC COMMUNICATIONS - INDEPENDENT STUDY (GCIS)

Course # 6905/6906 - Graphic Communications

1st or 2nd semester

Credit: 0.5

This course is for students who have exhausted other course offerings and wish to further skills learned in the Graphic Communications program in an independent atmosphere.

Prerequisite: DEPARTMENT APPROVAL. Open to grades 11 & 12. Supply Fee: \$10.00

Technology Education

PHOTOGRAPHY PROGRAM

BASIC PHOTOGRAPHY

Course # 6691

1st or 2nd semester

Credit: 0.5

Basic Photography is for students interested in learning the techniques necessary to produce technically correct and aesthetically pleasing photographs, as well as the responsibility of caring for photographic equipment using the 35 mm SLR camera. Areas of study will include, but are not limited to: the composition of good photographs; the processing of black and white photographic materials; and proper application of equipment, supplies and special darkroom techniques. Equipment and supplies will be provided and cameras will be available for students who do not have access to a 35 mm SLR camera.

Prerequisites: None. Open to grades 10, 11 & 12. Supply Fee: \$35.00.

DIGITAL COLOR PHOTOGRAPHY

Course # 6701

1st or 2nd semester

Credit: 0.5

This course is designed for someone interested in the modern methods of **Digital Color Photography**. The student will use a digital camera to capture images. After capture, editing will be accomplished in the digital darkroom using the computer and the software **Photoshop**.

Areas of study include, but are not limited to: the principles of color and light; elements of a good photograph; capturing images with a digital camera; editing a photograph for presentation with **Photoshop**; printing a digital file in color; and preparing a photograph for display.

The studio will be used to further the use of shade and shadow, light ratios, and photographic composition techniques. Still life and portrait techniques will be explored.

Equipment and supplies will be furnished. Cameras are available for students who do not own or have access to a digital camera. Basic Photography and Digital Color Photography together have articulated credit with the College of DuPage.

Prerequisite: Basic Photography. Open to grades 10, 11 & 12. Supply Fee: \$35.00.

ADVANCED PHOTOGRAPHY

Course # 6812

2nd semester

Credit: 0.5

In this advanced level course, students will be expected to improve upon their current level of photographic ability. In terms of technique, this will involve the introduction of the medium format camera and the zone system (a procedure which will allow students to make more carefully controlled photographic prints.) Additionally, some non-traditional films, papers, and emulsions will be introduced. In terms of content, through class assignments and independent works students will begin to use the photographic medium to more effectively articulate ideas. Students may work with black and white film, color film, and digital cameras to capture images.

Prerequisites: Basic Photography and Color Photography with instructor approval. Open to grades 11 and 12. Supply fee: \$40.00.

PHOTOGRAPHY- INDEPENDENT STUDY

Course # 6907/6908

Credit: 0.5

This course is designed for students who have completed course sequence in photography program and desire further independent course work.

Prerequisite: DEPARTMENT APPROVAL. Open to grades 11 & 12. Supply Fee: \$40.00

DIGITAL IMAGING PROGRAM

DIGITAL IMAGING 1

Course # 5121

1st or 2nd semester

Credit: 0.5

Digital Imaging 1 introduces students to the artistic potential of the computer. Artistic and creative problem solving strategies are developed which can help students in all areas of learning. Students take their own digital photographs. Each student will use his/her digital photographic images to create original works of art using the software Adobe Photoshop CS3. Students will create a cartoon in Adobe Illustrator CS3 and a digital portfolio is created in Adobe Flash MX.

Prerequisite: None. Open to grades 9, 10, 11, 12. Supply Fee \$17.00

DIGITAL IMAGING 2

Course # 5132

2nd semester

Credit: 0.5

Digital Imaging 2, a continuation of Digital Imaging 1, further explores the artistic potential of the computer and creative problem solving strategies. Students will increase their artistic knowledge and skills while working on independent project ideas based on his/her theme in art. Traditional art materials will be explored or added as students are encouraged to think outside the "digital box". Students take their own digital photographs. Each student will use his/her digital photographic images to create original works of art. Working knowledge of Adobe Photoshop CS3, Adobe Illustrator CS3, and Adobe Flash will be needed.

Prerequisite: Digital Imaging 1: Open to grades 9, 10, 11, 12. Supply Fee: \$17.00

DIGITAL IMAGING 3: ADVERTISING AND ILLUSTRATION

Course # 5331

1st or 2nd semester

Credit: 0.5

Digital Imaging 3 is a graphic design advertising art class. Students interested in a career in Graphic Design, learn the essential skills of design as it relates to advertising. The computer is used as a tool to create and solve real world design problems. Traditional illustration or drawing techniques will also be explored. Design principles have been introduced and learned, through a series of small projects. Afterwards, the course will be run like an advertising design business with a client/designer relationship underlying major projects. Working knowledge of Adobe Photoshop CS3, Adobe Illustrator CS3, and Adobe InDesign will be needed..

Prerequisite: Digital Imaging 1: Open to grades 9, 10, 11, 12. Supply Fee: \$17.00

Hinsdale High School District No. 86 participates with other high school districts in DuPage County to support an area technology center. Technology Center of DuPage provides comprehensive vocational-technical education for high school students whose career objectives are related to vocational-technical fields. Students are bused to the center (located in Addison) for half-day sessions each day (periods five through ten). During the other half of the school day (periods one through four), students attend classes and lunch and participate in extra-curricular activities at Hinsdale Central. Credits earned at TCD can be used to satisfy the units required for graduation. All TCD courses will satisfy the District 86 graduation requirement in Applied Arts. A maximum of 3.0 units of credit can be earned yearly through TCD course work and 3.0 additional units of credit can be earned per year through Hinsdale Central course work.

Students are expected to follow Hinsdale Central’s disciplinary code both at Hinsdale and at TCD. If a student violates school policy and is not permitted to ride the school bus, the student will be withdrawn failing from his TCD courses.

TCD offers junior -senior level programs in the following areas: “Kit fees” are listed below for each area. Cost is range for first and second years.

	1 ST YEAR	2 ND YEAR
Construction Trades	\$200	\$150
Landscape Design & Management	\$125	\$80
Manufacturing Technology	\$165	\$75
Pre-Architectural & Pre-Engineering Technology	\$125	\$85
Computer Information Systems	\$12	\$12
Data Entry	\$60	no additional
Office Systems Technology	\$120	no additional
Graphic Communications	\$75	\$35
Multimedia & TV Production	\$135	\$65
Certified Nurse Assistant	\$170	
Medical & Health Care Careers	\$120	
Criminal Justice	\$185	\$65-\$100
Fire Science	\$285	\$260
Auto Body Repair Refinishing	\$165	\$160
Automotive Technology	\$60	\$50
Cosmetology	\$450	\$235
Culinary, Pastry Arts, & Hospitality Management	\$250	\$295
Early Childhood Education & Care	\$90	\$30
Electronics & Pre-Engineering Technology	\$75	\$65
HVACR	\$280	\$110
Residential Wiring & Home Technology	\$350	

**TECHNOLOGY CENTER OF
DU PAGE CAREER PROGRAMS**

Course # 9010

Credit: 3.0

The requirements and objectives associated with the specific Technology Center of DuPage (TCD) programs listed above vary greatly. Students who wish further information about a particular program and/or wish to register for a TCD program must see their counselor. All students must fill out a separate TCD form with parent signature and return to their counselor.

Prerequisite: None. Open to grades 11 & 12.

TECHNOLOGY CENTER OF DUPAGE (TCD) 2010-2011

GENERAL INFORMATION

The twenty one programs operating at TCD are open to juniors and seniors. The TCD campus is located in Addison, Illinois, approximately thirty minutes from Hinsdale Central. Students are scheduled through their counselors to have fourth period lunch and attend TCD the remainder of the day. TCD offers three elective credits which count towards the elective arts graduation requirement. TCD is a year long program; therefore, students should enroll in February for the following year during their registration conference with their counselor. Each student must fill out a TCD application signed by a parent and their counselor. Although there are no specific requirements for TCD enrollment (other than being of junior or senior status), students are advised to work closely with their counselors to fit in all graduation requirements. Please refer to the TCD website <http://www.tcdupage.org> for more information.

CUSTOMIZE YOUR CURRICULUM

TCD helps students learn on two levels. First, it provides hands-on basics to offer experiences that go beyond theory. Secondly, it helps provide a practical workplace to sharpen skills necessary for a chosen career. TCD incorporates a self-paced, goal by goal learning style which encourages self-management and productivity.

ACCREDITATION

TCD is fully accredited by the North Central Association Commission on Accreditation and School Improvement (NA-CASI). It is one of the Midwest's finest schools for career and technical education, and the recipient of the Lincoln Award for Commitment to Excellence from the Lincoln Foundation.

EARN COLLEGE CREDIT AND SCHOLARSHIPS

Many programs offer dual credit through College of DuPage that can be transferred to other colleges and universities accepting COD course work. Other colleges offer advanced standing or credit upon enrollment, including Lewis University, Ferris State University, Triton Junior College, Kendall College, William Rainey Harper College, Johnson & Wales University, and the Cooking & Hospitality Institute of Chicago.

COLLEGE ARTICULATED CREDIT THROUGH TCD PROGRAMS

Hinsdale Township High School District 86 and the College of DuPage have an agreement, articulated credits, in which Hinsdale Central students may receive credit for courses taken in high school once they are enrolled in the College of DuPage. A minimum grade of B must be earned in a TCD course in order to receive COD credit. There is no formal sign-up process for the students to be eligible to receive this credit. TCD courses can provide between two and six semester credit hours depending on the program. Other colleges in addition to COD accepting articulated credit from TCD courses include Triton College, Lewis University, Harper College, Johnson and Wales University, Kendall College and The Cooking and Hospitality Institute of Chicago.

SCHOLARSHIPS AND AWARDS

A TCD student can gain recognition and win scholarships like the Hospitality Club and Skills USA. TCD instructors are also aware of many industry-related and organizational scholarships specifically for students in career and technical education.

GRADUATE SUCCESSES

One year after graduation:

59% continued their education

32% work full-time, a third of those in their related field

2% work and go to school

3% enter the military

CAREER ACCELERATION PROGRAMS

TCD offers twenty one of the fastest growing occupations. The knowledge a student will gain can also be applied to a wider range of career choices.

PROFESSIONAL LICENSING

Through TCD a student can earn industry-recognized credentials that open doors. TCD programs help students prepare for career-related state, federal, professional or national licensing exams.

TCD SUMMARY

TCD is part of Hinsdale Central's elective courses. TCD is not a trade school, nor is it a college. TCD focuses on teaching career skills as well as enhancing basic principles of academics. There is no charge to attend TCD. However, programs do have fees for supplies, tools or uniforms as noted in each course description. TCD is a great option for students wishing to pursue a more "career oriented" curriculum. Interested students should work closely with their counselors regarding which program might be best suited for their needs.

World Languages

Chris Paxton, design

Hinsdale Central World Languages Department Department Mission Statement

Our mission as a department is to enable students to acquire, develop, expand, and apply their knowledge of a second language.

We do this by working collaboratively within our learning community to:

- Maximize student potential for learning and language acquisition
- Guide student learning by modeling good study habits and effective learning skills.

We do this so that students can integrate and transfer knowledge of a second language throughout their lives, and gain a broader perspective and understanding of world cultures within a respectful community of learners.

Two years of the same language will fulfill the entrance requirement of the state public universities in Illinois. Most other universities require foreign language study for admission and may require it for graduation from specific degree programs. ***High school students preparing for college should include one or more foreign languages in their preparation.***

Students entering ninth grade with previous foreign language experience can complete the equivalent of six years of high school work, which may include Advanced Placement work. Students who complete the upper levels of a language often test out of the world language requirements, receive college credit, and/or are placed in advanced language courses in college. A sequence of honors level courses is available in all languages offered by the Department.

Two or more world languages may be taken simultaneously. The latest research indicates that studying two languages at the same time is beneficial and that foreign language study has positive effects on a student's English language skills. Completing the third and fourth year in a sequence significantly improves achievement. Etymology, a semester course, is highly recommended to all students who wish to increase their knowledge and understanding of vocabulary.

The first semester of a language must be passed before a student may take the second semester of the same language. Credit must be earned in both semesters of one level of a language before advancing to the next level.

FRENCH

FRENCH 1

Course # 4110

Full year

Credit: 1.0

French 1 offers a basic introduction to the vocabulary and grammar of the language. The pace of the course begins moderately and increases as students have more experience with the language. Students will be taught basic reading and writing strategies using textbook examples. Reading, writing, speaking and listening skills are practiced and assessed regularly. Readings and projects center on cultural information. Although grammar concepts may be taught in English, students are always expected to use French in class to the extent possible. This course is conducted mostly in French.

Prerequisite: None. Open to grades 9, 10, 11 & 12

French 1 - H

Course # 4115

Prerequisite: Yes

Credit: 1.0

Grade Offered: 9-12

The sequential core material for this course is the same as French 1. The pace is accelerated; the breadth and scope of the coverage is expanded and some material is added to challenge the capabilities of the more able students. Students will have increased access to speaking and pronunciation practice with our Tell Me More computer program and free BBC learning materials.

Prerequisite: Departmental approval. Open to grades 9, 10, 11 & 12

FRENCH 2

Course # 4120

Full year

Credit: 1.0

This course is an articulated continuation of the French 1 program and continues building the same skills. Students are expected to participate actively in class activities and function in French to a great extent, and all four skills are evaluated.

Prerequisite: A grade of C or better in French 1, or recommendation of the junior high school teacher. Open to grades 9, 10, 11 & 12.

FRENCH 2 - H

Course # 4125

Full year

Credit: 1.0

The sequential core material for this course is the same as French 4120. The pace is accelerated to allow for the reading and discussion of some short stories and short books, as well as other activities to challenge the more capable student. This course is conducted in French to a greater extent than is French 4120.

Prerequisite: Departmental approval or recommendation of the junior high school teacher. Open to grades 9, 10, 11 & 12.

FRENCH 3

Course # 4130

Full year

Credit: 1.0

This course is the study of the geography and culture of France interwoven concurrently with the study of grammar. Class activities include daily discussions of reading assignments enriched through film, French TV, news clips, slides and newspaper articles. In addition, students do oral presentations and write short compositions. During second semester, students read and discuss *Le Petit Prince*. The course is conducted extensively in French.

Prerequisite: A grade of C or better in French 2. Open to grades 9, 10, 11 & 12.

FRENCH 3 - H

Course # 4135

Full year

Credit: 1.0

The sequential core material for this course is the same as French 4130. The pace is accelerated; the breadth and scope of the coverage is expanded, and some material is added to challenge the capabilities of the more able students. The course is conducted extensively in French.

Prerequisite: Departmental approval. Open to grades 9, 10, 11 & 12.

FRENCH 4

Course # 4140

Full year

Credit: 1.0

French 4 is the study of the history, and art of France throughout the centuries (pre-history to present times). Class activities include discussions of prepared reading selections, oral presentations, and the intensive study of one film. The course of study also emphasizes systematic grammar review and limited composition practice.

Prerequisite: A grade of C or better in French 3. Open to grades 10, 11 & 12.

World Languages

FRENCH 4 - H

Course # 4145

Full year

Credit: 1.0

French 4 Honors is the study of the history, and art of France throughout the centuries (pre-history to present times). Class activities include discussions of prepared reading selections, oral presentations, and the intensive study of one film. The course of study covers systematic grammar review and more extensive composition practice than French 4. Inasmuch as this course leads sequentially to the AP French 5 course, the course content is supplemented with more challenging reading materials and special emphasis is put on oral proficiency.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

FRENCH 5

Course # 4150

Full year

Credit: 1.0

French 5 is a course that integrates the study of literature, advanced grammar and current events in France. The readings consist of short stories, and a novel from the 20th century organized around the themes of human relationships, moral dilemmas and existentialism. Class activities include discussions of texts in French, the study of one film per semester and improving grammar and writing proficiency. The course is conducted extensively in French

Prerequisite: A grade of C or better in French 4. Open to grades 11 & 12.

ADVANCED PLACEMENT FRENCH LANGUAGE

Course # 4155

Full year

Credit: 1.0

Advanced Placement French Language, a study of literature of the 19th and 20th centuries, provides intensive and extensive reading, discussion and analysis in French of selected literary masterpieces by Mérimée, Rostand, and Voltaire. Students also write compositions in French on non-literary topics and study some current events with excerpts from French television. Advanced grammar review is continued. Course content is designed to improve all four language skills with special emphasis on idiomatic usage, and to prepare students for the Advanced Placement language exam in French.

Prerequisite: Departmental approval. Open to grades 11 & 12.

GERMAN

GERMAN 1

Course # 4210

Full year

Credit: 1.0

German 1 offers an introduction to the basic grammar and vocabulary of the language. Students are actively engaged in learning activities that allow them to practice and use German. Students use the language in structured activities, interactive conversations, and short presentations. Reading and writing exercises use material previously practiced orally. Assessment measures listening, speaking, reading and writing. The course is conducted extensively in German.

Prerequisite: None. Open to grades 9, 10, 11 & 12.

GERMAN 1 - H

Course # 4215

Full year

Credit: 1.0

The sequential core material for this course is the same as German 4210. The pace is accelerated and the breadth and scope of the coverage is expanded. Some material is added to challenge the capabilities of the more able students.

Prerequisite: Departmental approval. Open to grades 9, 10, 11 & 12.

GERMAN 2

Course # 4220

Full year

Credit: 1.0

This course is a continuation of the first level course, developing more complex oral, reading, and writing skills. The course is conducted almost entirely in German. Supplementary reading of simple selections may be used to introduce the student to the world of German literature and to improve the student's ability in speaking and writing.

Prerequisite: A grade of C or better in German 1. Open to grades 10, 11 & 12.

GERMAN 2 - H
Course # 4225
Full year
Credit: 1.0

The sequential core material for this course is the same as German 4220. The pace is accelerated; the breadth and scope of the coverage is expanded and some material is added to challenge the capabilities of the more able students.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

GERMAN 3
Course # 4260
Full year
Credit: 1.0

German 3 is designed to develop greater fluency in oral proficiency, reading, writing, and further appreciation of German history and culture. The course features a selection of prose and poetry by contemporary and earlier German writers, and a systematic review and extension of basic grammar patterns. In addition to a basic text, one or more literary readers or plays may be used. Activities center around classroom discussion of reading selections, oral presentations, and original skits by students. The course is conducted extensively in German.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

GERMAN 3 - H
Course # 4265
Full year
Credit: 1.0

The sequential core material for this course is the same as German 3. The pace is accelerated; the breadth and scope of the coverage is expanded. Some material is added to challenge the capabilities of the more able students. The course is conducted extensively in German.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

GERMAN 4
Course # 4270
Full year
Credit: 1.0

German 4 provides an introduction to contemporary German life, literature and culture. The objective is to increase the student's skills in oral and written expression, and to give systematic cultural information and grammatical review. In addition to a basic cultural reader, selections of modern German short fiction will acquaint the student with present day trends and attitudes. Class activities center around classroom discussion of reading selections, including current news magazines. The materials and activities utilized in this course will help students to further improve and refine all four language skills. The course is conducted extensively in German.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

GERMAN 4 - H
Course # 4275
Full year
Credit: 1.0

The sequential core material is the same as German 4. The pace is accelerated; the breadth and scope of coverage is expanded. Some material is added to challenge the capabilities of the more able students. Material and activities utilized in this course will help students to further improve and refine all four language skills. The course is conducted exclusively in German.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

World Languages

LATIN

LATIN 1

Course # 4310

Full year

Credit: 1.0

Latin 1 is primarily designed to develop a student's ability to read and comprehend the Latin language. Students begin by learning the peculiar demands of an inflected language, and are then introduced to Latin morphology, the declensions of its nouns and the conjugation of its verbs. Gradually, elements of syntax and grammar introduce the students to the fundamental requirements needed to read. Concurrent with these pursuits will be an ongoing discovery of the structure of the English language and its many borrowings from the Latin structure. Students' grasp of English grammar will grow substantially. An ever-evolving Latin vocabulary helps students understand essential concepts in etymology, derivatives, and building a stronger and more precise vocabulary in English. Roman and Greek mythology and Roman daily life comprise the cultural component of the course.

Prerequisite: None. Open to grades 9, 10, 11, &12.

LATIN 1 - H

Course # 4315

Full year

Credit: 1.0

The sequential core material for this course is the same as Latin 4310. The pace is accelerated; the breadth and scope of the coverage is expanded and some material is added to challenge the capabilities of the more able students.

Prerequisite: Departmental approval. Open to grades 9, 10, 11 & 12.

LATIN 2

Course # 4320

Full year

Credit: 1.0

This course builds on the grammatical and structural foundations established in Latin I. An emphasis is placed on reading and comprehending Latin. Students will learn advanced grammar and move on to their first experience with unadulterated Latin. The cultural focus of the course will be the formation and development of the Roman Republic.

Prerequisite: A grade of C or better in Latin 1. Open to grades 10, 11, &12.

LATIN 2 - H

Course # 4325

Full year

Credit: 1.0

The sequential core material for this course is the same as Latin 4320. The pace is accelerated; the breadth and scope of the coverage is expanded and some material is added to challenge the capabilities of the more able students.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

LATIN 3-4 LATIN LITERATURE

Course # 4340

Full year

Credit: 1.0

Offered 2010 - 2011

This course is a survey of Latin literature sampling several genres including letters, oratory, epigram, history, narrative, philosophy, lyric and elegiac poetry. The survey is designed to further develop students' translation abilities as they review essential grammar and vocabulary. The work will explore the boundaries of each genre and its specific application. Attention will also be paid to the larger historical context of the authors and their works to provide students with an upper level understanding of Roman thought and custom.

Prerequisite: Latin 2 and departmental approval. Latin 4340 and 4360 are offered in alternate years only. In 2011-2012 Latin 3-4 Vergil (4360) will be offered. In 2010-2011 Latin 3-4 Latin Literature will be offered. Open to grades 11 & 12.

LATIN 3-4 VERGIL

Course # 4360

Full year

Credit: 1.0

Offered 2010 - 2011

The first semester of this course is a prose survey designed to further the development of students' translation abilities as they review essential grammar and vocabulary. The reading selections will be drawn from the late Republican period and will include works by Caesar, Augustus, and Cicero. These selections will provide a historical, literary and political context for the study of Vergil's major work, the **Aeneid**. The second semester involves reading and analysis of portions the **Aeneid**. The work stresses Vergil's use of meter, rhetorical style and poetic figures of speech.

Prerequisite: Latin 2 and departmental approval. Latin 4340 and 4360 are offered in alternate years only. In 2011-2012 Latin 3-4 Vergil (4360) will be offered. In 2010-2011 Latin 3-4 Latin Literature will be offered. Open to grades 11 &12.

LATIN LITERATURE HONORS

Course # 4355

Full year

Credit: 1.0

Offered 2011 - 2012

The sequential core material of this course is the same as Latin 4340. The pace is accelerated; the breadth and scope of the coverage is expanded, and some material is added to challenge the capabilities of the more able students.

Prerequisite: Latin 2 and departmental approval. Latin Literature Honors 4355 and AP Latin Vergil 4365 are offered in alternate years only. In 2011-2012 AP Latin Vergil (4365) will be offered. In 2010-2011 Latin Literature Honors will be offered. Open to grades 11 & 12.

ADVANCED PLACEMENT LATIN VERGIL

Course # 4365

Full year

Credit: 1.0

Offered 2011 - 2012

Preparatory to the Advanced Placement exam, the Advanced Placement Vergil course involves a thorough reading and analysis of the poet's major work, the Aeneid. After reading Homer's *Iliad* and *Odyssey* in translation, the course works to establish the larger historical, literary, and political context through which the purpose of the poem can be understood. Special attention will be paid to Vergil's use of meter, rhetorical and poetic figures of speech, poetic imagery, diction, as well as his manipulations of the Latin language. Essay writing will be developed in line with the close literary analysis required by the College Board. Pending a decision by the AP College Board, some as of yet undetermined number of lines from Caesar's works will be added.

Prerequisite: Latin 2 and departmental approval. Latin Literature Honors 4355 and AP Latin 4365 are offered in alternate years only. In 2011-2012 AP Latin Vergil (4365) will be offered. In 2010-2011 Latin Literature Honors will be offered. Open to grades 11 & 12.

ETYMOLOGY

ETYMOLOGY

Course # 4371

1st or 2nd semester

Credit: 0.5

Etymology is designed to increase one's knowledge and understanding of English vocabulary through the study of the most important Greek and Latin roots. Students learn to discover meanings of words through recognition and interpretation of their elements. The skills learned in Etymology equip students to decode vocabulary words encountered elsewhere (transfer of knowledge). The ability to memorize is a necessary fundamental skill. Recommended for all qualifying foreign language students.

Prerequisite: A grade of C or better in the foreign language most recently studied, or (if no foreign language) consent of the department chair. Open to grades 9, 10, 11 & 12, and especially recommended to sophomores.

SPANISH

INTRODUCTION TO SPANISH

Course # 4505

Full year

Credit: 1.0

Introduction to Spanish 1 is a first year Spanish course designed to emphasize Spanish 1 vocabulary, grammatical concepts, and foreign language study skills in order to provide necessary and additional support to new language learners. The course is designed to provide students with vocabulary and grammar acquisition skills that are crucial to the student's success in future second language study. The course will also focus on developing student responsibility for his or her own learning. Students will learn organization and study skills that will support successful study of second language. Students who successfully complete this course will be able to continue and complete their study of Spanish 1 the following year.

Prerequisite: None. Open to grades 9, 10, 11 & 12.

World Languages

SPANISH 1
Course # 4510
Full year
Credit: 1.0

An introductory course which develops communication skills with an emphasis on listening and speaking. The student is taught to use the language actively through extensive oral work in daily dialogue, grammar patterns, and idioms. Reading and writing exercises use materials previously practiced orally. Evaluation measures listening, speaking, reading, and writing. The course is conducted extensively in Spanish. This course is for students who have not taken a full year of Spanish before or have taken Spanish at the junior high level but received a grade of B- or lower.

Prerequisite: None. Open to grades 9, 10, 11 & 12.

SPANISH 2
Course # 4520
Full year
Credit: 1.0

This course is a continuation of the first level course, developing more complex oral, reading, and writing skills. Students are expected to participate actively in class activities and to function in Spanish to a greater extent, and all four skills are evaluated. Supplementary reading of simple selections and books will be used to improve students' ability in reading, speaking and writing.

Prerequisite: A grade of C or above in Spanish 1 or recommendation of the junior high school teacher. Open to grades 9, 10, 11 & 12.

SPANISH 2 - H
Course # 4525
Full year
Credit: 1.0

Although the core material for this course is the same as Spanish 4520, this course uses a higher level text. In addition, students will be taught specific strategies for reading, writing and listening. The pace is also accelerated to allow for the reading and discussion of authentic literary selections. Reading, writing, speaking, and listening skills are practiced and assessed regularly. This course is designed for students who have had success in Spanish 4510 (or Jr. High equivalent) and who demonstrate the characteristics of a self-directed, mature student. This course is conducted almost entirely in Spanish.

Prerequisite: Departmental approval. Recommendation of the junior high teacher for freshmen. Open to grades 9, 10, 11 & 12.

SPANISH 3
Course # 4530
Full year
Credit: 1.0

Spanish 3 is structured to maintain and improve the listening and speaking skills already developed in the first and second years, and to give increased emphasis to the development of reading, writing, and listening skills. The basic text materials include short reading selections, as well as speaking activities and grammar explanations. The classes are conducted extensively in Spanish, making use of structured drills and conversation stimuli to accompany the increased reading and writing exercises.

Prerequisite: A grade of C or better in Spanish 2. Open to grades 9, 10, 11 & 12.

SPANISH 3 - H
Course # 4535
Full year
Credit: 1.0

The sequential core material for this course is similar to Spanish 4530. The pace is accelerated; the breadth and scope of the coverage is expanded. Material is added to challenge students' capabilities. Additionally, students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. The class is conducted extensively in Spanish.

Prerequisite: Departmental approval. Open to grades 9, 10, 11 & 12.

SPANISH 4
Course # 4540
Full year
Credit: 1.0

Spanish 4 is a survey course focused on Spain that takes students from the Middle Ages to the present day through historical, cultural, and authentic literary texts. Students learn to interact with literature using a variety of reading strategies and skills and develop an appreciation for and understanding of Spanish culture. Students read, write, and present throughout the year. Grammar from previous years is reviewed and reinforced, with an emphasis on oral communication skills. The course is conducted extensively in Spanish.

Prerequisite: A grade of C or better in Spanish 3. Open to grades 10, 11 & 12.

SPANISH 4 - H**Course # 4545**

Full year

Credit: 1.0

Although the core material for this course is the same as Spanish 4540, this course uses higher level texts for both the literature and history. In addition, students will write essays in Spanish for each unit of study and create a portfolio of their work throughout the year. The pace is accelerated to allow for more profound discussion of the texts. Reading, writing, speaking and listening skills are practiced and assessed regularly. This course is designed for students who have had success in Spanish 4535 and who demonstrate the characteristics of a self-directed, mature student. Students are expected to communicate almost entirely in Spanish in the classroom. This course is conducted entirely in Spanish.

Prerequisite: Departmental approval. Open to grades 10, 11 & 12.

SPANISH 5**Course # 4550**

Full year

Credit: 1.0

Spanish 5 introduces the student to the literature and thought of Latin America, as opposed to the emphasis upon Spain in Spanish 4. Students read selections from representative works, participate in classroom discussion, give reports and write essays. Class is conducted in Spanish. Grammar is reviewed as needed. Some reading and writing is expected of the students outside of class.

Prerequisite: A grade of C or better in Spanish 4. Open to grades 11 & 12.

ADVANCED PLACEMENT SPANISH LANGUAGE**Course # 4555**

Full year

Credit: 1.0

This course surveys the literature, culture and thought of Hispanic America. Students read selections from representative works and cultural texts, participate in classroom discussions, give oral reports and write essays of various lengths. The class is conducted extensively in Spanish and students are expected to be conversant in the language. The class will also prepare those students who wish to take the Advanced Placement exam in Spanish Language.

Prerequisite: A grade of A or B in Spanish 4-H and departmental approval. Open to grades 11 & 12.

ADVANCED PLACEMENT SPANISH LITERATURE**Course # 4565**

Full year

Credit: 1.0

The AP Spanish Literature course is based on those representative works suggested by the AP board and required for the AP Spanish Literature exam. This course surveys the literature of Spain and Hispanic America in a sequential and thematic fashion. Students are required to read and write outside of class, take part in classroom discussions, present reports and compose essays in order to prepare for the Advanced Placement exam in Spanish Literature.

Prerequisite: A grade of A or B in AP Spanish Language and departmental approval. Open to grade 12.

REGISTRATION INFO

2010-2011 academic calendar

- Mid December* **Program of Studies Handbook**
 Individual student copies of Hinsdale Central’s inclusive curriculum book will be handed out to students in class. This information should stimulate initial conversations between parents and students regarding appropriate courses for next year.
- January* **Curriculum Discussions Begin**
 Individual teacher/student informal advising discussions are held.
- January 6, 2010* **Dissemination Homeroom**
 Registration packets and actual registration forms are distributed in this homeroom. Parents are advised to ask their son/daughter to review this information together.
- January 7, 2010* **Advise and Sign Day, Semester Classes**
 On this day, students should carry their registration forms to each of their semester classes. Teachers will discuss curricular offerings in their departments. Teachers will also sign each student’s registration form signifying the appropriate course recommendations.
- January 6, 2010* **Eighth Grade Student and Parent Night**
 An information program will be held for all parents and students at 7:00 p.m. at HCHS to explain the curriculum and the course selection process.
- January 19, 2010* **Advise and Sign Day, Year-long Classes**
 On this day, students should carry their registration forms to each of their year-long classes. Teachers will discuss curricular offerings in their departments. Teachers will also sign each student’s registration form signifying the appropriate course recommendations.
- January 20, 2010* **Collection Homeroom**
 At this homeroom every student hands in the completed registration form (all appropriate teacher and parent signatures are included).
- January 25 - 29, 2010* **Class of 2013 Counselor Conferences**
 Class of 2013 will meet individually with their counselors at an assigned time to finalize their course selections. Individual appointments will be announced in the two homerooms.
- February 1 - 5, 2010* **Class of 2011 Counselor Conferences**
 Class of 2011 will meet individually with their counselors at an assigned time to finalize their course selections. Individual appointments will be announced in the two homerooms.
- February 8 -12, 2010* **Class of 2012 Counselor Conferences**
 Class of 2012 will meet individually with their counselors at an assigned time to finalize their course selections. Individual appointments will be announced in the two homerooms.
- January 26 and 27,
 February 3, 4, 8 and 10, 2010* **Eighth Grade Individual Registration Conferences**
 Incoming Freshman, Class of 2014., conferences will take place in late January and early February at Hinsdale Central High School in the Library. These conferences, will include student, parents and their high school counselor for 15 minute appointments.
- April 2010* **Course verification can be viewed online.**
Please Note: Student schedules **ARE NOT** finalized until books are purchased because balancing of the master schedule takes place during the summer. Class organization and student schedules will be finalized during Book Month in August.

hinsdale **central** high school

Dear Students and Parents,

Hinsdale Central High School is a wonderful place to be a student where your academic course work prepares you to reach your future goals. Registering for next year's courses is a part of that experience.

The 2011-2012 edition of the Hinsdale Central Program of Studies book is an important resource for students and parents which we hope will assist you in making good course choices.

As you page through the Program of Studies, you will find that the book is divided into three distinct sections. The first contains general information about such topics as graduation requirements, dropping and adding courses, schedule changes, and college admission requirements. The second section provides descriptions of all course options available to students. The last section provides students and parents with registration information for next year and worksheets for course selection, the four-year plan, and the graduation credit checklist.

We suggest that you view the registration process in the broad scope of a four-year plan as you reflect on your personal strengths, interests and future plans. Parents, teachers, and your counselor will guide you through this process. We encourage you to make careful consideration of the opportunities available to you so that you are able to make the best use of the academic opportunities available to you.

You should use this Program of Studies book to prepare for your registration appointment with your Guidance Counselor. These will be scheduled in January or early February. As you prepare, carefully review the general information section, analyze the course descriptions and "pencil in" your choices on the worksheets at the back of this handbook.

It is important to know that the courses you select during this process are intended to be your final selections for the 2011-2012 school year. We develop our master schedule of classes, and we hire and re-employ teachers based on the enrollment decisions you make. As high school students, you should make careful decisions and then follow through with them. Hopefully you will find our registration process one that works well for you. If you have questions or suggestions, please see your counselor.

Sincerely,

Michael McGrory
Principal

HINSDALE CENTRAL VISION STATEMENT

Adopted Fall 2003

The expectation of excellence is rooted in the traditions of Hinsdale Central. In an environment that fosters a desire to learn, all members of the organization are committed to educating each student. In order for us to succeed, we must clearly identify standards we will work to achieve and maintain. These Standards are identified in several areas and will be the benchmarks by which we will measure our success.

I. Students

The degree to which we measure our success in attaining this vision is by each student's progress. We will provide opportunities that facilitate this growth. In school we:

- a. Work to meet students' needs.
- b. Encourage students to reach their potential in all they do, and to become self-directed learners.
- c. Teach students to accept responsibility for their actions.
- d. Encourage students to get involved in their school and in their community.
- e. Let students know we believe in them and will find ways for them to succeed based on their ability and interests.

II. Staff

Attracting and retaining outstanding people is a must if we are to move toward our vision. In our school we:

- a. Demonstrate our support for a shared vision and a common sense of purpose.
- b. Encourage all members of the organization to be leaders and experts in their fields.
- c. Promote collaboration and collegial decision making on matters relating to students, curriculum, instruction and school.
- d. Facilitate the growth of our students.

III. Curriculum and Instruction

What we decide to teach and how we do so will impact the results we achieve. In our school we:

- a. Recognize our primary focus is to provide a solid base for the post-secondary education of our students, while respecting the needs of students who make alternative choices
- b. Seek to learn effective practices and adapt them for our learning environment
- c. Believe teachers should collaboratively determine curriculum and assessment standards
- d. Work to assure the limited time we have to education our students is used to the greatest benefit for all our school community

Vision Statement

IV. *Climate*

All members of our community are responsible for providing a climate that contributes to our success and a high school experience that builds a sense of pride we all share. In our school we:

- a. provide a safe and secure environment that is conducive to learning.
- b. recognize that all relationships are based on respect for others and an understanding of each person's responsibility for his/her behavior.
- c. understand school rules and policies exist to support our organization and are consistently applied by all staff.
- d. recognize the achievements of all members.
- e. encourage and model behaviors appropriate to the development of character.

V. *Community*

The educational community recognizes the importance of maintaining a partnership between the school and community at large. In our school we:

- a. seek ways to improve the quality of communication between the home and school.
- b.. always provide a clear rationale for policies and practices.
- c. share information that is important in a timely manner.
- d. recognize that the more our community is involved and informed, the more successful we will be.

	<p>7. Physical Education/Health</p> <p style="padding-left: 20px;">Health is a required course at 10th grade and is taken in tandem with one semester of Physical Education. Students have the option of enrolling in an additional semester of Physical Education during sophomore year for an additional 0.5 credit.</p>	4.0

General Information

<p><i>Earning Course Credits</i></p>	<p>Credit in full year as well as semester courses is earned by semester. That is, students earn 1/2 unit of credit or 0.5 credit for successful completion of each semester.</p> <p>Credit is earned by successfully completing all course requirements as established by the teacher. Excessive absences may result in removal from a course and/or loss of credit.</p>												
<p><i>Alternative Courses</i></p>	<p>E-learning, correspondence, or college courses may be counted toward graduation if they meet certain requirements. Prior written approval from the Director of Guidance is required. Such courses must be from an accredited institution and include at least 60 seat hours. The student assumes responsibility for all fees. After completing an alternative course, proof of mastery of material may be required before enrolling in an advanced course. For everyone – one online class per semester and two online classes during the summer.</p>												
<p><i>Academic Load</i></p>	<p>Students must be enrolled in a minimum of six (6) courses per semester.</p>												
<p><i>Admission Requirements</i></p>	<p>Admission requirements are based upon evidence of normal progress and achievement in the previous school. Incoming freshman are required to submit evidence of satisfactory completion of the 8th grade. Transcripts of credits earned and grade placement are required from the previous school for all students transferring from other secondary schools. Transfer credit and grades will be determined by the Registrar and are based on Hinsdale Central's curriculum and requirements. The report of a health examination and required immunizations at the 9th grade level is required by law. Students will not be allowed to attend school if this state requirement is not met. In addition, all students participating in athletics must have a physical examination for each year in which they participate. We cannot emphasize too strongly the need for this to be accomplished prior to the opening of school.</p>												
<p><i>Articulated Credit and Dual Credit at the College of DuPage</i></p>	<p>The College of DuPage awards articulated or dual credit when learning experiences at the secondary level of instruction duplicate those at the post-secondary level. These programs enable students to save time and avoid duplication of material already learned in high school. Articulated credits are only applicable to the College of DuPage while dual credits can be accepted at any college or university that accepts transfer credits. Students may request a transcript from C.O.D. with these course listed after the end of the semester.</p>

<p style="text-align: center;"><i>Advanced Placement Program</i></p> <p><i>The Advanced Placement Program at Hinsdale Central High School consists of the following courses:</i></p> <p><i>AP Art History</i> <i>AP Studio Art</i> <i>AP Language & Comp.</i> <i>AP Lit. & Composition</i> <i>AP French Language</i> <i>AP German Language*</i> <i>AP Latin Vergil</i> <i>AP Spanish Language</i> <i>AP Spanish Literature</i> <i>AP Calculus (AB)</i> <i>AP Calculus (BC)</i> <i>AP Computer Science A</i> <i>AP Statistics</i> <i>AP Music Theory</i> <i>AP Biology</i> <i>AP Chemistry</i> <i>AP Environmental Science</i> <i>AP Physics B</i> <i>AP Physics C</i> <i>AP European History</i> <i>AP Microeconomics</i> <i>AP Macroeconomics</i> <i>AP Psychology</i> <i>AP U.S. Gov't. & Politics</i> <i>AP U.S. History</i></p> <p><i>* Upon completion of German 4H, students may take the AP German language exam.</i></p>	<p>The Advanced Placement (AP) Program provides students with the opportunity to pursue college-level studies while still in high school and to receive advanced placement and/or credit when entering college. Qualified, academically-oriented students in the tenth, eleventh, and twelfth grades are eligible to participate in the Advanced Placement Program at Hinsdale Central High School.</p> <p>Departments Advanced Placement courses are offered by seven departments: Art, English, Mathematics, Music, Science, Social Studies, and World Languages. These courses adhere to College Board approved course descriptions and serve as the primary vehicle to prepare students for the voluntary AP examinations in May. In addition to preparing students for the AP exams, AP courses allow students to experience the pace and intensity of college-level courses while still in high school. Some AP courses may explore opportunities for students to work in teams on interdisciplinary themes or projects. Such activities would be designed to provide students the opportunity to solve real-world problems across AP subject areas. The AP courses are challenging and stimulating, require more work and more time than other high school courses.</p> <p>Examinations The Advanced Placement examinations are administered each year during the second and third weeks of May and can be described as “tough, but fair.” Usually three hours in length, each exam consists of a multiple choice section and free-response section that requires essay writing or problem solving. Every examination receives an overall grade from a team of carefully selected college professors and high school AP teachers on a five-point scale: 5 (extremely well qualified), 4 (well qualified), 3 (qualified), 2 (possibly qualified), and 1 (no recommendation). An AP Grade Report is sent in July to each student, the high school, and if the student requests it, to the college. Unless recommended by the teacher not to do so, all enrolled AP students are expected to take their course ending examinations.</p> <p>Credit Although each college determines what AP examination grades it will accept for credit and/or advanced placement, the great majority of colleges accept grades of 3 or better and award the student with credit in the subject matter tested. In some cases, no credit is given, but the student may begin the program of study at an advanced level. Students wanting to know what AP grades are considered acceptable by the colleges in which they are interested should write the Director of Admissions of the college or consult with the Director of Guidance at Hinsdale Central.</p>

In the Mathematics and Science departments, particular courses are designated as G-Level courses. College preparatory in nature, G-level courses are designed to meet the special needs of students in particular subject areas.

Admission

Admission to G-level courses is based upon several established selection criteria:

- teacher recommendations
- results of the 8th-grade EXPLORE Test
- past academic performance
- department approval
- student and parent input

In the Art, Business, English, Mathematics, Music, Science, Social Studies and World Languages departments, particular courses are designated as honors courses. Honors courses are designed to challenge students of superior ability by enriching and/or high accelerating the course content and have standards of high achievement distinctly above those of regular courses. Instruction in honors courses occurs at a faster pace, covers the subject matter in more depth and emphasizes higher level thinking skills.

Admission

Admission to the honors program is based upon several established selection criteria:

- Teacher recommendation
- Results of the 8th-grade EXPLORE Test
- Past academic performance
- Departmental approval

Students with superior ability, a commitment to the subject matter and a motivation to learn are encouraged to apply for admission to the honors program.

General Information

Honor Roll and Weighted Grades

Honor Roll

- *4.0 grade point average*
- *no grade below a "D"*

Dean's List

- *4.5 grade point average*
- *no grade below a "C"*
- *Class Rank will not be awarded for the classes of 2011, 2012 and 2013.*

Course Requests

Dropping a Course

Grades earned in all academic courses, exclusive of Physical Education and Driver Education will be used to determine honor roll according to the following grade point system.

Honor Roll is based on the quarter grade point average, no incomplete grades and a minimum of four credit-earning courses. Honor Roll students become eligible for Dean's List recognition.

Grade	Honors	Regular
A	6	5
B	5	4
C	4	3
D	2	2
F	1	1
WF	1	1

Each spring our school works to create a schedule of classes for the following academic year that best meets the needs of our students, while still staying within the parameters of staffing requirements (i.e. number of teachers, class size, teaching schedules, state and federal mandates). We work very hard to accommodate student requests; however, due to the complexity of the scheduling process, sometimes student schedules may need to be adjusted. Please keep in mind that changes in course requests or class assignments will not be accepted for any of the following reasons:

- to accommodate a job schedule
- to change teachers
- to change lunches or classes to be with friends
- to have first or last period free
- to accommodate a change of mind

Acceptable reasons for schedule changes may include:

- computer input error
- scheduling conflicts
- failure or near failure in a second semester or year course
- failure to meet a pre-requisite for a course
- department chair or guidance director recommendation
- successful completion of a summer school class

Students may request to drop a course only if they are enrolled in the maximum number of courses (seven) per semester **and** only after they have attended and participated in the course for five full class periods. Approval to drop a course requires signatures from the parent/guardian, teacher, the appropriate department chair, and the student's counselor. It is understood that the student will have a conversation with his/her counselor and teacher prior to initiating this process.

If a student elects to drop a course, the dropped course will be replaced with a study hall period. In some cases, adding a course to replace a dropped course may be accommodated if the curriculum permits and seats are available. A grade of ~~F~~ will be reflected on the transcript of a student who chooses to drop a course after the fourth week of a semester. **Students enrolled in yearlong courses will not be allowed to drop at the end of first semester unless it is recommended by the department.**

General Information

<i>Adding a Course</i>	Students may add a course at the beginning of a semester if there is space available. Requests to add a course must be made no later than the first five full class periods of the semester. In order to add a course, a student must obtain signatures from the parent/guardian, the department chair if required, and the student's counselor.
<i>Repeating Course(s)</i>	A course may be repeated for credit only when a student has previously received a –D– or an –F– . Both the grade received and the credit earned for repeating the course, as well as the original grade and credit received in the course, will be used in computing the student's grade point average. The student's transcript will indicate the first grade and credit earned, as well as the second grade and credit earned. However, the credit received for repeating the course will not count toward satisfying graduation requirements unless the student failed the course.
<i>Auditing Courses</i>	<p>Only under unusual circumstances will a request to audit a course be considered:</p> <ol style="list-style-type: none"> 1. When a student has previous credit in a subject they may request to audit the course. 2. When a student wishes to audit a course they have not previously taken, they may request to audit the course. In this case, they may not take the course for credit at a later time. <p>In both circumstances, requests to audit will be considered only if space is available in the course. Students assume all responsibility of a regular class member, but receive no grade or credit.</p>
<i>Request to Audit a Class- forms may be obtained from the student's counselor.</i>	All requests to audit a course must have administrative approval prior to the first day of class at the latest, but preferably at the time of February registration. Students interested in auditing a course must complete the form, Request to Audit a Class , which may be obtained from the student's counselor and approved by the Director of Guidance.
<i>Incomplete Grades</i>	An Incomplete represents work not completed by the end of the quarter. Incompletes are given only in extraordinary circumstances. This work must be made up within the first two weeks of the following quarter and the Incomplete changed to a grade or a failure. If the work is not made up by the end of the 2-week period, the grade will be changed to an –F– . An Incomplete will prevent eligibility for Honor Roll.
<i>Registration Procedures</i>	Complete the appropriate Course Request Form indicating your choice of subjects and obtain the necessary teacher signatures. When you have selected your courses and your parents have approved and signed the Course Request Form , return it to your teacher in homeroom for your counselor's approval. An individual appointment will be scheduled with your counselor to review and approve your course selections. Course Request Forms bearing the signature of counselor and parents are considered finalizing and completing the course registration for the next year. Courses are scheduled on the basis of your requests. Questions concerning registration procedures and course selections should be directed to the Guidance Department.
<i>Course Request Forms are available through the Guidance Department</i>	

General Information

Attendance Policy	<p>The attendance policy at Hinsdale Central requires that parents call the attendance office ON THE DAY OF THE ABSENCE to report their student absent from school on any given day at 630.570.8090. Prearranged absences may be called in prior to the day of the absence and a green prearranged absence form must be completed. Students are expected to attend class on a daily basis and should be aware that attendance is part of his/her evaluation in each class. Students are responsible for all work missed due to an absence. Excessive absences will be handled by the administration and guidance staff and require a parent conference.</p>			
<p>Attendance Office phone 630.570.8090</p>				
<p>Minimum Attendance Requirement</p>	<p>School Code of Illinois, Section 18-8, requires that all students must be in attendance, exclusive of lunch and passing time, for a minimum of 300 minutes. This necessitates all students attending school for at least six (6) periods a day.</p>			
<p>College Admission Requirements</p>	<p>Criteria for college admission vary greatly. The admission committees consider, to varying degrees, the following:</p> <ul style="list-style-type: none"> • type of high school courses actually taken when compared to the courses available in the high school • quality of the student's academic record • performance on college admission tests - SAT & ACT • development and maturity of the individual in areas outside the academic classroom. 			
Courses	Highly Selective Colleges	Public Universities Colleges	Private 4-Year Colleges	Community Public & Public Colleges
<p><i>English</i> <i>Mathematics</i> <i>Science</i> <i>Social Studies</i> <i>Academic Electives*</i> <i>World Languages</i></p>	<p>4 years 4 years 4 years (lab) 3-4 years 2 years 4 years (one)</p>	<p>4 years 4 years 3 years 3 years 2 years *</p>	<p>4 years 4 years 3 years 3 years 2 years 2-4 years</p>	<p>Varies greatly from an open door admission policy to selective course requirements specifically required by the different departments.</p>
<p><u>Academic Electives*</u> <i>Art</i> <i>Business</i> <i>Family & Con. Sciences</i> <i>Integrated Art & Tech.</i> <i>Music</i> <i>Technology Education</i> <i>Technology Center of DuPage (TCD)</i> <i>World Languages</i> <i>AP Art History and AP Studio Art are generally treated as acceptable college preparatory academic electives by most colleges.</i></p>	<p>Course requirements for entrance into four different types of colleges are listed above. The academic prerequisites typical of colleges in each of the categories listed may change from year to year and therefore, should be used only as general minimum guidelines. Specific information may be obtained from high school counselors, college profiles, websites and catalogs, computerized college software programs and college representatives who visit Hinsdale Central High School. Students should be aware of a definite return by colleges to their preference of a traditional and classical college preparatory curriculum. Narrowly defined, college preparatory courses are found in the following departments:</p> <p>Art*: AP Art History and AP Studio Art English: literature and composition courses Mathematics: Computer Science is not generally accepted as a math credit. Science: lab courses Social Studies World Languages*</p>			

General Information

<p><i>Student Schedules</i></p> <p><i>Service Credits</i></p>	<p>Full year courses are usually designated by 4-digit course codes ending in “0” or —5. Semester courses are primarily designated by numbers ending in “1” (first semester) or “2” (second semester) and may be scheduled either first or second semester. Student schedules are generated by computer and do not allow the student to select a course by semester. Requests are entered but not guaranteed.</p> <p>Students may elect to serve as a Student Aide during the school year for the following areas: Art, Audio Visual, Family & Consumer Sciences, E.L.L., Guidance, Library, Nurse, Deans’ Office, Publications, Science, or Student Activities. The credits earned as an Aide count as service credit. Students may elect to serve as an Aide for one or both semesters. They may, however, hold only one Aide position per semester. One quarter (.25) credit will be granted for each semester. This can be counted toward graduation as a service credit and will be graded on a pass-fail basis.</p>
<p>Excel Study Halls <i>Course # 1020 & #1024</i></p>	<p style="text-align: center;">Course Descriptions</p> <p>Excel is designed as an academic support program. Students assigned to the Excel Program will attend 5 days per week during their scheduled period and will continue to receive these services until all grades earned are at a C level or above for two consecutive quarters at which point they can transfer into a regular study hall. Excel Academic Study Hall is an academic program where students meet in a supportive environment to receive tutorial assistance in core academic areas. The Excel Academic Study Hall staff members consult with classroom teachers and parents to help improve each student’s achievement in courses. A .25 credit is earned per semester for successful participation in this program. Student support in the areas of organizational skills, reading skills/strategies, study skills, and homework completion will be available and structured with each program.</p> <p>Prerequisite: None. Open to grades 9-12 May be repeated</p>

General Information

**State of Illinois
Consumer
Education
Requirement**
Credit: 0.5

There are several ways to satisfy this mandated graduation requirement. Students have the following options:

1. **Consumer Economics**, course #6301, one semester, Business Department course, see page 22.
2. **Economics**, course #2331, one semester, Social Studies Department course, see page 65.
3. **AP Micro Economics**, course #2341, one semester, Social Studies Department course, see page 66.
4. **Introduction to Family & Consumer Sciences**, course #6400, full year, Family & Consumer Science Department Course, see page 34.
5. **Introduction to Business**, course #6100, full year, Business Department course, see page 21.
6. **Special Education Related Instruction**; enrollment is determined by IEP recommendation.
7. **Consumer Education Online course**, course #9101, one semester. Students who enroll in this online course will do all of their class work through a web site supervised by a certified District 86 teacher. This course has the same objectives and examinations as the traditional semester-long Consumer Economics course #6301; the content is very similar. Communication between student and teacher will be primarily through the web site and by email. Students who enroll in the online version will be required to attend an orientation session, to meet progress markers along the way, and to complete the course during the semester in which they are enrolled.

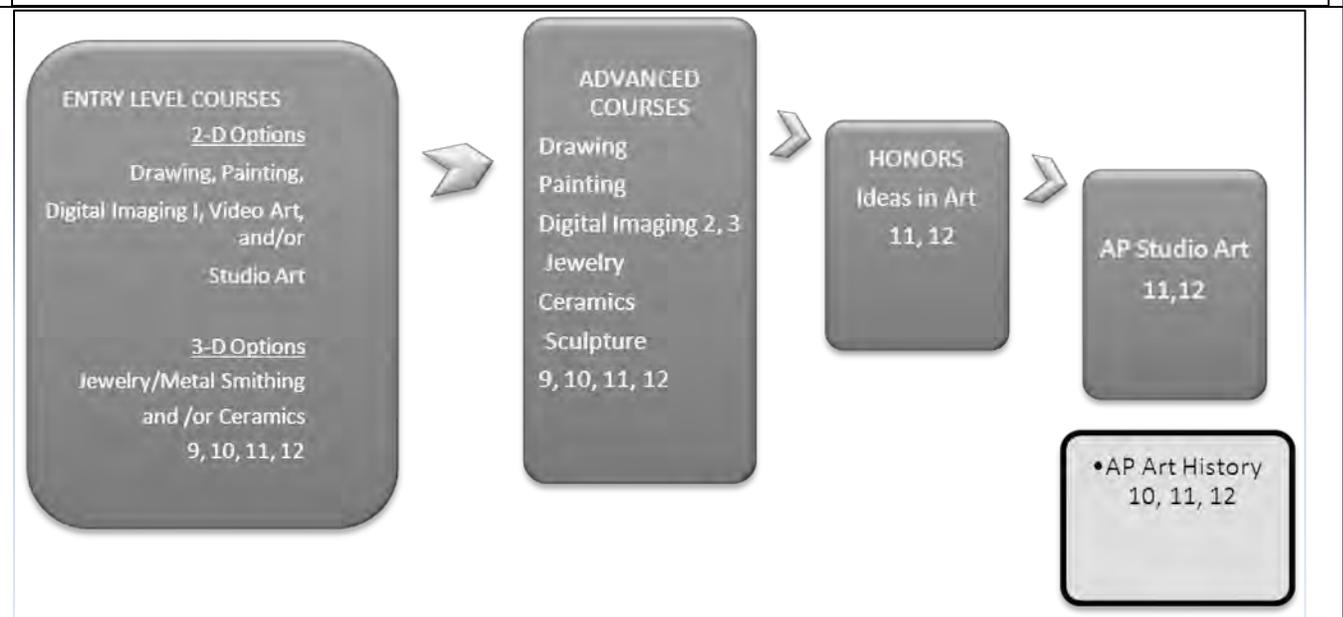

ART

High School District 86 requires the successful completion of two Elective Arts credits. Two fine arts credits fulfill the Illinois state public university entrance requirement in Art, Music or vocation education. The courses offered by the Art Department are designed to develop an appreciation and understanding of art, art production, art history, and creative problem-solving. Student work is displayed throughout the school and community on a continuing basis. Supply fees are required for participation in studio courses.

MISSION STATEMENT

The artistic, intellectual, and personal development of young people, through the visual arts, is the goal of the Hinsdale Central Art Department. We, the art faculty, as mentors, coaches, jurors, and artists, are committed to creating a challenging, authentic, and caring creative environment. We will actively involve students with the visual arts through theory and practice. We will challenge students to develop awareness of excellence and the role of art in human life and human culture.

<p>STUDIO ART Course # 5101 1st or 2nd semester Credit: 0.5</p>	<p>Students will explore fundamental aspects of design, drawing, painting, jewelry, mixed media, and sculpture. Emphasis will be placed on creativity, craftsmanship, and problem solving. Studio Art is the only course in which introductory students can experiment in a variety of materials. <i>It is highly recommended that students interested in Drawing and Painting start with Studio Art as a foundation.</i></p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$20.00</p>
<p>DRAWING Course # 5211 1st or 2nd semester Credit: 0.5</p>	<p>Drawing is a specialized art course that teaches students a variety of strategies to improve his/her ability to draw from life. The course also introduces several drawing tools, including: pastel, charcoal, colored pencils, and pen and ink. A development of individual style and understanding of design will be stressed.</p> <p>Prerequisite: Studio Art is highly recommended. Open to grades 9, 10, 11 and</p>
<p>ADVANCED DRAWING Course # 5221 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Drawing is a continuation of the themes and techniques started in the Drawing course in which students are asked to develop work which demonstrates mature drawing ability. Students are expected to investigate how drawings can be designed to communicate original ideas to a viewer. Students will be required to work on their drawings beyond classroom time.</p> <p>Prerequisite: 5211 Drawing. Open to grades 10, 11 and 12. Supply Fee: \$17.00</p>

Art Department

<p>PAINTING Course # 5311 1st or 2nd semester Credit: 0.5</p>	<p>Painting is a course that introduces students to the complexities of painting. Knowledge of a variety of painting materials, processes, and techniques is stressed. Acrylics, watercolor and oil are used by students to create meaningful and original works of art.</p> <p>Prerequisite: Studio Art is highly recommended. Open to grades 9, 10, 11 and 12. Supply Fee: \$20.00</p>
<p>ADVANCED PAINTING Course # 5321 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Painting is a continuation of the exploration started in Painting. In Advanced Painting, students are able to gain more experience with painting materials introduced in the previous course. Students are expected to demonstrate their painting skill through the creation of a personal series.</p> <p>Prerequisite: 5311. Open to grades 10, 11 and 12. Supply Fee: \$20.00</p>
<p>JEWELRY & METAL SMITHING Course # 5351 1st or 2nd semester Credit: 0.5</p>	<p>This course is for students interested in learning to create jewelry and/or small scale sculptures using metals and other materials. A range of metal fabrication techniques and alternative types of media will be explored. A diverse set of images will be used to explore design concepts to enhance students' visual awareness and problem-solving.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$21.00</p>
<p>ADVANCED JEWELRY & METAL SMITHING Course # 5351 1st or 2nd semester Credit: 0.5</p>	<p>This course is a continuation of Jewelry and Metal Smithing but on an advanced level. A wider range of metal fabrication methods and materials will be introduced than in the entry level course. The concept of body adornment and the contribution of jewelry to the enhancement of the body will be addressed and studied. The course will focus on the development of independent thinking and personal expression. This concentration enables students to explore the potential of jewelry as a communication tool.</p> <p>Prerequisite: 5351. Open to grades 10, 11 and 12. Supply Fee: \$21.00</p>
<p>CERAMICS/CLAY SCULPTURE Course # 5421 1st or 2nd semester Credit: 0.5</p>	<p>Using clay as an art material will be the focus for this course. The student will create hand-built projects, work on the potter's wheel, and apply glazes. Students will also develop an understanding, appreciation, and sensitivity to clay and its role in history and culture.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00</p>
<p>ADVANCED CERAMICS Course # 5431 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Ceramics continues the exploration of clay as a functional and artistic medium. This course will further explore advanced hand building and wheel throwing techniques. Complex projects will challenge the students artistically, as well as technically. The students will spend a majority of the semester working on the potter's wheel and exploring advanced technique. Advanced hand building and glazing techniques will also be covered.</p> <p>Prerequisite: 5421. Open to grades 10, 11 and 12. Supply Fee: \$17.00</p>
<p>SCULPTURE Course #5441 1st or 2nd semester Credit: 0.5</p>	<p>In this studio course, students will explore and develop three dimensional design. Wood, clay, plaster, metals and found objects, are some of the materials that will be used. Emphasis will be placed on the examination of contemporary and historical roles of sculpture in society.</p> <p>Prerequisite: One semester of Art. Open to grades 9, 10, 11 and 12</p> <p>Supply Fee \$17.00</p>

Art Department

<p>IDEAS IN ART HONORS Course # 5473 1st or 2nd semester Credit: 0.5 (may be repeated twice)</p>	<p>Students will create a body of artwork based on a personal exploration of a central theme or idea. This body of work represents the results of rigorous research, planning and problem-solving. Each student is required to create a reference manual that combines multiple explorations of a variety of media. The work produced in this course may be used as part of the Advanced Placement Art Portfolio.</p> <p>Prerequisite: Advanced level course, portfolio review with departmental approval. Open to grades 11 and 12. Supply Fee: \$20.00</p>
<p>ADVANCED PLACEMENT ART HISTORY Course # 5440 Full Year Credit: 1.0</p>	<p>This course provides a survey of the history of art. It is designed to prepare students to take the Advanced Placement examination. Methods of analyzing and evaluating works of art will be introduced. Students enrolling in this course are expected to have well developed writing skills and an interest in art and culture.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT STUDIO ART Course # 5450 Full year Credit: 1.0</p>	<p>This course provides accelerated students with a challenging program of college-level studio work. Prior to the end of the academic year, a portfolio of approximately 44-46 pieces will be submitted to the College Board for evaluation and possible college credit. This advanced placement program requires more time and commitment than typical high school art courses. Therefore, the students enrolling in the course should be highly motivated, serious, self-directed and willing to work. The Ideas in Art course is highly recommended for students considering this course. <u>Students interested in this course need to submit a portfolio of eight pieces to the Art office before first semester final exams.</u></p> <p>Prerequisite: Portfolio review and Departmental approval. Open to grades 11 and 12. Supply Fee: \$40.00 (excludes series materials)</p>

Art Department

Integrated Art and Technology Education Program

The Integrated Art and Technology Education Program is offered as an elective course of study to all students at Hinsdale Central. Our program is interested in the use of technology as a tool or medium in various art/technology-related areas of study, including Graphic Communications, Photography, and Digital Imaging.

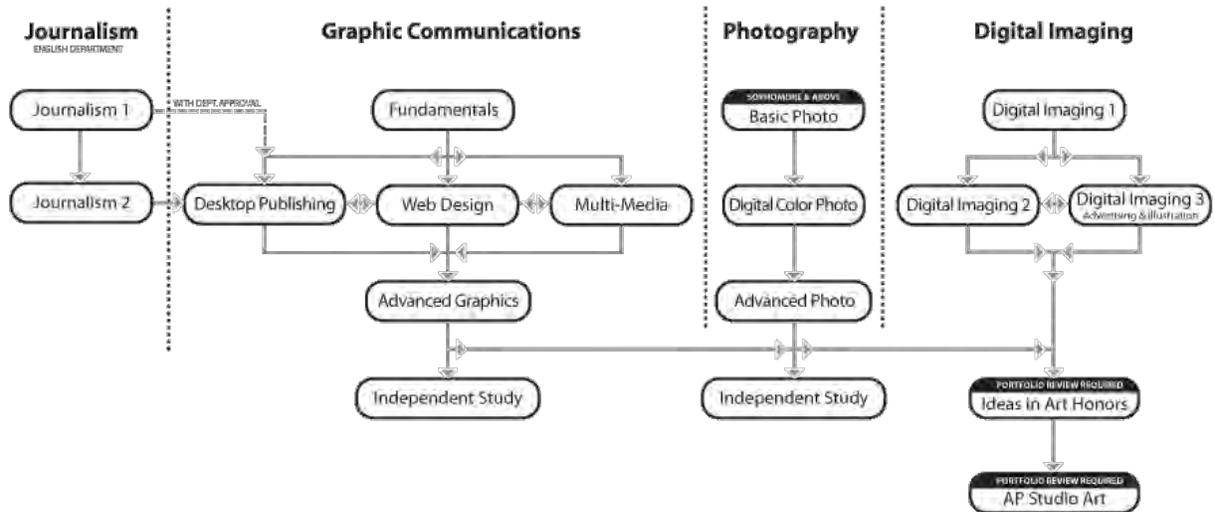

Articulated credits at College of DuPage are available to Hinsdale Central students who complete certain courses at Hinsdale Central with a minimum grade of a B and who, upon graduation, attend C.O.D.

The following courses offer articulated credit at College of DuPage:

- Digital Imaging 3: Advertising and Illustration
- Basic Photography
- Digital Color Photography

Each class has a lab fee charged to students for materials.

The mission of the Integrated Art and Technology Education Program at Hinsdale Central High School is to create opportunities for students to use technology as a tool to demonstrate creative expression and/or technical skill. Courses offered in this program will provide students with experiences in digital media and technology, including: photography, graphic communications, design and illustration, digital imaging, web design, multimedia, animation, video and other relevant digital media and technology.

Integrated Art & Technology Education Program
Program Course Sequences

Art Department

<p>DIGITAL IMAGING 1 Course # 5121 1st or 2nd semester Credit: 0.5</p>	<p>Digital Imaging 1 introduces students to the artistic potential of the computer. Artistic and creative problem solving strategies are developed which can help students in all areas of learning. Students take their own digital photographs. Each student will use his/her digital photographic images to create original works of art using the software Adobe Photoshop CS3. Students will create a cartoon in Adobe Illustrator CS3 and a digital portfolio is created in Adobe Flash MX.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, 12. Supply Fee \$17.00</p>
<p>DIGITAL IMAGING 2: Course # 5132 2nd semester Credit: 0.5</p>	<p>Digital Imaging 2, a continuation of Digital Imaging 1, further explores the artistic potential of the computer and creative problem solving strategies. Students will increase their artistic knowledge and skills while working on independent project ideas based on his/her theme in art. Traditional art materials will be explored or added as students are encouraged to think outside the “digital box”. Students take their own digital photographs. Each student will use his/her digital photographic images to create original works of art. Working knowledge of Adobe Photoshop CS3, Adobe Illustrator CS3, and Adobe Flash, will be needed.</p> <p>Prerequisite: Digital Imaging 1: Open to grades 9, 10, 11, 12. Supply Fee: \$17.00</p>
<p>DIGITAL IMAGING 3: ADVERTISING & ILLUSTRATION Course # 5331 1st or 2nd semester Credit: 0.5</p>	<p>Digital Imaging 3 is a graphic design advertising art class. Students interested in a career in Graphic Design, learn the essential skills of design as it relates to advertising. The computer is used as a tool to create and solve real world design problems. Traditional illustration or drawing techniques will also be explored. Design principles have been introduced and learned, through a series of small projects. Afterwards, the course will be run like an advertising design business with a client/designer relationship underlying major projects. Working knowledge of Adobe Photoshop CS3, Adobe Illustrator CS3, and Adobe InDesign will be needed.</p> <p>Prerequisite: Digital Imaging 1: Open to grades 9, 10, 11, 12. Supply Fee: \$17.00</p>
<p>DIGITAL VIDEO ART Course # 5475 1st or 2nd semester Credit: 0.5</p>	<p>Digital Video Art introduces students to the timely art of video as a medium of artistic expression. Using digital video technologies, students will combine moving images, still images, graphics and sound. Experimentation in film and audio as an artistic medium is encouraged. Through directing, producing, editing, sound design, cinematography and screenwriting students will create their short films. Students will look for relationships between imagery, music and sound through historical film examples. The Digital Video Art course will develop creative, collaborative teams of students to expand their visual literacy and time art skills. Digital technology will incorporate pre- production, production filming, and post- production editing for the creation of the short films. Final Cut is used for post - production. Students will be encouraged to enter national and regional film festivals. Digital Video Art films are assessed on the Art Department’s visual art standards, which align with state and national visual art standards.</p> <p>Prerequisite: None, but Digital Imaging is recommended. Open to grades 9, 10, 11 & 12</p>
<p>GRAPHIC COMMUNICATIONS PROGRAM</p>	
<p>GRAPHIC COMMUNICATIONS FUNDAMENTALS (GCF) Course # 6661 1st or 2nd semester Credit: 0.5</p>	<p>This course provides students with a foundation of essential skills needed for creating print and web documents. Special emphasis is placed on furnishing students with a survey of realistic experiences using Adobe Illustrator and PhotoShop. Areas of study include technical illustration, typography, color models, photo retouching and image preparation. This course focuses on development of sound fundamental skills used in later Graphic Communications courses.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00</p>

Art Department

GRAPHIC COMMUNICATIONS PROGRAM, continued

<p>GRAPHIC COMMUNICATIONS DESKTOP PUBLISHING (GCDP) <i>Course # 6650</i> 1st or 2nd semester Credit: 0.5</p>	<p>Learn to design, layout and prepare documents for print. Use of Adobe InDesign and related Adobe products is stressed. Topics include typography and typographic controls, color usage, preparation of photographic and line art, working with copy, setting up master pages and style sheets, paper characteristics, and binding processes. This course covers essential skills used in producing the Devil's Advocate (newspaper) and El Diablo (yearbook) and is especially recommended for students who are interested in editorial positions.</p> <p>Prerequisite: GCF or Journalism 1 (J1 taken concurrently with dept. approval) Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00</p>
<p>GRAPHIC COMMUNICATIONS - WEB DESIGN (GCW) <i>Course # 6662</i> 1st or 2nd semester Credit: 0.5</p>	<p>Create professional looking web sites! Web Design provides students with an overview of essential disciplines found in web development and the skills necessary to visually create web sites using Adobe Dreamweaver. Although this is not a programming course, basic coding principles will be covered. Areas of study include Internet history, information architecture, site mapping and wireframe development, user experience (UX), search engine optimization (SEO), and development of fluency with Dreamweaver.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF). Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00</p>
<p>GRAPHIC COMMUNICATIONS - WEB-BASED MULTIMEDIA (GCMM) <i>Course # 6681</i> 1st or 2nd semester Credit: 0.5</p>	<p>Create motion graphics and video! This course give students the skills to create animated graphics, Flash animations, and produce simple videos. Students will gain experience using industry standard software like Adobe Image Ready, and Flash to create many to the types of motion graphics found on the web. Students will also be introduced to digital video, learn how to capture and edit their footage, ultimately producing their own short commercials.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF). Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00</p>
<p>GRAPHIC COMMUNICATIONS - ADVANCED GRAPHICS (GCA) <i>Course # 6660</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed for those students who wish to apply the skills learned in their study of Graphic Communications to real world projects. Students will focus on several areas of interest and develop real world products in a client-project manager arrangement.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF) and one of the following: GCW, GCMM, GCDP. Open to grades 10, 11 & 12. Supply Fee: \$10.00</p>
<p>GRAPHIC COMMUNICATIONS - INDEPENDENT STUDY (GCIS) <i>Course # 6905/6906 - Graphic Communications</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is for students who have exhausted other course offerings and wish to further skills learned in the Graphic Communications program in an independent atmosphere.</p> <p>Prerequisite: Department approval. Open to grades 11 & 12. Supply Fee: \$10.00</p>
<h2>PHOTOGRAPHY PROGRAM</h2>	
<p>BASIC PHOTOGRAPHY <i>Course # 6691</i> 1st or 2nd semester Credit: 0.5</p>	<p>Basic Photography is for students interested in learning the techniques necessary to produce technically correct and aesthetically pleasing photographs, as well as the responsibility of caring for photographic equipment using the 35mm SLR camera. Areas of study will include, but are not limited to: the composition of good photographs; the processing of black and white photographic materials; and proper application of equipment, supplies and special darkroom techniques. Equipment and supplies will be provided and cameras will be available for students who do not have access to a 35mm SLR camera.</p> <p>Prerequisite: None. Open to grades 10, 11 & 12. Supply Fee: \$35.00.</p>

PHOTOGRAPHY PROGRAM, continued

<p>DIGITAL COLOR PHOTOGRAPHY <i>Course # 6701</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed for someone interested in the modern methods of Digital Color Photography. The student will use a digital camera to capture images. After capture, editing will be accomplished in the digital darkroom using the computer and the software Photoshop. Areas of study include, but are not limited to: the principles of color and light; elements of a good photograph; capturing images with a digital camera; editing a photograph for presentation with Photoshop; printing a digital file in color; and preparing a photograph for display. The studio will be used to further the use of shade and shadow, light ratios, and photographic composition techniques. Still life and portrait techniques will be explored. Equipment and supplies will be furnished. Cameras are available for students who do not own or have access to a digital camera. Basic Photography and Digital Color Photography together have articulated credit with the College of DuPage.</p> <p>Prerequisites: Basic Photography. Open to grades 10, 11 & 12. Supply Fee: \$35.00.</p>
<p>ADVANCED PHOTOGRAPHY <i>Course # 6812</i> 2nd semester Credit: 0.5</p>	<p>In this advanced level course, students will be expected to improve upon their current level of photographic ability. In terms of technique, this will involve the introduction of the medium format camera and the zone system (a procedure which will allow students to make more carefully controlled photographic prints.) Additionally, some non-traditional films, papers, and emulsions will be introduced. In terms of content, through class assignments and independent works students will begin to use the photographic medium to more effectively articulate ideas. Students may work with black and white film, color film, and digital cameras to capture images.</p> <p>Prerequisite: Basic Photography and Color Photography with instructor approval. Open to grades 11 and 12. Supply fee: \$40.00.</p>
<p>PHOTOGRAPHY INDEPENDENT STUDY <i>Course # 6907/6908</i> Credit: 0.5</p>	<p>This course is designed for students who have completed course sequence in photography program and desire further independent course work.</p> <p>Prerequisite: Department approval. Open to grades 11 & 12. Supply Fee: \$40.</p>

BUSINESS

- Accounting
- Accounting Honors
- Advanced Computer Applications
- Business Law 1 & 2
- Consumer Economics
- Digital Communication Tools 1
- Digital Communication Tools 2
- Digital Tools and Applications
- Entrepreneurship
- Internship
- Introduction to Business
- Investment Planning
- Marketing
- Sports Marketing
- Visual Basic Programming

Business courses can fulfill 1 credit for the District 86 graduation requirement in the Elective Arts. Business courses can also be taken for general/elective credit. The 0.5 consumer education graduation requirement may be met by successful completion of the department's Consumer Economics course or Introduction to Business.

Business Department courses are electives; however, with the increase in reliance on technology in our society, the department strongly recommends that all students include computer courses in their high-school studies (i.e., Digital Communication Tools 1 & 2, Digital Tools and Applications, Advanced Computer Applications).

Students who are contemplating a Business major in college should select one or more Business electives. Because of the difficulty of college-level Accounting, students are urged to take an Accounting course at Hinsdale Central.

	Full-year Courses	Semester Courses
Grade 9	Introduction to Business Digital Tools and Applications	Digital Communication Tools 1 Digital Communication Tools 2

Business Department Computer Curriculum

Computer Courses

<p>DIGITAL COMMUNICATION TOOLS 1 Course # 6121 1st or 2nd semester Credit: 0.5</p>	<p>This course enables students to acquire and refine vital and emerging computer skills in this digital age. Students will develop keyboarding skills using the touch method, and be introduced to some of the latest input technologies, including speech recognition software and using table PC's. Constructing, formatting and editing documents using Microsoft Word, Excel, and PowerPoint will be the focus of production work in this course. Internet applications and email will also be taught and utilized during class projects. (Credit is NOT given for both Digital Communications Tools 1 and Digital Tools and Applications.) Prerequisite: None. Next course in sequence: Digital Communication Tools 2. Open to grades 9, 10, 11 & 12</p>
<p>DIGITAL TOOLS AND APPLICATIONS Course # 6130 Full year Credit: 1.0</p>	<p>This course enables students to acquire and refine vital and emerging computer skills in this digital age. Students will developing keyboarding skills using the touch method, and be introduced to some of the latest input technologies, including speech recognition software and using tablet PC's. Constructing, formatting and editing of documents using basic and more advanced features Microsoft Word, Excel, and PowerPoint. Desktop Publishing, database, and web page development will also be introduced. Internet applications and email will also be taught and utilized during class projects. This yearlong course will take your computer skills to new heights, enabling you to integrate technology in a variety of ways in projects for other classes. [Credit is NOT given for both Digital Communication Tools 1 and 2 and Digital Tools and Applications.] Prerequisite: None. Next course in sequence: Advanced Computer Applications. Open to grades 9, 10, 11 & 12.</p>
<p>DIGITAL COMMUNICATION TOOLS 2 Course # 6331 1st or 2nd semester Credit: 0.5</p>	<p>Continue to develop intermediate to advanced computer skills in this course as more extensive features are taught in desktop publishing, web page development, spreadsheet and database creation, word processing, and digital presentation. Constructing, formatting and editing of files using programs including, but not limited to, Microsoft Publisher, Access, PowerPoint, Word, Excel and Adobe Dreamweaver. Podcasts, videos, and internet applications will also be created during class projects. Students will continue to work with some of the latest input technologies such as speech recognition software, stylus input and handwriting conversion using Tablet PC's. This project based class is designed to meet the National Educational Technology Standards and Performance Indicators for Students. Prerequisite: None, however, Digital Communication Tools 1 is recommended. Proper keyboarding technique and speed, along with document development, formatting, and proofreading skills are expected. Next course in sequence: Advanced Computer Applications. Open to grades 9, 10, 11, & 12.</p>
<p>ADVANCED COMPUTER APPLICATIONS Course # 6341 1st or 2nd semester Credit: 0.5</p>	<p>Can't get enough of computers? This course may be for you. Students will further their skills using Microsoft Office (Word, Excel, PowerPoint, Access) and increase their web page development skills. Students will also work with video capture, podcasting, storyboarding, and video editing software. A simulated company web page will be developed by students and used throughout the course to demonstrate their new computer skills. Prerequisite: Digital Communication Tools 2 or Digital Tools and Applications. Open to grades 10, 11 & 12.</p>
<p>VISUAL BASIC PROGRAMMING Course # 6351 1st or 2nd semester Credit: 0.5</p>	<p>Do you have a desire to take your computer skills to a new level? If so, then Visual Basic may be the course for you. Learn how to create applications in a graphical user interface to solve business problems. Microsoft's Visual Basic simplifies many routine programming tasks by providing tools that allow you to create applications for the Windows operating system. A variety of stand-alone and Microsoft Office-related applications will be developed. Prerequisite: None. Open to grades 10, 11 & 12.</p>

Business

General Courses

<p>INTRODUCTION TO BUSINESS Course # 6100 Full year Credit: 1.0 (0.5 Elective Arts/0.5 Consumer Ed. - Must complete the entire year to receive Consumer Ed. credit)</p>	<p>This course gives students a background in the basic operations of business and develops an understanding of the economic role of business in our society. Major areas of study include banking, credit, insurance, budgeting, consumer protection, government, entrepreneurship and taxes. Skill is developed through a wide variety of activities including computer research, projects, and classroom activities. Successful completion of this course fulfills the District's Consumer Education requirement for graduation.</p> <p>Prerequisite: None. Open to grades 9 and 10.</p>
<p>INVESTMENT PLANNING Course # 6111 1st or 2nd semester Credit: 0.5</p>	<p>In this course students will study basic investment principles involving stocks, commodities, bonds and mutual funds. Students will also learn about tax information, effects of the economy on the market, government regulations of securities and on-line investing. Current issues as they relate to investing will be discussed. Teams will be formed to participate in the Stock Market Game by trading on-line.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>ACCOUNTING Course # 6170 Full year Credit: 1.0</p>	<p>This course develops a basic understanding of double-entry accounting. The accounting cycle, accounting theory, financial reports and financial analysis are included. Accounting simulation sets, Excel spreadsheets and automated accounting software are used to apply all accounting concepts. This course is recommended for college-bound students planning a career in accounting, finance, management or marketing.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>ACCOUNTING HONORS Course # 6180 Full year Credit: 1.0</p>	<p>Accounting Honors will prepare students for the rigor of college accounting. Students will develop an understanding of double-entry accounting. Topics covered include the following: accounting cycle, accounting systems, internal controls, journals, receivables and payables, accruals and deferrals, inventory, fixed assets and depreciation, financial statement preparation and analysis, taxes, and an introduction to managerial and cost accounting. A computerized accounting program will also be utilized, as well as the Excel spreadsheet program. The core material for this course is similar to Accounting 6170; however, more topics are covered, the pace is accelerated and expectations are higher. This course is highly recommended for motivated students planning to enter a college business program.</p> <p>Prerequisite: Department Chair approval. Open to grades 11 and 12.</p>
<p>MARKETING Course # 6181 1st or 2nd semester Credit: 0.5</p>	<p>This course focuses on the activities necessary to market products, services, and ideas to consumers. Major topics include market segmentation, consumer behavior, marketing research, product planning, and advertising. Students will apply marketing concepts learned in class by researching, creating and advertising new products.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>SPORTS MARKETING Course # 6183 1st or 2nd semester Credit: 0.5</p>	<p>This intermediate marketing course will introduce students to the exciting field of sports marketing and its role in society. Students will develop a thorough understanding of the marketing concepts and theories that apply to sports and sporting events. The areas this course will cover include sponsorships, endorsements, licensing, event marketing and sports marketing plans. Students will plan, create, and assess sports marketing communication programs that include advertising, marketing, public relations and news media. Emerging issues in sports marketing will also be discussed.</p> <p>Prerequisite: Marketing Open to grades 10, 11 and 12</p>

General Courses

<p>BUSINESS LAW 1 <i>Course # 6231</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces students to the legal system and the law as it applies to personal and business situations which may occur in their daily lives. It also examines the court system, torts, technology and the law, contracts, family law, wills and estates. Key elements of this course are case studies, mock trials and a field trip to the courts and jails.</p> <p>Prerequisite: None. Next course in sequence: Business Law 2. Open to grades 11 and 12</p>
<p>BUSINESS LAW 2 <i>Course # 6232</i> 2nd semester only Credit: 0.5</p>	<p>This course examines the criminal justice system, the Supreme Court, bailments and real estate transactions, ethics and employment policies and contracts. Group discussions, case studies, guest speakers and a field trip will be utilized to present and examine these concepts. To develop a better understanding of the legal system, students will participate in a mock trial tournament throughout the semester.</p> <p>Prerequisite: Business Law 1. Open to grades 11 and 12.</p>
<p>ENTREPRENEURSHIP <i>Course # 6241</i> 1st or 2nd semester Credit: 0.5</p>	<p>Do you have an interest in owning or running a business some day? This course will help you develop that entrepreneurial spirit and the skills necessary to be successful in your new business. Topics of study include the entrepreneurial personality and skills; marketing, financing and managing a business; legal requirements of a business; and career opportunities in entrepreneurship. Students will develop an idea, create a business plan, and then use the business plan to actually start and run a business in this course.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>CONSUMER ECONOMICS <i>Course # 6301</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course helps students to understand the consumer's role in a mixed economy. Students will learn about various topics that they will use their entire life. Topics of study include: money management, consumer rights and responsibilities, credit, purchasing of goods and services, making sound investment plans and preparing individual tax returns. Successful completion of this course fulfills the District's Consumer Education requirement for graduation. (An on-line version of this course is available. See page 10 for details.)</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>INTERNSHIP <i>Course # 8401, 8402</i> 1st or 2nd semester Credit: 0.25 general credit only— not Elective Arts credit</p>	<p>This program is designed to provide students with an opportunity for career exploration in a field of their choice. Students will work with a mentor outside of the school day for 50-75 hours in their career field. Due to time constraints, it is suggested that students have their own placements, however, if assistance is needed finding a placement, students should contact an internship coordinator. Students will be expected to keep a detailed journal, write a reflection paper and discuss their experiences with a related class.</p> <p>Prerequisite: None. Open to grades 11 and 12 upon acceptance after interview.</p>

Driver Education

Rahul Sawlani

DRIVER EDUCATION

Course # 7461, 7462

1st or 2nd semester

Credit: 0.25

Classroom Driver Education, though an elective course, is required in order to obtain a state driver's license prior to the age of 18. Driver Education will follow state mandates on the number of hours of classroom instruction and in-car training. Student schedules must allow for one period per day during one semester in order to complete course requirements. Coordinator: Alan Housner

Due to recent changes in Drivers Education laws by the State of Illinois, our school may not be able to honor all requests by students to enroll in Drivers Education during their sophomore year. Students will be enrolled according to birthdates.

Students enrolled in Driver Education will receive two grades at the end of the semester: one for the classroom phase, and one for the behind-the-wheel phase. Upon successful completion of the Driver Education Cooperative Testing program, students will be eligible for their license without need for further examination by the Illinois Secretary of State Office. **\$20.00 Permit fee required by State. \$350.00 Course fee.**

* According to state statute, Driver Education permits cannot be issued until 30 days prior to class.

Prerequisite: None. Preference is given to grades 10, 11 and 12.
Per State Law:

As a prerequisite, students enrolling in Driver Education must be passing eight semester classes within the two most recent semesters of attendance. Only classes used to determine a student's GPA will be allowed to meet this requirement.

English Department

<p>ESL-ENGLISH 1A Course # 1050 Full year Credit: 1.0</p>	<p>This course is designed for the English Language Learner (ELL) who is new to the United States and whose English proficiency is emerging and developing. The course focuses on teaching basic communication and study skills in order for the ELL to be successful at Hinsdale Central High School. Listening, speaking, reading and writing skills will be taught in order to help the ELL in mainstream classes succeed academically and complement the ESL-English 1B curriculum. In addition, the course will provide activities to include students in the American culture.</p> <p>Prerequisite: English Language Learner Program (ELL) director and English Department Chair approval. Open to grades 9-12.</p>
<p>ESL-ENGLISH 1B Course # 1030 Full year Credit: 1.0</p>	<p>This course continues the work started in ESL-English 1A by developing emerging and beginner listening, speaking, reading and writing strategies and skills in standard American English to the English Language Learner (ELL). This course will parallel the goals and skills of English 1. In addition, the course will continue to build student communication skills and self-advocacy skills in standard American English to aid in mainstream academic success.</p> <p>Prerequisite: English Language Learner Program (ELL) director and English Department Chair approval. Open to grades 9-12.</p>
<p>ESL-ENGLISH 2 Course # 1040 Full year Credit: 1.0</p>	<p>The goal of ESL-English 2 is to prepare the intermediate level English Language Learner (ELL) to transition successfully into the mainstream English class. The course will continue to develop skills and strategies in listening, speaking, reading and writing of standard American English while focusing on how the strategies can be used in mainstream academic success. Course materials will parallel the goals and skills of the English 2 program. This course reinforces self-advocacy skills to promote mainstream academic success for the transitioning English Language Learner.</p> <p>Prerequisite: English Language Learner Program (ELL) director and English Department Chair approval. Open to grades 9-12.</p>
<p>ENGLISH 1 Course # 1110 Full year Credit: 1.0</p>	<p>English 1 incorporates instruction in many areas including literature, writing, speaking, research, vocabulary, and grammar. The literature includes nonfiction, short story, drama, poetry, and novels. Writing instruction includes summary, paraphrase, argument, analysis, and synthesis. Research skills – topic generation, source identification, evaluation, and attribution – are taught in conjunction with the library staff. Regular active class participation is essential. The goal of the course is to develop competent learners, thoughtful readers, enthusiastic writers, and effective oral communicators. This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: Incoming freshman eligibility is based on multiple sources of information, including EXPLORE scores and recommendation of 8th grade instructor. Open to grade 9.</p>
<p>ENGLISH 1 HONORS Course # 1120 Full year Credit: 1.0</p>	<p>English 1 Honors is a course for the student who reads avidly and enthusiastically and who shows strong motivation and high academic achievement. Students read a variety of literature, including fiction, nonfiction, classical and contemporary drama, short stories and poetry. Discussion, in-depth analysis, and written assignments accompany these readings. In addition, the expository writing process and grammar usage are emphasized. Speeches and group performances are required. Consistent, thoughtful class participation is expected of all students. This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: Incoming freshman eligibility is based on multiple sources of information, including EXPLORE scores and recommendation of 8th grade instructor. Open to grade 9.</p>

English Department

<p>ENGLISH 2 Course # 1210 Full year Credit: 1.0</p>	<p>English 2 covers the areas of literature, writing, vocabulary, grammar, and speech. Through literature, selected plays, poetry, and novels, students will learn to analyze and appreciate literature. In the area of writing, an emphasis is placed on multi-paragraph essays. Grammar and vocabulary will be covered throughout the year in conjunction with writing and literature. Public speaking will be practiced. Consistent class participation is imperative. This course satisfies the ISBE graduation requirement for “intensive writing.” Prerequisite: English 1. Open to grade 10.</p>
<p>ENGLISH 2 - HONORS Course # 1220 Full year Credit: 1.0</p>	<p>Challenging reading and writing assignments form the foundation of the English 2 Honors curriculum. Geared towards students who show strong motivation and high academic achievement, the class helps students develop critical thinking patterns and effective oral and written communication skills. Students are expected to work on long-range assignments and to be consistently active in class discussions. Research fundamentals—topic generation, source evaluation and attribution—are taught in conjunction with the library staff. Active class participation, in the form of peer editing, small group work and partner projects as well as class discussion, is expected of all students. This course satisfies the ISBE graduation requirement for “intensive writing.” Prerequisite: English 1 or English 1 Honors and Department Chair approval. Open to grade 10.</p>
<p>CORE WRITING COURSES</p>	
<p>EXPOSITORY WRITING Course # 1321 1st or 2nd semester Credit: 0.5</p>	<p>Harness the power of the written word! By studying classic and contemporary essays, students learn to implement a variety of writing techniques to craft original essays that are related as much as possible to the students’ own interests and life experiences. Students are challenged to expand their conception of essay form and development. Basic grammar and style will be reinforced in order to help students write clearly. Students will also learn to construct a detailed research paper through careful topic selection, rigorous information collection using the school’s library databases, and effective organization and appropriate formatting of the finished paper. This is an accelerated course with an emphasis on close reading and analytic, purposeful writing; students completing this course will have the option, with teacher recommendation, of taking AP Literature or AP Language during their senior years. Students must write a research paper in order to earn credit for the course. Prerequisite: English 2. Open to grades 11 & 12.</p>
<p>COMPOSITION 2 Course # 1313/1314 1st or 2nd semester Credit: 0.5</p>	<p>This college-prep course is designed for students who wish to improve writing skills for the heavier demands of college coursework. This course includes a review of the multi-paragraph essay and instruction in developing and elaborating on ideas in writing. Students will learn to build arguments in response to texts they read in class. Students will also review punctuation, sentence structure, mechanics, and grammar as needed. Prerequisite: U.S. Literature and Composition or Department Chair Approval. Open to Grade 12.</p>

English Department

<p>RHETORIC Course # 1351 1st or 2nd semester Credit: 0.5</p>	<p>In today's complex world, clear communication is imperative. This course draws on the traditional study of rhetoric—in terms of the persuasive appeals, purpose, and audience—to lay the groundwork for solid, thoughtful, and effective written communication. The class helps students develop into clear, incisive thinkers who can write confidently in various situations for various purposes. Rhetoric also focuses on building research skills to ensure that students are well-versed in finding, evaluating, and synthesizing multiple sources of information. Students will hone their writing skills in order to discover, explain, question, and justify stances on controversial issues in our contemporary world. Students must write a research paper in order to earn credit for the course. Prerequisite: Expository Writing or English 3. Open to grade 12.</p>
<p>HONORS SEMINAR IN WRITING Course # 1355 Full year Credit: 1.0</p>	<p>Honors Seminar in Writing is a class for the intellectually curious who value the power of the written word and are eager to become more sophisticated writers. This year-long course is especially designed for those who have been grabbed by the rhetorical nature of AP Language and Composition and are interested in analyzing stylistic elements in professional and personal writing. Students will read texts that are challenging and nuanced and, in their writing, explore real-world complexities through primary and secondary research. The members of this course are committed to crafting and revising their own nonfiction essays, with the intention of publication. Join this small community of students who appreciate the art of writing. Prerequisite: Expository Writing, AP Language and Composition, or English 3 and Department Chair approval. Open to grade 12.</p>
<p>CORE LITERATURE COURSES</p>	
<p>AMERICAN LITERATURE Course # 1561 1st or 2nd semester Credit: 0.5</p>	<p>—hear America singing, the varied carols I hear...” So wrote Walt Whitman in his famous poem, —Hear America Singing.” Over the course of the semester, students will study the —varied carols” in American Literature in order to learn about our country and, ultimately, themselves. Students will read and analyze works from diverse authors, genres, themes, and styles as they explore how literature links us to our historical and cultural heritage. As they sample literature from the American Enlightenment (1776) to the present, they will see how literature is a reflection of a changing American society. This is an accelerated course with numerous challenging fiction and nonfiction texts and an emphasis on close reading and analytic, purposeful writing; students completing this course will have the option, with teacher recommendation, of taking AP Literature or AP Language during their senior year. Class participation is imperative so that students can exchange ideas and interpretations of the literature. Prerequisite: English 2. Open to grade 11.</p>
<p>SENIOR LITERATURE Course # 1491 1st or 2nd semester Credit: 0.5</p>	<p>Powerful stories affect us in profound ways, inspiring us, challenging us, deepening our human experience. The fundamental approach to Senior Literature is to aid students in fostering a love of reading by encouraging strong emotional connections with powerful stories, while emphasizing reading skills and literary analysis. Students in this course study the ways storytellers use their art to make us feel and think more deeply. This is a moderately paced course designed for the senior student who has taken U.S. Literature as a junior. Students encounter many exciting types of texts, including both traditional forms of fiction and drama, as well as graphic novels, films, and nonfiction texts. Group discussion is emphasized, but students also write essays, take tests, and give oral presentations about these texts. Prerequisite: United States Literature. Open to grade 12.</p>

English Department

<p>WORLD LITERATURE <i>Course # 1541</i> 1st or 2nd semester Credit: 0.5</p>	<p>This college preparatory course for the average and above average reader will afford students the opportunity to gain a better understanding of and appreciation for various cultures from around the world. Through an array of compelling—and mostly contemporary—works, students will be challenged to grapple with universal problems and themes. Common assessments include essays and other writing assignments, discussion, quizzes/tests, oral presentations, and projects. Prerequisite: None. Open to grade 12.</p>
<p>BRITISH LITERATURE 1 <i>Course # 1581</i> 1st or 2nd semester Credit: 0.5</p>	<p>Human tragedy, genuine emotion, realistic, flawed characters, and outrageous jokes—all reasons that we still read the works of Shakespeare. British Literature I offers students the opportunity to discover the genius of Shakespeare’s plays. This course explores the comedies, tragedies, and histories of the most famous playwright of the English language. Emphasis is placed on the memorable characters, riveting plots, and universal themes present in some of Shakespeare’s most popular plays. Evaluation is based on discussion, quizzes, essays, tests, and, of course, performance. Prerequisite: None. Open to grade 12.</p>
<p>BRITISH LITERATURE 2 <i>Course # 1591</i> 1st or 2nd semester Credit: 0.5</p>	<p>This college preparatory course for the average and above average reader focuses on the role of literature in Ireland’s rich, violent, and tumultuous past. Students will read and discuss contemporary and historical issues in Ireland and, by extension, Great Britain through books, plays, short stories, newspaper articles, and films. The issues of oppression, resistance, and desire for freedom will be at the heart of this course. Evaluation is based on discussions of the readings, written activities, presentations, and tests/quizzes. Prerequisite: None. Open to grade 12.</p>
<p>CORE LITERATURE/WRITING COURSES</p>	
<p>ENGLISH 3 <i>Course # 1320</i> Full year Credit: 1.0</p>	<p>Take a personal journey through the American Dream in English 3. In this course we will explore some of the most popular and enduring works of American literature, focusing on what makes Americans unique. Students will have the opportunity to improve their writing through ACT style prompts, dealing with both personal perspective and literary analysis, as well as the “college essay.” English 3 students will also explore personal interests and improve their research and writing skills through the I-Search paper. The course includes formal presentations and/or performances. Prerequisite: English 2. Open to grade 11.</p>
<p>AMERICAN STUDIES <i>Course # 1550</i> Full year Credits: 1.0 English, 1.0 Social Studies</p>	<p>American Studies surveys America’s past through the use of nonfiction texts, novels, films, visual arts, music, news sources, and primary source documents. The curriculum integrates history and literature by examining American texts through rhetoric, analysis, thematic connection, and inquiry. Students will find a challenging educational environment that incorporates a variety of methodologies including current event discussions, media presentations, and field trips. The course meets for two back-to-back periods and is team taught in a larger setting. Teachers plan, instruct, and evaluate student work together. This is an accelerated course with numerous challenging fiction and nonfiction texts and an emphasis on close reading and analytic, purposeful writing. Students completing this course will have the option, with teacher recommendation, of taking AP Literature or AP Language during their senior year. Prerequisite: English 2. Open to grade 11.</p>

English Department

<p>U.S. LITERATURE AND COMPOSITION</p> <p>Course # 1300 Full year Credit: 1.0</p>	<p>This course is designed for the student who may need more support in writing and reading. This college-prep course focuses on developing reading skills for understanding fiction, nonfiction, and poetry. Students are required to be productive and engaged participants in daily class activities, such as the practice of specific reading strategies, discussion, and written responses. For writing instruction, emphasis is placed on basic writing topics such as thesis statements, organizational patterns, paragraph development, and sentence correctness. Students must write a research paper in order to earn credit for the course. Homework reading and writing are required.</p> <p>Prerequisite: English 2. Open to grade 11.</p>
<p>ADVANCED PLACEMENT LANGUAGE AND COMPOSITION</p> <p>Course # 1730 Full year Credit: 1.0</p>	<p>According to the College Board, an Advanced Placement Course in English Language and Composition is designed for talented, imaginative students, who read with finesse and write with clarity and style; who are curious and responsive to academic risk-taking; and who are not deterred by hard work. In this college-level writing course, students develop the ability to analyze the rhetorical features of texts, speeches, and visuals as well as to produce their own writing—both analytical and argumentative—on a variety of subjects. In addition to in-class and shorter out-of-class writing assignments, students will also learn how to access, evaluate and cite primary and secondary sources so that they can develop writings of extended length. This course assumes that students understand and capably use standard English grammar and prepares students for the Advanced Placement Exam in Language and Composition.</p> <p>Prerequisite: English 2 Honors or Department Chair approval. Open to grade 11.</p>
<p>ADVANCED PLACEMENT LITERATURE AND COMPOSITION</p> <p>Course # 1731 Full year Credit: 1.0</p>	<p>This Advanced Placement Literature and Composition course is designed as an intensive study of literature drawn from multiple genres, time periods, and cultures, including but not limited to such authors as Shakespeare, Paton, Atwood, Fitzgerald, and Conrad. Students will read poetry, drama, novels, and short fiction deliberately and thoroughly, participating orally and in writing in close textual analysis. Independent, outside reading will be expected. Assignments include in-class essays, research projects, memorizations, oral presentations, and analytical writings. Students are responsible for participating actively and taking the lead in class discussions of the literature they read. This course prepares students for the Advanced Placement Exam in Literature and Composition.</p> <p>Prerequisite: AP Language and Composition or Department Chair approval. Open to grade 12.</p>
<p>CORE COMMUNICATION COURSES</p>	
<p>SPEECH/COMMUNICATION</p> <p>Course # 1411 1st or 2nd semester Credit: 0.5</p>	<p>Effective communication is the key to success in all aspects of life. This course helps students become effective communicators in everyday, person-to-person relationships. The course teaches listening skills and the ability to give and receive tactful and constructive criticism and includes instruction in research and visual presentation. Students must be involved daily in class discussion. At the completion of this course, each student should feel confident in choosing an appropriate topic, preparing written notes and outlines, and delivering a 3-5 minute speech with a strong introduction, body, and conclusion.</p> <p>Prerequisite: None. Open to grades 11 & 12.</p>

English Department

CORE COMMUNICATION COURSES, continued

<p>DISCUSSION AND DEBATE Course # 1441 1st or 2nd semester Credit: 0.5</p>	<p>Listening, leadership, courtesy, topic analysis, research, evaluation of sources and databases, articulation, and confidence—these are the lifelong skills fostered in Discussion and Debate. This course helps students learn to access a range of informational sources available at the Hinsdale Central library in order to build arguments about contemporary topics used in debates. Students will participate in formal and informal class discussions, a simulated town meeting, a group discussion panel, debates, current event speeches, and a role play of an individual’s life after reading a biography or autobiography. Reading, writing, researching, and active participation are all major components of this course. Because multiple performances will be required during the semester, students should already have a familiarity with and a sense of confidence about public speaking. By the end of the semester, students should feel a sense of mastery at organizing, working cooperatively with others, researching, preparing for, and delivering public performances.</p> <p>Prerequisite: None. Open to grades 11 & 12.</p>
---	--

ENRICHMENT COURSES

<p>ACADEMIC READING Course # 1100 Full year Credit: 1.0</p>	<p>Academic Reading is designed for ninth grade students whose standardized test scores demonstrate that they would benefit from direct instruction in reading and vocabulary strategies. Students will be assessed in several skill areas throughout the year to track their growth. The curriculum is comprised of units that address skills that —good readers” internalize including determining main and supporting ideas, developing a variety of vocabulary strategies, and building fluency. To build reading skills, core textbook material will be supplemented with texts from students’ social studies and science classes. Finally, students will engage in daily sustained silent reading of self-selected material. Academic Reading students are simultaneously enrolled in this course and English 1.</p> <p>Prerequisite: Department Chair approval. Open to grade 9.</p>
<p>ACADEMIC READING - ENGLISH 2 Course # 1102 Full year Credit: 1.0</p>	<p>Academic Reading – English 2 is designed for tenth grade students who were identified during their freshman year as likely to benefit from direct reading and writing instruction and supplemental in-school language arts instruction and support. Guided by multiple diagnostic assessments and a review of student data, teachers will target specific student needs while utilizing engaging, purposeful, research-based practices. Student progress is monitored regularly to ensure that students are receiving the best instruction for their specific needs. Academic Reading – English 2 students are simultaneously enrolled in this course and English 2.</p> <p>Prerequisite: Department Chair approval. Open to grade 10.</p>
<p>ACADEMIC READING - U.S. LITERATURE AND COMPOSITION Course # 1103 Full year Credit: 1.0</p>	<p>Academic Reading – U.S. Literature and Composition is designed for eleventh grade students who were identified during their freshman year as likely to benefit from direct reading and writing instruction and supplemental in-school language arts instruction and support. Guided by multiple diagnostic assessments and a review of student data, teachers will target specific student needs while utilizing engaging, purposeful, research-based practices. Student progress is monitored regularly to ensure that students are receiving the best instruction for their specific needs. Academic Reading - U.S. Literature and Composition students are simultaneously enrolled in this course and U.S. Literature and Composition.</p> <p>Prerequisite: Department Chair approval. Open to grade 11.</p>

English Department

<p>JOURNALISM 1 Course # 1651 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces students to the fundamentals of journalism. Emphasis is placed on interviewing, writing, editing, assessing the audience, and meeting deadlines. Units of study include responsibilities and ethics, Associated Press style, interviewing, news writing, feature writing, and page design. All final story assignments must be typed, and the culminating activity is a feature story spread. This course is intended as a practical application of newspaper/newsmagazine news gathering and writing techniques, not as an analysis of the media. While this course is open to all interested students, those students interested in becoming editors of <i>Devils' Advocate</i> or <i>El Diablo</i> are strongly encouraged to take Journalism 1 sophomore year.</p> <p>Prerequisite: Students must have a B average in English. Open to grades 10 & 11.</p>
<p>JOURNALISM 2: NEWSMAGAZINE Course # 1661, 1662 1st or 2nd semester Credit: 0.5</p>	<p>Students in this class are editors and will be responsible for publishing <i>Devils' Advocate</i> according to established deadlines. Students will assume editorial leadership and participate in all activities required to create a quality publication using a desktop publishing system. Students will be expected to develop story ideas, research stories, write and edit copy, design pages and handle advertising accounts. Part of the grade is determined by job performance. Students should be prepared to spend out-of-class time working on the publication. Journalism 2 may be repeated for credit with consent of the instructor and department chair.</p> <p>Prerequisite: Journalism 1, application and interview process, and consent of the newsmagazine adviser. Open to grades 10, 11 & 12.</p>
<p>JOURNALISM 2: YEARBOOK Course # 1671,1672 1st or 2nd semester Credit: 0.5</p>	<p>Students in this class are editors and will be responsible for producing <i>El Diablo</i>. This course will cover skills and responsibilities of a journalist involved in publishing a yearbook. Students will assume editorial leadership and participate in all activities required to create a quality publication using a desktop publishing system. Students will be expected to develop story ideas, research stories, write and edit copy, design pages and handle advertising accounts to meet deadlines established by the adviser/instructor in accordance with the publication company's requirements. Students should be prepared to spend out-of-class time working on the publication in order to receive credit.</p> <p>Prerequisite: Application and interview process and consent of the yearbook adviser. Open to grades 10, 11 & 12.</p>
<p>CREATIVE WRITING Course # 1341 1st or 2nd semester Credit: 0.5</p>	<p>Creative Writing encourages students to explore writing in forms not emphasized in core English courses. Students read and discuss contemporary and classic writers and write stories, poems, dialogs, prose vignettes, myths and personal essays. Students keep a writer's journal, recording thoughts, observations, experiences, and reflections on readings, to serve as a sourcebook, providing the raw material from which more polished writing will emerge. Careful revisions as well as the sharing of one's own writing with the class in informal, non-threatening discussions also constitute an important part of the course's content.</p> <p>Prerequisite: Department approval and a writing sample. Open to grades 11 & 12.</p>
<p>DRAMA Course # 1681 1st or 2nd semester Credit: 0.5</p>	<p>Drama has one prerequisite: the willingness to get up and perform! In this full participation performance class students learn and practice fundamentals of acting, movement, pantomime, and improv. In addition, students find, analyze, memorize, and act out monologues and scenes from plays. As a culminating experience, all students will participate in an evening performance to which parents and friends are invited. Class members are encouraged to experience an audition and to work onstage or backstage for the Drama Club's current production.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 & 12.</p>

E. L. L.

English Language Learner Program

Lee-Cheng Wang, Design

MISSION STATEMENT

The mission of the English Language Learner Program (ELL) is to assist international students who have limited English skills. The ELL program provides academic and social support as students adjust to the American culture and, in particular, to Hinsdale Central High School. ELL will assist them in transitioning into the mainstream of the school community.

In order to fulfill the mission, ELL offers *academic* classes in English as a Second Language (ESL-1 and 2) for credit and ELL resource classes that may receive credit. ELL also addresses individual student needs, including language issues, academic programs, and cultural, social adjustments. English as a Second Language classes are taught in conjunction with the English Department in order to transition students into the mainstream English classes. As students adjust academically and socially, they *transition with support* into the full general education curriculum and the school community. Lastly, students exit the program when they are academically successful.

ESL-ENGLISH 1A
Course # 1050
 Full year
 Credit: 1.0

This course is designed for the English Language Learner who is new to the United States and whose English Proficiency is emerging and developing. The course focuses on teaching basic communication and study skills in order for the ELL to be successful at Hinsdale Central High School. Listening, speaking, reading and writing skills will be taught in order to help the ELL in mainstream classes succeed academically and complement the ESL-English 1B curriculum. In addition, the course will provide activities to include students in the American Culture.

Prerequisite: ELL Director Chair approval. Open to grades 9 - 12.

ESL-English 1B
Course # 1030
 Full year
 Credit: 1.0

This course continues the work started in ESL-English 1A by developing emerging and beginner listening, speaking, reading and writing strategies and skills in standard American English to the English Language Learner. This course will parallel the goals and skills of English 1. In addition, the course will continue to build student communication skills and self-advocacy skills in standard American English to aid in mainstream academic success.

Prerequisite: ELL Director approval. Open to grades 9 - 12.

E. L. L. Department

<p>ESL-English 2 Course # 1040 Full year Credit: 1.0</p>	<p>The goal of ESL-English 2 is to prepare the intermediate level English Language Learner to transition successfully into the mainstream English class. The course will continue to develop skills and strategies in listening, speaking, reading and writing of standard American English while focusing on how the strategies can be used in mainstream academic success. Course materials will parallel the goals and skills of the English Program. Lastly, this course reinforces self-advocacy skills to promote academic mainstream success for the transitioning English Language Learner.</p> <p>Prerequisite: ELL Director approval. Open to grades 9 - 12.</p>
<p>ELL Resource Course # 1003, 1004 1st or 2nd semester Credit: 0.25 or non-credit</p>	<p>This tutorial resource is designed to: 1) help students maintain satisfactory achievement levels in their regular classes; 2) encourage conversational English; 3) accelerate the development of vocabulary understanding, reading comprehension and writing skills in the English language; and 4) facilitate cultural adjustment.</p> <p>Prerequisite: ELL Director approval. Open to grades 9, 10, 11 & 12 international students who have limited English language proficiency. This program may be scheduled in place of a regularly scheduled study hall. This course must be taken for credit if the student is enrolled in ESL1 or ESL2. It may be taken for credit or non-credit with ELL director recommendation.</p>
<p>ELL Tutor Course # 1013, 1014 1st or 2nd semester Credit: 0.25</p>	<p>ELL tutors assist other individual ELL students with academic and English language needs.</p> <p>Prerequisite: Recommendation of ELL Director. Open to grades 11 & 12.</p>

Family & Consumer Sciences

Megan McDonald, design

Courses in Family and Consumer Sciences provide the foundation for professional careers, as well as personal enrichment. Students considering Family and Consumer Sciences related careers should prepare by enrolling early in departmental offerings in their preferred area. Lab fees are required in some courses.

◆ SUGGESTED SEQUENCING FOR FAMILY & CONSUMER SCIENCES CAREER AREAS ◆

FOODS

- * Intro. to Family & Consumer Sciences (9-12)
- Creative Cooking 1 (9-12)
- Creative Cooking 2 (9-12)
- Nutrition, Wellness & Cooking (11-12)
- Chef and Restaurant (11-12)

FAMILY LIVING

- Single Survival (11-12)
- Personal Perspectives (11-12)

FASHION

- * Intro. to Family & Consumer Sciences (9-12)
- Creative Sewing (9-12)
- Creative Sewing Independent Study (9-12)
- Fashion Merchandising (10-12)

INTERIOR DESIGN

- * Intro. to Family & Consumer Sciences (9-12)
- Architectural Styles & Design (10-12)

TEACHING

- * Intro to Family & Consumer Sciences (9-12)
- ** Child Care and Development (10-12)
- Invitation to Teach (12)

◆ PLEASE REFER TO THE INDIVIDUAL COURSE DESCRIPTIONS FOR MORE INFORMATION ◆

Family & Consumer Sciences

<p>INTRODUCTION TO FAMILY & CONSUMER SCIENCES Course # 6400 Full year Credit: 1.0 (0.5 consumer education, 0.5 elective arts) Must complete the entire year to receive consumer education credit.</p>	<p>This course introduces the student to the following areas of Family & Consumer Science: consumer education, child care, interior design, foods and sewing. The consumer education unit focuses on basic economic concepts such as career opportunities, budgeting, banking, credit, transportation and housing. Additional class activities include an interior design project, basic food preparation and entertainment, sewing projects and exposure to child development. Successful completion of this course fulfills the District’s Consumer Education requirement for graduation. Supply fee \$25.00 Prerequisite: None. Open to grades 9, 10, 11 & 12.</p>
<p>CREATIVE COOKING 1 Course # 6411 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed to teach basic food preparation skills utilizing various types of culinary equipment and a range of preparation and cooking techniques. The following areas of study are covered in this course: measuring, cutting skills, cooking methods, nutrition, fruits, vegetables, breads, pastas, vegetarian dishes, desserts, and microwave cooking. The course culminates in a student driven practical final meal applying the knowledge they have learned over the semester. While this course provides personal enrichment, it may also serve as a foundation for further training in food service. Supply fee \$25.00 Suggested follow-up courses: Creative Cooking 2 and Chef & Restaurant. Prerequisite: None. Open to grades 9, 10, 11 & 12.</p>
<p>CREATIVE COOKING 2 Course # 6412 1st or 2nd semester Credit: 0.5</p>	<p>This course, a continuation of Creative Cooking 1, provides training in the following advanced techniques of food preparation: international and gourmet foods, cakes and cake decorating, pasta, pastry, yeast breads, pies and more. Students prepare a variety of recipes. While this course provides personal enrichment, it may also serve as a foundation for further training in food service. Suggested follow-up: Chef and Restaurant. Supply fee \$25.00 Prerequisite: 6411. Open to grades 9, 10, 11 & 12.</p>
<p>CHEF AND RESTAURANT Course # 6421 1st or 2nd semester Credit: 0.5</p> <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p>*Due to classroom space limitations students who have previously completed Creative Cooking I or IFACS will be given preferential placement.</p> </div>	<p>Chef and Restaurant is an introductory course to professional food service operations. Previous cooking experience is extremely beneficial and may be required in the future for this course. The emphasis is on developing and managing quantity food service businesses, including pre planned and student generated menu and themes, as well as customized menu creation to serve the needs of clients. Several weeks will be spent on back of the house management including product costing, requiring math computation skills. This course serves as a foundation for students wishing to enter a chef or hospitality management program of study. Supply fee \$25.00 *Prerequisite: Suggested Introduction to Family and Consumer Sciences ((6400) or Creative Cooking 1 (6411). Open to grades 11 & 12.</p>
<p>NUTRITION, WELLNESS & COOKING Course # 6431 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed to teach students how to build a lifetime of good nutrition and wellness practices while utilizing the food preparation and cooking skills from prerequisite courses. Students are given the essential tools to understand why and how people need to make more practical and healthy choices in their diet and daily routines. They will work cooperatively in lab groups applying what they have learned in each focused topic. While this course provides personal enrichment, it may also serve as a foundation for further training in health and culinary related fields. Supply fee \$25.00 Prerequisite: Grade of C or better in Introduction to Family and Consumer Sciences or Creative Cooking 1. Open to grades 11 & 12.</p>

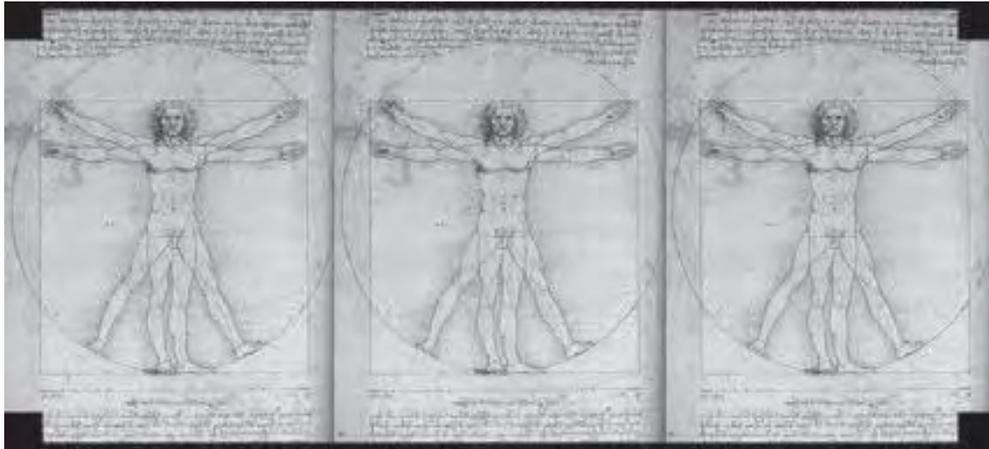

Family & Consumer Sciences

<p>SINGLE SURVIVAL Course # 6441 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed to provide skills to live independently after high school, whether away at college or living on their own. The course covers personal assets, career development, including resume writing, money management, credit, identity theft, nutrition and basic meal prep, insurance, transportation, taxes, getting an apartment and reflection on current topics in society. Supply fee \$5.00 Suggested follow-up course: Personal Perspectives (6591). Prerequisite: None. Open to grades 11 & 12.</p>
<p>PERSONAL PERSPECTIVES Course # 6591 1st or 2nd semester Credit: 0.5</p>	<p>This course, designed to help the student understand the challenges of our society, develops the student's ability to cope with problems and make adult decisions. Areas of study include: theories of personality development, family relationships, crisis in the family (alcoholism, divorce, and death), communication skills, dating, marriage and parenting. Suggested follow-up course: Single Survival (6441). Prerequisite: None. Open to grades 11 & 12.</p>
<p>CREATIVE SEWING Course # 6551 1st or 2nd semester Credit: 0.5</p>	<p>Students will learn to sew for practical purposes and personal enjoyment as they select three or more projects to meet skills requirements. Consecutive projects will increase in degree of difficulty as students use technology to assemble and create unique items. Areas of study include basic sewing machine techniques, fabric and pattern selection, construction techniques and interpreting pattern instructions. Suggested follow-up courses: Creative Sewing Independent Study (6561) or Fashion Merchandising (6571). Supply fee \$10.00 Prerequisite: None. Open to grades 9, 10, 11 & 12.</p>
<p>CREATIVE SEWING INDEPENDENT STUDY Course # 6561 1st or 2nd semester Credit: 0.5</p>	<p>This course focuses on advanced construction techniques on individually selected projects approved by the instructor. Students master the use of a computerized embroidery machine and serger. Areas of study may include textile arts, formalwear, pattern redesigning, fashion design, or other related areas of student interest. This course may be repeated twice, but subsequent projects must continually incorporate new sewing construction skills. Suggested follow-up courses: Fashion Merchandising (6571) or second enrollment in Creative Sewing Independent Study (6561). Supply fee \$10.00 Prerequisite: Creative Sewing. Open to grades 9, 10, 11 & 12.</p>
<p>FASHION MERCHANDISING Course # 6571 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed to allow the student to explore and understand the various facets of today's fashion industry. Areas of study include: evolution of fashion, fashion drawing and design, the role of the fashion buyer, original design collection illustration, advertising and retailing functions. Projects include research on a specific designer, clothing trend studies, visual window display and a fashion show or class business incorporating all the retailing functions studied. While this course serves as a foundation for further training in a fashion related occupation, it also provides an opportunity for personal enrichment. Suggested follow-up course: Creative Sewing (6551). Supply fee \$25.00 Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>ARCHITECTURAL STYLES AND DESIGN Course # 6451 1st or 2nd semester Credit: 0.5</p>	<p>The focus of this course is on preparing students to select, furnish and decorate a residence. Emphasis is on the following: elements and principles of design, color, housing styles, window coverings, sample selection, decorating interiors and computer drafting. Design boards and technology presentations are incorporated in most projects. This course serves as a foundation for careers in architecture and interior design, as well as personal enrichment. Supply fee \$25.00 Prerequisite: None. Open to grades 10, 11 & 12.</p>

Family & Consumer Sciences

<p>CHILD CARE & DEVELOPMENT Course # 6582 2nd semester only Credit: 0.5</p> <p>* Suggested 1st part of teaching sequence to be taken Sophomore or Junior year.</p>	<p>This course prepares the student for parenting or a career in the field of teaching or child-related occupations. Areas of study include family planning, pregnancy and childbirth, child development from infancy through eight years of age, and planning learning activities for an eight-week preschool practicum. Students will teach and observe children in our Discovery Corner Preschool as an integral part of the program. *Suggested follow-up: Invitation to Teach (6481 or 6482).</p> <p>Prerequisite: None. Open to grades 10, 11 & 12. Articulated credit available through College of DuPage.</p>
<p>INVITATION TO TEACH Course # 6481, 6482 1st or 2nd semester Credit 1.0 (one semester two class periods)</p> <p>Students who have previously completed Child Care & Development will be given preferential placement.</p>	<p>This course offers a teaching internship, enabling students to work under the supervision of certified preschool, elementary and middle school staff. Once placed, the students will spend four days each week at their assigned schools to assist, observe and teach young children. Teaching responsibilities include journaling, observing, creating a visual display, facilitating a guest speaker, creating and teaching lessons, and shadowing a teacher for a day. Classroom study is focused on related issues in education including meeting the needs of a diverse student population, classroom management, and technology within the classroom and professional topics in education. Supply fee \$10.00</p> <p>Suggested Prerequisite: Child Care & Development (6581). Open to grade 12 only. *Enrollment based on application, counselor recommendation, and instructor approval (based on academic standing, school attendance and character). Application may be picked up in the Guidance office.</p>

Health Department

Health

<p>HEALTH EDUCATION Course # 7501, 7502 1st or 2nd semester Credit: 0.5 (Included in student's G.P.A.)</p>	<p>The goal of this course is to promote and develop positive attitudes and behaviors related to the overall wellness of Hinsdale Central students. Students are taught how to access valid health information and health-promoting products and services. The students will also learn how to analyze the influence of culture, media, technology and other factors on health. Topics of study within the Health Education program include: Introduction to Wellness, Alcohol, Tobacco and other Drugs, Nutrition and Fitness, Communicable and Non-communicable Diseases, and Human Reproduction. The curriculum is aligned with District 86 program goals, Illinois and National Health Education Standards.</p> <p>REQUIRED FOR GRADUATION. This course should be taken in tandem with Physical Education during the sophomore year.</p>
<p>INTRODUCTION TO SPORTS MEDICINE Course # 7521 1st or 2nd semester Credit: 0.5 (general credit only; not for elective arts. Included in student's G.P.A.)</p>	<p>The goal of this course is to help students become more knowledgeable and proficient in the following areas: principles and practices of athletic training; anatomy, physiology, injury recognition, treatment and rehabilitation as they relate to sports and leisure activities. This course also provides valuable hands-on experience and is highly recommended for those students who are interested in careers in nursing, medicine, athletic training, physical therapy, or coaching.</p> <p>Prerequisite: Successful completion of Health Education or approval of Department Chair. Open to grades 10, 11, & 12.</p>

Reading

Library Media

Research

Technology Foundations

Visual Literacy

The mission of the Library Media Department is to **teach** all of our students to thoughtfully *inquire* about the world around them, efficiently *seek* information which addresses those inquiries, critically *evaluate* the quality of that information, capably *apply* the knowledge acquired to new problems, questions, or ideas, and objectively *assess* the work they produce as a result of the research process. **Collaborate** with other teachers to design and implement lessons and assessments which challenge our students to become effective users of ideas and information, perhaps the single most important 21st Century skill. **Provide leadership, instruction, and expertise** in the use of information and technology that encourages creative problem solving and ethical, socially responsible sharing of information. **Provide access** to a variety of quality resources which support the curriculum and meet the diverse needs and interests of our school community in a vibrant learning environment equipped for the demands of 21st Century teaching and learning. **Promote life-long learning** through programming which encourages reading, inquiry, and the use of technology to meet learning goals.

The following course is offered through the Library Media Department:

Library Media, continued

DIGITAL VIDEO PRODUCTION

Course # 9201

1st or 2nd semester

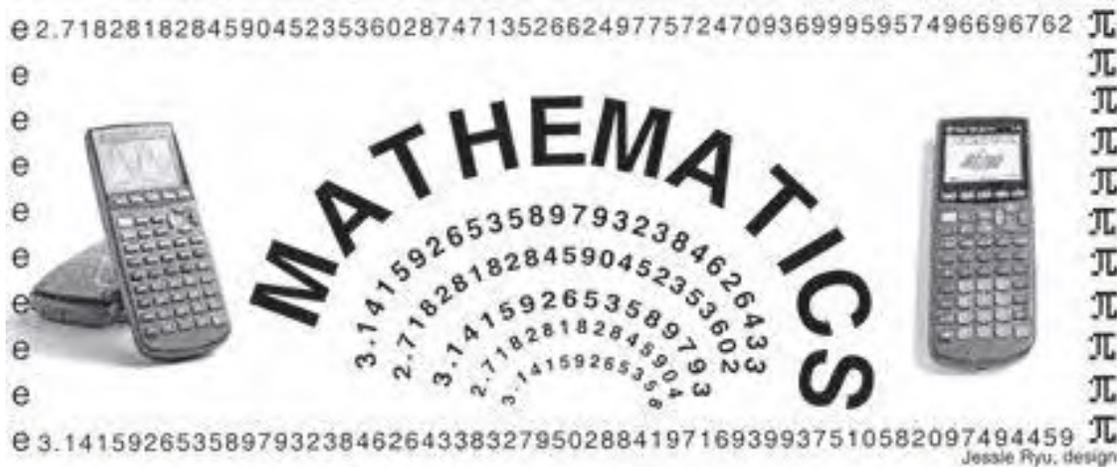

Credit: 0.5

This course is designed to provide students with the skills needed for a career in the technical and artistic aspects of media production. Instruction will include the study and analysis of media and television and their effects on society. Instruction will include camera operations, basic audio and video editing, sound and lighting techniques and audio mixing. Students will learn to operate video and DVD recording equipment, video/digital cameras, microphones, lighting/grip equipment and other production equipment used in the video and audio production of media.

Students will work in a **team-based** environment to create a variety of video and audio productions. Instruction will include single and multi-camera operation, advanced video editing, pre-production, production, and post production Within each of these projects you will be learning different techniques of the camera, software and sound engineering. As you move along then your skills and knowledge will increase with each project:

1. Silent Movie
2. Public Service Announcement
3. Movie Trailer
4. Interview/Documentary
5. Commercial/Infomercial
6. Music Video
7. Live Event Coverage
8. Comedy/Drama Screenplay interpretation
9. Narrative Format of Storytelling

Prerequisite: None. Open to grades 10, 11 & 12. Course may be repeated with permission of Department Chair.

Three credits in mathematics are required for graduation.

Credit must be earned in both semesters of a full year course before advancing to the next course in the sequence.

Any student who earns a D in a mathematics course is strongly recommended to retake one or both semesters in summer school before attempting the next course in the sequence. The deficiencies indicated by the D grade will make success in the next course in the sequence very difficult. Successful completion of Algebra and Geometry in any sequence and enrollment in Alg 2 Trig.G, Alg2 Trig, or Alg2 Trig H during or before junior year is ideal preparation for college standardized testing.

Typical sequences are shown below:

Freshman	Sophomore	Junior	Seniors
Algebra 2 Trigonometry Honors	Pre-Calculus Honors	AP Calculus (BC)	AP Statistics and/or Math Topics
Integrated Algebra and Geometry Honors	Algebra 2 Trigonometry Honors	Pre-Calculus Honors	AP Calculus (BC) and/or AP Statistics
Geometry Honors	Algebra 2 Trigonometry Honors	Pre-Calculus Honors and/or AP Statistics	AP Calculus (BC) and/or AP Statistics
Geometry	Algebra 2 Trigonometry	Pre-Calculus	AP Calculus (AB) and/or AP Statistics
Geometry	Algebra 2 Trigonometry	Pre-Calculus	Introduction to Statistics and/or Math Analysis
Algebra 1	Geometry	Algebra 2 Trigonometry	Introduction to Statistics and/or Math Analysis
Foundations of Algebra and Geometry	Algebra 1G (Sem1) and Geometry G (Sem2)	Algebra 2 Trigonometry G	Introduction to Statistics and/or Math Analysis
Foundations of Algebra and Geometry	Algebra 1G	Geometry G	Algebra 2 Trigonometry G
Applied Fundamentals of Mathematics	Foundations of Algebra and Geometry	Algebra 1G	Geometry G

Mathematics Department

COURSE TITLE	Course #	Prerequisite	Credit	Grade Offered

Mathematics Department

<p>APPLIED FUNDAMENTALS OF MATHEMATICS <i>Course # 3050</i> Full year Credit: 1.0</p>	<p>This course covers a variety of practical topics such as basic probability, creating and interpreting graphs, formulas, fractions, percent, measurement, perimeter, basic geometry, consumer skills, and basic algebra. A scientific calculator with fraction capabilities is required. Prerequisite: Recommendation of previous teacher and departmental approval. Next course in sequence: Foundations of Algebra and Geometry. Open to grades 9, 10, 11 & 12.</p>
<p>FOUNDATIONS OF ALGEBRA AND GEOMETRY <i>Course # 3090</i> Full year Credit: 1.0</p>	<p>This course introduces important topics in Algebra and Geometry. Algebra topics include expressions, equations, inequalities and linear functions. Geometry topics include lines, segments, angles, triangles, perimeter, area and volume. This course is appropriate for students with reasonable facility with arithmetic operations and average grades in mathematics. A graphing calculator is required. This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Recommendation of previous teacher and departmental approval. Next course in sequence: Algebra 1 General Open to grades 9, 10, 11 & 12.</p>
<p>ALGEBRA 1 GENERAL <i>Course # 3100</i> Full year Credit: 1.0</p>	<p>This course continues the important topics in Algebra. Topics include exponents, systems of equations, inequalities, linear and quadratic functions, polynomial expressions, probability, and statistics. A graphing calculator is required. This course fulfills the ISBE graduation requirement for Algebra 1. Prerequisite: Foundations of Algebra and Geometry and department approval. Next course in sequence: Geometry General Open to grades 10, 11 & 12.</p>
<p>ALGEBRA 1 GENERAL BLOCK <i>Course # 3141</i> 1st Semester Credit: 1.0</p>	<p>This course has the same core curriculum as #3100, but is taught in a single semester, two periods daily. Prerequisite: Foundations of Algebra and Geometry and teacher recommendation. Open to grades 10 & 11.</p>
<p>ALGEBRA 1 <i>Course # 3110</i> Full year Credit: 1.0</p>	<p>This course focuses on fundamental properties of the real numbers. Linear and quadratic equations are emphasized. Rational expressions and equations are introduced. Real world applications are explored. Algebra 1 is recommended for grade 9 students who have achieved a strong facility with arithmetic operations and above average grades in mathematics or for those students whose Algebra skills need strengthening. A graphing calculator with matrix capabilities is required in this course. This course fulfills the ISBE graduation requirement for Algebra 1. Prerequisite: 8th grade teacher recommendation or Departmental approval. Next course in sequence: Geometry. Open to grades 9, 10, 11 & 12.</p>
<p>GEOMETRY GENERAL <i>Course # 3200</i> Full year Credit: 1.0</p>	<p>Geometry General uses an intuitive approach to study the fundamental concepts in Geometry. Although deductive reasoning is practiced, much less emphasis is placed on writing formal proofs. Students experience geometric concepts through frequent constructions, hands on activities, and interactive geometry software. Some students from 3110 Algebra may be advised to take this course. A scientific calculator is required in this course. This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Algebra 1 General or Algebra 1 and Departmental approval. Next course in sequence: Algebra 2-Trigonometry-General based upon teacher recommendation. Open to grades 10, 11 & 12.</p>

Mathematics Department

<p>GEOMETRY GENERAL BLOCK <i>Course # 3232</i> 2nd semester Credit: 1.0</p>	<p>This course has the same core curriculum as #3200, but is taught in a single semester, two periods daily. Prerequisite: Algebra 1 General and teacher recommendation. Open to grades 10 & 11.</p>
<p>GEOMETRY <i>Course # 3210</i> Full year Credit: 1.0</p>	<p>Geometry focuses on proof and fundamental concepts of plane geometry with some informal three-dimensional considerations. Properties of lines, angles, triangles, quadrilaterals and circles are studied. Special attention is given to concepts of congruence, perpendicularity, parallelism, area, similarity, coordinate geometry, logic and deductive reasoning. A scientific calculator is required in this course. This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Algebra 1 and Departmental approval. (Entering freshman who have had Algebra in 8th grade must also have a strong teacher recommendation.) Next course in sequence: Algebra 2-Trigonometry. Open to grades 9, 10, 11 & 12.</p>
<p>GEOMETRY HONORS <i>Course # 3220</i> Full year Credit: 1.0</p>	<p>This honors course provides an in-depth study of all the topics of plane Euclidean geometry including three-dimensional geometry. Particular attention will be given to the nature of a mathematical system, logic and proof. Students are expected to exercise their creative capacities, and apply their knowledge to different situations. Recommended for students who have a high interest in mathematics and have achieved, without undue stress, an A average in Algebra. A scientific calculator is required in this course. This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Algebra 1 and Departmental approval. (Entering freshmen who have had Algebra in 8th grade must also have a strong teacher recommendation.) Next course in sequence: Algebra 2 Trigonometry Honors or Algebra 2/Trigonometry, based on teacher recommendation. Open to grades 9, 10, 11 & 12.</p>
<p>INTEGRATED ALGEBRA AND GEOMETRY HONORS <i>Course # 3280</i> Full year Credit: 1.0</p>	<p>This honors course reviews important concepts in Algebra 1 and Geometry. Topics will be explored in greater depth than the introductory courses, and additional new topics will be presented. Students who are successful in this course should be well prepared for a sequence of Algebra2/Trigonometry H, Pre-calculus H, and an AP course on Calculus and/or Statistics. Prerequisite: Algebra 1, Geometry, and 8th grade teacher recommendation. Next course in sequence: Algebra 2/Trigonometry or Algebra 2/Trigonometry Honors. Open to grade 9.</p>
<p>ALGEBRA 2 TRIGONOMETRY GENERAL <i>Course # 3300</i> Full year Credit: 1.0</p>	<p>The basic material for this course, described under 3310 Algebra 2-Trigonometry, is recommended for students from Geometry - General. Some students from 3210 Geometry may be advised to take this course. A graphing calculator with matrix capabilities is required in this course. Prerequisite: Geometry General or Geometry and Departmental approval. Open to grades 11 & 12.</p>
<p>ALGEBRA 2 TRIGONOMETRY <i>Course # 3310</i> Full year Credit: 1.0</p>	<p>Algebra 2 Trigonometry expands the material studied in Algebra and Geometry, emphasizing real-world applications and associated graphical analysis. The complex number system is studied. Linear, quadratic, exponential, logarithmic, polynomial, rational and trigonometric functions are explored. Transformations and inverses of functions are introduced. This course is recommended for students with a grade average of C or better in Algebra and Geometry who desire a third year of college preparatory mathematics. A graphing calculator with matrix capabilities is required in this course. Prerequisite: Geometry. Next course in sequence: Math Analysis and Introduction to Statistics or Pre-Calculus. Open to grades 10, 11 & 12.</p>

Mathematics Department

<p>ALGEBRA 2 TRIGONOMETRY HONORS <i>Course # 3320</i> Full year Credit: 1.0</p>	<p>This honors course provides a more in-depth study of the topics described above in Algebra 2 Trigonometry, as well as circular functions, conics, and probability. Students are expected to be capable of creative problem solving and individual study. This course is recommended for students who have a high interest in mathematics, with no less than a B+ average in previous mathematics courses. A graphing calculator with matrix capabilities is required in this course.</p> <p>Prerequisite: Geometry Honors and departmental approval. Next course in sequence: Pre-Calculus Honors or Pre-Calculus, based on teacher recommendation. Open to grades 9, 10, 11 & 12.</p>
<p>INTRODUCTION TO WEB PROGRAMMING <i>Course # 3351</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course focuses on the creation of World Wide Web documents using the HTML and JavaScript languages. Students are expected to spend laboratory time outside of class working on their projects. Introductory programming concepts will be presented using JavaScript in order to create more dynamic, self-modifying web pages. Internet access at home is recommended.</p> <p>Prerequisite: Algebra 1 or Departmental approval. Open to grades 9, 10, 11 & 12.</p>
<p>ADVANCED WEB PROGRAMMING <i>Course # 3372</i> 2nd semester Credit: 0.5</p>	<p>This course is a continuation of Introduction to Web Programming. The course will include programming to the web server setting, cascading style sheets and animation.</p> <p>Prerequisite: Introduction to Web Programming and Departmental approval. Open to grades 9, 10, 11 & 12.</p>
<p>MATH ANALYSIS <i>Course # 3403</i> 2nd semester Credit: 0.5</p>	<p>This course focuses on important topics in mathematical modeling. Topics include algorithms, matrices, graphs, and counting, with applications such as elections, fair division, population growth, scheduling, conflict resolution, routing, and game theory. A graphing calculator with matrix capabilities is required.</p> <p>Prerequisite: Algebra 2/Trigonometry General or Algebra 2/Trigonometry and Department approval. Open to grades 11&12.</p>
<p>INTRODUCTION TO STATISTICS <i>Course # 3431/3432</i> 1st Semester/Full year Credit: 0.5/1.0</p>	<p>This course focuses on important topics in statistics. Topics covered in the first semester include statistical plots, statistical summaries of data, regression, probability, normal distributions, and sampling methods. The yearlong course will cover additional topics including hypothesis testing and confidence intervals of population means and proportions, and inference for the slope of the regression line. A graphing calculator with advanced statistical commands is required.</p> <p>Prerequisite for #3431: Algebra 2/Trigonometry General or Algebra 2/Trigonometry and department approval. Prerequisite for #3432: Algebra 2/Trigonometry and successful completion of #3431. Next course in sequence: AP Statistics or Math Analysis upon teacher recommendation. Open to grades 11 & 12.</p>

Mathematics Department

<p>PRE-CALCULUS <i>Course # 3410</i> Full year Credit: 1.0</p>	<p>This course expands on the material studied in Algebra 2 Trigonometry. These areas of study include: real and complex numbers and functions (polynomial, exponential, logarithmic and trigonometric). Additional areas of study are conics, notions of limits, continuity, circular functions, mathematics of finance, parametric equations, and polar coordinates. It is recommended for students who are preparing to enter a technical or semi-technical profession, or planning to study Calculus. A graphing calculator with matrix capabilities is required in this course. Prerequisite: Algebra 2 Trigonometry or Algebra 2 Trigonometry Honors and Departmental approval. Next course in sequence: AP Calculus or AP Statistics. Open to grades 10, 11 & 12.</p>
<p>PRE-CALCULUS HONORS <i>Course # 3420</i> Full year Credit: 1.0</p>	<p>This honors course provides a more in-depth study of the topics covered in Pre-Calculus with greater emphasis of both theory and applications. Additional topics include curve fitting and physics applications. A graphing calculator with matrix capabilities is required in this course. Prerequisite: Algebra 2 Trigonometry Honors and Departmental approval. Next course in sequence: Upon satisfactory completion of Pre-Calculus Honors, the students are prepared for a serious course in Calculus. Open to grades 9, 10, 11 & 12.</p>
<p>ADVANCED PLACEMENT COMPUTER SCIENCE A <i>Course # 3480</i> Full year Credit: 1.0</p>	<p>A.P. Computer Science A is intended for those students whose work in college will involve the theory of computing and data structures. Programming methodology and design, pre-defined and abstract data types, data structures (arrays, stacks, queues) and algorithms related to those data structures will be emphasized. Applications of computing, a working knowledge of hardware and software systems, as well as the ethical and social implications of computing are considered. The programming language used is JAVA. Students will need to spend laboratory time outside of class working on their projects. Prerequisite: Algebra 2 Trigonometry and Departmental approval. Open to grades 11 & 12.</p>
<p>ADVANCED PLACEMENT STATISTICS <i>Course # 3500</i> Full year Credit: 1.0</p>	<p>Advanced Placement Statistics will introduce students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. It will emphasize sound statistical thinking rather than routine procedures. This course is intended to be equivalent to an introductory non-calculus based college course in statistics. Students will do a significant amount of reading and independent projects. A graphing calculator with advanced statistics capabilities is required in this course. Prerequisite: Algebra 2 Trigonometry Honors, Pre-Calculus, or Pre-Calculus Honors and Departmental approval. Open to grades 10, 11 & 12.</p>
<p>ADVANCED PLACEMENT CALCULUS (AB) <i>Course # 3510</i> Full year Credit: 1.0</p>	<p>Advanced Placement Calculus (AB) emphasizes conceptual understandings through manual and technological applications of the derivatives and integrals of algebraic, trigonometric, exponential and logarithmic functions, and relations. This course prepares the student for the AB level Advanced Placement Examination. Satisfactory performance on this examination gives the student an opportunity to qualify for college credit in calculus. A graphing calculator meeting the College Board's optimal technology expectation for the AP Calculus exam is required in this course. Prerequisite: Pre-Calculus or Pre-Calculus Honors and Departmental approval. Open to grades 10, 11 & 12.</p>

Mathematics Department

<p>ADVANCED PLACEMENT CALCULUS (BC) <i>Course # 3520</i> Full year Credit: 1.0</p>	<p>Advanced Placement Calculus (BC) provides an in-depth study of the topics described in Calculus (AB), as well as two dimensional vectors, polar coordinates, parametric curves and series. This course prepares the student for the BC level Advanced Placement examination. Satisfactory performance on this examination gives the student an opportunity to qualify for college credit in calculus. A graphing calculator meeting the College Board's optimal technology expectation for the AP Calculus Exam is required in this course.</p> <p>Prerequisite: Pre-Calculus or Pre-Calculus Honors and Departmental approval. Open to grades 10, 11 & 12.</p>
<p>COMPUTER SCIENCE TOPICS 1 Honors <i>Course # 3611</i> 1st semester Credit: 0.5</p>	<p>Computer Science Topics 1 provides students advanced study in computer science beyond AP. Each semester students will work on advanced computer programming techniques and languages.</p> <p>Prerequisite: AP Computer Science and Department approval Open to grades 11&12.</p>
<p>COMPUTER SCIENCE TOPICS 2 Honors <i>Course # 3622</i> 2nd semester Credit: 0.5</p>	<p>Computer Science Topics 2 provides students advanced study in computer science beyond AP. Each semester students will work on advanced computer programming techniques and languages.</p> <p>Prerequisite: AP Computer Science and Department approval. Open to grades 11&12.</p>
<p>MATH TOPICS 1 Honors <i>Course # 3641</i> 1st semester only Credit: 0.5</p>	<p>Math Topics 1 provides students advanced study in mathematics. Determined by the department, a student will be introduced to Linear Algebra, Multivariable Calculus, or Calculus-based Statistics.</p> <p>Prerequisite: Departmental approval. Open to grade 12.</p>
<p>MATH TOPICS 2 Honors <i>Course # 3652</i> 2nd semester only Credit: 0.5</p>	<p>Math Topics 2 provides students with advanced study in mathematics. Determined by the department, a student will be introduced to Linear Algebra, Differential Equations, or Calculus-based Statistics.</p> <p>Prerequisite: Departmental approval. Open to grade 12.</p>

All courses in the Music Department fulfill the Elective Arts graduation requirement. Two fine arts credits fulfill the Illinois state public university entrance requirements in Art, Music or Foreign Language. Music performance courses are designed to not only improve the level of performance skill of the student, but also to develop a deeper understanding of culture and aesthetics.

All music performance courses include performances outside the school day as a significant part of student expectations. Lists of performances and any outside rehearsals will be provided at the beginning of the school year. Auditing of music courses (participation for no credit) is not permitted.

IMPORTANT INFORMATION FOR INCOMING FRESHMEN AND THEIR PARENTS:

The following courses are available for freshmen enrollment and do not require an audition:

- Concert Orchestra (5680): violin, viola, cello and string bass players only
- Concert Band (5640): flute, oboe, all clarinets, bassoon, all saxophones, trumpet or cornet, French horn, trombone, baritone or euphonium, and tuba
- Concert Percussion (5710): drum set players, keyboardists, bass players and percussionists
- Jazz Lab (5650): open to all instruments and voice types
- Treble Choir (5800): female vocalists
- Men's Choir (5801): male vocalists

The courses below are open to freshmen by audition. Contact Mr. Kurinsky at mkurinsk@hinsdale86.org for audition information.

- Symphonic Band (5641): flute, oboe, all clarinets, bassoon, all saxophones, trumpet or cornet, French horn, trombone, baritone or euphonium, and tuba
- Wind Ensemble (5646): flute, oboe, all clarinets, bassoon, all saxophones, trumpet or cornet, French horn, trombone, baritone or euphonium, tuba, and percussion
- Symphonic Percussion (5711): drum set players, keyboardists, and percussionists
- Jazz Band (5660): all saxophones, trombone, trumpet, keyboard, guitar, bass, and drum set
- Jazz Ensemble (5670): all saxophones, trombone, trumpet, keyboard, guitar, bass, and drum set

Music Department

The following courses are available for upperclassmen and require an audition with the instructor:

- Women's Chorale (5810), Hinsdale Central Singers (5840), Chamber Choir (5850), audition with Mrs. Burkemper in Room 169, 630-570-8452, email jburkemp@hinsdale86.org
- Symphony Orchestra (5690): audition with Mr. Wirtz, Room 163, 630-570-8453, email jwirtz@hinsdale86.org
Symphonic Band (5641), Symphonic Percussion (5711), Wind Ensemble (5646), Jazz Band (5660), Jazz Ensemble (5670): audition with Mr. Kurinsky. Email mkurinsk@hinsdale86.org for audition information.

Music Department

<p>HONORS STUDY IN MUSIC</p>	<p>Students have the opportunity to qualify for honors study in music performance courses. There are several ways that you can become eligible.</p> <p>Strings Players may, through auditions in September, be selected for the Honors Chamber Orchestra. This is a select ensemble of advanced string players who rehearse every other morning as an Early Bird class. Concurrent registration in Concert Orchestra or Symphony Orchestra is required.</p> <p>Wind and Percussion Players may, through auditions in September, be selected for Honors Orchestra Winds and Percussion. This is a select ensemble of advanced wind and percussion players who will rehearse every other day as an Early Bird class. These players make up the Symphony Orchestra Wind and Percussion sections. Concurrent registration in a band class is required</p> <p>All students in music courses will have the option for earning honors credit:</p> <p>Each student will be required to participate in several activities during the school year that will enhance musical experiences, and abilities. Please see each instructor for more details. To become eligible for honors credit, each candidate will be selected by audition in September, by the department instructors. Audition materials, and information may be obtained from the department instructors.</p>
<p>ORCHESTRA</p>	
<p>CONCERT ORCHESTRA <i>Course # 5680</i> Full year Credit: 1.0</p>	<p>This class will develop the basic techniques involved in playing a stringed instrument and perform concerts with students in band classes. Music from the standard repertoire of orchestral music will be studied.</p> <p>Prerequisite: Director approval. Open to grade 9. This course may be repeated for credit.</p>
<p>SYMPHONY ORCHESTRA <i>Course # 5690</i> Full year Credit: 1.0</p>	<p>A class for higher level development of string instrument techniques and the study of appropriate music. This class combines with the Honors Orchestra Winds and Percussion to perform Music from the standard repertoire of orchestral music. Honors credit is available for this course. An audition is required.</p> <p>Prerequisite: Audition & director approval. Open to grades 10, 11 & 12. This course may be repeated for credit.</p>
<p>CHOIR</p>	
<p>TREBLE CHOIR <i>Course # 5800</i> Full year Credit: 1.0</p>	<p>Teaches and examines basic vocal techniques, practice and performance of choral music, sight singing and theory. A variety of choral music will be practiced and performed. Honors credit is available for this course. =</p> <p>Prerequisite: None. Open to all ninth grade females and to all other grade levels who have not participated in vocal music at school before.</p>
<p>MEN'S CHOIR <i>Course # 5801</i> Full year Credit: 1.0</p>	<p>Teaches and examines basic vocal techniques, practice and performance of choral music, sight singing and theory. A variety of choral music will be practiced and performed. Honors credit is available for this course.</p> <p>Prerequisite: None. Open to all ninth grade males and to all other grade levels who have not participated in vocal music at school before.</p>

Music Department

CHOIR, continued

WOMEN'S CHORALE <i>Course # 5810</i> Full year Credit: 1.0	Level two of vocal techniques focused on the female voice. A variety of women's choral literature is practiced and performed. Advanced study of sight singing and theory. Honors credit is available for this course. An audition is required. Prerequisite: Director approval. Open to grades 10-12. This course may be repeated for credit.
HINSDALE CENTRAL SINGERS <i>Course # 5840</i> Full year Credit: 1.0	An advanced level of vocal technique, sight singing and theory. This advanced choral group practices and performs a variety of music. Extra performances or rehearsals may be scheduled. Honors credit is available for this course. An audition is required. Prerequisite: Director approval. Open to grades 10, 11 and 12. This course may be repeated for credit.
CHAMBER CHOIR <i>Course # 5850</i> Full year Credit: 1.0	An advanced group with a high level of musicianship, vocal technique, sight singing and theory skills. A large variety of musical styles will be practiced and performed. This ensemble performs frequently outside of the school day for community events. Honors credit is available for this course. An audition is required. Prerequisite: Audition and director approval. Open to grades 11 and 12. This course may be repeated for credit.

BAND

INFORMATION ABOUT ALL BAND CLASSES

Students enrolled in the Hinsdale Central High School Bands perform at home games, local parades, pep rallies, formal concerts, and other community events. Band classes improve musicianship, develop technique, and provide performance opportunities featuring a variety of musical styles and ensemble settings. Every band course is an academic class that meets during a class period and also requires occasional rehearsals and performances outside the school day; however, students are encouraged to participate in other academic classes, athletics, and activities. Opportunities for student leadership, overnight travel, and extracurricular performing are available. All band classes can be repeated each year for credit and are open to students in every grade. Every band student performs as part of the Pep Band and the Red Devil Marching Band, which allows sophomores, juniors, and seniors to exempt out of Physical Education during first semester. Students must be enrolled in one of the five band classes to participate in jazz classes, orchestra wind and percussion sections, and other extracurricular band activities. The band web page, www.hcbands.org, has the most current information about the band program, auditions, and honors credit requirements, and questions may be emailed to the band director, Mr. Matt Kurinsky, at mkurinsk@hinsdale86.org.

CONCERT BAND <i>Course # 5640</i> Full year Credit: 1.0 NO PERCUSSIONISTS	The Concert Band is open to all flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, baritone, and tuba players without an audition and is open to beginners in addition to experienced performers. Students will study the basics of wind instrument performance, music reading, and music theory. See the Information for All Band Students on page 56 for more details. Prerequisite: none
SYMPHONIC BAND <i>Course # 5641</i> Full year Credit: 1.0	The Symphonic Band is an auditioned concert band made up of flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, baritone, and tuba players. This class develops a more advanced level of wind instrument performance and requires students to have a good understanding of music reading and music theory. See the Information for All Band Students on page 56 for more details. Prerequisite: audition

Music Department

BAND, continued

<p>WIND ENSEMBLE H <i>Course # 5646</i> Full year Credit: 1.0</p>	<p>The Wind Ensemble is an auditioned, highly selective, concert band made up of a limited number of flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, baritone, tuba, and percussion players. Enrolled students must be proficient at reading and performing music and must meet honors credit requirements. Students will frequently perform the most advanced standards and the latest compositions of contemporary wind band literature. See the Information for All Band Students on page 56 for more details. Prerequisite: audition</p>
<p>CONCERT PERCUSSION <i>Course # 5710</i> Full year Credit: 1.0</p>	<p>The Concert Percussion Ensemble is an entry level class for students interested in performing band music on percussion instruments, drum set, and bass guitar. In addition to performing as a percussion ensemble, students will also prepare standard band literature to perform with the wind players in other band classes. Enrolled students will learn the basics of music reading and percussion technique. See the Information for All Band Students on page 56 for more details. Prerequisite: none</p>
<p>SYMPHONIC PERCUSSION <i>Course # 5711</i> Full year Credit: 1.0</p>	<p>The Symphonic Percussion Ensemble is an auditioned class only for percussion and drum set players. In addition to performing as a percussion ensemble, students will also prepare standard band literature to perform with the wind players in other band classes. Enrolled students must be able to read music and have a good understanding of percussion technique. See the Information for All Band Students on page 56 for more details. Prerequisite: audition</p>
<p>JAZZ LAB <i>Course # 5650</i> Full year Credit: 0.5</p>	<p>The Jazz Lab is an entry level class for instrumental and vocal music students interested in performing contemporary music in a variety of styles while developing improvisation skills. Students may be grouped into ensembles according to ability and instrumentation. See the Information for All Band Students on page 56 for more details. Prerequisite: concurrent registration in a performance music class</p>
<p>JAZZ BAND <i>Course # 5660</i> Full year Credit: 0.5</p>	<p>The Jazz Band is an auditioned traditional big band made up of saxophone, trombone, trumpet, piano, bass, guitar, and drum set players. Students enrolled in this class study jazz performance in a variety of styles. The class develops an understanding of scale and chord theory and encourages improvisation. This class meets every other day during the —Eagles Bird” Period 0. See the Information for All Band Students on page 56 for more details. Prerequisites: audition and concurrent registration in a band class (exceptions made for non-band instruments)</p>
<p>JAZZ ENSEMBLE <i>Course # 5670</i> Full year Credit: 0.5</p>	<p>The Jazz Ensemble is the top auditioned traditional big band made up of saxophone, trombone, trumpet, piano, bass, guitar, and drum set players. Students enrolled in this class study jazz performance in a variety of styles and frequently perform. Enrolled students should have a good understanding of scale and chord theory and must be comfortable practicing improvisation. This class meets every other day during the —Eagles Bird” Period 0. Students may also enroll in Honors Orchestra Winds and Percussion. See the Information for All Band Students on page 56 for more details. Prerequisites: audition and concurrent registration in a band class (exceptions made for non-band instruments)</p>

Music Department

MUSIC THEORY

AP MUSIC THEORY

Course # 5900

Full year

Credit: 1.0

AP Music Theory prepares music students for the Music Theory Advanced Placement Examination through the study of musical elements and techniques including notation, scales and modes, intervals, chords, non-harmonic tones, cadences, ear training, sight singing, melody, form, and composition. Success on the AP Exam can result in college credit. All prospective students must be recommended to Mr. Kurinsky by their music director or private lesson instructor.

Prerequisite: Director approval. Open to grades 10, 11 and 12.

Further information can be found at the following websites:

www.hcbands.org

www.hcmusic.org

www.hcjazz.org

All students must take physical education or health each semester in attendance. Four (4) credits of Physical Education/Health are required for graduation. Health is a required semester course to be taken during the 10th grade year. Students have an option of also enrolling in Physical Education during that semester for an additional 0.5 credit. A student earns 1/2 credit for each semester of passing work in Physical Education. Students who fail Physical Education must make up the credit by enrolling in an equivalent course at another approved institution. Students will not be allowed to enroll in more than one period of required Physical Education per semester. Students are expected to attend class daily, dress in the standard uniform and participate to their ability.

Physical education is the science of human movement and the courses are designed to provide instruction and insight into healthy physical activities. All Physical Education offerings are designed to promote good health, safety, fitness, awareness of the value of recreation, and an appreciation of all forms of physical expression.

Students must register for Physical Education **EACH** semester. *

GRADE	SEMESTER 1	SEMESTER 2
9	7113	7114

Freshman: basketball, track and field, softball, soccer, square dance, volleyball, badminton, fitness concepts, team building, football, tennis, gymnastics, swimming, group exercise, wrestling and modern dance.

10/11/12

Students are to enroll in one option each semester

*Sophomores may exercise their option of taking **Health Education and only one semester of Physical Education** by registering for the following courses: **P.E. option/Health 7502 or Health 7501/PE option.**

Sophomore, Junior and Senior: Select one activity from each semester

Physical Education

<p>AQUATICS Course # 7305 1st semester Credit: 0.5</p>	<p>Includes sports and activities designed for the aquatic environment. Included are the development of skills in springboard diving, analysis of the four competitive swimming strokes, as well as starts and turns. Water safety habits, basic lifeguarding skills, water aerobics, dryland exercises, and weight training specific to aquatic activity will also be introduced. Recommended for prospective triathletes and swimmers. (May be repeated.)</p>		
<p>COMPETITIVE PHYSICAL CONDITIONING Course # 7306 1st semester Credit: 0.5</p>	<p>A strong emphasis on core training, general strength, stability and explosive power. Recommended for any person wishing to improve overall competitive effectiveness.</p>		
<p>AEROBICS Course # 7307 1st semester Credit: 0.5</p>	<p>This class introduces students to components of cardiovascular activity through aerobic movements. Students will also address the principles of muscular strength and endurance through the use of free weights and toning exercises. Core workouts, yoga and pilates are introduced as part of this class as methods for students to increase flexibility, strength and balance. (May be repeated)</p>		
<p>PERSONAL FITNESS (Fitness Center) Course # 7308 1st semester Credit: 0.5</p>	<p>Variable course content. Each student develops and executes an individualized conditioning program designed to address the individual's personal fitness goals. Teacher developed plans are also acceptable. Principles and skills relating to cardiovascular endurance, muscular strength, muscular endurance, flexibility and body composition. Equipment orientation includes Stairmaster, rowing machines, stationary bikes, ellipticals, proper weight training selection and form, circuit training. Individual fitness assessment (May be repeated.)</p>		
<p>COMPREHENSIVE WEIGHT TRAINING (Bouchard Center) Course # 7309 1st semester Credit: 0.5</p>	<p>Gain knowledge and understanding of weight training theory, advanced weight training practices, sport specific weight training techniques and proper nutritional practices. Initiate and develop weight training programs. Improve muscular strength and endurance. (May be repeated.)</p>		
<p>LIFEGUARD/CPR/First Aid Course # 7310 1st semester Credit: 0.5</p>	<p>Meets American Red Cross Lifesaving Certification, Cardiopulmonary Resuscitation Certification and Standard First Aid Certification. Students must be able to swim 500 yds. non-stop to enroll. No student may use a P.E exemptions in this class and receive Red Cross certification or recertification.</p>		
<p>Fitness Integrated Through Sports (F.I.T.S.) Course # 7311, 7312, 7313 1st semester Credit: 0.5</p>	<p>Includes sports and activities for lifelong participation. Instruction provided in basic skill, rules, strategies, and social behavior necessary to achieve competent level of participation, practice, game situations and tournament play. In addition, students will be introduced to fitness components such as cardiovascular endurance, muscular strength, muscular endurance and flexibility. Select one of the following options. Please note: F.I.T.S. CC is designated for those who desire a competitive atmosphere.</p>		
<p>7311 F.I.T.S. (ICR) (Individual Concept Recreational):</p> <p>7312 F.I.T.S. (CC) (Competitive Concept):</p> <p>7313 F.I.T.S. (TCR) (Team Concept Recreational):</p>	<p>Run for Fun Orienteering Aquatics</p> <p>Volleyball Ultimate Frisbee Aquatic Games</p> <p>Volleyball Basketball Fitness Testing</p>	<p>Tennis Archery Fitness Testing</p> <p>Football/Navy Outdoor Hockey Soccer</p> <p>Square Dance Softball</p>	<p>Roller blading Badminton Frisbee Golf</p> <p>Team Handball Flicker Ball Fitness Testing</p> <p>Ultimate Frisbee Soccer Football</p>

Physical Education

AQUATICS <i>Course # 7320</i> 2nd semester Credit: 0.5	Includes sports and activities designed for the aquatic environment. Included are the development of skills in springboard diving, analysis of the four competitive swimming strokes, as well as starts and turns. Water safety habits, basic lifeguarding skills, water aerobics, dryland exercises, and weight training specific to aquatic activity will also be introduced. Recommended for prospective triathletes and swimmers. (May be repeated.)			
COMPETITIVE PHYSICAL CONDITIONING <i>Course # 7321</i> 2nd semester Credit: 0.5	A strong emphasis on core training, general strength, stability and explosive power. Recommended for any person wishing to improve overall competitive effectiveness.			
AEROBICS <i>Course # 7322</i> 2nd semester Credit: 0.5	This class introduces students to components of cardiovascular activity through aerobic movements. Students will also address the principles of muscular strength and endurance through the use of free weights and toning exercises. Core workouts, yoga and pilates are introduced as part of this class as methods for students to increase flexibility, strength and balance. (May be repeated)			
PERSONAL FITNESS (Fitness Center) <i>Course # 7323</i> 2nd semester Credit: 0.5	Variable course content. Each student develops and executes an individualized conditioning program designed to address the individual's personal fitness goals. Teacher developed plans are also acceptable. Principles and skills relating to cardiovascular endurance, muscular endurance, muscular strength, flexibility and body composition. Equipment orientation includes Stairmaster, rowing machines, stationary bikes, ellipticals, proper weight training selection and form, circuit training. Individual fitness assessment (May be repeated.)			
COMPREHENSIVE WEIGHT TRAINING (Bouchard Center) <i>Course # 7324</i> 2nd semester Credit: 0.5	Gain knowledge and understanding of weight training theory, advanced weight training practices, sport specific weight training techniques and proper nutritional practices. Initiate and develop weight training programs. Improve muscular strength and endurance. (May be repeated.)			
LIFEGUARDING/CPR/FIRST AID <i>Course # 7325</i> 2nd semester Credit: 0.5	Meets American Red Cross Lifesaving Certification, Cardiopulmonary Resuscitation Certification and Standard First Aid Certification. Students must be able to swim 500 yds. non-stop to enroll. No student may use a P.E. exemption in this class and receive Red Cross certification or recertification.			
Fitness Integrated Through Sports (F.I.T.S.) <i>Course # 7326,7327,7328</i> 2nd semester Credit: 0.5	Includes sports and activities for lifelong participation. Instruction provided in basic skill, rules, strategies, and social behavior necessary to achieve competent level of participation, practice, game situations and tournament play. In addition, students will be introduced to fitness components such as cardio-vascular endurance, muscular strength, muscular endurance and flexibility. Select one of the following options. (May be repeated.)Please note: F.I.T.S. (CC) is designated for those who desire a competitive atmosphere.			
7326 F.I.T.S. (ICR) (Individual Concept Recreational): 7327 F.I.T.S. (CC) (Competitive Option): 7328 F.I.T.S. (TCR) (Team Concept Recreational):	Bowling* Pickleball	Ping Pong Aquatics	Golf Group Exercise	Outdoor Education Fitness Testing
	Volleyball Basketball	Team Games Softball	Outdoor Hockey	Aquatic Games
	Volleyball Whiffleball	Basketball Kickball	Lacrosse (no contact) Softball	Fitness Testing
*Supply fee of \$30.00 is required for this off-campus activity. Fee is collected at time of participation				
ADAPTIVE PHYSICAL EDUCATION <i>Course # 7080</i> Full year Credit: 1.0	This self-contained section of Adaptive Physical Education is offered to students who are restricted and prevented from activity in a regular program. This could include ambulatory cases, congenital defects, and handicapped students. Each student in the section will be given a separate (IEP) individual education program which has earned approval from a physician, school nurse, and parent(s) as appropriate. Prerequisite: Departmental and/or Educational Services departmental approval. Open to grades 9, 10, 11 and 12.			

Physical Education

EARLY BIRD P.E. Course # 7373, 7374 1st or 2nd semester Credit: 0.5	This physical education class is open to all sophomores, juniors, and seniors who wish to add an extra period to their day, giving them greater flexibility to select other specialized courses. The course runs from 7:00 a.m. to 7:50 a.m. daily. Students must provide their own transportation.
--	---

PHYSICAL EDUCATION EXEMPTION

Students interested in exempting out of PE during their 2011– 2012 athletic or marching band season in order to take a study hall need to be aware of the following:

1. PE Exemption is available for **Junior** and **Senior** athletes and **Sophomore, Junior, and Senior** Marching Band members only.
 - a. You must be enrolled in a full seven period academic schedule.
 - b. You must NOT have a study hall in your schedule.
2. In order to be eligible for PE Exemption, you must fill out both sides of the request form with all required signatures and turn it in to your counselor at your individualized registration appointment in January or February.
3. These course codes will be used for PE Exemptions that fall within the following marking periods:

Code	1st	2nd	3rd	4th	Girls' Sports	Boys' Sports	Activity
7218*	Exempt	In PE class			Golf Tennis	Golf	
7219**	Exempt	Exempt			Volleyball Cross Country Swimming FB Cheerleading FB Poms	Football Soccer Cross Country	Marching Band
7220*+	In PE class	Exempt	Exempt	In PE class	Bowling Basketball Gymnastics BB Cheerleading BB Poms	Bowling Wrestling Basketball Swimming	
7221*			In PE Class Then Exempt	Exempt	Track Badminton Water Polo Soccer Softball Lacrosse	Track Gymnastics Tennis Water Polo Baseball Volleyball Lacrosse	
7222***			Sport	Sport	Indoor/Outdoor Track	Indoor/Outdoor Track	

* These PE Exemption students must still register for a PE class during the semester of their exemption. They are not guaranteed the class of their choice. This is due to space limitations caused by exempted students flowing in and out of PE classes throughout the year.

** These PE Exemption students will not register for a PE class for 1st Semester. They need to select a PE option for 2nd Semester only.

+ Students re-entering PE once their season is over may be put into Personal Fitness if space is not open in the class they vacated.

Science Department

Two credits in science are required for graduation. Each credit must be earned by completing both semesters of a given course (one credit can be earned through the semester course offerings).

All students should have experience in both the biological and physical/earth sciences. Two years of the same type of science, if this excludes other areas of science, is not recommended.

1. Courses in science are designed to develop an understanding of the natural and physical world, to stress the importance of major scientific principles, to develop reasonable competence in the use of the methods of science and to help recognize and prepare for the role science plays in our evolving technological world. The many course offerings and sequences in science have been carefully planned to meet the needs of each student, whether he/she considers science as a future career, as an interesting avocation or as a necessity for all citizens in our technological society.
2. Courses are taught in classroom-laboratory situations which provide opportunities for individual and group instruction, investigation and experimentation. All science classes require a teacher recommendation.
3. The following are possible four-year course sequences:

Seq.	Grade 9	Grade 10	Grade 11	Grade 12
1.	Earth Science – G or Biology – G	Biology - G Earth Science G	Chemistry/Physics	Chemistry Themed or Traditional or Physics Themed or Traditional
2.	Biology or Earth Science	Earth Science or Biology	Chemistry Themed or Chemistry Traditional	Physics Themed or Physics Traditional
3.	Biology	Chemistry Themed or Chemistry Traditional	Physics Themed or Physics Traditional	Earth Science semester courses or Earth Science Honors or <u>select</u> Advanced Placement courses
4.	Biology	Chemistry Themed or Chemistry Traditional	Earth Science semester courses* or Earth Science	Physics Themed Physics Traditional
5.	Earth Science or Earth Science - H	Biology or Biology – H	Chemistry Traditional or Chemistry - H	Physics Traditional Physics – H or Advanced Placement courses
6.	Biology Honors	Chemistry Honors	Physics Honors	Advanced Placement courses

*The following semester courses are available to upperclassmen:

Meteorology/Astronomy (**student must not have taken Earth Science**)

Geology/Oceanography (**student must not have taken Earth Science**)

The aforementioned sequences by no means represent all sequences available to students. The possibilities are numerous. A more useful way to view science courses is by the year offered. The following table serves that purpose.

Science Department

COURSE TITLE	Course #	Prerequisite	Credit	Grade Offered
Fundamentals of Physical Science	3680	Yes	1.0	11-12
Fundamentals of Biological Science	3690	Yes	1.0	9-12
Biology – General	3700	Yes	1.0	9-12
Biology	3710	Yes	1.0	9-12
Biology – Honors	3720	Yes	1.0	9-12
Advanced Placement Biology	3730	Yes	1.0	11-12
Advanced Placement Environmental Science	3770	Yes	1.0	11-12
Earth Science – General	3740	Yes	1.0	9-12
Earth Science	3750	Yes	1.0	9-11
Earth Science - Honors	3760	Yes	1.0	9-12
Meteorology/Astronomy	3771	Yes	0.5	11-12
Geology/Oceanography	3782	Yes	0.5	11-12
Chemistry/Physics I	3800	Yes	1.0	11-12

Physics – Traditional	3920	Yes	1.0	10-12
Physics - Honors	3930	Yes	1.0	10-12
Advanced Placement Physics B	3950	Yes	1.0	11-12
Advanced Placement Physics C	3960	Yes	1.0	11-12

FUNDAMENTALS OF PHYSICAL SCIENCE <i>Course # 3680</i> Full year Credit: 1.0	This course focuses on the basic principles of the physical science. Students are directly involved in the development of each concept presented. The goal is to sharpen skills of observation and inference. Fundamentals of Physical Science is a laboratory course. Prerequisite: Successful completion of Biology General and Earth Science General. Enrollment in this course is by teacher recommendation only.
FUNDAMENTALS OF BIOLOGICAL SCIENCE <i>Course # 3690</i> Full year Credit: 1.0	This course investigates the basic structure, activities and relationships among living things. Class activities include laboratory investigations and class discussions. Prerequisite: Must be recommended cooperatively by Educational Services, Science and Guidance departments. The Fundamentals of Biological Science Course #3690 is being reviewed and will NOT be offered in 2011-2012.
BIOLOGY - GENERAL <i>Course # 3700</i> Full year Credit: 1.0	This course is designed to acquaint students with properties of living organisms. The course content includes such topics as the relationship between structure and function in living organisms as it relates to the human body, evolution, genetics, and many aspects of ecology. The approach of this course is to provide an introduction to major biological concepts with the use of an easily readable textbook. Biology - G is a laboratory course. Prerequisite: Incoming freshmen eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 & 12.

Science Department

<p>BIOLOGY <i>Course # 3710</i> Full year Credit: 1.0</p>	<p>This course is designed to acquaint students with properties of living organisms. This course's content includes such topics as the relationship between the structure and function in living organisms as it relates to the human body, evolution, genetics, and varied ecological principals. These areas are investigated in greater depth and application than Biology-General. The impact that humans have on the global environment is studied during the end of this course. Methods of scientific inquiry are employed in classroom instruction. Good ability in reading comprehension is ESSENTIAL for success in this course. Biology - R is a laboratory course.</p> <p>Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 & 12.</p>
<p>BIOLOGY - HONORS <i>Course # 3720</i> Full year Credit: 1.0</p>	<p>The course follows a molecular approach in the following content areas: cellular biology, evolution, genetics and its applications, and aspects of human biology. Compared to Biology 3710, the content areas are covered in greater depth and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. This course utilizes an inquiry approach in which students incorporate factual information into a framework of reflection and analysis. Biology - H is a laboratory course.</p> <p>Prerequisite: High ability in science, mathematics and reading. Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 & 12.</p>
<p>ADVANCED PLACEMENT BIOLOGY <i>Course # 3730</i> Full year Credit: 1.0</p>	<p>This course follows the College Board's Advanced Placement curriculum and as such is rigorous and fast paced. This course is comparable to an introductory college level course. College level materials are used. Advanced Placement Biology is a laboratory course.</p> <p>Prerequisite: Three years of science, including a year of Biology and a year of Chemistry and departmental recommendation. Concurrent enrollment in third year of science and AP Biology is permitted. Open to grades 11 & 12.</p>
<p>ADVANCED PLACEMENT ENVIRONMENTAL SCIENCE <i>Course # 3770</i> Full year Credit: 1.0</p>	<p>This course follows the College Board's Advanced Placement curriculum and as such is rigorous and fast paced. This course will provide students with the scientific principles, concepts and methods required to understand the interrelationships of the natural world, to identify and analyze environmental problems, and to examine alternative solutions for resolving and/or preventing them. Field trips are an integral part of this course and are therefore mandatory. This course is comparable to a one-semester introductory college-level course; college-level materials are used. Advanced Placement Environmental Science is a laboratory course.</p> <p>Prerequisite: Three years of science and departmental recommendation. Concurrent enrollment in a third year of science and AP Environmental Science is permitted. Open to grades 11 & 12.</p>
<p>EARTH SCIENCE - GENERAL <i>Course # 3740</i> Full year Credit: 1.0</p>	<p>The core material for this course is similar to that of 3750 Earth Science. The approach of the text used in this course is understandable, practical and, most important; it aids students who need an introduction to major concepts in Earth Science in an easy to read form. Earth Science - G is a laboratory course.</p> <p>Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 & 12.</p>

Science Department

<p>EARTH SCIENCE <i>Course # 3750</i> Full year Credit: 1.0</p>	<p>This course utilizes an inquiry approach in which students take factual information and use it for analysis. The main units of study are: geology, oceanography, meteorology and astronomy. Good ability in reading comprehension and average ability in math are ESSENTIAL for success in this program. Earth Science is a laboratory course.</p> <p>Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9 - 11.</p>
<p>EARTH SCIENCE - HONORS <i>Course # 3760</i> Full year Credit: 1.0</p>	<p>This course uses a college-level textbook and covers major topics in meteorology, astronomy, and geology. Compared to Earth Science 3750, the pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. The approach of the course involves traditional learning, labs, and tests paired with cooperative group work, presentations, and written projects. Earth Science - H is a laboratory course.</p> <p>Prerequisite: High ability in science, mathematics and reading. Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 & 12.</p>
<p>METEOROLOGY AND ASTRONOMY <i>Course # 3771</i> 1st semester only Credit: 0.5</p>	<p>Meteorology is the study of the mechanics of the atmosphere, weather and climatic patterns. Astronomy is concerned with the celestial bodies that comprise the known physical universe. The astronomy portion of this course DOES NOT emphasize astrophysics. This course includes teamwork to help develop problem solving skills. Good reading skills and comprehension are required. Meteorology and Astronomy is a laboratory course.</p> <p>Prerequisite: At least one year of high school science, and departmental recommendation. This course is NOT open to anyone who has already taken Earth Science. Open to grades 11 & 12.</p>
<p>GEOLOGY AND OCEANOGRAPHY <i>Course # 3782</i> 2nd semester only Credit: 0.5</p>	<p>This course examines the physical processes that shape and change the earth's crust. The physical, chemical, geological and biological aspects of the ocean are explored with equal time devoted to each aspect. This course includes teamwork to help develop problem solving skills. Good reading skills and comprehension are required. Geology and Oceanography is a laboratory course.</p> <p>Prerequisite: At least one year of high school science, and departmental recommendation. This course is NOT open to anyone who has already taken Earth Science. Open to grades 11 & 12.</p>
<p>CHEMISTRY/PHYSICS I <i>Course # 3800</i> Full year Credit: 1.0</p>	<p>This course is designed for those students needing additional chemistry and physics background before enrollment in a full-year course. Approximately one semester each will be devoted to topics in chemistry, such as atomic structure and gases, and topics in physics, such as motion and waves. This lab oriented course is taught at a pace that allows students to focus on chemistry and physics content development as well as study skills that could prepare students for a full-year chemistry or physics course. This is a laboratory course.</p> <p>Prerequisite: Successful completion of Algebra and departmental recommendation. This course is not open to students who have taken Chemistry or Physics. Open to grades 11 & 12.</p>

Science Department

<p>CHEMISTRY-Themed Course # 3810 Full year Credit: 1.0</p>	<p>(Both Chemistry-Themed and Chemistry-Traditional are REGULAR level courses.) This is an environmentally themed chemistry course which teaches traditional chemistry concepts such as stoichiometry, acids and bases, and behavior of gases. These topics are taught through the study of environmental topics including: nuclear chemistry, petroleum, water and air. This course incorporates teamwork to develop problem solving skills and an understanding of the relevance and concepts of chemistry in everyday living. This course has a field-based lab requirement. This is a laboratory course and it does not meet the prerequisite for A.P. Chemistry. Prerequisite: Successful completion of Algebra 1, concurrent enrollment in Geometry or higher, and departmental recommendation. Open to grades 10, 11 & 12.</p>
<p>CHEMISTRY-Traditional Course # 3820 Full year Credit: 1.0</p>	<p>(Both Chemistry-Themed and Chemistry-Traditional are REGULAR level chemistry courses.) This is a traditional high school chemistry course. Traditional chemistry concepts such as stoichiometry, acids and bases, behavior of gases and molecular shapes are taught as students independently develop understanding through participation in classroom lecture, assignments, activities and labs. This is a laboratory course and it meets the prerequisite for A.P. Chemistry. Prerequisite: Successful completion of Algebra 1, concurrent enrollment in Geometry or higher, and departmental recommendation. Open to grades 10, 11 & 12.</p>
<p>CHEMISTRY-HONORS Course # 3830 Full year Credit: 1.0</p>	<p>The core material for this course is similar to that of Chemistry-Traditional and follows a similar sequence. The pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. Chemistry - Honors is a laboratory course. This course meets the pre-requisite for A.P. Chemistry. Prerequisite: High ability in science, mathematics and reading and departmental recommendation. Open to grades 10, 11 & 12.</p>
<p>ADVANCED PLACEMENT CHEMISTRY Course # 3840 Full year Credit: 1.0</p>	<p>This course follows the College Board's Advanced Placement curriculum and as such is extremely rigorous and fast paced. This course is comparable to an introductory college level chemistry course. College level materials are used. Advanced Placement Chemistry is a laboratory course. Prerequisite: Three years of science, including a year of Chemistry (Traditional or Honors) and a year of Physics (Traditional or Honors) and departmental recommendation. Concurrent enrollment in a third year of science and AP Chemistry is permitted. Open to grades 11 & 12.</p>
<p>PHYSICS-Themed Course # 3900 Full year Credit: 1.0</p>	<p>(Both Physics-Themed and Physics-Traditional are REGULAR level physics courses.) This is a theme-directed laboratory course. Quarterly themes are: Physics of the Arts, electrical physics, sports physics and rollercoaster physics. Topics including motion, forces, energy, waves, sound, optics, electricity and magnetism are taught in a directed approach with frequent assessment through participation in classroom lecture, assignments, activities, projects and labs. This course uses an electronic textbook and an electronic homework program which require internet access. This course is appropriate for students with average math ability. This is a laboratory course and it does not meet the prerequisite for A.P. Physics courses. Prerequisite: successful completion of Algebra 1, concurrent enrollment in Algebra II/Trig and departmental recommendation. Open to grades 10, 11 & 12</p>

Science Department

<p>PHYSICS-Traditional <i>(Course # 3920)</i> Full year Credit: 1.0</p>	<p>(Both Physics-Themed and Physics -Traditional are REGULAR level physics courses.) This is a traditional high school physics laboratory course. Topics such as motion, forces, momentum, energy, waves, sound, light, optics, electricity and magnetism are taught as students independently develop understanding with less frequent assessment through participation in classroom lecture, assignments, activities, projects and labs. This course is appropriate for students with average math ability. This is a laboratory course and meets the prerequisite for A.P. Physics courses.</p> <p>Prerequisites: Successful completion of Algebra I, concurrent enrollment in Algebra II/Trig, and departmental recommendation. Open to grades 10, 11 & 12.</p>
<p>PHYSICS - HONORS <i>Course # 3930</i> Full year Credit: 1.0</p>	<p>This course uses an algebra-based college-level textbook. Topics such as motion, forces, momentum, energy, waves, sound, light, optics, electricity and magnetism are taught as students independently develop understanding with less frequent assessment through participation in classroom lecture, assignments, activities, projects and labs. Compared to Physics-Traditional, the pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. Physics Honors is extremely math intensive with an emphasis on symbolic manipulation of variables. This course meets the prerequisite for AP Physics. Physics-H is a laboratory course.</p> <p>Prerequisites: Successful completion of Algebra II/Trigonometry and departmental recommendation that will be based upon high level ability in science, mathematics and reading. Open to grades 10, 11 & 12.</p>
<p>ADVANCED PLACEMENT PHYSICS B <i>Course # 3950</i> Full year Credit: 1.0</p>	<p>This is an algebra-based 2nd year physics course following the College Board's Advanced Placement curriculum and as such is designed to prepare students for the AP Physics B exam. The course is fast paced and covers topics in mechanics, fluids, thermal physics, waves and optics, electrostatics, electricity and magnetism, and nuclear and atomic physics. Internet access is required to utilize an online homework service. This is a laboratory course and requires a lab composition book.</p> <p>Prerequisite: Department recommendation, and three years of science including chemistry and either honors or traditional physics. Concurrent enrollment in a third year of science is permitted. Open to grades 11 & 12.</p>
<p>ADVANCED PLACEMENT PHYSICS C <i>Course # 3960</i> Full year Credit: 1.0</p>	<p>This is a calculus-based 2nd year physics course following the Collage Board's Advanced Placement curriculum and as such is designed to prepare students for the AP Physics C exam. Approximately half of the year is devoted to mechanics and the other to classical electricity and magnetism. Calculus is used in problem solving and derivations with usage increasing as the course progresses. This course, which uses college level materials, is comparable to an introductory college physics course for pre-med or engineering majors. Advanced Placement Physics is a laboratory course.</p> <p>Prerequisite: Departmental recommendation and three years of science, including years of Chemistry and Physics (Honors), as well as completion of Calculus AB or BC, or concurrent enrollment. Concurrent enrollment in a third year of science and AP Physics is permitted. Open to grades 11 & 12.</p>

Social Studies Department

Artwork by Hillary Galvin

MISSION STATEMENT

The Hinsdale Central Social Studies Department strives to be respected by all school constituencies for its ability to inspire and direct the personal, intellectual, and civic development of its students. The department emphasizes the process of learning, whereby students critically examine issues, evaluate multiple points-of-view, and synthesize perspectives from a variety of disciplines, resulting in the ability to solve problems and make informed decisions. The department seeks to promote an understanding of diverse cultures, values, and systems; from this, students will gain awareness of their own values, as well as those of others. The tolerance and diversity that result from this training are balanced by a commitment to exploring and building common values such as democratic participation and freedom of expression. It is a department that is self-directed, collegial, with high expectations of its students and of itself. The department seeks to foster a love of learning through enthusiasm for the social studies disciplines, use of a variety of instructional strategies, and the dynamic of individual personalities committed to a set of shared goals.

Two (2) credits in Social Studies are required for graduation. One of these credits must be U.S. History, which also satisfies the state requirement. This credit must be earned by completing both semesters of U.S. History, American Studies or Advanced Placement U.S. History. The second credit must be earned during the freshman year by taking either World Cultures or World History Honors.

Social Studies Department

* 1 credit English, 1 credit Social Studies				

WORLD CULTURES Course # 2140 Full year Credit: 1.0	World Cultures explores the geographic, economic, historic, cultural and current issues pertaining to the world's major civilizations. A variety of activities and assessments will be used to foster the acquisition of not only content knowledge, but also skills appropriate to the social studies. Prerequisite: None. Open to grade 9. Note: Students may not take World Cultures and World History Honors.
WORLD HISTORY - H Course # 2220 Full year Credit: 1.0	This course surveys broadly, chronologically and topically, the chief features of various civilizations, culture, nations and major concepts from ancient to modern times. The historical development of Eastern and Western civilizations are explored. Core material is organized around a textbook; however, extensive supplemental reading is required. Students will be challenged with a variety of assessments including tests, papers, speeches, debates, presentations and cooperative learning activities. Prerequisite: Departmental approval. Open to grade 9. Note: Students may not take World History Honors and World Cultures.

Social Studies Department

<p>AFRICAN AMERICAN HISTORY <i>Course # 2239/2240</i> 1st or 2nd semester Credit: 0.5</p>	<p>African American History focuses on the unique contributions that slaves from Africa, and their descendants, have made towards the cultural and historical legacy of our nation. Topics of study will include the changing legal and social definitions of race in America, the efforts of African Americans to resist servitude, emancipation and its aftermath, the Harlem Renaissance, the Civil Rights movements, and contemporary issues facing African Americans. Students will examine historical sources, with special focus on the art and music created by African Americans. Assessments will include an oral history project, debates, creative projects, essays and exams. Prerequisite: None. Open to grades 10, 11 & 12.</p>
<p>EAST ASIAN STUDIES <i>Course # 2241</i> 1st or 2nd semester Credit: 0.5</p>	<p>Asian Studies will examine the history and culture of China, Japan and Korea. Possible topics of study include the Samurai and code of Bushido, the emergence of Japan as a colonial power, the Rape of Nanking, the Korean War, the development of nuclear weapons by North Korea, and the emergence of China as a 21st century global superpower. The course is project, writing, and discussion oriented complimented with a field trip and experiential learning. Students will be challenged to avoid ethnocentrism and to understand these civilizations from the perspective of the people who came from them. Prerequisite: None. Open to grades 10, 11 & 12.</p>
<p>GLOBAL ISSUES <i>Course # 2231</i> 1st or 2nd semester Credit: 0.5</p>	<p>Global Issues examines several major contemporary political, social, and diplomatic dilemmas of the 21st century. After tracing the historical roots of contemporary issues, students will analyze and evaluate each issue from a variety of perspectives. Possible topics include the proliferation of nuclear weapons, human rights and genocide, democracy and dissent, the future of the Middle East, the “war on terror,” U.S. foreign policy since Vietnam, and major domestic challenges. Active student participation on a daily basis and developing written and oral arguments are major components of a student’s grade. Prerequisite: None. Open to grades 10, 11 & 12.</p>
<p>RUSSIAN STUDIES <i>Course # 2251</i> 1st or 2nd semester Credit: 0.5</p>	<p>Russian Studies will examine the history, culture, geography, and political ideology of Russia and the former Soviet Union. The course places special emphasis on the Romanov Dynasty, communist rule in the former Soviet Union, and contemporary affairs, including Russia’s role on the world stage. This class offers a unique opportunity to focus one’s studies on a specific and highly relevant part of the world. In addition, Russian Studies places special emphasis on writing in the social studies context. Prerequisite: None. Open to grades 10, 11 & 12.</p>
<p>WESTERN CIVILIZATION <i>Course # 2261</i> 1st or 2nd semester Credit: 0.5</p>	<p>Western Civilization is a survey of the history of Western Civilization beginning with the influences of Greece and Rome and ending in the early Twentieth Century. Students will explore the historical trends, events, and ideas that have come to shape society today. Prerequisite: None. Open to grades 10, 11 & 12. Note: Students may not take Western Civilization and Advanced Placement European History.</p>
<p>ADVANCED PLACEMENT EUROPEAN HISTORY <i>Course # 2440</i> Full year Credit: 1.0</p>	<p>Advanced Placement European History traces the political, social, economic, intellectual, and cultural development of European Civilization from the Renaissance to the present. A wide variety of teaching methods are used including discussion, debate, role-play, simulations and trials. Students will learn to use and evaluate primary sources, write critical essays, and analyze historical interpretations. This course prepares the student for the Advanced Placement European History examination. Prerequisite: Departmental approval. Open to grades 10, 11 & 12. Note: Students may not take Advanced Placement European History and Western Civilization.</p>

Social Studies Department

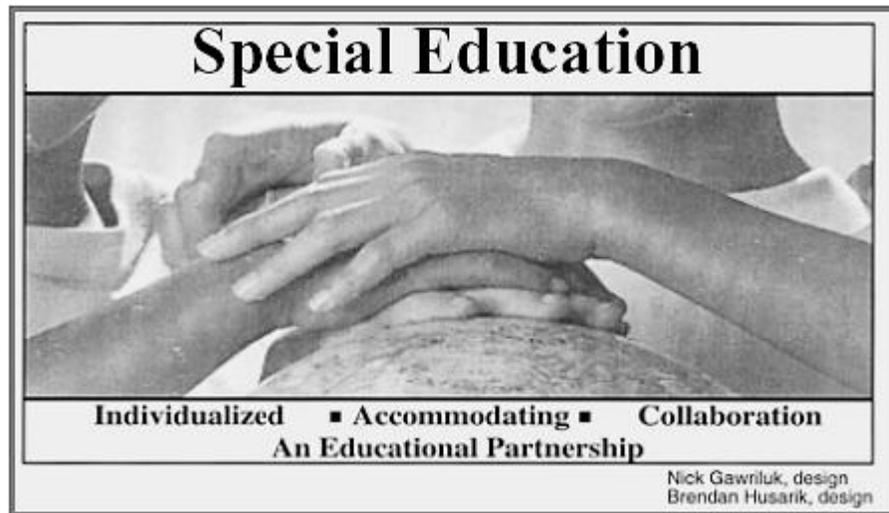

<p>AMERICAN STUDIES Course # 1550 Full year Credit: 2.0 (one credit each of English and American History)</p>	<p>American Studies surveys America's past through the use of non-fiction texts, novels, films, visual arts, music, news sources, and primary source documents. The curriculum integrates history and literature by examining American texts through rhetoric, analysis, thematic connection, and inquiry. Students will find a challenging educational environment containing a variety of methodologies including current event discussions, media presentations and field trips. Teachers plan, instruct, and evaluate student work together. The course meets for two back-to-back periods.</p> <p>Prerequisite: None. Credit in this course fulfills the U.S. History requirement. Open to grade 11. Note: Students may not take American Studies and U.S. History or Advanced Placement U.S. History.</p>
<p>U.S. HISTORY Course # 2310 Full year Credit: 1.0</p>	<p>U.S. History is a survey which covers Native American cultures through European colonization, founding of the new Republic and Constitution, includes the Civil War, and concludes with modern times. Units survey chronologically and topically the major events, personalities and issues which have played a part in the evolution of the American democratic republic.</p> <p>Prerequisite: None. Credit in this course fulfills U.S. History requirement. Open to grade 11. Note: Students may not take U.S. History and American Studies or Advanced Placement U.S. History.</p>
<p>ADVANCED PLACEMENT U.S. HISTORY Course # 2320 Full year Credit: 1.0</p>	<p>Advanced Placement United States History is a survey course that is meant to replicate the academic rigor of a two semester college experience in a year. This class requires students to engage in extensive reading of primary sources and historical essays. Focus will be placed on the development of college level reading and writing skills. Key events and major themes such as American diversity, economic transformations and politics and citizenship will be examined in studying the nation's past. This course prepares the student for the Advanced Placement United States History examination.</p> <p>Prerequisite: Departmental approval. Credit in this course fulfills the U.S. History requirement. Open to grade 11. Note: Students may not take Advanced Placement U.S. History and American Studies or U.S. History.</p>
<p>CONSTITUTIONAL LAW Course # 2381 1st or 2nd semester Credit: 0.5</p>	<p>Constitutional Law is an introductory legal course which investigates many topics, including criminal law, trial rules, court systems, juvenile law, discrimination, and search and seizure law. In addition to using contemporary legal cases, a wide variety of teaching methods are used, including mock trial hearings, mock jury simulations, and videos. The primary learning tool in Constitutional Law is class discussion. Additionally, an alternative final exam is available for those students who would prefer a project.</p> <p>Prerequisite: None. Open to grades 11 & 12.</p>

Social Studies Department

<p>ECONOMICS Course # 2331 1st or 2nd semester Credit: 0.5</p>	<p>Economics investigates the principles that drive decision-makers, both consumers and producers, in our global marketplace. Students specifically examine the major components of the U.S. economic system; such as, opportunity costs, trade-offs, production and consumption practices, money and banking, savings and investment, business management and labor, business cycles, and economic relationships between nations. The study of Economics helps prepare students to make rational economic choices both in their own lives and in their participation in policy decisions as citizens of a city, state, nation, and the world. Learning is enhanced through current events, economic simulations and class activities.</p> <p>Prerequisite: None. Open to grades 11 & 12. Note: Students may not take Economics and Advanced Placement Microeconomics or Advanced Placement Macroeconomics concurrently.</p>
<p>PHILOSOPHY AND ETHICS Course # 2391 1st or 2nd semester Credit: 0.5</p>	<p>Philosophy and Ethics will offer interested and intellectually curious students the opportunity to reflect on fundamental questions related to the human condition, such as the basis of knowledge, ethical theories and issues, artificial intelligence, free will versus determinism, rational proofs for the existence of God, and the meaning of evil and suffering. The goal of the course will not be so much to cover a particular body of philosophers, but to raise important issues that will spur students to further inquiry, study, and application in their own lives. Much of the class will involve reading, discussion, and writing. Students will be expected to read carefully, write critically, and participate in class discussions.</p> <p>Prerequisite: None. Open to grades 11 & 12</p>
<p>PSYCHOLOGY Course # 2431 1st or 2nd semester Credit: 0.5</p>	<p>Psychology focuses on the study of human behavior from many perspectives. Audiovisual materials, experiments, projects and case studies are used to understand the human experience. This class is heavily discussion based. In addition, much independent coursework is used to investigate topics such as development, the brain, altered states of consciousness, learning, personality and abnormal behavior.</p> <p>Prerequisite: None. Open to grades 11 & 12. Note: Students may not take Psychology and Advanced Placement Psychology</p>
<p>SOCIOLOGY Course # 2371 1st or 2nd semester Credit: 0.5</p>	<p>Sociology is the study of man's social behavior. The course increases the student's awareness of social pressures that affect one's own behavior and the behavior of others. Typical activities such as discussions, experiments, student planned projects and a wide variety of films and videotapes enable the student to apply knowledge gained in the course to his or her own life.</p> <p>Prerequisite: None. Open to grades 11 & 12.</p>
<p>ADVANCED PLACEMENT MACROECONOMICS Course # 2442 2nd semester only Credit: 0.5</p>	<p>Advanced Placement Macroeconomics is the study of the United States' economy. Students examine economic topics such as unemployment, inflation, GDP, international trade, interest rates, monetary policy, fiscal policy, and the national debt and deficit. Students will come to understand the causes for problems in the economy and be able to prescribe economic policies for both healthy and unhealthy economies. Macroeconomics is an interdisciplinary course combining the social sciences with mathematical analysis and graphing. The course prepares students for the Advanced Placement exam in May.</p> <p>Prerequisite: Completion of AP Microeconomics or Economics and departmental approval. Open to grades 11 & 12. Note: Students may not take Advanced Placement Macroeconomics, Advanced Placement Microeconomics or Economics concurrently</p>

Social Studies Department

<p>ADVANCED PLACEMENT MICROECONOMICS <i>Course # 2341</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Placement Microeconomics provides students with a thorough understanding of the decision making process for individuals and firms in the marketplace. It places primary emphasis on the operations of the product and factor markets along with the government's role in promoting efficiency and equity in various market structures. The course is conducted in a lecture/seminar manner supported by daily readings, practice problems, and student activities. The course prepares the student for the Advanced Placement exam in Microeconomics exam administered in May.</p> <p>Prerequisite: Departmental approval. Credit in this course fulfills the Consumer Education requirement. Open to grades 11 & 12.</p> <p>Note: Students may not take Advanced Placement Macroeconomics, Advanced Placement Microeconomics or Economics concurrently</p>
<p>ADVANCED PLACEMENT PSYCHOLOGY <i>Course # 2430</i> Full year Credit: 1.0</p>	<p>AP Psychology explores why human beings are the way that they are. This course traces the emergence of scientific psychology in the nineteenth century from its roots in philosophy and physiology to present day practices. The development of the major "schools" of psychology and showing how they differed in subject matter and the methods of study are covered. This historical introduction helps students gain an understanding of the principal twentieth century approaches to psychology: behavioral, biological, cognitive, humanistic and psychodynamic. This class prepares students for the Advanced Placement Psychology examination.</p> <p>Prerequisite: Departmental approval. Open to grades 11 & 12.</p> <p>Note: Students may not take Advanced Placement Psychology and Psychology.</p>
<p>ADVANCED PLACEMENT UNITED STATES GOVERNMENT AND POLITICS <i>Course # 2361</i> 1st or 2nd semester Credit: 0.5</p>	<p>AP United States Government and Politics is an advanced placement course designed to give students both theoretical and realistic perspectives on politics and government in the United States. Its focus is on the interconnectedness between the various institutions, opinions and policies that make up the national public system. Student political involvement is emphasized. This class prepares students for the Advanced Placement United States Government and Politics examination.</p> <p>Prerequisite: Departmental approval. Concurrent enrollment in U.S. History or previous completion of U.S. History during the regular school year. Open to grades 11 & 12.</p>

Students eligible for special education services as specified by an Individual Education Program (IEP) receive specialized instruction and services through one or more of the following approaches:

- individualized academic accommodations and/or modifications within the regular education classrooms,
- structured assistance within the regular education classrooms,
- structured assistance outside the regular class,
- related services, and
- direct instruction in specialized course offerings

The following specialized classes taught by certified special education teachers may be implemented in the 2010 – 2011 school year. **Course enrollment is determined by IEP recommendation.** Courses meet the HCHS graduation requirements.

Course Title	Course #	Credit	Grade Offered
English	1810/1820/1830/1840	1.0	9-12
World Cultures	1850	1.0	9
**Reading	1890	1.0	9-12
Foundations of Algebra and Geometry	1871	1.0	9-10
Academic Center Resource	9920/9924	NC	9-12
Study Skills 1	1951/1952	.25/sem.	9
Study Skills 2	1956/1957	.25/sem.	10
Learning Strategies 1	1958/1959	.25/sem.	11
Learning Strategies 2	1961/1962	.25/sem.	12
**Program Success	1956A/1957A	.25/sem.	9-12
**English Foundations	2000	1.0	9-12
**Math Foundations	2030	1.0	9-12
**Resource Foundations	2080	1.0	9-12
**Elective Foundations	2060	1.0	9-12
**Pre-Voc Foundations	2100	1.0	9-12
*Social Studies Foundations	2081	1.0	9-12
*Science Foundations	2050	1.0	9-12
*Cooperative Work Training	1931/1932	.5/sem.	10-12
*Pre Vocational Supervised Job Training	1941/1942	.5/sem.	9-12
Adult Opportunities	2930	NC	Post 12

* May be taken more than once for credit (maximum 2.0 credits)

** May be taken more than once for credit (maximum 4.0 credits)

Special Education

<p>ACADEMIC CENTER RESOURCE <i>Course # 9920/9924</i> Full year Credit: NC</p>	<p>Academic Center Resource is for students who are self-motivated, well organized, and can demonstrate excellent self-advocacy skills. Students are self-directed learners who can identify strengths/challenges and have developed the necessary compensatory skills to allow them to be successful in the academic school setting. The Academic Center provides students with opportunities for support across curriculum subjects in a structured setting. Students may also seek out departmental support/resources, schedule guidance appointments, and make up any tests/quizzes during this period. Prerequisite: IEP recommendation. Open to grades 9-12.</p>
<p>STUDY SKILLS 1 <i>Course # 1951/1952</i> Full year Credit: 0.25/semester</p>	<p>Study Skills 1 is a freshman-level resource class specifically targeted for students with an IEP. Students enroll in study skills based upon a team recommendation at the most recent IEP meeting. Study Skills 1 targets the skills required for a successful transition into the high school experience. These include organization, time management, homework completion, long term planning, listening skills, memory skills, and test preparation skills. Study skills 1 also serves as a period where students may complete assessments and/or consult with other school staff to meet their individual needs. Prerequisite: IEP recommendation. Open to grade 9.</p>
<p>STUDY SKILLS 2 <i>Course # 1956/1957</i> Full year Credit: 0.25/semester</p>	<p>Study Skills 2 is a sophomore-level resource class specifically targeted for students with an IEP. The course addresses the maintenance of study skills such as effective note-taking and test preparation skills. It also begins to look into research skills that students will need to investigate post-secondary employment or academic/ vocational programs. In addition, Study Skills 2 serves as a period in which students may complete assessments or consult with other school staff to meet their individual needs. Prerequisite: IEP recommendation. Open to grade 10.</p>
<p>LEARNING STRATEGIES 1 <i>Course # 1958/1959</i> Full year Credit: 0.25/semester</p>	<p>Learning Strategies 1 is a junior-level resource class. Students are enrolled in this class based upon the IEP team's recommendation. This class supports students with their current course work and prepares students for any upcoming assessments through academic content review and effective test taking strategies. Additionally, students may use their learning strategies class time to complete classroom assessments and to seek out support from other academic departments and related service providers. A final component to Learning Strategies is to continue the process of post-secondary and transitional planning. Prerequisite: IEP recommendation. Open to grade 11.</p>
<p>LEARNING STRATEGIES 2 <i>Course # 1961/1962</i> Full year Credit: 0.25/semester</p>	<p>Learning Strategies 2 is a senior-level resource class. Students are enrolled in this class based upon the IEP team's recommendation. This class supports students with their current course work and prepares students for any upcoming assessments through academic content review and effective test taking strategies. Additionally, students may use their learning strategies class time to complete classroom assessments and to seek out support from other academic departments and related service providers. A final component to Learning Strategies is to continue the process of post-secondary and transitional planning. Prerequisite: IEP recommendation. Open to grade 12.</p>

Special Education

<p>PROGRAM SUCCESS <i>Course # 1956A/1957A</i> Full year Credit: 0.25/semester</p>	<p>Program Success is for students whose emotional/behavioral needs interfere significantly with their learning or that of other classmates. Program Success provides students time in their day to get additional support with their academic course as well as provide students an opportunity to process situation that have occurred which are having a social and/or emotional impact on the student. In addition, instructional arrangements can be made to provide students with academic instruction in a self-contained setting. This instruction arrangement may be necessary for short durations while new interventions are planned. Program Success also serves as a time when students can communicate with staff or complete assessments.</p> <p>Prerequisite: IEP recommendation. Open to grades 9-12.</p>
<p>ENGLISH FOUNDATIONS <i>Course # 2000</i> Full year Credit: 1.0</p>	<p>This course explores fundamental elements of reading, writing, and listening and speaking that can be generalized in various facets of daily life. Curriculum is individualized according to the goals and objectives delineated in each student IEP.</p> <p>Prerequisite: IEP recommendation. Open to grades 9-12.</p>
<p>MATH FOUNDATIONS <i>Course # 2030</i> Full year Credit: 1.0</p>	<p>This course explores fundamental math concepts that can be generalized in various facets of daily life. Curriculum includes problem solving and computation, money and number sense, and basic estimation and measurement. Basic analytical methods, geometry, and data analysis are also emphasized. Curriculum is individualized according to the goals and objectives delineated in each student IEP.</p> <p>Prerequisite: IEP recommendation. Open to grades 9-12.</p>
<p>RESOURCE FOUNDATIONS <i>Course # 2080</i> Full year Credit: 1.0</p>	<p>Students will explore essential aspects of academic, organizational and social skills that can be generalized in various facets of daily life. Emphasis will be placed on decision-making and behavior expectations, time management, use of classroom and school resources, and self-advocacy. Curriculum is individualized according to the goals and objectives delineated in each student IEP.</p> <p>Prerequisite: IEP recommendation. Open to grades 9-12.</p>
<p>SOCIAL STUDIES FOUNDATIONS <i>Course # 2081</i> Full year Credit: 1.0</p>	<p>The goal of this course is to develop in students an understanding of citizenship that can be generalized in various facets of daily life. Students will sharpen their basic understanding of history, government, and social systems through the exploration of current and historical events. Curriculum is individualized according to the goals and objectives delineated in each student IEP.</p> <p>Prerequisite: IEP recommendation. Open to grades 9-12.</p>
<p>SCIENCE FOUNDATIONS <i>Course # 2050</i> Full year Credit: 1.0</p>	<p>Students will investigate key elements of physical and social wellness that can be generalized in various facets of daily life, including proper nutrition, sleep, self-care, and exercise. Students will also explore the benefits of leisure activities and socialization. Curriculum is individualized according to the goals and objectives delineated in each student IEP.</p> <p>Prerequisite: IEP recommendation. Open to grades 9-12. Science Foundations will NOT be offered for the 2011-2012 school year.</p>

Special Education

<p>PRE-VOC FOUNDATIONS <i>Course # 2100</i> Full year Credit: 1.0</p>	<p>This course explores essential skills related to employment. Emphasis will be placed on hands on in school job training, entry level workplace skill development which may include: following a schedule, time management, efficiency, responsibility, work etiquette, following directions and communicating with co-workers and supervisors. Curriculum is individualized according to the employment goals and objectives delineated in each student IEP. Prerequisite: IEP recommendation. Open to grades 9-12.</p>
<p>ELECTIVE FOUNDATIONS <i>Course # 2060</i> Full year Credit: 1.0</p>	<p>Through cooperative games, community experiences, and leisure activities, students will explore essential components of self-awareness & self-management, social-awareness, interpersonal skills, and decision-making. Curriculum is individualized according to the goals and objectives delineated in each student IEP. Prerequisite: IEP recommendation. Open to grades 9-12.</p>
<p>ENGLISH <i>Course # 1810/1820/1830/1840</i> Full year Credit: 1.0</p>	<p>Special education English classes are offered at each grade level. The curriculum incorporates vocabulary development, literature, and the writing process. Curriculum is aligned with grade level English course but taught at an instructional level. Direct reading and writing supports are provided. Assessments are completed weekly to monitor progress in the areas of reading and writing. Prerequisite: IEP recommendation. Open to grades 9-12.</p>
<p>WORLD CULTURES <i>Course # 1850</i> Full year Credit: 1.0</p>	<p>World Cultures explores the economic, historic, cultural and current issues pertaining to the world's major civilization. A variety of activities and assessments will be used to foster the acquisition of not only content knowledge, but also critical thinking skills appropriate to the social studies. The curriculum is aligned with the grade level world cultures course but supports students who have deficiencies in reading and writing. Prerequisite: IEP recommendation. Open to grade 9.</p>
<p>READING <i>Course # 1890</i> Full year Credit: 1.0</p>	<p>Reading is a course designed for students in 9th through 12th grade who demonstrate a need for direct instruction in reading strategies because they are reading two or more levels below grade level. Students will complete diagnostic tests at the start of the year, in the middle of the year, and at the end of the year. These tests will be used to track growth and also to provide necessary information so that instruction can be individualized to a student's needs. Instruction in oral fluency, silent reading comprehension, oral reading comprehension, listening comprehension, vocabulary, grammar, and phonics will be provided individually and in a whole class setting. The curriculum is comprised of lessons from the Jamestown Timed Reading series, current events articles, Six Minute Solution passages, the Language! Reading series, Aimsweb fluency and comprehension passages, and Averil Coxhead's High-Incidence Academic Word List. Prerequisite: IEP recommendation. Open to grades 9-12.</p>
<p>FOUNDATIONS of ALGEBRA & GEOMETRY <i>Course # 1871</i> Full year Credit: 1.0</p>	<p>This course introduces important topics in Algebra and Geometry. Algebra topics include expressions, equations, inequalities, and linear functions. Geometry topics include lines, segments, angles, triangles, perimeter, area, and volume. This course is appropriate for students with reasonable facility with arithmetic operations. A graphing calculator is required. Prerequisite: IEP recommendation. Open to grades 9-10.</p>

Special Education

<p>COOPERATIVE WORK TRAINING <i>Course # 1931/1932</i> Full year Credit: 0.5/semester</p>	<p>This course explores obtaining and maintaining a part time paid position in the community. Students enrolled in this class are actively looking or are currently working at a part time job. This class meets once a week during a resource period to address job application completion and job retention. Seminars are offered throughout the course to address employment topics such as career exploration, understanding your paycheck, conflict resolution, resume and cover letter development, interviewing skill development. Participation in this class is identified as needed.</p> <p>Prerequisite: IEP recommendation. Open to grades 10-12. Cooperative Work Training will NOT be offered for the 2011-2012 school year.</p>
<p>PRE VOCATIONAL SUPERVISED JOB TRAINING <i>Course # 1941/1942</i> Full year Credit: 0.5/semester</p>	<p>This course explores more in-depth application and practice in both in-school and community based job training, as identified based on individual goals. This class emphasizes career exploration & planning, job application, job search, interviewing, resume development, cover letters, and continued development on communication skills.</p> <p>Prerequisite: IEP recommendation. Open to grades 9-12.</p>
<p>ADULT OPPORTUNITIES <i>Course # 2930</i> Full year Credit: NC</p>	<p>This program is available to young adults who are 18-22 and have completed their academic graduation requirements. The program is individually designed to assist young adults in pursuing their transition goals related to education, employment, independent living and social aspirations through community based instruction and activities. Emphasis will be placed on preparing young adults to manage their own lives and face the challenges of adulthood when they are no longer receiving support from their high school. Program participation is individually determined based on need and transition goals.</p> <p>Prerequisite: IEP recommendation. Open to post 12th grade students.</p>

The Technology Education Department offers an elective course of study to all students at Hinsdale Central. Technology Education courses help students meet the elective arts requirement. Our program of course offerings focuses on a variety of technologies that develop skills in graphic communication and design. Several courses are available to students who wish to explore the educational and career opportunities in Architecture, Engineering, Graphic Communications and Photography.

The primary instructional mode in the department is laboratory-oriented student projects and exercises. A wide range of instructional techniques and technologies is used in the classroom.

Articulated credits at College of DuPage are available to Hinsdale Central students who complete certain courses at Hinsdale Central with at least a grade of B and who upon graduation, attend C.O.D. The list of approved courses with articulated credit at College of DuPage is as follows:

- Basic Photography
- Digital Color Photography

Each class has a lab fee charged to the student to cover the cost of materials used by the students for project work.

Technology Education

COURSE TITLE	Course #	Prerequisite	Credit	Grade Offered
Pre-Engineering Graphics 1	6601	No	0.5	9-12
Pre-Engineering Graphics 2	6611	Yes	0.5	9-12
Engineering Graphics	6620	Yes	1.0	10-12
Architectural Drafting	6630	Yes	1.0	11-12
Advanced Engineering and Architectural Modeling	6640	Yes	1.0	12
Graphic Communications-Fundamentals	6661	No	0.5	9-12
Graphic Communications-Desktop Publishing	6650	Yes	0.5	9-12
Graphic Communications-Web Design	6662	Yes	0.5	9-12
Graphic Communications-Web-Based Multimedia	6681	Yes	0.5	9-12
Graphic Communications-Advanced Graphics	6660	Yes	0.5	10-12
Basic Photography	6691	No	0.5	10-12
Digital Color Photography	6701	Yes	0.5	10-12
Advanced Photography	6812	Yes	0.5	11-12
Independent Study - Graphic Communications	6905 / 6906	Yes	0.5 / 0.5	11-12
Independent Study – Photography	6907 / 6908	Yes	0.5 / 0.5	11-12

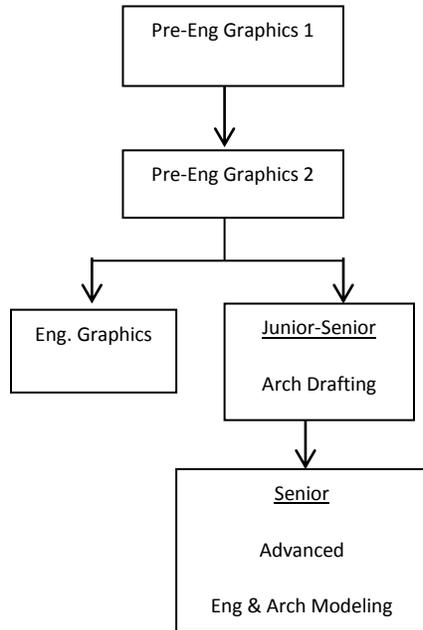

Shown below are possible course selection sequences in the Engineering Graphics Program as students enter each grade. If students enter the program in 9th Grade, they can complete the program by the time they graduate.

	9th Grade	10th Grade	11th Grade	12th Grade
1st Year	Pre-Engineering Gr 1	Pre-Engineering Gr 1	Pre-Engineering Gr 1	Pre-Engineering Gr 1
	Pre-Engineering Gr 2	Pre-Engineering Gr 2	Pre-Engineering Gr 2	Pre-Engineering Gr 2
2nd Year	Engineering Graphics	Engineering Graphics and/or Architectural Drafting	Engineering Graphics and/or Architectural Drafting	
3rd Year	Architectural Drafting	Architectural Drafting and/or Advanced Engineering & Architectural Modeling	Architectural Drafting	
4th Year	Advanced Engineering and Architectural Modeling			

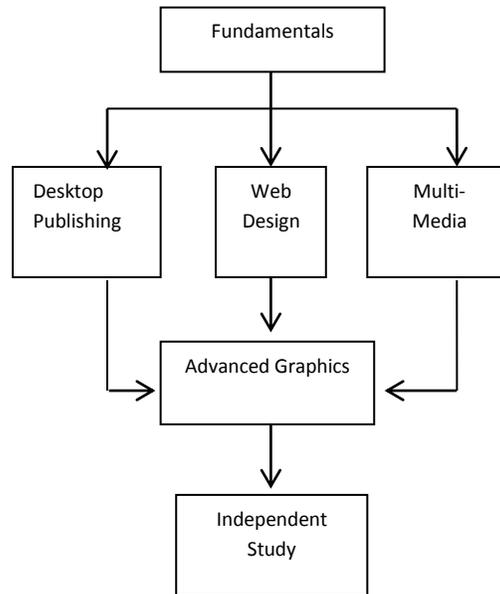

Technology Education

Shown below are course sequences for the Technology Education Programs. Students are encouraged to take entry level courses as early as possible to allow for further courses as need or interest develops.

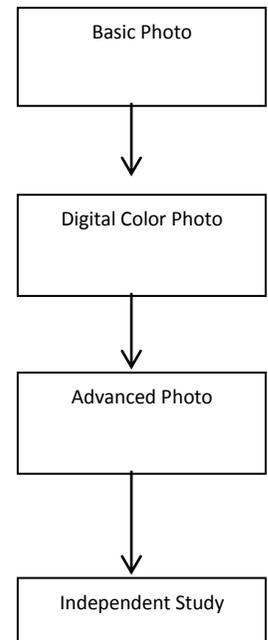

Engineering Graphics

Technology Education

ENGINEERING GRAPHICS PROGRAM

NOTE: Software titles currently used in our Engineering Graphics and Architecture courses include: AutoCAD 2011, Inventor Professional 2010, Revit Architecture, and 3D Studio Max.

<p>PRE-ENGINEERING GRAPHICS 1 Course # 6601 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces the student to the fundamentals of mechanical drafting while using AutoCAD software in our CAD Lab. The student will be taught many AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. Mechanical drawing problems will range from 2D drawings, orthographic projection, sectional view, and pictorial views (isometric and oblique). Freehand sketching on graph paper is also integrated into each assignment. Students will also be introduced to 3D modeling and 3D printing (rapid prototyping). A portfolio of all the student work will be bound together to be taken home at the end of the semester. A student-created 3D model will also be taken home by every student.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply fee: \$10.00.</p>
<p>PRE-ENGINEERING GRAPHICS 2 Course # 6611 1st or 2nd semester Credit: 0.5</p>	<p>This course will continue to introduce the student to the fundamentals of mechanical drafting while using AutoCAD software in our CAD Lab. The student will be taught additional AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. Mechanical drawing problems will range from auxiliary views, rotations, developments and intersections, and dimensioning techniques of orthographic projection problems. Freehand sketching on graph paper is also integrated into each assignment. A portfolio of all the student work will be bound together to be taken home at the end of the semester.</p> <p>Prerequisites: 6601. Open to grades 9, 10, 11 and 12. Supply Fee: \$10.00.</p>
<p>ENGINEERING GRAPHICS Course # 6620 Full year Credit: 1.0</p>	<p>The goal of the Engineering Graphics course is to expand the student's knowledge in the following areas: computer software usage, manufacturing processes, engineering and design, application of acquired knowledge in making production drawings, and career opportunities in a variety of engineering fields. Students in this class will be expected to work at an accelerated pace on individual projects and some small group work. The computer is the primary means of graphic problem solving using AutoCAD software. Students will be instructed on proper techniques using Autodesk Inventor to create 3D models. This software will lead students to the creation of model racecars that demonstrate the power of this software package. A series of problems which require model construction will also be part of the curriculum including the use of 3D printing technology (rapid prototyping). In addition, students will use 3D digitizer technology for reverse engineering applications. A portfolio of all the student work will be bound together to be taken home at the end of the year.</p> <p>Prerequisites: 6601 and 6611. Open to grades 10, 11 & 12. Supply Fee: \$18.00.</p>

Technology Education

<p>ARCHITECTURAL DRAFTING Course # 6630 Full year Credit: 1.0</p>	<p>In the course, Architectural Drafting, the student will learn how to design and draw a complete set of architectural drawings necessary to construct a residential home. Room planning, flow patterns, design concepts, floor plans, construction details, elevations and presentation drawings will be completed during the first semester using a computer and AutoCAD software. Second semester students will construct a scaled (3/4"=1') model of the home they designed the first semester. In addition non-traditional building methods will be explored: Super Insulated housing, Earth Sheltered housing, Wind Energy, Solar Energy, Energy Efficiency and Green Building. Information related to home construction, home building, building cost, permits and home buying will be explored and discussed.</p> <p>Prerequisite: 6611 or departmental approval. Open to grades 10, 11 & 12. Supply Fee: \$18.00.</p>
<p>ADVANCED ENGINEERING AND ARCHITECTURAL MODELING Course # 6640 Full year Credit: 1.0</p>	<p>This course will provide the student with additional challenges as they are introduced to several 3D modeling software programs. Students will be required to use the skills learned in both their engineering and architectural graphics courses as they make the transition from 2D drawings to 3D. Students will explore software programs such as Inventor, Revit and 3D Studio Max, while developing 3D models and animating them. Students will use 3D digitizer technology for reverse engineering applications to accurately reproduce parts. They will also use 3D print technology (rapid prototyping) to generate models for visual inspection and functional testing. An electronic portfolio will record all work completed during the school year. Students will also leave the class with various 3D models they produced.</p> <p>Prerequisite: Engineering Graphics and Architectural Drafting and/or instructor approval. Open to grade 12 and/or departmental approval. Supply Fee: \$18.00.</p>

Technology Education

Integrated Art and Technology Education Program

The Integrated Art and Technology Education Program is offered as an elective course of study to all students at Hinsdale Central. Our program is interested in the use of technology as a tool or medium in various art/technology-related areas of study, including Graphic Communications, Photography, and Digital Imaging.

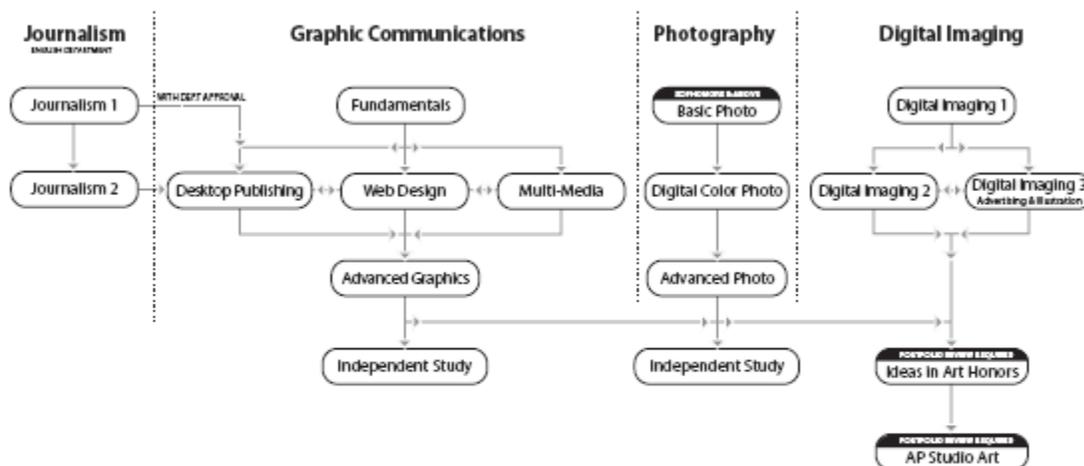

Articulated credits at College of DuPage are available to Hinsdale Central students who complete certain courses at Hinsdale Central with a minimum grade of a B and who, upon graduation, attend C.O.D.

The following courses offer articulated credit at College of DuPage:

- Digital Imaging 3: Advertising and Illustration
- Basic Photography
- Digital Color Photography

Each class has a lab fee charged to students for materials.

The mission of the Integrated Art and Technology Education Program at Hinsdale Central High School is to create opportunities for students to use technology as a tool to demonstrate creative expression and/or technical skill. Courses offered in this program will provide students with experiences in digital media and technology, including: photography, graphic communications, design and illustration, digital imaging, web design, multimedia, animation, and other relevant digital media and technology.

Integrated Art & Technology Education Program
Program Course Sequences

Technology Education

<p>GRAPHIC COMMUNICATIONS FUNDAMENTALS (GCF) <i>Course # 6661</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course provides students with a foundation of essential skills needed for creating print and web documents. Special emphasis is placed on furnishing students with a survey of realistic experiences using Adobe Illustrator and PhotoShop. Areas of study include technical illustration, typography, color models, photo retouching and image preparation. This course focuses on development of sound fundamental skills used in later Graphic Communications courses. Prerequisite: None. Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00</p>
<p>GRAPHIC COMMUNICATIONS - DESKTOP PUBLISHING (GCDP) <i>Course # 6650</i> 1st or 2nd semester Credit: 0.5</p>	<p>Learn to design, layout and prepare documents for print. Use of Adobe InDesign and related Adobe products is stressed. Topics include typography and typographic controls, color usage, preparation of photographic and line art, working with copy, setting up master pages and style sheets, paper characteristics, and binding processes. This course covers essential skills used in producing the Devil's Advocate (newspaper) and El Diablo (yearbook) and is especially recommended for students who are interested in editorial positions. Prerequisite: GCF or Journalism 1 (J1 taken concurrently with dept. approval) Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00</p>
<p>GRAPHIC COMMUNICATIONS - WEB DESIGN (GCW) <i>Course # 6662</i> 1st or 2nd semester Credit: 0.5</p>	<p>Create professional looking web sites! Web Design provides students with an overview of essential disciplines found in web development and the skills necessary to visually create web sites using Adobe Dreamweaver. Although this is not a programming course, basic coding principles will be covered. Areas of study include Internet history, information architecture, site mapping and wireframe development, user experience (UX), search engine optimization (SEO), and development of fluency with Dreamweaver. Prerequisite: Graphic Communications-Fundamentals (GCF). Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00</p>
<p>GRAPHIC COMMUNICATIONS - WEB-BASED MULTIMEDIA (GCOMM) <i>Course # 6681</i> 1st or 2nd semester Credit: 0.5</p>	<p>Create motion graphics and video! This course give students the skills to create animated graphics, Flash animations, and produce simple videos. Students will gain experience using industry standard software like Adobe Image Ready, and Flash to create many to the types of motion graphics found on the web. Students will also be introduced to digital video, learn how to capture and edit their footage, ultimately producing their own short commercials. Prerequisite: Graphic Communications-Fundamentals (GCF). Open to grades 9, 10, 11 & 12. Supply Fee: \$10.00</p>
<p>GRAPHIC COMMUNICATIONS - ADVANCED GRAPHICS (GCA) <i>Course # 6660</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed for those students who wish to apply the skills learned in their study of Graphic Communications more deeply to real world projects. Students will focus on several areas of interest and develop real world products in a client-project manager arrangement. Prerequisite: Graphic Communications-Fundamentals (GCF) and one of the following: GCW, GCOMM, GCDP. Open to grades 10, 11 & 12. Supply Fee: \$10.00</p>
<p>GRAPHIC COMMUNICATIONS - INDEPENDENT STUDY (GCIS) <i>Course # 6905/6906 - Graphic Communications</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is intended for students who have exhausted other course offerings and wish to further skills learned in the Graphic Communications program in an independent atmosphere. Prerequisite: Departmental Approval. Open to grades 11 & 12. Supply Fee: \$10.00</p>

Technology Education

<p>BASIC PHOTOGRAPHY Course # 6691 1st or 2nd semester Credit: 0.5</p>	<p>Basic Photography is for students interested in learning the techniques necessary to produce technically correct and aesthetically pleasing photographs, as well as the responsibility of caring for photographic equipment using the 35 mm SLR camera. Areas of study will include, but are not limited to: the composition of good photographs; the processing of black and white photographic materials; and proper application of equipment, supplies and special darkroom techniques. Equipment and supplies will be provided and cameras will be available for students who do not have access to a 35 mm SLR camera.</p> <p>Prerequisites: None. Open to grades 10, 11 & 12. Supply Fee: \$35.00.</p>
<p>DIGITAL COLOR PHOTOGRAPHY Course # 6701 1st or 2nd semester Credit: 0.5</p>	<p>This course for someone interested in the modern methods of Digital Color Photography. The student will use a digital camera to capture images. After capture, editing will be accomplished in the digital darkroom using the computer and the software Photoshop.</p> <p>Areas of study include, but are not limited to: the principles of color and light; elements of a good photograph; capturing images with a digital camera; editing a photograph for presentation with Photoshop; printing a digital file in color; and preparing a photograph for display.</p> <p>The studio will be used to further the use of shade and shadow, light ratios, and photographic composition techniques. Still life and portrait techniques will be explored.</p> <p>Equipment and supplies will be furnished. Cameras are available for students who do not own or have access to a digital camera. Basic Photography and Digital Color Photography together have articulated credit with the College of DuPage.</p> <p>Prerequisite: Basic Photography. Open to grades 10, 11 & 12. Supply Fee: \$35.00.</p>
<p>ADVANCED PHOTOGRAPHY Course # 6812 2nd semester Credit: 0.5</p>	<p>In this advanced level course, students will be expected to improve upon their current level of photographic ability. In terms of technique, this will involve the introduction of the medium format camera and the zone system (a procedure which will allow students to make more carefully controlled photographic prints.) Additionally, some non-traditional films, papers, and emulsions will be introduced. In terms of content, through class assignments and independent works students will begin to use the photographic medium to more effectively articulate ideas. Students may work with black and white film, color film, and digital cameras to capture images.</p> <p>Prerequisites: Basic Photography and Color Photography with instructor approval. Open to grades 11 and 12. Supply fee: \$40.00.</p>
<p>PHOTOGRAPHY INDEPENDENT STUDY Course # 6907/6908 Credit: 0.5</p>	<p>This course is designed for students who have completed course sequence in photography program and desire further independent course work.</p> <p>Prerequisite: DEPARTMENT APPROVAL. Open to grades 11 & 12. Supply Fee: \$40.00</p>

Technology Education

<p>DIGITAL IMAGING 1 Course # 5121 1st or 2nd semester Credit: 0.5</p>	<p>Digital Imaging 1 introduces students to the artistic potential of the computer. Artistic and creative problem solving strategies are developed which can help students in all areas of learning. Students take their own digital photographs. Each student will use his/her digital photographic images to create original works of art using the software Adobe Photoshop CS3. Students will create a cartoon in Adobe Illustrator CS3 and a digital portfolio is created in Adobe Flash MX.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, 12. Supply Fee \$17.00</p>
<p>DIGITAL IMAGING 2 Course # 5132 2nd semester Credit: 0.5</p>	<p>Digital Imaging 2, a continuation of Digital Imaging 1, further explores the artistic potential of the computer and creative problem solving strategies. Students will increase their artistic knowledge and skills while working on independent project ideas based on his/her theme in art. Traditional art materials will be explored or added as students are encouraged to think outside the “digital box”. Students take their own digital photographs. Each student will use his/her digital photographic images to create original works of art. Working knowledge of Adobe Photoshop CS3, Adobe Illustrator CS3, and Adobe Flash, will be needed.</p> <p>Prerequisite: Digital Imaging 1: Open to grades 9, 10, 11, 12. Supply Fee: \$17.00</p>
<p>DIGITAL IMAGING 3: ADVERTISING AND ILLUSTRATION Course # 5331 1st or 2nd semester Credit: 0.5</p>	<p>Digital Imaging 3 is a graphic design advertising art class. Students interested in a career in Graphic Design, learn the essential skills of design as it relates to advertising. The computer is used as a tool to create and solve real world design problems. Traditional illustration or drawing techniques will also be explored. Design principles have been introduced and learned, through a series of small projects. Afterwards, the course will be run like an advertising design business with a client/designer relationship underlying major projects. Working knowledge of Adobe Photoshop CS3, Adobe Illustrator CS3, and Adobe InDesign will be needed.</p> <p>Prerequisite: Digital Imaging 1: Open to grades 9, 10, 11, 12. Supply Fee: \$17.00</p>

Technology Center of DuPage

Hinsdale High School District No. 86 participates with other high school districts in DuPage County to support an area technology center. Technology Center of DuPage provides comprehensive vocational-technical education for high school students whose career objectives are related to vocational-technical fields. Students are bused to the center (located in Addison) for half-day sessions each day (periods five through ten). During the other half of the school day (periods one through four), students attend classes and lunch and participate in extra-curricular activities at Hinsdale Central. Credits earned at TCD can be used to satisfy the units required for graduation. All TCD courses will satisfy the District 86 graduation requirement in Applied Arts. A maximum of 3.0 units of credit can be earned yearly through TCD course work and 3.0 additional units of credit can be earned per year through Hinsdale Central course work.

Students are expected to follow Hinsdale Central's disciplinary code both at Hinsdale and at TCD. If a student violates school policy and is not permitted to ride the school bus, the student will be withdrawn failing from his TCD courses.

TCD offers junior -senior level programs in the following areas: "Kit fees" from the 2011- 2012 school year are listed below for each area. Cost is range for first and second years.

PROGRAMS	1 st Year	2 nd Year
Construction Trades	\$190 - \$350	\$135. - \$145
Landscape Design & Management	\$125 - \$235	\$60 - \$100
Computer Integrated Manufacturing	\$150 - \$175	\$75 - \$100
Pre-Architectural & Pre-Engineering Technology CAD	\$125	\$75 - \$85
Computer Information Systems	\$12 - \$15	\$12 - \$15
Data Entry	\$50 - \$125	\$5 - \$15
Office Systems Technology	\$95 - \$125	\$5 - \$15
Graphic Communications	\$75 - \$90	\$35 - \$50
Multimedia & TV Production	\$150 - \$165	\$65 - 75
Certified Nurse Assistant	\$250 - \$260	
Medical & Health Care Careers	\$120 - \$150	
Criminal Justice	\$150 - \$185	\$65 - \$100
Fire Science	\$250 - \$300	\$250 - \$300
Auto Body Repair Refinishing	\$160 - \$175	\$160 - \$175
Automotive Technology	\$275 - \$330	\$60 - \$165
Cosmetology	\$475 - \$500	\$200 - \$300
Culinary, Pastry Arts, & Hospitality Management	\$250 - \$350	\$250 - \$350
Early Childhood Education & Care	\$75 - \$95	\$25 - \$30
Electronics & Pre-Engineering Technology	\$70 - \$80	\$85 - \$90
HVACR	\$215 - \$270	\$110 - \$120
Residential Wiring & Home Technology	\$350	

TECHNOLOGY CENTER OF DU PAGE CAREER PROGRAMS
Course # 9010
 Credit: 3.0

The requirements and objectives associated with the specific Technology Center of DuPage (TCD) programs listed above vary greatly. Students who wish further information about a particular program and/or wish to register for a TCD program must see their counselor. All students must fill out a separate TCD form with parent signature and return to their counselor.
Prerequisite: None. Open to grades 11 & 12.

T.C.D. Department

TECHNOLOGY CENTER OF DUPAGE (TCD) 2011 - 2012

GENERAL INFORMATION

The twenty one programs operating at TCD are open to juniors and seniors. The TCD campus is located in Addison, Illinois, approximately thirty minutes from Hinsdale Central. Students are scheduled through their counselors to have fourth period lunch and attend TCD the remainder of the day. TCD offers three elective credits which count towards the elective arts graduation requirement. TCD is a yearlong program; therefore, students should enroll in February for the following year during their registration conference with their counselor. Each student must fill out a TCD application signed by a parent and their counselor. Although there are no specific requirements for TCD enrollment (other than being of junior or senior status), students are advised to work closely with their counselors to fit in all graduation requirements. Please refer to the TCD website: <http://www.tcdupage.org> for more information.

CUSTOMIZE YOUR CURRICULUM

TCD helps students learn on two levels. First, it provides hands-on basics to offer experiences that go beyond theory. Secondly, it helps provide a practical workplace to sharpen skills necessary for a chosen career. TCD incorporates a self-paced, goal by goal learning style which encourages self-management and productivity.

ACCREDITATION

TCD is fully accredited by the North Central Association Commission on Accreditation and School Improvement (NA-CASI). It is one of the Midwest's finest schools for career and technical education, and the recipient of the Lincoln Award for Commitment to Excellence from the Lincoln Foundation.

EARN COLLEGE CREDIT AND SCHOLARSHIPS

Many programs offer dual credit through College of DuPage that can be transferred to other colleges and universities accepting COD course work. Other colleges offer advanced standing or credit upon enrollment, including Lewis University, Ferris State University, Triton Junior College, Kendall College, William Rainey Harper College, Johnson & Wales University, and the Cooking & Hospitality Institute of Chicago.

COLLEGE ARTICULATED CREDIT THROUGH TCD PROGRAMS

Hinsdale Township High School District 86 and the College of DuPage have an agreement, articulated credits, in which Hinsdale Central students may receive credit for courses taken in high school once they are enrolled in the College of DuPage. A minimum grade of B must be earned in a TCD course in order to receive COD credit. There is no formal sign up process for the students to be eligible to receive this credit. TCD courses can provide between two and six semester credit hours depending on the program. Other colleges in addition to COD accepting articulated credit from TCD courses include Triton College, Lewis University, Harper college, Johnson and Wales University, Kendall College and The cooking and Hospitality Institute of Chicago.

SCHOLARSHIPS AND AWARDS

A TCD student can gain recognition and win scholarships like the Hospitality Club and Skills USA. TCD instructors are also aware of many industry-related and organizational scholarships specifically for students in career and technical education.

GRADUATE SUCCESSES

- **One year after graduation:**
- **59% continued their education**
- **32% work full-time, a third of those in their related field**
- **2% work and go to school**
- **3% enter the military**

CAREER ACCELERATION PROGRAMS

TCD offers twenty one of the fastest growing occupations. The knowledge a student will gain can also be applied to a wider range of career choices.

PROFESSIONAL LICENSING

Through TCD a student can earn industry-recognized credentials that open doors. TCD programs help students prepare for career-related state, federal, professional or national licensing exams.

ACCREDITATION

TCD is part of Hinsdale Central's elective courses. TCD is not a trade school, nor is it a college. TCD focuses on teaching career skills as well as enhancing basic principles of academics. There is no charge to attend TCD. However, programs do have fees for supplies, tools or uniforms as noted in each course description. TCD is a great option for students wishing to pursue a more "career oriented" curriculum. Interested students should work closely with their counselors regarding which program might be best suited for their needs.

World Languages

Chris Paxton, design

Hinsdale Central World Languages Department Department Mission Statement

Our mission as a department is to enable students to acquire, develop, expand, and apply their knowledge of a new language.

We do this by working collaboratively within our learning community to:

- Maximize student potential for learning and language acquisition
- Guide student learning by modeling good study habits and effective learning skills.

We do this so that students can integrate and transfer knowledge of a new language throughout their lives, and gain a broader perspective and understanding of world cultures within a respectful community of learners.

Two years of the same language will fulfill the entrance requirement of the state public universities in Illinois. Most other universities require world language study for admission and may require it for graduation from specific degree programs. ***High school students preparing for college should include one or more world languages in their preparation.***

Students entering ninth grade with previous world language experience can complete the equivalent of six years of high school work, which may include Advanced Placement work. Students who complete the upper levels of a language often test out of the world language requirements, receive college credit, and/or are placed in advanced language courses in college. A sequence of honors level courses is available in all languages offered by the Department.

Two or more world languages may be taken simultaneously. The latest research indicates that studying two languages at the same time is beneficial and that world language study has positive effects on a student's English language skills. Completing the third and fourth year in a sequence significantly improves achievement and fluency. Etymology, a semester course, is highly recommended to all students who wish to increase their knowledge and understanding of vocabulary.

The first semester of a language must be passed before a student may take the second semester of the same language. Credit must be earned in both semesters of one level of a language before advancing to the next level.

World Languages

<p>FRENCH 1 Course # 4110 Full year Credit: 1.0</p>	<p>French 1 offers a basic introduction to the vocabulary and grammar of the language. The pace of the course begins moderately and increases as students have more experience with the language. Students will be taught basic reading and writing strategies using textbook examples. Reading, writing, speaking and listening skills are practiced and assessed regularly. Readings and projects center on cultural information. Although grammar concepts may be taught in English, students are always expected to use French in class to the extent possible. This course is conducted mostly in French. Prerequisite: None. Open to grades 9, 10, 11 & 12 Students who repeat French 1 may not take French 2 Honors the following year.</p>
<p>FRENCH 1 - H Course # 4115 Prerequisite: Yes Credit: 1.0 Grade Offered: 9-12</p>	<p>The sequential core material for this course is the same as French 4110. The pace is accelerated to allow for the reading and discussion of some short stories and short books, as well as other activities to challenge the more capable student. This course is conducted in French to a greater extent than is French 4110. Prerequisite: This class is for students who have not previously studied French. Departmental approval or recommendation of the junior high school teacher. Open to grades 9, 10, 11 & 12.</p>
<p>FRENCH 2 Course # 4120 Full year Credit: 1.0</p>	<p>This course is an articulated continuation of the French 1 program and continues building the same skills. Students are expected to participate actively in class activities and function in French to a great extent, and all four skills are evaluated. Prerequisite: A grade of C or better in French 1, or recommendation of the junior high school teacher. Open to grades 9, 10, 11 & 12.</p>
<p>FRENCH 2 - H Course # 4125 Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as French 4120. The pace is accelerated to allow for the reading and discussion of some short stories and short books, as well as other activities to challenge the more capable student. This course is conducted in French to a greater extent than is French 4120. Prerequisite: Departmental approval or recommendation of the junior high school teacher. Open to grades 9, 10, 11 & 12.</p>
<p>FRENCH 3 Course # 4130 Full year Credit: 1.0</p>	<p>This course is the study of the geography and culture of France interwoven concurrently with the study of grammar. Class activities include daily discussions of reading assignments enriched through film, French TV, news clips, slides and newspaper articles. In addition, students do oral presentations and write short compositions. During second semester, students read and discuss <i>Le Petit Prince</i>. The course is conducted extensively in French. Prerequisite: A grade of C or better in French 2. Open to grades 9, 10, 11 & 12.</p>
<p>FRENCH 3 - H Course # 4135 Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as French 4130. The pace is accelerated; the breadth and scope of the coverage is expanded, and some material is added to challenge the capabilities of the more able students. The course is conducted extensively in French. Prerequisite: Departmental approval. Open to grades 9, 10, 11 & 12.</p>
<p>FRENCH 4 Course # 4140 Full year Credit: 1.0</p>	<p>French 4 is the study of the history, and art of France throughout the centuries (pre-history to present times). Class activities include discussions of prepared reading selections, oral presentations, and the intensive study of one film. The course of study also emphasizes systematic grammar review and limited composition practice. Prerequisite: A grade of C or better in French 3. Open to grades 10, 11 & 12.</p>

World Languages

<p>FRENCH 4 - H <i>Course # 4145</i> Full year Credit: 1.0</p>	<p>French 4 Honors is the study of the history, and art of France throughout the centuries (pre-history to present times). Class activities include discussions of prepared reading selections, oral presentations, and the intensive study of one film. The course of study covers systematic grammar review and more extensive composition practice than French 4. Inasmuch as this course leads sequentially to the AP French 5 course, the course content is supplemented with more challenging reading materials and special emphasis is put on oral proficiency.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 & 12.</p>
<p>FRENCH 5 <i>Course # 4150</i> Full year Credit: 1.0</p>	<p>French 5 is a course that integrates the study of literature, advanced grammar and current events in France. The readings consist of short stories, and a novel from the 20th century organized around the themes of human relationships, moral dilemmas and existentialism. Class activities include discussions of texts in French, the study of one film per semester and improving grammar and writing proficiency. The course is conducted extensively in French</p> <p>Prerequisite: A grade of C or better in French 4. Open to grades 11 & 12.</p>
<p>ADVANCED PLACEMENT FRENCH LANGUAGE <i>Course # 4155</i> Full year Credit: 1.0</p>	<p>Advanced Placement French Language, a study of literature of the 19th and 20th centuries, provides intensive and extensive reading, discussion and analysis in French of selected literary masterpieces by Mérimée, Rostand, and Voltaire. Students also write compositions in French on non-literary topics and study some current events with excerpts from French television. Advanced grammar review is continued. Course content is designed to improve all four language skills with special emphasis on idiomatic usage, and to prepare students for the Advanced Placement language exam in French.</p> <p>Prerequisite: Departmental approval. Open to grades 11 & 12.</p>
<p>GERMAN</p>	
<p>GERMAN 1 <i>Course # 4210</i> Full year Credit: 1.0</p>	<p>German 1 offers an introduction to the basic grammar and vocabulary of the language. Students are actively engaged in learning activities that allow them to practice and use German. Students use the language in structured activities, interactive conversations, and short presentations. Reading and writing exercises use material previously practiced orally. Assessment measures listening, speaking, reading and writing. The course is conducted extensively in German.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 & 12.</p>
<p>GERMAN 1 - H <i>Course # 4215</i> Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as German 4210. The pace is accelerated and the breadth and scope of the coverage is expanded. Some material is added to challenge the capabilities of the more able students.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11 & 12.</p>
<p>GERMAN 2 <i>Course # 4220</i> Full year Credit: 1.0</p>	<p>This course is a continuation of the first level course, developing more complex oral, reading, and writing skills. The course is conducted almost entirely in German. Supplementary reading of simple selections may be used to introduce the student to the world of German literature and to improve the student's ability in speaking and writing.</p> <p>Prerequisite: A grade of C or better in German 1. Open to grades 10, 11 & 12.</p>

World Languages

<p>GERMAN 2 - H Course # 4225 Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as German 4220. The pace is accelerated; the breadth and scope of the coverage is expanded and some material is added to challenge the capabilities of the more able students.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 & 12.</p>
<p>GERMAN 3 Course # 4260 Full year Credit: 1.0</p>	<p>German 3 is designed to develop greater fluency in oral proficiency, reading, writing, and further appreciation of German history and culture. The course features a selection of prose and poetry by contemporary and earlier German writers, and a systematic review and extension of basic grammar patterns. In addition to a basic text, one or more literary readers or plays may be used. Activities center around classroom discussion of reading selections, oral presentations, and original skits by students. The course is conducted extensively in German.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 & 12.</p>
<p>GERMAN 3 - H Course # 4265 Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as German 3. The pace is accelerated; the breadth and scope of the coverage is expanded. Some material is added to challenge the capabilities of the more able students. The course is conducted extensively in German.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 & 12.</p>
<p>GERMAN 4 Course # 4270 Full year Credit: 1.0</p>	<p>German 4 provides an introduction to contemporary German life, literature and culture. The objective is to increase the student's skills in oral and written expression, and to give systematic cultural information and grammatical review. In addition to a basic cultural reader, selections of modern German short fiction will acquaint the student with present day trends and attitudes. Class activities center around classroom discussion of reading selections, including current news magazines. The materials and activities utilized in this course will help students to further improve and refine all four language skills. The course is conducted extensively in German.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 & 12.</p>
<p>GERMAN 4 - H Course # 4275 Full year Credit: 1.0</p>	<p>The sequential core material is the same as German 4. The pace is accelerated; the breadth and scope of coverage is expanded. Some material is added to challenge the capabilities of the more able students. Material and activities utilized in this course will help students to further improve and refine all four language skills. The course is conducted exclusively in German.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 & 12.</p>

World Languages

LATIN	
LATIN 1 Course # 4310 Full year Credit: 1.0	Latin 1 is primarily designed to develop a student's ability to read and comprehend the Latin language. Students begin by learning the peculiar demands of an inflected language, and are then introduced to Latin morphology, the declensions of its nouns and the conjugation of its verbs. Gradually, elements of syntax and grammar introduce the students to the fundamental requirements needed to read. Concurrent with these pursuits will be an ongoing discovery of the structure of the English language and its many borrowings from the Latin structure. Students' grasp of English grammar will grow substantially. An ever-evolving Latin vocabulary helps students understand essential concepts in etymology, derivatives, and building a stronger and more precise vocabulary in English. Roman and Greek mythology and Roman daily life comprise the cultural component of the course. Prerequisite: None. Open to grades 9, 10, 11, &12.
LATIN 1 - H Course # 4315 Full year Credit: 1.0	The sequential core material for this course is the same as Latin 4310. The pace is accelerated; the breadth and scope of the coverage is expanded and some material is added to challenge the capabilities of the more able students. Prerequisite: Departmental approval. Open to grades 9, 10, 11 & 12.
LATIN 2 Course # 4320 Full year Credit: 1.0	This course builds on the grammatical and structural foundations established in Latin I. An emphasis is placed on reading and comprehending Latin. Students will learn advanced grammar and move on to their first experience with unadulterated Latin. The cultural focus of the course will be the formation and development of the Roman Republic. Prerequisite: A grade of C or better in Latin 1. Open to grades 10, 11, &12.
LATIN 2 - H Course # 4325 Full year Credit: 1.0	The sequential core material for this course is the same as Latin 4320. The pace is accelerated; the breadth and scope of the coverage is expanded and some material is added to challenge the capabilities of the more able students. Prerequisite: Departmental approval. Open to grades 10, 11 & 12.
LATIN 3-4 LATIN LITERATURE Course # 4340 Full year Credit: 1.0 <div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 10px auto;">Offered 2012 - 2013</div>	This course is a survey of Latin literature sampling several genres including letters, oratory, epigram, history, narrative, philosophy, lyric and elegiac poetry. The survey is designed to further develop students' translation abilities as they review essential grammar and vocabulary. The work will explore the boundaries of each genre and its specific application. Attention will also be paid to the larger historical context of the authors and their works to provide students with an upper level understanding of Roman thought and custom. Prerequisite: Latin 2 and departmental approval. Latin 4340 and 4360 are offered in alternate years only. In 2011-2012 Latin 3-4 Vergil (4360) will be offered. In 2012-2013 Latin 3-4 Latin Literature will be offered. Open to grades 11 & 12.
LATIN 3-4 VERGIL Course # 4360 Full year Credit: 1.0 <div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 10px auto;">Offered 2011 - 2012</div>	This course involves a thorough reading and analysis of Vergil's major work, the Aeneid. The course works to establish the larger historical, literary, and political context through which the purpose of the poem can be understood. Special attention will be paid to Vergil's use of meter, rhetorical and poetic figures of speech, poetic imagery, diction, as well as his manipulations of the Latin language. Prerequisite: Latin 2 and departmental approval. Latin 4340 and 4360 are offered in alternate years only. In 2011-2012 Latin 3-4 Vergil (4360) will be offered. In 2012-2013 Latin 3-4 Latin Literature will be offered. Open to grades 11 &12.

World Languages

<p>Latin Literature Honors Course # 4355 Full year Credit: 1.0</p> <p style="border: 1px solid black; padding: 2px; text-align: center;">Offered 2012 - 2013</p>	<p>The sequential core material of this course is the same as Latin 4340. The pace is accelerated; the breadth and scope of the coverage is expanded, and some material is added to challenge the capabilities of the more able students.</p> <p>Prerequisite: Latin 2 and departmental approval. Latin Literature Honors 4355 and AP Latin Vergil 4365 are offered in alternate years only. In 2011-2012 AP Latin Vergil (4365) will be offered. In 2012-2013 Latin Literature Honors will be offered. Open to grades 11 & 12.</p>
<p>ADVANCED PLACEMENT LATIN VERGIL Course # 4365 Full year Credit: 1.0</p> <p style="border: 1px solid black; padding: 2px; text-align: center;">Offered 2011 - 2012</p>	<p>Preparatory to the Advanced Placement exam, the Advanced Placement Vergil course involves a thorough reading and analysis of the poet's major work, the Aeneid. After reading Homer's <i>Iliad</i> and <i>Odyssey</i> in translation, the course works to establish the larger historical, literary, and political context through which the purpose of the poem can be understood. Special attention will be paid to Vergil's use of meter, rhetorical and poetic figures of speech, poetic imagery, diction, as well as his manipulations of the Latin language. Essay writing will be developed in line with the close literary analysis required by the College Board. Pending a decision by the AP College Board, some as of yet undetermined number of lines from Caesar's works will be added.</p> <p>Prerequisite: Latin 2 and departmental approval. Latin Literature Honors 4355 and AP Latin 4365 are offered in alternate years only. In 2011-2012 AP Latin Vergil (4365) will be offered. In 2012-2013 Latin Literature Honors will be offered. Open to grades 11 & 12.</p>
ETYMOLOGY	
	<p>Etymology is designed to increase one's knowledge and understanding of English vocabulary through the study of the most important Greek and Latin roots. Students learn to discover meanings of words through recognition and interpretation of their elements. The skills learned in Etymology equip students to decode vocabulary words encountered elsewhere (transfer of knowledge). The ability to memorize is a necessary fundamental skill. Recommended for all qualifying students who would like to develop their vocabulary before taking standardized tests</p> <p>Prerequisite: A grade of C or better in the foreign language most recently studied, or (if no foreign language) consent of the department chair. Open to grades 9, 10, 11 & 12, and especially recommended to sophomores.</p>

World Languages

SPANISH	
<p>Introduction to Spanish Course # 4505 Full year Credit: 1.0</p>	<p>Introduction to Spanish 1 is a first year Spanish course designed to emphasize Spanish 1 vocabulary, grammatical concepts, and foreign language study skills in order to provide necessary and additional support to new language learners. The course is designed to provide students with vocabulary and grammar acquisition skills that are crucial to the student's success in future second language study. The course will also focus on developing student responsibility for his or her own learning. Students will learn organization and study skills that will support successful study of a language. Students who successfully complete this course will be able to continue and complete their study of Spanish 1 the following year. The textbook for this course is Realidades Level 1.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 & 12. (This course is not open to students who have previously taken Spanish courses.)</p>
<p>SPANISH 1 Course # 4510 Full year Credit: 1.0</p>	<p>An introductory course which develops communication skills with an emphasis on listening and speaking. The student is taught to use the language actively through extensive oral work in daily dialogue, grammar patterns, and idioms. Reading and writing exercises use materials previously practiced orally. Evaluation measures listening, speaking, reading, and writing. The course is conducted extensively in Spanish. This course is for students who have not taken a full year of Spanish before or have taken Spanish at the junior high level but received a grade of B- or lower. The textbook and workbook for this course is <u>Realidades Level 1</u>.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 & 12. Students who repeat Spanish 1 may not take Spanish 2 Honors the following year.</p>
<p>SPANISH 2 Course # 4520 Full year Credit: 1.0</p>	<p>This course is a continuation of the first level course, developing more complex oral, reading and writing skills. Students are expected to participate actively in class activities and to function in Spanish to a greater extent, and all four skills are evaluated. Supplementary reading of simple selections and books will be used to improve students' ability in reading, speaking, and writing. This course is conducted almost entirely in Spanish.</p> <p>Prerequisite: A grade of C or above in Spanish 1 or recommendation of the junior high teacher. Open to grades 9, 10, 11 & 12</p>
<p>SPANISH 2 - H Course # 4525 Full year Credit: 1.0</p>	<p>Although the core material for this course is the same as Spanish 4520, this course uses a higher level text. In addition, students will be taught specific strategies for reading, writing and listening. The pace is also accelerated to allow for the reading and discussion of authentic literary selections. Reading, writing, speaking, and listening skills are practiced and assessed regularly. This course is designed for students who have had success in Spanish 4510 (or Jr. High equivalent) and who demonstrate the characteristics of a self-directed, mature student. This course is conducted almost entirely in Spanish.</p> <p>Prerequisite: Departmental approval. Recommendation of the junior high teacher for freshmen. Open to grades 9, 10, 11 & 12.</p>

World Languages

SPANISH, continued

<p>SPANISH 3 <i>Course # 4530</i> Full year Credit: 1.0</p>	<p>Spanish 3 is structured to maintain and improve the listening and speaking skills already developed in the first and second years, and to give increased emphasis to the development of reading and writing, while honing grammar skills. The basic text materials include short reading selections, as well as speaking activities and grammar explanations. The classes are conducted extensively in Spanish, making use of structured drills and conversation stimuli to accompany the increased reading and writing exercises.</p> <p>Prerequisite: A grade of C or better in Spanish 2. Open to grades 9, 10, 11 & 12.</p>
<p>SPANISH 3 - H <i>Course # 4535</i> Full year Credit: 1.0</p>	<p>The sequential core material for this course is similar to Spanish 4530. The pace is accelerated; the breadth and scope of the coverage is expanded. Material is added to challenge students' capabilities. Additionally, students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. The class is conducted extensively in Spanish.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11 & 12.</p>
<p>SPANISH 4 <i>Course # 4540</i> Full year Credit: 1.0</p>	<p>Spanish 4 is a hybrid course. This course with the traditional study of grammar, as well as augmenting the students' vocabulary with an emphasis on oral communication skills. Additionally, Spanish 4 is a survey course focused on Spain that takes students from the Middle Ages to the present day through historical, cultural and authentic literary texts. Students learn to interact with literature using a variety of reading strategies and linguistic skills to develop an appreciation for and understanding of the Spanish culture. Students read, write and present throughout the year. The course is conducted in Spanish.</p> <p>Prerequisite: A grade of C or better in Spanish 3. Open to grades 10, 11 & 12.</p>
<p>SPANISH 4 - H <i>Course # 4545</i> Full year Credit: 1.0</p>	<p>The core material for this course is the same as Spanish 4540. This course uses higher level texts for both the literature and history. In addition, students will write essays in Spanish for each unit of study and create a portfolio of their work throughout the year. The pace is accelerated to allow for more profound discussion of the texts. Reading, writing, speaking and listening skills are practiced and assessed regularly. This course is designed for students who have had success in Spanish 4535 and who demonstrate the characteristics of a self-directed, mature student. Students are expected to communicate almost entirely in Spanish in the classroom. This course is conducted entirely in Spanish.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 & 12.</p>
<p>SPANISH 5 <i>Course # 4550</i> Full year Credit: 1.0</p>	<p>Spanish 5 is a survey course focused on the history and culture of Latin America from pre-Columbian time to present day. Students read historical, cultural and authentic literary texts. Students continue to develop reading strategies and linguistic skills that were emphasized in Spanish 4. Class is conducted in Spanish. Grammar is reviewed as needed.</p> <p>Prerequisite: A grade of C or better in Spanish 4. Open to grades 11 & 12.</p>

Course # 4555

Full year

Credit: 1.0

This course surveys the literature, culture and thought of Hispanic America. Students read selections from representative works and cultural texts, participate in classroom discussions, give oral reports and write essays of various lengths. The class is conducted extensively in Spanish and students are expected to be conversant in the language. The class will also prepare those students who wish to take the Advanced Placement exam in Spanish Language.

Prerequisite: A grade of A or B in Spanish 4-H and departmental approval. Open to grades 11 & 12.

**ADVANCED
PLACEMENT SPANISH
LITERATURE**

Course # 4565

Full year

Credit: 1.0

The AP Spanish Literature course is based on those representative works suggested by the AP board and required for the AP Spanish Literature exam. This course surveys the literature of Spain and Hispanic America in a sequential and thematic fashion. Students are required to read and write outside of class, take part in classroom discussions, present reports and compose essays in order to prepare for the Advanced Placement exam in Spanish Literature.

Prerequisite: A grade of A or B in AP Spanish Language and departmental approval. Open to grade 12.

Registration Information

2011 – 2012 academic calendar

<p><i>January</i></p>	<p>Program of Studies Handbook Copies of Hinsdale Central’s inclusive curriculum book will be posted online. This information should stimulate initial conversations between parents and students regarding appropriate courses for next year.</p>
<p><i>January</i></p>	<p>Curriculum Discussions Begin Individual teacher/student informal advising discussions are held.</p>
<p><i>January 12, 2011</i></p>	<p>Dissemination Homeroom Registration packets and actual registration forms are distributed in this homeroom. Parents are advised to ask their son/daughter to review this information together.</p>
<p><i>January 12, 2011</i></p>	<p>Eighth Grade Student and Parent Night An information program will be held for all parents and students at 7:00 p.m. at HCHS to explain the curriculum and the course selection process.</p>
<p><i>January 13, 2011</i></p>	<p>Advise and Sign Day On this day, students should carry their registration forms to each of their semester classes. Teachers will discuss curricular offerings in their departments. Teachers will also sign each student’s registration form signifying the appropriate course recommendations.</p>
<p><i>January 14, 2011</i></p>	<p>Collection of Registration Forms Every student hands in the completed registration form (all appropriate teacher and parent signatures are included).</p>
<p><i>January 24-28, 2011</i></p>	<p>Class of 2014 Counselor Conferences Class of 2014 will meet individually with their counselors at an assigned time to finalize their course selections. Individual appointments will be announced in the two homerooms.</p>
<p><i>January 31 – February 4, 2011</i></p>	<p>Class of 2012 Counselor Conferences Class of 2012 will meet individually with their counselors at an assigned time to finalize their course selections. Individual appointments will be announced in the two homerooms.</p>
<p><i>February 7-11, 2011</i></p>	<p>Class of 2013 Counselor Conferences Class of 2013 will meet individually with their counselors at an assigned time to finalize their course selections. Individual appointments will be announced in the two homerooms.</p>
<p><i>January 25 and 26, February 2,3,7 and 9 February 11, 2011</i></p>	<p>Eighth Grade Individual Registration Conferences Incoming Freshman, Class of 2015, conferences will take place in late January and early February at Hinsdale Central High School in the Library. These conferences will include student, parents and their high school counselor for 15 minute appointments. Each family will need to prove residency as part of the registration process.</p>
<p><i>April 2011</i></p>	<p>Course verification can be viewed online. Please Note: Student schedules ARE NOT finalized until books are purchased because balancing of the master schedule takes place during the summer. Class organization and student schedules will be finalized during July/August.</p>

Dear Students and Parents,

Hinsdale Central High School is a wonderful place to be a student where your academic course work prepares you to reach your future goals. Registering for next year's courses is a part of that experience.

The 2012-2013 edition of the Hinsdale Central Program of Studies book is an important resource for students and parents which we hope will assist you in making good course choices.

As you page through the Program of Studies, you will find that the book is divided into three distinct sections. The first contains general information about such topics as graduation requirements, dropping and adding courses, schedule changes, and college admission requirements. The second section provides descriptions of all course options available to students. The last section provides students and parents with registration information for next year, worksheets for course selection, the four-year plan, and the graduation credit checklist.

We suggest that you view the registration process in the broad scope of a four-year plan as you reflect on your personal strengths, interests and future plans. Parents, teachers, and your counselor will guide you through this process. We encourage you to make careful consideration of the opportunities available to you so that you are able to make the best use of the academic opportunities available to you.

You should use this Program of Studies book to prepare for your registration appointment with your Guidance Counselor. These will be scheduled in January or early February. As you prepare, carefully review the general information section, analyze the course descriptions and "pencil in" your choices on the worksheets at the back of this handbook.

It is important to know that the courses you select during this process are intended to be your final selections for the 2012-2013 school year. We develop our master schedule of classes and we hire and re-employ teachers based on the enrollment decisions you make. As high school students, you should make careful decisions and then follow through with them. Hopefully you will find our registration process one that works well for you. If you have questions or suggestions, please see your counselor.

Sincerely,

Michael McGrory
Principal

HINSDALE CENTRAL VISION STATEMENT

Adopted Fall 2003

The expectation of excellence is rooted in the traditions of Hinsdale Central. In an environment that fosters a desire to learn, all members of the organization are committed to educating each student. In order for us to succeed, we must clearly identify standards we will work to achieve and maintain. These Standards are identified in several areas and will be the benchmarks by which we will measure our success.

I. Students

The degree to which we measure our success in attaining this vision is by each student's progress. We will provide opportunities that facilitate this growth. In school we:

- a. Work to meet students' needs.
- b. Encourage students to reach their potential in all they do, and to become self-directed learners.
- c. Teach students to accept responsibility for their actions.
- d. Encourage students to get involved in their school and in their community.
- e. Let students know we believe in them and will find ways for them to succeed based on their ability and interests.

II. Staff

Attracting and retaining outstanding people is a must if we are to move toward our vision. In our school we:

- a. Demonstrate our support for a shared vision and a common sense of purpose.
- b. Encourage all members of the organization to be leaders and experts in their fields.
- c. Promote collaboration and collegial decision making on matters relating to students, curriculum, instruction and school.
- d. Facilitate the growth of our students.

III. Curriculum and Instruction

What we decide to teach and how we do so will impact the results we achieve. In our school we:

- a. Recognize our primary focus is to provide a solid base for the post-secondary education of our students, while respecting the needs of students who make alternative choices.
- b. Seek to learn effective practices and adapt them for our learning environment.
- c. Believe teachers should collaboratively determine curriculum and assessment standards.
- d. Work to assure the limited time we have to education our students is used to the greatest benefit for all our school community.

IV. Climate

All members of our community are responsible for providing a climate that contributes to our success and a high school experience that builds a sense of pride we all share. In our school we:

- a. Provide a safe and secure environment that is conducive to learning.
- b. Recognize that all relationships are based on respect for others and an understanding of each person's responsibility for his/her behavior.
- c. Understand school rules and policies exist to support our organization and are consistently applied by all staff.
- d. Recognize the achievements of all members.
- e. Encourage and model behaviors appropriate to the development of character.

V. Community

The educational community recognizes the importance of maintaining a partnership between the school and community at large. In our school we:

- a. Seek ways to improve the quality of communication between the home and school.
- b. Always provide a clear rationale for policies and practices.
- c. Share information that is important in a timely manner.
- d. Recognize that the more our community is involved and informed, the more successful we will be.

Graduation Requirements

To graduate, a student must earn a minimum of 24.0 credits and successfully meet the listed requirements.

According to state law, all students must earn two credits in courses designated as “intensive writing” courses. For this writing requirement, these credits may be earned in classes taken to fulfill other requirements (i.e. an English course may satisfy both the English graduation requirement and the “intensive writing” requirement).

Graduation Requirements	Credit
--------------------------------	---------------

English	4.0
----------------	------------

Mathematics	3.0
--------------------	------------

One of the 3 full credits of Mathematics required must be an Algebra 1 course and one of them must include a course with Geometry content. The Algebra course credit may be earned prior to enrollment in District 86, but students must still complete 3 full credits of Mathematics study in high school.

Science	2.0
----------------	------------

Social Studies	2.0
-----------------------	------------

World Cultures or World History - H (1.0)
U.S. History or AP U.S. History (1.0) or American Studies

Elective Arts	2.0
----------------------	------------

Only one credit per department will be counted. All courses in:

Art Business Family and Consumer Sciences Music	Technology Education Technology Center of DuPage World Languages
--	--

Consumer Education	0.5
---------------------------	------------

Successful completion of one course:

Consumer Economics
Economics
AP Microeconomics
Introduction to Family & Consumer Sciences
Introduction to Business
Special Education Related Instruction
Consumer Education (online course)

Physical Education/Health	4.0
----------------------------------	------------

Health is a required course at 10th grade and is taken in tandem with one semester of Physical Education. Students have the option of enrolling in an additional semester of Physical Education during sophomore year for an additional 0.5 credit.

**The same course may not be used to satisfy requirements for Elective Arts, and Consumer Education.*

***No student shall receive a certificate of graduation without passing a satisfactory examination on patriotism and principles of representative government, proper use of the flag, methods of voting and the Pledge of Allegiance. Moreover, each student must take the Prairie State Achievement Examination in order to receive a regular high school diploma unless the student is exempt under state law. The building Principal is responsible for notifying students and their parent(s)/guardian(s) of the District’s graduation requirements.*

General Information

Earning Course Credits

Credit in full year as well as semester courses is earned by semester. That is, students earn 1/2 unit of credit or 0.5 credit for successful completion of each semester.

Credit is earned by successfully completing all course requirements as established by the teacher. Excessive absences may result in removal from a course and/or loss of credit.

Alternative Courses

E-learning, correspondence, or college courses may be counted toward graduation if they meet certain requirements. Prior written approval from the Director of Guidance is required. Such courses must be from an accredited institution and include at least 60 seat hours. The student assumes responsibility for all fees. After completing an alternative course, proof of mastery of material may be required before enrolling in an advanced course. For everyone – one online class per semester and two online classes during the summer.

Academic Load

Students must be enrolled in a minimum of six (6) courses per semester.

Admission Requirements

Admission requirements are based upon evidence of normal progress and achievement in the previous school. Incoming freshman are required to submit evidence of satisfactory completion of the 8th grade. Transcripts of credits earned and grade placement are required from the previous school for all students transferring from other secondary schools. Transfer credit and grades will be determined by the Registrar and are based on Hinsdale Central's curriculum and requirements. The report of a health examination and required immunizations at the 9th grade level is required by law. Students will not be allowed to attend school if this state requirement is not met. In addition, all students participating in athletics must have a physical examination for each year in which they participate. We cannot emphasize too strongly the need for this to be accomplished prior to the opening of school.

Articulated Credit and Dual Credit at the College of DuPage

The College of DuPage awards articulated or dual credit when learning experiences at the secondary level of instruction duplicate those at the post-secondary level. These programs enable students to save time and avoid duplication of material already learned in high school. Articulated credits are only applicable to the College of DuPage while dual credits can be accepted at any college or university that accepts transfer credits. Students may request a transcript from C.O.D. with these courses listed after the end of the semester.

College of DuPage	Hinsdale Central	C.O.D. Credits
Photography	Basic and digital Color Photography	5
Accounting	Accounting and Accounting Honors	3

Junior High/Middle School Students

Junior high schools that feed into D86 unable to offer advanced coursework for their students may send their students to D86 for those courses. In these cases, all courses, grades and credit earned will appear on the transcript but will not be calculated into the grade point average earned in subsequent years at a high school in District 86. If the course is taken at a D86 school and the student attends the other D86 school, the course, grades, and credit earned will appear as transfer credit. If the course is taken at the D86 school the student attends, the course, grades, and credit earned will appear as regular credit.

Advanced Placement Program

The Advanced Placement (AP) Program provides students with the opportunity to pursue college-level studies while still in high school and to receive advanced placement and/or credit when entering college. Qualified, academically-oriented students in the tenth, eleventh, and twelfth grades are eligible to participate in the Advanced Placement Program at Hinsdale Central High School.

The Advanced Placement Program at Hinsdale Central High School consists of the following courses:

AP Art History	AP Calculus AB	AP Physics B
AP Studio Art	AP Calculus BC	AP Physics C
AP Language & Comp.	AP Computer Science A	AP European History
AP Lit. & Composition	AP Statistics	AP Microeconomics
AP French Language	AP Music Theory	AP Macroeconomics
AP German Language*	AP Biology	AP Psychology
AP Latin Vergil	AP Chemistry	AP U.S. Gov't. & Politics
AP Spanish Language	AP Environmental Science	AP U.S. History
AP Spanish Literature		

* Upon completion of German 4H, students may take the AP German language exam.

Departments

Advanced Placement courses are offered by seven departments: Art, English, Mathematics, Music, Science, Social Studies, and World Languages. These courses adhere to College Board approved course descriptions and serve as the primary vehicle to prepare students for the voluntary AP examinations in May. In addition to preparing students for the AP exams, AP courses allow students to experience the pace and intensity of college-level courses while still in high school. Some AP courses may explore opportunities for students to work in teams on interdisciplinary themes or projects. Such activities would be designed to provide students the opportunity to solve real-world problems across AP subject areas. The AP courses are challenging and stimulating, require more work and more time than other high school courses.

Examinations

The Advanced Placement examinations are administered each year during the second and third weeks of May and can be described as "tough, but fair." Usually three hours in length, each exam consists of a multiple choice section and free-response section that requires essay writing or problem solving. Every examination receives an overall grade from a team of carefully selected college professors and high school AP teachers on a five-point scale: 5 (extremely well qualified), 4 (well qualified), 3 (qualified), 2 (possibly qualified), and 1 (no recommendation). An AP Grade Report is sent in July to each student, the high school, and if the student requests it, to the college. Unless recommended by the teacher not to do so, all enrolled AP students are expected to take their course ending examinations.

Credit

Although each college determines what AP examination grades it will accept for credit and/or advanced placement, the great majority of colleges accept grades of 3 or better and award the student with credit in the subject matter tested. In some cases, no credit is given, but the student may begin the program of study at an advanced level. Students wanting to know what AP grades are considered acceptable by the colleges in which they are interested should write the Director of Admissions of the college or consult with the Director of Guidance at Hinsdale Central.

General Information

G-Level Program

In the Mathematics and Science departments, particular courses are designated as G-Level courses. College preparatory in nature, G-level courses are designed to meet the special needs of students in particular subject areas.

G-Level Courses:

Foundations of Algebra and Geometry	Algebra 2/Trigonometry – G
Algebra 1 – G	Earth Science – G
Geometry – G	Biology – G

Admission to G-level courses is based upon several established selection criteria:

- Teacher recommendations
- Results of the 8th-grade EXPLORE Test
- Past academic performance
- Department approval
- Student and parent input

Honors Program

In the Art, Business, English, Mathematics, Music, Science, Social Studies and World Languages departments, particular courses are designated as honors courses. Honors courses are designed to challenge students of superior ability by enriching and/or accelerating the course content and have standards of high achievement distinctly above those of regular courses. Instruction in honors courses occurs at a faster pace, covers the subject matter in more depth and emphasizes higher level thinking skills.

Honors Option courses are offered by Business, Family and Consumer Sciences, Technology Education, and Art. The courses allow students to experience a more intense curriculum, higher expectations and greater responsibilities. These courses are challenging and will require more work and time than other high school courses. Admission to the Honors Option courses is based upon a student's application and departmental approval.

Honors (H) Courses:

Ideas in Art H	French 1 H	Integrated Algebra And Geometry H
Advanced Drawing H	French 2 H	Pre-Calculus H
Advanced Painting H	French 3 H	Music (see department)
Advanced Ceramics H	French 4 H	Biology H
Advanced Jewelry H	German 1 H	Earth Science H
Digital Imaging 3 H	German 2 H	Chemistry H
Accounting H	German 3 H	Physics H
Business Law I H	German 4 H	Architectural Drafting H
Business Law 2 H	Latin 1 H	Engineering Graphics H
Internship H	Latin 2 H	Advanced Engineering & Arch. Modeling H
English 1 H	Spanish 2 H	Graphic Com. – Desktop Publishing H
English 2 H	Spanish 3 H	Graphic Com. – Web Design H
H/Seminar in Writing	Spanish 5 H: Spanish Studies	Graphic Com. – Advanced Graphics H
Journalism 2: Newsmagazine H	Spanish 5 H: Latin American Studies	Digital Color Photography H
Journalism 2: Yearbook H	Geometry H	Advanced Photography H
Invitation to Teach H	Algebra 2 Trigonometry H	World History H

Admission to the honors program is based upon several established selection criteria:

- Teacher recommendation
- Results of the 8th grade EXPLORE Test
- Past academic performance
- Departmental approval

Students with superior ability, a commitment to the subject matter and a motivation to learn are encouraged to apply for admission to the honors program.

Honor Roll and Weighted Grades

Grades earned in all academic courses, exclusive of Physical Education and Driver Education will be used to determine honor roll according to the following grade point system.

Honor Roll

- 4.0 grade point average
- no grade below a “D”

Dean’s List

- 4.5 grade point average
- no grade below a “C”
- Class Rank will not be awarded for the classes of 2012, 2013 and 2014.

Honor Roll is based on the quarter grade point average, no incomplete grades and a minimum of four credit-earning courses. Honor Roll students become eligible for Dean’s List recognition.

Grade	Honors	Regular
A	6	5
B	5	4
C	4	3
D	2	2
F	1	1
WF	1	1

Course Requests

Each spring our school works to create a schedule of classes for the following academic year that best meets the needs of our students, while still staying within the parameters of staffing requirements (i.e. number of teachers, class size, teaching schedules, state and federal mandates). We work very hard to accommodate student requests; however, due to the complexity of the scheduling process, sometimes student schedules may need to be adjusted. Please keep in mind that changes in course requests or class assignments will not be accepted for any of the following reasons:

- to accommodate a job schedule
- to change teachers
- to change lunches or classes to be with friends
- to have first or last period free
- to accommodate a change of mind

Acceptable reasons for schedule changes may include:

- computer input error
- scheduling conflicts
- failure or near failure in a second semester or year course
- failure to meet a pre-requisite for a course
- department chair or guidance director recommendation
- successful completion of a summer school class

Dropping a Course

Students may request to drop a course only if they are enrolled in the maximum number of courses (seven) per semester and only after they have attended and participated in the course for five full class periods. Approval to drop a course requires signatures from the parent/guardian, teacher, the appropriate department chair, and the student’s counselor. It is understood that the student will have a conversation with his/her counselor and teacher prior to initiating this process.

General Information

Dropping a Course continued:

If a student elects to drop a course, the dropped course will be replaced with a study hall period. In some cases, adding a course to replace a dropped course may be accommodated if the curriculum permits and seats are available. A grade of "F" will be reflected on the transcript of a student who chooses to drop a course after the fourth week of a semester. Students enrolled in yearlong courses will not be allowed to drop at the end of first semester unless it is recommended by the department.

Adding a Course

Students may add a course at the beginning of a semester, space dependent. Requests to add a course must be made no later than the first five full class periods of the semester. In order to add a course, a student must obtain signatures from the parent/guardian, the department chair if required, and the student's counselor.

Repeating Course(s)

A course may be repeated for credit only when a student has previously received a "D" or an "F." Both the grade received and the credit earned for repeating the course, as well as the original grade and credit received in the course, will be used in computing the student's grade point average. The student's transcript will indicate the first grade and credit earned, as well as the second grade and credit earned. However, the credit received for repeating the course will not count toward satisfying graduation requirements unless the student failed the course.

Auditing Courses

Only under unusual circumstances will a request to audit a course be considered:

1. When a student has previous credit in a subject they may request to audit the course.
2. When a student wishes to audit a course they have not previously taken, they may request to audit the course. In this case, they may not take the course for credit at a later time.

In both circumstances, requests to audit will be considered only if space is available in the course. Students assume all responsibility of a regular class member, but receive no grade or credit. All requests to audit a course must have administrative approval prior to the first day of class at the latest, but preferably at the time of February registration. Students interested in auditing a course must complete the form, Request to Audit a Class, which may be obtained from the student's counselor and approved by the Director of Guidance.

Incomplete Grades

An Incomplete represents work not completed by the end of the quarter. Incompletes are given only in extraordinary circumstances. This work must be made up within the first two weeks of the following quarter and the Incomplete changed to a grade or a failure. If the work is not made up by the end of the 2-week period, the grade will be changed to an "F." An Incomplete will prevent eligibility for Honor Roll.

Registration Procedures:

Students should review the four-year planning guide on page 103 and choose courses that will fulfill graduation requirements and build on the student's strengths, interests and abilities. Students will discuss course recommendations with each of their current teachers and, if there is a need for departmental approval, they should obtain the signature of the Department Chair for that course. Following the recommendation discussions with teachers, students will have an individual appointment with their counselor to review and approve their course selections. Students and parents will be able to view their course requests in Home Access Center throughout the month of February. It is important that you bring the Course Verification Recommendation form, signed by your parent(s), to your guidance appointment. Courses are scheduled on the basis of your requests. Questions concerning registration procedures and course selections should be directed to your counselor. *Course Request Forms are available through the Guidance Department*

Attendance Policy

The attendance policy at Hinsdale Central requires that parents call the attendance office **ON THE DAY OF THE ABSENCE** to report their student absent from school on any given day at **630.570.8090**. Prearranged absences may be called in prior to the day of the absence and a green prearranged absence form must be completed. Students are expected to attend class on a daily basis and should be aware that attendance is part of his/her evaluation in each class. Students are responsible for all work missed due to an absence. Excessive absences will be handled by the administration and guidance staff and require a parent conference.

Minimum Attendance Requirement

School Code of Illinois, Section 18-8, requires that all students must be in attendance, exclusive of lunch and passing time, for a minimum of 300 minutes. This necessitates all students attending school for at least six (6) periods a day.

College Admission Requirements

Criteria for college admission vary greatly. The admission committees consider, to varying degrees, the following:

- Type of high school courses actually taken when compared to the courses available in the high school.
- Quality of the student’s academic record.
- Performance on college admission tests - SAT & ACT.
- Development and maturity of the individual in areas outside the academic classroom

Courses	Highly Selective Colleges	Public University Colleges	Private 4-Year Colleges	Community and Public Colleges
English	4 years	4 years	4 years	Varies greatly from an open door admission policy to selective course requirements specifically required by the different departments.
Mathematics	4 years	4 years	4 years	
Science	4 years (lab)	3 years	3 years	
Social Studies	3-4 years	3 years	3 years	
Academic Electives	2 years	2 years	2 years	
World* Languages	4 years (one)	*	2-4 years	

Course requirements for entrance into four different types of colleges are listed above. The academic prerequisites typical of colleges in each of the categories listed may change from year to year and therefore, should be used only as general **minimum guidelines**. Specific information may be obtained from high school counselors, college profiles, websites and catalogs, computerized college software programs and college representatives who visit Hinsdale Central High School. Students should be aware of a definite return by colleges to their preference of a **traditional and classical college preparatory curriculum**. Narrowly defined, college preparatory courses are found in the following departments:

- Art: *AP Art History and AP Studio Art
- English: Literature and composition courses
- Mathematics: Computer Science is not generally accepted as a math credit.
- Science: Lab courses
- Social Studies
- World Languages*

*Academic Electives: Art, Business, Family & Consumer Sciences, Music, Technology Education, Technology Center of DuPage (TCD), World Languages

AP Art History and AP Studio Art are generally treated as acceptable college preparatory academic electives by most colleges.

General Information

Student Schedules

Full year courses are usually designated by 4-digit course codes ending in "0" or "5." Semester courses are primarily designated by numbers ending in "1" (first semester) or "2" (second semester) and may be scheduled either first or second semester. Student schedules are generated by computer and do not allow the student to select a course by semester. Requests are entered but not guaranteed.

Service Credits

Credit: 0.25

Students may elect to serve as a Student Aide during the school year for the following areas: Art, Audio Visual, Family & Consumer Sciences, E.L.L., Guidance, Library, Nurse, Deans' Office, Publications, Science, Technology Education or Student Activities. The credits earned as an Aide count as service credit. Students may elect to serve as an Aide for one or both semesters. They may, however, hold only one Aide position per semester. A 0.25 credit will be granted for each semester. This can be counted toward graduation as a service credit and will be graded on a pass-fail basis.

Excel Study Halls

Course # 1020, 1024, 1027, 1028

Credit: 0.25

Excel is designed as an academic support program. Students assigned to the Excel Study Hall will attend 5 days per week during their scheduled period and will continue to receive these services until all grades earned are at a C level or above for two consecutive quarters at which point they can transfer into a regular study hall. Excel Study Hall is an academic program where students meet in a supportive environment to receive assistance. The Excel Study Hall staff members consult with classroom teachers and parents to help improve each student's achievement in courses. A 0.25 credit is earned per semester for successful participation in this program. Student support in the areas of organizational skills, study skills, and homework completion will be available and structured with each program. Prerequisite: None. Open to grades 9-12 May be repeated

State of Illinois Consumer Education Requirement

Credit: 0.5

There are several ways to satisfy this mandated graduation requirement. Students have the following options:

1. **Consumer Economics**, course #6301, one semester, Business Department course, see page 27.
2. **Economics**, course #2331, one semester, Social Studies Department course, see page 74.
3. **AP Micro Economics**, course #2341, one semester, Social Studies Department course, see page 75.
4. Introduction to Family & Consumer Sciences, course #6400, full year, Family & Consumer Science Department Course, see page 42.
5. **Introduction to Business**, course #6100, full year, Business Department course, see page 26.
6. **Special Education Related Instruction**: enrollment is determined by IEP recommendation.
7. **Consumer Education Online** course, course #9101, one semester. Students who enroll in this online course will do all of their class work through a website supervised by a certified District 86 teacher. This course has the same objectives and examinations as the traditional semester-long Consumer Economics course #6301; the content is very similar. Communication between student and teacher will be primarily through the website and by email. Students who enroll in the online version will be required to attend an orientation session, to meet progress markers along the way, and to complete the course during the semester in which they are enrolled.

Art Department

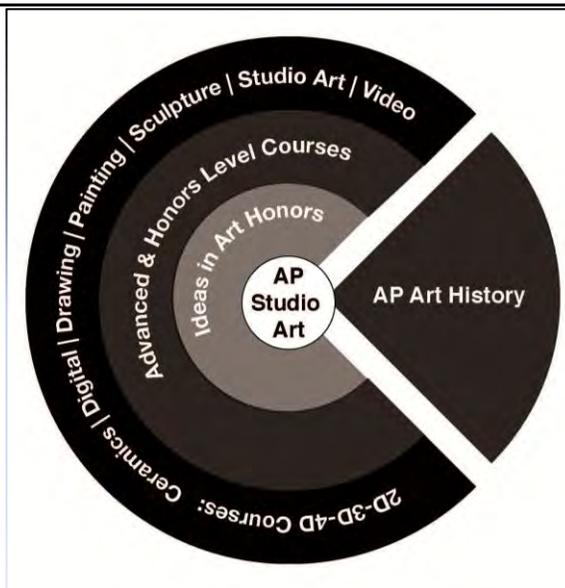

ART

High School District 86 requires the successful completion of two Elective Arts credits. Two fine arts credits fulfill the Illinois state public university entrance requirement in Art, Music or vocation education. The courses offered by the Art Department are designed to develop an appreciation and understanding of art, art production, art history, and creative problem-solving. Student work is displayed throughout the school and community on a continuing basis. Supply fees are required for participation in studio courses.

MISSION STATEMENT

The artistic, intellectual, and personal development of young people, through the visual arts, is the goal of the Hinsdale Central Art Department. We, the art faculty, as mentors, coaches, jurors, and artists, are committed to creating a challenging, authentic, and caring creative environment. We will actively involve students with the visual arts through theory and practice. We will challenge students to develop awareness of excellence and the role of art in human life and human culture.

STUDIO ART <i>Course # 5101, 5102</i> 1st or 2nd semester Credit: 0.5	Students will explore fundamental aspects of design, drawing, painting, jewelry, mixed media, and sculpture. Emphasis will be placed on creativity, craftsmanship, and problem solving. Studio Art is the only course in which introductory students can experiment in a variety of materials. <i>It is highly recommended that students interested in Drawing and Painting start with Studio Art as a foundation.</i> Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$20.00.
DRAWING <i>Course # 5211, 5212</i> 1st or 2nd semester Credit: 0.5	Drawing is a specialized art course that teaches students a variety of strategies to improve his/her ability to draw from life. The course also introduces several drawing tools, including: pastel, charcoal, colored pencils, and pen and ink. A development of individual style and understanding of design will be stressed. Prerequisite: Studio Art is highly recommended. Open to grades 9, 10, 11 and 12. Supply Fee \$20.00.
ADVANCED DRAWING <i>Course # 5221, 5222</i> 1st or 2nd semester Credit: 0.5	Advanced Drawing is a continuation of the themes and techniques started in the Drawing course in which students are asked to develop work which demonstrates mature drawing ability. Students are expected to investigate how drawings can be designed to communicate original ideas to a viewer. Students will be required to work on their drawings beyond classroom time. Prerequisite: 5211 Drawing. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00.

Art Department

<p>ADVANCED DRAWING HONORS OPTION Course # 5223, 5224 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Drawing Honors is a course for the student who draws avidly and enthusiastically and who shows strong motivation and high artistic achievement. Students create a variety of works, including representational, abstract, and mixed media. Critiques, in-depth analysis, and written journal entries accompany these drawings. In addition, craftsmanship, visual coherence, and working with artist intention are emphasized. Consistent, thoughtful class participation is expected of all students. Students are expected to complete an artist journal, private art lessons, and participate in art contests.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester; for more information: http://central.hinsdale86.org/departments/art/Pages/default.aspx Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00.</p>
<p>PAINTING Course # 5311, 5312 1st or 2nd semester Credit: 0.5</p>	<p>Painting is a course that introduces students to the complexities of painting. Knowledge of a variety of painting materials, processes, and techniques is stressed. Acrylics, watercolor and oil are used by students to create meaningful and original works of art.</p> <p>Prerequisite: Studio Art is highly recommended. Open to grades 9, 10, 11 and 12. Supply Fee: \$20.00.</p>
<p>ADVANCED PAINTING Course # 5321, 5322 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Painting is a continuation of the exploration started in Painting. In Advanced Painting, students are able to gain more experience with painting materials introduced in the previous course. Students are expected to demonstrate their painting skill through the creation of a personal series.</p> <p>Prerequisite: 5311. Open to grades 9, 10, 11 and 12. Supply Fee: \$20.00.</p>
<p>ADVANCED PAINTING HONORS OPTION Course # 5323, 5324 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Painting Honors is a course for the student who paints avidly and enthusiastically and who shows strong motivation and high artistic achievement. Students create a variety of works, including representational, abstract, and mixed media. Critiques, in-depth analysis, and written journal entries accompany these paintings. In addition, craftsmanship, visual coherence, and working with artist intention are emphasized. Consistent, thoughtful class participation is expected of all students. Students are expected to complete an artist journal, private art lessons, and participate in art contests.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester; for more information: http://central.hinsdale86.org/departments/art/Pages/default.aspx Open to grades 9, 10, 11 and 12. Supply Fee: \$20.00.</p>
<p>JEWELRY & METAL SMITHING Course # 5351, 5352 1st or 2nd semester Credit: 0.5</p>	<p>This course is for students interested in learning to create jewelry and/or small scale sculptures using metals and other materials. A range of metal fabrication techniques and alternative types of media will be explored. A diverse set of images will be used to explore design concepts to enhance students' visual awareness and problem-solving.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$21.00.</p>
<p>ADVANCED JEWELRY & METAL SMITHING Course # 5361, 5362 1st or 2nd semester Credit: 0.5</p>	<p>This course is a continuation of Jewelry and Metal Smithing but on an advanced level. A wider range of metal fabrication methods and materials will be introduced than in the entry level course. The concept of body adornment and the contribution of jewelry to the enhancement of the body will be addressed and studied. The course will focus on the development of independent thinking and personal expression. This concentration enables students to explore the potential of jewelry as a communication tool.</p> <p>Prerequisite: 5351. Open to grades 9, 10, 11 and 12. Supply Fee: \$21.00.</p>

Art Department

<p>ADVANCED JEWELRY & METAL SMITHING HONORS OPTION <i>Course # 5363, 5364</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Jewelry Honors is a course for the student who designs avidly and enthusiastically and who shows strong motivation and high artistic achievement. Students create a variety of works, including representational, abstract, and mixed media. Critiques, in-depth analysis, and written journal entries accompany these metal pieces. In addition, craftsmanship, visual coherence, and working with artist intention are emphasized. Consistent, thoughtful class participation is expected of all students. Students are expected to complete an artist journal, private art lessons, and participate in art contests.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester; for more information: http://central.hinsdale86.org/departments/art/Pages/default.aspx. Open to grades 9, 10, 11 and 12. Supply Fee: \$21.00.</p>
<p>CERAMICS/CLAY SCULPTURE <i>Course # 5421, 5422</i> 1st or 2nd semester Credit: 0.5</p>	<p>Using clay as an art material will be the focus for this course. The student will create hand-built projects, work on the potter's wheel, and apply glazes. Students will also develop an understanding, appreciation, and sensitivity to clay and its role in history and culture.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00.</p>
<p>ADVANCED CERAMICS <i>Course # 5431, 5432</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Ceramics continues the exploration of clay as a functional and artistic medium. This course will further explore advanced hand building and wheel throwing techniques. Complex projects will challenge the students artistically, as well as technically. The students will spend a majority of the semester working on the potter's wheel and exploring advanced technique. Advanced hand building and glazing techniques will also be covered.</p> <p>Prerequisite: 5421. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00.</p>
<p>ADVANCED CERAMICS HONORS OPTION <i>Course # 5433, 5434</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Jewelry Honors is a course for the student who designs avidly and enthusiastically and who shows strong motivation and high artistic achievement. Students create a variety of works, including representational, abstract, and mixed media. Critiques, in-depth analysis, and written journal entries accompany these metal pieces. In addition, craftsmanship, visual coherence, and working with artist intention are emphasized. Consistent, thoughtful class participation is expected of all students. Students are expected to complete an artist journal, private art lessons, and participate in art contests.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester; for more information: http://central.hinsdale86.org/departments/art/Pages/default.aspx. Open to grades 9, 10, 11 and 12. Supply Fee \$17.00.</p>
<p>SCULPTURE <i>Course #5441, 5442</i> 1st or 2nd semester Credit: 0.5</p>	<p>In this studio course, students will explore and develop three dimensional designs. Wood, clay, plaster, metals and found objects, are some of the materials that will be used. Emphasis will be placed on the examination of contemporary and historical roles of sculpture in society.</p> <p>Prerequisite: One semester of Art. Open to grades 9, 10, 11 and 12. Supply Fee \$17.00.</p>
<p>DIGITAL IMAGING 1 <i>Course # 5121, 5122</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed for students who want to create art on the computer. Artistic and creative problem solving strategies are developed which can help students in all areas of learning. Students take their own digital photographs. Each student will use these images to create original works of art using the software Adobe Photoshop CS5. Students will create a cartoon in Adobe Illustrator CS5 and a digital portfolio is created on a web interface.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12. Supply Fee \$17.00</p>
<p>DIGITAL IMAGING 2 <i>Course # 5132, 5132</i> 2nd semester Credit: 0.5</p>	<p>Digital Imaging 2, a continuation of Digital Imaging 1, further explores the artistic potential of the computer and creative problem solving strategies. Students will increase their artistic knowledge and skills while working on independent project ideas based on his/her theme in art. Artistic research and planning are integral. Traditional art materials will be blended into computer art, as students are encourages to think outside the "digital box." Students take their own digital photographs and use these images to create original works of art. Working knowledge of Adobe Photoshop CS5, Adobe Illustrator CS5, and Adobe Flash, will be utilized. Students will continue to update their web portfolio.</p> <p>Prerequisite: Digital Imaging 1: Open to grades 9, 10, 11, and 12. Supply Fee: \$17.00</p>

Art Department

<p>DIGITAL IMAGING 3: ADVERTISING & ILLUSTRATION <i>Course # 5331, 5332</i> 1st or 2nd semester Credit: 0.5</p>	<p>Digital Imaging 3 is a graphic design advertising art class. Students interested in a career in Graphic Design, learn the essential skills of design as it relates to advertising. The computer is used as a tool to create and solve real world design problems. Traditional illustration or drawing techniques will also be explored. Design principles have been introduced and learned, through a series of small projects. Afterwards, the course will be run like an advertising design business with a client/designer relationship underlying major projects. Working knowledge of Adobe Photoshop CS3, Adobe Illustrator CS3, and Adobe InDesign will be needed.</p> <p>Prerequisite: Digital Imaging 1: Open to grades 9, 10, 11, and 12. Supply Fee: \$17.00</p>
<p>DIGITAL IMAGING 3: ADVERTISING & ILLUSTRATION HONORS OPTION <i>Course # 5335, 5336</i> 1st or 2nd semester Credit: 0.5</p>	<p>Digital Imaging 3 Honors is a course for the student who creates avidly and enthusiastically and who shows strong motivation and high artistic achievement. Students create a variety of works, including representational, abstract, and mixed media. Critiques, in-depth analysis, and written journal entries accompany these ceramics works. In addition, craftsmanship, visual coherence, and working with artist intention are emphasized. Consistent, thoughtful class participation is expected of all students. Students are expected to complete an artist journal, private art lessons, and participate in art contests.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester; for more information: http://central.hinsdale86.org/departments/art/Pages/default.aspx. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00.</p>
<p>DIGITAL VIDEO ART <i>Course # 5475, 5476</i> 1st or 2nd semester Credit: 0.5</p>	<p>Digital Video Art introduces students to the timely art of video as a medium of artistic expression. Using digital video technologies, students will combine moving images, still images, graphics and sound. Experimentation in film and audio as an artistic medium is encouraged. Through directing, producing, editing, sound design, cinematography and screenwriting students will create their short films. Students will look for relationships between imagery, music and sound through historical film examples. The Digital Video Art course will develop creative, collaborative teams of students to expand their visual literacy and time art skills. Digital technology will incorporate pre- production, production filming, and post- production editing for the creation of the short films. Final Cut is used for post - production. Students will be encouraged to enter national and regional film festivals. Digital Video Art films are assessed on the Art Department's visual art standards, which align with state and national visual art standards.</p> <p>Prerequisite: None, but Digital Imaging is recommended. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00.</p>
<p>IDEAS IN ART HONORS <i>Course # 5473, 5474</i> 1st or 2nd semester Credit: 0.5 (may be repeated twice)</p>	<p>Students will create a body of artwork based on a personal exploration of a central theme or idea. This body of work represents the results of rigorous research, planning and problem-solving. Each student is required to create a reference manual that combines multiple explorations of a variety of media. The work produced in this course may be used as part of the Advanced Placement Art Portfolio.</p> <p>Prerequisite: Advanced level course, portfolio review with departmental approval. Open to grades 11 and 12. Supply Fee: \$20.00.</p>
<p>ADVANCED PLACEMENT ART HISTORY <i>Course # 5440</i> Full Year Credit: 1.0</p>	<p>This course provides a survey of the history of art. It is designed to prepare students to take the Advanced Placement examination. Methods of analyzing and evaluating works of art will be introduced. Students enrolling in this course are expected to have well developed writing skills and an interest in art and culture.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>

Art Department

<p>ADVANCED PLACEMENT STUDIO ART <i>Course # 5450</i> Full year Credit: 1.0</p>	<p>The AP program offers three portfolios: Drawing (painting, printmaking, drawing), 2-D Design (photography, graphic design, product design), and 3-D Design (jewelry, ceramics, sculpture).</p> <p>This course provides accelerated students with a challenging program of college-level studio work. Prior to the end of the academic year, a portfolio of approximately 44-46 pieces will be submitted to the College Board for evaluation and possible college credit. The AP Program offers three portfolios: Drawing (painting, printmaking, drawing), 2-D Design (photography, graphic design, product design), and 3-D Design (jewelry, ceramics, sculpture). This advanced placement program requires more time and commitment than typical high school art courses. Therefore, the students enrolling in the course should be highly motivated, serious, self-directed and willing to work. The Ideas in Art course is highly recommended for students considering this course. <u>Students interested in this course need to submit a portfolio of eight pieces to the Art office before first semester final exams.</u></p> <p>Prerequisite: Portfolio review and Departmental approval. Open to grades 11 and 12. Supply Fee: \$40.00 (excludes series materials).</p>

Business courses can fulfill 1 credit for the District 86 graduation requirement in the Elective Arts. Business courses can also be taken for general/elective credit. The 0.5 consumer education graduation requirement may be met by successful completion of the department’s Consumer Economics course or Introduction to Business.

Business Department courses are electives; however, with the increase in reliance on technology in our society, the department strongly recommends that all students include computer courses in their high-school studies (i.e., Digital Communication Tools 1 & 2, Digital Tools and Applications, Advanced Computer Applications).

Students who are contemplating a Business major in college should select one or more Business electives. Because of the difficulty of college-level Accounting, students are urged to take an Accounting course at Hinsdale Central.

	Full-year Courses	Semester Courses

Computer Courses	
<p>DIGITAL COMMUNICATION TOOLS 1 <i>Course # 6121, 6122</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course enables students to acquire and refine vital and emerging computer skills in this digital age. Students will develop keyboarding skills using the touch method, and be introduced to some of the latest input technologies, including speech recognition software and using table PC's. Constructing, formatting and editing documents using Microsoft Word, Excel, and PowerPoint will be the focus of production work in this course. Internet applications and email will also be taught and utilized during class projects. (Credit is NOT given for both Digital Communications Tools 1 and Digital Tools and Applications.)</p> <p>Prerequisite: None. Next course in sequence: Digital Communication Tools 2. Open to grades 9, 10, 11 and 12</p>
<p>DIGITAL TOOLS AND APPLICATIONS <i>Course # 6130</i> Full year Credit: 1.0</p>	<p>This course enables students to acquire and refine vital and emerging computer skills in this digital age. Students will develop keyboarding skills using the touch method, and be introduced to some of the latest input technologies, including speech recognition software and using tablet PC's. Constructing, formatting and editing of documents using basic and more advanced features of Microsoft Word, Excel, and PowerPoint will be the focus of production work in this course. Desktop Publishing, database, and web page development will also be introduced. Internet applications and email will also be taught and utilized during class projects. This year long course will take your computer skills to new heights, enabling you to integrate technology in a variety of ways in projects for other classes. [Credit is NOT given for both Digital Communication Tools 1 and 2 and Digital Tools and Applications.]</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12.</p>
<p>DIGITAL COMMUNICATION TOOLS 2 <i>Course # 6331, 6332</i> 1st or 2nd semester Credit: 0.5</p>	<p>Continue to develop computer skills in this course as more advanced features are taught in word processing, spreadsheets and charts, and digital presentations. Desktop publishing, database and web page development will also be introduced. Constructing, formatting and editing of documents using Microsoft Word, Excel, Power Point, Publisher, and Access will continue to be the focus of production work in this course along with Adobe Dreamweaver, which will be used to create web pages. Internet Applications and Web 2.0 tools will also be utilized during class projects, and students will continue to work with some of the latest input technologies such as speech recognition software.</p> <p>Prerequisite: None, however, Digital Communication Tools 1 is recommended. Proper keyboarding technique and speed, along with document development, formatting, and proofreading skills are expected. Open to grades 9, 10, 11, and 12.</p>
<p>VISUAL BASIC PROGRAMMING <i>Course # 6351, 6352</i> 1st or 2nd semester Credit: 0.5</p>	<p>Do you have a desire to take your computer skills to a new level? If so, then Visual Basic may be the course for you. Learn how to create applications in a graphical user interface to solve business problems. Microsoft's Visual Basic simplifies many routine programming tasks by providing tools that allow you to create applications for the Windows operating system. A variety of stand-alone and Microsoft Office-related applications will be developed.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
Business Courses	
<p>INTRODUCTION TO BUSINESS <i>Course # 6100</i> Full year Credit: 1.0 (0.5 Elective Arts/0.5 Consumer Ed. - Must complete the entire year to receive Consumer Ed. credit)</p>	<p>This course gives students a background in the basic operations of business and develops an understanding of the economic role of business in our society. Major areas of study include banking, credit, insurance, budgeting, consumer protection, government, entrepreneurship and taxes. Skill is developed through a wide variety of activities including computer research, projects, and classroom activities. Successful completion of this course fulfills the District's Consumer Education requirement for graduation.</p> <p>Prerequisite: None. Open to grades 9 and 10.</p>

Business Department

Business Courses	
INVESTMENT PLANNING <i>Course # 6111, 6112</i> 1st or 2nd semester Credit: 0.5	In this course students will study basic investment principles involving stocks, commodities, bonds and mutual funds. Students will also learn about tax information, effects of the economy on the market, government regulations of securities and on-line investing. Current issues as they relate to investing will be discussed. Teams will be formed to participate in the Stock Market Game by trading on-line. Prerequisite: None. Open to grades 10, 11 and 12.
ACCOUNTING <i>Course # 6170</i> Full year Credit: 1.0	This course develops a basic understanding of double-entry accounting. The accounting cycle, accounting theory, financial reports and financial analysis are included. Accounting simulation sets, Excel spreadsheets and automated accounting software are used to apply all accounting concepts. This course is recommended for college-bound students planning a career in accounting, finance, management or marketing. Prerequisite: None. Open to grades 11 and 12.
ACCOUNTING HONORS <i>Course # 6180</i> Full year Credit: 1.0	Accounting Honors will prepare students for the rigor of college accounting. Students will develop an understanding of double-entry accounting. Topics covered include the following: accounting cycle, accounting systems, internal controls, journals, receivables and payables, accruals and deferrals, inventory, fixed assets and depreciation, financial statement preparation and analysis, and taxes. A computerized accounting program will also be utilized, as well as the Excel spreadsheet program. The core material for this course is similar to Accounting 6170; however, more topics are covered, the pace is accelerated and expectations are higher. This course is highly recommended for motivated students planning to enter a college business program. Prerequisite: Department Chair approval. Open to grades 11 and 12.
MARKETING <i>Course # 6181, 6182</i> 1st or 2nd semester Credit: 0.5	This course focuses on the activities necessary to market products, services, and ideas to consumers. Major topics include market segmentation, consumer behavior, marketing research, product planning, and advertising. Students will apply marketing concepts learned in class by researching, creating and advertising new products. Prerequisite: None. Open to grades 10, 11 and 12.
SPORTS MARKETING <i>Course # 6183, 6184</i> 1st or 2nd semester Credit: 0.5	This intermediate marketing course will introduce students to the exciting field of sports marketing and its role in society. Students will develop a thorough understanding of the marketing concepts and theories that apply to sports and sporting events. The areas this course will cover include sponsorships, endorsements, licensing, event marketing and sports marketing plans. Students will plan, create, and assess sports marketing communication programs that include advertising, marketing, public relations and news media. Emerging issues in sports marketing will also be discussed. Prerequisite: Marketing Open to grades 10, 11 and 12
BUSINESS LAW 1 <i>Course # 6231, 6232</i> 1st or 2nd semester Credit: 0.5	This course introduces students to the legal system and the law as it applies to personal and business situations which may occur in their daily lives. It also examines the court system, torts, crimes, technology and the law, contracts, family law, wills and estates. Key elements of this course are case studies, mock trials and a field trip to the courts and jails. Prerequisite: None. Next course in sequence: Business Law 2. Open to grades 11 and 12

Business Courses	
<p>BUSINESS LAW 1 HONORS OPTION <i>Course # 6234, 6235</i> 1st or 2nd semester Credit: 0.5</p>	<p>The core material for this course is similar to Business Law 1 course 6231; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college business program.</p> <p>Prerequisite: Department Chair Approval. Next course in sequence: Business Law 2. Open to grades 11 and 12</p>
<p>BUSINESS LAW 2 <i>Course # 6232</i> 2nd semester only Credit: 0.5</p>	<p>The core material for this course is similar to Business Law 2 course 6232; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college business program.</p> <p>Prerequisite: Department Chair Approval. Open to grades 11 and 12</p>
<p>BUSINESS LAW 2 HONORS OPTION <i>Course # 6236</i> 2nd semester only Credit: 0.5</p>	<p>This course examines the criminal justice system, the Supreme Court, bailments and real estate transactions, ethics and employment policies and contracts. Group discussions, case studies, guest speakers and a field trip will be utilized to present and examine these concepts. To develop a better understanding of the legal system, students will participate in a mock trial tournament throughout the semester.</p> <p>Prerequisite: Business Law 1 or Business Law 1 Honors. Open to grades 11 and 12.</p>
<p>ENTREPRENEURSHIP <i>Course # 6241, 6242</i> 1st or 2nd semester Credit: 0.5</p>	<p>Do you have an interest in owning or running a business some day? This course will help you develop that entrepreneurial spirit and the skills necessary to be successful in your new business. Topics of study include the entrepreneurial personality and skills; marketing, financing and managing a business; legal requirements of a business; and career opportunities in entrepreneurship. Students will develop an idea and create a business plan.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>CONSUMER ECONOMICS <i>Course # 6301, 6302</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course helps students to understand the consumer's role in a mixed economy. Students will learn about various topics that they will use their entire life. Topics of study include: money management, consumer rights and responsibilities, credit, purchasing of goods and services, making sound investment plans and preparing individual tax returns. Successful completion of this course fulfills the District's Consumer Education requirement for graduation. (An on-line version of this course is available. See page 15 for details.)</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>INTERNSHIP <i>Course # 8401, 8402</i> 1st or 2nd semester Credit: 0.5 general credit only— not Elective Arts credit</p>	<p>This program is designed to provide students with an opportunity for career exploration in a field of their choice. Students will work with a mentor outside of the school day for 50-75 hours in their career field. Due to time constraints, it is suggested that students have their own placements, however, if assistance is needed finding a placement, students should contact an internship coordinator. Students will be expected to keep a detailed journal, write a reflection paper and discuss their experiences with a related class.</p> <p>Prerequisite: None. Open to grades 11 and 12 upon acceptance after interview.</p>
<p>INTERNSHIP HONORS <i>Course # 8403, 8404</i> 1st or 2nd semester Credit: 0.5 general credit only – no Elective Arts credit</p>	<p>The core material for this course is similar to Internship course 8401/8402; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time. This course is highly recommended for motivated students giving serious consideration to a specific career.</p> <p>Prerequisite: Department Chair approval. Open to grades 11 and 12 upon acceptance after interview.</p>

Driver Education

Rahul Sawlani

DRIVER EDUCATION

Course # 7461, 7462

1st or 2nd semester

Credit: 0.25

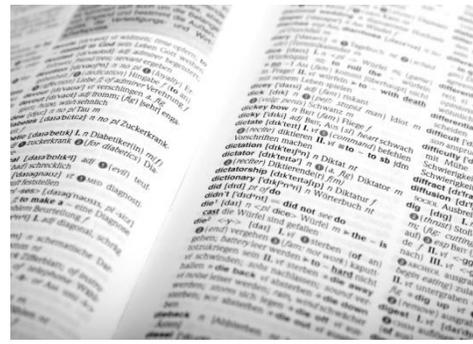

Classroom Driver Education, though an elective course, is required in order to obtain a state driver's license prior to the age of 18. Driver Education will follow state mandates on the number of hours of classroom instruction and in-car training. Student schedules must allow for one period per day during one semester in order to complete course requirements. Coordinator: Pat Richards

Due to recent changes in Driver Education laws by the State of Illinois, our school may not be able to honor all requests by students to enroll in Driver Education. Freshman and Sophomore students will be enrolled according to birthdates.

Students enrolled in Driver Education will receive two grades at the end of the semester: one for the classroom phase, and one for the behind-the-wheel phase. Upon successful completion of the Driver Education Cooperative Testing program, students will be eligible for their license without need for further examination by the Illinois Secretary of State Office. **\$20.00 Permit fee required by State. \$350.00 Course fee.**

As a prerequisite, students enrolling in Driver Education must be passing eight semester classes within the two most recent semesters of attendance. Only classes used to determine a student's GPA will be allowed to meet this requirement.

ENGLISH

English Department

High School District 86 requires the successful completion of a minimum of four English credits for graduation. In addition, all students who are enrolled in school must be enrolled in an English course **each semester**. The four credits in English must be taken and passed sequentially and include full year courses freshman and sophomore years and full or half-year courses junior and senior years. Junior and senior students must take core English courses in the following areas: semester courses in writing, literature and communication, or full year courses in literature/writing. Only one communication course taken junior or senior year will count toward the core requirement. There are enrichment courses open to all grade levels.

VISION STATEMENT

The skills and knowledge of English/language arts are essential for student success in virtually all areas of the curriculum and society. To meet the challenges of the 21st Century and beyond, students need to be clear and effective writers and speakers, critical and insightful readers, skilled information processors, and life-long independent and collaborative learners. With the guidance of parents, community, and a dedicated English faculty, our students will graduate from Hinsdale Central as valuable contributors to the world in which we live.

MISSION STATEMENT

The mission of the English Department is to develop in each of our students the following academic attributes: an understanding and appreciation of literature; a proficiency and confidence in writing; the ability to understand communication clearly through active listening, critical observation, and analysis; creativity and imagination in the areas of reading, writing, and speaking; and an appreciation of various cultural and human perspectives through the study and discussion of literature.

English Department

<p>ESL-ENGLISH 1A Course # 1050 Full year Credit: 1.0</p>	<p>This course is designed for the English Language Learner (ELL) who is new to the United States and whose English proficiency is emerging and developing. The course focuses on teaching basic communication and study skills in order for the ELL to be successful at Hinsdale Central High School. Listening, speaking, reading and writing skills will be taught in order to help the ELL in mainstream classes succeed academically and complement the ESL-English 1B curriculum. In addition, the course will provide activities to include students in the American culture.</p> <p>Prerequisite: English Language Learner Program (ELL) director and English Department Chair approval. Open to grades 9, 10, 11 and 12.</p>
<p>ESL-ENGLISH 1B Course # 1030 Full year Credit: 1.0</p>	<p>This course continues the work started in ESL-English 1A by developing emerging and beginner listening, speaking, reading and writing strategies and skills in standard American English to the English Language Learner (ELL). This course will parallel the goals and skills of English 1. In addition, the course will continue to build student communication skills and self-advocacy skills in standard American English to aid in mainstream academic success.</p> <p>Prerequisite: English Language Learner Program (ELL) director and English Department Chair approval. Open to grades 9, 10, 11 and 12.</p>
<p>ESL-ENGLISH 2 Course # 1040 Full year Credit: 1.0</p>	<p>The goal of ESL-English 2 is to prepare the intermediate level English Language Learner (ELL) to transition successfully into the mainstream English class. The course will continue to develop skills and strategies in listening, speaking, reading and writing of standard American English while focusing on how the strategies can be used in mainstream academic success. Course materials will parallel the goals and skills of the English 2 program. This course reinforces self-advocacy skills to promote mainstream academic success for the transitioning English Language Learner.</p> <p>Prerequisite: English Language Learner Program (ELL) director and English Department Chair approval. Open to grades 9, 10, 11 and 12.</p>
<p>ENGLISH 1 Course # 1110 Full year Credit: 1.0</p>	<p>English 1 incorporates instruction in many areas including literature, writing, speaking, research, vocabulary, and grammar. The literature includes nonfiction, short story, drama, poetry, and novels. Writing instruction includes summary, paraphrase, argument, analysis, and synthesis. Research skills – topic generation, source identification, evaluation, and attribution – are taught in conjunction with the library staff. Regular active class participation is essential. The goal of the course is to develop competent learners, thoughtful readers, enthusiastic writers, and effective oral communicators. This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: Incoming freshman eligibility is based on multiple sources of information, including EXPLORE scores and recommendation of 8th grade instructor. Open to grade 9.</p>
<p>ENGLISH 1 HONORS Course # 1120 Full year Credit: 1.0</p>	<p>English 1 Honors is a course for the student who reads avidly and enthusiastically and who shows strong motivation and high academic achievement. Students read a variety of literature, including fiction, nonfiction, classical and contemporary drama, short stories and poetry. Discussion, in-depth analysis, and written assignments accompany these readings. In addition, the expository writing process and grammar usage are emphasized. Speeches and group performances are required. Consistent, thoughtful class participation is expected of all students. This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: Incoming freshman eligibility is based on multiple sources of information, including EXPLORE scores and recommendation of 8th grade instructor. Open to grade 9.</p>

English Department

<p>ENGLISH 2 Course # 1210 Full year Credit: 1.0</p>	<p>English 2 covers the areas of literature, writing, vocabulary, grammar, and speech. Through literature, selected plays, poetry, and novels, students will learn to analyze and appreciate literature. In the area of writing, an emphasis is placed on multi-paragraph essays. Grammar and vocabulary will be covered throughout the year in conjunction with writing and literature. Public speaking will be practiced. Consistent class participation is imperative. This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: English 1. Open to grade 10.</p>
<p>ENGLISH 2 - HONORS Course # 1220 Full year Credit: 1.0</p>	<p>Challenging reading and writing assignments form the foundation of the English 2 Honors curriculum. Geared towards students who show strong motivation and high academic achievement, the class helps students develop critical thinking patterns and effective oral and written communication skills. Students are expected to work on long-range assignments and to be consistently active in class discussions. Research fundamentals—topic generation, source evaluation and attribution—are taught in conjunction with the library staff. Active class participation, in the form of peer editing, small group work and partner projects as well as class discussion, is expected of all students. This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: English 1 or English 1 Honors and Department Chair approval. Open to grade 10.</p>
<p>CORE WRITING COURSES</p>	
<p>COMPOSITION 2 Course # 1313, 1314 1st or 2nd semester Credit: 0.5</p>	<p>This college-prep course is designed for students who wish to improve writing skills for the heavier demands of college coursework. This course includes a review of the multi-paragraph essay and instruction in developing and elaborating on ideas in writing. Students will learn to build arguments in response to texts they read in class. Students will also review punctuation, sentence structure, mechanics, and grammar as needed.</p> <p>Prerequisite: U.S. Literature and Composition or Department Chair Approval. Open to Grade 12.</p>
<p>EXPOSITORY WRITING Course # 1321, 1322 1st or 2nd semester Credit: 0.5</p>	<p>Harness the power of the written word! By studying classic and contemporary essays, students learn to implement a variety of writing techniques to craft original essays that are related as much as possible to the students’ own interests and life experiences. Students are challenged to expand their conception of essay form and development. Basic grammar and style will be reinforced in order to help students write clearly. Students will also learn to construct a detailed research paper through careful topic selection, rigorous information collection using the school’s library databases, and effective organization and appropriate formatting of the finished paper. This is an accelerated course with an emphasis on close reading and analytic, purposeful writing; students completing this course will have the option, with teacher recommendation, of taking AP Literature or AP Language during their senior years. Students must write a research paper in order to earn credit for the course.</p> <p>Prerequisite: English 2. Open to grades 11 and 12.</p>

English Department

<p>RHETORIC <i>Course # 1351, 1352</i> 1st or 2nd semester Credit: 0.5</p>	<p>In today’s complex world, clear communication is imperative. This course draws on the traditional study of rhetoric—in terms of the persuasive appeals, purpose, and audience—to lay the groundwork for solid, thoughtful, and effective written communication. The class helps students develop into clear, incisive thinkers who can write confidently in various situations for various purposes. Rhetoric also focuses on building research skills to ensure that students are well-versed in finding, evaluating, and synthesizing multiple sources of information. Students will hone their writing skills in order to discover, explain, question, and justify stances on controversial issues in our contemporary world. Students must write a research paper in order to earn credit for the course.</p> <p>Prerequisite: Expository Writing or English 3. Open to grade 12.</p>
<p>HONORS SEMINAR IN WRITING <i>Course # 1355</i> Full year Credit: 1.0</p>	<p>Honors Seminar in Writing is a class for the intellectually curious who value the power of the written word and are eager to become more sophisticated writers. This year-long course is especially designed for those who have been grabbed by the rhetorical nature of AP Language and Composition and are interested in analyzing stylistic elements in professional and personal writing. Students will read texts that are challenging and nuanced and, in their writing, explore real-world complexities through primary and secondary research. The members of this course are committed to crafting and revising their own nonfiction essays, with the intention of publication. Join this small community of students who appreciate the art of writing.</p> <p>Prerequisite: Expository Writing, AP Language and Composition, or English 3 and Department Chair approval. Open to grade 12.</p>
<p>CORE LITERATURE COURSES</p>	
<p>AMERICAN LITERATURE <i>Course # 1561, 1562</i> 1st or 2nd semester Credit: 0.5</p>	<p>“I hear America singing, the varied carols I hear...” So wrote Walt Whitman in his famous poem, “I Hear America Singing.” Over the course of the semester, students will study the “varied carols” in American Literature in order to learn about our country and, ultimately, themselves. Students will read and analyze works from diverse authors, genres, themes, and styles as they explore how literature links us to our historical and cultural heritage. As they sample literature from the American Enlightenment (1776) to the present, they will see how literature is a reflection of a changing American society. This is an accelerated course with numerous challenging fiction and nonfiction texts and an emphasis on close reading and analytic, purposeful writing; students completing this course will have the option, with teacher recommendation, of taking AP Literature or AP Language during their senior year. Class participation is imperative so that students can exchange ideas and interpretations of the literature.</p> <p>Prerequisite: English 2. Open to grade 11.</p>
<p>SENIOR LITERATURE <i>Course # 1491, 1492</i> 1st or 2nd semester Credit: 0.5</p>	<p>Powerful stories affect us in profound ways, inspiring us, challenging us, deepening our human experience. The fundamental approach to Senior Literature is to aid students in fostering a love of reading by encouraging strong emotional connections with powerful stories, while emphasizing reading skills and literary analysis. Students in this course study the ways storytellers use their art to make us feel and think more deeply. This is a moderately paced course designed for the senior student who has taken U.S. Literature as a junior. Students encounter many exciting types of texts, including both traditional forms of fiction and drama, as well as graphic novels, films, and nonfiction texts. Group discussion is emphasized, but students also write essays, take tests, and give oral presentations about these texts.</p> <p>Prerequisite: United States Literature. Open to grade 12.</p>

English Department

<p>WORLD LITERATURE <i>Course # 1541, 1542</i> 1st or 2nd semester Credit: 0.5</p>	<p>This college preparatory course for the average and above average reader will afford students the opportunity to gain a better understanding of and appreciation for various cultures from around the world. Through an array of compelling—and mostly contemporary—works, students will be challenged to grapple with universal problems and themes. Common assessments include essays and other writing assignments, discussion, quizzes/tests, oral presentations, and projects.</p> <p>Prerequisite: None. Open to grade 12.</p>
<p>BRITISH LITERATURE 1 <i>Course # 1581, 1582</i> 1st or 2nd semester Credit: 0.5</p>	<p>Human tragedy, genuine emotion, realistic, flawed characters, and outrageous jokes—all reasons that we still read the works of Shakespeare. British Literature I offers students the opportunity to discover the genius of Shakespeare’s plays. This course explores the comedies, tragedies, and histories of the most famous playwright of the English language. Emphasis is placed on the memorable characters, riveting plots, and universal themes present in some of Shakespeare’s most popular plays. Evaluation is based on discussion, quizzes, essays, tests, and, of course, performance.</p> <p>Prerequisite: None. Open to grade 12.</p>
<p>BRITISH LITERATURE 2 <i>Course # 1591, 1592</i> 1st or 2nd semester Credit: 0.5</p>	<p>This college preparatory course for the average and above average reader focuses on the role of literature in Ireland’s rich, violent, and tumultuous past. Students will read and discuss contemporary and historical issues in Ireland and, by extension, Great Britain through books, plays, short stories, newspaper articles, and films. The issues of oppression, resistance, and desire for freedom will be at the heart of this course. Evaluation is based on discussions of the readings, written activities, presentations, and tests/quizzes.</p> <p>Prerequisite: None. Open to grade 12.</p>
<p>CORE LITERATURE/WRITING COURSES</p>	
<p>ENGLISH 3 <i>Course # 1320</i> Full year Credit: 1.0</p>	<p>Take a personal journey through the American Dream in English 3. In this course we will explore some of the most popular and enduring works of American literature, focusing on what makes Americans unique. Students will have the opportunity to improve their writing through ACT style prompts, dealing with both personal perspective and literary analysis, as well as the “college essay.” English 3 students will also explore personal interests and improve their research and writing skills through the I-Search paper. The course includes formal presentations and/or performances.</p> <p>Prerequisite: English 2. Open to grade 11.</p>
<p>AMERICAN STUDIES <i>Course # 1550</i> Full year Credits: 1.0 English, 1.0 Social Studies</p>	<p>American Studies surveys America’s past through the use of nonfiction texts, novels, films, visual arts, music, news sources, and primary source documents. The curriculum integrates history and literature by examining American texts through rhetoric, analysis, thematic connection, and inquiry. Students will find a challenging educational environment that incorporates a variety of methodologies including current event discussions, media presentations, and field trips. The course meets for two back-to-back periods and is team taught in a larger setting. Teachers plan, instruct, and evaluate student work together. This is an accelerated course with numerous challenging fiction and nonfiction texts and an emphasis on close reading and analytic, purposeful writing. Students completing this course will have the option, with teacher recommendation, of taking AP Literature or AP Language during their senior year.</p> <p>Prerequisite: English 2. Open to grade 11.</p>

English Department

<p>U.S. LITERATURE AND COMPOSITION <i>Course # 1300</i> Full year Credit: 1.0</p>	<p>This course is designed for the student who may need more support in writing and reading. This college-prep course focuses on developing reading skills for understanding fiction, nonfiction, and poetry. Students are required to be productive and engaged participants in daily class activities, such as the practice of specific reading strategies, discussion, and written responses. For writing instruction, emphasis is placed on basic writing topics such as thesis statements, organizational patterns, paragraph development, and sentence correctness. Students must write a research paper in order to earn credit for the course. Homework reading and writing are required.</p> <p>Prerequisite: English 2. Open to grade 11.</p>
<p>ADVANCED PLACEMENT LANGUAGE AND COMPOSITION <i>Course # 1730</i> Full year Credit: 1.0</p>	<p>According to the College Board, an Advanced Placement Course in English Language and Composition is designed for talented, imaginative students, who read with finesse and write with clarity and style; who are curious and responsive to academic risk-taking; and who are not deterred by hard work. In this college-level writing course, students develop the ability to analyze the rhetorical features of texts, speeches, and visuals as well as to produce their own writing—both analytical and argumentative—on a variety of subjects. In addition to in-class and shorter out-of-class writing assignments, students will also learn how to access, evaluate and cite primary and secondary sources so that they can develop writings of extended length. This course assumes that students understand and capably use standard English grammar and prepares students for the Advanced Placement Exam in Language and Composition.</p> <p>Prerequisite: English 2 Honors or Department Chair approval. Open to grade 11.</p>
<p>ADVANCED PLACEMENT LITERATURE AND COMPOSITION <i>Course # 1731</i> Full year Credit: 1.0</p>	<p>This Advanced Placement Literature and Composition course is designed as an intensive study of literature drawn from multiple genres, time periods, and cultures, including but not limited to such authors as Shakespeare, Paton, Atwood, Fitzgerald, and Conrad. Students will read poetry, drama, novels, and short fiction deliberately and thoroughly, participating orally and in writing in close textual analysis. Independent, outside reading will be expected. Assignments include in-class essays, research projects, memorizations, oral presentations, and analytical writings. Students are responsible for participating actively and taking the lead in class discussions of the literature they read. This course prepares students for the Advanced Placement Exam in Literature and Composition.</p> <p>Prerequisite: AP Language and Composition or Department Chair approval. Open to grade 12.</p>
<p>CORE COMMUNICATION COURSES</p>	
<p>SPEECH/COMMUNICATION <i>Course # 1411, 1412</i> 1st or 2nd semester Credit: 0.5</p>	<p>Effective communication is the key to success in all aspects of life. This course helps students become effective communicators in everyday, person-to-person relationships. The course teaches listening skills and the ability to give and receive tactful and constructive criticism and includes instruction in research and visual presentation. Students must be involved daily in class discussion. At the completion of this course, each student should feel confident in choosing an appropriate topic, preparing written notes and outlines, and delivering a 3-5 minute speech with a strong introduction, body, and conclusion.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>

English Department

CORE COMMUNICATION COURSES, continued	
<p>DISCUSSION AND DEBATE Course # 1441, 1442 1st or 2nd semester Credit: 0.5</p>	<p>Listening, leadership, courtesy, topic analysis, research, evaluation of sources and databases, articulation, and confidence—these are the lifelong skills fostered in Discussion and Debate. This course helps students learn to access a range of informational sources available at the Hinsdale Central library in order to build arguments about contemporary topics used in debates. Students will participate in formal and informal class discussions, a simulated town meeting, a group discussion panel, debates, current event speeches, and a role play of an individual’s life after reading a biography or autobiography. Reading, writing, researching, and active participation are all major components of this course. Because multiple performances will be required during the semester, students should already have a familiarity with and a sense of confidence about public speaking. By the end of the semester, students should feel a sense of mastery at organizing, working cooperatively with others, researching, preparing for, and delivering public performances.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
ENRICHMENT COURSES	
<p>ACADEMIC READING Course # 1100 Full year Credit: 1.0</p>	<p>Academic Reading is designed for ninth grade students whose standardized test scores demonstrate that they would benefit from direct instruction in reading and vocabulary strategies. Students will be assessed in several skill areas throughout the year to track their growth. The curriculum is comprised of units that address skills that “good readers” internalize including determining main and supporting ideas, developing a variety of vocabulary strategies, and building fluency. To build reading skills, core textbook material will be supplemented with texts from students’ social studies and science classes. Finally, students will engage in daily sustained silent reading of self-selected material. Academic Reading students are simultaneously enrolled in this course and English 1.</p> <p>Prerequisite: Department Chair approval. Open to grade 9.</p>
<p>ACADEMIC READING - ENGLISH 2 Course # 1102 Full year Credit: 1.0</p>	<p>Academic Reading – English 2 is designed for tenth grade students who were identified during their freshman year as likely to benefit from direct reading and writing instruction and supplemental in-school language arts instruction and support. Guided by multiple diagnostic assessments and a review of student data, teachers will target specific student needs while utilizing engaging, purposeful, research-based practices. Student progress is monitored regularly to ensure that students are receiving the best instruction for their specific needs. Academic Reading – English 2 students are simultaneously enrolled in this course and English 2.</p> <p>Prerequisite: Department Chair approval. Open to grade 10.</p>
<p>ACADEMIC READING – ENGLISH 3 Course # 1103 Full year Credit: 1.0</p>	<p>Academic Reading – U.S. Literature and Composition is designed for eleventh grade students who were identified during their freshman year as likely to benefit from direct reading and writing instruction and supplemental in-school language arts instruction and support. Guided by multiple diagnostic assessments and a review of student data, teachers will target specific student needs while utilizing engaging, purposeful, research-based practices. Student progress is monitored regularly to ensure that students are receiving the best instruction for their specific needs. Academic Reading - U.S. Literature and Composition students are simultaneously enrolled in this course and U.S. Literature and Composition.</p> <p>Prerequisite: Department Chair approval. Open to grade 11.</p>

<p>SELECTED THEMES IN LITERATURE – Dystopian Literature: Stories Of “What If?” <i>Course # 1521, 1522</i> 1st or 2nd semester Credit: 0.5</p>	<p>Course Description: Were you psyched to discover District 13 survived? Have you ever wondered what it would be like to take Soma? Would you be willing to set yourself on fire to save books? If you’ve loved books about the not-so-bright future, this is the class for you. This course will cover dystopian literature and film, emphasizing themes dealing with the imagination of better worlds and worse worlds. Because utopian/dystopian literature expresses what an author sees as possible, hopes is possible, and fears is possible, readers must engage in social and political critiques. We will explore the causes and likelihood of four central dystopian types as presented in literature and film: the political, the philosophical/religious, the environmental, and the corporate.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>FILM STUDIES <i>Course # 1641, 1642</i> 1st or 2nd semester Credit: 0.5</p>	<p>Film Studies presents an opportunity for students to discover, critique, and appreciate movies. This is an exciting course where students learn to see movies like a film critic, create highly interactive, media/technology based projects to express their ideas about cinema, and even try their hand at becoming a movie mogul, investing millions into blockbusters and independent films. Students are encouraged to pursue their own movie interests as they are exposed to significant cultural and ideological movements in film history. Significant emphasis will be placed on learning the technical components of movies (editing, shot types, angles, etc.), as understanding this film grammar is the foundation of film analysis. Students will not only be asked to think about <i>how</i> a movie was made, but also <i>why</i> a movie was made. Written expression and graded discussion are the primary ways students will demonstrate their understanding of the technical, aesthetic, and rhetorical components that make movies effective. Some outside of class viewing is required.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>JOURNALISM 1 <i>Course # 1651, 1652</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces students to the fundamentals of journalism. Emphasis is placed on interviewing, writing, editing, assessing the audience, and meeting deadlines. Units of study include responsibilities and ethics, Associated Press style, interviewing, news writing, feature writing, and page design. All final story assignments must be typed, and the culminating activity is a feature story spread. This course is intended as a practical application of newspaper/newsmagazine news gathering and writing techniques, not as an analysis of the media. While this course is open to all interested students, those students interested in becoming editors of <i>Devils’ Advocate</i> or <i>El Diablo</i> are strongly encouraged to take Journalism 1 sophomore year.</p> <p>Prerequisite: Students must have a B average in English. Open to grades 10 and 11.</p>

English Department

<p>JOURNALISM 2: NEWSMAGAZINE HONORS <i>Course # 1660</i> Full year Credit: 1.0</p>	<p>Students in this class are editors and will be responsible for publishing <i>Devils' Advocate</i> according to established deadlines. Students will assume editorial leadership and participate in all activities required to create a quality publication using a desktop publishing system. Students will be expected to develop story ideas, research stories, write and edit copy, design pages and handle advertising accounts. Part of the grade is determined by job performance. Students should be prepared to spend out-of-class time working on the publication. Journalism 2 may be repeated for credit with consent of the instructor and department chair.</p> <p>Prerequisite: No course prerequisite required. However, there is an application and interview process required. Open to grades 10, 11 and 12.</p>
<p>JOURNALISM 2: YEARBOOK HONORS <i>Course # 1670</i> Full year Credit: 1.0</p>	<p>Students in this class are editors and will be responsible for producing <i>El Diablo</i>. This course will cover skills and responsibilities of a journalist involved in publishing a yearbook. Students will assume editorial leadership and participate in all activities required to create a quality publication using a desktop publishing system. Students will be expected to develop story ideas, research stories, write and edit copy, design pages and handle advertising accounts to meet deadlines established by the adviser/instructor in accordance with the publication company's requirements. Students should be prepared to spend out-of-class time working on the publication in order to receive credit.</p> <p>Prerequisite: No course prerequisite required. However, there is an application and interview process required. Open to grades 10, 11 and 12.</p>
<p>CREATIVE WRITING <i>Course # 1341, 1342</i> 1st or 2nd semester Credit: 0.5</p>	<p>Creative Writing encourages students to explore writing in forms not emphasized in core English courses. Students read and discuss contemporary and classic writers and write stories, poems, dialogs, prose vignettes, myths and personal essays. Students keep a writer's journal, recording thoughts, observations, experiences, and reflections on readings, to serve as a sourcebook, providing the raw material from which more polished writing will emerge. Careful revisions as well as the sharing of one's own writing with the class in informal, non-threatening discussions also constitute an important part of the course's content.</p> <p>Prerequisite: Department approval and a writing sample. Open to grades 11 and 12.</p>
<p>DRAMA <i>Course # 1681, 1682</i> 1st or 2nd semester Credit: 0.5</p>	<p>Drama has one prerequisite: the willingness to get up and perform! In this full participation performance class students learn and practice fundamentals of acting, movement, pantomime, and improv. In addition, students find, analyze, memorize, and act out monologues and scenes from plays. As a culminating experience, all students will participate in an evening performance to which parents and friends are invited. Class members are encouraged to experience an audition and to work onstage or backstage for the Drama Club's current production.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12.</p>

E. L. L.

English Language Learner Program

Lee-Cheng Wang, Design

MISSION STATEMENT

The mission of the English Language Learner Program (ELL) is to assist international students who have limited English skills. The ELL program provides academic and social support as students adjust to the American culture and, in particular, to Hinsdale Central High School. ELL will assist them in transitioning into the mainstream of the school community.

In order to fulfill the mission, ELL offers *academic* classes in English as a Second Language (ESL-1 and 2) for credit and ELL resource classes that may receive credit. ELL also addresses individual student needs, including language issues, academic programs, and cultural, social adjustments. English as a Second Language classes are taught in conjunction with the English Department in order to transition students into the mainstream English classes. As students adjust academically and socially, they *transition with support* into the full general education curriculum and the school community. Lastly, students exit the program when they are academically successful.

ESL-ENGLISH 1A
Course # 1050
 Full year
 Credit: 1.0

This course is designed for the English Language Learner who is new to the United States and whose English Proficiency is emerging and developing. The course focuses on teaching basic communication and study skills in order for the ELL to be successful at Hinsdale Central High School. Listening, speaking, reading and writing skills will be taught in order to help the ELL in mainstream classes succeed academically and complement the ESL-English 1B curriculum. In addition, the course will provide activities to include students in the American Culture.

Prerequisite: ELL Director Chair approval. Open to grades 9, 10, 11 and 12.

ESL-English 1B
Course # 1030
 Full year
 Credit: 1.0

This course continues the work started in ESL-English 1A by developing emerging and beginner listening, speaking, reading and writing strategies and skills in standard American English to the English Language Learner. This course will parallel the goals and skills of English 1. In addition, the course will continue to build student communication skills and self-advocacy skills in standard American English to aid in mainstream academic success.

Prerequisite: ELL Director approval. Open to grades 9, 10, 11 and 12.

E.L.L. Department

<p>ESL-English 2 Course # 1040 Full year Credit: 1.0</p>	<p>The goal of ESL-English 2 is to prepare the intermediate level English Language Learner to transition successfully into the mainstream English class. The course will continue to develop skills and strategies in listening, speaking, reading and writing of standard American English while focusing on how the strategies can be used in mainstream academic success. Course materials will parallel the goals and skills of the English Program. Lastly, this course reinforces self-advocacy skills to promote academic mainstream success for the transitioning English Language Learner.</p> <p>Prerequisite: ELL Director approval. Open to grades 9, 10, 11 and 12.</p>
<p>ELL Resource Course # 1003, 1004 1st or 2nd semester Credit: 0.25 or non-credit</p>	<p>This tutorial resource is designed to: 1) help students maintain satisfactory achievement levels in their regular classes; 2) encourage conversational English; 3) accelerate the development of vocabulary understanding, reading comprehension and writing skills in the English language; and 4) facilitate cultural adjustment.</p> <p>Prerequisite: ELL Director approval. Open to grades 9, 10, 11 &12 international students who have limited English language proficiency. This program may be scheduled in place of a regularly scheduled study hall. This course must be taken for credit if the student is enrolled in ESL1 or ESL2. It may be taken for credit or non-credit with ELL director recommendation.</p>
<p>ELL Tutor Course # 1013, 1014 1st or 2nd semester Credit: 0.25</p>	<p>ELL tutors assist other individual ELL students with academic and English language needs.</p> <p>Prerequisite: Recommendation of ELL Director. Open to grades 11 and12.</p>

Family & Consumer Sciences

Megan McDonald, design

Courses in Family and Consumer Sciences provide the foundation for professional careers, as well as personal enrichment. Students considering Family and Consumer Sciences related careers should prepare by enrolling early in departmental offerings in their preferred area. Lab fees are required in some courses.

◆ SUGGESTED SEQUENCING FOR FAMILY & CONSUMER SCIENCES CAREER AREAS ◆

FOODS

- * Intro. to Family & Consumer Sciences (9-12)
- Creative Cooking 1 (9-12)
- Creative Cooking 2 (9-12)
- Nutrition, Wellness & Cooking (10-12)
- Chef and Restaurant (11-12)

FAMILY LIVING

- Single Survival (11-12)
- Personal Perspectives (11-12)

FASHION

- * Intro. to Family & Consumer Sciences (9-12)
- Creative Sewing (9-12)
- Creative Sewing Independent Study (9-12)
- Fashion Merchandising (10-12)

INTERIOR DESIGN

- * Intro. to Family & Consumer Sciences (9-12)
- Architectural Styles & Design (10-12)

TEACHING

- * Intro to Family & Consumer Sciences (9-12)
- ** Child Care and Development (10-12)
- ****Invitation to Teach (12)
- ****Invitation to Teach Honors (12)

◆ PLEASE REFER TO THE INDIVIDUAL COURSE DESCRIPTIONS FOR MORE INFORMATION ◆

Family & Consumer Sciences

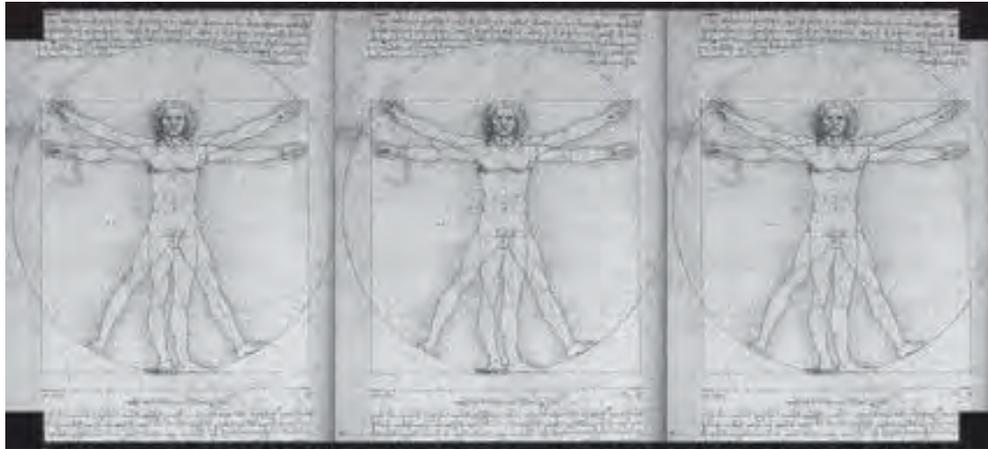

<p>INTRODUCTION TO FAMILY & CONSUMER SCIENCES Course # 6400 Full year Credit: 1.0 (0.5 consumer education, 0.5 elective arts) Must complete the entire year to receive consumer education credit.</p>	<p>This course introduces the student to the following areas of Family & Consumer Science: consumer education, child care, interior design, foods and sewing. The consumer education unit focuses on basic economic concepts such as career opportunities, budgeting, banking, credit, transportation and housing. Additional class activities include a computer-aided design interior design project, basic food preparation and entertainment, sewing projects and exposure to child development. Successful completion of this course fulfills the District's Consumer Education requirement for graduation. Supply fee \$25.00</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12.</p>
<p>CREATIVE COOKING 1 Course # 6411, 6413 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed to teach basic food preparation skills utilizing various types of culinary equipment and a range of preparation and cooking techniques. The following areas of study are covered in this course: measuring, knife skills, cooking methods, nutrition, fruits, vegetables, breads, pastas, vegetarian dishes, desserts, and microwave cooking. The course culminates in a student driven practical final meal applying the knowledge they have learned over the semester. While this course provides personal enrichment, it may also serve as a foundation for further training in culinary arts</p> <p>Suggested follow-up courses: Creative Cooking 2, Nutrition, Wellness, and Cooking, and/or Chef & Restaurant. . Supply fee \$25.00</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12.</p>
<p>CREATIVE COOKING 2 Course # 6412, 6414 1st or 2nd semester Credit: 0.5</p>	<p>This course, a continuation of Creative Cooking 1, provides training in the following advanced techniques of food preparation: international and gourmet foods, cakes and cake decorating, pasta, pastry, yeast breads, pies, meats, and more. Students prepare a variety of recipes. While this course provides personal enrichment, it may also serve as a foundation for further training in culinary arts. Suggested follow-up: Chef and Restaurant and/or Nutrition, Wellness & Cooking. Supply fee \$25.00</p> <p>Prerequisite: 6411. Open to grades 9, 10, 11 and 12.</p>
<p>CHEF AND RESTAURANT Course # 6421, 6422 1st or 2nd semester Credit: 0.5</p> <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p>*Due to classroom space limitations, students who have previously completed Creative Cooking I or IFACS will be given preference.</p> </div>	<p>Chef and Restaurant is an introductory course to professional culinary arts operations. Previous cooking experience is extremely beneficial and may be required in the future for this course. The emphasis is on developing and managing quantity food service businesses, including preplanned and student generated menu and themes, as well as customized menu creation to serve the needs of clients. Several weeks will be spent on back of the house management including product costing, requiring math computation skills. This course serves as a foundation for students wishing to enter a chef or hospitality management program of study or event planners</p> <p>*Prerequisite: Suggested Introduction to Family and Consumer Sciences, Creative Cooking 1, or Nutrition, Wellness & Cooking. Supply fee \$25.00</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>NUTRITION, WELLNESS & COOKING Course # 6431, 6432 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed to teach students how to build a lifetime of good nutrition and wellness practices while utilizing the food preparation and cooking skills from prerequisite courses. Students are given the essential tools to understand why and how people need to make more practical and healthy choices in their diet and daily routines. They will work cooperatively in lab groups applying what they have learned in each focused topic. While this course provides personal enrichment, it may also serve as a foundation for further training in health and culinary related fields.</p> <p>Prerequisite: Grade of C or better in Introduction to Family and Consumer Sciences or Creative Cooking 1. Supply fee \$25.00 Open to grades 10, 11 and 12.</p>

Family & Consumer Sciences

<p>SINGLE SURVIVAL <i>Course # 6441, 6442</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed to provide skills to live independently after high school, whether away at college or living on their own. The course covers personal assets, career development, including resume writing, money management, credit, identity theft, nutrition and basic meal prep, insurance, transportation, taxes, getting an apartment and reflection on current topics in society. Suggested follow-up course: Personal Perspectives (6591). Supply fee \$5.00</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>PERSONAL PERSPECTIVES <i>Course # 6591, 6592</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course, designed to help the student understand the challenges of our society, develops the student's ability to cope with problems and make adult decisions. Areas of study include: theories of personality development, family relationships, crisis in the family (alcoholism, divorce, and death), communication skills, dating, marriage and parenting. Suggested follow-up course: Single Survival (6441).</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>CREATIVE SEWING <i>Course # 6551, 6552</i> 1st or 2nd semester Credit: 0.5</p>	<p>Students will learn to sew for practical purposes and personal enjoyment as they select three or more projects to meet skills requirements. Consecutive projects will increase in degree of difficulty as students use technology to assemble and create unique items. Areas of study include basic sewing machine techniques, fabric and pattern selection, construction techniques and interpreting pattern instructions. Suggested follow-up courses: Creative Sewing Independent Study (6561) or Fashion Merchandising (6571). Supply fee \$10.00</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12.</p>
<p>CREATIVE SEWING INDEPENDENT STUDY <i>Course # 6561, 6562</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course focuses on advanced construction techniques on individually selected projects approved by the instructor. Students master the use of a computerized embroidery machine and serger. Areas of study may include textile arts, formalwear, pattern redesigning, fashion design, or other related areas of student interest. This course may be repeated twice, but subsequent projects must continually incorporate new sewing construction skills. Suggested follow-up courses: Fashion Merchandising (6571) or second enrollment in Creative Sewing Independent Study (6561). Supply fee \$10.00</p> <p>Prerequisite: Creative Sewing. Open to grades 9, 10, 11 and 12.</p>
<p>FASHION MERCHANDISING <i>Course # 6571, 6572</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed to allow the student to explore and understand the various facets of today's fashion industry. Areas of study include: evolution of fashion, fashion merchandising and design, merchandising math, the role of the fashion buyer, original design collection illustration, advertising and retailing functions. Projects include research on a specific designer, clothing trend studies, visual window display and fashion show planning incorporating all the retailing functions studied. While this course serves as a foundation for further training in a fashion related occupation, it also provides an opportunity for personal enrichment. Suggested follow-up course: Creative Sewing (6551). Supply fee \$25.00</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>ARCHITECTURAL STYLES AND DESIGN <i>Course # 6451, 6452</i> 1st or 2nd semester Credit: 0.5</p>	<p>The focus of this course is on preparing students to select, furnish and decorate a residence. Emphasis is on the following: elements and principles of design, color, housing styles, window coverings, sample selection, decorating interiors and computer drafting. Design boards and technology presentations are incorporated in most projects. This course serves as a foundation for careers in architecture and interior design, as well as personal enrichment. Supply fee \$25.00</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>

Family & Consumer Sciences

<p>CHILD CARE & DEVELOPMENT Course # 6582 2nd semester only Credit: 0.5</p> <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p>* Suggested first part of teaching sequence to be taken Sophomore or Junior year.</p> </div>	<p>This course prepares the student for parenting or a career in the field of teaching or child-related occupations. Areas of study include family planning, pregnancy and childbirth, child development from infancy through eight years of age, and planning learning activities for a 16 session preschool practicum. Students will teach and observe children in our Discovery Corner Preschool as an integral part of the program. *Suggested follow-up: Invitation to Teach (6481 or 6482).</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>INVITATION TO TEACH Course # 6481, 6482 1st or 2nd semester Credit 1.0 (one semester two class periods)</p> <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p>Students who have previously completed Child Care & Development will be given preference.</p> </div>	<p>This course offers a teaching internship, enabling students to work under the supervision of certified preschool, elementary and middle school staff. Once placed, the students will spend four days each week at their assigned schools to assist, observe and teach young children. Teaching responsibilities include journaling, observing, creating a visual display, facilitating a guest speaker, creating and teaching lessons, and shadowing a teacher for a day. Classroom study is focused on related issues in education including meeting the needs of a diverse student population, classroom management, and technology within the classroom and professional topics in education. Excellent course for anyone pursuing a career working with children. Suggested Prerequisite: Child Care & Development (6581). Supply fee \$10.00</p> <p>Open to grade 12 only.</p> <p>*Enrollment based on application, counselor recommendation, and instructor approval (based on academic standing, school attendance and character). <i>Application may be picked up in the Guidance office.</i></p>
<p>INVITATION TO TEACH HONORS Course # 6483, 6484 1st or 2nd semester Credit 1.0 (one semester two class periods)</p> <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p>Students who have previously completed Child Care & Development will be given preference.</p> </div>	<p>The core material for this course is similar to Invitation to Teach Course 6481/6482; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is recommended for highly motivated students interested in education or related fields. Suggested Prerequisite: Child Care & Development (6581). Supply fee \$10.00</p> <p>Open to grade 12 only.</p> <p>*Enrollment based on application, counselor recommendation, and instructor approval (based on academic standing, school attendance and character). <i>Application may be picked up in the Guidance office.</i></p>

Health

<p>HEALTH EDUCATION Course # 7501, 7502 1st or 2nd semester Credit: 0.5 (Included in student's G.P.A.)</p>	<p>The goal of this course is to promote and develop positive attitudes and behaviors related to the overall wellness of Hinsdale Central students. Students are taught how to access valid health information and health-promoting products and services. The students will also learn how to analyze the influence of culture, media, technology and other factors on health. Topics of study within the Health Education program include: Introduction to Wellness, Alcohol, Tobacco and other Drugs, Nutrition and Fitness, Communicable and Non-communicable Diseases, and Human Reproduction. The curriculum is aligned with District 86 program goals, Illinois and National Health Education Standards, and Illinois State Standards for Social/Emotional Learning.</p> <p>REQUIRED FOR GRADUATION. This course should be taken in tandem with Physical Education during the sophomore year.</p>
<p>INTRODUCTION TO SPORTS MEDICINE Course # 7521, 7522 1st or 2nd semester Credit: 0.5 (general credit only; not for elective arts. Included in student's G.P.A.)</p>	<p>The goal of this course is to help students become more knowledgeable and proficient in the following areas: principles and practices of athletic training; anatomy, physiology, injury recognition, treatment and rehabilitation as they relate to sports and leisure activities. This course also provides valuable hands-on experience and is highly recommended for those students who are interested in careers in nursing, medicine, athletic training, physical therapy, or coaching.</p> <p>Prerequisite: Successful completion of Health Education or approval of Department Chair. Open to grades 10, 11, and 12.</p>

Library Media Center

Reading

Research

New Media

The mission of the Library Media Department is to **teach** all of our students to thoughtfully *inquire* about the world around them, efficiently *seek* information which addresses those inquiries, critically *evaluate* the quality of that information, capably *apply* the knowledge acquired to new problems, questions, or ideas, and objectively *assess* the work they produce as a result of the research process. **Collaborate** with other teachers to design and implement lessons and assessments which challenge our students to become effective users of ideas and information, perhaps the single most important 21st Century skill. **Provide leadership, instruction, and expertise** in the use of information and technology that encourages creative problem solving and ethical, socially responsible sharing of information. **Provide access** to a variety of quality resources which support the curriculum and meet the diverse needs and interests of our school community in a vibrant learning environment equipped for the demands of 21st Century teaching and learning. **Promote life-long learning** through programming which encourages reading, inquiry, and the use of technology to meet learning goals.

The following course is offered through the Library Media Department:

**DIGITAL VIDEO
PRODUCTION**
Course # 9201, 9202
 1st or 2nd semester
 Credit: 0.5

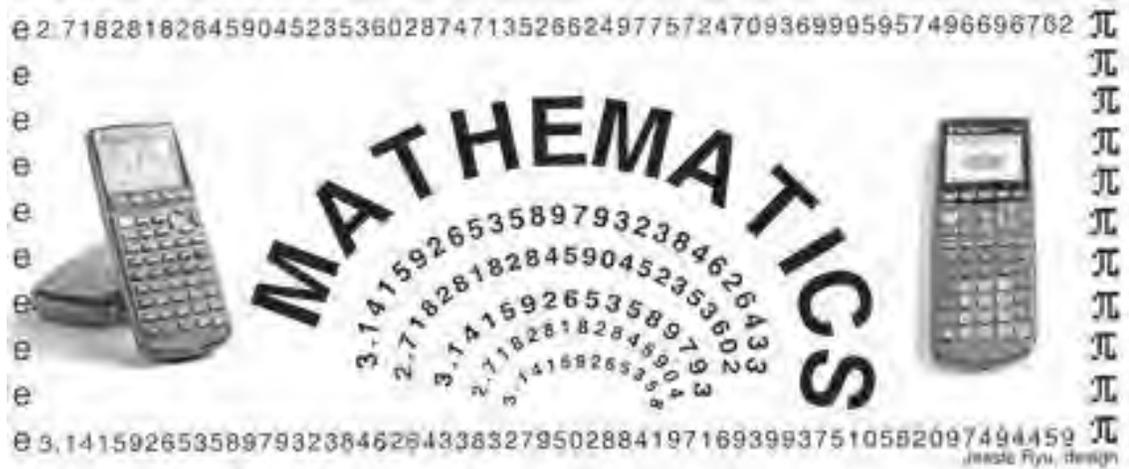

This course is designed to provide students with the skills needed for a career in the technical and artistic aspects of media production. Instruction will include the study and analysis of media and television and their effects on society. Instruction will include camera operations, basic audio and video editing, sound and lighting techniques and audio mixing. Students will learn to operate video and DVD recording equipment, video/digital cameras, microphones, lighting/grip equipment and other production equipment used in the video and audio production of media.

Students will work in a **team-based** environment to create a variety of video and audio productions. Instruction will include single and multi-camera operation, advanced video editing, pre-production, production, and post production Within each of these projects you will be learning different techniques of the camera, software and sound engineering. As you move along then your skills and knowledge will increase with each project:

1. Silent Movie
2. Public Service Announcement
3. Movie Trailer
4. Interview/Documentary
5. Commercial/Infomercial
6. Music Video
7. Live Event Coverage
8. Comedy/Drama Screenplay interpretation
9. Narrative Format of Storytelling

Prerequisite: None. Open to grades 10, 11 and 12. Course may be repeated with permission of Department Chair. Students who elect to repeat the class will be designated as “Advanced Students” and will follow a different class map. With this designation, the student and instructor will work together to create an individualized curriculum that concentrates on the student’s area of interest (editing, documentary, reporting, screenplay writing, short films, etc.) This will give the student the opportunity to advance their skills and create an on-going portfolio of his/her work.

Mathematics Department

Mission Statement

The mission of the Mathematics Department is to develop in our students the mathematical skills and habits of mind they will need to be prepared for college, to become productive citizens, and to pursue their career interests. We are committed to meeting each student's social, emotional, and learning needs by providing a rigorous curriculum and quality instruction that will actively engage students in constructing and applying mathematical concepts to solve problems. We will employ current technology to enhance students' mathematical knowledge and number sense. We strive to develop students who can express the mathematical connections in the world around them with algebraic, geometric, or numeric representations.

Three credits in mathematics are required for graduation. Credit must be earned in both semesters of a full year course before advancing to the next course in the sequence.

Any student who earns a D in a mathematics course is strongly recommended to retake one or both semesters in summer school before attempting the next course in the sequence. The deficiencies indicated by the D grade will make success in the next course in the sequence very difficult. Successful completion of Algebra and Geometry in any sequence and enrollment in Algebra 2 Trigonometry G, Algebra 2 Trigonometry or Algebra 2 Trigonometry H during or before junior year is ideal preparation for college standardized testing. Typical sequences are shown below.

Freshman	Sophomore	Junior	Seniors
Algebra 2 Trigonometry Honors	Pre-Calculus Honors	AP Calculus BC	AP Statistics and/or Math Topics
Integrated Algebra and Geometry Honors	Algebra 2 Trigonometry Honors	Pre-Calculus Honors	AP Calculus BC and/or AP Statistics
Geometry Honors	Algebra 2 Trigonometry Honors	Pre-Calculus Honors and/or AP Statistics	AP Calculus BC and/or AP Statistics
Geometry	Algebra 2 Trigonometry	Pre-Calculus	AP Calculus AB and/or AP Statistics
Geometry	Algebra 2 Trigonometry	Pre-Calculus	Introduction to Statistics and/or Math Analysis
Algebra 1	Geometry	Algebra 2 Trigonometry	Introduction to Statistics and/or Math Analysis
Foundations of Algebra and Geometry	Algebra 1G (Sem1) and Geometry G (Sem2)	Algebra 2 Trigonometry G	Introduction to Statistics and/or Math Analysis
Foundations of Algebra and Geometry	Algebra 1G	Geometry G	Algebra 2 Trigonometry G
Applied Fundamentals of Mathematics	Foundations of Algebra and Geometry	Algebra 1G	Geometry G

Mathematics Department

<p>APPLIED FUNDAMENTALS OF MATHEMATICS Course # 3050 Full year Credit: 1.0</p>	<p>This course covers a variety of practical topics such as basic probability, creating and interpreting graphs, formulas, fractions, percent, measurement, perimeter, basic geometry, consumer skills, and basic algebra. A scientific calculator with fraction capabilities is required.</p> <p>Prerequisite: Recommendation of previous teacher and departmental approval. Next course in sequence: Foundations of Algebra and Geometry. Open to grades 9, 10, 11 and 12.</p>
<p>FOUNDATIONS OF ALGEBRA AND GEOMETRY Course # 3090 Full year Credit: 1.0</p>	<p>This course introduces important topics in Algebra and Geometry. Algebra topics include expressions, equations, inequalities and linear functions. Geometry topics include lines, segments, angles, triangles, perimeter, area and volume. This course is appropriate for students with reasonable facility with arithmetic operations and average grades in mathematics. A graphing calculator is required.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Recommendation of previous teacher and departmental approval. Next course in sequence: Algebra 1 General. Open to grades 9, 10, 11 and 12.</p>
<p>ALGEBRA 1 GENERAL Course # 3100 Full year Credit: 1.0</p>	<p>This course continues the important topics in Algebra. Topics include exponents, systems of equations, inequalities, linear and quadratic functions, polynomial expressions, probability, and statistics. A graphing calculator is required.</p> <p>This course fulfills the ISBE graduation requirement for Algebra 1.</p> <p>Prerequisite: Foundations of Algebra and Geometry and department approval. Next course in sequence: Geometry General. Open to grades 10, 11 and 12.</p>
<p>ALGEBRA 1 GENERAL BLOCK Course # 3141 1st Semester Credit: 1.0</p>	<p>This course has the same core curriculum as #3100, but is taught in a single semester, two periods daily.</p> <p>Prerequisite: Foundations of Algebra and Geometry and teacher recommendation. Open to grades 10 and 11.</p>
<p>ALGEBRA 1 Course # 3110 Full year Credit: 1.0</p>	<p>This course focuses on fundamental properties of the real numbers. Linear and quadratic equations are emphasized. Rational expressions and equations are introduced. Real world applications are explored. Algebra 1 is recommended for freshmen students who have achieved a strong facility with arithmetic operations and above average grades in mathematics or for those students whose Algebra skills need strengthening. A graphing calculator with matrix capabilities is required in this course.</p> <p>This course fulfills the ISBE graduation requirement for Algebra 1.</p> <p>Prerequisite: 8th grade teacher recommendation or Departmental approval. Next course in sequence: Geometry. Open to grades 9, 10, 11 and 12.</p>
<p>GEOMETRY GENERAL Course # 3200 Full year Credit: 1.0</p>	<p>Geometry General uses an intuitive approach to study the fundamental concepts in Geometry. Although deductive reasoning is practiced, much less emphasis is placed on writing formal proofs. Students experience geometric concepts through frequent constructions and hands on activities. Some students from 3110 Algebra may be advised to take this course. A scientific calculator is required in this course.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content.</p> <p>Prerequisite: Algebra 1 General or Algebra 1 and Departmental approval. Next course in sequence: Algebra 2 Trigonometry General based upon teacher recommendation. Open to grades 10, 11 and 12.</p>

Mathematics Department

<p>GEOMETRY GENERAL BLOCK <i>Course # 3232</i> 2nd Semester Credit: 1.0</p>	<p>This course has the same core curriculum as #3200, but is taught in a single semester, two periods daily.</p> <p>Prerequisite: Algebra 1 General and teacher recommendation. Open to grades 10 and 11.</p>
<p>GEOMETRY <i>Course # 3210</i> Full year Credit: 1.0</p>	<p>Geometry focuses on proof and fundamental concepts of plane geometry with some informal three-dimensional considerations. Properties of lines, angles, triangles, quadrilaterals and circles are studied. Special attention is given to concepts of congruence, perpendicularity, parallelism, area, similarity, coordinate geometry, logic and deductive reasoning. A scientific calculator is required in this course.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Algebra 1, 8th grade teacher recommendation, and Departmental approval. Next course in sequence: Algebra 2-Trigonometry. Open to grades 9, 10, 11 and 12.</p>
<p>GEOMETRY HONORS <i>Course # 3220</i> Full year Credit: 1.0</p>	<p>This honors course provides an in-depth study of all the topics of plane Euclidean geometry including three-dimensional geometry. Particular attention will be given to the nature of a mathematical system, logic and proof. Students are expected to exercise their creative capacities, and apply their knowledge to different situations. Recommended for students who have a high interest in mathematics and have achieved, without undue stress, an A average in Algebra. A scientific calculator is required in this course.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content.</p> <p>Prerequisite: Algebra 1, 8th grade teacher recommendation, and Departmental approval. Next course in sequence: Algebra 2 Trigonometry Honors or Algebra 2 Trigonometry, based on teacher recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>INTEGRATED ALGEBRA AND GEOMETRY HONORS <i>Course # 3280</i> Full year Credit: 1.0</p>	<p>This honors course reviews important concepts in Algebra 1 and Geometry. Topics will be explored in greater depth than the introductory courses, and selected Algebra 2 Trigonometry topics will be introduced. Students who are successful in this course should be well prepared for a sequence of Algebra 2 Trigonometry Honors, Pre-Calculus Honors, and an AP course on Calculus and/or Statistics.</p> <p>Prerequisite: Algebra 1, Geometry, and 8th grade teacher recommendation. Next course in sequence: Algebra 2 Trigonometry or Algebra 2 Trigonometry Honors. Open to grade 9.</p>
<p>ALGEBRA 2 TRIGONOMETRY GENERAL <i>Course # 3300</i> Full year Credit: 1.0</p>	<p>The basic material for this course, described under 3310 Algebra 2 Trigonometry, is recommended for students from Geometry General. Some students from 3210 Geometry may be advised to take this course. A graphing calculator with matrix capabilities is required in this course.</p> <p>Prerequisite: Geometry General or Geometry and Departmental approval. Open to grades 11 and 12.</p>
<p>ALGEBRA 2 TRIGONOMETRY <i>Course # 3310</i> Full year Credit: 1.0</p>	<p>Algebra 2 Trigonometry expands the material studied in Algebra and Geometry, emphasizing real world applications and associated graphical analysis. The complex number system is studied. Linear, quadratic, exponential, logarithmic, polynomial, rational and trigonometric functions are explored. Transformations and inverses of functions are introduced. This course is recommended for students with a grade average of C or better in Algebra and Geometry who desire a third year of college preparatory mathematics. A graphing calculator with matrix capabilities is required in this course.</p> <p>Prerequisite: Geometry. Next course in sequence: Math Analysis and Introduction to Statistics or Pre-Calculus. Open to grades 10, 11 and 12.</p>

Mathematics Department

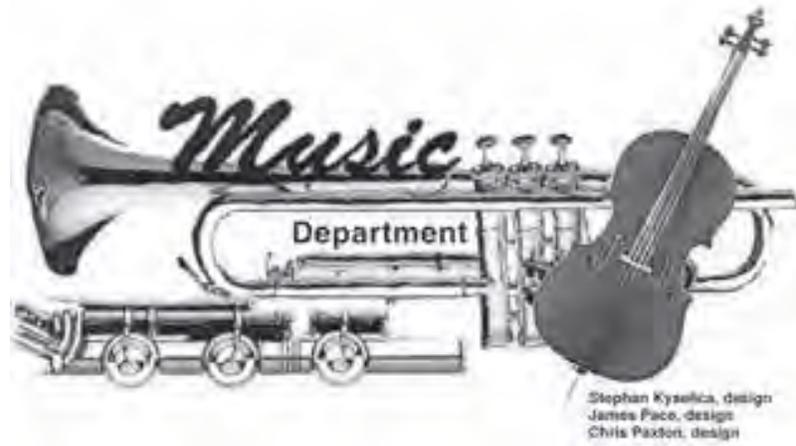

<p>ALGEBRA 2 TRIGONOMETRY HONORS <i>Course # 3320</i> Full year Credit: 1.0</p>	<p>This honors course provides a more in-depth study of the topics described above in Algebra 2 Trigonometry, as well as circular functions, conics, and probability. Students are expected to be capable of creative problem solving and individual study. This course is recommended for students who have a high interest in mathematics, with no less than a B+ average in previous mathematics courses. A graphing calculator with matrix capabilities is required in this course.</p> <p>Prerequisite: Geometry Honors and departmental approval. Next course in sequence: Pre-Calculus Honors or Pre-Calculus, based on teacher recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>INTRODUCTION TO WEB PROGRAMMING <i>Course # 3351, 3352</i> 1st or 2nd Semester Credit: 0.5</p>	<p>This course focuses on the creation of World Wide Web documents using the HTML and JavaScript languages. Students are expected to spend laboratory time outside of class working on their projects. Introductory programming concepts will be presented using JavaScript in order to create more dynamic, self-modifying web pages. Internet access at home is recommended.</p> <p>Prerequisite: Algebra 1 and Departmental approval. Open to grades 9, 10, 11 and 12.</p>
<p>ADVANCED WEB PROGRAMMING <i>Course # 3372</i> 2nd semester Credit: 0.5</p>	<p>This course is a continuation of Introduction to Web Programming. Advanced programming concepts will be presented using HTML and JavaScript. Evaluation is based on projects, assignments, and tests.</p> <p>Prerequisite: Introduction to Web Programming and Departmental approval. Open to grades 9, 10, 11 and 12.</p>
<p>MATH ANALYSIS <i>Course # 3401, 3403</i> 2nd Semester Credit: 0.5</p>	<p>This course focuses on important topics in mathematical modeling. Topics include algorithms, matrices, graphs, and counting, with applications such as elections, fair division, population growth, scheduling, conflict resolution, routing, and game theory. A graphing calculator with matrix capabilities is required.</p> <p>Prerequisite: Algebra 2 Trigonometry General or Algebra 2 Trigonometry and Department approval. Open to grades 11 and 12.</p>
<p>INTRODUCTION TO STATISTICS <i>Course # 3431, 3432</i> 1st Semester/Full year Credit: 0.5/1.0</p>	<p>This course focuses on important topics in statistics. Topics covered in the first semester include statistical plots, statistical summaries of data, regression, probability, normal distributions, and sampling methods. The yearlong course will cover additional topics including hypothesis testing and confidence intervals of population means and proportions, and inference for the slope of the regression line. A graphing calculator with advanced statistical commands is required.</p> <p>Prerequisite for #3431: Algebra 2 Trigonometry General or Algebra 2 Trigonometry and department approval. Prerequisite for #3432: Successful completion of #3431. Next course in sequence: AP Statistics or Math Analysis upon teacher recommendation. Open to grades 11 and 12.</p>
<p>PRE-CALCULUS <i>Course # 3410</i> Full year Credit: 1.0</p>	<p>This course expands on the material studied in Algebra 2 Trigonometry. These areas of study include: real and complex numbers and functions (polynomial, exponential, logarithmic and trigonometric). Additional areas of study are conics, notions of limits, continuity, circular functions, mathematics of finance, parametric equations, and polar coordinates. It is recommended for students who are preparing to enter a technical or semi-technical profession, or planning to study Calculus. A graphing calculator with matrix capabilities is required in this course.</p> <p>Prerequisite: Algebra 2 Trigonometry or Algebra 2 Trigonometry Honors and Departmental approval. Next course in sequence: AP Calculus AB or AP Statistics. Open to grades 10, 11 and 12.</p>

Mathematics Department

<p>PRE-CALCULUS HONORS <i>Course # 3420</i> Full year Credit: 1.0</p>	<p>This honors course provides a more in-depth study of the topics covered in Pre-Calculus with greater emphasis of both theory and applications. Additional topics include curve fitting and physics applications. A graphing calculator with matrix capabilities is required in this course.</p> <p>Prerequisite: Algebra 2 Trigonometry Honors and Departmental approval. Next course in sequence: Upon satisfactory completion of Pre-Calculus Honors, the students are prepared for Calculus. Open to grades 9, 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT COMPUTER SCIENCE A <i>Course # 3480</i> Full year Credit: 1.0</p>	<p>The Computer Science A AP College Board curriculum guidelines are followed in this course. The emphasis of this course is to prepare students for the AP Exam and future programming courses. Programming concepts including variables, constants, expressions, conditionals, arrays, ArrayLists, iteration, functions, and object oriented programming using classes are covered. An emphasis is placed on problem solving. Additionally, programming methodology and design, pre-defined and abstract data types, sorting, data structures, and algorithms, related to data structures are discussed. Applications of computing a working knowledge of hardware and software systems, and the ethical and social implications of computing are examined. The programming language is JAVA.</p> <p>Prerequisite: Algebra 2 Trigonometry and Departmental approval. Open to grades 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT STATISTICS <i>Course # 3500</i> Full year Credit: 1.0</p>	<p>Advanced Placement Statistics will introduce students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. It will emphasize sound statistical thinking rather than routine procedures. This course is intended to be equivalent to an introductory non-calculus based college course in statistics. Students will do a significant amount of reading and independent projects. A graphing calculator with advanced statistics capabilities is required in this course.</p> <p>Prerequisite: Algebra 2 Trigonometry Honors, Pre-Calculus, or Pre-Calculus Honors and Departmental approval. Open to grades 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT CALCULUS AB <i>Course # 3510</i> Full year Credit: 1.0</p>	<p>Advanced Placement Calculus (AB) emphasizes conceptual understandings through manual and technological applications of the derivatives and integrals of algebraic, trigonometric, exponential and logarithmic functions, and relations. This course prepares the student for the AB level Advanced Placement Examination. Satisfactory performance on this examination gives the student an opportunity to qualify for college credit in calculus. A graphing calculator meeting the College Board's optimal technology expectation for the AP Calculus exam is required in this course.</p> <p>Prerequisite: Pre-Calculus or Pre-Calculus Honors and Departmental approval. Open to grades 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT CALCULUS BC <i>Course # 3520</i> Full year Credit: 1.0</p>	<p>Advanced Placement Calculus BC provides an in-depth study of the topics described in Calculus AB, as well as two dimensional vectors, polar coordinates, parametric curves and series. This course prepares the student for the BC level Advanced Placement examination. Satisfactory performance on this examination gives the student an opportunity to qualify for college credit in calculus. A graphing calculator meeting the College Board's optimal technology expectation for the AP Calculus Exam is required in this course.</p> <p>Prerequisite: Pre-Calculus Honors and Departmental approval. Open to grades 10, 11 and 12.</p>

Mathematics Department

<p>COMPUTER SCIENCE TOPICS 1 Honors <i>Course # 3611, 3621</i> 1st Semester Credit: 0.5</p>	<p>Computer Science Topics 1 provides students advanced study in computer science beyond AP. Each semester students will work on advanced computer programming techniques and languages.</p> <p>Prerequisite: AP Computer Science and Department approval. Open to grades 11 and 12.</p>
<p>COMPUTER SCIENCE TOPICS 2 Honors <i>Course # 3622</i> 2nd Semester Credit: 0.5</p>	<p>Computer Science Topics 2 provides students advanced study in computer science beyond AP. Each semester students will work on advanced computer programming techniques and languages.</p> <p>Prerequisite: AP Computer Science and Department approval. Open to grades 11 and 12.</p>
<p>MATH TOPICS 1 HONORS <i>Course # 3641</i> 1st Semester Credit: 0.5</p>	<p>Math Topics 1 provides students advanced study in mathematics. Determined by the department, a student will be introduced to Linear Algebra, Multivariable Calculus, or Calculus-based Statistics.</p> <p>Prerequisite: Departmental approval. Open to grade 12.</p>
<p>MATH TOPICS 2 HONORS <i>Course # 3652</i> 2nd Semester Credit: 0.5</p>	<p>Math Topics 2 provides students with advanced study in mathematics. Determined by the department, a student will be introduced to Linear Algebra, Differential Equations, or Calculus-based Statistics.</p> <p>Prerequisite: Departmental approval. Open to grade 12.</p>
<p>ENRICHMENT COURSES</p>	
<p>MATH EXCEL ALGEBRA <i>Course # 3030, 3035</i> 1st and 2nd Semester Credit 0.25</p>	<p>Math Excel Algebra is designed to support students enrolled in Algebra 1 by providing them additional instruction, individualized practice, and support during the school day. In this small guided study hall led by an Excel teacher and a math teacher, students will have time and support to complete their mathematics homework in addition to other coursework. Math Excel Algebra is a semester course and students will earn a quarter of a credit towards graduation for each semester they are enrolled on a pass/fail basis. Students are encouraged to enroll in both semesters.</p> <p>Open to students in grade 9 with a recommendation from their 8th Grade Teacher.</p>
<p>MATH EXCEL GEOMETRY <i>Course # 3020, 3025</i> 1st and 2nd Semester Credit 0.25</p>	<p>Math Excel Geometry is designed to support sophomore students enrolled in Geometry in the same format as Math Excel Algebra.</p> <p>Open to students in grade 10 with teacher recommendation and Department approval.</p>
<p>MATH EXCEL ALGEBRA 2 TRIGONOMETRY <i>Course # 3010, 3015</i> 1st and 2nd Semester Credit 0.25</p>	<p>Math Excel Algebra 2 Trigonometry is designed to support students enrolled in Algebra 2 Trigonometry in the same format as Math Excel Algebra. Students in this course will also learn strategies to implement on the mathematics sections of standardized tests.</p> <p>Open to students in grades 10 and 11 with teacher recommendation and Department approval.</p>

All courses in the Music Department fulfill the Elective Arts graduation requirement. Two fine arts credits fulfill the Illinois state public university entrance requirements in Art, Music or Foreign Language. Music performance courses are designed to not only improve the level of performance skill of the student, but also to develop a deeper understanding of culture and aesthetics.

All music performance courses include performances outside the school day as a significant part of student expectations. Lists of performances and any outside rehearsals will be provided at the beginning of the school year. Auditing of music courses (participation for no credit) is not permitted.

IMPORTANT INFORMATION FOR INCOMING FRESHMEN AND THEIR PARENTS:

The following courses are available for freshmen enrollment and do not require an audition:

- Concert Orchestra (5680): violin, viola, cello and string bass players only
- Concert Band (5640): flute, oboe, all clarinets, bassoon, all saxophones, trumpet or cornet, French horn, trombone, baritone or euphonium, and tuba
- Concert Percussion (5710): drum set players, keyboardists, bass players and percussionists
- Jazz Lab (5677): open to all instruments and voice types
- Treble Choir (5800): female vocalists
- Men's Choir (5801): male vocalists

The courses below are open to freshmen by audition. Visit the band website, www.hcbands.org for additional information. Email the Band Directors at mkurinsk@hinsdale86.org or mgoeke@hinsdale86.org for an audition time.

- Symphonic Band (5641): flute, oboe, all clarinets, bassoon, all saxophones, trumpet or cornet, French horn, trombone, baritone or euphonium, and tuba
- Wind Ensemble (5646): flute, oboe, all clarinets, bassoon, all saxophones, trumpet or cornet, French horn, trombone, baritone or euphonium, tuba, and percussion
- Symphonic Percussion (5711): drum set players, keyboardists, and percussionists
- Jazz Band (5676): all saxophones, trombone, trumpet, keyboard, guitar, bass, and drum set
- Jazz Ensemble (5670): all saxophones, trombone, trumpet, keyboard, guitar, bass, and drum set

Music Department

The following courses are available for upperclassmen and require an audition with the instructor:

- Women’s Chorale (5810), Hinsdale Central Singers (5840), Chamber Choir (5850), audition with Mrs. Burkemper in Room 169, 630-570-8452, email jburkemp@hinsdale86.org
- Symphony Orchestra (5690): audition with Mr. Wirtz, Room 163, 630-570-8453, email jwirtz@hinsdale86.org
- Symphonic Band (5641), Symphonic Percussion (5711), Wind Ensemble (5646), Jazz Band (5660), Jazz Ensemble (5670): audition with Mr. Kurinsky, email mkurinsk@hinsdale86.org.

Visit the band website, www.hcbands.org for additional information. Email the Band Directors at mkurinsk@hinsdale86.org or mgoeke@hinsdale86.org for an audition time.

Music Department

<p>HONORS STUDY IN MUSIC</p>	<p>Students have the opportunity to qualify for honors study in music performance courses. There are several ways that you can become eligible.</p> <p>Strings Players may, through auditions in September, be selected for the Honors Chamber Orchestra. This is a select ensemble of advanced string players who rehearse every other morning as an Early Bird class. Concurrent registration in Concert Orchestra or Symphony Orchestra is required.</p> <p>Wind and Percussion Players may, through auditions in September, be selected for Honors Orchestra Winds and Percussion. This is a select ensemble of advanced wind and percussion players who will rehearse every other day as an Early Bird class. These players make up the Symphony Orchestra Wind and Percussion sections. Concurrent registration in a band class is required</p> <p>All students in music courses will have the option for earning honors credit:</p> <p>Each student will be required to participate in several activities during the school year that will enhance musical experiences, and abilities. Please see each instructor for more details. To become eligible for honors credit, each candidate will be selected by audition in September, by the department instructors. Audition materials, and information may be obtained from the department instructors.</p>
<p>ORCHESTRA</p>	
<p>CONCERT ORCHESTRA <i>Course # 5680</i> Full year Credit: 1.0</p>	<p>This class will develop the basic techniques involved in playing a stringed instrument and perform concerts with students in band classes. Music from the standard repertoire of orchestral music will be studied.</p> <p>Prerequisite: Director approval. Open to grade 9. This course may be repeated for credit.</p>
<p>SYMPHONY ORCHESTRA <i>Course # 5690</i> Full year Credit: 1.0</p>	<p>A class for higher level development of string instrument techniques and the study of appropriate music. This class combines with the Honors Orchestra Winds and Percussion to perform Music from the standard repertoire of orchestral music. An audition is required.</p> <p>Prerequisite: Audition & director approval. Open to grades 10, 11 and 12. This course may be repeated for credit.</p>
<p>CHOIR</p>	
<p>TREBLE CHOIR <i>Course # 5800</i> Full year Credit: 1.0</p>	<p>Teaches and examines basic vocal techniques, practice and performance of choral music, sight singing and theory. A variety of choral music will be practiced and performed. Honors credit is available for this course.</p> <p>Prerequisite: None. Open to all ninth grade females and to all other grade levels who have not participated in vocal music at school before.</p>
<p>MEN'S CHOIR <i>Course # 5801</i> Full year Credit: 1.0</p>	<p>Teaches and examines basic vocal techniques, practice and performance of choral music, sight singing and theory. A variety of choral music will be practiced and performed. Honors credit is available for this course.</p> <p>Prerequisite: None. Open to all ninth grade males and to all other grade levels who have not participated in vocal music at school before.</p>

Music Department

CHOIR, continued	
<p>WOMEN'S CHORALE <i>Course # 5810</i> Full year Credit: 1.0</p>	<p>Level two of vocal techniques focused on the female voice. A variety of women's choral literature is practiced and performed. Advanced study of sight singing and theory. Honors credit is available for this course. An audition is required.</p> <p>Prerequisite: Director approval. Open to grades 10, 11 and 12. This course may be repeated for credit.</p>
<p>HINSDALE CENTRAL SINGERS <i>Course # 5840</i> Full year Credit: 1.0</p>	<p>An advanced level of vocal technique, sight singing and theory. This advanced choral group practices and performs a variety of music. Extra performances or rehearsals may be scheduled. Honors credit is available for this course. An audition is required.</p> <p>Prerequisite: Director approval. Open to grades 10, 11 and 12. This course may be repeated for credit.</p>
<p>CHAMBER CHOIR <i>Course # 5850</i> Full year Credit: 1.0</p>	<p>An advanced group with a high level of musicianship, vocal technique, sight singing and theory skills. A large variety of musical styles will be practiced and performed. This ensemble performs frequently outside of the school day for community events. Honors credit is available for this course. An audition is required.</p> <p>Prerequisite: Audition and director approval. Open to grades 11 and 12. This course may be repeated for credit.</p>
BAND	
INFORMATION FOR ALL BAND CLASSES	
<p>Students enrolled in the Hinsdale Central High School Bands perform at home games, local parades, pep rallies, formal concerts, and other community events. Band classes improve musicianship, develop technique, and provide performance opportunities featuring a variety of musical styles and ensemble settings. Every band course is an academic class that meets during a class period and also requires occasional rehearsals and performances outside the school day; however, students are encouraged to participate in other academic classes, athletics, and activities. Opportunities for student leadership, overnight travel, and extracurricular performing are available. All band classes can be repeated each year for credit and are open to students in every grade. Every band student performs as part of the Pep Band and the Red Devil Marching Band, which allows sophomores, juniors, and seniors to exempt out of Physical Education during first semester.</p> <p>Band students in grades 10 through 12 may be exempted from Physical Education classes on an Athletic Waiver during both semesters for ongoing participation in the Marching Band and pep band provided their Physical Education class is scheduled during the regular seven period school day. These students will be placed into a study hall during their Physical Education class. The band classes that require such participation are Concert Band, Concert Percussion Ensemble, Symphonic Band, Symphonic Percussion Ensemble, and Wind Ensemble. Withdrawal from a band class results in an immediate return to Physical Education.</p> <p>Special Note: Only students who are enrolled in Jazz Lab, Jazz Band, Jazz Ensemble, and Orchestra Winds and Percussion may elect to be exempt from Early Bird Physical Education because their Physical Education class is being fulfilled during Marching and Pep Band period(s) offered during the regular seven period day. Withdrawal from an early bird music class results in an immediate return to early bird physical education.</p> <p>The band web page, www.hcbands.org, has the most current information about the band program, auditions, and honors credit requirements. Questions may be emailed to the band directors: Mr. Matt Kurinsky, at mkurinsk@hinsdale86.org or Mr. Matt Goeke at mgoeke@hinsdale86.org.</p>	

Music Department

BAND, continued	
<p>CONCERT BAND <i>Course # 5640</i> Full year Credit: 1.0 NO PERCUSSIONISTS</p>	<p>The Concert Band is open to all flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, baritone, and tuba players without an audition and is open to beginners in addition to experienced performers. Students will study the basics of wind instrument performance, music reading, and music theory. See the Information for All Band Classes above for more details.</p> <p>Prerequisite: none</p>
<p>SYMPHONIC BAND <i>Course # 5641</i> Full year Credit: 1.0</p>	<p>The Symphonic Band is an auditioned concert band made up of flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, baritone, and tuba players. This class develops a more advanced level of wind instrument performance and requires students to have a good understanding of music reading and music theory. See the Information for All Band Classes above for more details.</p> <p>Prerequisite: audition required.</p>
<p>WIND ENSEMBLE HONORS <i>Course # 5646</i> Full year Credit: 1.0</p>	<p>The Wind Ensemble is an auditioned, highly selective, concert band made up of a limited number of flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, baritone, tuba, and percussion players. Enrolled students must be proficient at reading and performing music and must meet honors credit requirements. Students will frequently perform the most advanced standards and the latest compositions of contemporary wind band literature. See the Information for All Band Classes for more details.</p> <p>Prerequisite: audition required.</p>
<p>CONCERT PERCUSSION <i>Course # 5710</i> Full year Credit: 1.0</p>	<p>The Concert Percussion Ensemble is an entry level class for students interested in performing band music on percussion instruments, drum set, and bass guitar. In addition to performing as a percussion ensemble, students will also prepare standard band literature to perform with the wind players in other band classes. Enrolled students will learn the basics of music reading and percussion technique. See the Information for All Band Classes for more details.</p> <p>Prerequisite: none</p>
<p>SYMPHONIC PERCUSSION <i>Course # 5711</i> Full year Credit: 1.0</p>	<p>The Symphonic Percussion Ensemble is an auditioned class only for percussion and drum set players. In addition to performing as a percussion ensemble, students will also prepare standard band literature to perform with the wind players in other band classes. Enrolled students must be able to read music and have a good understanding of percussion technique. See the Information for All Band Classes for more details.</p> <p>Prerequisite: audition required.</p>
<p>JAZZ ENSEMBLE <i>Course # 5670</i> Full year Credit: 1.0</p>	<p>The Jazz Ensemble is the top auditioned traditional big band made up of saxophone, trombone, trumpet, piano, bass, guitar, and drum set players. Students enrolled in this class study jazz performance in a variety of styles and frequently perform. Enrolled students should have a good understanding of scale and chord theory and must be comfortable practicing improvisation. This class meets every other day during the “Early Bird” Period 0. Students may also enroll in Honors Orchestra Winds and Percussion. See the Information for All Band Classes for more details.</p> <p>Prerequisites: audition required and concurrent registration in a band class (exceptions made for non-band instruments)</p>

Music Department

MUSIC THEORY	
<p>JAZZ BAND Course # 5676 Full year Credit: 1.0</p>	<p>The Jazz Band is an auditioned traditional big band made up of saxophone, trombone, trumpet, piano, bass, guitar, and drum set players. Students enrolled in this class study jazz performance in a variety of styles. The class develops an understanding of scale and chord theory and encourages improvisation. This class meets every other day during the “Early Bird” Period 0. See the Information for All Band Classes for more details.</p> <p>Prerequisites: audition required and concurrent registration in a band class (exceptions made for non-band instruments)</p>
<p>JAZZ LAB Course # 5677 Full year Credit: 1.0</p>	<p>The Jazz Lab is an entry level class for instrumental and vocal music students interested in performing contemporary music in a variety of styles while developing improvisation skills. Students may be grouped into ensembles according to ability and instrumentation. See the Information for All Band Classes for more details.</p> <p>Prerequisite: concurrent registration in a performance music class</p>
<p>AP MUSIC THEORY Course # 5900 Full year Credit: 1.0</p>	<p>AP Music Theory prepares music students for the Music Theory Advanced Placement Examination through the study of musical elements and techniques including notation, scales and modes, intervals, chords, non-harmonic tones, cadences, ear training, sight singing, melody, form, and composition. Success on the AP Exam can result in college credit. All prospective students must be recommended to Mr. Kurinsky by their music director or private lesson instructor.</p> <p>Prerequisite: Director approval. Open to grades 10, 11 and 12.</p>

Further information can be found at the following websites:

www.hcbands.org

www.hcmusic.org

All students must take physical education or health each semester in attendance. Four (4) credits of Physical Education/Health are required for graduation. Health is a required semester course to be taken during the 10th grade year. Students have an option of also enrolling in Physical Education during that semester for an additional 0.5 credit. A student earns 1/2 credit for each semester of passing work in Physical Education. Students who fail Physical Education must make up the credit by enrolling in an equivalent course at another approved institution. Students will not be allowed to enroll in more than one period of required Physical Education per semester. Students are expected to attend class daily, dress in proper physical education attire and participate to their ability.

Physical education is the science of human movement and the courses are designed to provide instruction and insight into healthy physical activities. All Physical Education offerings are designed to promote good health, safety, fitness, awareness of the value of recreation, and an appreciation of all forms of physical expression.

Students must register for Physical Education **EACH** semester. *

GRADE	SEMESTER 1	SEMESTER 2
9	7113	7114

Freshman: basketball, track and field, softball, soccer, square dance, volleyball, badminton, fitness concepts, team building, football, tennis, gymnastics, swimming, group exercise, wrestling and modern dance.

10/11/12

Students are to enroll in one option each semester

*Sophomores may exercise their option of taking **Health Education and only one semester of Physical Education** by registering for the following courses: **P.E. option/Health 7502 or Health 7501/PE option.**

Sophomore, Junior and Senior: Select one activity from each semester

COURSE TITLE	Course # (First/Second Semester)	Prerequisite	Credit	Grade Offered

Physical Education	7113/7114	No	0.5	9

Physical Education

<p>AQUATICS Course # 7305 1st semester Credit: 0.5</p>	<p>Includes sports and activities designed for the aquatic environment. Included are the development of skills in springboard diving, analysis of the four competitive swimming strokes, as well as starts and turns. Water safety habits, basic lifeguarding skills, water aerobics, dryland exercises, and weight training specific to aquatic activity will also be introduced. Recommended for prospective triathletes and swimmers. (May be repeated.)</p>		
<p>COMPETITIVE PHYSICAL CONDITIONING Course # 7306 1st semester Credit: 0.5</p>	<p>A strong emphasis on core training, general strength, stability and explosive power. Recommended for any person wishing to improve overall competitive effectiveness.</p>		
<p>AEROBICS Course # 7307 1st semester Credit: 0.5</p>	<p>This class introduces students to components of cardiovascular activity through aerobic movements. Students will also address the principles of muscular strength and endurance through the use of free weights and toning exercises. Core workouts, yoga, pilates, and dance are introduced as part of this class as methods for students to increase flexibility, strength and balance. (May be repeated)</p>		
<p>PERSONAL FITNESS (Fitness Center) Course # 7308 1st semester Credit: 0.5</p>	<p>Variable course content. Each student develops and executes an individualized conditioning program designed to address the individual's personal fitness goals. Teacher developed plans are also incorporated. Principles and skills relating to cardiovascular endurance, muscular strength, muscular endurance, flexibility and body composition. Equipment orientation includes Stairmaster, rowing machines, stationary bikes, ellipticals, proper weight training selection and form, circuit training. Individual fitness assessment (May be repeated.)</p>		
<p>COMPREHENSIVE WEIGHT TRAINING (Bouchard Center) Course # 7309 1st semester Credit: 0.5</p>	<p>Gain knowledge and understanding of weight training theory, advanced weight training practices, sport specific weight training techniques and proper nutritional practices. Initiate and develop weight training programs. Improve muscular strength and endurance. (May be repeated.)</p>		
<p>LIFEGUARD/CPR/First Aid Course # 7310 1st semester Credit: 0.5</p>	<p>Meets American Red Cross Lifesaving Certification, Cardiopulmonary Resuscitation Certification and Standard First Aid Certification. Students must be able to swim 500 yds. non-stop to enroll. No student may use a P.E. exemption in this class and receive Red Cross certification or recertification.</p>		
<p>Fitness Integrated Through Sports (F.I.T.S.) Course # 7311, 7312, 7313 1st semester Credit: 0.5</p>	<p>Includes sports and activities for lifelong participation. Instruction provided in basic skill, rules, strategies, and social behavior necessary to achieve competent level of participation, practice, game situations and tournament play. In addition, students will be introduced to fitness components such as cardiovascular endurance, muscular strength, muscular endurance and flexibility. Select one of the following options. Please note:</p> <p>F.I.T.S. CC is designated for those who desire a competitive atmosphere.</p>		
<p>7311 F.I.T.S. (ICR) (Individual Concept Recreational):</p>	<p>Individual Fitness Orienteering Aquatics</p>	<p>Tennis Archery Fitness Testing</p>	<p>Roller blading Badminton Frisbee Golf</p>
<p>7312 F.I.T.S. (CC) (Competitive Concept):</p>	<p>Volleyball Ultimate Frisbee Aquatic Games</p>	<p>Football/Navy Outdoor Hockey Soccer</p>	<p>Team Handball Flicker Ball Fitness Testing</p>
<p>7313 F.I.T.S. (TCR) (Team Concept Recreational):</p>	<p>Volleyball Basketball Fitness Testing</p>	<p>Square Dance Softball</p>	<p>Kickball Soccer Football</p>

Physical Education

AQUATICS <i>Course # 7320</i> 2nd semester Credit: 0.5	Includes sports and activities designed for the aquatic environment. Included are the development of skills in springboard diving, analysis of the four competitive swimming strokes, as well as starts and turns. Water safety habits, basic lifeguarding skills, water aerobics, dryland exercises, and weight training specific to aquatic activity will also be introduced. Recommended for prospective triathletes and swimmers. (May be repeated.)			
COMPETITIVE PHYSICAL CONDITIONING <i>Course # 7321</i> 2nd semester Credit: 0.5	A strong emphasis on core training, general strength, stability and explosive power. Recommended for any person wishing to improve overall competitive effectiveness.			
AEROBICS <i>Course # 7322</i> 2nd semester Credit: 0.5	This class introduces students to components of cardiovascular activity through aerobic movements. Students will also address the principles of muscular strength and endurance through the use of free weights and toning exercises. Core workouts, yoga and pilates are introduced as part of this class as methods for students to increase flexibility, strength and balance. (May be repeated)			
PERSONAL FITNESS (Fitness Center) <i>Course # 7323</i> 2nd semester Credit: 0.5	Variable course content. Each student develops and executes an individualized conditioning program designed to address the individual's personal fitness goals. Teacher developed plans are also acceptable. Principles and skills relating to cardiovascular endurance, muscular endurance, muscular strength, flexibility and body composition. Equipment orientation includes Stairmaster, rowing machines, stationary bikes, ellipticals, proper weight training selection and form, circuit training. Individual fitness assessment (May be repeated.)			
COMPREHENSIVE WEIGHT TRAINING (Bouchard Center) <i>Course # 7324</i> 2nd semester Credit: 0.5	Gain knowledge and understanding of weight training theory, advanced weight training practices, sport specific weight training techniques and proper nutritional practices. Initiate and develop weight training programs. Improve muscular strength and endurance. (May be repeated.)			
LIFEGUARDING/CPR/FIRST AID <i>Course # 7325</i> 2nd semester Credit: 0.5	Meets American Red Cross Lifesaving Certification, Cardiopulmonary Resuscitation Certification and Standard First Aid Certification. Students must be able to swim 500 yds. non-stop to enroll. No student may use a P.E. exemption in this class and receive Red Cross certification or recertification.			
Fitness Integrated Through Sports (F.I.T.S.) <i>Course # 7326,7327,7328</i> 2nd semester Credit: 0.5	Includes sports and activities for lifelong participation. Instruction provided in basic skill, rules, strategies, and social behavior necessary to achieve competent level of participation, practice, game situations and tournament play. In addition, students will be introduced to fitness components such as cardio-vascular endurance, muscular strength, muscular endurance and flexibility. Select one of the following options. (May be repeated.)Please note: F.I.T.S. (CC) is designated for those who desire a competitive atmosphere.			
7326 F.I.T.S. (ICR) (Individual Concept Recreational):	Bowling* Pickleball	Ping Pong Aquatics	Golf Group Exercise	Outdoor Education Fitness Testing
7327 F.I.T.S. (CC) (Competitive Option):	Volleyball Basketball	Team Games Softball	Outdoor Hockey	Aquatic Games
7328 F.I.T.S. (TCR) (Team Concept Recreational):	Volleyball Whiffleball	Basketball Kickball	Lacrosse (no contact) Softball	Fitness Testing
*Supply fee of \$30.00 is required for this off-campus activity. Fee is collected at time of participation				

Physical Education

ADAPTIVE PHYSICAL EDUCATION Course # 7080 Full year Credit: 1.0	This self-contained section of Adaptive Physical Education is offered to students who are restricted and prevented from activity in a regular program. This could include ambulatory cases, congenital defects, and handicapped students. Each student in the section will be given a separate (IEP) individual education program which has earned approval from a physician, school nurse, and parent(s) as appropriate. Prerequisite: Departmental and/or Educational Services departmental approval. Open to grades 9, 10, 11 and 12.
EARLY BIRD P.E. Course # 7373, 7374 1st or 2nd semester Credit: 0.5	This physical education class is open to all sophomores, juniors, and seniors who wish to add an extra period to their day, giving them greater flexibility to select other specialized courses. The course runs from 7:00 a.m. to 7:50 a.m. daily. Students must provide their own transportation.

PHYSICAL EDUCATION EXEMPTION

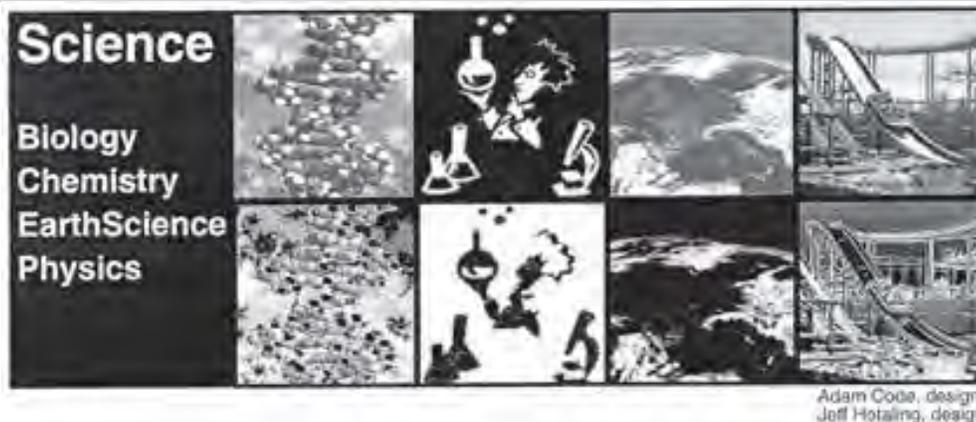

Students interested in exempting out of PE during their 2012– 2013 athletic or marching band season in order to take a study hall need to be aware of the following:

1. PE Exemption is available for **Junior** and **Senior** athletes and **Sophomore, Junior, and Senior** Marching Band members only.
 - a. You must be enrolled in a full seven period academic schedule.
 - b. You must NOT have a study hall in your schedule.
2. In order to be eligible for PE Exemption, you must fill out both sides of the request form with all required signatures and turn it in to your counselor at your individualized registration appointment in January or February.
3. These course codes will be used for PE Exemptions that fall within the following marking periods:

Code	1 st	2 nd	3 rd	4 th	Girls' Sports	Boys' Sports	Activity
7218	Exempt	In PE class			Golf Tennis	Golf	
7219	Exempt	Exempt			Volleyball Cross Country Swimming FB Cheerleading FB Poms	Football Soccer Cross Country	Marching Band
7220	In PE class	Exempt	Exempt	In PE class	Bowling Basketball Gymnastics BB Cheerleading BB Poms	Bowling Wrestling Basketball Swimming	
7221			In PE Class Then Exempt	Exempt	Badminton Water Polo Soccer Softball Lacrosse	Gymnastics Tennis Water Polo Baseball Volleyball Lacrosse	
7222			Exempt	Exempt	Indoor/Outdoor Track	Indoor/Outdoor Track	

All PE Exemption students must still register for PE class during both semesters. They are not guaranteed the class of their choice when they return after the exemption. This is due to space limitations caused by exempted students flowing in and out of PE classes throughout the year.

Students re-entering PE once their season is over may be put into Personal Fitness if space is not open in the class they vacated.

Two credits in science are required for graduation. Each credit must be earned by completing both semesters of a given course (one credit can be earned through the semester course offerings).

All students should have experience in both the biological and physical/earth sciences. Two years of the same type of science, if this excludes other areas of science, is not recommended.

1. Courses in science are designed to develop an understanding of the natural and physical world, to stress the importance of major scientific principles, to develop reasonable competence in the use of the methods of science and to help recognize and prepare for the role science plays in our evolving technological world. The many course offerings and sequences in science have been carefully planned to meet the needs of each student, whether he/she considers science as a future career, as an interesting avocation or as a necessity for all citizens in our technological society.
2. Courses are taught in classroom-laboratory situations which provide opportunities for individual and group instruction, investigation and experimentation. All science classes require a teacher recommendation.
3. The following are possible four-year course sequences:

Seq.	Grade 9	Grade 10	Grade 11	Grade 12
1.	Earth Science – G or Biology – G	Biology - G Earth Science G	Chemistry/Physics	Chemistry Themed or Traditional or Physics Themed or Traditional
2.	Biology or Earth Science	Earth Science or Biology	Chemistry Themed or Chemistry Traditional	Physics Themed or Physics Traditional
3.	Biology	Chemistry Themed or Chemistry Traditional	Physics Themed or Physics Traditional	Earth Science semester courses or Earth Science Honors or <u>select</u> Advanced Placement courses
4.	Biology	Chemistry Themed or Chemistry Traditional	Earth Science semester courses* or Earth Science	Physics Themed Physics Traditional
5.	Earth Science or Earth Science - H	Biology or Biology – H	Chemistry Traditional or Chemistry - H	Physics Traditional Physics – H or Advanced Placement courses
6.	Biology Honors	Chemistry Honors	Physics Honors	Advanced Placement courses

*The following semester courses are available to upperclassmen:

Meteorology/Astronomy **(student must not have taken Earth Science)**

Geology/Oceanography **(student must not have taken Earth Science)**

The aforementioned sequences by no means represent all sequences available to students. The possibilities are numerous. A more useful way to view science courses is by the year offered. The following table serves that purpose.

COURSE TITLE	Course #	Prerequisite	Credit	Grade Offered
Fundamentals of Physical Science	3680	Yes	1.0	11-12
Fundamentals of Biological Science	3690	Yes	1.0	9-12
Biology – General	3700	Yes	1.0	9-12
Biology	3710	Yes	1.0	9-12
Biology – Honors	3720	Yes	1.0	9-12
Advanced Placement Biology	3730	Yes	1.0	11-12
Advanced Placement Environmental Science	3770	Yes	1.0	11-12
Earth Science – General	3740	Yes	1.0	9-12
Earth Science	3750	Yes	1.0	9-11
Earth Science – Honors	3760	Yes	1.0	9-12
Meteorology/Astronomy	3771	Yes	0.5	11-12
Geology/Oceanography	3782	Yes	0.5	11-12
Chemistry/Physics I	3800	Yes	1.0	11-12
Chemistry – Themed	3810	Yes	1.0	10-12
Chemistry – Traditional	3820	Yes	1.0	10-12
Chemistry – Honors	3830	Yes	1.0	10-12
Advanced Placement Chemistry	3840	Yes	1.0	11-12
Physics – Themed	3900	Yes	1.0	10-12
Physics – Traditional	3920	Yes	1.0	10-12
Physics – Honors	3930	Yes	1.0	10-12
Advanced Placement Physics B	3950	Yes	1.0	11-12
Advanced Placement Physics C	3960	Yes	1.0	11-12

<p>FUNDAMENTALS OF PHYSICAL SCIENCE <i>Course # 3680</i> Full year Credit: 1.0</p>	<p>This course focuses on the basic principles of the physical science. Students are directly involved in the development of each concept presented. The goal is to sharpen skills of observation and inference. Fundamentals of Physical Science is a laboratory course.</p> <p>Prerequisite: Successful completion of Biology General and Earth Science General. Enrollment in this course is by teacher recommendation only.</p>
<p>FUNDAMENTALS OF BIOLOGICAL SCIENCE <i>Course # 3690</i> Full year Credit: 1.0</p>	<p>This course investigates the basic structure, activities and relationships among living things. Class activities include laboratory investigations and class discussions.</p> <p>Prerequisite: Must be recommended cooperatively by Special Education, Science and Guidance departments. The Fundamentals of Biological Science Course #3690 is being reviewed and will NOT be offered in 2012-2013.</p>
<p>BIOLOGY - GENERAL <i>Course # 3700</i> Full year Credit: 1.0</p>	<p>This course is designed to acquaint students with properties of living organisms. The course content includes such topics as the relationship between structure and function in living organisms as it relates to the human body, evolution, genetics, and many aspects of ecology. The approach of this course is to provide an introduction to major biological concepts with the use of an easily readable textbook. Biology - G is a laboratory course.</p> <p>Prerequisite: Incoming freshmen eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 and 12.</p>

Science Department

<p>BIOLOGY Course # 3710 Full year Credit: 1.0</p>	<p>This course is designed to acquaint students with properties of living organisms. This course's content includes such topics as the relationship between the structure and function in living organisms as it relates to the human body, evolution, genetics, and varied ecological principals. These areas are investigated in greater depth and application than Biology-General. The impact that humans have on the global environment is studied during the end of this course. Methods of scientific inquiry are employed in classroom instruction. Good ability in reading comprehension is ESSENTIAL for success in this course. Biology - R is a laboratory course.</p> <p>Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 and 12.</p>
<p>BIOLOGY - HONORS Course # 3720 Full year Credit: 1.0</p>	<p>The course follows a molecular approach in the following content areas: cellular biology, evolution, genetics and its applications, and aspects of human biology. Compared to Biology 3710, the content areas are covered in greater depth and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. This course utilizes an inquiry approach in which students incorporate factual information into a framework of reflection and analysis. Biology - H is a laboratory course. Students earning a C in this course will not be eligible for a level change.</p> <p>Prerequisite: High ability in science, mathematics and reading. Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT BIOLOGY Course # 3730 Full year Credit: 1.0</p>	<p>This course follows the College Board's Advanced Placement curriculum and as such is rigorous and fast paced. This course is comparable to an introductory college level course. College level materials are used. Advanced Placement Biology is a laboratory course.</p> <p>Prerequisite: Three years of science, including a year of Biology and a year of Chemistry and departmental recommendation. Concurrent enrollment in third year of science and AP Biology is permitted. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT ENVIRONMENTAL SCIENCE Course # 3770 Full year Credit: 1.0</p>	<p>This course follows the College Board's Advanced Placement curriculum and as such is rigorous and fast paced. This course will provide students with the scientific principles, concepts and methods required to understand the interrelationships of the natural world, to identify and analyze environmental problems, and to examine alternative solutions for resolving and/or preventing them. Field trips are an integral part of this course and are therefore mandatory. This course is comparable to a one-semester introductory college-level course; college-level materials are used. Advanced Placement Environmental Science is a laboratory course.</p> <p>Prerequisite: Three years of science and departmental recommendation. Concurrent enrollment in a third year of science and AP Environmental Science is permitted. Open to grades 11 and 12.</p>
<p>EARTH SCIENCE - GENERAL Course # 3740 Full year Credit: 1.0</p>	<p>The core material for this course is similar to that of 3750 Earth Science. The approach of the text used in this course is understandable, practical and, most important; it aids students who need an introduction to major concepts in Earth Science in an easy to read form. Earth Science - G is a laboratory course.</p> <p>Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 and 12.</p>

Science Department

<p>EARTH SCIENCE <i>Course # 3750</i> Full year Credit: 1.0</p>	<p>This course utilizes an inquiry approach in which students take factual information and use it for analysis. The main units of study are: geology, oceanography, meteorology and astronomy. Good ability in reading comprehension and average ability in math are ESSENTIAL for success in this program. Earth Science is a laboratory course.</p> <p>Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, and 11.</p>
<p>EARTH SCIENCE - HONORS <i>Course # 3760</i> Full year Credit: 1.0</p>	<p>This course uses a college-level textbook and covers major topics in meteorology, astronomy, and geology. Compared to Earth Science 3750, the pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. The approach of the course involves traditional learning, labs, and tests paired with cooperative group work, presentations, and written projects. Earth Science - H is a laboratory course. Students earning a C in this course will not be eligible for a level change.</p> <p>Prerequisite: High ability in science, mathematics and reading. Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 and 12.</p>
<p>METEOROLOGY AND ASTRONOMY <i>Course # 3771</i> 1st semester only Credit: 0.5</p>	<p>Meteorology is the study of the mechanics of the atmosphere, weather and climatic patterns. Astronomy is concerned with the celestial bodies that comprise the known physical universe. The astronomy portion of this course DOES NOT emphasize astrophysics. This course includes teamwork to help develop problem solving skills. Good reading skills and comprehension are required. Meteorology and Astronomy is a laboratory course.</p> <p>Prerequisite: At least one year of high school science, and departmental recommendation. This course is NOT open to anyone who has already taken Earth Science. Open to grades 11 and 12.</p>
<p>GEOLOGY AND OCEANOGRAPHY <i>Course # 3782</i> 2nd semester only Credit: 0.5</p>	<p>This course examines the physical processes that shape and change the earth's crust. The physical, chemical, geological and biological aspects of the ocean are explored with equal time devoted to each aspect. This course includes teamwork to help develop problem solving skills. Good reading skills and comprehension are required. Geology and Oceanography is a laboratory course.</p> <p>Prerequisite: At least one year of high school science, and departmental recommendation. This course is NOT open to anyone who has already taken Earth Science. Open to grades 11 and 12.</p>
<p>CHEMISTRY/PHYSICS I <i>Course # 3800</i> Full year Credit: 1.0</p>	<p>This course is designed for those students needing additional chemistry and physics background before enrollment in a full-year course. Approximately one semester each will be devoted to topics in chemistry, such as atomic structure and gases, and topics in physics, such as motion and waves. This lab oriented course is taught at a pace that allows students to focus on chemistry and physics content development as well as study skills that could prepare students for a full-year chemistry or physics course. This is a laboratory course.</p> <p>Prerequisite: Successful completion of Algebra and departmental recommendation.</p> <p>This course is not open to students who have taken Chemistry or Physics. Open to grades 11 and 12.</p>

Science Department

<p>CHEMISTRY-Themed Course # 3810 Full year Credit: 1.0 Supply fee: \$10.00</p>	<p>(Both Chemistry-Themed and Chemistry-Traditional are REGULAR level courses.) This is an environmentally themed chemistry course which teaches traditional chemistry concepts such as stoichiometry, acids and bases, and behavior of gases. Themed units include water, natural resources, petroleum, air and nuclear chemistry. This method of teaching chemistry is endorsed by the American Chemical Society. The course incorporates teamwork to develop problem solving skills and an understanding of the relevance and concepts of chemistry in everyday living. This course has a field-based lab requirement. This is a laboratory course and it does not meet the prerequisite for A.P. Chemistry.</p> <p>Prerequisite: Successful completion of Algebra 1, concurrent enrollment in Geometry or higher, and departmental recommendation. Open to grades 10, 11 and 12.</p>
<p>CHEMISTRY-Traditional Course # 3820 Full year Credit: 1.0 Supply fee: \$10.00</p>	<p>(Both Chemistry-Themed and Chemistry-Traditional are REGULAR level chemistry courses.) Traditional chemistry concepts such as stoichiometry, acids and bases, behavior of gases and molecular shapes are taught as students independently develop understanding through participation in classroom lecture, assignments, activities and labs. This is a laboratory course and it meets the prerequisite for A.P. Chemistry.</p> <p>Prerequisite: Successful completion of Algebra 1, concurrent enrollment in Geometry or higher, and departmental recommendation. Open to grades 10, 11 and 12.</p>
<p>CHEMISTRY-HONORS Course # 3830 Full year Credit: 1.0 Supply fee: \$10.00</p>	<p>The core material for this course is similar to that of Chemistry-Traditional and follows a similar sequence. The pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. Chemistry - Honors is a laboratory course. This course meets the pre-requisite for A.P. Chemistry. Students earning a C in this course will not be eligible for a level change. Students are required to purchase an on-line homework program.</p> <p>Prerequisite: Successful completion of Algebra I and departmental recommendation which will be based on a high level of ability in science, mathematics, and reading. Open to grades 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT CHEMISTRY Course # 3840 Full year Credit: 1.0 Supply fee: \$10.00</p>	<p>This course follows the College Board's Advanced Placement curriculum and as such is extremely rigorous and fast paced. This course is comparable to an introductory college level chemistry course. College level materials are used. Advanced Placement Chemistry is a laboratory course.</p> <p>Prerequisite: Three years of science, including a year of Chemistry (Traditional or Honors) and a year of Physics (Traditional or Honors) and departmental recommendation. Concurrent enrollment in a third year of science and AP Chemistry is permitted. Open to grades 11 and 12.</p>
<p>PHYSICS-Themed Course # 3900 Full year Credit: 1.0</p>	<p>(Both Physics-Themed and Physics-Traditional are REGULAR level physics courses.) This is a theme-directed laboratory course. Quarterly themes are: Physics of the Arts, electrical physics, sports physics and rollercoaster physics. Topics including motion, forces, energy, waves, sound, optics, electricity and magnetism are taught in a directed approach with frequent assessment through participation in classroom lecture, assignments, activities, projects and labs. This course uses an electronic textbook and an electronic homework program which require internet access. This course is appropriate for students with average math ability. This is a laboratory course and it does not meet the prerequisite for A.P. Physics courses.</p> <p>Prerequisite: successful completion of Algebra 1, concurrent enrollment in Algebra II/Trig and departmental recommendation. Open to grades 10, 11 and 12</p>

Science Department

<p>PHYSICS-Traditional Course # 3920 Full year Credit: 1.0</p>	<p>(Both Physics-Themed and Physics -Traditional are REGULAR level physics courses.) This is a traditional high school physics laboratory course. Topics such as motion, forces, momentum, energy, waves, sound, light, optics, electricity and magnetism are taught as students independently develop understanding with less frequent assessment through participation in classroom lecture, assignments, activities, projects and labs. This course is appropriate for students with average math ability. This is a laboratory course and meets the prerequisite for A.P. Physics courses.</p> <p>Prerequisites: Successful completion of Algebra I, concurrent enrollment in Algebra II/Trig, and departmental recommendation. Open to grades 10, 11 and 12.</p>
<p>PHYSICS - HONORS Course # 3930 Full year Credit: 1.0</p>	<p>This course uses an algebra-based college-level textbook. Topics such as motion, forces, momentum, energy, waves, sound, light, optics, electricity and magnetism are taught as students independently develop understanding with less frequent assessment through participation in classroom lecture, assignments, activities, projects and labs. Compared to Physics-Traditional, the pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. Physics Honors is extremely math intensive with an emphasis on symbolic manipulation of variables. This course meets the prerequisite for AP Physics. Physics-H is a laboratory course. Students earning a C in this course will not be eligible for a level change.</p> <p>Prerequisites: Successful completion of Algebra 2 Trigonometry and departmental recommendation that will be based upon high level ability in science, mathematics and reading. Open to grades 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT PHYSICS B Course # 3950 Full year Credit: 1.0</p>	<p>This is an algebra-based 2nd year physics course following the College Board's Advanced Placement curriculum and as such is designed to prepare students for the AP Physics B exam. The course is fast paced and covers topics in mechanics, fluids, thermal physics, waves and optics, electrostatics, electricity and magnetism, and nuclear and atomic physics. Internet access is required to utilize an online homework service. This is a laboratory course and requires a lab composition book. Students are required to purchase an on-line homework program.</p> <p>Prerequisite: Department recommendation, and three years of science including chemistry and either honors or traditional physics. Concurrent enrollment in a third year of science is permitted. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT PHYSICS C Course # 3960 Full year Credit: 1.0</p>	<p>This is a calculus-based 2nd year physics course following the Collage Board's Advanced Placement curriculum and as such is designed to prepare students for the AP Physics C exam. Approximately half of the year is devoted to mechanics and the other to classical electricity and magnetism. Calculus is used in problem solving and derivations with usage increasing as the course progresses. This course, which uses college level materials, is comparable to an introductory college physics course for pre-med or engineering majors. Advanced Placement Physics is a laboratory course.</p> <p>Prerequisite: Departmental recommendation and three years of science, including years of Chemistry and Physics (Honors), as well as completion of Calculus AB or BC, or concurrent enrollment. Concurrent enrollment in a third year of science and AP Physics is permitted. Open to grades 11 and 12.</p>

Social Studies Department

Artwork by Hillary Galvin

MISSION STATEMENT

The Hinsdale Central Social Studies Department strives to be respected by all school constituencies for its ability to inspire and direct the personal, intellectual, and civic development of its students. The department emphasizes the process of learning, whereby students critically examine issues, evaluate multiple points-of-view, and synthesize perspectives from a variety of disciplines, resulting in the ability to solve problems and make informed decisions. The department seeks to promote an understanding of diverse cultures, values, and systems; from this, students will gain awareness of their own values, as well as those of others. The tolerance and diversity that result from this training are balanced by a commitment to exploring and building common values such as democratic participation and freedom of expression. It is a department that is self-directed, collegial, with high expectations of its students and of itself. The department seeks to foster a love of learning through enthusiasm for the social studies disciplines, use of a variety of instructional strategies, and the dynamic of individual personalities committed to a set of shared goals.

Two (2) credits in Social Studies are required for graduation. One of these credits must be U.S. History, which also satisfies the state requirement. This credit must be earned by completing both semesters of U.S. History, American Studies or Advanced Placement U.S. History. The second credit must be earned during the freshman year by taking either World Cultures or World History Honors.

Social Studies Department

COURSE TITLE	Course #	Prerequisite	Credit	Grade Offered

* 1 credit English, 1 credit Social Studies				

<p>WORLD CULTURES <i>Course # 2140</i> Full year Credit: 1.0</p>	<p>World Cultures explores the geographic, economic, historic, cultural and current issues pertaining to the world's major civilizations. A variety of activities and assessments will be used to foster the acquisition of not only content knowledge, but also skills appropriate to the social studies.</p> <p>Prerequisite: None. Open to grade 9.</p> <p>Note: Students may not enroll in both World Cultures and World History Honors.</p>
<p>WORLD HISTORY HONORS <i>Course # 2220</i> Full year Credit: 1.0</p>	<p>This course surveys broadly, chronologically and topically, the chief features of various civilizations, culture, nations and major concepts from ancient to modern times. The historical development of Eastern and Western civilizations are explored. Core material is organized around a textbook; however, extensive supplemental reading is required. Students will be challenged with a variety of assessments including tests, papers, speeches, debates, presentations and cooperative learning activities.</p> <p>Prerequisite: Departmental approval. Open to grade 9.</p> <p>Note: Students may not enroll in both World History Honors and World Cultures.</p>
<p>AFRICAN AMERICAN HISTORY <i>Course # 2239, 2240</i> 1st or 2nd semester Credit: 0.5</p>	<p>African American History focuses on the unique contributions that slaves from Africa, and their descendants, have made towards the cultural and historical legacy of our nation. Topics of study will include the changing legal and social definitions of race in America, the efforts of African Americans to resist servitude, emancipation and its aftermath, the Harlem Renaissance, the Civil Rights movements, and contemporary issues facing African Americans. Students will examine historical sources, with special focus on the art and music created by African Americans. Assessments will include an oral history project, debates, creative projects, essays and exams.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>

Social Studies Department

<p>EAST ASIAN STUDIES Course # 2241, 2242 1st or 2nd semester Credit: 0.5</p>	<p>Asian Studies will examine the history and culture of China, Japan and Korea. Possible topics of study include the Samurai and code of Bushido, the emergence of Japan as a colonial power, the Rape of Nanking, the Korean War, the development of nuclear weapons by North Korea, and the emergence of China as a 21st century global superpower. The course is project, writing, and discussion oriented complimented with a field trip and experiential learning. Students will be challenged to avoid ethnocentrism and to understand these civilizations from the perspective of the people who came from them.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>GLOBAL ISSUES Course # 2231, 2232 1st or 2nd semester Credit: 0.5</p>	<p>Global Issues examines several major contemporary political, social, and diplomatic dilemmas of the 21st century. After tracing the historical roots of contemporary issues, students will analyze and evaluate each issue from a variety of perspectives. Possible topics include the proliferation of nuclear weapons, human rights and genocide, democracy and dissent, the future of the Middle East, the “war on terror,” U.S. foreign policy since Vietnam, and major domestic challenges. Active student participation on a daily basis and developing written and oral arguments are major components of a student’s grade.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>RUSSIAN STUDIES Course # 2251, 2252 1st or 2nd semester Credit: 0.5</p>	<p>Russian Studies will examine the history, culture, geography, and political ideology of Russia and the former Soviet Union. The course places special emphasis on the Romanov Dynasty, communist rule in the former Soviet Union, and contemporary affairs, including Russia’s role on the world stage. This class offers a unique opportunity to focus one’s studies on a specific and highly relevant part of the world. In addition, Russian Studies places special emphasis on writing in the social studies context.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>WESTERN CIVILIZATION Course # 2261, 2262 1st or 2nd semester Credit: 0.5</p>	<p>Western Civilization is a survey of the history of Western Civilization beginning with the influences of Greece and Rome and ending in the early Twentieth Century. Students will explore the historical trends, events, and ideas that have come to shape society today.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12. Note: Students may not enroll in both Western Civilization and Advanced Placement European History.</p>
<p>ADVANCED PLACEMENT EUROPEAN HISTORY Course # 2440 Full year Credit: 1.0</p>	<p>Advanced Placement European History traces the political, social, economic, intellectual, and cultural development of European Civilization from the Renaissance to the present. A wide variety of teaching methods are used including discussion, debate, role-play, simulations and trials. Students will learn to use and evaluate primary sources, write critical essays, and analyze historical interpretations. This course prepares the student for the Advanced Placement European History examination.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12. Note: Students may not enroll in both Advanced Placement European History and Western Civilization.</p>
<p>AMERICAN STUDIES Course # 1550 Full year Credit: 2.0 (one credit each of English and American History)</p>	<p>American Studies surveys America’s past through the use of non-fiction texts, novels, films, visual arts, music, news sources, and primary source documents. The curriculum integrates history and literature by examining American texts through rhetoric, analysis, thematic connection, and inquiry. Students will find a challenging educational environment containing a variety of methodologies including current event discussions, media presentations and field trips. Teachers plan, instruct, and evaluate student work together. The course meets for two back-to-back periods.</p> <p>Prerequisite: None. Credit in this course fulfills the U.S. History requirement. Open to grade 11. Note: Students may not enroll in both American Studies and U.S. History or Advanced Placement U.S. History.</p>

Social Studies Department

<p>U.S. HISTORY <i>Course # 2310</i> Full year Credit: 1.0</p>	<p>U.S. History is a survey which covers Native American cultures through European colonization, founding of the new Republic and Constitution, includes the Civil War, and concludes with modern times. Units survey chronologically and topically the major events, personalities and issues which have played a part in the evolution of the American democratic republic.</p> <p>Prerequisite: None. Credit in this course fulfills U.S. History requirement. Open to grade 11. Note: Students may not enroll in both U.S. History and American Studies or Advanced Placement U.S. History.</p>
<p>ADVANCED PLACEMENT U.S. HISTORY <i>Course # 2320</i> Full year Credit: 1.0</p>	<p>Advanced Placement United States History is a survey course that is meant to replicate the academic rigor of a two semester college experience in a year. This class requires students to engage in extensive reading of primary sources and historical essays. Focus will be placed on the development of college level reading and writing skills. Key events and major themes such as American diversity, economic transformations and politics and citizenship will be examined in studying the nation's past. This course prepares the student for the Advanced Placement United States History examination.</p> <p>Prerequisite: Departmental approval. Credit in this course fulfills the U.S. History requirement. Open to grade 11. Note: Students may not enroll in both Advanced Placement U.S. History and American Studies or U.S. History.</p>
<p>CONSTITUTIONAL LAW <i>Course # 2381, 2382</i> 1st or 2nd semester Credit: 0.5</p>	<p>Constitutional Law is an introductory legal course which investigates many topics, including criminal law, trial rules, court systems, juvenile law, discrimination, and search and seizure law. In addition to using contemporary legal cases, a wide variety of teaching methods are used, including mock trial hearings, mock jury simulations, and videos. The primary learning tool in Constitutional Law is class discussion. Additionally, an alternative final exam is available for those students who would prefer a project.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>ECONOMICS <i>Course # 2331, 2332</i> 1st or 2nd semester Credit: 0.5</p>	<p>Economics investigates the principles that drive decision-makers, both consumers and producers, in our global marketplace. Students specifically examine the major components of the U.S. economic system; such as, opportunity costs, trade-offs, production and consumption practices, money and banking, savings and investment, business management and labor, business cycles, and economic relationships between nations. The study of Economics helps prepare students to make rational economic choices both in their own lives and in their participation in policy decisions as citizens of a city, state, nation, and the world. Learning is enhanced through current events, economic simulations and class activities.</p> <p>Prerequisite: None. Open to grades 11 and 12. Note: Students may not take Economics, Advanced Placement Microeconomics or Advanced Placement Macroeconomics concurrently.</p>
<p>PHILOSOPHY HONORS <i>Course # 2393, 2394</i> 1st or 2nd semester Credit: 0.5</p>	<p>Philosophy Honors will offer interested and intellectually curious students the opportunity to reflect on fundamental questions related to the human condition, such as the basis of knowledge, ethical theories and issues, artificial intelligence, free will versus determinism, rational proofs for the existence of God, and the meaning of evil and suffering. The goal of the course will not be so much to cover a particular body of philosophers, but to raise important issues that will spur students to further inquiry, study, and application in their own lives. Much of the class will involve reading, discussion, and writing. Students will be expected to read carefully, write critically, and participate in class discussions. Philosophy and Ethics is an honors level course.</p> <p>Prerequisite: None. Open to grades 11 and 12</p>

Social Studies Department

<p>PSYCHOLOGY <i>Course # 2431, 2432</i> 1st or 2nd semester Credit: 0.5</p>	<p>Psychology focuses on the study of human behavior from many perspectives. Audiovisual materials, experiments, projects and case studies are used to understand the human experience. This class is heavily discussion based. In addition, much independent coursework is used to investigate topics such as development, the brain, altered states of consciousness, learning, personality and abnormal behavior.</p> <p>Prerequisite: None. Open to grades 11 and 12. Note: Students may not enroll in both Psychology and Advanced Placement Psychology</p>
<p>SOCIOLOGY <i>Course # 2371, 2372</i> 1st or 2nd semester Credit: 0.5</p>	<p>Sociology is the study of man's social behavior. The course increases the student's awareness of social pressures that affect one's own behavior and the behavior of others. Typical activities such as discussions, experiments, student planned projects and a wide variety of films and videotapes enable the student to apply knowledge gained in the course to his or her own life.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT MACROECONOMICS <i>Course # 2441, 2442</i> 2nd semester only Credit: 0.5</p>	<p>Advanced Placement Macroeconomics is the study of the United States' economy. Students examine economic topics such as unemployment, inflation, GDP, international trade, interest rates, monetary policy, fiscal policy, and the national debt and deficit. Students will come to understand the causes for problems in the economy and be able to prescribe economic policies for both healthy and unhealthy economies. Macroeconomics is an interdisciplinary course combining the social sciences with mathematical analysis and graphing. The course prepares students for the Advanced Placement exam in May.</p> <p>Prerequisite: Completion of AP Microeconomics or Economics and departmental approval. Open to grades 11 and 12. Note: Students may not take Advanced Placement Macroeconomics, Advanced Placement Microeconomics or Economics concurrently</p>
<p>ADVANCED PLACEMENT MICROECONOMICS <i>Course # 2341, 2342</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Placement Microeconomics provides students with a thorough understanding of the decision making process for individuals and firms in the marketplace. It places primary emphasis on the operations of the product and factor markets along with the government's role in promoting efficiency and equity in various market structures. The course is conducted in a lecture/seminar manner supported by daily readings, practice problems, and student activities. The course prepares the student for the Advanced Placement exam in Microeconomics exam administered in May.</p> <p>Prerequisite: Departmental approval. Credit in this course fulfills the Consumer Education requirement. Open to grades 11 and 12. Note: Students may not take Advanced Placement Macroeconomics, Advanced Placement Microeconomics or Economics concurrently.</p>
<p>ADVANCED PLACEMENT PSYCHOLOGY <i>Course # 2430</i> Full year Credit: 1.0</p>	<p>AP Psychology explores why human beings are the way that they are. This course traces the emergence of scientific psychology in the nineteenth century from its roots in philosophy and physiology to present day practices. The development of the major "schools" of psychology and showing how they differed in subject matter and the methods of study are covered. This historical introduction helps students gain an understanding of the principal twentieth century approaches to psychology: behavioral, biological, cognitive, humanistic and psychodynamic. This class prepares students for the Advanced Placement Psychology examination.</p> <p>Prerequisite: Departmental approval. Concurrent enrollment in U.S. History or previous completion of U.S. History during the regular school year. Open to grades 11 and 12. Note: Students may not enroll in both Advanced Placement Psychology and Psychology.</p>

Social Studies Department

**ADVANCED PLACEMENT
UNITED STATES
GOVERNMENT AND
POLITICS**

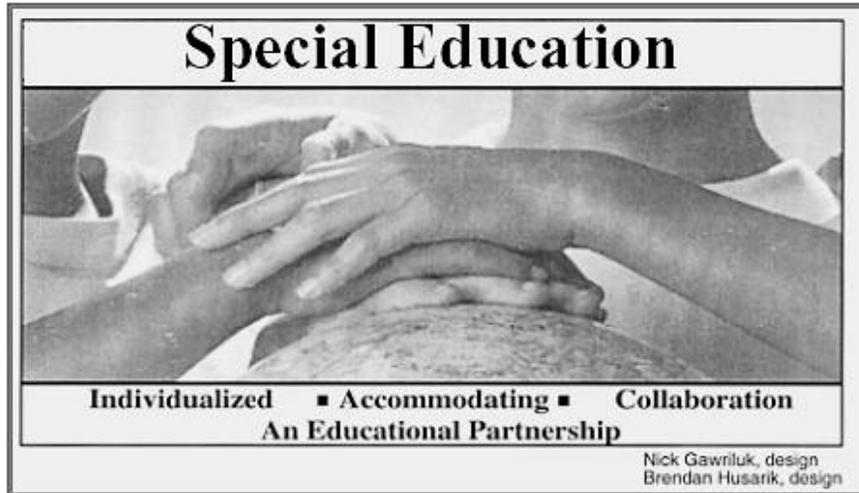

Course # 2361, 2362

1st or 2nd semester

Credit: 0.5

AP United States Government and Politics is an advanced placement course designed to give students both theoretical and realistic perspectives on politics and government in the United States. Its focus is on the interconnectedness between the various institutions, opinions and policies that make up the national public system. Student political involvement is emphasized. This class prepares students for the Advanced Placement United States Government and Politics examination.

Prerequisite: Departmental approval. Concurrent enrollment in U.S. History or previous completion of U.S. History during the regular school year. Open to grades 11 and 12.

Students eligible for special education services as specified by an Individual Education Program (IEP) receive specialized instruction and services through one or more of the following approaches:

- individualized academic accommodations and/or modifications within the regular education classrooms,
- structured assistance within the regular education classrooms,
- structured assistance outside the regular class,
- related services, and
- direct instruction in specialized course offerings

The following specialized classes are taught by certified special education teachers. Courses meet the HCHS graduation requirements.

Course Title	Course #	Credit	Grade Offered
English	1810/1820/1830/1840	1.0	9-12
World Cultures	1850	1.0	9
United States History	1860	1.0	11
**Reading	1890	1.0	9-12
Foundations of Algebra and Geometry	1871	1.0	9-10

Special Education

<p>ACADEMIC CENTER RESOURCE <i>Course # 9920, 9924</i> Full year Credit: NC</p>	<p>Academic Center Resource is for students who are self-motivated, well organized, and can demonstrate excellent self-advocacy skills. Students are self-directed learners who can identify strengths/challenges and have developed the necessary compensatory skills to allow them to be successful in the academic school setting. The Academic Center provides students with opportunities for support across curriculum subjects in a structured setting. Students may also seek out departmental support/resources, schedule guidance appointments, and make up any tests/quizzes during this period.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>STUDY SKILLS 1 <i>Course # 1951, 1952</i> Full year Credit: 0.25/semester</p>	<p>Study Skills 1 is a freshman-level resource class specifically targeted for students with an IEP. Students enroll in study skills based upon a team recommendation at the most recent IEP meeting. Study Skills 1 targets the skills required for a successful transition into the high school experience. These include organization, time management, homework completion, long term planning, listening skills, memory skills, and test preparation skills. Study skills 1 also serves as a period where students may complete assessments and/or consult with other school staff to meet their individual needs.</p> <p>Prerequisite: IEP recommendation. Open to grade 9.</p>
<p>STUDY SKILLS 2 <i>Course # 1956, 1957</i> Full year Credit: 0.25/semester</p>	<p>Study Skills 2 is a sophomore-level resource class specifically targeted for students with an IEP. The course addresses the maintenance of study skills such as effective note-taking and test preparation skills. It also begins to look into research skills that students will need to investigate post-secondary employment or academic/ vocational programs. In addition, Study Skills 2 serves as a period in which students may complete assessments or consult with other school staff to meet their individual needs.</p> <p>Prerequisite: IEP recommendation. Open to grade 10.</p>
<p>LEARNING STRATEGIES 1 <i>Course # 1958, 1959</i> Full year Credit: 0.25/semester</p>	<p>Learning Strategies 1 is a junior-level resource class. Students are enrolled in this class based upon the IEP team's recommendation. This class supports students with their current course work and prepares students for any upcoming assessments through academic content review and effective test taking strategies. Additionally, students may use their learning strategies class time to complete classroom assessments and to seek out support from other academic departments and related service providers. A final component to Learning Strategies is to continue the process of post-secondary and transitional planning.</p> <p>Prerequisite: IEP recommendation. Open to grade 11.</p>
<p>LEARNING STRATEGIES 2 <i>Course # 1961, 1962</i> Full year Credit: 0.25/semester</p>	<p>Learning Strategies 2 is a senior-level resource class. Students are enrolled in this class based upon the IEP team's recommendation. This class supports students with their current course work and prepares students for any upcoming assessments through academic content review and effective test taking strategies. Additionally, students may use their learning strategies class time to complete classroom assessments and to seek out support from other academic departments and related service providers. A final component to Learning Strategies is to continue the process of post-secondary and transitional planning.</p> <p>Prerequisite: IEP recommendation. Open to grade 12.</p>
<p>SOCIAL COMMUNICATION <i>Course # 2005</i> Full year Credit: 1.0</p>	<p>This class is for students identified as having needs in the area of social communication. Topics covered in the class include thinking in a group, thinking about others, thinking about others thinking about me, and thinking to create relationships. The goal is for students to increase their ability to take another's perspective, increase problem solving capabilities, and develop and understand how our body is connected to communication and personal relationships with others. This course is a pass/fail course.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>

Special Education

<p>PROGRAM SUCCESS <i>Course # 1956A, 1957A</i> Full year Credit: 0.25/semester</p>	<p>Program Success is for students whose emotional/behavioral needs interfere significantly with their learning or that of other classmates. Program Success provides students time in their day to get additional support with their academic course as well as provide students an opportunity to process situation that have occurred which are having a social and/or emotional impact on the student. In addition, instructional arrangements can be made to provide students with academic instruction in a self-contained setting. This instruction arrangement may be necessary for short durations while new interventions are planned. Program Success also serves as a time when students can communicate with staff or complete assessments.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>ENGLISH FOUNDATIONS <i>Course # 2000</i> Full year Credit: 1.0</p>	<p>This course explores fundamental elements of reading, writing, and listening and speaking that can be generalized in various facets of daily life. Curriculum is individualized according to the goals and objectives delineated in each student IEP.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>MATH FOUNDATIONS <i>Course # 2030</i> Full year Credit: 1.0</p>	<p>This course explores fundamental math concepts that can be generalized in various facets of daily life. Curriculum includes problem solving and computation, money and number sense, and basic estimation and measurement. Basic analytical methods, geometry, and data analysis are also emphasized. Curriculum is individualized according to the goals and objectives delineated in each student IEP.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>RESOURCE FOUNDATIONS <i>Course # 2080</i> Full year Credit: 1.0</p>	<p>Students will explore essential aspects of academic, organizational and social skills that can be generalized in various facets of daily life. Emphasis will be placed on decision-making and behavior expectations, time management, use of classroom and school resources, and self-advocacy. Curriculum is individualized according to the goals and objectives delineated in each student IEP. Course fee \$180.00.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>SOCIAL STUDIES FOUNDATIONS <i>Course # 2081</i> Full year Credit: 1.0</p> <p>Social Studies Foundations will NOT be offered for the 2012-2013 school year</p>	<p>The goal of this course is to develop in students an understanding of citizenship that can be generalized in various facets of daily life. Students will sharpen their basic understanding of history, government, and social systems through the exploration of current and historical events. Curriculum is individualized according to the goals and objectives delineated in each student IEP.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>SCIENCE FOUNDATIONS <i>Course # 2050</i> Full year Credit: 1.0</p>	<p>Students will investigate key elements of physical and social wellness that can be generalized in various facets of daily life, including proper nutrition, sleep, self-care, and exercise. Students will also explore the benefits of leisure activities and socialization. Curriculum is individualized according to the goals and objectives delineated in each student IEP.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>

Special Education

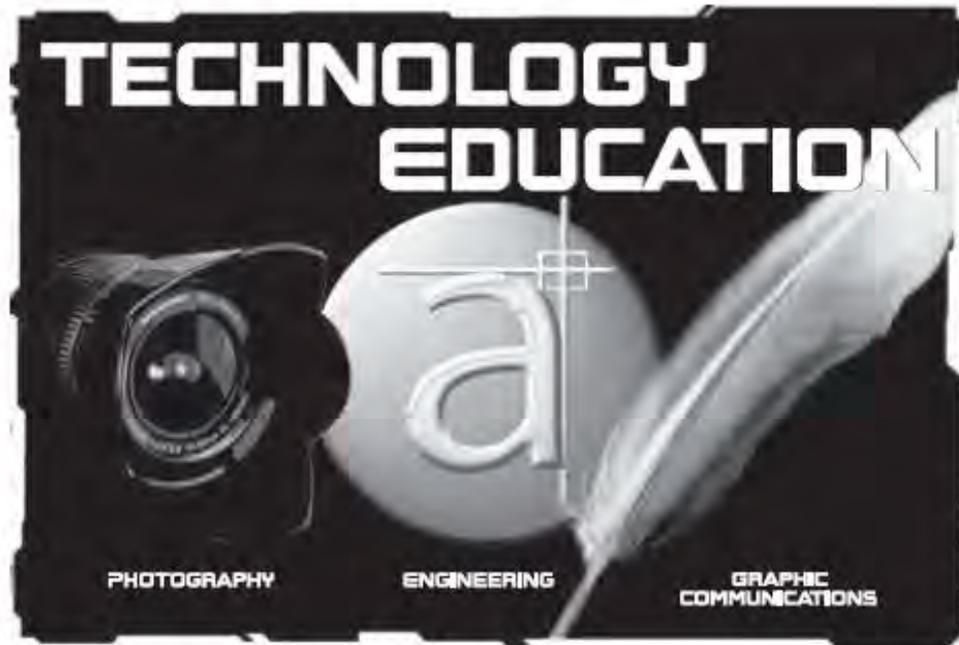

<p>PRE-VOC FOUNDATIONS <i>Course # 2100</i> Full year Credit: 1.0</p>	<p>This course explores essential skills related to employment. Emphasis will be placed on hands on in school job training, entry level workplace skill development which may include: following a schedule, time management, efficiency, responsibility, work etiquette, following directions and communicating with co-workers and supervisors. Curriculum is individualized according to the employment goals and objectives delineated in each student IEP.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>ELECTIVE FOUNDATIONS <i>Course # 2060</i> Full year Credit: 1.0</p>	<p>Through cooperative games, community experiences, and leisure activities, students will explore essential components of self-awareness & self-management, social-awareness, interpersonal skills, and decision-making. Curriculum is individualized according to the goals and objectives delineated in each student IEP.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>HEALTH FOUNDATIONS <i>Course # 2002</i> 2nd Semester Credit 0.5</p>	<p>The goal of this course is to promote and develop positive attitudes and behaviors related to the overall wellness of Hinsdale Central students. Students are taught how to access valid health information and health-promotion products and services. The students will also learn how to analyze the influence of culture, media, technology and other factors on health. Topics of study within the Health Education program include: Introduction to Wellness, Alcohol, Tobacco and other Drugs, Nutrition and Fitness, Communicable and Non-communicable Diseases, and Human Reproduction. The curriculum is aligned with District 86 program goals, Illinois and National Health Education Standards. The curriculum is aligned with the grade level Health course but supports students who have deficiencies in reading and writing who are also enrolled in Adaptive PE.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>ENGLISH <i>Course # 1810, 1820, 1830, 1840</i> Full year Credit: 1.0</p>	<p>Special education English classes are offered at each grade level. The curriculum incorporates vocabulary development, literature, and the writing process. Curriculum is aligned with grade level English course but taught at an instructional level. Direct reading and writing supports are provided. Assessments are completed weekly to monitor progress in the areas of reading and writing.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>WORLD CULTURES <i>Course # 1850</i> Full year Credit: 1.0</p>	<p>World Cultures explores the economic, historic, cultural and current issues pertaining to the world's major civilization. A variety of activities and assessments will be used to foster the acquisition of not only content knowledge, but also critical thinking skills appropriate to the social studies. The curriculum is aligned with the grade level world cultures course but supports students who have deficiencies in reading and writing.</p> <p>Prerequisite: IEP recommendation. Open to grade 9.</p>
<p>UNITED STATES HISTORY <i>Course # 1860</i> Full year Credit: 1.0</p>	<p>U.S. History is a survey course which covers Native American cultures through European colonization, founding of the new Republic and Constitution, includes the Civil War, and concludes with modern times. Units survey chronologically and topically the major events, personalities and issues which have played a part in the evolution of the American democratic republic. The curriculum is aligned with the grade level U.S. History course but supports students who have deficiencies in reading and writing.</p> <p>Prerequisite: IEP recommendation. Open to grade 11.</p>

Special Education

<p>READING Course # 1890 Full year Credit: 1.0</p>	<p>Reading is a course designed for students in 9th through 12th grade who demonstrate a need for direct instruction in reading strategies because they are reading two or more levels below grade level. Students will complete diagnostic tests at the start of the year, in the middle of the year, and at the end of the year. These tests will be used to track growth and also to provide necessary information so that instruction can be individualized to a student's needs. Instruction in oral fluency, silent reading comprehension, oral reading comprehension, listening comprehension, vocabulary, grammar, and phonics will be provided individually and in a whole class setting. The curriculum is comprised of lessons from the Jamestown Timed Reading series, current events articles, Six Minute Solution passages, the Language! Reading series, Aimsweb fluency and comprehension passages, and Averil Coxhead's High-Incidence Academic Word List.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>FOUNDATIONS of ALGEBRA & GEOMETRY Course # 1871 Full year Credit: 1.0</p> <p>Foundations of Algebra & Geometry will not be offered for the 2012-2013 school year.</p>	<p>This course introduces important topics in Algebra and Geometry. Algebra topics include expressions, equations, inequalities, and linear functions. Geometry topics include lines, segments, angles, triangles, perimeter, area, and volume. This course is appropriate for students with reasonable facility with arithmetic operations. A graphing calculator is required.</p> <p>Prerequisite: IEP recommendation. Open to grades 9 and 10.</p>
<p>COOPERATIVE WORK TRAINING Course # 1931, 1932 Full year Credit: 0.5/semester</p> <p>Cooperative Work Training will not be offered for the 2012-2013 school year.</p>	<p>This course explores obtaining and maintaining a part time paid position in the community. Students enrolled in this class are actively looking or are currently working at a part time job. This class meets once a week during a resource period to address job application completion and job retention. Seminars are offered throughout the course to address employment topics such as career exploration, understanding your paycheck, conflict resolution, resume and cover letter development, interviewing skill development. Participation in this class is identified as needed.</p> <p>Prerequisite: IEP recommendation. Open to grades 10, 11 and 12.</p>
<p>PRE VOCATIONAL SUPERVISED JOB TRAINING Course # 1941, 1942 Full year Credit: 0.5/semester</p>	<p>This course explores more in-depth application and practice in both in-school and community based job training, as identified based on individual goals. This class emphasizes career exploration & planning, job application, job search, interviewing, resume development, cover letters, and continued development on communication skills.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>ADULT OPPORTUNITIES Course # 2930 Full year Credit: NC</p>	<p>This program is available to young adults who are 18-22 and have completed their academic graduation requirements. The program is individually designed to assist young adults in pursuing their transition goals related to education, employment, independent living and social aspirations through community based instruction and activities. Emphasis will be placed on preparing young adults to manage their own lives and face the challenges of adulthood when they are no longer receiving support from their high school. Program participation is individually determined based on need and transition goals. Course fee \$180.00.</p> <p>Prerequisite: IEP recommendation. Open to post 12th grade students.</p>

Technology Education

Technology Education

The Technology Education Department offers an elective course of study to all students at Hinsdale Central. Technology Education courses help students meet the elective arts requirement. Our program of course offerings focuses on a variety of technologies that develop skills in graphic communication and design. Several courses are available to students who wish to explore the educational and career opportunities in Architecture, Engineering, Graphic Communications and Photography.

The primary instructional mode in the department is laboratory-oriented student projects and exercises. A wide range of instructional techniques and technologies is used in the classroom.

Articulated credits at College of DuPage are available to Hinsdale Central students who complete certain courses at Hinsdale Central with at least a grade of B and who upon graduation, attend C.O.D. The list of approved courses with articulated credit at College of DuPage is as follows:

- Basic Photography
- Digital Color Photography

Each class has a lab fee charged to the student to cover the cost of materials used by the students for project work.

Technology Education

COURSE TITLE	Course #	Prerequisite	Credit	Grade Offered
Pre-Engineering Graphics 1	6601/6602	No	0.5	9-12
Pre-Engineering Graphics 2	6611/6612	Yes	0.5	9-12
Engineering Graphics	6620	Yes	1.0	10-12
Engineering Graphics Honors Option	6625	Yes*	1.0	10-12
Architectural Drafting	6630	Yes	1.0	11-12
Architectural Drafting Honors Option	6635	Yes*	1.0	11-12
Advanced Engineering and Architectural Modeling	6640	Yes	1.0	12
Advanced Engineering and Architectural Modeling Honors Option	6645	Yes*	1.0	12
Graphic Communications-Fundamentals	6661/6663	No	0.5	9-12
Graphic Communications-Desktop Publishing	6650/6651	Yes	0.5	9-12
Graphic Communications-Desktop Publishing Honors Option	6652/6653	Yes*	0.5	9-12
Graphic Communications-Web Design	6662/6664	Yes	0.5	9-12
Graphic Communications-Web Design Honors Option	6667/6668	Yes*	0.5	9-12
Graphic Communications-Web-Based Multimedia	6681/6682	Yes	0.5	9-12
Graphic Communications-Advanced Graphics	6660/6665	Yes	0.5	10-12
Graphic Communications-Advanced Graphics Honors Option	6666/6669	Yes*	0.5	10-12
Basic Photography	6691/6692	No	0.5	10-12
Digital Color Photography	6701/6702	Yes	0.5	10-12
Digital Color Photography Honors Option	6703/6704	Yes*	0.5	10-12
Advanced Photography	6812	Yes	0.5	11-12
Advanced Photography Honors Option	6814	Yes*	0.5	11-12
Independent Study - Graphic Communications	6905/6906	Yes	0.5 / 0.5	11-12
Independent Study – Photography	6907/6908	Yes	0.5 / 0.5	11-12

*Requires prerequisite courses and departmental approval.

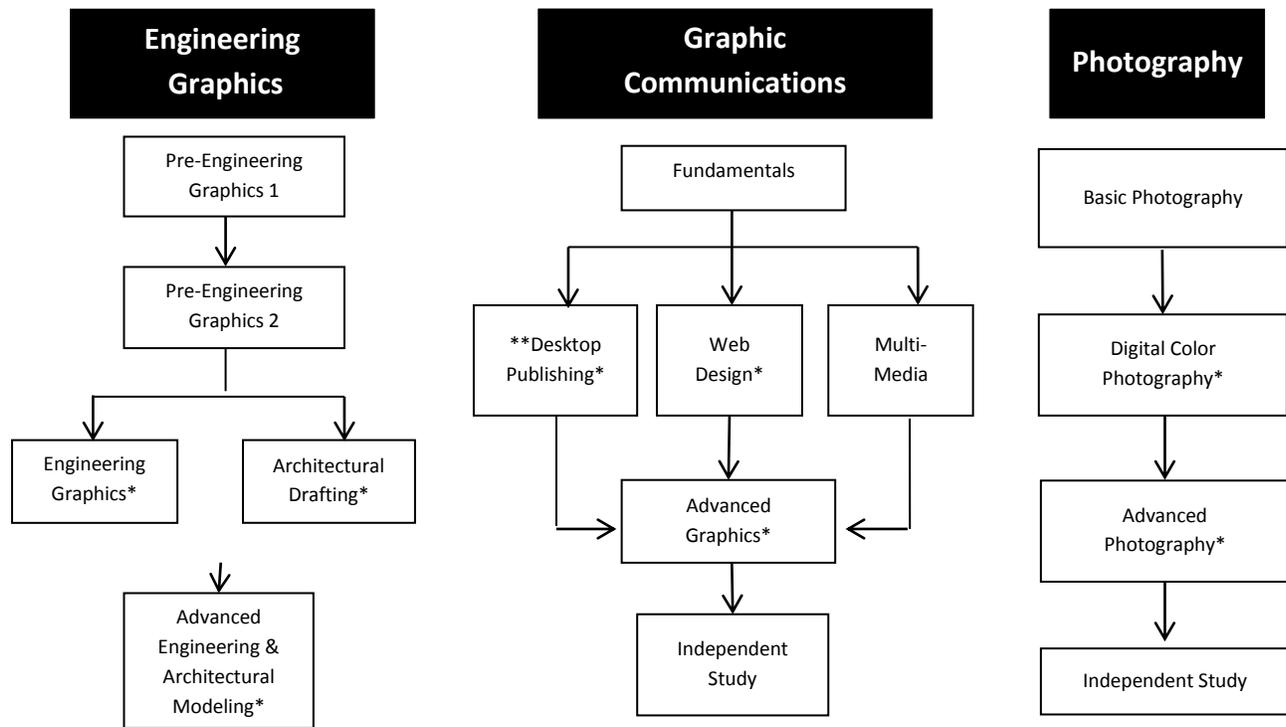

Shown below are possible course selection sequences in the Engineering Graphics Program as students enter each grade. If students enter the program in 9th Grade, they can complete the program by the time they graduate.

	9th Grade	10th Grade	11th Grade	12th Grade
1st Year	Pre-Engineering Gr 1	Pre-Engineering Gr 1	Pre-Engineering Gr 1	Pre-Engineering Gr 1
	Pre-Engineering Gr 2	Pre-Engineering Gr 2	Pre-Engineering Gr 2	Pre-Engineering Gr 2
2nd Year	Engineering Graphics**	Engineering Graphics** and/or Architectural Drafting**	Engineering Graphics** and/or Architectural Drafting**	
3rd Year	Architectural Drafting**	Architectural Drafting** and/or Advanced Engineering & Architectural Modeling**	Architectural Drafting**	
4th Year	Advanced Engineering and Architectural Modeling**			

** Honors Option offered in these courses

Technology Education

Shown below are course sequences for the Technology Education Programs. Students are encouraged to take entry level courses as early as possible to allow for further courses as need or interest develops.

**Can enroll directly into Desktop Publishing if taking Journalism, and department approval.

*Honors course option available

ENGINEERING GRAPHICS PROGRAM

NOTE: Software titles currently used in our Engineering Graphics and Architecture courses include up-to-date versions of AutoCAD, Inventor Professional, Revit Architecture, and 3D Studio Max.

<p>PRE-ENGINEERING GRAPHICS 1 <i>Course # 6601, 6602</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces the student to the fundamentals of mechanical drafting while using AutoCAD software in our CAD Lab. The student will be taught many AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. Mechanical drawing problems will range from 2D drawings, orthographic projection, sectional view, and pictorial views (isometric and oblique). Freehand sketching on graph paper is also integrated into each assignment. Students will also be introduced to 3D modeling and 3D printing (rapid prototyping). A portfolio of all the student work will be bound together to be taken home at the end of the semester. A student-created 3D model will also be taken home by every student.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply fee: \$10.00.</p>
<p>PRE-ENGINEERING GRAPHICS 2 <i>Course # 6611, 6612</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course will continue to introduce the student to the fundamentals of mechanical drafting while using AutoCAD software in our CAD Lab. The student will be taught additional AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. Mechanical drawing problems will range from auxiliary views, rotations, developments and intersections, and dimensioning techniques of orthographic projection problems. Freehand sketching on graph paper is also integrated into each assignment. A portfolio of all the student work will be bound together to be taken home at the end of the semester.</p> <p>Prerequisites: 6601. Open to grades 9, 10, 11 and 12. Supply Fee: \$10.00.</p>
<p>ENGINEERING GRAPHICS <i>Course # 6620</i> Full year Credit: 1.0</p>	<p>The goal of the Engineering Graphics course is to expand the student's knowledge in the following areas: computer software usage, manufacturing processes, engineering and design, application of acquired knowledge in making production drawings, and career opportunities in a variety of engineering fields. Students in this class will be expected to work at an accelerated pace on individual projects and some small group work. The computer is the primary means of graphic problem solving using AutoCAD software. Students will be instructed on proper techniques using Autodesk Inventor to create 3D models. This software will lead students to the creation of model racecars that demonstrate the power of this software package. A series of problems which require model construction will also be part of the curriculum including the use of 3D printing technology (rapid prototyping). In addition, students will use 3D digitizer technology for reverse engineering applications. A portfolio of all the student work will be bound together to be taken home at the end of the year.</p> <p>Prerequisites: 6601 and 6611. Open to grades 10, 11 and 12. Supply Fee: \$18.00.</p>
<p>ENGINEERING GRAPHICS HONORS OPTION <i>Course # 6625</i> Full year Credit: 1.0</p>	<p>The core material for this course is similar to Engineering Graphics course 6620, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program.</p> <p>Prerequisites: 6601 and 6611 and department approval. Open to grades 10, 11, and 12. Supply Fee: \$18.00</p>

Technology Education

<p>ARCHITECTURAL DRAFTING Course # 6630 Full year Credit: 1.0</p>	<p>In the course, Architectural Drafting, the student will learn how to design and draw a complete set of architectural drawings necessary to construct a residential home. Room planning, flow patterns, design concepts, floor plans, construction details, elevations and presentation drawings will be completed during the first semester using a computer and AutoCAD software. Second semester students will construct a scaled (3/4"=1') model of the home they designed the first semester. In addition, non-traditional building methods will be explored: Super Insulated housing, Earth Sheltered housing, Wind Energy, Solar Energy, Energy Efficiency and Green Building. Information related to home construction, home building, building cost, permits and home buying will be explored and discussed.</p> <p>Prerequisite: 6611 or department approval. Open to grades 10, 11 and 12. Supply Fee: \$18.00.</p>
<p>ARCHITECTURAL DRAFTING HONORS OPTION Course # 6635 Full year Credit: 1.0</p>	<p>The core material for this course is similar to Architectural Drafting course 6630, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program.</p> <p>Prerequisite: 6601 and 6611 and department approval. Open to grades 10, 11 and 12. Supply Fee: \$18.00.</p>
<p>ADVANCED ENGINEERING AND ARCHITECTURAL MODELING Course # 6640 Full year Credit: 1.0</p>	<p>This course will provide the student with additional challenges as they are introduced to several 3D modeling software programs. Students will be required to use the skills learned in both their engineering and architectural graphics courses as they make the transition from 2D drawings to 3D. Students will explore software programs such as Inventor, Revit and 3D Studio Max, while developing 3D models and animating them. Students will use 3D digitizer technology for reverse engineering applications to accurately reproduce parts. They will also use 3D print technology (rapid prototyping) to generate models for visual inspection and functional testing. An electronic portfolio will record all work completed during the school year. Students will also leave the class with various 3D models they produced.</p> <p>Prerequisite: Engineering Graphics and Architectural Drafting and/or department approval. Open to grade 12. Supply Fee: \$18.00.</p>
<p>ADVANCED ENGINEERING AND ARCHITECTURAL MODELING HONORS OPTION Course # 6645 Full year Credit: 1.0</p>	<p>The core material for this course is similar to course 6640, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program.</p> <p>Prerequisite: Engineering Graphics, Architectural Drafting or Engineering Graphics Honors and department approval. Open to grade 12. Supply Fee: \$18.00.</p>
<p>GRAPHIC COMMUNICATIONS FUNDAMENTALS (GCF) Course # 6661, 6663 1st or 2nd semester Credit: 0.5</p>	<p>This course provides students with a foundation of essential skills needed for creating print and web documents. Special emphasis is placed on furnishing students with a survey of realistic experiences using Adobe Illustrator and PhotoShop. Areas of study include technical illustration, typography, color models, photo retouching and image preparation. This course focuses on development of sound fundamental skills used in later Graphic Communications courses.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$10.00</p>
<p>GRAPHIC COMMUNICATIONS - DESKTOP PUBLISHING (GCDP) Course # 6650, 6651 1st or 2nd semester Credit: 0.5</p>	<p>Learn to design, layout and prepare documents for print. Use of Adobe InDesign and related Adobe products is stressed. Topics include typography and typographic controls, color usage, preparation of photographic and line art, working with copy, setting up master pages and style sheets, paper characteristics, and binding processes. This course covers essential skills used in producing the Devil's Advocate (newspaper) and El Diablo (yearbook) and is especially recommended for students who are interested in editorial positions.</p> <p>Prerequisite: GCF or Journalism 1 (J1 taken concurrently with department approval) Supply Fee: \$10.00. Open to grades 9, 10, 11 and 12.</p>

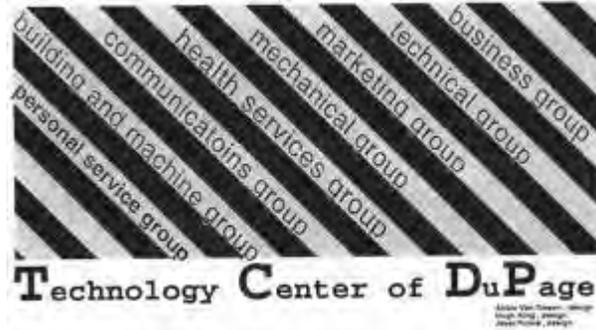

Technology Education

<p>GRAPHIC COMMUNICATIONS - DESKTOP PUBLISHING HONORS OPTION (GCDP) <i>Course # 6652, 6653</i> 1st or 2nd semester Credit: 0.5</p>	<p>The core material for this course is similar to course 6640, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF) or Journalism 1 (J1 taken concurrently with department approval). Supply Fee: \$10.00. Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS - WEB DESIGN (GCW) <i>Course # 6662, 6664</i> 1st or 2nd semester Credit: 0.5</p>	<p>Create professional looking websites! Web Design provides students with an overview of essential disciplines found in web development and the skills necessary to visually create websites using Adobe Dreamweaver. Although this is not a programming course, basic coding principles will be covered. Areas of study include Internet history, information architecture, site mapping and wireframe development, user experience (UX), search engine optimization (SEO), and development of fluency with Dreamweaver.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF). Supply Fee: \$10.00. Open to grades 9, 10, 11 and 12.</p>
<p>GRAPHIC COMMUNICATIONS - WEB DESIGN HONORS OPTION (GCW) <i>Course # 6667, 6668</i> 1st or 2nd semester Credit: 0.5</p>	<p>The core material for this course is similar to course 6662, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF). Supply Fee: \$10.00. Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS - WEB-BASED MULTIMEDIA (GCOMM) <i>Course # 6681, 6682</i> 1st or 2nd semester Credit: 0.5</p>	<p>Create motion graphics and video! This course give students the skills to create animated graphics, Flash animations, and produce simple videos. Students will gain experience using industry standard software like Adobe Image Ready and Flash to create many to the types of motion graphics found on the web. Students will also be introduced to digital video and learn how to capture and edit their footage, ultimately producing their own short commercials.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF). Supply Fee: \$10.00. Open to grades 9, 10, 11 and 12.</p>
<p>GRAPHIC COMMUNICATIONS - ADVANCED GRAPHICS (GCA) <i>Course # 6660, 6665</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed for those students who wish to apply the skills learned in their study of Graphic Communications more deeply to real world projects. Students will focus on several areas of interest and develop real world products in a client-project manager arrangement.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF) and one of the following: GCW, GCOMM, GCDP. Supply Fee: \$10.00. Open to grades 10, 11 and 12.</p>
<p>GRAPHIC COMMUNICATIONS - ADVANCED GRAPHICS HONORS OPTION (GCA) <i>Course # 6666, 6669</i> 1st or 2nd semester Credit: 0.5</p>	<p>The core material for this course is similar to course 6660/6665; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF) and one of the following: GCW, GCOMM, GCDP, and department approval. Supply Fee: \$10.00. Open to grades 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS - INDEPENDENT STUDY (GCIS) <i>Course # 6905, 6906</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is intended for students who have exhausted other course offerings and wish to further skills learned in the Graphic Communications program in an independent atmosphere.</p> <p>Prerequisite: departmental approval. Supply Fee: \$10.00. Open to grades 11 and 12</p>

Technology Education

<p>BASIC PHOTOGRAPHY <i>Course # 6691, 6692</i> 1st or 2nd semester Credit: 0.5</p>	<p>Basic photography is for students interested in learning the techniques necessary to produce technically correct and aesthetically pleasing photographs. Digital and film capture of images will be explored. Areas of study will include, but are not limited to, the composition of a good photograph; the processing of black and white photographic materials; and proper application of photographic equipment and supplies. Photographic equipment and supplies will be provided along with cameras for students who do not have access to a Single Lens Reflex (SLR) camera.</p> <p>Prerequisites: None. Supply Fee: \$35.00. Open to grades 10, 11 and 12</p>
<p>DIGITAL COLOR PHOTOGRAPHY <i>Course # 6701, 6702</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is for someone interested in the modern methods of Digital Color Photography. The student will use a digital camera to capture images. After capture, editing will be accomplished in the digital darkroom using the computer and the software Photoshop. Areas of study include, but are not limited to, the principles of color and light; elements of a good photograph; capturing images with a digital camera; editing a photograph for presentation with Photoshop; printing a digital file in color; and preparing a photograph for display. The studio will be used to further the use of shade and shadow, light ratios, and photographic composition techniques. Still life and portrait techniques will be explored. Equipment and supplies will be furnished. Cameras are available for students who do not own or have access to a digital camera. Basic Photography and Digital Color Photography together have articulated credit with the College of DuPage.</p> <p>Prerequisite: Basic Photography. Supply Fee: \$35.00. Open to grades 10, 11 and 12.</p>
<p>DIGITAL COLOR PHOTOGRAPHY HONORS OPTION <i>Course # 6703, 6704</i> 1st or 2nd semester Credit: 0.5</p>	<p>The core material for this course is similar to course 6701, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for high motivated students.</p> <p>Prerequisite: Basic Photography. Supply Fee: \$35.00. Open to grades 10, 11 and 12.</p>
<p>ADVANCED PHOTOGRAPHY <i>Course # 6812</i> 2nd semester Credit: 0.5</p>	<p>In this advanced level course, students will be expected to improve upon their current level of photographic ability. Students will have the opportunity to explore digital and film capture of images. In terms of technique, students will be introduced to different camera formats and the zone system (a procedure which will allow students to make more carefully controlled photographic prints.) Additionally, some non-traditional films, papers, and emulsions will be introduced. In terms of content, through class assignments and independent work, students will further their use of photographic medium to more effectively articulate ideas. Students will have the opportunity to work with black and white film, color film, infrared film, and digital cameras to capture images. Students will be expected to properly display and critique their photographic work.</p> <p>Prerequisites: Basic Photography and Color Photography with instructor approval. Supply fee: \$40.00. Open to grades 11 and 12</p>
<p>ADVANCED PHOTOGRAPHY HONORS OPTION <i>Course # 6814</i> 2nd semester Credit: 0.5</p>	<p>The core material of this course is similar to course 6812; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is recommended for highly motivated students.</p> <p>Prerequisites: Basic Photography and Color Photography with instructor approval. Supply fee: \$40.00. Open to grades 11 and 12</p>
<p>PHOTOGRAPHY INDEPENDENT STUDY <i>Course # 6907, 6908</i> Credit: 0.5</p>	<p>This course is designed for students who have completed course sequence in photography program and desire further independent course work.</p> <p>Prerequisite: Departmental Approval. Supply Fee: \$40.00. Open to grades 11 and 12.</p>

Technology Center of DuPage

Hinsdale High School District No. 86 participates with other high school districts in DuPage County to support an area technology center. Technology Center of DuPage provides comprehensive vocational-technical education for high school students whose career objectives are related to vocational-technical fields. Students are bused to the center (located in Addison) for half-day sessions each day (periods five through ten). During the other half of the school day (periods one through four), students attend classes and lunch and participate in extra-curricular activities at Hinsdale Central. Credits earned at TCD can be used to satisfy the units required for graduation. All TCD courses will satisfy the District 86 graduation requirement in Applied Arts. A maximum of 3.0 units of credit can be earned yearly through TCD course work and 3.0 additional units of credit can be earned per year through Hinsdale Central course work.

Students are expected to follow Hinsdale Central's disciplinary code both at Hinsdale and at TCD. If a student violates school policy and is not permitted to ride the school bus, the student will be withdrawn from his TCD courses and receive a failed grade.

TCD offers junior - senior level programs in the following areas. "Kit fees" from the 2012- 2013 school year are listed below for each area. Cost is range for first and second years.

PROGRAMS	1 st Year	2 nd Year
Construction Trades	\$190 - \$350	\$135. - \$145
Landscape Design & Management	\$125 - \$235	\$60 - \$100
Computer Integrated Manufacturing	\$150 - \$175	\$75 - \$100
Pre-Architectural & Pre-Engineering Technology CAD	\$125	\$75 - \$85
Computer Information Systems	\$12 - \$15	\$12 - \$15
Data Entry	\$50 - \$125	\$5 - \$15
Office Systems Technology	\$95 - \$125	\$5 - \$15
Graphic Communications	\$75 - \$90	\$35 - \$50
Multimedia & TV Production	\$150 - \$165	\$65 - 75
Certified Nurse Assistant	\$250 - \$260	
Medical & Health Care Careers	\$120 - \$150	
Criminal Justice	\$150 - \$185	\$65 - \$100
Fire Science	\$250 - \$300	\$250 - \$300

T.C.D. Department

TECHNOLOGY CENTER OF DUPAGE (TCD) 2012 - 2013

TECHNOLOGY CENTER OF DU PAGE CAREER PROGRAMS

Course # 9010
Credit: 3.0

The requirements and objectives associated with the specific Technology Center of DuPage (TCD) programs listed above vary greatly. Students who wish further information about a particular program and/or wish to register for a TCD program must see their counselor. All students must fill out a separate TCD form with parent signature and return to their counselor.

Prerequisite: None. Open to grades 11 and 12.

GENERAL INFORMATION

The twenty one programs operating at TCD are open to juniors and seniors. The TCD campus is located in Addison, Illinois, approximately thirty minutes from Hinsdale Central. Students are scheduled through their counselors to have fourth period lunch and attend TCD the remainder of the day. TCD offers three elective credits which count towards the elective arts graduation requirement. TCD is a yearlong program; therefore, students should enroll in February for the following year during their registration conference with their counselor. Each student must fill out a TCD application signed by a parent and their counselor. Although there are no specific requirements for TCD enrollment (other than being of junior or senior status), students are advised to work closely with their counselors to fit in all graduation requirements. Please refer to the TCD website: <http://www.tcdupage.org> for more information.

CUSTOMIZE YOUR CURRICULUM

TCD helps students learn on two levels. First, it provides hands-on basics to offer experiences that go beyond theory. Secondly, it helps provide a practical workplace to sharpen skills necessary for a chosen career. TCD incorporates a self-paced, goal by goal learning style which encourages self-management and productivity.

ACCREDITATION

TCD is fully accredited by the North Central Association Commission on Accreditation and School Improvement (NA-CASI). It is one of the Midwest's finest schools for career and technical education, and the recipient of the Lincoln Award for Commitment to Excellence from the Lincoln Foundation.

EARN COLLEGE CREDIT AND SCHOLARSHIPS

Many programs offer dual credit through College of DuPage that can be transferred to other colleges and universities accepting COD course work. Other colleges offer advanced standing or credit upon enrollment, including Lewis University, Ferris State University, Triton Junior College, Kendall College, William Rainey Harper College, Johnson & Wales University, and the Cooking & Hospitality Institute of Chicago.

COLLEGE ARTICULATED CREDIT THROUGH TCD PROGRAMS

Hinsdale Township High School District 86 and the College of DuPage have an agreement, articulated credits, in which Hinsdale Central students may receive credit for courses taken in high school once they are enrolled in the College of DuPage. A minimum grade of B must be earned in a TCD course in order to receive COD credit. There is no formal sign up process for the students to be eligible to receive this credit. TCD courses can provide between two and six semester credit hours depending on the program. Other colleges in addition to COD accepting articulated credit from TCD courses include Triton College, Lewis University, Harper college, Johnson and Wales University, Kendall College and The Cooking and Hospitality Institute of Chicago.

SCHOLARSHIPS AND AWARDS

A TCD student can gain recognition and win scholarships like the Hospitality Club and Skills USA. TCD instructors are also aware of many industry-related and organizational scholarships specifically for students in career and technical education.

GRADUATE SUCCESSES

- One year after graduation:
- 59% continued their education
- 32% work full-time, a third of those in their related field
- 2% work and go to school
- 3% enter the military

CAREER ACCELERATION PROGRAMS

TCD offers twenty one of the fastest growing occupations. The knowledge a student will gain can also be applied to a wider range of career choices.

PROFESSIONAL LICENSING

Through TCD a student can earn industry-recognized credentials that opens doors. TCD programs help students prepare for career-related state, federal, professional or national licensing exams.

ACCREDITATION

TCD is part of Hinsdale Central's elective courses. TCD is not a trade school, nor is it a college. TCD focuses on teaching career skills as well as enhancing basic principles of academics. There is no charge to attend TCD. However, programs do have fees for supplies, tools or uniforms as noted in each course description. TCD is a great option for students wishing to pursue a more "career oriented" curriculum. Interested students should work closely with their counselors regarding which program might be best suited for their needs.

Maggie Ahern, design

World Languages

Hinsdale Central World Languages Department Department Mission Statement

Our mission as a department is to enable students to acquire, develop, expand, and apply their knowledge of a new language.

We do this by working collaboratively within our learning community to:

- Maximize student potential for learning and language acquisition
- Guide student learning by modeling good study habits and effective learning skills.

We do this so that students can integrate and transfer knowledge of a new language throughout their lives, and gain a broader perspective and understanding of world cultures within a respectful community of learners.

Two years of the same language will fulfill the entrance requirement of the state public universities in Illinois. Most other universities require world language study for admission and may require it for graduation from specific degree programs. ***High school students preparing for college should include one or more world languages in their preparation.***

Students entering ninth grade with previous world language experience can complete the equivalent of five or six years of high school work, which may include Advanced Placement work. Students who complete the upper levels of a language often test out of the world language requirements, receive college credit, and/or are placed in advanced language courses in college. A sequence of honors level courses is available in all languages offered by the Department.

Two or more world languages may be taken simultaneously. The latest research indicates that studying two languages at the same time is beneficial and that world language study has positive effects on a student's English language skills. Completing the third and fourth year in a sequence significantly improves achievement and fluency. Etymology, a semester course, is highly recommended to all students who wish to increase their knowledge and understanding of vocabulary.

The first semester of a language must be passed before a student may take the second semester of the same language. Credit must be earned in both semesters of one level of a language before advancing to the next level.

World Languages

FRENCH	
FRENCH 1 Course # 4110 Full year Credit: 1.0	<p>French 1 offers a basic introduction to the vocabulary and grammar of the language. The pace of the course begins moderately and increases as students have more experience with the language. Students will be taught basic reading and writing strategies using textbook examples. Reading, writing, speaking and listening skills are practiced and assessed regularly. Readings and projects center on cultural information. Although grammar concepts may be taught in English, students are always expected to use French in class to the extent possible. This course is conducted mostly in French.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. Students who repeat French 1 may not take French 2 Honors the following year.</p>
FRENCH 1 HONORS Course # 4115 Prerequisite: Yes Credit: 1.0 Grade Offered: 9-12	<p>The sequential core material for this course is the same as French 4110. The pace is accelerated to allow for the reading and discussion of some short stories and short books, as well as other activities to challenge the more capable student. This course is conducted in French to a greater extent than is French 4110.</p> <p>Prerequisite: This class is for students who have not previously studied French. Departmental approval or recommendation of the junior high school teacher. Open to grades 9, 10, 11 and 12. Students who have taken French in middle school may not register for this course.</p>
FRENCH 2 Course # 4120 Full year Credit: 1.0	<p>This course is an articulated continuation of the French 1 program and continues building the same skills. Students are expected to participate actively in class activities and function in French to a great extent, and all four skills are evaluated.</p> <p>Prerequisite: A grade of C or better in French 1, or recommendation of the junior high school teacher. Open to grades 9, 10, 11 and 12.</p>
FRENCH 2 HONORS Course # 4125 Full year Credit: 1.0	<p>The sequential core material for this course is the same as French 4120. The pace is accelerated to allow for the reading and discussion of some short stories and short books, as well as other activities to challenge the more capable student. This course is conducted in French to a greater extent than is French 4120.</p> <p>Prerequisite: Departmental approval or recommendation of the junior high school teacher. Open to grades 9, 10, 11 and 12.</p>
FRENCH 3 Course # 4130 Full year Credit: 1.0	<p>This course is the study of the geography and culture of France interwoven concurrently with the study of grammar. Class activities include daily discussions of reading assignments enriched through film, French TV, news clips, slides and newspaper articles. In addition, students do oral presentations and write short compositions. During second semester, students read and discuss <i>Le Petit Prince</i>. The course is conducted extensively in French.</p> <p>Prerequisite: A grade of C or better in French 2. Open to grades 9, 10, 11 and 12.</p>
FRENCH 3 HONORS Course # 4135 Full year Credit: 1.0	<p>The sequential core material for this course is the same as French 4130. The pace is accelerated; the breadth and scope of the coverage is expanded, and some material is added to challenge the capabilities of the more able students. The course is conducted extensively in French.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11 and 12.</p>
FRENCH 4 Course # 4140 Full year Credit: 1.0	<p>French 4 is the study of the history, and art of France throughout the centuries (pre-history to present times). Class activities include discussions of prepared reading selections, oral presentations, and the intensive study of one film. The course of study also emphasizes systematic grammar review and limited composition practice.</p> <p>Prerequisite: A grade of C or better in French 3. Open to grades 10, 11 and 12.</p>

World Languages

FRENCH continued	
FRENCH 4 HONORS <i>Course # 4145</i> Full year Credit: 1.0	French 4 Honors is the study of the history, and art of France throughout the centuries (pre-history to present times). Class activities include discussions of prepared reading selections, oral presentations, and the intensive study of one film. The course of study covers systematic grammar review and more extensive composition practice than French 4. Inasmuch as this course leads sequentially to the AP French 5 course, the course content is supplemented with more challenging reading materials and special emphasis is put on oral proficiency. Prerequisite: Departmental approval. Open to grades 10, 11 and 12.
FRENCH 5 <i>Course # 4150</i> Full year Credit: 1.0	French 5 is a course that integrates the study of literature, advanced grammar and current events in France. The readings consist of short stories, and a novel from the 20th century organized around the themes of human relationships, moral dilemmas and existentialism. Class activities include discussions of texts in French, the study of one film per semester and improving grammar and writing proficiency. The course is conducted extensively in French Prerequisite: A grade of C or better in French 4. Open to grades 11 and 12.
ADVANCED PLACEMENT FRENCH LANGUAGE <i>Course # 4155</i> Full year Credit: 1.0	Advanced Placement French Language, a study of literature of the 19 th and 20 th centuries, provides intensive and extensive reading, discussion and analysis in French of selected literary masterpieces by Mérimée, Rostand, and Voltaire. Students also write compositions in French on non-literary topics and study some current events with excerpts from French television. Advanced grammar review is continued. Course content is designed to improve all four language skills with special emphasis on idiomatic usage, and to prepare students for the Advanced Placement language exam in French. Prerequisite: Departmental approval. Open to grades 11 and 12.
GERMAN	
GERMAN 1 <i>Course # 4210</i> Full year Credit: 1.0	German 1 offers an introduction to the basic grammar and vocabulary of the language. Students are actively engaged in learning activities that allow them to practice and use German. Students use the language in structured activities, interactive conversations, and short presentations. Reading and writing exercises use material previously practiced orally. Assessment measures listening, speaking, reading and writing. The course is conducted extensively in German. Prerequisite: None. Open to grades 9, 10, 11 and 12.
GERMAN 1 HONORS <i>Course # 4215</i> Full year Credit: 1.0	The sequential core material for this course is the same as German 4210. The pace is accelerated and the breadth and scope of the coverage is expanded. Some material is added to challenge the capabilities of the more able students. Prerequisite: Departmental approval. Open to grades 9, 10, 11 and 12.
GERMAN 2 <i>Course # 4220</i> Full year Credit: 1.0	This course is a continuation of the first level course, developing more complex oral, reading, and writing skills. The course is conducted almost entirely in German. Supplementary reading of simple selections may be used to introduce the student to the world of German literature and to improve the student's ability in speaking and writing. Prerequisite: A grade of C or better in German 1. Open to grades 10, 11 and 12.
GERMAN 2 HONORS <i>Course # 4225</i> Full year Credit: 1.0	The sequential core material for this course is the same as German 4220. The pace is accelerated; the breadth and scope of the coverage is expanded and some material is added to challenge the capabilities of the more able students. Prerequisite: Departmental approval. Open to grades 10, 11 and 12.

World Languages

GERMAN continued	
GERMAN 3 <i>Course # 4260</i> Full year Credit: 1.0	German 3 is designed to develop greater fluency in oral proficiency, reading, writing, and further appreciation of German history and culture. The course features a selection of prose and poetry by contemporary and earlier German writers, and a systematic review and extension of basic grammar patterns. In addition to a basic text, one or more literary readers or plays may be used. Activities center around classroom discussion of reading selections, oral presentations, and original skits by students. The course is conducted extensively in German. Prerequisite: Departmental approval. Open to grades 10, 11 and 12.
GERMAN 3 HONORS <i>Course # 4265</i> Full year Credit: 1.0	The sequential core material for this course is the same as German 3. The pace is accelerated; the breadth and scope of the coverage is expanded. Some material is added to challenge the capabilities of the more able students. The course is conducted extensively in German. Prerequisite: Departmental approval. Open to grades 10, 11 and 12.
GERMAN 4 <i>Course # 4270</i> Full year Credit: 1.0	German 4 provides an introduction to contemporary German life, literature and culture. The objective is to increase the student's skills in oral and written expression, and to give systematic cultural information and grammatical review. In addition to a basic cultural reader, selections of modern German short fiction will acquaint the student with present day trends and attitudes. Class activities center around classroom discussion of reading selections, including current news magazines. The materials and activities utilized in this course will help students to further improve and refine all four language skills. The course is conducted extensively in German. Prerequisite: Departmental approval. Open to grades 10, 11 and 12.
GERMAN 4 HONORS <i>Course # 4275</i> Full year Credit: 1.0	The sequential core material is the same as German 4. The pace is accelerated; the breadth and scope of coverage is expanded. Some material is added to challenge the capabilities of the more able students. Material and activities utilized in this course will help students to further improve and refine all four language skills. The course is conducted exclusively in German. Prerequisite: Departmental approval. Open to grades 10, 11 and 12.
LATIN	
LATIN 1 <i>Course # 4310</i> Full year Credit: 1.0	Latin 1 is primarily designed to develop a student's ability to read and comprehend the Latin language. Students begin by learning the peculiar demands of an inflected language, and are then introduced to Latin morphology, the declensions of its nouns and the conjugation of its verbs. Gradually, elements of syntax and grammar introduce the students to the fundamental requirements needed to read. Concurrent with these pursuits will be an ongoing discovery of the structure of the English language and its many borrowings from the Latin structure. Students' grasp of English grammar will grow substantially. An ever-evolving Latin vocabulary helps students understand essential concepts in etymology, derivatives, and building a stronger and more precise vocabulary in English. Roman and Greek mythology and Roman daily life comprise the cultural component of the course. Prerequisite: None. Open to grades 9, 10, 11 and 12.
LATIN 1 HONORS <i>Course # 4315</i> Full year Credit: 1.0	The sequential core material for this course is the same as Latin 4310. The pace is accelerated; the breadth and scope of the coverage is expanded and some material is added to challenge the capabilities of the more able students. Prerequisite: Departmental approval. Open to grades 9, 10, 11 and 12.

LATIN continued	
LATIN 2 <i>Course # 4320</i> Full year Credit: 1.0	This course builds on the grammatical and structural foundations established in Latin I. An emphasis is placed on reading and comprehending Latin. Students will learn advanced grammar and move on to their first experience with unadulterated Latin. The cultural focus of the course will be the formation and development of the Roman Republic. Prerequisite: A grade of C or better in Latin 1. Open to grades 10, 11 and 12.
LATIN 2 HONORS <i>Course # 4325</i> Full year Credit: 1.0	The sequential core material for this course is the same as Latin 4320. The pace is accelerated; the breadth and scope of the coverage is expanded and some material is added to challenge the capabilities of the more able students. Prerequisite: Departmental approval. Open to grades 10, 11 and 12.
LATIN 3-4 LATIN LITERATURE <i>Course # 4340</i> Full year Credit: 1.0 <div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 10px auto;">Offered 2012 - 2013</div>	This course is a survey of Latin literature sampling several genres including letters, oratory, epigram, history, narrative, philosophy, lyric and elegiac poetry. The survey is designed to further develop students' translation abilities as they review essential grammar and vocabulary. The work will explore the boundaries of each genre and its specific application. Attention will also be paid to the larger historical context of the authors and their works to provide students with an upper level understanding of Roman thought and custom. Prerequisite: Latin 2 and departmental approval. Latin 4340 and 4360 are offered in alternate years only. In 2013-2014 Latin 3-4 Vergil (4360) will be offered. In 2012-2013 Latin 3-4 Latin Literature will be offered. Open to grades 11 and 12.
LATIN 3-4 VERGIL <i>Course # 4360</i> Full year Credit: 1.0 <div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 10px auto;">Offered 2013 - 2014</div>	This course involves a thorough reading and analysis of Vergil's major work, the Aeneid. The course works to establish the larger historical, literary, and political context through which the purpose of the poem can be understood. Special attention will be paid to Vergil's use of meter, rhetorical and poetic figures of speech, poetic imagery, diction, as well as his manipulations of the Latin language. Prerequisite: Latin 2 and departmental approval. Latin 4340 and 4360 are offered in alternate years only. In 2013-2014 Latin 3-4 Vergil (4360) will be offered. In 2012-2013 Latin 3-4 Latin Literature will be offered. Open to grades 11 and 12.
LATIN LITERATURE HONORS <i>Course # 4355</i> Full year Credit: 1.0 <div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 10px auto;">Offered 2012 - 2013</div>	The sequential core material of this course is the same as Latin 4340. The pace is accelerated; the breadth and scope of the coverage is expanded, and some material is added to challenge the capabilities of the more able students. Prerequisite: Latin 2 and departmental approval. Latin Literature Honors 4355 and AP Latin Vergil 4365 are offered in alternate years only. In 2013-2014 AP Latin Vergil (4365) will be offered. In 2012-2013 Latin Literature Honors will be offered. Open to grades 11 and 12.
ADVANCED PLACEMENT LATIN VERGIL <i>Course # 4365</i> Full year Credit: 1.0 <div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 10px auto;">Offered 2013 - 2014</div>	Preparatory to the Advanced Placement exam, the Advanced Placement Vergil course involves a thorough reading and analysis of the poet's major work, the Aeneid. After reading Homer's <i>Iliad</i> and <i>Odyssey</i> in translation, the course works to establish the larger historical, literary, and political context through which the purpose of the poem can be understood. Special attention will be paid to Vergil's use of meter, rhetorical and poetic figures of speech, poetic imagery, diction, as well as his manipulations of the Latin language. Essay writing will be developed in line with the close literary analysis required by the College Board. Pending a decision by the AP College Board, some as of yet undetermined number of lines from Caesar's works will be added. Prerequisite: Latin 2 and departmental approval. Latin Literature Honors 4355 and AP Latin 4365 are offered in alternate years only. In 2013-2014 AP Latin Vergil (4365) will be offered. In 2012-2013 Latin Literature Honors will be offered. Open to grades 11 and 12.

World Languages

ETYMOLOGY	
<p>ETYMOLOGY Course # 4371, 4372 1st or 2nd Semester Credit: 0.5</p>	<p>Etymology is designed to increase one's knowledge and understanding of English vocabulary through the study of the most important Greek and Latin roots. Students learn to discover meanings of words through recognition and interpretation of their elements. The skills learned in Etymology equip students to decode vocabulary words encountered elsewhere (transfer of knowledge). The ability to memorize is a necessary fundamental skill. Recommended for all qualifying students who would like to develop their vocabulary before taking standardized tests</p> <p>Prerequisite: A grade of C or better in the foreign language most recently studied, or (if no foreign language) consent of the department chair. Open to grades 9, 10, 11 and 12, and especially recommended to sophomores.</p>
SPANISH	
<p>INTRODUCTION TO SPANISH Course # 4505 Full year Credit: 1.0</p>	<p>Introduction to Spanish 1 is a first year Spanish course designed to emphasize Spanish 1 vocabulary, grammatical concepts, and foreign language study skills in order to provide necessary and additional support to new language learners. The course is designed to provide students with vocabulary and grammar acquisition skills that are crucial to the student's success in future second language study. The course will also focus on developing student responsibility for his or her own learning. Students will learn organization and study skills that will support successful study of a language. Students who successfully complete this course will be able to continue and complete their study of Spanish 1 the following year. The textbook for this course is Realidades Level 1.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. (This course is not open to students who have previously taken Spanish courses.)</p>
<p>SPANISH 1 Course # 4510 Full year Credit: 1.0</p>	<p>An introductory course which develops communication skills with an emphasis on listening and speaking. The student is taught to use the language actively through extensive oral work in daily dialogue, grammar patterns, and idioms. Reading and writing exercises use materials previously practiced orally. Evaluation measures listening, speaking, reading, and writing. The course is conducted extensively in Spanish. This course is for students who have not taken a full year of Spanish before or have taken Spanish at the junior high level but received a grade of B- or lower. The textbook and workbook for this course is <u>Realidades Level 1</u>.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. Students who repeat Spanish 1 may not take Spanish 2 Honors the following year.</p>
<p>SPANISH 2 Course # 4520 Full year Credit: 1.0</p>	<p>This course is a continuation of the first level course, developing more complex oral, reading and writing skills. Students are expected to participate actively in class activities and to function in Spanish to a greater extent, and all four skills are evaluated. Supplementary reading of simple selections and books will be used to improve students' ability in reading, speaking, and writing. This course is conducted almost entirely in Spanish.</p> <p>Prerequisite: A grade of C or above in Spanish 1 or recommendation of the junior high teacher. Open to grades 9, 10, 11 and 12</p>

SPANISH continued	
SPANISH 2 HONORS <i>Course # 4525</i> Full year Credit: 1.0	Although the core material for this course is the same as Spanish 4520, this course uses a higher level text. In addition, students will be taught specific strategies for reading, writing and listening. The pace is also accelerated to allow for the reading and discussion of authentic literary selections. Reading, writing, speaking, and listening skills are practiced and assessed regularly. This course is designed for students who have had success in Spanish 4510 (or Jr. High equivalent) and who demonstrate the characteristics of a self-directed, mature student. This course is conducted almost entirely in Spanish. Prerequisite: Departmental approval. Recommendation of the junior high teacher for freshmen. Open to grades 9, 10, 11 and 12.
SPANISH 3 <i>Course # 4530</i> Full year Credit: 1.0	Spanish 3 is structured to maintain and improve the listening and speaking skills already developed in the first and second years, and to give increased emphasis to the development of reading and writing, while honing grammar skills. The basic text materials include short reading selections, as well as speaking activities and grammar explanations. The classes are conducted extensively in Spanish, making use of structured drills and conversation stimuli to accompany the increased reading and writing exercises. Prerequisite: A grade of C or better in Spanish 2. Open to grades 9, 10, 11 and 12.
SPANISH 3 HONORS <i>Course # 4535</i> Full year Credit: 1.0	The sequential core material for this course is similar to Spanish 4530. The pace is accelerated; the breadth and scope of the coverage is expanded. Material is added to challenge students' capabilities. Additionally, students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. The class is conducted extensively in Spanish. Prerequisite: Departmental approval. Open to grades 9, 10, 11 and 12.
SPANISH 4 <i>Course # 4540</i> Full year Credit: 1.0	Spanish 4 is a hybrid course developing conversational skills as well as increasing knowledge of Spanish culture, history, and literature. This course includes the traditional study of grammar, as well as augmenting the students' vocabulary with an emphasis on oral communication skills. Students learn to interact with literature using a variety of reading strategies and linguistic skills to develop an appreciation for and understanding of the Spanish culture. Students read, write, and present throughout the year. This course is conducted entirely in Spanish. Upon completion of this course, students earning an A or a B will be able to take Advanced Placement Spanish. Prerequisite: A grade of C or better in Spanish 3. Open to grades 10, 11 and 12.
SPANISH 5 HONORS: SPANISH STUDIES <i>Course # 4545</i> Full year Credit: 1.0	This course offers the opportunity to learn about the Spanish culture through reading and discussing the written word. The focus of this course is increasing students' understanding of the history and culture of Spain as they interact with different genres of literature. In addition to reading, students will write essays and do presentations for each unit of study with a focus on developing their oral and written communication skills. This course is designed for students who have had success in Spanish 4535, 4540, or 4555. This course is conducted entirely in Spanish. Prerequisite: Departmental approval. Open to grades 10, 11 and 12.
SPANISH 5 HONORS: LATIN AMERICAN STUDIES <i>Course # 4550</i> Full year Credit: 1.0	This course offers the opportunity to learn about Latin American cultures through reading and discussing the written word. The focus of this course is increasing students' understanding of the history and culture of Latin America as they interact with different genres of literature. In addition to reading, students will write essays and do presentations for each unit of study with a focus on developing their oral and written communication skills. This course is designed for students who have had success in Spanish 4535, 4540, or 4555. This course is conducted entirely in Spanish. Prerequisite: Departmental approval. Open to grades 10, 11 and 12.

World Languages

SPANISH continued	
<p>ADVANCED PLACEMENT SPANISH LANGUAGE <i>Course # 4555</i> Full year Credit: 1.0</p>	<p>This course surveys the literature, culture and thought of Hispanic America. Students read selections from representative works and cultural texts, participate in classroom discussions, give oral reports and write essays of various lengths. The class is conducted extensively in Spanish and students are expected to be conversant in the language. The class will also prepare those students who wish to take the Advanced Placement exam in Spanish Language.</p> <p>Prerequisite: Departmental approval. A grade of an A or a B in Spanish 4540, 4545, or 4550. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT SPANISH LITERATURE <i>Course # 4565</i> Full year Credit: 1.0</p>	<p>The AP Spanish Literature course is based on those representative works suggested by the AP board and required for the AP Spanish Literature exam. This course surveys the literature of Spain and Hispanic America in a sequential and thematic fashion. Students are required to read and write outside of class, take part in classroom discussions, present reports and compose essays in order to prepare for the Advanced Placement exam in Spanish Literature.</p> <p>Prerequisite: Departmental approval. A grade of an A or a B in Spanish 4540, 4545, or 4550. Open to grades 11 and 12.</p>

Registration Information

2012 – 2013 academic calendar

<p><i>January</i></p>	<p>Program of Studies Handbook Copies of Hinsdale Central’s inclusive curriculum book will be posted online. This information should stimulate initial conversations between parents and students regarding appropriate courses for next year.</p>
<p><i>January 3-25, 2012</i></p>	<p>Curriculum Discussions Begin Individual teacher/student informal advising discussions are held.</p>
<p><i>January 11, 2012</i></p>	<p>Dissemination Homeroom Registration information will be distributed at this time. Parents are advised to ask their son/daughter to review this information together.</p>
<p><i>January 11, 2012</i></p>	<p>Eighth Grade Student and Parent Night, HC Gymnasium An informational program will be held for all parents and students to explain the curriculum and the course selection process.</p> <p style="text-align: center;">6:45 -7:45 PM Last names A – L 8:00 - 9:00 PM Last names M-Z</p>
<p><i>January 26, 2012</i></p>	<p>Course Verification Recommendations. Every student will receive a copy of recommended courses. A parent signature will be required on verification forms submitted to their assigned counselor during the student’s individual registration appointment.</p>
<p><i>January 27- February 1, 2012</i></p>	<p>Class of 2014 Counselor Conferences Class of 2014 will meet individually with their counselors at an assigned time to finalize their course selections. Individual appointments will be announced in homeroom. Registration appointments begin on January 27, 2012 and will finish by 3:00 p.m. on February 15, 2012. Each student will be assigned an individual appointment with his/her counselor.</p>
<p><i>February 2-8, 2012</i></p>	<p>Class of 2013 Counselor Conferences Class of 2013 will meet individually with their counselors at an assigned time to finalize their course selections. Individual appointments will be announced in homeroom.</p>
<p><i>February 9-15, 2012</i></p>	<p>Class of 2015 Counselor Conferences Class of 2015 will meet individually with their counselors at an assigned time to finalize their course selections. Individual appointments will be announced in the two homerooms.</p>
<p><i>January 24, 26, and 30 February 1, 7, and 9, 2012</i></p>	<p>Eighth Grade Individual Registration Conferences Incoming Freshman, Class of 2016, conferences will take place in late January and early February at Hinsdale Central High School in the Library. These conferences will include student, parents and their high school counselor for 15 minute appointments. Each family will need to prove residency as part of the registration process. (Please allow for at least an hour to take care of all required paperwork).</p>
<p><i>Late April 2012</i></p>	<p>Course verification can be viewed online. Students and parents will have the opportunity to view course selections online prior to registration appointments. Students should consult with their counselor regarding any concerns about a course change. (Additionally, Department Chair approval to enroll in a class will be required for any classes needing a prerequisite or an honors level course.) Requests for changes may be accommodated dependent upon class size and availability. All schedules will be finalized by June 1st. No schedule changes will be permitted without Administrative approval. Please Note: Student schedules ARE NOT finalized until books are purchased.</p>

Dear Students and Parents,

Hinsdale Central High School is a wonderful place to be a student where your academic course work prepares you to reach your future goals. Registering for next year's courses is a part of that experience.

The 2012-2013 edition of the Hinsdale Central Program of Studies book is an important resource for students and parents which we hope will assist you in making good course choices.

As you page through the Program of Studies, you will find that the book is divided into three distinct sections. The first contains general information about such topics as graduation requirements, dropping and adding courses, schedule changes, and college admission requirements. The second section provides descriptions of all course options available to students. The last section provides students and parents with registration information for next year, worksheets for course selection, the four-year plan, and the graduation credit checklist.

We suggest that you view the registration process in the broad scope of a four-year plan as you reflect on your personal strengths, interests and future plans. Parents, teachers, and your counselor will guide you through this process. We encourage you to make careful consideration of the opportunities available to you so that you are able to make the best use of the academic opportunities available to you.

You should use this Program of Studies book to prepare for your registration appointment with your Guidance Counselor. These will be scheduled in January or early February. As you prepare, carefully review the general information section, analyze the course descriptions and "pencil in" your choices on the worksheets at the back of this handbook.

It is important to know that the courses you select during this process are intended to be your final selections for the 2012-2013 school year. We develop our master schedule of classes and we hire and re-employ teachers based on the enrollment decisions you make. As high school students, you should make careful decisions and then follow through with them. Hopefully you will find our registration process one that works well for you. If you have questions or suggestions, please see your counselor.

Sincerely,

Michael McGrory
Principal

HINSDALE CENTRAL VISION STATEMENT

Adopted Fall 2003

The expectation of excellence is rooted in the traditions of Hinsdale Central. In an environment that fosters a desire to learn, all members of the organization are committed to educating each student. In order for us to succeed, we must clearly identify standards we will work to achieve and maintain. These Standards are identified in several areas and will be the benchmarks by which we will measure our success.

I. Students

The degree to which we measure our success in attaining this vision is by each student's progress. We will provide opportunities that facilitate this growth. In school we:

- a. Work to meet students' needs.
- b. Encourage students to reach their potential in all they do, and to become self-directed learners.
- c. Teach students to accept responsibility for their actions.
- d. Encourage students to get involved in their school and in their community.
- e. Let students know we believe in them and will find ways for them to succeed based on their ability and interests.

II. Staff

Attracting and retaining outstanding people is a must if we are to move toward our vision. In our school we:

- a. Demonstrate our support for a shared vision and a common sense of purpose.
- b. Encourage all members of the organization to be leaders and experts in their fields.
- c. Promote collaboration and collegial decision making on matters relating to students, curriculum, instruction and school.
- d. Facilitate the growth of our students.

III. Curriculum and Instruction

What we decide to teach and how we do so will impact the results we achieve. In our school we:

- a. Recognize our primary focus is to provide a solid base for the post-secondary education of our students, while respecting the needs of students who make alternative choices.
- b. Seek to learn effective practices and adapt them for our learning environment.
- c. Believe teachers should collaboratively determine curriculum and assessment standards.
- d. Work to assure the limited time we have to education our students is used to the greatest benefit for all our school community.

IV. Climate

All members of our community are responsible for providing a climate that contributes to our success and a high school experience that builds a sense of pride we all share. In our school we:

- a. Provide a safe and secure environment that is conducive to learning.
- b. Recognize that all relationships are based on respect for others and an understanding of each person's responsibility for his/her behavior.
- c. Understand school rules and policies exist to support our organization and are consistently applied by all staff.
- d. Recognize the achievements of all members.
- e. Encourage and model behaviors appropriate to the development of character.

V. Community

The educational community recognizes the importance of maintaining a partnership between the school and community at large. In our school we:

- a. Seek ways to improve the quality of communication between the home and school.
- b. Always provide a clear rationale for policies and practices.
- c. Share information that is important in a timely manner.
- d. Recognize that the more our community is involved and informed, the more successful we will be.

Graduation Requirements

To graduate, a student must earn a minimum of 24.0 credits and successfully meet the listed requirements.

According to state law, all students must earn two credits in courses designated as “intensive writing” courses. For this writing requirement, these credits may be earned in classes taken to fulfill other requirements (i.e. an English course may satisfy both the English graduation requirement and the “intensive writing” requirement).

Graduation Requirements	Credit
-------------------------	--------

English	4.0
----------------	------------

Mathematics	3.0
--------------------	------------

One of the 3 full credits of Mathematics required must be an Algebra 1 course and one of them must include a course with Geometry content. The Algebra course credit may be earned prior to enrollment in District 86, but students must still complete 3 full credits of Mathematics study in high school.

Science	2.0
----------------	------------

Social Studies	2.0
-----------------------	------------

World Cultures or World History - H (1.0)
U.S. History or AP U.S. History (1.0) or American Studies

Elective Arts	2.0
----------------------	------------

Only one credit per department will be counted. All courses in:

Art Business Family and Consumer Sciences Music	Technology Education Technology Center of DuPage World Languages
--	--

Consumer Education	0.5
---------------------------	------------

Successful completion of one course:

Consumer Economics
Economics
AP Microeconomics
Introduction to Family & Consumer Sciences
Introduction to Business
Special Education Related Instruction
Consumer Education (online course)

Physical Education/Health	4.0
----------------------------------	------------

Health is a required course at 10th grade and is taken in tandem with one semester of Physical Education. Students have the option of enrolling in an additional semester of Physical Education during sophomore year for an additional 0.5 credit.

**The same course may not be used to satisfy requirements for Elective Arts, and Consumer Education.*

***No student shall receive a certificate of graduation without passing a satisfactory examination on patriotism and principles of representative government, proper use of the flag, methods of voting and the Pledge of Allegiance. Moreover, each student must take the Prairie State Achievement Examination in order to receive a regular high school diploma unless the student is exempt under state law. The building Principal is responsible for notifying students and their parent(s)/guardian(s) of the District’s graduation requirements.*

General Information

Earning Course Credits

Credit in full year as well as semester courses is earned by semester. That is, students earn 1/2 unit of credit or 0.5 credit for successful completion of each semester.

Credit is earned by successfully completing all course requirements as established by the teacher. Excessive absences may result in removal from a course and/or loss of credit.

Alternative Courses

E-learning, correspondence, or college courses may be counted toward graduation if they meet certain requirements. Prior written approval from the Director of Guidance is required. Such courses must be from an accredited institution and include at least 60 seat hours. The student assumes responsibility for all fees. After completing an alternative course, proof of mastery of material may be required before enrolling in an advanced course. For everyone – one online class per semester and two online classes during the summer.

Academic Load

Students must be enrolled in a minimum of six (6) courses per semester.

Admission Requirements

Admission requirements are based upon evidence of normal progress and achievement in the previous school. Incoming freshman are required to submit evidence of satisfactory completion of the 8th grade. Transcripts of credits earned and grade placement are required from the previous school for all students transferring from other secondary schools. Transfer credit and grades will be determined by the Registrar and are based on Hinsdale Central's curriculum and requirements. The report of a health examination and required immunizations at the 9th grade level is required by law. Students will not be allowed to attend school if this state requirement is not met. In addition, all students participating in athletics must have a physical examination for each year in which they participate. We cannot emphasize too strongly the need for this to be accomplished prior to the opening of school.

Articulated Credit and Dual Credit at the College of DuPage

The College of DuPage awards articulated or dual credit when learning experiences at the secondary level of instruction duplicate those at the post-secondary level. These programs enable students to save time and avoid duplication of material already learned in high school. Articulated credits are only applicable to the College of DuPage while dual credits can be accepted at any college or university that accepts transfer credits. Students may request a transcript from C.O.D. with these courses listed after the end of the semester.

College of DuPage	Hinsdale Central	C.O.D. Credits
Photography	Basic and digital Color Photography	5
Accounting	Accounting and Accounting Honors	3

Junior High/Middle School Students

Junior high schools that feed into D86 unable to offer advanced coursework for their students may send their students to D86 for those courses. In these cases, all courses, grades and credit earned will appear on the transcript but will not be calculated into the grade point average earned in subsequent years at a high school in District 86. If the course is taken at a D86 school and the student attends the other D86 school, the course, grades, and credit earned will appear as transfer credit. If the course is taken at the D86 school the student attends, the course, grades, and credit earned will appear as regular credit.

Advanced Placement Program

The Advanced Placement (AP) Program provides students with the opportunity to pursue college-level studies while still in high school and to receive advanced placement and/or credit when entering college. Qualified, academically-oriented students in the tenth, eleventh, and twelfth grades are eligible to participate in the Advanced Placement Program at Hinsdale Central High School.

The Advanced Placement Program at Hinsdale Central High School consists of the following courses:

AP Art History	AP Calculus AB	AP Physics B
AP Studio Art	AP Calculus BC	AP Physics C
AP Language & Comp.	AP Computer Science A	AP European History
AP Lit. & Composition	AP Statistics	AP Microeconomics
AP French Language	AP Music Theory	AP Macroeconomics
AP German Language*	AP Biology	AP Psychology
AP Latin Vergil	AP Chemistry	AP U.S. Gov't. & Politics
AP Spanish Language	AP Environmental Science	AP U.S. History
AP Spanish Literature		

* Upon completion of German 4H, students may take the AP German language exam.

Departments

Advanced Placement courses are offered by seven departments: Art, English, Mathematics, Music, Science, Social Studies, and World Languages. These courses adhere to College Board approved course descriptions and serve as the primary vehicle to prepare students for the voluntary AP examinations in May. In addition to preparing students for the AP exams, AP courses allow students to experience the pace and intensity of college-level courses while still in high school. Some AP courses may explore opportunities for students to work in teams on interdisciplinary themes or projects. Such activities would be designed to provide students the opportunity to solve real-world problems across AP subject areas. The AP courses are challenging and stimulating, require more work and more time than other high school courses.

Examinations

The Advanced Placement examinations are administered each year during the second and third weeks of May and can be described as "tough, but fair." Usually three hours in length, each exam consists of a multiple choice section and free-response section that requires essay writing or problem solving. Every examination receives an overall grade from a team of carefully selected college professors and high school AP teachers on a five-point scale: 5 (extremely well qualified), 4 (well qualified), 3 (qualified), 2 (possibly qualified), and 1 (no recommendation). An AP Grade Report is sent in July to each student, the high school, and if the student requests it, to the college. Unless recommended by the teacher not to do so, all enrolled AP students are expected to take their course ending examinations.

Credit

Although each college determines what AP examination grades it will accept for credit and/or advanced placement, the great majority of colleges accept grades of 3 or better and award the student with credit in the subject matter tested. In some cases, no credit is given, but the student may begin the program of study at an advanced level. Students wanting to know what AP grades are considered acceptable by the colleges in which they are interested should write the Director of Admissions of the college or consult with the Director of Guidance at Hinsdale Central.

General Information

G-Level Program

In the Mathematics and Science departments, particular courses are designated as G-Level courses. College preparatory in nature, G-level courses are designed to meet the special needs of students in particular subject areas.

G-Level Courses:

Foundations of Algebra and Geometry	Algebra 2/Trigonometry – G
Algebra 1 – G	Earth Science – G
Geometry – G	Biology – G

Admission to G-level courses is based upon several established selection criteria:

- Teacher recommendations
- Results of the 8th-grade EXPLORE Test
- Past academic performance
- Department approval
- Student and parent input

Honors Program

In the Art, Business, English, Mathematics, Music, Science, Social Studies and World Languages departments, particular courses are designated as honors courses. Honors courses are designed to challenge students of superior ability by enriching and/or accelerating the course content and have standards of high achievement distinctly above those of regular courses. Instruction in honors courses occurs at a faster pace, covers the subject matter in more depth and emphasizes higher level thinking skills.

Honors Option courses are offered by Business, Family and Consumer Sciences, Technology Education, and Art. The courses allow students to experience a more intense curriculum, higher expectations and greater responsibilities. These courses are challenging and will require more work and time than other high school courses. Admission to the Honors Option courses is based upon a student's application and departmental approval.

Honors (H) Courses:

Ideas in Art H	French 1 H	Integrated Algebra And Geometry H
Advanced Drawing H	French 2 H	Pre-Calculus H
Advanced Painting H	French 3 H	Music (see department)
Advanced Ceramics H	French 4 H	Biology H
Advanced Jewelry H	German 1 H	Earth Science H
Digital Imaging 3 H	German 2 H	Chemistry H
Accounting H	German 3 H	Physics H
Business Law I H	German 4 H	Architectural Drafting H
Business Law 2 H	Latin 1 H	Engineering Graphics H
Internship H	Latin 2 H	Advanced Engineering & Arch. Modeling H
English 1 H	Spanish 2 H	Graphic Com. – Desktop Publishing H
English 2 H	Spanish 3 H	Graphic Com. – Web Design H
H/Seminar in Writing	Spanish 5 H: Spanish Studies	Graphic Com. – Advanced Graphics H
Journalism 2: Newsmagazine H	Spanish 5 H: Latin American Studies	Digital Color Photography H
Journalism 2: Yearbook H	Geometry H	Advanced Photography H
Invitation to Teach H	Algebra 2 Trigonometry H	World History H

Admission to the honors program is based upon several established selection criteria:

- Teacher recommendation
- Results of the 8th grade EXPLORE Test
- Past academic performance
- Departmental approval

Students with superior ability, a commitment to the subject matter and a motivation to learn are encouraged to apply for admission to the honors program.

Honor Roll and Weighted Grades

Grades earned in all academic courses, exclusive of Physical Education and Driver Education will be used to determine honor roll according to the following grade point system.

Honor Roll

- 4.0 grade point average
- no grade below a “D”

Dean’s List

- 4.5 grade point average
- no grade below a “C”
- Class Rank will not be awarded for the classes of 2012, 2013 and 2014.

Honor Roll is based on the quarter grade point average, no incomplete grades and a minimum of four credit-earning courses. Honor Roll students become eligible for Dean’s List recognition.

Grade	Honors	Regular
A	6	5
B	5	4
C	4	3
D	2	2
F	1	1
WF	1	1

Course Requests

Each spring our school works to create a schedule of classes for the following academic year that best meets the needs of our students, while still staying within the parameters of staffing requirements (i.e. number of teachers, class size, teaching schedules, state and federal mandates). We work very hard to accommodate student requests; however, due to the complexity of the scheduling process, sometimes student schedules may need to be adjusted. Please keep in mind that changes in course requests or class assignments will not be accepted for any of the following reasons:

- to accommodate a job schedule
- to change teachers
- to change lunches or classes to be with friends
- to have first or last period free
- to accommodate a change of mind

Acceptable reasons for schedule changes may include:

- computer input error
- scheduling conflicts
- failure or near failure in a second semester or year course
- failure to meet a pre-requisite for a course
- department chair or guidance director recommendation
- successful completion of a summer school class

Dropping a Course

Students may request to drop a course only if they are enrolled in the maximum number of courses (seven) per semester and only after they have attended and participated in the course for five full class periods. Approval to drop a course requires signatures from the parent/guardian, teacher, the appropriate department chair, and the student’s counselor. It is understood that the student will have a conversation with his/her counselor and teacher prior to initiating this process.

General Information

Dropping a Course continued:

If a student elects to drop a course, the dropped course will be replaced with a study hall period. In some cases, adding a course to replace a dropped course may be accommodated if the curriculum permits and seats are available. A grade of "F" will be reflected on the transcript of a student who chooses to drop a course after the fourth week of a semester. Students enrolled in yearlong courses will not be allowed to drop at the end of first semester unless it is recommended by the department.

Adding a Course

Students may add a course at the beginning of a semester, space dependent. Requests to add a course must be made no later than the first five full class periods of the semester. In order to add a course, a student must obtain signatures from the parent/guardian, the department chair if required, and the student's counselor.

Repeating Course(s)

A course may be repeated for credit only when a student has previously received a "D" or an "F." Both the grade received and the credit earned for repeating the course, as well as the original grade and credit received in the course, will be used in computing the student's grade point average. The student's transcript will indicate the first grade and credit earned, as well as the second grade and credit earned. However, the credit received for repeating the course will not count toward satisfying graduation requirements unless the student failed the course.

Auditing Courses

Only under unusual circumstances will a request to audit a course be considered:

1. When a student has previous credit in a subject they may request to audit the course.
2. When a student wishes to audit a course they have not previously taken, they may request to audit the course. In this case, they may not take the course for credit at a later time.

In both circumstances, requests to audit will be considered only if space is available in the course. Students assume all responsibility of a regular class member, but receive no grade or credit. All requests to audit a course must have administrative approval prior to the first day of class at the latest, but preferably at the time of February registration. Students interested in auditing a course must complete the form, Request to Audit a Class, which may be obtained from the student's counselor and approved by the Director of Guidance.

Incomplete Grades

An Incomplete represents work not completed by the end of the quarter. Incompletes are given only in extraordinary circumstances. This work must be made up within the first two weeks of the following quarter and the Incomplete changed to a grade or a failure. If the work is not made up by the end of the 2-week period, the grade will be changed to an "F." An Incomplete will prevent eligibility for Honor Roll.

Registration Procedures:

Students should review the four-year planning guide on page 103 and choose courses that will fulfill graduation requirements and build on the student's strengths, interests and abilities. Students will discuss course recommendations with each of their current teachers and, if there is a need for departmental approval, they should obtain the signature of the Department Chair for that course. Following the recommendation discussions with teachers, students will have an individual appointment with their counselor to review and approve their course selections. Students and parents will be able to view their course requests in Home Access Center throughout the month of February. It is important that you bring the Course Verification Recommendation form, signed by your parent(s), to your guidance appointment. Courses are scheduled on the basis of your requests. Questions concerning registration procedures and course selections should be directed to your counselor. *Course Request Forms are available through the Guidance Department*

Attendance Policy

The attendance policy at Hinsdale Central requires that parents call the attendance office **ON THE DAY OF THE ABSENCE** to report their student absent from school on any given day at **630.570.8090**. Prearranged absences may be called in prior to the day of the absence and a green prearranged absence form must be completed. Students are expected to attend class on a daily basis and should be aware that attendance is part of his/her evaluation in each class. Students are responsible for all work missed due to an absence. Excessive absences will be handled by the administration and guidance staff and require a parent conference.

Minimum Attendance Requirement

School Code of Illinois, Section 18-8, requires that all students must be in attendance, exclusive of lunch and passing time, for a minimum of 300 minutes. This necessitates all students attending school for at least six (6) periods a day.

College Admission Requirements

Criteria for college admission vary greatly. The admission committees consider, to varying degrees, the following:

- Type of high school courses actually taken when compared to the courses available in the high school.
- Quality of the student’s academic record.
- Performance on college admission tests - SAT & ACT.
- Development and maturity of the individual in areas outside the academic classroom

Courses	Highly Selective Colleges	Public University Colleges	Private 4-Year Colleges	Community and Public Colleges
English	4 years	4 years	4 years	Varies greatly from an open door admission policy to selective course requirements specifically required by the different departments.
Mathematics	4 years	4 years	4 years	
Science	4 years (lab)	3 years	3 years	
Social Studies	3-4 years	3 years	3 years	
Academic Electives	2 years	2 years	2 years	
World* Languages	4 years (one)	*	2-4 years	

Course requirements for entrance into four different types of colleges are listed above. The academic prerequisites typical of colleges in each of the categories listed may change from year to year and therefore, should be used only as general **minimum guidelines**. Specific information may be obtained from high school counselors, college profiles, websites and catalogs, computerized college software programs and college representatives who visit Hinsdale Central High School. Students should be aware of a definite return by colleges to their preference of a **traditional and classical college preparatory curriculum**. Narrowly defined, college preparatory courses are found in the following departments:

- Art: *AP Art History and AP Studio Art
- English: Literature and composition courses
- Mathematics: Computer Science is not generally accepted as a math credit.
- Science: Lab courses
- Social Studies
- World Languages*

*Academic Electives: Art, Business, Family & Consumer Sciences, Music, Technology Education, Technology Center of DuPage (TCD), World Languages
AP Art History and AP Studio Art are generally treated as acceptable college preparatory academic electives by most colleges.

General Information

Student Schedules

Full year courses are usually designated by 4-digit course codes ending in "0" or "5." Semester courses are primarily designated by numbers ending in "1" (first semester) or "2" (second semester) and may be scheduled either first or second semester. Student schedules are generated by computer and do not allow the student to select a course by semester. Requests are entered but not guaranteed.

Service Credits

Credit: 0.25

Students may elect to serve as a Student Aide during the school year for the following areas: Art, Audio Visual, Family & Consumer Sciences, E.L.L., Guidance, Library, Nurse, Deans' Office, Publications, Science, Technology Education or Student Activities. The credits earned as an Aide count as service credit. Students may elect to serve as an Aide for one or both semesters. They may, however, hold only one Aide position per semester. A 0.25 credit will be granted for each semester. This can be counted toward graduation as a service credit and will be graded on a pass-fail basis.

Excel Study Halls

Course # 1020, 1024, 1027, 1028

Credit: 0.25

Excel is designed as an academic support program. Students assigned to the Excel Study Hall will attend 5 days per week during their scheduled period and will continue to receive these services until all grades earned are at a C level or above for two consecutive quarters at which point they can transfer into a regular study hall. Excel Study Hall is an academic program where students meet in a supportive environment to receive assistance. The Excel Study Hall staff members consult with classroom teachers and parents to help improve each student's achievement in courses. A 0.25 credit is earned per semester for successful participation in this program. Student support in the areas of organizational skills, study skills, and homework completion will be available and structured with each program. Prerequisite: None. Open to grades 9-12 May be repeated

State of Illinois Consumer Education Requirement

Credit: 0.5

There are several ways to satisfy this mandated graduation requirement. Students have the following options:

1. **Consumer Economics**, course #6301, one semester, Business Department course, see page 27.
2. **Economics**, course #2331, one semester, Social Studies Department course, see page 74.
3. **AP Micro Economics**, course #2341, one semester, Social Studies Department course, see page 75.
4. Introduction to Family & Consumer Sciences, course #6400, full year, Family & Consumer Science Department Course, see page 42.
5. **Introduction to Business**, course #6100, full year, Business Department course, see page 26.
6. **Special Education Related Instruction**: enrollment is determined by IEP recommendation.
7. **Consumer Education Online** course, course #9101, one semester. Students who enroll in this online course will do all of their class work through a website supervised by a certified District 86 teacher. This course has the same objectives and examinations as the traditional semester-long Consumer Economics course #6301; the content is very similar. Communication between student and teacher will be primarily through the website and by email. Students who enroll in the online version will be required to attend an orientation session, to meet progress markers along the way, and to complete the course during the semester in which they are enrolled.

Art Department

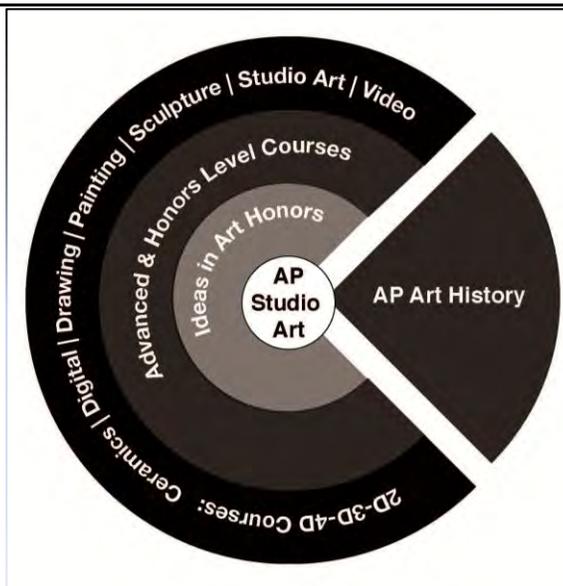

ART

High School District 86 requires the successful completion of two Elective Arts credits. Two fine arts credits fulfill the Illinois state public university entrance requirement in Art, Music or vocation education. The courses offered by the Art Department are designed to develop an appreciation and understanding of art, art production, art history, and creative problem-solving. Student work is displayed throughout the school and community on a continuing basis. Supply fees are required for participation in studio courses.

MISSION STATEMENT

The artistic, intellectual, and personal development of young people, through the visual arts, is the goal of the Hinsdale Central Art Department. We, the art faculty, as mentors, coaches, jurors, and artists, are committed to creating a challenging, authentic, and caring creative environment. We will actively involve students with the visual arts through theory and practice. We will challenge students to develop awareness of excellence and the role of art in human life and human culture.

STUDIO ART <i>Course # 5101, 5102</i> 1st or 2nd semester Credit: 0.5	Students will explore fundamental aspects of design, drawing, painting, jewelry, mixed media, and sculpture. Emphasis will be placed on creativity, craftsmanship, and problem solving. Studio Art is the only course in which introductory students can experiment in a variety of materials. <i>It is highly recommended that students interested in Drawing and Painting start with Studio Art as a foundation.</i> Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$20.00.
DRAWING <i>Course # 5211, 5212</i> 1st or 2nd semester Credit: 0.5	Drawing is a specialized art course that teaches students a variety of strategies to improve his/her ability to draw from life. The course also introduces several drawing tools, including: pastel, charcoal, colored pencils, and pen and ink. A development of individual style and understanding of design will be stressed. Prerequisite: Studio Art is highly recommended. Open to grades 9, 10, 11 and 12. Supply Fee \$20.00.
ADVANCED DRAWING <i>Course # 5221, 5222</i> 1st or 2nd semester Credit: 0.5	Advanced Drawing is a continuation of the themes and techniques started in the Drawing course in which students are asked to develop work which demonstrates mature drawing ability. Students are expected to investigate how drawings can be designed to communicate original ideas to a viewer. Students will be required to work on their drawings beyond classroom time. Prerequisite: 5211 Drawing. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00.

Art Department

<p>ADVANCED DRAWING HONORS OPTION Course # 5223, 5224 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Drawing Honors is a course for the student who draws avidly and enthusiastically and who shows strong motivation and high artistic achievement. Students create a variety of works, including representational, abstract, and mixed media. Critiques, in-depth analysis, and written journal entries accompany these drawings. In addition, craftsmanship, visual coherence, and working with artist intention are emphasized. Consistent, thoughtful class participation is expected of all students. Students are expected to complete an artist journal, private art lessons, and participate in art contests.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester; for more information: http://central.hinsdale86.org/departments/art/Pages/default.aspx Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00.</p>
<p>PAINTING Course # 5311, 5312 1st or 2nd semester Credit: 0.5</p>	<p>Painting is a course that introduces students to the complexities of painting. Knowledge of a variety of painting materials, processes, and techniques is stressed. Acrylics, watercolor and oil are used by students to create meaningful and original works of art.</p> <p>Prerequisite: Studio Art is highly recommended. Open to grades 9, 10, 11 and 12. Supply Fee: \$20.00.</p>
<p>ADVANCED PAINTING Course # 5321, 5322 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Painting is a continuation of the exploration started in Painting. In Advanced Painting, students are able to gain more experience with painting materials introduced in the previous course. Students are expected to demonstrate their painting skill through the creation of a personal series.</p> <p>Prerequisite: 5311. Open to grades 9, 10, 11 and 12. Supply Fee: \$20.00.</p>
<p>ADVANCED PAINTING HONORS OPTION Course # 5323, 5324 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Painting Honors is a course for the student who paints avidly and enthusiastically and who shows strong motivation and high artistic achievement. Students create a variety of works, including representational, abstract, and mixed media. Critiques, in-depth analysis, and written journal entries accompany these paintings. In addition, craftsmanship, visual coherence, and working with artist intention are emphasized. Consistent, thoughtful class participation is expected of all students. Students are expected to complete an artist journal, private art lessons, and participate in art contests.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester; for more information: http://central.hinsdale86.org/departments/art/Pages/default.aspx Open to grades 9, 10, 11 and 12. Supply Fee: \$20.00.</p>
<p>JEWELRY & METAL SMITHING Course # 5351, 5352 1st or 2nd semester Credit: 0.5</p>	<p>This course is for students interested in learning to create jewelry and/or small scale sculptures using metals and other materials. A range of metal fabrication techniques and alternative types of media will be explored. A diverse set of images will be used to explore design concepts to enhance students' visual awareness and problem-solving.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$21.00.</p>
<p>ADVANCED JEWELRY & METAL SMITHING Course # 5361, 5362 1st or 2nd semester Credit: 0.5</p>	<p>This course is a continuation of Jewelry and Metal Smithing but on an advanced level. A wider range of metal fabrication methods and materials will be introduced than in the entry level course. The concept of body adornment and the contribution of jewelry to the enhancement of the body will be addressed and studied. The course will focus on the development of independent thinking and personal expression. This concentration enables students to explore the potential of jewelry as a communication tool.</p> <p>Prerequisite: 5351. Open to grades 9, 10, 11 and 12. Supply Fee: \$21.00.</p>

Art Department

<p>ADVANCED JEWELRY & METAL SMITHING HONORS OPTION <i>Course # 5363, 5364</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Jewelry Honors is a course for the student who designs avidly and enthusiastically and who shows strong motivation and high artistic achievement. Students create a variety of works, including representational, abstract, and mixed media. Critiques, in-depth analysis, and written journal entries accompany these metal pieces. In addition, craftsmanship, visual coherence, and working with artist intention are emphasized. Consistent, thoughtful class participation is expected of all students. Students are expected to complete an artist journal, private art lessons, and participate in art contests.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester; for more information: http://central.hinsdale86.org/departments/art/Pages/default.aspx. Open to grades 9, 10, 11 and 12. Supply Fee: \$21.00.</p>
<p>CERAMICS/CLAY SCULPTURE <i>Course # 5421, 5422</i> 1st or 2nd semester Credit: 0.5</p>	<p>Using clay as an art material will be the focus for this course. The student will create hand-built projects, work on the potter's wheel, and apply glazes. Students will also develop an understanding, appreciation, and sensitivity to clay and its role in history and culture.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00.</p>
<p>ADVANCED CERAMICS <i>Course # 5431, 5432</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Ceramics continues the exploration of clay as a functional and artistic medium. This course will further explore advanced hand building and wheel throwing techniques. Complex projects will challenge the students artistically, as well as technically. The students will spend a majority of the semester working on the potter's wheel and exploring advanced technique. Advanced hand building and glazing techniques will also be covered.</p> <p>Prerequisite: 5421. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00.</p>
<p>ADVANCED CERAMICS HONORS OPTION <i>Course # 5433, 5434</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Jewelry Honors is a course for the student who designs avidly and enthusiastically and who shows strong motivation and high artistic achievement. Students create a variety of works, including representational, abstract, and mixed media. Critiques, in-depth analysis, and written journal entries accompany these metal pieces. In addition, craftsmanship, visual coherence, and working with artist intention are emphasized. Consistent, thoughtful class participation is expected of all students. Students are expected to complete an artist journal, private art lessons, and participate in art contests.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester; for more information: http://central.hinsdale86.org/departments/art/Pages/default.aspx. Open to grades 9, 10, 11 and 12. Supply Fee \$17.00.</p>
<p>SCULPTURE <i>Course #5441, 5442</i> 1st or 2nd semester Credit: 0.5</p>	<p>In this studio course, students will explore and develop three dimensional designs. Wood, clay, plaster, metals and found objects, are some of the materials that will be used. Emphasis will be placed on the examination of contemporary and historical roles of sculpture in society.</p> <p>Prerequisite: One semester of Art. Open to grades 9, 10, 11 and 12. Supply Fee \$17.00.</p>
<p>DIGITAL IMAGING 1 <i>Course # 5121, 5122</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed for students who want to create art on the computer. Artistic and creative problem solving strategies are developed which can help students in all areas of learning. Students take their own digital photographs. Each student will use these images to create original works of art using the software Adobe Photoshop CS5. Students will create a cartoon in Adobe Illustrator CS5 and a digital portfolio is created on a web interface.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12. Supply Fee \$17.00</p>
<p>DIGITAL IMAGING 2 <i>Course # 5132, 5132</i> 2nd semester Credit: 0.5</p>	<p>Digital Imaging 2, a continuation of Digital Imaging 1, further explores the artistic potential of the computer and creative problem solving strategies. Students will increase their artistic knowledge and skills while working on independent project ideas based on his/her theme in art. Artistic research and planning are integral. Traditional art materials will be blended into computer art, as students are encourages to think outside the "digital box." Students take their own digital photographs and use these images to create original works of art. Working knowledge of Adobe Photoshop CS5, Adobe Illustrator CS5, and Adobe Flash, will be utilized. Students will continue to update their web portfolio.</p> <p>Prerequisite: Digital Imaging 1: Open to grades 9, 10, 11, and 12. Supply Fee: \$17.00</p>

Art Department

<p>DIGITAL IMAGING 3: ADVERTISING & ILLUSTRATION <i>Course # 5331, 5332</i> 1st or 2nd semester Credit: 0.5</p>	<p>Digital Imaging 3 is a graphic design advertising art class. Students interested in a career in Graphic Design, learn the essential skills of design as it relates to advertising. The computer is used as a tool to create and solve real world design problems. Traditional illustration or drawing techniques will also be explored. Design principles have been introduced and learned, through a series of small projects. Afterwards, the course will be run like an advertising design business with a client/designer relationship underlying major projects. Working knowledge of Adobe Photoshop CS3, Adobe Illustrator CS3, and Adobe InDesign will be needed.</p> <p>Prerequisite: Digital Imaging 1: Open to grades 9, 10, 11, and 12. Supply Fee: \$17.00</p>
<p>DIGITAL IMAGING 3: ADVERTISING & ILLUSTRATION HONORS OPTION <i>Course # 5335, 5336</i> 1st or 2nd semester Credit: 0.5</p>	<p>Digital Imaging 3 Honors is a course for the student who creates avidly and enthusiastically and who shows strong motivation and high artistic achievement. Students create a variety of works, including representational, abstract, and mixed media. Critiques, in-depth analysis, and written journal entries accompany these ceramics works. In addition, craftsmanship, visual coherence, and working with artist intention are emphasized. Consistent, thoughtful class participation is expected of all students. Students are expected to complete an artist journal, private art lessons, and participate in art contests.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester; for more information: http://central.hinsdale86.org/departments/art/Pages/default.aspx. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00.</p>
<p>DIGITAL VIDEO ART <i>Course # 5475, 5476</i> 1st or 2nd semester Credit: 0.5</p>	<p>Digital Video Art introduces students to the timely art of video as a medium of artistic expression. Using digital video technologies, students will combine moving images, still images, graphics and sound. Experimentation in film and audio as an artistic medium is encouraged. Through directing, producing, editing, sound design, cinematography and screenwriting students will create their short films. Students will look for relationships between imagery, music and sound through historical film examples. The Digital Video Art course will develop creative, collaborative teams of students to expand their visual literacy and time art skills. Digital technology will incorporate pre- production, production filming, and post- production editing for the creation of the short films. Final Cut is used for post - production. Students will be encouraged to enter national and regional film festivals. Digital Video Art films are assessed on the Art Department's visual art standards, which align with state and national visual art standards.</p> <p>Prerequisite: None, but Digital Imaging is recommended. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00.</p>
<p>IDEAS IN ART HONORS <i>Course # 5473, 5474</i> 1st or 2nd semester Credit: 0.5 (may be repeated twice)</p>	<p>Students will create a body of artwork based on a personal exploration of a central theme or idea. This body of work represents the results of rigorous research, planning and problem-solving. Each student is required to create a reference manual that combines multiple explorations of a variety of media. The work produced in this course may be used as part of the Advanced Placement Art Portfolio.</p> <p>Prerequisite: Advanced level course, portfolio review with departmental approval. Open to grades 11 and 12. Supply Fee: \$20.00.</p>
<p>ADVANCED PLACEMENT ART HISTORY <i>Course # 5440</i> Full Year Credit: 1.0</p>	<p>This course provides a survey of the history of art. It is designed to prepare students to take the Advanced Placement examination. Methods of analyzing and evaluating works of art will be introduced. Students enrolling in this course are expected to have well developed writing skills and an interest in art and culture.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>

Art Department

<p>ADVANCED PLACEMENT STUDIO ART <i>Course # 5450</i> Full year Credit: 1.0</p>	<p>The AP program offers three portfolios: Drawing (painting, printmaking, drawing), 2-D Design (photography, graphic design, product design), and 3-D Design (jewelry, ceramics, sculpture).</p> <p>This course provides accelerated students with a challenging program of college-level studio work. Prior to the end of the academic year, a portfolio of approximately 44-46 pieces will be submitted to the College Board for evaluation and possible college credit. The AP Program offers three portfolios: Drawing (painting, printmaking, drawing), 2-D Design (photography, graphic design, product design), and 3-D Design (jewelry, ceramics, sculpture). This advanced placement program requires more time and commitment than typical high school art courses. Therefore, the students enrolling in the course should be highly motivated, serious, self-directed and willing to work. The Ideas in Art course is highly recommended for students considering this course. <u>Students interested in this course need to submit a portfolio of eight pieces to the Art office before first semester final exams.</u></p> <p>Prerequisite: Portfolio review and Departmental approval. Open to grades 11 and 12. Supply Fee: \$40.00 (excludes series materials).</p>

Business courses can fulfill 1 credit for the District 86 graduation requirement in the Elective Arts. Business courses can also be taken for general/elective credit. The 0.5 consumer education graduation requirement may be met by successful completion of the department’s Consumer Economics course or Introduction to Business.

Business Department courses are electives; however, with the increase in reliance on technology in our society, the department strongly recommends that all students include computer courses in their high-school studies (i.e., Digital Communication Tools 1 & 2, Digital Tools and Applications, Advanced Computer Applications).

Students who are contemplating a Business major in college should select one or more Business electives. Because of the difficulty of college-level Accounting, students are urged to take an Accounting course at Hinsdale Central.

	Full-year Courses	Semester Courses

Computer Courses	
<p>DIGITAL COMMUNICATION TOOLS 1 <i>Course # 6121, 6122</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course enables students to acquire and refine vital and emerging computer skills in this digital age. Students will develop keyboarding skills using the touch method, and be introduced to some of the latest input technologies, including speech recognition software and using table PC's. Constructing, formatting and editing documents using Microsoft Word, Excel, and PowerPoint will be the focus of production work in this course. Internet applications and email will also be taught and utilized during class projects. (Credit is NOT given for both Digital Communications Tools 1 and Digital Tools and Applications.)</p> <p>Prerequisite: None. Next course in sequence: Digital Communication Tools 2. Open to grades 9, 10, 11 and 12</p>
<p>DIGITAL TOOLS AND APPLICATIONS <i>Course # 6130</i> Full year Credit: 1.0</p>	<p>This course enables students to acquire and refine vital and emerging computer skills in this digital age. Students will develop keyboarding skills using the touch method, and be introduced to some of the latest input technologies, including speech recognition software and using tablet PC's. Constructing, formatting and editing of documents using basic and more advanced features of Microsoft Word, Excel, and PowerPoint will be the focus of production work in this course. Desktop Publishing, database, and web page development will also be introduced. Internet applications and email will also be taught and utilized during class projects. This year long course will take your computer skills to new heights, enabling you to integrate technology in a variety of ways in projects for other classes. [Credit is NOT given for both Digital Communication Tools 1 and 2 and Digital Tools and Applications.]</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12.</p>
<p>DIGITAL COMMUNICATION TOOLS 2 <i>Course # 6331, 6332</i> 1st or 2nd semester Credit: 0.5</p>	<p>Continue to develop computer skills in this course as more advanced features are taught in word processing, spreadsheets and charts, and digital presentations. Desktop publishing, database and web page development will also be introduced. Constructing, formatting and editing of documents using Microsoft Word, Excel, Power Point, Publisher, and Access will continue to be the focus of production work in this course along with Adobe Dreamweaver, which will be used to create web pages. Internet Applications and Web 2.0 tools will also be utilized during class projects, and students will continue to work with some of the latest input technologies such as speech recognition software.</p> <p>Prerequisite: None, however, Digital Communication Tools 1 is recommended. Proper keyboarding technique and speed, along with document development, formatting, and proofreading skills are expected. Open to grades 9, 10, 11, and 12.</p>
<p>VISUAL BASIC PROGRAMMING <i>Course # 6351, 6352</i> 1st or 2nd semester Credit: 0.5</p>	<p>Do you have a desire to take your computer skills to a new level? If so, then Visual Basic may be the course for you. Learn how to create applications in a graphical user interface to solve business problems. Microsoft's Visual Basic simplifies many routine programming tasks by providing tools that allow you to create applications for the Windows operating system. A variety of stand-alone and Microsoft Office-related applications will be developed.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
Business Courses	
<p>INTRODUCTION TO BUSINESS <i>Course # 6100</i> Full year Credit: 1.0 (0.5 Elective Arts/0.5 Consumer Ed. - Must complete the entire year to receive Consumer Ed. credit)</p>	<p>This course gives students a background in the basic operations of business and develops an understanding of the economic role of business in our society. Major areas of study include banking, credit, insurance, budgeting, consumer protection, government, entrepreneurship and taxes. Skill is developed through a wide variety of activities including computer research, projects, and classroom activities. Successful completion of this course fulfills the District's Consumer Education requirement for graduation.</p> <p>Prerequisite: None. Open to grades 9 and 10.</p>

Business Department

Business Courses	
INVESTMENT PLANNING <i>Course # 6111, 6112</i> 1st or 2nd semester Credit: 0.5	In this course students will study basic investment principles involving stocks, commodities, bonds and mutual funds. Students will also learn about tax information, effects of the economy on the market, government regulations of securities and on-line investing. Current issues as they relate to investing will be discussed. Teams will be formed to participate in the Stock Market Game by trading on-line. Prerequisite: None. Open to grades 10, 11 and 12.
ACCOUNTING <i>Course # 6170</i> Full year Credit: 1.0	This course develops a basic understanding of double-entry accounting. The accounting cycle, accounting theory, financial reports and financial analysis are included. Accounting simulation sets, Excel spreadsheets and automated accounting software are used to apply all accounting concepts. This course is recommended for college-bound students planning a career in accounting, finance, management or marketing. Prerequisite: None. Open to grades 11 and 12.
ACCOUNTING HONORS <i>Course # 6180</i> Full year Credit: 1.0	Accounting Honors will prepare students for the rigor of college accounting. Students will develop an understanding of double-entry accounting. Topics covered include the following: accounting cycle, accounting systems, internal controls, journals, receivables and payables, accruals and deferrals, inventory, fixed assets and depreciation, financial statement preparation and analysis, and taxes. A computerized accounting program will also be utilized, as well as the Excel spreadsheet program. The core material for this course is similar to Accounting 6170; however, more topics are covered, the pace is accelerated and expectations are higher. This course is highly recommended for motivated students planning to enter a college business program. Prerequisite: Department Chair approval. Open to grades 11 and 12.
MARKETING <i>Course # 6181, 6182</i> 1st or 2nd semester Credit: 0.5	This course focuses on the activities necessary to market products, services, and ideas to consumers. Major topics include market segmentation, consumer behavior, marketing research, product planning, and advertising. Students will apply marketing concepts learned in class by researching, creating and advertising new products. Prerequisite: None. Open to grades 10, 11 and 12.
SPORTS MARKETING <i>Course # 6183, 6184</i> 1st or 2nd semester Credit: 0.5	This intermediate marketing course will introduce students to the exciting field of sports marketing and its role in society. Students will develop a thorough understanding of the marketing concepts and theories that apply to sports and sporting events. The areas this course will cover include sponsorships, endorsements, licensing, event marketing and sports marketing plans. Students will plan, create, and assess sports marketing communication programs that include advertising, marketing, public relations and news media. Emerging issues in sports marketing will also be discussed. Prerequisite: Marketing Open to grades 10, 11 and 12
BUSINESS LAW 1 <i>Course # 6231, 6232</i> 1st or 2nd semester Credit: 0.5	This course introduces students to the legal system and the law as it applies to personal and business situations which may occur in their daily lives. It also examines the court system, torts, crimes, technology and the law, contracts, family law, wills and estates. Key elements of this course are case studies, mock trials and a field trip to the courts and jails. Prerequisite: None. Next course in sequence: Business Law 2. Open to grades 11 and 12

Business Courses	
<p>BUSINESS LAW 1 HONORS OPTION <i>Course # 6234, 6235</i> 1st or 2nd semester Credit: 0.5</p>	<p>The core material for this course is similar to Business Law 1 course 6231; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college business program.</p> <p>Prerequisite: Department Chair Approval. Next course in sequence: Business Law 2. Open to grades 11 and 12</p>
<p>BUSINESS LAW 2 <i>Course # 6232</i> 2nd semester only Credit: 0.5</p>	<p>The core material for this course is similar to Business Law 2 course 6232; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college business program.</p> <p>Prerequisite: Department Chair Approval. Open to grades 11 and 12</p>
<p>BUSINESS LAW 2 HONORS OPTION <i>Course # 6236</i> 2nd semester only Credit: 0.5</p>	<p>This course examines the criminal justice system, the Supreme Court, bailments and real estate transactions, ethics and employment policies and contracts. Group discussions, case studies, guest speakers and a field trip will be utilized to present and examine these concepts. To develop a better understanding of the legal system, students will participate in a mock trial tournament throughout the semester.</p> <p>Prerequisite: Business Law 1 or Business Law 1 Honors. Open to grades 11 and 12.</p>
<p>ENTREPRENEURSHIP <i>Course # 6241, 6242</i> 1st or 2nd semester Credit: 0.5</p>	<p>Do you have an interest in owning or running a business some day? This course will help you develop that entrepreneurial spirit and the skills necessary to be successful in your new business. Topics of study include the entrepreneurial personality and skills; marketing, financing and managing a business; legal requirements of a business; and career opportunities in entrepreneurship. Students will develop an idea and create a business plan.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>CONSUMER ECONOMICS <i>Course # 6301, 6302</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course helps students to understand the consumer's role in a mixed economy. Students will learn about various topics that they will use their entire life. Topics of study include: money management, consumer rights and responsibilities, credit, purchasing of goods and services, making sound investment plans and preparing individual tax returns. Successful completion of this course fulfills the District's Consumer Education requirement for graduation. (An on-line version of this course is available. See page 15 for details.)</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>INTERNSHIP <i>Course # 8401, 8402</i> 1st or 2nd semester Credit: 0.5 general credit only— not Elective Arts credit</p>	<p>This program is designed to provide students with an opportunity for career exploration in a field of their choice. Students will work with a mentor outside of the school day for 50-75 hours in their career field. Due to time constraints, it is suggested that students have their own placements, however, if assistance is needed finding a placement, students should contact an internship coordinator. Students will be expected to keep a detailed journal, write a reflection paper and discuss their experiences with a related class.</p> <p>Prerequisite: None. Open to grades 11 and 12 upon acceptance after interview.</p>
<p>INTERNSHIP HONORS <i>Course # 8403, 8404</i> 1st or 2nd semester Credit: 0.5 general credit only – no Elective Arts credit</p>	<p>The core material for this course is similar to Internship course 8401/8402; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time. This course is highly recommended for motivated students giving serious consideration to a specific career.</p> <p>Prerequisite: Department Chair approval. Open to grades 11 and 12 upon acceptance after interview.</p>

Driver Education

Rahul Sawlani

DRIVER EDUCATION

Course # 7461, 7462

1st or 2nd semester

Credit: 0.25

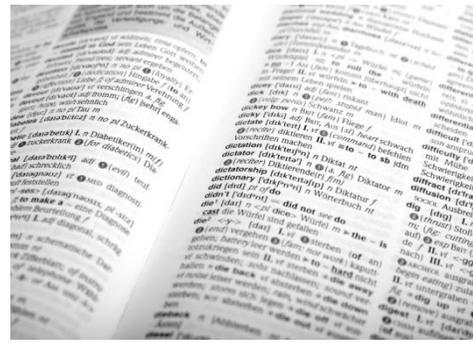

Classroom Driver Education, though an elective course, is required in order to obtain a state driver's license prior to the age of 18. Driver Education will follow state mandates on the number of hours of classroom instruction and in-car training. Student schedules must allow for one period per day during one semester in order to complete course requirements. Coordinator: Pat Richards

Due to recent changes in Driver Education laws by the State of Illinois, our school may not be able to honor all requests by students to enroll in Driver Education. Freshman and Sophomore students will be enrolled according to birthdates.

Students enrolled in Driver Education will receive two grades at the end of the semester: one for the classroom phase, and one for the behind-the-wheel phase. Upon successful completion of the Driver Education Cooperative Testing program, students will be eligible for their license without need for further examination by the Illinois Secretary of State Office. **\$20.00 Permit fee required by State. \$350.00 Course fee.**

As a prerequisite, students enrolling in Driver Education must be passing eight semester classes within the two most recent semesters of attendance. Only classes used to determine a student's GPA will be allowed to meet this requirement.

ENGLISH

English Department

High School District 86 requires the successful completion of a minimum of four English credits for graduation. In addition, all students who are enrolled in school must be enrolled in an English course **each semester**. The four credits in English must be taken and passed sequentially and include full year courses freshman and sophomore years and full or half-year courses junior and senior years. Junior and senior students must take core English courses in the following areas: semester courses in writing, literature and communication, or full year courses in literature/writing. Only one communication course taken junior or senior year will count toward the core requirement. There are enrichment courses open to all grade levels.

VISION STATEMENT

The skills and knowledge of English/language arts are essential for student success in virtually all areas of the curriculum and society. To meet the challenges of the 21st Century and beyond, students need to be clear and effective writers and speakers, critical and insightful readers, skilled information processors, and life-long independent and collaborative learners. With the guidance of parents, community, and a dedicated English faculty, our students will graduate from Hinsdale Central as valuable contributors to the world in which we live.

MISSION STATEMENT

The mission of the English Department is to develop in each of our students the following academic attributes: an understanding and appreciation of literature; a proficiency and confidence in writing; the ability to understand communication clearly through active listening, critical observation, and analysis; creativity and imagination in the areas of reading, writing, and speaking; and an appreciation of various cultural and human perspectives through the study and discussion of literature.

** This course satisfies the ISBE graduation requirement for “intensive writing”

English Department

<p>ESL-ENGLISH 1A Course # 1050 Full year Credit: 1.0</p>	<p>This course is designed for the English Language Learner (ELL) who is new to the United States and whose English proficiency is emerging and developing. The course focuses on teaching basic communication and study skills in order for the ELL to be successful at Hinsdale Central High School. Listening, speaking, reading and writing skills will be taught in order to help the ELL in mainstream classes succeed academically and complement the ESL-English 1B curriculum. In addition, the course will provide activities to include students in the American culture.</p> <p>Prerequisite: English Language Learner Program (ELL) director and English Department Chair approval. Open to grades 9, 10, 11 and 12.</p>
<p>ESL-ENGLISH 1B Course # 1030 Full year Credit: 1.0</p>	<p>This course continues the work started in ESL-English 1A by developing emerging and beginner listening, speaking, reading and writing strategies and skills in standard American English to the English Language Learner (ELL). This course will parallel the goals and skills of English 1. In addition, the course will continue to build student communication skills and self-advocacy skills in standard American English to aid in mainstream academic success.</p> <p>Prerequisite: English Language Learner Program (ELL) director and English Department Chair approval. Open to grades 9, 10, 11 and 12.</p>
<p>ESL-ENGLISH 2 Course # 1040 Full year Credit: 1.0</p>	<p>The goal of ESL-English 2 is to prepare the intermediate level English Language Learner (ELL) to transition successfully into the mainstream English class. The course will continue to develop skills and strategies in listening, speaking, reading and writing of standard American English while focusing on how the strategies can be used in mainstream academic success. Course materials will parallel the goals and skills of the English 2 program. This course reinforces self-advocacy skills to promote mainstream academic success for the transitioning English Language Learner.</p> <p>Prerequisite: English Language Learner Program (ELL) director and English Department Chair approval. Open to grades 9, 10, 11 and 12.</p>
<p>ENGLISH 1 Course # 1110 Full year Credit: 1.0</p>	<p>English 1 incorporates instruction in many areas including literature, writing, speaking, research, vocabulary, and grammar. The literature includes nonfiction, short story, drama, poetry, and novels. Writing instruction includes summary, paraphrase, argument, analysis, and synthesis. Research skills – topic generation, source identification, evaluation, and attribution – are taught in conjunction with the library staff. Regular active class participation is essential. The goal of the course is to develop competent learners, thoughtful readers, enthusiastic writers, and effective oral communicators. This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: Incoming freshman eligibility is based on multiple sources of information, including EXPLORE scores and recommendation of 8th grade instructor. Open to grade 9.</p>
<p>ENGLISH 1 HONORS Course # 1120 Full year Credit: 1.0</p>	<p>English 1 Honors is a course for the student who reads avidly and enthusiastically and who shows strong motivation and high academic achievement. Students read a variety of literature, including fiction, nonfiction, classical and contemporary drama, short stories and poetry. Discussion, in-depth analysis, and written assignments accompany these readings. In addition, the expository writing process and grammar usage are emphasized. Speeches and group performances are required. Consistent, thoughtful class participation is expected of all students. This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: Incoming freshman eligibility is based on multiple sources of information, including EXPLORE scores and recommendation of 8th grade instructor. Open to grade 9.</p>

English Department

<p>ENGLISH 2 Course # 1210 Full year Credit: 1.0</p>	<p>English 2 covers the areas of literature, writing, vocabulary, grammar, and speech. Through literature, selected plays, poetry, and novels, students will learn to analyze and appreciate literature. In the area of writing, an emphasis is placed on multi-paragraph essays. Grammar and vocabulary will be covered throughout the year in conjunction with writing and literature. Public speaking will be practiced. Consistent class participation is imperative. This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: English 1. Open to grade 10.</p>
<p>ENGLISH 2 - HONORS Course # 1220 Full year Credit: 1.0</p>	<p>Challenging reading and writing assignments form the foundation of the English 2 Honors curriculum. Geared towards students who show strong motivation and high academic achievement, the class helps students develop critical thinking patterns and effective oral and written communication skills. Students are expected to work on long-range assignments and to be consistently active in class discussions. Research fundamentals—topic generation, source evaluation and attribution—are taught in conjunction with the library staff. Active class participation, in the form of peer editing, small group work and partner projects as well as class discussion, is expected of all students. This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: English 1 or English 1 Honors and Department Chair approval. Open to grade 10.</p>
<p>CORE WRITING COURSES</p>	
<p>COMPOSITION 2 Course # 1313, 1314 1st or 2nd semester Credit: 0.5</p>	<p>This college-prep course is designed for students who wish to improve writing skills for the heavier demands of college coursework. This course includes a review of the multi-paragraph essay and instruction in developing and elaborating on ideas in writing. Students will learn to build arguments in response to texts they read in class. Students will also review punctuation, sentence structure, mechanics, and grammar as needed.</p> <p>Prerequisite: U.S. Literature and Composition or Department Chair Approval. Open to Grade 12.</p>
<p>EXPOSITORY WRITING Course # 1321, 1322 1st or 2nd semester Credit: 0.5</p>	<p>Harness the power of the written word! By studying classic and contemporary essays, students learn to implement a variety of writing techniques to craft original essays that are related as much as possible to the students’ own interests and life experiences. Students are challenged to expand their conception of essay form and development. Basic grammar and style will be reinforced in order to help students write clearly. Students will also learn to construct a detailed research paper through careful topic selection, rigorous information collection using the school’s library databases, and effective organization and appropriate formatting of the finished paper. This is an accelerated course with an emphasis on close reading and analytic, purposeful writing; students completing this course will have the option, with teacher recommendation, of taking AP Literature or AP Language during their senior years. Students must write a research paper in order to earn credit for the course.</p> <p>Prerequisite: English 2. Open to grades 11 and 12.</p>

English Department

<p>RHETORIC <i>Course # 1351, 1352</i> 1st or 2nd semester Credit: 0.5</p>	<p>In today’s complex world, clear communication is imperative. This course draws on the traditional study of rhetoric—in terms of the persuasive appeals, purpose, and audience—to lay the groundwork for solid, thoughtful, and effective written communication. The class helps students develop into clear, incisive thinkers who can write confidently in various situations for various purposes. Rhetoric also focuses on building research skills to ensure that students are well-versed in finding, evaluating, and synthesizing multiple sources of information. Students will hone their writing skills in order to discover, explain, question, and justify stances on controversial issues in our contemporary world. Students must write a research paper in order to earn credit for the course.</p> <p>Prerequisite: Expository Writing or English 3. Open to grade 12.</p>
<p>HONORS SEMINAR IN WRITING <i>Course # 1355</i> Full year Credit: 1.0</p>	<p>Honors Seminar in Writing is a class for the intellectually curious who value the power of the written word and are eager to become more sophisticated writers. This year-long course is especially designed for those who have been grabbed by the rhetorical nature of AP Language and Composition and are interested in analyzing stylistic elements in professional and personal writing. Students will read texts that are challenging and nuanced and, in their writing, explore real-world complexities through primary and secondary research. The members of this course are committed to crafting and revising their own nonfiction essays, with the intention of publication. Join this small community of students who appreciate the art of writing.</p> <p>Prerequisite: Expository Writing, AP Language and Composition, or English 3 and Department Chair approval. Open to grade 12.</p>
<p>CORE LITERATURE COURSES</p>	
<p>AMERICAN LITERATURE <i>Course # 1561, 1562</i> 1st or 2nd semester Credit: 0.5</p>	<p>“I hear America singing, the varied carols I hear...” So wrote Walt Whitman in his famous poem, “I Hear America Singing.” Over the course of the semester, students will study the “varied carols” in American Literature in order to learn about our country and, ultimately, themselves. Students will read and analyze works from diverse authors, genres, themes, and styles as they explore how literature links us to our historical and cultural heritage. As they sample literature from the American Enlightenment (1776) to the present, they will see how literature is a reflection of a changing American society. This is an accelerated course with numerous challenging fiction and nonfiction texts and an emphasis on close reading and analytic, purposeful writing; students completing this course will have the option, with teacher recommendation, of taking AP Literature or AP Language during their senior year. Class participation is imperative so that students can exchange ideas and interpretations of the literature.</p> <p>Prerequisite: English 2. Open to grade 11.</p>
<p>SENIOR LITERATURE <i>Course # 1491, 1492</i> 1st or 2nd semester Credit: 0.5</p>	<p>Powerful stories affect us in profound ways, inspiring us, challenging us, deepening our human experience. The fundamental approach to Senior Literature is to aid students in fostering a love of reading by encouraging strong emotional connections with powerful stories, while emphasizing reading skills and literary analysis. Students in this course study the ways storytellers use their art to make us feel and think more deeply. This is a moderately paced course designed for the senior student who has taken U.S. Literature as a junior. Students encounter many exciting types of texts, including both traditional forms of fiction and drama, as well as graphic novels, films, and nonfiction texts. Group discussion is emphasized, but students also write essays, take tests, and give oral presentations about these texts.</p> <p>Prerequisite: United States Literature. Open to grade 12.</p>

English Department

<p>WORLD LITERATURE <i>Course # 1541, 1542</i> 1st or 2nd semester Credit: 0.5</p>	<p>This college preparatory course for the average and above average reader will afford students the opportunity to gain a better understanding of and appreciation for various cultures from around the world. Through an array of compelling—and mostly contemporary—works, students will be challenged to grapple with universal problems and themes. Common assessments include essays and other writing assignments, discussion, quizzes/tests, oral presentations, and projects.</p> <p>Prerequisite: None. Open to grade 12.</p>
<p>BRITISH LITERATURE 1 <i>Course # 1581, 1582</i> 1st or 2nd semester Credit: 0.5</p>	<p>Human tragedy, genuine emotion, realistic, flawed characters, and outrageous jokes—all reasons that we still read the works of Shakespeare. British Literature I offers students the opportunity to discover the genius of Shakespeare’s plays. This course explores the comedies, tragedies, and histories of the most famous playwright of the English language. Emphasis is placed on the memorable characters, riveting plots, and universal themes present in some of Shakespeare’s most popular plays. Evaluation is based on discussion, quizzes, essays, tests, and, of course, performance.</p> <p>Prerequisite: None. Open to grade 12.</p>
<p>BRITISH LITERATURE 2 <i>Course # 1591, 1592</i> 1st or 2nd semester Credit: 0.5</p>	<p>This college preparatory course for the average and above average reader focuses on the role of literature in Ireland’s rich, violent, and tumultuous past. Students will read and discuss contemporary and historical issues in Ireland and, by extension, Great Britain through books, plays, short stories, newspaper articles, and films. The issues of oppression, resistance, and desire for freedom will be at the heart of this course. Evaluation is based on discussions of the readings, written activities, presentations, and tests/quizzes.</p> <p>Prerequisite: None. Open to grade 12.</p>
<p>CORE LITERATURE/WRITING COURSES</p>	
<p>ENGLISH 3 <i>Course # 1320</i> Full year Credit: 1.0</p>	<p>Take a personal journey through the American Dream in English 3. In this course we will explore some of the most popular and enduring works of American literature, focusing on what makes Americans unique. Students will have the opportunity to improve their writing through ACT style prompts, dealing with both personal perspective and literary analysis, as well as the “college essay.” English 3 students will also explore personal interests and improve their research and writing skills through the I-Search paper. The course includes formal presentations and/or performances.</p> <p>Prerequisite: English 2. Open to grade 11.</p>
<p>AMERICAN STUDIES <i>Course # 1550</i> Full year Credits: 1.0 English, 1.0 Social Studies</p>	<p>American Studies surveys America’s past through the use of nonfiction texts, novels, films, visual arts, music, news sources, and primary source documents. The curriculum integrates history and literature by examining American texts through rhetoric, analysis, thematic connection, and inquiry. Students will find a challenging educational environment that incorporates a variety of methodologies including current event discussions, media presentations, and field trips. The course meets for two back-to-back periods and is team taught in a larger setting. Teachers plan, instruct, and evaluate student work together. This is an accelerated course with numerous challenging fiction and nonfiction texts and an emphasis on close reading and analytic, purposeful writing. Students completing this course will have the option, with teacher recommendation, of taking AP Literature or AP Language during their senior year.</p> <p>Prerequisite: English 2. Open to grade 11.</p>

English Department

<p>U.S. LITERATURE AND COMPOSITION <i>Course # 1300</i> Full year Credit: 1.0</p>	<p>This course is designed for the student who may need more support in writing and reading. This college-prep course focuses on developing reading skills for understanding fiction, nonfiction, and poetry. Students are required to be productive and engaged participants in daily class activities, such as the practice of specific reading strategies, discussion, and written responses. For writing instruction, emphasis is placed on basic writing topics such as thesis statements, organizational patterns, paragraph development, and sentence correctness. Students must write a research paper in order to earn credit for the course. Homework reading and writing are required.</p> <p>Prerequisite: English 2. Open to grade 11.</p>
<p>ADVANCED PLACEMENT LANGUAGE AND COMPOSITION <i>Course # 1730</i> Full year Credit: 1.0</p>	<p>According to the College Board, an Advanced Placement Course in English Language and Composition is designed for talented, imaginative students, who read with finesse and write with clarity and style; who are curious and responsive to academic risk-taking; and who are not deterred by hard work. In this college-level writing course, students develop the ability to analyze the rhetorical features of texts, speeches, and visuals as well as to produce their own writing—both analytical and argumentative—on a variety of subjects. In addition to in-class and shorter out-of-class writing assignments, students will also learn how to access, evaluate and cite primary and secondary sources so that they can develop writings of extended length. This course assumes that students understand and capably use standard English grammar and prepares students for the Advanced Placement Exam in Language and Composition.</p> <p>Prerequisite: English 2 Honors or Department Chair approval. Open to grade 11.</p>
<p>ADVANCED PLACEMENT LITERATURE AND COMPOSITION <i>Course # 1731</i> Full year Credit: 1.0</p>	<p>This Advanced Placement Literature and Composition course is designed as an intensive study of literature drawn from multiple genres, time periods, and cultures, including but not limited to such authors as Shakespeare, Paton, Atwood, Fitzgerald, and Conrad. Students will read poetry, drama, novels, and short fiction deliberately and thoroughly, participating orally and in writing in close textual analysis. Independent, outside reading will be expected. Assignments include in-class essays, research projects, memorizations, oral presentations, and analytical writings. Students are responsible for participating actively and taking the lead in class discussions of the literature they read. This course prepares students for the Advanced Placement Exam in Literature and Composition.</p> <p>Prerequisite: AP Language and Composition or Department Chair approval. Open to grade 12.</p>
<p>CORE COMMUNICATION COURSES</p>	
<p>SPEECH/COMMUNICATION <i>Course # 1411, 1412</i> 1st or 2nd semester Credit: 0.5</p>	<p>Effective communication is the key to success in all aspects of life. This course helps students become effective communicators in everyday, person-to-person relationships. The course teaches listening skills and the ability to give and receive tactful and constructive criticism and includes instruction in research and visual presentation. Students must be involved daily in class discussion. At the completion of this course, each student should feel confident in choosing an appropriate topic, preparing written notes and outlines, and delivering a 3-5 minute speech with a strong introduction, body, and conclusion.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>

English Department

CORE COMMUNICATION COURSES, continued	
<p>DISCUSSION AND DEBATE Course # 1441, 1442 1st or 2nd semester Credit: 0.5</p>	<p>Listening, leadership, courtesy, topic analysis, research, evaluation of sources and databases, articulation, and confidence—these are the lifelong skills fostered in Discussion and Debate. This course helps students learn to access a range of informational sources available at the Hinsdale Central library in order to build arguments about contemporary topics used in debates. Students will participate in formal and informal class discussions, a simulated town meeting, a group discussion panel, debates, current event speeches, and a role play of an individual’s life after reading a biography or autobiography. Reading, writing, researching, and active participation are all major components of this course. Because multiple performances will be required during the semester, students should already have a familiarity with and a sense of confidence about public speaking. By the end of the semester, students should feel a sense of mastery at organizing, working cooperatively with others, researching, preparing for, and delivering public performances.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
ENRICHMENT COURSES	
<p>ACADEMIC READING Course # 1100 Full year Credit: 1.0</p>	<p>Academic Reading is designed for ninth grade students whose standardized test scores demonstrate that they would benefit from direct instruction in reading and vocabulary strategies. Students will be assessed in several skill areas throughout the year to track their growth. The curriculum is comprised of units that address skills that “good readers” internalize including determining main and supporting ideas, developing a variety of vocabulary strategies, and building fluency. To build reading skills, core textbook material will be supplemented with texts from students’ social studies and science classes. Finally, students will engage in daily sustained silent reading of self-selected material. Academic Reading students are simultaneously enrolled in this course and English 1.</p> <p>Prerequisite: Department Chair approval. Open to grade 9.</p>
<p>ACADEMIC READING - ENGLISH 2 Course # 1102 Full year Credit: 1.0</p>	<p>Academic Reading – English 2 is designed for tenth grade students who were identified during their freshman year as likely to benefit from direct reading and writing instruction and supplemental in-school language arts instruction and support. Guided by multiple diagnostic assessments and a review of student data, teachers will target specific student needs while utilizing engaging, purposeful, research-based practices. Student progress is monitored regularly to ensure that students are receiving the best instruction for their specific needs. Academic Reading – English 2 students are simultaneously enrolled in this course and English 2.</p> <p>Prerequisite: Department Chair approval. Open to grade 10.</p>
<p>ACADEMIC READING – ENGLISH 3 Course # 1103 Full year Credit: 1.0</p>	<p>Academic Reading – U.S. Literature and Composition is designed for eleventh grade students who were identified during their freshman year as likely to benefit from direct reading and writing instruction and supplemental in-school language arts instruction and support. Guided by multiple diagnostic assessments and a review of student data, teachers will target specific student needs while utilizing engaging, purposeful, research-based practices. Student progress is monitored regularly to ensure that students are receiving the best instruction for their specific needs. Academic Reading - U.S. Literature and Composition students are simultaneously enrolled in this course and U.S. Literature and Composition.</p> <p>Prerequisite: Department Chair approval. Open to grade 11.</p>

<p>SELECTED THEMES IN LITERATURE – Dystopian Literature: Stories Of “What If?” <i>Course # 1521, 1522</i> 1st or 2nd semester Credit: 0.5</p>	<p>Course Description: Were you psyched to discover District 13 survived? Have you ever wondered what it would be like to take Soma? Would you be willing to set yourself on fire to save books? If you’ve loved books about the not-so-bright future, this is the class for you. This course will cover dystopian literature and film, emphasizing themes dealing with the imagination of better worlds and worse worlds. Because utopian/dystopian literature expresses what an author sees as possible, hopes is possible, and fears is possible, readers must engage in social and political critiques. We will explore the causes and likelihood of four central dystopian types as presented in literature and film: the political, the philosophical/religious, the environmental, and the corporate.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>FILM STUDIES <i>Course # 1641, 1642</i> 1st or 2nd semester Credit: 0.5</p>	<p>Film Studies presents an opportunity for students to discover, critique, and appreciate movies. This is an exciting course where students learn to see movies like a film critic, create highly interactive, media/technology based projects to express their ideas about cinema, and even try their hand at becoming a movie mogul, investing millions into blockbusters and independent films. Students are encouraged to pursue their own movie interests as they are exposed to significant cultural and ideological movements in film history. Significant emphasis will be placed on learning the technical components of movies (editing, shot types, angles, etc.), as understanding this film grammar is the foundation of film analysis. Students will not only be asked to think about <i>how</i> a movie was made, but also <i>why</i> a movie was made. Written expression and graded discussion are the primary ways students will demonstrate their understanding of the technical, aesthetic, and rhetorical components that make movies effective. Some outside of class viewing is required.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>JOURNALISM 1 <i>Course # 1651, 1652</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces students to the fundamentals of journalism. Emphasis is placed on interviewing, writing, editing, assessing the audience, and meeting deadlines. Units of study include responsibilities and ethics, Associated Press style, interviewing, news writing, feature writing, and page design. All final story assignments must be typed, and the culminating activity is a feature story spread. This course is intended as a practical application of newspaper/newsmagazine news gathering and writing techniques, not as an analysis of the media. While this course is open to all interested students, those students interested in becoming editors of <i>Devils’ Advocate</i> or <i>El Diablo</i> are strongly encouraged to take Journalism 1 sophomore year.</p> <p>Prerequisite: Students must have a B average in English. Open to grades 10 and 11.</p>

English Department

<p>JOURNALISM 2: NEWSMAGAZINE HONORS <i>Course # 1660</i> Full year Credit: 1.0</p>	<p>Students in this class are editors and will be responsible for publishing <i>Devils' Advocate</i> according to established deadlines. Students will assume editorial leadership and participate in all activities required to create a quality publication using a desktop publishing system. Students will be expected to develop story ideas, research stories, write and edit copy, design pages and handle advertising accounts. Part of the grade is determined by job performance. Students should be prepared to spend out-of-class time working on the publication. Journalism 2 may be repeated for credit with consent of the instructor and department chair.</p> <p>Prerequisite: No course prerequisite required. However, there is an application and interview process required. Open to grades 10, 11 and 12.</p>
<p>JOURNALISM 2: YEARBOOK HONORS <i>Course # 1670</i> Full year Credit: 1.0</p>	<p>Students in this class are editors and will be responsible for producing <i>El Diablo</i>. This course will cover skills and responsibilities of a journalist involved in publishing a yearbook. Students will assume editorial leadership and participate in all activities required to create a quality publication using a desktop publishing system. Students will be expected to develop story ideas, research stories, write and edit copy, design pages and handle advertising accounts to meet deadlines established by the adviser/instructor in accordance with the publication company's requirements. Students should be prepared to spend out-of-class time working on the publication in order to receive credit.</p> <p>Prerequisite: No course prerequisite required. However, there is an application and interview process required. Open to grades 10, 11 and 12.</p>
<p>CREATIVE WRITING <i>Course # 1341, 1342</i> 1st or 2nd semester Credit: 0.5</p>	<p>Creative Writing encourages students to explore writing in forms not emphasized in core English courses. Students read and discuss contemporary and classic writers and write stories, poems, dialogs, prose vignettes, myths and personal essays. Students keep a writer's journal, recording thoughts, observations, experiences, and reflections on readings, to serve as a sourcebook, providing the raw material from which more polished writing will emerge. Careful revisions as well as the sharing of one's own writing with the class in informal, non-threatening discussions also constitute an important part of the course's content.</p> <p>Prerequisite: Department approval and a writing sample. Open to grades 11 and 12.</p>
<p>DRAMA <i>Course # 1681, 1682</i> 1st or 2nd semester Credit: 0.5</p>	<p>Drama has one prerequisite: the willingness to get up and perform! In this full participation performance class students learn and practice fundamentals of acting, movement, pantomime, and improv. In addition, students find, analyze, memorize, and act out monologues and scenes from plays. As a culminating experience, all students will participate in an evening performance to which parents and friends are invited. Class members are encouraged to experience an audition and to work onstage or backstage for the Drama Club's current production.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12.</p>

E. L. L.

English Language Learner Program

Lee-Cheng Wang, Design

MISSION STATEMENT

The mission of the English Language Learner Program (ELL) is to assist international students who have limited English skills. The ELL program provides academic and social support as students adjust to the American culture and, in particular, to Hinsdale Central High School. ELL will assist them in transitioning into the mainstream of the school community.

In order to fulfill the mission, ELL offers *academic* classes in English as a Second Language (ESL-1 and 2) for credit and ELL resource classes that may receive credit. ELL also addresses individual student needs, including language issues, academic programs, and cultural, social adjustments. English as a Second Language classes are taught in conjunction with the English Department in order to transition students into the mainstream English classes. As students adjust academically and socially, they *transition with support* into the full general education curriculum and the school community. Lastly, students exit the program when they are academically successful.

ESL-ENGLISH 1A
Course # 1050
 Full year
 Credit: 1.0

This course is designed for the English Language Learner who is new to the United States and whose English Proficiency is emerging and developing. The course focuses on teaching basic communication and study skills in order for the ELL to be successful at Hinsdale Central High School. Listening, speaking, reading and writing skills will be taught in order to help the ELL in mainstream classes succeed academically and complement the ESL-English 1B curriculum. In addition, the course will provide activities to include students in the American Culture.

Prerequisite: ELL Director Chair approval. Open to grades 9, 10, 11 and 12.

ESL-English 1B
Course # 1030
 Full year
 Credit: 1.0

This course continues the work started in ESL-English 1A by developing emerging and beginner listening, speaking, reading and writing strategies and skills in standard American English to the English Language Learner. This course will parallel the goals and skills of English 1. In addition, the course will continue to build student communication skills and self-advocacy skills in standard American English to aid in mainstream academic success.

Prerequisite: ELL Director approval. Open to grades 9, 10, 11 and 12.

E.L.L. Department

<p>ESL-English 2 Course # 1040 Full year Credit: 1.0</p>	<p>The goal of ESL-English 2 is to prepare the intermediate level English Language Learner to transition successfully into the mainstream English class. The course will continue to develop skills and strategies in listening, speaking, reading and writing of standard American English while focusing on how the strategies can be used in mainstream academic success. Course materials will parallel the goals and skills of the English Program. Lastly, this course reinforces self-advocacy skills to promote academic mainstream success for the transitioning English Language Learner.</p> <p>Prerequisite: ELL Director approval. Open to grades 9, 10, 11 and 12.</p>
<p>ELL Resource Course # 1003, 1004 1st or 2nd semester Credit: 0.25 or non-credit</p>	<p>This tutorial resource is designed to: 1) help students maintain satisfactory achievement levels in their regular classes; 2) encourage conversational English; 3) accelerate the development of vocabulary understanding, reading comprehension and writing skills in the English language; and 4) facilitate cultural adjustment.</p> <p>Prerequisite: ELL Director approval. Open to grades 9, 10, 11 &12 international students who have limited English language proficiency. This program may be scheduled in place of a regularly scheduled study hall. This course must be taken for credit if the student is enrolled in ESL1 or ESL2. It may be taken for credit or non-credit with ELL director recommendation.</p>
<p>ELL Tutor Course # 1013, 1014 1st or 2nd semester Credit: 0.25</p>	<p>ELL tutors assist other individual ELL students with academic and English language needs.</p> <p>Prerequisite: Recommendation of ELL Director. Open to grades 11 and12.</p>

* Meets Consumer Education graduation requirement (0.5 consumer education, 0.5 elective arts)

** IFACS suggested as a prerequisite.

*** Creative Cooking I suggested as a prerequisite.

**** General credit only-not elective arts; Child Care & Development suggested as a prerequisite.

Family & Consumer Sciences

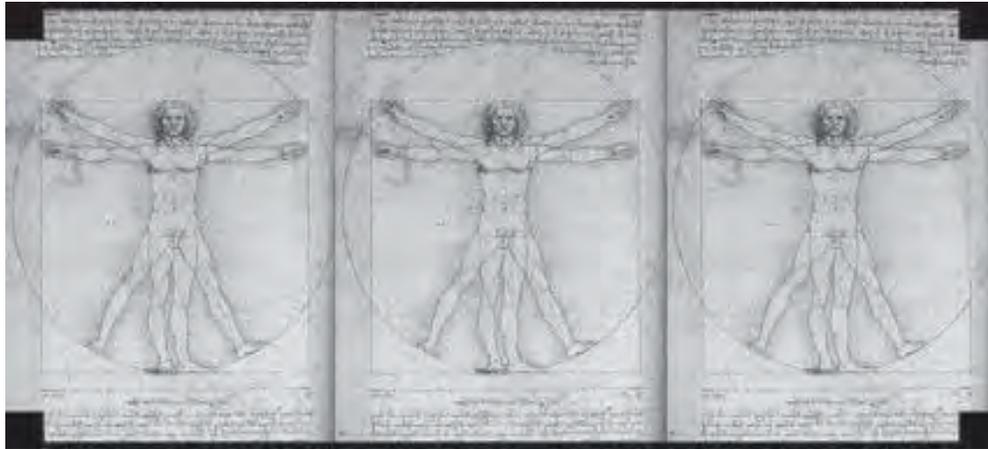

<p>INTRODUCTION TO FAMILY & CONSUMER SCIENCES Course # 6400 Full year Credit: 1.0 (0.5 consumer education, 0.5 elective arts) Must complete the entire year to receive consumer education credit.</p>	<p>This course introduces the student to the following areas of Family & Consumer Science: consumer education, child care, interior design, foods and sewing. The consumer education unit focuses on basic economic concepts such as career opportunities, budgeting, banking, credit, transportation and housing. Additional class activities include a computer-aided design interior design project, basic food preparation and entertainment, sewing projects and exposure to child development. Successful completion of this course fulfills the District's Consumer Education requirement for graduation. Supply fee \$25.00</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12.</p>
<p>CREATIVE COOKING 1 Course # 6411, 6413 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed to teach basic food preparation skills utilizing various types of culinary equipment and a range of preparation and cooking techniques. The following areas of study are covered in this course: measuring, knife skills, cooking methods, nutrition, fruits, vegetables, breads, pastas, vegetarian dishes, desserts, and microwave cooking. The course culminates in a student driven practical final meal applying the knowledge they have learned over the semester. While this course provides personal enrichment, it may also serve as a foundation for further training in culinary arts</p> <p>Suggested follow-up courses: Creative Cooking 2, Nutrition, Wellness, and Cooking, and/or Chef & Restaurant. . Supply fee \$25.00</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12.</p>
<p>CREATIVE COOKING 2 Course # 6412, 6414 1st or 2nd semester Credit: 0.5</p>	<p>This course, a continuation of Creative Cooking 1, provides training in the following advanced techniques of food preparation: international and gourmet foods, cakes and cake decorating, pasta, pastry, yeast breads, pies, meats, and more. Students prepare a variety of recipes. While this course provides personal enrichment, it may also serve as a foundation for further training in culinary arts. Suggested follow-up: Chef and Restaurant and/or Nutrition, Wellness & Cooking. Supply fee \$25.00</p> <p>Prerequisite: 6411. Open to grades 9, 10, 11 and 12.</p>
<p>CHEF AND RESTAURANT Course # 6421, 6422 1st or 2nd semester Credit: 0.5</p> <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p>*Due to classroom space limitations, students who have previously completed Creative Cooking I or IFACS will be given preference.</p> </div>	<p>Chef and Restaurant is an introductory course to professional culinary arts operations. Previous cooking experience is extremely beneficial and may be required in the future for this course. The emphasis is on developing and managing quantity food service businesses, including preplanned and student generated menu and themes, as well as customized menu creation to serve the needs of clients. Several weeks will be spent on back of the house management including product costing, requiring math computation skills. This course serves as a foundation for students wishing to enter a chef or hospitality management program of study or event planners</p> <p>*Prerequisite: Suggested Introduction to Family and Consumer Sciences, Creative Cooking 1, or Nutrition, Wellness & Cooking. Supply fee \$25.00</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>NUTRITION, WELLNESS & COOKING Course # 6431, 6432 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed to teach students how to build a lifetime of good nutrition and wellness practices while utilizing the food preparation and cooking skills from prerequisite courses. Students are given the essential tools to understand why and how people need to make more practical and healthy choices in their diet and daily routines. They will work cooperatively in lab groups applying what they have learned in each focused topic. While this course provides personal enrichment, it may also serve as a foundation for further training in health and culinary related fields.</p> <p>Prerequisite: Grade of C or better in Introduction to Family and Consumer Sciences or Creative Cooking 1. Supply fee \$25.00 Open to grades 10, 11 and 12.</p>

Family & Consumer Sciences

<p>SINGLE SURVIVAL <i>Course # 6441, 6442</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed to provide skills to live independently after high school, whether away at college or living on their own. The course covers personal assets, career development, including resume writing, money management, credit, identity theft, nutrition and basic meal prep, insurance, transportation, taxes, getting an apartment and reflection on current topics in society. Suggested follow-up course: Personal Perspectives (6591). Supply fee \$5.00</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>PERSONAL PERSPECTIVES <i>Course # 6591, 6592</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course, designed to help the student understand the challenges of our society, develops the student's ability to cope with problems and make adult decisions. Areas of study include: theories of personality development, family relationships, crisis in the family (alcoholism, divorce, and death), communication skills, dating, marriage and parenting. Suggested follow-up course: Single Survival (6441).</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>CREATIVE SEWING <i>Course # 6551, 6552</i> 1st or 2nd semester Credit: 0.5</p>	<p>Students will learn to sew for practical purposes and personal enjoyment as they select three or more projects to meet skills requirements. Consecutive projects will increase in degree of difficulty as students use technology to assemble and create unique items. Areas of study include basic sewing machine techniques, fabric and pattern selection, construction techniques and interpreting pattern instructions. Suggested follow-up courses: Creative Sewing Independent Study (6561) or Fashion Merchandising (6571). Supply fee \$10.00</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12.</p>
<p>CREATIVE SEWING INDEPENDENT STUDY <i>Course # 6561, 6562</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course focuses on advanced construction techniques on individually selected projects approved by the instructor. Students master the use of a computerized embroidery machine and serger. Areas of study may include textile arts, formalwear, pattern redesigning, fashion design, or other related areas of student interest. This course may be repeated twice, but subsequent projects must continually incorporate new sewing construction skills. Suggested follow-up courses: Fashion Merchandising (6571) or second enrollment in Creative Sewing Independent Study (6561). Supply fee \$10.00</p> <p>Prerequisite: Creative Sewing. Open to grades 9, 10, 11 and 12.</p>
<p>FASHION MERCHANDISING <i>Course # 6571, 6572</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed to allow the student to explore and understand the various facets of today's fashion industry. Areas of study include: evolution of fashion, fashion merchandising and design, merchandising math, the role of the fashion buyer, original design collection illustration, advertising and retailing functions. Projects include research on a specific designer, clothing trend studies, visual window display and fashion show planning incorporating all the retailing functions studied. While this course serves as a foundation for further training in a fashion related occupation, it also provides an opportunity for personal enrichment. Suggested follow-up course: Creative Sewing (6551). Supply fee \$25.00</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>ARCHITECTURAL STYLES AND DESIGN <i>Course # 6451, 6452</i> 1st or 2nd semester Credit: 0.5</p>	<p>The focus of this course is on preparing students to select, furnish and decorate a residence. Emphasis is on the following: elements and principles of design, color, housing styles, window coverings, sample selection, decorating interiors and computer drafting. Design boards and technology presentations are incorporated in most projects. This course serves as a foundation for careers in architecture and interior design, as well as personal enrichment. Supply fee \$25.00</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>

Family & Consumer Sciences

<p>CHILD CARE & DEVELOPMENT Course # 6582 2nd semester only Credit: 0.5</p> <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p>* Suggested first part of teaching sequence to be taken Sophomore or Junior year.</p> </div>	<p>This course prepares the student for parenting or a career in the field of teaching or child-related occupations. Areas of study include family planning, pregnancy and childbirth, child development from infancy through eight years of age, and planning learning activities for a 16 session preschool practicum. Students will teach and observe children in our Discovery Corner Preschool as an integral part of the program. *Suggested follow-up: Invitation to Teach (6481 or 6482).</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>INVITATION TO TEACH Course # 6481, 6482 1st or 2nd semester Credit 1.0 (one semester two class periods)</p> <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p>Students who have previously completed Child Care & Development will be given preference.</p> </div>	<p>This course offers a teaching internship, enabling students to work under the supervision of certified preschool, elementary and middle school staff. Once placed, the students will spend four days each week at their assigned schools to assist, observe and teach young children. Teaching responsibilities include journaling, observing, creating a visual display, facilitating a guest speaker, creating and teaching lessons, and shadowing a teacher for a day. Classroom study is focused on related issues in education including meeting the needs of a diverse student population, classroom management, and technology within the classroom and professional topics in education. Excellent course for anyone pursuing a career working with children. Suggested Prerequisite: Child Care & Development (6581). Supply fee \$10.00</p> <p>Open to grade 12 only.</p> <p>*Enrollment based on application, counselor recommendation, and instructor approval (based on academic standing, school attendance and character). <i>Application may be picked up in the Guidance office.</i></p>
<p>INVITATION TO TEACH HONORS Course # 6483, 6484 1st or 2nd semester Credit 1.0 (one semester two class periods)</p> <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p>Students who have previously completed Child Care & Development will be given preference.</p> </div>	<p>The core material for this course is similar to Invitation to Teach Course 6481/6482; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is recommended for highly motivated students interested in education or related fields. Suggested Prerequisite: Child Care & Development (6581). Supply fee \$10.00</p> <p>Open to grade 12 only.</p> <p>*Enrollment based on application, counselor recommendation, and instructor approval (based on academic standing, school attendance and character). <i>Application may be picked up in the Guidance office.</i></p>

Health

<p>HEALTH EDUCATION Course # 7501, 7502 1st or 2nd semester Credit: 0.5 (Included in student's G.P.A.)</p>	<p>The goal of this course is to promote and develop positive attitudes and behaviors related to the overall wellness of Hinsdale Central students. Students are taught how to access valid health information and health-promoting products and services. The students will also learn how to analyze the influence of culture, media, technology and other factors on health. Topics of study within the Health Education program include: Introduction to Wellness, Alcohol, Tobacco and other Drugs, Nutrition and Fitness, Communicable and Non-communicable Diseases, and Human Reproduction. The curriculum is aligned with District 86 program goals, Illinois and National Health Education Standards, and Illinois State Standards for Social/Emotional Learning.</p> <p>REQUIRED FOR GRADUATION. This course should be taken in tandem with Physical Education during the sophomore year.</p>
<p>INTRODUCTION TO SPORTS MEDICINE Course # 7521, 7522 1st or 2nd semester Credit: 0.5 (general credit only; not for elective arts. Included in student's G.P.A.)</p>	<p>The goal of this course is to help students become more knowledgeable and proficient in the following areas: principles and practices of athletic training; anatomy, physiology, injury recognition, treatment and rehabilitation as they relate to sports and leisure activities. This course also provides valuable hands-on experience and is highly recommended for those students who are interested in careers in nursing, medicine, athletic training, physical therapy, or coaching.</p> <p>Prerequisite: Successful completion of Health Education or approval of Department Chair. Open to grades 10, 11, and 12.</p>

Library Media Center

Reading

Research

New Media

The mission of the Library Media Department is to **teach** all of our students to thoughtfully *inquire* about the world around them, efficiently *seek* information which addresses those inquiries, critically *evaluate* the quality of that information, capably *apply* the knowledge acquired to new problems, questions, or ideas, and objectively *assess* the work they produce as a result of the research process. **Collaborate** with other teachers to design and implement lessons and assessments which challenge our students to become effective users of ideas and information, perhaps the single most important 21st Century skill. **Provide leadership, instruction, and expertise** in the use of information and technology that encourages creative problem solving and ethical, socially responsible sharing of information. **Provide access** to a variety of quality resources which support the curriculum and meet the diverse needs and interests of our school community in a vibrant learning environment equipped for the demands of 21st Century teaching and learning. **Promote life-long learning** through programming which encourages reading, inquiry, and the use of technology to meet learning goals.

The following course is offered through the Library Media Department:

**DIGITAL VIDEO
PRODUCTION**
Course # 9201, 9202
1st or 2nd semester
Credit: 0.5

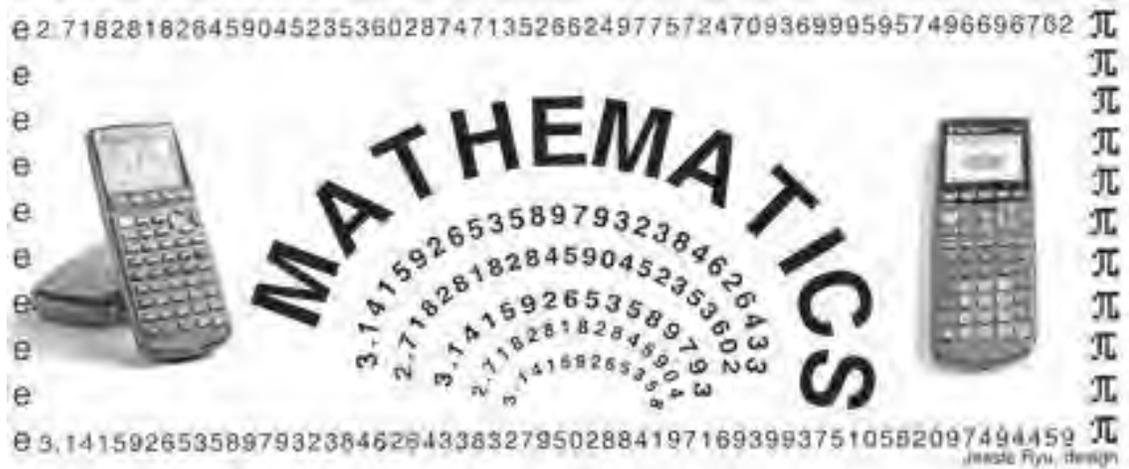

This course is designed to provide students with the skills needed for a career in the technical and artistic aspects of media production. Instruction will include the study and analysis of media and television and their effects on society. Instruction will include camera operations, basic audio and video editing, sound and lighting techniques and audio mixing. Students will learn to operate video and DVD recording equipment, video/digital cameras, microphones, lighting/grip equipment and other production equipment used in the video and audio production of media.

Students will work in a **team-based** environment to create a variety of video and audio productions. Instruction will include single and multi-camera operation, advanced video editing, pre-production, production, and post production Within each of these projects you will be learning different techniques of the camera, software and sound engineering. As you move along then your skills and knowledge will increase with each project:

1. Silent Movie
2. Public Service Announcement
3. Movie Trailer
4. Interview/Documentary
5. Commercial/Infomercial
6. Music Video
7. Live Event Coverage
8. Comedy/Drama Screenplay interpretation
9. Narrative Format of Storytelling

Prerequisite: None. Open to grades 10, 11 and 12. Course may be repeated with permission of Department Chair. Students who elect to repeat the class will be designated as “Advanced Students” and will follow a different class map. With this designation, the student and instructor will work together to create an individualized curriculum that concentrates on the student’s area of interest (editing, documentary, reporting, screenplay writing, short films, etc.) This will give the student the opportunity to advance their skills and create an on-going portfolio of his/her work.

Mathematics Department

Mission Statement

The mission of the Mathematics Department is to develop in our students the mathematical skills and habits of mind they will need to be prepared for college, to become productive citizens, and to pursue their career interests. We are committed to meeting each student's social, emotional, and learning needs by providing a rigorous curriculum and quality instruction that will actively engage students in constructing and applying mathematical concepts to solve problems. We will employ current technology to enhance students' mathematical knowledge and number sense. We strive to develop students who can express the mathematical connections in the world around them with algebraic, geometric, or numeric representations.

Three credits in mathematics are required for graduation. Credit must be earned in both semesters of a full year course before advancing to the next course in the sequence.

Any student who earns a D in a mathematics course is strongly recommended to retake one or both semesters in summer school before attempting the next course in the sequence. The deficiencies indicated by the D grade will make success in the next course in the sequence very difficult. Successful completion of Algebra and Geometry in any sequence and enrollment in Algebra 2 Trigonometry G, Algebra 2 Trigonometry or Algebra 2 Trigonometry H during or before junior year is ideal preparation for college standardized testing. Typical sequences are shown below.

Freshman	Sophomore	Junior	Seniors
Algebra 2 Trigonometry Honors	Pre-Calculus Honors	AP Calculus BC	AP Statistics and/or Math Topics
Integrated Algebra and Geometry Honors	Algebra 2 Trigonometry Honors	Pre-Calculus Honors	AP Calculus BC and/or AP Statistics
Geometry Honors	Algebra 2 Trigonometry Honors	Pre-Calculus Honors and/or AP Statistics	AP Calculus BC and/or AP Statistics
Geometry	Algebra 2 Trigonometry	Pre-Calculus	AP Calculus AB and/or AP Statistics
Geometry	Algebra 2 Trigonometry	Pre-Calculus	Introduction to Statistics and/or Math Analysis
Algebra 1	Geometry	Algebra 2 Trigonometry	Introduction to Statistics and/or Math Analysis
Foundations of Algebra and Geometry	Algebra 1G (Sem1) and Geometry G (Sem2)	Algebra 2 Trigonometry G	Introduction to Statistics and/or Math Analysis
Foundations of Algebra and Geometry	Algebra 1G	Geometry G	Algebra 2 Trigonometry G
Applied Fundamentals of Mathematics	Foundations of Algebra and Geometry	Algebra 1G	Geometry G

Mathematics Department

<p>APPLIED FUNDAMENTALS OF MATHEMATICS Course # 3050 Full year Credit: 1.0</p>	<p>This course covers a variety of practical topics such as basic probability, creating and interpreting graphs, formulas, fractions, percent, measurement, perimeter, basic geometry, consumer skills, and basic algebra. A scientific calculator with fraction capabilities is required.</p> <p>Prerequisite: Recommendation of previous teacher and departmental approval. Next course in sequence: Foundations of Algebra and Geometry. Open to grades 9, 10, 11 and 12.</p>
<p>FOUNDATIONS OF ALGEBRA AND GEOMETRY Course # 3090 Full year Credit: 1.0</p>	<p>This course introduces important topics in Algebra and Geometry. Algebra topics include expressions, equations, inequalities and linear functions. Geometry topics include lines, segments, angles, triangles, perimeter, area and volume. This course is appropriate for students with reasonable facility with arithmetic operations and average grades in mathematics. A graphing calculator is required.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Recommendation of previous teacher and departmental approval. Next course in sequence: Algebra 1 General. Open to grades 9, 10, 11 and 12.</p>
<p>ALGEBRA 1 GENERAL Course # 3100 Full year Credit: 1.0</p>	<p>This course continues the important topics in Algebra. Topics include exponents, systems of equations, inequalities, linear and quadratic functions, polynomial expressions, probability, and statistics. A graphing calculator is required.</p> <p>This course fulfills the ISBE graduation requirement for Algebra 1.</p> <p>Prerequisite: Foundations of Algebra and Geometry and department approval. Next course in sequence: Geometry General. Open to grades 10, 11 and 12.</p>
<p>ALGEBRA 1 GENERAL BLOCK Course # 3141 1st Semester Credit: 1.0</p>	<p>This course has the same core curriculum as #3100, but is taught in a single semester, two periods daily.</p> <p>Prerequisite: Foundations of Algebra and Geometry and teacher recommendation. Open to grades 10 and 11.</p>
<p>ALGEBRA 1 Course # 3110 Full year Credit: 1.0</p>	<p>This course focuses on fundamental properties of the real numbers. Linear and quadratic equations are emphasized. Rational expressions and equations are introduced. Real world applications are explored. Algebra 1 is recommended for freshmen students who have achieved a strong facility with arithmetic operations and above average grades in mathematics or for those students whose Algebra skills need strengthening. A graphing calculator with matrix capabilities is required in this course.</p> <p>This course fulfills the ISBE graduation requirement for Algebra 1.</p> <p>Prerequisite: 8th grade teacher recommendation or Departmental approval. Next course in sequence: Geometry. Open to grades 9, 10, 11 and 12.</p>
<p>GEOMETRY GENERAL Course # 3200 Full year Credit: 1.0</p>	<p>Geometry General uses an intuitive approach to study the fundamental concepts in Geometry. Although deductive reasoning is practiced, much less emphasis is placed on writing formal proofs. Students experience geometric concepts through frequent constructions and hands on activities. Some students from 3110 Algebra may be advised to take this course. A scientific calculator is required in this course.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content.</p> <p>Prerequisite: Algebra 1 General or Algebra 1 and Departmental approval. Next course in sequence: Algebra 2 Trigonometry General based upon teacher recommendation. Open to grades 10, 11 and 12.</p>

Mathematics Department

<p>GEOMETRY GENERAL BLOCK <i>Course # 3232</i> 2nd Semester Credit: 1.0</p>	<p>This course has the same core curriculum as #3200, but is taught in a single semester, two periods daily.</p> <p>Prerequisite: Algebra 1 General and teacher recommendation. Open to grades 10 and 11.</p>
<p>GEOMETRY <i>Course # 3210</i> Full year Credit: 1.0</p>	<p>Geometry focuses on proof and fundamental concepts of plane geometry with some informal three-dimensional considerations. Properties of lines, angles, triangles, quadrilaterals and circles are studied. Special attention is given to concepts of congruence, perpendicularity, parallelism, area, similarity, coordinate geometry, logic and deductive reasoning. A scientific calculator is required in this course.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Algebra 1, 8th grade teacher recommendation, and Departmental approval. Next course in sequence: Algebra 2-Trigonometry. Open to grades 9, 10, 11 and 12.</p>
<p>GEOMETRY HONORS <i>Course # 3220</i> Full year Credit: 1.0</p>	<p>This honors course provides an in-depth study of all the topics of plane Euclidean geometry including three-dimensional geometry. Particular attention will be given to the nature of a mathematical system, logic and proof. Students are expected to exercise their creative capacities, and apply their knowledge to different situations. Recommended for students who have a high interest in mathematics and have achieved, without undue stress, an A average in Algebra. A scientific calculator is required in this course.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content.</p> <p>Prerequisite: Algebra 1, 8th grade teacher recommendation, and Departmental approval. Next course in sequence: Algebra 2 Trigonometry Honors or Algebra 2 Trigonometry, based on teacher recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>INTEGRATED ALGEBRA AND GEOMETRY HONORS <i>Course # 3280</i> Full year Credit: 1.0</p>	<p>This honors course reviews important concepts in Algebra 1 and Geometry. Topics will be explored in greater depth than the introductory courses, and selected Algebra 2 Trigonometry topics will be introduced. Students who are successful in this course should be well prepared for a sequence of Algebra 2 Trigonometry Honors, Pre-Calculus Honors, and an AP course on Calculus and/or Statistics.</p> <p>Prerequisite: Algebra 1, Geometry, and 8th grade teacher recommendation. Next course in sequence: Algebra 2 Trigonometry or Algebra 2 Trigonometry Honors. Open to grade 9.</p>
<p>ALGEBRA 2 TRIGONOMETRY GENERAL <i>Course # 3300</i> Full year Credit: 1.0</p>	<p>The basic material for this course, described under 3310 Algebra 2 Trigonometry, is recommended for students from Geometry General. Some students from 3210 Geometry may be advised to take this course. A graphing calculator with matrix capabilities is required in this course.</p> <p>Prerequisite: Geometry General or Geometry and Departmental approval. Open to grades 11 and 12.</p>
<p>ALGEBRA 2 TRIGONOMETRY <i>Course # 3310</i> Full year Credit: 1.0</p>	<p>Algebra 2 Trigonometry expands the material studied in Algebra and Geometry, emphasizing real world applications and associated graphical analysis. The complex number system is studied. Linear, quadratic, exponential, logarithmic, polynomial, rational and trigonometric functions are explored. Transformations and inverses of functions are introduced. This course is recommended for students with a grade average of C or better in Algebra and Geometry who desire a third year of college preparatory mathematics. A graphing calculator with matrix capabilities is required in this course.</p> <p>Prerequisite: Geometry. Next course in sequence: Math Analysis and Introduction to Statistics or Pre-Calculus. Open to grades 10, 11 and 12.</p>

Mathematics Department

<p>ALGEBRA 2 TRIGONOMETRY HONORS <i>Course # 3320</i> Full year Credit: 1.0</p>	<p>This honors course provides a more in-depth study of the topics described above in Algebra 2 Trigonometry, as well as circular functions, conics, and probability. Students are expected to be capable of creative problem solving and individual study. This course is recommended for students who have a high interest in mathematics, with no less than a B+ average in previous mathematics courses. A graphing calculator with matrix capabilities is required in this course.</p> <p>Prerequisite: Geometry Honors and departmental approval. Next course in sequence: Pre-Calculus Honors or Pre-Calculus, based on teacher recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>INTRODUCTION TO WEB PROGRAMMING <i>Course # 3351, 3352</i> 1st or 2nd Semester Credit: 0.5</p>	<p>This course focuses on the creation of World Wide Web documents using the HTML and JavaScript languages. Students are expected to spend laboratory time outside of class working on their projects. Introductory programming concepts will be presented using JavaScript in order to create more dynamic, self-modifying web pages. Internet access at home is recommended.</p> <p>Prerequisite: Algebra 1 and Departmental approval. Open to grades 9, 10, 11 and 12.</p>
<p>ADVANCED WEB PROGRAMMING <i>Course # 3372</i> 2nd semester Credit: 0.5</p>	<p>This course is a continuation of Introduction to Web Programming. Advanced programming concepts will be presented using HTML and JavaScript. Evaluation is based on projects, assignments, and tests.</p> <p>Prerequisite: Introduction to Web Programming and Departmental approval. Open to grades 9, 10, 11 and 12.</p>
<p>MATH ANALYSIS <i>Course # 3401, 3403</i> 2nd Semester Credit: 0.5</p>	<p>This course focuses on important topics in mathematical modeling. Topics include algorithms, matrices, graphs, and counting, with applications such as elections, fair division, population growth, scheduling, conflict resolution, routing, and game theory. A graphing calculator with matrix capabilities is required.</p> <p>Prerequisite: Algebra 2 Trigonometry General or Algebra 2 Trigonometry and Department approval. Open to grades 11 and 12.</p>
<p>INTRODUCTION TO STATISTICS <i>Course # 3431, 3432</i> 1st Semester/Full year Credit: 0.5/1.0</p>	<p>This course focuses on important topics in statistics. Topics covered in the first semester include statistical plots, statistical summaries of data, regression, probability, normal distributions, and sampling methods. The yearlong course will cover additional topics including hypothesis testing and confidence intervals of population means and proportions, and inference for the slope of the regression line. A graphing calculator with advanced statistical commands is required.</p> <p>Prerequisite for #3431: Algebra 2 Trigonometry General or Algebra 2 Trigonometry and department approval. Prerequisite for #3432: Successful completion of #3431. Next course in sequence: AP Statistics or Math Analysis upon teacher recommendation. Open to grades 11 and 12.</p>
<p>PRE-CALCULUS <i>Course # 3410</i> Full year Credit: 1.0</p>	<p>This course expands on the material studied in Algebra 2 Trigonometry. These areas of study include: real and complex numbers and functions (polynomial, exponential, logarithmic and trigonometric). Additional areas of study are conics, notions of limits, continuity, circular functions, mathematics of finance, parametric equations, and polar coordinates. It is recommended for students who are preparing to enter a technical or semi-technical profession, or planning to study Calculus. A graphing calculator with matrix capabilities is required in this course.</p> <p>Prerequisite: Algebra 2 Trigonometry or Algebra 2 Trigonometry Honors and Departmental approval. Next course in sequence: AP Calculus AB or AP Statistics. Open to grades 10, 11 and 12.</p>

Mathematics Department

<p>PRE-CALCULUS HONORS <i>Course # 3420</i> Full year Credit: 1.0</p>	<p>This honors course provides a more in-depth study of the topics covered in Pre-Calculus with greater emphasis of both theory and applications. Additional topics include curve fitting and physics applications. A graphing calculator with matrix capabilities is required in this course.</p> <p>Prerequisite: Algebra 2 Trigonometry Honors and Departmental approval. Next course in sequence: Upon satisfactory completion of Pre-Calculus Honors, the students are prepared for Calculus. Open to grades 9, 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT COMPUTER SCIENCE A <i>Course # 3480</i> Full year Credit: 1.0</p>	<p>The Computer Science A AP College Board curriculum guidelines are followed in this course. The emphasis of this course is to prepare students for the AP Exam and future programming courses. Programming concepts including variables, constants, expressions, conditionals, arrays, ArrayLists, iteration, functions, and object oriented programming using classes are covered. An emphasis is placed on problem solving. Additionally, programming methodology and design, pre-defined and abstract data types, sorting, data structures, and algorithms, related to data structures are discussed. Applications of computing a working knowledge of hardware and software systems, and the ethical and social implications of computing are examined. The programming language is JAVA.</p> <p>Prerequisite: Algebra 2 Trigonometry and Departmental approval. Open to grades 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT STATISTICS <i>Course # 3500</i> Full year Credit: 1.0</p>	<p>Advanced Placement Statistics will introduce students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. It will emphasize sound statistical thinking rather than routine procedures. This course is intended to be equivalent to an introductory non-calculus based college course in statistics. Students will do a significant amount of reading and independent projects. A graphing calculator with advanced statistics capabilities is required in this course.</p> <p>Prerequisite: Algebra 2 Trigonometry Honors, Pre-Calculus, or Pre-Calculus Honors and Departmental approval. Open to grades 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT CALCULUS AB <i>Course # 3510</i> Full year Credit: 1.0</p>	<p>Advanced Placement Calculus (AB) emphasizes conceptual understandings through manual and technological applications of the derivatives and integrals of algebraic, trigonometric, exponential and logarithmic functions, and relations. This course prepares the student for the AB level Advanced Placement Examination. Satisfactory performance on this examination gives the student an opportunity to qualify for college credit in calculus. A graphing calculator meeting the College Board's optimal technology expectation for the AP Calculus exam is required in this course.</p> <p>Prerequisite: Pre-Calculus or Pre-Calculus Honors and Departmental approval. Open to grades 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT CALCULUS BC <i>Course # 3520</i> Full year Credit: 1.0</p>	<p>Advanced Placement Calculus BC provides an in-depth study of the topics described in Calculus AB, as well as two dimensional vectors, polar coordinates, parametric curves and series. This course prepares the student for the BC level Advanced Placement examination. Satisfactory performance on this examination gives the student an opportunity to qualify for college credit in calculus. A graphing calculator meeting the College Board's optimal technology expectation for the AP Calculus Exam is required in this course.</p> <p>Prerequisite: Pre-Calculus Honors and Departmental approval. Open to grades 10, 11 and 12.</p>

Mathematics Department

<p>COMPUTER SCIENCE TOPICS 1 Honors <i>Course # 3611, 3621</i> 1st Semester Credit: 0.5</p>	<p>Computer Science Topics 1 provides students advanced study in computer science beyond AP. Each semester students will work on advanced computer programming techniques and languages.</p> <p>Prerequisite: AP Computer Science and Department approval. Open to grades 11 and 12.</p>
<p>COMPUTER SCIENCE TOPICS 2 Honors <i>Course # 3622</i> 2nd Semester Credit: 0.5</p>	<p>Computer Science Topics 2 provides students advanced study in computer science beyond AP. Each semester students will work on advanced computer programming techniques and languages.</p> <p>Prerequisite: AP Computer Science and Department approval. Open to grades 11 and 12.</p>
<p>MATH TOPICS 1 HONORS <i>Course # 3641</i> 1st Semester Credit: 0.5</p>	<p>Math Topics 1 provides students advanced study in mathematics. Determined by the department, a student will be introduced to Linear Algebra, Multivariable Calculus, or Calculus-based Statistics.</p> <p>Prerequisite: Departmental approval. Open to grade 12.</p>
<p>MATH TOPICS 2 HONORS <i>Course # 3652</i> 2nd Semester Credit: 0.5</p>	<p>Math Topics 2 provides students with advanced study in mathematics. Determined by the department, a student will be introduced to Linear Algebra, Differential Equations, or Calculus-based Statistics.</p> <p>Prerequisite: Departmental approval. Open to grade 12.</p>
<p>ENRICHMENT COURSES</p>	
<p>MATH EXCEL ALGEBRA <i>Course # 3030, 3035</i> 1st and 2nd Semester Credit 0.25</p>	<p>Math Excel Algebra is designed to support students enrolled in Algebra 1 by providing them additional instruction, individualized practice, and support during the school day. In this small guided study hall led by an Excel teacher and a math teacher, students will have time and support to complete their mathematics homework in addition to other coursework. Math Excel Algebra is a semester course and students will earn a quarter of a credit towards graduation for each semester they are enrolled on a pass/fail basis. Students are encouraged to enroll in both semesters.</p> <p>Open to students in grade 9 with a recommendation from their 8th Grade Teacher.</p>
<p>MATH EXCEL GEOMETRY <i>Course # 3020, 3025</i> 1st and 2nd Semester Credit 0.25</p>	<p>Math Excel Geometry is designed to support sophomore students enrolled in Geometry in the same format as Math Excel Algebra.</p> <p>Open to students in grade 10 with teacher recommendation and Department approval.</p>
<p>MATH EXCEL ALGEBRA 2 TRIGONOMETRY <i>Course # 3010, 3015</i> 1st and 2nd Semester Credit 0.25</p>	<p>Math Excel Algebra 2 Trigonometry is designed to support students enrolled in Algebra 2 Trigonometry in the same format as Math Excel Algebra. Students in this course will also learn strategies to implement on the mathematics sections of standardized tests.</p> <p>Open to students in grades 10 and 11 with teacher recommendation and Department approval.</p>

All courses in the Music Department fulfill the Elective Arts graduation requirement. Two fine arts credits fulfill the Illinois state public university entrance requirements in Art, Music or Foreign Language. Music performance courses are designed to not only improve the level of performance skill of the student, but also to develop a deeper understanding of culture and aesthetics.

All music performance courses include performances outside the school day as a significant part of student expectations. Lists of performances and any outside rehearsals will be provided at the beginning of the school year. Auditing of music courses (participation for no credit) is not permitted.

IMPORTANT INFORMATION FOR INCOMING FRESHMEN AND THEIR PARENTS:

The following courses are available for freshmen enrollment and do not require an audition:

- Concert Orchestra (5680): violin, viola, cello and string bass players only
- Concert Band (5640): flute, oboe, all clarinets, bassoon, all saxophones, trumpet or cornet, French horn, trombone, baritone or euphonium, and tuba
- Concert Percussion (5710): drum set players, keyboardists, bass players and percussionists
- Jazz Lab (5677): open to all instruments and voice types
- Treble Choir (5800): female vocalists
- Men's Choir (5801): male vocalists

The courses below are open to freshmen by audition. Visit the band website, www.hcbands.org for additional information. Email the Band Directors at mkurinsk@hinsdale86.org or mgoeke@hinsdale86.org for an audition time.

- Symphonic Band (5641): flute, oboe, all clarinets, bassoon, all saxophones, trumpet or cornet, French horn, trombone, baritone or euphonium, and tuba
- Wind Ensemble (5646): flute, oboe, all clarinets, bassoon, all saxophones, trumpet or cornet, French horn, trombone, baritone or euphonium, tuba, and percussion
- Symphonic Percussion (5711): drum set players, keyboardists, and percussionists
- Jazz Band (5676): all saxophones, trombone, trumpet, keyboard, guitar, bass, and drum set
- Jazz Ensemble (5670): all saxophones, trombone, trumpet, keyboard, guitar, bass, and drum set

Music Department

The following courses are available for upperclassmen and require an audition with the instructor:

- Women’s Chorale (5810), Hinsdale Central Singers (5840), Chamber Choir (5850), audition with Mrs. Burkemper in Room 169, 630-570-8452, email jburkemp@hinsdale86.org
- Symphony Orchestra (5690): audition with Mr. Wirtz, Room 163, 630-570-8453, email jwirtz@hinsdale86.org
- Symphonic Band (5641), Symphonic Percussion (5711), Wind Ensemble (5646), Jazz Band (5660), Jazz Ensemble (5670): audition with Mr. Kurinsky, email mkurinsk@hinsdale86.org.

Visit the band website, www.hcbands.org for additional information. Email the Band Directors at mkurinsk@hinsdale86.org or mgoeke@hinsdale86.org for an audition time.

Music Department

<p>HONORS STUDY IN MUSIC</p>	<p>Students have the opportunity to qualify for honors study in music performance courses. There are several ways that you can become eligible.</p> <p>Strings Players may, through auditions in September, be selected for the Honors Chamber Orchestra. This is a select ensemble of advanced string players who rehearse every other morning as an Early Bird class. Concurrent registration in Concert Orchestra or Symphony Orchestra is required.</p> <p>Wind and Percussion Players may, through auditions in September, be selected for Honors Orchestra Winds and Percussion. This is a select ensemble of advanced wind and percussion players who will rehearse every other day as an Early Bird class. These players make up the Symphony Orchestra Wind and Percussion sections. Concurrent registration in a band class is required</p> <p>All students in music courses will have the option for earning honors credit:</p> <p>Each student will be required to participate in several activities during the school year that will enhance musical experiences, and abilities. Please see each instructor for more details. To become eligible for honors credit, each candidate will be selected by audition in September, by the department instructors. Audition materials, and information may be obtained from the department instructors.</p>
<p>ORCHESTRA</p>	
<p>CONCERT ORCHESTRA <i>Course # 5680</i> Full year Credit: 1.0</p>	<p>This class will develop the basic techniques involved in playing a stringed instrument and perform concerts with students in band classes. Music from the standard repertoire of orchestral music will be studied.</p> <p>Prerequisite: Director approval. Open to grade 9. This course may be repeated for credit.</p>
<p>SYMPHONY ORCHESTRA <i>Course # 5690</i> Full year Credit: 1.0</p>	<p>A class for higher level development of string instrument techniques and the study of appropriate music. This class combines with the Honors Orchestra Winds and Percussion to perform Music from the standard repertoire of orchestral music. An audition is required.</p> <p>Prerequisite: Audition & director approval. Open to grades 10, 11 and 12. This course may be repeated for credit.</p>
<p>CHOIR</p>	
<p>TREBLE CHOIR <i>Course # 5800</i> Full year Credit: 1.0</p>	<p>Teaches and examines basic vocal techniques, practice and performance of choral music, sight singing and theory. A variety of choral music will be practiced and performed. Honors credit is available for this course.</p> <p>Prerequisite: None. Open to all ninth grade females and to all other grade levels who have not participated in vocal music at school before.</p>
<p>MEN'S CHOIR <i>Course # 5801</i> Full year Credit: 1.0</p>	<p>Teaches and examines basic vocal techniques, practice and performance of choral music, sight singing and theory. A variety of choral music will be practiced and performed. Honors credit is available for this course.</p> <p>Prerequisite: None. Open to all ninth grade males and to all other grade levels who have not participated in vocal music at school before.</p>

Music Department

CHOIR, continued	
WOMEN'S CHORALE <i>Course # 5810</i> Full year Credit: 1.0	Level two of vocal techniques focused on the female voice. A variety of women's choral literature is practiced and performed. Advanced study of sight singing and theory. Honors credit is available for this course. An audition is required. Prerequisite: Director approval. Open to grades 10, 11 and 12. This course may be repeated for credit.
HINSDALE CENTRAL SINGERS <i>Course # 5840</i> Full year Credit: 1.0	An advanced level of vocal technique, sight singing and theory. This advanced choral group practices and performs a variety of music. Extra performances or rehearsals may be scheduled. Honors credit is available for this course. An audition is required. Prerequisite: Director approval. Open to grades 10, 11 and 12. This course may be repeated for credit.
CHAMBER CHOIR <i>Course # 5850</i> Full year Credit: 1.0	An advanced group with a high level of musicianship, vocal technique, sight singing and theory skills. A large variety of musical styles will be practiced and performed. This ensemble performs frequently outside of the school day for community events. Honors credit is available for this course. An audition is required. Prerequisite: Audition and director approval. Open to grades 11 and 12. This course may be repeated for credit.
BAND	
INFORMATION FOR ALL BAND CLASSES	
<p>Students enrolled in the Hinsdale Central High School Bands perform at home games, local parades, pep rallies, formal concerts, and other community events. Band classes improve musicianship, develop technique, and provide performance opportunities featuring a variety of musical styles and ensemble settings. Every band course is an academic class that meets during a class period and also requires occasional rehearsals and performances outside the school day; however, students are encouraged to participate in other academic classes, athletics, and activities. Opportunities for student leadership, overnight travel, and extracurricular performing are available. All band classes can be repeated each year for credit and are open to students in every grade. Every band student performs as part of the Pep Band and the Red Devil Marching Band, which allows sophomores, juniors, and seniors to exempt out of Physical Education during first semester.</p> <p>Band students in grades 10 through 12 may be exempted from Physical Education classes on an Athletic Waiver during both semesters for ongoing participation in the Marching Band and pep band provided their Physical Education class is scheduled during the regular seven period school day. These students will be placed into a study hall during their Physical Education class. The band classes that require such participation are Concert Band, Concert Percussion Ensemble, Symphonic Band, Symphonic Percussion Ensemble, and Wind Ensemble. Withdrawal from a band class results in an immediate return to Physical Education.</p> <p>Special Note: Only students who are enrolled in Jazz Lab, Jazz Band, Jazz Ensemble, and Orchestra Winds and Percussion may elect to be exempt from Early Bird Physical Education because their Physical Education class is being fulfilled during Marching and Pep Band period(s) offered during the regular seven period day. Withdrawal from an early bird music class results in an immediate return to early bird physical education.</p> <p>The band web page, www.hcbands.org, has the most current information about the band program, auditions, and honors credit requirements. Questions may be emailed to the band directors: Mr. Matt Kurinsky, at mkurinsk@hinsdale86.org or Mr. Matt Goeke at mgoeke@hinsdale86.org.</p>	

Music Department

BAND, continued	
<p>CONCERT BAND <i>Course # 5640</i> Full year Credit: 1.0 NO PERCUSSIONISTS</p>	<p>The Concert Band is open to all flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, baritone, and tuba players without an audition and is open to beginners in addition to experienced performers. Students will study the basics of wind instrument performance, music reading, and music theory. See the Information for All Band Classes above for more details.</p> <p>Prerequisite: none</p>
<p>SYMPHONIC BAND <i>Course # 5641</i> Full year Credit: 1.0</p>	<p>The Symphonic Band is an auditioned concert band made up of flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, baritone, and tuba players. This class develops a more advanced level of wind instrument performance and requires students to have a good understanding of music reading and music theory. See the Information for All Band Classes above for more details.</p> <p>Prerequisite: audition required.</p>
<p>WIND ENSEMBLE HONORS <i>Course # 5646</i> Full year Credit: 1.0</p>	<p>The Wind Ensemble is an auditioned, highly selective, concert band made up of a limited number of flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, baritone, tuba, and percussion players. Enrolled students must be proficient at reading and performing music and must meet honors credit requirements. Students will frequently perform the most advanced standards and the latest compositions of contemporary wind band literature. See the Information for All Band Classes for more details.</p> <p>Prerequisite: audition required.</p>
<p>CONCERT PERCUSSION <i>Course # 5710</i> Full year Credit: 1.0</p>	<p>The Concert Percussion Ensemble is an entry level class for students interested in performing band music on percussion instruments, drum set, and bass guitar. In addition to performing as a percussion ensemble, students will also prepare standard band literature to perform with the wind players in other band classes. Enrolled students will learn the basics of music reading and percussion technique. See the Information for All Band Classes for more details.</p> <p>Prerequisite: none</p>
<p>SYMPHONIC PERCUSSION <i>Course # 5711</i> Full year Credit: 1.0</p>	<p>The Symphonic Percussion Ensemble is an auditioned class only for percussion and drum set players. In addition to performing as a percussion ensemble, students will also prepare standard band literature to perform with the wind players in other band classes. Enrolled students must be able to read music and have a good understanding of percussion technique. See the Information for All Band Classes for more details.</p> <p>Prerequisite: audition required.</p>
<p>JAZZ ENSEMBLE <i>Course # 5670</i> Full year Credit: 1.0</p>	<p>The Jazz Ensemble is the top auditioned traditional big band made up of saxophone, trombone, trumpet, piano, bass, guitar, and drum set players. Students enrolled in this class study jazz performance in a variety of styles and frequently perform. Enrolled students should have a good understanding of scale and chord theory and must be comfortable practicing improvisation. This class meets every other day during the “Early Bird” Period 0. Students may also enroll in Honors Orchestra Winds and Percussion. See the Information for All Band Classes for more details.</p> <p>Prerequisites: audition required and concurrent registration in a band class (exceptions made for non-band instruments)</p>

Music Department

MUSIC THEORY	
<p>JAZZ BAND Course # 5676 Full year Credit: 1.0</p>	<p>The Jazz Band is an auditioned traditional big band made up of saxophone, trombone, trumpet, piano, bass, guitar, and drum set players. Students enrolled in this class study jazz performance in a variety of styles. The class develops an understanding of scale and chord theory and encourages improvisation. This class meets every other day during the “Early Bird” Period 0. See the Information for All Band Classes for more details.</p> <p>Prerequisites: audition required and concurrent registration in a band class (exceptions made for non-band instruments)</p>
<p>JAZZ LAB Course # 5677 Full year Credit: 1.0</p>	<p>The Jazz Lab is an entry level class for instrumental and vocal music students interested in performing contemporary music in a variety of styles while developing improvisation skills. Students may be grouped into ensembles according to ability and instrumentation. See the Information for All Band Classes for more details.</p> <p>Prerequisite: concurrent registration in a performance music class</p>
<p>AP MUSIC THEORY Course # 5900 Full year Credit: 1.0</p>	<p>AP Music Theory prepares music students for the Music Theory Advanced Placement Examination through the study of musical elements and techniques including notation, scales and modes, intervals, chords, non-harmonic tones, cadences, ear training, sight singing, melody, form, and composition. Success on the AP Exam can result in college credit. All prospective students must be recommended to Mr. Kurinsky by their music director or private lesson instructor.</p> <p>Prerequisite: Director approval. Open to grades 10, 11 and 12.</p>

Further information can be found at the following websites:

www.hcbands.org

www.hcmusic.org

All students must take physical education or health each semester in attendance. Four (4) credits of Physical Education/Health are required for graduation. Health is a required semester course to be taken during the 10th grade year. Students have an option of also enrolling in Physical Education during that semester for an additional 0.5 credit. A student earns 1/2 credit for each semester of passing work in Physical Education. Students who fail Physical Education must make up the credit by enrolling in an equivalent course at another approved institution. Students will not be allowed to enroll in more than one period of required Physical Education per semester. Students are expected to attend class daily, dress in proper physical education attire and participate to their ability.

Physical education is the science of human movement and the courses are designed to provide instruction and insight into healthy physical activities. All Physical Education offerings are designed to promote good health, safety, fitness, awareness of the value of recreation, and an appreciation of all forms of physical expression.

Students must register for Physical Education **EACH** semester. *

GRADE	SEMESTER 1	SEMESTER 2
9	7113	7114

Freshman: basketball, track and field, softball, soccer, square dance, volleyball, badminton, fitness concepts, team building, football, tennis, gymnastics, swimming, group exercise, wrestling and modern dance.

10/11/12

Students are to enroll in one option each semester

*Sophomores may exercise their option of taking **Health Education and only one semester of Physical Education** by registering for the following courses: **P.E. option/Health 7502 or Health 7501/PE option.**

Sophomore, Junior and Senior: Select one activity from each semester

Physical Education

AQUATICS Course # 7305 1st semester Credit: 0.5	Includes sports and activities designed for the aquatic environment. Included are the development of skills in springboard diving, analysis of the four competitive swimming strokes, as well as starts and turns. Water safety habits, basic lifeguarding skills, water aerobics, dryland exercises, and weight training specific to aquatic activity will also be introduced. Recommended for prospective triathletes and swimmers. (May be repeated.)		
COMPETITIVE PHYSICAL CONDITIONING Course # 7306 1st semester Credit: 0.5	A strong emphasis on core training, general strength, stability and explosive power. Recommended for any person wishing to improve overall competitive effectiveness.		
AEROBICS Course # 7307 1st semester Credit: 0.5	This class introduces students to components of cardiovascular activity through aerobic movements. Students will also address the principles of muscular strength and endurance through the use of free weights and toning exercises. Core workouts, yoga, pilates, and dance are introduced as part of this class as methods for students to increase flexibility, strength and balance. (May be repeated)		
PERSONAL FITNESS (Fitness Center) Course # 7308 1st semester Credit: 0.5	Variable course content. Each student develops and executes an individualized conditioning program designed to address the individual's personal fitness goals. Teacher developed plans are also incorporated. Principles and skills relating to cardiovascular endurance, muscular strength, muscular endurance, flexibility and body composition. Equipment orientation includes Stairmaster, rowing machines, stationary bikes, ellipticals, proper weight training selection and form, circuit training. Individual fitness assessment (May be repeated.)		
COMPREHENSIVE WEIGHT TRAINING (Bouchard Center) Course # 7309 1st semester Credit: 0.5	Gain knowledge and understanding of weight training theory, advanced weight training practices, sport specific weight training techniques and proper nutritional practices. Initiate and develop weight training programs. Improve muscular strength and endurance. (May be repeated.)		
LIFEGUARD/CPR/First Aid Course # 7310 1st semester Credit: 0.5	Meets American Red Cross Lifesaving Certification, Cardiopulmonary Resuscitation Certification and Standard First Aid Certification. Students must be able to swim 500 yds. non-stop to enroll. No student may use a P.E. exemption in this class and receive Red Cross certification or recertification.		
Fitness Integrated Through Sports (F.I.T.S.) Course # 7311, 7312, 7313 1st semester Credit: 0.5	Includes sports and activities for lifelong participation. Instruction provided in basic skill, rules, strategies, and social behavior necessary to achieve competent level of participation, practice, game situations and tournament play. In addition, students will be introduced to fitness components such as cardiovascular endurance, muscular strength, muscular endurance and flexibility. Select one of the following options. Please note: F.I.T.S. CC is designated for those who desire a competitive atmosphere.		
7311 F.I.T.S. (ICR) (Individual Concept Recreational):	Individual Fitness Orienteering Aquatics	Tennis Archery Fitness Testing	Roller blading Badminton Frisbee Golf
7312 F.I.T.S. (CC) (Competitive Concept):	Volleyball Ultimate Frisbee Aquatic Games	Football/Navy Outdoor Hockey Soccer	Team Handball Flicker Ball Fitness Testing
7313 F.I.T.S. (TCR) (Team Concept Recreational):	Volleyball Basketball Fitness Testing	Square Dance Softball	Kickball Soccer Football

Physical Education

AQUATICS <i>Course # 7320</i> 2nd semester Credit: 0.5	Includes sports and activities designed for the aquatic environment. Included are the development of skills in springboard diving, analysis of the four competitive swimming strokes, as well as starts and turns. Water safety habits, basic lifeguarding skills, water aerobics, dryland exercises, and weight training specific to aquatic activity will also be introduced. Recommended for prospective triathletes and swimmers. (May be repeated.)			
COMPETITIVE PHYSICAL CONDITIONING <i>Course # 7321</i> 2nd semester Credit: 0.5	A strong emphasis on core training, general strength, stability and explosive power. Recommended for any person wishing to improve overall competitive effectiveness.			
AEROBICS <i>Course # 7322</i> 2nd semester Credit: 0.5	This class introduces students to components of cardiovascular activity through aerobic movements. Students will also address the principles of muscular strength and endurance through the use of free weights and toning exercises. Core workouts, yoga and pilates are introduced as part of this class as methods for students to increase flexibility, strength and balance. (May be repeated)			
PERSONAL FITNESS (Fitness Center) <i>Course # 7323</i> 2nd semester Credit: 0.5	Variable course content. Each student develops and executes an individualized conditioning program designed to address the individual's personal fitness goals. Teacher developed plans are also acceptable. Principles and skills relating to cardiovascular endurance, muscular endurance, muscular strength, flexibility and body composition. Equipment orientation includes Stairmaster, rowing machines, stationary bikes, ellipticals, proper weight training selection and form, circuit training. Individual fitness assessment (May be repeated.)			
COMPREHENSIVE WEIGHT TRAINING (Bouchard Center) <i>Course # 7324</i> 2nd semester Credit: 0.5	Gain knowledge and understanding of weight training theory, advanced weight training practices, sport specific weight training techniques and proper nutritional practices. Initiate and develop weight training programs. Improve muscular strength and endurance. (May be repeated.)			
LIFEGUARDING/CPR/FIRST AID <i>Course # 7325</i> 2nd semester Credit: 0.5	Meets American Red Cross Lifesaving Certification, Cardiopulmonary Resuscitation Certification and Standard First Aid Certification. Students must be able to swim 500 yds. non-stop to enroll. No student may use a P.E. exemption in this class and receive Red Cross certification or recertification.			
Fitness Integrated Through Sports (F.I.T.S.) <i>Course # 7326,7327,7328</i> 2nd semester Credit: 0.5	Includes sports and activities for lifelong participation. Instruction provided in basic skill, rules, strategies, and social behavior necessary to achieve competent level of participation, practice, game situations and tournament play. In addition, students will be introduced to fitness components such as cardio-vascular endurance, muscular strength, muscular endurance and flexibility. Select one of the following options. (May be repeated.)Please note: F.I.T.S. (CC) is designated for those who desire a competitive atmosphere.			
7326 F.I.T.S. (ICR) (Individual Concept Recreational):	Bowling* Pickleball	Ping Pong Aquatics	Golf Group Exercise	Outdoor Education Fitness Testing
7327 F.I.T.S. (CC) (Competitive Option):	Volleyball Basketball	Team Games Softball	Outdoor Hockey	Aquatic Games
7328 F.I.T.S. (TCR) (Team Concept Recreational):	Volleyball Whiffleball	Basketball Kickball	Lacrosse (no contact) Softball	Fitness Testing
*Supply fee of \$30.00 is required for this off-campus activity. Fee is collected at time of participation				

Physical Education

<p>ADAPTIVE PHYSICAL EDUCATION Course # 7080 Full year Credit: 1.0</p>	<p>This self-contained section of Adaptive Physical Education is offered to students who are restricted and prevented from activity in a regular program. This could include ambulatory cases, congenital defects, and handicapped students. Each student in the section will be given a separate (IEP) individual education program which has earned approval from a physician, school nurse, and parent(s) as appropriate. Prerequisite: Departmental and/or Educational Services departmental approval. Open to grades 9, 10, 11 and 12.</p>
<p>EARLY BIRD P.E. Course # 7373, 7374 1st or 2nd semester Credit: 0.5</p>	<p>This physical education class is open to all sophomores, juniors, and seniors who wish to add an extra period to their day, giving them greater flexibility to select other specialized courses. The course runs from 7:00 a.m. to 7:50 a.m. daily. Students must provide their own transportation.</p>

PHYSICAL EDUCATION EXEMPTION

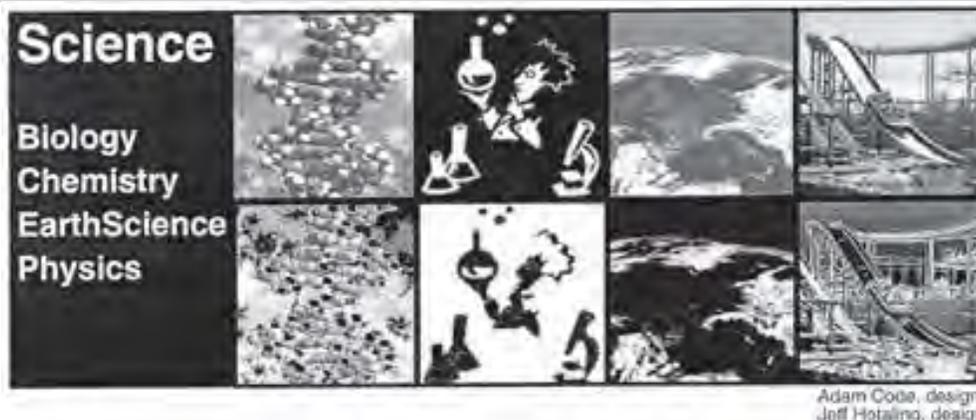

Students interested in exempting out of PE during their 2012– 2013 athletic or marching band season in order to take a study hall need to be aware of the following:

1. PE Exemption is available for **Junior** and **Senior** athletes and **Sophomore, Junior, and Senior** Marching Band members only.
 - a. You must be enrolled in a full seven period academic schedule.
 - b. You must NOT have a study hall in your schedule.
2. In order to be eligible for PE Exemption, you must fill out both sides of the request form with all required signatures and turn it in to your counselor at your individualized registration appointment in January or February.
3. These course codes will be used for PE Exemptions that fall within the following marking periods:

Code	1 st	2 nd	3 rd	4 th	Girls' Sports	Boys' Sports	Activity
7218	Exempt	In PE class			Golf Tennis	Golf	
7219	Exempt	Exempt			Volleyball Cross Country Swimming FB Cheerleading FB Poms	Football Soccer Cross Country	Marching Band
7220	In PE class	Exempt	Exempt	In PE class	Bowling Basketball Gymnastics BB Cheerleading BB Poms	Bowling Wrestling Basketball Swimming	
7221			In PE Class Then Exempt	Exempt	Badminton Water Polo Soccer Softball Lacrosse	Gymnastics Tennis Water Polo Baseball Volleyball Lacrosse	
7222			Exempt	Exempt	Indoor/Outdoor Track	Indoor/Outdoor Track	

All PE Exemption students must still register for PE class during both semesters. They are not guaranteed the class of their choice when they return after the exemption. This is due to space limitations caused by exempted students flowing in and out of PE classes throughout the year.

Students re-entering PE once their season is over may be put into Personal Fitness if space is not open in the class they vacated.

Two credits in science are required for graduation. Each credit must be earned by completing both semesters of a given course (one credit can be earned through the semester course offerings).

All students should have experience in both the biological and physical/earth sciences. Two years of the same type of science, if this excludes other areas of science, is not recommended.

1. Courses in science are designed to develop an understanding of the natural and physical world, to stress the importance of major scientific principles, to develop reasonable competence in the use of the methods of science and to help recognize and prepare for the role science plays in our evolving technological world. The many course offerings and sequences in science have been carefully planned to meet the needs of each student, whether he/she considers science as a future career, as an interesting avocation or as a necessity for all citizens in our technological society.
2. Courses are taught in classroom-laboratory situations which provide opportunities for individual and group instruction, investigation and experimentation. All science classes require a teacher recommendation.
3. The following are possible four-year course sequences:

Seq.	Grade 9	Grade 10	Grade 11	Grade 12
1.	Earth Science – G or Biology – G	Biology - G Earth Science G	Chemistry/Physics	Chemistry Themed or Traditional or Physics Themed or Traditional
2.	Biology or Earth Science	Earth Science or Biology	Chemistry Themed or Chemistry Traditional	Physics Themed or Physics Traditional
3.	Biology	Chemistry Themed or Chemistry Traditional	Physics Themed or Physics Traditional	Earth Science semester courses or Earth Science Honors or <u>select</u> Advanced Placement courses
4.	Biology	Chemistry Themed or Chemistry Traditional	Earth Science semester courses* or Earth Science	Physics Themed Physics Traditional
5.	Earth Science or Earth Science - H	Biology or Biology – H	Chemistry Traditional or Chemistry - H	Physics Traditional Physics – H or Advanced Placement courses
6.	Biology Honors	Chemistry Honors	Physics Honors	Advanced Placement courses

*The following semester courses are available to upperclassmen:

Meteorology/Astronomy **(student must not have taken Earth Science)**

Geology/Oceanography **(student must not have taken Earth Science)**

The aforementioned sequences by no means represent all sequences available to students. The possibilities are numerous. A more useful way to view science courses is by the year offered. The following table serves that purpose.

COURSE TITLE	Course #	Prerequisite	Credit	Grade Offered
Fundamentals of Physical Science	3680	Yes	1.0	11-12
Fundamentals of Biological Science	3690	Yes	1.0	9-12
Biology – General	3700	Yes	1.0	9-12
Biology	3710	Yes	1.0	9-12
Biology – Honors	3720	Yes	1.0	9-12
Advanced Placement Biology	3730	Yes	1.0	11-12
Advanced Placement Environmental Science	3770	Yes	1.0	11-12
Earth Science – General	3740	Yes	1.0	9-12
Earth Science	3750	Yes	1.0	9-11
Earth Science – Honors	3760	Yes	1.0	9-12
Meteorology/Astronomy	3771	Yes	0.5	11-12
Geology/Oceanography	3782	Yes	0.5	11-12
Chemistry/Physics I	3800	Yes	1.0	11-12
Chemistry – Themed	3810	Yes	1.0	10-12
Chemistry – Traditional	3820	Yes	1.0	10-12
Chemistry – Honors	3830	Yes	1.0	10-12
Advanced Placement Chemistry	3840	Yes	1.0	11-12
Physics – Themed	3900	Yes	1.0	10-12
Physics – Traditional	3920	Yes	1.0	10-12
Physics – Honors	3930	Yes	1.0	10-12
Advanced Placement Physics B	3950	Yes	1.0	11-12
Advanced Placement Physics C	3960	Yes	1.0	11-12

<p>FUNDAMENTALS OF PHYSICAL SCIENCE <i>Course # 3680</i> Full year Credit: 1.0</p>	<p>This course focuses on the basic principles of the physical science. Students are directly involved in the development of each concept presented. The goal is to sharpen skills of observation and inference. Fundamentals of Physical Science is a laboratory course.</p> <p>Prerequisite: Successful completion of Biology General and Earth Science General. Enrollment in this course is by teacher recommendation only.</p>
<p>FUNDAMENTALS OF BIOLOGICAL SCIENCE <i>Course # 3690</i> Full year Credit: 1.0</p>	<p>This course investigates the basic structure, activities and relationships among living things. Class activities include laboratory investigations and class discussions.</p> <p>Prerequisite: Must be recommended cooperatively by Special Education, Science and Guidance departments. The Fundamentals of Biological Science Course #3690 is being reviewed and will NOT be offered in 2012-2013.</p>
<p>BIOLOGY - GENERAL <i>Course # 3700</i> Full year Credit: 1.0</p>	<p>This course is designed to acquaint students with properties of living organisms. The course content includes such topics as the relationship between structure and function in living organisms as it relates to the human body, evolution, genetics, and many aspects of ecology. The approach of this course is to provide an introduction to major biological concepts with the use of an easily readable textbook. Biology - G is a laboratory course.</p> <p>Prerequisite: Incoming freshmen eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 and 12.</p>

Science Department

<p>BIOLOGY Course # 3710 Full year Credit: 1.0</p>	<p>This course is designed to acquaint students with properties of living organisms. This course's content includes such topics as the relationship between the structure and function in living organisms as it relates to the human body, evolution, genetics, and varied ecological principals. These areas are investigated in greater depth and application than Biology-General. The impact that humans have on the global environment is studied during the end of this course. Methods of scientific inquiry are employed in classroom instruction. Good ability in reading comprehension is ESSENTIAL for success in this course. Biology - R is a laboratory course.</p> <p>Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 and 12.</p>
<p>BIOLOGY - HONORS Course # 3720 Full year Credit: 1.0</p>	<p>The course follows a molecular approach in the following content areas: cellular biology, evolution, genetics and its applications, and aspects of human biology. Compared to Biology 3710, the content areas are covered in greater depth and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. This course utilizes an inquiry approach in which students incorporate factual information into a framework of reflection and analysis. Biology - H is a laboratory course. Students earning a C in this course will not be eligible for a level change.</p> <p>Prerequisite: High ability in science, mathematics and reading. Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT BIOLOGY Course # 3730 Full year Credit: 1.0</p>	<p>This course follows the College Board's Advanced Placement curriculum and as such is rigorous and fast paced. This course is comparable to an introductory college level course. College level materials are used. Advanced Placement Biology is a laboratory course.</p> <p>Prerequisite: Three years of science, including a year of Biology and a year of Chemistry and departmental recommendation. Concurrent enrollment in third year of science and AP Biology is permitted. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT ENVIRONMENTAL SCIENCE Course # 3770 Full year Credit: 1.0</p>	<p>This course follows the College Board's Advanced Placement curriculum and as such is rigorous and fast paced. This course will provide students with the scientific principles, concepts and methods required to understand the interrelationships of the natural world, to identify and analyze environmental problems, and to examine alternative solutions for resolving and/or preventing them. Field trips are an integral part of this course and are therefore mandatory. This course is comparable to a one-semester introductory college-level course; college-level materials are used. Advanced Placement Environmental Science is a laboratory course.</p> <p>Prerequisite: Three years of science and departmental recommendation. Concurrent enrollment in a third year of science and AP Environmental Science is permitted. Open to grades 11 and 12.</p>
<p>EARTH SCIENCE - GENERAL Course # 3740 Full year Credit: 1.0</p>	<p>The core material for this course is similar to that of 3750 Earth Science. The approach of the text used in this course is understandable, practical and, most important; it aids students who need an introduction to major concepts in Earth Science in an easy to read form. Earth Science - G is a laboratory course.</p> <p>Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 and 12.</p>

Science Department

<p>EARTH SCIENCE <i>Course # 3750</i> Full year Credit: 1.0</p>	<p>This course utilizes an inquiry approach in which students take factual information and use it for analysis. The main units of study are: geology, oceanography, meteorology and astronomy. Good ability in reading comprehension and average ability in math are ESSENTIAL for success in this program. Earth Science is a laboratory course.</p> <p>Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, and 11.</p>
<p>EARTH SCIENCE - HONORS <i>Course # 3760</i> Full year Credit: 1.0</p>	<p>This course uses a college-level textbook and covers major topics in meteorology, astronomy, and geology. Compared to Earth Science 3750, the pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. The approach of the course involves traditional learning, labs, and tests paired with cooperative group work, presentations, and written projects. Earth Science - H is a laboratory course. Students earning a C in this course will not be eligible for a level change.</p> <p>Prerequisite: High ability in science, mathematics and reading. Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 and 12.</p>
<p>METEOROLOGY AND ASTRONOMY <i>Course # 3771</i> 1st semester only Credit: 0.5</p>	<p>Meteorology is the study of the mechanics of the atmosphere, weather and climatic patterns. Astronomy is concerned with the celestial bodies that comprise the known physical universe. The astronomy portion of this course DOES NOT emphasize astrophysics. This course includes teamwork to help develop problem solving skills. Good reading skills and comprehension are required. Meteorology and Astronomy is a laboratory course.</p> <p>Prerequisite: At least one year of high school science, and departmental recommendation. This course is NOT open to anyone who has already taken Earth Science. Open to grades 11 and 12.</p>
<p>GEOLOGY AND OCEANOGRAPHY <i>Course # 3782</i> 2nd semester only Credit: 0.5</p>	<p>This course examines the physical processes that shape and change the earth's crust. The physical, chemical, geological and biological aspects of the ocean are explored with equal time devoted to each aspect. This course includes teamwork to help develop problem solving skills. Good reading skills and comprehension are required. Geology and Oceanography is a laboratory course.</p> <p>Prerequisite: At least one year of high school science, and departmental recommendation. This course is NOT open to anyone who has already taken Earth Science. Open to grades 11 and 12.</p>
<p>CHEMISTRY/PHYSICS I <i>Course # 3800</i> Full year Credit: 1.0</p>	<p>This course is designed for those students needing additional chemistry and physics background before enrollment in a full-year course. Approximately one semester each will be devoted to topics in chemistry, such as atomic structure and gases, and topics in physics, such as motion and waves. This lab oriented course is taught at a pace that allows students to focus on chemistry and physics content development as well as study skills that could prepare students for a full-year chemistry or physics course. This is a laboratory course.</p> <p>Prerequisite: Successful completion of Algebra and departmental recommendation.</p> <p>This course is not open to students who have taken Chemistry or Physics. Open to grades 11 and 12.</p>

Science Department

<p>CHEMISTRY-Themed Course # 3810 Full year Credit: 1.0 Supply fee: \$10.00</p>	<p>(Both Chemistry-Themed and Chemistry-Traditional are REGULAR level courses.) This is an environmentally themed chemistry course which teaches traditional chemistry concepts such as stoichiometry, acids and bases, and behavior of gases. Themed units include water, natural resources, petroleum, air and nuclear chemistry. This method of teaching chemistry is endorsed by the American Chemical Society. The course incorporates teamwork to develop problem solving skills and an understanding of the relevance and concepts of chemistry in everyday living. This course has a field-based lab requirement. This is a laboratory course and it does not meet the prerequisite for A.P. Chemistry.</p> <p>Prerequisite: Successful completion of Algebra 1, concurrent enrollment in Geometry or higher, and departmental recommendation. Open to grades 10, 11 and 12.</p>
<p>CHEMISTRY-Traditional Course # 3820 Full year Credit: 1.0 Supply fee: \$10.00</p>	<p>(Both Chemistry-Themed and Chemistry-Traditional are REGULAR level chemistry courses.) Traditional chemistry concepts such as stoichiometry, acids and bases, behavior of gases and molecular shapes are taught as students independently develop understanding through participation in classroom lecture, assignments, activities and labs. This is a laboratory course and it meets the prerequisite for A.P. Chemistry.</p> <p>Prerequisite: Successful completion of Algebra 1, concurrent enrollment in Geometry or higher, and departmental recommendation. Open to grades 10, 11 and 12.</p>
<p>CHEMISTRY-HONORS Course # 3830 Full year Credit: 1.0 Supply fee: \$10.00</p>	<p>The core material for this course is similar to that of Chemistry-Traditional and follows a similar sequence. The pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. Chemistry - Honors is a laboratory course. This course meets the pre-requisite for A.P. Chemistry. Students earning a C in this course will not be eligible for a level change. Students are required to purchase an on-line homework program.</p> <p>Prerequisite: Successful completion of Algebra I and departmental recommendation which will be based on a high level of ability in science, mathematics, and reading. Open to grades 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT CHEMISTRY Course # 3840 Full year Credit: 1.0 Supply fee: \$10.00</p>	<p>This course follows the College Board's Advanced Placement curriculum and as such is extremely rigorous and fast paced. This course is comparable to an introductory college level chemistry course. College level materials are used. Advanced Placement Chemistry is a laboratory course.</p> <p>Prerequisite: Three years of science, including a year of Chemistry (Traditional or Honors) and a year of Physics (Traditional or Honors) and departmental recommendation. Concurrent enrollment in a third year of science and AP Chemistry is permitted. Open to grades 11 and 12.</p>
<p>PHYSICS-Themed Course # 3900 Full year Credit: 1.0</p>	<p>(Both Physics-Themed and Physics-Traditional are REGULAR level physics courses.) This is a theme-directed laboratory course. Quarterly themes are: Physics of the Arts, electrical physics, sports physics and rollercoaster physics. Topics including motion, forces, energy, waves, sound, optics, electricity and magnetism are taught in a directed approach with frequent assessment through participation in classroom lecture, assignments, activities, projects and labs. This course uses an electronic textbook and an electronic homework program which require internet access. This course is appropriate for students with average math ability. This is a laboratory course and it does not meet the prerequisite for A.P. Physics courses.</p> <p>Prerequisite: successful completion of Algebra 1, concurrent enrollment in Algebra II/Trig and departmental recommendation. Open to grades 10, 11 and 12</p>

Science Department

<p>PHYSICS-Traditional Course # 3920 Full year Credit: 1.0</p>	<p>(Both Physics-Themed and Physics -Traditional are REGULAR level physics courses.) This is a traditional high school physics laboratory course. Topics such as motion, forces, momentum, energy, waves, sound, light, optics, electricity and magnetism are taught as students independently develop understanding with less frequent assessment through participation in classroom lecture, assignments, activities, projects and labs. This course is appropriate for students with average math ability. This is a laboratory course and meets the prerequisite for A.P. Physics courses.</p> <p>Prerequisites: Successful completion of Algebra I, concurrent enrollment in Algebra II/Trig, and departmental recommendation. Open to grades 10, 11 and 12.</p>
<p>PHYSICS - HONORS Course # 3930 Full year Credit: 1.0</p>	<p>This course uses an algebra-based college-level textbook. Topics such as motion, forces, momentum, energy, waves, sound, light, optics, electricity and magnetism are taught as students independently develop understanding with less frequent assessment through participation in classroom lecture, assignments, activities, projects and labs. Compared to Physics-Traditional, the pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. Physics Honors is extremely math intensive with an emphasis on symbolic manipulation of variables. This course meets the prerequisite for AP Physics. Physics-H is a laboratory course. Students earning a C in this course will not be eligible for a level change.</p> <p>Prerequisites: Successful completion of Algebra 2 Trigonometry and departmental recommendation that will be based upon high level ability in science, mathematics and reading. Open to grades 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT PHYSICS B Course # 3950 Full year Credit: 1.0</p>	<p>This is an algebra-based 2nd year physics course following the College Board's Advanced Placement curriculum and as such is designed to prepare students for the AP Physics B exam. The course is fast paced and covers topics in mechanics, fluids, thermal physics, waves and optics, electrostatics, electricity and magnetism, and nuclear and atomic physics. Internet access is required to utilize an online homework service. This is a laboratory course and requires a lab composition book. Students are required to purchase an on-line homework program.</p> <p>Prerequisite: Department recommendation, and three years of science including chemistry and either honors or traditional physics. Concurrent enrollment in a third year of science is permitted. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT PHYSICS C Course # 3960 Full year Credit: 1.0</p>	<p>This is a calculus-based 2nd year physics course following the Collage Board's Advanced Placement curriculum and as such is designed to prepare students for the AP Physics C exam. Approximately half of the year is devoted to mechanics and the other to classical electricity and magnetism. Calculus is used in problem solving and derivations with usage increasing as the course progresses. This course, which uses college level materials, is comparable to an introductory college physics course for pre-med or engineering majors. Advanced Placement Physics is a laboratory course.</p> <p>Prerequisite: Departmental recommendation and three years of science, including years of Chemistry and Physics (Honors), as well as completion of Calculus AB or BC, or concurrent enrollment. Concurrent enrollment in a third year of science and AP Physics is permitted. Open to grades 11 and 12.</p>

Social Studies Department

Artwork by Hillary Galvin

MISSION STATEMENT

The Hinsdale Central Social Studies Department strives to be respected by all school constituencies for its ability to inspire and direct the personal, intellectual, and civic development of its students. The department emphasizes the process of learning, whereby students critically examine issues, evaluate multiple points-of-view, and synthesize perspectives from a variety of disciplines, resulting in the ability to solve problems and make informed decisions. The department seeks to promote an understanding of diverse cultures, values, and systems; from this, students will gain awareness of their own values, as well as those of others. The tolerance and diversity that result from this training are balanced by a commitment to exploring and building common values such as democratic participation and freedom of expression. It is a department that is self-directed, collegial, with high expectations of its students and of itself. The department seeks to foster a love of learning through enthusiasm for the social studies disciplines, use of a variety of instructional strategies, and the dynamic of individual personalities committed to a set of shared goals.

Two (2) credits in Social Studies are required for graduation. One of these credits must be U.S. History, which also satisfies the state requirement. This credit must be earned by completing both semesters of U.S. History, American Studies or Advanced Placement U.S. History. The second credit must be earned during the freshman year by taking either World Cultures or World History Honors.

Social Studies Department

COURSE TITLE	Course #	Prerequisite	Credit	Grade Offered

* 1 credit English, 1 credit Social Studies				

<p>WORLD CULTURES <i>Course # 2140</i> Full year Credit: 1.0</p>	<p>World Cultures explores the geographic, economic, historic, cultural and current issues pertaining to the world's major civilizations. A variety of activities and assessments will be used to foster the acquisition of not only content knowledge, but also skills appropriate to the social studies.</p> <p>Prerequisite: None. Open to grade 9.</p> <p>Note: Students may not enroll in both World Cultures and World History Honors.</p>
<p>WORLD HISTORY HONORS <i>Course # 2220</i> Full year Credit: 1.0</p>	<p>This course surveys broadly, chronologically and topically, the chief features of various civilizations, culture, nations and major concepts from ancient to modern times. The historical development of Eastern and Western civilizations are explored. Core material is organized around a textbook; however, extensive supplemental reading is required. Students will be challenged with a variety of assessments including tests, papers, speeches, debates, presentations and cooperative learning activities.</p> <p>Prerequisite: Departmental approval. Open to grade 9.</p> <p>Note: Students may not enroll in both World History Honors and World Cultures.</p>
<p>AFRICAN AMERICAN HISTORY <i>Course # 2239, 2240</i> 1st or 2nd semester Credit: 0.5</p>	<p>African American History focuses on the unique contributions that slaves from Africa, and their descendants, have made towards the cultural and historical legacy of our nation. Topics of study will include the changing legal and social definitions of race in America, the efforts of African Americans to resist servitude, emancipation and its aftermath, the Harlem Renaissance, the Civil Rights movements, and contemporary issues facing African Americans. Students will examine historical sources, with special focus on the art and music created by African Americans. Assessments will include an oral history project, debates, creative projects, essays and exams.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>

Social Studies Department

<p>EAST ASIAN STUDIES Course # 2241, 2242 1st or 2nd semester Credit: 0.5</p>	<p>Asian Studies will examine the history and culture of China, Japan and Korea. Possible topics of study include the Samurai and code of Bushido, the emergence of Japan as a colonial power, the Rape of Nanking, the Korean War, the development of nuclear weapons by North Korea, and the emergence of China as a 21st century global superpower. The course is project, writing, and discussion oriented complimented with a field trip and experiential learning. Students will be challenged to avoid ethnocentrism and to understand these civilizations from the perspective of the people who came from them.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>GLOBAL ISSUES Course # 2231, 2232 1st or 2nd semester Credit: 0.5</p>	<p>Global Issues examines several major contemporary political, social, and diplomatic dilemmas of the 21st century. After tracing the historical roots of contemporary issues, students will analyze and evaluate each issue from a variety of perspectives. Possible topics include the proliferation of nuclear weapons, human rights and genocide, democracy and dissent, the future of the Middle East, the “war on terror,” U.S. foreign policy since Vietnam, and major domestic challenges. Active student participation on a daily basis and developing written and oral arguments are major components of a student’s grade.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>RUSSIAN STUDIES Course # 2251, 2252 1st or 2nd semester Credit: 0.5</p>	<p>Russian Studies will examine the history, culture, geography, and political ideology of Russia and the former Soviet Union. The course places special emphasis on the Romanov Dynasty, communist rule in the former Soviet Union, and contemporary affairs, including Russia’s role on the world stage. This class offers a unique opportunity to focus one’s studies on a specific and highly relevant part of the world. In addition, Russian Studies places special emphasis on writing in the social studies context.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>WESTERN CIVILIZATION Course # 2261, 2262 1st or 2nd semester Credit: 0.5</p>	<p>Western Civilization is a survey of the history of Western Civilization beginning with the influences of Greece and Rome and ending in the early Twentieth Century. Students will explore the historical trends, events, and ideas that have come to shape society today.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12. Note: Students may not enroll in both Western Civilization and Advanced Placement European History.</p>
<p>ADVANCED PLACEMENT EUROPEAN HISTORY Course # 2440 Full year Credit: 1.0</p>	<p>Advanced Placement European History traces the political, social, economic, intellectual, and cultural development of European Civilization from the Renaissance to the present. A wide variety of teaching methods are used including discussion, debate, role-play, simulations and trials. Students will learn to use and evaluate primary sources, write critical essays, and analyze historical interpretations. This course prepares the student for the Advanced Placement European History examination.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12. Note: Students may not enroll in both Advanced Placement European History and Western Civilization.</p>
<p>AMERICAN STUDIES Course # 1550 Full year Credit: 2.0 (one credit each of English and American History)</p>	<p>American Studies surveys America’s past through the use of non-fiction texts, novels, films, visual arts, music, news sources, and primary source documents. The curriculum integrates history and literature by examining American texts through rhetoric, analysis, thematic connection, and inquiry. Students will find a challenging educational environment containing a variety of methodologies including current event discussions, media presentations and field trips. Teachers plan, instruct, and evaluate student work together. The course meets for two back-to-back periods.</p> <p>Prerequisite: None. Credit in this course fulfills the U.S. History requirement. Open to grade 11. Note: Students may not enroll in both American Studies and U.S. History or Advanced Placement U.S. History.</p>

Social Studies Department

<p>U.S. HISTORY <i>Course # 2310</i> Full year Credit: 1.0</p>	<p>U.S. History is a survey which covers Native American cultures through European colonization, founding of the new Republic and Constitution, includes the Civil War, and concludes with modern times. Units survey chronologically and topically the major events, personalities and issues which have played a part in the evolution of the American democratic republic.</p> <p>Prerequisite: None. Credit in this course fulfills U.S. History requirement. Open to grade 11. Note: Students may not enroll in both U.S. History and American Studies or Advanced Placement U.S. History.</p>
<p>ADVANCED PLACEMENT U.S. HISTORY <i>Course # 2320</i> Full year Credit: 1.0</p>	<p>Advanced Placement United States History is a survey course that is meant to replicate the academic rigor of a two semester college experience in a year. This class requires students to engage in extensive reading of primary sources and historical essays. Focus will be placed on the development of college level reading and writing skills. Key events and major themes such as American diversity, economic transformations and politics and citizenship will be examined in studying the nation's past. This course prepares the student for the Advanced Placement United States History examination.</p> <p>Prerequisite: Departmental approval. Credit in this course fulfills the U.S. History requirement. Open to grade 11. Note: Students may not enroll in both Advanced Placement U.S. History and American Studies or U.S. History.</p>
<p>CONSTITUTIONAL LAW <i>Course # 2381, 2382</i> 1st or 2nd semester Credit: 0.5</p>	<p>Constitutional Law is an introductory legal course which investigates many topics, including criminal law, trial rules, court systems, juvenile law, discrimination, and search and seizure law. In addition to using contemporary legal cases, a wide variety of teaching methods are used, including mock trial hearings, mock jury simulations, and videos. The primary learning tool in Constitutional Law is class discussion. Additionally, an alternative final exam is available for those students who would prefer a project.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>ECONOMICS <i>Course # 2331, 2332</i> 1st or 2nd semester Credit: 0.5</p>	<p>Economics investigates the principles that drive decision-makers, both consumers and producers, in our global marketplace. Students specifically examine the major components of the U.S. economic system; such as, opportunity costs, trade-offs, production and consumption practices, money and banking, savings and investment, business management and labor, business cycles, and economic relationships between nations. The study of Economics helps prepare students to make rational economic choices both in their own lives and in their participation in policy decisions as citizens of a city, state, nation, and the world. Learning is enhanced through current events, economic simulations and class activities.</p> <p>Prerequisite: None. Open to grades 11 and 12. Note: Students may not take Economics, Advanced Placement Microeconomics or Advanced Placement Macroeconomics concurrently.</p>
<p>PHILOSOPHY HONORS <i>Course # 2393, 2394</i> 1st or 2nd semester Credit: 0.5</p>	<p>Philosophy Honors will offer interested and intellectually curious students the opportunity to reflect on fundamental questions related to the human condition, such as the basis of knowledge, ethical theories and issues, artificial intelligence, free will versus determinism, rational proofs for the existence of God, and the meaning of evil and suffering. The goal of the course will not be so much to cover a particular body of philosophers, but to raise important issues that will spur students to further inquiry, study, and application in their own lives. Much of the class will involve reading, discussion, and writing. Students will be expected to read carefully, write critically, and participate in class discussions. Philosophy and Ethics is an honors level course.</p> <p>Prerequisite: None. Open to grades 11 and 12</p>

Social Studies Department

<p>PSYCHOLOGY <i>Course # 2431, 2432</i> 1st or 2nd semester Credit: 0.5</p>	<p>Psychology focuses on the study of human behavior from many perspectives. Audiovisual materials, experiments, projects and case studies are used to understand the human experience. This class is heavily discussion based. In addition, much independent coursework is used to investigate topics such as development, the brain, altered states of consciousness, learning, personality and abnormal behavior.</p> <p>Prerequisite: None. Open to grades 11 and 12. Note: Students may not enroll in both Psychology and Advanced Placement Psychology</p>
<p>SOCIOLOGY <i>Course # 2371, 2372</i> 1st or 2nd semester Credit: 0.5</p>	<p>Sociology is the study of man’s social behavior. The course increases the student’s awareness of social pressures that affect one’s own behavior and the behavior of others. Typical activities such as discussions, experiments, student planned projects and a wide variety of films and videotapes enable the student to apply knowledge gained in the course to his or her own life.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT MACROECONOMICS <i>Course # 2441, 2442</i> 2nd semester only Credit: 0.5</p>	<p>Advanced Placement Macroeconomics is the study of the United States’ economy. Students examine economic topics such as unemployment, inflation, GDP, international trade, interest rates, monetary policy, fiscal policy, and the national debt and deficit. Students will come to understand the causes for problems in the economy and be able to prescribe economic policies for both healthy and unhealthy economies. Macroeconomics is an interdisciplinary course combining the social sciences with mathematical analysis and graphing. The course prepares students for the Advanced Placement exam in May.</p> <p>Prerequisite: Completion of AP Microeconomics or Economics and departmental approval. Open to grades 11 and 12. Note: Students may not take Advanced Placement Macroeconomics, Advanced Placement Microeconomics or Economics concurrently</p>
<p>ADVANCED PLACEMENT MICROECONOMICS <i>Course # 2341, 2342</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Placement Microeconomics provides students with a thorough understanding of the decision making process for individuals and firms in the marketplace. It places primary emphasis on the operations of the product and factor markets along with the government’s role in promoting efficiency and equity in various market structures. The course is conducted in a lecture/seminar manner supported by daily readings, practice problems, and student activities. The course prepares the student for the Advanced Placement exam in Microeconomics exam administered in May.</p> <p>Prerequisite: Departmental approval. Credit in this course fulfills the Consumer Education requirement. Open to grades 11 and 12. Note: Students may not take Advanced Placement Macroeconomics, Advanced Placement Microeconomics or Economics concurrently.</p>
<p>ADVANCED PLACEMENT PSYCHOLOGY <i>Course # 2430</i> Full year Credit: 1.0</p>	<p>AP Psychology explores why human beings are the way that they are. This course traces the emergence of scientific psychology in the nineteenth century from its roots in philosophy and physiology to present day practices. The development of the major “schools” of psychology and showing how they differed in subject matter and the methods of study are covered. This historical introduction helps students gain an understanding of the principal twentieth century approaches to psychology: behavioral, biological, cognitive, humanistic and psychodynamic. This class prepares students for the Advanced Placement Psychology examination.</p> <p>Prerequisite: Departmental approval. Concurrent enrollment in U.S. History or previous completion of U.S. History during the regular school year. Open to grades 11 and 12. Note: Students may not enroll in both Advanced Placement Psychology and Psychology.</p>

Social Studies Department

**ADVANCED PLACEMENT
UNITED STATES
GOVERNMENT AND
POLITICS**

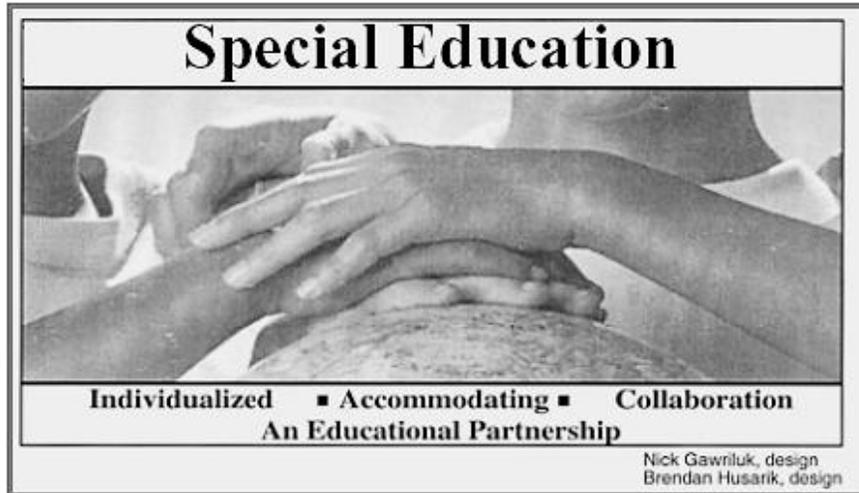

Course # 2361, 2362

1st or 2nd semester

Credit: 0.5

AP United States Government and Politics is an advanced placement course designed to give students both theoretical and realistic perspectives on politics and government in the United States. Its focus is on the interconnectedness between the various institutions, opinions and policies that make up the national public system. Student political involvement is emphasized. This class prepares students for the Advanced Placement United States Government and Politics examination.

Prerequisite: Departmental approval. Concurrent enrollment in U.S. History or previous completion of U.S. History during the regular school year. Open to grades 11 and 12.

Students eligible for special education services as specified by an Individual Education Program (IEP) receive specialized instruction and services through one or more of the following approaches:

- individualized academic accommodations and/or modifications within the regular education classrooms,
- structured assistance within the regular education classrooms,
- structured assistance outside the regular class,
- related services, and
- direct instruction in specialized course offerings

The following specialized classes are taught by certified special education teachers. Courses meet the HCHS graduation requirements.

Course Title	Course #	Credit	Grade Offered
English	1810/1820/1830/1840	1.0	9-12
World Cultures	1850	1.0	9
United States History	1860	1.0	11

* May be taken more than once for credit (maximum 2.0 credits)

** May be taken more than once for credit (maximum 4.0 credits)

Special Education

<p>ACADEMIC CENTER RESOURCE <i>Course # 9920, 9924</i> Full year Credit: NC</p>	<p>Academic Center Resource is for students who are self-motivated, well organized, and can demonstrate excellent self-advocacy skills. Students are self-directed learners who can identify strengths/challenges and have developed the necessary compensatory skills to allow them to be successful in the academic school setting. The Academic Center provides students with opportunities for support across curriculum subjects in a structured setting. Students may also seek out departmental support/resources, schedule guidance appointments, and make up any tests/quizzes during this period.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>STUDY SKILLS 1 <i>Course # 1951, 1952</i> Full year Credit: 0.25/semester</p>	<p>Study Skills 1 is a freshman-level resource class specifically targeted for students with an IEP. Students enroll in study skills based upon a team recommendation at the most recent IEP meeting. Study Skills 1 targets the skills required for a successful transition into the high school experience. These include organization, time management, homework completion, long term planning, listening skills, memory skills, and test preparation skills. Study skills 1 also serves as a period where students may complete assessments and/or consult with other school staff to meet their individual needs.</p> <p>Prerequisite: IEP recommendation. Open to grade 9.</p>
<p>STUDY SKILLS 2 <i>Course # 1956, 1957</i> Full year Credit: 0.25/semester</p>	<p>Study Skills 2 is a sophomore-level resource class specifically targeted for students with an IEP. The course addresses the maintenance of study skills such as effective note-taking and test preparation skills. It also begins to look into research skills that students will need to investigate post-secondary employment or academic/ vocational programs. In addition, Study Skills 2 serves as a period in which students may complete assessments or consult with other school staff to meet their individual needs.</p> <p>Prerequisite: IEP recommendation. Open to grade 10.</p>
<p>LEARNING STRATEGIES 1 <i>Course # 1958, 1959</i> Full year Credit: 0.25/semester</p>	<p>Learning Strategies 1 is a junior-level resource class. Students are enrolled in this class based upon the IEP team's recommendation. This class supports students with their current course work and prepares students for any upcoming assessments through academic content review and effective test taking strategies. Additionally, students may use their learning strategies class time to complete classroom assessments and to seek out support from other academic departments and related service providers. A final component to Learning Strategies is to continue the process of post-secondary and transitional planning.</p> <p>Prerequisite: IEP recommendation. Open to grade 11.</p>
<p>LEARNING STRATEGIES 2 <i>Course # 1961, 1962</i> Full year Credit: 0.25/semester</p>	<p>Learning Strategies 2 is a senior-level resource class. Students are enrolled in this class based upon the IEP team's recommendation. This class supports students with their current course work and prepares students for any upcoming assessments through academic content review and effective test taking strategies. Additionally, students may use their learning strategies class time to complete classroom assessments and to seek out support from other academic departments and related service providers. A final component to Learning Strategies is to continue the process of post-secondary and transitional planning.</p> <p>Prerequisite: IEP recommendation. Open to grade 12.</p>
<p>SOCIAL COMMUNICATION <i>Course # 2005</i> Full year Credit: 1.0</p>	<p>This class is for students identified as having needs in the area of social communication. Topics covered in the class include thinking in a group, thinking about others, thinking about others thinking about me, and thinking to create relationships. The goal is for students to increase their ability to take another's perspective, increase problem solving capabilities, and develop and understand how our body is connected to communication and personal relationships with others. This course is a pass/fail course.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>

Special Education

<p>PROGRAM SUCCESS <i>Course # 1956A, 1957A</i> Full year Credit: 0.25/semester</p>	<p>Program Success is for students whose emotional/behavioral needs interfere significantly with their learning or that of other classmates. Program Success provides students time in their day to get additional support with their academic course as well as provide students an opportunity to process situation that have occurred which are having a social and/or emotional impact on the student. In addition, instructional arrangements can be made to provide students with academic instruction in a self-contained setting. This instruction arrangement may be necessary for short durations while new interventions are planned. Program Success also serves as a time when students can communicate with staff or complete assessments.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>ENGLISH FOUNDATIONS <i>Course # 2000</i> Full year Credit: 1.0</p>	<p>This course explores fundamental elements of reading, writing, and listening and speaking that can be generalized in various facets of daily life. Curriculum is individualized according to the goals and objectives delineated in each student IEP.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>MATH FOUNDATIONS <i>Course # 2030</i> Full year Credit: 1.0</p>	<p>This course explores fundamental math concepts that can be generalized in various facets of daily life. Curriculum includes problem solving and computation, money and number sense, and basic estimation and measurement. Basic analytical methods, geometry, and data analysis are also emphasized. Curriculum is individualized according to the goals and objectives delineated in each student IEP.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>RESOURCE FOUNDATIONS <i>Course # 2080</i> Full year Credit: 1.0</p>	<p>Students will explore essential aspects of academic, organizational and social skills that can be generalized in various facets of daily life. Emphasis will be placed on decision-making and behavior expectations, time management, use of classroom and school resources, and self-advocacy. Curriculum is individualized according to the goals and objectives delineated in each student IEP. Course fee \$180.00.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>SOCIAL STUDIES FOUNDATIONS <i>Course # 2081</i> Full year Credit: 1.0</p> <p>Social Studies Foundations will NOT be offered for the 2012-2013 school year</p>	<p>The goal of this course is to develop in students an understanding of citizenship that can be generalized in various facets of daily life. Students will sharpen their basic understanding of history, government, and social systems through the exploration of current and historical events. Curriculum is individualized according to the goals and objectives delineated in each student IEP.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>SCIENCE FOUNDATIONS <i>Course # 2050</i> Full year Credit: 1.0</p>	<p>Students will investigate key elements of physical and social wellness that can be generalized in various facets of daily life, including proper nutrition, sleep, self-care, and exercise. Students will also explore the benefits of leisure activities and socialization. Curriculum is individualized according to the goals and objectives delineated in each student IEP.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>

Special Education

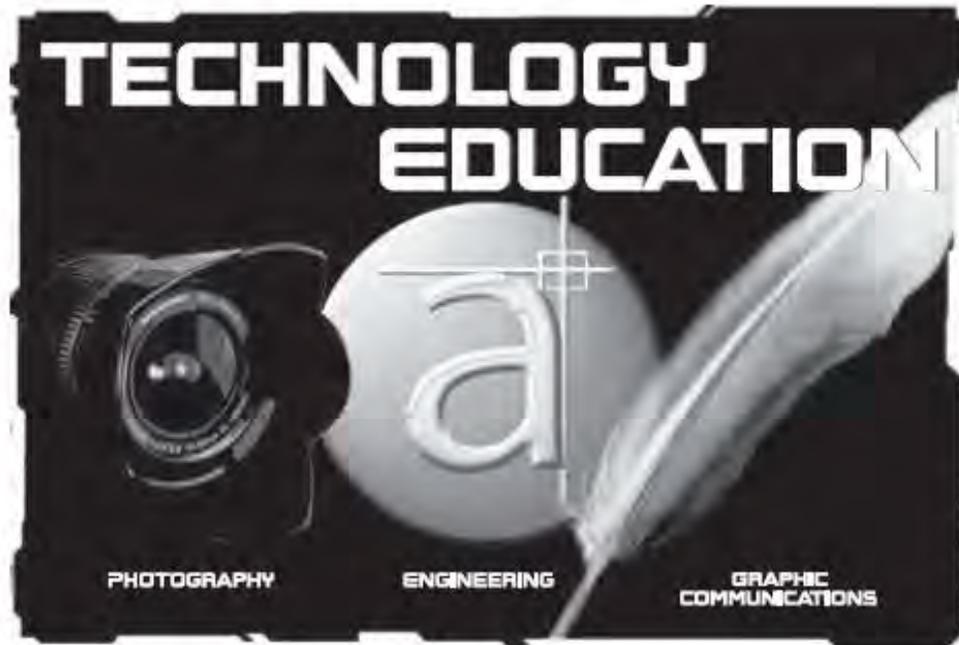

<p>PRE-VOC FOUNDATIONS <i>Course # 2100</i> Full year Credit: 1.0</p>	<p>This course explores essential skills related to employment. Emphasis will be placed on hands on in school job training, entry level workplace skill development which may include: following a schedule, time management, efficiency, responsibility, work etiquette, following directions and communicating with co-workers and supervisors. Curriculum is individualized according to the employment goals and objectives delineated in each student IEP.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>ELECTIVE FOUNDATIONS <i>Course # 2060</i> Full year Credit: 1.0</p>	<p>Through cooperative games, community experiences, and leisure activities, students will explore essential components of self-awareness & self-management, social-awareness, interpersonal skills, and decision-making. Curriculum is individualized according to the goals and objectives delineated in each student IEP.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>HEALTH FOUNDATIONS <i>Course # 2002</i> 2nd Semester Credit 0.5</p>	<p>The goal of this course is to promote and develop positive attitudes and behaviors related to the overall wellness of Hinsdale Central students. Students are taught how to access valid health information and health-promotion products and services. The students will also learn how to analyze the influence of culture, media, technology and other factors on health. Topics of study within the Health Education program include: Introduction to Wellness, Alcohol, Tobacco and other Drugs, Nutrition and Fitness, Communicable and Non-communicable Diseases, and Human Reproduction. The curriculum is aligned with District 86 program goals, Illinois and National Health Education Standards. The curriculum is aligned with the grade level Health course but supports students who have deficiencies in reading and writing who are also enrolled in Adaptive PE.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>ENGLISH <i>Course # 1810, 1820, 1830, 1840</i> Full year Credit: 1.0</p>	<p>Special education English classes are offered at each grade level. The curriculum incorporates vocabulary development, literature, and the writing process. Curriculum is aligned with grade level English course but taught at an instructional level. Direct reading and writing supports are provided. Assessments are completed weekly to monitor progress in the areas of reading and writing.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>WORLD CULTURES <i>Course # 1850</i> Full year Credit: 1.0</p>	<p>World Cultures explores the economic, historic, cultural and current issues pertaining to the world's major civilization. A variety of activities and assessments will be used to foster the acquisition of not only content knowledge, but also critical thinking skills appropriate to the social studies. The curriculum is aligned with the grade level world cultures course but supports students who have deficiencies in reading and writing.</p> <p>Prerequisite: IEP recommendation. Open to grade 9.</p>
<p>UNITED STATES HISTORY <i>Course # 1860</i> Full year Credit: 1.0</p>	<p>U.S. History is a survey course which covers Native American cultures through European colonization, founding of the new Republic and Constitution, includes the Civil War, and concludes with modern times. Units survey chronologically and topically the major events, personalities and issues which have played a part in the evolution of the American democratic republic. The curriculum is aligned with the grade level U.S. History course but supports students who have deficiencies in reading and writing.</p> <p>Prerequisite: IEP recommendation. Open to grade 11.</p>

Special Education

<p>READING Course # 1890 Full year Credit: 1.0</p>	<p>Reading is a course designed for students in 9th through 12th grade who demonstrate a need for direct instruction in reading strategies because they are reading two or more levels below grade level. Students will complete diagnostic tests at the start of the year, in the middle of the year, and at the end of the year. These tests will be used to track growth and also to provide necessary information so that instruction can be individualized to a student's needs. Instruction in oral fluency, silent reading comprehension, oral reading comprehension, listening comprehension, vocabulary, grammar, and phonics will be provided individually and in a whole class setting. The curriculum is comprised of lessons from the Jamestown Timed Reading series, current events articles, Six Minute Solution passages, the Language! Reading series, Aimsweb fluency and comprehension passages, and Averil Coxhead's High-Incidence Academic Word List.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>FOUNDATIONS of ALGEBRA & GEOMETRY Course # 1871 Full year Credit: 1.0</p> <p>Foundations of Algebra & Geometry will not be offered for the 2012-2013 school year.</p>	<p>This course introduces important topics in Algebra and Geometry. Algebra topics include expressions, equations, inequalities, and linear functions. Geometry topics include lines, segments, angles, triangles, perimeter, area, and volume. This course is appropriate for students with reasonable facility with arithmetic operations. A graphing calculator is required.</p> <p>Prerequisite: IEP recommendation. Open to grades 9 and 10.</p>
<p>COOPERATIVE WORK TRAINING Course # 1931, 1932 Full year Credit: 0.5/semester</p> <p>Cooperative Work Training will not be offered for the 2012-2013 school year.</p>	<p>This course explores obtaining and maintaining a part time paid position in the community. Students enrolled in this class are actively looking or are currently working at a part time job. This class meets once a week during a resource period to address job application completion and job retention. Seminars are offered throughout the course to address employment topics such as career exploration, understanding your paycheck, conflict resolution, resume and cover letter development, interviewing skill development. Participation in this class is identified as needed.</p> <p>Prerequisite: IEP recommendation. Open to grades 10, 11 and 12.</p>
<p>PRE VOCATIONAL SUPERVISED JOB TRAINING Course # 1941, 1942 Full year Credit: 0.5/semester</p>	<p>This course explores more in-depth application and practice in both in-school and community based job training, as identified based on individual goals. This class emphasizes career exploration & planning, job application, job search, interviewing, resume development, cover letters, and continued development on communication skills.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>ADULT OPPORTUNITIES Course # 2930 Full year Credit: NC</p>	<p>This program is available to young adults who are 18-22 and have completed their academic graduation requirements. The program is individually designed to assist young adults in pursuing their transition goals related to education, employment, independent living and social aspirations through community based instruction and activities. Emphasis will be placed on preparing young adults to manage their own lives and face the challenges of adulthood when they are no longer receiving support from their high school. Program participation is individually determined based on need and transition goals. Course fee \$180.00.</p> <p>Prerequisite: IEP recommendation. Open to post 12th grade students.</p>

Technology Education

Technology Education

The Technology Education Department offers an elective course of study to all students at Hinsdale Central. Technology Education courses help students meet the elective arts requirement. Our program of course offerings focuses on a variety of technologies that develop skills in graphic communication and design. Several courses are available to students who wish to explore the educational and career opportunities in Architecture, Engineering, Graphic Communications and Photography.

The primary instructional mode in the department is laboratory-oriented student projects and exercises. A wide range of instructional techniques and technologies is used in the classroom.

Articulated credits at College of DuPage are available to Hinsdale Central students who complete certain courses at Hinsdale Central with at least a grade of B and who upon graduation, attend C.O.D. The list of approved courses with articulated credit at College of DuPage is as follows:

- Basic Photography
- Digital Color Photography

Each class has a lab fee charged to the student to cover the cost of materials used by the students for project work.

Technology Education

*Requires prerequisite courses and departmental approval.

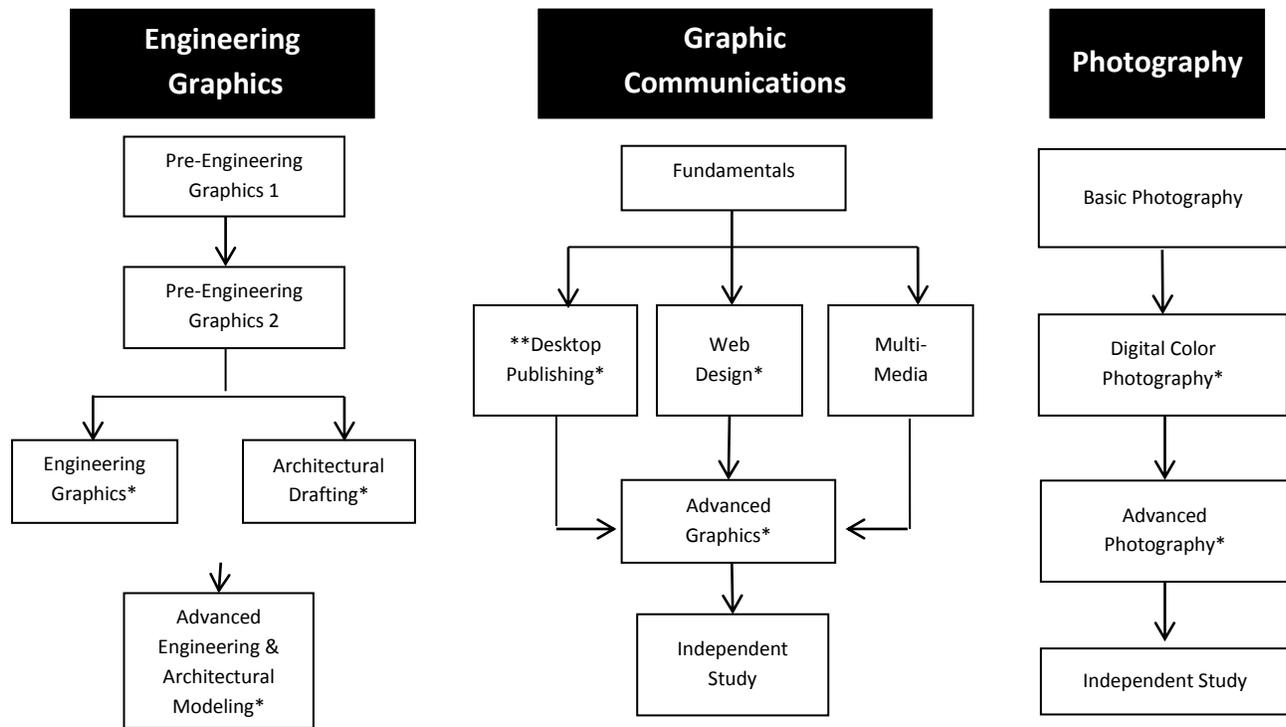

Shown below are possible course selection sequences in the Engineering Graphics Program as students enter each grade. If students enter the program in 9th Grade, they can complete the program by the time they graduate.

	9th Grade	10th Grade	11th Grade	12th Grade
1st Year	Pre-Engineering Gr 1	Pre-Engineering Gr 1	Pre-Engineering Gr 1	Pre-Engineering Gr 1
	Pre-Engineering Gr 2	Pre-Engineering Gr 2	Pre-Engineering Gr 2	Pre-Engineering Gr 2
2nd Year	Engineering Graphics**	Engineering Graphics** and/or Architectural Drafting**	Engineering Graphics** and/or Architectural Drafting**	
3rd Year	Architectural Drafting**	Architectural Drafting** and/or Advanced Engineering & Architectural Modeling**	Architectural Drafting**	
4th Year	Advanced Engineering and Architectural Modeling**			

** Honors Option offered in these courses

Technology Education

Shown below are course sequences for the Technology Education Programs. Students are encouraged to take entry level courses as early as possible to allow for further courses as need or interest develops.

**Can enroll directly into Desktop Publishing if taking Journalism, and department approval.

*Honors course option available

ENGINEERING GRAPHICS PROGRAM

NOTE: Software titles currently used in our Engineering Graphics and Architecture courses include up-to-date versions of AutoCAD, Inventor Professional, Revit Architecture, and 3D Studio Max.

<p>PRE-ENGINEERING GRAPHICS 1 <i>Course # 6601, 6602</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces the student to the fundamentals of mechanical drafting while using AutoCAD software in our CAD Lab. The student will be taught many AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. Mechanical drawing problems will range from 2D drawings, orthographic projection, sectional view, and pictorial views (isometric and oblique). Freehand sketching on graph paper is also integrated into each assignment. Students will also be introduced to 3D modeling and 3D printing (rapid prototyping). A portfolio of all the student work will be bound together to be taken home at the end of the semester. A student-created 3D model will also be taken home by every student.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply fee: \$10.00.</p>
<p>PRE-ENGINEERING GRAPHICS 2 <i>Course # 6611, 6612</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course will continue to introduce the student to the fundamentals of mechanical drafting while using AutoCAD software in our CAD Lab. The student will be taught additional AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. Mechanical drawing problems will range from auxiliary views, rotations, developments and intersections, and dimensioning techniques of orthographic projection problems. Freehand sketching on graph paper is also integrated into each assignment. A portfolio of all the student work will be bound together to be taken home at the end of the semester.</p> <p>Prerequisites: 6601. Open to grades 9, 10, 11 and 12. Supply Fee: \$10.00.</p>
<p>ENGINEERING GRAPHICS <i>Course # 6620</i> Full year Credit: 1.0</p>	<p>The goal of the Engineering Graphics course is to expand the student's knowledge in the following areas: computer software usage, manufacturing processes, engineering and design, application of acquired knowledge in making production drawings, and career opportunities in a variety of engineering fields. Students in this class will be expected to work at an accelerated pace on individual projects and some small group work. The computer is the primary means of graphic problem solving using AutoCAD software. Students will be instructed on proper techniques using Autodesk Inventor to create 3D models. This software will lead students to the creation of model racecars that demonstrate the power of this software package. A series of problems which require model construction will also be part of the curriculum including the use of 3D printing technology (rapid prototyping). In addition, students will use 3D digitizer technology for reverse engineering applications. A portfolio of all the student work will be bound together to be taken home at the end of the year.</p> <p>Prerequisites: 6601 and 6611. Open to grades 10, 11 and 12. Supply Fee: \$18.00.</p>
<p>ENGINEERING GRAPHICS HONORS OPTION <i>Course # 6625</i> Full year Credit: 1.0</p>	<p>The core material for this course is similar to Engineering Graphics course 6620, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program.</p> <p>Prerequisites: 6601 and 6611 and department approval. Open to grades 10, 11, and 12. Supply Fee: \$18.00</p>

Technology Education

<p>ARCHITECTURAL DRAFTING Course # 6630 Full year Credit: 1.0</p>	<p>In the course, Architectural Drafting, the student will learn how to design and draw a complete set of architectural drawings necessary to construct a residential home. Room planning, flow patterns, design concepts, floor plans, construction details, elevations and presentation drawings will be completed during the first semester using a computer and AutoCAD software. Second semester students will construct a scaled (3/4"=1') model of the home they designed the first semester. In addition, non-traditional building methods will be explored: Super Insulated housing, Earth Sheltered housing, Wind Energy, Solar Energy, Energy Efficiency and Green Building. Information related to home construction, home building, building cost, permits and home buying will be explored and discussed.</p> <p>Prerequisite: 6611 or department approval. Open to grades 10, 11 and 12. Supply Fee: \$18.00.</p>
<p>ARCHITECTURAL DRAFTING HONORS OPTION Course # 6635 Full year Credit: 1.0</p>	<p>The core material for this course is similar to Architectural Drafting course 6630, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program.</p> <p>Prerequisite: 6601 and 6611 and department approval. Open to grades 10, 11 and 12. Supply Fee: \$18.00.</p>
<p>ADVANCED ENGINEERING AND ARCHITECTURAL MODELING Course # 6640 Full year Credit: 1.0</p>	<p>This course will provide the student with additional challenges as they are introduced to several 3D modeling software programs. Students will be required to use the skills learned in both their engineering and architectural graphics courses as they make the transition from 2D drawings to 3D. Students will explore software programs such as Inventor, Revit and 3D Studio Max, while developing 3D models and animating them. Students will use 3D digitizer technology for reverse engineering applications to accurately reproduce parts. They will also use 3D print technology (rapid prototyping) to generate models for visual inspection and functional testing. An electronic portfolio will record all work completed during the school year. Students will also leave the class with various 3D models they produced.</p> <p>Prerequisite: Engineering Graphics and Architectural Drafting and/or department approval. Open to grade 12. Supply Fee: \$18.00.</p>
<p>ADVANCED ENGINEERING AND ARCHITECTURAL MODELING HONORS OPTION Course # 6645 Full year Credit: 1.0</p>	<p>The core material for this course is similar to course 6640, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program.</p> <p>Prerequisite: Engineering Graphics, Architectural Drafting or Engineering Graphics Honors and department approval. Open to grade 12. Supply Fee: \$18.00.</p>
<p>GRAPHIC COMMUNICATIONS FUNDAMENTALS (GCF) Course # 6661, 6663 1st or 2nd semester Credit: 0.5</p>	<p>This course provides students with a foundation of essential skills needed for creating print and web documents. Special emphasis is placed on furnishing students with a survey of realistic experiences using Adobe Illustrator and PhotoShop. Areas of study include technical illustration, typography, color models, photo retouching and image preparation. This course focuses on development of sound fundamental skills used in later Graphic Communications courses.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$10.00</p>
<p>GRAPHIC COMMUNICATIONS - DESKTOP PUBLISHING (GCDP) Course # 6650, 6651 1st or 2nd semester Credit: 0.5</p>	<p>Learn to design, layout and prepare documents for print. Use of Adobe InDesign and related Adobe products is stressed. Topics include typography and typographic controls, color usage, preparation of photographic and line art, working with copy, setting up master pages and style sheets, paper characteristics, and binding processes. This course covers essential skills used in producing the Devil's Advocate (newspaper) and El Diablo (yearbook) and is especially recommended for students who are interested in editorial positions.</p> <p>Prerequisite: GCF or Journalism 1 (J1 taken concurrently with department approval) Supply Fee: \$10.00. Open to grades 9, 10, 11 and 12.</p>

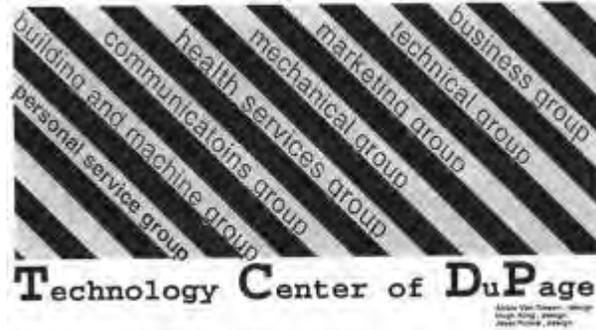

Technology Education

<p>GRAPHIC COMMUNICATIONS - DESKTOP PUBLISHING HONORS OPTION (GCDP) <i>Course # 6652, 6653</i> 1st or 2nd semester Credit: 0.5</p>	<p>The core material for this course is similar to course 6640, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF) or Journalism 1 (J1 taken concurrently with department approval). Supply Fee: \$10.00. Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS - WEB DESIGN (GCW) <i>Course # 6662, 6664</i> 1st or 2nd semester Credit: 0.5</p>	<p>Create professional looking websites! Web Design provides students with an overview of essential disciplines found in web development and the skills necessary to visually create websites using Adobe Dreamweaver. Although this is not a programming course, basic coding principles will be covered. Areas of study include Internet history, information architecture, site mapping and wireframe development, user experience (UX), search engine optimization (SEO), and development of fluency with Dreamweaver.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF). Supply Fee: \$10.00. Open to grades 9, 10, 11 and 12.</p>
<p>GRAPHIC COMMUNICATIONS - WEB DESIGN HONORS OPTION (GCW) <i>Course # 6667, 6668</i> 1st or 2nd semester Credit: 0.5</p>	<p>The core material for this course is similar to course 6662, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF). Supply Fee: \$10.00. Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS - WEB-BASED MULTIMEDIA (GCOMM) <i>Course # 6681, 6682</i> 1st or 2nd semester Credit: 0.5</p>	<p>Create motion graphics and video! This course give students the skills to create animated graphics, Flash animations, and produce simple videos. Students will gain experience using industry standard software like Adobe Image Ready and Flash to create many to the types of motion graphics found on the web. Students will also be introduced to digital video and learn how to capture and edit their footage, ultimately producing their own short commercials.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF). Supply Fee: \$10.00. Open to grades 9, 10, 11 and 12.</p>
<p>GRAPHIC COMMUNICATIONS - ADVANCED GRAPHICS (GCA) <i>Course # 6660, 6665</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed for those students who wish to apply the skills learned in their study of Graphic Communications more deeply to real world projects. Students will focus on several areas of interest and develop real world products in a client-project manager arrangement.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF) and one of the following: GCW, GCOMM, GCDP. Supply Fee: \$10.00. Open to grades 10, 11 and 12.</p>
<p>GRAPHIC COMMUNICATIONS - ADVANCED GRAPHICS HONORS OPTION (GCA) <i>Course # 6666, 6669</i> 1st or 2nd semester Credit: 0.5</p>	<p>The core material for this course is similar to course 6660/6665; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF) and one of the following: GCW, GCOMM, GCDP, and department approval. Supply Fee: \$10.00. Open to grades 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS - INDEPENDENT STUDY (GCIS) <i>Course # 6905, 6906</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is intended for students who have exhausted other course offerings and wish to further skills learned in the Graphic Communications program in an independent atmosphere.</p> <p>Prerequisite: departmental approval. Supply Fee: \$10.00. Open to grades 11 and 12</p>

Technology Education

<p>BASIC PHOTOGRAPHY <i>Course # 6691, 6692</i> 1st or 2nd semester Credit: 0.5</p>	<p>Basic photography is for students interested in learning the techniques necessary to produce technically correct and aesthetically pleasing photographs. Digital and film capture of images will be explored. Areas of study will include, but are not limited to, the composition of a good photograph; the processing of black and white photographic materials; and proper application of photographic equipment and supplies. Photographic equipment and supplies will be provided along with cameras for students who do not have access to a Single Lens Reflex (SLR) camera.</p> <p>Prerequisites: None. Supply Fee: \$35.00. Open to grades 10, 11 and 12</p>
<p>DIGITAL COLOR PHOTOGRAPHY <i>Course # 6701, 6702</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is for someone interested in the modern methods of Digital Color Photography. The student will use a digital camera to capture images. After capture, editing will be accomplished in the digital darkroom using the computer and the software Photoshop. Areas of study include, but are not limited to, the principles of color and light; elements of a good photograph; capturing images with a digital camera; editing a photograph for presentation with Photoshop; printing a digital file in color; and preparing a photograph for display. The studio will be used to further the use of shade and shadow, light ratios, and photographic composition techniques. Still life and portrait techniques will be explored. Equipment and supplies will be furnished. Cameras are available for students who do not own or have access to a digital camera. Basic Photography and Digital Color Photography together have articulated credit with the College of DuPage.</p> <p>Prerequisite: Basic Photography. Supply Fee: \$35.00. Open to grades 10, 11 and 12.</p>
<p>DIGITAL COLOR PHOTOGRAPHY HONORS OPTION <i>Course # 6703, 6704</i> 1st or 2nd semester Credit: 0.5</p>	<p>The core material for this course is similar to course 6701, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for high motivated students.</p> <p>Prerequisite: Basic Photography. Supply Fee: \$35.00. Open to grades 10, 11 and 12.</p>
<p>ADVANCED PHOTOGRAPHY <i>Course # 6812</i> 2nd semester Credit: 0.5</p>	<p>In this advanced level course, students will be expected to improve upon their current level of photographic ability. Students will have the opportunity to explore digital and film capture of images. In terms of technique, students will be introduced to different camera formats and the zone system (a procedure which will allow students to make more carefully controlled photographic prints.) Additionally, some non-traditional films, papers, and emulsions will be introduced. In terms of content, through class assignments and independent work, students will further their use of photographic medium to more effectively articulate ideas. Students will have the opportunity to work with black and white film, color film, infrared film, and digital cameras to capture images. Students will be expected to properly display and critique their photographic work.</p> <p>Prerequisites: Basic Photography and Color Photography with instructor approval. Supply fee: \$40.00. Open to grades 11 and 12</p>
<p>ADVANCED PHOTOGRAPHY HONORS OPTION <i>Course # 6814</i> 2nd semester Credit: 0.5</p>	<p>The core material of this course is similar to course 6812; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is recommended for highly motivated students.</p> <p>Prerequisites: Basic Photography and Color Photography with instructor approval. Supply fee: \$40.00. Open to grades 11 and 12</p>
<p>PHOTOGRAPHY INDEPENDENT STUDY <i>Course # 6907, 6908</i> Credit: 0.5</p>	<p>This course is designed for students who have completed course sequence in photography program and desire further independent course work.</p> <p>Prerequisite: Departmental Approval. Supply Fee: \$40.00. Open to grades 11 and 12.</p>

Technology Center of DuPage

Hinsdale High School District No. 86 participates with other high school districts in DuPage County to support an area technology center. Technology Center of DuPage provides comprehensive vocational-technical education for high school students whose career objectives are related to vocational-technical fields. Students are bused to the center (located in Addison) for half-day sessions each day (periods five through ten). During the other half of the school day (periods one through four), students attend classes and lunch and participate in extra-curricular activities at Hinsdale Central. Credits earned at TCD can be used to satisfy the units required for graduation. All TCD courses will satisfy the District 86 graduation requirement in Applied Arts. A maximum of 3.0 units of credit can be earned yearly through TCD course work and 3.0 additional units of credit can be earned per year through Hinsdale Central course work.

Students are expected to follow Hinsdale Central's disciplinary code both at Hinsdale and at TCD. If a student violates school policy and is not permitted to ride the school bus, the student will be withdrawn from his TCD courses and receive a failed grade.

TCD offers junior - senior level programs in the following areas. "Kit fees" from the 2012- 2013 school year are listed below for each area. Cost is range for first and second years.

PROGRAMS	1 st Year	2 nd Year
Construction Trades	\$190 - \$350	\$135. - \$145
Landscape Design & Management	\$125 - \$235	\$60 - \$100
Computer Integrated Manufacturing	\$150 - \$175	\$75 - \$100
Pre-Architectural & Pre-Engineering Technology CAD	\$125	\$75 - \$85
Computer Information Systems	\$12 - \$15	\$12 - \$15
Data Entry	\$50 - \$125	\$5 - \$15
Office Systems Technology	\$95 - \$125	\$5 - \$15
Graphic Communications	\$75 - \$90	\$35 - \$50
Multimedia & TV Production	\$150 - \$165	\$65 - 75
Certified Nurse Assistant	\$250 - \$260	
Medical & Health Care Careers	\$120 - \$150	
Criminal Justice	\$150 - \$185	\$65 - \$100
Fire Science	\$250 - \$300	\$250 - \$300
Auto Body Repair Refinishing	\$160 - \$175	\$160 - \$175
Automotive Technology	\$275 - \$330	\$60 - \$165
Cosmetology	\$475 - \$500	\$200 - \$300
Culinary, Pastry Arts, & Hospitality Management	\$250 - \$350	\$250 - \$350
Early Childhood Education & Care	\$75 - \$95	\$25 - \$30
Electronics & Pre-Engineering Technology	\$70 - \$80	\$85 - \$90
HVACR	\$215 - \$270	\$110 - \$120
Residential Wiring & Home Technology	\$350	

T.C.D. Department

TECHNOLOGY CENTER OF DUPAGE (TCD) 2012 - 2013

TECHNOLOGY CENTER OF DU PAGE CAREER PROGRAMS

Course # 9010
Credit: 3.0

The requirements and objectives associated with the specific Technology Center of DuPage (TCD) programs listed above vary greatly. Students who wish further information about a particular program and/or wish to register for a TCD program must see their counselor. All students must fill out a separate TCD form with parent signature and return to their counselor.

Prerequisite: None. Open to grades 11 and 12.

GENERAL INFORMATION

The twenty one programs operating at TCD are open to juniors and seniors. The TCD campus is located in Addison, Illinois, approximately thirty minutes from Hinsdale Central. Students are scheduled through their counselors to have fourth period lunch and attend TCD the remainder of the day. TCD offers three elective credits which count towards the elective arts graduation requirement. TCD is a yearlong program; therefore, students should enroll in February for the following year during their registration conference with their counselor. Each student must fill out a TCD application signed by a parent and their counselor. Although there are no specific requirements for TCD enrollment (other than being of junior or senior status), students are advised to work closely with their counselors to fit in all graduation requirements. Please refer to the TCD website: <http://www.tcdupage.org> for more information.

CUSTOMIZE YOUR CURRICULUM

TCD helps students learn on two levels. First, it provides hands-on basics to offer experiences that go beyond theory. Secondly, it helps provide a practical workplace to sharpen skills necessary for a chosen career. TCD incorporates a self-paced, goal by goal learning style which encourages self-management and productivity.

ACCREDITATION

TCD is fully accredited by the North Central Association Commission on Accreditation and School Improvement (NA-CASI). It is one of the Midwest's finest schools for career and technical education, and the recipient of the Lincoln Award for Commitment to Excellence from the Lincoln Foundation.

EARN COLLEGE CREDIT AND SCHOLARSHIPS

Many programs offer dual credit through College of DuPage that can be transferred to other colleges and universities accepting COD course work. Other colleges offer advanced standing or credit upon enrollment, including Lewis University, Ferris State University, Triton Junior College, Kendall College, William Rainey Harper College, Johnson & Wales University, and the Cooking & Hospitality Institute of Chicago.

COLLEGE ARTICULATED CREDIT THROUGH TCD PROGRAMS

Hinsdale Township High School District 86 and the College of DuPage have an agreement, articulated credits, in which Hinsdale Central students may receive credit for courses taken in high school once they are enrolled in the College of DuPage. A minimum grade of B must be earned in a TCD course in order to receive COD credit. There is no formal sign up process for the students to be eligible to receive this credit. TCD courses can provide between two and six semester credit hours depending on the program. Other colleges in addition to COD accepting articulated credit from TCD courses include Triton College, Lewis University, Harper college, Johnson and Wales University, Kendall College and The Cooking and Hospitality Institute of Chicago.

SCHOLARSHIPS AND AWARDS

A TCD student can gain recognition and win scholarships like the Hospitality Club and Skills USA. TCD instructors are also aware of many industry-related and organizational scholarships specifically for students in career and technical education.

GRADUATE SUCCESSES

- One year after graduation:
- 59% continued their education
- 32% work full-time, a third of those in their related field
- 2% work and go to school
- 3% enter the military

CAREER ACCELERATION PROGRAMS

TCD offers twenty one of the fastest growing occupations. The knowledge a student will gain can also be applied to a wider range of career choices.

PROFESSIONAL LICENSING

Through TCD a student can earn industry-recognized credentials that opens doors. TCD programs help students prepare for career-related state, federal, professional or national licensing exams.

ACCREDITATION

TCD is part of Hinsdale Central's elective courses. TCD is not a trade school, nor is it a college. TCD focuses on teaching career skills as well as enhancing basic principles of academics. There is no charge to attend TCD. However, programs do have fees for supplies, tools or uniforms as noted in each course description. TCD is a great option for students wishing to pursue a more "career oriented" curriculum. Interested students should work closely with their counselors regarding which program might be best suited for their needs.

Maggie Ahern, design

World Languages

Hinsdale Central World Languages Department Department Mission Statement

Our mission as a department is to enable students to acquire, develop, expand, and apply their knowledge of a new language.

We do this by working collaboratively within our learning community to:

- Maximize student potential for learning and language acquisition
- Guide student learning by modeling good study habits and effective learning skills.

We do this so that students can integrate and transfer knowledge of a new language throughout their lives, and gain a broader perspective and understanding of world cultures within a respectful community of learners.

Two years of the same language will fulfill the entrance requirement of the state public universities in Illinois. Most other universities require world language study for admission and may require it for graduation from specific degree programs. ***High school students preparing for college should include one or more world languages in their preparation.***

Students entering ninth grade with previous world language experience can complete the equivalent of five or six years of high school work, which may include Advanced Placement work. Students who complete the upper levels of a language often test out of the world language requirements, receive college credit, and/or are placed in advanced language courses in college. A sequence of honors level courses is available in all languages offered by the Department.

Two or more world languages may be taken simultaneously. The latest research indicates that studying two languages at the same time is beneficial and that world language study has positive effects on a student's English language skills. Completing the third and fourth year in a sequence significantly improves achievement and fluency. Etymology, a semester course, is highly recommended to all students who wish to increase their knowledge and understanding of vocabulary.

The first semester of a language must be passed before a student may take the second semester of the same language. Credit must be earned in both semesters of one level of a language before advancing to the next level.

FRENCH	
FRENCH 1 Course # 4110 Full year Credit: 1.0	<p>French 1 offers a basic introduction to the vocabulary and grammar of the language. The pace of the course begins moderately and increases as students have more experience with the language. Students will be taught basic reading and writing strategies using textbook examples. Reading, writing, speaking and listening skills are practiced and assessed regularly. Readings and projects center on cultural information. Although grammar concepts may be taught in English, students are always expected to use French in class to the extent possible. This course is conducted mostly in French.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. Students who repeat French 1 may not take French 2 Honors the following year.</p>
FRENCH 1 HONORS Course # 4115 Prerequisite: Yes Credit: 1.0 Grade Offered: 9-12	<p>The sequential core material for this course is the same as French 4110. The pace is accelerated to allow for the reading and discussion of some short stories and short books, as well as other activities to challenge the more capable student. This course is conducted in French to a greater extent than is French 4110.</p> <p>Prerequisite: This class is for students who have not previously studied French. Departmental approval or recommendation of the junior high school teacher. Open to grades 9, 10, 11 and 12. Students who have taken French in middle school may not register for this course.</p>
FRENCH 2 Course # 4120 Full year Credit: 1.0	<p>This course is an articulated continuation of the French 1 program and continues building the same skills. Students are expected to participate actively in class activities and function in French to a great extent, and all four skills are evaluated.</p> <p>Prerequisite: A grade of C or better in French 1, or recommendation of the junior high school teacher. Open to grades 9, 10, 11 and 12.</p>
FRENCH 2 HONORS Course # 4125 Full year Credit: 1.0	<p>The sequential core material for this course is the same as French 4120. The pace is accelerated to allow for the reading and discussion of some short stories and short books, as well as other activities to challenge the more capable student. This course is conducted in French to a greater extent than is French 4120.</p> <p>Prerequisite: Departmental approval or recommendation of the junior high school teacher. Open to grades 9, 10, 11 and 12.</p>
FRENCH 3 Course # 4130 Full year Credit: 1.0	<p>This course is the study of the geography and culture of France interwoven concurrently with the study of grammar. Class activities include daily discussions of reading assignments enriched through film, French TV, news clips, slides and newspaper articles. In addition, students do oral presentations and write short compositions. During second semester, students read and discuss <i>Le Petit Prince</i>. The course is conducted extensively in French.</p> <p>Prerequisite: A grade of C or better in French 2. Open to grades 9, 10, 11 and 12.</p>
FRENCH 3 HONORS Course # 4135 Full year Credit: 1.0	<p>The sequential core material for this course is the same as French 4130. The pace is accelerated; the breadth and scope of the coverage is expanded, and some material is added to challenge the capabilities of the more able students. The course is conducted extensively in French.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11 and 12.</p>
FRENCH 4 Course # 4140 Full year Credit: 1.0	<p>French 4 is the study of the history, and art of France throughout the centuries (pre-history to present times). Class activities include discussions of prepared reading selections, oral presentations, and the intensive study of one film. The course of study also emphasizes systematic grammar review and limited composition practice.</p> <p>Prerequisite: A grade of C or better in French 3. Open to grades 10, 11 and 12.</p>

World Languages

FRENCH continued	
FRENCH 4 HONORS <i>Course # 4145</i> Full year Credit: 1.0	French 4 Honors is the study of the history, and art of France throughout the centuries (pre-history to present times). Class activities include discussions of prepared reading selections, oral presentations, and the intensive study of one film. The course of study covers systematic grammar review and more extensive composition practice than French 4. Inasmuch as this course leads sequentially to the AP French 5 course, the course content is supplemented with more challenging reading materials and special emphasis is put on oral proficiency. Prerequisite: Departmental approval. Open to grades 10, 11 and 12.
FRENCH 5 <i>Course # 4150</i> Full year Credit: 1.0	French 5 is a course that integrates the study of literature, advanced grammar and current events in France. The readings consist of short stories, and a novel from the 20th century organized around the themes of human relationships, moral dilemmas and existentialism. Class activities include discussions of texts in French, the study of one film per semester and improving grammar and writing proficiency. The course is conducted extensively in French Prerequisite: A grade of C or better in French 4. Open to grades 11 and 12.
ADVANCED PLACEMENT FRENCH LANGUAGE <i>Course # 4155</i> Full year Credit: 1.0	Advanced Placement French Language, a study of literature of the 19 th and 20 th centuries, provides intensive and extensive reading, discussion and analysis in French of selected literary masterpieces by Mérimée, Rostand, and Voltaire. Students also write compositions in French on non-literary topics and study some current events with excerpts from French television. Advanced grammar review is continued. Course content is designed to improve all four language skills with special emphasis on idiomatic usage, and to prepare students for the Advanced Placement language exam in French. Prerequisite: Departmental approval. Open to grades 11 and 12.
GERMAN	
GERMAN 1 <i>Course # 4210</i> Full year Credit: 1.0	German 1 offers an introduction to the basic grammar and vocabulary of the language. Students are actively engaged in learning activities that allow them to practice and use German. Students use the language in structured activities, interactive conversations, and short presentations. Reading and writing exercises use material previously practiced orally. Assessment measures listening, speaking, reading and writing. The course is conducted extensively in German. Prerequisite: None. Open to grades 9, 10, 11 and 12.
GERMAN 1 HONORS <i>Course # 4215</i> Full year Credit: 1.0	The sequential core material for this course is the same as German 4210. The pace is accelerated and the breadth and scope of the coverage is expanded. Some material is added to challenge the capabilities of the more able students. Prerequisite: Departmental approval. Open to grades 9, 10, 11 and 12.
GERMAN 2 <i>Course # 4220</i> Full year Credit: 1.0	This course is a continuation of the first level course, developing more complex oral, reading, and writing skills. The course is conducted almost entirely in German. Supplementary reading of simple selections may be used to introduce the student to the world of German literature and to improve the student's ability in speaking and writing. Prerequisite: A grade of C or better in German 1. Open to grades 10, 11 and 12.
GERMAN 2 HONORS <i>Course # 4225</i> Full year Credit: 1.0	The sequential core material for this course is the same as German 4220. The pace is accelerated; the breadth and scope of the coverage is expanded and some material is added to challenge the capabilities of the more able students. Prerequisite: Departmental approval. Open to grades 10, 11 and 12.

World Languages

GERMAN continued	
GERMAN 3 <i>Course # 4260</i> Full year Credit: 1.0	German 3 is designed to develop greater fluency in oral proficiency, reading, writing, and further appreciation of German history and culture. The course features a selection of prose and poetry by contemporary and earlier German writers, and a systematic review and extension of basic grammar patterns. In addition to a basic text, one or more literary readers or plays may be used. Activities center around classroom discussion of reading selections, oral presentations, and original skits by students. The course is conducted extensively in German. Prerequisite: Departmental approval. Open to grades 10, 11 and 12.
GERMAN 3 HONORS <i>Course # 4265</i> Full year Credit: 1.0	The sequential core material for this course is the same as German 3. The pace is accelerated; the breadth and scope of the coverage is expanded. Some material is added to challenge the capabilities of the more able students. The course is conducted extensively in German. Prerequisite: Departmental approval. Open to grades 10, 11 and 12.
GERMAN 4 <i>Course # 4270</i> Full year Credit: 1.0	German 4 provides an introduction to contemporary German life, literature and culture. The objective is to increase the student's skills in oral and written expression, and to give systematic cultural information and grammatical review. In addition to a basic cultural reader, selections of modern German short fiction will acquaint the student with present day trends and attitudes. Class activities center around classroom discussion of reading selections, including current news magazines. The materials and activities utilized in this course will help students to further improve and refine all four language skills. The course is conducted extensively in German. Prerequisite: Departmental approval. Open to grades 10, 11 and 12.
GERMAN 4 HONORS <i>Course # 4275</i> Full year Credit: 1.0	The sequential core material is the same as German 4. The pace is accelerated; the breadth and scope of coverage is expanded. Some material is added to challenge the capabilities of the more able students. Material and activities utilized in this course will help students to further improve and refine all four language skills. The course is conducted exclusively in German. Prerequisite: Departmental approval. Open to grades 10, 11 and 12.
LATIN	
LATIN 1 <i>Course # 4310</i> Full year Credit: 1.0	Latin 1 is primarily designed to develop a student's ability to read and comprehend the Latin language. Students begin by learning the peculiar demands of an inflected language, and are then introduced to Latin morphology, the declensions of its nouns and the conjugation of its verbs. Gradually, elements of syntax and grammar introduce the students to the fundamental requirements needed to read. Concurrent with these pursuits will be an ongoing discovery of the structure of the English language and its many borrowings from the Latin structure. Students' grasp of English grammar will grow substantially. An ever-evolving Latin vocabulary helps students understand essential concepts in etymology, derivatives, and building a stronger and more precise vocabulary in English. Roman and Greek mythology and Roman daily life comprise the cultural component of the course. Prerequisite: None. Open to grades 9, 10, 11 and 12.
LATIN 1 HONORS <i>Course # 4315</i> Full year Credit: 1.0	The sequential core material for this course is the same as Latin 4310. The pace is accelerated; the breadth and scope of the coverage is expanded and some material is added to challenge the capabilities of the more able students. Prerequisite: Departmental approval. Open to grades 9, 10, 11 and 12.

LATIN continued	
LATIN 2 <i>Course # 4320</i> Full year Credit: 1.0	This course builds on the grammatical and structural foundations established in Latin I. An emphasis is placed on reading and comprehending Latin. Students will learn advanced grammar and move on to their first experience with unadulterated Latin. The cultural focus of the course will be the formation and development of the Roman Republic. Prerequisite: A grade of C or better in Latin 1. Open to grades 10, 11 and 12.
LATIN 2 HONORS <i>Course # 4325</i> Full year Credit: 1.0	The sequential core material for this course is the same as Latin 4320. The pace is accelerated; the breadth and scope of the coverage is expanded and some material is added to challenge the capabilities of the more able students. Prerequisite: Departmental approval. Open to grades 10, 11 and 12.
LATIN 3-4 LATIN LITERATURE <i>Course # 4340</i> Full year Credit: 1.0 <div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 10px auto;">Offered 2012 - 2013</div>	This course is a survey of Latin literature sampling several genres including letters, oratory, epigram, history, narrative, philosophy, lyric and elegiac poetry. The survey is designed to further develop students' translation abilities as they review essential grammar and vocabulary. The work will explore the boundaries of each genre and its specific application. Attention will also be paid to the larger historical context of the authors and their works to provide students with an upper level understanding of Roman thought and custom. Prerequisite: Latin 2 and departmental approval. Latin 4340 and 4360 are offered in alternate years only. In 2013-2014 Latin 3-4 Vergil (4360) will be offered. In 2012-2013 Latin 3-4 Latin Literature will be offered. Open to grades 11 and 12.
LATIN 3-4 VERGIL <i>Course # 4360</i> Full year Credit: 1.0 <div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 10px auto;">Offered 2013 - 2014</div>	This course involves a thorough reading and analysis of Vergil's major work, the Aeneid. The course works to establish the larger historical, literary, and political context through which the purpose of the poem can be understood. Special attention will be paid to Vergil's use of meter, rhetorical and poetic figures of speech, poetic imagery, diction, as well as his manipulations of the Latin language. Prerequisite: Latin 2 and departmental approval. Latin 4340 and 4360 are offered in alternate years only. In 2013-2014 Latin 3-4 Vergil (4360) will be offered. In 2012-2013 Latin 3-4 Latin Literature will be offered. Open to grades 11 and 12.
LATIN LITERATURE HONORS <i>Course # 4355</i> Full year Credit: 1.0 <div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 10px auto;">Offered 2012 - 2013</div>	The sequential core material of this course is the same as Latin 4340. The pace is accelerated; the breadth and scope of the coverage is expanded, and some material is added to challenge the capabilities of the more able students. Prerequisite: Latin 2 and departmental approval. Latin Literature Honors 4355 and AP Latin Vergil 4365 are offered in alternate years only. In 2013-2014 AP Latin Vergil (4365) will be offered. In 2012-2013 Latin Literature Honors will be offered. Open to grades 11 and 12.
ADVANCED PLACEMENT LATIN VERGIL <i>Course # 4365</i> Full year Credit: 1.0 <div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 10px auto;">Offered 2013 - 2014</div>	Preparatory to the Advanced Placement exam, the Advanced Placement Vergil course involves a thorough reading and analysis of the poet's major work, the Aeneid. After reading Homer's <i>Iliad</i> and <i>Odyssey</i> in translation, the course works to establish the larger historical, literary, and political context through which the purpose of the poem can be understood. Special attention will be paid to Vergil's use of meter, rhetorical and poetic figures of speech, poetic imagery, diction, as well as his manipulations of the Latin language. Essay writing will be developed in line with the close literary analysis required by the College Board. Pending a decision by the AP College Board, some as of yet undetermined number of lines from Caesar's works will be added. Prerequisite: Latin 2 and departmental approval. Latin Literature Honors 4355 and AP Latin 4365 are offered in alternate years only. In 2013-2014 AP Latin Vergil (4365) will be offered. In 2012-2013 Latin Literature Honors will be offered. Open to grades 11 and 12.

World Languages

ETYMOLOGY	
<p>ETYMOLOGY Course # 4371, 4372 1st or 2nd Semester Credit: 0.5</p>	<p>Etymology is designed to increase one's knowledge and understanding of English vocabulary through the study of the most important Greek and Latin roots. Students learn to discover meanings of words through recognition and interpretation of their elements. The skills learned in Etymology equip students to decode vocabulary words encountered elsewhere (transfer of knowledge). The ability to memorize is a necessary fundamental skill. Recommended for all qualifying students who would like to develop their vocabulary before taking standardized tests</p> <p>Prerequisite: A grade of C or better in the foreign language most recently studied, or (if no foreign language) consent of the department chair. Open to grades 9, 10, 11 and 12, and especially recommended to sophomores.</p>
SPANISH	
<p>INTRODUCTION TO SPANISH Course # 4505 Full year Credit: 1.0</p>	<p>Introduction to Spanish 1 is a first year Spanish course designed to emphasize Spanish 1 vocabulary, grammatical concepts, and foreign language study skills in order to provide necessary and additional support to new language learners. The course is designed to provide students with vocabulary and grammar acquisition skills that are crucial to the student's success in future second language study. The course will also focus on developing student responsibility for his or her own learning. Students will learn organization and study skills that will support successful study of a language. Students who successfully complete this course will be able to continue and complete their study of Spanish 1 the following year. The textbook for this course is Realidades Level 1.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. (This course is not open to students who have previously taken Spanish courses.)</p>
<p>SPANISH 1 Course # 4510 Full year Credit: 1.0</p>	<p>An introductory course which develops communication skills with an emphasis on listening and speaking. The student is taught to use the language actively through extensive oral work in daily dialogue, grammar patterns, and idioms. Reading and writing exercises use materials previously practiced orally. Evaluation measures listening, speaking, reading, and writing. The course is conducted extensively in Spanish. This course is for students who have not taken a full year of Spanish before or have taken Spanish at the junior high level but received a grade of B- or lower. The textbook and workbook for this course is <u>Realidades Level 1</u>.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. Students who repeat Spanish 1 may not take Spanish 2 Honors the following year.</p>
<p>SPANISH 2 Course # 4520 Full year Credit: 1.0</p>	<p>This course is a continuation of the first level course, developing more complex oral, reading and writing skills. Students are expected to participate actively in class activities and to function in Spanish to a greater extent, and all four skills are evaluated. Supplementary reading of simple selections and books will be used to improve students' ability in reading, speaking, and writing. This course is conducted almost entirely in Spanish.</p> <p>Prerequisite: A grade of C or above in Spanish 1 or recommendation of the junior high teacher. Open to grades 9, 10, 11 and 12</p>

SPANISH continued	
SPANISH 2 HONORS <i>Course # 4525</i> Full year Credit: 1.0	Although the core material for this course is the same as Spanish 4520, this course uses a higher level text. In addition, students will be taught specific strategies for reading, writing and listening. The pace is also accelerated to allow for the reading and discussion of authentic literary selections. Reading, writing, speaking, and listening skills are practiced and assessed regularly. This course is designed for students who have had success in Spanish 4510 (or Jr. High equivalent) and who demonstrate the characteristics of a self-directed, mature student. This course is conducted almost entirely in Spanish. Prerequisite: Departmental approval. Recommendation of the junior high teacher for freshmen. Open to grades 9, 10, 11 and 12.
SPANISH 3 <i>Course # 4530</i> Full year Credit: 1.0	Spanish 3 is structured to maintain and improve the listening and speaking skills already developed in the first and second years, and to give increased emphasis to the development of reading and writing, while honing grammar skills. The basic text materials include short reading selections, as well as speaking activities and grammar explanations. The classes are conducted extensively in Spanish, making use of structured drills and conversation stimuli to accompany the increased reading and writing exercises. Prerequisite: A grade of C or better in Spanish 2. Open to grades 9, 10, 11 and 12.
SPANISH 3 HONORS <i>Course # 4535</i> Full year Credit: 1.0	The sequential core material for this course is similar to Spanish 4530. The pace is accelerated; the breadth and scope of the coverage is expanded. Material is added to challenge students' capabilities. Additionally, students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. The class is conducted extensively in Spanish. Prerequisite: Departmental approval. Open to grades 9, 10, 11 and 12.
SPANISH 4 <i>Course # 4540</i> Full year Credit: 1.0	Spanish 4 is a hybrid course developing conversational skills as well as increasing knowledge of Spanish culture, history, and literature. This course includes the traditional study of grammar, as well as augmenting the students' vocabulary with an emphasis on oral communication skills. Students learn to interact with literature using a variety of reading strategies and linguistic skills to develop an appreciation for and understanding of the Spanish culture. Students read, write, and present throughout the year. This course is conducted entirely in Spanish. Upon completion of this course, students earning an A or a B will be able to take Advanced Placement Spanish. Prerequisite: A grade of C or better in Spanish 3. Open to grades 10, 11 and 12.
SPANISH 5 HONORS: SPANISH STUDIES <i>Course # 4545</i> Full year Credit: 1.0	This course offers the opportunity to learn about the Spanish culture through reading and discussing the written word. The focus of this course is increasing students' understanding of the history and culture of Spain as they interact with different genres of literature. In addition to reading, students will write essays and do presentations for each unit of study with a focus on developing their oral and written communication skills. This course is designed for students who have had success in Spanish 4535, 4540, or 4555. This course is conducted entirely in Spanish. Prerequisite: Departmental approval. Open to grades 10, 11 and 12.
SPANISH 5 HONORS: LATIN AMERICAN STUDIES <i>Course # 4550</i> Full year Credit: 1.0	This course offers the opportunity to learn about Latin American cultures through reading and discussing the written word. The focus of this course is increasing students' understanding of the history and culture of Latin America as they interact with different genres of literature. In addition to reading, students will write essays and do presentations for each unit of study with a focus on developing their oral and written communication skills. This course is designed for students who have had success in Spanish 4535, 4540, or 4555. This course is conducted entirely in Spanish. Prerequisite: Departmental approval. Open to grades 10, 11 and 12.

World Languages

SPANISH continued	
<p>ADVANCED PLACEMENT SPANISH LANGUAGE <i>Course # 4555</i> Full year Credit: 1.0</p>	<p>This course surveys the literature, culture and thought of Hispanic America. Students read selections from representative works and cultural texts, participate in classroom discussions, give oral reports and write essays of various lengths. The class is conducted extensively in Spanish and students are expected to be conversant in the language. The class will also prepare those students who wish to take the Advanced Placement exam in Spanish Language.</p> <p>Prerequisite: Departmental approval. A grade of an A or a B in Spanish 4540, 4545, or 4550. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT SPANISH LITERATURE <i>Course # 4565</i> Full year Credit: 1.0</p>	<p>The AP Spanish Literature course is based on those representative works suggested by the AP board and required for the AP Spanish Literature exam. This course surveys the literature of Spain and Hispanic America in a sequential and thematic fashion. Students are required to read and write outside of class, take part in classroom discussions, present reports and compose essays in order to prepare for the Advanced Placement exam in Spanish Literature.</p> <p>Prerequisite: Departmental approval. A grade of an A or a B in Spanish 4540, 4545, or 4550. Open to grades 11 and 12.</p>

hinsdale central high school

Dear Students and Parents,

Hinsdale Central High School is a wonderful place to be a student where your academic course work prepares you to reach your future goals. Registering for next year's courses is a part of that experience.

The 2013-2014 edition of the Hinsdale Central Program of Studies book is an important resource for students and parents which we hope will assist you in making good course choices.

As you page through the Program of Studies, you will find that the book is divided into three distinct sections. The first contains general information about such topics as graduation requirements, dropping and adding courses, schedule changes, and college admission requirements. The second section provides descriptions of all course options available to students. The last section provides students and parents with registration information for next year, worksheets for course selection, the four-year plan, and the graduation credit checklist.

We suggest that you view the registration process in the broad scope of a four-year plan as you reflect on your personal strengths, interests and future plans. Parents, teachers, and your counselor will guide you through this process. We encourage you to make careful consideration of the opportunities available to you so that you are able to make the best use of the academic opportunities available to you.

You should use this Program of Studies book to prepare for your registration appointment with your Guidance Counselor. These will be scheduled in January or early February. As you prepare, carefully review the general information section, analyze the course descriptions and "pencil in" your choices on the worksheets at the back of this handbook.

It is important to know that the courses you select during this process are intended to be your final selections for the 2013-2014 school year. We develop our master schedule of classes and we hire and re-employ teachers based on the enrollment decisions you make. As high school students, you should make careful decisions and then follow through with them. Hopefully you will find our registration process one that works well for you. If you have questions or suggestions, please see your counselor.

Sincerely,

Michael McGrory
Principal

HINSDALE CENTRAL VISION STATEMENT

Adopted Fall 2003

The expectation of excellence is rooted in the traditions of Hinsdale Central. In an environment that fosters a desire to learn, all members of the organization are committed to educating each student. In order for us to succeed, we must clearly identify standards we will work to achieve and maintain. These Standards are identified in several areas and will be the benchmarks by which we will measure our success.

I. Students

The degree to which we measure our success in attaining this vision is by each student's progress. We will provide opportunities that facilitate this growth. In school we:

- a. Work to meet students' needs.
- b. Encourage students to reach their potential in all they do, and to become self-directed learners.
- c. Teach students to accept responsibility for their actions.
- d. Encourage students to get involved in their school and in their community.
- e. Let students know we believe in them and will find ways for them to succeed based on their ability and interests.

II. Staff

Attracting and retaining outstanding people is a must if we are to move toward our vision. In our school we:

- a. Demonstrate our support for a shared vision and a common sense of purpose.
- b. Encourage all members of the organization to be leaders and experts in their fields.
- c. Promote collaboration and collegial decision making on matters relating to students, curriculum, instruction and school.
- d. Facilitate the growth of our students.

III. Curriculum and Instruction

What we decide to teach and how we do so will impact the results we achieve. In our school we:

- a. Recognize our primary focus is to provide a solid base for the post-secondary education of our students, while respecting the needs of students who make alternative choices.
- b. Seek to learn effective practices and adapt them for our learning environment.
- c. Believe teachers should collaboratively determine curriculum and assessment standards.
- d. Work to assure the limited time we have to education our students is used to the greatest benefit for all our school community.

IV. Climate

All members of our community are responsible for providing a climate that contributes to our success and a high school experience that builds a sense of pride we all share. In our school we:

- a. Provide a safe and secure environment that is conducive to learning.
- b. Recognize that all relationships are based on respect for others and an understanding of each person's responsibility for his/her behavior.
- c. Understand school rules and policies exist to support our organization and are consistently applied by all staff.
- d. Recognize the achievements of all members.
- e. Encourage and model behaviors appropriate to the development of character.

V. Community

The educational community recognizes the importance of maintaining a partnership between the school and community at large. In our school we:

- a. Seek ways to improve the quality of communication between the home and school.
- b. Always provide a clear rationale for policies and practices.
- c. Share information that is important in a timely manner.
- d. Recognize that the more our community is involved and informed, the more successful we will be.

General Information

Graduation Requirements

To graduate, a student must earn a minimum of 24.0 credits and successfully meet the listed requirements.

According to state law, all students must earn two credits in courses designated as “intensive writing” courses. For this writing requirement, these credits may be earned in classes taken to fulfill other requirements (i.e. an English course may satisfy both the English graduation requirement and the “intensive writing” requirement).

Graduation Requirements

Credit

English

4.0

Mathematics

3.0

One of the 3 full credits of Mathematics required must be an Algebra 1 course and one of them must include a course with Geometry content. The Algebra course credit may be earned prior to enrollment in District 86, but students must still complete 3 full credits of Mathematics study in high school.

Science

2.0

Social Studies

2.0

World Cultures or World History - H (1.0)

U.S. History or AP U.S. History (1.0) or American Studies

Elective Arts

2.0

Only one credit per department will be counted. All courses in:

Art

Technology Education

Business

Technology Center of DuPage

Family and Consumer Sciences

World Languages

Music

Consumer Education

0.5

Successful completion of one course:

Consumer Economics

Introduction to Family & Consumer Sciences

Economics

Introduction to Business

AP Microeconomics

Special Education Related Instruction

AP Macroeconomics

Consumer Education (online course)

Physical Education/Health

4.0

Health is a required course at 10th grade and is taken in tandem with one semester of Physical Education. Students have the option of enrolling in an additional semester of Physical Education during sophomore year for an additional 0.5 credit.

**The same course may not be used to satisfy requirements for Elective Arts, and Consumer Education.*

***No student shall receive a certificate of graduation without passing a satisfactory examination on patriotism and principles of representative government, proper use of the flag, methods of voting and the Pledge of Allegiance. Moreover, each student must take the Prairie State Achievement Examination in order to receive a regular high school diploma unless the student is exempt under state law. The building Principal is responsible for notifying students and their parent(s)/guardian(s) of the District's graduation requirements.*

PSAE State Testing:

The Prairie State Achievement Examination (PSAE) is a two-day exam taken by all 11th grade students in April and is required for graduation. In order to be classified as an 11th grader, students must earn a minimum of 11.75 credits prior to the beginning their third year in high school. Students who begin their third year in high school with fewer than 11.75 credits will be classified as 10th graders solely for the purpose of PSAE testing.

General Information

Earning Course Credits

Credit in full year as well as semester courses is earned by semester. That is, students earn 1/2 unit of credit or 0.5 credit for successful completion of each semester. Credit is earned by successfully completing all course requirements as established by the teacher. Excessive absences may result in removal from a course and/or loss of credit.

Alternative Courses

E-learning, correspondence, or college courses may be counted toward graduation if they meet certain requirements. Prior written approval from the Director of Guidance is required. Such courses must be from an accredited institution and include at least 60 seat hours. The student assumes responsibility for all fees. After completing an alternative course, proof of mastery of material may be required before enrolling in an advanced course. For everyone – one online class per semester and two online classes during the summer. Courses will appear on a student’s transcript as transfer credit and will be calculated into their GPA.

Academic Load

Students must be enrolled in a minimum of six (6) courses per semester.

Admission Requirements

Admission requirements are based upon evidence of normal progress and achievement in the previous school. Incoming freshman are required to submit evidence of satisfactory completion of the 8th grade. Transcripts of credits earned and grade placement are required from the previous school for all students transferring from other secondary schools. Transfer credit and grades will be determined by the Registrar and are based on Hinsdale Central’s curriculum and requirements. The report of a health examination and required immunizations at the 9th grade level is required by law. Students will not be allowed to attend school if this state requirement is not met. In addition, all students participating in athletics must have a physical examination for each year in which they participate. We cannot emphasize too strongly the need for this to be accomplished prior to the opening of school.

Articulated Credit and Dual Credit at the College of DuPage

The College of DuPage awards articulated or dual credit when learning experiences at the secondary level of instruction duplicate those at the post-secondary level. These programs enable students to save time and avoid duplication of material already learned in high school. Articulated credits are only applicable to the College of DuPage while dual credits can be accepted at any college or university that accepts transfer credits. Students may request a transcript from C.O.D. with these courses listed after the end of the semester.

College of DuPage	Hinsdale Central	C.O.D. Credits
Photography	Basic and Digital Color Photography	5
Accounting	Accounting and Accounting Honors	3

Junior High/Middle School Students

Junior high schools that feed into District 86 unable to offer advanced coursework for their students may send their students to District 86 for those courses. In these cases, all courses, grades and credit earned will appear on the transcript but will not be calculated into the grade point average earned in subsequent years at a high school in District 86. If the course is taken at Hinsdale South High School and the student attends Hinsdale Central High School, the course, grades, and credit earned will appear as transfer credit. If the course is taken at the District 86 school the student attends, the course, grades, and credit earned will appear as regular credit.

Advanced Placement Program

The Advanced Placement (AP) Program provides students with the opportunity to pursue college-level studies while still in high school and to receive advanced placement and/or credit when entering college. Qualified, academically-oriented students in the 10th, 11th and 12th grades are eligible to participate in the Advanced Placement Program at Hinsdale Central High School.

The Advanced Placement Program at Hinsdale Central High School consists of the following courses:

AP Art History	AP Calculus AB	AP Physics B
AP Studio Art	AP Calculus BC	AP Physics C
AP Language & Comp.	AP Computer Science A	AP European History
AP Lit. & Composition	AP Statistics	AP Microeconomics
AP French Language	AP Music Theory	AP Macroeconomics
AP German Language*	AP Biology	AP Psychology
AP Latin Vergil	AP Chemistry	AP U.S. Gov't. & Politics
AP Spanish Language	AP Environmental Science	AP U.S. History
AP Spanish Literature		

* Upon completion of German 4H, students may take the AP German language exam.

* Upon completion of World History Honors, students may take the World History AP exam

Departments

Advanced Placement courses are offered by seven departments: Art, English, Mathematics, Music, Science, Social Studies, and World Languages. These courses adhere to College Board approved course descriptions and serve as the primary vehicle to prepare students for the voluntary AP examinations in May. In addition to preparing students for the AP exams, AP courses allow students to experience the pace and intensity of college-level courses while still in high school. Some AP courses may explore opportunities for students to work in teams on interdisciplinary themes or projects. Such activities would be designed to provide students the opportunity to solve real-world problems across AP subject areas. The AP courses are challenging and stimulating, require more work and more time than other high school courses.

Examinations

The Advanced Placement examinations are administered each year during the second and third weeks of May and can be described as “tough, but fair.” Usually three hours in length, each exam consists of a multiple choice section and free-response section that requires essay writing or problem solving. Every examination receives an overall grade from a team of carefully selected college professors and high school AP teachers on a five-point scale: 5 (extremely well qualified), 4 (well qualified), 3 (qualified), 2 (possibly qualified), and 1 (no recommendation). An AP Grade Report is sent in July to each student, the high school, and if the student requests it, to the college. Unless recommended by the teacher not to do so, all enrolled AP students are expected to take their course ending examinations.

Credit

Although each college determines what AP examination grades it will accept for credit and/or advanced placement, the great majority of colleges accept grades of 3 or better and award the student with credit in the subject matter tested. In some cases, no credit is given, but the student may begin the program of study at an advanced level. Students wanting to know what AP grades are considered acceptable by the colleges in which they are interested should write the Director of Admissions of the college or consult with the Director of Guidance at Hinsdale Central.

General Information

G-Level Program

In the Mathematics and Science departments, particular courses are designated as G-Level courses. College preparatory in nature, G-level courses are designed to meet the special needs of students in particular subject areas.

G-Level Courses:

Foundations of Algebra and Geometry
Algebra 1 – G
Geometry – G

Algebra 2/Trigonometry – G
Earth Science – G
Biology – G

Admission to G-level courses is based upon several established selection criteria:

- Teacher recommendations
- Results of the 8th-grade EXPLORE Test
- Past academic performance
- Department approval
- Student and parent input

Honors Program

In the Art, Business, English, Mathematics, Music, Science, Social Studies and World Languages departments, particular courses are designated as honors courses. Honors courses are designed to challenge students of superior ability by enriching and/or accelerating the course content and have standards of high achievement distinctly above those of regular courses. Instruction in honors courses occurs at a faster pace, covers the subject matter in more depth and emphasizes higher level thinking skills.

Honors Option courses are offered by Art, Business, Family and Consumer Sciences, and Technology Education. The courses allow students to experience a more intense curriculum, higher expectations and greater responsibilities. These courses are challenging and will require more work and time than other high school courses. Admission to the Honors Option courses is based upon a student's application and departmental approval.

Honors (H) Courses:

Ideas in Art H	French 2 H	Music (see department)
Advanced Drawing H	French 3 H	Biology H
Advanced Painting H	French 4 H	Earth Science H
Advanced Ceramics H	German 1 H	Chemistry H
Advanced Jewelry H	German 2 H	Physics H
Digital Imaging 3 H	German 3 H	Engineering Graphics H
Accounting H	German 4 H	Architectural Drafting H
Business Law I H	Latin 1 H	Advanced Engineering & Arch. Modeling H
Business Law 2 H	Latin 2 H	Graphic Com. – Desktop Publishing H
Internship H	Spanish 2 H	Graphic Com. – Web Design H
English 1 H	Spanish 3 H	Digital Color Photography H
English 2 H	Spanish 5 H: Spanish Studies	Advanced Photography H
H/Seminar in Writing	Spanish 5 H: Latin American Studies	Graphic Communications Advanced H
Journalism 2: Newsmagazine H	Integrated Algebra And Geometry H	World History H
Journalism 2: Yearbook H	Geometry H	Philosophy H
Journalism 2: Online Yearbook H	Algebra 2 Trigonometry H	Invitation to Teach H
French 1 H	Pre-Calculus H	

Admission to the honors program is based upon several established selection criteria:

- Teacher recommendation
- Results of the 8th grade EXPLORE Test
- Past academic performance
- Departmental approval

Students with superior ability, a commitment to the subject matter and a motivation to learn are encouraged to apply for admission to the honors program.

Honor Roll and Weighted Grades

Grades earned in all courses, exclusive of Physical Education, Driver Education, and Staff Aide will be used to calculate a student's grade point average (GPA) according to the following grade point system.

Grade	Honors	Regular
A	6	5
B	5	4
C	4	3
D	2	2
F	1	1
WF	1	1

Dean's List and Honor Roll designation will be determined by the following criteria:

Honor Roll

- 4.0 grade point average
- No grade in any course below a "D"

Dean's List

- 4.5 grade point average
- No grade in any course below a "C"

Dean's List and Honor roll are based on quarter grades, not semester grades. Thus there are four Honor Rolls and Deans' Lists per year; one each quarter. Incomplete grades are not accepted, and a minimum of four (4) credit-earning courses are needed to qualify for either list.

Course Requests

Each spring Hinsdale Central works to create a schedule of classes for the following academic year that best meets the needs of our students, while still staying within the parameters of staffing requirements (i.e. number of teachers, class size, teaching schedules, state and federal mandates). We work very hard to accommodate student requests; however, due to the complexity of the scheduling process, sometimes student schedules may need to be adjusted. Please keep in mind that changes in course requests or class assignments will not be accepted for any of the following reasons:

- to accommodate a job schedule
- to change teachers
- to change lunches or classes to be with friends
- to have first or last period free
- to accommodate a change of mind

Acceptable reasons for schedule changes may include:

- computer input error
- scheduling conflicts
- failure or near failure in a second semester or year course
- failure to meet a pre-requisite for a course
- department chair or guidance director recommendation
- successful completion of a summer school class

General Information

Once a school year begins, schedule changes are permitted only if they meet one of the following conditions.

Adding a Course

Students may add a class to increase the number of attempted credits, provided that space is available and that there is minimal disruption to the student's schedule. This addition must be made by the end of the eighth school day. In order to add a course, a student must obtain signatures from the parent/guardian, the department chair if required, and the student's counselor.

Dropping a Course

Students may request to drop a course for a study hall only if they are enrolled in the maximum number of courses (seven) per semester and only after they have attended and participated in the course for three class periods. Students wishing to drop a course must first discuss it with their parents, teacher and counselor. After a parent/guardian signs the request to drop a course, the counselor and department chair will sign the request as well. A grade of "F" will be reflected on the transcript of a student who chooses to drop a course after the fourth week of a semester. Students enrolled in yearlong courses will not be allowed to drop at the end of first semester unless it is recommended by the department.

Level Changes

Students wishing to initiate a level change within the same department must complete the add/drop form and obtain all required signatures (parent/guardian, teacher, department chair, counselor).

Repeating Course(s)

A course may be repeated for credit only when a student has previously received a "D" or an "F." Both the grade received and the credit earned for repeating the course, as well as the original grade and credit received in the course, will be used in computing the student's grade point average. The student's transcript will indicate the first grade and credit earned, as well as the second grade and credit earned. However, the credit received for repeating the course will not count toward satisfying graduation requirements unless the student failed the course.

Auditing Courses

Only under unusual circumstances will a request to audit a course be considered:

1. When a student has previous credit in a subject they may request to audit the course.
2. When a student wishes to audit a course they have not previously taken, they may request to audit the course. In this case, they may not take the course for credit at a later time.

In both circumstances, requests to audit will be considered only if space is available in the course. Students assume all responsibility of a regular class member, but receive no grade or credit. All requests to audit a course must have administrative approval prior to the first day of class at the latest, but preferably at the time of February registration. Students interested in auditing a course must complete the form, Request to Audit a Class, which may be obtained from the student's counselor and approved by the Director of Guidance.

Incomplete Grades

An Incomplete represents work not completed by the end of the quarter. Incompletes are given only in extraordinary circumstances. This work must be made up within the first two weeks of the following quarter and the Incomplete changed to a grade or a failure. If the work is not made up by the end of the 2-week period, the grade will be changed to an "F." An Incomplete will prevent eligibility for Honor Roll.

Registration Procedures:

Students should review the four-year planning guide on page 105 and choose courses that will fulfill graduation requirements and build on the student's strengths, interests and abilities. Students will discuss course recommendations with each of their current teachers and, if there is a need for departmental approval, they should obtain the signature of the Department Chair for that course. Following the recommendation discussions with

Registration Procedures *continued*:

teachers, students will have an individual appointment with their counselor to review and approve their course selections. Students and parents will be able to view their course requests in Home Access Center throughout the month of February. Courses are scheduled on the basis of your requests. Questions concerning registration procedures and course selections should be directed to your counselor. *Course Request Forms are available through the Guidance Department.*

Attendance Policy

The attendance policy at Hinsdale Central requires that parents call the attendance office **ON THE DAY OF THE ABSENCE** to report their student absent from school on any given day at **630.570.8090**. Prearranged absences may be called in prior to the day of the absence and a green prearranged absence form must be completed. Students are expected to attend class on a daily basis and should be aware that attendance is part of his/her evaluation in each class. Students are responsible for all work missed due to an absence. Excessive absences will be handled by the administration and guidance staff and require a parent conference.

Minimum Attendance Requirement

School Code of Illinois, Section 18-8, requires that all students must be in attendance, exclusive of lunch and passing time, for a minimum of 300 minutes. This necessitates all students attending school for at least six (6) periods a day.

College Admission Requirements

Criteria for college admission vary greatly. The admission committees consider, to varying degrees, the following:

- Type of high school courses actually taken when compared to the courses available in the high school.
- Quality of the student's academic record.
- Performance on college admission tests - SAT & ACT.
- Development and maturity of the individual in areas outside the academic classroom

Courses	Highly Selective Colleges	Public University Colleges	Private 4-Year Colleges	Community and Public Colleges
English	4 years	4 years	4 years	Varies greatly from an open door admission policy to selective course requirements specifically required by the different departments.
Mathematics	4 years	4 years	4 years	
Science	4 years (lab)	3 years	3 years	
Social Studies	3-4 years	3 years	3 years	
Academic Electives	2 years	2 years	2 years	
World Languages*	4 years (one)	*	2-4 years	

Course requirements for entrance into four different types of colleges are listed above. The academic prerequisites typical of colleges in each of the categories listed may change from year to year and therefore, should be used only as general **minimum guidelines**. Specific information may be obtained from high school counselors, college profiles, websites and catalogs, computerized college software programs and college representatives who visit Hinsdale Central High School. Students should be aware of a definite return by colleges to their preference of a **traditional and classical college preparatory curriculum**. Narrowly defined, college preparatory courses are found in the following departments:

<p>Art: *AP Art History, AP Studio Art English: Literature and composition courses Mathematics: Computer Science is not generally accepted as a math credit.</p>	<p>Science: Lab courses Social Studies World Languages</p>	<p>Academic Electives: Business, Family & Consumer Sciences, Music, Technology Education, Technology Center of DuPage (TCD)</p>
---	---	--

**AP Art History and AP Studio Art are generally treated as acceptable college preparatory academic electives by most colleges.*

General Information

Student Schedules

Full year courses are usually designated by 4-digit course codes ending in “0” or “5.” Semester courses are primarily designated by numbers ending in “1” (first semester) or “2” (second semester) and may be scheduled either first or second semester. Student schedules are generated by computer and do not allow the student to select a course by semester. Requests are entered but not guaranteed.

R-rated Films or Clips

If R-rated movies or clips from R-rated movies will be used in instruction in any course, a list of those movies will be made available at the time of registration through each department and online. Written permission must be obtained by a parent at the beginning of any course showing R-rated movies or clips from R-rated movies to allow students to view in whole or in part the R-rated movies associated with the class.

Service Credits

Credit: 0.25

Students may elect to serve as a Student Aide during the school year for the following areas: Art, Athletics, Audio Visual, Family & Consumer Sciences, E.L.L., Guidance, Library, Nurse, Deans’ Office, Publications, Science, Technology Education or Student Activities. The credits earned as an Aide count as service credit. Students may elect to serve as an Aide for one or both semesters. They may, however, hold only one Aide position per semester. A 0.25 credit will be granted for each semester. This can be counted toward graduation as a service credit and will be graded on a pass-fail basis.

Excel Study Halls

Course # 1020, 1024, 1027, 1028

Credit: 0.50

Excel is designed as an academic support program. Students assigned to the Excel Study Hall will attend every day during their scheduled period and will continue to receive these services until all grades earned are at a C level or above for two consecutive quarters at which point they can transfer into a regular study hall. Excel Study Hall is an academic program where students meet in a supportive environment to receive assistance. The Excel Study Hall staff members consult with classroom teachers and parents to help improve each student’s achievement in courses. A 0.5 credit is earned per semester for successful participation in this program. Student support in the areas of organizational skills, study skills, and homework completion will be available and structured with each program. Prerequisite: None. Open to grades 9-12 May be repeated

State of Illinois Consumer Education Requirement

Credit: 0.5

There are several ways to satisfy this mandated graduation requirement. Students have the following options:

1. **Consumer Economics**, course #6301, one semester, Business Department course, see page 27.
2. **Economics**, course #2331, one semester, Social Studies Department course, see page 75.
3. **AP Macro Economics**, course #2141, one semester, Social Studies Department course, see page 76.
4. **AP Micro Economics**, course #2341, one semester, Social Studies Department course, see page 76.
5. **Introduction to Family & Consumer Sciences**, course #6400, full year, Family & Consumer Science Department Course, see page 43.
6. **Introduction to Business**, course #6100, full year, Business Department course, see page 26.
7. **Special Education Related Instruction**: enrollment is determined by IEP recommendation.
8. **Consumer Education Online**, course #9101, one semester. Students who enroll in this online course will be supervised by a certified District 86 teacher. This course has the same objectives as the traditional semester-long Consumer Economics course #6301; the content is very similar. Communication between student and teacher will be primarily through the website and by email. Students who enroll in the online version will be required to attend an orientation session, to meet progress markers along the way, and to complete the course during the semester in which they are enrolled.

Art Department

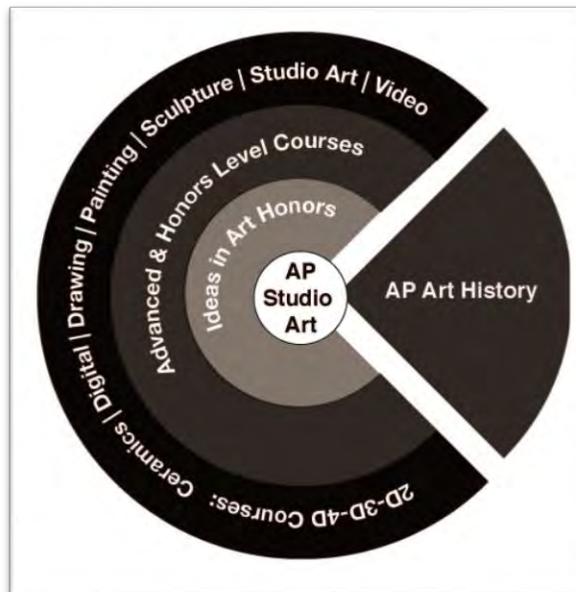

ART

High School District 86 requires the successful completion of two Elective Arts credits. Two fine arts credits fulfill the Illinois state public university entrance requirement in Art, Music or vocation education. The courses offered by the Art Department are designed to develop an appreciation and understanding of art, art production, art history, and creative problem-solving. Student work is displayed throughout the school and community on a continuing basis. Supply fees are required for participation in studio courses.

MISSION STATEMENT

The artistic, intellectual, and personal development of young people, through the visual arts, is the goal of the Hinsdale Central Art Department. We, the art faculty, as mentors, coaches, jurors, and artists, are committed to creating a challenging, authentic, and caring creative environment. We will actively involve students with the visual arts through theory and practice. We will challenge students to develop awareness of excellence and the role of art in human life and human culture.

<p>STUDIO ART <i>Course # 5101, 5102</i> 1st or 2nd semester Credit: 0.5</p>	<p>Students will explore fundamental aspects of design, drawing, painting, jewelry, mixed media, and sculpture. Emphasis will be placed on creativity, craftsmanship, and problem solving. Studio Art is the only course in which introductory students can experiment in a variety of materials. <i>It is highly recommended that students interested in Drawing and Painting start with Studio Art as a foundation.</i></p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$20.00.</p>
<p>DRAWING <i>Course # 5211, 5212</i> 1st or 2nd semester Credit: 0.5</p>	<p>Drawing is a specialized art course that teaches students a variety of strategies to improve his/her ability to draw from life. The course also introduces several drawing tools, including: pastel, charcoal, colored pencils, and pen and ink. A development of individual style and understanding of design will be stressed.</p> <p>Prerequisite: Studio Art is highly recommended. Open to grades 9, 10, 11 and 12. Supply Fee \$20.00.</p>
<p>ADVANCED DRAWING <i>Course # 5221, 5222</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Drawing is a continuation of the themes and techniques started in the Drawing course in which students are asked to develop work which demonstrates mature drawing ability. Students are expected to investigate how drawings can be designed to communicate original ideas to a viewer. Students will be required to work on their drawings beyond classroom time.</p> <p>Prerequisite: 5211 Drawing. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00.</p>

Art Department

<p>ADVANCED DRAWING HONORS <i>Course # 5223, 5224</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Drawing Honors is a course for the student who draws avidly and enthusiastically and who shows strong motivation and high artistic achievement. Students create a variety of works, including representational, abstract, and mixed media. Critiques, in-depth analysis, and written journal entries accompany these drawings. In addition, craftsmanship, visual coherence, and working with artist intention are emphasized. Consistent, thoughtful class participation is expected of all students. Students are expected to complete an artist journal, private art lessons, and participate in art contests.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester; for more information: http://central.hinsdale86.org/departments/art/Pages/default.aspx Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00.</p>
<p>PAINTING <i>Course # 5311, 5312</i> 1st or 2nd semester Credit: 0.5</p>	<p>Painting is a course that introduces students to the complexities of painting. Knowledge of a variety of painting materials, processes, and techniques is stressed. Acrylics, watercolor and oil are used by students to create meaningful and original works of art.</p> <p>Prerequisite: Studio Art is highly recommended. Open to grades 9, 10, 11 and 12. Supply Fee: \$20.00.</p>
<p>ADVANCED PAINTING <i>Course # 5321, 5322</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Painting is a continuation of the exploration started in Painting. In Advanced Painting, students are able to gain more experience with painting materials introduced in the previous course. Students are expected to demonstrate their painting skill through the creation of a personal series.</p> <p>Prerequisite: 5311. Open to grades 9, 10, 11 and 12. Supply Fee: \$20.00.</p>
<p>ADVANCED PAINTING HONORS <i>Course # 5323, 5324</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Painting Honors is a course for the student who paints avidly and enthusiastically and who shows strong motivation and high artistic achievement. Students create a variety of works, including representational, abstract, and mixed media. Critiques, in-depth analysis, and written journal entries accompany these paintings. In addition, craftsmanship, visual coherence, and working with artist intention are emphasized. Consistent, thoughtful class participation is expected of all students. Students are expected to complete an artist journal, private art lessons, and participate in art contests.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester; for more information: http://central.hinsdale86.org/departments/art/Pages/default.aspx Open to grades 9, 10, 11 and 12. Supply Fee: \$20.00.</p>
<p>JEWELRY & METAL SMITHING <i>Course # 5351, 5352</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is for students interested in learning to create jewelry and/or small scale sculptures using metals and other materials. A range of metal fabrication techniques and alternative types of media will be explored. A diverse set of images will be used to explore design concepts to enhance students' visual awareness and problem-solving.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$21.00.</p>
<p>ADVANCED JEWELRY & METAL SMITHING <i>Course # 5361, 5362</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is a continuation of Jewelry and Metal Smithing but on an advanced level. A wider range of metal fabrication methods and materials will be introduced than in the entry level course. The concept of body adornment and the contribution of jewelry to the enhancement of the body will be addressed and studied. The course will focus on the development of independent thinking and personal expression. This concentration enables students to explore the potential of jewelry as a communication tool.</p> <p>Prerequisite: 5351. Open to grades 9, 10, 11 and 12. Supply Fee: \$21.00.</p>

Art Department

<p>ADVANCED JEWELRY & METAL SMITHING HONORS <i>Course # 5363, 5364</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Jewelry Honors is a course for the student who designs avidly and enthusiastically and who shows strong motivation and high artistic achievement. Students create a variety of works, including representational, abstract, and mixed media. Critiques, in-depth analysis, and written journal entries accompany these metal pieces. In addition, craftsmanship, visual coherence, and working with artist intention are emphasized. Consistent, thoughtful class participation is expected of all students. Students are expected to complete an artist journal, private art lessons, and participate in art contests.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester; for more information: http://central.hinsdale86.org/departments/art/Pages/default.aspx. Open to grades 9, 10, 11 and 12. Supply Fee: \$21.00.</p>
<p>CERAMICS/CLAY SCULPTURE <i>Course # 5421, 5422</i> 1st or 2nd semester Credit: 0.5</p>	<p>Using clay as an art material will be the focus for this course. The student will create hand-built projects, work on the potter's wheel, and apply glazes. Students will also develop an understanding, appreciation, and sensitivity to clay and its role in history and culture.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00.</p>
<p>ADVANCED CERAMICS <i>Course # 5431, 5432</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Ceramics continues the exploration of clay as a functional and artistic medium. This course will further explore advanced hand building and wheel throwing techniques. Complex projects will challenge the students artistically, as well as technically. The students will spend a majority of the semester working on the potter's wheel and exploring advanced technique. Advanced hand building and glazing techniques will also be covered.</p> <p>Prerequisite: 5421. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00.</p>
<p>ADVANCED CERAMICS HONORS <i>Course # 5433, 5434</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Ceramics Honors is a course for the student who designs avidly and enthusiastically and who shows strong motivation and high artistic achievement. Students create a variety of works, including representational, abstract, and mixed media. Critiques, in-depth analysis, and written journal entries accompany these metal pieces. In addition, craftsmanship, visual coherence, and working with artist intention are emphasized. Consistent, thoughtful class participation is expected of all students. Students are expected to complete an artist journal, private art lessons, and participate in art contests.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester; for more information: http://central.hinsdale86.org/departments/art/Pages/default.aspx. Open to grades 9, 10, 11 and 12. Supply Fee \$17.00.</p>
<p>SCULPTURE <i>Course #5441, 5442</i> 1st or 2nd semester Credit: 0.5</p>	<p>In this studio course, students will explore and develop three dimensional designs. Wood, clay, plaster, metals and found objects, are some of the materials that will be used. Emphasis will be placed on the examination of contemporary and historical roles of sculpture in society.</p> <p>Prerequisite: One semester of Art. Open to grades 9, 10, 11 and 12. Supply Fee \$17.00.</p>
<p>DIGITAL IMAGING 1 <i>Course # 5121, 5122</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed for students who want to create art on the computer. Artistic and creative problem solving strategies are developed which can help students in all areas of learning. Students take their own digital photographs. Each student will use these images to create original works of art using the software Adobe Photoshop CS5. Students will create a cartoon in Adobe Illustrator CS5 and a digital portfolio is created on a web interface. Software is MAC OS 10.5 or higher.</p> <p>Prerequisite: None. Open to grades 9, 10, 11, and 12. Supply Fee \$17.00</p>
<p>DIGITAL IMAGING 2 <i>Course # 5132, 5132</i> 2nd semester Credit: 0.5</p>	<p>Digital Imaging 2, a continuation of Digital Imaging 1, further explores the artistic potential of the computer and creative problem solving strategies. Students will increase their artistic knowledge and skills while working on independent project ideas based on his/her theme in art. Artistic research and planning are integral. Traditional art materials will be blended into computer art, as students are encouraged to think outside the "digital box." Students take their own digital photographs and use these images to create original works of art. Working knowledge of Adobe Photoshop CS6, Adobe Illustrator CS6 – Independent work may include video and Adobe Flash. Students will continue to update their web portfolio.</p> <p>Prerequisite: Digital Imaging 1: Open to grades 9, 10, 11, and 12. Supply Fee: \$17.00</p>

Art Department

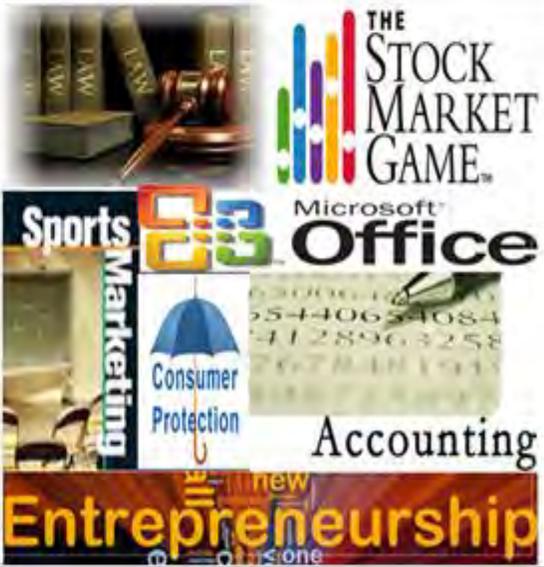

<p>DIGITAL IMAGING 3: ADVERTISING & ILLUSTRATION <i>Course # 5331, 5332</i> 1st or 2nd semester Credit: 0.5</p>	<p>Digital Imaging 3 is a graphic design advertising art class. Students interested in a career in Graphic Design, learn the essential skills of design as it relates to advertising. The computer is used as a tool to create and solve real world design problems. Traditional illustration or drawing techniques will also be explored. Design principles have been introduced and learned, through a series of small projects. Afterwards, the course will be run like an advertising design business with a client/designer relationship underlying major projects. This course is recommended for students who are interested in working as a design-creative or art director. Working knowledge of Adobe Photoshop CS3, Adobe Illustrator CS3, and Adobe InDesign will be needed. Software is MAC OS 10.5 or higher.</p> <p>Prerequisite: Digital Imaging 1: Open to grades 9, 10, 11, and 12. Supply Fee: \$17.00</p>
<p>DIGITAL IMAGING 3: ADVERTISING & ILLUSTRATION HONORS <i>Course # 5335, 5336</i> 1st or 2nd semester Credit: 0.5</p>	<p>Digital Imaging 3 Honors is a course for the student who creates avidly and enthusiastically and who shows strong motivation and high artistic achievement. Students create a variety of works, including representational, abstract, and mixed media. Critiques, in-depth analysis, and written journal entries accompany these ceramics works. In addition, craftsmanship, visual coherence, and working with artist intention are emphasized. Consistent, thoughtful class participation is expected of all students. This course is recommended for students who are interested in working as a design-creative or art director. Students are expected to complete an artist journal, private art lessons, and participate in art contests. Working knowledge of Adobe Photoshop CS6, Adobe Illustrator CS6 will be needed. Software is MAC OS 10.5 or higher.</p> <p>Prerequisite: Portfolio Review prior to the end of first semester; for more information: http://central.hinsdale86.org/departments/art/Pages/default.aspx. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00.</p>
<p>DIGITAL VIDEO ART <i>Course # 5475, 5476</i> 1st or 2nd semester Credit: 0.5</p>	<p>Digital Video Art introduces students to the timely art of video as a medium of artistic expression. Using digital video technologies, students will combine moving images, still images, graphics and sound. Experimentation in film and audio as an artistic medium is encouraged. Through directing, producing, editing, sound design, cinematography and screenwriting students will create their short films. Students will look for relationships between imagery, music and sound through historical film examples. The Digital Video Art course will develop creative, collaborative teams of students to expand their visual literacy and time art skills. Digital technology will incorporate pre- production, production filming, and post- production editing for the creation of the short films. Final Cut Pro is used for post -production. Students will be encouraged to enter national and regional film festivals. Digital Video Art films are assessed on the Art Department's visual art standards, which align with state and national visual art standards. After Effects software will be available for post-production. Software is MAC OS 10.5 or higher.</p> <p>Prerequisite: None, but Digital Imaging is recommended. Open to grades 9, 10, 11 and 12. Supply Fee: \$17.00.</p>
<p>IDEAS IN ART HONORS <i>Course # 5473, 5474</i> 1st or 2nd semester Credit: 0.5 (may be repeated twice)</p>	<p>Students will create a body of artwork based on a personal exploration of a central theme or idea. This body of work represents the results of rigorous research, planning and problem-solving. Each student is required to create a reference manual that combines multiple explorations of a variety of media. The work produced in this course may be used as part of the Advanced Placement Art Portfolio.</p> <p>Prerequisite: Advanced level course, portfolio review with departmental approval. Open to grades 11 and 12. Supply Fee: \$20.00.</p>
<p>ADVANCED PLACEMENT ART HISTORY <i>Course # 5440</i> Full Year Credit: 1.0</p>	<p>This course provides a survey of the history of art. It is designed to prepare students to take the Advanced Placement examination. Methods of analyzing and evaluating works of art will be introduced. Students enrolling in this course are expected to have well developed writing skills and an interest in art and culture.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>

Art Department

<p>ADVANCED PLACEMENT STUDIO ART <i>Course # 5450</i> Full year Credit: 1.0</p>	<p>The AP program offers three portfolios: Drawing (painting, printmaking, drawing), 2-D Design (photography, graphic design, product design), and 3-D Design (jewelry, ceramics, sculpture).</p> <p>This course provides accelerated students with a challenging program of college-level studio work. Prior to the end of the academic year, a portfolio of approximately 44-46 pieces will be submitted to the College Board for evaluation and possible college credit. The AP Program offers three portfolios: Drawing (painting, printmaking, drawing), 2-D Design (photography, graphic design, product design), and 3-D Design (jewelry, ceramics, sculpture). This advanced placement program requires more time and commitment than typical high school art courses. Therefore, the students enrolling in the course should be highly motivated, serious, self-directed and willing to work. The Ideas in Art course is highly recommended for students considering this course. <u>Students interested in this course need to submit a portfolio of eight pieces to the Art office before first semester final exams.</u></p> <p>Prerequisite: Portfolio review and Departmental approval. Open to grades 11 and 12. Supply Fee: \$40.00 (excludes series materials).</p>

BUSINESS

Accounting	Digital Tools & Applications
Accounting Honors	Entrepreneurship
Business Law 1	Internship
Business Law 1 Honors	Internship Honors
Business Law 2	Introduction to Business
Business Law 2 Honors	Investment Planning
Consumer Economics	Marketing
Digital Communication Tools 1	Sports Marketing
Digital Communication Tools 2	

Business courses can fulfill 1 credit for the District 86 graduation requirement in the Elective Arts. Business courses can also be taken for general/elective credit. The 0.5 consumer education graduation requirement may be met by successful completion of the department’s Consumer Economics course or Introduction to Business.

Business Department courses are electives; however, with the increase in reliance on technology in our society, the department strongly recommends that all students include computer courses in their high-school studies (i.e., Digital Communication Tools 1 & 2, Digital Tools and Applications, Advanced Computer Applications).

Students who are contemplating a Business major in college should select one or more Business electives. Because of the difficulty of college-level Accounting, students are urged to take an Accounting course at Hinsdale Central.

Computer Courses	
<p>DIGITAL COMMUNICATION TOOLS 1 Course # 6121, 6122 1st or 2nd semester Credit: 0.5</p>	<p>This course enables students to acquire and refine vital and emerging computer skills in this digital age. Students will develop keyboarding skills using the touch method, and be introduced to some of the latest input technologies, including speech recognition software and using table PC's. Constructing, formatting and editing documents using Microsoft Word, Excel, and PowerPoint will be the focus of production work in this course. Internet applications and email will also be taught and utilized during class projects. (Credit is NOT given for both Digital Communications Tools 1 and Digital Tools and Applications.)</p> <p>Prerequisite: None. Next course in sequence: Digital Communication Tools 2. Open to grades 9, 10, 11 and 12</p>
<p>DIGITAL TOOLS AND APPLICATIONS Course # 6130 Full year Credit: 1.0</p>	<p>This course enables students to acquire and refine vital and emerging computer skills in this digital age. Students will develop keyboarding skills using the touch method, and be introduced to some of the latest input technologies, including speech recognition software and using tablet PC's. Constructing, formatting and editing of documents using basic and more advanced features of Microsoft Word, Excel, and PowerPoint will be the focus of production work in this course. Desktop Publishing, database, and web page development will also be introduced. Internet applications and email will also be taught and utilized during class projects. This year long course will take your computer skills to new heights, enabling you to integrate technology in a variety of ways in projects for other classes. [Credit is NOT given for both Digital Communication Tools 1 and 2 and Digital Tools and Applications.]</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12.</p>
<p>DIGITAL COMMUNICATION TOOLS 2 Course # 6331, 6332 1st or 2nd semester Credit: 0.5</p>	<p>Continue to develop computer skills in this course as more advanced features are taught in word processing, spreadsheets and charts, and digital presentations. Desktop publishing, database and web page development will also be introduced. Constructing, formatting and editing of documents using Microsoft Word, Excel, Power Point, Publisher, and Access will continue to be the focus of production work in this course along with creating a web page. Internet Applications and Web 2.0 tools will also be utilized during class projects, and students will continue to work with some of the latest input technologies such as speech recognition software.</p> <p>Prerequisite: None, however, Digital Communication Tools 1 is recommended. Proper keyboarding technique and speed, along with document development, formatting, and proofreading skills are expected. Open to grades 9, 10, 11, and 12.</p>

Business Department

Business Courses	
<p>INTRODUCTION TO BUSINESS Course # 6100 Full year Credit: 1.0 (0.5 Elective Arts/0.5 Consumer Ed. - Must complete the entire year to receive Consumer Ed. credit)</p>	<p>This course gives students a background in the basic operations of business and develops an understanding of the economic role of business in our society. Major areas of study include banking, credit, insurance, budgeting, consumer protection, government, entrepreneurship and taxes. Skill is developed through a wide variety of activities including computer research, projects, and classroom activities. Successful completion of this course fulfills the District's Consumer Education requirement for graduation.</p> <p>Prerequisite: None. Open to grades 9 and 10.</p>
<p>INVESTMENT PLANNING Course # 6111, 6112 1st or 2nd semester Credit: 0.5</p>	<p>In this course students will study basic investment principles involving stocks, commodities, bonds and mutual funds. Students will also learn about tax information, effects of the economy on the market, government regulations of securities and on-line investing. Current issues as they relate to investing will be discussed. Teams will be formed to participate in the Stock Market Game by trading on-line.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>ACCOUNTING Course # 6170 Full year Credit: 1.0</p>	<p>This course develops a basic understanding of double-entry accounting. The accounting cycle, accounting theory, financial reports and financial analysis are included. Accounting simulation sets, Excel spreadsheets and automated accounting software are used to apply all accounting concepts. This course is recommended for college-bound students planning a career in accounting, finance, management or marketing.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>ACCOUNTING HONORS OPTION Course # 6180 Full year Credit: 1.0</p>	<p>Accounting Honors will prepare students for the rigor of college accounting. Students will develop an understanding of double-entry accounting. Topics covered include the following: accounting cycle, accounting systems, internal controls, journals, receivables and payables, accruals and deferrals, inventory, fixed assets and depreciation, financial statement preparation and analysis, and taxes. A computerized accounting program will also be utilized, as well as the Excel spreadsheet program. The core material for this course is similar to Accounting 6170; however, more topics are covered, the pace is accelerated and expectations are higher. This course is highly recommended for motivated students planning to enter a college business program.</p> <p>Prerequisite: Department Chair approval. Open to grades 11 and 12.</p>
<p>MARKETING Course # 6181, 6182 1st or 2nd semester Credit: 0.5</p>	<p>This course focuses on the activities necessary to market products, services, and ideas to consumers. Major topics include market segmentation, consumer behavior, marketing research, product planning, and advertising. Students will apply marketing concepts learned in class by researching, creating and advertising new products.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>SPORTS MARKETING Course # 6183, 6184 1st or 2nd semester Credit: 0.5</p>	<p>This intermediate marketing course will introduce students to the exciting field of sports marketing and its role in society. Students will develop a thorough understanding of the marketing concepts and theories that apply to sports and sporting events. The areas this course will cover include sponsorships, endorsements, licensing, event marketing and sports marketing plans. Students will plan, create, and assess sports marketing communication programs that include advertising, marketing, public relations and news media. Emerging issues in sports marketing will also be discussed.</p> <p>Prerequisite: Marketing Open to grades 10, 11 and 12</p>

Business Department

Business Courses	
<p>BUSINESS LAW 1 Course # 6231, 6232 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces students to the legal system and the law as it applies to personal and business situations which may occur in their daily lives. It also examines the court system, torts, crimes, technology and the law, contracts, family law, wills and estates. Key elements of this course are case studies, mock trials and a field trip to the courts and jails.</p> <p>Prerequisite: None. Next course in sequence: Business Law 2. Open to grades 11 and 12</p>
<p>BUSINESS LAW 1 HONORS OPTION Course # 6234, 6235 1st or 2nd semester Credit: 0.5</p>	<p>The core material for this course is similar to Business Law 1 course #6231; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college business program.</p> <p>Prerequisite: Department Chair Approval. Next course in sequence: Business Law 2. Open to grades 11 and 12</p>
<p>BUSINESS LAW 2 Course # 6232 2nd semester only Credit: 0.5</p>	<p>This course examines the criminal justice system, the Supreme Court, bailments and real estate transactions, ethics and employment policies and contracts. Group discussions, case studies, guest speakers and a field trip will be utilized to present and examine these concepts. To develop a better understanding of the legal system, students will participate in a mock trial tournament throughout the semester.</p> <p>Prerequisite: Business Law 1 or Business Law 1 Honors. Open to grades 11 and 12.</p>
<p>BUSINESS LAW 2 HONORS OPTION Course #6236 2nd semester only Credit: 0.5</p>	<p>The core material for this course is similar to Business Law 2 course #6232; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college business program.</p> <p>Prerequisite: Business Law 1 or Business Law 1 Honors and Department Chair approval. Open to grades 11 and 12.</p>
<p>ENTREPRENEURSHIP Course # 6241, 6242 1st or 2nd semester Credit: 0.5</p>	<p>Do you have an interest in owning or running a business some day? This course will help you develop that entrepreneurial spirit and the skills necessary to be successful in your new business. Topics of study include the entrepreneurial personality and skills; marketing, financing and managing a business; legal requirements of a business; and career opportunities in entrepreneurship. Students will develop an idea and create a business plan.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>CONSUMER ECONOMICS Course # 6301, 6302 1st or 2nd semester Credit: 0.5</p>	<p>This course helps students to understand the consumer's role in a mixed economy. Students will learn about various topics that they will use their entire life. Topics of study include: money management, consumer rights and responsibilities, credit, purchasing of goods and services, making sound investment plans and preparing individual tax returns. Successful completion of this course fulfills the District's Consumer Education requirement for graduation. (An on-line version of this course is available. See page 15 for details.)</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>

Business Department

<p>INTERNSHIP Course # 8401, 8402 1st or 2nd semester Credit: 0.5 general credit only— not Elective Arts credit</p>	<p>This program is designed to provide students with an opportunity for career exploration in a field of their choice. Students will work with a mentor outside of the school day for 50-75 hours in their career field. Due to time constraints, it is suggested that students have their own placements, however, if assistance is needed finding a placement, students should contact an internship coordinator. Students will be expected to keep a detailed journal, write a reflection paper and discuss their experiences with a related class.</p> <p>Students will receive a Pass or Fail grade only for this course.</p> <p>Prerequisite: None. Open to grades 11 and 12 upon acceptance after interview.</p>
<p>INTERNSHIP HONORS OPTION Course # 8403, 8404 1st or 2nd semester Credit: 0.5 general credit only – no Elective Arts credit</p>	<p>The core material for this course is similar to Internship course #8401/8402; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time. This course is highly recommended for motivated students giving serious consideration to a specific career.</p> <p>Students will receive a weighted grade for this course.</p> <p>Prerequisite: Department Chair approval. Open to grades 11 and 12 upon acceptance after interview.</p>

Driver Education

Rahul Sawlani

DRIVER EDUCATION

Course # 7461, 7462

1st or 2nd semester

Credit: 0.25

Classroom Driver Education, though an elective course, is required in order to obtain a state driver's license prior to the age of 18. Driver Education will follow state mandates on the number of hours of classroom instruction and in-car training. Student schedules must allow for one period per day during one semester in order to complete course requirements. Coordinator: Pat Richards

Due to recent changes in Driver Education laws by the State of Illinois, our school may not be able to honor all requests by students to enroll in Driver Education. Freshman and Sophomore students will be enrolled according to birthdates.

Students enrolled in Driver Education will receive two grades at the end of the semester: one for the classroom phase, and one for the behind-the-wheel phase. Upon successful completion of the Driver Education Cooperative Testing program, students will be eligible for their license without need for further examination by the Illinois Secretary of State Office. **\$20.00 Permit fee required by State. \$350.00 Course fee.**

As a prerequisite, students enrolling in Driver Education must be passing eight semester classes within the two most recent semesters of attendance. Only classes used to determine a student's GPA will be allowed to meet this requirement.

ENGLISH

English Department

High School District 86 requires the successful completion of a minimum of four English credits for graduation. In addition, all students who are enrolled in school must be enrolled in an English course **each semester**. The four credits in English must be taken and passed sequentially and include full year courses freshman and sophomore years and full or half-year courses junior and senior years. Junior and senior students must take core English courses in the following areas: semester courses in writing, literature and communication, or full year courses in literature/writing. Only one communication course taken junior or senior year will count toward the core requirement. There are enrichment courses open to all grade levels.

VISION STATEMENT

The skills and knowledge of English/language arts are essential for student success in virtually all areas of the curriculum and society. To meet the challenges of the 21st Century and beyond, students need to be clear and effective writers and speakers, critical and insightful readers, skilled information processors, and life-long independent and collaborative learners. With the guidance of parents, community, and a dedicated English faculty, our students will graduate from Hinsdale Central as valuable contributors to the world in which we live.

MISSION STATEMENT

The mission of the English Department is to develop in each of our students the following academic attributes: an understanding and appreciation of literature; a proficiency and confidence in writing; the ability to understand communication clearly through active listening, critical observation, and analysis; creativity and imagination in the areas of reading, writing, and speaking; and an appreciation of various cultural and human perspectives through the study and discussion of literature.

English Department

<p>ESL-ENGLISH 1A Course # 1050 Full year Credit: 1.0</p>	<p>This course is designed for the English Language Learner (ELL) who is new to the United States and whose English proficiency is emerging and developing. The course focuses on teaching basic communication and study skills in order for the ELL to be successful at Hinsdale Central High School. Listening, speaking, reading and writing skills will be taught in order to help the ELL in mainstream classes succeed academically and complement the ESL-English 1B curriculum. In addition, the course will provide activities to include students in the American culture.</p> <p>Prerequisite: English Language Learner Program (ELL) director and English Department Chair approval. Open to grades 9, 10, 11 and 12.</p>
<p>ESL-ENGLISH 1B Course # 1030 Full year Credit: 1.0</p>	<p>This course continues the work started in ESL-English 1A by developing emerging and beginner listening, speaking, reading and writing strategies and skills in standard American English to the English Language Learner (ELL). This course will parallel the goals and skills of English 1. In addition, the course will continue to build student communication skills and self-advocacy skills in standard American English to aid in mainstream academic success.</p> <p>Prerequisite: English Language Learner Program (ELL) director and English Department Chair approval. Open to grades 9, 10, 11 and 12.</p>
<p>ESL-ENGLISH 2 Course # 1040 Full year Credit: 1.0</p>	<p>The goal of ESL-English 2 is to prepare the intermediate level English Language Learner (ELL) to transition successfully into the mainstream English class. The course will continue to develop skills and strategies in listening, speaking, reading and writing of standard American English while focusing on how the strategies can be used in mainstream academic success. Course materials will parallel the goals and skills of the English 2 program. This course reinforces self-advocacy skills to promote mainstream academic success for the transitioning English Language Learner.</p> <p>Prerequisite: English Language Learner Program (ELL) director and English Department Chair approval. Open to grades 9, 10, 11 and 12.</p>
<p>ENGLISH 1 Course # 1110 Full year Credit: 1.0</p>	<p>English 1 incorporates instruction in many areas including literature, writing, speaking, research, vocabulary, and grammar. The literature includes nonfiction, short story, drama, poetry, and novels. Writing instruction includes summary, paraphrase, argument, analysis, and synthesis. Research skills – topic generation, source identification, evaluation, and attribution – are taught in conjunction with the library staff. Regular active class participation is essential. The goal of the course is to develop competent learners, thoughtful readers, enthusiastic writers, and effective oral communicators. This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: Incoming freshman eligibility is based on multiple sources of information, including EXPLORE scores and recommendation of 8th grade instructor. Open to grade 9.</p>
<p>ENGLISH 1 HONORS Course # 1120 Full year Credit: 1.0</p>	<p>English 1 Honors is a course for the student who reads avidly and enthusiastically and who shows strong motivation and high academic achievement. Students read a variety of literature, including fiction, nonfiction, classical and contemporary drama, and short stories. Discussion, in-depth analysis, and written assignments accompany these readings. In addition, the expository and narrative writing processes, along with grammar usage are emphasized. Speeches and group performances are required. Consistent, thoughtful class participation is expected of all students. This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: Incoming freshman eligibility is based on multiple sources of information, including EXPLORE scores and recommendation of 8th grade instructor. Open to grade 9.</p>

English Department

<p>ENGLISH 2 Course # 1210 Full year Credit: 1.0</p>	<p>English 2 covers the areas of literature, writing, vocabulary, grammar, and speech. Through literature, selected plays, poetry, and novels, students will learn to analyze and appreciate literature. In the area of writing, an emphasis is placed on multi-paragraph essays. Grammar and vocabulary will be covered throughout the year in conjunction with writing and literature. Public speaking will be practiced. Consistent class participation is imperative. This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: English 1. Open to grade 10.</p>
<p>ENGLISH 2 - HONORS Course # 1220 Full year Credit: 1.0</p>	<p>Challenging reading and writing assignments form the foundation of the English 2 Honors curriculum. Geared towards students who show strong motivation and high academic achievement, the class helps students develop critical thinking patterns and effective oral and written communication skills. Students are expected to work on long-range assignments and to be consistently active in class discussions. Research fundamentals—topic generation, source evaluation and attribution—are taught in conjunction with the library staff. Active class participation, in the form of peer editing, small group work and partner projects as well as class discussion, is expected of all students. This course satisfies the ISBE graduation requirement for “intensive writing.”</p> <p>Prerequisite: English 1 or English 1 Honors and Department Chair approval. Open to grade 10.</p>
<p>CORE WRITING COURSES</p>	
<p>SENIOR COMPOSITION Course # 1313, 1314 1st or 2nd semester Credit: 0.5</p>	<p>This college-prep course is designed for students who wish to improve writing skills for the heavier demands of college coursework. This course includes a review of the multi-paragraph essay and instruction in developing and elaborating on ideas in writing. Students will learn to build arguments in response to texts they read in class. Students will also review punctuation, sentence structure, mechanics, and grammar as needed.</p> <p>Prerequisite: U.S. Literature and Composition or Department Chair Approval. Open to Grade 12.</p>
<p>EXPOSITORY WRITING Course # 1321, 1322 1st or 2nd semester Credit: 0.5</p>	<p>By studying classic and contemporary essays, students learn to implement a variety of writing techniques to craft original essays that are related as much as possible to the students’ own interests and life experiences. Students are challenged to expand their conception of essay form and development. Basic grammar and style will be reinforced in order to help students write clearly. Students will also learn to construct a detailed research paper through careful topic selection, rigorous information collection using the school’s library databases, and effective organization and appropriate formatting of the finished paper. This is an accelerated course with an emphasis on close reading and analytic, purposeful writing; students completing this course will have the option, with teacher recommendation, of taking AP Literature or AP Language during their senior years. Students must write a research paper in order to earn credit for the course.</p> <p>Prerequisite: English 2. Open to grades 11 and 12.</p>

English Department

<p>RHETORIC <i>Course # 1351, 1352</i> 1st or 2nd semester Credit: 0.5</p>	<p>In today’s complex world, clear communication is imperative. This course draws on the traditional study of rhetoric—in terms of the persuasive appeals, purpose, and audience—to lay the groundwork for solid, thoughtful, and effective written communication. The class helps students develop into clear, incisive thinkers who can write confidently in various situations for various purposes. Rhetoric also focuses on building research skills to ensure that students are well-versed in finding, evaluating, and synthesizing multiple sources of information. Students will hone their writing skills in order to discover, explain, question, and justify stances on controversial issues in our contemporary world. Students must write a research paper in order to earn credit for the course.</p> <p>Prerequisite: Expository Writing or English 3. Open to grade 12.</p>
<p>HONORS SEMINAR IN WRITING <i>Course # 1355</i> Full year Credit: 1.0</p>	<p>Honors Seminar in Writing is a class for the intellectually curious who value the power of the written word and are eager to become more sophisticated writers. This year-long course is especially designed for those who have been grabbed by the rhetorical nature of AP Language and Composition and are interested in analyzing stylistic elements in professional and personal writing. Students will read texts that are challenging and nuanced and, in their writing, explore real-world complexities through primary and secondary research. The members of this course are committed to crafting and revising their own nonfiction essays, with the intention of publication. Join this small community of students who appreciate the art of writing.</p> <p>Prerequisite: Department Chair approval. Open to grade 12.</p>
<p>CORE LITERATURE COURSES</p>	
<p>AMERICAN LITERATURE <i>Course # 1561, 1562</i> 1st or 2nd semester Credit: 0.5</p>	<p>“I hear America singing, the varied carols I hear...” So wrote Walt Whitman in his famous poem, “I Hear America Singing.” Over the course of the semester, students will study the “varied carols” in American Literature in order to learn about our country and, ultimately, themselves. Students will read and analyze works from diverse authors, genres, themes, and styles as they explore how literature links us to our historical and cultural heritage. As they sample literature from the Colonial Era to the present, they will see how literature is a reflection of a changing American society. This is an accelerated course with numerous challenging fiction and nonfiction texts and an emphasis on close reading and analytic, purposeful writing; students completing this course will have the option, with teacher recommendation, of taking AP Literature or AP Language during their senior year. Class participation is imperative so that students can exchange ideas and interpretations of the literature.</p> <p>Prerequisite: English 2. Open to grade 11.</p>
<p>SENIOR LITERATURE <i>Course # 1491, 1492</i> 1st or 2nd semester Credit: 0.5</p>	<p>Powerful stories affect us in profound ways, inspiring us, challenging us, deepening our human experience. The fundamental approach to Senior Literature is to aid students in fostering a love of reading by encouraging strong emotional connections with powerful stories, while emphasizing reading skills and literary analysis. Students in this course study the ways storytellers use their art to make us feel and think more deeply. This is a moderately paced course designed for the senior student who has taken U.S. Literature and Composition as a junior. Students encounter many exciting types of texts, including both traditional forms of fiction and drama, as well as graphic novels, films, and nonfiction texts. Group discussion is emphasized, but students also write essays, take tests, and give oral presentations about these texts.</p> <p>Prerequisite: United States Literature and Composition. Open to grade 12.</p>

English Department

<p>WORLD LITERATURE <i>Course # 1541, 1542</i> 1st or 2nd semester Credit: 0.5</p>	<p>This college preparatory course for the average and above average reader will afford students the opportunity to gain a better understanding of and appreciation for various cultures from around the world. Through an array of compelling—and mostly contemporary—works, students will be challenged to grapple with universal problems and themes. Common assessments include essays and other writing assignments, discussion, quizzes/tests, oral presentations, and projects.</p> <p>Prerequisite: None. Open to grade 12.</p>
<p>BRITISH LITERATURE 1 <i>Course # 1581, 1582</i> 1st or 2nd semester Credit: 0.5</p>	<p>Human tragedy, genuine emotion, realistic, flawed characters, and outrageous jokes—all reasons that we still read the works of Shakespeare. British Literature 1 offers students the opportunity to discover the genius of Shakespeare’s plays. This course explores the comedies, tragedies, and histories of the most famous playwright of the English language. Emphasis is placed on the memorable characters, riveting plots, and universal themes present in some of Shakespeare’s most popular plays. Evaluation is based on discussion, quizzes, essays, tests, and, of course, performance.</p> <p>Prerequisite: None. Open to grade 12.</p>
<p>BRITISH LITERATURE 2 <i>Course # 1591, 1592</i> 1st or 2nd semester Credit: 0.5</p>	<p>This college preparatory course for the average and above average reader focuses on the role of literature in Ireland’s rich, violent, and tumultuous past. Students will read and discuss contemporary and historical issues in Ireland and, by extension, Great Britain through books, plays, short stories, newspaper articles, and films. The issues of oppression, resistance, and desire for freedom will be at the heart of this course. Evaluation is based on discussions of the readings, written activities, presentations, and tests/quizzes.</p> <p>Prerequisite: None. Open to grade 12.</p>
<p>CORE LITERATURE/WRITING COURSES</p>	
<p>ENGLISH 3 <i>Course # 1320</i> Full year Credit: 1.0</p>	<p>English 3 builds on the skills acquired in English 1 and English 2. The course focuses on American Literature and emphasizes outstanding American authors from the Colonial Period to the modern era in the genres of fiction, nonfiction, drama, and poetry. Written works include argument, analysis, synthesis essays, the research paper, and the college essay. This is an accelerated course with numerous challenging fiction and nonfiction texts and an emphasis on close reading and analytic, purposeful writing. Students completing this course will have the option, with teacher recommendation, of taking AP Literature or AP Language during their senior year.</p> <p>Prerequisite: English 2. Open to grade 11.</p>
<p>U.S. LITERATURE AND COMPOSITION <i>Course # 1300</i> Full year Credit: 1.0</p>	<p>This course is designed for the student who may need more support in writing and reading. This college-prep course focuses on developing reading skills for understanding fiction, nonfiction, and poetry. Students are required to be productive and engaged participants in daily class activities, such as the practice of specific reading strategies, discussion, and written responses. For writing instruction, emphasis is placed on core writing topics such as thesis statements, organizational patterns, paragraph development, and sentence correctness. Students must write a research paper in order to earn credit for the course. Homework reading and writing are required.</p> <p>Prerequisite: English 2. Open to grade 11.</p>

English Department

<p>ADVANCED PLACEMENT LANGUAGE AND COMPOSITION <i>Course # 1730</i> Full year Credit: 1.0</p>	<p>In this college-level writing course, students develop the ability to analyze the rhetorical features of texts, speeches, and visuals as well as to produce their own writing—both analytical and argumentative—on a variety of subjects. In addition to multiple in-class and out-of-class writing assignments, students will also learn how to access, evaluate and cite primary and secondary sources so that they can both refine their research skills and develop writings of extended length. This course assumes that students understand and capably use standard English grammar and prepares students for the Advanced Placement Exam in Language and Composition.</p> <p>Prerequisite: English 2 Honors or Department Chair approval. Open to grade 11.</p>
<p>ADVANCED PLACEMENT LITERATURE AND COMPOSITION <i>Course # 1731</i> Full year Credit: 1.0</p>	<p>This Advanced Placement Literature and Composition course is designed as an intensive study of literature drawn from multiple genres, time periods, and cultures, including but not limited to such authors as Shakespeare, Paton, Atwood, Fitzgerald, and Conrad. Students will read poetry, drama, novels, and short fiction deliberately and thoroughly, participating orally and in writing in close textual analysis. Independent, outside reading will be expected. Assignments include in-class essays, research projects, memorizations, oral presentations, and analytical writings. Students are responsible for participating actively and taking the lead in class discussions of the literature they read. This course prepares students for the Advanced Placement Exam in Literature and Composition.</p> <p>Prerequisite: AP Language and Composition or Department Chair approval. Open to grade 12.</p>
<p>CORE COMMUNICATION COURSES</p>	
<p>SPEECH/COMMUNICATION <i>Course # 1411, 1412</i> 1st or 2nd semester Credit: 0.5</p>	<p>Effective communication is a key to success. This course helps students become effective communicators in everyday, person-to-person relationships. The course teaches listening skills and the ability to give and receive tactful and constructive criticism and includes instruction in research and visual presentation. Students must be involved daily in class discussion. At the completion of this course, each student should feel confident in choosing an appropriate topic, preparing written notes and outlines, and delivering a 3-5 minute speech with a strong introduction, body, and conclusion.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>CORE COMMUNICATION COURSES, continued</p>	
<p>DISCUSSION AND DEBATE <i>Course # 1441, 1442</i> 1st or 2nd semester Credit: 0.5</p>	<p>Listening, leadership, courtesy, topic analysis, research, evaluation of sources and databases, articulation, and confidence—these are the lifelong skills fostered in Discussion and Debate. This course helps students learn to access a range of informational sources available at the Hinsdale Central library in order to build arguments about contemporary topics used in debates. Students will participate in formal and informal class discussions, a simulated town meeting, a group discussion panel, debates, current event speeches, and a role play of an individual’s life after reading a biography or autobiography. Reading, writing, researching, and active participation are all major components of this course. Because multiple performances will be required during the semester, students should already have a familiarity with and a sense of confidence about public speaking. By the end of the semester, students should feel a sense of mastery at organizing, working cooperatively with others, researching, preparing for, and delivering public performances.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>

English Department

ENRICHMENT COURSES	
<p>ACADEMIC READING Course # 1100 Full year Credit: 1.0</p>	<p>Academic Reading is designed for ninth grade students whose standardized test scores demonstrate that they would benefit from direct instruction in reading and vocabulary strategies. Students will be assessed in several skill areas throughout the year to track their growth. The curriculum is comprised of units that address skills that “good readers” internalize including determining main and supporting ideas, developing a variety of vocabulary strategies, and building fluency. To build reading skills, core textbook material will be supplemented with texts from students’ social studies and science classes. Finally, students will engage in daily sustained silent reading of self-selected material. Academic Reading students are simultaneously enrolled in this course and English 1.</p> <p>Prerequisite: Department Chair approval. Open to grade 9.</p>
<p>ACADEMIC READING - ENGLISH 2 Course # 1102 Full year Credit: 1.0</p>	<p>Academic Reading – English 2 is designed for tenth grade students who were identified during their freshman year as likely to benefit from direct reading and writing instruction and supplemental in-school language arts instruction and support. Guided by multiple diagnostic assessments and a review of student data, teachers will target specific student needs while utilizing engaging, purposeful, research-based practices. Student progress is monitored regularly to ensure that students are receiving the best instruction for their specific needs. Academic Reading – English 2 students are simultaneously enrolled in this course and English 2.</p> <p>Prerequisite: Department Chair approval. Open to grade 10.</p>
<p>SELECTED THEMES IN LITERATURE – Dystopian Literature: Stories Of “What If?” Course # 1521, 1522 1st or 2nd semester Credit: 0.5</p>	<p>Course Description: Were you psyched to discover District 13 survived? Have you ever wondered what it would be like to take Soma? Would you be willing to set yourself on fire to save books? If you’ve loved books about the not-so-bright future, this is the class for you. This course will cover dystopian literature and film, emphasizing themes dealing with the imagination of better worlds and worse worlds. Because utopian/dystopian literature expresses what an author sees as possible, hopes is possible, and fears is possible, readers must engage in social and political critiques. We will explore the causes and likelihood of four central dystopian types as presented in literature and film: the political, the philosophical/religious, the environmental, and the corporate.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>

English Department

<p>SELECTED THEMES IN LITERATURE: African American Literature Course # 1523, 1524 1st or 2nd Semester Credit: 0.5</p>	<p>This course explores the African-American experience as reflected in the literature and oral tradition of the community, from the earliest days of our nation to current writers and thinkers. The course will explore not only traditional literary genres such as fiction, poetry, drama, and essays, but also consider areas of film, music, and art as well. Students will study the wide span of the African-American experience from slave narratives to current rap music.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>FILM STUDIES Course # 1641, 1642 1st or 2nd semester Credit: 0.5</p>	<p>Film Studies presents an opportunity for students to discover, critique, and appreciate movies. This is an exciting course where students learn to see movies like a film critic, create highly interactive, media/technology based projects to express their ideas about cinema, and even try their hand at becoming a movie mogul, investing millions into blockbusters and independent films. Students are encouraged to pursue their own movie interests as they are exposed to significant cultural and ideological movements in film history. Significant emphasis will be placed on learning the technical components of movies (editing, shot types, angles, etc.), as understanding this film grammar is the foundation of film analysis. Students will not only be asked to think about <i>how</i> a movie was made, but also <i>why</i> a movie was made. Written expression and graded discussion are the primary ways students will demonstrate their understanding of the technical, aesthetic, and rhetorical components that make movies effective. Some outside of class viewing is required.</p> <p>Although not all movies are shown in their entirety, written permission must be obtained by a parent at the beginning of this course to allow for students to view the R-rated movies associated with this class. At the time of registration, if R-rated movies are to be utilized in whole or in part, a list of these movies will be available through the English department and online.</p> <p>Prerequisite: None. Open to grades 11-12.</p>
<p>JOURNALISM 1 Course # 1651, 1652 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces students to the fundamentals of journalism. Emphasis is placed on interviewing, writing, editing, assessing the audience, and meeting deadlines. Units of study include responsibilities and ethics, Associated Press style, interviewing, news writing, feature writing, and page design. All final story assignments must be typed, and the culminating activity is a feature story spread. This course is intended as a practical application of newspaper/newsmagazine news gathering and writing techniques, not as an analysis of the media. While this course is open to all interested students, those students interested in becoming editors of <i>Devils' Advocate</i> or <i>El Diablo</i> are strongly encouraged to take Journalism 1 sophomore year.</p> <p>Prerequisite: Students must have a B average in English. Open to grades 10 and 11.</p>
<p>JOURNALISM 2: NEWSMAGAZINE HONORS Course # 1660 Full year Credit: 1.0</p>	<p>Students in this class are editors and will be responsible for publishing <i>Devils' Advocate</i> according to established deadlines. Students will assume editorial leadership and participate as a staff member in all activities required to create a quality publication using a desktop publishing system. Students will be expected to develop story ideas, research stories, write and edit copy, design pages and handle advertising accounts. The grade is determined by job performance. Students should be prepared to spend out-of-class time working on the publication. Journalism 2 may be repeated for credit with consent of the instructor and department chair.</p> <p>Prerequisite: No course prerequisite required. However, there is an application and interview process required. Open to grades 11 and 12.</p>

<p>JOURNALISM 2: ONLINE NEWSMAGAZINE HONORS Course # 1665 Full year Credit: 1.0</p>	<p>Students in this class are online content contributors and editors and will be responsible for all content on www.hcdevilsadvocate.com, <i>Devils' Advocate</i> online newsmagazine. Students will assume editorial leadership and participate as a member of the staff in all activities required to create a quality online site using a WordPress template. Students will be expected to develop story ideas, research stories, write and copy edit. The grade is determined by job performance. Students should be prepared to spend out-of-class time working on the site as interviews, writing, photography and videography often takes place outside the class period. Journalism 2 may be repeated for credit with consent of the instructor and department chair.</p> <p>Prerequisite: No course prerequisite required. However, there is an application and interview process required. Open to grades 10, 11 and 12</p>
<p>JOURNALISM 2: YEARBOOK HONORS Course # 1670 Full year Credit: 1.0</p>	<p>Students in this class are editors and will be responsible for producing <i>El Diablo</i>. This course will cover skills and responsibilities of a journalist involved in publishing a yearbook. Students will assume editorial leadership and participate in all activities required to create a quality publication using a desktop publishing system. Students will be expected to develop story ideas, research stories, write and edit copy, design pages and handle advertising accounts to meet deadlines established by the adviser/instructor in accordance with the publication company's requirements. Students should be prepared to spend out-of-class time working on the publication in order to receive credit.</p> <p>Prerequisite: No course prerequisite required. However, there is an application and interview process required. Open to grades 11 and 12.</p>
<p>CREATIVE WRITING Course # 1341, 1342 1st or 2nd semester Credit: 0.5</p>	<p>You don't write because you want to say something. You write because you have something to say. ~ F. Scott Fitzgerald</p> <p>If you have something to say – or think you might – creative writing is the class for you. We explore three forms of writing: short stories, poetry, and playwriting. You will write daily in class and at home and develop skills to revise your work. Do not worry about your ability at the beginning of the course; our classroom experiences will be dedicated to improvement no matter what your level today. If you are a person who enjoys writing and wish you had more time to do it, you will enjoy the class.</p> <p>Prerequisite: Department approval and a writing sample. Open to grades 10, 11 and 12.</p>
<p>DRAMA Course # 1681, 1682 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces actors to basic acting techniques of the theatre. Activities include improvisation, concentration exercises, ensemble-building, character analysis and development, monologue preparation, and scene preparation. At the end of the semester, students will have the opportunity to participate in an informal showcase of their work.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12.</p>
<p>ADVANCED DRAMA Course # 1685, 1686 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Drama allows the student to expand on his/her acting skills and expertise. Activities include relationship exploration, improvisation, scripted scene work, and further development of voice, body, imagination, and ensemble as tools of the actor. At the end of the semester, students will have the opportunity to participate in a workshop production of scripted scene work.</p> <p>Prerequisite: Drama. Open to grades 9, 10, 11, and 12.</p>

English Language Learner Program

Lee-Cheng Wang, Design

MISSION STATEMENT

The mission of the English Language Learner Program (ELL) is to assist international students who are learning English as a Second Language. The ELL program provides academic and social support to help students adjust to the American culture and, in particular, to Hinsdale Central High School. The ELL program will assist them in making a successful transition into the mainstream school community.

In order to fulfill the mission, the ELL program offers *academic* classes in English as a Second Language (ESL-1 and 2) for credit and ELL resource classes that may receive credit. ELL also addresses individual student needs, including language issues, academic programs, and cultural, social adjustments. English as-a-Second Language classes are taught in conjunction with the English Department in order to transition students into the mainstream English classes. As students adjust academically and socially, they *transition with support* into the full general education curriculum and the school community.

<p>ESL-ENGLISH 1A Course # 1050 Full year Credit: 1.0</p>	<p>This course is designed for the English Language Learner who is new to the United States and whose English Proficiency is emerging and developing. The course focuses on teaching basic communication and study skills in order for the ELL student to be successful at Hinsdale Central High School. Listening, speaking, reading and writing skills will be taught in order to help the ELL student in mainstream classes succeed academically and complement the ESL-English 1B curriculum. In addition, the course will provide activities to include students in the American Culture.</p> <p>Prerequisite: ELL Director approval. Open to grades 9, 10, 11 and 12.</p>
<p>ESL-English 1B Course # 1030 Full year Credit: 1.0</p>	<p>This course continues the work started in ESL-English 1A by developing emerging and beginner listening, speaking, reading and writing skills in standard American English. This course will parallel the goals and skills of English 1. In addition, the course will continue to build student communication skills and self-advocacy skills in standard American English to aid in mainstream academic success.</p> <p>Prerequisite: ELL Director approval. Open to grades 9, 10, 11 and 12.</p>
<p>ESL-English 2 Course # 1040 Full year Credit: 1.0</p>	<p>The goal of ESL-English 2 is to prepare the intermediate level English Language Learner to transition successfully into the mainstream English class. The course will continue to develop skills and strategies in listening, speaking, reading and writing of standard American English while focusing on how the strategies can be used in mainstream academic success. Course materials will parallel the goals and skills of the English Program. Lastly, this course reinforces self-advocacy skills to promote academic mainstream success for the transitioning English Language Learner.</p> <p>Prerequisite: ELL Director approval. Open to grades 9, 10, 11 and 12.</p>
<p>ELL Resource Course # 1003, 1004 1st or 2nd semester Credit: 0.25 or non-credit</p>	<p>This tutorial resource is designed to: 1) help students maintain satisfactory achievement levels in their regular classes; 2) encourage conversational English; 3) accelerate the development of vocabulary understanding, reading comprehension and writing skills in the English language; and 4) facilitate cultural adjustment.</p> <p>Prerequisite: ELL Director approval. Open to grades 9, 10, 11 & 12 international students who have limited English language proficiency. This program may be scheduled in place of a regularly scheduled study hall. This course must be taken for credit if the student is enrolled in ESL1 or ESL2. It may be taken for credit or non-credit with ELL director recommendation.</p>
<p>ELL Tutor Course # 1013, 1014 1st or 2nd semester Credit: 0.25</p>	<p>ELL tutors assist other individual ELL students with academic and English language needs.</p> <p>Prerequisite: Recommendation of ELL Director. Open to grades 11 and 12.</p>

Family & Consumer Sciences

Courses in Family and Consumer Sciences provide the foundation for professional careers, as well as personal enrichment. Students considering Family and Consumer Sciences related careers should prepare by enrolling early in departmental offerings in their preferred area. Lab fees are required in some courses.

◆ SUGGESTED SEQUENCING FOR FAMILY & CONSUMER SCIENCES CAREER AREAS ◆

FOODS

* Intro. to Family & Consumer Sciences (9-12)
 Creative Cooking 1 (9-12)
 Creative Cooking 2 (9-12)
 Nutrition, Wellness & Cooking (10-12)
 Chef and Restaurant (11-12)

FAMILY LIVING

Single Survival (11-12)
 Personal Perspectives (11-12)

FASHION

* Intro. to Family & Consumer Sciences (9-12)
 Creative Sewing (9-12)
 Creative Sewing Independent Study (9-12)
 Fashion Merchandising (10-12)

INTERIOR DESIGN

* Intro. to Family & Consumer Sciences (9-12) Architectural Styles & Design (10-12) Honors Option

TEACHING

* Intro to Family & Consumer Sciences (9-12)
 Child Care and Development (10-12)
 ***Invitation to Teach (12)
 ***Invitation to Teach Honors (12)

◆ PLEASE REFER TO THE INDIVIDUAL COURSE DESCRIPTIONS FOR MORE INFORMATION ◆

* Meets Consumer Education graduation requirement (0.5 consumer education, 0.5 elective arts)

** Creative Cooking I suggested as a prerequisite.

*** General credit only-not elective arts; Child Care & Development suggested as a prerequisite.

Family & Consumer Sciences

<p>INTRODUCTION TO FAMILY & CONSUMER SCIENCES Course # 6400 Full year Credit: 1.0 (0.5 consumer education, 0.5 elective arts) Must complete the entire year to receive consumer education credit.</p>	<p>This course introduces the student to the following areas of Family & Consumer Science: consumer education, child care, interior design, foods and sewing. The consumer education unit focuses on basic economic concepts such as career opportunities, budgeting, banking, credit, transportation and housing. Additional class activities include a computer-aided design interior design project, basic food preparation and entertainment, sewing projects and exposure to child development. This course will prepare students for future semester courses in Family & Consumer Sciences including Architectural Styles & Designs, Child Care & Development, Creative Cooking 1, Creative Sewing and Nutrition Wellness and Cooking. Successful completion of this course fulfills the District's Consumer Education requirement for graduation. Supply fee \$25.00</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12.</p>
<p>CREATIVE COOKING 1 Course # 6411, 6413 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed to teach basic food preparation skills utilizing various types of culinary equipment and a range of preparation and cooking techniques. The following areas of study are covered in this course: measuring, knife skills, cooking methods, nutrition, fruits, vegetables, breads, pastas, vegetarian dishes, desserts, and microwave cooking. The course culminates in a student driven practical final meal applying the knowledge they have learned over the semester. While this course provides personal enrichment, it may also serve as a foundation for further training in culinary arts</p> <p>Suggested follow-up courses: Creative Cooking 2, Nutrition, Wellness, and Cooking, and/or Chef & Restaurant. . Supply fee \$25.00</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12.</p>
<p>CREATIVE COOKING 2 Course # 6412, 6414 1st or 2nd semester Credit: 0.5</p>	<p>This course, a continuation of Creative Cooking 1, provides training in the following advanced techniques of food preparation: international foods, cakes and cake decorating, homemade pasta, sweet and savory yeast breads, pies, meats and garnishing. Students prepare a variety of recipes, while enriching their personal culinary skills class it may also serve as a foundation for further training in culinary arts. Suggested follow-up: Chef and Restaurant and/or Nutrition, Wellness & Cooking. Supply fee \$25.00</p> <p>Prerequisite: Creative Cooking 1 6411/6413. Open to grades 9, 10, 11 and 12.</p>
<p>CHEF AND RESTAURANT Course # 6421, 6422 1st or 2nd semester Credit: 0.5</p> <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p>*Due to classroom space limitations, students who have previously completed Creative Cooking I or IFACS will be given preference.</p> </div>	<p>Chef and Restaurant is an introductory course to professional culinary arts operations. Previous cooking experience is extremely beneficial and may be required in the future for this course. The emphasis is on developing and managing food service businesses, including preplanned and student generated menu and themes, as well as customized menu creation to serve the needs of clients. Several weeks will be spent on back of the house management including product costing, requiring math computation skills. This course serves as a foundation for students wishing to enter a chef or hospitality management program of study or event planners</p> <p>*Prerequisites: Introduction to Family and Consumer Sciences, Creative Cooking 1, or Nutrition, Wellness & Cooking. Supply fee \$25.00 Open to grades 11 and 12.</p>
<p>NUTRITION, WELLNESS & COOKING Course # 6431, 6432 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed to teach students how to build a lifetime of good nutrition and wellness practices while utilizing the food preparation and cooking skills from prerequisite courses. Students are given the essential tools to understand why and how people need to make more practical and healthy choices in their diet and daily routines. They will work cooperatively in lab groups applying what they have learned in each focused topic. While this course provides personal enrichment, it may also serve as a foundation for further training in health and culinary related fields.</p> <p>Prerequisite: Grade of C or better in Introduction to Family and Consumer Sciences or Creative Cooking 1. Supply fee \$25.00 Open to grades 10, 11 and 12.</p>

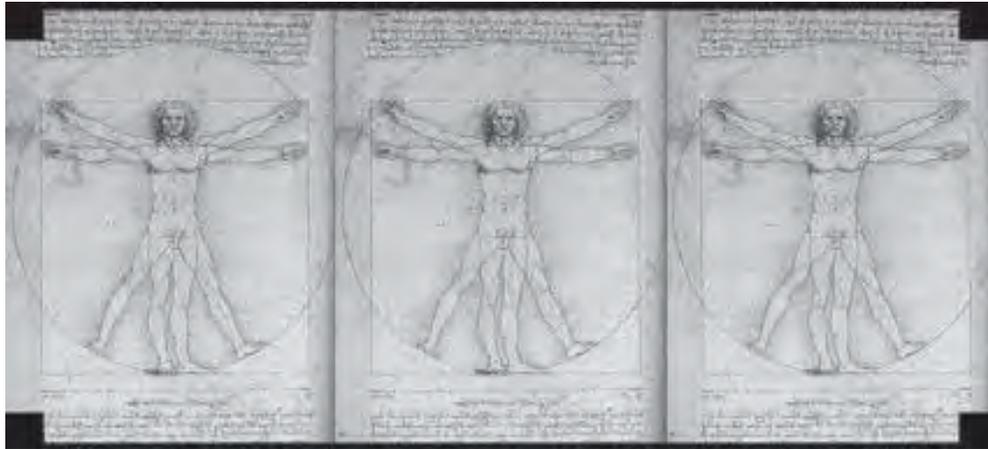

Family & Consumer Sciences

<p>SINGLE SURVIVAL <i>Course # 6441, 6442</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed to provide skills to live independently after high school, whether away at college or living on their own. The course covers personal assets, career development, including resume writing, money management, credit, identity theft, nutrition and basic meal prep, insurance, transportation, taxes, getting an apartment and reflection on current topics in society. Suggested follow-up course: Personal Perspectives (6591). Supply fee \$5.00</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>PERSONAL PERSPECTIVES <i>Course # 6591, 6592</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course, designed to help the student understand the challenges of our society, develops the student's ability to cope with problems and make adult decisions. The course focuses on the application of sociology and psychology concepts to the students' personal life. Areas of study include: theories of personality development, family relationships, crisis in the family (alcoholism, divorce, and death,) communication skills, dating, marriage and parenting. Suggested follow-up course: Single Survival (6441).</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>CREATIVE SEWING <i>Course # 6551, 6552</i> 1st or 2nd semester Credit: 0.5</p>	<p>Students will learn to sew for practical purposes and personal enjoyment as they select three or more projects to meet skills requirements. Consecutive projects will increase in degree of difficulty as students use technology to assemble and create unique items. Areas of study include basic sewing machine techniques, fabric and pattern selection, construction techniques and interpreting pattern instructions. Suggested follow-up courses: Creative Sewing Independent Study (6561) or Fashion Merchandising (6571). Supply fee \$10.00</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12.</p>
<p>CREATIVE SEWING INDEPENDENT STUDY <i>Course # 6561, 6562</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course focuses on advanced construction techniques on individually selected projects approved by the instructor. Students master the use of a computerized embroidery machine and serger. Areas of study may include textile arts, formalwear, pattern redesigning, fashion design, or other related areas of student interest. This course may be repeated twice, but subsequent projects must continually incorporate new sewing construction skills. Suggested follow-up courses: Fashion Merchandising (6571) or second enrollment in Creative Sewing Independent Study (6561). Supply fee \$10.00</p> <p>Prerequisite: Creative Sewing. Open to grades 9, 10, 11 and 12.</p>
<p>FASHION MERCHANDISING <i>Course # 6571, 6572</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed to allow students to explore and understand the various facets of the fashion industry. Areas of study include the evolution of fashion, fashion design, merchandising math, advertising, and retailing functions. Projects include designer and retailer research, logo and line illustrations, visual window displays, and fashion show planning. This course serves as a foundation for further training in fashion related occupations, as well as provides an opportunity for personal enrichment. Suggested follow-up course: Creative Sewing (6551). Supply fee \$25.00</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>ARCHITECTURAL STYLES AND DESIGN <i>Course # 6451, 6452</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is meant to introduce students into the area of residential designs and decorating. Students will learn how to identify housing styles and their details throughout American history, including the local influence of Frank Lloyd Wright and his Home and Studio in Oak Park. A hands on creative approach will take place when the content focuses on the elements and principles of design allowing students to show their artistic and original decorative ideas on visual design boards. Students will utilize technology in the architecture and design fields by using computer drafting software in projects and a cumulative student designed and decorated home. Supply fee \$25.00</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>

Family & Consumer Sciences

<p>ARCHITECTURAL STYLES AND DESIGN--HONORS Course # 6453, 6454 1st or 2nd semester Credit: 0.5</p>	<p>The core material for this course is similar to Architectural Styles & Design 6451/6452; however, projects and assessments will involve more depth, complexity, and rigor, and will require additional time outside of class. This course is recommended for highly motivated students interested in interior design, architecture, and related fields. Supply fee \$25.00</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>CHILD CARE & DEVELOPMENT Course # 6582 2nd semester only Credit: 0.5</p> <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p>* Suggested first part of teaching sequence to be taken Sophomore or Junior year.</p> </div>	<p>This course prepares the student for parenting or a career in the field of teaching or child-related occupations. Areas of study include family planning, pregnancy and childbirth, child development from infancy through eight years of age, and planning learning activities for a 16 session preschool practicum. Students will teach and observe children in our Discovery Corner Preschool as an integral part of the program. *Suggested follow-up: Invitation to Teach (6481 or 6482).</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>INVITATION TO TEACH Course # 6481, 6482 1st or 2nd semester Credit 1.0 (one semester two class periods)</p> <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p>Students who have previously completed Child Care & Development will be given preference.</p> </div>	<p>This course offers a teaching internship, enabling students to work under the supervision of certified preschool, elementary and middle school staff. Once placed, the students will spend four days each week at their assigned schools to assist, observe and teach young children. Teaching responsibilities include journaling, observing, creating a visual display, facilitating a guest speaker, creating and teaching lessons, and shadowing a teacher for a day. Classroom study is focused on related issues in education including meeting the needs of a diverse student population, classroom management, and technology within the classroom and professional topics in education. Excellent course for anyone pursuing a career working with children. Suggested Prerequisite: Child Care & Development (6581). Supply fee \$10.00</p> <p>Open to grade 12 only.</p> <p>*Acceptance into the program is based on application, counselor recommendation, and instructor approval (based on academic standing, school attendance and character). <i>Application may be picked up in the Guidance office.</i></p>
<p>INVITATION TO TEACH HONORS Course #6483, 6484 1st or 2nd semester Credit 1.0 (one semester two Class periods)</p> <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p>Students who have previously completed Child Care & Development will be given preference.</p> </div>	<p>The core material for this course is similar to Invitation to Teach Course 6481/6482; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are college level and will require additional time outside of class. This course is recommended for highly motivated students interested in education or related fields. Suggested Prerequisite: Child Care & Development (6581). Supply fee \$10.00</p> <p>Open to grade 12 only.</p> <p>*Acceptance into the program is based on application, counselor recommendation, and instructor approval (based on academic standing, school attendance and character). <i>Application may be picked up in the Guidance office.</i></p>

Health Department

Health

<p>HEALTH EDUCATION Course # 7501, 7502 1st or 2nd semester Credit: 0.5 (Included in student's G.P.A.)</p>	<p>The goal of this course is to promote and develop positive attitudes and behaviors related to the overall wellness of Hinsdale Central students. Students are taught how to access valid health information and health-promoting products and services. The students will also learn how to analyze the influence of culture, media, technology and other factors on health. Topics of study within the Health Education program include: Introduction to Wellness, Alcohol, Tobacco and other Drugs, Nutrition and Fitness, Communicable and Non-communicable Diseases, and Human Reproduction. The curriculum is aligned with District 86 program goals, Illinois and National Health Education Standards, and Illinois State Standards for Social/Emotional Learning.</p> <p>REQUIRED FOR GRADUATION. This course should be taken in tandem with Physical Education during the sophomore year.</p>
<p>INTRODUCTION TO SPORTS MEDICINE Course # 7521, 7522 1st or 2nd semester Credit: 0.5 (general credit only; not for elective arts. Included in student's G.P.A.)</p>	<p>The goal of this course is to help students become more knowledgeable and proficient in the following areas: principles and practices of athletic training; anatomy, physiology, injury recognition, treatment and rehabilitation as they relate to sports and leisure activities. This course also provides valuable hands-on experience and is highly recommended for those students who are interested in careers in nursing, medicine, athletic training, physical therapy, or coaching.</p> <p>Prerequisite: Successful completion of Health Education or approval of Department Chair. Open to grades 10, 11, and 12.</p>

Library Media Center

Reading

Research

New Media

The mission of the Library Media Department is to **teach** all of our students to thoughtfully *inquire* about the world around them, efficiently *seek* information which addresses those inquiries, critically *evaluate* the quality of that information, capably *apply* the knowledge acquired to new problems, questions, or ideas, and objectively *assess* the work they produce as a result of the research process. **Collaborate** with other teachers to design and implement lessons and assessments which challenge our students to become effective users of ideas and information, perhaps the single most important 21st Century skill. **Provide leadership, instruction, and expertise** in the use of information and technology that encourages creative problem solving and ethical, socially responsible sharing of information. **Provide access** to a variety of quality resources which support the curriculum and meet the diverse needs and interests of our school community in a vibrant learning environment equipped for the demands of 21st Century teaching and learning. **Promote life-long learning** through programming which encourages reading, inquiry, and the use of technology to meet learning goals.

The following course is offered through the Library Media Department:

Library Media Center

**DIGITAL VIDEO
PRODUCTION**
Course # 9201, 9202
1st or 2nd semester
Credit: 0.5

This course is designed to provide students with the skills needed for a career in the technical and artistic aspects of media production. Instruction will include the study and analysis of media and television and their effects on society. Instruction will include camera operations, basic audio and video editing, sound and lighting techniques and audio mixing. Students will learn to operate video and DVD recording equipment, video/digital cameras, microphones, lighting/grip equipment and other production equipment used in the video and audio production of media.

Students will work in a **team-based** environment to create a variety of video and audio productions. Instruction will include single and multi-camera operation, advanced video editing, pre-production, production, and post production Within each of these projects you will be learning different techniques of the camera, software and sound engineering. As you move along then your skills and knowledge will increase with each project:

1. Silent Movie
2. Public Service Announcement
3. Movie Trailer
4. Interview/Documentary
5. Commercial/Infomercial
6. Music Video
7. Live Event Coverage
8. Comedy/Drama Screenplay interpretation
9. Narrative Format of Storytelling
10. Broadcasting and daily announcements

Prerequisite: None. Open to grades 10, 11 and 12. Course may be repeated with permission of Department Chair. Students who elect to repeat the class will be designated as “Advanced Students” and will follow a different class map. With this designation, the student and instructor will work together to create an individualized curriculum that concentrates on the student’s area of interest (editing, documentary, reporting, screenplay writing, short films, etc.) This will give the student the opportunity to advance their skills and create an on-going portfolio of his/her work.

Mission Statement

The mission of the Mathematics Department is to develop in our students the mathematical skills and habits of mind they will need to be prepared for college, to become productive citizens, and to pursue their career interests. We are committed to meeting each student’s social, emotional, and learning needs by providing a rigorous curriculum and quality instruction that will actively engage students in constructing and applying mathematical concepts to solve problems. We will employ current technology to enhance students’ mathematical knowledge and number sense. We strive to develop students who can express the mathematical connections in the world around them with algebraic, geometric, or numeric representations.

Three credits in mathematics are required for graduation. Credit must be earned in both semesters of a full year course before advancing to the next course in the sequence.

Any student who earns a D in a mathematics course is strongly recommended to retake one or both semesters in summer school before attempting the next course in the sequence. The deficiencies indicated by the D grade will make success in the next course in the sequence very difficult. Successful completion of Algebra and Geometry in any sequence and enrollment in Algebra 2 Trigonometry G, Algebra 2 Trigonometry or Algebra 2 Trigonometry H during or before junior year is ideal preparation for college standardized testing.

Typical sequences are shown here:

Freshman	Sophomore	Junior	Seniors
Algebra 2 Trigonometry Honors	Pre-Calculus Honors and/or AP Statistics	AP Calculus BC and/or AP Statistics	Math Topics and/or AP Statistics
Integrated Algebra and Geometry Honors	Algebra 2 Trigonometry Honors	Pre-Calculus Honors and/or AP Statistics	AP Calculus BC and/or AP Statistics
Geometry Honors	Algebra 2 Trigonometry Honors	Pre-Calculus Honors and/or AP Statistics	AP Calculus BC and/or AP Statistics
Geometry	Algebra 2 Trigonometry	Pre-Calculus and/or AP Statistics	AP Calculus AB and/or Intro to Statistics and/or Math Analysis and/or AP Statistics
Algebra 1	Geometry	Algebra 2 Trigonometry	Pre-Calculus and/or Intro to Statistics and/or Math Analysis and/or AP Statistics
Foundations of Algebra and Geometry	Algebra 1G (Sem1) and Geometry G (Sem2)	Algebra 2 Trigonometry G	Introduction to Statistics and/or Math Analysis
Foundations of Algebra and Geometry	Algebra 1G	Geometry G	Algebra 2 Trigonometry G
Applied Fundamentals of Mathematics	Foundations of Algebra and Geometry	Algebra 1G	Geometry G

Mathematics Department

COURSE TITLE	Course #	Prerequisite	Credit	Grade Offered
Applied Fundamentals of Mathematics	3050	Yes	1.0	9-12
Foundations of Algebra and Geometry	3090	Yes	1.0	9-12

Mathematics Department

<p>APPLIED FUNDAMENTALS OF MATHEMATICS Course # 3050 Full year Credit: 1.0</p>	<p>This course covers a variety of practical topics such as basic probability, creating and interpreting graphs, formulas, fractions, percent, measurement, perimeter, basic geometry, consumer skills, and basic algebra. A scientific calculator with fraction capabilities is required.</p> <p>Prerequisite: Recommendation of previous teacher and departmental approval. Next course in sequence: Foundations of Algebra and Geometry. Open to grades 9, 10, 11 and 12.</p>
<p>FOUNDATIONS OF ALGEBRA AND GEOMETRY Course # 3090 Full year Credit: 1.0</p>	<p>This course introduces important topics in Algebra and Geometry. Algebra topics include expressions, equations, inequalities and linear functions. Geometry topics include lines, segments, angles, triangles, perimeter, area and volume. This course is appropriate for students with reasonable facility with arithmetic operations and average grades in mathematics. A graphing calculator is required.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Recommendation of previous teacher and departmental approval. Next course in sequence: Algebra 1 General. Open to grades 9, 10, 11 and 12.</p>
<p>ALGEBRA 1 GENERAL Course # 3100 Full year Credit: 1.0</p>	<p>This course continues the important topics in Algebra. Topics include exponents, systems of equations, inequalities, linear and quadratic functions, polynomial expressions, probability, and statistics. A graphing calculator is required.</p> <p>This course fulfills the ISBE graduation requirement for Algebra 1.</p> <p>Prerequisite: Foundations of Algebra and Geometry and department approval. Next course in sequence: Geometry General. Open to grades 10, 11 and 12.</p>
<p>ALGEBRA 1 GENERAL BLOCK Course # 3141 1st Semester Credit: 1.0</p>	<p>This course has the same core curriculum as #3100, but is taught in a single semester, two periods daily.</p> <p>Prerequisite: Foundations of Algebra and Geometry and teacher recommendation. Open to grades 10 and 11.</p>
<p>ALGEBRA 1 Course # 3110 Full year Credit: 1.0</p>	<p>This course focuses on fundamental properties of the real numbers. Linear and quadratic equations are emphasized. Rational expressions and equations are introduced. Real world applications are explored. Algebra 1 is recommended for freshmen students who have achieved a strong facility with arithmetic operations and above average grades in mathematics or for those students whose Algebra skills need strengthening. A graphing calculator with matrix capabilities is required in this course.</p> <p>This course fulfills the ISBE graduation requirement for Algebra 1.</p> <p>Prerequisite: 8th grade teacher recommendation or Departmental approval. Next course in sequence: Geometry. Open to grades 9, 10, 11 and 12.</p>
<p>GEOMETRY GENERAL Course # 3200 Full year Credit: 1.0</p>	<p>Geometry General uses an intuitive approach to study the fundamental concepts in Geometry. Although deductive reasoning is practiced, much less emphasis is placed on writing formal proofs. Students experience geometric concepts through frequent constructions and hands on activities. Some students from #3110 Algebra 1 may be advised to take this course. A scientific calculator is required in this course.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content.</p> <p>Prerequisite: Algebra 1 General or Algebra 1 and Departmental approval. Next course in sequence: Algebra 2 Trigonometry General based upon teacher recommendation. Open to grades 10, 11 and 12.</p>

Mathematics Department

<p>GEOMETRY GENERAL BLOCK <i>Course # 3232</i> 2nd Semester Credit: 1.0</p>	<p>This course has the same core curriculum as #3200, but is taught in a single semester, two periods daily.</p> <p>Prerequisite: Algebra 1 General and teacher recommendation. Open to grades 10 and 11.</p>
<p>GEOMETRY <i>Course # 3210</i> Full year Credit: 1.0</p>	<p>Geometry focuses on proof and fundamental concepts of plane geometry with some informal three-dimensional considerations. Properties of lines, angles, triangles, quadrilaterals and circles are studied. Special attention is given to concepts of congruence, perpendicularity, parallelism, area, similarity, coordinate geometry, logic and deductive reasoning. A scientific calculator is required in this course.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content. Prerequisite: Algebra 1, 8th grade teacher recommendation, and Departmental approval. Next course in sequence: Algebra 2-Trigonometry. Open to grades 9, 10, 11 and 12.</p>
<p>GEOMETRY HONORS <i>Course # 3220</i> Full year Credit: 1.0</p>	<p>This honors course provides an in-depth study of all the topics of plane Euclidean geometry including three-dimensional geometry. Particular attention will be given to the nature of a mathematical system, logic and proof. Students are expected to exercise their creative capacities, and apply their knowledge to different situations. Recommended for students who have a high interest in mathematics and have achieved, without undue stress, an A average in Algebra. A scientific calculator is required in this course.</p> <p>This course fulfills the ISBE graduation requirement of a course with Geometry content.</p> <p>Prerequisite: Algebra 1, 8th grade teacher recommendation, and Departmental approval. Next course in sequence: Algebra 2 Trigonometry Honors or Algebra 2 Trigonometry, based on teacher recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>INTEGRATED ALGEBRA AND GEOMETRY HONORS <i>Course # 3280</i> Full year Credit: 1.0</p>	<p>This honors course reviews important concepts in Algebra 1 and Geometry. Topics will be explored in greater depth than the introductory courses, and selected Algebra 2 Trigonometry topics will be introduced. Students who are successful in this course should be well prepared for a sequence of Algebra 2 Trigonometry Honors, Pre-Calculus Honors, and an AP course on Calculus and/or Statistics.</p> <p>Prerequisite: Algebra 1, Geometry, and 8th grade teacher recommendation. Next course in sequence: Algebra 2 Trigonometry or Algebra 2 Trigonometry Honors. Open to grade 9.</p>
<p>ALGEBRA 2 TRIGONOMETRY GENERAL <i>Course # 3300</i> Full year Credit: 1.0</p>	<p>The basic material for this course, described under #3310 Algebra 2 Trigonometry, is recommended for students from Geometry General. Some students from #3210 Geometry may be advised to take this course. A graphing calculator with matrix capabilities is required in this course.</p> <p>Prerequisite: Geometry General or Geometry and Departmental approval. Open to grades 11 and 12.</p>
<p>ALGEBRA 2 TRIGONOMETRY <i>Course # 3310</i> Full year Credit: 1.0</p>	<p>Algebra 2 Trigonometry expands the material studied in Algebra and Geometry, emphasizing real world applications and associated graphical analysis. The complex number system is studied. Linear, quadratic, exponential, logarithmic, polynomial, rational and trigonometric functions are explored. Transformations and inverses of functions are introduced. This course is recommended for students with a grade average of C or better in Algebra and Geometry who desire a third year of college preparatory mathematics. A graphing calculator with matrix capabilities is required in this course.</p> <p>Prerequisite: Geometry. Next course in sequence: Pre-Calculus or Math Analysis or Introduction to Statistics or AP Statistics, based on teacher recommendation. Open to grades 10, 11 and 12.</p>

Mathematics Department

<p>ALGEBRA 2 TRIGONOMETRY HONORS <i>Course # 3320</i> Full year Credit: 1.0</p>	<p>This honors course provides a more in-depth study of the topics described above in Algebra 2 Trigonometry, as well as circular functions, conics, and probability. Students are expected to be capable of creative problem solving and individual study. This course is recommended for students who have a high interest in mathematics, with no less than a B+ average in previous mathematics courses. A graphing calculator with matrix capabilities is required in this course.</p> <p>Prerequisite: Geometry Honors and departmental approval. Next course in sequence: Pre-Calculus Honors or Pre-Calculus or AP Statistics, based on teacher recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>INTRODUCTION TO WEB PROGRAMMING <i>Course # 3351, 3352</i> 1st or 2nd Semester Credit: 0.5</p>	<p>This course focuses on the creation of World Wide Web documents using the HTML and JavaScript languages. Students are expected to spend laboratory time outside of class working on their projects. Introductory programming concepts will be presented using JavaScript in order to create more dynamic, self-modifying web pages. Internet access at home is recommended.</p> <p>Prerequisite: Algebra 1 and Departmental approval. Open to grades 9, 10, 11 and 12.</p>
<p>ADVANCED WEB PROGRAMMING <i>Course # 3372</i> 2nd semester Credit: 0.5</p>	<p>This course is a continuation of Introduction to Web Programming. Advanced programming concepts will be presented using HTML and JavaScript. Evaluation is based on projects, assignments, and tests.</p> <p>Prerequisite: Introduction to Web Programming and Departmental approval. Open to grades 9, 10, 11 and 12.</p>
<p>MATH ANALYSIS <i>Course # 3401, 3403</i> 2nd Semester Credit: 0.5</p>	<p>This course focuses on important topics in mathematical modeling. Topics include algorithms, matrices, graphs, and counting, with applications such as elections, fair division, population growth, scheduling, conflict resolution, routing, and game theory. A graphing calculator with matrix capabilities is required.</p> <p>Prerequisite: Algebra 2 Trigonometry General or Algebra 2 Trigonometry and Department approval. Open to grades 11 and 12.</p>
<p>INTRODUCTION TO STATISTICS <i>Course # 3431, 3432</i> 1st Semester/Full year Credit: 0.5/1.0</p>	<p>This course focuses on important topics in statistics. Topics covered in the first semester include statistical plots, statistical summaries of data, regression, probability, normal distributions, and sampling methods. The yearlong course will cover additional topics including hypothesis testing and confidence intervals of population means and proportions, and inference for the slope of the regression line. A graphing calculator with advanced statistical commands is required.</p> <p>Prerequisite for #3431: Algebra 2 Trigonometry General or Algebra 2 Trigonometry and department approval. Prerequisite for #3432: Successful completion of #3431. Next course in sequence: AP Statistics or Math Analysis upon teacher recommendation. Open to grades 11 and 12.</p>
<p>PRE-CALCULUS <i>Course # 3410</i> Full year Credit: 1.0</p>	<p>This course expands on the material studied in Algebra 2 Trigonometry. These areas of study include: real and complex numbers and functions (polynomial, exponential, logarithmic and trigonometric). Additional areas of study are conics, notions of limits, continuity, circular functions, mathematics of finance, parametric equations, and polar coordinates. It is recommended for students who are preparing to enter a technical or semi-technical profession, or planning to study Calculus. A graphing calculator with matrix capabilities is required in this course.</p> <p>Prerequisite: Algebra 2 Trigonometry or Algebra 2 Trigonometry Honors and Departmental approval. Next course in sequence: AP Calculus AB or AP Statistics. Open to grades 10, 11 and 12.</p>

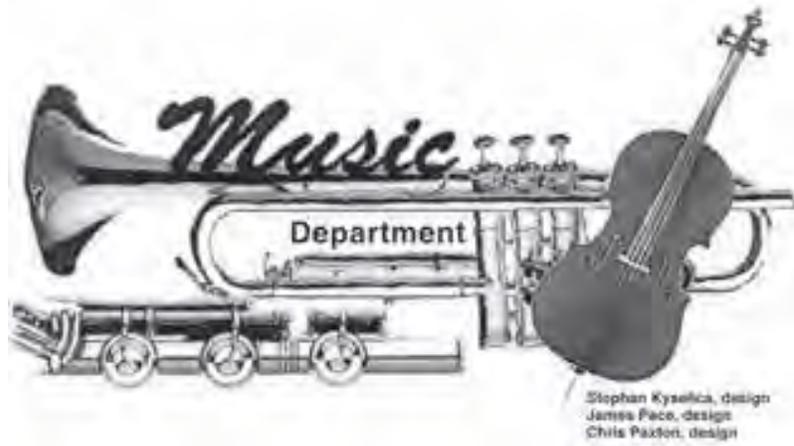

Mathematics Department

<p>PRE-CALCULUS HONORS <i>Course # 3420</i> Full year Credit: 1.0</p>	<p>This honors course provides a more in-depth study of the topics covered in Pre-Calculus with greater emphasis of both theory and applications. Additional topics include curve fitting and physics applications. A graphing calculator with matrix capabilities is required in this course.</p> <p>Prerequisite: Algebra 2 Trigonometry Honors and Departmental approval. Next course in sequence: Upon satisfactory completion of Pre-Calculus Honors, students are prepared for Calculus and AP Statistics. Open to grades 9-12.</p>
<p>ADVANCED PLACEMENT COMPUTER SCIENCE A <i>Course # 3480</i> Full year Credit: 1.0</p>	<p>The Computer Science A AP College Board curriculum guidelines are followed in this course. The emphasis of this course is to prepare students for the AP Exam and future programming courses. Programming concepts including variables, constants, expressions, conditionals, arrays, ArrayLists, iteration, functions, and object oriented programming using classes are covered. An emphasis is placed on problem solving. Additionally, programming methodology and design, pre-defined and abstract data types, sorting, data structures, and algorithms, related to data structures are discussed. Applications of computing a working knowledge of hardware and software systems, and the ethical and social implications of computing are examined. The programming language is JAVA.</p> <p>Prerequisite: Algebra 2 Trigonometry and Departmental approval. Open to grades 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT STATISTICS <i>Course # 3500</i> Full year Credit: 1.0</p>	<p>Advanced Placement Statistics will introduce students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. It will emphasize sound statistical thinking rather than routine procedures. This course is intended to be equivalent to an introductory non-calculus based college course in statistics. Students will do a significant amount of reading and independent projects. A graphing calculator with advanced statistics capabilities is required in this course.</p> <p>Prerequisite: Algebra 2 Trig. Honors, Algebra 2 Trig., Pre-Calculus, or Pre-Calculus Honors and Departmental approval. Open to grades 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT CALCULUS AB <i>Course # 3510</i> Full year Credit: 1.0</p>	<p>Advanced Placement Calculus (AB) emphasizes conceptual understandings through manual and technological applications of the derivatives and integrals of algebraic, trigonometric, exponential and logarithmic functions, and relations. This course prepares the student for the AB level Advanced Placement Examination. Satisfactory performance on this examination gives the student an opportunity to qualify for college credit in calculus. A graphing calculator meeting the College Board's optimal technology expectation for the AP Calculus exam is required in this course.</p> <p>Prerequisite: Pre-Calculus or Pre-Calculus Honors and Departmental approval. Open to grades 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT CALCULUS BC <i>Course # 3520</i> Full year Credit: 1.0</p>	<p>Advanced Placement Calculus BC provides an in-depth study of the topics described in Calculus AB, as well as two dimensional vectors, polar coordinates, parametric curves and series. This course prepares the student for the BC level Advanced Placement examination. Satisfactory performance on this examination gives the student an opportunity to qualify for college credit in calculus. A graphing calculator meeting the College Board's optimal technology expectation for the AP Calculus Exam is required in this course.</p> <p>Prerequisite: Pre-Calculus Honors and Departmental approval. Open to grades 10, 11 and 12.</p>

Mathematics Department

<p>COMPUTER SCIENCE TOPICS 1 Honors <i>Course # 3611, 3621</i> 1st Semester Credit: 0.5</p>	<p>Computer Science Topics 1 reviews and builds upon the concepts taught in the AP Computer Science A course. The primary emphasis of the course is on data structures algorithms using the JAVA programming language. Stacks, queues, linked lists, trees, heaps, hash tables, sets, maps, and graphs are covered in great detail. Following the data structures unit, students learn a second programming language. GUI's, advanced sorting algorithms, and cell phone applications are explored. Students have the opportunity to complete an independent study project at the conclusion of the course. Prerequisite: AP Computer Science A and Department approval. Open to grades 11 and 12.</p>
<p>COMPUTER SCIENCE TOPICS 2 Honors <i>Course # 3622</i> 2nd Semester Credit: 0.5</p>	<p>This course is a continuation of the Computer Science Topics 1 course described above. Prerequisite: AP Computer Science A and Department approval. Open to grades 11 and 12.</p>
<p>MATH TOPICS 1 HONORS <i>Course # 3641</i> 1st Semester Credit: 0.5</p>	<p>Math Topics 1 provides students advanced study in mathematics. Determined by the department, a student will be introduced to Linear Algebra, Multivariable Calculus, or Calculus-based Statistics. Prerequisite: Departmental approval. Open to grade 12.</p>
<p>MATH TOPICS 2 HONORS <i>Course # 3652</i> 2nd Semester Credit: 0.5</p>	<p>Math Topics 2 provides students with advanced study in mathematics. Determined by the department, a student will be introduced to Linear Algebra, Differential Equations, or Calculus-based Statistics. Prerequisite: Departmental approval. Open to grade 12.</p>
<p>ENRICHMENT COURSES</p>	
<p>MATH EXCEL ALGEBRA <i>Course # 3030, 3035</i> 1st and 2nd Semester Credit 0.5</p>	<p>Math Excel Algebra is designed to support students enrolled in Algebra 1 by providing them additional instruction, individualized practice, and support during the school day. In this small guided study hall led by an Excel teacher and a math teacher, students will have time and support to complete their mathematics homework in addition to other coursework. Math Excel Algebra is a semester course and students will earn a quarter of a credit towards graduation for each semester they are enrolled on a pass/fail basis. Students are encouraged to enroll in both semesters. Grading will be on a Pass or Fail basis only for this course. Open to students in grade 9 with a recommendation from their 8th Grade Teacher.</p>
<p>MATH EXCEL GEOMETRY <i>Course # 3020, 3025</i> 1st and 2nd Semester Credit 0.5</p>	<p>Math Excel Geometry is designed to support sophomore students enrolled in Geometry in the same format as Math Excel Algebra. Grading will be on a Pass or Fail basis only for this course. Open to students in grade 10 with teacher recommendation and Department approval.</p>
<p>MATH EXCEL ALGEBRA 2 TRIGONOMETRY <i>Course # 3010, 3015</i> 1st and 2nd Semester Credit 0.5</p>	<p>Math Excel Algebra 2 Trigonometry is designed to support students enrolled in Algebra 2 Trigonometry in the same format as Math Excel Algebra. Students in this course will also learn strategies to implement on the mathematics sections of standardized tests. Grading will be on a Pass or Fail basis only for this course. Open to students in grades 10 and 11 with teacher recommendation and Department approval.</p>

Music Department

All courses in the Music Department fulfill the Elective Arts graduation requirement. Two fine arts credits fulfill the Illinois state public university entrance requirements in Art, Music or Foreign Language. Music performance courses are designed to not only improve the level of performance skill of the student, but also to develop a deeper understanding of culture and aesthetics.

All music performance courses include performances outside the school day as a significant part of student expectations. Lists of performances and any outside rehearsals will be provided at the beginning of the school year. Auditing of music courses (participation for no credit) is not permitted.

IMPORTANT INFORMATION FOR INCOMING FRESHMEN AND THEIR PARENTS:

The following courses are available for freshmen enrollment and do not require an audition:

- Concert Orchestra (5680): violin, viola, cello and string bass players only
- Concert Band (5640): flute, oboe, all clarinets, bassoon, all saxophones, trumpet or cornet, French horn, trombone, baritone or euphonium, and tuba
- Concert Percussion (5710): drum set players, keyboardists, bass players and percussionists
- Jazz Lab (5677): open to all instruments and voice types
- Treble Choir (5800): female vocalists
- Men's Choir (5801): male vocalists

The courses below are open to freshmen by audition. Visit the band website, www.hcbands.org for additional information. Email the Band Directors at mkurinsk@hinsdale86.org or mgoeke@hinsdale86.org for an audition time.

- Symphonic Band (5641): flute, oboe, all clarinets, bassoon, all saxophones, trumpet or cornet, French horn, trombone, baritone or euphonium, and tuba
- Wind Ensemble (5646): flute, oboe, all clarinets, bassoon, all saxophones, trumpet or cornet, French horn, trombone, baritone or euphonium, tuba, and percussion
- Symphonic Percussion (5711): drum set players, keyboardists, and percussionists
- Jazz Band (5676): all saxophones, trombone, trumpet, keyboard, guitar, bass, and drum set
- Jazz Ensemble (5670): all saxophones, trombone, trumpet, keyboard, guitar, bass, and drum set

Music Department

The following courses are available for upperclassmen and require an audition with the instructor:

- Women’s Chorale (5810), Hinsdale Central Singers (5840), Chamber Choir (5850), audition with Mrs. Burkemper in Room 169, 630-570-8452, email jburkemp@hinsdale86.org
- Symphony Orchestra (5690): audition with Mr. Wirtz, Room 163, 630-570-8453, email jwirtz@hinsdale86.org
- Symphonic Band (5641), Symphonic Percussion (5711), Wind Ensemble (5646), Jazz Band (5660), Jazz Ensemble (5670): audition with Mr. Kurinsky, email mkurinsk@hinsdale86.org.

Visit the band website, www.hcbands.org for additional information. Email the Band Directors at mkurinsk@hinsdale86.org or mgoeke@hinsdale86.org for an audition time.

Music Department

<p>HONORS STUDY IN MUSIC</p>	<p>All students in music courses will have the option for earning honors credit:</p> <p>Information and requirements for honors credit in music courses can be found at www.hcmusic.org. Please click on the tab labeled Honors. If you have questions regarding the information please contact the Music Department Chair, Jeffrey Wirtz, at jwirtz@hinsdale86.org or 630-570-8450.</p> <p>Strings Players may, through auditions in September, be selected for the Honors Chamber Orchestra. This is a select ensemble of advanced string players who rehearse every other morning as an Early Bird class. Concurrent registration in Concert Orchestra or Symphony Orchestra is required.</p> <p>Wind and Percussion Players may, through auditions in September, be selected for Honors Orchestra Winds and Percussion. This is a select ensemble of advanced wind and percussion players who will rehearse every other day as an Early Bird class. These players make up the Symphony Orchestra Wind and Percussion sections. Concurrent registration in a band class is required.</p>
<p>ORCHESTRA</p>	
<p>CONCERT ORCHESTRA <i>Course # 5680</i> Full year Credit: 1.0</p>	<p>This class will develop the basic techniques involved in playing a stringed instrument and perform concerts with students in band classes. Music from the standard repertoire of orchestral music will be studied.</p> <p>Prerequisite: Director approval. Open to grade 9. This course may be repeated for credit.</p>
<p>SYMPHONY ORCHESTRA <i>Course # 5690</i> Full year Credit: 1.0</p>	<p>A class for higher level development of string instrument techniques and the study of appropriate music. This class combines with the Honors Orchestra Winds and Percussion to perform Music from the standard repertoire of orchestral music. An audition is required.</p> <p>Prerequisite: Audition & director approval. Open to grades 10, 11 and 12. This course may be repeated for credit.</p>
<p>CHOIR</p>	
<p>TREBLE CHOIR <i>Course # 5800</i> Full year Credit: 1.0</p>	<p>Teaches and examines basic vocal techniques, practice and performance of choral music, sight singing and theory. A variety of choral music will be practiced and performed. Honors credit is available for this course.</p> <p>Prerequisite: None. Open to all ninth grade females and to all other grade levels who have not participated in vocal music at school before.</p>
<p>MEN'S CHOIR <i>Course # 5801</i> Full year Credit: 1.0</p>	<p>Teaches and examines basic vocal techniques, practice and performance of choral music, sight singing and theory. A variety of choral music will be practiced and performed. Honors credit is available for this course.</p> <p>Prerequisite: None. Open to all ninth grade males and to all other grade levels who have not participated in vocal music at school before.</p>

CHOIR, continued	
WOMEN'S CHORALE <i>Course # 5810</i> Full year Credit: 1.0	Level two of vocal techniques focused on the female voice. A variety of women's choral literature is practiced and performed. Advanced study of sight singing and theory. Honors credit is available for this course. An audition is required. Prerequisite: Director approval. Open to grades 10, 11 and 12. This course may be repeated for credit.
HINSDALE CENTRAL SINGERS <i>Course # 5840</i> Full year Credit: 1.0	An advanced level of vocal technique, sight singing and theory. This advanced choral group practices and performs a variety of music. Extra performances or rehearsals may be scheduled. Honors credit is available for this course. An audition is required. Prerequisite: Director approval. Open to grades 10, 11 and 12. This course may be repeated for credit.
CHAMBER CHOIR <i>Course # 5850</i> Full year Credit: 1.0	An advanced group with a high level of musicianship, vocal technique, sight singing and theory skills. A large variety of musical styles will be practiced and performed. This ensemble performs frequently outside of the school day for community events. Honors credit is available for this course. An audition is required. Prerequisite: Audition and director approval. Open to grades 11 and 12. This course may be repeated for credit.
BAND	
INFORMATION FOR ALL BAND CLASSES	
<p>Students enrolled in the Hinsdale Central High School Bands perform at home games, local parades, pep rallies, formal concerts, and other community events. Band classes improve musicianship, develop technique, and provide performance opportunities featuring a variety of musical styles and ensemble settings. Every band course is an academic class that meets during a class period and also requires occasional rehearsals and performances outside the school day; however, students are encouraged to participate in other academic classes, athletics, and activities. Opportunities for student leadership, overnight travel, and extracurricular performing are available. All band classes can be repeated each year for credit and are open to students in every grade. Every band student performs as part of the Pep Band and the Red Devil Marching Band, which allows sophomores, juniors, and seniors to exempt out of Physical Education during first semester.</p> <ol style="list-style-type: none"> a. Band students in grades 10 through 12 may be exempted from Physical Education classes on an Athletic Waiver during both semesters for ongoing participation in the marching band and pep band provided their Physical Education class is scheduled during the regular seven period school day (see 4b, for exceptions to this rule). These students will be placed into a study hall during their Physical Education class. The band classes that require such participation are Concert Band, Concert Percussion Ensemble, Symphonic Band, Symphonic Percussion Ensemble, and Wind Ensemble. Withdrawal from a band class results in an immediate return to Physical Education. b. Band students also enrolled in an early bird band class, in addition to one of the band classes listed in 4(a), may exempt out of early bird Physical Education in order to enroll in those early bird band classes only. Early bird band classes are Jazz Lab, Jazz Band, Jazz Ensemble, and Orchestra Winds and Percussion. Withdrawal from an early bird music class results in an immediate return to early bird physical education. <p>Students must be enrolled in one of the five band classes to participate in jazz classes, orchestra wind and percussion sections, and other extracurricular band activities. The band web page, www.hcbands.org, has the most current information about the band program, auditions, and honors credit requirements. Questions may be emailed to the band directors: Mr. Matt Kurinsky, at mkurinsk@hinsdale86.org or Mr. Matt Goeke at mgoeke@hinsdale86.org.</p>	

Music Department

BAND, continued	
<p>CONCERT BAND <i>Course # 5640</i> Full year Credit: 1.0 NO PERCUSSIONISTS</p>	<p>The Concert Band is open to all flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, baritone, and tuba players without an audition and is open to beginners in addition to experienced performers. Students will study the basics of wind instrument performance, music reading, and music theory. See the Information for All Band Classes above for more details.</p> <p>Prerequisite: none</p>
<p>SYMPHONIC BAND <i>Course # 5641</i> Full year Credit: 1.0</p>	<p>The Symphonic Band is an auditioned concert band made up of flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, baritone, and tuba players. This class develops a more advanced level of wind instrument performance and requires students to have a good understanding of music reading and music theory. See the Information for All Band Classes above for more details.</p> <p>Prerequisite: audition required.</p>
<p>WIND ENSEMBLE HONORS <i>Course # 5646</i> Full year Credit: 1.0</p>	<p>The Wind Ensemble is an auditioned, highly selective, concert band made up of a limited number of flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, baritone, tuba, and percussion players. Enrolled students must be proficient at reading and performing music and must meet honors credit requirements. Students will frequently perform the most advanced standards and the latest compositions of contemporary wind band literature. See the Information for All Band Classes for more details.</p> <p>Prerequisite: audition required.</p>
<p>CONCERT PERCUSSION <i>Course # 5710</i> Full year Credit: 1.0</p>	<p>The Concert Percussion Ensemble is an entry level class for students interested in performing band music on percussion instruments, drum set, and bass guitar. In addition to performing as a percussion ensemble, students will also prepare standard band literature to perform with the wind players in other band classes. Enrolled students will learn the basics of music reading and percussion technique. See the Information for All Band Classes for more details.</p> <p>Prerequisite: none</p>
<p>SYMPHONIC PERCUSSION <i>Course # 5711</i> Full year Credit: 1.0</p>	<p>The Symphonic Percussion Ensemble is an auditioned class only for percussion and drum set players. In addition to performing as a percussion ensemble, students will also prepare standard band literature to perform with the wind players in other band classes. Enrolled students must be able to read music and have a good understanding of percussion technique. See the Information for All Band Classes for more details.</p> <p>Prerequisite: audition required.</p>
<p>JAZZ ENSEMBLE <i>Course # 5670</i> Full year Credit: 1.0</p>	<p>The Jazz Ensemble is the top auditioned traditional big band made up of saxophone, trombone, trumpet, piano, bass, guitar, and drum set players. Students enrolled in this class study jazz performance in a variety of styles and frequently perform. Enrolled students should have a good understanding of scale and chord theory and must be comfortable practicing improvisation. This class meets every other day during the “Early Bird” Period 0. Students may also enroll in Honors Orchestra Winds and Percussion. See the Information for All Band Classes for more details.</p> <p>Prerequisites: audition required and concurrent registration in a band class (exceptions made for non-band instruments)</p>

Music Department

BAND, continued	
<p>JAZZ BAND Course # 5676 Full year Credit: 1.0</p>	<p>The Jazz Band is an auditioned traditional big band made up of saxophone, trombone, trumpet, piano, bass, guitar, and drum set players. Students enrolled in this class study jazz performance in a variety of styles. The class develops an understanding of scale and chord theory and encourages improvisation. This class meets every other day during the “Early Bird” Period 0. See the Information for All Band Classes for more details.</p> <p>Prerequisites: audition required and concurrent registration in a band class (exceptions made for non-band instruments)</p>
<p>JAZZ LAB Course # 5677 Full year Credit: 1.0</p>	<p>The Jazz Lab is an entry level class for instrumental and vocal music students interested in performing contemporary music in a variety of styles while developing improvisation skills. Students may be grouped into ensembles according to ability and instrumentation. See the Information for All Band Classes for more details.</p> <p>Prerequisite: concurrent registration in a performance music class</p>
MUSIC THEORY	
<p>BEGINNING PIANO COMPOSITION & THEORY Course #5920 Credit: 1.0</p>	<p>This course is designed for students who have limited piano or musical experience. Students will learn to read music and develop technical facility on the piano through preparation and performance of progressively more challenging music. Students will learn to use the music notation program, <i>Finale</i>, while using MIDI synthesizer workstations. Basic theory and composition techniques will be taught throughout the year, as well. Keyboard is provided.</p> <p>Prerequisites: None. Open to grades 9-12.</p>
<p>AP MUSIC THEORY Course # 5900 Full year Credit: 1.0</p>	<p>AP Music Theory prepares music students for the Music Theory Advanced Placement Examination through the study of musical elements and techniques including notation, scales and modes, intervals, chords, non-harmonic tones, cadences, ear training, sight singing, melody, form, and composition. Success on the AP Exam can result in college credit. All prospective students must be recommended to Mr. Kurinsky by their music director or private lesson instructor.</p> <p>Prerequisite: Director approval. Open to grades 10, 11 and 12.</p>

Physical Education

All students must take physical education or health each semester in attendance. Four (4) credits of Physical Education/Health are required for graduation. Health is a required semester course to be taken during the 10th grade year. Students have an option of also enrolling in Physical Education during that semester for an additional 0.5 credit. A student earns 1/2 credit for each semester of passing work in Physical Education. Students who fail Physical Education must make up the credit by enrolling in an equivalent course at another approved institution. Students will not be allowed to enroll in more than one period of required Physical Education per semester. Students are expected to attend class daily, dress in proper physical education attire and participate to their ability.

Physical education is the science of human movement and the courses are designed to provide instruction and insight into healthy physical activities. All Physical Education offerings are designed to promote good health, safety, fitness, awareness of the value of recreation, and an appreciation of all forms of physical expression.

Students must register for Physical Education **EACH** semester. *

GRADE	SEMESTER 1	SEMESTER 2
9	7113	7114

Freshman: basketball, track and field, softball, soccer, square dance, volleyball, badminton, fitness concepts, team building, football, tennis, gymnastics, swimming, group exercise, wrestling and modern dance.

GRADE	Students are to enroll in one option each semester
10/11/12	

*Sophomores may exercise their option of taking **Health Education and only one semester of Physical Education** by registering for the following courses: **P.E. option/Health 7502 or Health 7501/PE option.**

Sophomore, Junior and Senior: Select one activity from each semester

COURSE TITLE	Course # (First/Second Semester)	Prerequisite	Credit	Grade Offered
Adaptive Physical Education	7080	Yes	1.0	9-12
Aerobics	7307/7322	No	0.5	10-12
Aquatics	7305/7320	No	0.5	10-12
Competitive Physical Conditionings	7306/7321	No	0.5	10-12
Comprehensive Weight Training	7309/7324	No	0.5	10-12
Early Bird P.E.	7373/7374	No	0.5	10-12
Fitness Integrated Through Sports (F.I.T.S.)	7311/7312/7313 7326/7327/7328	No	0.5	10-12
Health / P.E. Option	7501	No	1.0	10
Lifeguard/CPR/First Aid	7310/7325	No	0.5	10-12
P.E. / Health Option	7502	No	1.0	10

Physical Education	7113/7114	No	0.5	9

First Semester Options

AQUATICS <i>Course # 7305</i> 1st semester Credit: 0.5	Includes sports and activities designed for the aquatic environment. Included are the development of skills in springboard diving, analysis of the four competitive swimming strokes, as well as starts and turns. Water safety habits, basic lifeguarding skills, water aerobics, dryland exercises, and weight training specific to aquatic activity will also be introduced. Recommended for prospective triathletes and swimmers. (May be repeated.)		
COMPETITIVE PHYSICAL CONDITIONING <i>Course # 7306</i> 1st semester Credit: 0.5	A strong emphasis on core training, general strength, stability and explosive power. Recommended for any person wishing to improve overall competitive effectiveness.		
AEROBICS <i>Course # 7307</i> 1st semester Credit: 0.5	This class introduces students to components of cardiovascular activity through aerobic movements. Students will also address the principles of muscular strength and endurance through the use of free weights and toning exercises. Core workouts, yoga, pilates, and dance are introduced as part of this class as methods for students to increase flexibility, strength and balance. (May be repeated)		
PERSONAL FITNESS (Fitness Center) <i>Course # 7308</i> 1st semester Credit: 0.5	Variable course content. Teacher directed workouts and individualized conditioning programs designed to address fitness goals are incorporated. Principles and skills relating to cardiovascular endurance, muscular strength, muscular endurance, and flexibility are incorporated. Equipment orientation includes cardiovascular machines, proper weight training techniques and circuit training. At the completion of course, students will be able to design and implement their own fitness program. (May be repeated.)		
COMPREHENSIVE WEIGHT TRAINING (Bouchard Center) <i>Course # 7309</i> 1st semester Credit: 0.5	Gain knowledge and understanding of weight training theory, advanced weight training practices, sport specific weight training techniques and proper nutritional practices. Initiate and develop weight training programs. Improve muscular strength and endurance. (May be repeated.)		
LIFEGUARD/CPR/First Aid <i>Course # 7310</i> 1st semester Credit: 0.5	Meets American Red Cross Lifesaving Certification, Cardiopulmonary Resuscitation Certification and Standard First Aid Certification. Students must be able to swim 500 yds. non-stop to enroll. No student may use a P.E. exemption in this class and receive Red Cross certification or recertification.		
Fitness Integrated Through Sports (F.I.T.S.) <i>Course # 7311, 7312, 7313</i> 1st semester Credit: 0.5	Includes sports and activities for lifelong participation. Instruction provided in basic skill, rules, strategies, and social behavior necessary to achieve competent level of participation, practice, game situations and tournament play. In addition, students will be introduced to fitness components such as cardiovascular endurance, muscular strength, muscular endurance and flexibility. Select one of the following options. Please note: F.I.T.S. CC is designated for those who desire a competitive atmosphere.		
7311 F.I.T.S. (ICR) (Individual Concept Recreational):	Individual Fitness Orienteering Aquatics	Tennis Archery Fitness Testing	Roller blading Badminton Frisbee Golf
7312 F.I.T.S. (CC) (Competitive Concept):	Volleyball Ultimate Frisbee Aquatic Games	Football/Navy Outdoor Hockey Soccer	Team Handball Flicker Ball Fitness Testing
7313 F.I.T.S. (TCR) (Team Concept Recreational):	Volleyball Basketball Fitness Testing	Square Dance Softball	Kickball Soccer Football

Physical Education

Second Semester Options

AQUATICS <i>Course # 7320</i> 2nd semester Credit: 0.5	Includes sports and activities designed for the aquatic environment. Included are the development of skills in springboard diving, analysis of the four competitive swimming strokes, as well as starts and turns. Water safety habits, basic lifeguarding skills, water aerobics, dryland exercises, and weight training specific to aquatic activity will also be introduced. Recommended for prospective triathletes and swimmers. (May be repeated.)			
COMPETITIVE PHYSICAL CONDITIONING <i>Course # 7321</i> 2nd semester Credit: 0.5	A strong emphasis on core training, general strength, stability and explosive power. Recommended for any person wishing to improve overall competitive effectiveness.			
AEROBICS <i>Course # 7322</i> 2nd semester Credit: 0.5	This class introduces students to components of cardiovascular activity through aerobic movements. Students will also address the principles of muscular strength and endurance through the use of free weights and toning exercises. Core workouts, yoga and pilates are introduced as part of this class as methods for students to increase flexibility, strength and balance. (May be repeated)			
PERSONAL FITNESS (Fitness Center) <i>Course # 7323</i> 2nd semester Credit: 0.5	Variable course content. Teacher directed workouts and individualized conditioning programs designed to address fitness goals are incorporated. Principles and skills relating to cardiovascular endurance, muscular strength, muscular endurance, and flexibility are incorporated. Equipment orientation includes cardiovascular machines, proper weight training techniques and circuit training. At the completion of course, students will be able to design and implement their own fitness program. (May be repeated.)			
COMPREHENSIVE WEIGHT TRAINING (Bouchard Center) <i>Course # 7324</i> 2nd semester Credit: 0.5	Gain knowledge and understanding of weight training theory, advanced weight training practices, sport specific weight training techniques and proper nutritional practices. Initiate and develop weight training programs. Improve muscular strength and endurance. (May be repeated.)			
LIFEGUARDING/CPR/FIRST AID <i>Course # 7325</i> 2nd semester Credit: 0.5	Meets American Red Cross Lifesaving Certification, Cardiopulmonary Resuscitation Certification and Standard First Aid Certification. Students must be able to swim 500 yds. non-stop to enroll. No student may use a P.E. exemption in this class and receive Red Cross certification or recertification.			
Fitness Integrated Through Sports (F.I.T.S.) <i>Course # 7326,7327,7328</i> 2nd semester Credit: 0.5	Includes sports and activities for lifelong participation. Instruction provided in basic skill, rules, strategies, and social behavior necessary to achieve competent level of participation, practice, game situations and tournament play. In addition, students will be introduced to fitness components such as cardio-vascular endurance, muscular strength, muscular endurance and flexibility. Select one of the following options. (May be repeated.)Please note: F.I.T.S. (CC) is designated for those who desire a competitive atmosphere.			
7326 F.I.T.S. (ICR) (Individual Concept Recreational):	Bowling* Pickleball	Ping Pong Aquatics	Golf Group Exercise	Outdoor Education Fitness Testing
7327 F.I.T.S. (CC) (Competitive Option):	Volleyball Basketball	Team Games Softball	Outdoor Hockey	Aquatic Games
7328 F.I.T.S. (TCR) (Team Concept Recreational):	Volleyball Whiffleball	Basketball Kickball	Lacrosse (no contact) Softball	Fitness Testing
*Supply fee of \$30.00 is required for this off-campus activity. Fee is collected at time of participation				

Physical Education

ADAPTIVE PHYSICAL EDUCATION Course # 7080 Full year Credit: 1.0	This self-contained section of Adaptive Physical Education is offered to students who are restricted and prevented from activity in a regular program. This could include ambulatory cases, congenital defects, and handicapped students. Each student in the section will be given a separate (IEP) individual education program which has earned approval from a physician, school nurse, and parent(s) as appropriate. Prerequisite: Departmental and/or Educational Services departmental approval. Open to grades 9, 10, 11 and 12.
EARLY BIRD P.E. Course # 7373, 7374 1st or 2nd semester Credit: 0.5	This physical education class is open to all sophomores, juniors, and seniors who wish to add an extra period to their day, giving them greater flexibility to select other specialized courses. The course runs from 7:00 a.m. to 7:50 a.m. daily. Students must provide their own transportation.

PHYSICAL EDUCATION EXEMPTION

Students interested in exempting out of PE during their 2013– 2014 athletic or marching band season in order to take a study hall need to be aware of the following:

1. PE Exemption is available for **Junior** and **Senior** athletes and **Sophomore, Junior, and Senior** Marching Band members only.
 - a. You must be enrolled as a full-time student with a full academic load.
2. In order to be eligible for PE Exemption, you must fill out both sides of the request form with all required signatures and turn it in to your counselor at your individualized registration appointment in January or February.
3. Individual students who are no longer on the roster will return to the PE course in which they were originally enrolled immediately following the conclusion of the competition season for their respective sports(s).
4. These course codes will be used for PE Exemptions that fall within the following seasons:

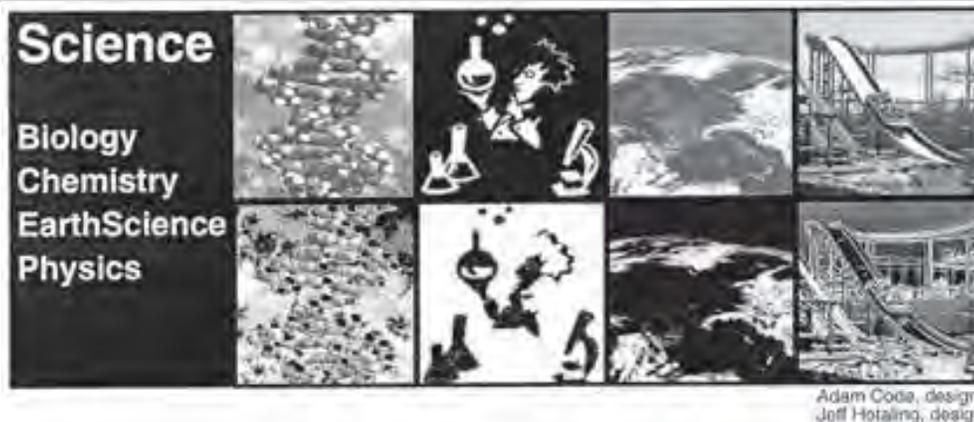

Code	Fall Season	Winter Season	Spring Season	Girls' Sports	Boys' Sports	Activity
7218*	Exempt			Golf Tennis Volleyball Cross Country Swimming FB Cheerleading FB Poms	Golf Football Soccer Cross Country	
7219	Exempt	Exempt	Exempt			Marching Band
7220*+		Exempt		Bowling Basketball Gymnastics BB Cheerleading BB Poms	Bowling Wrestling Basketball Swimming	
7221*			Exempt	Outdoor Track Badminton Water Polo Soccer Softball Lacrosse	Outdoor Track Gymnastics Tennis Water Polo Baseball Volleyball Lacrosse	
7222***		Exempt	Exempt	Indoor/Outdoor Track	Indoor/Outdoor Track	

* These Exemption students must still register for a PE class during the semester of their exemption as they will return to class at the conclusion of their individual roster competition. They are not guaranteed the class of their choice, due to space limitations caused by exempted students flowing in and out of PE classes throughout the year.

*** These PE Exemption students will not register for a PE class for 2nd Semester. They need to select a PE option for 1st Semester only.

+ Students re-entering PE once their season is over may be put into Personal Fitness if space is not open in the class they vacated.

Science Department

Two credits in science are required for graduation. Each credit must be earned by completing both semesters of a given course (one credit can be earned through the semester course offerings).

All students should have experience in both the biological and physical/earth sciences. Two years of the same type of science, if this excludes other areas of science, is not recommended.

1. Courses in science are designed to develop an understanding of the natural and physical world, to stress the importance of major scientific principles, to develop reasonable competence in the use of the methods of science and to help recognize and prepare for the role science plays in our evolving technological world. The many course offerings and sequences in science have been carefully planned to meet the needs of each student, whether he/she considers science as a future career, as an interesting avocation or as a necessity for all citizens in our technological society.
2. Courses are taught in classroom-laboratory situations which provide opportunities for individual and group instruction, investigation and experimentation. All science classes require a teacher recommendation.
3. The following are possible four-year course sequences:

Seq.	Grade 9	Grade 10	Grade 11	Grade 12
1.	Earth Science-G or Biology-G	Biology-G Earth Science-G	Chemistry/Physics	Chemistry Themed or Traditional or Physics Themed or Traditional
2.	Biology	Chemistry Themed or Chemistry Traditional	Physics Themed or Physics Traditional	Earth Science semester courses or Earth Science Honors or <u>select</u> Advanced Placement courses
3.	Biology	Chemistry Themed or Chemistry Traditional	Earth Science semester courses* or Earth Science	Physics Themed Physics Traditional
4.	Biology or Biology H or Earth Science or Earth Science-H	Earth Science or Earth Science-H or Biology or Biology-H	Traditional/Themed or Chemistry - H	Physics-H or Advanced Placement courses
5.	Biology Honors	Chemistry Honors	Physics Honors	Advanced Placement courses
6.	Chemistry H (if you are registered for Algebra 2 Trig or higher)	Physics H	A.P. Biology or A.P. Environmental Science	Advanced Placement course

*The following semester courses are available to upperclassmen:

Meteorology/Astronomy **(student must not have taken Earth Science)**

Geology/Oceanography **(student must not have taken Earth Science)**

The aforementioned sequences by no means represent all sequences available to students. The possibilities are numerous. A more useful way to view science courses is by the year offered. The following table serves that purpose.

Science Department

COURSE TITLE	Course #	Prerequisite	Credit	Grade Offered
Fundamentals of Physical Science	3680	Yes	1.0	11-12
Fundamentals of Biological Science	3690	Yes	1.0	9-12
Biology – General	3700	Yes	1.0	9-12
Biology	3710	Yes	1.0	9-12
Biology – Honors	3720	Yes	1.0	9-12
Advanced Placement Biology	3730	Yes	1.0	11-12
Advanced Placement Environmental Science	3770	Yes	1.0	11-12
Earth Science – General	3740	Yes	1.0	9-12
Earth Science	3750	Yes	1.0	9-11
Earth Science – Honors	3760	Yes	1.0	9-12
Meteorology/Astronomy	3771	Yes	0.5	11-12
Geology/Oceanography	3782	Yes	0.5	11-12
Chemistry/Physics I	3800	Yes	1.0	11-12
Chemistry – Themed	3810	Yes	1.0	10-12

Chemistry – Honors	3830	Yes	1.0	10-12
Advanced Placement Chemistry	3840	Yes	1.0	11-12
Physics – Themed	3900	Yes	1.0	10-12
Physics – Traditional	3920	Yes	1.0	10-12
Physics – Honors	3930	Yes	1.0	10-12
Advanced Placement Physics B	3950	Yes	1.0	11-12
Advanced Placement Physics C	3960	Yes	1.0	11-12
Student Inquiry and Research (SIR)-- Honors	3980	Yes	1.0	10-12

<p>FUNDAMENTALS OF PHYSICAL SCIENCE <i>Course # 3680</i> Full year Credit: 1.0</p>	<p>This course focuses on the basic principles of the physical science. Students are directly involved in the development of each concept presented. The goal is to sharpen skills of observation and inference. Fundamentals of Physical Science is a laboratory course.</p> <p>Prerequisite: Successful completion of Biology General and Earth Science General. Enrollment in this course is by teacher recommendation only.</p>
<p>FUNDAMENTALS OF BIOLOGICAL SCIENCE <i>Course # 3690</i> Full year Credit: 1.0</p>	<p>This course investigates the basic structure, activities and relationships among living things. Class activities include laboratory investigations and class discussions.</p> <p>Prerequisite: Must be recommended cooperatively by Special Education, Science and Guidance departments. The Fundamentals of Biological Science Course #3690 is being reviewed and will NOT be offered in 2013-2014.</p>
<p>BIOLOGY - GENERAL <i>Course # 3700</i> Full year Credit: 1.0</p>	<p>This course is designed to acquaint students with properties of living organisms. The course content includes such topics as the relationship between structure and function in living organisms as it relates to the human body, evolution, genetics, and many aspects of ecology. The approach of this course is to provide an introduction to major biological concepts with the use of an easily readable textbook. Biology - G is a laboratory course.</p> <p>Prerequisite: Incoming freshmen eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 and 12.</p>

Science Department

<p>BIOLOGY Course # 3710 Full year Credit: 1.0</p>	<p>This course is designed to acquaint students with properties of living organisms. This course's content includes such topics as the relationship between the structure and function in living organisms as it relates to the human body, evolution, genetics, and varied ecological principals. These areas are investigated in greater depth and application than Biology-General. The impact that humans have on the global environment is studied during the end of this course. Methods of scientific inquiry are employed in classroom instruction. Good ability in reading comprehension is ESSENTIAL for success in this course. Biology - R is a laboratory course.</p> <p>Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 and 12.</p>
<p>BIOLOGY - HONORS Course # 3720 Full year Credit: 1.0</p>	<p>The course follows a molecular approach in the following content areas: cellular biology, evolution, genetics and its applications, and aspects of human biology. Compared to Biology 3710, the content areas are covered in greater depth and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. This course utilizes an inquiry approach in which students incorporate factual information into a framework of reflection and analysis. Biology - H is a laboratory course. Students earning a C in this course will not be eligible for a level change.</p> <p>Prerequisite: High ability in science, mathematics and reading. Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT BIOLOGY Course # 3730 Full year Credit: 1.0</p>	<p>This course follows the College Board's Advanced Placement curriculum and as such is rigorous and fast paced. This course is comparable to an introductory college level course. College level materials are used. Advanced Placement Biology is a laboratory course.</p> <p>Prerequisite: Three years of science, including a year of Biology and a year of Chemistry and departmental recommendation. Concurrent enrollment in third year of science and AP Biology is permitted. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT ENVIRONMENTAL SCIENCE Course # 3770 Full year Credit: 1.0</p>	<p>This course follows the College Board's Advanced Placement curriculum and as such is rigorous and fast paced. This course will provide students with the scientific principles, concepts and methods required to understand the interrelationships of the natural world, to identify and analyze environmental problems, and to examine alternative solutions for resolving and/or preventing them. Field trips are an integral part of this course and are therefore mandatory. This course is comparable to a one-semester introductory college-level course; college-level materials are used. Advanced Placement Environmental Science is a laboratory course.</p> <p>Prerequisite: Three years of science and departmental recommendation. Concurrent enrollment in a third year of science and AP Environmental Science is permitted. Open to grades 11 and 12.</p>
<p>EARTH SCIENCE - GENERAL Course # 3740 Full year Credit: 1.0</p>	<p>The core material for this course is similar to that of 3750 Earth Science. The approach of the text used in this course is understandable, practical and, most important; it aids students who need an introduction to major concepts in Earth Science in an easy to read form. Earth Science - G is a laboratory course.</p> <p>Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 and 12.</p>

Science Department

<p>EARTH SCIENCE <i>Course # 3750</i> Full year Credit: 1.0</p>	<p>This course utilizes an inquiry approach in which students take factual information and use it for analysis. The main units of study are: geology, oceanography, meteorology and astronomy. Good ability in reading comprehension and average ability in math are ESSENTIAL for success in this program. Earth Science is a laboratory course.</p> <p>Prerequisite: Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, and 11.</p>
<p>EARTH SCIENCE - HONORS <i>Course # 3760</i> Full year Credit: 1.0</p>	<p>This course uses a college-level textbook and covers major topics in meteorology, astronomy, and geology. Compared to Earth Science 3750, the pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. The approach of the course involves traditional learning, labs, and tests paired with cooperative group work, presentations, and written projects. Earth Science - H is a laboratory course. Students earning a C in this course will not be eligible for a level change.</p> <p>Prerequisite: High ability in science, mathematics and reading. Incoming freshman eligibility is based upon test scores and recommendation of 8th grade instructor. Open to grades 9, 10, 11 and 12.</p>
<p>METEOROLOGY AND ASTRONOMY <i>Course # 3771</i> 1st semester only Credit: 0.5</p>	<p>Meteorology is the study of the mechanics of the atmosphere, weather and climatic patterns. Astronomy is concerned with the celestial bodies that comprise the known physical universe. The astronomy portion of this course DOES NOT emphasize astrophysics. This course includes teamwork to help develop problem solving skills. Good reading skills and comprehension are required. Meteorology and Astronomy is a laboratory course.</p> <p>Prerequisite: At least one year of high school science, and departmental recommendation. This course is NOT open to anyone who has already taken Earth Science. Open to grades 11 and 12.</p>
<p>GEOLOGY AND OCEANOGRAPHY <i>Course # 3782</i> 2nd semester only Credit: 0.5</p>	<p>This course examines the physical processes that shape and change the earth's crust. The physical, chemical, geological and biological aspects of the ocean are explored with equal time devoted to each aspect. This course includes teamwork to help develop problem solving skills. Good reading skills and comprehension are required. Geology and Oceanography is a laboratory course.</p> <p>Prerequisite: At least one year of high school science, and departmental recommendation. This course is NOT open to anyone who has already taken Earth Science. Open to grades 11 and 12.</p>
<p>CHEMISTRY/PHYSICS I <i>Course # 3800</i> Full year Credit: 1.0</p>	<p>This course is designed for those students needing additional chemistry and physics background before enrollment in a full-year course. Approximately one semester each will be devoted to topics in chemistry, such as atomic structure and gases, and topics in physics, such as motion and waves. This lab oriented course is taught at a pace that allows students to focus on chemistry and physics content development as well as study skills that could prepare students for a full-year chemistry or physics course. This is a laboratory course.</p> <p>Prerequisite: Successful completion of Algebra and departmental recommendation.</p> <p>This course is not open to students who have taken Chemistry or Physics. Open to grades 11 and 12.</p>

Science Department

<p>CHEMISTRY-Themed Course # 3810 Full year Credit: 1.0 Supply fee: \$10.00</p>	<p>(Both Chemistry-Themed and Chemistry-Traditional are REGULAR level courses.) This is an environmentally themed chemistry course which teaches traditional chemistry concepts such as stoichiometry, acids and bases, and behavior of gases. Themed units include water, natural resources, petroleum, air and nuclear chemistry. This method of teaching chemistry is endorsed by the American Chemical Society. The course incorporates teamwork to develop problem solving skills and an understanding of the relevance and concepts of chemistry in everyday living. This course has a field-based lab requirement. This is a laboratory course and it does not meet the prerequisite for A.P. Chemistry.</p> <p>Prerequisite: Successful completion of Algebra 1, concurrent enrollment in Geometry or higher, and departmental recommendation. Open to grades 10, 11 and 12.</p>
<p>CHEMISTRY-Traditional Course # 3820 Full year Credit: 1.0 Supply fee: \$10.00</p>	<p>(Both Chemistry-Themed and Chemistry-Traditional are REGULAR level chemistry courses.) Traditional chemistry concepts such as stoichiometry, acids and bases, behavior of gases and molecular shapes are taught as students independently develop understanding through participation in classroom lecture, assignments, activities and labs. This is a laboratory course and it meets the prerequisite for A.P. Chemistry.</p> <p>Prerequisite: Successful completion of Algebra 1, concurrent enrollment in Geometry or higher, and departmental recommendation. Open to grades 10, 11 and 12.</p>
<p>CHEMISTRY-HONORS Course # 3830 Full year Credit: 1.0 Supply fee: \$10.00</p>	<p>The core material for this course is similar to that of Chemistry-Traditional and follows a similar sequence. The pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. Chemistry - Honors is a laboratory course. This course meets the pre-requisite for A.P. Chemistry. Students earning a C in this course will not be eligible for a level change.</p> <p>Prerequisite: Successful completion of Algebra I and departmental recommendation which will be based on a high level of ability in science, mathematics, and reading. Open to grades 10, 11, 12 and 9th graders enrolled in Algebra 2 Trig or higher.</p>
<p>ADVANCED PLACEMENT CHEMISTRY Course # 3840 Full year Credit: 1.0 Supply fee: \$10.00</p>	<p>This course follows the College Board's Advanced Placement curriculum and as such is extremely rigorous and fast paced. This course is comparable to an introductory college level chemistry course. College level materials are used. Advanced Placement Chemistry is a laboratory course.</p> <p>Prerequisite: Three years of science, including a year of Chemistry (Traditional or Honors) and a year of Physics (Traditional or Honors) and departmental recommendation. Concurrent enrollment in a third year of science and AP Chemistry is permitted. Open to grades 11 and 12.</p>
<p>PHYSICS-Themed Course # 3900 Full year Credit: 1.0</p>	<p>(Both Physics-Themed and Physics-Traditional are REGULAR level physics courses.) This is a theme-directed laboratory course. Quarterly themes are: Physics of the Arts, electrical physics, sports physics and rollercoaster physics. Topics including motion, forces, energy, waves, sound, optics, electricity and magnetism are taught in a directed approach with frequent assessment through participation in classroom lecture, assignments, activities, projects and labs. This course uses an electronic textbook and an electronic homework program which require internet access. This course is appropriate for students with average math ability. This is a laboratory course and it does not meet the prerequisite for A.P. Physics courses.</p> <p>Prerequisite: successful completion of Algebra 1, concurrent enrollment in Algebra II/Trig and departmental recommendation. Open to grades 10, 11 and 12</p>

Science Department

<p>PHYSICS-Traditional Course # 3920 Full year Credit: 1.0</p>	<p>(Both Physics-Themed and Physics -Traditional are REGULAR level physics courses.) This is a traditional high school physics laboratory course. Topics such as motion, forces, momentum, energy, waves, sound, light, optics, electricity and magnetism are taught as students independently develop understanding with less frequent assessment through participation in classroom lecture, assignments, activities, projects and labs. This course is appropriate for students with average math ability. This is a laboratory course and meets the prerequisite for A.P. Physics courses.</p> <p>Prerequisites: Successful completion of Algebra I, concurrent enrollment in Algebra II/Trig, and departmental recommendation. Open to grades 10, 11 and 12.</p>
<p>PHYSICS - HONORS Course # 3930 Full year Credit: 1.0</p>	<p>This course uses an algebra-based college-level textbook. Topics such as motion, forces, momentum, energy, waves, sound, light, optics, electricity and magnetism are taught as students independently develop understanding with less frequent assessment through participation in classroom lecture, assignments, activities, projects and labs. Compared to Physics-Traditional, the pace is accelerated, the depth and scope of the coverage are expanded, and there is a greater expectation for students taking responsibility for independent learning outside of the classroom. Physics Honors is extremely math intensive with an emphasis on symbolic manipulation of variables. This course meets the prerequisite for AP Physics. Physics-H is a laboratory course. Students earning a C in this course will not be eligible for a level change.</p> <p>Prerequisites: Successful completion of Algebra 2 Trigonometry and departmental recommendation that will be based upon high level ability in science, mathematics and reading. Open to grades 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT PHYSICS B Course # 3950 Full year Credit: 1.0</p>	<p>This is an algebra-based 2nd year physics course following the College Board's Advanced Placement curriculum and as such is designed to prepare students for the AP Physics B exam. The course is fast paced and covers topics in mechanics, fluids, thermal physics, waves and optics, electrostatics, electricity and magnetism, and nuclear and atomic physics. Internet access is required to utilize an online homework service. This is a laboratory course and requires a lab composition book. Students are required to purchase an on-line homework program.</p> <p>Prerequisite: Department recommendation, and three years of science including chemistry and either honors or traditional physics. Concurrent enrollment in a third year of science is permitted. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT PHYSICS C Course # 3960 Full year Credit: 1.0</p>	<p>This is a calculus-based 2nd year physics course following the Collage Board's Advanced Placement curriculum and as such is designed to prepare students for the AP Physics C exam. Approximately half of the year is devoted to mechanics and the other to classical electricity and magnetism. Calculus is used in problem solving and derivations with usage increasing as the course progresses. This course, which uses college level materials, is comparable to an introductory college physics course for pre-med or engineering majors. Advanced Placement Physics is a laboratory course.</p> <p>Prerequisite: Departmental recommendation and three years of science, including years of Chemistry and Physics (Honors), as well as completion of Calculus AB or BC, or concurrent enrollment. Concurrent enrollment in a third year of science and AP Physics is permitted. Open to grades 11 and 12.</p>

<p>STUDENT INQUIRY AND RESEARCH (SIR)- HONORS <i>Course # 3980</i> Full year Honors Credit Credit: 1.0</p>	<p>This is an honors science course designed to teach students the basic methods used in scientific research such as conducting background research, formulating hypotheses, and designing experiments. Students will analyze collected data using various statistical methods. Students will communicate their findings through a research paper, create a research poster, and present their findings orally at a public symposium at the end of the course. Throughout the course, students will collaborate on a whole-class research projects, work collaboratively and individually on an engineering projects, and complete an individual research project on a topic of their choice. <u>This is an elective science course and does not count towards your science graduation requirement nor does it serve as a prerequisite for Advanced Placement science courses. Earned credit will be applied to the student's overall graduation credit total.</u></p> <p>Prerequisite: Successful completion of an honors level science course or successful completion of a regular level science course and teacher recommendation. Open to grades 10, 11 and 12.</p>

Social Studies Department

Artwork by Hillary Galvin

MISSION STATEMENT

The Hinsdale Central Social Studies Department strives to be respected by all school constituencies for its ability to inspire and direct the personal, intellectual, and civic development of its students. The department emphasizes the process of learning, whereby students critically examine issues, evaluate multiple points-of-view, and synthesize perspectives from a variety of disciplines, resulting in the ability to solve problems and make informed decisions. The department seeks to promote an understanding of diverse cultures, values, and systems; from this, students will gain awareness of their own values, as well as those of others. The tolerance and diversity that result from this training are balanced by a commitment to exploring and building common values such as democratic participation and freedom of expression. It is a department that is self-directed, collegial, with high expectations of its students and of itself. The department seeks to foster a love of learning through enthusiasm for the social studies disciplines, use of a variety of instructional strategies, and the dynamic of individual personalities committed to a set of shared goals.

Two (2) credits in Social Studies are required for graduation. One of these credits must be U.S. History, which also satisfies the state requirement. This credit must be earned by completing both semesters of U.S. History, American Studies or Advanced Placement U.S. History. The second credit must be earned during the freshman year by taking either World Cultures or World History Honors.

Social Studies Department

COURSE TITLE	Course #	Prerequisite	Credit	Grade Offered
World Cultures	2140	No	1.0	9

* 1 credit English, 1 credit Social Studies				

<p>WORLD CULTURES <i>Course # 2140</i> Full year Credit: 1.0</p>	<p>World Cultures explores the geographic, economic, historic, cultural and current issues pertaining to the world's major civilizations. A variety of activities and assessments will be used to foster the acquisition of not only content knowledge, but also skills appropriate to the social studies.</p> <p>Prerequisite: None. Open to grade 9.</p> <p>Note: Students may not enroll in both World Cultures and World History Honors.</p>
<p>WORLD HISTORY HONORS <i>Course # 2220</i> Full year Credit: 1.0</p>	<p>This course surveys broadly, chronologically and topically, the chief features of various civilizations, culture, nations and major concepts from ancient to modern times. The historical development of Eastern and Western civilizations are explored. Core material is organized around a textbook; however, extensive supplemental reading is required. Students will be challenged with a variety of assessments including tests, papers, speeches, debates, presentations and cooperative learning activities.</p> <p>*Students can sign up to take the AP World History Exam in May. Preparation for this exam may require independent study and/or review sessions*</p> <p>Prerequisite: Departmental approval. Open to grade 9.</p> <p>Note: Students may not enroll in both World History Honors and World Cultures.</p>
<p>AFRICAN AMERICAN HISTORY <i>Course # 2239, 2240</i> 1st or 2nd semester Credit: 0.5</p>	<p>African American History focuses on the unique contributions that slaves from Africa, and their descendants, have made towards the cultural and historical legacy of our nation. Topics of study will include the changing legal and social definitions of race in America, the efforts of African Americans to resist servitude, emancipation and its aftermath, the Harlem Renaissance, the Civil Rights movements, and contemporary issues facing African Americans. Students will examine historical sources, with special focus on the art and music created by African Americans. Assessments will include an oral history project, debates, creative projects, essays and exams.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>

Social Studies Department

<p>EAST ASIAN STUDIES Course # 2241, 2242 1st or 2nd semester Credit: 0.5</p>	<p>Asian Studies will examine the history and culture of China, Japan and Korea. Possible topics of study include the Samurai and code of Bushido, the emergence of Japan as a colonial power, the Rape of Nanking, the Korean War, the development of nuclear weapons by North Korea, and the emergence of China as a 21st century global superpower. The course is project, writing, and discussion oriented complimented with a field trip and experiential learning. Students will be challenged to avoid ethnocentrism and to understand these civilizations from the perspective of the people who came from them.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>GLOBAL ISSUES Course # 2231, 2232 1st or 2nd semester Credit: 0.5</p>	<p>Global Issues examines several major contemporary political, social, and diplomatic dilemmas of the 21st century. After tracing the historical roots of contemporary issues, students will analyze and evaluate each issue from a variety of perspectives. Possible topics include the proliferation of nuclear weapons, human rights and genocide, democracy and dissent, the future of the Middle East, the “war on terror,” U.S. foreign policy since Vietnam, and major domestic challenges. Active student participation on a daily basis and developing written and oral arguments are major components of a student’s grade.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>RUSSIAN STUDIES Course # 2251, 2252 1st or 2nd semester Credit: 0.5</p>	<p>Russian Studies will examine the history, culture, geography, and political ideology of Russia and the former Soviet Union. The course places special emphasis on the Romanov Dynasty, communist rule in the former Soviet Union, and contemporary affairs, including Russia’s role on the world stage. This class offers a unique opportunity to focus one’s studies on a specific and highly relevant part of the world. In addition, Russian Studies places special emphasis on writing in the social studies context.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12.</p>
<p>WESTERN CIVILIZATION Course # 2261, 2262 1st or 2nd semester Credit: 0.5</p>	<p>Western Civilization is a survey of the history of Western Civilization beginning with the influences of Greece and Rome and ending in the early Twentieth Century. Students will explore the historical trends, events, and ideas that have come to shape society today.</p> <p>Prerequisite: None. Open to grades 10, 11 and 12. Note: Students may not enroll in both Western Civilization and Advanced Placement European History.</p>
<p>ADVANCED PLACEMENT EUROPEAN HISTORY Course # 2440 Full year Credit: 1.0</p>	<p>Advanced Placement European History traces the political, social, economic, intellectual, and cultural development of European Civilization from the Renaissance to the present. A wide variety of teaching methods are used including discussion, debate, role-play, simulations and trials. Students will learn to use and evaluate primary sources, write critical essays, and analyze historical interpretations. This course prepares the student for the Advanced Placement European History examination.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12. Note: Students may not enroll in both Advanced Placement European History and Western Civilization.</p>

Social Studies Department

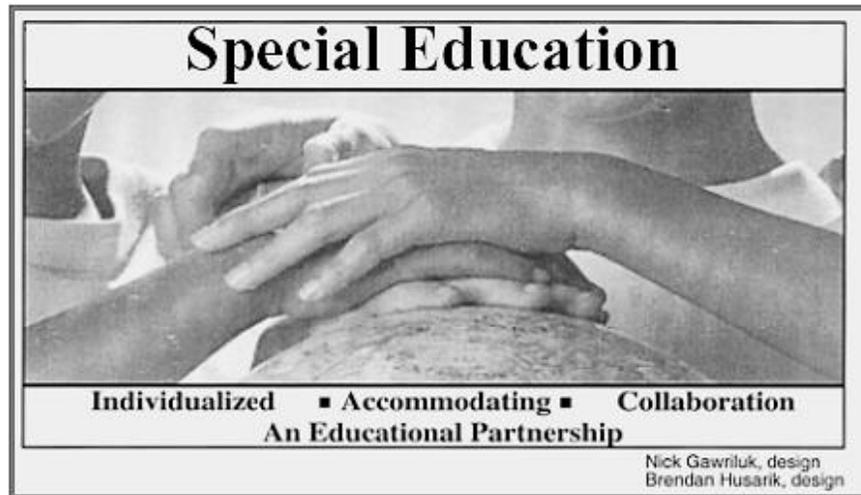

<p>U.S. HISTORY Course # 2310 Full year Credit: 1.0</p>	<p>U.S. History is a survey which covers Native American cultures through European colonization, founding of the new Republic and Constitution, includes the Civil War, and concludes with modern times. Units survey chronologically and topically the major events, personalities and issues which have played a part in the evolution of the American democratic republic.</p> <p>Prerequisite: None. Credit in this course fulfills U.S. History requirement. Open to grade 11. Note: Students may not enroll in both U.S. History and American Studies or Advanced Placement U.S. History.</p>
<p>ADVANCED PLACEMENT U.S. HISTORY Course # 2320 Full year Credit: 1.0</p>	<p>Advanced Placement United States History is a survey course that is meant to replicate the academic rigor of a two semester college experience in a year. This class requires students to engage in extensive reading of primary sources and historical essays. Focus will be placed on the development of college level reading and writing skills. Key events and major themes such as American diversity, economic transformations and politics and citizenship will be examined in studying the nation's past. This course prepares the student for the Advanced Placement United States History examination.</p> <p>Prerequisite: Departmental approval. Credit in this course fulfills the U.S. History requirement. Open to grade 11. Note: Students may not enroll in both Advanced Placement U.S. History and American Studies or U.S. History.</p>
<p>CONSTITUTIONAL LAW Course # 2381, 2382 1st or 2nd semester Credit: 0.5</p>	<p>Constitutional Law is an introductory legal course which investigates many topics, including criminal law, trial rules, court systems, juvenile law, discrimination, and search and seizure law. In addition to using contemporary legal cases, a wide variety of teaching methods are used, including mock trial hearings, mock jury simulations, and videos. The primary learning tool in Constitutional Law is class discussion. Additionally, an alternative final exam is available for those students who would prefer a project.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>ECONOMICS Course # 2331, 2332 1st or 2nd semester Credit: 0.5</p>	<p>Economics investigates the principles that drive decision-makers, both consumers and producers, in our global marketplace. Students specifically examine the major components of the U.S. economic system; such as, opportunity costs, trade-offs, production and consumption practices, money and banking, savings and investment, business management and labor, business cycles, and economic relationships between nations. The study of Economics helps prepare students to make rational economic choices both in their own lives and in their participation in policy decisions as citizens of a city, state, nation, and the world. Learning is enhanced through current events, economic simulations and class activities.</p> <p>Prerequisite: None. Open to grades 11 and 12. Note: Students may not take Economics, Advanced Placement Microeconomics or Advanced Placement Macroeconomics concurrently.</p>

Social Studies Department

<p>PHILOSOPHY HONORS <i>Course # 2393, 2394</i> 1st or 2nd semester Credit: 0.5</p>	<p>Philosophy Honors will offer interested and intellectually curious students the opportunity to reflect on fundamental questions related to the human condition, such as the basis of knowledge, ethical theories and issues, artificial intelligence, free will versus determinism, rational proofs for the existence of God, and the meaning of evil and suffering. The goal of the course will not be so much to cover a particular body of philosophers, but to raise important issues that will spur students to further inquiry, study, and application in their own lives. Much of the class will involve reading, discussion, and writing. Students will be expected to read carefully, write critically, and participate in class discussions. Philosophy and Ethics is an honors level course.</p> <p>Prerequisite: None. Open to grades 11 and 12</p>
<p>SOCIOLOGY <i>Course # 2371, 2372</i> 1st or 2nd semester Credit: 0.5</p>	<p>Sociology is the study of man's social behavior. The course increases the student's awareness of social pressures that affect one's own behavior and the behavior of others. Typical activities such as discussions, experiments, student planned projects and a wide variety of films and videotapes enable the student to apply knowledge gained in the course to his or her own life.</p> <p>Prerequisite: None. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT MACROECONOMICS <i>Course # 2441, 2442</i> 2nd semester only Credit: 0.5</p>	<p>Advanced Placement Macroeconomics is the study of the United States' economy. Students examine economic topics such as unemployment, inflation, GDP, international trade, interest rates, monetary policy, fiscal policy, and the national debt and deficit. Students will come to understand the causes for problems in the economy and be able to prescribe economic policies for both healthy and unhealthy economies. Macroeconomics is an interdisciplinary course combining the social sciences with mathematical analysis and graphing. The course prepares students for the Advanced Placement exam in May.</p> <p>Prerequisite: Departmental approval. Credit in this course fulfills the Consumer Education requirement. Open to grades 11 and 12. Note: Students may not take Advanced Placement Macroeconomics, Advanced Placement Microeconomics or Economics concurrently</p>
<p>ADVANCED PLACEMENT MICROECONOMICS <i>Course # 2341, 2342</i> 1st or 2nd semester Credit: 0.5</p>	<p>Advanced Placement Microeconomics provides students with a thorough understanding of the decision making process for individuals and firms in the marketplace. It places primary emphasis on the operations of the product and factor markets along with the government's role in promoting efficiency and equity in various market structures. The course is conducted in a lecture/seminar manner supported by daily readings, practice problems, and student activities. The course prepares the student for the Advanced Placement exam in Microeconomics exam administered in May.</p> <p>Prerequisite: Departmental approval. Credit in this course fulfills the Consumer Education requirement. Open to grades 11 and 12. Note: Students may not take Advanced Placement Macroeconomics, Advanced Placement Microeconomics or Economics concurrently.</p>
<p>PSYCHOLOGY <i>Course # 2431, 2432</i> 1st or 2nd semester Credit: 0.5</p>	<p>Psychology focuses on the study of human behavior from many perspectives. Audiovisual materials, experiments, projects and case studies are used to understand the human experience. This class is heavily discussion based. In addition, much independent coursework is used to investigate topics such as development, the brain, altered states of consciousness, learning, personality and abnormal behavior.</p> <p>Prerequisite: None. Open to grades 11 and 12. Note: Students may not enroll in both Psychology and Advanced Placement Psychology</p>

Social Studies Department

<p>ADVANCED PLACEMENT PSYCHOLOGY <i>Course # 2430</i> Full year Credit: 1.0</p>	<p>AP Psychology explores why human beings are the way that they are. This course traces the emergence of scientific psychology in the nineteenth century from its roots in philosophy and physiology to present day practices. The development of the major “schools” of psychology and showing how they differed in subject matter and the methods of study are covered. This historical introduction helps students gain an understanding of the principal twentieth century approaches to psychology: behavioral, biological, cognitive, humanistic and psychodynamic. This class prepares students for the Advanced Placement Psychology examination.</p> <p>Prerequisite: Departmental approval. Concurrent enrollment in U.S. History or previous completion of U.S. History during the regular school year. Open to grades 11 and 12.</p> <p>Note: Students may not enroll in both AP Psychology and Psychology concurrently.</p>
<p>ADVANCED PLACEMENT UNITED STATES GOVERNMENT AND POLITICS <i>Course # 2361, 2362</i> 1st or 2nd semester Credit: 0.5</p>	<p>AP United States Government and Politics is an advanced placement course designed to give students both theoretical and realistic perspectives on politics and government in the United States. Its focus is on the interconnectedness between the various institutions, opinions and policies that make up the national public system. Student political involvement is emphasized. This class prepares students for the Advanced Placement United States Government and Politics examination.</p> <p>Prerequisite: Departmental approval. Concurrent enrollment in U.S. History or previous completion of U.S. History during the regular school year. Open to grades 11 and 12.</p>

Students in need of educational services can receive instruction and services through one or more of the following approaches:

- academic accommodations within the regular education classrooms,
- structured assistance within the regular education classrooms,
- structured assistance outside the regular class,
- related services, and
- direct instruction in specialized course offerings

All of the courses below meet the HCHS graduation requirements.

Course Title	Course #	Credit	Grade Offered

** May be taken more than once for credit (maximum 4.0 credits)

Special Education

<p>ACADEMIC CENTER RESOURCE <i>Course # 9920, 9924</i> Full year Credit: NC</p>	<p>Academic Center Resource is for students who are self-motivated, well organized, and can demonstrate excellent self-advocacy skills. Students are self-directed learners who can identify strengths/challenges and have developed the necessary compensatory skills to allow them to be successful in the academic school setting. The Academic Center provides students with opportunities for support across curriculum subjects in a structured setting. Students may also seek out departmental support/resources, schedule guidance appointments, and make up any tests/quizzes during this period.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>STUDY SKILLS 1 <i>Course # 1951, 1952</i> Full year Credit: 0.25/semester</p>	<p>Study Skills 1 is a freshman-level resource class. Students enroll in study skills based upon a teachers recommendation. Study Skills 1 targets the skills required for a successful transition into the high school experience. These include organization, time management, homework completion, long term planning, listening skills, memory skills, and test preparation skills. Study skills 1 also serves as a period where students may complete assessments and/or consult with other school staff to meet their individual needs.</p> <p>Prerequisite: IEP recommendation. Open to grade 9.</p>
<p>STUDY SKILLS 2 <i>Course # 1956, 1957</i> Full year Credit: 0.25/semester</p>	<p>Study Skills 2 is a sophomore-level resource class. The course addresses the maintenance of study skills such as effective note-taking and test preparation skills. It also begins to look into research skills that students will need to investigate post-secondary employment or academic/ vocational programs. In addition, Study Skills 2 serves as a period in which students may complete assessments or consult with other school staff to meet their individual needs.</p> <p>Prerequisite: IEP recommendation. Open to grade 10.</p>
<p>LEARNING STRATEGIES 1 <i>Course # 1958, 1959</i> Full year Credit: 0.25/semester</p>	<p>Learning Strategies 1 is a junior-level resource class. Students are enrolled in this class based upon a teachers recommendation. This class supports students with their current course work and prepares students for any upcoming assessments through academic content review and effective test taking strategies. Additionally, students may use their learning strategies class time to complete classroom assessments and to seek out support from other academic departments and related service providers. A final component to Learning Strategies is to continue the process of post-secondary planning.</p> <p>Prerequisite: IEP recommendation. Open to grade 11.</p>
<p>LEARNING STRATEGIES 2 <i>Course # 1961, 1962</i> Full year Credit: 0.25/semester</p>	<p>Learning Strategies 2 is a senior-level resource class. Students are enrolled in this class based upon a teachers recommendation. This class supports students with their current course work and prepares students for any upcoming assessments through academic content review and effective test taking strategies. Additionally, students may use their learning strategies class time to complete classroom assessments and to seek out support from other academic departments and related service providers. A final component to Learning Strategies is to continue the process of post-secondary planning.</p> <p>Prerequisite: IEP recommendation. Open to grade 12.</p>
<p>SOCIAL COMMUNICATION <i>Course # 2005</i> Full year Credit: 1.0</p>	<p>This class is for students identified as having needs in the area of social communication. Topics covered in the class include thinking in a group, thinking about others, thinking about others thinking about me, and thinking to create relationships. The goal is for students to increase their ability to take another's perspective, increase problem solving capabilities, and develop and understand how our body is connected to communication and personal relationships with others. This course is a pass/fail course.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>

Special Education

<p>PROGRAM SUCCESS <i>Course # 1956A, 1957A</i> Full year Credit: 0.25/semester</p>	<p>Program Success is for students whose emotional/behavioral needs interfere significantly with their learning or that of other classmates. Program Success provides students time in their day to get additional support with their academic course work and provides students an opportunity to process interactions that have occurred which are having a social and/or emotional impact on the student. In addition, instructional arrangements can be made to provide students with academic instruction in a self-contained setting. This instructional arrangement may be necessary for a short duration while new interventions are planned. Program Success also serves as a time when students can communicate with staff, receive related services, or complete assessments.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>ENGLISH FOUNDATIONS <i>Course # 2000</i> Full year Credit: 1.0</p>	<p>This course explores fundamental elements of reading, writing, and listening and speaking that can be generalized in various facets of daily life. Curriculum is individualized according to the student's needs and goals.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>MATH FOUNDATIONS <i>Course # 2030</i> Full year Credit: 1.0</p>	<p>This course explores fundamental math concepts that can be generalized in various facets of daily life. Curriculum includes problem solving and computation, money and number sense, and basic estimation and measurement. Basic analytical methods, geometry, and data analysis are also emphasized. Curriculum is individualized according to the student's needs and goals.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>RESOURCE FOUNDATIONS <i>Course # 2080</i> Full year Credit: 1.0</p>	<p>Students will explore essential aspects of academic, organizational and social skills that can be generalized in various facets of daily life. Emphasis will be placed on decision-making and behavior expectations, time management, use of classroom and school resources, and self-advocacy. Curriculum is individualized according to the student's needs and goals. Course fee \$180.00.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>SOCIAL STUDIES FOUNDATIONS <i>Course # 2081</i> Full year Credit: 1.0</p>	<p>The goal of this course is to develop in students an understanding of citizenship that can be generalized in various facets of daily life. Students will sharpen their basic understanding of history, government, and social systems through the exploration of current and historical events. Curriculum is individualized according to the student's needs and goals.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>SCIENCE FOUNDATIONS <i>Course # 2050</i> Full year Credit: 1.0</p> <p>Science Foundations will NOT be offered for the 2013-2014 school year</p>	<p>Students will investigate key elements of physical and social wellness that can be generalized in various facets of daily life, including proper nutrition, sleep, self-care, and exercise. They will explore the benefits of leisure activities and socialization. Students will also explore fundamental concepts, principles and interconnections of the life, physical and earth sciences. Curriculum is individualized according to the student's needs and goals.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>

Special Education

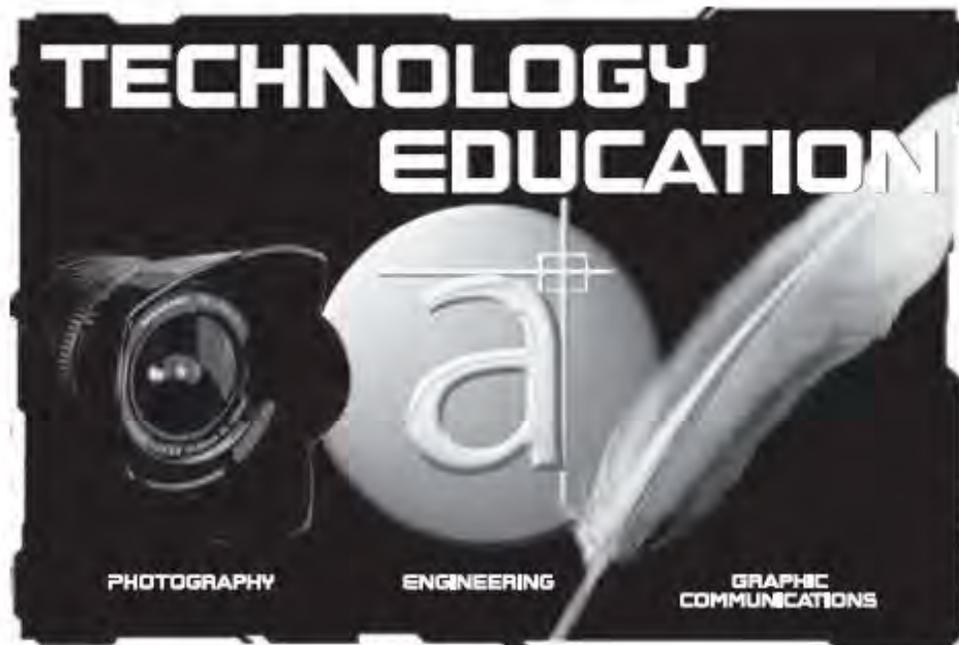

<p>PRE-VOC FOUNDATIONS Course # 2100 Full year Credit: 1.0</p>	<p>This course explores essential skills related to employment. Emphasis will be placed on hands on in school job training, entry level workplace skill development which may include: following a schedule, time management, efficiency, responsibility, work etiquette, following directions and communicating with co-workers and supervisors. Curriculum is individualized for students.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>ELECTIVE FOUNDATIONS Course # 2060 Full year Credit: 1.0</p>	<p>Through cooperative games and leisure activities, students will explore essential components of self-awareness & self-management, social-awareness, interpersonal skills, and decision-making. Curriculum is individualized according to the student's needs and goals.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>HEALTH FOUNDATIONS Course # 2002 2nd Semester Credit 0.5</p>	<p>The goal of this course is to promote and develop positive attitudes and behaviors related to the overall wellness of Hinsdale Central students. Students are taught how to access valid health information and health-promotion products and services. The students will also learn how to analyze the influence of culture, media, technology and other factors on health. Topics of study within the Health Education program include: Introduction to Wellness, Alcohol, Tobacco and other Drugs, Nutrition and Fitness, Communicable and Non-communicable Diseases, and Human Reproduction. The curriculum is aligned with District 86 program goals, Illinois and National Health Education Standards. The curriculum is aligned with the grade level Health course but supports students who have deficiencies in reading and writing who are also enrolled in Adaptive PE.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>ENGLISH Course # 1810, 1820, 1830, 1840 Full year Credit: 1.0</p>	<p>Special education English classes are offered at each grade level. The curriculum incorporates vocabulary development, literature, and the writing process. Curriculum is aligned with grade level English course but taught at an instructional level. Direct reading and writing supports are provided. Assessments are completed weekly to monitor progress in the areas of reading and writing.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>WORLD CULTURES Course # 1850 Full year Credit: 1.0</p>	<p>World Cultures explores the economic, historic, cultural and current issues pertaining to the world's major civilization. A variety of activities and assessments will be used to foster the acquisition of not only content knowledge, but also critical thinking skills appropriate to the social studies. The curriculum is aligned with the grade level world cultures course but supports students who have deficiencies in reading and writing.</p> <p>Prerequisite: IEP recommendation. Open to grade 9.</p>
<p>UNITED STATES HISTORY Course # 1860 Full year Credit: 1.0</p>	<p>U.S. History is a survey course which covers Native American cultures through European colonization, founding of the new Republic and Constitution, includes the Civil War, and concludes with modern times. Units survey chronologically and topically the major events, personalities and issues which have played a part in the evolution of the American democratic republic. The curriculum is aligned with the grade level U.S. History course but supports students who have deficiencies in reading and writing.</p> <p>Prerequisite: IEP recommendation. Open to grade 11.</p>

Special Education

<p>READING Course # 1890 Full year Credit: 1.0</p>	<p>Reading is a course designed for students in 9th through 12th grade who demonstrate a need for direct instruction in reading strategies because they are reading two or more levels below grade level. Students will complete diagnostic tests at the start of the year, in the middle of the year, and at the end of the year. These tests will be used to track growth and also to provide necessary information so that instruction can be individualized to a student's needs. Instruction in oral fluency, silent reading comprehension, oral reading comprehension, listening comprehension, vocabulary, grammar, and phonics will be provided individually and in a whole class setting. The curriculum is comprised of lessons from the Jamestown Timed Reading series, current events articles, Six Minute Solution passages, the Language! Reading series, Aimsweb fluency and comprehension passages, and Averil Coxhead's High-Incidence Academic Word List. Course fee \$20.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>FOUNDATIONS of ALGEBRA & GEOMETRY Course # 1871 Full year Credit: 1.0</p> <p>Foundations of Algebra & Geometry will not be offered for the 2013-2014 school year.</p>	<p>This course introduces important topics in Algebra and Geometry. Algebra topics include expressions, equations, inequalities, and linear functions. Geometry topics include lines, segments, angles, triangles, perimeter, area, and volume. This course is appropriate for students with reasonable facility with arithmetic operations. A graphing calculator is required.</p> <p>Prerequisite: IEP recommendation. Open to grades 9 and 10.</p>
<p>COOPERATIVE WORK TRAINING Course # 1931, 1932 Full year Credit: 0.5/semester</p> <p>Cooperative Work Training will not be offered for the 2013-2014 school year.</p>	<p>This course explores obtaining and maintaining a part time paid position in the community. Students enrolled in this class are actively looking or are currently working at a part time job. This class meets once a week during a resource period to address job application completion and job retention. Seminars are offered throughout the course to address employment topics such as career exploration, understanding your paycheck, conflict resolution, resume and cover letter development, interviewing skill development.</p> <p>Prerequisite: IEP recommendation. Open to grades 10, 11 and 12.</p>
<p>PRE VOCATIONAL SUPERVISED JOB TRAINING Course # 1941, 1942 Full year Credit: 0.5/semester</p>	<p>This course explores more in-depth application and practice in both in-school and community based job training, as identified based on individual goals. This class emphasizes career exploration & planning, job application, job search, interviewing, resume development, cover letters, and continued development on communication skills.</p> <p>Prerequisite: IEP recommendation. Open to grades 9, 10, 11 and 12.</p>
<p>ADULT OPPORTUNITIES Course # 2930 Prereq: Teacher recommendation and approval of Dept. Chairperson Level: Ages 18, 19, 20, 21 Credit: No credit Supply fee: \$180 <i>This is a District 86 program offered at the Transition Center.</i></p>	<p>Adult Opportunities is a Community-Based Program for students ages 18-21. The purpose of the program is to implement an innovative, adult-centered community program through a collaborative approach that prepares students for adulthood success while promoting opportunities for independence in the areas of: employment, post-secondary education and training, independent living skills, and community.</p> <p>The goals of the Adult Opportunities program are to: increase independence in adult living situations; improve self-determination skills; improve social and communication skills; increase leisure, recreation, and life skills; experience work-based learning and volunteer work; and prepare for community living and participation.</p> <p>Prerequisite: IEP recommendation. Open to post 12th grade students.</p>

Technology Education

Technology Education

The Technology Education Department offers an elective course of study to all students at Hinsdale Central. Technology Education courses help students meet the elective arts requirement. Our program of course offerings focuses on a variety of technologies that develop skills in graphic communication and design. Several courses are available to students who wish to explore the educational and career opportunities in Architecture, Engineering, Graphic Communications and Photography.

The primary instructional mode in the department is laboratory-oriented student projects and exercises. A wide range of instructional techniques and technologies is used in the classroom.

Articulated credits at College of DuPage are available to Hinsdale Central students who complete certain courses at Hinsdale Central with at least a grade of B and who upon graduation, attend C.O.D. The list of approved courses with articulated credit at College of DuPage is as follows:

- Basic Photography
- Digital Color Photography

Each class has a lab fee charged to the student to cover the cost of materials used by the students for project work.

Technology Education

COURSE TITLE	Course #	Prerequisite	Credit	Grade Offered
Pre-Engineering Graphics 1	6601/6602	No	0.5	9-12
Pre-Engineering Graphics 2	6611/6612	Yes	0.5	9-12
Engineering Graphics	6620	Yes	1.0	10-12
Engineering Graphics Honors Option	6625	Yes*	1.0	10-12
Architectural Drafting	6630	Yes	1.0	11-12
Architectural Drafting Honors Option	6635	Yes*	1.0	11-12
Advanced Engineering and Architectural Modeling	6640	Yes	1.0	12
Advanced Engineering and Architectural Modeling Honors Option	6645	Yes*	1.0	12
Graphic Communications-Fundamentals	6661/6663	No	0.5	9-12
Graphic Communications-Desktop Publishing	6650/6651	Yes	0.5	9-12
Graphic Communications-Desktop Publishing Honors Option	6652/6653	Yes*	0.5	9-12
Graphic Communications-Web Design	6662/6664	Yes	0.5	9-12
Graphic Communications-Web Design Honors Option	6667/6668	Yes*	0.5	9-12
Graphic Communications-Intro to Gaming	6681/6682	Yes	0.5	9-12
Graphic Communications-Advanced Graphics	6660/6665	Yes	0.5	10-12
Graphic Communications-Advanced Graphics Honors Option	6666/6669	Yes*	0.5	10-12
Basic Photography	6691/6692	No	0.5	10-12
Digital Color Photography	6701/6702	Yes	0.5	10-12
Digital Color Photography Honors Option	6703/6704	Yes*	0.5	10-12
Advanced Photography	6812	Yes	0.5	11-12
Advanced Photography Honors Option	6814	Yes*	0.5	11-12
Independent Study - Graphic Communications	6905/6906	Yes	0.5 / 0.5	11-12
Independent Study – Photography	6907/6908	Yes	0.5 / 0.5	11-12

*Requires prerequisite courses and departmental approval.

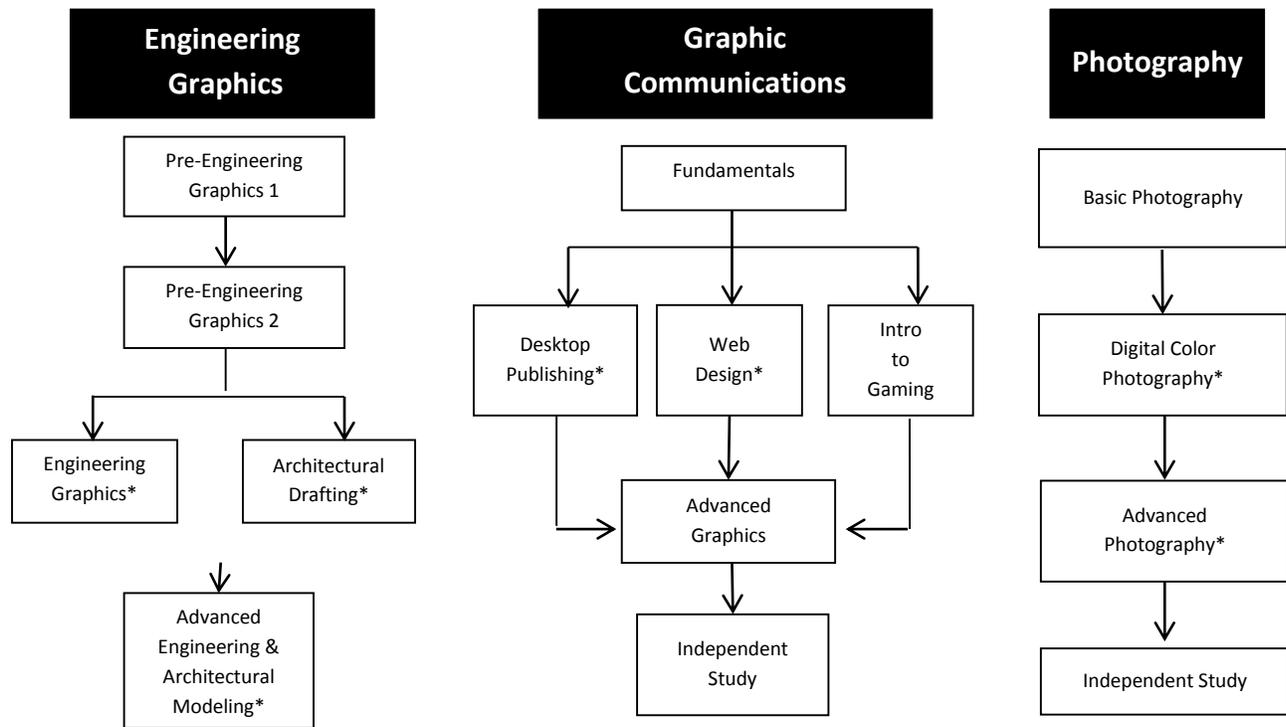

Shown below are possible course selection sequences in the Engineering Graphics and Architectural Program as students enter each grade. If students enter the program in 9th Grade, they can complete the program by the time they graduate.

	9 th Grade	10 th Grade	11 th Grade	12 th Grade
1st Year	Pre-Engineering Gr 1	Pre-Engineering Gr 1	Pre-Engineering Gr 1	Pre-Engineering Gr 1
	Pre-Engineering Gr 2	Pre-Engineering Gr 2	Pre-Engineering Gr 2	Pre-Engineering Gr 2
2nd Year	Engineering Graphics**	Engineering Graphics** and/or Architectural Drafting**	Engineering Graphics** and/or Architectural Drafting**	
3rd Year	Architectural Drafting**	Architectural Drafting** and/or Advanced Engineering & Architectural Modeling**		
4th Year	Advanced Engineering and Architectural Modeling**			

**Honors Option offered in these courses

Technology Education

Shown below are course sequences for the Technology Education Programs. Students are encouraged to take entry level courses as early as possible to allow for further courses as need or interest develops.

*Honors course option available

**Can enroll directly into Desktop Publishing if taking Journalism with department approval.

Technology Education

ENGINEERING GRAPHICS PROGRAM	
<p>NOTE: Software titles currently used in our Engineering Graphics and Architecture courses include up-to-date versions of AutoCAD, Inventor Professional, Revit Architecture, and 3D Studio Max.</p>	
<p>PRE-ENGINEERING GRAPHICS 1 Course # 6601, 6602 1st or 2nd semester Credit: 0.5</p>	<p>This course introduces the student to the fundamentals of mechanical drafting while using current AutoCAD software in our CAD Lab. The course is also devoted to Science, Technology, Engineering and Mathematics (S.T.E.M.)-related content, particularly engineering/technological design problem solving. The student will be taught many AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. Mechanical drawing problems will range from 2D drawings, orthographic projection, sectional view, and pictorial views (isometric and oblique). Freehand sketching on graph paper is also integrated into each assignment. Students will also be introduced to 3D modeling and 3D printing (rapid prototyping). During the semester, each student will create a portfolio work which will include an individually created 3-D model.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply fee: \$10.00.</p>
<p>PRE-ENGINEERING GRAPHICS 2 Course # 6611, 6612 1st or 2nd semester Credit: 0.5</p>	<p>This course will continue to introduce the student to the fundamentals of mechanical drafting while using current AutoCAD software in our CAD Lab. The course will further explore Science, Technology, Engineering and Mathematics (S.T.E.M.)-related content and provide the student with a strong background in STEM principles. The student will be taught additional AutoCAD commands during the course of this semester class and will use these commands in solving the drawing problems assigned. Mechanical drawing problems will range from auxiliary views, rotations, developments and intersections, and dimensioning techniques of orthographic projection problems. Freehand sketching on graph paper is also integrated into each assignment. During the semester, each student will create an individual portfolio of work.</p> <p>Prerequisites: #6601. Open to grades 9, 10, 11 and 12. Supply Fee: \$10.00.</p>
<p>ENGINEERING GRAPHICS Course # 6620 Full year Credit: 1.0</p>	<p>The goal of the Engineering Graphics course is to expand the student's knowledge in the following areas: computer software usage, manufacturing processes, engineering and design, application of acquired knowledge in making production drawings, and career opportunities in a variety of engineering fields. This course continues exploration of Science, Technology, Engineering and Mathematics (S.T.E.M.)-related content. Engineering design projects will enable students to make the necessary connections between the STEM disciplines and the world around them. Students in this class will be expected to work at an accelerated pace on individual projects and some small group work. The computer is the primary means of graphic problem solving using AutoCAD software. Students will be instructed on proper techniques using Autodesk Inventor to create 3D models. Using Inventor, students will create a model race car that demonstrates the power of this software package. A series of problems which require model construction is also part of the curriculum, including the use of 3D printing technology (rapid prototyping). In addition, students will use 3D digitizer technology for reverse engineering applications, 4 axis CNC mill for production, injection molding and vacuum forming. Robotics topics will also be covered in this course. During the semester, each student will create an individual portfolio of work.</p> <p>Prerequisites: #6601 and #6611. Open to grades 10, 11 and 12. Supply Fee: \$18.00.</p>
<p>ENGINEERING GRAPHICS HONORS Course # 6625 Full year Credit: 1.0</p>	<p>The core material for this course is similar to Engineering Graphics course #6620, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program.</p> <p>Prerequisites: #6601 and #6611 and department approval. Open to grades 10, 11, and 12. Supply Fee: \$18.00</p>

Technology Education

<p>ARCHITECTURAL DRAFTING Course # 6630 Full year Credit: 1.0</p>	<p>In the course Architectural Drafting, the student will learn how to design and draw a complete set of architectural drawings necessary to construct a residential home. The student will apply Science, Technology, Engineering and Mathematics (S.T.E.M.) concepts to design and print a professional set of blueprints. Room planning, flow patterns, design concepts, floor plans, construction details, elevations and presentation drawings will be completed during the first semester using a computer and AutoCAD software. During the second semester, students will construct a scaled (3/4"=1') model of the home they designed the first semester. In addition, non-traditional building methods will be explored: Super Insulated housing, Earth Sheltered housing, Wind Energy, Solar Energy, Energy Efficiency and Green Building. Information related to home construction, home building, building cost, permits and home buying will be explored and discussed.</p> <p>Prerequisite: #6611 or department approval. Open to grades 10, 11 and 12. Supply Fee: \$18.00.</p>
<p>ARCHITECTURAL DRAFTING HONORS OPTION Course # 6635 Full year Credit: 1.0</p>	<p>The core material for this course is similar to Architectural Drafting course #6630, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program or architecture program.</p> <p>Prerequisite: #6601 and #6611 and department approval. Open to grades 10, 11 and 12. Supply Fee: \$18.00.</p>
<p>ADVANCED ENGINEERING AND ARCHITECTURAL MODELING Course # 6640 Full year Credit: 1.0</p>	<p>This is the culminating course in the Engineering & Architecture program that will help prepare provide students for college. Students will have additional challenges as they are introduced to several 3D modeling software programs. Students will be required to use the skills learned in both their engineering and architectural graphics courses as they make the transition from 2D drawings to 3D. Science, Technology, Engineering and Mathematics (S.T.E.M.) concepts will be integrated through the use of various project-based activities. Students will explore software programs such as Inventor, Revit and 3D Studio Max, while developing 3D models and animating them. Students will use 3D digitizer technology for reverse engineering applications to accurately reproduce parts. They will also use 3D print technology (rapid prototyping) to generate models for visual inspection and functional testing. A CNC mill, vacuum form machine, injection molding and foundry will also be applied throughout this course. More in depth robotic principles will be applied to solve problems with a programmable robot. An electronic portfolio will record all work completed during the school year. Students will also leave the class with various 3D models and projects they produced.</p> <p>Prerequisite: Engineering Graphics and Architectural Drafting and/or department approval. Open to grade 12. Supply Fee: \$18.00.</p>
<p>ADVANCED ENGINEERING AND ARCHITECTURAL MODELING HONORS Course # 6645 Full year Credit: 1.0</p>	<p>The core material for this course is similar to course #6640, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college engineering program.</p> <p>Prerequisite: Engineering Graphics, Architectural Drafting or Engineering Graphics Honors, Architectural Honors and department approval. Open to grade 12. Supply Fee: \$18.00.</p>

Technology Education

<p>GRAPHIC COMMUNICATIONS FUNDAMENTALS (GCF) <i>Course # 6661, 6663</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course provides students with a foundation of essential skills needed for creating print and web documents. Special emphasis is placed on furnishing students with a survey of realistic experiences using Adobe Illustrator and PhotoShop. Areas of study include technical illustration, typography, color models, photo retouching and image manipulation. This course focuses on development of sound fundamental skills used in later Graphic Communications courses.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. Supply Fee: \$10.00</p>
<p>GRAPHIC COMMUNICATIONS - DESKTOP PUBLISHING (GCDP) <i>Course # 6650, 6651</i> 1st or 2nd semester Credit: 0.5</p>	<p>Learn to design, layout and prepare documents for print. Topics include typography and typographic controls, image preparation, creation of master pages, paragraph and character styles, and document pre-flight and fundamental design and layout principles. Development of fluency with Adobe InDesign is emphasized. This course covers essential skills used in producing the Devil's Advocate (newspaper) and El Diablo (yearbook) and is especially recommended for students who are interested in editorial positions.</p> <p>Prerequisite: GCF or Journalism 1 (J1 taken concurrently with department approval) Supply Fee: \$10.00. Open to grades 9, 10, 11 and 12.</p>
<p>GRAPHIC COMMUNICATIONS - DESKTOP PUBLISHING HONORS (GCDP) <i>Course # 6652, 6653</i> 1st or 2nd semester Credit: 0.5</p>	<p>The core material for this course is similar to Desktop Publishing #6640, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is highly recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF) or Journalism 1 (J1 taken concurrently with department approval). Supply Fee: \$10.00 Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS - WEB DESIGN (GCW) <i>Course # 6662, 6664</i> 1st or 2nd semester Credit: 0.5</p>	<p>Create professional looking websites! Web Design provides students with an overview of essential disciplines found in web development and the skills necessary to visually create websites using Adobe Dreamweaver. Although this is not a programming course, basic coding principles will be covered. Areas of study include Internet history, information architecture, site mapping and wireframe development, user experience (UX), search engine optimization (SEO), and development of fluency with Dreamweaver.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF). Supply Fee: \$10.00. Open to grades 9, 10, 11 and 12.</p>
<p>GRAPHIC COMMUNICATIONS - WEB DESIGN HONORS (GCW) <i>Course # 6667, 6668</i> 1st or 2nd semester Credit: 0.5</p>	<p>The core curriculum for this course is similar to Web Design #6662, however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class. This course is recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF). Supply Fee: \$10.00 Open to grades 9, 10, 11, and 12.</p>
<p>GRAPHIC COMMUNICATIONS - INTRO TO GAMING FORMERLY GC MULTI-MEDIA <i>Course # 6681, 6682</i> 1st or 2nd semester Credit: 0.5</p>	<p>Create motion graphics 2D game applications! Students will gain experience with Adobe Flash and basic ActionScripting to create the types of interactive graphics and 2D games experienced on the web. Fluency in Adobe Flash, animation techniques, basic game development and adding interactivity through introduction of ActionScript concepts is the focus of the course.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF). Supply Fee: \$10.00 Open to grades 9, 10, 11 and 12.</p>

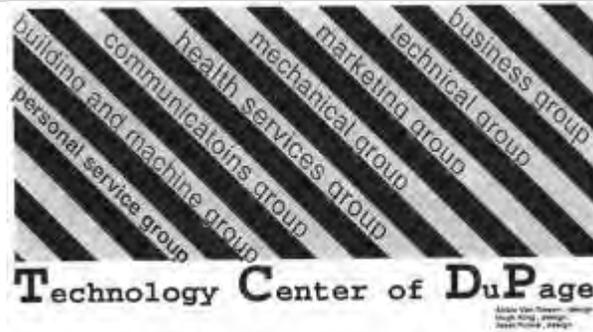

Technology Education

<p>GRAPHIC COMMUNICATIONS - ADVANCED GRAPHICS (GCA) <i>Course # 6660, 6665</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is designed for those students who wish to apply the skills learned in their study of Graphic Communications more deeply to real world projects. Students will focus on several areas of interest and develop real world products in a client-project manager arrangement. The outcome of this course is a comprehensive electronic portfolio for use in many college and university admission processes.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF) and one of the following: GCW, GCMM, GCDP. Supply Fee: \$10.00. Open to grades 10, 11 and 12. This course may be repeated with Department Chair approval. Students who elect to repeat the course will work with the instructor to create an individualized curriculum.</p>
<p>GRAPHIC COMMUNICATIONS - ADVANCED GRAPHICS HONORS OPTION (GCA) <i>Course # 6666, 6669</i> 1st or 2nd semester Credit: 0.5</p>	<p>The core material for this course is an extension of Advanced Graphics #6660/6665; however, projects and assessments will involve more depth, complexity, and rigor. Expectations for this course are much higher and will require additional time outside of class and significantly more portfolio requirements. This course is highly recommended for motivated students planning to enter a college program related to Graphic Communications.</p> <p>Prerequisite: Graphic Communications-Fundamentals (GCF) and one of the following: GCW, GCMM, GCDP, and department approval. Supply Fee: \$10.00. Open to grades 10, 11, and 12. This course may be repeated with Department Chair approval. Students who elect to repeat the course will work with the instructor to create an individualized curriculum.</p>
<p>GRAPHIC COMMUNICATIONS - INDEPENDENT STUDY (GCIS) <i>Course # 6905, 6906</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is intended for students who have exhausted other course offerings and wish to further skills learned in the Graphic Communications program in an independent atmosphere.</p> <p>Prerequisite: departmental approval. Supply Fee: \$10.00. Open to grades 11 and 12</p>
<p>BASIC PHOTOGRAPHY TRADITIONAL & DIGITAL BLACK AND WHITE <i>Course # 6691, 6692</i> 1st or 2nd semester Credit: 0.5</p>	<p>Basic photography is for students interested in learning the techniques necessary to produce technically correct and aesthetically pleasing photographs. Digital and film capture of images will be explored. Areas of study will include, but are not limited to, the composition of a good photograph; the processing of black and white photographic materials; and proper application of photographic equipment and supplies. Photographic equipment and supplies will be provided along with cameras for students who do not have access to a Single Lens Reflex (SLR) camera.</p> <p>Prerequisites: None. Supply Fee: \$35.00. Open to grades 10, 11 and 12</p>
<p>DIGITAL COLOR PHOTOGRAPHY <i>Course # 6701, 6702</i> 1st or 2nd semester Credit: 0.5</p>	<p>This course is for students interested in the modern methods of Digital Color Photography. The student will use a digital camera to capture images. After capture, photographs will be produced in the digital darkroom using a computer and Photoshop software. Areas of study include, but are not limited to, the principles of color and light; elements of a good photograph; capturing images with a digital camera; editing a photograph for presentation with Photoshop; printing a digital file in color; and preparing a photograph for display. The studio will be used to further the use of shade and shadow, light ratios, and photographic composition techniques. Still life and portrait techniques will be explored. Equipment and supplies will be furnished. Cameras are available for students who do not own or have access to a digital camera. Basic Photography and Digital Color Photography together have articulated credit with the College of DuPage.</p> <p>Prerequisite: Basic Photography. Supply Fee: \$35.00. Open to grades 10, 11 and 12.</p>

Technology Education

<p>DIGITAL COLOR PHOTOGRAPHY HONORS <i>Course # 6703, 6704</i> 1st or 2nd semester Credit: 0.5</p>	<p>Beyond the regular advanced photography content, additional projects and assignments will require the selection of a concentration and/or theme by the student. The selected theme will necessitate greater depth, complexity, and rigor to produce higher-level photographs. Expectations for this class will require extra lab work outside of class. This class is recommended for highly motivated photography students looking to add meaningful pictures to their portfolio.</p> <p>Prerequisite: Basic Photography. Supply Fee: \$35.00. Open to grades 10, 11 and 12.</p>
<p>ADVANCED PHOTOGRAPHY <i>Course # 6812</i> 2nd semester Credit: 0.5</p>	<p>In this advanced level course, students will be expected to improve upon their current level of photographic ability. Students will have the opportunity to explore digital and film capture of images. In terms of technique, students will be introduced to different camera formats and the zone system (a procedure which will allow students to make more carefully controlled photographic prints.) Additionally, some non-traditional films, papers, and emulsions will be introduced. In terms of content, through class assignments and independent work, students will further their use of photographic medium to more effectively articulate ideas. Students will have the opportunity to work with black and white film, color film, infrared film, and digital cameras to capture images. Students will be expected to properly display and critique their photographic work.</p> <p>Prerequisites: Basic Photography and Digital Color Photography with instructor approval. Supply fee: \$40.00. Open to grades 11 and 12</p>
<p>ADVANCED PHOTOGRAPHY HONORS <i>Course # 6814</i> 2nd semester Credit: 0.5</p>	<p>Beyond the regular advanced photography content additional projects and assignments will require the selection of a concentration and or theme by the student. The selected theme will necessitate the demonstration of greater photographic complexity, and an advanced understanding of light to produce higher-level photographs. Expectations for this class will require extra lab work outside of class. This class is recommended for highly motivated photography students looking to add meaningful well-composed pictures to their portfolio.</p> <p>Prerequisites: Basic Photography and Color Photography with instructor approval. Supply fee: \$40.00. Open to grades 11 and 12</p>
<p>PHOTOGRAPHY INDEPENDENT STUDY <i>Course # 6907, 6908</i> Credit: 0.5</p>	<p>This course is designed for students who have completed course sequence in photography program and desire further independent course work.</p> <p>Prerequisite: Departmental Approval. Supply Fee: \$40.00. Open to grades 11 and 12.</p>

Technology Center of DuPage

Hinsdale High School District No. 86 participates with other high school districts in DuPage County to support an area technology center. Technology Center of DuPage provides comprehensive vocational-technical education for high school students whose career objectives are related to vocational-technical fields. Students are bused to the center (located in Addison) for half-day sessions each day (periods five through ten). During the other half of the school day (periods one through four), students attend classes and lunch and participate in extra-curricular activities at Hinsdale Central. Credits earned at TCD can be used to satisfy the units required for graduation. All TCD courses will satisfy the District 86 graduation requirement in Applied Arts. A maximum of 3.0 units of credit can be earned yearly through TCD course work and 3.0 additional units of credit can be earned per year through Hinsdale Central course work.

Students are expected to follow Hinsdale Central's disciplinary code both at Hinsdale and at TCD. If a student violates school policy and is not permitted to ride the school bus, the student will be withdrawn from his TCD courses and receive a failed grade.

TCD offers junior - senior level programs in the following areas. "Kit fees" from the 2012- 2013 school year are listed below for each area. Cost is range for first and second years.

PROGRAMS	1 st Year	2 nd Year
Construction Trades	\$190 - \$350	\$135. - \$145
Landscape Design & Management	\$125 - \$235	\$60 - \$100
Computer Integrated Manufacturing	\$150 - \$175	\$75 - \$100
Pre-Architectural & Pre-Engineering Technology CAD	\$125	\$75 - \$85
Computer Information Systems	\$12 - \$15	\$12 - \$15

TECHNOLOGY CENTER OF DUPAGE (TCD) 2012 - 2013

TECHNOLOGY CENTER OF DU PAGE CAREER PROGRAMS

Course # 9010
Credit: 3.0

The requirements and objectives associated with the specific Technology Center of DuPage (TCD) programs listed above vary greatly. Students who wish further information about a particular program and/or wish to register for a TCD program must see their counselor. All students must fill out a separate TCD form with parent signature and return to their counselor.

Prerequisite: None. Open to grades 11 and 12.

GENERAL INFORMATION

The twenty one programs operating at TCD are open to juniors and seniors. The TCD campus is located in Addison, Illinois, approximately thirty minutes from Hinsdale Central. Students are scheduled through their counselors to have fourth period lunch and attend TCD the remainder of the day. TCD offers three elective credits which count towards the elective arts graduation requirement. TCD is a yearlong program; therefore, students should enroll in February for the following year during their registration conference with their counselor. Each student must fill out a TCD application signed by a parent and their counselor. Although there are no specific requirements for TCD enrollment (other than being of junior or senior status), students are advised to work closely with their counselors to fit in all graduation requirements. Please refer to the TCD website: <http://www.tcdupage.org> for more information.

CUSTOMIZE YOUR CURRICULUM

TCD helps students learn on two levels. First, it provides hands-on basics to offer experiences that go beyond theory. Secondly, it helps provide a practical workplace to sharpen skills necessary for a chosen career. TCD incorporates a self-paced, goal by goal learning style which encourages self-management and productivity.

ACCREDITATION

TCD is fully accredited by the North Central Association Commission on Accreditation and School Improvement (NA-CASI). It is one of the Midwest's finest schools for career and technical education, and the recipient of the Lincoln Award for Commitment to Excellence from the Lincoln Foundation.

EARN COLLEGE CREDIT AND SCHOLARSHIPS

Many programs offer dual credit through College of DuPage that can be transferred to other colleges and universities accepting COD course work. Other colleges offer advanced standing or credit upon enrollment, including Lewis University, Ferris State University, Triton Junior College, Kendall College, William Rainey Harper College, Johnson & Wales University, and the Cooking & Hospitality Institute of Chicago.

COLLEGE ARTICULATED CREDIT THROUGH TCD PROGRAMS

Hinsdale Township High School District 86 and the College of DuPage have an agreement, articulated credits, in which Hinsdale Central students may receive credit for courses taken in high school once they are enrolled in the College of DuPage. A minimum grade of B must be earned in a TCD course in order to receive COD credit. There is no formal sign up process for the students to be eligible to receive this credit. TCD courses can provide between two and six semester credit hours depending on the program. Other colleges in addition to COD accepting articulated credit from TCD courses include Triton College, Lewis University, Harper college, Johnson and Wales University, Kendall College and The Cooking and Hospitality Institute of Chicago.

T.C.D. Department

SCHOLARSHIPS AND AWARDS

A TCD student can gain recognition and win scholarships like the Hospitality Club and Skills USA. TCD instructors are also aware of many industry-related and organizational scholarships specifically for students in career and technical education.

GRADUATE SUCCESSES

- One year after graduation:
- 59% continued their education
- 32% work full-time, a third of those in their related field
- 2% work and go to school
- 3% enter the military

CAREER ACCELERATION PROGRAMS

TCD offers twenty one of the fastest growing occupations. The knowledge a student will gain can also be applied to a wider range of career choices.

PROFESSIONAL LICENSING

Through TCD a student can earn industry-recognized credentials that opens doors. TCD programs help students prepare for career-related state, federal, professional or national licensing exams.

ACCREDITATION

TCD is part of Hinsdale Central's elective courses. TCD is not a trade school, nor is it a college. TCD focuses on teaching career skills as well as enhancing basic principles of academics. There is no charge to attend TCD. However, programs do have fees for supplies, tools or uniforms as noted in each course description. TCD is a great option for students wishing to pursue a more "career oriented" curriculum. Interested students should work closely with their counselors regarding which program might be best suited for their needs.

Maggie Ahern, design

World Languages

Hinsdale Central World Languages Department Department Mission Statement

Our mission as a department is to enable students to acquire, develop, expand, and apply their knowledge of a new language.

We do this by working collaboratively within our learning community to:

- Maximize student potential for learning and language acquisition
- Guide student learning by modeling good study habits and effective learning skills.

We do this so that students can integrate and transfer knowledge of a new language throughout their lives, and gain a broader perspective and understanding of world cultures within a respectful community of learners.

Two years of the same language will fulfill the entrance requirement of the state public universities in Illinois. Most other universities require world language study for admission and may require it for graduation from specific degree programs. ***High school students preparing for college should include one or more world languages in their preparation.***

Students entering ninth grade with previous world language experience can complete the equivalent of five or six years of high school work, which may include Advanced Placement work. Students who complete the upper levels of a language often test out of the world language requirements, receive college credit, and/or are placed in advanced language courses in college. A sequence of honors level courses is available in all languages offered by the Department.

Two or more world languages may be taken simultaneously. The latest research indicates that studying two languages at the same time is beneficial and that world language study has positive effects on a student's English language skills. Completing the third and fourth year in a sequence significantly improves achievement and fluency. Etymology, a semester course, is highly recommended to all students who wish to increase their knowledge and understanding of vocabulary.

The first semester of a language must be passed before a student may take the second semester of the same language. Credit must be earned in both semesters of one level of a language before advancing to the next level.

World Languages

FRENCH	
FRENCH 1 Course # 4110 Full year Credit: 1.0	French 1 offers a basic introduction to the vocabulary and grammar of the language. The pace of the course begins moderately and increases as students have more experience with the language. Students will be taught basic reading and writing strategies using textbook examples. Reading, writing, speaking and listening skills are practiced and assessed regularly. Readings and projects center on cultural information. Although grammar concepts may be taught in English, students are always expected to use French in class to the extent possible. This course is conducted mostly in French. Prerequisite: None. Open to grades 9, 10, 11 and 12.
FRENCH 1 HONORS Course # 4115 Prerequisite: Yes Credit: 1.0 Grade Offered: 9-12	The sequential core material for this course is the same as French 4110. The pace is accelerated to allow for the reading and discussion of some short stories and short books, as well as other activities to challenge the more capable student. This course is conducted in French to a greater extent than is French 4110. Prerequisite: This class is for students who have not previously studied French. Departmental approval or recommendation of the junior high school teacher. Students who have taken French in middle school may not register for this course. Open to grades 9, 10, 11 and 12.
FRENCH 2 Course # 4120 Full year Credit: 1.0	This course is an articulated continuation of the French 1 program and continues building the same skills. Students are expected to participate actively in class activities and function in French to a great extent, and all four skills are evaluated. Prerequisite: A grade of C or better in French 1, or recommendation of the junior high school teacher. Open to grades 9, 10, 11 and 12.
FRENCH 2 HONORS Course # 4125 Full year Credit: 1.0	The sequential core material for this course is the same as French 4120. The pace is accelerated to allow for the reading and discussion of some short stories and short books, as well as other activities to challenge the more capable student. This course is conducted in French to a greater extent than is French 4120. Prerequisite: Departmental approval or recommendation of the junior high school teacher. Open to grades 9, 10, 11 and 12.
FRENCH 3 Course # 4130 Full year Credit: 1.0	This course is the study of the geography and culture of France interwoven concurrently with the study of grammar. Class activities include daily discussions of reading assignments enriched through film, French TV, news clips, slides and newspaper articles. In addition, students do oral presentations and write short compositions. During second semester, students read and discuss <i>Le Petit Prince</i> . The course is conducted extensively in French. Prerequisite: A grade of C or better in French 2. Open to grades 9, 10, 11 and 12.
FRENCH 3 HONORS Course # 4135 Full year Credit: 1.0	The sequential core material for this course is the same as French 4130. The pace is accelerated; the breadth and scope of the coverage is expanded, and some material is added to challenge the capabilities of the more able students. The course is conducted extensively in French. Prerequisite: Departmental approval. Open to grades 9, 10, 11 and 12.
FRENCH 4 Course # 4140 Full year Credit: 1.0	French 4 is the study of the history, and art of France throughout the centuries (pre-history to present times). Class activities include discussions of prepared reading selections, oral presentations, and the intensive study of one film. The course of study also emphasizes systematic grammar review and limited composition practice. Prerequisite: A grade of C or better in French 3. Open to grades 10, 11 and 12.

World Languages

FRENCH continued	
<p>FRENCH 4 HONORS <i>Course # 4145</i> Full year Credit: 1.0</p>	<p>French 4 Honors is the study of the history, and art of France throughout the centuries (pre-history to present times). Class activities include discussions of prepared reading selections, oral presentations, and the intensive study of one film. The course of study covers systematic grammar review and more extensive composition practice than French 4. Inasmuch as this course leads sequentially to the AP French 5 course, the course content is supplemented with more challenging reading materials and special emphasis is put on oral proficiency.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>
<p>FRENCH 5 HONORS <i>Course # 4150</i> Full year Credit: 1.0</p>	<p>French 5 Honors is a course that integrates the study of literature, advanced grammar, advanced oral proficiency, and current events in France. The readings consist of short stories, and a novel from the 20th century organized around the themes of human relationships, moral dilemmas and existentialism. Class activities include discussions of texts, authentic newspaper and magazine articles in French, oral presentations, the study of one film per semester and improving grammar and writing proficiency. The course is conducted exclusively in French</p> <p>Prerequisite: A grade of C or better in French 4 or 4 Honors. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT FRENCH LANGUAGE <i>Course # 4155</i> Full year Credit: 1.0</p>	<p>Advanced Placement French Language, a study of literature of the 19th and 20th centuries, provides intensive and extensive reading, discussion and analysis in French of selected literary masterpieces by Mérimée, Camus, and Maupassant. Students also write compositions in French on non-literary topics and study some current events with excerpts from French television. Advanced grammar review is continued. Course content is designed to improve all four language skills with special emphasis on idiomatic usage, and to prepare students for the Advanced Placement language exam in French. This course is conducted exclusively in French.</p> <p>Prerequisite: Departmental approval. Open to grades 11 and 12.</p>
GERMAN	
<p>GERMAN 1 <i>Course # 4210</i> Full year Credit: 1.0</p>	<p>German 1 offers an introduction to the basic grammar and vocabulary of the language. Students are actively engaged in learning activities that allow them to practice and use German. Students use the language in structured activities, interactive conversations, and short presentations. Reading and writing exercises use material previously practiced orally. Assessment measures listening, speaking, reading and writing. The majority of this course is conducted in German.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12.</p>
<p>GERMAN 1 HONORS <i>Course # 4215</i> Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as German 4210. The pace is accelerated and the breadth and scope of the coverage is expanded. Additional materials challenge the capabilities of the more-able students.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11 and 12.</p>
<p>GERMAN 2 <i>Course # 4220</i> Full year Credit: 1.0</p>	<p>This course provides continued development and practice in listening, speaking, reading, and writing. Language structures and vocabulary learned in the first year are reviewed, expanded, and refined. New communicative and grammar topics are introduced to students. Listening comprehension and speaking are enhanced through consistent daily use of German in the classroom. Cultural topics focus on cuisine, holidays, major German-speaking regions, current events, and daily life in Germany. Students increase their language proficiency and cultural awareness by reading textbook selections and specifically developed supplements, and by viewing a DVD series, video and film clips. Classroom instruction and interactions are mostly in German.</p> <p>Prerequisite: A grade of C or better in German 1. Open to grades 10, 11 and 12.</p>

World Languages

GERMAN continued	
<p>GERMAN 2 HONORS <i>Course # 4225</i> Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as German 4220. The pace is accelerated; the breadth and scope of the coverage is expanded and material is added to challenge the capabilities of the more able students. Classroom instruction and interactions are mostly in German.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>
<p>GERMAN 3 <i>Course # 4260</i> Full year Credit: 1.0</p>	<p>This course provides more extensive development and practice in listening, speaking, reading, and writing as well as increased awareness of German-speaking cultures. New thematic topics and grammar concepts are introduced to students. Cultural topics focus on traditions, customs, music, art, media, technology, and major cities of Austria and Switzerland. Students increase their language proficiency and cultural awareness by viewing and studying a variety of video and film clips, listening to audio clips, and by reading and discussing stories, poems, lyrics, articles, and a novel in German. Classroom instruction and interactions are extensively in German.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>
<p>GERMAN 3 HONORS <i>Course # 4265</i> Full year Credit: 1.0</p>	<p>The sequential core material for this course is the same as German 3. The pace is accelerated; the breadth and scope of the coverage is expanded. Some material is added to challenge the capabilities of the more able students. The course is conducted entirely in German.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>
<p>GERMAN 4 <i>Course # 4270</i> Full year Credit: 1.0</p>	<p>This course provides deeper development, refinement, and understanding of the German language and German-speaking cultures. New thematic topics are introduced, along with a few final grammar concepts. Cultural topics focus on major German cities, the fall of the Berlin Wall and reunification, the Third Reich, careers and the global economy, and the Brothers Grimm and fairy tales. Students increase their language proficiency and cultural awareness by viewing and discussing daily news and video clips, and by extensively studying and analyzing short as well as feature length films. Readings include a variety of authentic texts, short stories, poems, essays, and a play. Classroom instruction and interactions are entirely in German.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>
<p>GERMAN 4 HONORS <i>Course # 4275</i> Full year Credit: 1.0</p>	<p>The sequential core material is the same as German 4. The pace is accelerated; the breadth and scope of coverage is expanded. Material is added to challenge the capabilities of the more able students. Classroom instruction and interactions are entirely in German. While simultaneously completing German 4 Honors, students may elect to conduct their own independent study and preparation for the AP Examination.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>
LATIN	
<p>LATIN 1 <i>Course # 4310</i> Full year Credit: 1.0</p>	<p>Latin 1 is primarily designed to develop a student's ability to read and comprehend the Latin language. Students begin by learning the peculiar demands of an inflected language, and are then introduced to Latin morphology, the declensions of its nouns and the conjugation of its verbs. Gradually, elements of syntax and grammar introduce the students to the fundamental requirements needed to read. Concurrent with these pursuits will be an ongoing discovery of the structure of the English language and its many borrowings from the Latin structure. Students' grasp of English grammar will grow substantially. An ever-evolving Latin vocabulary helps students understand essential concepts in etymology, derivatives, and building a stronger and more precise vocabulary in English. Roman and Greek mythology and Roman daily life comprise the cultural component of the course.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12.</p>

World Languages

LATIN continued	
LATIN 1 HONORS <i>Course # 4315</i> Full year Credit: 1.0	The sequential core material for this course is the same as Latin 4310. The pace is accelerated; the breadth and scope of the coverage is expanded and some material is added to challenge the capabilities of the more able students. Prerequisite: Departmental approval. Open to grades 9, 10, 11 and 12.
LATIN 2 <i>Course # 4320</i> Full year Credit: 1.0	This course builds on the grammatical and structural foundations established in Latin I. An emphasis is placed on reading and comprehending Latin. Students will learn advanced grammar and move on to their first experience with unadulterated Latin. The cultural focus of the course will be the formation and development of the Roman Republic. Prerequisite: A grade of C or better in Latin 1. Open to grades 10, 11 and 12.
LATIN 2 HONORS <i>Course # 4325</i> Full year Credit: 1.0	This course builds on the grammatical and structural foundations established in Latin I. An emphasis is placed on reading and comprehending Latin. Students will learn all of the advanced grammar of the language and move on to their first experiences with unadulterated Latin from a variety of authors. The cultural focus will be on the evolution of the Roman state from monarchy to Republic and Republic to Empire. Prerequisite: Departmental approval. Open to grades 10, 11 and 12.
LATIN 3-4 LATIN LITERATURE <i>Course # 4340</i> Full year Credit: 1.0 <div style="border: 1px solid black; padding: 5px; width: fit-content;">Offered 2014 - 2015</div>	This course is a survey of Latin literature sampling several genres including letters, oratory, epigram, history, narrative, philosophy, lyric and elegiac poetry. The survey is designed to further develop students' translation abilities as they review essential grammar and vocabulary. The work will explore the boundaries of each genre and its specific application. Attention will also be paid to the larger historical context of the authors and their works to provide students with an upper level understanding of Roman thought and custom. Prerequisite: Latin 2 and departmental approval. Latin 4340 and 4360 are offered in alternate years only. In 2013-2014 Latin 3-4 Caesar/Vergil (4360) will be offered. In 2014-2015 Latin 3-4 Latin Literature will be offered. Open to grades 11 and 12.
LATIN 3-4 CAESAR/VERGIL <i>Course # 4360</i> Full year Credit: 1.0 <div style="border: 1px solid black; padding: 5px; width: fit-content;">Offered 2013 - 2014</div>	This course will provide a broad exposure to Vergil's Aeneid and Caesar's Commentarium de Bello Gallico. The course works to establish the larger political, historical, and literary contexts through which these literary works can best be understood. Special attention will be paid to the authors' use of rhetorical and poetic figures of speech, diction, imagery, manipulations of the Latin language, as well as the larger themes of both works. Prerequisite: Latin 2 and departmental approval. Latin 4340 and 4360 are offered in alternate years only. In 2013-2014, Latin 3-4 Caesar/Vergil (4360) will be offered. In 2014-2015 Latin 3-4 Latin Literature will be offered. Open to grades 11 and 12.
LATIN LITERATURE HONORS <i>Course # 4355</i> Full year Credit: 1.0 <div style="border: 1px solid black; padding: 5px; width: fit-content;">Offered 2014 - 2015</div>	The sequential core material of this course is the same as Latin 4340. The pace is accelerated; the breadth and scope of the coverage is expanded, and some material is added to challenge the capabilities of the more able students. Prerequisite: Latin 2 and departmental approval. Latin Literature Honors 4355 and AP Latin Vergil 4365 are offered in alternate years only. In 2013-2014 AP Latin Vergil (4365) will be offered. In 2014-2015 Latin Literature Honors will be offered. Open to grades 11 and 12.

<p>ADVANCED PLACEMENT LATIN VERGIL <i>Course # 4365</i> Full year Credit: 1.0</p> <div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 10px auto;"> <p>Offered 2013 - 2014</p> </div>	<p>Preparatory to the Advanced Placement Exam, the Caesar/Vergil course provides a broad exposure to the primary works of both authors: Vergil's Aeneid and Caesar's Commentarium de Bello Gallico. The course endeavors to establish the larger political, historical, and literary contexts through which these literary works can best be understood. The course will necessarily focus on the stylistic qualities of both poetry and prose, Vergil and Caesar, and their effectiveness at conveying an intended message. Attention will also center on how the two authors approach the issues of Roman imperialism, the consequences of war, the portrayal of non-Romans, the nature of leadership, and the role of a state-driven propaganda among others. Essay writing will be developed in line with the close literary analysis required by The College Board.</p> <p>Prerequisite: Latin 2 and departmental approval. Latin Literature Honors 4355 and AP Latin 4365 are offered in alternate years only. In 2013-2014 AP Latin Vergil (4365) will be offered. In 2014-2015 Latin Literature Honors will be offered. Open to grades 11 and 12.</p>
ETYMOLOGY	
<p>ETYMOLOGY <i>Course # 4371, 4372</i> 1st or 2nd Semester Credit: 0.5</p>	<p>Etymology is designed to increase one's knowledge and understanding of English vocabulary through the study of the most important Greek and Latin roots. Students learn to discover meanings of words through recognition and interpretation of their elements. The skills learned in Etymology equip students to decode vocabulary words encountered elsewhere (transfer of knowledge). The ability to memorize is a necessary fundamental skill. Recommended for all qualifying students who would like to develop their vocabulary before taking standardized tests</p> <p>Prerequisite: A grade of C or better in the foreign language most recently studied, or (if no foreign language) consent of the department chair. Open to grades 9, 10, 11 and 12, and especially recommended to sophomores.</p>
SPANISH	
<p>INTRODUCTION TO SPANISH <i>Course # 4505</i> Full year Credit: 1.0</p>	<p>Introduction to Spanish 1 is a first year Spanish course designed to emphasize Spanish 1 vocabulary, grammatical concepts, and foreign language study skills in order to provide necessary and additional support to new language learners. The course is designed to provide students with vocabulary and grammar acquisition skills that are crucial to the student's success in future second language study. The course will also focus on developing student responsibility for his or her own learning. Students will learn organization and study skills that will support successful study of a language. Students who successfully complete this course will be able to continue and complete their study of Spanish 1 the following year. The textbook for this course is <u>Realidades Level 1</u>.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12. This course is not open to students who have previously taken Spanish courses. This course is not recommended for native Spanish speakers.</p>
<p>SPANISH 1 <i>Course # 4510</i> Full year Credit: 1.0</p>	<p>An introductory course which develops communication skills with an emphasis on listening and speaking. The student is taught to use the language actively through extensive oral work in daily dialogue, grammar patterns, and idioms. Reading and writing exercises use materials previously practiced orally. Evaluation measures listening, speaking, reading, and writing. The course is conducted extensively in Spanish. This course is for students who have not taken a full year of Spanish before or have taken Spanish at the junior high level but received a grade of B- or lower. The textbook and workbook for this course is <u>Realidades Level 1</u>.</p> <p>Prerequisite: None. Open to grades 9, 10, 11 and 12.</p>

World Languages

SPANISH continued	
SPANISH 2 <i>Course # 4520</i> Full year Credit: 1.0	<p>This course is a continuation of the first level course, developing more complex oral, reading and writing skills. Students are expected to participate actively in class activities and to function in Spanish to a greater extent, and all four skills are evaluated. Supplementary reading of simple selections and books will be used to improve students' ability in reading, speaking, and writing.</p> <p>Prerequisite: A grade of C or above in Spanish 1 or recommendation of the junior high teacher. Open to grades 9, 10, 11 and 12</p>
SPANISH 2 HONORS <i>Course # 4525</i> Full year Credit: 1.0	<p>Although the core material for this course is the same as Spanish 4520, this course uses a higher level text. In addition, students will be taught specific strategies for reading, writing and listening. The pace is also accelerated to allow for the reading and discussion of authentic literary selections. Reading, writing, speaking, and listening skills are practiced and assessed regularly. This course is designed for students who have had success in Spanish 4510 (or Jr. High equivalent) and who demonstrate the characteristics of a self-directed, mature student. This course is conducted almost entirely in Spanish.</p> <p>Prerequisite: Departmental approval. Recommendation of the junior high teacher for freshmen. Open to grades 9, 10, 11 and 12.</p>
SPANISH 3 <i>Course # 4530</i> Full year Credit: 1.0	<p>Spanish 3 is structured to maintain and improve the listening and speaking skills already developed in the first and second years, and to give increased emphasis to the development of reading and writing, while honing grammar skills. The basic text materials include short reading selections, as well as speaking activities and grammar explanations. The classes are conducted extensively in Spanish, making use of structured drills and conversation stimuli to accompany the increased reading and writing exercises.</p> <p>Prerequisite: A grade of C or better in Spanish 2. Open to grades 9, 10, 11 and 12.</p>
SPANISH 3 HONORS <i>Course # 4535</i> Full year Credit: 1.0	<p>The sequential core material for this course is similar to Spanish 4530. The pace is accelerated; the breadth and scope of the coverage is expanded. Instructional strategies challenge students' capabilities within the core skills of second language learning. Additionally, students are expected to respond to in-class discussion with thoughtfulness and linguistic sophistication. The class is conducted extensively in Spanish.</p> <p>Prerequisite: Departmental approval. Open to grades 9, 10, 11 and 12.</p>
SPANISH 4 <i>Course # 4540</i> Full year Credit: 1.0	<p>Spanish 4 is a hybrid course developing conversational skills as well as increasing knowledge of Spanish speaking cultures. This course includes the traditional study of grammar, as well as augmenting the students' vocabulary with an emphasis on oral communication skills. Students read, write, and present throughout the year. This course is conducted entirely in Spanish. Upon completion of this course, students earning an A or a B will be eligible to take Advanced Placement Spanish.</p> <p>Prerequisite: A grade of C or better in Spanish 3. Open to grades 10, 11 and 12.</p>
SPANISH 5 HONORS: SPANISH STUDIES <i>Course # 4545</i> Full year Credit: 1.0	<p>This course offers the opportunity to learn about the Spanish culture through reading and discussions. The focus of this course is increasing students' understanding of the history and culture of Spain as they interact with different genres of literature. In addition to reading, students will write regularly and make presentations throughout the course with a focus on developing their oral and written communication skills. This course is designed for students who have had success in Spanish 4535, 4540, or 4555. This course is conducted entirely in Spanish.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>

SPANISH continued	
<p>SPANISH 5 HONORS: LATIN AMERICAN STUDIES Course # 4550 Full year Credit: 1.0</p>	<p>This course offers the opportunity to learn about Latin American cultures through historical readings, authentic literature, and films. The focus of this course is to increase students' understanding of the history and culture of Latin America while also improving fluency in oral and written communication skills through formal and informal speaking and writing activities. The students and teacher will speak primarily in Spanish. This course is designed for students who have had success in Spanish 4535, 4540, 4545, or 4555.</p> <p>Prerequisite: Departmental approval. Open to grades 10, 11 and 12.</p>
<p>ADVANCED PLACEMENT SPANISH LANGUAGE Course # 4555 Full year Credit: 1.0</p>	<p>The AP Spanish Language and Culture course is the equivalent of a third year college course in Advanced Spanish writing and conversation. Class is conducted exclusively in Spanish utilizing authentic materials from the Spanish-speaking world. Students are expected to be conversant with the instructor and with each other in Spanish. Students have regular and ample opportunities to improve all four language skills with a special emphasis on idiomatic usage and to prepare students for the AP Language and Culture Exam. Course content comes from authentic sources produced by native speakers intended for a native speaker audience. This advanced placement course provides intensive and extensive reading, discussion, and analysis in Spanish of diverse sources from various regions of the Spanish-speaking world. The analysis of these sources will specifically target the following AP themes: Personal and Public identities, Family and Community, Contemporary Life, Global Challenges, Science and Technology, and Beauty and Aesthetics. Students regularly write in-class compositions in Spanish on non-literary topics and study current events with excerpts from Spanish language television and documentaries. Advanced grammar study is continued and integrated into every aspect of the student's work. Language skills are not taught in isolation, but rather integrated to communicate about a wide range of topics and media. The class prepares students to take the Advanced Placement Exam in Spanish Language.</p> <p>Prerequisite: Departmental approval. A grade of an A or a B in Spanish 4535, 4540, 4545, 4550 or 4565. Open to grades 11 and 12.</p>
<p>ADVANCED PLACEMENT SPANISH LITERATURE AND CULTURE Course # 4565 Full year Credit: 1.0</p>	<p>The AP Spanish Literature course is based on those representative works required by the AP board for the AP Spanish Literature and Culture exam. This course surveys the literature of Spain and Hispanic America in a sequential fashion relating each work to the 6 course themes. Students are required to read and write outside of class, take part in classroom discussions, present reports and compose essays in order to prepare for the Advanced Placement exam in Spanish Literature and Culture.</p> <p>Prerequisite: Departmental approval. A grade of an A or a B in Spanish 4545, 4550, or 4555. Open to grades 11 and 12.</p>

Registration Information

2013 – 2014 academic calendar

<p><i>January</i></p>	<p>Program of Studies Handbook Copies of Hinsdale Central’s inclusive curriculum book will be posted online. This information should stimulate initial conversations between parents and students regarding appropriate courses for next year.</p>
<p><i>Mid-December-January 24, 2013</i></p>	<p>Curriculum Discussions Individual teacher/student informal advising discussions are held.</p>
<p><i>January 9, 2013</i></p>	<p>Dissemination Homeroom Registration information will be distributed at this time. Parents are advised to ask their son/daughter to review this information together.</p>
<p><i>January 16, 2013</i></p>	<p>Eighth Grade Student and Parent Night, HC Gymnasium An informational program will be held for all parents and students to explain the curriculum and the course selection process.</p> <p style="text-align: center;">6:30 -7:30 PM Last names A – L 8:00 - 9:00 PM Last names M-Z</p>
<p><i>January 24- January 29, 2013</i></p>	<p>Class of 2015 Counselor Conferences Class of 2015 will meet individually with their counselors at an assigned time to finalize their course selections. Individual appointments will be announced in homeroom. Registration appointments begin on January 24, 2013 and the process will finish by 3:00 p.m. on February 12, 2013. Each student will be assigned an individual appointment with his/her counselor.</p>
<p><i>January 30- February 5, 2013</i></p>	<p>Class of 2014 Counselor Conferences Class of 2014 will meet individually with their counselors at an assigned time to finalize their course selections. Individual appointments will be announced in homeroom.</p>
<p><i>February 6-12, 2013</i></p>	<p>Class of 2016 Counselor Conferences Class of 2016 will meet individually with their counselors at an assigned time to finalize their course selections. Individual appointments will be announced in homerooms.</p>
<p><i>January 22, 24, 29, 31 February 4, 6, 2013</i></p>	<p>Eighth Grade Individual Registration Conferences Incoming Freshman, Class of 2017, conferences will take place in late January and early February at Hinsdale Central High School in the Library. These conferences will include student, parents and their high school counselor for 15 minute appointments. Each family will need to prove residency as part of the registration process. (Please allow for at least an hour to take care of all required paperwork).</p>
<p><i>Late April 2013</i></p>	<p>Course verification can be viewed online. Students and parents will have the opportunity to view course selections online prior to registration appointments. Students should consult with their counselor regarding any concerns about a course change. (Additionally, Department Chair approval to enroll in a class will be required for any classes needing a prerequisite or an honors level course.) Requests for changes may be accommodated dependent upon class size and availability. All schedules will be finalized by June 1st. No schedule changes will be permitted without Administrative approval. Please Note: Student schedules ARE NOT finalized until books are purchased.</p>

Dear Students and Parents,

The 2016-2017 edition of the Hinsdale Central High School Program of Studies book is an important resource for students and parents which I hope will assist you in making good course choices.

As you page through the Program of Studies, you will find that the book is divided into three distinct sections. The first contains general information about such topics as graduation requirements, dropping and adding courses, schedule changes, and college admission requirements. The second section provides descriptions of all course options available to students. The last section provides students and parents with registration information for next year, worksheets for course selection, the four-year plan, and the graduation credit checklist.

I suggest that you view the registration process in the broad scope of a four-year plan as you reflect on your personal strengths, interests and future plans. Parents, teachers, and your counselor will guide you through this process. I encourage you to make the best use of the academic opportunities available to you at Hinsdale Central.

You should use this Program of Studies book to prepare for your registration appointment with your guidance counselor. These will be scheduled in January or early February. As you prepare, carefully review the general information section, analyze the course descriptions and “pencil in” your choices on the worksheets at the back of this handbook.

Hinsdale Central High School is a wonderful place to be a student where your academic course work prepares you to reach your future goals. Registering for next year’s courses is a part of that experience. It is important to know that the courses you select during this process are intended to be your final selections for the 2016-2017 school year. We develop our master schedule of classes and we hire and re-employ teachers based on the enrollment decisions you make. Hopefully you will find our registration process to be one that works well for you. If you have questions about the registration process or the information provided in the Program of Studies, please contact our Counseling Department at (630) 570-8251.

Sincerely,

Mark Kolkman, Ed.D.
Principal

VISION STATEMENT

Adopted Fall 2003

The expectation of excellence is rooted in the traditions of Hinsdale Central. In an environment that fosters a desire to learn, all members of the organization are committed to educating each student. In order for us to succeed, we must clearly identify standards we will work to achieve and maintain. These Standards are identified in several areas and will be the benchmarks by which we will measure our success.

I. Students

The degree to which we measure our success in attaining this vision is by each student's progress. We will provide opportunities that facilitate this growth. In school we:

- a. Work to meet students' needs.
- b. Encourage students to reach their potential in all they do, and to become self-directed learners.
- c. Teach students to accept responsibility for their actions.
- d. Encourage students to get involved in their school and in their community.
- e. Let students know we believe in them and will find ways for them to succeed based on their ability and interests.

II. Staff

Attracting and retaining outstanding people is a must if we are to move toward our vision. In our school we:

- a. Demonstrate our support for a shared vision and a common sense of purpose.
- b. Encourage all members of the organization to be leaders and experts in their fields.
- c. Promote collaboration and collegial decision making on matters relating to students, curriculum, instruction and school.
- d. Facilitate the growth of our students.

III. Curriculum and Instruction

What we decide to teach and how we do so will impact the results we achieve. In our school we:

- a. Recognize our primary focus is to provide a solid base for the post-secondary education of our students, while respecting the needs of students who make alternative choices.
- b. Seek to learn effective practices and adapt them for our learning environment.
- c. Believe teachers should collaboratively determine curriculum and assessment standards.
- d. Work to assure the limited time we have to education our students is used to the greatest benefit for all our school community.

VISION STATEMENT

IV. Climate

All members of our community are responsible for providing a climate that contributes to our success and a high school experience that builds a sense of pride we all share. In our school we:

- a. Provide a safe and secure environment that is conducive to learning.
- b. Recognize that all relationships are based on respect for others and an understanding of each person's responsibility for his/her behavior.
- c. Understand school rules and policies exist to support our organization and are consistently applied by all staff.
- d. Recognize the achievements of all members.
- e. Encourage and model behaviors appropriate to the development of character.

V. Community

The educational community recognizes the importance of maintaining a partnership between the school and community at large. In our school we:

- a. Seek ways to improve the quality of communication between the home and school.
- b. Always provide a clear rationale for policies and practices.
- c. Share information that is important in a timely manner.
- d. Recognize that the more our community is involved and informed, the more successful we will be.

ADDITIONAL ACADEMIC OPPORTUNITIES

GRADUATION REQUIREMENTS

Each student must successfully complete the following course requirements in order to graduate from Hinsdale Central High School. To graduate, a student must earn a **minimum of 24.0 credits** and successfully meet the listed requirements. In order to earn a diploma, students must comply with all state mandated requirements for standardized testing. In addition, no student shall receive a diploma without passing a satisfactory examination on the federal and Illinois constitutions. Students must take and pass the U.S. Constitution test in U.S History or AP U.S History. No student shall receive a certificate of graduation without passing a satisfactory examination on patriotism and principles of representative government, proper use of the flag, methods of voting and the Pledge of Allegiance.

Graduation Requirements	Credit
English <i>A given course cannot be used to satisfy a requirement in more than one area, with the exception of the “intensive writing” requirement. State law mandates all students to earn two credits in courses designated as “intensive writing” courses. English I and English II fulfill this requirement as do Applied English and Foundations English.</i>	4.0
Mathematics <i>One of the three years of Mathematics must be an Algebra course (Algebra I, Part 1 AND Algebra I, Part 2, Algebra 1 Block, Algebra 1, Applied Math, or Foundations Math) and one course must include Geometry content (Geometric Analysis, Geometry, Applied Math or Foundations Math). Credits must be earned over three school years.</i>	3.0
Science	2.0
Social Studies <i>World Cultures or World History Honors (1.0) Students in the Class of 2019 and all prior students, must take and pass the U.S Constitution Test in U.S History (1.0) or AP U.S. History (1.0). Students in the Class of 2020, and all subsequent students, will need to pass either American Politics (0.5) or AP U.S. Government and Politics (0.5) to meet the State of Illinois Civics requirement.</i>	2.0
